Sponsor(s): Senators Quigley and Kohl

Brief Description: Providing health insurance benefits for family planning.

**SB 6662 - DIGEST**

Requires that every health plan issued or renewed by a health carrier after July 1, 1996, that includes benefits for prescription drugs must include federal drug administration-approved prescriptive contraceptive drugs and devices, subject to the plan's formulary. The formulary must include at least oral contraceptives, injectable contraceptives, and diaphragms.
