

SB 5138 - DIGEST

Requires commercial unmanned aircraft to be registered with the department of transportation for each calendar year in which the aircraft is operated or is based in this state.

Exempts the following from aircraft registration requirements: A nonresident owning an aircraft, which is based at an airport jointly owned or operated by a municipal corporation or other governmental entity within the state and another state, and the owner or operator provides proof that all taxes, license fees, and registration fees required by the state in which the owner or operator resides has been paid.
