

# HOUSE BILL REPORT

## SSB 6056

---

---

### As Passed House - Amended:

April 5, 2001

**Title:** An act relating to the department of social and health services coordination of services for children and families in child dependency cases.

**Brief Description:** Providing for department of social and health services coordination of services for children and families in child dependency cases.

**Sponsors:** By Senate Committee on Human Services & Corrections (originally sponsored by Senators Long, Hargrove, Costa, Stevens and Kohl-Welles).

### Brief History:

#### Committee Activity:

Children & Family Services: 3/19/01, 3/28/01 [DP].

#### Floor Activity:

Passed House - Amended: 4/5/01, 94-0.

### Brief Summary of Substitute Bill (As Amended by House)

- The Department of Social and Health Services (DSHS) is required, within current funding, to develop methods to coordinate services to children and families involved in child dependency cases.

---

## HOUSE COMMITTEE ON CHILDREN & FAMILY SERVICES

**Majority Report:** Do pass. Signed by 10 members: Representatives Boldt, Republican Co-Chair; Tokuda, Democratic Co-Chair; Kagi, Democratic Vice Chair; Morell, Republican Vice Chair; Ballasiotes, Campbell, Darneille, Dickerson, Miloscia and Pflug.

**Staff:** Deborah Frazier (786-7152).

### Background:

Many families that become involved with the child dependency system require services from multiple service systems. Services are funded by separate sources and are separately provided, with little coordination or collaboration among the systems. The

service systems involved may include criminal justice, child welfare, mental health, substance abuse, and education.

This approach to service delivery can create confusion for these families and form a barrier to resolution of problems. Families are required to understand multiple eligibility requirements and program limitations, and to manage relationships with multiple entities.

---

**Summary of Amended Bill:**

The Department of Social and Health Services (DSHS) is required, within current funding, to develop methods to coordinate services to children and families involved in child dependency cases.

Assessment criteria should screen for multiple needs.

The department is required to: coordinate and integrate services addressing multiple needs, develop treatment plans that minimize contacts the client must make, and access training for staff to improve assessment skills related to multiple disciplines.

---

**Appropriation:** None.

**Fiscal Note:** Available.

**Effective Date of Amended Bill:** Ninety days after adjournment of session in which bill is passed.

**Testimony For:** We support anything that improves coordination of services to children and families. In 1992 the Legislature established coordination as one of eight principles of good practice. We still think it is good practice. The department supports the intent and will incorporate this approach in the Kidscreen and No Wrong Door initiatives.

**Testimony Against:** None.

**Testified:** Senator Long, prime sponsor; Laurie Lippold, Children's Home Society; and Marianna Conner, Department of Social and Health Services.
