
SENATE BILL 6339

State of Washington

66th Legislature

2020 Regular Session

By Senators Hunt, Holy, Wellman, Wilson, L., and Mullet

Read first time 01/15/20. Referred to Committee on Early Learning & K-12 Education.

1 AN ACT Relating to creating a computer science grant program;
2 adding a new section to chapter 28A.300 RCW; creating a new section;
3 making an appropriation; and providing an expiration date.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** The legislature recognizes the importance
6 and growing demand of computing skills in both the local and national
7 job markets. At the same time, research has shown that women have
8 experienced declining representation in the technology sector.
9 Furthermore, studies have shown that introducing students, and
10 especially female students, to computer science in middle school
11 dramatically increases the students' interest in computer science in
12 later grades.

13 As such, the legislature intends to create a grant program with
14 the goal of expanding computer science to reach students earlier in
15 their education, in particular female students who are currently
16 underrepresented in computer science courses and opportunities. Doing
17 so will open the door to innovation to a wider group of students and
18 will help cultivate a diverse student population that has the skills
19 to contribute and innovate in our modern economy and society.

1 NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.300
2 RCW to read as follows:

3 (1) The office of the superintendent of public instruction shall
4 establish, develop, and administer a grant program to provide
5 assistance to districts for the development and growth of middle
6 school computer science programs and middle school coding programs.

7 (2) In selecting applicants under this program, the office of the
8 superintendent of public instruction shall prioritize:

9 (a) School districts that have a large percentage of students
10 that qualify for free and reduced-price meals;

11 (b) School districts that receive funds under Title I, part A of
12 the federal elementary and secondary education act;

13 (c) Rural school districts;

14 (d) School districts that do not offer computer science courses;
15 and

16 (e) School districts that do not offer coding courses.

17 (3) Grants awarded under this section may be used for programs
18 that occur during and outside of regular school hours.

19 (4) The office of the superintendent of public instruction may
20 adopt rules for the grant program established under this section.

21 (5) This section expires July 1, 2022.

22 NEW SECTION. **Sec. 3.** The sum of five million dollars, or as
23 much thereof as may be necessary, is appropriated for the fiscal
24 biennium ending June 30, 2021, from the general fund to the office of
25 the superintendent of public instruction for the purposes of section
26 2 of this act.

--- END ---
