Functionality—Warewashing machines, data plate operating specifications (2009 FDA Food Code 4-204.113). A warewashing machine must be provided with an easily accessible and readable data plate affixed to the machine by the manufacturer that indicates the machine's design and operation specifications including the:

1. Temperatures required for washing, rinsing, and sanitizing;
2. Pressure required for the fresh water sanitizing rinse unless the machine is designed to use only pumped sanitizing rinse; and
3. Conveyor speed for conveyor machines or cycle time for stationary rack machines.
