

**HB 2106** - H AMD TO H AMD (H-2939.4/07) **412**  
By Representative Kenney

1           On page 3, beginning on line 36 of the striking amendment,  
2           strike all of subsection (4) and insert the following:

3           "(4) The applicant has successfully passed a qualifying  
4           examination. Qualifying examinations shall be administered to  
5           applicants who apply for a license on or after January 1, 2009.  
6           Provisional licenses may be issued in the event that the  
7           examination procedure is not in place by January 1, 2009.

8           (a) The examination shall be designed to test the applicant's  
9           ability, knowledge, and proficiency to conduct and manage the  
10           business of a farm labor contractor in compliance with applicable  
11           laws and rules;

12           (b) The director shall require the applicant to successfully  
13           pass the examination for issuance of an initial license or issuance  
14           of a license following revocation of an applicant's state or  
15           federal farm labor contractor license, and may require the  
16           applicant to successfully pass the examination for renewal of a  
17           license as necessary to ensure compliance with this chapter; and

18           (c) The director shall adopt rules prescribing the requirements  
19           for and the manner of testing the competency of license  
20           applicants;"

**EFFECT:** Clarifies when the examination is required for licensure (on or after January 1, 2009).

Modifies the Department of Labor and Industries' authority to require an examination for renewal of a license. Makes examination for renewal required "as necessary to ensure compliance with the farm labor contractor act."
