

HB 1570 - DIGEST

Requires public works contracts to include a provision requiring that all steel products used or supplied in the performance of the contract and in any related subcontract must be: (1) Produced in the United States, at a facility regulated by the United States environmental protection agency; or

(2) Produced in a country where more than sixty-five percent of that country's total crude steel output is produced by means of electric arc furnaces that use postconsumer scrap steel material as the major feedstock.
