The jurisdiction of bodies of all deceased persons who come to their death suddenly when in apparent good health without medical attendance within the thirty-six hours preceding death; or where the circumstances of death indicate death was caused by unnatural or unlawful means; or where death occurs under suspicious circumstances; or where a coroner's autopsy or postmortem or coroner's inquest is to be held; or where death results from unknown or obscure causes, or where death occurs within one year following an accident; or where the death is caused by any violence whatsoever, or where death results from a known or suspected abortion; whether self-induced or otherwise; where death apparently results from drowning, hanging, burns, electrocution, gunshot wounds, stabs or cuts, lightning, starvation, radiation, exposure, alcoholism, narcotics or other addictions, tetanus, strangulations, suffocation or smothering; or where death is due to premature birth or still birth; or where death is due to a violent contagious disease or suspected contagious disease which may be a public health hazard; or where death results from alleged rape, carnal knowledge or sodomy, where death occurs in a jail or prison; where a body is found dead or is not claimed by relatives or friends, is hereby vested in the county coroner or medical examiner, which bodies may be removed and placed in the morgue under such rules as are

adopted by the coroner or medical examiner with the approval of the county commissioners, having jurisdiction, providing therein how the bodies shall be brought to and cared for at the morgue and held for the proper identification where necessary. A county coroner or county medical examiner or persons acting in that capacity shall be immune from civil liability for determining the cause and manner of death. The accuracy of the determinations is subject to judicial review. [1987 c 263 § 1.]

RCW 68.50.020 Notice to coroner or medical examiner—Penalty. It shall be the duty of every person who knows of the existence and location of human remains coming under the jurisdiction of the coroner or medical examiner as set forth in RCW 68.50.010 or 27.44.055, to notify the coroner, medical examiner, or law enforcement thereof in the most expeditious manner possible, unless such person shall have good reason to believe that such notice has already been given. Any person knowing of the existence of such human remains and not having good reason to believe that the coroner has notice thereof and who shall fail to give notice to the coroner as aforesaid, shall be guilty of a misdemeanor. For purposes of this section and unless the context clearly requires otherwise, "human remains" has the same meaning as defined in RCW 68.04.020. RCW 68.50.160 Right to control disposition of remains—Liability of funeral establishment or cemetery authority—Liability for cost.

(1) A person has the right to control the disposition of his or her own remains without the predeath or postdeath consent of another person. A valid written document expressing the decedent's wishes regarding the place or method of disposition of his or her remains, signed by the decedent in the presence of a witness, is sufficient legal authorization for the procedures to be accomplished.

(2) Prearrangements that are prepaid, or filed with a licensed funeral establishment or cemetery authority, under RCW 18.39.280 through 18.39.345 and chapter 68.46 RCW are not subject to cancellation or substantial revision by survivors. Absent actual knowledge of contrary legal authorization under this section, a licensed funeral establishment or cemetery authority may not be held criminally nor civilly liable for acting upon such prearrangements.

(3) If the decedent has not made a prearrangement as set forth in subsection (2) of this section or the costs of executing the decedent's wishes regarding the disposition of the decedent's remains exceeds a reasonable amount or directions have not been given by the decedent, the right to control the disposition of the remains of a deceased person vests in, and the duty of disposition and the liability for the reasonable cost of preparation, care, and disposition of such remains devolves upon the following in the order named:

(a) The person designated by the decedent as authorized to direct disposition as listed on the decedent's United States department of defense record of emergency data, DD form 93, or its successor form, if the decedent died while serving in military service as described in

10 U.S.C. Sec. 1481(a) (1)-(8) in any branch of the United States armed forces, United States reserve forces, or national guard;

(b) The designated agent of the decedent as directed through a written document signed and dated by the decedent in the presence of a witness. The direction of the designated agent is sufficient to direct the type, place, and method of disposition;

(c) The surviving spouse or state registered domestic partner;

(d) The majority of the surviving adult children of the decedent;

(e) The surviving parents of the decedent;

(f) The majority of the surviving siblings of the decedent;

(g) A court-appointed guardian for the person at the time of the person's death.

(4) If any person to whom the right of control has vested pursuant to subsection (3) of this section has been arrested or charged with first or second degree murder or first degree manslaughter in connection with the decedent's death, the right of control is relinquished and passed on in accordance with subsection (3) of this section.

(5) If a cemetery authority as defined in RCW 68.04.190 or a funeral establishment licensed under chapter 18.39 RCW has made a good faith effort to locate the person cited in subsection (3)(a) through (g) of this section or the legal representative of the decedent's estate, the cemetery authority or funeral establishment has the right to rely on an authority to bury or make final disposition of the human remains, executed by the most responsible party available, and the cemetery authority or funeral establishment may not be held criminally or civilly liable for burying or performing final disposition of the human remains. In the event any government agency or charitable organization provides the funds for the disposition of any human remains, the cemetery authority, alkaline hydrolysis, natural organic reduction facility, or funeral establishment may not be held criminally or civilly liable for making final disposition of the human remains.

(6) The liability for the reasonable cost of preparation, care, and disposition devolves jointly and severally upon all kin of the decedent in the same degree of kindred, in the order listed in subsection (3) of this section, and upon the estate of the decedent. RCW 68.50.170 Effect of authorization. Any person signing any authorization for the interment, cremation, alkaline hydrolysis, or natural organic reduction of any human remains warrants the truthfulness of any fact set forth in the authorization, the identity of the person whose human remains are sought to undergo final disposition, and his or her authority to order such. RCW 68.50.185 Individual final disposition—Exception—Penalty.

(1) A person authorized to dispose of human remains may not perform or cause to be performed final disposition of more than one human remains at a time unless written permission, after full and adequate disclosure regarding the manner of disposition, has been received from the person or persons under RCW 68.50.160 having the authority to order final disposition. This restriction does not apply when equipment, techniques, or devices are employed that keep human remains separate and distinct before, during, and after the final disposition process.

(2) Violation of this section is a gross misdemeanor. [2019 c 432 § 25; 2005 c 365 § 143; 1987 c 331 § 61; 1985 c 402 § 3. Formerly RCW 68.08.185.]

Effective date—2019 c 432: See note following RCW 68.05.175.

Legislative finding—1985 c 402: "The legislature finds that certain practices in storing human remains and in performing cremations violate common notions of decency and generally held expectations. In enacting this legislation, the legislature is reaffirming that certain practices, which have never been acceptable, violate principles of human dignity." [1985 c 402 § 1.]

RCW 68.50.200 Permission to remove human remains. Human remains may be removed from a plot in a cemetery with the consent of the cemetery authority and the written consent of one of the following in the order named:

- (1) The surviving spouse or state registered domestic partner.
- (2) The surviving children of the decedent.
- (3) The surviving parents of the decedent.
- (4) The surviving brothers or sisters of the decedent.

If the required consent cannot be obtained, permission by the superior court of the county where the cemetery is situated is sufficient: PROVIDED, That the permission shall not violate the terms of a written contract or the rules and regulations of the cemetery authority. [2007 c 156 § 25; 2005 c 365 § 144; 1943 c 247 § 33; Rem. Supp. 1943 § 3778-33. Formerly RCW 68.08.200.]

RCW 68.50.210 Notice for order to remove remains. Notice of application to the court for such permission shall be given, at least ten days prior thereto, personally, or at least fifteen days prior thereto if by mail, to the cemetery authority and to the persons not consenting, and to every other person on whom service of notice may be required by the court. [1943 c 247 § 34; Rem. Supp. 1943 § 3778-34. Formerly RCW 68.08.210.]

RCW 68.50.220 Exceptions. RCW 68.50.200 and 68.50.210 do not apply to or prohibit the removal of any human remains from one plot to another in the same cemetery or the removal of [human] remains by a cemetery authority from a plot for which the purchase price is past due and unpaid, to some other suitable place; nor do they apply to the disinterment of human remains upon order of court or coroner. However, a cemetery authority shall provide notification to the person cited in RCW 68.50.200 before moving human remains. [2005 c 365 § 145; 1987 c 331 § 62; 1943 c 247 § 35; Rem. (i) A notification period of forty-eight hours has elapsed after identification of the decedent by such official; or

It shall also determine which scoring probabilities are the highest for purposes of identification and shall submit such information to the coroner or medical examiner who prepared and forwarded the dental examination records. Once the dental identification system is established, operating funds shall come from the state general fund. [1987 c 331 § 65; 1983 1st ex.s. c 16 § 15. Formerly RCW 68.08.350.]

RCW 68.50.320 Procedures for investigating missing persons—Availability of files. When a person reported missing has not been found within thirty days of the report, or at any time the investigating agency suspects criminal activity to be the basis of the victim being missing, the sheriff, chief of police, county coroner or county medical examiner, or other law enforcement authority initiating and conducting the investigation for the missing person shall: (1) File a missing person's report with the Washington state patrol missing and unidentified persons unit; (2) initiate the collection of DNA samples from the known missing person and their family members for nuclear and mitochondrial DNA testing along with the necessary consent forms; (3) ask the missing person's family or next of kin to give written consent to contact the dentist or dentists of the missing person and request the person's dental records; and (4) enter the case into the national crime information center system through the Washington state patrol electronic database. Upon knowledge from the national crime information center system, the Washington state patrol's crime information center, or similar or subsequent authority, that a person in custody at a jail, or being released from custody, is the subject of a missing person's report, the jail shall notify the agency of original jurisdiction for the missing person's report.

The missing person's dentist or dentists shall provide diagnostic quality copies of the missing person's dental records or original dental records to the sheriff, chief of police, county coroner or county medical examiner, or other law enforcement authority, when presented with the written consent from the missing person's family or next of kin or with a statement from the sheriff, chief of police, county coroner or county medical examiner, or other law enforcement authority that the missing person's family or next of kin could not be located in the exercise of due diligence or that the missing person's family or next of kin refuse to consent to the release of the missing person's dental records and there is reason to believe that the missing person's family or next of kin may have been involved in the missing person's disappearance.

As soon as possible after collecting the DNA samples, the sheriff, chief of police, or other law enforcement authority shall submit the DNA samples to the appropriate laboratory. Dental records shall be submitted as soon as possible to the Washington state patrol missing and unidentified persons unit.

The descriptive information from missing person's reports and dental data submitted to the Washington state patrol missing and unidentified persons unit shall be recorded and maintained by the Washington state patrol missing and unidentified persons unit in the applicable dedicated missing person's databases.

When a person reported missing has been found, the sheriff, chief of police, coroner or medical examiner, or other law enforcement authority shall report such information to the Washington state patrol.

The dental identification system shall maintain a file of information regarding persons reported to it as missing. The file shall contain the information referred to in this section and such other information as the Washington state patrol finds relevant to assist in the location of a missing person.

The files of the dental identification system shall, upon request, be made available to law enforcement agencies attempting to locate missing persons. [2022 c 251 § 5; 2020 c 45 § 2; 2007 c 10 § 5. Prior: 2006 c 235 § 4; 2006 c 102 § 6; 2001 c 223 § 1; 1984 c 17 § 18; 1983 1st ex.s. c 16 § 16. Formerly RCW 68.08.355.]

Findings—Intent—2020 c 45: "The legislature finds that a recent search of available missing and unidentified persons data for Washington state returned one thousand nine hundred twenty-six pending missing persons cases and one hundred seventy-two records of full or partial unidentified remains throughout the state. Every one of these individuals is someone's family member or loved one.

The legislature further finds that more can be done to reduce the number of missing and unidentified Washingtonians through the utilization of national resources. The national missing and unidentified persons system is a publicly searchable resource developed by the national institute of justice that contains databases of missing persons and unidentified persons cases from across the country. Cases entered into these databases are verified with local authorities and are automatically searched against one another. The national missing and unidentified persons system also has the ability to compile potentially identifiable information and available biometric data, such as DNA, including family reference samples, dental records, and fingerprints. Participation in the national missing and unidentified persons system is free, and biometric sample kits are funded through the national missing and unidentified persons system, alleviating the burden on contributing local governments. At the close of 2019, the national missing and unidentified persons system databases included nearly seventeen thousand published outstanding missing persons cases, and over thirteen thousand published unidentified persons cases. In addition, over nineteen thousand missing persons cases and over four thousand unidentified persons cases that were included in the national missing and unidentified persons system have been resolved.

The legislature recognizes that participating in this centralized and nationally based system is to the advantage of the citizens of the state, and intends to establish a system of consistent statewide participation in order to achieve its full benefit." [2020 c 45 § 1.]

RCW 68.50.325 Indigenous persons—Identification of remains—Spiritual practices. (1) A county coroner having jurisdiction over human remains pursuant to RCW 68.50.010 shall, upon knowledge that the remains are of an indigenous person, cooperate with law enforcement to attempt to identify and immediately contact family members and any affected tribes, tribal organizations, and communities prior to removal or disturbance of the remains, except as deemed necessary by the county coroner and law enforcement in the interest of safety or to preserve evidence for any ongoing criminal investigation. Efforts to contact family members and affected tribes, tribal organizations, and communities must include an attempt to facilitate contact through the regional liaison for missing and murdered indigenous persons pursuant to RCW 43.43.874 within 10 days of the county coroner having jurisdiction over the remains.

(2) If contact is successfully made, the county coroner shall afford an opportunity for a family member or a representative from any affected tribes, tribal organizations, or communities to visit the remains for the purpose of conducting any spiritual practices or ceremonies to honor or recognize the indigenous person's passing. A family member or representative's activities may not interfere with or jeopardize the integrity of any ongoing criminal investigation. The county coroner and the lead investigator from the law enforcement agency of jurisdiction must provide the family member or representative with a list containing any conduct the family member or representative is prohibited from doing when interacting with the remains, including an explanation of why the conduct is prohibited. The family member or representative may not conduct any practices or ceremonies until the county coroner and the lead investigator provide their authorization.

(3) For the purposes of this section, "affected tribes" has the same meaning as in RCW 68.50.645.

(4) Nothing in this section may be construed to contradict the sovereignty or rights of any federally recognized Indian tribe whose traditional lands and territories included parts of Washington. [2022 c 251 § 1.]

RCW 68.50.330 Identification of body or human remains by dental examination—Comparison of dental examination records with dental records of dental identification system. If the county coroner or county medical examiner investigating a death is unable to establish the identity of a body or human remains by visual means, fingerprints, or other identifying data, he or she shall have a qualified dentist, as determined by the county coroner or county medical examiner, carry

out a dental examination of the body or human remains. If the county coroner or county medical examiner with the aid of the dental examination and other identifying findings is still unable to establish the identity of the body or human remains, he or she shall prepare and forward such dental examination records within thirty days of the date the body or human remains were found to the dental identification system of the state patrol identification and criminal history section on forms supplied by the state patrol for such purposes.

The dental identification system shall act as a repository or computer center or both with respect to such dental examination records. It shall compare such dental examination records with dental records filed with it and shall determine which scoring probabilities are the highest for the purposes of identification. It shall then submit such information to the county coroner or county medical examiner who prepared and forwarded the dental examination records.

If the body or human remains are still unidentified thirty days after discovery, the county coroner or county medical examiner investigating the death must, as soon as practicable, submit information regarding the body or remains to the national missing and unidentified persons system created by the United States department of justice's national institute of justice. Information submitted to the national missing and unidentified persons system must include, to the extent information is available, a detailed personal description, DNA information, copies of fingerprints on standardized eight inch by eight inch fingerprint cards or the equivalent digital image, forensic dental examination records, and other identifying data, including date and place of death. If the identity of the body or human remains is later established, the county coroner or county medical examiner must notify the national missing and unidentified persons system within forty-eight hours. [2020 c 45 § 3; 2001 c 172 § 1; 1984 c 17 § 19; 1983 1st ex.s. c 16 § 17. Formerly RCW 68.08.360.]

Findings—Intent—Short title—2020 c 45: See notes following RCW 68.50.320.

RCW 68.50.645 Skeletal human remains—Duty to notify—Ground disturbing activities—Coroner determination—Definitions. (1) It is the duty of every person who knows of the existence and location of skeletal human remains to notify the coroner and local law enforcement in the most expeditious manner possible, unless such person has good reason to believe that such notice has already been given. Any person knowing of the existence of skeletal human remains and not having good reason to believe that the coroner and local law enforcement has notice thereof and who fails to give notice to the coroner and local law enforcement, is guilty of a misdemeanor.

(2) Any person engaged in ground disturbing activity and who encounters or discovers skeletal human remains in or on the ground shall:

(a) Immediately cease any activity which may cause further disturbance;

(b) Make a reasonable effort to protect the area from further disturbance;

(c) Report the presence and location of the remains to the coroner and local law enforcement in the most expeditious manner possible; and

(d) Be held harmless from criminal and civil liability arising under the provisions of this section provided the following criteria are met:

(i) The finding of the remains was based on inadvertent discovery;

(ii) The requirements of the subsection are otherwise met; and

(iii) The person is otherwise in compliance with applicable law.

(3) The coroner must make a determination of whether the skeletal human remains are forensic or nonforensic within five business days of receiving notification of a finding of such human remains provided that there is sufficient evidence to make such a determination within that time period. The coroner will retain jurisdiction over forensic remains.

(a) Upon determination that the remains are nonforensic, the coroner must notify the department of archaeology and historic preservation within two business days. The department will have jurisdiction over such remains until provenance of the remains is established. A determination that remains are nonforensic does not create a presumption of removal or nonremoval.

(b) Upon receiving notice from a coroner of a finding of nonforensic skeletal human remains, the department must notify the appropriate local cemeteries, and all affected Indian tribes via certified mail to the head of the appropriate tribal government, and contact the appropriate tribal cultural resources staff within two business days of the finding. The determination of what are appropriate local cemeteries to be notified is at the discretion of the department. A notification to tribes of a finding of such nonforensic skeletal human remains does not create a presumption that the remains are Indian.

(c) The state physical anthropologist must make an initial determination of whether nonforensic skeletal human remains are Indian or non-Indian to the extent possible based on the remains within two business days of notification of a finding of nonforensic remains. If the remains are determined to be Indian, the department must notify all affected Indian tribes via certified mail to the head of the appropriate tribal government within two business days and contact the appropriate tribal cultural resources staff.

(d) The affected tribes have five business days to respond via telephone or writing to the department as to their interest in the remains.

(4) For the purposes of this section:

(a) "Affected tribes" are:

(i) Those federally recognized tribes with usual and accustomed areas in the jurisdiction where the remains were found;

(ii) Those federally recognized tribes that submit to the department maps that reflect the tribe's geographical area of cultural affiliation; and

(iii) Other tribes with historical and cultural affiliation in the jurisdiction where the remains were found.

(b) "Forensic remains" are those that come under the jurisdiction of the coroner pursuant to RCW 68.50.010.

(c) "Inadvertent discovery" has the same meaning as used in RCW 27.44.040.

(5) Nothing in this section constitutes, advocates, or otherwise grants, confers, or implies federal or state recognition of those tribes that are not federally recognized pursuant to 25 C.F.R. part 83, procedures for establishing that an American Indian group exists as an Indian tribe. [2008 c 275 § 1.]

Reporting requirements—2008 c 275: "The department of archaeology and historic preservation must communicate with the appropriate committees of the legislature by November 15, 2009, and biennially thereafter, regarding the numbers of inadvertent discoveries of skeletal human remains and other associated activities pursuant to this act."
