(2) Unless proven to the contrary it shall be presumed that:

(a) The domicile of any person shall be determined according to the individual's situation and circumstances rather than by marital status or sex.

(b) A person does not lose a domicile in the state of Washington by reason of residency in any state or country while a member of the civil or military service of this state or of the United States, nor while engaged in the navigation of the waters of this state or of the United States or of the high seas if that person returns to the state of Washington within one year of discharge from said service with the intent to be domiciled in the state of Washington; any resident dependent student who remains in this state when such student's parents, having theretofore been domiciled in this state for a period of one year immediately prior to the time of commencement of the first day of the semester or quarter for which the student has registered at any institution, remove from this state, shall be entitled to continued classification as a resident student so long as such student's attendance (except summer sessions) at an institution in this state is continuous.

(3) To aid the institution in deciding whether a student, parent, legally appointed guardian or the person having legal custody of a student is domiciled in the state of Washington primarily for purposes other than educational, the rules adopted by the student achievement council shall include but not be limited to the following:

(a) Registration or payment of Washington taxes or fees on a motor vehicle, mobile home, travel trailer, boat, or any other item of personal property owned or used by the person for which state registration or the payment of a state tax or fee is required will be a factor in considering evidence of the establishment of a Washington domicile.

(c) Registration to vote for state officials in Washington will be a factor in considering the establishment of a Washington domicile.

(4) After a student has registered at an institution such student's classification shall remain unchanged in the absence of satisfactory evidence to the contrary. A student wishing to apply for a change in classification shall reduce such evidence to writing and file it with the institution. In any case involving an application for a change from nonresident to resident status, the burden of proof shall rest with the applicant. Any change in classification, either nonresident to resident, or the reverse, shall be based upon written evidence maintained in the files of the institution and, if approved, shall take effect the semester or quarter such evidence was filed with the institution: PROVIDED, That applications for a change in classification shall be accepted up to the thirtieth calendar day following the first day of instruction of the quarter or semester for which application is made. RCW 28B.15.025 "Building fees" defined—Use. The term "building fees" means the fees charged students registering at the state's colleges and universities, which fees are to be used as follows: At the University of Washington, solely for the purposes provided in RCW 28B.15.210; at Washington State University, solely for the purposes provided in RCW 28B.15.310; at each of the regional universities and at The Evergreen State College, solely for the purposes provided in RCW 28B.35.370; and at the community and technical colleges, for the purposes provided in RCW 28B.50.320, 28B.50.360 and 28B.50.370. The term "building fees" is a renaming of the "general tuition fee," and shall not be construed to affect otherwise moneys pledged to, or used for bond retirement purposes. [2015 c 55 § 209; 1985 c 390 § 12.]

RCW 28B.15.031 "Operating fees"—Defined—Disposition. (1) The term "operating fees" as used in this chapter shall include the fees, other than building fees, charged all students registering at the state's colleges and universities but shall not include fees for short courses, self-supporting degree credit programs and courses, marine station work, experimental station work, correspondence or extension courses, and individual instruction and student deposits or rentals, disciplinary and library fines, which colleges and universities shall have the right to impose, laboratory, gymnasium, health, technology and student activity fees, or fees, charges, rentals, and other income derived from any or all revenue producing lands, buildings and facilities of the colleges or universities heretofore or hereafter acquired, constructed or installed, including but not limited to income from rooms, dormitories, dining rooms, hospitals, infirmaries, housing or student activity buildings, vehicular parking facilities, land, or the appurtenances thereon, or such other special fees as may be established by any college or university board of trustees or regents from time to time. All moneys received as operating fees at any institution of higher education shall be deposited in a local account containing only operating fees revenue and related interest: PROVIDED, That a minimum of four percent of operating fees shall be

retained by four-year institutions of higher education and a minimum of three and one-half percent of operating fees shall be retained by the community and technical colleges for the purposes of RCW 28B.15.820. The percentage to be transferred to the community and technical college innovation account shall be determined by the college board each year but shall not exceed three percent of the operating fees collected each year.

(3) Local operating fee accounts shall not be subject to appropriation by the legislature but shall be subject to allotment procedures by budget program and fiscal year under chapter 43.88 RCW. Findings—Intent—2011 1st sp.s. c 10: "(1) The legislature finds that in the knowledge-based, globally interdependent economy of the twenty-first century, postsecondary education is the most indispensable form of currency. Public institutions of higher education are drivers of economic growth and job creation and incubators for innovation. An educated citizenry is a critical component of our democracy, and a commitment to provide public funding for public higher education institutions is imperative. At the same time, the legislature finds that Washington state is experiencing a profound structural shift in the funding of higher education. State support has declined dramatically over the past twenty years, thereby necessitating increases in tuition to supplant the support of higher education from general taxpayers. The problem faced by all stakeholders -students and their families, institutions, and policymakers - is a growing reliance on tuition dollars and a reduced reliance on state support. At the same time, there is insufficient visibility into the use of locally retained tuition dollars. There is little transparency regarding whether increasing tuition dollars gives students, their families, and Washington taxpayers a high-value return on investment. Responding to those concerns, and recognizing that tuition-setting authority is interrelated to a wide variety of factors including state funding, student aid, admissions, dual credit, educational effectiveness, regulatory and reporting requirements, and

other policies and practices, this higher education opportunity act directs a number of higher education system reforms.

(2) It is the intent of the legislature to:

(a) Ensure that tuition dollars are spent to improve student access, affordability, and the quality of education;

(b) Establish a clear nexus between tuition dollars and improved productivity and greater accountability of public institutions of higher education;

(c) Create a modern and robust higher education financial system that funds outcomes and results rather than input and process; and

(d) Continue a commitment to public funding of higher education through state appropriations that are essential for providing access, affordability, and quality in higher education for all students across the state.

(3)(a) It is the intent of the legislature to set goals for four-year institutions of higher education to increase the number of students who earn baccalaureate degrees, while maintaining quality, and achieve the following initial degree completion targets by 2018:

(i) Increasing the number of bachelor's degrees earned by Washington's resident students from the 2009-10 academic year levels by at least six thousand degrees completed or by twenty-seven percent;

(ii) Consistent with the priority for expanding the number of enrollments and degrees in the fields of engineering, technology, biotechnology, sciences, computer sciences, and mathematics, at least two thousand of the additional degrees under this subsection (3)(a) would be awarded in the areas of science, which includes agriculture and natural resources, biology and biomedical sciences, computer and information sciences, engineering and engineering technologies, health professions and clinical sciences, mathematics and statistics, and physical sciences and science technologies; and

(iii) Attaining parity in degree attainment for students from underrepresented groups, which would mean that at least nineteen percent of the degrees awarded would include students who are low-income or are the first in their families to attend college.

(b) It is the intent of the legislature that the bachelor degree completion targets in (a) of this subsection be updated every two years based upon the state's changing population and economic needs and that targets be set for five-year periods following the 2018 target.

(c) It is the intent of the legislature to urge four-year institutions of higher education to place the highest priority on achieving the degree completion targets under (a) of this subsection. The legislature intends to examine the strategies used and progress made by institutions of higher education to meet the targets in addition to evidence of increased cost-effectiveness and efficiency. The legislature recognizes that individual institutions develop their campus goals recognizing the role of their campus as part of the system of public higher education and may implement a variety of innovative methods to achieve these goals." Finding—Intent—2011 c 274: See note following RCW 28B.50.515.

Finding—Intent—2003 c 232: "The legislature finds that, as a partner in financing public higher education with students and parents who pay tuition and fees, periodic increases in state funding, state financial aid, and tuition must be authorized to provide high quality higher education for the citizens of Washington. It is the intent of the legislature to address higher education through a cooperative bipartisan effort that includes the legislative and executive branches of government, parents, students, educators, as well as business, labor, and community leaders. The legislature recognizes the importance of keeping the public commitment to public higher education and will continue searching for policies that halt the trend for the growth in tuition revenue to outpace the revenue provided by the state. The legislature believes that a well-educated citizenry is essential to both the private and the public good. The economic and civic health of the state require both an educated citizenry and a well-trained workforce. The six-year time limitation authorizing the governing boards to establish tuition rates for all students other than undergraduate resident students will give the legislature, the governor, and the higher education institutions an opportunity to determine whether this policy achieves the goal of maintaining quality and access for all who are eligible for and can benefit from a higher education. Using data from six years of this tuition policy, the state will be able to identify options for long-term funding of higher education including not only tuition but general fund and financial aid sources." It is the intent of the legislature that students will propose budgetary recommendations for consideration by the college or university administration and governing board to the extent that such budget recommendations are intended to be funded by services and activities fees. It is also the intent of the legislature that services and activities fee expenditures for programs devoted to political or economic philosophies shall result in the presentation of a spectrum of ideas. Severability—1980 c 80: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 80 § 4.]

RCW 28B.15.045 Services and activities fees—Guidelines governing establishment and funding of programs supported by—Scope—Mandatory provisions—Dispute resolution. The legislature recognizes that institutional governing boards have a responsibility to manage and protect institutions of higher education. This responsibility includes ensuring certain lawful agreements for which revenues from services and activities fees have been pledged. Such lawful agreements include, but are not limited to, bond covenant agreements and other contractual obligations. Institutional governing boards are also expected to protect the stability of programs that benefit students.

The legislature also recognizes that services and activities fees are paid by students for the express purpose of funding student services and programs. It is the intent of the legislature that governing boards ensure that students have a strong voice in recommending budgets for services and activities fees. The boards of trustees and the boards of regents of the respective institutions of higher education shall adopt guidelines governing the establishment and funding of programs supported by services and activities fees. Such guidelines shall stipulate procedures for budgeting and expending services and activities fee revenue. Any such guidelines shall be consistent with the following provisions:

(1) Student representatives from the services and activities fee committee and representatives of the college or university

administration shall have an opportunity to address the board before board decisions on services and activities fee budgets and dispute resolution actions are made.

(2) Members of the governing boards shall adhere to the principle that services and activities fee committee desires be given priority consideration on funding items that do not fall into the categories of preexisting contractual obligations, bond covenant agreements, or stability for programs affecting students.

(3) Responsibility for proposing to the administration and the governing board program priorities and budget levels for that portion of program budgets that derive from services and activities fees shall reside with a services and activities fee committee, on which students shall hold at least a majority of the voting memberships, such student members shall represent diverse student interests, and shall be recommended by the student government association or its equivalent. The chairperson of the services and activities fee committee shall be selected by the members of that committee. The governing board shall insure that the services and activities fee committee provides an opportunity for all viewpoints to be heard at a public meeting during its consideration of the funding of student programs and activities.

(4) The services and activities fee committee shall evaluate existing and proposed programs and submit budget recommendations for the expenditure of those services and activities fees with supporting documents simultaneously to the college or university governing board and administration.

(5) The college or university administration shall review the services and activities fee committee budget recommendations and publish a written response to the services and activities fee committee. This response shall outline potential areas of difference between the committee recommendations and the administration's proposed budget recommendations. This response, with supporting documentation, shall be submitted to the services and activities fee committee in a timely manner to allow adequate consideration.

(6) (a) In the event of a dispute or disputes involving the services and activities fee committee recommendations, the college or university administration shall meet with the services and activities fee committee in a good faith effort to resolve such dispute or disputes prior to submittal of final recommendations to the governing board.

(b) If said dispute is not resolved within fourteen days, a dispute resolution committee shall be convened by the chair of the services and activities fee committee within fourteen days.

(7) The dispute resolution committee shall be selected as follows: The college or university administration shall appoint two nonvoting advisory members; the governing board shall appoint three voting members; and the services and activities fee committee chair shall appoint three student members of the services and activities fee committee who will have a vote, and one student representing the services and activities fee committee who will chair the dispute resolution committee and be nonvoting. The committee shall meet in good faith, and settle by vote any and all disputes. In the event of a tie vote, the chair of the dispute resolution committee shall vote to settle the dispute.

(8) The governing board may take action on those portions of the services and activities fee budget not in dispute in accordance with the customary budget approval timeline established by the board. The

governing board shall consider the results, if any, of the dispute resolution committee and shall take action.

(9) Services and activities fees and revenues generated by programs and activities funded by such fees shall be deposited and expended through the office of the chief fiscal officer of the institution.

(10) Services and activities fees and revenues generated by programs and activities funded by such fees shall be subject to the applicable policies, regulations, and procedures of the institution and the budget and accounting act, chapter 43.88 RCW.

(11) All information pertaining to services and activities fees budgets shall be made available to interested parties. Annually, by September 30th, the services and activities fees committee at each institution of higher education, in coordination with the administration of the institution of higher education, shall post services and activities fees expenditure information for the prior academic year on the college or university website so that the information is clearly visible and easily accessible to students and the public. At a minimum, the services and activities fees budget information must include all the major categories of expenditure and the amounts expended in each category.

(12) With the exception of any funds needed for bond covenant obligations, once the budget for expending service and activities fees is approved by the governing board, funds shall not be shifted from funds budgeted for associated students or departmentally related categories or the reserve fund until the administration provides written justification to the services and activities fee committee and the governing board, and the governing board and the services and activities fee committee give their express approval. In the event of a fund transfer dispute among the services and activities fee committee, the administration, or the governing board, said dispute shall be resolved pursuant to subsections (6)(b), (7), and (8) of this section.

(13) Any service and activities fees collected which exceed initially budgeted amounts are subject to subsections (1) through (10) and (12) of this section. [2012 c 104 § 2; 1994 c 41 § 1; 1990 c 7 § 1; 1986 c 91 § 2; 1980 c 80 § 2.]

Intent—2012 c 104: "The legislature recognizes that students play an important role in recommending how services and activities fees should be expended, as the majority of members of the services and activities fees committee at each institution of higher education. It is the intent of the legislature to increase transparency, so that expenditures of revenue from services and activities fees are clearly visible and accessible to the students who pay those fees." RCW 28B.15.051 "Technology fees"—Defined—Use—Student government approval. (1) The governing board of each of the state universities, the regional universities, and The Evergreen State College, upon the written agreement of its respective student government association or its equivalent, may establish and charge each enrolled student a technology fee, separate from tuition fees.

During the 1996-97 academic year, any technology fee shall not exceed one hundred twenty dollars for a full-time student. Any technology fee charged to a part-time student shall be calculated as a pro rata share of the fee charged to a full-time student.

(2) Revenue from this fee shall be used exclusively for technology resources for general student use.

(3) Only changes in the amount of the student technology fee agreed upon by both the governing board and its respective student government association or its equivalent shall be used to adjust the amount charged to students. Changes in the amount charged to students, once implemented, become the basis for future changes.

(4) Annually, the student government association or its equivalent may abolish the fee by a majority vote. In the event of such a vote, the student government association or its equivalent shall notify the governing board of the institution. The fee shall cease being collected the term after the student government association or its equivalent voted to eliminate the fee.

(5) The student government association or its equivalent shall approve the annual expenditure plan for the fee revenue.

(6) The universities and The Evergreen State College shall deposit three and one-half percent of revenues from the technology fee into the institutional financial aid fund under RCW 28B.15.820.

(7) As used in this section, "technology fee" is a fee charged to students to recover, in whole or in part, the costs of providing and maintaining services to students that include, but need not be limited to: Access to the internet and world wide web, email, computer and multimedia work stations and laboratories, computer software, and dial-up telephone services.

(8) Prior to the establishment of a technology fee, a governing board shall provide to the student governing body a list of existing fees of a similar nature or for a similar purpose. The board and the student governing body shall ensure that student fees for technology are not duplicative. [1996 c 142 § 1.]

RCW 28B.15.065 Adjustment of state appropriations for student financial aid. It is the intent of the legislature that students who demonstrate financial need not be deprived of access to higher education due to increases in educational costs or consequent increases in tuition and fees. It is the sense of the legislature that state appropriations for student financial aid be adjusted in an amount which together with funds estimated to be available in the form of basic educational opportunity grants as authorized under Section 411 of the federal Higher Education Act of 1965 as now or hereafter amended will equal twenty-four percent of any change in revenue estimated to occur as a result of revisions in tuition and fee levels under the provisions of chapter 322, Laws of 1977 ex. sess. RCW 28B.15.066 Appropriations to institutions of higher education—"Inflation" defined. (1) Beginning with the 2015-2017 omnibus appropriations act, the legislature shall appropriate to the state board for community and technical colleges and to each of the four-year institutions of higher education an amount that is at least equal to the total state funds appropriated in the 2013-2015 biennium and the net revenue loss from resident undergraduate tuition operating fees based on budgeted full-time equivalent enrollment received for the 2015-2017 fiscal biennium under *RCW 28B.15.067 (3) and (6). The net revenue loss shall be adjusted for inflation in subsequent biennia.

(2) As used in this section and RCW 28B.15.069, "inflation" shall be based on the consumer price index, using the official current base, compiled by the bureau of labor statistics, United States department of labor for the state of Washington. If the bureau of labor statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people and covering areas exclusively within the boundaries of the state shall be used. Except during the 2013-2015 fiscal biennium, the state board for community and technical colleges may pilot or institute differential tuition models. The board may define scale, scope, and rationale for the models.

(4) The tuition fees established under this chapter shall not apply to high school students enrolling in participating institutions of higher education under RCW 28A.600.300 through 28A.600.400.

(b) The tuition fees established under this chapter shall not apply to students incarcerated with the department of corrections who are participating in credit-eligible postsecondary education courses and degree programs when the program expenses are funded by nontuition resources such as, but not limited to, grants, contracts, and donations.

(6) As a result of any changes in tuition under section 3, chapter 36, Laws of 2015 3rd sp. sess., the governing boards of the state universities, the regional universities, and The Evergreen State College shall not reduce resident undergraduate enrollment below the 2014-15 academic year levels. RCW 28B.15.0681 Information provided to students on tuition billing statements or website—Notice of federal educational tax credits. (1) In addition to the requirement in *RCW 28B.76.300(4), institutions of higher education shall disclose to their undergraduate resident students on the tuition billing statement, in dollar figures for a full-time equivalent student:

- (a) The full cost of instruction;
- (b) The amount collected from student tuition and fees; and
- (c) The difference between the amounts for the full cost of instruction and the student tuition and fees.

(2) The tuition billing statement shall note that the difference between the cost and tuition under subsection (1)(c) of this section was paid by state tax funds and other moneys.

(3) Beginning in the 2010-11 academic year, the amount determined in subsection (1)(c) of this section shall be labeled an "opportunity pathway" on the tuition billing statement.

(4) Beginning in the 2010-11 academic year, institutions of higher education shall label financial aid awarded to resident undergraduate students as an "opportunity pathway" on the tuition billing statement or financial aid award notification. Aid granted to students outside of the financial aid package provided through the institution of higher education and loans provided by the federal government are not subject to the labeling provisions in this subsection. All other aid from all sources including federal, state, and local governments, local communities, nonprofit and for-profit organizations, and institutions of higher education must be included. The disclosure requirements specified in this section do not change the source, award amount, student eligibility, or student obligations associated with each award. Institutions of higher education retain the ability to customize their tuition billing statements to inform

students of the assistance source, amount, and type so long as provisions of this section are also fulfilled.

(5) Institutions of higher education shall provide the following information to all undergraduate resident students either on the tuition billing statement or via a link to a website detailing the following information:

(a) The sources of all institutional revenue received during the prior academic or fiscal year, including but not limited to state, federal, local, and private sources;

(b) The uses of tuition revenue collected during the prior academic or fiscal year by program category as determined by the office of financial management; and

(c) The accountability and performance data under **RCW 28B.76.270.

(6) The tuition billing statement disclosures shall be in twelve-point type and boldface type where appropriate.

(7) All tuition billing statements or financial aid award notifications at institutions of higher education must notify resident undergraduate students of federal tax credits related to higher education for which they may be eligible. [2011 1st sp.s. c 10 § 4; 2009 c 215 § 6; 2007 c 151 § 2.]

RCW 28B.15.069 Building fees—Services and activities fees—Other fees. (1) The building fee for each academic year shall be a percentage of total tuition fees. This percentage shall be calculated by the office of financial management and be based on the actual percentage the building fee is of total tuition for each tuition category in the 1994-95 academic year, rounded up to the nearest half percent. After October 9, 2015, the dollar value of the building fee shall not be reduced below the level in the 2014-15 academic year adjusted for inflation. As used in this subsection, "inflation" has the meaning in RCW 28B.15.066(2).

(2) The governing boards of each institution of higher education shall charge to and collect from each student a services and activities fee. A governing board may increase the existing fee annually, consistent with budgeting procedures set forth in RCW 28B.15.045, by amounts that shall not exceed four percent per year, judged reasonable and necessary by the services and activities fee committee and the governing board. The governing boards of the community and technical colleges may increase the existing student and activities fee annually, consistent with budgeting procedures set forth in RCW 28B.15.045, by a percentage not to exceed the annual

percentage increase in student tuition fees for resident undergraduate students: PROVIDED, That such percentage increase shall not apply to that portion of the services and activities fee previously committed to the repayment of bonded debt. These rate adjustments may exceed the fiscal growth factor. The services and activities fee committee provided for in RCW 28B.15.045 may initiate a request to the governing board for a fee increase.

(3) Tuition and services and activities fees consistent with subsection (2) of this section shall be set by the state board for community and technical colleges for community and technical college summer school students unless the college charges fees in accordance with RCW 28B.15.515.

(4) Subject to the limitations of RCW 28B.15.910, each governing board of a community or technical college may charge such fees for ungraded courses, noncredit courses, community services courses, and self-supporting courses as it, in its discretion, may determine, consistent with the rules of the state board for community and technical colleges.

(5) The governing board of a college offering an applied baccalaureate degree program under RCW 28B.50.810 or a bachelor of science degree program described in RCW 28B.50.825 may charge tuition fees for those courses above the associate degree level at rates consistent with rules adopted by the state board for community and technical colleges, not to exceed tuition fee rates at the regional universities. RCW 28B.15.071 Degree program support—Change from state funding to self-supporting and fee-based. (1) When a decision is being

considered to change an existing degree program that is supported by state funding to a program that is self-supporting and fee-based, the state universities, regional universities, and The Evergreen State College shall:

(a) Publicly notify prospective students, including notification in admission offers with an estimate of tuition and fees;

(b) Notify enrolled students and undergraduate or graduate student government associations at least six months before implementation with an estimate of tuition and fees; and

(c) Allow students currently enrolled in the program to continue in the state-supported program structure for a consecutive amount of time no greater than four years in length.

(2)(a) The state universities, regional universities, and The Evergreen State College shall each establish or designate a committee comprised of administrators, faculty, and students to create criteria upon which to evaluate, prior to a shift being made, the proposed shift of a degree program from a state-supported degree program to a self-supporting funding basis. Where possible, an existing budget or advisory committee shall be designated instead of establishing a new committee. When establishing evaluation criteria, the committee shall consider including the following:

(i) The financial health and sustainability of the program;

(ii) If moving the program to a self-supporting funding basis alters the availability of student financial aid;

(iii) The audience for the program, the format of the program, and the institutional priority for state funding of the program;

(iv) Demographics of students served and graduates practicing in typical fields of study; and

(v) Alternatives to shifting to a self-supporting funding basis including raising tuition within the state-funded context or program elimination.

(b) The committee that creates the criteria for moving a degree from a state-supported degree program to a self-supporting funding basis may also establish a process to periodically evaluate programs that have shifted from a state-supported program to a fee-based funding model for alignment with criteria established. [2014 c 60 § 1.]

RCW 28B.15.100 Tuition and fees set by individual institutions—Limitations—Tuition and fees for certain part-time, additional time, and out-of-state students. (1) The governing boards of the state universities, the regional universities, The Evergreen State College, and the community and technical colleges shall charge to and collect from each of the students registering at the particular institution for any quarter or semester such tuition fees and services and activities fees, and other fees as such board shall in its discretion determine. For the governing boards of the state universities, the regional universities, and The Evergreen State College, the total of all fees shall be rounded to the nearest whole dollar amount: PROVIDED, That such tuition fees shall be established in accordance with RCW 28B.15.067.

(2) Part-time students shall be charged tuition and services and activities fees proportionate to full-time student rates established for residents and nonresidents: PROVIDED, That except for students registered at community and technical colleges, students registered

for fewer than two credit hours shall be charged tuition and services and activities fees at the rate established for two credit hours: PROVIDED FURTHER, That, subject to the limitations of RCW 28B.15.910, residents of Idaho or Oregon who are enrolled in community college district number twenty for six or fewer credits during any quarter or semester may be exempted from payment of all or a portion of the nonresident tuition fees differential upon a declaration by the office of student financial assistance that it finds Washington residents from the community college district are afforded substantially equivalent treatment by such other states.

(3) Full-time students registered for more than eighteen credit hours shall be charged an additional operating fee for each credit hour in excess of eighteen hours at the applicable established per credit hour tuition fee rate for part-time students: PROVIDED, That, subject to the limitations of RCW 28B.15.910, the governing boards of the state universities and the community and technical colleges may exempt all or a portion of the additional charge, for students who are registered exclusively in first professional programs in medicine, dental medicine, veterinary medicine, doctor of pharmacy, or law, or who are registered exclusively in required courses in vocational preparatory programs. (1) The governing boards of the state universities, the regional universities, and The Evergreen State College may refund or cancel in full the tuition and services and activities fees if the student withdraws from a university or college course or program prior to the sixth day of instruction of the quarter or semester for which the fees have been paid or are due. Additionally, if federal law provides that students who receive federal financial aid must return a larger amount to the federal government than that refunded by the institution, the governing board may adopt a refund policy that uses the formula used to calculate the amount returned to the federal government, and the policy may treat all students attending the institution in the same manner.

RCW 28B.15.725 Home tuition programs. (1) The governing boards of the state universities, the regional universities, and The Evergreen State College may establish home tuition programs by negotiating home tuition agreements with an out-of-state institution or consortium of institutions of higher education if no loss of tuition and fee revenue occurs as a result of the agreements.

The interest rates and terms of deferral of such loans shall be consistent with the terms of the guaranteed loan program established by 20 U.S.C. Sec. 1701 et seq. The period for repaying the loan principal and interest shall be ten years with payments accruing quarterly commencing nine months from the date the borrower graduated. Should the borrower cease to teach science or mathematics at a public school in this state before the time in which the principal and interest on the loan are satisfied, payments on the unsatisfied portion of the principal and interest on the loan shall begin the next payment period and continue until the remainder of the loan is paid.

(2) The council is responsible for collection of loans made under subsection (1) of this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Collection and servicing of loans under subsection (1) of this section shall be pursued using the full extent of the law, including wage garnishment if necessary, and shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency. ***Reviser's note:** The "legislative budget committee" was redesignated the "joint legislative audit and review committee" by 1996 c 288 § 3.

Severability—1983 1st ex.s. c 74: See note following RCW 28B.15.760.

RCW 28B.15.790 Effective communication—Intent. The legislature finds that the quality of undergraduate education is enhanced by association with graduate assistants from other countries who can effectively communicate their knowledge and diverse cultural backgrounds.

It is the intent of the legislature to assist the institutions in their effort to improve the quality of undergraduate education at the state's four-year colleges and universities. Attainment of an excellent education is facilitated when communication is clear, concise, sensitive to cultural differences, and demonstrative of proven pedagogical skills. It is the further intent of the legislature to assure students and parents that graduate teaching assistants at our state institutions of higher education are able to communicate effectively and understandably with undergraduate students. [1991 c 228 § 1.]

RCW 28B.15.792 Effective communication—Principles. The Washington state legislature affirms the following principles:

(1) Washington's college and university students are entitled to excellent instruction at the state's institutions of higher education. Excellent education requires the ability to communicate effectively in college classrooms and laboratories.

(2) The presence of students, faculty, and staff from other countries on Washington's college campuses enriches the educational experience of Washington's students and enhances scholarship and research at the state's colleges and universities.

(3) With the exception of courses designed to be taught primarily in a foreign language, undergraduate students shall be provided with classroom instruction, laboratory instruction, clinics, seminars, studios, and other participatory and activity courses by a person fluent in both the spoken and written English language.

(4) Persons of all nationalities, races, religions, and ethnic backgrounds are welcome and valued in the state of Washington. [1991 c 228 § 2.]

RCW 28B.15.794 Effective communication—Implementation of principles. The governing board of each state university, regional university, state college, and community college shall ensure that the principles in *section 1 of this act are implemented at its institution of higher education. [1991 c 228 § 3.]

[1981 c 257 § 10.]

Severability—1981 c 257: See note following RCW 28B.15.031.

RCW 28B.15.820 Institutional financial aid fund—"Eligible student" defined. (1) Each institution of higher education, including technical colleges, shall deposit a minimum of three and one-half percent of revenues collected from tuition and services and activities fees in an institutional financial aid fund that is hereby created and which shall be held locally. Moneys in the fund shall be used only for the following purposes: (a) To make guaranteed long-term loans to eligible students as provided in subsections (3) through (8) of this section; (b) to make short-term loans as provided in subsection (9) of this section; (c) to provide financial aid to students who demonstrate financial need as provided in subsection (10) of this section; or (d) to provide financial aid to students as provided in subsection (11) of this section.

(2) An "eligible student" for the purposes of subsections (3) through (8) and (10) of this section is a student registered for at least three credit hours or the equivalent, who is eligible for resident tuition and fee rates as defined in RCW 28B.15.012 and 28B.15.013, and who is a student who demonstrates financial need as defined in RCW 28B.92.030.

(3) The amount of the guaranteed long-term loans made under this section shall not exceed the demonstrated financial need of the student. Each institution shall establish loan terms and conditions which shall be consistent with the terms of the guaranteed loan program established by 20 U.S. Code Section 1071 et seq., as now or hereafter amended. All loans made shall be guaranteed by the Washington student loan guaranty association or its successor agency. Institutions are hereby granted full authority to operate as an eligible lender under the guaranteed loan program.

(4) Before approving a guaranteed long-term loan, each institution shall analyze the ability of the student to repay the loan based on factors which include, but are not limited to, the student's

accumulated total education loan burdens and the employment opportunities and average starting salary characteristics of the student's chosen fields of study. The institution shall counsel the student on the advisability of acquiring additional debt, and on the availability of other forms of financial aid.

(5) Each institution is responsible for collection of guaranteed long-term loans made under this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated. Collection and servicing of guaranteed long-term loans under this section shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency: PROVIDED, That institutions be permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall be coordinated by the state board for community and technical colleges and shall be conducted under procedures adopted by the state board.

(6) Receipts from payment of interest or principal or any other subsidies to which institutions as lenders are entitled, that are paid by or on behalf of borrowers of funds under subsections (3) through (8) of this section, shall be deposited in each institution's financial aid fund and shall be used to cover the costs of making the guaranteed long-term loans under this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan principal. Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be deposited in the institution's financial aid fund.

(7) The governing boards of the state universities, the regional universities, and The Evergreen State College, and the state board for community and technical colleges, on behalf of the community colleges and technical colleges, shall each adopt necessary rules and regulations to implement this section.

(8) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and maximum use shall be made of secondary markets in the support of loan consolidation.

(9) Short-term loans, not to exceed one year, may be made from the institutional financial aid fund to students enrolled in the institution. No such loan shall be made to any student who is known by the institution to be in default or delinquent in the payment of any outstanding student loan. A short-term loan may be made only if the institution has ample evidence that the student has the capability of repaying the loan within the time frame specified by the institution for repayment.

(10) Any moneys deposited in the institutional financial aid fund that are not used in making long-term or short-term loans may be used by the institution for locally administered financial aid programs for students who demonstrate financial need, such as need-based institutional employment programs or need-based tuition and fee

scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds that would otherwise support these locally administered financial aid programs. First priority in the use of these funds shall be given to students who demonstrate financial need who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study. Second priority in the use of these funds shall be given to single parents who are students who demonstrate financial need, to assist these students with their educational expenses, including expenses associated with child care and transportation.

(11) Any moneys deposited in the institutional financial aid fund may be used by the institution for a locally administered financial aid program for high school students enrolled in dual credit programs. If institutions use funds in this manner, the governing boards of the state universities, the regional universities, The Evergreen State College, and the state board for community and technical colleges shall each adopt necessary rules to implement this subsection. Moneys from this fund may be used for all educational expenses related to a student's participation in a dual credit program including but not limited to tuition, fees, course materials, and transportation. [2019 c 406 § 33; 2009 c 215 § 9; 2007 c 404 § 4; 2004 c 275 § 66; 1995 1st sp.s. c 9 § 10.
