(c) A county is not precluded by (a) or (b) of this subsection from restricting the location of a manufactured/mobile home in manufactured/mobile home communities for any other reason including,

but not limited to, failure to comply with fire, safety, or other local ordinances or state laws related to manufactured/mobile homes.

(3) A county may not adopt an ordinance that has the effect, directly or indirectly, of preventing the entry or requiring the removal of a recreational vehicle used as a primary residence in manufactured/mobile home communities, as defined in RCW 59.20.030, unless the recreational vehicle fails to comply with the fire, safety, or other local ordinances or state laws related to recreational vehicles.

(4) This section does not override any legally recorded covenants or deed restrictions of record.

RCW 36.01.250 Environmental mitigation activities. (1) Any county authorized to acquire and operate utilities or conduct other proprietary or user or ratepayer funded activities may develop and make publicly available a plan for the county to reduce its greenhouse gases emissions or achieve no-net emissions from all sources of greenhouse gases that such county utility or proprietary or user or ratepayer funded activity owns, operates, leases, uses, contracts for, or otherwise controls.

(2) Any county authorized to acquire and operate utilities or conduct other proprietary or user or ratepayer funded activities may, as part of such utility or activity, reduce or mitigate the environmental impacts, such as greenhouse gases emissions, of such utility and other proprietary or user or ratepayer funded activity. The mitigation may include, but is not limited to, all greenhouse gases mitigation mechanisms recognized by independent, qualified organizations with proven experience in emissions mitigation activities. Mitigation mechanisms may include the purchase, trade, and banking of carbon offsets or credits. Ratepayer funds, fees, or other revenue dedicated to a county utility or other proprietary or user or ratepayer funded activity may be spent to reduce or mitigate the environmental impacts of greenhouse gases emitted as a result of that function. If a state greenhouse gases registry is established, the county that has purchased, traded, or banked greenhouse gases mitigation mechanisms under this section shall receive credit in the registry. [2007 c 349 § 6.]

Findings—Intent—2007 c 349 § 6: "The legislature finds and declares that greenhouse gases offset contracts, credits, and other greenhouse gases mitigation efforts are a recognized utility purpose that confers a direct benefit on the utility's ratepayers. The legislature also finds and declares that greenhouse gases offset contracts, credits, and other greenhouse gases mitigation efforts are a recognized purpose of other county proprietary activities that are funded by users and ratepayers, and that such mitigation efforts confer a direct benefit on such payers. The legislature declares that section 6 of this act is intended to reverse the result of *Okeson v. City of Seattle* (January 18, 2007), by expressly granting counties the statutory authority to engage in mitigation activities to offset the impact on the environment of their utilities and certain other proprietary and user and ratepayer funded activities." (1) A religious organization may host the homeless on property owned or controlled by the religious organization whether within buildings located on the property or elsewhere on the property outside of buildings.

(2) Except as provided in subsection (7) of this section, a county may not enact an ordinance or regulation or take any other action that:

(a) Imposes conditions other than those necessary to protect public health and safety and that do not substantially burden the decisions or actions of a religious organization regarding the location of housing or shelter, such as an outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking, for homeless persons on property owned or controlled by the religious organization;

(b) Requires a religious organization to obtain insurance pertaining to the liability of a municipality with respect to homeless persons housed on property owned by a religious organization or otherwise requires the religious organization to indemnify the municipality against such liability;

(c) Imposes permit fees in excess of the actual costs associated with the review and approval of permit applications. A county has discretion to reduce or waive permit fees for a religious organization that is hosting the homeless;

(d) Specifically limits a religious organization's availability to host an outdoor encampment on its property or property controlled by the religious organization to fewer than six months during any

calendar year. However, a county may enact an ordinance or regulation that requires a separation of time of no more than three months between subsequent or established outdoor encampments at a particular site;

(e) Specifically limits a religious organization's outdoor encampment hosting term to fewer than four consecutive months;

(f) Limits the number of simultaneous religious organization outdoor encampment hostings within the same municipality during any given period of time. Simultaneous and adjacent hostings of outdoor encampments by religious organizations may be limited if located within one thousand feet of another outdoor encampment concurrently hosted by a religious organization;

(g) Limits a religious organization's availability to host safe parking efforts at its on-site parking lot, including limitations on any other congregationally sponsored uses and the parking available to support such uses during the hosting, except for limitations that are in accord with the following criteria that would govern if enacted by local ordinance or memorandum of understanding between the host religious organization and the jurisdiction:

(i) No less than one space may be devoted to safe parking per ten on-site parking spaces;

(ii) Restroom access must be provided either within the buildings on the property or through use of portable facilities, with the provision for proper disposal of waste if recreational vehicles are hosted; and

(iii) Religious organizations providing spaces for safe parking must continue to abide by any existing on-site parking minimum requirement so that the provision of safe parking spaces does not reduce the total number of available parking spaces below the minimum number of spaces required by the county, but a county may enter into a memorandum of understanding with a religious organization that reduces the minimum number of on-site parking spaces required;

(h) Limits a religious organization's availability to host an indoor overnight shelter in spaces with at least two accessible exits due to lack of sprinklers or other fire-related concerns, except that:

(i) If a county fire official finds that fire-related concerns associated with an indoor overnight shelter pose an imminent danger to persons within the shelter, the county may take action to limit the religious organization's availability to host the indoor overnight shelter; and

(ii) A county may require a host religious organization to enter into a memorandum of understanding for fire safety that includes local fire district inspections, an outline for appropriate emergency procedures, a determination of the most viable means to evacuate occupants from inside the host site with appropriate illuminated exit signage, panic bar exit doors, and a completed fire watch agreement indicating:

(A) Posted safe means of egress;

(B) Operable smoke detectors, carbon monoxide detectors as necessary, and fire extinguishers;

(C) A plan for monitors who spend the night awake and are familiar with emergency protocols, who have suitable communication devices, and who know how to contact the local fire department; or

(i) Limits a religious organization's ability to host temporary small houses on land owned or controlled by the religious organization, except for recommendations that are in accord with the following criteria:

- (i) A renewable one-year duration agreed to by the host religious organization and local jurisdiction via a memorandum of understanding;
- (ii) Maintaining a maximum unit square footage of one hundred twenty square feet, with units set at least six feet apart;
- (iii) Electricity and heat, if provided, must be inspected by the local jurisdiction;
- (iv) Space heaters, if provided, must be approved by the local fire authority;
- (v) Doors and windows must be included and be lockable, with a recommendation that the managing agency and host religious organization also possess keys;
- (vi) Each unit must have a fire extinguisher;
- (vii) Adequate restrooms must be provided, including restrooms solely for families if present, along with handwashing and potable running water to be available if not provided within the individual units, including accommodating black water;
- (viii) A recommendation for the host religious organization to partner with regional homeless service providers to develop pathways to permanent housing.

(3) (a) A county may enact an ordinance or regulation or take any other action that requires a host religious organization and a distinct managing agency using the religious organization's property, owned or controlled by the religious organization, for hostings to include outdoor encampments, temporary small houses on-site, indoor overnight shelters, or vehicle resident safe parking to enter into a memorandum of understanding to protect the public health and safety of both the residents of the particular hosting and the residents of the county.

(b) At a minimum, the agreement must include information regarding: The right of a resident in an outdoor encampment, vehicle resident safe parking, temporary small house on-site, or indoor overnight shelter to seek public health and safety assistance, the resident's ability to access social services on-site, and the resident's ability to directly interact with the host religious organization, including the ability to express any concerns regarding the managing agency to the religious organization; a written code of conduct agreed to by the managing agency, if any, host religious organization, and all volunteers working with residents of the outdoor encampment, temporary small house on-site, indoor overnight shelter, or vehicle resident safe parking; and when a publicly funded managing agency exists, the ability for the host religious organization to interact with residents of the outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking using a release of information.

(4) If required to do so by the county, any host religious organization performing any hosting of an outdoor encampment, vehicle resident safe parking, or indoor overnight shelter, or the host religious organization's managing agency, must ensure that the county or local law enforcement agency has completed sex offender checks of all adult residents and guests. The host religious organization retains the authority to allow such offenders to remain on the property. A host religious organization or host religious organization's managing agency performing any hosting of vehicle resident safe parking must inform vehicle residents how to comply with laws regarding the legal status of vehicles and drivers, and provide a written code of conduct consistent with area standards.

(5) Any host religious organization performing any hosting of an outdoor encampment, vehicle resident safe parking, temporary small house on-site, or indoor overnight shelter, with a publicly funded managing agency, must work with the county to utilize Washington's homeless client management information system, as provided for in RCW 43.185C.180. When the religious organization does not partner with a managing agency, the religious organization is encouraged to partner with a local homeless services provider using the Washington homeless client managing information system. Any managing agency receiving any funding from local continuum of care programs must utilize the homeless client management information system. Temporary, overnight, extreme weather shelter provided in religious organization buildings does not need to meet this requirement.

(6) For the purposes of this section:

(a) "Managing agency" means an organization such as a religious organization or other organized entity that has the capacity to organize and manage a homeless outdoor encampment, temporary small houses on-site, indoor overnight shelter, and a vehicle resident safe parking program.

(b) "Outdoor encampment" means any temporary tent or structure encampment, or both.

(c) "Religious organization" means the federally protected practice of a recognized religious assembly, school, or institution that owns or controls real property.

(d) "Temporary" means not affixed to land permanently and not using underground utilities.

(7) (a) Subsection (2) of this section does not affect a county policy, ordinance, memorandum of understanding, or applicable consent decree that regulates religious organizations' hosting of the homeless if such policies, ordinances, memoranda of understanding, or consent decrees:

(i) Exist prior to June 11, 2020;

(ii) Do not categorically prohibit the hosting of the homeless by religious organizations; and

(iii) Have not been previously ruled by a court to violate the religious land use and institutionalized persons act, 42 U.S.C. Sec. 2000cc.

(b) If such policies, ordinances, memoranda of understanding, and consent decrees are amended after June 11, 2020, those amendments are not affected by subsection (2) of this section if those amendments satisfy (a) (ii) and (iii) of this subsection.

(8) An appointed or elected public official, public employee, or public agency as defined in RCW 4.24.470 is immune from civil liability for (a) damages arising from the permitting decisions for a temporary encampment for the homeless as provided in this section and (b) any conduct or unlawful activity that may occur as a result of the temporary encampment for the homeless as provided in this section.

(9) A religious organization hosting outdoor encampments, vehicle resident safe parking, or indoor overnight shelters for the homeless that receives funds from any government agency may not refuse to host any resident or prospective resident because of age, sex, marital status, sexual orientation, race, creed, color, national origin, honorably discharged veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability, as these terms are defined in RCW 49.60.040.

(10)(a) Prior to the opening of an outdoor encampment, indoor overnight shelter, temporary small house on-site, or vehicle resident safe parking, a religious organization hosting the homeless on property owned or controlled by the religious organization must host a meeting open to the public for the purpose of providing a forum for discussion of related neighborhood concerns, unless the use is in response to a declared emergency. The religious organization must provide written notice of the meeting to the county legislative authority at least one week if possible but no later than ninety-six hours prior to the meeting. The notice must specify the time, place, and purpose of the meeting.

(b) A county must provide community notice of the meeting described in (a) of this subsection by taking at least two of the following actions at any time prior to the time of the meeting:

(i) Delivering to each local newspaper of general circulation and local radio or television station that has on file with the governing body a written request to be notified of special meetings;

(ii) Posting on the county's website. A county is not required to post a special meeting notice on its website if it: (A) Does not have a website; (B) employs fewer than ten full-time equivalent employees; or (C) does not employ personnel whose duty, as defined by a job description or existing contract, is to maintain or update the website;

(iii) Prominently displaying, on signage at least two feet in height and two feet in width, one or more meeting notices that can be placed on or adjacent to the main arterials in proximity to the location of the meeting; or

(iv) Prominently displaying the notice at the meeting site.

[2020 c 223 § 2; 2010 c 175 § 2.]

Findings—Intent—2020 c 223: "(1) The legislature makes the following findings:

(a) Residents in temporary settings hosted by religious organizations are a particularly vulnerable population that do not have access to the same services as citizens with more stable housing.

(b) Residents in these settings, including outdoor uses such as outdoor encampments, indoor overnight shelters, temporary small houses on-site, and homeless-occupied vehicle resident safe parking, can be at increased risk of exploitation, theft, unsanitary living conditions, and physical harm.

(c) Furthermore, the legislature finds and declares that hosted outdoor encampments, indoor overnight shelters, temporary small houses on-site, and homeless-occupied vehicle resident safe parking serve as pathways for individuals experiencing homelessness to receive services and achieve financial stability, health, and permanent housing.

(2) The legislature intends that local municipalities have the discretion to protect the health and safety of both residents in temporary settings that are hosted by religious organizations and the surrounding community. The legislature encourages local jurisdictions and religious organizations to work together collaboratively to protect the health and safety of residents and the surrounding community while allowing religious organizations to fulfill their mission to serve the homeless. The legislature further intends to monitor the implementation of this act and continue to refine it to achieve these goals." [2020 c 223 § 1.]

Findings—2010 c 175: "The legislature finds that there are many homeless persons in our state that are in need of shelter and other services that are not being provided by the state and local governments. The legislature also finds that in many communities, religious organizations play an important role in providing needed services to the homeless, including the provision of shelter upon property owned by the religious organization. By providing such shelter, the religious institutions in our communities perform a valuable public service that, for many, offers a temporary, stopgap solution to the larger social problem of increasing numbers of homeless persons.

This act provides guidance to cities and counties in regulating homeless encampments within the community, but still leaves those entities with broad discretion to protect the health and safety of its citizens. It is the hope of this legislature that local governments and religious organizations can work together and utilize dispute resolution processes without the need for litigation." [2010 c 175 § 1.]

Intent—Construction—2010 c 175: "Nothing in this act is intended to change applicable law or be interpreted to prohibit a county, city, town, or code city from applying zoning and land use regulations allowable under established law to real property owned by a religious organization, regardless of whether the property owned by the religious organization is used to provide shelter or housing to homeless persons." [2010 c 175 § 5.]

Prior consent decrees and negotiated settlements for temporary encampments for the homeless not superseded—2010 c 175: "Nothing in this act supersedes a court ordered consent decree or other negotiated settlement between a public agency and religious organization entered into prior to July 1, 2010, for the purposes of establishing a temporary encampment for the homeless as provided in this act." [2010 c 175 § 6.]

(2) The investigation conducted under subsection (1)(a) through (c) of this section shall consist of a background check as allowed through the Washington state criminal records privacy act under RCW 10.97.050, the Washington state patrol criminal identification system under RCW 43.43.832 through 43.43.834, and the federal bureau of investigation.

(3) The background checks conducted under subsection (1)(a) through (c) of this section must be done through the Washington state patrol identification and criminal history section and may include a national check from the federal bureau of investigation, which shall be through the submission of fingerprints. The Washington state patrol shall serve as the sole source for receipt of fingerprint submissions and the responses to the submissions from the federal bureau of investigation, which must be disseminated to the county.

(4) For a criminal background check conducted under subsection (1)(a) through (c) of this section, the county shall transmit appropriate fees for a state and national criminal history check to the Washington state patrol, unless alternately arranged. The cost of investigations conducted under this section shall be borne by the county.

(5) The authority for background checks outlined in this section is in addition to any other authority for such checks provided by law. [2017 c 332 § 3; 2010 c 47 § 1.]

(2) A county that has an active accessible community advisory committee may be reimbursed within available funds from the accessible communities account created in RCW 50.40.071 for travel, per diem, and reasonable accommodation expenses for the participation of that committee's members in committee meetings and sponsored activities.

(3) A county establishes that it has an active accessible community advisory committee by submitting biennial assurances to the governor's committee on disability issues and employment that:

(a) The decision to establish an accessible community advisory committee was made by the county legislative authority, or by agents or officers acting under that authority.

(b) If an accessible community advisory committee is established by expanding the advisory committee established and maintained under *RCW 29A.46.260, the county auditor supports that expansion.

(c) Committee members include persons with a diverse range of disabilities who are knowledgeable in identifying and eliminating attitudinal, programmatic, communication, and physical barriers encountered by persons with disabilities.

(d) The committee is actively involved in the following activities: Advising on addressing the needs of persons with disabilities in emergency plans; advising the county and other local governments within the county on access to programs services and activities, new construction or renovation projects, sidewalks, other pedestrian routes of travel, and disability parking enforcement; and

developing local initiatives and activities to promote greater awareness of disability issues, and acceptance, involvement, and access for persons with disabilities within the community.

(4) Counties may form joint accessible community advisory committees, as long as no more than one of the participating counties has a population greater than seventy thousand. [2010 c 215 § 4.]

***Reviser's note:** RCW 29A.46.260 was recodified as RCW 29A.04.223 pursuant to 2011 c 10 § 87.

Findings—2010 c 215: See note following RCW 50.40.071.

RCW 36.01.320 Application for a permit to site an energy plant or alternative energy resource—Written notice to United States department of defense. (1) Upon receipt of an application for a permit to site an energy plant or alternative energy resource that is connected to electrical transmission facilities of a nominal voltage of at least one hundred fifteen thousand volts, the county shall notify in writing the United States department of defense. The notification shall include, but not be limited to, the following:

(a) A description of the proposed energy plant or alternative energy resource;

(b) The location of the site;

(c) The number and placement of the energy plant or alternative energy resource on the site;

(d) The date and time by which comments must be received by the county; and

(e) Contact information of the county permitting authority and the applicant.

(2) The purpose of the written notification is to provide an opportunity for the United States department of defense to comment upon the application, and to identify potential issues relating to the placement and operations of the energy plant or alternative energy resource, before a permit application is approved. The time period set forth by the county for receipt of such comments shall not extend the time period for the county's processing of the application.

(3) For the purpose of this section, "alternative energy resource," "energy plant," and "electrical transmission facility" shall each have the meaning set forth in RCW 80.50.020. [2011 c 261 § 2.]

RCW 36.01.330 Failing septic systems—Connection to public sewer systems—Appeals process. (1) A county with an ordinance or resolution requiring, upon the failure of an on-site septic system, connection to a public sewer system must, in accordance with this section, provide an administrative appeals process to consider denials of permit applications to repair or replace the septic system. The administrative appeals process required by this section applies only to requests to repair or replace existing, failing on-site septic systems that:

(a) Were made for a single-family residence by its owner or owners;

(b) Were denied solely because of a law, regulation, or ordinance requiring connection to a public sewer system; and

(c) Absent the applicable law, regulation, or ordinance requiring connection to a public sewer system upon which the denial was based, would be approved.

(2) If the county has an administrative appeals process, the county may, subject to the requirements of this section, use that process. The administrative appeals process required by this section, however, must be presided over by the legislative body of the county or by an administrative hearings officer.

(3) The administrative appeals process required by this section must, at a minimum, consider whether:

(a) It is cost-prohibitive to require the property owner to connect to the public sewer system. In complying with this subsection (3)(a), the county must consider the estimated cost to repair or replace the on-site septic system compared to the estimated cost to connect to the public sewer system;

(b) There are public health or environmental considerations related to allowing the property owner to repair or replace the on-site septic system. In complying with this subsection (3)(b), the county must consider whether the repaired or replaced on-site septic system contributes to the pollution of surface waters or groundwater;

(c) There are public sewer system performance or financing considerations related to allowing the property owner to repair or replace the on-site septic system; and

(d) There are financial assistance programs or latecomer agreements offered by the county or state that may impact a decision of the property owner to repair or replace the on-site septic system.

(4) If the county, following the appeals process required by this section, determines that the property owner must connect the residence to the public sewer system, the property owner may, in complying with the determination and subject to approval of appropriate permits, select and hire contractors at his or her own expense to perform the work necessary to connect the residence to the public sewer system.

(5) Unless otherwise required by law, a county determination requiring the owner of a single-family residence with a failing on-site septic system to connect a residence to a public sewer system is not subject to appeal. [2015 c 297 § 3.]

The notice must also identify the property and provide a brief explanation of the restrictive covenant to be removed, vacated, or extinguished. Any member of the public, in person or by counsel, may submit testimony regarding the proposed action at the public hearing. [2017 c 119 § 5.]

(ii) The location of where retail telecommunications services will be provided;

(iii) Evidence relating to the unserved nature of the community in which retail telecommunications services will be provided;
