WAC 173-186-150  Post-spill review and documentation procedures.
Rail plan holders are required to conduct post-spill review procedures
to review both the effectiveness of the plan and make plan improve-
ments. Debriefs with ecology and other participating agencies and or-
ganizations may be appropriate if unified command has been established
during a spill, and are required when significant plan updates are
identified or significant lessons can be recorded and implemented.
