Background:

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

The state government operates on a fiscal biennium that begins on July 1 of each odd-numbered year. Supplemental budgets frequently are enacted in each of the following two years after adoption of the biennial budget (each odd-numbered year). Appropriations are made in the biennial and supplemental budgets for the operation of state government and its various agencies and institutions, as well as for K-12 public schools.

The 2011-13 State Omnibus Operating Appropriations Act (Operating Budget) appropriated \$32.0 billion from the State General Fund and two other accounts, together referred to as State Near General Fund. The total budgeted amount, which includes state and federal funds, is \$62.0 billion.

Summary of Engrossed Substitute Bill:

State Near General Fund appropriations for the 2011-13 biennium are decreased by \$1.15 billion; the total budget is decreased by \$1.0 billion.

Fund transfers and other changes to the original 2011-13 biennial budget are also made.

Appropriation: The bill contains multiple appropriations. Please refer to the bill and supporting documents.

Fiscal Note: Not requested.

Effective Date: The bill contains an emergency clause and takes effect immediately.

Staff Summary of Public Testimony:

Please refer to the November 28, 2011, and February 21, 2012, recordings of the public hearings.
