

**WAC 296-307-60010 Keep respirator program records.**

**You must:**

- Keep the following records:
  - Your current respirator program
  - Each employee's current fit test record, if fit testing is conducted. Fit test records must include:
    - Employee name
    - Test date
    - Type of fit-test performed
    - Description (type, manufacturer, model, style, and size) of the respirator tested
    - Results of fit tests, for example, for quantitative fit tests include the overall fit factor AND a print out, or other recording of the test.
  - Training records that include employee's names and the dates trained
  - Written recommendations from the LHCP.
- Allow records required by this section to be examined and copied by affected employees and their representatives.
