What definitions apply to MAC and TSOA services? The following definitions apply to MAC and TSOA services:

"Care plan" means the plan developed by the department in TCARE or GetCare that summarizes the services described in WAC 388-106-1915 that you chose to receive.

"Care receiver" means an adult age fifty-five and over who has been authorized for MAC or TSOA services.

"Caregiver" means a spouse, relative, or friend (age eighteen and over) who has primary responsibility for the care or supervision of an adult who meets eligibility criteria and does not receive direct, public, or private payment such as a wage for the caregiving services they provide.

"Caregiver assistance services" are services that take the place of those typically performed by an unpaid caregiver in support of the care receiver's unmet needs for assistance with activities of daily living (ADLs) and instrumental activities of daily living (IADLs).

"Caregiver phases" means the phases a caregiver experiences as the needs of the care receiver change, which in turn changes the responsibilities and tasks of caregiving. The change in responsibilities and tasks impacts the relationship between the caregiver and the care receiver. There are five phases showing the change in relationship roles from primarily family member to primarily caregiver. The five phases are:

1. Phase one - Acting as a relative/friend almost all of the time;
2. Phase two - Acting most often as a relative/friend, but sometimes as a caretaker;
3. Phase three - Acting equally as a relative/friend and as a caregiver;
4. Phase four - Acting most often as a caregiver, but sometimes you are still a relative/friend; and
5. Phase five - Acting as a caregiver almost all of the time.

"Family caregiver" means the same as "caregiver."

"GetCare" means a statewide web-based information system that includes a client management component that includes screening and assessment tools for use by area agencies on aging (AAA) and other aging and disability network partners.

"GetCare assessment" is a process during which the department gathers information for an individual without a caregiver in the following areas: Functional needs, diagnoses and conditions, behavioral health supports, oral health, and nutritional health to assist the individual with choosing step three services.

"GetCare screening" is a process during which the department gathers information for an individual without a caregiver in order to determine risk scores. The information covers the following areas: Function needs, fall risk, availability of informal help, memory and decision-making issues, and emotional well-being. The risk scores are used to determine if the individual is referred for a full GetCare assessment.

"Health maintenance and therapies" are clinical or therapeutic services that assist the care receiver to remain in their home or the caregiver to remain in their caregiving role and provide high quality care. Services are provided for the purpose of preventing further deterioration, improving, or maintaining current level of functioning.

"Identity discrepancy" means a negative psychological state that occurs when the activities and responsibilities that a caregiver as-
sumes with regard to the care receiver are inconsistent with the care-
giver's expectations or personal norms concerning these activities and
responsibilities.

"MAC" means medicaid alternative care, which is a federally fun-
ded program authorized under section 1115 of the Social Security Act. It enables an array of person-centered services to be delivered to un-
paid caregivers caring for a medicaid eligible person who lives in a
private residence (such as their own home or a family member's home) and chooses to receive community-based services.

"Medicaid transformation demonstration" refers to the authority
granted to the state by the federal government under section 1115 of
the Social Security Act. This waiver is a five year demonstration to
support health care systems prepare for and implement health reform
and provide new targeted medicaid services to eligible individuals
with significant needs. It includes MAC and TSOA programs.

"Personal assistance services" are supports involving the labor
of another person to help the care receiver complete activities of
daily living and instrumental activities of daily living that they are
unable to perform independently. Services may be provided in the care
receiver's home or to access community resources.

"RDAD" means reducing disability in Alzheimer's disease. This
program is designed to improve the ability of the person with memory
problems to complete activities of daily living while also helping
caregivers provide assistance to the person.

"Service provider" means an agency or organization contracted
with the department.

"Specialized medical equipment and supplies" are goods and sup-
plies needed by the care receiver that are not covered under the med-
icaid state plan, medicare, or private insurance.

"TCARE" means tailored caregiver assessment and referral, which
is an evidence-based caregiver coordination process designed to assist
department assessors who work with family caregivers to support adults
living with disabilities. TCARE is designed to tailor services to the
unique needs of each caregiver to help reduce stress, depression, and
burdens associated with caregiving. TCARE was developed by a research
team at the University of Wisconsin-Milwaukee led by Dr. Rhonda Mont-
gomery in collaboration with over thirty organizations serving family
caregivers. The TCARE process is licensed for use by Tailored Care En-
terprises, Inc.

"TCARE assessment" is a part of the TCARE process during which
the department assessors gather responses to all of the TCARE screen-
ing questions and additional questions focused on both the caregiver's
experience and the care receiver's situation, such as memory issues,
behavioral needs, assistance needs with activities of daily living and
instrumental activities of daily living, and diagnoses/conditions.

"TCARE screening" is a part of the TCARE process during which the
department gathers information from the caregiver to determine scores
and ranges for the caregiver's identity discrepancy, burdens, uplifts,
and depression. The ranges are used to determine if the caregiver is
referred for a full TCARE assessment.

"Training and education" are services and supports to help care-
givers gain skills and knowledge to implement services and supports
needed by the care receiver to remain at home and skills needed by the
caregiver to remain in their role.

"TSOA" means tailored supports for older adults, which is a fed-
erally-funded program approved under section 1115 of the Social Secur-
ity Act. It enables the delivery of person-centered services to:
(1) Caregivers who care for an eligible person as defined in WAC 388-106-1910; and
(2) Eligible persons as defined in WAC 388-106-1910, without a caregiver.

[Statutory Authority: RCW 74.08.090. WSR 18-08-033, § 388-106-1900, filed 3/27/18, effective 4/27/18.]
