Tuberculosis is a communicable disease and tuberculosis prevention, treatment, control, and follow-up of known cases of tuberculosis are the basic steps in the control of this major health problem. In order to carry on such work effectively in accordance with the standards set by the secretary under RCW 70.28.025, the legislative authority of each county shall budget a sum to be used for the control of tuberculosis, including case finding, prevention, treatment, and follow-up of known cases of tuberculosis.
