RCW 15.58.040 Director's authority—Rules. (1) The director shall administer and enforce the provisions of this chapter and rules adopted under this chapter. All the authority and requirements provided for in chapter 34.05 RCW (Administrative Procedure Act) and chapter 42.30 RCW shall apply to this chapter in the adoption of rules including those requiring due notice and a hearing for the adoption of permanent rules.

(2) The director is authorized to adopt appropriate rules for carrying out the purpose and provisions of this chapter, including but not limited to rules providing for:

(a) Declaring as a pest any form of plant or animal life or virus which is injurious to plants, people, animals (domestic or otherwise), land, articles, or substances;

(b) Determining that certain pesticides are highly toxic to people. For the purpose of this chapter, highly toxic pesticide means any pesticide that conforms to the criteria in 40 C.F.R. Sec. 156.10 for toxicity category I due to oral inhalation or dermal toxicity. The director shall publish a list of all pesticides, determined to be highly toxic, by their common or generic name and their trade or brand name if practical. Such list shall be kept current and shall, upon request, be made available to any interested party;

(c) Determining standards for denaturing pesticides by color, taste, odor, or form;

- (d) The collection and examination of samples of pesticides or devices;
 - (e) The safe handling, transportation, storage, display, distribution, and disposal of pesticides and their containers;
 - (f) Restricting or prohibiting the use of certain types of containers or packages for specific pesticides. The director shall be guided by federal regulations concerning pesticide containers;
 - (g) Procedures in making of pesticide recommendations;
 - (h) Adopting a list of restricted use pesticides for the state or for designated areas within the state if the director determines that such pesticides may require rules restricting or prohibiting their distribution or use. The director may include in the rule the time and conditions of distribution or use of such restricted use pesticides and may, if it is found necessary to carry out the purpose and provisions of this chapter, require that any or all restricted use pesticides shall be purchased, possessed, or used only under permit of the director and under the director's direct supervision in certain areas and/or under certain conditions or in certain quantities or concentrations. The director may require all persons issued such permits to maintain records as to the use of all the restricted use pesticides;
 - (i) Label requirements of all pesticides required to be registered under provisions of this chapter;
 - (j) Regulating the labeling of devices;
 - (k) The establishment of criteria governing the conduct of a structural pest inspection;

The director may include in the rule any restrictions or conditions regarding: (i) The application of pesticides to the designated crops; and (ii) the disposition of any portion of the treated crop;
 - (m) Governing the fixing and collecting of examination fees; and
 - (n) Requiring individuals to earn recertification credits in the classifications in which they are licensed.

RCW 15.58.100 Criterion for registering. (1) The director shall require the information required under RCW 15.58.060 and shall register the label or labeling for such pesticide if he or she determines that:

(a) Its composition is such as to warrant the proposed claims for it;

(b) Its labeling and other material required to be submitted comply with the requirements of this chapter;

(c) It will perform its intended function without unreasonable adverse effects on the environment;

(d) When used in accordance with widespread and commonly recognized practice it will not generally cause unreasonable adverse effects on the environment;

(e) In the case of any pesticide subject to section 24(c) of FIFRA, it meets (a), (b), (c), and (d) of this subsection and the following criteria:

(i) The proposed classification for general use, for restricted use, or for both is in conformity with section 3(d) of FIFRA;

(ii) A special local need exists.

(2) The director shall not make any lack of essentiality a criterion for denying registration of any pesticide. [2010 c 8 § 6066; 1979 c 146 § 2; 1971 ex.s. c 190 § 10.]

RCW 15.58.110 Refusing or canceling registration—Procedure.

(1) If it does not appear to the director that the pesticide is such as to warrant the proposed claims for it or if the pesticide and its labeling and other material required to be submitted do not comply with the provisions of this chapter or rules adopted under this chapter, the registrant shall be notified of the manner in which the pesticide, labeling, or other material required to be submitted fails to comply with the provisions of this chapter so as to afford the applicant an opportunity to make the necessary corrections. If, upon receipt of such notice, the applicant does not make the corrections the director shall refuse to register the pesticide. The applicant may request a hearing as provided for in chapter 34.05 RCW.

(2) The director may, when the director determines that a pesticide or its labeling does not comply with the provisions of this chapter or the rules adopted under this chapter, cancel the registration of a pesticide after a hearing in accordance with the provisions of chapter 34.05 RCW. (3) It is unlawful for any licensed dealer outlet to operate without a pesticide dealer manager who has a license of qualification.

(4) This section does not apply to (a) a licensed pesticide applicator who sells pesticides only as an integral part of the applicator's pesticide application service when pesticides are dispensed only through apparatuses used for pesticide application, or (b) any federal, state, county, or municipal agency that provides pesticides only for its own programs.

(5) A user of a pesticide may distribute a properly labeled pesticide to another user who is legally entitled to use that pesticide without obtaining a pesticide dealer's license if the exclusive purpose of distributing the pesticide is keeping it from becoming a hazardous waste as defined in chapter 70A.300 RCW. [2021 c 244 § 2; 2021 c 65 § 10; 2013 c 144 § 10; 2008 c 285 § 16; 1997 c 242 § 4; 1989 c 380 § 14; 1983 c 95 § 4; 1982 c 182 § 27; 1971 ex.s. c 190 § 18.]

Public employees licensed to perform structural pest inspections are exempt from this licensing requirement when acting within their official capacities.

(a) **Errors and Omissions Insurance.** The amount of the errors and omissions insurance policy required by RCW 15.58.460(2) (a) shall not be less than twenty-five thousand dollars. The insurance policy shall be maintained at not less than the required sum at all times during the licensed period. The insurance policy shall provide coverage for errors and omissions in an inspection conducted during the term of the policy. However, the policy may limit the insurer's liability on the policy in effect at the time of the inspection to two years from the date of the inspection.

(b) **Surety Bond.** The amount of the surety bond required by RCW 15.58.460(2) (b) shall not be less than twenty-five thousand dollars. The surety bond shall be maintained at not less than the required sum at all times during the licensed period. Any person having a claim against the structural pest inspector for legal damages as a result of the actions of the structural pest inspector may bring suit upon the bond in the court of the county in which the inspection took place or of the county in which jurisdiction of the structural pest inspector may be had. The surety issuing the bond shall be named as a party to any suit upon the bond. The suit upon the bond must be commenced within two years of the date of the inspection.

(c) **Surety Bond and Errors and Omissions Insurance.** The amount of the surety bond required by RCW 15.58.460(2) (c) shall not be less than twelve thousand five hundred dollars. Except as to the amount of the bond, the terms of the bond shall be identical to those set forth in (b) of this subsection. The amount of the errors and omissions insurance policy required by RCW 15.58.460(2) (c) shall not be less than twenty-five thousand dollars. The insurance policy shall be maintained at not less than the required sum at all times during the licensed period. The insurance policy shall provide coverage for

errors and omissions in an inspection conducted during the term of the policy.

(d) **Assigned Account.** The amount of the assigned account required by RCW 15.58.460(2)(d) shall not be less than twenty-five thousand dollars. The assigned account shall be held by the department to satisfy any execution on a judgment issued against the inspector for legal damages resulting from errors and omissions in the conduct of an inspection, according to the provisions of the assigned account agreement. The department has no liability for payment in excess of the amount of the assigned account.

(i) The assigned account agreement filed with the director as evidence of financial responsibility shall be canceled at the expiration of two years after the inspector's license has expired or been revoked, or at the expiration of two years after the inspector has furnished another form of evidence of financial responsibility required by RCW 15.58.460, unless legal action has been instituted against the inspector prior to the expiration of the two-year period and the director has been provided written notice of the same by the claimant. In such a case the director shall not cancel the assigned account agreement until the director either receives a copy of the order dismissing the action by registered or certified mail, or has received a copy of the unsatisfied judgment and has complied with the requirements of (d)(ii) of this subsection.

(ii) Any person having an unsatisfied final judgment against the inspector for legal damages awarded based on errors and omissions in the conduct of an inspection may execute upon the funds in the assigned account by serving a certified copy of the unsatisfied final judgment by registered or certified mail upon the department within one year of the date of entry of such judgment. Upon the receipt of service of such certified copy the department shall direct the financial institution to pay from the assigned account, through the registry of the court which rendered judgment, towards the amount of the unsatisfied judgment. The priority of payment from the assigned account shall be the order of receipt of the final judgment by the department.

(2) Nothing in subsection (1) of this section that limits the time period in which a suit must be commenced on a surety bond or in which a claim must be made on a policy effects the statute of limitations applicable to any claim any person may have against the structural pest inspector or company.

(3) The director may only accept a surety bond or insurance policy as evidence of financial responsibility if the bond or policy is issued by an insurer authorized to do business in this state. The director shall be notified ten days before any reduction of insurance coverage at the request of the applicant or cancellation of the surety bond or insurance by the surety or insurer and by the insured.

(4) The total and aggregate of the surety and insurer for all claims is limited to the face of the surety bond or insurance policy. The director may accept a surety bond or insurance policy in the proper sum that has a deductible clause in an amount not exceeding five thousand dollars for the total amount of surety bond or insurance required by this section. If the applicant has not satisfied the requirement of the deductible amount in any prior legal claim the deductible clause may not be accepted by the director unless the applicant furnishes the director with a surety bond or insurance policy which satisfies the amount of the deductible as to all claims that may arise. [2003 c 212 § 10; 2000 c 96 § 4.]

[2003 c 212 § 11; 2000 c 96 § 5.]

RCW 15.58.480 Educational materials regarding best practices for avoiding adverse effects from pesticides on pollinating insects. The department must develop educational materials regarding the best practices for avoiding adverse effects from pesticides on populations of bees, honey bees, and other pollinating insects. The educational materials must include, but not be limited to, measures that anyone applying pesticides can take to protect bees, honey bees, and other pollinating insects. The department must design requirements to ensure that any pesticide applicator applying or supervising the application of a restricted-use pesticide is highly knowledgeable regarding alternatives to, the appropriateness of, and precautions for, the use of restricted-use pesticides that may be injurious to the health of bees, honey bees, and other pollinating insects. [2019 c 353 § 13.]
