WAC 246-101-520 Special conditions—AIDS and HIV. (1) The local health officer and local health department personnel shall maintain individual case reports for AIDS and HIV as confidential records consistent with the requirements of this section. The local health officer and local health department personnel must:

(a) Use identifying information on HIV-infected individuals only:
   (i) For purposes of contacting the HIV-positive individual to provide test results and post-test counseling; or
   (ii) To contact persons who have experienced substantial exposure, including sex and injection equipment-sharing partners, and spouses; or
   (iii) To link with other name-based public health disease registries when doing so will improve ability to provide needed care services and counseling and disease prevention; or
   (iv) As specified in WAC 246-100-072; or
   (v) To provide case reports to the state health department.

(b) Destroy case report identifying information on asymptomatic HIV-infected individuals received as a result of this chapter within three months of receiving a complete case report, or maintain HIV case reports in secure systems that meet the following standards and are consistent with the 2006 Security and Confidentiality Guidelines developed by the Centers for Disease Control and Prevention:
   (i) Secure systems must be described in written policies that are reviewed annually by the local health officer;
   (ii) Access to case report information must be limited to health department staff who need it to perform their job duties and a current list of these staff must be maintained by the local health officer;
   (iii) All physical locations containing electronic or paper copies of surveillance data must be enclosed in a locked, secured area with limited access and not accessible by window;
   (iv) Paper copies or electronic media containing surveillance information must be housed inside locked file cabinets that are in the locked, secured area;
   (v) A crosscut shredder must be available for destroying information and electronic media must be appropriately sanitized prior to disposal;
   (vi) Files or databases containing confidential information must reside on either stand-alone computers with restricted access or on networked drives with proper access controls, encryption software and firewall protection;
   (vii) Electronic communication of confidential information must be protected by encryption standards that are reviewed annually by the local health officer;
   (viii) Locking briefcases must be available for transporting confidential information;

(c) If maintaining identifying information on asymptomatic HIV-infected individuals more than ninety days following receipt of a completed case report, cooperate with the department of health in biennial review of system security measures described in (b) of this subsection.

(d) Destroy documentation of referral information established in WAC 246-100-072 containing identities and identifying information on HIV-infected individuals and at-risk partners of those individuals immediately after notifying partners or within three months, whichever occurs first unless such documentation is being used in an investigation of conduct endangering the public health or of behaviors present-
ing an imminent danger to the public health pursuant to RCW 70.24.022 or 70.24.024.

(e) Not disclose identifying information received as a result of this chapter unless:
   (i) Explicitly and specifically required to do so by state or federal law; or
   (ii) Authorized by written patient consent.

(2) Local health department personnel are authorized to use HIV identifying information obtained as a result of this chapter only for the following purposes:
   (a) Notification of persons with substantial exposure, including sexual or syringe-sharing partners;
   (b) Referral of the infected individual to social and health services;
   (c) Linkage to other public health databases, provided that the identity or identifying information on the HIV-infected person is not disclosed outside of the health department; and
   (d) Investigations pursuant to RCW 70.24.022 or 70.24.024.

(3) Public health databases do not include health professions licensing records, certifications or registries, teacher certification lists, other employment rolls or registries, or databases maintained by law enforcement officials.

(4) Local health officials will report HIV infection cases to the state health department.

(5) Local health officers must require and maintain signed confidentiality agreements with all health department employees with access to HIV identifying information. These agreements will be renewed at least annually and include reference to criminal and civil penalties for violation of chapter 70.24 RCW and other administrative actions that may be taken by the department.

(6) Local health officers must investigate potential breaches of the confidentiality of HIV identifying information by health department employees. All breaches of confidentiality must be reported to the state health officer or their designee for review and appropriate action.

(7) Local health officers and local health department personnel must assist the state health department to reascertain the identities of previously reported cases of HIV infection.
