Background:

The federal Military Selective Service Act of 1948 requires virtually all men between the ages of 18 and 26 living in the United States, as well as male United States citizens between the ages of 18 and 26 living abroad, to register with the Selective Service System. Individuals can register many different ways, including online, by mail, or by checking a box on the federal application for student aid.

Failure to register with the Selective Service System is a felony punishable by up to five years imprisonment, a maximum fine of \$250,000, or both. In addition to the criminal penalties, registration with the Selective Service System is required for men to remain eligible for federal student loans and grants, many federal jobs, certain job training benefits, and United States citizenship for male immigrants seeking citizenship.

Summary of Substitute Bill:

All male applicants for driver's licenses, instruction permits, intermediate licenses, and identicards who are under the age of 26 must be given the opportunity to register with the Selective Service System. An applicant who declines to register with the Selective Service System cannot be denied the requested document if the applicant meets all of the other requirements to receive the requested document.

When an applicant authorizes the Department of Licensing (DOL) to forward personal information necessary to register with the Selective Service System, the DOL is required to forward the personal information to the Selective Service System within 10 days of receipt of the application. The DOL is required to notify the applicant that by submitting the application he is authorizing the DOL to register him with the Selective Service System. If the applicant is under the age of 18, the DOL is required to notify the applicant that the registration will occur when the applicant turns 18 years of age. The DOL is also allowed to provide Selective Service System registration information to applicants who decline to register with the system through the DOL if the applicant requests the information.

The DOL is prohibited from creating a record indicating that an applicant declined to register. Any DOL information that indicates that an applicant declined to register is exempted from

the disclosure requirements of the Public Records Act, and the DOL is prohibited from disclosing the information to any other government agency.

The requirements placed on the DOL are subject to the availability of funds appropriated for the purpose of the activities contained in the bill.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect January 1, 2012.

Staff Summary of Public Testimony:

(In support) There are a lot of young men who have not registered for the Selective Service System who miss the opportunity for federal school grants and to work for the federal government. This bill will help them register.

There is similar legislation in effect in over 40 other states. Rates of registration have increased in states with similar legislation. In Washington, 18-year-olds register at about a 60 percent rate. In states that allow registration through DOLs, the rates of registration for 18-year-olds are around 80 percent. Our youth could miss out on the opportunity for grants and federal jobs. Also, resident noncitizens who do not register jeopardize their ability to gain citizenship. The cost of implementation is fairly low. It ranges from \$1,300 in Iowa to \$13,000 in Texas. In addition, the Selective Service has a history of providing startup funds for the first year.

(Opposed) None.
