1. Provide safety training for each employee.
2. Take additional precautions to ensure safe operations when extreme weather or other extreme conditions create hazards. If the operation cannot be made safe, the work must be discontinued until safe to resume.
3. Ensure that danger trees within reach of landings, rigging, buildings, or work areas are either fell before regular operations begin, or arrange work so that employees are not exposed to the related hazards.
4. Develop and maintain a hazard communication program as required by WAC 296-901-140. The program must provide information to all employees about hazardous chemicals or substances to which they are exposed, or may become exposed, in the course of their employment.
5. Ensure that intoxicating beverages and narcotics are prohibited on or near the worksite. You must remove from the worksite any employee under the influence of alcohol or narcotics.

Note: Narcotics do not include prescription drugs taken under a doctor's direction if the use does not endanger any employee.
