

WAC 296-17A-0210 Classification 0210.

0210-00 Asphalt paving or surfacing: Highway, street or roadway

Applies to contractors engaged in forms of asphalt paving or surfacing, resurfacing, scraping, sawing, cutting or patching operations performed on or in connection with new or existing highway, street, or roadway projects including approaches and bridges. The process begins after the roadbed or roadside grade has already been established and the subsurface or sub base has been prepared. Work contemplated by this classification is limited to laying crushed stone, placement of expansion joints, application of oil or other adhesive bonding materials, and the surface spreading and rolling of crushed aggregate. Equipment used by a contractor subject to this classification includes, but is not limited to, scrapers, graders, rollers, paving machinery, oil trucks and dump trucks.

This classification excludes preliminary roadbed or roadside construction such as clearing of right of ways, establishing grades, sub-surfaces or sub bases which is to be reported separately in classification 0101; asphalt surfacing/resurfacing not in connection with highway, street or roadway projects which is to be reported separately in classification 0212; construction specialty services such as the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219; and concrete construction which is to be reported separately in the classification applicable to the work being performed.
