**Securities Act Policy Statement Regarding Oversales by Investment Companies**

**Question Presented:** What are the consequences if an investment company sells more securities in Washington than it has notice filed with the securities division on Form NF?

**Statute and Rules:** Pursuant to RCW 21.20.327(1), investment companies offering securities in Washington must notice file with the securities division. As specified in WAC 460-18A-010 and 460-18A-020, prior to selling securities in Washington, investment companies must file Form NF with the securities division and pay a fee calculated based on the amount of securities to be sold in the state. To increase the amount of securities to be offered and sold in the state, an investment company must file an amendment and pay a fee for the additional amount of securities to be offered prior to the sale of securities to be covered by the fee.

**Discussion:** When an investment company sells more securities in Washington than it has notice filed on Form NF, the securities division considers this an "oversale" which violates RCW 21.20.327 and 21.20.340 (2)(b) and (3)(b). Pursuant to RCW 21.20.390, the securities division may issue enforcement actions for violations of the Securities Act of Washington. The securities division, however, finds that alternative resolutions to investment company oversales may be appropriate based on the facts and circumstances.

Investment companies may follow the procedure described below to resolve oversales:

1. Prior to filing an amended Form NF, the investment company should contact the securities division to inform the division of the amount of the oversale.

2. The investment company should provide the securities division with a written statement explaining why the oversale occurred and describing any steps the investment company has taken to avoid future oversales.

3. The investment company should propose a resolution to the oversale and receive approval from the securities division. Possible resolutions may be to conduct a rescission offer (which must be passed upon by the securities division under RCW 21.20.430 (4)(b)), to enter into a consent order with the securities division, or to pay a penalty fee equal to twice the amount of the fee for the amount oversold. The securities division will consider other proposed resolutions on a case-by-case basis.

4. The investment company should file an amended Form NF and pay the associated fee to increase the offering amount to cover the amount of the oversale and any additional securities the investment company intends to offer and sell in Washington.

This policy statement does not limit the securities division's ability to issue an enforcement action with respect to an investment company oversale if the securities administrator finds such action to be warranted. Further, this policy statement pertains only to enforcement actions with respect to notice filings by investment companies and does not address other legal matters.

Adopted: January 7, 2014.

- Back-up systems or mechanisms to ensure continuity of services and supports.
- Training on how to select, manage and dismiss caregivers.

In accordance with RCW 34.05.230(12), following is a list of policy and interpretive statements issued by the department of social and health services.

**Aging and Long-Term Support Administration (AL TSA)**  
**Division of Home and Community Services (HCS)**

Document Title: Public Notice.

Subject: Amendment to COPEs waiver (WA.0049).

Effective Date: July 1, 2015.

Document Description: AL TSA, in coordination with the health care authority intends to submit an amendment to the COPEs waiver (#WA.0049) for the purpose of removing personal care, personal emergency response systems and community transition as COPEs services. These services will instead be available under the community first choice (CFC) program that will be implemented with the same effective date of July 1, 2015.

AL TSA will also be adding a new service to the COPEs waiver that will provide waiver participants with monthly informational and educational materials designed to assist them in managing health related issues, achieving goals identified in their person centered service plans and addressing health and safety issues. The new COPEs service which will assist participants to achieve greater health, safety and success in community living.

Participants may access these services through the CFC and continue to access the COPEs waiver for additional waiver services they are eligible to receive. AL TSA anticipates a seamless transition of these services from COPEs to CFC. Participants may continue to receive the same amount of services they are currently receiving from the same providers who currently provide the service.

As well as the changes related to CFC, the amendment will add an integrated managed care component called HealthPath Washington (HPW) to allow COPEs participants living in King and Snohomish counties who are dual eligible (medicare/medicaid) to receive long-term services and supports through the same managed care program from which they receive medical, mental health, and chemical dependency services. The public was first notified of this amendment on September 10, 2013 (WSR 13-19-034).

In addition, AL TSA has developed a COPEs waiver specific draft transition plan regarding the actions the state will take to come into, and maintain, statewide compliance with the new Code of Federal Regulations regarding home and community-based settings requirements.

The draft COPEs amendment and waiver specific transition plan will be available for review and comment on the AL TSA web site from February 4, 2015, through 5:00 p.m. March 6, 2015, at <http://www.dshs.wa.gov/altsa/stakeholders/home-and-community-based-services>.
