**SENATE BILL 6303**

---

**State of Washington**

**66th Legislature**

**2020 Regular Session**

**By** Senators Lias, Cleveland, Randall, Pedersen, Wilson, C., Frockt, Lovelett, Saldaña, and Stanford

Read first time 01/15/20. Referred to Committee on Health & Long Term Care.

1 AN ACT Relating to testing and treatment for sexually transmitted  
2 infections; adding new sections to chapter 70.24 RCW; adding a new  
3 section to chapter 48.43 RCW; creating new sections; providing an  
4 effective date; and providing expiration dates.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 NEW SECTION. **Sec. 1.** A new section is added to chapter 70.24  
7 RCW to read as follows:

8 (1) A pharmacist licensed under chapter 18.64 RCW who completes a  
9 training program described in subsection (3) of this section may  
10 dispense up to a sixty-day supply of HIV preexposure prophylaxis  
11 without a prescription if:

12 (a) The patient provides evidence that they are HIV negative, as  
13 documented by a negative HIV test result obtained within the previous  
14 seven days from an HIV antigen/antibody test or antibody-only test or  
15 from a rapid, point-of-care fingerstick blood test approved by the  
16 federal food and drug administration;

17 (b) The patient does not report any signs or symptoms of acute  
18 HIV infection on a self-reported checklist of acute HIV infection  
19 signs and symptoms;

20 (c) The patient does not report taking any contraindicated  
21 medications; and

1 (d) The pharmacist provides counseling to the patient on the  
2 ongoing use of preexposure prophylaxis including, but not limited to,  
3 education about side effects, safety during pregnancy and  
4 breastfeeding, adherence to recommended dosing, and the importance of  
5 timely testing and treatment, as applicable, for HIV, renal function,  
6 hepatitis B, hepatitis C, sexually transmitted infections, and  
7 pregnancy for individuals of child-bearing capacity.

8 (2) Upon dispensing HIV preexposure prophylaxis pursuant to  
9 subsection (1) of this section, a pharmacist must:

10 (a) Notify the patient that the patient must be seen by a primary  
11 care provider to receive subsequent prescriptions for preexposure  
12 prophylaxis and that a pharmacist may not provide a sixty-day supply  
13 of preexposure prophylaxis to a single patient more than once every  
14 two years;

15 (b) Notify the patient's primary care provider that the  
16 pharmacist dispensed preexposure prophylaxis to the patient. If the  
17 patient does not have a primary care provider, the pharmacist must  
18 provide the patient with a list of providers to contact regarding  
19 ongoing care for preexposure prophylaxis; and

20 (c) Maintain a record of preexposure prophylaxis dispensed to  
21 each patient.

22 (3) The pharmacy quality assurance commission, in consultation  
23 with the Washington medical commission, must develop and offer  
24 training to pharmacists on the use of preexposure prophylaxis. The  
25 training must include information about available financial  
26 assistance programs.

27 (4) For purposes of this section, "preexposure prophylaxis" means  
28 a fixed-dose combination of tenofovir disoproxil fumarate (three  
29 hundred milligrams) with emtricitabine (two hundred milligrams), or  
30 another drug or drug combination determined by the pharmacy quality  
31 assurance commission to meet the same clinical eligibility  
32 recommendations provided in the centers for disease control and  
33 prevention's 2017 preexposure prophylaxis for the prevention of HIV  
34 infection in the United States—2017 update: A clinical practice  
35 guideline, or any subsequent guidelines published by the centers for  
36 disease control and prevention.

37 (5) The pharmacy quality assurance commission may adopt rules  
38 necessary for the implementation of this section.

1        NEW SECTION.    **Sec. 2.**    A new section is added to chapter 70.24  
2    RCW to read as follows:

3        (1) A pharmacist licensed under chapter 18.64 RCW who completes a  
4    training program described in subsection (3) of this section may  
5    dispense a complete course of HIV postexposure prophylaxis without a  
6    prescription if:

7        (a) The patient indicates they have been exposed to HIV within  
8    the previous seventy-two hours and the patient otherwise meets the  
9    clinical criteria for postexposure prophylaxis consistent with  
10   centers for disease control and prevention guidelines;

11       (b) The pharmacist provides HIV testing that is classified as  
12   waived under the federal clinical laboratory improvement amendments  
13   of 1988 (42 U.S.C. Sec. 263a) or determines the patient is willing to  
14   undergo HIV testing consistent with centers for disease control and  
15   prevention guidelines; and

16       (c) The pharmacist provides counseling to the patient on the use  
17   of postexposure prophylaxis consistent with centers for disease  
18   control and prevention guidelines including, but not limited to,  
19   education about side effects, safety during pregnancy and  
20   breastfeeding, adherence to recommended dosing, and the importance of  
21   timely testing and treatment, as applicable, for HIV and sexually  
22   transmitted infections.

23       (2) Upon dispensing HIV postexposure prophylaxis pursuant to  
24   subsection (1) of this section, a pharmacist must notify the  
25   patient's primary care provider that the pharmacist provided  
26   postexposure prophylaxis to the patient. If the patient does not have  
27   a primary care provider, the pharmacist must provide the patient with  
28   a list of providers to contact regarding follow-up care for  
29   postexposure prophylaxis treatment.

30       (3) The pharmacy quality assurance commission, in consultation  
31   with the Washington medical commission, must develop and offer  
32   training to pharmacists on the use of postexposure prophylaxis. The  
33   training must include information about available financial  
34   assistance programs.

35       (4) For the purposes of this section, "postexposure prophylaxis"  
36   means:

37       (a) Tenofovir disoproxil fumarate (three hundred milligrams) with  
38   emtricitabine (two hundred milligrams), taken once daily, in  
39   combination with either raltegravir (four hundred milligrams), taken  
40   twice daily, or dolutegravir (fifty milligrams), taken once daily;

1 (b) Tenofovir disoproxil fumarate (three hundred milligrams) and  
2 emtricitabine (two hundred milligrams), taken once daily, in  
3 combination with darunavir (eight hundred milligrams) and ritonavir  
4 (one hundred milligrams), taken once daily; or

5 (c) Another drug or drug combination determined by the pharmacy  
6 quality assurance commission to meet the same clinical eligibility  
7 recommendations provided in the centers for disease control and  
8 prevention's updated guidelines for antiretroviral postexposure  
9 prophylaxis after sexual, injection drug use, or other  
10 nonoccupational exposure to HIV—United States, 2016, or any  
11 subsequent guidelines, published by the centers for disease control  
12 and prevention.

13 (5) The pharmacy quality assurance commission may adopt rules  
14 necessary for the implementation of this section.

15 NEW SECTION. **Sec. 3.** A new section is added to chapter 48.43  
16 RCW to read as follows:

17 (1) Health plans shall provide coverage for HIV preexposure  
18 prophylaxis and postexposure prophylaxis including when obtained by  
19 an enrollee through the programs created in sections 1 and 2 of this  
20 act or prescribed by their provider.

21 (2) For the purposes of this section:

22 (a) "Preexposure prophylaxis" has the same meaning as in section  
23 1 of this act; and

24 (b) "Postexposure prophylaxis" has the same meaning as in section  
25 2 of this act.

26 NEW SECTION. **Sec. 4.** A new section is added to chapter 70.24  
27 RCW to read as follows:

28 (1) The department must partner with the King county HIV/STD  
29 program and the King county correctional facility to conduct a  
30 twelve-month pilot project wherein all inmates who are booked into  
31 the correctional facility will be given a rapid HIV test and a  
32 hepatitis C test after booking unless they explicitly refuse. The  
33 tests must be performed by an employee of the HIV/STD program. Any  
34 positive test must immediately be referred to public health  
35 department staff who will ensure the rapid provision of HIV and/or  
36 hepatitis C care and help ensure testing of the individual's sexual  
37 and needle-sharing partners.

38 (2) This section expires December 1, 2021.

1        NEW SECTION.    **Sec. 5.**    (1) A work group is established to make  
2 recommendations concerning funding and policy initiatives to address  
3 the spread of sexually transmitted infections in Washington. The work  
4 group membership must include, but not limited to, the following  
5 members appointed by the governor:

6        (a) A representative from the department of health office of  
7 infectious disease;

8        (b) A representative from the pharmacy quality assurance  
9 commission;

10       (c) A representative from the Washington medical commission;

11       (d) A representative from an organization representing health  
12 care providers;

13       (e) A representative from a local health jurisdiction located  
14 east of the Cascade mountains;

15       (f) A representative from a local health jurisdiction located  
16 west of the Cascade mountains;

17       (g) At least one representative from an organization working to  
18 address health care access barriers for LGBTQ populations;

19       (h) At least one representative from an organization working to  
20 address health care access barriers for communities of color; and

21       (i) At least one representative from an organization working to  
22 address health care access barriers for justice involved individuals.

23       (2) Staff support for the work group shall be provided by the  
24 department of health.

25       (3) The work group shall submit a report to the legislature by  
26 December 1, 2020, that includes recommendations to:

27       (a) Eradicate congenital syphilis and hepatitis B by 2030;

28       (b) Control the spread of gonorrhea, syphilis, and chlamydia; and

29       (c) End the need for confirmatory syphilis testing by the public  
30 health laboratory.

31       (4) Recommendations provided by the work group must be  
32 prioritized based on need and available funding.

33       (5) This section expires December 1, 2021.

34       NEW SECTION.    **Sec. 6.**    (1) The pharmacy quality assurance  
35 commission shall, in consultation with the Washington medical  
36 commission and the office of laboratory quality assurance, develop  
37 strategies to increase access to sexually transmitted infection  
38 testing and treatment at pharmacies. Strategies may include, but are  
39 not limited to, training initiatives, pharmacy-based sexually

1 transmitted infection testing, and the utilization of standing orders  
2 for sexually transmitted infection treatment.

3 (2) Within existing authority, the pharmacy quality assurance  
4 commission shall adopt rules to implement agreed upon strategies.

5 (3) By December 1, 2020, the commission shall submit a report to  
6 the legislature providing an update on the rule-making process and  
7 providing recommendations for legislative action.

8 (4) This section expires December 1, 2021.

9 NEW SECTION. **Sec. 7.** (1) By December 1, 2020, the office of the  
10 insurance commissioner shall provide a report to the relevant  
11 committees of the legislature concerning insurance coverage for  
12 sexually transmitted infection testing and treatment. The report must  
13 include recommendations to:

14 (a) Address gaps in coverage for expedited partner therapy;

15 (b) Provide coverage for more frequent sexually transmitted  
16 infection testing for at-risk populations, including those who use  
17 preexposure prophylaxis and people living with HIV;

18 (c) Provide coverage for syphilis screening to pregnant women in  
19 their third trimester of pregnancy; and

20 (d) Provide access to sexually transmitted infection testing,  
21 prevention, and treatment for undocumented communities.

22 (2) This section expires December 1, 2021.

23 NEW SECTION. **Sec. 8.** Sections 1 and 2 of this act take effect  
24 July 1, 2021.

--- END ---
