**Background:** The Department of Social and Health Services (DSHS) administers the Medical Assistance Program which includes Medicaid. Currently, medical providers are required to submit medical assistance claims to DSHS within

120 days from the date of the service. This limitation is inconsistent with the requirements of private medical insurance carriers and has caused confusion, extra administrative workload, and occasional loss of revenue for medical providers. Potential loss of payments and an increased administrative workload have caused medical providers to limit or eliminate their participation in DSHS's medical assistance program. This has exacerbated the serious problem of obtaining health providers to care for public recipients.

**Summary of Bill:** The time allowed for medical practitioners to present charges to DSHS has been increased from 120 days to 12 months. Prior written approval of extension is eliminated.

**Fiscal Note:** Available.

**Effective Date:** Ninety days after adjournment of session in which bill is passed.

**Testimony For:** (Health Care) This bill is necessary to maintain an adequate supply of health providers for medical assistance recipients.

(Appropriations) DSHS supports the bill.
