STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

I. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections —
 - (i) underlined matter is new matter;
 - (ii) ~~deleted matter is ((lined out and bracketed between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

WSR 86-19-007**EMERGENCY RULES
DEPARTMENT OF NATURAL RESOURCES**

[Order 496—Filed September 5, 1986]

I, Brian J. Boyle, Commissioner of Public Lands, do promulgate and adopt at Olympia, Washington, the annexed rules relating to an emergency rule restricting industrial operations, activities on forest lands, and burning on lands protected by the Department of Natural Resources.

I, Brian J. Boyle, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is due to changes in weather conditions some areas of the state still require precautions and restrictions for industrial operations, as well as some burning restrictions in affected areas.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 76.04.315 and 76.04.325 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 5, 1986.

Commissioner of Public Lands

I, Brian J. Boyle, Commissioner of Public Lands, do promulgate and adopt at Olympia, Washington, the annexed rules relating to an emergency rule restricting outdoor rule burning, as authorized under WAC 332-24-070 and 332-24-090; an emergency rule continuing WAC 332-26-081 which carried the fire protection rules over to chapter 100, Laws of 1986, from the old chapter 76.04 RCW; and a repealer of logging and burning restrictions.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

NEW SECTION

WAC 289-12-045 VARIANCES FROM SPACE REQUIREMENTS. (1) Purpose. It is the purpose of this section to establish guidelines for local jurisdictions to apply for a variance from the square footage requirements as set forth in WAC 289-12-030 (2)(a)(i)(B) relating to square footage per prisoner in day rooms and dormitories in detention and correctional facilities and WAC 289-10-310 relating to square footage per prisoner in living space in special detention and work release facilities. RCW 70.48.070(2) authorizes the corrections standards board to grant variances from the physical plant standards consistent with the intent of the city and county jails act. The rule set forth in this section are consistent with the act's legislative declaration that states "It is the policy of this state that all city and county jails provide a humane and safe environment."

(2) Guidelines. Approval or disapproval of variances and increased capacity will be considered on a case-by-case basis, considering those applications elements cited under subsection (3)(a) through (l) of this section and the following guidelines:

(a) Expansion of capacity and the granting of a variance under this section should be the final reasonable

option available to the local jurisdiction for handling the increase in jail population.

(b) The local jurisdiction must provide assurance that all other options, including the use of alternatives to incarceration, completion of state-funded jail expansion space, decreasing the number of out-of-jurisdiction prisoners, not including those prisoners held under contract for other local governing units, and opening a new special detention facility have been satisfactorily considered.

(c) Variances will be approved pursuant to this section in response to overcrowding of local prisoners.

(3) Application. Application for a variance for the purpose of increasing the capacity in a detention, correctional, or special detention facility beyond that allowed by the physical plant standards shall be made jointly by the chief law enforcement officer or director of the local department of corrections and local governing unit. The application shall address, but not be limited to, the following elements:

(a) The specific area or areas of a facility for which a capacity increase is proposed.

(b) The impact on compliance with physical plant standards, e.g., day room space, number of showers and toilets per prisoner, adequacy of ancillary services such as exercise (outdoor and indoor), recreation, visiting, dining, food services, laundry, and program areas.

(c) The anticipated length-of-stay for prisoners to be placed in an area for which capacity has been increased, and the reasons for placing this population in this increased-capacity area.

(d) The amount of time the prisoner would have away from the sleeping area.

(e) The availability of access to day rooms, visiting, exercise areas, and other programs.

(f) The impact on compliance with custodial standards, with particular focus on:

(i) Prisoner monitoring and surveillance, i.e., continual surveillance, observation every hour, and three-minute response time;

(ii) Delivery of medical services;

(iii) Quality and quantity of food;

(iv) Ability to classify properly;

(v) Sanitation, including a specific plan as to how sanitation will be maintained despite the increased population;

(vi) Visiting;

(vii) Indoor and outdoor exercise; and

(viii) Other programs and services.

(g) The impact of the change on other jail populations.

(h) The impact on incidents and violence, including a specific plan as to how violence will be controlled despite the increased population and the increased potential for hostility and tension.

(i) Assurances from the jurisdiction that increasing capacity would not cause the staff-to-prisoner ratio to be insufficient for purposes of providing a safe, secure, healthful environment.

(j) Certification from local fire officials that the safety of inmates is not being compromised by adding or increasing capacity in all or a portion of the jail.

(k) The impact on transport services, e.g., to court, the hospital, and clinics.

(l) Written policies and procedures on classification and segregation, specifying which area(s) of the jail for which increased capacity is approved, which types of inmates may be placed in an area for which capacity has been increased, who will make this decision, and the length of time an inmate may be held in an area for which capacity has been increased.

(4) Limitations. Variance requests are limited to dormitories and will not be considered for single occupancy cells.

(5) Procedures for review. Requests for approval of variances and increased capacity will be scheduled for public meeting review and approval or disapproval by the corrections standards board.

(6) Conditions on approved variances. The corrections standards board, on approval of a variance, may impose such conditions as it deems appropriate. These may include, but are not limited to, any or all of the following conditions:

(a) Quarterly reports on the impact of the increased capacity which may include, but not be limited to:

(i) Number of inmates placed in an area for which capacity has been increased;

(ii) Average length of stay;

(iii) Number and nature of incidents that have occurred;

(iv) Noncompliance with custodial care standards;

(v) Certification that the staff-to-prisoner ratio is or is not sufficient for purposes of providing a safe, secure, healthful environment.

(b) Specific conditions to ensure that the health, welfare and security of persons confined in the jail is maintained.

(7) Prior variances. Variances previously granted by the board shall remain in effect unless specifically modified or terminated by the board at the time a variance pursuant to this section is granted.

(8) Termination. A variance may be terminated by the board if increased capacity is determined to cause an adverse impact on the health, welfare, and security of persons confined in the jail. In the event of a variance termination, the board may enter such orders as it deems appropriate to safeguard the health and safety of prisoners and the public, including but not limited to any combination of the following:

(a) Requiring submission of a plan to either release excess prisoners or provide another adequate facility for the housing of excess prisoners, or both;

(b) Requiring the removal of beds from the affected dormitory area; and

(c) Requiring the jurisdiction to provide other alternative means to ensure a reduction of the population.

EMERGENCY RULES
DEPARTMENT OF GAME
(Game Commission)

[Order 310—Filed September 10, 1986]

Be it resolved by the State Game Commission, acting at Spokane, Washington, that it does adopt the annexed rules relating to amendment to 1986 Washington game fish seasons and catch limits—Rimrock Lake (Reservoir), adopting WAC 232-28-61512.

We, the State Game Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is water storage in the Yakima River basin may not meet irrigation demand in 1986. Although recent water storage reports are encouraging, a combination of hot weather and below normal precipitation could result in complete drawdown of Rimrock Reservoir and the resultant loss of the entire kokanee population.

The kokanee population is approaching near record numbers. The proposed catch limit will give anglers an opportunity to harvest catchable sized fish without significantly reducing future populations, in the event that Rimrock is not drained. Even with the proposed 25 fish catch limit, harvest may be down from last year because early season fishing this spring was considerably less productive than in 1985. The late start in 1986 is very likely the result of cool spring temperatures and fluctuating reservoir levels.

If Rimrock is drained, as it was in 1979, millions of juvenile and adult fish will be lost regardless of what fishing regulations are in effect. When Rimrock was drained in 1979 an estimated 6 million kokanee were lost. The kokanee fishery was nonexistent for two years following the 1979 drawdown. If the reservoir is drained this summer there will be no fishery for several years. If the reservoir is not drained, with or without a regulation change, the kokanee fishery is expected to be excellent into the foreseeable future.

The Yakima basin needs additional water storage to prevent future fishery losses. Additional water storage projects are supported by the Department of Game, as well as the Department of Fisheries, Ecology, and Agriculture.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 77.12.040 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

Except as may be otherwise provided, any party may take the testimony of any person, including a party, by deposition upon oral examination or written interrogatories for use as evidence in the proceeding, except that leave must be obtained if notice of the taking is served by a proponent within twenty days after the filing of a complaint, application, or petition. The attendance of witnesses may be compelled by the use of a subpoena. Depositions shall be taken only in accordance with this rule and the rule on subpoenas.

NEW SECTION

in writing filed with the commission. Except by stipulation, no deposition shall be taken before a person who is a party or the privy of a party, or a privy of any consul of a party, or who is financially interested in the proceeding.

NEW SECTION

WAC 139-01-525 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—AUTHORIZATION. A party desiring to take the deposition of any person upon oral examination shall give reasonable notice of not less than three days in writing to the commission and all parties. The notice shall state the time and place for taking the deposition, the name and address of each person to be examined, if known, and if the name is not known, a general description sufficient to identify the person or the particular class or group to which the person belongs. On motion of a party upon whom the notice is served, the hearing officer may for cause shown, enlarge or shorten the time. If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used as other depositions.

NEW SECTION

WAC 139-01-530 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—PROTECTION OF PARTIES AND DEONENTS. After notice is served for taking a deposition, upon its own motion or upon motion reasonably made by any party or by the person to be examined and upon notice and for good cause shown, the commission or its designated hearing officer may make an order that the deposition shall not be taken, or that it may be taken only at some designated place other than that stated in the notice, or that it may be taken only on written interrogatories, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed, the deposition shall be opened only by order of the commission, or that business secrets or secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents, or information enclosed in sealed envelopes to be opened as directed by the commission, or the commission may make any other order which justice requires to protect the party or witness from annoyance, embarrassment or oppression. At any time during the taking of the deposition, on motion of any party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the commission or its designated hearing officer may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as above provided. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the

commission. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order.

NEW SECTION

WAC 139-01-535 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—ORAL EXAMINATION AND CROSS-EXAMINATION. Examination and cross-examination shall proceed as at an oral hearing. In lieu of participating in the oral examination, any party served with notice of taking a deposition may transmit written cross interrogatories to the officer who, without first disclosing them to any person, and after the direct testimony is complete, shall propound them seriatim to the deponent and record or cause the answers to be recorded.

NEW SECTION

WAC 139-01-540 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—RECORDATION. The officer before whom the deposition is to be taken shall put the witness on oath and shall personally or by someone acting under the officer's direction and in the officer's presence, record the testimony by typewriter directly or by transcription from stenographic notes, wire or record recorders, which record shall separately and consecutively number each interrogatory. Objections to the notice, qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented or to the conduct of the officer, or of any party, shall be noted by the officer upon the deposition. All objections by any party not so made are waived.

NEW SECTION

WAC 139-01-545 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—SIGNING ATTESTATION AND RETURN. (1) When the testimony is fully transcribed, the deposition shall be submitted to the witness for examination and shall be read to or by the witness, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress, the commission holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(2) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He

shall then securely seal the deposition in an envelope indorsed with the title of proceeding and marked "Deposition of (here insert name of witness)" and shall promptly send it by registered or certified mail to the commission, or its designated hearing officer, for filing. The party taking the deposition shall give prompt notice of its filing to all other parties. Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

NEW SECTION

WAC 139-01-550 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—USE AND EFFECT. Subject to ruling by the hearing officer upon objections, a deposition taken and filed as provided in this rule will not become a part of the record in the proceeding until received in evidence by the hearing officer upon his own motion or the motion of any party. Except by agreement of the parties or ruling of the hearing officer, a deposition will be received only in its entirety. A party does not make a party, or the privy of a party, or any hostile witness the party's witness by taking the other party's deposition. Any party may rebut any relevant evidence contained in a deposition whether introduced by the party or any other party.

NEW SECTION

WAC 139-01-555 DEPOSITIONS AND INTERROGATORIES IN CONTESTED CASES—FEES OF OFFICERS AND DEONENTS. Deponents whose depositions are taken and the officers taking the same shall be entitled to the same fees as are paid for like services in the superior courts of the state of Washington, which fees shall be paid by the party at whose instance the depositions are taken.

NEW SECTION

WAC 139-01-560 DEPOSITIONS UPON INTERROGATORIES—SUBMISSION OF INTERROGATORIES. Where the deposition is taken upon written interrogatories, the party offering the testimony shall separately and consecutively number each interrogatory and file and serve them with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the officer before whom they are to be taken. Within ten days thereafter a party so served may serve cross-interrogatories upon the party proposing to take the deposition. Within five days thereafter, the latter may serve cross-interrogatories upon the party proposing to take the deposition. Within five days thereafter, the latter may serve redirect interrogatories upon the party who served cross-interrogatories.

NEW SECTION

officer taking the same, after duly swearing the deponent, shall read to the deponent seriatim, one interrogatory at a time and cause the same and the answer thereto to be recorded before the succeeding interrogatory is asked. No one except the deponent, the officer and the court reporter or stenographer recording and transcribing it shall be present during the interrogation.

NEW SECTION

WAC 139-01-570 DEPOSITIONS UPON INTERROGATORIES—ATTESTATION AND RETURN. The officer before whom interrogatories are verified or answered shall (1) certify under official signature and seal that the deponent was duly sworn, that the interrogatories and answers are a true record of the deponent's testimony, that no one except deponent, the officer and the stenographer were present during the taking, and that neither the officer nor the stenographer is a party, privy to a party, or interested in the event of the proceedings, and (2) promptly send by registered or certified mail the original copy of the deposition and exhibits with attestation to the commission, or its designated hearing officer, one copy to the counsel who submitted the interrogatories and another copy to the deponent.

(2) Identity. That persons and objects of the same name and description are identical;

(3) Delivery. Except in a proceeding where the liability of the carrier for nondelivery is involved, that mail matter, communications, express or freight, properly addressed, marked, billed and delivered respectively to the post office, telegraph, cable or radio company, or authorized common carrier of property with all postage, tolls and charges properly prepaid, is or has been delivered to the addressee or consignee in the ordinary course of business;

The existence or nonexistence of a material fact, as made or agreed in a stipulation or in an admission of record, will be conclusively presumed against any party bound thereby, and no other evidence with respect thereto will be received upon behalf of such party, provided:

Such a stipulation or admission is binding upon the party or parties by whom it is made, their privies and upon all other parties to the proceeding who do not expressly and unequivocally deny the existence or nonexistence of the material fact so admitted or stipulated, upon the making thereof, if made on the record at a prehearing conference, oral hearing, oral argument or by a writing filed and served upon all parties within five days after a copy of such stipulation or admission has been served upon them;

(2) Withdrawal. Any party bound by a stipulation or admission of record at any time prior to final decision may be permitted to withdraw the same in whole or in part by showing to the satisfaction of the hearing committee or the commission that such stipulation or admission was made inadvertently or under a bona fide mistake of fact contrary to the true fact and that its withdrawal at the time proposed will not unjustly prejudice the rights of other parties to the proceeding.

NEW SECTION

WAC 139-01-630 RULES OF EVIDENCE—ADMISSIBILITY CRITERIA. In accordance with that responsibility, and to ensure the continuing integrity and credibility of the basic academy program, no individual shall be granted academy admission or allowed continued participation if such individual, in adult status, has been convicted of a felony offense, or has been convicted of a gross misdemeanor or misdemeanor involving moral turpitude.

For this purpose, the term "convicted" shall include any disposition adverse to the subject, except a decision not to prosecute, a dismissal, or acquittal; provided, however, that a dismissal entered after a period of probation, suspension, or deferral of sentence shall be considered a disposition adverse to the subject.

It shall be the responsibility of each sponsoring or applying agency to request a search of state and national criminal history records information regarding its applicant through the submission of applicant's fingerprints to an appropriate action agency or agencies.

Each application for academy attendance shall be accompanied by a written attestation by the applying agency that (1) the aforementioned records search has been effected regarding the individual for which academy application is being made, and (2) that such search indicated the absence of any felony conviction or other disqualifying conviction.

AMENDATORY SECTION (Amending Order 83-1, filed 4/4/83, effective 7/1/83)

WAC 504-17-090 BICYCLES AND MOPEDS. The general traffic regulations applicable to motor vehicles apply with equal force to bicycles and mopeds. Bicycles may be used on sidewalks, though pedestrians always have the right of way. Mopeds may not be ridden on sidewalks or in the mall area while the moped is operating under motorized power.

The University classifies mopeds, motorcycles and motorized vehicles by engine displacement (also referred to as engine size). This definition applies only to parking at the University and does not replace or supersede the definitions established by the State of Washington for licensing and traffic purposes. The University defines a moped as any two-wheeled vehicle with an engine displacement of 50 cc or less. All other two- or three-wheel vehicles are defined as motorcycles. Mopeds can be parked within the confines of a bicycle rack or designated moped area without display of a WSU motorcycle parking permit. They can also be parked in motorcycle areas if they display a valid WSU motorcycle parking permit.

I, Richard A. Davis, director of the Department of Labor and Industries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to:

- New WAC 296-14-150 Definition of gainful employment for wages.
- New WAC 296-14-200 Waiver of workers' compensation benefit overpayments.

I, Richard A. Davis, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. RCW 51.32.160 has been amended effective June 11, 1986, to allow suspension or termination of total permanent disability benefits when there is a return to gainful employment for wages. This WAC defines gainful employment for wages for application under the amended statutory provision.

Legislation granting waiver authority stipulates the waiver may be exercised pursuant to rules adopted in accordance with procedures provided in the Administrative Procedure Act, chapter 34.04 RCW.

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-242, Cause No. U-85-56, filed 11/7/85)

WAC 480-120-088 AUTOMATIC DIALING-ANNOUNCING DEVICES. An automatic dialing-announcing device (ADAD) may not be operated while connected to the telephone network, except under the following conditions:

(1) An ADAD may be used pursuant to a prior agreement from the called party that he or she desires to receive such telephone communication; or

(2) An ADAD may be used if the recorded message is preceded by an announcement made by a human operator who:

(a) States the nature and length in minutes of the recorded message; and

(b) Identifies the caller and the individual, business, group, or organization for whom the call is being made and a telephone number to which a return call can be placed; and

(c) Asks the called party whether he or she is willing to listen to the recorded message; and

(d) Disconnects from the called party's line if the called party is unwilling to listen to the recorded message; or

(3) Except for purposes of commercial solicitation, an ADAD may be used if the recorded message:

(a) Identifies the individual, business, group, or organization for whom the call is being made, the nature and length of the call, and a telephone number to which a return call may be placed; and

(b) Automatically disconnects the telephone connection within two seconds after the called party hangs up the receiver.

~~((+))~~ (4) An emergency ADAD may be connected to the telephone network only under the following conditions:

~~((+))~~ (a) The ADAD contains sensors that will react only to a steady tone of at least four seconds duration, broadcasts only on frequencies allocated by the FCC for emergency services, and is designed to prevent accidental triggering of emergency calls.

~~((+))~~ (b) The ADAD provides some audible tone or message that alerts the user that the device has been activated and will automatically dial the preprogrammed emergency number unless manually deactivated within thirty to forty-five seconds.

~~((+))~~ (c) The ADAD provides for disconnection within two seconds when the called party performs a predetermined function.

~~((+))~~ (d) The ADAD satisfies applicable state safety requirements.

~~((+))~~ (e) The user registers the instrument with and receives written approval for its use from the emergency services to which an automatic call would be directed, and secures from such services an approved telephone number or numbers to be programmed into the instrument: PROVIDED, That the user shall not program the instrument to dial police or 911 emergency response numbers.

(5) As to any ADAD, provision must be made to preclude the dialing of unlisted telephone numbers and the dialing of designated public service emergency telephone numbers as listed in published telephone directories and to preclude the ADAD from dialing any telephone number before 8:30 a.m. or after 9:00 p.m., except where the ADAD is designed to deliver a message in response to an emergency situation,

and the user obtains approval from any public emergency service agency or telephone subscriber prior to using the ADAD to dial such agency or subscriber.

Before any ADAD, other than an ADAD designed to deliver a message in response to an emergency situation, may be operated while connected to the telephone network, the potential user of such device shall notify the telecommunications company in writing of the intended use of the ADAD equipment. The written notice shall contain a statement of the calendar days and clock hours during which the ADAD(s) will be used and include an estimate of the expected traffic volume in terms of message attempts per hour and average length of completed message. In addition, each utility shall maintain records of such ADAD equipment connected to their facilities and provide the commission with quarterly reports detailing the individual business, group, or organization operating such ADAD, their address and associated telephone number.

The telecommunications company shall review the statement of intended use of ADAD equipment to determine whether there is a reasonable probability that use of the equipment will cause overload of the utility's facilities. If the utility finds that a reasonable probability exists that the ADAD operation will overload its network, the utility may refuse to provide connections for the ADAD(s) or provide them subject to conditions necessary to prevent an overload. If, after service has been established, it is determined that the volume of calling originated by the ADAD is degrading the service furnished to others, the utility may suspend or terminate the service after five days' notice to the subscriber. If use of the ADAD creates overloading in a telecommunications company switching office, the utility may suspend or terminate the service with no prior notice.

The telephone subscriber who uses ADAD equipment shall notify the utility in writing within thirty days of any changes in the ADAD operation which result in either an increase or decrease in traffic volume.

Except for an ADAD designed to deliver a message in response to an emergency situation, no ADAD shall be connected to the network unless the subscriber furnishes the utility with a written certification that the equipment can effectively preclude calls to unlisted telephone numbers, to designated public service emergency numbers, or to any number or series of telephone numbers on a list of telephone subscribers who may be in the future designated by the utility, by regulation or by statute, as subscribers who are not to receive ADAD calls.

The telecommunications company shall suspend or terminate the telephone service of any subscriber who uses an ADAD in violation of the provisions of this rule provided that the subscriber is given eight business days' notice or with no prior notice if use of the ADAD creates overloading in a telecommunications company switching office.

NEW SECTION

WAC 480-120-087 TELEPHONE SOLICITATION. (1) As used in this section, "telecommunications company" is limited to telecommunications companies providing local exchange telephone service.

(2) Telecommunications companies shall notify their customers of their rights under chapter 277, Laws of 1986, with respect to telephone solicitation. Notice shall be provided by conspicuous publication of the notice in the consumer information pages of local telephone directories. The notice shall clearly inform subscribers of their rights under the law and shall, at a minimum, include the following information:

(a) Under Washington law residential subscribers have the right to keep telephone solicitors from calling back. A solicitor is someone who calls you to ask you to buy something or donate something.

(b) The law requires that solicitors identify themselves, their company or organization, and the purpose of the call within the first thirty seconds. If at anytime during the conversation you say you do not want to be called again or want to have your name and number removed from the calling list, the company or organization may not have a solicitor call you for at least one year and may not sell or give your name and number to another company or organization.

(c) The attorney general's office is given the authority to enforce this law. In addition, individuals may sue the solicitor for a minimum of one hundred dollars per violation. If the suit is successful, the individual will be able to recover money spent on court and attorney's fees.

To file a complaint, or request more information on the law, please write to the Fair Practices Office nearest you. The addresses are given below. If you are filing a complaint, please include as much information as possible about the name and address of the company or charity, the time you received the calls, and the nature of the calls.

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-151, Cause No. TV-1373, filed 9/17/80)

WAC 480-12-210 LEASING. Other than equipment exchanged between motor common carriers in interchange service, as provided in WAC 480-12-155, common or contract carriers may perform common or contract transportation in or with equipment which they do not own only in accordance with this leasing rule. The arrangement for such equipment shall contain the provisions provided for in this rule and be prepared in the manner so provided, and the parties to the lease shall observe such provisions and manner of preparation. Any failure to so observe the provisions of the lease and/or the manner of preparation shall be a violation of this rule.

(1) Contract requirements.

The contract, lease, or other arrangement for the use of such equipment shall:

(a) Be made between the common or contract carrier and the owner of the equipment;

(b) Be in writing and signed by the parties thereto, or their regular employees or agents duly authorized to act for them in the execution of contracts, ~~((for))~~ leases, or other arrangements;

(c) Specify the period for which it applies which shall not be less than thirty days when the equipment is to be operated for the common or contract carrier by the owner, or by an employee of the owner: PROVIDED, That for good cause shown the commission may, by order, grant a waiver of this subdivision and of ~~((subdivision))~~ (e) of this subsection to the extent of permitting leases of less than thirty days duration in connection with equipment operated by the owner or by an employee of the owner;

(d) Provide for the exclusive possession, control and use of the equipment and for the complete assumption of responsibility in respect thereto by the lessee for the duration of said contract, lease, or other arrangement, except, however, in the case of long term leases providing for intermittent operations entered into between household goods carriers authorized for the intrastate transportation of household goods as defined by this commission, or long term leases between authorized subsidiary contract carriers and the owners of equipment engaged in for hire contract carrier service only for its parent corporation. Such provisions need only apply during the period the equipment is operated by or for the lessee;

(e) Provide that during the period of the lease, contract, or other arrangement the driver of the leased vehicle shall be to the lessee as servant to master and the driver shall be on the payroll of the lessee, and shall be paid by the lessee, except that in the case of a long term lease entered into by a common carrier of mobile homes or an authorized subsidiary contract carrier engaged in for hire contract service only for its parent corporation, the driver may be the owner of the equipment or an employee of the owner;

(f) Specify the compensation to be paid by the lessee for the rental of the leased equipment. Such compensation shall be a specified sum per period of time, i.e., per month, per week or a specified sum per period of time plus a specific sum per mile of use. The amount of compensation specified and accordingly paid shall not be based upon a division of revenue, except such method of compensation shall be permissible (i) between authorized carriers of household goods when the leased equipment is used for the transportation of household goods as defined by this commission (~~and~~), (ii) between an authorized common carrier of mobile homes and an owner of equipment under a long term lease, and (iii) between a subsidiary contract carrier and the owners of equipment engaged in for hire contract carrier service only for its parent corporation;

(g) Specify the time and date or the circumstances on which the contract, lease, or other arrangement begins and the time or the circumstances on which it ends;

(h) Be executed in quadruplicate and submitted to the commission for approval. The approved original shall be retained by the common or contract carrier in whose service the equipment is to be operated, one approved copy shall be retained by the owner of the equipment, one approved copy shall be carried on the equipment specified therein during the entire period of the contract, lease or other arrangement(~~and~~) and one approved copy shall be retained in commission files, except that (i) a master lease agreement outlining in detail the leasing arrangements between specifically named parties may be filed for approval in lieu of separate leases in connection with each occurrence, and that (ii) leases covering transportation in interstate commerce need not be filed: PROVIDED, That leased equipment is not acquired and operated under the provisions of (~~subdivision~~) (i) of this subsection;

(i) Where the leased equipment is acquired and operated by the lessee on a long term lease pursuant to rules and regulations of the interstate commerce commission governing such a lease, and the operation of the leased equipment is primarily in interstate commerce not performed wholly within the bounds of this state, and the use of such equipment in intrastate commerce has an immediate prior and immediate subsequent movement in interstate commerce from or to points without this state, the operation of such equipment may be governed by rules and regulations of the interstate commerce commission governing such a lease, PROVIDED, That the total annual use in intrastate commerce does not exceed (~~15%~~) fifteen percent as compared to its use in interstate commerce, and foregoing provisions of (~~subdivisions~~) (a), (b), (c), (d), (e), and (f) of this (~~section~~) subsection shall not apply. For purposes of this subdivision "immediate" shall mean there shall be no haul between the initial qualifying interstate movement and the intrastate haul nor between the intrastate haul and the subsequent interstate movement.

Common and contract carriers wishing to operate under the provisions of this subdivision shall apply to the commission for permission to do so, setting forth facts supporting the application.

(2) Identification.

The common or contract carrier acquiring the use of equipment under this rule shall properly and correctly identify the equipment as being operated by the lessee during the period of the lease, contract, or other arrangement, in accordance with the requirements of WAC 480-12-150.

If a removable device is used to identify the lessee as the operating carrier, such device shall be on durable material such as wood, plastic, or metal.

The common or contract carrier operating equipment under these rules shall remove any legend showing it as the operating carrier displayed on such equipment, and shall remove any removable device showing it as the operating carrier before relinquishing possession of the equipment.

(3) Rental of equipment to private carriers, shippers, contractors and combination-of-service-carriers.

(a) Unless such service is specified in their operating authorities, common or contract carriers shall not rent equipment with drivers to private carriers or shippers.

(b) Common or contract carriers shall not rent, contract or lease, or by other arrangement furnish, equipment without drivers to private carriers or shippers without first having obtained approval of the rental contract from this commission and, in this connection, the commission will examine the terms of the rental agreement and all facts and circumstances surrounding it to determine the effect of the lease insofar as established rates and operating authority is concerned.

(c) Dump trucks and logging trucks shall not be leased or rented by common or contract carriers to construction contractors, loggers, combination-of-service carriers or other parties engaged in logging and construction operations: PROVIDED (i) common or contract carrier dump truckers may enter into an arrangement involving rental or leasing of trucks to highway construction contractors who are required by state or federal law to submit certified payrolls(:); (ii) such rental or lease arrangements must be filed with and approved by the commission; (iii) the total payments for and to the trucker under such rental or lease arrangements must be the equivalent of the charges which trucker would earn under applicable common carrier tariff rates; (iv) the contractor may not assess any charges against the carrier for accounting or bookkeeping expenses or make any deductions from rate charges earned which the common or contract carrier dump trucker is not legally liable to pay; (v) the common or contract carrier dump trucker must have the required permit authority for the territory and the commodities involved.

REPEALER

The following section of the Washington Administrative Code is hereby repealed:

(1) WAC 132H-120-060 STUDENT GRIEVANCE APPEAL PROCEDURES.

NEW SECTION

WAC 132H-120-062 STUDENT GRIEVANCE PROCEDURES—PURPOSE AND SCOPE. The purpose of these procedures is to enable a student to express and resolve misunderstandings, complaints, or grievances with faculty and other college personnel in a fair and equitable manner. Students have the right to receive clear information and fair application of college policies, standards, rules, and requirements and are responsible for complying with them in their relationships with faculty and other college personnel. This grievance procedure emphasizes an informal resolution. (1) STUDENT COMPLAINTS. A complaint is any expression of dissatisfaction with the performance of a college employee or procedure. Students who have a complaint about an action of a college employee shall use the following procedure:

(a) Initiating the Complaint Process.

(i) The college employee and student shall make a good faith effort to resolve the grievance on a one-to-one basis. (If the student feels as a result of extraordinary circumstances, that she/he cannot meet with the employee face to face he/she may contact the Organizational Unit Administrator for advice on how to proceed with the complaint. The Organizational Unit Administrator is responsible for advising the employee of the complaint).

(ii) If the student determines that the complaint cannot be resolved appropriately with the employee concerned, the student may contact the Organizational Unit Administrator of the employee to facilitate a solution to the grievance which may include a facilitator agreeable to both parties.

(iii) If complaints filed with the appropriate Organizational Unit Administrator have not been resolved, the student may proceed with a formal complaint.

(b) Proceeding with a Formal Complaint.

(i) Office to Address. Complaints regarding an Instructor, Instructional employee, or Instructional policy shall be coordinated by the Dean of Instruction or his designee. Complaints regarding a Student Programs employee or Personnel Office employee or policy shall be coordinated by the Dean of Student Programs and Personnel Services. Complaints regarding an Administrative Services employee or policy shall be coordinated by the Dean of Administrative Services.

(ii) The Dean/designee shall discuss with the student the concerns of the student and the options available to resolve the concern. If the student should elect to proceed with a formal complaint, the student should outline in writing the complaint, identifying dates and persons involved as accurately as possible.

(iii) In case of a grade review, the student should indicate to the Dean in writing the grade received in the course in question, together with the reason for the

grade complaint, specifying as accurately as possible all necessary performance scores and attendance data.

(iv) The Dean shall also inform the student that the ASBCC Vice-President of Student Affairs or another person the student chooses may act as an advocate who will assist the student in completion of the complaint process. The student may waive the right to an advocate.

(v) The student's written complaint shall be forwarded to the employee concerned who shall provide a written response within ten (10) instructional days.

(vi) If the written response does not resolve the complaint to the satisfaction of the student, the Dean shall convene a conference of all the involved parties within ten (10) instructional days except regarding issues of grades or counseling.

(vii) If the complaint concerns a grade or a counseling issue (an academic matter) the student shall have her/his grievance heard before the Student Academic Grievance Committee.

(c) Composition, Organization and Procedures of the Student Academic Grievance Committee.

(i) The Student Academic Grievance Committee shall be comprised of six members: four faculty and two students. One faculty member shall be elected annually by the faculty at large under the auspices of the BCCAHE in the conduct of their annual elections. The elected faculty member shall serve as permanent chair for the academic year commencing with the fall quarter. The remaining three faculty members shall be appointed by the Dean in consultation with the permanent faculty chair. Two faculty members shall be selected from the same or closely aligned discipline (normally within the organizational unit of the college employee against whom the grievance is filed). One faculty member. One faculty member from the same or other organizational unit who is sufficiently aware of related discipline issues so as to add professional perspective to the hearing committee shall be appointed by the Dean, in concurrence with the permanent faculty chair. The two students shall be the student justices appointed by the ASBCC President from the ASBCC Judicial Board.

(ii) The Student Academic Grievance Committee shall consider each case separately within five instructional days of the filing of the grievance with the faculty chair. All hearings shall be closed meetings of the Student Academic Grievance Committee to include the student and the college employee except that any party to the grievance may have one representative or advisor in attendance. Based upon the evidence and proceedings the Student Academic Grievance Committee shall find findings of fact and make a written recommendation of the action to resolve the grievance within five instructional days of the hearing to the college employee, the student and the Dean. If either of the parties does not agree to fulfill the recommendations of the Student Academic Grievance Committee, or if they do not respond, or if the committee recommends the Dean take action, the chair of the Student Academic Grievance Committee shall immediately forward the entire record of the hearing deliberations to the Dean.

(d) Decisions and Dispensation of Records.

(i) The Dean shall keep all written statements, transcripts and minutes associated with the complaint as part of the files of the college, but not in the personnel files of the employee. The files will be destroyed after two years from the initiation of the complaint.

(ii) As a result of the conference and/or the recommendation of the Student Academic Grievance Committee, the Dean shall issue a decision to resolve the complaint.

(iii) The recommendation of the Dean will be reviewed by the President who may amend, modify, reverse or accept the recommendation and who shall then implement the resolution.

(iv) Since the evaluation of the course content is exclusively within the province of the instructor for a particular course, any adjustments or grade changes may be initiated only by that instructor, or, under extenuating circumstances, by the Dean of Instruction, upon the approval of the College President. In such an instance, the course grade record shall be coded and indicate "grade changed by administrative action." The transcript shall indicate "changed by administrative action."

(v) The decision of the President shall be final.

(e) Time Limits on Filing a Complaint

(i) The student must file a complaint within one academic quarter after termination of the course or procedure in question. The Dean may suspend this rule under exceptional circumstances such as extended illness, or sabbatical leave of a party to the complaint.

(ii) No complaints requesting a grade review will be considered after two consecutive quarters from the date of issue of that grade.

(iii) When either party of the complaint is no longer in residence at the college and does not expect to return, the dean will give reasonable opportunity to complete appeal procedures or reply to the charges before making a decision.

CrR 3.2(a)

(a) Release in Noncapital Cases. Any person, other than a person charged with a capital offense, shall at the preliminary appearance or reappearance pursuant to rule 3.2A or JCrR 2.03 be ordered released on the accused's personal recognizance pending trial unless the court determines that such recognizance will not reasonably assure the accused's appearance, when required, or if there is shown a likely danger that the accused will commit a violent crime, or that the accused will seek to intimidate witnesses, or otherwise unlawfully interfere with the administration of justice. For the purpose of this rule, "violent crimes" are not limited to crimes defined as violent offenses in RCW 9.94A.030. If the court finds that release without bail should be denied or that conditions should attach to the release on personal recognizance, other than the promise to appear for trial, the court shall proceed to determine whether probable cause exists to believe that the accused committed the offense charged, unless this determination has previously been made by a court. Before making the determination, the court may consider an affidavit or affidavits filed or sworn testimony and further may examine under oath the affiant and any witnesses the affiant may produce. The court shall impose the least restrictive of the following conditions that will reasonably assure that the accused will be present for later hearings, will not significantly interfere with the administration of justice and not pose a substantial danger to others or the community or, if no single condition gives that assurance, any combination of the following conditions:

(1) Place the accused in the custody of a designated person or organization agreeing to supervise the accused;

(2) Place restrictions on the travel, association, or place of abode of the accused during the period of release;

(3) Require the execution of an unsecured bond in a specified amount;

(4) Require the execution of a bond in a specified amount and the deposit in the registry of the court in cash or other security as directed, of a sum not to exceed 10 percent of the amount of the bond, such deposit to be returned upon the performance of the conditions of release or forfeited for violation of any condition of release;

(5) Require the execution of a bond with sufficient solvent sureties, or the deposit of cash in lieu thereof;

(6) Require the accused to return to custody during specified hours; or

(7) Impose any condition other than detention deemed reasonably necessary to assure appearance as required, assure noninterference with the trial and reduce danger to others or the community.

CrR 3.2(b)

(b) Relevant Factors. In determining which conditions of release will reasonably assure the accused's appearance and noninterference with the administration of justice, and reduce danger to others or the community, the court shall, on the available information, consider the relevant facts including but not limited to: the length and character of the accused's residence in the community; the accused's employment status and history and financial condition; the accused's family ties and relationships; the accused's reputation, character and mental condition; the accused's history of response to legal process; the accused's criminal record; the willingness of responsible members of the community to vouch for the accused's reliability and assist the accused in complying with conditions of release; the nature of the charge; any other factors indicating the accused's ties to the community; the accused's past record of threats to victims or witnesses or interference with witnesses or the administration of justice; whether or not there is evidence of present threats or intimidation directed to witnesses; the accused's past record of committing offenses while on pretrial release, probation or parole; and the accused's past record of use of or threatened use of deadly weapons or firearms, especially to victims or witnesses.

CrR 3.2(c)

(c) Conditions of Release. Upon a showing that there exists a substantial danger that the accused will commit a serious violent crime or that the accused will seek to intimidate witnesses, or otherwise unlawfully interfere with the administration of justice, the court may impose one or more of the following conditions:

(1) Prohibit the accused from approaching or communicating in any manner with particular persons or classes of persons;

(2) Prohibit the accused from going to certain geographical areas or premises;

(3) Prohibit the accused from possessing any dangerous weapons or firearms, or engaging in certain described activities or possessing or consuming any intoxicating liquors or drugs not prescribed to the accused;

(4) Require the accused to report regularly to and remain under the supervision of an officer of the court or other person or agency;

(5) Prohibit the accused from committing any law violations of criminal law;

(6) Require the accused to post a secured or unsecured bond, conditioned on compliance with all conditions of release. This condition may be imposed only if no less restrictive condition or combination of conditions would reasonably assure the safety of the community or the appearance of the defendant.

CrR 3.2(h)

(h) Review of Conditions. ~~Upon determining the conditions of release, the court, upon request, after 24 hours from the time of release or earlier if provided with new information, may review the conditions previously imposed.~~

(1) At any time after the preliminary appearance, an accused who is being detained due to failure to post bail may move for reconsideration of bail. In connection with this motion, both parties may present information by proffer or otherwise. If deemed necessary for a fair determination of the issue, the court may direct the taking of additional testimony.

(2) A hearing on the motion shall be held within a reasonable time. An electronic or stenographic record of the hearing shall be made. Following the hearing, the court shall promptly enter an order setting out the conditions of release in accordance with section (g). If a bail requirement is imposed or maintained, the court shall set out its reasons on the record or in writing.

CrR 3.2(i)

(i) Amendment or Revocation of Order.

(1) The court ordering the release of an accused on any condition specified in this rule may at any time on change of circumstances, new information or showing of good cause amend its order to impose additional or different conditions for release.

(2) Upon a showing that the accused has willfully violated a condition of release, the court may revoke release and may order forfeiture of any bond. Before entering an order revoking release or forfeiting bail, the court shall hold a hearing in accordance with section (h). Release may be revoked only if the violation is proved by clear and convincing evidence.

Specific program requirements are contained in the program standards publication available from the department.

(d) There will be a mental health professional to advise and assist in developmental screenings and assessments and observe children in the classroom setting and consult with teachers and other appropriate staff at least twice a year.

The authority under which these rules are proposed is RCW 48.02.060, 48.44.050 and 48.46.200.

The specific statute these rules are intended to implement is RCW 48.21.200.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 21, 1986. Mailing Address: Insurance Building, AQ-21, Olympia, WA 98504.

By: Patricia D. Petersen
Deputy Commissioner

STATEMENT OF PURPOSE

Amending WAC 284-51-070 and 284-51-180 to provide for a change in the manner in which coordination of benefit determinations are calculated in two specific situations. First, WAC 284-51-070 and 284-51-180 provides that the benefits of a plan which covers the person on whom expenses claim is based other than as a dependent shall be determined before the benefits of a plan which covers the person as a dependent. WAC 284-51-070 and 284-51-180 are amended to provide that if a plan which covers the person is one for laid off or retired persons then that plan may provide that its benefits

shall be determined after any other plan. Second, WAC 284-51-070 and 284-51-180 are amended to provide that, with stated exceptions, when two plans cover the same child as a dependent of different persons, called "parents," the benefits of the plan of the parent whose birthday falls earlier in the year are determined first.

The statutory authority for the proposed amendments is RCW 48.02.060, 48.44.050 and 48.46.200 to effectuate RCW 48.21.200.

David Rodgers, Chief Deputy Insurance Commissioner, Insurance Building, AQ-21, Olympia, Washington 98504, (206) 753-7302, is primarily responsible for the implementation and enforcement of the rule and its amendment, and Patricia D. Petersen, Deputy Commissioner, Insurance Building, AQ-21, Olympia, Washington 98504, (206) 586-0800, is primarily responsible for the drafting of the amendment.

The amendment is proposed by the insurance commissioner, a state public official.

The proposed amendment is not necessary as the result of federal law or federal or state court action.

Small Business Economic Impact Statement: There should be no substantial economic impact upon insurers as a result of this proposed regulation. Insurers will have to change their forms to comply with proposed WAC 284-51-070 (1)(b). Insurers will have to revise their forms if they choose to make the change allowed in proposed WAC 284-51-070 (1)(a). That is the nature of conducting the business of insurance and must be done periodically, in any event, and it should not increase the cost per employee or per hour of labor for either a large or small insurer. With respect to other businesses, employers purchase a majority of the contracts affected by this rule. There should be no substantial economic impact upon employers as a result of this rule, and it should not increase the cost per employee or per hours of labor for either a large or small employer.

AMENDATORY SECTION (Amending Order R 81-2, filed 6/18/81, effective 1/1/82)

WAC 284-51-070 ORDER OF BENEFIT DETERMINATION.

(1) When a claim under a plan with a coordination of benefits provision involves another plan which also has a coordination of benefits provision, the following rules will be applied by the insurers involved to decide the order in which the benefits payable under the respective plans will be determined:

(a) The benefits of a plan which covers the person on whose expenses claim is based other than as a dependent, shall be determined before the benefits of a plan which covers such person as a dependent. However, to the extent the benefits of a plan which covers the person are provided by a plan for laid off or retired persons, such plan may provide that its benefits shall be determined after any other plan covering such person, in which case such provision shall be controlling.

(b) ~~((The benefits of a plan which covers the person on whose expense claim is based as a dependent of a male person shall be determined before the benefits of a plan which covers such person as a dependent of a female person, except that))~~ When one plan and another plan cover the same child as a dependent of different persons, called "parents," the benefits of the plan of the parent whose birthday falls earlier in the year are determined before those of the plan of a parent whose birthday falls later in the year (referring only to month and day in a calendar year, not the year in which a person was born). If both parents have the same birthday, the benefits of the plan which covered the parent longer are determined before those of the plan which covered the other parent for a shorter period of time. In the case of a person for whom claim is made as a dependent child, however,

(i) When the parents are separated or divorced and the parent with custody of the child has not remarried, the benefits of a plan which

covers the child as a dependent of the parent with custody of the child will be determined before the benefits of a plan which covers the child as a dependent of the parent without custody; or

(ii) When parents are divorced and the parent with custody of the child has remarried, the benefits of a plan which covers the child as a dependent of the parent with custody shall be determined before the benefits of a plan which covers that child as a dependent of the stepparent, and the benefits of a plan which covers that child as a dependent of the stepparent will be determined before the benefits of a plan which covers that child as a dependent of the parent without custody; or

(iii) Notwithstanding items (i) and (ii) of this subdivision, if there is a court decree which would otherwise establish financial responsibility for the medical, dental or other health care expenses with respect to the child, the benefits of a plan which covers the child as a dependent of the parent with such financial responsibility shall be determined before the benefits of any other plan which covers the child as a dependent child.

(c) When ~~((rules))~~ (a) and (b) of this subsection do not establish an order of benefit determination, the benefits of a plan which has covered the person on whose expenses claim is based for the longer period of time shall be determined before the benefits of a plan which has covered such person the shorter period of time.

(2) If the policy provides more than one benefit, the policy shall contain a provision stating how the reduction in benefits by the coordination provision affects each benefit under the policy. Suggested language for such provision is included in Appendix A, WAC 284-51-180.

(3) A group contract which provides for coordination of benefits shall contain a provision entitled "Effect on Benefits," stating the manner in which benefits are reduced by coordination, which provision shall be substantially as set forth in Appendix A, WAC 284-51-180.

AMENDATORY SECTION (Amending Order R 81-2, filed 6/18/81, effective 1/1/82)

WAC 284-51-180 APPENDIX A, FORM FOR "EFFECT ON BENEFITS" PROVISION. Effect on benefits: (1) This provision shall apply in determining the benefits for a person covered under this plan for a particular claim determination period if, for the allowable expenses incurred as to such person during such period, the sum of:

(a) The benefits that would be payable under this plan in the absence of this provision, and

(b) The benefits that would be payable under all other plans in the absence therein of provisions of similar purpose to this provision would exceed such allowable expenses.

(2) As to any claim determination period with respect to which this provision is applicable, the benefits that would be payable under this plan in the absence of this provision for the allowable expenses incurred as to such person during such claim determination period shall be reduced to the extent necessary so that the sum of such reduced benefits and all the benefits payable for such allowable expenses under all other plans, except as provided in ~~((item))~~ subsection (3) of this section, shall not exceed the total of such allowable expenses. Benefits payable under another plan include the benefits that would have been payable had claim been duly made therefor.

(3) If

(a) Another plan which is involved in ~~((item))~~ subsection (2) of this section and which contains a provision coordinating its benefits with those of this plan would, according to its rules, determine its benefits after the benefits of this plan have been determined, and

(b) The rules set forth in ~~((item))~~ subsection (4) of this section would require this plan to determine its benefits before such other plan then the benefits of such other plan will be ignored for the purposes of determining the benefits under this plan.

(4) For the purpose of ~~((item))~~ subsection (3) of this section, the rules establishing the order of benefit determination are:

(a) The benefits of a plan which covers the person on whose expenses claim is based other than as a dependent shall be determined before the benefits of a plan which covers such person as a dependent. However, if a plan is one providing benefits for laid off or retired persons and it provides that its benefits shall be determined after any other plan covering a laid off or retired person, such provision shall be controlling.

(b) ~~((The benefits of a plan which covers the person on whose expenses claim is based as a dependent of a male person shall be determined before the benefits of a plan which covers such person as a dependent of a female person, except that))~~ When one plan and another

plan cover the same child as a dependent of different persons, called "parents," the benefits of the plan of the parent whose birthday falls later in the year (referring only to month and day in a calendar year, not the year in which a parent was born). If both parents have the same birthday, the benefits of the plan are determined before those of the parent for a shorter period of time. In the case of a person for whom claim is made as a dependent child, however,

(i) When the parents are separated or divorced and the parent with custody of the child has not remarried, the benefits of a plan which covers the child as a dependent of the parent with custody of the child will be determined before the benefits of a plan which covers the child as a dependent of the parent without custody; and

(ii) When the parents are divorced and the parent with custody of the child has remarried, the benefits of a plan which covers the child as a dependent of the parent with custody shall be determined before the benefits of a plan which covers that child as a dependent of the stepparent, and the benefits of a plan which covers that child as a dependent of the stepparent will be determined before the benefits of a plan which covers that child as a dependent of the parent without custody.

Notwithstanding items (i) and (ii) ~~((above))~~ of this subdivision, if there is a court decree which would otherwise establish financial responsibility for the medical, dental or other health care expenses with respect to the child, the benefits of a plan which covers the child as a dependent of the parent with such financial responsibility shall be determined before the benefits of any other plan which covers the child as a dependent child.

(c) When ~~((rules))~~ (a) and (b) of this subsection do not establish an order of benefit determination, the benefits of a plan which has covered the person on whose expenses claim is based for the longer period of time shall be determined before the benefits of a plan which has covered such person the shorter period of time.

(5) (Note: This ~~((item-(5)))~~ subsection may be omitted if the plan provides only one benefit. If the contract provides more than one benefit, it shall contain a provision stating how the reduction in benefits by the coordination provision affects each benefit under the contract. The following wording is illustrative of a policy in which all benefits are affected.)

When this provision operates to reduce the total amount of benefits otherwise payable as to a person covered under this plan during any claim determination period, each benefit that would be payable in the absence of this provision shall be reduced proportionately, and such reduced amount shall be charged against any applicable benefit limit of this plan.

Be it resolved by the State Board for Community College Education, acting at Olympia, Washington, that it does adopt the annexed rules relating to tuition and fee waivers granted by community colleges.

We, the State Board for Community College Education, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is recent legal advice stated that the existing rule exceeds the statutory authority and needs to be amended in time for application for the fall quarter, 1986.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 28B.15-.740 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

(1) Tuition and fee waivers for needy students in any fiscal year as authorized by RCW 28B.15.740 may not exceed three percent of any college district's estimated total collections of tuition, operating, and services and activities fees had no such waivers been made, after deducting the portion of that total amount which is attributable to the difference between resident and nonresident tuition fees.

Conversely, the three percent waiver capacity based upon estimated collections is allowable even though actual collections may not be as high as the estimate.

AMENDATORY SECTION (Amending Order 125 [160], filed 11/15/82 [8/18/86])

WAC 230-02-350 COMMERCIAL STIMULANT. An activity is operated as a commercial stimulant, for the purposes of chapter 9.46

RCW and these rules, only when it is an incidental activity operated in connection with, and incidental to, an established business, primarily engaged in the sale of food or drink for consumption on the premises, with the primary purpose of increasing the volume of sales of food and drink for consumption on that business premises.

~~((Gambling activities authorized for use as commercial stimulants shall be deemed as not being used for this purpose when the combined gross receipts from all such gambling activities, less that amount paid out for or as prizes, and less that amount paid out in federal, state, and local taxes or fees, directly related to the gambling activities, and less that amount paid out in expenses incurred directly as a result of providing a card room employee to be on duty and in the licensed card room area in compliance with WAC 230-40-400 which shall not exceed \$8.50 per hour of operation, are more than the total of the gross receipts from the food and drink business during any calendar quarter.))~~

An established business is one primarily engaged in the sale of food or drink for consumption on the premises when either its gross income or its net profit from the sale of food and drink for on premises consumption exceeds its gross income or net profit from the sale of any other non-gambling goods and services.

In determining if a gambling activity is an activity incidental to the primary business, the following guidelines and criteria shall apply:

(1) If Gross Sales Income, as defined in WAC 230-02-135, exceeds Adjusted Net Gambling Receipts, as defined in WAC 230-02-125, for a licensed gambling activity, said activity shall be deemed to be incidental to the primary business;

(2) Licensees who also hold a license from the Washington State Liquor Control Board for sale of liquor or beer for on premises consumption by both the glass and bottle or can shall be presumed to be operating a licensed gambling activity incidental to a primary food and drink business;

(3) Licensees who do not qualify under paragraphs one or two above, shall be presumed to be operating the licensed gambling activity as other than a commercial stimulant to an established business primarily engaged in the sale of food and drink for on premises consumption; and

(4) Paragraphs two and three only create presumptions. The commission may overcome the presumption created in paragraph two and the license may overcome the presumption created in paragraph three if, after a consideration of all relevant factors, the commission determines that the licensee is or is not operating the licensed activity as an incidental activity operated in connection with, and incidental to, an established business primarily engaged in the sale of food or drink for consumption on the premises. Any factor the commission deems relevant may be considered, including, but not limited to, the following:

(a) Net and gross sales income from both gambling activities and non-gambling activities and the percentage ratio of one to the other;

(b) Number of customers for gambling activities and number of customers for non-gambling activities;

(c) Square footage of the building used for gambling activities versus the amount used for food and drink sales and other non-gambling activities;

(d) Amount, type, and nature of advertisement;

(e) Amount, nature, and type of signs, designs and displays on or about the outside of the premises representing to the public the nature of the activity inside;

(f) The opinion of local law enforcement, local officials, and members of the local public as to whether or not the licensee holds itself out to the public as a gambling place, food and drink establishment, or other type of business; and

(g) Any unusual or temporary occurrence or event which has only temporarily affected the nature of the business.

Reviser's note: The bracketed material preceding the section above was supplied by the code reviser's office.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

NEW SECTION

WAC 230-12-075 COMMERCIAL STIMULANT COMPLIANCE. A person licensed to operate punchboards and pull tabs and/or a public card room as a commercial stimulant, shall be operating those activities as a commercial stimulant when the adjusted net gambling receipts do not exceed the total gross sales of the licensed

business in any calendar quarter: PROVIDED, That when the adjusted net gambling receipts exceed the total gross sales of the licensed business by less than ten percent (10%) in any calendar quarter, the commission shall measure the current quarter with the previous three (3) calendar quarters to determine compliance. If the adjusted net gambling receipts for the entire period do not exceed the gross sales for this 12 month period, then the gambling activities shall be considered as being used as a commercial stimulant. Those licensees that have operated less than a year, shall be measured only on those quarterly reports submitted to the commission.

STATEMENT OF PURPOSE

Title: WAC 314-64-040 Procedures for board samples.

Description of Purpose: To provide for recovering costs from the liquor suppliers in those instances where it becomes necessary for the board to incur costs in receiving such samples.

Statutory Authority: RCW 66.08.030 and 66.28.045.

Statutes Implemented by the Rule: RCW 66.28.045.

Summary of Rule: The rule presently provides detailed procedures for the submitting of samples to the board for the purpose of negotiating a sale of liquor to the board. This addition to the rule provides that if the board incurs any costs in the receipt of samples that they shall be recovered from the supplier.

Reason Supporting Proposed Action: It was not anticipated when the rule was originally written that the board would incur any costs in the receipt of samples. In actuality, however, there are times when the samples do not arrive prepaid as required and/or times when the board has to or desires to pay customs duty and tax on samples from foreign countries. When this happens, the board does charge the cost back to the supplier, but currently there is no provision in the rule for this practice.

Agency Personnel Involved: In addition to the board, the following agency personnel have responsibility for drafting, implementing and enforcing this rule: James E. Hoing, Controller, Financial Division, Capital Plaza Building, Olympia, WA 98504, phone (206) 753-6290; and Robert H. Harvey, Purchasing Agent, Capital Plaza Building, Olympia, WA 98504, phone (206) 753-6255.

Person or Organization Proposing Rule: Washington State Liquor Control Board.

Agency Comments: This change will ensure that any costs incurred by the board in receipt of samples is recovered from the liquor suppliers. This will also put into rule form a practice which is currently being followed by the board.

Necessity of Rule: This rule was not made necessary as a result of federal law or federal or state court action.

Small Business Economic Impact Statement: There will be no negative cost impact for this rule.

AMENDATORY SECTION (Amending Order 95, Resolution No. 104, filed 1/28/82)

WAC 314-64-040 PROCEDURES FOR BOARD SAMPLES. Procedures for submitting samples to the board for the purpose of negotiating the sale of liquor to the board are as follows:

(1) Quantity. Samples shall not exceed in quantity that authorized by the U.S. Bureau of Alcohol, Tobacco and Firearms.

(2) Identification. Suppliers shall identify the items on the cartons and shipping documents as "samples for the board."

(3) Shipping instructions. Suppliers shall deliver or ship samples prepaid to the Washington State Liquor Control Board, Attention Liquor Purchasing Agent, 1025 East Union Avenue, Olympia, Washington 98504.

(4) In those instances where it becomes necessary for the board to incur some costs in receiving the samples, such costs shall be recovered from the supplier.

(5) Use and disposition of samples. Samples furnished for the purpose of negotiating the sale of liquor to the board shall be examined and tested by members of the board, or their designees, and/or the liquor purchasing agent, or his designee, for appearance, aroma and taste, and to determine their probable customer acceptability. After such examination and testing, any remaining portion of said samples shall be disposed of by members of the board, or their designees who examined and tested said samples, or by the purchasing agent, or his designee who examined and tested said samples.

~~((6))~~ (6) Reports. Members of the board, or their designees, and/or the liquor purchasing agent, or his designee, shall report their findings and recommendations on appropriate forms to the liquor purchasing agent for consolidation and report to the board. The board shall consider such findings and recommendations, along with other documents furnished by the supplier, in determining whether the items represented by the samples shall be purchased by the board for resale through state liquor stores.

~~((7))~~ (7) Excess. Samples received in excess of the quantity authorized in WAC 314-64-040 for the purpose of negotiating the sale of liquor to the board will be held by the liquor board purchasing agent until the supplier has been notified of the overshipment and given fifteen days in which to respond as to whether he wants the excess returned to him at his expense. Failure of the supplier to respond within the time limitation, or notification from the supplier that he does not want the excess returned to him, will result in the excess item or items being destroyed by a liquor control board auditor in the presence of the liquor purchasing agent, or his designee, after which a destruction notice will be prepared by the auditor and be certified by the liquor board purchasing agent or his designee who witnessed the destruction. Copies of such destruct notices shall be distributed to members of the board, the liquor purchasing agent, and the liquor control board controller.

~~((8))~~ (8) Containers. Containers submitted to the board for the purpose of negotiating the sale of liquor shall, after examination by the board and/or the liquor purchasing agent, be disposed of as follows:

(a) Figurines, decanters, or other decorative containers may be retained for public display in the board offices in Olympia. After such display, the containers shall be disposed of as provided in ~~((WAC 314-64-040 (7)))~~(b) of this subsection.

(b) Figurines, decanters, or other decorative containers will be held by the liquor purchasing agent until the supplier has been notified that the containers have been examined by the board, and the supplier will be given fifteen days in which to respond as to whether he wants the containers returned to him at his expense. Failure of the supplier to respond within the time limitation, or notification from the supplier that he does not want the containers returned to him, will result in the containers being disposed of as surplus property, pursuant to RCW 43.19.1919, if the anticipated revenue to be derived from the sale of the containers as surplus property is deemed to exceed the anticipated costs attributable to the sale.

(c) Containers whose anticipated revenue to be derived from their sale as surplus property is deemed not to exceed the anticipated costs attributable to the sale shall be disposed of by members of the board, or their designees who examined and tested said samples, or by the liquor purchasing agent, or his designee who examined and tested said samples.

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045. Amending Title 261 WAC.

Purpose of the Amendment: To revise chapter 261-40 WAC to permit rate adjustments in those cases where a hospital submits an analysis acceptable to the commission that a payer group or groups use less resources than the average.

Statutory Authority: RCW 70.39.180.

Summary of Rule Changes and Statement of Reasons Supporting the Proposed Action: WAC 261-40-155, a new section added to permit rate adjustments to reflect differential resource use; 261-40-150 (5)(e)(ii), amended to permit rate adjustments for differences in resource use as set out in WAC 261-40-155; and 261-40-170(4), the prohibition against allocating the difference between billed charges and payment due to a negotiated rate is modified to permit rate adjustments for those payers which use less resources than the average.

The Hospital Commission believes it is necessary to make the above rule changes in order to recognize that there are differences in the resources used in serving patients of different payer classes. This finding is confirmed by a 1981 study conducted by Lewin and Associates, Inc., which found that "material cost differences among payer classes" exist in the areas of business office costs, accounting, medical records, social services, nursing services, working capital, and collection costs. A study was also conducted in Connecticut which found a difference in resource use by payer in administrative costs, working capital, bad debts and routine nursing care costs. Therefore, the Hospital Commission has determined that adjustments to rates to recognize greater or less resource use are "cost justified" and do not result in "cost shifting."

Agency Personnel Responsible for Drafting, Implementation and Enforcement of These Rules: Maurice A. Click, Executive Director; and David B. Smith, Associate Director of Budget and Rate Review, Washington State Hospital Commission, 206 Evergreen Plaza Building, 711 South Capitol Way, Mailstop FJ-21, Olympia, Washington 98504, (206) 753-1990.

Name of the Organization Proposing the Rule: Washington State Hospital Commission.

These rules are not necessary to comply with a federal law or a federal or state court decision.

Pursuant to RCW 19.85.040, the Hospital Commission submits the following small business economic impact statement. The proposed amendments retain provisions for alternative systems of financial reporting and modifications of the uniform reporting system which provide specialized and reduced reporting requirements for smaller hospitals: WAC 261-20-060, 261-20-074 and 261-50-040. The Hospital Commission believes that these provisions enable smaller hospitals to report the information required by chapter 70.39 RCW in the least onerous fashion.

NEW SECTION

WAC 261-40-155 APPROVAL OF RATES. Rates shall be approved such that the maximum revenue which a hospital may receive for each unit of service shall be the average revenue for that unit of service as approved by the commission; provided that, the commission may, upon request from a hospital, approve a rate adjustment in the form of a deduction from revenue, as necessary to reflect differential resource use, and the rates for that unit of service shall be adjusted accordingly. Any hospital requesting a rate adjustment shall submit an analysis acceptable to the commission, demonstrating the differences in resource use among payers or groups of payers. Such rate adjustments and deductions from revenue shall be prospective in nature, and rates may not be adjusted until such adjustments are approved by the Commission. Requests for rate adjustments contained in requests for budget amendments may be approved only on a prospective basis, and such approval will not be applicable to rates charged prior to such approval.

AMENDATORY SECTION (Amending Order 86-04, Resolution No. 86-04, filed 7/11/86)

WAC 261-40-150 METHODOLOGY AND CRITERIA FOR APPROVAL, MODIFICATION, OR DISAPPROVAL OF ANNUAL BUDGET SUBMITTAL AND RATES, RATE SCHEDULES, OTHER CHARGES, AND CHANGES THEREIN. The following methodology and criteria shall be utilized by the commission in reviewing and acting on annual budget submittals. The relative importance of each criterion, and the extent to which justification for variance from the methodology and criteria is accepted, is a matter of commission discretion:

The following is effective for hospital fiscal years beginning in 1986.

(1) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:

(a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;

(b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;

(c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs;

(d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.

(2) Whether the commission action will permit any hospital to render necessary, effective and efficient service in the public interest.

(3) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care services.

(4) Whether the appropriate area-wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.

(5) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:

(a) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:

(i) Historical admission trends, including a revised current year estimate derived from seasonally-adjusted quarterly report information;

(ii) Historical trends of outpatient volumes as measured by inflation-adjusted outpatient revenue and outpatient equivalents of admissions;

(iii) Historical trends of the average length of stay; and

(iv) Such other information as the commission may determine is appropriate as a basis for deviating from measures based upon historical trends including, but not limited to:

(A) Revisions necessary to maintain compliance with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Negotiated rate agreements that guarantee additional volumes related to a purchaser of hospital health care services;

(C) The implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;

(D) The opening of new health care service-related capacity for which certificate of need approval has been obtained, if required; and

(E) Other considerations presented by the hospital and determined to be appropriate by the commission.

(b) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from revenue) per adjusted admission to the hospital's target net patient services revenue per adjusted admission as calculated in item (i) below and modified by item (ii) below:

(i) Each hospital's target net patient services revenue per adjusted admission shall be calculated by applying to the individual hospital the same methodology utilized by the commission in establishing the volume and operating expense components of the target dollar amount of total state-wide hospital revenue adopted by the commission in accordance with RCW 70.39.150(6), and adding a capital allowance component as calculated according to (d)(i)(B) and (C) of this subsection; provided that, the additional considerations provided for in (d)(i)(C)(I) and (II) of this subsection shall not be included in the capital allowance component of the target net patient services revenue per adjusted admission for purposes of this item.

(ii) The target net patient services revenue per adjusted admission as calculated in item (i) above shall be modified as follows, if applicable:

(A) For each hospital whose percentage increase in target net patient services revenue per adjusted admission over the current year approved level exceeds the peer group median of the target rates of increase, the hospital's target net patient services revenue per adjusted admission shall be reduced to reflect the peer group median target rate of increase.

(B) For each hospital whose target net patient services revenue per adjusted admission exceeds the peer group median of the target, the hospital's target shall be reduced by one-half of one percent for each one percent variance above the peer group median of the target.

(iii) If, after volume adjusting the revised target and the budget request to reasonably attainable levels of adjusted admissions, the requested net patient services revenue per adjusted admission does not exceed the revised target, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsection (5)(f), (6), and (7) of this section.

(iv) If, after volume adjusting the revised target and the budget request to reasonably attainable levels of adjusted admissions, the requested net patient services revenue per adjusted admission exceeds the revised target, further review of the components of operating expense and capital allowance will be conducted.

(c) The commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not exceed those that are necessary for a reasonably and prudently managed hospital, based upon:

(i) Adjusting the requested level of operating expenses to reflect the adjusted admissions as determined according to (a) of this subsection, utilizing the variable cost factors described in subsection (6) of this section;

(ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic conditions, as appropriate;

(iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection (6) of this section or inflation forecasts. This information shall include but not be limited to:

(A) Revisions necessary to comply with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;

(C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required;

(D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection (6) of this section inappropriate; and

(E) Other consideration presented by the hospital and determined to be appropriate by the commission.

(d) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:

(i) Capital allowance shall be computed as a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations. Interest expense on long-term debt shall be deducted from the return on net property, plant and equipment.

(A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.

(I) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate of need has been issued by the department of social and health services;

(II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's Accounting and Reporting Manual for Hospitals, pursuant to WAC 261-20-030, will be excluded from the base.

(B) A return on net property, plant and equipment for proprietary hospitals at the rate of twelve percent and for the not-for-profit hospitals at the rate of ten percent shall be presumed appropriate; however, the commission may vary from that rate, higher or lower, where appropriate. After computation of the return, allowable interest expense on long-term debt shall be deducted from the computed return.

(C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to twelve and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate.

(I) The commission may determine that a hospital in peer groups 1 or 2 is experiencing financial distress and may determine to vary from the allowance for working capital.

(II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable.

(D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the following elements:

(I) Hospitals that have been undercapitalized as determined by the average age of plant to the state-wide average; the total turnover rate of assets, which include total operating revenue divided by total assets; and the fixed asset turnover rate, which includes total operating revenue divided by net fixed assets;

(II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;

(III) If the hospital has been approved for equity funding or accumulation of funds for a project in the future and its rates are at or below the median of its peer group and the equity funding is consistent with the hospital's long-range plan and financing plan which have been approved by the hospital's governing body; and

(IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be excessive by the commission.

(e) Whether the budgeted deductions from revenue are appropriate:
 (i) Contractual adjustments related to governmental programs, such as titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, Veteran's Administration and Indian Health Service, are allowable.

(ii) Contractual adjustments related to bank card discounts, self-insured workers' compensation, negotiated rates, unless a rate adjustment has been allowed as set out in WAC 261-40-155, and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;

(iii) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require justification;

(iv) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification;

(v) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.

(f) Whether the reviews performed in accordance with (a), (b), (c), (d) and (e) of this subsection result in rates, rate schedules, other charges, and changes therein which are the most reasonable under the circumstances.

(i) Rate setting revenue per adjusted admission should not exceed the 70th percentile of the peer group revenue screens unless the hospital's intensity exceeds the 70th percentile as measured by:

- (A) Ratio of intensive care days to total days; and
- (B) Radiology relative value units per adjusted admission; and
- (C) Laboratory billable workload units per adjusted admission; and
- (D) Surgery minutes per adjusted admission; or
- (E) The hospital's adjusted case mix index derived from the commission hospital abstract reporting system.

(ii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by the hospitals;

(iii) If the rates are not approved as requested, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order.

(6) Whether the rates implemented and revenues collected by the hospital in previous budget years conformed to the applicable commission determinations for such years. Conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of either the aggregate rate per adjusted patient day, or the revenues for individual revenue centers, as either may be modified, where appropriate, for volume variance between budgeted and actual levels; such comparison shall be made using actual, rather than budgeted, deductions from revenue.

The approved capital allowance shall be considered a fixed cost when considering year-end conformance. Only that portion of total costs per patient day designated as variable according to the following schedule will be adjusted for volume variance:

Peer groups 1 and 2 and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent

Peer groups 3 and 4 and specialty hospitals having fifty or more beds; fixed costs - seventy percent, variable costs - thirty percent

Peer groups 5 and 6 hospitals; fixed costs - sixty percent, variable costs - forty percent

Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs, either in the aggregate or by revenue center. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable revenue variance due to volume changes.

The hospital may submit any justifying information to explain deviations/variances from approved revenues.

(7) Whether the hospital or its medical staff either adopts or maintains admission practices or policies which result in:

(a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;

(b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services;

(c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.

The following is effective for hospital fiscal years beginning on or after January 1, 1987.

~~((+))~~ (8) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:

(a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;

(b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;

(c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs;

(d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.

~~((+))~~ (9) Whether the commission action will permit the hospital to render necessary, effective and efficient service in the public interest.

~~((+))~~ (10) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care services.

~~((+))~~ Rural includes all areas of the state with the following exceptions:

~~((+))~~ (a) The entire counties of Snohomish (including Camano Island), King, Kitsap, Pierce, Thurston, Clark, and Spokane;

~~((+))~~ (b) Areas within a twenty-mile radius of an urban area exceeding thirty thousand population; and

~~((+))~~ (c) Those cities or city-clusters located in rural counties but which for all practical purposes are urban. These areas are Bellingham, Aberdeen-Hoquiam, Longview-Kelso, Wenatchee, Yakima, Sunnyside, Richland-Kennewick-Pasco, and Walla Walla.

~~((+))~~ (11) Whether the appropriate area-wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.

~~((+))~~ (12) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:

(a) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:

(i) Historical admission trends, including a revised current year estimate derived from seasonally-adjusted quarterly report information;

(ii) Historical trends of outpatient volumes as measured by inflation-adjusted outpatient revenue and outpatient equivalents of admissions;

(iii) Historical trends of the average length of stay;

(iv) Historical case mix indices as obtained from the Commission Hospital Abstract Reporting System; and

(v) Such other information as the commission may determine is appropriate as a basis for deviating from measures based upon historical trends including, but not limited to:

(A) Revisions necessary to maintain compliance with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Negotiated rate agreements that guarantee additional volumes related to a purchaser of hospital health care services;

(C) The implementation or deletion of services or programs for which certificate of need approval has been obtained, if required; and

(D) Other considerations presented by the hospital or other interested persons and determined to be appropriate by the commission.

(b) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from revenue) per adjusted case mix value unit to the hospital's baseline net patient services revenue per adjusted case mix value unit as calculated in item (i) below and modified by item (ii) below:

(i) Each hospital's baseline net patient services revenue per adjusted case mix value unit shall be calculated by applying to the individual hospital the same methodology utilized by the commission in establishing the volume, operating expense, and capital allowance components of the allocated target dollar amount of total state-wide hospital

revenue adopted by the commission in accordance with RCW 70.39.150(6).

(ii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit does not exceed the revised baseline, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsection ~~((6))~~ (12)(f), ~~((6))~~ (13), and ~~((7))~~ (14) of this section.

(iii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit exceeds the revised baseline, further review of the components of operating expense and capital allowance will be conducted.

(c) The commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not exceed those that are necessary for a reasonably and prudently managed hospital, based upon:

(i) Adjusting the requested level of operating expenses to reflect the adjusted case mix value units as determined according to (a) of this subsection, utilizing the variable cost factors described in subsection ~~((6))~~ (13) of this section;

(ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic conditions, as appropriate;

(iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection ~~((6))~~ (13) of this section or inflation forecasts. This information shall include but not be limited to:

(A) Revisions necessary to comply with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;

(C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required;

(D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection ~~((6))~~ (13) of this section inappropriate; and

(E) Other consideration presented by the hospital and determined to be appropriate by the commission.

(d) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:

(i) Capital allowance includes a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations, an allowance for working capital, and other considerations as determined to be appropriate by the commission.

(A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.

(I) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate of need has been issued by the department of social and health services;

(II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's Accounting and Reporting Manual for Hospitals, pursuant to WAC 261-20-030, will be excluded from the base.

(B) A return on net property, plant and equipment as determined in (I), (II), and (III) below shall be presumed appropriate; however, the commission may vary from that rate, higher or lower, where appropriate.

(I) The rate of return on equity financed net property, plant and equipment shall be calculated by averaging the reported interest rates

on twenty-five-year "A" rated tax-exempt bonds as reported in each issue of "Rate Controls" from the three months ending on August 31 of each year.

(II) The rate of return on debt financed net property, plant and equipment shall be a blended average of each hospital's average interest rate on long-term debt and the rate of return on equity financed net property, plant and equipment. The blending schedule is as follows:

(aa) For hospital fiscal years beginning in 1987: Seventy-five percent - each hospital's average interest rate on long-term debt, twenty-five percent - rate of return on equity financed net property, plant and equipment;

(bb) For hospital fiscal years beginning in 1988: Fifty percent - each hospital's average interest rate on long-term debt, fifty percent - rate of return on equity financed net property, plant and equipment;

(cc) For hospital fiscal years beginning in 1989: Twenty-five percent - each hospital's average interest rate on long-term debt, seventy-five percent - rate of return on equity financed net property, plant and equipment;

(dd) For hospital fiscal years beginning in 1990 and each year thereafter: Zero percent - each hospital's average interest rate on long-term debt, one hundred percent - rate of return on equity financed net property, plant and equipment.

(III) After computation of the return on net property, plant and equipment, allowable interest expense on long-term debt shall be deducted from the computed return.

(C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to thirteen and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate.

(I) The commission may determine that a hospital which is found essential to assure access of the rural public to basic health care services is experiencing financial distress and may determine to vary from the allowance for working capital.

(II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable.

(D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the following elements:

(I) Hospitals that have been undercapitalized as determined by an average accounting age of property, plant and equipment which exceeds one hundred fifty percent of the state-wide average; and a total turnover rate of assets which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest Hospital Industry Analysis Report of the healthcare financial management association or a fixed asset turnover rate which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest Hospital Industry Analysis Report of the healthcare financial management association, provided that:

(aa) The total level of capital allowance for undercapitalized hospitals should not exceed one hundred twenty-five percent of the baseline level; and

(bb) The requested rate per adjusted admission, as revised to reflect the hospital's case mix index, does not exceed the peer group median; and

(cc) The resulting increase in the rate per adjusted case mix value unit does not exceed one hundred twenty-five percent of the baseline median rate of increase.

(II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;

(III) If the hospital has been approved for equity funding or accumulation of funds for a project in the future and its rate per adjusted case mix value unit is at or below the median of its peer group, the proposed project is consistent with the hospital's long-range plan and financing plan which have been approved by the hospital's governing body, the proposed project is consistent with the health systems plan of the appropriate health systems agency, and any equity funding allowed in total rate setting revenue is maintained in a separate subaccount within board designated assets and cannot be used for any other purpose without prior approval of the commission; and

(IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be excessive by the commission.

(e) Whether the budgeted deductions from revenue are appropriate:

(i) Contractual adjustments related to governmental programs, such as titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, self-insured workers' compensation, Veteran's Administration, and Indian Health Service are allowable.

(ii) Contractual adjustments related to bank card discounts, negotiated rates, unless a rate adjustment has been allowed as set out in WAC 261-40-155, and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;

(iii) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require justification;

(iv) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification;

(v) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.

(f) Whether the reviews performed in accordance with (a), (b), (c), (d) and (e) of this subsection result in rates, rate schedules, other charges, and changes therein which are the most reasonable under the circumstances.

(i) Rate setting revenue per adjusted case mix value unit should not exceed the 70th percentile of the peer group revenue screens as adjusted for each hospital's case mix index unless the hospital demonstrates to the commission's satisfaction that the relatively high rates are acceptable.

(ii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by the hospitals;

(iii) If the rates are not approved as requested, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order.

~~((67))~~ (13) Whether the rates implemented and revenues collected by the hospital in previous budget years conformed to the applicable commission determinations for such years.

(a) Conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of the aggregate rate per adjusted case mix value unit. The revenues may be modified, where appropriate, for volume variance between budgeted and actual levels of adjusted case mix value units.

(b) Actual allowable, rather than budgeted, deductions from revenue will be used in the conformance calculation.

(c) The approved capital allowance shall be considered a fixed cost when considering year-end conformance.

(d) Only that portion of total operating costs designated as variable according to the following schedule will be adjusted for volume variance:

(i) Peer Group A and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent;

(ii) Peer Group B and specialty hospitals having from fifty to one hundred seventy-five beds; fixed costs - sixty-five percent, variable costs - thirty-five percent;

(iii) Peer Group C and specialty hospitals having more than one hundred seventy-five beds; fixed costs - fifty percent, variable costs - fifty percent.

(e) Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs by natural classification of expense. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable operating expense variance due to volume changes.

(f) The hospital may submit any proposed justifying information to explain deviations/variances from approved revenues.

(i) Any proposed justifying information must include at least the following supporting information:

(A) The exact nature and extent of the factors contributing to excess revenue;

(B) The date at which hospital management became aware of the factors contributing to excess revenue;

(C) The date at which hospital management increased rates above the allowable level taking into account volume changes and actual deductions from revenue;

(D) An explanation of efforts to reduce other components of the budget to offset the factors contributing to the excess revenues; and

(E) An explanation of why the hospital did not seek a budget amendment.

(ii) In no event will increased operating expenses be accepted as justification if the volume adjusted allowable operating expenses equal or exceed the actual level.

(iii) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been controlled by hospital management.

(iv) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been anticipated by the hospital or could have been identified by the hospital in sufficient time to submit a budget amendment in accordance with WAC 261-20-045.

(v) In no event will capital allowance in excess of the approved level be accepted as justification.

(vi) Hospitals will be allowed to retain any actual capital allowance in excess of the approved level that results from cost effective practices as defined as, and measured by, actual operating expenses that are below the volume adjusted approved operating expenses.

(g) Staff shall notify each hospital found to be out of conformance based on this subsection, and a hearing shall be conducted by the commission on conformance within sixty days. If the commission determines that a hospital's revenues have not conformed to the applicable determinations for that year, a decision and order will be issued reducing the hospital's current budget and rates by the amount that actual revenues exceed allowable revenues.

~~((77))~~ (14) Whether the hospital or its medical staff either adopts or maintains admission practices or policies which result in:

(a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;

(b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services;

(c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.

AMENDATORY SECTION (Amending Order 86-01, Resolution No. 86-01, filed 5/16/86)

WAC 261-40-170 NEGOTIATED RATES. (1) After July 1, 1985, any hospital may negotiate with and charge any particular payer or purchaser rates that are less than those approved by the commission, if:

(a) The rates are cost justified; and

(b) The rates do not result in any shifting of costs to other payers or purchasers in the current or any subsequent year; and

(c) The rates do not result in any policies which limit access to individuals who are unable to pay or for whom the hospital receives less than anticipated charges for or costs of necessary health care services; and

(d) All the terms of such negotiated rates are filed with the commission within ten working days and made available for public inspection.

(2) Within ten working days after the contract is signed, the hospital must submit full disclosure of each negotiated rate, including:

(a) The names of the parties to the negotiation;

(b) The period of time covered by the agreement;

(c) The negotiated rate or the amount of the reduction from the rate approved by the commission; and

(d) Any other terms or conditions related to the negotiated rates.

(3) Following publication of a negotiated rate as required by ~~((WAC 261-40-170))~~ subsection (8) of this section, each hospital shall make the information reported in ~~((WAC 261-40-170))~~ subsection (2) of this section for that negotiated rate available to the public upon request.

(4) The differential between billed charges, based on the hospital's full established rates, and the payment received, based on the negotiated rate, must be separately identified for each negotiated contract and reported on lines 23-31, Form SS-8 deductions from revenue. These amounts are "memo" only and may not be allocated to other payers or purchasers in the current or any subsequent year unless a rate adjustment has been allowed as set out in WAC 261-40-155.

(5) The commission shall review a negotiated rate upon the request of any concerned party. Such a request shall include the following:

(a) Identification of the party requesting the review;

- (b) Identification of the particular negotiated rate involved;
- (c) A clear statement of the violation alleged, e.g., it is not cost justified; it results in a cost shift to other payers or purchasers; or it does not otherwise conform with the provisions of RCW 70.39.140;
- (d) A statement of how the party is affected by the negotiated rate;
- (e) Evidence supporting the party's claim; and
- (f) The action requested of the commission.
- (6) If upon review the negotiated rate is found to contravene any provision of RCW 70.39.140, the commission may disapprove such rate. Such disapproval shall be effective as of the date of the commission's order disapproving the negotiated rate. Once a negotiated rate is disapproved by the commission, the hospital may no longer charge such rate.
- (7) The commission will publish on meeting agendas a list of all negotiated rates filed by hospitals, including the names of the parties to the negotiation, within thirty days after filing.
- (8) The provisions of (~~WAC 261-40-170~~) this section apply to all negotiated rates in effect on or after July 1, 1985.

PROPOSED RULES
DEPARTMENT OF ECOLOGY
 [Filed September 17, 1986]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington Department of Ecology intends to adopt, amend, or repeal rules concerning implementation of regulations for air contaminant sources, chapter 173-403 WAC. A new section is added setting forth rules for determining creditable stack height and dispersion techniques. Provision is made to allow the department to require modeling to demonstrate creditable height where formula height is exceeded. Definitions are changed for consistency with the new provisions;

that the agency will at 11:00 a.m., Friday, October 31, 1986, in the Department of Ecology, Rowesix, 4224 6th Avenue S.E., Building 4, Lacey, WA 98504-8711, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 5, 1986.

The authority under which these rules are proposed is chapters 70.94 and 43.21A RCW.

The specific statute these rules are intended to implement is RCW 70.94.331.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 31, 1986.

STATEMENT OF PURPOSE

Title: Implementation of regulations for air contaminant sources, chapter 173-403 WAC.

Description of Purpose: Establish procedures for implementation of regulations and rules.

Statutory Authority: Chapters 43.21A and 70.94 RCW.

Summary of Rule: Maintain compatibility between state and federal regulations where air control programs have been delegated to the department.

Reasons Supporting Proposed Action: It is stated policy in the state Clean Air Act to cooperate with the federal government to insure coordination of programs.

Agency Personnel Responsible for Drafting: Pamela G. Jenkins, Air Quality Engineer 2, (206) 459-6368; and **Implementation and Enforcement:** Dan Johnson, Air Program Manager, (206) 459-6256.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: None.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: No.

Small Business Economic Impact Statement: Chapter 173-403 WAC (amended), implementation of regulations for air pollution sources. The impact on future small business versus large business sources will be no different than that which would have occurred in the absence of state action, since federal requirements would then become applicable.

The Regulatory Fairness Act, chapter 19.85 RCW, requires that rules which have an economic impact on more than 20 percent of all industries or more than 10 percent of the businesses in any one industry be reviewed and altered to minimize their impact upon small businesses. This regulatory proposal has been reviewed in light of that requirement. The conclusions of this review are summarized below.

The general effect of this regulation is a limitation on the use of stack height as a technique for dispersion of pollutants emitted into the ambient air, plus a minor restriction of the use of intermittent operation during periods when atmospheric conditions are not conducive to good dispersion. These changes to chapter 173-403 WAC are being adopted to bring state regulations into conformity with federal standards. Limitations on the applicability of these changes make it extremely unlikely that they will apply to any existing stationary air pollutant source within Washington. Their impact on future small vs. large business sources will be no different than that which would have occurred in the absence of state action, since federal requirements would then become applicable.

AMENDATORY SECTION (Amending Order 84-49, filed 3/6/85)

WAC 173-403-030 DEFINITIONS. Unless a different meaning is clearly required by context, words and phrases used in this chapter and other chapters of Title 173 WAC shall have the following meanings:

(1) "Actual emissions" as of a particular date means the average rate, in weight per unit time, with air pollution controls applied, at which the affected emission unit emitted the pollutant during the two-year period which precedes the particular date, and which is representative of normal operation. An adjustment may be made to the average annual emission rate to account for unusual circumstances during the two-year period. The department or cognizant local authority may allow or require the use of an alternative time period upon a determination that the alternative time period is more representative of normal operation than is the immediately-preceding two years. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

The department or cognizant local authority may presume that source-specific allowable emissions, which incorporate limits on hours

of operation or production rate, are equivalent to the actual emissions of the unit.

(2) "Adverse impact on visibility" means visibility impairment which interferes with the management, protection, preservation, or enjoyment of the visitor's visual experience of the Federal Class I area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency, and time of visibility impairments, and how these factors correlate with (a) times of visitor use of the Federal Class I area, and (b) the frequency and timing of natural conditions that reduce visibility. This term does not include effects on integral vistas.

(3) "Air contaminant" means dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substance, or any combination thereof. "Air pollutant" means the same as "air contaminant."

(4) "Air pollution" means the presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities, and of such characteristics and duration as is, or is likely to be, injurious to human health, plant or animal life, or property, or which unreasonably interferes with enjoyment of life and property.

(5) "Allowable emissions" means the emission rate calculated using the maximum rated capacity of the source (unless the source is limited in production rate or hours of operation, or both, by an applicable regulatory order) and the most stringent of (a), (b), or (c) of this subsection. Physical and process limitations must be considered in determining maximum rated capacity.

(a) Standards as set forth in 40 CFR Part 60 and Part 61, if applicable to the source; or

(b) The applicable state implementation plan emission limitation; or

(c) The emission rate specified by an applicable regulatory order.

(6) "Ambient air" means the surrounding outside air.

(7) "Ambient air quality standard" means an established concentration, exposure time, and frequency of occurrence of air contaminant or multiple air contaminants in the ambient air which shall not be exceeded.

(8) "Best available control technology (BACT)" means technology which will result in an emission limitation (including a visible emission standard) based on the maximum degree of reduction for each air pollutant subject to this regulation which would be emitted from any proposed new or modified source which the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such sources or modification through application of production processes, available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such air pollutant. In no event shall application of the best available technology result in emissions of any air pollutant which would exceed the emissions allowed by any applicable standard under 40 CFR Part 60 and Part 61. If the reviewing agency determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of an emission standard infeasible, it may instead prescribe a design, equipment, work practice or operational standard, or combination thereof, to meet the requirement of best available control technology. Such standard shall, to the degree possible, set forth the emission reduction achievable by implementation of such design, equipment, work practice or operation and shall provide for compliance by means which achieve equivalent results. The requirement of RCW 70.94.152 that a new source will provide "all known available and reasonable methods of emission control" is interpreted to mean the same as best available control technology.

(9) "Best available retrofit technology (BART)" means any emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant which is emitted by source. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology. If an emission limitation is not feasible, a design, equipment, work practice, operational standard, or combination thereof, may be required. Such standards shall, to the degree possible, set forth the emission reductions achieved and provide for compliance by prescribing appropriate conditions in a regulatory order.

(10) "Bubble" means a set of emission limits which allows an increase in emissions from a given emissions unit or units in exchange for

a decrease in emissions from another emissions unit or units, pursuant to RCW 70.94 155.

(11) "Class I area" means any federal, state, or Indian land which is classified or reclassified Class I.

(12) "Cognizant local authority" means an air pollution control authority activated pursuant to chapter 70.94 RCW that has jurisdiction over the subject source.

(13) "Commenced construction" means that the owner or operator has all the necessary preconstruction approvals or permits and either has:

(a) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

(b) Entered into binding agreements or contractual obligations, which cannot be cancelled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

(14) "Department" means the Washington state department of ecology.

(15) "Director" means director of the Washington state department of ecology or duly authorized representative.

(16) "Dispersion technique" means ((any one of the following:

(a) A stack whose height exceeds good engineering practice; or

(b) An intermittent or supplemental control of pollutants varying with atmospheric conditions, including any method which attempts to affect the concentration of a pollutant according to atmospheric conditions and the manipulation of source process parameters or selective handling of exhaust gas streams; or

(c) Use of a fan or reheater to obtain a less stringent emission limitation)) a method which attempts to affect the concentration of a pollutant in the ambient air, other than by the use of pollution abatement equipment or integral process pollution controls.

(17) "Emission" means a release of air contaminants into the ambient air.

(18) "Emission reduction credit (ERC)" means a credit granted to a source for a voluntary reduction in actual emissions.

(19) "Emission standard" means a regulation or regulatory order (or portion thereof) setting forth an allowable rate of emissions, level of opacity, or prescribing equipment or operating conditions that result in control of air pollution emission.

(20) "Emissions unit" means any equipment, device, process, or activity that ((~~produces and~~)) emits to the ((~~outside~~)) ambient air, or that may ((~~produce and~~)) emit to the ((~~outside~~)) ambient air, any air contaminant ((~~regulated by state or federal law~~)).

(21) "Excess stack height" means that portion of a stack which exceeds the greater of sixty-five meters or the calculated stack height described in WAC 173-403-140(2).

(22) "Fugitive emissions" means emissions which do not pass and which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

((22)) (23) "Good engineering practice (GEP)" refers to ((the height of a stack and means one of the following, whichever is the greatest:

(a) Sixty-five meters; or

(b) Height determined by formula. For stacks in existence on or before January 12, 1979, formula height is two and one-half times the height of any nearby structure. For stacks constructed after January 12, 1979, formula height is the height of any nearby structure plus one and one-half times the height or width of said structure, whichever is lesser. The height of the nearby structure is measured from ground level at the base of the stack. "Nearby," as used in this paragraph, means that distance up to five times the lesser of the height or width dimension of said structure, but no greater than .8 kilometer; or

(c) Height determined by physical demonstration of need to prevent excessive concentrations of a pollutant due to downwash, wakes, or eddies created by structures or terrain obstacles. To make such a demonstration it is required that maximum concentrations caused by the source's emissions from its proposed stack height, without consideration of nearby structures or terrain obstacles, will increase at least forty percent when the effects of the structures or terrain obstacles are considered. This difference in concentrations must be shown either by a fluid model study conducted in accordance with guidelines published by the environmental protection agency or by a field study which has been approved by the department or cognizant local authority. Such a study may be approved only after public involvement pursuant to WAC 173-403-110)) a calculated stack height based on the equation specified in WAC 173-403-140 (2)(a)(ii).

~~((23))~~ (24) "In operation" means engaged in activity related to the primary design function of the source.

~~((24))~~ (25) "Integral vista" means a view perceived from within the Class I area of a specific landmark or panorama located outside the boundary of the Class I area.

~~((25))~~ (26) "Land manager" means the secretary of the federal or head of the state department or Indian governing body with authority over the Class I area.

~~((26))~~ (27) "Lowest achievable emission rate (LAER)" means for any source that rate of emissions which reflects:

(a) The most stringent emission limitation which is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed new or modified source demonstrates that such limitations are not achievable; or

(b) The most stringent emission limitation which is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

~~((27))~~ (28) "Major emissions unit" means any emissions unit which has actual or allowable emissions of one hundred tons per year or more of any pollutant regulated by state or federal law.

~~((28))~~ (29) "Major modification" means (a), (b), or (c) of this subsection, whichever is the most stringent:

(a) Any physical change or change in the method of operation of a major source, a source that would become a major source as a result of the proposed change, or a major emissions unit or an emissions unit that would become a major emissions unit as a result of the proposed change that is located in an area that is not in attainment for the pollutant under consideration or is located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, which change would cause a net significant emissions increase for any pollutant regulated by state or federal law, except that a net significant emissions increase for any one of the following reasons shall not, in itself, cause the change to be a major modification:

(i) Use of an alternative fuel or raw material by reason of an order under Sections 2 (a) and (b) of the Federal Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan pursuant to the Federal Power Act; or

(ii) Use of an alternative fuel by reason of an order or rule under Section 125 of the Federal Clean Air Act; or

(iii) Use of an alternative fuel or raw material that the source is capable of accommodating and was capable of accommodating prior to December 21, 1976, unless such change in fuel or raw material use is prohibited by a regulatory order; or

(iv) Use of an alternative fuel at a steam-generating unit to the extent that the fuel is generated from municipal solid waste; or

(v) An increase in the hours of operation or the production rate unless such increases are prohibited by a regulatory order.

(b) Any physical change or change in the method of operation of a major source, a source that would become a major source as a result of the proposed change, or a major emissions unit or an emissions unit that would become a major emissions unit as a result of the proposed change that is located in an area that is not in attainment for the pollutant under consideration or is located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, which change would cause the allowable emissions to be exceeded.

(c) Any reconstruction of a major source, or any reconstruction of a major emissions unit that is located in an area that is not in attainment for the pollutant under consideration or located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, for which reconstruction the fixed capital cost of the new components exceeds fifty percent of the fixed capital cost of a comparable entirely new source or emissions unit.

~~((29))~~ (30) "Major source" means any source which has actual or allowable emissions of one hundred tons per year or more of any pollutant regulated by state or federal law.

~~((30))~~ (31) "National Emission Standards for Hazardous Air Pollutants (NESHAPS)" means the federal regulations set forth in 40 CFR Part 61, as promulgated prior to January 1, 1983.

~~((31))~~ (32) "Natural conditions" include naturally occurring ~~(phenomenon)~~ phenomena that reduce visibility as measured in terms of visual range, contrast, or coloration.

~~((32))~~ (33) "Net emissions increase" means the amount by which the sum of the following exceeds zero:

(a) Any increase in actual emissions of a pollutant resulting from a physical change or change in method of operation of a specific emission unit in a source; and

(b) Any other increases or decreases in actual emissions of the same pollutant from the source that are contemporaneous with the change: PROVIDED, That

(i) Said other increases or decreases are contemporaneous with the change only if they occur at the same time or within one year prior to the change, or if said decrease(s) has been documented by an emission reduction credit; and

(ii) Said other decreases in emissions are creditable only to the extent that the old level of actual emissions or the old level of allowable emissions, whichever is the lesser, exceeds the new level of allowable emissions; and

(iii) Said other decreases in emissions are not creditable if the specific emissions unit is a major emissions unit and is located (A) in an area that is not in attainment for the pollutant or (B) in an area that is not in attainment for ozone and the pollutant is volatile organic compounds; and

(iv) The determination of net emissions increase shall be valid only after a regulatory order has been issued which establishes that the new emissions from every emissions unit involved in the determination are equal to the new allowable emissions expressed as weight of the pollutant per unit time.

~~((33))~~ (34) "New source" means a source which commences construction after the effective date of this chapter. Addition to, enlargement, modification, replacement, or any alteration of any process or source which may increase emissions or ambient air concentrations of any contaminant for which federal or state ambient or emission standards have been established shall be construed as construction or installation or establishment of a new source. In addition every major modification shall be construed as construction or installation or establishment of a new source.

~~((34))~~ (35) "New source performance standards (NSPS)" means the federal regulations set forth in 40 CFR Part 60, as promulgated prior to ~~(January 1, 1983)~~ September 1, 1986.

~~((35))~~ (36) "Nonattainment area" means a clearly delineated geographic area which has been designated by EPA promulgation as exceeding a national ambient air quality standard or standards for one or more of the criteria pollutants.

NEW SECTION

WAC 173-403-141 CREDITABLE STACK HEIGHT AND DISPERSION TECHNIQUES. (1) Applicability. These provisions shall apply to all stationary sources except:

(a) Stacks for which construction had commenced or dispersion techniques which were implemented on or before December 31, 1970, except where pollutants are being emitted from such stacks or such dispersion techniques are used by sources which were constructed, or reconstructed, or for which major modifications were carried out after December 31, 1970;

(b) Coal-fired steam electric generating units subject to the provisions of Section 118 of the Federal Clean Air Act, which commenced operation before July 1, 1957, and for whose stacks construction commenced before February 8, 1974;

(c) Flares;

(d) Open burning for agricultural or silvicultural purposes as covered under the smoke management plan;

(e) Residential wood combustion and open burning for which episodic restrictions apply.

These provisions shall not be construed to limit the actual height of a stack nor to prohibit the use of dispersion techniques.

(2) Prohibitions. No source may employ any of the following dispersion techniques or excess stack height, as explained below, to meet ambient air quality standards or PSD increment limitations.

(a) Excess stack height. Excess stack height is that portion of a stack which exceeds the greater of:

(i) Sixty-five meters, measured from the ground level elevation at the base of the stack; or

$$(ii) H_g = H + 1.5L$$

where: H_g = "good engineering practice" (GEP) stack height, measured from the ground level elevation at the base of the stack,

H = height of nearby structure(s) measured from the ground level elevation at the base of the stack,

L = lesser dimension, height or projected width, of nearby structure(s), subject to the proviso below.

"Nearby," as used in this subsection for purposes of applying the GEP formula means that distance up to five times the lesser of the height or the width dimension of a structure, but not greater than 0.8 kilometer (1/2 mile).

Proviso: EPA, the state, or local control agency may require the use of a field study or fluid model to verify the creditable stack height for the source. This also applies to a source seeking credit after the effective date of this rule for an increase in existing stack height up to that established by the GEP formula. A fluid model or field study shall be performed according to the procedures described in the EPA Guideline for Determination of Good Engineering Practice Height (Technical Support Document of the Stack Height Regulations). The creditable height demonstrated by a fluid model or field study shall ensure that the emissions from a stack do not result in excessive concentrations of any air pollutant as a result of atmospheric downwash, wakes, or eddy effects created by the source itself, nearby structures or nearby terrain features.

"Nearby," as used in this proviso for conducting a field study or fluid model, means not greater than 0.8 km, except that the portion of a terrain feature may be considered to be nearby which falls within a distance of up to ten times the maximum height of the feature, not to exceed two miles if such feature achieves a height 0.8 km from the stack that is at least forty percent of the GEP stack height or twenty-six meters, whichever is greater, as measured from the ground-level elevation at the base of the stack. The height of the structure or terrain feature is measured from the ground-level elevation at the base of the stack.

"Excessive concentration" is defined for the purpose of determining creditable stack height under this subsection and means a maximum ground-level concentration owing to a significant downwash effect which contributes to excursion over an ambient air quality standard. For sources subject to the prevention of significant deterioration (PSD) program (WAC 173-403-080 and 40 CFR 52.21) an excessive concentration alternatively means a maximum ground-level concentration owing to a significant downwash effect which contributes to excursion over a PSD increment. The emission rate used in this demonstration shall be the emission rate specified in the state implementation plan, or in the absence of such, the actual emission rate of the source. "Significant downwash effect" means a maximum ground-level concentration due to emissions from a stack due in whole or in part to downwash, wakes, and eddy effects produced by nearby structures or nearby terrain features which individually is at least forty percent in excess of the maximum concentration experienced in the absence of such downwash, wakes, or eddy effects.

(b) Manipulation to increase plume rise. Increasing final exhaust gas plume rise by manipulating source process parameters, exhaust gas parameters, stack parameters, or combining exhaust gases from several existing stacks into one stack; or other selective handling of exhaust gas streams so as to increase the exhaust gas plume rise. This does not include:

(i) The reheating of a gas stream, following the use of a pollution control system, for the purpose of returning the gas to the temperature at which it was originally discharged from the facility generating the gas stream;

(ii) The merging of gas streams where:

(A) The source was originally designed and constructed with such merged gas streams, as demonstrated by the source owner or operator.

(B) After July 8, 1985, such merging is part of a change in operation at the facility that includes the installation of pollution controls and is accompanied by a net reduction in the allowable emissions of a pollutant. This exclusion from the description of "dispersion techniques" shall apply only to the emission limitation for the pollutant affected by such change in operation.

(C) Before July 8, 1985, such merging was part of a change in operation at the facility that included the installation of emissions control equipment or was carried out for sound economic or engineering reasons, and not primarily motivated by an intent to gain emissions credit for greater dispersion.

NEW SECTION

WAC 173-403-145 ADJUSTMENT FOR ATMOSPHERIC CONDITIONS. Varying the rate of emission of a pollutant according to atmospheric conditions or ambient concentrations of that pollutant is prohibited, except as directed according to air pollution episode regulations.

REPEALER

Summary of Rule and Reasons Supporting Proposed Action: The rule has been in effect for a number of years but has been judged to exceed the state board's authority under the statute. The amendments reported here merely correct that condition as it relates to determining which students are eligible to receive waivers, including certain nonresident students.

Agency Personnel Responsible for Drafting: Gilbert J. Carbone, Assistant Director; Implementation: Jan Yoshiwara, Assistant Director; and Enforcement: John N. Terrey, Director, 319 Seventh Avenue, FF-11, Olympia, WA 98504, (206) 753-2000.

Person or Organization Proposing Rule: State Board for Community College Education.

Agency Comments: None.

Federal Law or Federal or State Court Action Necessitating Rule: None.

AMENDATORY SECTION (Amending Order 94, Resolution No. 82-37, filed 10/26/82)

WAC 131-28-040 **CRITERIA FOR DETERMINING ELIGIBILITY FOR WAIVER OF TUITION AND FEES UNDER RCW 28B.15.740.** Waiver of general tuition, operating, and services and activities fees, or any portions thereof as authorized by RCW 28B.15.740, normally charged to students enrolled shall be based upon the determination that the student is a needy student by application of a method of need analysis approved by the United States Department of Education for determining awards under federal student financial aid programs or one adopted by the state board for community college education specifically for the purposes of this section, (~~provided that no waivers under this section shall be granted to a person who is not a "resident student" as defined in RCW 28B.15.012~~) except as provided in WAC 131-28-045.

AMENDATORY SECTION (Amending Order 94, Resolution No. 82-37, filed 10/26/82)

WAC 131-28-045 **PROCEDURE FOR IMPLEMENTING TUITION AND FEE WAIVERS AUTHORIZED PURSUANT TO RCW 28B.15.740.** (1) Tuition and fee waivers for needy students in any fiscal year as authorized by RCW 28B.15.740 may not exceed three percent of any college district's estimated total collections of tuition, operating, and services and activities fees had no such waivers been made, after deducting the portion of that total amount which is attributable to the difference between resident and nonresident tuition and fees.

(2) The estimated total collection of tuition and fees shall be based on budgeted, state supported, four-quarter annual average enrollment.

(3) Each district may waive an amount not to exceed three percent of the estimated collections in the event that actual enrollments or collections exceed estimated collections. Conversely, the three percent waiver capacity based upon estimated collections is allowable even though actual collections may not be as high as the estimate.

(4) Districts desiring to exceed their individual three percent waiver capacity may do so only upon written approval from the state director of community colleges or his designee. This waiver capacity can only be granted to a district after it has been determined that the total waiver capacity for the community college system is not being utilized as a result of other districts waiving at levels less than the three percent capacity.

(5) At least three-fourths of the total amount waived by any district shall be for needy (resident) students who are eligible to pay resident tuition and fee rates as defined in RCW 28B.15.012 through 28B.15.015 and the remainder may be for other resident students as determined by the board of trustees, except that no such waivers shall be based on participation in intercollegiate athletic programs.

STATEMENT OF PURPOSE

Title: Administration of surface and groundwater codes—Storage dams—Fees for the examination of plans and specifications as to safety and for construction inspection of controlling works for storage of ten acre-feet or more of water.

Description of Purpose: See attached – WAC 508-12-310.

Statutory Authority: RCW 90.03.350, 90.03.470 (8) and (9) and 43.21.130(2).

Summary of Rule: WAC 508-12-300 through 508-12-380 Storage dams—Plan examination and construction inspection fees. In accordance with RCW 90.03.350, any person, corporation, or association intending to construct or modify any dam or controlling works for the storage of ten acre-feet or more of water shall, before beginning said construction or modification, submit plans and specifications of the same to the department for examination and approval as to its safety. It is further required by RCW 90.03.470(9), that fees be collected by the department, in advance, for the examination of plans and specifications. The fee shall be a minimum of ten dollars or the actual cost. In addition, the department is required by RCW 43.21.130(2) to inspect the construction of all dams in order to reasonably secure safety to life and property. It is required by RCW 90.03.470(8) that fees be collected, in advance, for the actual cost of the inspection including the expense incident thereto. The proposed rules provide a standardized equitable procedure for recovering most of the actual costs to the department of these activities. The rules contain the following sections: WAC 508-12-300 Authority; 508-12-310 Purpose; 508-12-320 Applicability; 508-12-330 Definitions; 508-12-340 New project fees; 508-12-350 Project modification fees; 508-12-360 Maintenance; 508-12-370 Fee payment; and 508-12-380 Effective date.

Reasons Supporting Proposed Action: Implement intent of the law.

Agency Personnel Responsible for Drafting, Implementation and Enforcement: M. Edward Garling, Department of Ecology HQ, (206) 459-6046.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: Implementation will impose a workload increase on existing section personnel. Additional legal action is anticipated to collect larger fees.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: N/A.

Small Business Economic Impact Statement: Chapter 508-12 WAC (amended), Dam plan and construction safety inspection fees.

The Regulatory Fairness Act, chapter 19.85 RCW, requires that rules which have an economic impact on more than 20 percent of all industries or more than 10 percent of the businesses in any one industry be reviewed and altered to minimize their impact upon small businesses. This regulatory proposal has been reviewed in light of that requirement. The conclusions of this review are summarized below.

This new material has been added to chapter 508-12 WAC in order to implement RCW 90.03.470 (8) and (9) which require the collection of fees for the examination and approval of plans and the inspection of the construction for safety of all new storage dams or dam modifications. These fees are to be based on the costs of these departmental activities. Analysis has shown that the costs incurred by the department vary directly with the size of the structure. A graduated fee structure has been proposed which takes this relationship into account — larger dams or modifications thereto imply higher fees.

Although this may not be true in all instances, it seems reasonable to assume that small sized dams will be owned and operated by smaller public and private entities. The proposed fee structure would, thus, generally tend to impose a lighter cost burden on such entities. Thus, the requirements of chapter 19.85 RCW appear to have been satisfied to the maximum extent possible, given the requirements of RCW 90.03.470.

NEW SECTION

WAC 508-12-300 STORAGE DAMS—PLAN EXAMINATION AND CONSTRUCTION INSPECTION FEES—AUTHORITY. In accordance with RCW 90.03.350, any person, corporation, or association intending to construct or modify any dam or controlling works for the storage of ten acre-feet or more of water shall, before beginning said construction or modification, submit plans and specifications of the same to the department for examination and approval as to its safety. It is further required by RCW 90.03.470(9), that fees be collected by the department, in advance, for the examination of plans and specifications. The fee shall be a minimum of ten dollars or the actual cost. In addition, the department is required by RCW 43.21.130(2) to inspect the construction of all dams in order to reasonably secure safety to life and property. It is required by RCW 90.03.470(8) that fees be collected, in advance, for the actual cost of the inspection including the expense incident thereto.

NEW SECTION

WAC 508-12-310 STORAGE DAMS—PLAN EXAMINATION AND CONSTRUCTION INSPECTION FEES—PURPOSE. It is the purpose of this chapter to establish an equitable fee scale, based on relative impounding structure size, that will reflect the actual cost to the department for plan and specification examination and for construction inspection.

NEW SECTION

WAC 508-12-320 STORAGE DAMS—PLAN EXAMINATION AND CONSTRUCTION INSPECTION FEES—APPLICABILITY. The collection of fees for the examination of plans and specifications and for construction inspection as provided in WAC 508-12-340, 508-12-350 and 508-12-370 shall be required for all dams that are capable of impounding ten or more acre-feet of water, as determined at the maximum storage elevation of the impounding structure.

NEW SECTION

WAC 508-12-330 STORAGE DAMS—PLAN EXAMINATION AND CONSTRUCTION INSPECTION FEES—DEFINITIONS. (1) "Appurtenant works" means such structures as spillways, either in the dam or separate therefrom; the reservoir and its rim; low-level outlet works; and water conduits such as tunnels, pipelines, or penstocks, either through the dam or its abutments.

(2) "Crest length" means the total horizontal distance measured along the axis of the dam, at the elevation of the top of the dam, between abutments or ends of the dam. Where applicable, this includes the spillway, powerhouse sections and navigation locks, where they form a continuous part of the impounding structure.

(3) "Dam" means any artificial or combined artificial and natural barrier or controlling works, together with appurtenant works which can or does impound or divert water.

(4) "Dam abutment" means that contact location at either end and beneath the flanks of a dam where the artificial barrier joins or faces against the natural earth or rock foundation material upon which the dam is constructed.

(5) "Dam height" means the effective hydraulic height of a dam as measured by the vertical distance from the natural bed of the stream or watercourse at the downstream toe of the barrier to the maximum storage elevation. If the dam is not across a stream or watercourse, the height is measured from the lowest elevation of the outside limit of the barrier to the maximum storage elevation.

(6) "Department" means the department of ecology.

(7) "Enlargement" means any modification of a project that will result in an increase in reservoir capacity and/or dam height.

(8) "Impounding structure" means a dam and those other appurtenant works, including where applicable, the spillway, powerhouse sections and navigation locks, that are able to retain water.

(9) "Maintenance" means those tasks generally accepted as routine in keeping the project and appurtenant works in a serviceable condition.

(10) "Maximum storage elevation" means the maximum attainable water surface elevation of the reservoir pool impounded by a dam. This elevation normally corresponds to the crest elevation of the dam.

(11) "Modification" means any structural alteration of a dam, its reservoir, spillway(s), outlet(s) or other appurtenant works.

(12) "Normal pool height" means the dam height minus the vertical distance between the maximum storage elevation and the normal storage elevation.

(13) "Normal storage elevation" means the normal operating pool level in a reservoir. Where the principal spillway is ungated, the normal storage elevation is usually established by the level of that spillway crest.

(14) "Outlet" means a conduit and/or channel structure for the release of the contents normally impounded by a dam and reservoir.

(15) "Project" means a dam and reservoir project.

(16) "Reservoir" means any basin which contains or will contain the water impounded by a dam.

(17) "Significant enlargement" means any alteration of an existing dam that results in the dam height or normal pool height being increased by ten percent or more of that which existed prior to the modification.

(18) "Spillway" means a channel structure and/or conduit for the safe release of surplus water or floodwater.

(19) "Water" means water of any quality or any substance containing sufficient water to exist in a liquid or slurry state at the time of initial containment by an impounding structure.

NEW SECTION

WAC 508-12-340 STORAGE DAMS—PLAN EXAMINATION AND CONSTRUCTION INSPECTION FEES—NEW PROJECT FEES. Fees for the examination of plans and specifications and for construction inspection for new project construction shall be the amounts shown in Table 1 as determined by the nearest values of dam height and crest length, in feet, which correspond to the project's planned dam height and crest length.

STATEMENT OF PURPOSE

Title and Number of Rule Sections or Chapters: Chapter 296-15 WAC, Rules and regulations for self-insured employers; includes WAC 296-15-030 Posting of security; and new section WAC 296-15-065 Self-insurer's insolvency fund.

Statutory Authority: RCW 51.04.020.

Specific Statute that Rule is Intended to Implement: Chapter 51.14 RCW.

Summary of the Rules: To make the following substantive and updating changes in chapter 296-15 WAC: Amendments to WAC 296-15-030 set security requirements for self-insured employers, specifically, for self-insured governmental units; and new section WAC 296-15-065 establishes guidelines for a self-insurer insolvency trust as required by new legislation.

Reasons Supporting the Proposed Rules: These amendments and new section intend to define security requirements for self-insured governmental units as the financial structure of those units can vary from private industry; recent legislation mandates an insolvency fund and a rule is necessary to set guidelines for the fund.

Agency Personnel Responsible for Drafting, Implementation and Enforcement of the Rules: Joseph A. Dear, Deputy Director, (206) 753-6308, HC-101; and Douglas Connell, Self-Insurance Administrator, (206) 753-3677, HC-221, Department of Labor and Industries, General Administration Building, Olympia, WA 98504.

Name of Person or Organization, Whether Private, Public or Governmental, that is Proposing the Rules: State of Washington, Department of Labor and Industries.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation, Enforcement and Fiscal Matters Pertaining to the Rules: No further comment.

These rules are not necessary to comply with a federal law or a federal or state court decision.

Any Other Information that may be of Assistance in Identifying the Rules or Their Purpose: No further comment.

Small Business Economic Impact Statement: This statement pertains to revisions in chapter 296-15 WAC, proposed by the Department of Labor and Industries to become effective December 23, 1986, and is prepared to conform with sections 3(2) and 4, chapter 6, Laws of 1982, of the Regulatory Fairness Act.

The proposed rule revisions pertain to employers and groups who self-insure their workers' compensation benefit obligations. Small businesses seldom qualify as self-

insurers because they lack the extensive financial resources and long-term continuity of operation which are prerequisites for self-insurance. Therefore, the rules have negligible direct impact on small businesses.

AMENDATORY SECTION (Amending Order 86-25, filed 7/1/86)

WAC 296-15-030 POSTING OF SECURITY. Subsections (1), (2), (3), and (4) of this section shall apply only to individual self-insurers (~~who are not~~) except counties, cities, school districts, municipal corporations and individual accounts participating in a group self-insurance program. Subsection (6) of this section shall apply only to counties, cities and municipal corporations. Group self-insurance programs are subject to reserve requirements set forth in WAC 296-15-02601(3) and 296-15-02605, in lieu of application of this section.

(1) Upon receiving a completed application for certification to self-insure, the director shall review the matter and notify the employer of the amount of security which must be deposited to secure the payment of compensation and assessments, pursuant to RCW 51.14.020 as now or hereafter amended. This amount as so established may be satisfied by the employer's supplying of money, corporate or governmental securities approved by the director, or a surety bond, written by a company admitted to transact surety business in this state, in favor of the department. All such securities of a self-insurer shall be deposited with an escrow agent appointed by the director and administered pursuant to a written agreement between the department, the self-insurer and the escrow agent. Securities shall be registered in the name of the escrow agent on behalf of the self-insurer. The original of all surety bonds submitted by self-insurers following approval by the director and the attorney general will be kept on file in the department.

(2) On or after July 1, 1985, the minimum amount of security required for initial certification as a self-insurer shall be the projected average cost of a permanent total pension claim for an injury occurring during the first year after the employer's self-insuring, including medical, time-loss and any other miscellaneous claim costs paid prior to award of the pension. This average cost shall be calculated by the department on an annual basis.

The security required for initial certification as a self-insurer on or after July 1, 1985, may be greater than the minimum amount described above. In establishing such security requirements, the department shall estimate the following amounts:

(a) The estimated amount of accident and medical aid fund premium that the self-insurer would have paid to the state fund during the first year of self-insurance, if it had remained in the state fund.

(b) The estimated amount of incurred benefits for the first year of self-insurance, based on past experience with the state fund, adjusted for intervening changes in benefit schedules and exposure.

If either or both of the above amounts exceed the minimum security deposit described in this section, the department may require the larger of (a) or (b) of this subsection as a security deposit for initial certification as a self-insurer on or after July 1, 1985.

The security required in accordance with the above procedures may be adjusted by the department if there are other known conditions which may alter the self-insurer's potential claim costs and/or its ability to pay them.

(3) The amount of security required of each self-insurer shall be reviewed periodically by the director to determine if there is need for any increase or decrease thereof. To facilitate this review a self-insurer's annual report (SIF #7) shall be required in the form prescribed by the director and supplied to all self-insurers.

Security requirements in effect on, or initially established after, July 1, 1985, shall not be increased unless and until one or more of the following conditions are met:

(a) An estimate of the self-insurer's outstanding claim liabilities, made by either the self-insured employer or the department, exceeds the amount of security in force; or

(b) The projected average cost of a permanent total pension claim for an injury in the current year, including medical, time-loss and any other miscellaneous claim costs paid prior to award of the pension, exceeds the security in force for the employer by one hundred thousand dollars or more.

(4) The following procedure shall apply for purposes of updating security requirements:

(a) On July 1, 1985, the security requirement for each self-insurer shall be the larger of the following two amounts:

(i) The existing security in force for the self-insurer; or

(ii) The self-insurer's stated estimate of outstanding claim liabilities as shown on the 1984 self-insurer's annual report (SIF #7).

(b) On July 1, 1986, the security requirement for each self-insurer shall be the larger of the following amounts:

(i) The existing security in force for the self-insurer; or

(ii) The average of the self-insurer's stated estimate of outstanding claim liabilities as shown on the 1985 self-insurer's annual report (SIF #7) and the department's estimate of the self-insurer's outstanding claim liabilities as of December 31, 1985, made in accordance with provisions of (c) of this subsection; or

(iii) The minimum security requirement.

(c) On July 1, 1987, the security requirement for each self-insurer shall be the larger of the following amounts:

(i) The existing security in force for the self-insurer; or

(ii) The department's estimate of the self-insurer's outstanding claim liabilities as of December 31, 1986, made in accordance with provisions of (e) of this subsection; or

(iii) The minimum security requirement.

(d) After July 1, 1987, the security requirement for each self-insurer will be subject to review and increased or decreased at such times as the director deems necessary to maintain the adequacy of those requirements. Such review and adjustment, when made, shall be performed in accordance with provisions of (e) of this subsection.

(e) In establishing or adjusting security requirements for a self-insurer, the department may perform a runoff test of the adequacy of the employer's estimates of liabilities, by tracking the subsequent cost of claims (subsequent payments plus the employer's updated estimates of remaining liabilities). If the subsequent costs do not exceed original liability estimates, the employer's most recent estimates of claim liabilities shall be considered adequate for purposes of setting current security requirements for the employer.

If the runoff test shows that subsequent costs of claims exceed the employer's original estimates of outstanding liabilities, the department may apply a loss development factor to the employer's most recent estimates of claim liabilities to compensate for anticipated repetition of inadequate estimates. The loss development factor shall be based on the self-insured employer's experience.

The following special considerations shall apply in establishing or adjusting security requirements for a self-insurer:

(i) Pension claims - Reserve amounts attributable to death or permanent total disability claims independently secured by means of a surety bond or assignment of account, and which are included in estimates of outstanding claim liabilities as shown on the self-insurer's annual report (SIF #7), shall be deducted from estimates of outstanding claim liabilities made in accordance with other provisions of this section.

(ii) Reinsurance - Anticipated recoveries under reinsurance policies held by a self-insurer must be documented by the self-insurer and reported to the department to qualify for consideration in establishing security requirements. Such anticipated recoveries shall be applied to either the self-insurer's estimate of outstanding claim liabilities as shown on the most current self-insurer's annual report (SIF #7) or the department's estimate of the self-insurer's outstanding liabilities made in accordance with (e) of this subsection, whichever is greater. If the resulting estimate of claim liabilities net of reinsurance recoveries is less than the security requirements imposed by this section without adjustment for reinsurance, the security requirement shall be reduced accordingly; provided, that security requirements imposed upon initial certification of a self-insurer or based upon the projected average cost of a permanent total pension claim may be retained by the department regardless of other estimates of claim liabilities for the self-insurer.

(iii) Strict application of loss development factors based upon the runoff test presumes a consistency of reserving methodology and results for the self-insurer. If the department determines that an employer has changed its reserving methodology in such a way as to invalidate loss development factors based upon past experience, then the department shall make such adjustments to the procedure as it may deem appropriate under the circumstances.

(iv) The department will give full consideration to any evaluation of the self-insured employer's outstanding claim liabilities made by an independent qualified actuary. Such independent actuarial evaluations are optional and not required by this rule.

(f) Any changes to existing bonds and/or adjustments to bond amounts made by or required of a self-insurer on or after July 1, 1985, shall provide adequate security for all self-insured workers' compensation liabilities of the employer, regardless of when the claims giving rise to those liabilities were incurred. Changes contemplated by this

subsection include, but are not limited to, designation of a new surety carrier, issuance of a replacement bond by a current surety carrier, and/or revision of the face amount of any bond whether by endorsement or issuance of a replacement bond. If a new surety carrier does not assume full responsibility for all past self-insured liabilities regardless of when incurred, the department may require that such liabilities be secured by other means.

(5) A self-insurer's annual report (SIF #7) shall be required of group self-insurance plans, in the form prescribed by the director and supplied to all group self-insurance plans.

(6) Counties, cities, school districts and municipal corporations shall maintain adequate reserves to cover claim liabilities. On July 1, 1989, the security requirement for each governmental unit shall be at the level of the stated reserves presented on the self-insurer's annual report as of December 31, 1988. Thereafter, security requirements for each governmental unit shall be subject to review, and increased or decreased when the director deems necessary. Such review and adjustment, when made, shall be based on the stated reserves presented on the most recent available annual report filed by each self-insured governmental entity. At no time shall the total security level fall below the minimum security of one hundred thousand dollars. Dedicated funds, governmental securities, or surety bonds may be used to provide the necessary security. The security must be approved by the department. Anticipated recoveries under reinsurance policies held by a governmental unit must be documented by the employer and reported to the department to qualify for consideration in establishing security requirements. Such anticipated recoveries, upon approval by the department, shall be applied to the governmental unit's estimate of outstanding claim liabilities as shown on the most current self-insurer's annual report (SIF #7).

(5) Establishing self-insurance insolvency fund assessment rates and administering the claims of insolvent self-insurers upon depletion of remedies for reimbursement of workers' compensation expenditures made by the department as specified under subsection (4) of this section shall be the responsibility of a five-member board of trustees, under the general supervision of the department's self-insurance section.

STATEMENT OF PURPOSE

New sections WAC 284-51-075 and 284-51-185 provide for a change in the manner in which coordination of benefit determinations are calculated in two specific situations. First, WAC 284-51-075 and 284-51-185 provide that the benefits of a plan which covers the person on whom expenses claim is based other than as a dependent shall be determined before the benefits of a plan which covers the person as a dependent. WAC 284-51-075 and 284-51-185 provide that if a plan which covers the person is one for laid off or retired persons then that plan shall provide that its benefits shall be determined after any other plan. Second, WAC 284-51-075 and 284-51-185 are amended to provide that, with stated exceptions, the benefits of a plan which covers the person on whose expenses claim is based as a dependent of a person whose date of birth occurs earlier in a calendar year shall be determined before the benefits of a plan which covers such person as a dependent of a person whose date of birth occurs later in a calendar year.

The statutory authority for the proposed amendments is RCW 48.02.060, 48.44.050 and 48.46.200 to effectuate RCW 48.21.200.

David Rodgers, Chief Deputy Insurance Commissioner, Insurance Building, AQ-21, Olympia, Washington 98504, whose telephone number is (206) 753-7302, is primarily responsible for the implementation and enforcement of the rule and its amendment, and Patricia D. Petersen, Deputy Commissioner, Insurance Building, AQ-21, Olympia, Washington 98504, (206) 586-0800, is primarily responsible for the drafting of the amendment.

The amendment is proposed by the insurance commissioner, a state public official.

The proposed amendment is not necessary as the result of federal law or federal or state court action.

Small Business Economic Impact Statement: There should be no substantial economic impact upon insurers as a result of this proposed regulation. Insurers will have to change their forms to comply with proposed WAC 284-51-075, but that is the nature of conducting the business of insurance and must be done periodically, in any event, and it should not increase the cost per employee or per hour of labor for either a large or small insurer. Additionally, there might be some added administrative costs in calculating coordination of benefits during the transition period while the various contracts are coming into compliance with this rule.

With respect to other businesses, employers purchase a majority of the contracts affected by this rule. There should be no substantial economic impact upon employers as a result of this rule, and it should not increase the cost per employee or per hours of labor for either a large or small employer.

NEW SECTION

WAC 284-51-075 ORDER OF BENEFIT DETERMINATION.

(1) When a claim under a plan with a coordination of benefits provision involves another plan which also has a coordination of benefits provision, the following rules will be applied by the insurers involved to decide the order in which the benefits payable under the respective plans will be determined:

(a) The benefits of a plan which covers the person on whose expenses claim is based other than as a dependent, shall be determined before the benefits of a plan which covers such person as a dependent.

(b) Except for cases of a person for whom claim is made as a dependent child whose parents are separated or divorced, the benefits of a plan which covers the person on whose expenses claim is based as a dependent of a person whose date of birth, excluding year of birth, occurs earlier in a calendar year, shall be determined before the benefits of a plan which covers such person as a dependent of a person whose date of birth, excluding year of birth, occurs later in a calendar year. If either plan does not have the provisions of this subsection regarding dependents, which results either in each plan determining its benefits before the other or in each plan determining its benefits after the other, the provisions of this subsection shall not apply, and the rule set forth in the plan which does not have the provisions of this subsection shall determine the order of benefits. In the case of a person for whom claim is made as a dependent child, however,

(i) When the parents are separated or divorced and the parent with custody of the child has not remarried, the benefits of a plan which covers the child as a dependent of the parent with custody of the child will be determined before the benefits of a plan which covers the child as a dependent of the parent without custody; or

(ii) When parents are divorced and the parent with custody of the child has remarried, the benefits of a plan which covers the child as a dependent of the parent with custody shall be determined before the

benefits of a plan which covers that child as a dependent of the stepparent, and the benefits of a plan which covers that child as a dependent of the stepparent will be determined before the benefits of a plan which covers that child as a dependent of the parent without custody; or

(iii) Notwithstanding items (i) and (ii) of this subdivision, if there is a court decree which would otherwise establish financial responsibility for the medical, dental or other health care expenses with respect to the child, the benefits of a plan which covers the child as a dependent of the parent with such financial responsibility shall be determined before the benefits of any other plan which covers the child as a dependent child.

(c) When (a) and (b) of this subsection do not establish an order of benefit determination, the benefits of a plan which has covered the person on whose expenses claim is based for the longer period of time shall be determined before the benefits of a plan which has covered such person the shorter period of time, provided that:

(i) The benefits of a plan covering the person on whose expenses claim is based as a laid off or retired employee, or dependent of such person, shall be determined after the benefits of any other plan covering such person as an employee, other than a laid off or retired employee, or dependent of such person; and

(ii) If either plan does not have a provision regarding laid off or retired employees, which results in each plan determining its benefits after the other, then the provisions of (i) of this subsection shall not apply.

(2) If the policy provides more than one benefit, the policy shall contain a provision stating how the reduction in benefits by the coordination provision affects each benefit under the policy. Suggested language for such provision is included in Appendix B, WAC 284-51-185.

(3) A group contract which provides for coordination of benefits shall contain a provision entitled "Effect on Benefits," stating the manner in which benefits are reduced by coordination, which provision shall be substantially as set forth in Appendix B, WAC 284-51-185.

(4) This section takes effect on January 1, 1987. The provisions of this section shall apply to all policy and contract forms subject to this section that are issued on or after this effective date, and all policy and contract forms that were issued prior to said effective date shall be brought into compliance with the requirements of this section by the later of the next anniversary date or renewal date of the group policy or contract, or the expiration of any applicable collectively bargained contract pursuant to which they are written.

NEW SECTION

WAC 284-51-185 APPENDIX B. FORM FOR "EFFECT ON BENEFITS" PROVISION. Effect on benefits: (1) This provision shall apply in determining the benefits for a person covered under this plan for a particular claim determination period if, for the allowable expenses incurred as to such person during such period, the sum of:

(a) The benefits that would be payable under this plan in the absence of this provision, and

(b) The benefits that would be payable under all other plans in the absence therein of provisions of similar purpose to this provision would exceed such allowable expenses.

(2) As to any claim determination period with respect to which this provision is applicable, the benefits that would be payable under this plan in the absence of this provision for the allowable expenses incurred as to such person during such claim determination period shall be reduced to the extent necessary so that the sum of such reduced benefits and all the benefits payable for such allowable expenses under all other plans, except as provided in subsection (3) of this section, shall not exceed the total of such allowable expenses. Benefits payable under another plan include the benefits that would have been payable had claim been duly made therefor.

(3) If

(a) Another plan which is involved in subsection (2) of this section and which contains a provision coordinating its benefits with those of this plan would, according to its rules, determine its benefits after the benefits of this plan have been determined, and

(b) The rules set forth in subsection (4) of this section would require this plan to determine its benefits before such other plan then the benefits of such other plan will be ignored for the purposes of determining the benefits under this plan.

(4) For the purpose of subsection (3) of this section, the rules establishing the order of benefit determination are:

(a) The benefits of a plan which covers the person on whose expenses claim is based other than as a dependent, shall be determined before the benefits of a plan which covers such person as a dependent.

(b) Except for cases of a person for whom claim is made as a dependent child whose parents are separated or divorced, the benefits of a plan which covers the person on whose expenses claim is based as a dependent of a person whose date of birth, excluding year of birth, occurs earlier in a calendar year, shall be determined before the benefits of a plan which covers such person as a dependent of a person whose date of birth, excluding year of birth, occurs later in a calendar year. If either plan does not have the provisions of this subsection regarding dependents, which results either in each plan determining its benefits before the other or in each plan determining its benefits after the other, the provisions of this subsection shall not apply, and the rule set forth in the plan which does not have the provisions of this subsection shall determine the order of benefits. In the case of a person for whom claim is made as a dependent child, however,

(i) When the parents are separated or divorced and the parent with custody of the child has not remarried, the benefits of a plan which covers the child as a dependent of the parent with custody of the child will be determined before the benefits of a plan which covers the child as a dependent of the parent without custody; or

(ii) When parents are divorced and the parent with custody of the child has remarried, the benefits of a plan which covers the child as a dependent of the parent with custody shall be determined before the benefits of a plan which covers that child as a dependent of the stepparent, and the benefits of a plan which covers that child as a dependent of the stepparent will be determined before the benefits of a plan which covers that child as a dependent of the parent without custody; or

(iii) Notwithstanding items (i) and (ii) of this subdivision, if there is a court decree which would otherwise establish financial responsibility for the medical, dental or other health care expenses with respect to the child, the benefits of a plan which covers the child as a dependent of the parent with such financial responsibility shall be determined before the benefits of any other plan which covers the child as a dependent child.

(c) When (a) and (b) of this subsection do not establish an order of benefit determination, the benefits of a plan which has covered the person on whose expenses claim is based for the longer period of time shall be determined before the benefits of a plan which has covered such person the shorter period of time, provided that:

(i) The benefits of a plan covering the person on whose expenses claim is based as a laid off or retired employee, or dependent of such person, shall be determined after the benefits of any other plan covering such person as an employee, other than a laid off or retired employee, or dependent of such person; and

(ii) If either plan does not have a provision regarding laid off or retired employees, which results in each plan determining its benefits after the other, then the provisions of (i) of this subsection shall not apply.

(5) (Note: This subsection may be omitted if the plan provides only one benefit. If the contract provides more than one benefit, it shall contain a provision stating how the reduction in benefits by the coordination provision affects each benefit under the contract. The following wording is illustrative of a policy in which all benefits are affected.)

When this provision operates to reduce the total amount of benefits otherwise payable as to a person covered under this plan during any claim determination period, each benefit that would be payable in the absence of this provision shall be reduced proportionately, and such reduced amount shall be charged against any applicable benefit limit of this plan.

AMENDATORY SECTION (Amending Order 84-08, filed 5/25/84)

WAC 296-200-300 PROCEDURES FOR ISSUANCE OF NOTICES OF INFRACTION. ~~((+))~~ The department may issue a notice of infraction to a contractor that violates RCW 18.27.100 or 18.27.200. ~~((The notice of infraction by law must be on the same basic form as that prescribed for traffic infractions. The supreme court has adopted the justice court traffic infraction rules (JTIR) as the rules of procedure for traffic infractions. To ensure that court procedures are the same for contractor notices of infraction as for traffic notices of infraction, the department shall comply with all JTIR rules except for rules 1.1, 1.2, 2.1, and 2.4(a). Rules 1.1, 1.2, and 2.1 do not directly apply to notices of violation for contractors. Rule 2.4(a) does not apply because RCW 18.27.270 provides that a defendant must respond to a notice of violation within fourteen days, not within seven days as for a traffic infraction.~~

(2) In reading the JTIR rules, the following terms, as they appear in the rules, shall be construed to mean:

- (a) "Department" means the department of labor and industries, not the department of licensing.

~~(b) "Notice of traffic infraction" means notice of infraction.~~

~~(c) "Traffic case" means a contractor infraction case.~~

~~(d) "Law enforcement officer" means a representative of the department.)~~ The chief construction compliance inspector shall direct that notices of infraction contain the following when issued:

(1) A statement that the notice represents a determination that the infraction has been committed by the contractor named in the notice and that the determination shall be final unless contested;

(2) A statement that the infraction is a noncriminal offense for which imprisonment shall not be imposed as a sanction;

(3) A statement of the specific violation which necessitated issuance of the infraction;

(4) A statement of the penalty involved if the infraction is established;

(5) A statement informing the contractor of the right to a contested hearing conducted pursuant to chapter 34.04 RCW if requested within twenty days of receipt of the infraction;

(6) A statement that at any hearing to contest the notice of infraction the state has the burden of proving, by a preponderance of the evidence, that the infraction was committed, and that the contractor may subpoena witnesses including the compliance inspector that issued the notice of infraction;

(7) A statement notifying the party issued or served the notice of infraction that he is required to sign the notice of infraction which has the effect of establishing that the contractor promises to respond to the notice of infraction as provided in chapter 18.27 RCW;

(8) A statement notifying the contractor that a refusal to sign the notice of infraction is a misdemeanor and may be punishable by fine or imprisonment in jail, and that failure to respond to a notice of infraction as promised by the contractor may be punished by a fine or imprisonment in jail.

AMENDATORY SECTION (Amending Order 84-08, filed 5/25/84)

WAC 296-200-320 MAILING COPY OF NOTICE OF INFRACTION TO CONTRACTOR. If the department serves a notice of infraction on an employee of a contractor, and not on the owner, officer, or partner of the contractor, the law requires the department to mail by certified mail a copy of the notice of infraction to the contractor if the department can determine the contractor's name and address. If the department cannot determine the contractor's name and address, it need not mail a copy of the notice of infraction; in such a case, the notice of infraction shall remain valid. To ensure further that the contractor receives a copy, the department shall, as well as mail a copy by certified mail, mail a second copy by ordinary mail. ~~((To prove that the letters were mailed the department's representative shall sign an affidavit of mailing in substantially the following form:~~

Persons Responsible for Drafting, Implementation and Enforcement of These Rules: Roger Kriebaum, Ken Harden, and Chris Hansen, Bureau of Alcohol and Substance Abuse, mailstop OB-44W, 753-5866.

Methadone treatment facilities shall not prescribe methadone for a patient until a sick physical has been completed and a diagnosis of current physiological dependence on an opiate drug has been reached, except as provided in subsections (8) and (9) of this section. The sick physical shall include observations of the presence or absence of the following signs which shall be documented in the clinical file:

- (a) Rinorrhea.
- (b) Pupillary dilation.
- (c) Piloerection.
- (d) Elevated body temperature.
- (e) Elevated pulse rate.
- (f) Elevated blood pressure.
- (g) Elevated respiration rate.

(3) Physician involvement in sick physicals. Methadone treatment facilities shall make a program physician available for consultation by telephone or in person when sick physicals are conducted by anyone other than a program physician. A program physician shall conduct sick physicals for all juvenile patients and for all adult patients with unusual or ambiguous signs or symptoms.

(4) Follow-up examination. Following the initial dose of methadone and following all subsequent dose increases, methadone treatment facilities shall conduct and document an in-person, physical examination of the patient. Such an examination shall be conducted as close to possible to the time when methadone blood levels are highest, typically

three to four hours after a dose is provided to the patient. The examination shall establish adequacy of dose, including signs and symptoms of withdrawal, patient comfort, and side effects from over-medication.

(5) Documentation of addiction history. Methadone treatment facilities shall note all observations, tests, reported symptoms, and documents certifying addiction history, and shall retain such documentation in the patient's clinical record. Methadone treatment facilities shall include in each patient file a summary analysis of all diagnostic data.

The department shall conduct an after-the-fact review of a random sample of all patient records, examining sick physical documentation and the resulting diagnosis.

(8) Exception to sick physicals. Recently detoxified patients. Methadone treatment facilities may restart methadone medication without a sick physical for patients detoxified from methadone within the last two years, who continue to receive at least one face-to-face counseling session per month, lasting at least forty-five minutes per session.

(9) Exception to sick physicals—Penal, chronic care, and pregnant clients. Methadone treatment facilities may admit and prescribe methadone to penal, chronic care, and pregnant patients without meeting sick physical requirements, provided the facility has followed the rules outlined in federal regulations, 21 C.F.R. Part 291.505 (d)(3)(iii)(a) and (b), adopted September 19, 1980.

NEW SECTION

WAC 275-19-950 ALL METHADONE TREATMENT FACILITIES—URINALYSIS REQUIREMENTS. (1) Urinalysis frequency. All patients shall submit urine samples for urinalysis at least once per month. After a patient has a positive urine, the patient shall submit four urine samples per month for urinalysis. The patient shall continue to submit at least four samples per month until the patient has at least four consecutive negative urines, after which the patient may return to once-a-month submittal.

(2) Random sampling. Methadone treatment facilities shall randomly schedule all urine sample submissions, without prior warning to the patient.

(3) Sampling procedures. Methadone treatment facilities shall ensure staff observation of all collections of urine samples. Facility staff shall seal samples immediately in patient's presence with a prenumbered seal. The patient shall initial a log of sample seal numbers next to the seal number. Methadone treatment facilities shall void and retain broken or unusable seals. Facilities shall keep logs of sample seal numbers confidential, apart from all other patient records. Facilities shall discard contaminated samples and samples with broken seals.

(4) Required screens. Each urinalysis shall include qualitative analysis for the presence of opiates, methadone, amphetamines, cocaine, barbiturates, and other drugs as indicated by the patient's drug use history. The urinalysis may instead include qualitative analysis for metabolites of such drugs, if such analysis would yield more accurate results.

(5) Failure to give sample. Methadone treatment facilities shall treat a patient's failure to provide a urine sample upon request, for whatever reason, or a patient's refusal to initial the log of seal number in the same manner as a positive urine.

(6) Positive urines. Methadone treatment facilities shall report all positive urines to the patient and discuss in counseling within seven days of obtaining the results.

(7) Dose increase justification. Following stabilization, methadone treatment facilities shall justify all dose increases in the patient's record. Positive urines alone shall not be considered adequate justification. Additional data on desirability of dose increases shall be documented in the patient's record, including signs and symptoms of withdrawal, patient discomfort, or other medically justifiable reasons.

(8) Mandatory discharge for positive urines. Methadone treatment facilities shall discharge any patient with three consecutive positive urines collected later than ninety days after admission. Patients so discharged may not be readmitted to methadone treatment at any facility for ninety days following the first discharge and for one year following the second discharge.

(9) Mandatory discharge for methadone—Negative urines. Methadone treatment facilities shall discharge any patient receiving methadone and whose urinalysis fails to confirm the presence of methadone

or methadone metabolite, unless the facility can confirm physiological reasons for the lack of detectable methadone or methadone metabolite. Conformation may include a dose level less than ten milligrams daily or a urinalysis of a second sample taken twenty-four hours after in-person administration of a dose which also fails to confirm the presence of methadone or methadone metabolite. The facility may use other medically justifiable means of confirming physiological reasons for failure to confirm presence of methadone or metabolite. Any confirmation shall be documented in detail in the patient's record. No methadone treatment facility may admit a patient who has been discharged from any methadone facility pursuant to this subsection during the previous ninety days.

WAC 275-19-960 ALL METHADONE TREATMENT FACILITIES—DETOXIFICATION REQUIREMENTS. (1) Planned detoxification dates required. Within ninety days of admission, methadone treatment facilities shall establish and document a planned detoxification date for each patient. The planned detoxification date may be revised.

(2) Criteria for planned detoxification dates. Methadone treatment facilities shall adopt and adhere to written criteria for establishing and revising planned detoxification dates for all patients entering treatment. The criteria shall include, at a minimum, addiction history, current dose, health, employability, age, personality, support system strengths, and treatment progress to date. Planned detoxification of pregnant clients shall take into account postnatal social and psychological factors and prenatal physical factors.

(3) Planned detoxification dates for patients under age twenty-four. Methadone treatment facilities shall not plan detoxification dates in excess of the following:

(a) All patients under eighteen years of age (at time of admission) shall have a planned detoxification date not later than six months after admission.

(b) All patients eighteen to twenty-four years of age (at time of admission) shall have a planned detoxification date not later than twenty-four months after admission.

(c) Extension of planned detoxification dates beyond the limits specified in (3)(a) or (3)(b) of this section may be made only after prior approval of the department.

(4) Patient records. Methadone treatment facilities shall note in the patient's record the factors considered and how the factors affected the choice of planned detoxification date. Facilities shall also note in the patient's record all changes in planned detoxification date and the reasons for the change.

WAC 275-19-970 ALL METHADONE TREATMENT FACILITIES—DISPENSARY REQUIREMENTS. (1) Authorization of dispensary personnel. Methadone treatment facilities shall designate individuals authorized to enter the dispensary. Those authorizations shall be limited to persons with a clear need to enter. Facilities shall note the reasons for granting authorization in personnel records.

(2) Dispensary staffing. Methadone treatment facilities shall establish written procedures, especially recordkeeping practices, designed to minimize the number of individuals who need to be in the dispensary. Procedures must require two people shall be in the dispensary any time doses are compounded, dispensed, or administered.

(3) Methadone handling procedures. Methadone treatment facilities shall establish written procedures for all activities involving handling methadone (compounding, dispensing, etc.). Such procedures shall be designed to minimize error and minimize possibilities for diversion of methadone by staff or others.

(4) Methadone stock inventory. Methadone treatment facilities shall ensure dispensary staff measure all opened stocks of methadone before and after each period of time during which methadone is compounded, dispensed, or administered. A period of time shall be deemed to conclude, or a new period begin, whenever any staff person enters or leaves the dispensary. Staff shall note the amount measured in methadone inventory records and verify the entry with initials or signature. All newly opened stocks of methadone shall be measured immediately and the actual amount recorded in the same manner. Methadone

treatment facilities shall reconcile inventory changes with doses dispensed. If any discrepancy is uncovered during reconciliation of doses dispensed and inventory changes, and any variations in inventory between previous close and current open, the facility shall obtain statements from all dispensary staff persons involved. The program director shall investigate the discrepancy and report to the federal drug enforcement agency, Washington state board of pharmacy, and the department of social and health services.

(5) Dispensary schedule. Methadone treatment facilities shall schedule dispensing and other activities to minimize impact on neighboring businesses and residences.

(6) Quantitative analysis. Methadone treatment facilities shall conduct a quantitative analysis of all open methadone stocks whenever a transfer case is reported to the program director pursuant to WAC 275-19-990(6), or whenever the program director has other reason to believe dilution and diversion of methadone stocks may be occurring. In addition, on random occasions at least twice in any calendar year the facility shall conduct a quantitative analysis of all opened methadone stock. Methadone concentration below the manufacturer's tolerance shall be reported immediately to the federal drug enforcement administration, the Washington board of pharmacy, and the department of social and health services.

WAC 275-19-980 ALL METHADONE TREATMENT FACILITIES—COUNSELING REQUIREMENTS. (1) Individual and group counseling. Methadone treatment facilities shall make available sufficient individual and group counseling for each patient to accomplish treatment plan goals and objectives. Counseling shall be intensified (increased in frequency, duration, and/or mode) when problems arise, when requested by the patient, or when progress is no longer being made.

(2) Minimum counseling. Methadone treatment facilities shall provide and document, at a minimum, one face-to-face counseling session lasting at least forty-five minutes (group or individual) each week for each patient during the first ninety days after admission. Counseling may be reduced to two face-to-face sessions per month during the next twelve months, and to once per month thereafter. Facilities may not use group counseling sessions with more than twelve patients in attendance to meet this requirement.

(3) Semiannual review. Methadone treatment facilities shall conduct and document an individual counseling session lasting forty-five minutes or more with each patient, between six and seven months after admission, and once every six months thereafter. The purpose of the session is to review treatment progress, revise or reaffirm treatment plan and planned detoxification date, and to review all relevant facts concerning the use of methadone.

(4) Counseling. Methadone treatment facilities shall ensure all counseling is provided by qualified drug abuse counselors or counselor-trainees in a manner that is physically and organizationally separate from other activities, particularly dispensing and fee collection, except to the extent necessary for coordination or for resolution of compliance problems such as nonpayment or missed doses. Facilities may not credit counseling occurring while dispensing methadone or collecting fees toward meeting the counseling requirements of this section.

(5) Counselor/patient ratio. Methadone treatment facilities shall provide at least one qualified counselor (full-time equivalent) for each fifty patients. Facilities shall assign each patient to a primary counselor, who shall be a qualified drug counselor. The primary counselor will bear responsibility for the conduct and management of all cases assigned to him or her. No more than fifty cases may be assigned to any primary counselor at one time.

(6) Counselor-trainees. Methadone treatment facilities may provide counseling services using counselor-trainees, if the counselor-trainees are under the direct, close supervision of a qualified drug counselor. A qualified drug counselor with one or more counselor-trainees may be assigned as primary counselor up to seventy-five patients, including those cases delegated to the counselor-trainees. Each qualified drug counselor may supervise as many counselor-trainees as he or she desires and delegate cases in a responsible fashion, except that no counselor-trainee may be delegated more than thirty-five patients. Primary counselor responsibility for all cases shall rest with a qualified drug counselor, regardless of whom provides counseling services.

(7) Individualized treatment plans. Methadone treatment facilities shall prepare and document individualized treatment plans for each patient, which must specify the patient's problems; the frequency,

mode, and duration of counseling sessions; and the planned detoxification date.

(8) Pregnancy and drugs. Methadone treatment facilities shall provide, to any patient who requests, at least one hour per month of counseling and education on matters relating to pregnancy and street drugs, and the effects of methadone treatment when provided during pregnancy. This session may be provided in an individual or group setting at the discretion of the facility director.

(9) Family planning professional. Methadone treatment facilities shall have at least one professional, either a qualified drug counselor, physician, or physician's assistant, who has appropriate training in family planning, prenatal health, and parenting skills.

WAC 275-19-985 ALL METHADONE TREATMENT FACILITIES—TAKE-HOME MEDICATION REQUIREMENTS. (1) Minimum take-home criteria. Methadone treatment facilities may provide all patients with take-home medication for Sundays and for any legal holiday set forth in RCW 1.16.050, at the discretion of the program physician. Take-home medication on other days shall be permitted only for stabilized patients who have been receiving methadone for a minimum of ninety days and who have had negative urines for the last sixty days.

(2) Criteria for allowing increased take-homes. Methadone treatment facilities may increase frequency of take-home medication when a patient is judged capable of handling increased frequency of take-home medication. The program physician shall consider and document in the client file the following in determining whether a patient is responsible in handling methadone:

- (a) Absence of abuse of drugs and alcohol.
- (b) Regularity of attendance, both dispensing and counseling.
- (c) Absence of known criminal activity or activities, especially drug sales.
- (d) Stability of home environment and social relationships.
- (e) Ability to safely store take-home medications.
- (f) A positive balance between therapeutic benefit and the risk of diversion of take-home medication.

(3) Restriction of take-home privileges following dose increase. For at least seven days following an increase in dose at any time during treatment, methadone treatment facilities may provide a patient with take-home medications only for Sundays and legal holidays.

(4) Maximum take-home privileges. Methadone treatment facilities shall limit the minimum weekly attendance for in-person administration of methadone, the maximum number of daily doses of take-home medication that is provided at any one time, and the maximum total amount of methadone (number of doses multiplied by dose amount) that is provided at any one time, according to the following schedule:

| Months Since Admission to Methadone Treatment | Minimum Attendance (In-Person Administration) | Maximum Number of Take-Home Medication Doses | Maximum Total Amount of Take-Home Medication |
|---|---|--|--|
| 0 to 3 months | 6 days/week | one-day supply | 100 mg. |
| 4 to 6 months | 5 days/week | one-day supply | 70 mg |
| 7 to 24 months | 3 days/week | two-day supply | 120 mg. |
| over 24 months | 2 days/week | three-day supply | 150 mg. |

(5) Maximum take-homes following positive urine. Methadone treatment facilities shall limit the maximum number of daily doses of take-home medication of patients who have one positive urine in the last ninety days and shall require minimum clinic attendance for in-person administration of methadone for such patients according to the following schedule:

| Months Since Admission to Methadone Treatment | Minimum Attendance (In-Person Administration) | Maximum Number of Take-Home Medication Doses |
|---|---|--|
| 0 to 6 months | 6 days/week | one-day supply |
| 7 to 24 months | 5 days/week | one-day supply |
| over 24 months | 3 days/week | two-day supply |

Maximum total amount of take-home medication shall not exceed the amounts set forth in the schedule of subsection (4) of this section. Patients who are restricted to the schedule set forth in this subsection may be placed on the schedule set forth in subsection (4) of this section if they have no additional positive urines for ninety days.

(6) Exceptional take-home; Saturday or Monday holidays. Methadone treatment facilities may provide all patients with one extra take-

home dose in addition to the supply limits set forth in subsections (4) and (5) of this section, when a legal holiday falls on a Monday or a Saturday, or when two legal holidays fall on successive days, and restrictions on the patient's take-home medication will not otherwise permit sufficient take-home medication doses for both Sunday and the legal holiday or for both legal holidays.

(7) Labeling. Methadone treatment facilities shall label take-home medication containers with the name of the prescriber, complete directions for use, the name of the drug either by the brand or generic name and strength per unit dose, the name of the patient, and the date.

(8) Restarting methadone medication. Methadone treatment facilities may restart medication for patients who undergo planned detoxification, but remain in counseling (at least one face-to-face event per thirty days) for up to two years. Such patients are not considered discharged and may restart medication without sick physicals. Facilities shall not provide take-home medication to such patients, other than for Sundays and legal holidays, for at least seven days following the restart of medication. After the seven-day period has concluded, facilities may reinstate take-home medication privileges as if medication was uninterrupted.

(9) Waivers of take-home standards. Methadone treatment facilities shall request approval from the department of social and health services of any and all waivers of take-home medication requirements on a case-by-case basis in advance.

NEW SECTION

WAC 275-19-990 ALL METHADONE TREATMENT FACILITIES—ADDITIONAL REQUIREMENTS. (1) Facility size. To assist in attaining the goal that Methadone treatment facilities meet the needs of individual patients and to help ensure local neighborhoods are not unduly affected, methadone treatment facilities shall not exceed three hundred fifty patients at any one time. Approval of a facility exceeding three hundred fifty patients at time of adoption of these rules shall not be revoked due to size of caseload if such facility agrees to cease admitting new patients until such time as they reach the maximum patient load and remain in compliance with the maximum patient load thereafter.

(2) Double enrollment. Methadone treatment facilities shall participate in periodic meetings, scheduled and coordinated by the department for the purpose of identifying duplicate or prohibited admissions. Facility participation shall include attendance by at least one dispensary staff person and provision of a clear, recent photograph of any active patient and the latest photographs of all patients discharged for drug abuse or failure to consume take-home medication who are still barred from readmission by these rules. Programs shall be required to specifically identify all patients admitted since the previous meeting, all patients enrolled in a methadone treatment facility which is not the closest to their residence, and any patients identified by the department as potential duplicate admissions or barred admissions. All such meetings shall be closed to the public to preserve confidentiality of patient records.

(3) Reporting requirements. All methadone treatment facilities shall report to the department the dose level of each patient, plus such other information as the department may reasonably require, in the form and manner prescribed by the department. Such reports shall be submitted in a timely and accurate manner.

(4) Identifying patients. All methadone treatment facilities shall establish written policies and procedures to reasonably verify the identity of patients. The policies and procedures shall respect the confidentiality of patient records as set forth in federal regulations (42 C.F.R., part 2, published July 1, 1975).

(5) Patient photographs. All methadone treatment facilities shall maintain in the dispensary a file of photographs of all patients. Photographs shall be updated whenever the client's physical appearance changes significantly or every two years, whichever comes first.

(6) Transfer patients. The initial dose of all transfer patients shall be the same as the last prescribed dose at the previous facility. Doses may be increased after the initial dose in the manner and under the conditions required elsewhere in these rules. Detailed evaluation of dose adequacy is mandatory for all transfer patients requesting dose increases. If any transfer patient reporting an inadequate dose at the previous facility is determined to be stabilized at that same dose at the transfer facility, such case shall be immediately reported to the program director of the previous facility and to the department of social and health services.

(7) Transfer fees. Methadone treatment facilities may not levy unreasonable transfer fees on patients attempting to transfer to another

facility. Transfer fees may not exceed the actual cost of duplicating and forwarding records.

(8) Rate setting. All services (other than admission services) required by these standards shall be included in the basic daily, weekly, or monthly rate, including dispensing, urinalysis, and counseling. Medical services unrelated to diagnosis and treatment of addiction, such as primary care and prenatal or postnatal care, may be provided at additional charge.

(9) Fees. The patient shall be provided a complete schedule of fees and applicable fee policies prior to the initiation of any treatment services.

(10) Detoxification for nonpayment. Any patient detoxified for reasons of nonpayment shall be provided an individual detoxification schedule consistent with sound medical practices approved by the program's physician.
