WAC 296-307-63620  Review audiograms that indicate a standard threshold shift.

You must:
• Make sure the health care professional supervising audiograms has:
  - A copy of this part
  - The baseline audiogram and most recent audiogram of the employee to be evaluated
  - Background noise level records for the testing room
  - Calibration records for the audiometer.
• Obtain an opinion from the health care professional supervising audiograms as to whether the audiograms indicate possible occupational hearing loss and any recommendations for changes in hearing protection.
• Pay for any clinical audiological evaluation or otological examination required by the reviewer, if:
  - Additional review is necessary to evaluate the cause of hearing loss
  - If there is indication of a medical condition of the ear caused or aggravated by the wearing of hearing protectors.
• Inform the employee in writing of the existence of a standard threshold shift within twenty-one calendar days of the determination.
• Make arrangements for the reviewer to communicate to the employee any suspected medical conditions that are found unrelated to your workplace. This information is confidential and must be handled appropriately.
