WAC 296-96-18070  Hoistway gates and doors.  (1) All boat launching elevators shall have gate-protected hoistway entrances at every landing except those landings located on the beach or at the water surface.

(2) All gates shall comply with the following minimum requirements:
   (a) There shall be a full-bodied, balanced type safety gate that protects the full width of the hoistway and shall hang, at all points along the gate, within 2 in. of the landing threshold;
   (b) The minimum gate height on top landings is 42 inches and 66 inches on all intermediate landings;
   (c) Gates shall be constructed of either metal or wood;
   (d) Gates shall be capable of withstanding a lateral pressure, applied at any point, of 250 lbs. without breaking, becoming permanently deformed or being displaced from their guides or tracks;
   (e) The openings in grille, lattice or other openwork designed gate bodies, shall reject a 2 in. diameter ball; and
   (f) Gates shall be equipped with a department approved combination electric contact and mechanical lock.
