9 adding new sections to 2009 c 497 (uncodified); creating new sections;  
10 providing an effective date; providing an expiration date; and  
11 declaring an emergency.

12 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

13            NEW SECTION.    **Sec. 1.** (1) A capital budget is hereby adopted and,  
14 subject to the provisions set forth in this act, the several dollar  
15 amounts hereinafter specified, or so much thereof as shall be  
16 sufficient to accomplish the purposes designated, are hereby  
17 appropriated and authorized to be incurred for capital projects during  
18 the period beginning with the effective date of this act and ending  
19 June 30, 2013, out of the several funds specified in this act.

1 (2) The definitions in this subsection apply throughout this act  
2 unless the context clearly requires otherwise.

3 (a) "Fiscal year 2012" or "FY 2012" means the period beginning July  
4 1, 2011, and ending June 30, 2012.

5 (b) "Fiscal year 2013" or "FY 2013" means the period beginning July  
6 1, 2012, and ending June 30, 2013.

7 (c) "Lapse" or "revert" means the amount shall return to an  
8 unappropriated status.

9 (d) "Provided solely" means the specified amount may be spent only  
10 for the specified purpose.

11 (3) The appropriations in this act are appropriations for capital  
12 purposes from sources other than bond proceeds. Appropriations in this  
13 act may not necessarily represent all expenditures authorized for a  
14 particular project for the 2011-2013 fiscal biennium. For some  
15 projects receiving appropriations in this act, additional  
16 appropriations from other sources for those projects may also be  
17 contained in chapter . . . ., Laws of 2011 (House Bill No. 2020).

18 (4) Unless otherwise specifically authorized in this act, any  
19 portion of an amount provided solely for a specified purpose that is  
20 not expended subject to the specified conditions and limitations to  
21 fulfill the specified purpose shall lapse.

22 (5) The amounts shown under the headings "Prior Biennia," "Future  
23 Biennia," and "Total" in this act are for informational purposes only  
24 and do not constitute legislative approval of these amounts. "Prior  
25 biennia" typically refers to the immediate prior biennium for  
26 reappropriations, but may refer to multiple biennia in the case of  
27 specific projects. A "future biennia" amount is an estimate of what  
28 may be appropriated for the project or program in the 2011-2013  
29 biennium and the following three biennia; an amount of zero does not  
30 necessarily constitute legislative intent to not provide funding for  
31 the project or program in the future.

32 (6) "Reappropriations" in this act are appropriations and, unless  
33 the context clearly provides otherwise, are subject to the relevant  
34 conditions and limitations applicable to appropriations.  
35 Reappropriations shall be limited to the unexpended balances remaining  
36 on June 30, 2011, from the 2009-2011 biennial appropriations for each  
37 project.

11 maximize the amount of nonstate match from local, state, tribal, and  
12 federal partners. Individual projects require a minimum 33 percent  
13 cash or in-kind match.

14 (4) Eligible projects must be within Puget Sound and identified by  
15 a salmon recovery lead entity or marine resource committee and  
16 identified in a current salmon recovery, watershed, or nearshore  
17 habitat restoration and protection plan.

18 (5) Project evaluation criteria must be developed by the Puget  
19 Sound nearshore steering committee. The criteria must be consistent  
20 with the technical guidance developed by the Puget Sound nearshore  
21 science team and shall be coordinated with the salmon recovery funding  
22 board to ensure that project funding and matching requirements are  
23 maximized to the greatest extent possible.

24 (6) The department of fish and wildlife must not utilize any amount  
25 of these reappropriations to support administration or overhead.  
26 Funding to support the administration of the funds and the  
27 implementation of selected projects must be obtained from the  
28 department of fish and wildlife's operating budget.

29 (7) In recognition of the urgent need to complete the Puget Sound  
30 nearshore ecosystem restoration project general investigation, up to  
31 \$1,446,000 of these reappropriations may be used to match federal funds  
32 implementing the cost-share agreement between the department and the  
33 United States army corps of engineers.

34 (8) Up to \$2,061,735 of the reappropriations are provided solely  
35 for the following projects:

1 **PART 7**

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 7001.** (1) Allotments for appropriations in this  
4 act shall be provided in accordance with the capital project review  
5 requirements adopted by the office of financial management and in  
6 compliance with RCW 43.88.110. Projects that will be employing  
7 alternative public works construction procedures under chapter 39.10  
8 RCW are subject to the allotment procedures defined in this section and  
9 RCW 43.88.110.

10 (2) Each project is defined as proposed in the legislative budget  
11 notes or in the governor's budget document.

12 NEW SECTION. **Sec. 7002.** To ensure that major construction  
13 projects are carried out in accordance with legislative and executive  
14 intent, appropriations in this act in excess of \$5,000,000 shall not be  
15 expended or encumbered until the office of financial management has  
16 reviewed and approved the agency's predesign. The predesign document  
17 shall include but not be limited to program, site, and cost analysis in  
18 accordance with the predesign manual adopted by the office of financial  
19 management. To improve monitoring of major construction projects,  
20 progress reports shall be submitted by the agency administering the  
21 project to the office of financial management and to the fiscal  
22 committees of the house of representatives and senate. Reports will be  
23 submitted on July 1st and December 31st each year in a format to be  
24 developed by the office of financial management.

25 NEW SECTION. **Sec. 7003.** (1) To ensure minor works appropriations  
26 are carried out in accordance with legislative intent, funds  
27 appropriated in this act shall not be allotted until project lists are  
28 on file at the office of financial management, the house of  
29 representatives capital budget committee, and the senate ways and means  
30 committee. All projects must meet the criteria included in subsection  
31 (2)(a) of this section. Revisions to the lists must be filed with the  
32 office of financial management, the house of representatives capital  
33 budget committee, and the senate ways and means committee and include

1 an explanation of variances from the prior lists before funds may be  
2 expended on the revisions.

3 (2)(a) Minor works projects are single line appropriations that  
4 include multiple projects of a similar nature and that are valued  
5 between \$25,000 and \$1,000,000 each, with the exception of higher  
6 education minor works projects that may be valued up to \$2,000,000.  
7 These projects can generally be completed within two years of the  
8 appropriation with the funding provided. Agencies are prohibited from  
9 including projects on their minor works lists that are a phase of a  
10 larger project, and that if combined over a continuous period of time,  
11 would exceed \$1,000,000, or \$2,000,000 for higher education minor works  
12 projects. Improvements for accessibility in compliance with the  
13 Americans with disabilities act may be included in any of the above  
14 minor works categories.

15 (b) Minor works appropriations shall not be used for, among other  
16 things: Studies, except for technical or engineering reviews or  
17 designs that lead directly to and support a project on the same minor  
18 works list; planning; design outside the scope of work on a minor works  
19 list; moveable, temporary, and traditionally funded operating equipment  
20 not in compliance with the equipment criteria established by the office  
21 of financial management; software not dedicated to control of a  
22 specialized system; moving expenses; land or facility acquisition; or  
23 to supplement funding for projects with funding shortfalls unless  
24 expressly authorized elsewhere in this act. The office of financial  
25 management may make an exception to the limitations described in this  
26 subsection (2)(b) for exigent circumstances after notifying the  
27 legislative fiscal committees and waiting ten days for comments by the  
28 legislature regarding the proposed exception.

29 (c) Minor works preservation projects may include program  
30 improvements of no more than twenty-five percent of the individual  
31 minor works preservation project cost.

32 (3) It is generally not the intent of the legislature to make  
33 future appropriations for capital expenditures or for maintenance and  
34 operating expenses for an acquisition project or a significant  
35 expansion project that is initiated through the minor works process and  
36 therefore does not receive a policy and fiscal analysis by the  
37 legislature. Minor works projects are intended to be one-time  
38 expenditures that do not require future state resources to complete.

1        NEW SECTION.    **Sec. 7004.**    (1) The office of financial management  
2 may authorize a transfer of appropriation authority provided for a  
3 capital project that is in excess of the amount required for the  
4 completion of such project to another capital project for which the  
5 appropriation is insufficient. No such transfer may be used to expand  
6 the capacity of any facility beyond that intended in making the  
7 appropriation. Such transfers may be effected only between capital  
8 appropriations to a specific department, commission, agency, or  
9 institution of higher education and only between capital projects that  
10 are funded from the same fund or account. No transfers may occur  
11 between projects to local government agencies except where the grants  
12 are provided within a single omnibus appropriation and where such  
13 transfers are specifically authorized by the implementing statutes that  
14 govern the grants.

15        (2) The office of financial management may find that an amount is  
16 in excess of the amount required for the completion of a project only  
17 if: (a) The project as defined in the notes to the budget document is  
18 substantially complete and there are funds remaining; or (b) bids have  
19 been let on a project and it appears to a substantial certainty that  
20 the project as defined in the notes to the budget document can be  
21 completed within the biennium for less than the amount appropriated in  
22 this act.

23        (3) For the purposes of this section, the intent is that each  
24 project be defined as proposed to the legislature in the governor's  
25 budget document, unless it clearly appears from the legislative history  
26 that the legislature intended to define the scope of a project in a  
27 different way.

28        (4) The office of financial management shall report any transfer  
29 effected under this section to the house of representatives capital  
30 budget committee, the senate ways and means committee, and the  
31 legislative evaluation and accountability program committee, at least  
32 thirty days before the date the transfer is effected. The office of  
33 financial management shall report all emergency or smaller transfers  
34 within thirty days from the date of transfer. The governor's capital  
35 budget request following any transfer shall reflect that transfer in  
36 the affected agency.

1       **Sec. 7005.** RCW 39.35B.050 and 2007 c 506 s 3 are each amended to  
2 read as follows:

3       The office of financial management shall:

4       (1) Design and implement a cost-effective life-cycle cost model by  
5 October 1, 2008, based on the work completed by the joint legislative  
6 audit and review committee in January 2007 and in consultation with  
7 legislative fiscal committees;

8       (2) Deploy the life-cycle cost model for use by state agencies once  
9 completed and tested;

10       (3) Update the life-cycle cost model periodically in consultation  
11 with legislative fiscal committees;

12       (4) Establish clear policies, standards, and procedures regarding  
13 the use of life-cycle cost analysis by state agencies including:

14       (a) When state agencies must use the life-cycle cost analysis,  
15 including the types of proposed capital projects and leased facilities  
16 to which it must be applied;

17       (b) Procedures state agencies must use to document the results of  
18 required life-cycle cost analyses;

19       (c) Standards regarding the discount rate and other key model  
20 assumptions; (~~and~~)

21       (d) A process to document and justify any deviation from the  
22 standard assumptions;

23       (e) Establish a requirement that agencies conduct the analysis  
24 comparing a thirty-year and fifty-year building life when using the  
25 life-cycle cost model; and

26       (f) Establish a requirement that agencies include renovation,  
27 system replacement, and remodel costs in maintenance costs for use in  
28 the life-cycle cost model.

29       NEW SECTION. **Sec. 7006.** (1) It is expected that projects be ready  
30 to proceed in a timely manner depending on the type or phase of the  
31 project or program that is the subject of the appropriation in this  
32 act. Except for major projects that customarily may take more than two  
33 biennia to complete from predesign to the end of construction, or large  
34 infrastructure grant or loan programs supporting projects that often  
35 take more than two biennia to complete, the legislature generally does  
36 not intend to reappropriate funds more than once, particularly for  
37 smaller grant programs, local/community projects, and minor works.

1 (2) Agencies shall expedite the expenditure of reappropriations and  
2 appropriations in this act in order to: (a) Rehabilitate  
3 infrastructure resources; (b) accelerate environmental rehabilitation  
4 and restoration projects for the improvement of the state's natural  
5 environment; (c) reduce additional costs associated with acquisition  
6 and construction inflationary pressures; and (d) provide additional  
7 employment opportunities associated with capital expenditures.

8 (3) To the extent feasible, agencies are directed to accelerate  
9 expenditure rates at their current level of permanent employees and  
10 shall use contracted design and construction services wherever  
11 necessary to meet the goals of this section.

12 NEW SECTION. **Sec. 7007.** State agencies, including institutions of  
13 higher education, shall allot and report full-time equivalent staff for  
14 capital projects in a manner comparable to staff reporting for  
15 operating expenditures.

16 NEW SECTION. **Sec. 7008.** The department of general administration  
17 shall not charge the facility depreciation component of lease charges  
18 for nonprofit tenants in the building adjoining Capitol Way and 11th  
19 avenue during the 2011-2013 biennium.

20 NEW SECTION. **Sec. 7009.** Executive Order No. 05-05, archaeological  
21 and cultural resources, was issued effective November 10, 2005.  
22 Agencies and higher education institutions shall comply with the  
23 requirements set forth in this executive order.

24 NEW SECTION. **Sec. 7010.** The capital projects advisory review  
25 board and the department of general administration, in consultation  
26 with the office of superintendent of public instruction, shall develop  
27 a performance-based school construction pilot program. The pilot  
28 program must consist of a minimum of two new K-12 school construction  
29 projects and two K-12 modernization projects, for consideration under  
30 the school construction assistance grant program. Performance-based  
31 contracting as allowed in chapter 39.35A RCW shall be the means of  
32 project delivery for all applicable systems or structural improvements.  
33 The program shall at a minimum include the following: (1) Guidelines  
34 for developing a prequalified list of energy services contractors

1 eligible for selection to lead or participate on a team to design and  
2 construct a new building, or renovate a building; (2) a process for  
3 evaluating the projects submitted by school districts to determine if  
4 they are candidates for the pilot; (3) a model contract that requires  
5 a guarantee of system performance by way of ongoing monitoring and  
6 verification of energy measures to be used in the building; and (4) any  
7 rule making or oversight that the department of general administration  
8 considers necessary for the success of the pilot program. The pilot  
9 program recommendations shall be delivered to the house capital budget  
10 committee and the senate ways and means committee by January 1, 2012.

11 NEW SECTION. **Sec. 7011. ACQUISITION OF PROPERTIES AND FACILITIES**  
12 **THROUGH FINANCIAL CONTRACTS**

13 The following agencies may enter into financial contracts, paid  
14 from any funds of an agency, appropriated or nonappropriated, for the  
15 purposes indicated and in not more than the principal amounts  
16 indicated, plus financing expenses and required reserves pursuant to  
17 chapter 39.94 RCW. When securing properties under this section,  
18 agencies shall use the most economical financial contract option  
19 available, including long-term leases, lease-purchase agreements,  
20 lease-development with option to purchase agreements or financial  
21 contracts using certificates of participation. Expenditures made by an  
22 agency for one of the indicated purposes before the issue date of the  
23 authorized financial contract and any certificates of participation  
24 therein are intended to be reimbursed from proceeds of the financial  
25 contract and any certificates of participation therein to the extent  
26 provided in the agency's financing plan approved by the state finance  
27 committee.

28 State agencies may enter into agreements with the department of  
29 general administration and the state treasurer's office to develop  
30 requests to the legislature for acquisition of properties and  
31 facilities through financial contracts. The agreements may include  
32 charges for services rendered.

33 Those noninstructional facilities of higher education institutions  
34 authorized in this section to enter into financial contracts are not  
35 eligible for state funded maintenance and operations. Instructional

1 transfer, basic skills, and workforce training programs may be eligible  
2 for state funded maintenance and operations.

9 service is to be paid with the savings associated with closure of the  
10 Maple Lane school.

11 **NEW SECTION. Sec. 7012. PUGET SOUND PROTECTION AND RESTORATION**

12 Consistent with RCW 90.71.340, when expending appropriations under  
13 this act that contribute to Puget Sound protection and recovery,  
14 agencies shall consult with the Puget Sound partnership to ensure that  
15 projects and expenditures are either in, or consistent with the 2020  
16 action agenda. These consultations shall include the exchange of  
17 information on specific actions, projects, associated funding,  
18 performance measures, and other information necessary to track project  
19 implementation and ensure alignment with the action agenda. In  
20 situations where the Puget Sound partnership finds that a project is  
21 not in, or is not consistent with the action agenda Puget Sound  
22 partnership shall document this finding and report back to the governor  
23 and legislative fiscal committees.

24 **NEW SECTION. Sec. 7013. FOR THE ARTS COMMISSION--ART WORK**  
25 **ALLOWANCE POOLING**

26 (1) One-half of one percent of moneys appropriated in this act for  
27 original construction of school plant facilities may be expended for  
28 the purposes of RCW 28A.335.210. The Washington state arts commission  
29 may combine the proceeds from individual projects in order to fund  
30 larger works of art or mobile art displays in consultation with the  
31 superintendent of public instruction and representatives of school  
32 district boards.

33 (2) One-half of one percent of moneys appropriated in this act for  
34 original construction or any major renovation or remodel work exceeding  
35 two hundred thousand dollars by colleges or universities may be  
36 expended for the purposes of RCW 28B.10.027. The Washington state arts

1 commission may combine the proceeds from individual projects in order  
2 to fund larger works of art or mobile art displays in consultation with  
3 the board of regents or trustees.

4 (3) One-half of one percent of moneys appropriated in this act for  
5 original construction of any public building by a state agency as  
6 defined in RCW 43.17.020 may be expended for the purposes of RCW  
7 43.17.200. The Washington state arts commission may combine the  
8 proceeds from individual projects in order to fund larger works of art  
9 or mobile art displays in consultation with the state agency.

10 (4) At least eighty-five percent of the moneys spent by the  
11 Washington state arts commission during the 2011-2013 biennium for the  
12 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended  
13 solely for direct acquisition of works of art. The commission may use  
14 up to \$100,000 of this amount to conserve or maintain existing pieces  
15 in the state art collection pursuant to chapter 36, Laws of 2005.

16 NEW SECTION. **Sec. 7014.** To carry out the provisions of this act,  
17 the governor may assign responsibility for predesign, design,  
18 construction, and other related activities to any appropriate agency.

19 NEW SECTION. **Sec. 7015.** If any federal moneys appropriated by  
20 this act for capital projects are not received by the state, the  
21 department or agency to which the moneys were appropriated may replace  
22 the federal moneys with funds available from private or local sources.  
23 No replacement may occur under this section without the prior approval  
24 of the director of financial management in consultation with the senate  
25 ways and means committee and the house of representatives capital  
26 budget committee.

27 NEW SECTION. **Sec. 7016.** (1) Unless otherwise stated, for all  
28 appropriations under this act that require a match of nonstate money or  
29 in-kind contributions, the following requirement, consistent with RCW  
30 43.88.150, shall apply: Expenditures of state money shall be timed so  
31 that the state share of project expenditures never exceeds the intended  
32 state share of total project costs.

33 (2) Provision of the full amount of required matching funds is not  
34 required to permit the expenditure of capital budget appropriations for

1 phased projects if a proportional amount of the required matching funds  
2 is provided for each distinct, identifiable phase of the project.

3 NEW SECTION. **Sec. 7017.** A new section is added to 2009 c 497  
4 (uncodified) to read as follows:

5 The office of financial management, in consultation with the fiscal  
6 committees of the legislature, may select capital projects that have  
7 completed predesign to undergo a budget evaluation study. The budget  
8 evaluation study team approach using value engineering techniques must  
9 be utilized by the office of financial management in conducting the  
10 studies. The office of financial management shall select the budget  
11 evaluation team members, contract for the study, and report the results  
12 to the legislature and agencies in a timely manner following the study.  
13 Funds from the project appropriation must be used by the office of  
14 financial management through an interagency agreement with the affected  
15 agencies to cover the cost of the study.

16 NEW SECTION. **Sec. 7018.** (1) The fish and wildlife commission,  
17 acting through the department of general administration, shall transfer  
18 to the city of Olympia its three parcels of property located in  
19 downtown Olympia as recommended in the report submitted to the  
20 legislature by the department of general administration January 12,  
21 2011. The department of general administration must obtain an  
22 appraisal to determine the fair market value of these properties and  
23 negotiate a contract with the city of Olympia with the following  
24 provisions: (a) A plan and timeline for preparing the parcels for  
25 higher use with a significant component of mixed use retail and market  
26 rate housing; (b) a process for determining the city's costs associated  
27 with that planning and development effort; (c) an agreement on how to  
28 divide the proceeds from eventual sale of the properties to a private  
29 developer or developers between the state and the city; and (d) a  
30 contingency that addresses the reversion right if the city fails to  
31 meet the conditions of the agreement.

32 (2) The division of the proceeds must be in proportion to the  
33 amounts determined as the fair market value of the properties before  
34 transfer and the amount determined under subsection (1)(b) of this  
35 section. The department of general administration shall submit the  
36 proposed contract to the appropriate committees of the legislature

1 sixty days prior to the execution of the contract with the city. The

27 examination of existing assets that applicants may apply to projects.  
28 Grant assistance under this section shall not exceed twenty-five  
29 percent of the total cost of the project, except, under exceptional  
30 circumstances, the department may reduce the amount of nonstate match  
31 required. No more than ten percent of the total granted amount may be

2 project cost may include cash, the value of real property when acquired

11 requested. The appropriate fiscal committees of the legislature shall  
12 use this list to determine building communities fund projects that may  
13 receive funding in the capital budget. The total amount of state  
14 capital funding available for all projects on the (~~annual~~) biennial  
15 list shall be determined by the capital budget beginning with the 2009-

20 legislature has approved a specific list of projects.

21 (4) In addition to the list of ranked qualified eligible projects,  
22 the department shall submit to the appropriate fiscal committees of the  
23 legislature a summary report that describes the solicitation and

37 to be out of compliance with provisions of the contract, the grantee  
38 shall repay to the state general fund the principal amount of the grant

1 plus interest calculated at the rate of interest on state of Washington  
2 general obligation bonds issued most closely to the date of  
3 authorization of the grant.
