WAC 314-55-077  Marijuana processor license—Privileges, requirements, and fees. (1) A marijuana processor license allows the licensee to process, dry, cure, package, and label useable marijuana, marijuana concentrates, and marijuana-infused products for sale at wholesale to marijuana processors and marijuana retailers.

(2) Application and license fees.
   (a) The application fee for a marijuana processor license is two hundred fifty dollars. The applicant is also responsible for paying the fees required by the approved vendor for fingerprint evaluation.
   (b) The annual fee for issuance and renewal of a marijuana processor license is one thousand three hundred eighty-one dollars. The board will conduct random criminal history checks at the time of renewal that will require the licensee to submit fingerprints for evaluation from the approved vendor. The licensee is responsible for all fees required for the criminal history checks.
   (c) The application window for marijuana processor licenses is closed. The board may reopen the marijuana processor application window at subsequent times when the board deems necessary.

(3) Any entity and/or principals within any entity are limited to no more than three marijuana processor licenses.

(4)(a) A marijuana processor that makes marijuana-infused solid or liquid product meant to be ingested orally (marijuana edibles) must obtain a marijuana-infused edible endorsement from the department of agriculture as required under chapter 15.125 RCW and rules adopted by the department to implement that chapter (chapter 16-131 WAC). A licensee must allow the board or their designee to conduct physical visits and inspect the processing facility, recipes, and records required under WAC 314-55-087 during normal business hours or at any time of apparent operation without advance notice.
   (b) A marijuana processor licensed by the board must ensure marijuana-infused edible processing facilities are constructed, kept, and maintained in a clean and sanitary condition in accordance with rules and as prescribed by the Washington state department of agriculture under chapter 15.125 RCW and rules promulgated to implement chapters 16-131, 16-165 and 16-167 WAC.

(5)(a) A marijuana processor may blend tested useable marijuana from multiple lots into a single package for sale to a marijuana retail licensee so long as the label requirements for each lot used in the blend are met and the percentage by weight of each lot is also included on the label.
   (b) A processor may not treat or otherwise adulterate useable marijuana with any organic or nonorganic chemical or other compound whatsoever to alter the color, appearance, weight, or smell of the useable marijuana.

(6) Recipes, product, packaging, and labeling approval.
   (a) A marijuana processor licensee must obtain label and packaging approval from the board for all marijuana-infused products meant for oral ingestion prior to offering these items for sale to a marijuana retailer. The marijuana processor licensee must submit a picture of the product, labeling, and packaging to the board for approval. More information on the product, packaging, and label review process is available on the board's website.
   (b) All recipes for marijuana-infused products meant for oral ingestion (marijuana edible products) must be approved by the department of agriculture under chapter 16-131 WAC. Licensees must obtain recipe approval from the department of agriculture prior to submitting any
marijuana edible products, packages, and labels for review and approval by the board. The recipe for any marijuana-infused solid or liquid products meant to be ingested orally must be kept on file at the marijuana processor's licensed premises and made available for inspection by the board or its designee.

(c) If the board denies a marijuana-infused product for sale in marijuana retail outlets, the marijuana processor licensee may request an administrative hearing under chapter 34.05 RCW, Administrative Procedure Act.

(7) With the exception of the marijuana, all ingredients used in making marijuana-infused products for oral ingestion must be a commercially manufactured food as defined in WAC 246-215-01115.

(8) Marijuana-infused edible products in solid or liquid form must be homogenized to ensure uniform disbursement of cannabinoids.

(9) A marijuana processor may infuse food or drinks with marijuana, provided that:
   (a) The product or products do not require cooking or baking by the consumer;
   (b) Coatings applied to the product or products are compliant with the requirements of this chapter;
   (c) The product and package design is not similar to commercially available products marketed for consumption by persons under twenty-one years of age, as defined by WAC 314.55.105 (1)(c).

(10) To reduce the risk to public health, potentially hazardous foods as defined in WAC 246-215-01115 may not be infused with marijuana. Potentially hazardous foods require time-temperature control to keep them safe for human consumption and prevent the growth of pathogenic microorganisms or the production of toxins. Any food that requires refrigeration, freezing, or a hot holding unit to keep it safe for human consumption may not be infused with marijuana.

(11) Other food items that may not be infused with marijuana to be sold in a retail store include:
   (a) Any food that has to be acidified to make it shelf stable;
   (b) Food items made shelf stable by canning or retorting;
   (c) Fruit or vegetable juices (this does not include shelf stable concentrates);
   (d) Fruit or vegetable butters;
   (e) Pumpkin pies, custard pies, or any pies that contain egg;
   (f) Dairy products of any kind such as butter, cheese, ice cream, or milk; and
   (g) Dried or cured meats.
   (h) Vinegars and oils derived from natural sources may be infused with dried marijuana if all plant material is subsequently removed from the final product. Vinegars and oils may not be infused with any other substance, including herbs and garlic.
   (i) Marijuana-infused jams and jellies made from scratch must utilize a standardized recipe in accordance with 21 C.F.R. Part 150, revised as of April 1, 2013.

(12) Consistent with WAC 314-55-104, a marijuana processor may infuse dairy butter or fats derived from natural sources, and use that extraction to prepare allowable marijuana-infused solid or liquid products meant to be ingested orally, but the dairy butter or fats derived from natural sources may not be sold as stand-alone products.

The board may designate other food items that may not be infused with marijuana.
Marijuana processor licensees are allowed to have a maximum of six months of their average useable marijuana and six months average of their total production on their licensed premises at any time.

(14) **Processing service arrangements.** A processing service arrangement is when one processor (processor B) processes useable marijuana or an altered form of useable marijuana (marijuana product) for another licensed processor (processor A) for a fee.

(a) Processor A is the product owner. However, processor B may handle the product under its license as provided in chapter 69.50 RCW and this chapter. Processor B is not allowed to transfer the product to a retailer and may only possess marijuana or marijuana products received from processor A for the limited purposes of processing it for ultimate transfer back to processor A.

(b) Processing service arrangements must be made on a cash basis only as provided in WAC 314-55-115 and payment for the service and return of the processed product must be made within thirty calendar days of delivery to processor B. Failure to do so as provided by the preceding sentence is a violation of this section and any marijuana or marijuana product involved in the transaction will be subject to seizure and destruction. Payment with any marijuana products, barter, trade, or compensation in any form other than cash for processing service arrangements is prohibited under processing service arrangements.

(c) Each processor that enters into a processing service arrangement must include records for each service arrangement in recordkeeping documents which must be maintained consistent with this chapter.

(15) Marijuana may not be returned by any retail licensee to any processor except as provided in this section.

(a) Every processor must maintain on the licensed premises for a period of five years complete records of all refunds and exchanges made under this section including an inventory of marijuana and marijuana products returned to the processor by any retail licensee.

(b) Marijuana may be returned by a retail licensee in the event a retailer goes out of the business of selling marijuana at retail and a cash refund, as defined by WAC 314-55-115, may be made upon the return of the marijuana or marijuana products, so long as WSLCB approval is acquired prior to returns and refunds under this subsection.

(c) Marijuana products different from that ordered by a retailer and delivered to the retailer may be returned to a processor and either replaced with marijuana products which were ordered or a cash refund, as defined by WAC 314-55-115, may be made. These incorrect orders must be discovered and corrected within eight days of the date the delivery was made to be eligible for returns and refunds under this subsection.

(d) A marijuana processor may accept returns of products and sample jars from marijuana retailers for destruction, but is not required to provide refunds to the retailer. It is the responsibility of the retailer to ensure the product or sample jar is returned to the processor.
