PEDESTRIAN & BICYCLE and SAFE ROUTES TO SCHOOL PROGRAMS

Introduction

The Washington State Department of Transportation (WSDOT) is pleased to present our legislative report for the 2019-2021 Pedestrian & Bicycle and Safe Routes to School (SRTS) programs. In addition to providing safer facilities and greater connectivity for people who walk or ride bicycles, these two grant programs are an ideal backdrop to advance WSDOT's strategic plan emphasis on practical solutions. The programs also provide resources to further the agency's goals to make strategic investments, advance modal integration, support equity and inclusion, and enhance community engagement through stakeholder collaboration.

Cities, counties, tribal nations, state agencies, and other public agencies are eligible for funding from both programs to support active transportation projects within their respective communities. Non-profit entities that administer transportation safety programs are also eligible for SRTS funding. Using a competitive criteria-based process to review and rank projects, WSDOT submits this report to the legislature for the purpose of providing a prioritized list of projects for inclusion in the 2019-21 transportation budget, as well as a status update on previously funded projects.

2019-2021 Pedestrian and Bicycle Program and Safe Routes to School Program Call for Projects

In the year leading into a call for projects, WSDOT Active Transportation Division staff conduct an analysis of data for all crashes involving both drivers and people walking or bicycling. To facilitate the development of applications that will further the safety goals of the two programs, WSDOT staff used this analysis as the basis to conduct outreach and offer technical assistance, focusing on local agencies that have had higher rates of crashes involving people who walk or bike (based on population size) compared to other agencies. Recent experience with the programs and equity issues such as a higher percentage of low-income households are also considered in prioritizing outreach in order to utilize limited staff resources efficiently.

WSDOT released the call for projects for the two programs in January 2018. Information on the grant programs was provided to all cities, counties, tribal contacts, and to the Office of the Superintendent of Public Instruction for distribution to schools and school districts throughout the state. Eligible jurisdictions were encouraged to use crash data from the WSDOT Crash Portal and were offered opportunities to discuss the crash data over the phone. WSDOT Active Transportation Division staff also made outreach visits to around 35-45 jurisdictions in which staff were interested in an in-person explanation of the data, its significance, and how a data-driven approach could inform their planning and design.

To familiarize applicants with the grant programs, WSDOT provided two overview webinars in January attended by 200 participants and available afterwards as an [archive online](#). To streamline the process WSDOT used one application form for both programs. Pedestrian and Bicycle grant proposals were due on May 11, 2018. Safe Routes to School grant proposals were due on April 27, 2018.

For the 2019-2021 biennium, approximately \$41 million in funding is anticipated to be awarded for the two programs. WSDOT received 254 applications requesting a total of \$186.3 million—the highest number to date in total amount requested. The Department received

135 Pedestrian and Bicycle projects from 92 agencies and organizations totaling approximately \$99.9 million, and 119 Safe Routes to School projects from 85 agencies and organizations totaling approximately \$86.2 million.

Selection Process

WSDOT staff conducted an assessment using the quantitative criteria listed below to tier the projects into groups. An External Review Committee then evaluated the proposals and made recommendations; this committee included representatives from the Washington Traffic Safety Commission, Washington State Department of Health, Recreation and Conservation Office, Washington tribal representative, and a Metropolitan Planning Organization or Regional Transportation Planning Organization (tribal and MPO/RTPO representatives are from places not applying for a grant in this cycle). Projects that would affect state right-of-way were reviewed and approved by the Regions that would be involved if the project were to be funded; an internal committee of WSDOT staff also reviewed these projects.

Following this initial ranking process, WSDOT staff conducted site visits in coordination with the lead agencies for the higher-ranking projects and those that would address pedestrian and bicyclist safety at locations of fatal or serious injury collisions. This included field reviews of 95 project site locations to clarify the projects, enhance the potential to achieve the stated goals, discuss potential delivery issues such as right of way, and identify possible cost savings and application of Practical Solutions principles. The site visits also addressed reviewer comments, questions, and recommendations.

Review Criteria

- Extent of project need – Up to 35% of ranking determination:
 - Safety project at crash location or proactive safety project
 - Bicyclist/pedestrian mobility and connectivity need
 - Health equity need
- Quality of the proposed project based on potential to address the program purpose and project need. -- Up to 35% of ranking determination.
- Value defined as the cost of the project compared to the potential number of people who would be served, or population density within one mile of the project location. – Up to 10% of ranking determination.
- Deliverability -- Up to 18% of ranking determination:
 - Consistency with community plans
 - Community engagement used during planning and/or project development
 - Applicant history of successful past projects
 - Quality of proposed schedule and budget
 - Match (not required)
- Other Considerations – Up to 2% of ranking determination was based on these criteria:
 - ADA transition plan or ADA Compliance planning for public right-of-way
 - Adopted greenhouse gas emissions policy (RCW 70.235.070)
 - Adopted Complete Streets ordinance

- Bicycle Friendly Community ranking or application

Bicyclist and Pedestrian Wayfinding and Student Education Projects

Administration of a multimodal transportation system requires both information about how to use the system and information about how the system is being used. These elements are already in place for motorized transportation, but not to the same extent for active transportation uses. For this reason, WSDOT and the External Review Committee recommend funding the US Bicycle Route Wayfinding and SRTS Student Education Projects. These are not typical projects in that they serve a statewide need rather than a specific local project improvement, while at the same time supporting use of local elements of the overall active transportation system.

The SRTS Student Education Project has been funded continuously since the initial pilots in 2005. To date the program has been delivered in 1,712 schools, reaching an estimated 158,540 students around the state with content and practice to support safe walking and bicycling habits. A [2013 evaluation of the curriculum](#) found that rates of both walking and bicycling to and from school increased in those schools that participated in the curriculum and collected before/after data on student transportation.

Designation of US Bicycle Routes in Washington state began in 2014 with national recognition of USBR10, which extends from Anacortes to Newport, and continued with identification of segments of three more—USBR 85, 95, and 97—in 2017. Work is ongoing to identify and designate all potential USBRs in the state; they place Washington State on the national and international map for bicycle travel/tourism, while serving as elements of a complete network incorporating regional trail networks and local bike routes and infrastructure.

Pedestrian and Bicycle Program

The purpose of this program is to aid public agencies in funding cost-effective projects that reduce driver collisions with bicyclists and pedestrians, and work to increase walking and biking. The program includes two types of eligible projects: construction projects that may include preliminary engineering, and design-only projects that allow agencies the opportunity to engage with communities and stakeholder groups to develop and design projects that are well-received and appeal to a wider range of users and stakeholders. Of the 135 requested applications, 29 are anticipated to fall within 2019-21 funding available (\$20 million).

Map 1 - Pedestrian and Bicycle Program Proposed Priority Project Locations 2019-21

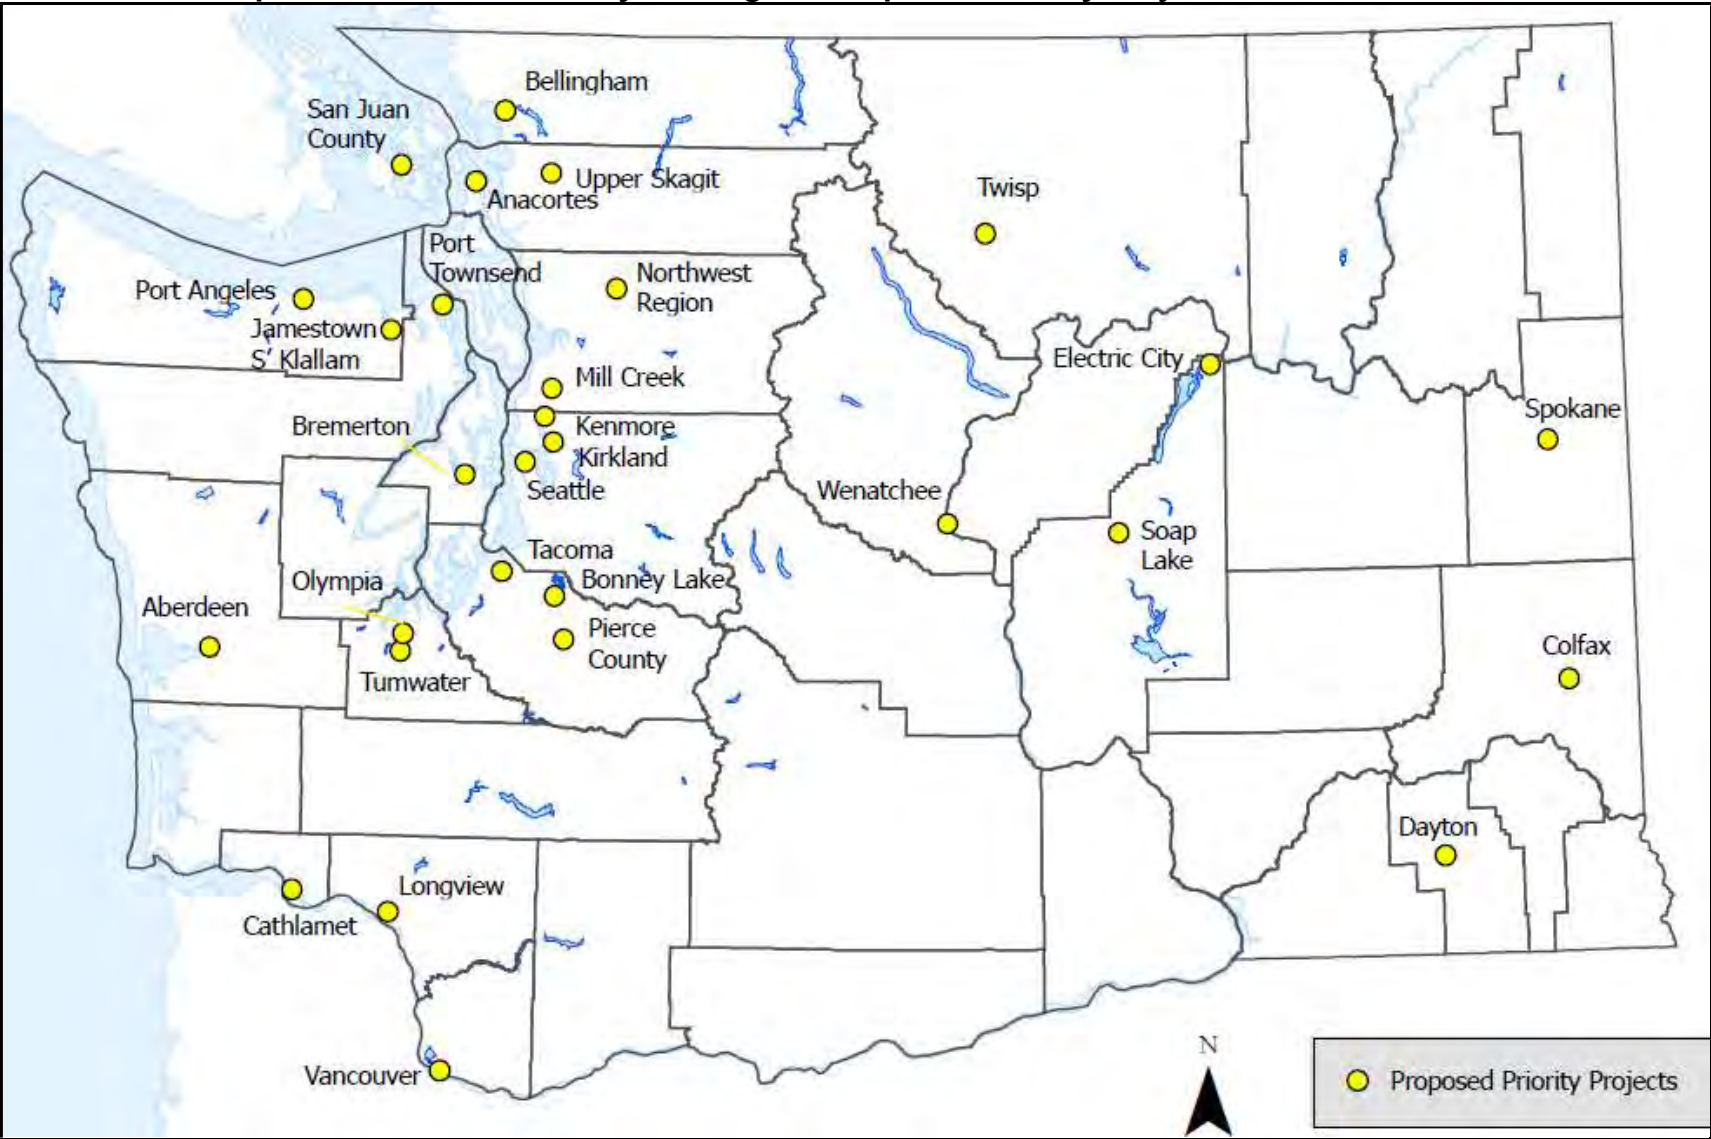

Table 1 - Pedestrian and Bicycle Program Proposed Priority List for 2019-21
(Unshaded projects fall within available funding expectations)

| Agency | Leg Dist | Title of Project | Project Description | Design Only | Total Project Cost | Amount Requested | Cumulative Total |
|------------|--------------|--|--|-------------|--------------------|------------------|------------------|
| Wenatchee | 12 | First Street Bikeway Safety Improvements | Separated bike lanes, bike boxes, green bike lane, signage, two-stage turn boxes, through intersection bike lanes, traffic circle, shared lane markings, contraflow bike lane, signage, and video detection. | | \$342,800 | \$342,800 | \$342,800 |
| Colfax | 9 | Flashing Crosswalk Warning Signs | Pedestrian activated flashing beacons. | | \$63,000 | \$50,000 | \$392,800 |
| WSDOT NW | 10,3 9,40 | US Bicycle Route Wayfinding Signage | Wayfinding signage and pavement markings. | | \$150,000 | \$150,000 | \$542,800 |
| Tumwater | 22 | Capitol Blvd Corridor, Israel Rd to M St Design | Design-only project for a road reconfiguration, roundabouts, and bicycle facilities. | X | \$1,320,000 | \$1,056,000 | \$1,598,800 |
| Mill Creek | 44 | 132nd Street Mid-Block Crossing | Pedestrian hybrid beacon, pedestrian refuge island, lighting, marked crossings. | | \$750,000 | \$675,000 | \$2,273,800 |
| Seattle | 34 | 35th Ave SW & SW Graham St Crossing Improvements | Installation of traffic signal with bicycle detection, curb extensions, marked crosswalks, diverters, wayfinding signs and markings. | | \$823,000 | \$544,000 | \$2,817,800 |

| Agency | Leg Dist | Title of Project | Project Description | Design Only | Total Project Cost | Amount Requested | Cumulative Total |
|---------------------------|----------|---|--|-------------|--------------------|------------------|------------------|
| Aberdeen | 19 | SR 105 Pedestrian and Bicycle Improvements | Road reconfiguration, buffered bike lanes, curb, gutter, sidewalk, curb ramps, crosswalks. | | \$455,000 | \$364,000 | \$3,181,800 |
| Port of Columbia | 16 | Dayton to Waitsburg Multi-Use Path | Design-only project for a shared use path. | X | \$350,000 | \$330,000 | \$3,511,800 |
| Anacortes | 40 | Commercial Avenue Corridor Plan Phase I: 11th Street to 13th Street | Road reconfiguration, separated bike lanes, through intersection bike lane markings, two stage turn boxes, ADA sidewalk and curb ramps, curb extensions with truck aprons, access management, pedestrian scale lighting. | | \$3,525,442 | \$1,371,188 | \$4,882,988 |
| Kenmore | 46 | Juanita Drive NE Pedestrian and Bicycle Improvements Project | Sidewalk, planter strip, buffered bike lanes, in-line bus stops with separated bike lanes, storm water improvements, retaining walls, utility relocation, access management, roadway realignment, and lighting. | | \$10,962,000 | \$2,000,000 | \$6,882,988 |
| Upper Skagit Indian Tribe | 39 | The Nookwa-Chahbsh Lane Pedestrian & Parking Safety Improvement Project | Pedestrian path, curb ramps, marked crosswalks, raised crosswalk, and shared lane markings. | | \$1,740,000 | \$705,000 | \$7,587,988 |
| Bellingham | 40 | Samish-Maple-Ellis Multimodal Safety Improvements | Road reconfiguration, protected bike lanes, green pavement at conflict areas, pedestrian activated flashing beacon. | | \$1,346,717 | \$1,007,000 | \$8,594,988 |

Past Performance

- Since this program was created in 2005 (ESSB 6091), funding requests have consistently exceeded funding amounts provided.
- Between 2005 and 2019, over \$72 million was made available for 158 projects.

Figure 1 - Pedestrian and Bicycle Program Funding Requested and Awarded 2005-2018

- 56% of projects awarded between 2013 and 2015 have been completed.
- To date, 107 projects have been completed, 49 are under way, and two were cancelled.

Figure 2 - Pedestrian and Bicycle Program Project Status 2007-2017

- Below is a list of previously awarded Pedestrian and Bicycle Program projects that are completed, and/or underway. It does not include closed projects reported in previous years' reports. For more detailed information about these and other state and federal transportation projects administered by WSDOT Local Programs visit the [WSDOT Local Programs Find a Local Project page](#). This report updates information provided to the legislature in July 2018 as part of the 2019-21 Transportation Addendum June 2018.
 * The 2011-13 project selection for PBP was conducted as an invitation-only process to focus on known crash locations with proven solutions addressing the circumstances.

Table 2 - Pedestrian and Bicycle Program Project Status 2009-17

| Agency | Status | Title of Project | Selection Year | Selection Amount |

Safe Routes to School Program

The purpose of this program is to aid public agencies in funding cost-effective projects that increase the number of children walking and biking to school safely. The program provides funding for infrastructure projects within two miles of a school serving children kindergarten through 12th grade. Education and encouragement activities are also eligible for funding. Of the 119 requested applications, 24 are anticipated to be within 2019-21 funding available (\$21.15 million) and 75% of those projects target low-income schools.

The Washington State Student Travel survey is a study of how children in kindergarten through 8th grade get to and from school, with an examination of possible barriers to walking, biking, or riding the bus. The WSDOT and Department of Health (with support from the Office of Superintendent for Public Instruction) developed the survey, funded by the State Legislature, to improve student transportation safety and efficiency. Results from the most recent [survey conducted in 2016](#) are based on phone interviews with over 11,000 parents and guardians of students from more than 200 schools across Washington State (Washington State Dept. of Health and WSDOT, 2017). Selected findings of particular interest as context for the value of investments in SRTS projects:

- In 2016, 40.1% of children that live within one mile of school walked to school. Walking was the most common means of transportation for children who live within a mile of school.
- Between 2014 and 2016 there was a significant increase in the percent of children walking (16.4% increase) and biking (56% increase) to school.
- A greater percentage of students from lower income schools (17.4%) than from higher-income schools (14.9%) reportedly walked from home to school.
- A greater percentage of students living in urban areas (18.2%), compared to rural areas (11.2%), walked from home to school.

Map 2 - Safe Routes to School Program Proposed Priority Project Locations 2019-21

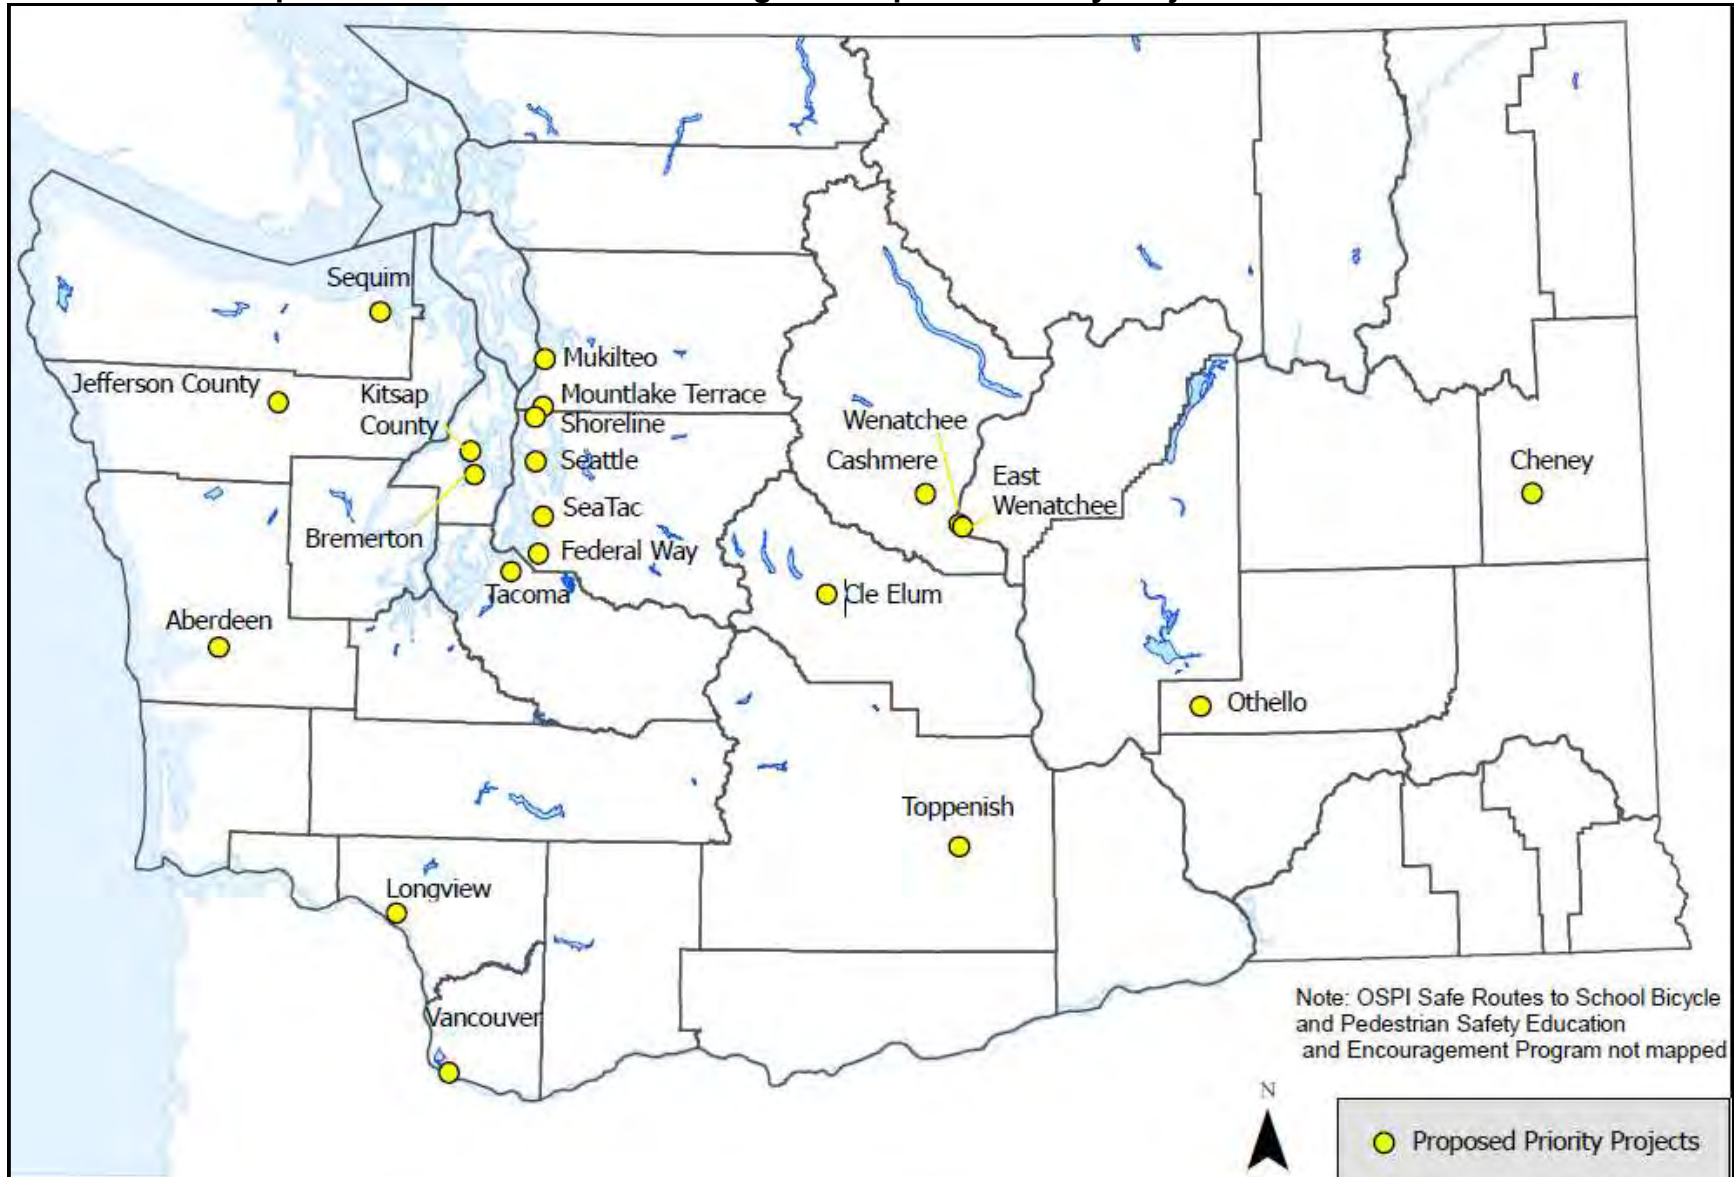

Table 3 - Safe Routes to School Program Proposed Priority List for 2019-21

(Unshaded projects fall within available funding expectations)

| Agency | Leg Dist | Title of Project | Project Description | Total Project Cost | Amount Requested | Cumulative Total |
|-------------|----------|---|--|--------------------|------------------|------------------|
| OSPI | N/A | Safe Routes to School Bicycle and Pedestrian Safety Education and Encouragement Program | Bicyclist and pedestrian safety education | \$1,298,985 | \$1,298,985 | \$1,298,985 |
| Longview | 19 | Washington Way / 28th Avenue Pedestrian Hybrid Beacon and illumination | High-intensity activated crosswalk beacon | \$200,000 | \$180,000 | \$1,478,985 |
| Othello | 9 | Ash Street Safety Improvements | Install curb extensions, crosswalks, curb ramps | \$858,860 | \$788,586 | \$2,267,571 |
| Seattle | 46 | NE 117th St Intersection Redesign and Sidewalk | Traffic signal, pedestrian countdown, audible pedestrian signal, signal backplates, retroreflective signal boarders, protective turn restrictions, curb ramps, crosswalk, median island, protected bicycle crossing, sidewalk, bicycle pavement markings | \$1,859,000 | \$950,000 | \$3,217,571 |
| Federal Way | 30 | Lakota Middle School - SW Dash Point Road - Safe Routes to School | Sidewalk, planter strip, bike lane, illumination, extend school speed zone, traffic signal modifications, curb ramps, reduced posted speed limit | \$1,650,000 | \$1,350,000 | \$4,567,571 |
| SeaTac | 33 | 34th Avenue South Safe Routes to School Project | Sidewalk, planter strip, curb, gutter, curb ramps, crosswalk, bike lane, curb extensions, illumination, flashing stop sign, storm water drainage, | \$6,160,000 | \$2,464,000 | \$7,031,571 |
| Wenatchee | 12 | Wenatchee S Miller Red Apple Okanogan | School speed zone, speed feedback signs, rectangular rapid flashing crosswalk beacon, | \$123,000 | \$123,000 | \$7,154,571 |

| Agency | Leg Dist | Title of Project | Project Description | Total Project Cost | Amount Requested | Cumulative Total |
|----------------|------------|--|--|--------------------|------------------|------------------|
| Mukilteo | 21 | 76th and SR525 Pedestrian Improvements | Sidewalk, planter strip, curb, gutter, curb ramps, high-intensity activated crosswalk beacon signal, rectangular rapid flashing beacons, crosswalk markings, retaining walls, pedestrian handrail | \$1,530,000 | \$1,323,450 | \$8,478,021 |
| East Wenatchee | 12 | Sterling Intermediate Safe Routes to School | Sidewalks, bike lanes, buffer strips, mini roundabout, raised intersection, rectangular rapid flashing beacons, narrow travel lane widths, crosswalk markings, illumination and pedestrian signage | \$2,279,754 | \$1,937,791 | \$10,415,812 |
| Aberdeen | 19 | Stevens Elementary Pedestrian Improvements | Road diet, sidewalk, curb, gutter, bike lane, curb extensions, planter strip, driveways, and curb ramps, storm water improvements and high visibility crosswalks | \$514,000 | \$411,200 | \$10,827,012 |
| Vancouver | 49 | NW Neighborhood Connectivity Improvements | Sidewalk, planter strip, curb, gutter, curb ramps, shared use path, crosswalk markings, illumination, curb extensions, and rectangular rapid flashing beacon | \$1,646,600 | \$500,000 | \$11,327,012 |
| Bremerton | 23, 26, 35 | Bremerton School Zone Safety Improvements - Safe Routes to Schools | Speed feedback signs, flashing beacons, and school speed zone signage | \$244,000 | \$244,000 | \$11,571,012 |
| Tacoma | 27 | Mary Lyon Elementary School Safe Routes to School | Curb ramps, accessible pedestrian signals, signal head upgrades, crosswalk, safety education | \$348,440 | \$296,174 | \$11,867,186 |
| Cashmere | 12 | 2018 Safe Route to School Grant | Crosswalk marking, crosswalk flashing beacon signs, advanced crosswalk flashing beacon signs, curb ramps | \$190,268 | \$180,268 | \$12,047,454 |

| Agency | Leg Dist | Title of Project | Project Description | Total Project Cost | Amount Requested | Cumulative Total |
|-------------------|----------|---|---|--------------------|------------------|------------------|
| Mountlake Terrace | 1 and 32 | 216th and 220th | Sidewalk, curb, gutter, curb ramps, curb extensions, rectangular rapid flashing crosswalk beacon, crosswalk markings, storm water drainage, speed feedback signs, safety education | \$654,083 | \$468,194 | \$12,515,648 |
| Cheney | 6 | Cheney High and Betz Elementary Pedestrian and Bicycle Route Safety Project | Sidewalk, multi-use path, curb ramps, crosswalk markings, crosswalk flashing beacons, speed feedback signs, illumination, extend bike lane. | \$748,273 | \$598,619 | \$13,114,267 |
| Sequim | 24 | N Sequim Avenue Sidewalk and Bike Lanes | Sidewalk, curb, gutter, curb ramps, planter stripe, bike lane, roundabout pedestrian/bicycle facilities, storm water drainage, illumination, crosswalk markings and signs, speed feedback signs | \$1,464,000 | \$1,098,000 | \$14,212,267 |
| Wenatchee | 12 | Methow Street Improvements | Mini round about, bicycle lanes, delineate travel lanes and parking, sidewalk, curb and gutter | \$983,200 | \$786,600 | \$14,998,867 |
| Toppenish | 15 | 2020 Sidewalk Improvements | Sidewalk, curb, gutter, curb ramps, storm water drainage, crosswalk pavement markings and signs | \$538,300 | \$528,300 | \$15,527,167 |
| Jefferson County | 24 | SR116 and Cedar Avenue Pedestrian Bike Improvements | Sidewalk, curb and gutter, multi-use path, bike lanes, crosswalk markings, crosswalk rectangular rapid flashing beacons, illumination and safety education | \$880,300 | \$880,300 | \$16,407,467 |
| East Wenatchee | 12 | Kenroy Elementary Safe Routes to School | Sidewalk, buffer strip, raised intersection, narrow lane widths, illumination, flashing LED stop signs, crosswalk markings and pedestrian signage | \$2,351,382 | \$1,998,675 | \$18,406,142 |

| Agency | Leg Dist | Title of Project | Project Description | Total Project Cost | Amount Requested | Cumulative Total |
|---------------|----------|---|---|--------------------|------------------|------------------|
| Cle Elum | 13 | SR 903 and Stafford Street Sidewalk Improvements | Intersection rebuild, sidewalk, curb, gutter, curb ramps, crosswalk pavement marking, crosswalk beacon, illumination and curb extension | \$375,000 | \$356,250 | \$18,762,392 |
| Shoreline | 32 | Ridgecrest Elementary Pedestrian Crossing Improvements and School Speed Zone Flashers | School speed zone flashers, speed feedback signs, curb extensions, education | \$481,400 | \$467,700 | \$19,230,092 |
| Kitsap County | 23 | Central Valley Road | Sidewalk, curb, gutter, bike lanes, illumination, stormwater drainage, curb ramps, crosswalk markings, and rectangular rapid flashing crosswalk beacons | \$3,649,835 | \$2,044,637 | \$21,274,729 |
| Cathlamet | 19 | The Town of Cathlamet School Zone Establishment and Sidewalk System Improvements | Sidewalk, curb, gutter, curb ramps, school zone, and crosswalk signs, speed feedback sign, storm water drainage | \$823,534 | \$790,987 | \$22,065,716 |
| Des Moines | 33 | North Hill Elementary Walkway Improvements | Sidewalk, curb, gutter, curb ramps, bike lane, storm water drainage, retaining walls, pedestrian railing, speed feedback signs and rectangular rapid flashing crosswalk beacon | \$3,382,000 | \$1,810,000 | \$23,875,716 |
| Chelan County | 12 | Binder/Tigner Sidewalk | Sidewalk, curb, gutter, shoulder, retaining wall, curb ramps, crosswalks, crosswalk flashing beacon, advanced pedestrian crossing warning sign, illumination, storm water drainage, and bicycle and pedestrian safety education | \$1,124,414 | \$824,414 | \$24,700,130 |
| Tacoma | 27 | Whitman Elementary School Safe Routes to School | Curb ramps, curb extensions, pedestrian crosswalk beacon, crosswalk, safety education | \$385,683 | \$327,831 | \$25,027,961 |

| Agency | Leg Dist | Title of Project | Project Description | Total Project Cost | Amount Requested | Cumulative Total |

Past Performance

- Since this program was created in 2005, (ESSB 6091) funding requests have consistently exceeded funding amounts provided.
- Between 2005 and 2017, approximately \$71 million was made available for 215 projects.
- Beginning in 2009, funds were prioritized for the SRTS bicycle and pedestrian safety education project, which provides education about bike and pedestrian safety to children in 5th through 8th grades. The project has been implemented in 84 school districts and has reached approximately 158,540 children.

Figure 3 - Safe Routes to School Program Funding Requested and Awarded 2005-2018

- 79% of projects awarded between 2013 and 2015 have been completed.
- To date, 162 Safe Routes to School projects are complete, 51 are underway and two were cancelled.

Figure 4 - Safe Routes to School Program Project Status 2005 to 2017

- Below is a list of previously awarded Safe Routes to School projects that are completed or underway. It does not include closed projects reported in previous years' reports. For more detailed information about these and other state and federal transportation projects administered by WSDOT Local Programs visit the [WSDOT Local Programs Find a Local Project](#). This report updates information provided to the legislature in July 2018 as part of the 2019-21 Transportation Addendum June 2018

Table 4 - Safe Routes to School Program Project Status 2006-17

| Agency | Status | Title of Project | Selection Year | Selection Amount |
|------------------|-----------|--|----------------|------------------|
| Algona | Underway | Milwaukee Avenue Sidewalks | 2015 | 731,413 |
| Anacortes | Completed | Anacortes Safe Routes to Schools | 2013 | 221,000 |
| Bellevue | Underway | Sherwood Elementary and Interlake High School Non-motorized Safety | 2017 | 778,559 |
