WAC 182-501-0050 Health care general coverage. WAC 182-501-0050 through 182-501-0065 describe the health care services available to a client on a fee-for-service basis or to a client enrolled in a managed care organization (MCO) (defined in WAC 182-538-050). For the purposes of this section, health care services includes treatment, equipment, related supplies, and drugs. WAC 182-501-0070 describes noncovered services.

(1) Health care service categories listed in WAC 182-501-0060 do not represent a contract for health care services.

(2) For the provider to receive payment, the client must be eligible for the covered health care service on the date the health care service is performed or provided.

(3) Under the agency's fee-for-service programs, providers must be enrolled with the agency or its designee and meet the requirements of chapter 182-502 WAC to be paid for furnishing health care services to clients.

(4) The agency or its designee pays only for the health care services that are:

(a) Included in the client's health care benefits package as described in WAC 182-501-0060;

(b) Covered - See subsection (9) of this section;

(c) Ordered or prescribed by a health care provider who meets the requirements of chapter 182-502 WAC;

(d) Medically necessary as defined in WAC 182-500-0070;

(e) Submitted for authorization, when required, in accordance with WAC 182-501-0163;

(f) Approved, when required, in accordance with WAC 182-501-0165;

(g) Furnished by a provider according to chapter 182-502 WAC; and

(h) Billed in accordance with agency or its designee program rules and the agency's current published billing instructions.

(5) The agency does not pay for any health care service requiring prior authorization from the agency or its designee, if prior authorization was not obtained before the health care service was provided; unless:

(a) The client is determined to be retroactively eligible for medical assistance; and

(b) The request meets the requirements of subsection (4) of this section.

(6) The agency does not reimburse clients for health care services purchased out-of-pocket.

(7) The agency does not pay for the replacement of agency-purchased equipment, devices, or supplies which have been sold, gifted, lost, broken, destroyed, or stolen as a result of the client's carelessness, negligence, recklessness, deliberate intent, or misuse unless:

(a) Extenuating circumstances exist that result in a loss or destruction of agency-purchased equipment, devices, or supplies, through no fault of the client that occurred while the client was exercising reasonable care under the circumstances; or

(b) Otherwise allowed under specific agency program rules.

(8) The agency's refusal to pay for replacement of equipment, device, or supplies will not extend beyond the limitations stated in specific agency program rules.

(9) **Covered health care services.**

(a) Covered health care services are either:

(i) "Federally mandated" - Means the state of Washington is required by federal regulation (42 C.F.R. 440.210 and 220) to cover the health care service for medicaid clients; or

(ii) "State-option" - Means the state of Washington is not federally mandated to cover the health care service but has chosen to do so at its own discretion.

(b) The agency may limit the scope, amount, duration, and/or frequency of covered health care services. Limitation extensions are authorized according to WAC 182-501-0169.

(10) **Noncovered health care services.**

(a) The agency does not pay for any health care service listed as noncovered in WAC 182-501-0070 or in any other agency program rule, unless the agency grants a request for an exception to rule allowing payment for the noncovered service. The agency evaluates a request for a noncovered health care service only if an exception to rule is requested according to the provisions in WAC 182-501-0160.

(b) When a noncovered health care service is recommended during the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) exam and then ordered by a provider, the agency evaluates the health care service according to the process in WAC 182-501-0165 to determine if it is medically necessary, safe, effective, and not experimental (see WAC 182-534-0100 for EPSDT rules).

WAC 182-501-0055 Health care coverage—How the agency determines coverage of services for its health care programs using health technology assessments.

(1) The medicaid agency uses health technology assessments to determine whether a new technology, new indication, or existing technology approved by the Food and Drug Administration (FDA) is a covered service under agency health care programs. The agency only uses health technology assessments when coverage is not mandated by federal or state law. A health technology assessment may be conducted by or on behalf of:

(a) The agency; or

(b) The health technology assessment clinical committee (HTACC) under RCW 70.14.080 through 70.14.140.

(2) The agency reviews available evidence relevant to a medical or dental service or health care-related equipment and uses a technology evaluation matrix to:

(a) Determine its efficacy, effectiveness, and safety;

(b) Determine its impact on health outcomes;

(c) Identify indications for use;

(d) Identify potential for misuse or abuse; and

(e) Compare to alternative technologies to assess benefit vs. harm and cost effectiveness.

(3) The agency may determine the technology, device, or technology-related supply is:

(a) Covered (see WAC 182-501-0060 for the scope of coverage under Washington apple health (WAH) programs);

(b) Covered with authorization (see WAC 182-501-0165 for the process on how authorization is determined);

(c) Covered with limitations (see WAC 182-501-0169 for how limitations can be extended); or

(d) Noncovered (see WAC 182-501-0070 for noncovered services).

(4) The agency may periodically review existing technologies, devices, or technology-related supplies and reassign authorization requirements as necessary using the provisions in this section for new technologies, devices, or technology-related supplies.

(5) The agency evaluates the evidence and criteria from HTACC to determine whether a service is covered under WAC 182-501-0050 (9) and (10) and this section.

WAC 182-501-0060 Health care coverage—Program benefit packages—Scope of service categories. (1) This rule provides a table that lists:

(a) The following Washington apple health programs:

(i) The alternative benefits plan (ABP) medicaid;

(ii) Categorically needy (CN) medicaid;

(iii) Medically needy (MN) medicaid; and

(iv) Medical care services (MCS) programs (includes incapacity-based and aged, blind, and disabled medical care services), as described in WAC 182-508-0005; and

(b) The benefit packages showing what service categories are included for each program.

(2) Within a service category included in a benefit package, some services may be covered and others noncovered.

(3) Services covered within each service category included in a benefit package:

(a) Are determined in accordance with WAC 182-501-0050 and 182-501-0055 when applicable.

(b) May be subject to limitations, restrictions, and eligibility requirements contained in agency rules.

(c) May require prior authorization (see WAC 182-501-0165), or expedited prior authorization when allowed by the agency.

(d) Are paid for by the agency or the agency's designee and subject to review both before and after payment is made. The agency or the client's managed care organization may deny or recover payment for such services, equipment, and supplies based on these reviews.

(4) The agency does not pay for covered services, equipment, or supplies that:

(a) Require prior authorization from the agency or the agency's designee, if prior authorization was not obtained before the service was provided;

(b) Are provided by providers who are not contracted with the agency as required under chapter 182-502 WAC;

(c) Are included in an agency or the agency's designee waiver program identified in chapter 182-515 WAC; or

(d) Are covered by a third-party payor (see WAC 182-501-0200), including medicare, if the third-party payor has not made a determination on the claim or has not been billed by the provider.

(5) Programs not addressed in the table:

(a) Medical assistance programs for noncitizens (see chapter 182-507 WAC); and

(b) Family planning only programs (see WAC 182-532-500 through 182-532-570);

(a) Under the ABP, CN, and MN headings, there are two columns. One addresses clients 20 years of age and younger, and the other addresses clients 21 years of age and older.

(b) The letter "Y" means a service category is included for that program. Services within each service category are subject to limitations and restrictions listed in the specific medical assistance program rules and agency issuances.

(c) The letter "N" means a service category is not included for that program.

(d) Refer to WAC 182-501-0065 for a description of each service category and for the specific program rules containing the limitations and restrictions to services.

However, the agency may provide the medical care required as a result of an injury or illness to the client if the client is otherwise eligible for medical care.

(5) The agency may pursue its right to recover the value of medical care provided to an eligible client from any liable third party or third-party settlement or judgment as a subrogee, assignee, or by enforcement of its public assistance lien under RCW 43.20B.040 through 43.20B.070, 74.09.180, and 74.09.185.

(d) If the client and the agency cannot agree upon the appropriate reimbursement amount, any party may bring a motion in superior court for a hearing to determine the amount of reimbursement to the agency from settlement or judgment proceeds.

(7) The agency director or the director's designee must consent in writing to any discharge or compromise of any settlement or judgment of a lien created under RCW 43.20B.060. The agency considers the compromise or discharge of a medical care lien only as authorized by federal regulation at 42 C.F.R. 433.139.

(ii) Accept or refuse surgical or medical treatment;

(iii) Execute an advance directive;

(iv) Revoke an advance directive at any time;

(a) May give information about advance directives to the person authorized by RCW 7.70.065 to make decisions regarding the client's health care;

(b) Must document in the client's file that the client was unable to communicate whether an advance directive exists if no one comes forward with a previously executed advance directive; and

(c) Must give the information described in subsection (2) to the client once the client is no longer incapacitated.

(5) The agencies, HMOs, and facilities must:

(b) Honor the directive or follow the process explained in subsection (6); and

(c) Not refuse, put conditions on care, or otherwise discriminate against a client based on whether or not the client has executed an advance directive.

(6) If an agency, HMO, or facility has a policy or practice that would keep it from honoring a client's advance directive, the facility or organization must:

(a) Tell the client prior to admission or enrollment or when the client executes the directive;

(b) Provide the client with a statement clarifying the differences between institution-wide conscience objections and those that may be raised by individual physicians and explaining the range of medical conditions or procedures affected;

(c) Prepare and keep a written plan of intended actions according to the requirements in RCW 70.122.060 if the client still chooses to retain the facility or organization; and

(d) Make a good faith effort to transfer the client to another health care practitioner who will honor the directive if the client chooses not to retain the facility or organization.

(7) A health care practitioner may refuse to implement a directive, and may not be discriminated against by the facility or organization for refusing to withhold or withdraw life-sustaining treatment.

(8) The agencies, HMOs, and facilities must document, in a prominent place in each client's medical record, whether or not the client has executed an advance directive.

(9) The agencies, HMOs, and facilities must educate staff and the community on issues concerning advance directives.

(b) Send the client and, if applicable, the client's authorized representative a one-time only written notice of concern with information on specific findings and notice of potential placement in the PRC program; or

(c) Determine that the usage guidelines for PRC placement establish that the client has used health care services at an amount or frequency that is not medically necessary, in which case one or more of the following actions take place:

(i) The MCO:

(A) Refers the MCO enrollee:

(I) For education on appropriate use of health care services; or

(iii) The provider refuses to continue to serve the client;

(iv) The client did not select the provider. The client may request to change an assigned provider once within 30 calendar days of the assignment;

(v) The MCO enrollee's assigned PCP no longer participates with the MCO. In this case, the MCO enrollee may select a new provider from the list of available providers in the MCO network or follow the assigned provider to the new MCO; or

(vi) The client is in the address confidentiality program (ACP), indicated by P.O. Box 257, Olympia, WA 98507.

(d) When an assigned prescribing provider no longer contracts with the agency or the MCO:

(i) All prescriptions from the provider are invalid 30 calendar days following the date the contract ends; and

(ii) The client must choose or be assigned another provider according to the requirements in this section.

(13) **PRC placement.**

(a) The initial PRC placement is no less than 24 consecutive months.

(b) The second PRC placement is no less than an additional 36 consecutive months.

(c) Each subsequent PRC placement is no less than 72 consecutive months.

(14) **Agency or MCO review of a PRC placement period.** The agency or MCO reviews a client's use of health care services before the end of each PRC placement period described in subsection (13) of this section using the guidelines in subsection (7) of this section.

(a) The agency or MCO assigns the next PRC placement if the usage guidelines for PRC placement in subsection (7) of this section apply to the client.

(b) When the agency or MCO assigns a subsequent PRC placement, the agency or MCO sends the client and, if applicable, the client's authorized representative, a written notice informing the client:

(i) Of the reason for the subsequent PRC program placement;

(ii) Of the length of the subsequent PRC placement;

(iii) That the current providers assigned to the client continue to be assigned to the client during the subsequent PRC placement;

(iv) That all PRC program rules continue to apply;

(v) Of administrative hearing or appeal rights (see subsection (16) of this section); and

(vi) Of the rules that support the decision.

(c) The agency or MCO may remove a client from PRC placement if the client:

(i) Successfully completes a treatment program that is provided by a substance use disorder (SUD) service provider certified by the agency under chapter 182-538D WAC;

(ii) Submits documentation of completion of the approved treatment program to the agency; and

(iii) Maintains appropriate use of health care services within the usage guidelines described in subsection (7) of this section for six consecutive months after the date the treatment ends; or

(iv) Successfully stabilizes due to the usage of treatment medications including, but not limited to, Buprenorphine.

(d) The agency or MCO determines the appropriate placement for a client who has been placed back into the program.

(e) A client remains placed in the PRC program regardless of change in eligibility program type or change in address.

(15) **Client financial responsibility.** A client placed in the PRC program may be billed by a provider and held financially responsible for nonemergency health care services obtained from a nonpharmacy provider when the provider is not an assigned or appropriately referred provider as described in subsection (12) of this section. See WAC 182-502-0160.

(16) **Right to administrative hearing or appeal.**

(a) An FFS client who disagrees with an agency decision regarding placement or continued placement in the PRC program has the right to an administrative hearing regarding this placement. An FFS client must request an administrative hearing from the agency within 90 days of the written notice of placement or continued placement to exercise this right.

(b) An MCO enrollee who disagrees with an MCO decision regarding placement or continued placement in the PRC program has a right to appeal this decision in the same manner as an adverse benefit determination under chapter 182-538 WAC.

(c) The agency conducts an administrative hearing according to chapter 182-526 WAC.

(d) A client who requests an administrative hearing or appeal within 10 calendar days from the date of the written notice of an initial PRC placement will not be placed in the PRC program until ordered by an administrative law judge (ALJ) or review judge.

(e) A client who requests an administrative hearing or appeal more than 10 calendar days from the date of the written notice of initial PRC placement will remain placed in the PRC program until a final

administrative order is entered that orders the client's removal from the program.

(f) A client who requests an administrative hearing or appeal in all other cases and who has already been assigned providers will remain placed in the PRC program unless a final administrative order is entered that orders the client's removal from the program.

(g) An ALJ may rule the client be placed in the PRC program prior to the date the record is closed and before the date the initial order is issued based on a showing of just cause.

WAC 182-501-0160 Exception to rule—Request for a noncovered health care service. A client or the client's provider may request that the medicaid agency or its designee pay for a noncovered health care service. This is called an exception to rule (ETR). The request for ETR must be made before the service is rendered.

(1) The agency's medical director or designee evaluates and considers requests on a case-by-case basis. The agency's medical director has final authority to approve or deny a request for ETR.

(2) The agency or its designee cannot approve an ETR if the requested service is excluded under state statute.

(3) Any item or service for which an ETR is requested must:

(a) Fall within accepted standards and precepts of good medical practice;

(b) Represent cost-effective use of public funds; and

(c) Be submitted to the agency or its designee in writing within ninety days of the date of the written notification denying authorization for the noncovered service.

(4) For the agency or its designee to consider the ETR request:

(a) The client or the client's health care provider must submit sufficient client-specific information and documentation to the agen-

cy's medical director or designee which demonstrate that the client's clinical condition is so different from the majority that there is no equally effective, less costly covered service or equipment that meets the client's need.

(b) The client's health care provider must certify that medical treatment or items of service which are covered under the client's Washington apple health program and which, under accepted standards of medical practice, are indicated as appropriate for the treatment of the illness or condition, have been found to be:

(i) Medically ineffective in the treatment of the client's condition; or

(ii) Inappropriate for that specific client.

(5) Within fifteen business days of receiving the request, the agency or its designee must send written notification to the provider and the client:

(a) Approving the ETR request;

(b) Denying the ETR request; or

(c) Requesting additional information.

(i) The additional information must be received by the agency or its designee within thirty days of the date the information was requested.

(ii) The agency or its designee must approve or deny the ETR request within five business days of receiving the additional information.

(iii) If the requested information is insufficient or not provided within thirty days, the agency or its designee denies the ETR request.

(6) A client does not have a right to a fair hearing on ETR decisions.

WAC 182-501-0163 Health care coverage—Process for submitting a valid request for authorization. (1) The medicaid agency requires providers to obtain authorization for certain health care services under this section, chapters 182-501 and 182-502 WAC, other applicable agency rules, current published agency billing instructions, and numbered memoranda. For the purposes of this section, health care services include treatment, equipment, related supplies, and drugs.

(a) For health care services that require prior authorization (PA), a provider (as defined in WAC 182-500-0085) must submit a written, electronic, or telephonic request to the agency. To be a valid request for PA, the provider must send the request and follow the

agency's current published program billing instructions, numbered memoranda, and any additional requirements in Washington Administrative Code (WAC) and Revised Code of Washington (RCW).

(b) For expedited prior authorization (EPA), a provider must certify that the client's clinical condition meets the appropriate EPA criteria outlined in the agency's current published program billing instructions, numbered memoranda, and any additional requirements in WAC and RCW. The provider must use the agency-assigned EPA number when submitting a claim for payment to the agency.

(c) The agency requires PA for covered health care services when the applicable EPA criteria are not met.

(d) Upon request, a provider must send documentation to the agency showing how the client's condition meets the required criteria for PA or EPA.

(2) Agency authorization requirements for covered health care services are not a denial of service.

(3) The agency returns invalid requests to the provider and takes no further action unless the request for authorization is resubmitted. The return of an invalid request is not a denial of service.

(4) Failure of a provider to request authorization for a health care service that requires it or a provider's failure to do so properly is not a denial of service.

(5) The agency's authorization of health care services does not guarantee payment. See WAC 182-501-0050 for other general requirements that must be satisfied before payment can be made for a health care service requested and authorized under this section.

(6) The agency evaluates a request for authorization of a health care service that exceeds identified limitations on a case-by-case basis and under WAC 182-501-0169.

(7) The agency may recoup any payment made to a provider if the agency later determines the health care service was not properly authorized or did not meet EPA criteria. See chapters 182-502 and 182-502A WAC.

WAC 182-501-0165 Medical and dental coverage—Fee-for-service (FFS) prior authorization—Determination process for payment. (1) This section applies to fee-for-service (FFS) requests for medical or dental services and medical equipment that:

(a) Are identified as covered services or early and periodic screening, diagnosis, and treatment services; and

(b) Require prior authorization by the medicaid agency.

(2) The following definitions and those found in chapter 182-500 WAC apply to this section:

"Controlled studies" - Studies in which defined groups are compared with each other to reduce bias.

"Credible evidence" - Type I-IV evidence or evidence-based information from any of the following sources:

- Clinical guidelines
- Government sources

- Independent medical evaluation (IME)
- Independent review organization (IRO)
- Independent technology assessment organizations
- Medical and hospital associations
- Policies of other health plans
- Regulating agencies (for example, the Federal Drug Administration or Department of Health)
- Treating provider
- Treatment pathways

"Evidence-based" - The ordered and explicit use of the best evidence available (see "hierarchy of evidence" in subsection (6)(a) of this section) when making health care decisions.

"Health outcome" - Changes in health status (mortality and morbidity) which result from the provision of health care services.

"Institutional review board (IRB)" - A board or committee responsible for reviewing research protocols and determining whether:

- (1) The rights and welfare of human subjects are adequately protected;
- (2) The risks to people are minimized and are not unreasonable;
- (3) The risks to people are outweighed by the potential benefit to them or by the knowledge to be gained; and
- (4) The proposed study design and methods are adequate and appropriate in the light of stated study objectives.

"Independent review organization (IRO)" - A panel of medical and benefit experts intended to provide unbiased, independent, clinical, evidence-based reviews of adverse decisions.

"Independent medical evaluation (IME)" - An objective medical examination of the client to establish the medical facts.

"Provider" - The person who is responsible for diagnosing, prescribing, and providing medical, dental, or behavioral health services to agency clients.

(3) The agency authorizes, on a case-by-case basis, requests described in subsection (1) of this section when the agency determines the service or equipment is medically necessary as defined in WAC 182-500-070. The process the agency uses to assess medical necessity is based on:

- (a) The evaluation of submitted and obtainable medical, dental, or behavioral health evidence as described in subsections (4) and (5) of this section; and
- (b) The application of the evidence-based rating process described in subsection (6) of this section.
- (4) The agency reviews available evidence relevant to a medical, dental, or behavioral health service or equipment to:
 - (a) Determine its efficacy, effectiveness, and safety;
 - (b) Determine its impact on health outcomes;
 - (c) Identify indications for use;
 - (d) Evaluate pertinent client information;
 - (e) Compare to alternative technologies; and
 - (f) Identify sources of credible evidence that use and report evidence-based information.

(5) The agency considers and evaluates all available clinical information and credible evidence relevant to the client's condition. The provider responsible for the client's diagnosis, or treatment, or both, must submit with the request credible evidence specifically related to the client's condition including, but not limited to:

- (a) A physiological description of the client's disease, injury, impairment, or other ailment;

(b) Pertinent laboratory findings;
(c) Pertinent X-ray and/or imaging reports;
(d) Individual patient records pertinent to the case or request;
(e) Photographs, or videos, or both, if requested; and
(f) Objective medical/dental/behavioral health information such as medically/dentally acceptable clinical findings and diagnoses resulting from physical or behavioral health examinations.

(6) The agency uses the following processes to determine whether a requested service described in subsection (1) is medically necessary:

(a) **Hierarchy of evidence - How defined.** The agency uses a hierarchy of evidence to determine the weight given to available data. The weight of medical evidence depends on objective indicators of its validity and reliability including the nature and source of the evidence, the empirical characteristics of the studies or trials upon which the evidence is based, and the consistency of the outcome with comparable studies. The hierarchy (in descending order with Type I given the greatest weight) is:

(i) Type I: Meta-analysis done with multiple, well-designed controlled studies;

(ii) Type II: One or more well-designed experimental studies;

(iii) Type III: Well-designed, quasi-experimental studies such as nonrandomized controlled, single group pre-post, cohort, time series, or matched case-controlled studies;

(iv) Type IV: Well-designed, nonexperimental studies, such as comparative and correlation descriptive, and case studies (uncontrolled); and

(v) Type V: Credible evidence submitted by the provider.

(b) **Hierarchy of evidence - How classified.** Based on the quality of available evidence, the agency determines if the requested service is effective and safe for the client by classifying it as an "A," "B," "C," or "D" level of evidence:

(i) **"A" level evidence:** Shows the requested service or equipment is a proven benefit to the client's condition by strong scientific literature and well-designed clinical trials such as Type I evidence or multiple Type II evidence or combinations of Type II, III or IV evidence with consistent results (An "A" rating cannot be based on Type III or Type IV evidence alone).

(ii) **"B" level evidence:** Shows the requested service or equipment has some proven benefit supported by:

(A) Multiple Type II or III evidence or combinations of Type II, III or IV evidence with generally consistent findings of effectiveness and safety (A "B" rating cannot be based on Type IV evidence alone); or

(B) Singular Type II, III, or IV evidence in combination with agency-recognized:

(I) Clinical guidelines;

(II) Treatment pathways; or

(III) Other guidelines that use the hierarchy of evidence in establishing the rationale for existing standards.

(iii) **"C" level evidence:** Shows only weak and inconclusive evidence regarding safety, or efficacy, or both. For example:

(A) Type II, III, or IV evidence with inconsistent findings; or

(B) Only Type V evidence is available.

(iv) **"D" level evidence:** Is not supported by any evidence regarding its safety and efficacy, for example that which is considered investigational or experimental.

(c) **Hierarchy of evidence - How applied.** After classifying the available evidence, the agency:

- (i) Approves "A" and "B" rated requests if the service or equipment:
 - (A) Does not place the client at a greater risk of mortality or morbidity than an equally effective alternative treatment; and
 - (B) Is not more costly than an equally effective alternative treatment.
- (ii) Approves a "C" rated request only if the provider shows the requested service is the optimal intervention for meeting the client's specific condition or treatment needs, and:
 - (A) Does not place the client at a greater risk of mortality or morbidity than an equally effective alternative treatment;
 - (B) Is less costly to the agency than an equally effective alternative treatment; and
 - (C) Is the next reasonable step for the client in a well-documented tried-and-failed attempt at evidence-based care.
- (iii) Denies "D" rated requests unless:
 - (A) The requested service or equipment has a humanitarian device exemption from the Food and Drug Administration (FDA); or
 - (B) There is a local institutional review board (IRB) protocol addressing issues of efficacy and safety of the requested service that satisfies both the agency and the requesting provider.

(7) Within fifteen days of receiving the request from the client's provider, the agency reviews all evidence submitted and:

- (a) Approves the request;
- (b) Denies the request if the requested service is not medically necessary; or
- (c) Requests the provider submit additional justifying information. The agency sends a copy of the request to the client at the same time.

- (i) The provider must submit the additional information within thirty days of the agency's request.
- (ii) The agency approves or denies the request within five business days of the receipt of the additional information.
- (iii) If the provider fails to provide the additional information, the agency will deny the requested service.

(8) When the agency denies all or part of a request for a covered service or equipment, the agency sends the client and the provider written notice, within ten business days of the date the information is received, that:

- (a) Includes a statement of the action the agency intends to take;
- (b) Includes the specific factual basis for the intended action;
- (c) Includes reference to the specific WAC provision upon which the denial is based;
- (d) Is in sufficient detail to enable the recipient to:
 - (i) Learn why the agency's action was taken; and
 - (ii) Prepare an appropriate response.
- (e) Is in sufficient detail to determine what additional or different information might be provided to challenge the agency's determination;
- (f) Includes the client's administrative hearing rights;
- (g) Includes an explanation of the circumstances under which the denied service is continued or reinstated if a hearing is requested; and

(h) Includes examples(s) of "lesser cost alternatives" that permit the affected party to prepare an appropriate response.

(9) If an administrative hearing is requested, the agency or the client may request an independent review organization (IRO) or independent medical examination (IME) to provide an opinion regarding whether the requested service or equipment is medically necessary. The agency pays for the independent assessment if the agency agrees that it is necessary, or an administrative law judge orders the assessment.

WAC 182-501-0169 Health care coverage—Limitation extension.

This section addresses requests for limitation extensions regarding scope, amount, duration, and frequency of a covered health care service. For the purposes of this section, health care services includes treatment, equipment, related supplies, and drugs. The medicaid agency does not authorize or pay for any covered health care services exceeding identified limitations unless authorization is obtained before the client receives the service.

(1) No limitation extension of covered health care services is authorized when prohibited by specific program rules.

(2) When a limitation extension is not prohibited by specific program rules, the client's provider may request a limitation extension.

(3) The agency evaluates requests for limitation extensions as follows:

(a) For a fee-for-service client, the process described in WAC 182-501-0165.

(b) For a managed care enrollee, the client's managed care organization (MCO) evaluates requests for limitation extensions according to the MCO's prior authorization process.

(c) Both the agency and MCO consider the following in evaluating a request for a limitation extension:

(i) The level of improvement the client has shown to date related to the requested health care service and the reasonably calculated probability of continued improvement if the requested health care service is extended; and

(ii) The reasonably calculated probability the client's condition will worsen if the requested health care service is not extended.

WAC 182-501-0180 Health care services provided outside the state of Washington—General provisions. WAC 182-501-0180 through 182-501-0184 describe the health care services available to a Washington apple health client on a fee-for-service basis or to a client enrolled in a managed care organization (MCO) (defined in WAC 182-538-050).

(1) Subject to the requirements, exceptions, and limitations in this section, WAC 182-501-0182, and 182-501-0184, the medicaid agency covers emergency and nonemergency out-of-state health care services provided to eligible Washington apple health recipients when the services are:

(a) Within the scope of the client's or enrollee's health care program as specified under chapter 182-501 WAC or other program rules;

(b) Allowed to be provided outside the state of Washington by specific program WAC; and

WAC 182-501-0182 Health care provided in another state or U.S. territory—Nonemergency. (1) This rule applies to nonemergency treatment situations occurring in another state or U.S. territory. Applicable situations include, but are not limited to:

(a) Health care services the medicaid agency has prior authorized for a client; and

(b) Health care services obtained by the client, independent of the agency, while traveling or visiting.

(2) Under the prior authorization process described in WAC 182-501-0165, except as specified in subsection (3) of this section, the agency pays for covered nonemergency health care services provided to an eligible Washington apple health (WAH) recipient in another state or U.S. territory to the same extent that it pays for covered nonemergency services provided within the state of Washington when the agency determines that:

(a) Services are medically necessary and the client's health will be endangered if the client must travel to the state of Washington to receive the needed care;

(b) Medically necessary services are not available in Washington state or designated bordering cities (see WAC 182-501-0175) and are more readily available in another state; or

(c) It is general practice for clients in a particular Washington state locality to use medically necessary resources in a bordering state.

(3) The agency pays for covered nonemergency health care services for an eligible WAH recipient in another state or U.S. territory, unless the out-of-state provider will not accept the agency's payment as payment in full under 42 C.F.R. 447.15. The agency does not pay when the provider refuses to accept the agency's payment as payment in full.

(4) The agency does not pay for medically necessary, nonsymptomatic treatment (i.e., preventive care) furnished outside the state of Washington unless it is furnished in a designated bordering city, which is considered the same as an in-state city for the purposes of health care coverage (see WAC 182-501-0175). Covered nonemergency services requiring prior authorization, when provided in the state of Washington, also require prior authorization, when provided in a des-

ignated bordering city (see WAC 182-501-0165 for the agency's medical necessity determination process).

(5) See WAC 182-501-0180 for additional information regarding health care services provided outside the state of Washington.

(6) The agency's director or designee reviews all exception to rule (ETR) requests.

WAC 182-501-0184 Health care services provided outside of the United States and U.S. territories or in a foreign country. For the purposes of this section, the term "health care services" does not include the diagnosis and treatment for alcohol, substance abuse, and mental health services.

(1) The provisions of WAC 182-501-0182 apply to this section.

(2) The medicaid agency does not pay for health care services furnished in a foreign country, except for medical services furnished in the province of British Columbia, Canada, under this section. The agency pays for medical services furnished in British Columbia, Canada, to Washington apple health (WAH) clients only when those clients:

(a) Reside in Point Roberts, Washington;

(b) Reside in Washington communities along the border with British Columbia, Canada (see subsection (3) of this section for further clarification); or

(c) Are members of the Canadian First Nations who live in Washington state.

(3) For WAH clients identified in subsection (2) of this section, the agency covers emergency and nonemergency medical services provided in British Columbia, Canada, when the services are:

(a) Within the scope of the client's health care program as specified in chapter 182-501 WAC;

(b) Allowed to be provided outside the United States and U.S. territories by specific program WAC; and

(c) Medically necessary as defined in WAC 182-500-0070.

(4) For WAH clients identified in subsection (2) of this section, the agency covers nonemergency medical services in British Columbia, Canada, only when:

(a) It is general practice for WAH clients to use medically necessary resources across the Canadian border; or

(b) The medical services in British Columbia, Canada, are closer or more readily accessible to the client's Washington state residence. As applied to nonemergency medical services, the phrase "closer or more readily accessible to the client's Washington state residence" means:

(i) There is not a United States provider for the service within twenty-five miles of the client's Washington state residence; and

(ii) The closest Canadian provider of the service is closer than the closest U.S. provider of the service.

(5) The agency does not cover services provided in British Columbia, Canada, under the Involuntary Treatment Act (chapter 71.05 RCW and chapter 388-865 WAC).

(6) The agency's payment for covered medical services furnished to a WAH client in British Columbia, Canada, is payment in full according to 42 C.F.R. 447.15.

(7) A British Columbia, Canada, provider who furnished health care services or covered items to a WAH client receives payment from the agency only when:

(a) The reimbursement is made to a financial institution or entity located within the United States in U.S. dollars; and

(b) The participating British Columbia, Canada, provider:

(i) Has signed a core provider agreement with the agency;

(ii) Satisfies all medicaid conditions of participation;

WAC 182-501-0200 Third-party resources. (1) The medicaid agency requires a provider to seek timely reimbursement from a responsible third party when a client has available third-party resources, except as described under subsections (2) and (3) of this section. Responsible third parties include health insurers and other third parties legally liable for health care items and services received by clients.

(2) The agency pays for medical services and seeks reimbursement from a responsible third party when the claim is for preventive pediatric services as covered under the early and periodic screening, diagnosis and treatment (EPSDT) program.

(3) The agency pays for medical services and seeks reimbursement from any responsible third party when both of the following apply:

(a) The provider submits to the agency documentation of billing the third party and the provider has not received payment after 100 days from the date of services; and

(b) The claim is for a covered service provided to a client on whose behalf the office of support enforcement is enforcing a noncustodial parent to pay support. For the purpose of this section, "is enforcing" means the noncustodial parent either:

(i) Is not complying with an existing court order; or

(ii) Received payment directly from the third party and did not pay for the medical services.

(4) Responsible third parties, except those identified in subsection (5) of this section, must:

(a) Respond within 60 days to any agency inquiry regarding a claim for payment for any health care item or service submitted within three years after the date the item or service was provided; and

(b) Not deny a claim submitted by the agency solely based on:

(i) The submission date of the claim;

(ii) The type or format of the claim form;

(iii) Lack of prior authorization under the responsible third-party's rules; or

(iv) Any other requirement as described in RCW 74.09A.030.

(5) The following programs found in Title XVIII of the federal Social Security Act are exempt from subsection (4) of this section:

(a) The original medicare fee-for-service program under parts A and B;

(b) A medicare advantage plan offered by a medicare advantage organization under part C;

(c) A reasonable cost reimbursement plan under section 1876 of the federal Social Security Act;

(d) A health care prepayment plan under section 1833 of the federal Social Security Act; or

(e) A prescription drug plan offered under part D that requires prior authorization for an item or service furnished to a person eligible to receive medical assistance under Title XIX of the federal Social Security Act.

(6) The provider may not bill the agency or the client for a covered service when a third party pays a provider the same amount as or more than the agency rate.

(7) When the provider receives payment from a third party after receiving reimbursement from the agency, the provider must refund to the agency the amount of the:

(a) Third-party payment when the payment is less than the agency's maximum allowable rate; or

(b) Agency payment when the third-party payment is equal to or more than the agency's maximum allowable rate.

(8) The agency does not pay for medical services if third-party benefits are available to pay for the client's medical services when the provider bills the agency, except under subsections (2) and (3) of this section.

(9) The client is liable for charges for covered medical services that would be paid by the third-party payment when the client either:

(a) Receives direct third-party reimbursement for the services; or

(b) Fails to execute legal signatures on insurance forms, billing documents, or other forms necessary to receive insurance payments for services rendered. See WAC 182-503-0540 for assignment of rights.

(10) The agency considers an adoptive family to be a third-party resource for the medical expenses of the birth parent and child only when there is a written contract between the adopting family and either the birth parent, the attorney, the provider, or the adoption service. The contract must specify that the adopting family will pay for the medical care associated with the pregnancy.

(11) A provider cannot refuse to furnish covered services to a client because of a third-party's potential liability for the services.

(12) For third-party liability on personal injury litigation claims, the agency or managed care organization (MCO) is responsible for providing medical services under WAC 182-501-0100.
