## **WorkFirst Wage Progression and Returns Report: through third-quarter 2020**

### **INTRODUCTION**

[RCW 74.08A.411](#) mandates a quarterly report on performance measures for WorkFirst clients twelve months, twenty-four months and thirty-six months after leaving the Temporary Assistance for Needy Families (TANF) program for at least one quarter. Performance measures reported under this requirement are:

1. Changes in earnings and in hourly wages.
2. Percentage of returns to TANF.

### **STATUTORY REQUIREMENT**

[RCW 74.08A.411](#) requires DSHS to report WorkFirst outcome measures to the Legislature as follows:

The department shall continue to implement WorkFirst program improvements that are designed to achieve progress against outcome measures specified in [RCW 74.08A.410](#). Outcome data regarding job retention and wage progression shall be reported quarterly to the appropriate fiscal and policy committees of the legislature and to the legislative-executive WorkFirst poverty reduction oversight task force for families who leave assistance for any reason, measured after twelve months, twenty-four months, and thirty-six months. The department shall also report the percent of families who have returned to TANF after twelve months, twenty-four months, and thirty-six months. The department shall make every effort to maximize vocational training, as allowed by federal and state requirements. [2019 c 343 § 4; 2009 c 85 § 3.]

# PERFORMANCE REPORT

## WorkFirst exiters

Beginning with the October 2011 WorkFirst performance report, an exiter is defined as having been off TANF all three months of a quarter, compared to the previous definition that required only one month off TANF. The three-month requirement more clearly identifies true exiters by minimizing instances where a client cycles off TANF for a single month due to circumstances such as late reporting or one-time changes to monthly income. Information on TANF receipt is obtained from the Office of Financial Management's AFARRAYS file.

This quarterly WorkFirst performance report provides follow-up data for three groups (cohorts) of TANF exiters. The report uses fourth-quarter 2020 unemployment insurance wage data (covered employment wages) to provide updates for clients who exited TANF in fourth-quarter 2017, fourth-quarter 2018 and fourth-quarter 2019 (*Figure 1*). Covered employment wage data is available with a six-month lag, reflecting employer reporting requirements and data processing time.

For purposes of this report, exiters are defined as TANF clients who:

- Received a TANF grant at least one month during July, August, or September (third quarter); and
- Did not receive a TANF grant at any time during October, November, or December of the following quarter (fourth quarter).

Received TANF at least once during:	No TANF all three months (exit quarter)	Cohort name
July - August - September 2017	October - November - December 2017	2017 Q4
July - August - September 2018	October - November - December 2018	2018 Q4
July - August - September 2019	October - November - December 2019	2019 Q4

## Median quarterly earnings and percentage increase in earnings

*Figure 2* shows inflation-adjusted median quarterly earnings for exiters. Earning progressions are shown in *Figure 3*. Earning progression is measured as change in total quarterly earnings over one, two or three years. Earnings are a more accurate

reflection of true progression than are hourly wages because quarterly earnings reflect both an individual's hourly wage and changes between part and full-time work.

Not all TANF exiters will have reported earnings in the exit and follow-up quarters. These individuals may not have worked during the quarter or may have worked in a job not covered by unemployment insurance. Exiters who had missing or no earnings are excluded from the calculations. All earnings prior to 2020 are adjusted to real dollars using the 2020 annual average CPI-W as a base year.

<sup>1</sup>The fourth-quarter 2017 TANF cohort is defined as those on TANF at least one month during third-quarter 2017 and off TANF all three months of fourth-quarter 2017.

<sup>2</sup>The number of TANF exiters who had earnings from covered employment during the quarter is shown as "n."

<sup>3</sup>Information not yet available is shown as "n/a."

## Median hourly wage rates

The hourly wage rate was obtained by dividing quarterly earnings by hours worked in the quarter. While employers report both quarterly earnings and hours worked to the unemployment insurance program, the hours data are incomplete or, in some cases, inaccurate. Records with missing hours were deleted from the calculations. Hourly wage rates greater than \$50 per hour or less than \$5 per hour were dropped, since these rates most likely reflected employer reporting errors. *Figure 4* displays inflation-adjusted, median hourly wage rates for TANF exiters.

	n = 3,141 <sup>1</sup>	n = 3,033	n = 2,910	n = 2,454
2018 Q4	\$14.56	\$15.74	\$17.46	n/a <sup>2</sup>
	n = 2,836	n = 2,679	n = 2,225	n/a
2019 Q4	\$15.15	\$17.02	n/a	n/a
	n = 2,789	n = 2,277	n/a	n/a

<sup>1</sup>The number of TANF exiters for whom an hourly wage rate could be calculated (both earnings and hours worked were present in the quarterly covered employment data) is shown as “n.”

<sup>2</sup>Information not yet available is shown as “n/a.”

## WorkFirst return rate

*Figure 5* shows the return rate for exiters twelve, twenty-four and thirty-six months after leaving WorkFirst.

**Figure 5.** Number and percentage of adult TANF exiters returning to TANF<sup>1</sup>

2019 Q4	5,641	2020 Q4	901	16.0%	n/a	n/a	n/a	n/a	n/a	n/a

<sup>1</sup>If the client returned to TANF for at least one month during the follow-up 12, 24 or 36 month quarter, it is counted as a return.

<sup>2</sup>The number returning to TANF is expressed as a percentage of those with no TANF in the cohort quarter.
