

WAC 173-900-520 How transporters know if their registration is approved.

Step 1: Ecology review of transporter registration form.

(1) After receiving a form, ecology will review the form to determine if the form is complete and accurate.

(2) If the form is not complete and accurate, ecology will contact the transporters to:

(a) Tell the transporter what information is missing or inaccurate; and

(b) Request a revised form.

(3) The transporter must submit a revised form within thirty days from the day ecology contacted the transporter.

Step 2: Approval or denial of transporter registration forms.

(4) Approval.

(a) Approval means that ecology has determined the form is complete and accurate.

(b) If ecology approves the transporter's registration, ecology will post the transporter's name on the "transporter registration list" and place the transporter in "in compliance" status. The transporter is allowed to transport CEPs for a plan.

(5) Denial.

(a) Denial means that ecology has determined the form is not complete and accurate and the transporter did not revise information as requested.

(b) If ecology denies a transporter's registration, ecology will remove the transporter's name from the "transporter registration list" if listed, and will notify the transporter of the denial.

(c) The transporter must not transport CEPs for a plan.

(d) For initial transporter registration, if ecology denies a registration, the transporter may resubmit an initial registration form.
