

WAC 246-825-020 Practice parameters. (1) Except as provided in WAC 246-825-030(1), a genetic counselor shall not diagnose, test or treat any genetic disease or condition or other disease or condition.

(2) If a genetic counselor finds any indication of a disease or condition that requires professional service outside the scope of practice defined in RCW 18.290.010, the genetic counselor shall refer that client to a licensed health care provider as defined in WAC 246-825-010(7).

[Statutory Authority: RCW 18.290.020. WSR 10-22-090, § 246-825-020, filed 11/1/10, effective 11/1/10.]
