Chapter 246-203 WAC
GENERAL SANITATION

Last Update: 3/9/22

WAC 246-203-010 Definition—Public or common nuisance. For the purpose of these regulations, a public or common nuisance shall be considered as that which is set up, maintained or continued so as to be injurious to the health, or an obstruction to the use of property by interfering with the repose, health, safety or life of any considerable number of persons.

[Statutory Authority: RCW 43.20.050. WSR 91-02-051 (Order 124B), recodified as § 246-203-010, filed 12/27/90, effective 1/31/91; Regulation .50.010, effective 3/11/60.]

WAC 246-203-020 Spitting. Spitting upon the floors or walls of a public building or buildings used for public assemblage, of a building used for manufacturing or industrial purposes, or upon the floors or platforms or any part of any railroad or trolley car or ferry boat, or any other public conveyance, is prohibited.

Certified on 4/13/2022
WAC 246-203-030 Common towel. No person, firm, corporation or authorities owning, in charge of, or in control of any lavatory or wash room in any hotel, theatre, lodging house, restaurant, factory, school, church, store, office building, railway or trolley station, or public conveyance by land, water or air, or other institution or conveyance frequented by the public, or which may be used for the purpose of public assembly or as a place of employment, shall provide in or about such lavatory or washroom any towel for common use.

The term "common use" in this section shall be construed to mean, the use of all or any portion of a towel by more than one person without adequate cleansing.

WAC 246-203-060 Water sold to the public for drinking purposes in bottles or other containers. (1) Quality. No water shall be sold, offered for sale or rendered available for drinking purposes in bottles or other containers unless such water is of a sanitary quality approved by the secretary of the department of health.

(2) Inspection. All plants for the preparation of water for sale in bottles or other containers for drinking purposes and the sources of the water supply shall be inspected as frequently as necessary by a representative of the department of health, and samples of water collected for sanitary analyses at the department of health laboratories.

(3) Sterilizing containers. Bottles or other containers in which water is sold for drinking purposes shall be sterilized before refilling. The method of sterilization shall be approved by the secretary of the department of health.

(4) Water purification. Processes of purification of waters that are to be sold for drinking purposes shall be approved by the secretary of the department of health before the water can be sold or offered for sale.

WAC 246-203-070 Ice sold for public use. (1) Quality. No ice shall be sold, offered for sale or rendered available for use to the public unless such ice is of a sanitary quality approved by the secretary of the department of health.

(2) Information. Any company, corporation, city or individual selling artificial ice for public consumption shall submit to the department of health complete information concerning the source of water supply used for the manufacture of the ice and a detailed description of the manufacturing processes involved.
Any company, corporation, city or individual harvesting natural ice shall file full information with the department of health with regard to the source of the ice and method of storage.

[Statutory Authority: RCW 43.20.050. WSR 92-02-019 (Order 225B), § 246-203-070, filed 12/23/91, effective 1/23/92; WSR 91-02-051 (Order 124B), recodified as § 246-203-070, filed 12/27/90, effective 1/31/91; Regulation .50.070, effective 3/11/60.]

WAC 246-203-100 Disposal of human excreta. (1) Waters of the state defined. For the purpose of this regulation, the term "waters of the state" wherever used, shall include all streams and springs, and all bodies of surface and of groundwater, whether natural or artificial, within the boundaries of the state.

(2) Privies shall be fly-proof. No privy, cesspool, septic tank, or other receptacle for human excrement shall be constructed, maintained or used so that flies have or may have access to the excrementitious matter contained therein.

(3) Privies shall not drain in any waters of the state. No privy, urinal, cesspool, septic tank or other receptacle for human excrement shall be constructed, maintained or used which directly or indirectly drains or discharges over or upon the surface of the ground, or into any waters of the state either directly or indirectly; unless the contents of such urinal, cesspool, septic tank or receptacle for human excrement are subjected to some recognized sterilization treatment approved by the department of health.

(4) Privies shall be kept clean. All privies, urinals, cesspools, septic tanks or other receptacles for human excrement shall be cleansed at sufficiently frequent intervals to prevent the contents from overflowing.

(5) Treating excreta on watersheds of public water supplies. All schools, hamlets, villages, towns or industrial settlements which are now located or may be hereafter located on the watershed of any public water supply, not provided with a sewerage system, shall provide and maintain a reasonable system approved by the state director of health for collecting and disposing of all accumulations of human excrement within their respective jurisdiction or control.

(6) Connection with sewer. No privy, cesspool, septic tank or similar receptacle for human excrement shall be constructed, maintained or used on premises where a sewer is at all accessible which is part of a sewerage system from which sewage is lawfully discharged into the waters of the state.

(7) Use of human excreta for fertilizer prohibited. The contents of privies, cesspools, septic tanks or other receptacles for human excrement shall not be placed upon the surface of the ground or be used for fertilizing purposes for crops or gardens.

(8) No privy near foodstuffs. No privy, urinal, toilet or other receptacle for human excrement shall be constructed, maintained or used in any room, or have direct connection with any room wherein any kind of exposed foods or foodstuffs are prepared, stored or handled.

[Statutory Authority: RCW 43.20.050. WSR 92-02-019 (Order 225B), § 246-203-100, filed 12/23/91, effective 1/23/92; WSR 91-02-051 (Order 124B), recodified as § 246-203-100, filed 12/27/90, effective 1/31/91; Regulation .50.100, effective 3/11/60.]
WAC 246-203-121 Disposal of dead animals. (1) Definitions. For the purpose of this regulation the following definitions apply:

(a) "Burial" means completely covering with soil in a manner and location not requiring a permit for a landfill under chapter 70A.205 RCW.

(b) "Composting" means a process of controlled aerobic decomposition in compliance with chapter 70A.205 RCW.

(c) "Dead animal" means the carcass or tissue from an animal, large or small, except part of an animal used for food or other beneficial purpose in accordance with federal, state, and local laws and regulations. "Dead animal" does not mean a fish or other primarily aquatic animal.

(d) "Incineration" means controlled and monitored combustion for the purposes of volume reduction and pathogen destruction in an enclosed device approved by the department of ecology or the local air pollution control authority under chapters 70A.15 and 70A.205 RCW.

(e) "Landfilling" means a process of disposal at a permitted facility where solid waste is permanently placed in or on land in compliance with rules adopted by the department of ecology under chapter 70A.205 RCW.

(f) "Livestock" means horses, mules, donkeys, cattle, bison, sheep, goats, swine, rabbits, llamas, alpacas, poultry, waterfowl, game birds, or other species according to RCW 16.36.005.

(g) "Natural decomposition" means natural decay on the surface of the ground without cover material.

(h) "Rendering" means heat processing according to requirements under chapter 16.68 RCW, Disposal of dead animals.

(2) Disposal methods.

(a) Within 72 hours after death or discovery, the owner of a dead animal or, if the owner of the animal cannot be identified, the owner of the property on which the animal is found must properly dispose of the dead animal. A dead animal must be covered or otherwise removed from public view immediately upon discovery by the person responsible for disposing of the dead animal.

(b) The person responsible for disposal of a dead animal must dispose of it in a manner so as not to become a public or common nuisance or cause pollution of surface or groundwater.

(c) The person responsible for disposal of a dead animal must dispose of it by burial, landfilling, incineration, composting, rendering, or another method approved by the local health officer (such as natural decomposition) that is not otherwise prohibited by federal, state, or local law or regulation.

(d) A person disposing of a dead animal by burial must place it so that every part is covered by at least three feet of soil; at a location not less than 100 feet from any well, spring, stream or other surface waters; not in a low-lying area subject to seasonal flooding or within a 100-year flood plain; and not in a manner likely to contaminate groundwater.

(e) A person disposing of a dead animal must not bury or compost it within the sanitary control area of a public drinking water supply source as designated under chapter 246-290 WAC, Public water supplies, or chapter 246-291 WAC, Group B public water systems.

(f) The local health officer may specify the method of disposal for a dead animal if:

(i) The animal died with a communicable disease transmissible to humans; or
(ii) The local health officer considers a public health emergency to exist.

(g) The provisions of RCW 16.36.092 and chapter 16-25 WAC supersede the provisions of this regulation for the disposal of a livestock animal that has died because of disease or unknown cause.

[Statutory Authority: RCW 43.70.040 and 2020 c 20. WSR 22-07-025, § 246-203-121, filed 3/9/22, effective 4/9/22. Statutory Authority: RCW 43.20.050 (2). WSR 07-14-149, § 246-203-121, filed 7/5/07, effective 8/5/07.]

WAC 246-203-130 Keeping of animals. (1) Any person, firm or corporation is prohibited from keeping or sheltering animals in such a manner that a condition resulting from same shall constitute a nuisance.

(2) In populous districts, stable manure must be kept in a covered watertight pit or chamber and shall be removed at least once a week during the period from April 1st to October 1st and, during the other months, at intervals sufficiently frequent to maintain a sanitary condition satisfactory to the health officer. Manure on farms or isolated premises other than dairy farms need not be so protected and removed unless ordered by the health officer.

(3) Manure shall not be allowed to accumulate in any place where it can prejudicially affect any source of drinking water.

[Statutory Authority: RCW 43.20.050. WSR 91-02-051 (Order 124B), recomodified as § 246-203-130, filed 12/27/90, effective 1/31/91; Regulation .50.130, effective 3/11/60.]

WAC 246-203-160 Sanitation of public buildings. (1) Definition. A public building shall be construed to mean any theater, show-house, public hall, public meeting place, public transportation terminal, or any other public building not covered by specific regulations: Provided, That a public building shall not be construed to include any store, market, supermarket, or other commercial establishment open to the general public for commercial purposes which does not cater to an audience.

(2) Lighting and ventilation. All public buildings shall be properly lighted and ventilated according to the type of said building and the uses to which it is put.

(3) Water supply.

(a) Any public place supplied with water under pressure shall be equipped with sanitary drinking fountains of an approved type.

(b) Where water supplied for drinking is not obtained from a public water supply, such water shall be of a quality approved by the secretary of the department of health. When not under pressure, drinking water shall be stored in a covered container of an approved type.

(c) The use of the common drinking cup is prohibited.

(4) Toilet facilities. Every public building shall be provided with adequate sanitary toilet facilities for each of the sexes; and such facilities shall be convenient and accessible. Every public building which must provide adequate sanitary toilet facilities shall provide at least one free sanitary toilet facility for each of the sexes. Where toilet facilities are voluntarily provided by any store, market, supermarket, or other commercial establishment for use by cus-
tomers of such establishment or the general public, there shall be at least one free sanitary toilet facility provided for each of the sexes. It shall be the duty of the owner, manager, or other responsible person in charge to see that the toilet system is properly installed and maintained in a usable and sanitary condition at all times.

The method of sewage disposal for all public buildings shall comply with the rules and regulations of the state board of health.

(5) **Cleaning.** All public buildings shall be kept at all times in a clean and sanitary condition and the cleaning shall be carried on under proper sanitary conditions. All rooms used for public meetings shall be cleaned after each meeting held in them, such cleaning to consist of thorough sweeping of the floors and wiping of the woodwork, together with proper airing of the rooms. No room shall be swept without the use of a proper dust-laying substance. Dry dusting is prohibited. In construing this regulation all meetings held during the course of a single day shall be regarded as one meeting.

**WAC 246-203-180  Piggeries.**

(1) No pigsty or piggery shall be built or maintained on marshy ground or land subject to overflow, nor within 200 feet of any stream or other source of water supply.

(2) When garbage is fed to pigs all unconsumed garbage shall be removed daily and disposed of by burial or incineration.

(3) No organic material furnishing food for flies shall be allowed to accumulate on the premises.

(4) All garbage shall be handled and fed upon platforms of concrete or other impervious material.

(5) Unslaked lime, hypochlorite of lime, borax or mineral oil shall be used daily in sufficient quantities to prevent offensive odors and the breeding of flies.

(6) All garbage, offal and flesh fed to swine must be sterilized by cooking before feeding.

**WAC 246-203-200  Disease producing organisms for rodent extermination forbidden.** The use of any disease-producing organisms such as the so-called "rat viruses" or any bacteria for the purpose of rodent extermination is prohibited.

**WAC 246-203-210  Common drinking cups.** No person, firm, corporation or authorities owning, in charge of, or in control of any hotel, theatre, restaurant, lodging house, factory, school, church, store,
office building, railway, trolley or other public conveyance station, or public conveyance by land, water or air, or other institution or conveyance frequented by the public or which may be used for the purpose of public assembly or as a place of employment, is permitted to furnish any cup, vessel or other receptacle for common use in any such place for drinking or eating purposes.

The term "common use" in this section shall be construed to mean, for use by more than one person without adequate cleansing.

[Statutory Authority: RCW 43.20.050. WSR 91-02-051 (Order 124B), reclassified as § 246-203-210, filed 12/27/90, effective 1/31/91; Regulation .50.210, effective 3/11/60.]
