WAC 352-32-340 Approval of community-based park improvements—Policies. The director or designee shall approve or disapprove all permits for community-based park improvements. Specific policies concerning community-based park improvements are available upon request.

A community-based park improvement is a construction project, proposed to be accomplished by individuals, groups, churches, charities, organizations, agencies, clubs, or associations using donated labor and/or materials, that results in a permanent change to state park lands or structures, or that creates an additional structure on state park lands.
