STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined matter is new matter;
 - (ii) deleted matter is (~~lined out and bracketed between double parentheses~~);
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
 [Order 79-133—Filed December 7, 1979]

I, Gordon Sandison, director of State Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, Gordon Sandison, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is this order is necessary for the protection of chum salmon.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED December 7, 1979.

NEW SECTION

WAC 220-28-012H0A **CLOSED AREA** *Effective immediately until further notice, it shall be unlawful for any fisherman, including treaty Indian fishermen, to take, fish for or possess salmon for commercial purposes with any type of gear from the waters of the Hamma Hamma River.*

EMERGENCY RULES
DEPARTMENT OF
LABOR AND INDUSTRIES
 [Order 79-17—Filed December 7, 1979]

I, James T. Hughes, director of Labor and Industries, do promulgate and adopt at the Director's office, Olympia, Washington, the annexed rules relating to lead, identical to 1910.1025 OSHA, new section WAC 296-62-07349.

I, James T. Hughes, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is to prevent material

impairment of health or functional capacity to employees exposed to lead in the work environment. Adopting this emergency rule will keep WISHA as effective as OSHA.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 49.17.450[49.17.050] and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED December 7, 1979.

NEW SECTION

WAC 296-62-07349 **LEAD.** (1) *Scope and Application.* (a) *This section applies to all occupational exposure to lead, except as provided in subdivision (1)(b).*

(b) *This section does not apply to the construction industry as defined or to agricultural operations covered by 29 CFR Part 1928.*

(2) *Definitions as applicable to this part.*

(a) "Action level" – *employee exposure, without regard to the use of respirators, to an airborne concentration of lead of 30 micrograms per cubic meter of air (30 µg/m³) averaged over an 8-hour period.*

(b) "Director" – *the director of the Department of Labor and Industries.*

(c) "Lead" *Metallic lead, all inorganic lead compounds, and organic lead soaps. Excluded from this definition are all other organic lead compounds.*

(3) *Permissible exposure limit (PEL).* (a) *The employer shall assure that no employee is exposed to lead at concentrations greater than fifty micrograms per cubic meter of air (50 µg/m³) averaged over an 8-hour period.*

(b) *If an employee is exposed to lead for more than eight hours in any work day, the permissible exposure limit, as a time weighted average (TWA) for that day, shall be reduced according to the following formula:*

Maximum permissible limit (in µg/m³) = 400 ÷ hours worked in the day.

(c) *When respirators are used to supplement engineering and work practice controls to comply with the PEL and all the requirements of subsection (6) have been met, employee exposure, for the purpose of determining whether the employer has complied with the PEL, may be considered to be at the level provided by the protection factor of the respirator for those periods the respirator is worn. Those periods may be averaged with exposure levels during periods when respirators are not worn to determine the employee's daily TWA exposure.*

(4) *Exposure Monitoring.* (a) *General.* (i) *For the purposes of subsection (4), employee exposure is that*

exposure which would occur if the employee were not using a respirator.

(ii) With the exception of monitoring under subdivision (4)(c), the employer shall collect full shift (for at least seven continuous hours) personal samples including at least one sample for each shift for each job classification in each work area.

(iii) Full shift personal samples shall be representative of the monitored employee's regular, daily exposure to lead.

(b) Initial determination. Each employer who has a workplace or work operation covered by this standard shall determine if any employee may be exposed to lead at or above the action level.

(c) Basis of initial determination. (i) The employer shall monitor employee exposures and shall base initial determinations on the employee exposure monitoring results and any of the following, relevant considerations:

(A) Any information, observations, or calculations which would indicate employee exposure to lead;

(B) Any previous measurements of airborne lead; and

(C) Any employee complaints of symptoms which may be attributable to exposure to lead.

(ii) Monitoring for the initial determination may be limited to a representative sample of the exposed employees who the employer reasonably believes are exposed to the greatest airborne concentrations of lead in the workplace.

(iii) Measurements of airborne lead made in the preceding 12 months may be used to satisfy the requirement to monitor under item (4)(c)(i) if the sampling and analytical methods used meet the accuracy and confidence levels of subdivision (4)(i) of this section.

(d) Positive initial determination and initial monitoring.

(i) Where a determination conducted under subdivision (4)(b) and (4)(c) of this section shows the possibility of any employee exposure at or above the action level, the employer shall conduct monitoring which is representative of the exposure for each employee in the workplace who is exposed to lead.

(ii) Measurements of airborne lead made in the preceding 12 months may be used to satisfy this requirement if the sampling and analytical methods used meet the accuracy and confidence levels of subdivision (4)(i) of this section.

(e) Negative initial determination. Where a determination, conducted under subdivisions (4)(b) and (4)(c) of this section is made that no employee is exposed to airborne concentrations of lead at or above the action level, the employer shall make a written record of such determination. The record shall include at least the information specified in subdivision (4)(c) of this section and shall also include the date of determination, location within the worksite, and the name and social security number of each employee monitored.

(f) Frequency. (i) If the initial monitoring reveals employee exposure to be below the action level the measurements need not be repeated except as otherwise provided in subdivision (4)(g) of this section.

(ii) If the initial determination or subsequent monitoring reveals employee exposure to be at or above the

action level but below the permissible exposure limit the employer shall repeat monitoring in accordance with this subsection at least every six months. The employer shall continue monitoring at the required frequency until at least two consecutive measurements, taken at least seven days apart, are below the action level at which time the employer may discontinue monitoring for that employee except as otherwise provided in subdivision (4)(g) of this section.

(iii) If the initial monitoring reveals that employee exposure is above the permissible exposure limit the employer shall repeat monitoring quarterly. The employer shall continue monitoring at the required frequency until at least two consecutive measurements, taken at least seven days apart, are below the PEL but at or above the action level at which time the employer shall repeat monitoring for that employee at the frequency specified in item (4)(f)(ii), except as otherwise provided in subdivision (4)(g) of this section.

(g) Additional monitoring. Whenever there has been a production, process, control or personnel change which may result in new or additional exposure to lead, or whenever the employer has any other reason to suspect a change which may result in new or additional exposures to lead, additional monitoring in accordance with this subsection shall be conducted.

(h) Employee notification. (i) Within five working days after the receipt of monitoring results, the employer shall notify each employee in writing of the results which represent that employee's exposure.

(ii) Whenever the results indicate that the representative employee exposure, without regard to respirators, exceeds the permissible exposure limit, the employer shall include in the written notice a statement that the permissible exposure limit was exceeded and a description of the corrective action taken or to be taken to reduce exposure to or below the permissible exposure limit.

(i) Accuracy of measurement. The employer shall use a method of monitoring and analysis which has an accuracy (to a confidence level of 95 percent) of not less than plus or minus 20 percent for airborne concentrations of lead equal to or greater than 30 µg/m³.

(5) Method of Compliance. (a) Engineering and work practice controls. The employer shall implement engineering and work practice controls (including administrative controls) to reduce and maintain employee exposure to lead in accordance with the implementation schedule in Table I. Failure to achieve exposure levels without regard to respirators is sufficient to establish a violation of this provision.

IMPLEMENTATION SCHEDULE

	200 $\mu\text{g}/\text{m}^3$	100 $\mu\text{g}/\text{m}^3$ Applicable	50 $\mu\text{g}/\text{m}^3$
.....			

¹ Includes ancillary activities located on the same worksite.

² Expressed as the number of years from the effective date by which compliance with the given airborne exposure level, as an 8-hour TWA, must be achieved.

³ On effective date. This continues an obligation from Table Z-2 of 29 CFR 1910.1000 which had been in effect since 1971 but which was deleted upon the effectiveness of this section.

(b) Respiratory protection. Where engineering and work practice controls do not reduce employee exposure to or below the 50 $\mu\text{g}/\text{m}^3$ permissible exposure limit, the employer shall supplement these controls with respirators in accordance with subsection (6).

(c) Compliance program. (i) Each employer shall establish and implement a written compliance program to reduce exposures to or below the permissible exposure limit, and interim levels if applicable, solely by means of engineering and work practice controls in accordance with the implementation schedule in subdivision (5)(a).

(ii) Written plans for these compliance programs shall include at least the following:

(A) A description of each operation in which lead is emitted; e.g., machinery used, material processed, controls in place, crew size, employee job responsibilities, operating procedures and maintenance practices;

(B) A description of the specific means that will be employed to achieve compliance, including engineering plans and studies used to determine methods selected for controlling exposure to lead;

(C) A report of the technology considered in meeting the permissible exposure limit;

(D) Air monitoring data which documents the source of lead emissions;

(E) A detailed schedule for implementation of the program, including documentation such as copies of purchase orders for equipment, construction contracts, etc.;

(F) A work practice program which includes items required under subsections (7), (8) and (9) of this regulation;

(G) An administrative control schedule required by subdivision (5)(f), if applicable; and

(H) Other relevant information.

(iii) Written programs shall be submitted upon request to the director, and shall be available at the worksite for examination and copying by the director, any affected employee or authorized employee representatives.

(iv) Written programs shall be revised and updated at least every six months to reflect the current status of the program.

(d) Bypass of interim level. Where an employer's compliance plan provides for a reduction of employee exposures to or below the PEL solely by means of engineering and work practice controls in accordance with the implementation schedule in Table I, and the employer has determined that compliance with the 100 $\mu\text{g}/\text{m}^3$ interim level would divert resources to the extent that it clearly precludes compliance, otherwise attainable, with the PEL by the required time, the employer may proceed with the plan to comply with the PEL in lieu of compliance with the interim level if:

(i) The compliance plan clearly documents the basis of the determination;

(ii) The employer takes all feasible steps to provide maximum protection for employees until the PEL is met; and

(iii) The employer notifies the director in writing within ten working days of the completion or revision of the compliance plan reflecting the determination.

(e) Mechanical ventilation. (i) When ventilation is used to control exposure, measurements which demonstrate the effectiveness of the system in controlling exposure, such as capture velocity, duct velocity, or static pressure shall be made at least every three months. Measurements of the system's effectiveness in controlling exposure shall be made within five days of any change in production, process, or control which might result in a change in employee exposure to lead.

(ii) Recirculation of air. If air from exhaust ventilation is recirculated into the workplace, the employer shall assure that (A) the system has a high efficiency filter with reliable back-up filter, and (B) controls to monitor the concentration of lead in the return air and to bypass the recirculation system automatically if it fails are installed, operating, and maintained.

(f) Administrative controls. If administrative controls are used as a means of reducing employees TWA exposure to lead, the employer shall establish and implement a job rotation schedule which includes:

(i) Name or identification number of each affected employee;

(ii) Duration and exposure levels at each job or work station where each affected employee is located; and

(iii) Any other information which may be useful in assessing the reliability of administrative controls to reduce exposure to lead.

(g) Respiratory Protection. (a) General. Where the use of respirators is required under this section, the employer shall provide, at no cost to the employee, and assure the use of respirators which comply with the requirements of this subsection. Respirators shall be used in the following circumstances:

(i) During the time period necessary to install or implement engineering or work practice controls, except that after the dates for compliance with the interim levels in Table I, no employer shall require an employee to wear a negative pressure respirator longer than 4.4 hours per day;

(ii) In work situations in which engineering and work practice controls are not sufficient to reduce exposures to or below the permissible exposure limit; and

(iii) Whenever an employee requests a respirator.

(b) **Respirator selection.** (i) Where respirators are required under this section the employer shall select the appropriate respirator or combination of respirators from Table II.

**TABLE II
RESPIRATORY PROTECTION FOR LEAD
AEROSOLS**

Airborne Concentration of Lead or Condition of Use	Required Respirator ¹
Not in excess of 0.5 mg/m ³ (10X PEL).	Half-mask, air-purifying respirator equipped with high efficiency filters. ³
Not in excess of 2.5 mg/m ³ (50X PEL).	Full facepiece, air-purifying respirator with high efficiency filters. ³
Not in excess of 50 mg/m ³ (1000X PEL).	(1) Any powered, air-purifying respirator with high efficiency filters ³ ; or (2) Half-mask supplied-air respirator operated in positive-pressure mode. ²
Not in excess of 100 mg/m ³ (2000X PEL).	Supplied-air respirators with full facepiece, hood, helmet, or suit, operated in positive pressure mode.
Greater than 100 mg/m ³ , unknown concentration or fire fighting	Full facepiece, self-contained breathing apparatus operated in positive-pressure mode.

¹ Respirators specified for high concentrations can be used at lower concentrations of lead.

² Full facepiece is required if the lead aerosols cause eye or skin irritation at the use concentrations.

³ A high efficiency particulate filter means 99.97 percent efficient against 0.3 micron size particles.

(ii) The employer shall provide a powered, air-purifying respirator in lieu of the respirator specified, in Table II whenever:

(A) An employee chooses to use this type of respirator, and

(B) This respirator will provide adequate protection to the employee.

(iii) The employer shall select respirators from among those approved for protection against lead dust, fume, and mist by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health (NIOSH) under the provisions of 30 CFR Part 11.

(c) **Respirator usage.** (i) The employer shall assure that the respirator issued to the employee exhibits minimum facepiece leakage and that the respirator is fitted properly.

(ii) Employers shall perform quantitative face fit tests at the time of initial fitting and at least semiannually thereafter for each employee wearing negative pressure respirators. The test shall be used to select facepieces that provide the required protection as prescribed in Table II.

(iii) If an employee exhibits difficulty in breathing during the fitting test or during use, the employer shall make available to the employee an examination in accordance with subitem (10)(c)(i)(C) of this section to determine whether the employee can wear a respirator while performing the required duty.

(d) **Respirator program.** (i) The employer shall institute a respiratory protection program in accordance with WAC 296-24-08103, 296-24-08107, 296-24-08109 and 296-24-08111.

(ii) The employer shall permit each employee who uses a filter respirator to change the filter elements whenever an increase in breathing resistance is detected and shall maintain an adequate supply of filter elements for this purpose.

(iii) Employees who wear respirators shall be permitted to leave work areas to wash their face and respirator facepiece whenever necessary to prevent skin irritation associated with respirator use.

(7) **Protective Work Clothing and Equipment.** (a) Provision and use. If an employee is exposed to lead above the PEL, without regard to the use of respirators or where the possibility of skin or eye irritation exists, the employer shall provide at no cost to the employee and assure that the employee uses appropriate protective work clothing and equipment such as, but not limited to:

(i) Coveralls or similar full-body work clothing;

(ii) Gloves, hats, and shoes or disposable shoe coverlets; and

(iii) Face shields, vented goggles, or other appropriate protective equipment which complies with WAC 296-24-078.

(b) **Cleaning and replacement.** (i) The employer shall provide the protective clothing required in subdivision (7)(a) of this section in a clean and dry condition at least weekly, and daily to employees whose exposure levels without regard to a respirator are over 200 µg/m³ of lead as an 8-hour TWA.

(ii) The employer shall provide for the cleaning, laundering, or disposal of protective clothing and equipment required by subdivision (7)(a) of this section.

(iii) The employer shall repair or replace required protective clothing and equipment as needed to maintain their effectiveness.

(iv) The employer shall assure that all protective clothing is removed at the completion of a work shift only in change rooms provided for that purpose as prescribed in subdivision (9)(b) of this section.

(v) The employer shall assure that contaminated protective clothing which is to be cleaned, laundered, or disposed of, is placed in a closed container in the change-room which prevents dispersion of lead outside the container.

(vi) The employer shall inform in writing any person who cleans or launders protective clothing or equipment of the potentially harmful effects of exposure to lead.

(vii) The employer shall assure that the containers of contaminated protective clothing and equipment required by subdivision (7)(b)(v) are labelled as follows:

CAUTION: CLOTHING CONTAMINATED WITH LEAD. DO NOT REMOVE DUST BY BLOWING OR SHAKING. DISPOSE OF LEAD CONTAMINATED WASH WATER IN ACCORDANCE WITH APPLICABLE LOCAL, STATE, OR FEDERAL REGULATIONS.

(viii) The employer shall prohibit the removal of lead from protective clothing or equipment by blowing, shaking, or any other means which disperses lead into the air.

(8) Housekeeping. (a) Surfaces. All surfaces shall be maintained as free as practicable of accumulations of lead.

(b) Cleaning floors. (i) Floors and other surfaces where lead accumulates may not be cleaned by the use of compressed air.

(ii) Shoveling, dry or wet sweeping, and brushing may be used only where vacuuming or other equally effective methods have been tried and found not to be effective.

(c) Vacuuming. Where vacuuming methods are selected, the vacuums shall be used and emptied in a manner which minimizes the reentry of lead into the workplace.

(9) Hygiene Facilities and Practices. (a) The employer shall assure that in areas where employees are exposed to lead above the PEL, without regard to the use of respirators, food or beverage is not present or consumed, tobacco products are not present or used, and cosmetics are not applied, except in change rooms, lunchrooms, and showers required under subdivision (9)(b) - (9)(d) of this section.

(b) Change rooms. (i) The employer shall provide clean change rooms for employees who work in areas where their airborne exposure to lead is above the PEL, without regard to the use of respirators.

(ii) The employer shall assure that change rooms are equipped with separate storage facilities for protective work clothing and equipment and for street clothes which prevent cross-contamination.

(c) Showers. (i) The employer shall assure that employees who work in areas where their airborne exposure to lead is above the PEL, without regard to the use of respirators, shower at the end of the work shift.

(ii) The employer shall provide shower facilities in accordance with WAC 296-24-12009.

(iii) The employer shall assure that employees who are required to shower pursuant to item (9)(c)(i) do not leave the workplace wearing any clothing or equipment worn during the work shift.

(d) Lunchrooms. (i) The employer shall provide lunchroom facilities for employees who work in areas where their airborne exposure to lead is above the PEL, without regard to the use of respirators.

(ii) The employer shall assure that lunchroom facilities have a temperature controlled, positive pressure, filtered air supply, and are readily accessible to employees.

(iii) The employer shall assure that employees who work in areas where their airborne exposure to lead is above the PEL without regard to the use of a respirator wash their hands and face prior to eating, drinking, smoking or applying cosmetics.

(iv) The employer shall assure that employees do not enter lunchroom facilities with protective work clothing or equipment unless surface lead dust has been removed by vacuuming, downdraft booth, or other cleaning method.

(e) Lavatories. The employer shall provide an adequate number of lavatory facilities which comply with WAC 296-24-12009(1) and (2).

(10) Medical Surveillance. (a) General. (i) The employer shall institute a medical surveillance program for all employees who are or may be exposed above the action level for more than 30 days per year.

(ii) The employer shall assure that all medical examinations and procedures are performed by or under the supervision of a licensed physician.

(iii) The employer shall provide the required medical surveillance including multiple physician review under item (10)(c)(iii) without cost to employees and at a reasonable time and place.

(b) Biological monitoring. (i) Blood lead and ZPP level sampling and analysis. The employer shall make available biological monitoring in the form of blood sampling and analysis for lead and zinc protoporphyrin levels to each employee covered under item (10)(a)(i) of this section on the following schedule:

(A) At least every six months to each employee covered under item (10)(a)(i) of this section;

(B) At least every two months for each employee whose last blood sampling and analysis indicated a blood lead level at or above 40 $\mu\text{g}/100\text{ g}$ of whole blood. This frequency shall continue until two consecutive blood samples and analyses indicate a blood lead level below 40 $\mu\text{g}/100\text{ g}$ of whole blood; and

(C) At least monthly during the removal period of each employee removed from exposure to lead due to an elevated blood lead level.

(ii) Follow-up blood sampling tests. Whenever the results of a blood lead level test indicate that an employee's blood lead level exceeds the numerical criterion for medical removal under item (11)(a)(i), the employer shall provide a second (follow-up) blood sampling test within two weeks after the employer receives the results of the first blood sampling test.

(iii) Accuracy of blood lead level sampling and analysis. Blood lead level sampling and analysis provided pursuant to this section shall have an accuracy (to a confidence level of 95 percent) within plus or minus 15 percent or 6 $\mu\text{g}/100\text{ ml}$, whichever is greater, and shall be conducted by a laboratory licensed by the Center for Disease Control (CDC), United States Department of Health, Education and Welfare or which has received a satisfactory grade in blood lead proficiency testing from CDC in the prior twelve months.

(iv) Employee notification. Within five working days after the receipt of biological monitoring results, the employer shall notify in writing each employee whose blood lead level exceeds 40 $\mu\text{g}/100\text{ g}$: (A) of that employee's blood lead level and (B) that the standard requires temporary medical removal with Medical Removal Protection benefits when an employee's blood lead level exceeds the numerical criterion for medical removal under item (11)(a)(i) of this section.

(c) Medical examinations and consultations. (i) Frequency. The employer shall make available medical examinations and consultations to each employee covered under item (10)(a)(i) of this section on the following schedule:

(A) At least annually for each employee for whom a blood sampling test conducted at any time during the

preceding 12 months indicated a blood lead level at or above 40 µg/100 g;

(B) Prior to assignment for each employee being assigned for the first time to an area in which airborne concentrations of lead are at or above the action level;

(C) As soon as possible, upon notification by an employee either that the employee has developed signs or symptoms commonly associated with lead intoxication, that the employee desires medical advice concerning the effects of current or past exposure to lead on the employee's ability to procreate a healthy child, or that the employee has demonstrated difficulty in breathing during a respirator fitting test or during use; and

(D) As medically appropriate for each employee either removed from exposure to lead due to a risk of sustaining material impairment to health, or otherwise limited pursuant to a final medical determination.

(ii) Content. Medical examinations made available pursuant to subitems (10)(c)(i)(A)-(B) of this section shall include the following elements:

(A) A detailed work history and a medical history, with particular attention to past lead exposure (occupational and nonoccupational), personal habits (smoking, hygiene), and past gastrointestinal, hematologic, renal, cardiovascular, reproductive and neurological problems;

(B) A thorough physical examination, with particular attention to teeth, gums, hematologic, gastrointestinal, renal, cardiovascular, and neurological systems. Pulmonary status should be evaluated if respiratory protection will be used;

(C) A blood pressure measurement;

(D) A blood sample and analysis which determines:

(aa) Blood lead level;

(bb) Hemoglobin and hematocrit determinations, red cell indices, and examination of peripheral smear morphology;

(cc) Zinc protoporphyrin;

(dd) Blood urea nitrogen; and

(ee) Serum creatinine;

(E) A routine urinalysis with microscopic examination; and

(F) Any laboratory or other test which the examining physician deems necessary by sound medical practice.

The content of medical examinations made available pursuant to subitems (10)(c)(i)(C)-(D) of this section shall be determined by an examining physician and, if requested by an employee, shall include pregnancy testing or laboratory evaluation of male fertility.

(iii) Multiple physician review mechanism. (A) If the employer selects the initial physician who conducts any medical examination or consultation provided to an employee under this section, the employee may designate a second physician:

(aa) To review any findings, determinations or recommendations of the initial physician; and

(bb) To conduct such examinations, consultations, and laboratory tests as the second physician deems necessary to facilitate this review.

(B) The employer shall promptly notify an employee of the right to seek a second medical opinion after each occasion that an initial physician conducts a medical examination or consultation pursuant to this section. The

employer may condition its participation in, and payment for, the multiple physician review mechanism upon the employee doing the following within fifteen days after receipt of the foregoing notification, or receipt of the initial physician's written opinion, whichever is later:

(aa) The employee informing the employer that he or she intends to seek a second medical opinion, and

(bb) The employee initiating steps to make an appointment with a second physician.

(C) If the findings, determinations or recommendations of the second physician differ from those of the initial physician, then the employer and the employee shall assure that efforts are made for the two physicians to resolve any disagreement.

(D) If the two physicians have been unable to quickly resolve their disagreement, then the employer and the employee through their respective physicians shall designate a third physician:

(aa) To review any findings, determinations or recommendations of the prior physicians; and

(bb) To conduct such examinations, consultations, laboratory tests and discussions with the prior physicians as the third physician deems necessary to resolve the disagreement of the prior physicians.

(E) The employer shall act consistent with the findings, determinations and recommendations of the third physician, unless the employer and the employee reach an agreement which is otherwise consistent with the recommendations of at least one of the three physicians.

(iv) Information provided to examining and consulting physicians.

(A) The employer shall provide an initial physician conducting a medical examination or consultation under this section with the following information:

(aa) A copy of this regulation for lead including all Appendices;

(bb) A description of the affected employee's duties as they relate to the employee's exposure;

(cc) The employee's exposure level or anticipated exposure level to lead and to any other toxic substance (if applicable);

(dd) A description of any personal protective equipment used or to be used;

(ee) Prior blood lead determinations; and

(ff) All prior written medical opinions concerning the employee in the employer's possession or control.

(B) The employer shall provide the foregoing information to a second or third physician conducting a medical examination or consultation under this section upon request either by the second or third physician, or by the employee.

(v) Written medical opinions. (A) The employer shall obtain and furnish the employee with a copy of a written medical opinion from each examining or consulting physician which contains the following information:

(aa) The physician's opinion as to whether the employee has any detected medical condition which would place the employee at increased risk of material impairment of the employee's health from exposure to lead;

(bb) Any recommended special protective measures to be provided to the employee, or limitations to be placed upon the employee's exposure to lead;

(cc) Any recommended limitation upon the employee's use of respirators, including a determination of whether the employee can wear a powered air purifying respirator if a physician determines that the employee cannot wear a negative pressure respirator, and

(dd) The results of the blood lead determinations.

(B) The employer shall instruct each examining and consulting physician to:

(aa) Not reveal either in the written opinion, or in any other means of communication with the employer, findings, including laboratory results, or diagnoses unrelated to an employee's occupational exposure to lead; and

(bb) Advise the employee of any medical condition, occupational or nonoccupational, which dictates further medical examination or treatment.

(vi) Alternate physician determination mechanisms. The employer and an employee or authorized employee representative may agree upon the use of any expeditious alternate physician determination mechanism in lieu of the multiple physician review mechanism provided by this subsection so long as the alternate mechanism otherwise satisfies the requirements contained in this subsection.

(d) Chelation. (i) The employer shall assure that any person whom he retains, employs, supervises or controls does not engage in prophylactic chelation of any employee at any time.

(ii) If therapeutic or diagnostic chelation is to be performed by any person in item (10)(d)(i), the employer shall assure that it be done under the supervision of a licensed physician in a clinical setting with thorough and appropriate medical monitoring and that the employee is notified in writing prior to its occurrence.

(11) Medical Removal Protection. (a) Temporary medical removal and return of an employee.

(i) Temporary removal due to elevated blood lead levels.

(A) First year of the standard. During the first year following the effective date of the standard, the employer shall remove an employee from work having a daily eight hour TWA exposure to lead at or above $100 \mu\text{g}/\text{m}^3$ on each occasion that a periodic and a follow-up blood sampling test conducted pursuant to this section indicate that the employee's blood lead level is at or above $80 \mu\text{g}/100 \text{ g}$ of whole blood;

(B) Second year of the standard. During the second year following the effective date of the standard, the employer shall remove an employee from work having a daily eight hour TWA exposure to lead at or above $50 \mu\text{g}/\text{m}^3$ on each occasion that a periodic and a follow-up blood sampling test conducted pursuant to this section indicate that the employee's blood lead level is at or above $70 \mu\text{g}/100 \text{ g}$ of whole blood;

(C) Third year of the standard, and thereafter. Beginning with the third year following the effective date of the standard, the employer shall remove an employee from work having an exposure to lead at or above the action level on each occasion that a periodic and a follow-up blood sampling test conducted pursuant to this section indicate that the employee's blood lead level is at or above $60 \mu\text{g}/100 \text{ g}$ of whole blood; and

(D) Fifth year of the standard, and thereafter. Beginning with the fifth year following the effective date of the standard, the employer shall remove an employee from work having an exposure to lead at or above the action level on each occasion that the average of the last three blood sampling tests conducted pursuant to this section (or the average of all blood sampling tests conducted over the previous six months, whichever is longer) indicates that the employee's blood lead level is at or above $50 \mu\text{g}/100 \text{ g}$ of whole blood; provided, however, that an employee need not be removed if the last blood sampling test indicates a blood lead level at or below $40 \mu\text{g}/100 \text{ g}$ of whole blood.

(ii) Temporary removal due to a final medical determination.

(A) The employer shall remove an employee from work having an exposure to lead at or above the action level on each occasion that a final medical determination results in a medical finding, determination, or opinion that the employee has a detected medical condition which places the employee at increased risk of material impairment to health from exposure to lead.

(B) For the purposes of this section, the phrase "final medical determination" shall mean the outcome of the multiple physician review mechanism or alternate medical determination mechanism used pursuant to the medical surveillance provisions of this section.

(C) Where a final medical determination results in any recommended special protective measures for an employee, or limitations on an employee's exposure to lead, the employer shall implement and act consistent with the recommendation.

(iii) Return of the employee to former job status. (A) The employer shall return an employee to his or her former job status:

(aa) For an employee removed due to a blood lead level at or above $80 \mu\text{g}/100 \text{ g}$, when two consecutive blood sampling tests indicate that the employee's blood lead level is at or below $60 \mu\text{g}/100 \text{ g}$ of whole blood;

(bb) For an employee removed due to a blood lead level at or above $70 \mu\text{g}/100 \text{ g}$, when two consecutive blood sampling tests indicate that the employee's blood lead level is at or below $50 \mu\text{g}/100 \text{ g}$ of whole blood;

(cc) For an employee removed due to a blood lead level at or above $60 \mu\text{g}/100 \text{ g}$, or due to an average blood lead level at or above $50 \mu\text{g}/100 \text{ g}$, when two consecutive blood sampling tests indicate that the employee's blood lead level is at or below $40 \mu\text{g}/100 \text{ g}$ of whole blood;

(dd) For an employee removed due to a final medical determination, when a subsequent final medical determination results in a medical finding, determination, or opinion that the employee no longer has a detected medical condition which places the employee at increased risk of material impairment to health from exposure to lead.

(B) For the purposes of this section, the requirement that an employer return an employee to his or her former job status is not intended to expand upon or restrict any rights an employee has or would have had, absent temporary medical removal, to a specific job

classification or position under the terms of a collective bargaining agreement.

(iv) Removal of other employee special protective measure or limitations. The employer shall remove any limitations placed on an employee or end any special protective measures provided to an employee pursuant to a final medical determination when a subsequent final medical determination indicates that the limitations or special protective measures are no longer necessary.

(v) Employer options pending a final medical determination. Where the multiple physician review mechanism, or alternate medical determination mechanism used pursuant to the medical surveillance provisions of this section, has not yet resulted in a final medical determination with respect to an employee, the employer shall act as follows:

(A) Removal. The employer may remove the employee from exposure to lead, provide special protective measures to the employee, or place limitations upon the employee, consistent with the medical findings, determinations, or recommendations of any of the physicians who have reviewed the employee's health status.

(B) Return. The employer may return the employee to his or her former job status, end any special protective measures provided to the employee, and remove any limitations placed upon the employee, consistent with the medical findings, determinations, or recommendations of any of the physicians who have reviewed the employee's health status, with two exceptions. If:

(aa) The initial removal, special protection, or limitation of the employee resulted from a final medical determination which differed from the findings, determinations, or recommendations of the initial physician; or

(bb) The employee has been on removal status for the preceding 18 months due to an elevated blood lead level, then the employer shall await a final medical determination.

(b) Medical removal protection benefits. (i) Provision of medical removal protection benefits. The employer shall provide to an employee up to 18 months of medical removal protection benefits on each occasion that an employee is removed from exposure to lead or otherwise limited pursuant to this section.

(ii) Definition of medical removal protection benefits. For the purposes of this section, the requirement that an employer provide medical removal protection benefits means that the employer shall maintain the earnings, seniority and other employment rights and benefits of an employee as though the employee had not been removed from normal exposure to lead or otherwise limited.

(iii) Follow-up medical surveillance during the period of employee removal or limitation. During the period of time that an employee is removed from normal exposure to lead or otherwise limited, the employer may condition the provision of medical removal protection benefits upon the employee's participation in follow-up medical surveillance made available pursuant to this section.

(iv) Workers' compensation claims. If a removed employee files a claim for workers' compensation payments for a lead-related disability, then the employer shall continue to provide medical removal protection benefits

pending disposition of the claim. To the extent that an award is made to the employee for earnings lost during the period of removal, the employer's medical removal protection obligation shall be reduced by such amount. The employer shall receive no credit for workers' compensation payments received by the employee for treatment related expenses.

(v) Other credits. The employer's obligation to provide medical removal protection benefits to a removed employee shall be reduced to the extent that the employee receives compensation for earnings lost during the period of removal either from a publicly or employer-funded compensation program, or receives income from employment with another employer made possible by virtue of the employee's removal.

(vi) Employees whose blood lead levels do not adequately decline within 18 months of removal. The employer shall take the following measures with respect to any employee removed from exposure to lead due to an elevated blood lead level whose blood lead level has not declined within the past 18 months of removal so that the employee has been returned to his or her former job status:

(A) The employer shall make available to the employee a medical examination pursuant to this section to obtain a final medical determination with respect to the employee;

(B) The employer shall assure that the final medical determination obtained indicates whether or not the employee may be returned to his or her former job status, and if not, what steps should be taken to protect the employee's health;

(C) Where the final medical determination has not yet been obtained, or once obtained indicates that the employee may not yet be returned to his or her former job status, the employer shall continue to provide medical removal protection benefits to the employee until either the employee is returned to former job status, or a final medical determination is made that the employee is incapable of ever safely returning to his or her former job status.

(D) Where the employer acts pursuant to a final medical determination which permits the return of the employee to his or her former job status despite what would otherwise be an unacceptable blood lead level, later questions concerning removing the employee again shall be decided by a final medical determination. The employer need not automatically remove such an employee pursuant to the blood lead level removal criteria provided by this section.

(vii) Voluntary removal or restriction of an employee. Where an employer, although not required by this section to do so, removes an employee from exposure to lead or otherwise places limitations on an employee due to the effects of lead exposure on the employee's medical condition, the employer shall provide medical removal protection benefits to the employee equal to that required by item (11)(b)(i) of this section.

(12) Employee Information and Training. (a) Training program.

(i) Each employer who has a workplace in which there is a potential exposure to airborne lead at any level shall

inform employees of the content of Appendices A and B of this regulation.

(ii) The employer shall institute a training program for and assure the participation of all employees who are subject to exposure to lead at or above the action level or for whom the possibility of skin or eye irritation exists.

(iii) The employer shall provide initial training by 180 days from the effective date for those employees covered by item (12)(a)(ii) on the standard's effective date and prior to the time of initial job assignment for those employees subsequently covered by this subsection.

(iv) The training program shall be repeated at least annually for each employee.

(v) The employer shall assure that each employee is informed of the following:

(A) The content of this standard and its appendices;
(B) The specific nature of the operations which could result in exposure to lead above the action level;

(C) The purpose, proper selection, fitting, use, and limitations of respirators;

(D) The purpose and a description of the medical surveillance program, and the medical removal protection program including information concerning the adverse health effects associated with excessive exposure to lead (with particular attention to the adverse reproductive effects on both males and females);

(E) The engineering controls and work practices associated with the employee's job assignment;

(F) The contents of any compliance plan in effect; and

(G) Instructions to employees that chelating agents should not routinely be used to remove lead from their bodies and should not be used at all except under the direction of a licensed physician.

(b) Access to information and training materials. (i) The employer shall make readily available to all affected employees a copy of this standard and its appendices.

(ii) The employer shall provide, upon request, all materials relating to the employee information and training program to the director.

(iii) In addition to the information required by item (12)(a)(v), the employer shall include as part of the training program, and shall distribute to employees, any materials pertaining to the Occupational Safety and Health Act, the regulations issued pursuant to that Act, and this lead standard, which are made available to the employer by the director.

(13) Signs. (a) General. (i) The employer may use signs required by other statutes, regulations or ordinances in addition to, or in combination with, signs required by this subsection.

(ii) The employer shall assure that no statement appears on or near any sign, required by this subsection which contradicts or detracts from the meaning of the required sign.

(b) Signs. (i) The employer shall post the following warning signs in each work area where the PEL is exceeded:

**WARNING
LEAD WORK AREA

(ii) The employer shall assure that signs required by this subsection are illuminated and cleaned as necessary so that the legend is readily visible.

(14) Recordkeeping. (a) Exposure monitoring. (i) The employer shall establish and maintain an accurate record of all monitoring required in subsection (4) of this section.

(ii) This record shall include:

(A) The date(s), number, duration, location and results of each of the samples taken, including a description of the sampling procedure used to determine representative employee exposure where applicable;

(B) A description of the sampling and analytical methods used and evidence of their accuracy;

(C) The type of respiratory protective devices worn, if any;

(D) Name, social security number, and job classification of the employee monitored and of all other employees whose exposure the measurement is intended to represent; and

(E) The environmental variables that could affect the measurement of employee exposure.

(iii) The employer shall maintain these monitoring records for at least 40 years or for the duration of employment plus 20 years, whichever is longer.

(b) Medical surveillance. (i) The employer shall establish and maintain an accurate record for each employee subject to medical surveillance as required by subsection (10) of this section.

(ii) This record shall include:

(A) The name, social security number, and description of the duties of the employee;

(B) A copy of the physician's written opinions;

(C) Results of any airborne exposure monitoring done for that employee and the representative exposure levels supplied to the physician; and

(D) Any employee medical complaints related to exposure to lead.

(iii) The employer shall keep, or assure that the examining physician keeps, the following medical records:

(A) A copy of the medical examination results including medical and work history required under subsection (10) of this section;

(B) A description of the laboratory procedures and a copy of any standards or guidelines used to interpret the test results or references to that information; and

(C) A copy of the results of biological monitoring.

(iv) The employer shall maintain or assure that the physician maintains those medical records for at least 40 years, or for the duration of employment plus 20 years, whichever is longer.

(c) Medical removals. (i) The employer shall establish and maintain an accurate record for each employee removed from current exposure to lead pursuant to subsection (11) of this section.

(A) The name and social security number of the employee;

(B) The date on each occasion that the employee was removed from current exposure to lead as well as the corresponding date on which the employee was returned to his or her former job status;

(C) A brief explanation of how each removal was or is being accomplished; and

(D) A statement with respect to each removal indicating whether or not the reason for the removal was an elevated blood lead level.

(iii) The employer shall maintain each medical removal record for at least the duration of an employee's employment.

(d) Availability. (i) The employer shall make available upon request all records required to be maintained by subsection (14) of this section to the director for examination and copying.

(ii) Upon request, the employer shall make environmental monitoring, biological monitoring, and medical removal records available to affected employees, former employees or their authorized employee representatives for inspection and copying.

(iii) Upon request, the employer shall make an employee's medical records required to be maintained by this section available to the affected employee or former employee or to a physician or other individual designated by such affected employee or former employees for examination and copying.

(e) Transfer of records. (i) Whenever the employer ceases to do business, the successor employer shall receive and retain all records required to be maintained by subsection (14) of this section.

(ii) Whenever the employer ceases to do business and there is no successor employer to receive and retain the records required to be maintained by this section for the prescribed period, these records shall be transmitted to the director.

(iii) At the expiration of the retention period for the records required to be maintained by this section, the employer shall notify the director at least three months prior to the disposal of such records and shall transmit those records to the director if requested within the period.

(15) Observation of Monitoring. (a) Employee observation. The employer shall provide affected employees or their designated representatives an opportunity to observe any monitoring of employee exposure to lead conducted pursuant to subsection (4) of this section.

(b) Observation procedures. (i) Whenever observation of the monitoring of employee exposure to lead requires entry into an area where the use of respirators, protective clothing or equipment is required, the employer shall provide the observer with and assure the use of such respirators, clothing and such equipment, and shall require the observer to comply with all other applicable safety and health procedures.

(ii) Without interfering with the monitoring, observers shall be entitled to:

(A) Receive an explanation of the measurement procedures;

(B) Observe all steps related to the monitoring of lead performed at the place of exposure; and

(C) Record the results obtained or receive copies of the results when returned by the laboratory.

I, Gordon Sandison, director of State Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, Gordon Sandison, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is chum salmon have cleared Areas 4B, 5 and 6C. Analysis of test fishing results in the Sekiu River indicates that steelhead management needs should prevail.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure

Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED December 10, 1979.

EMERGENCY RULES
DEPARTMENT OF
LABOR AND INDUSTRIES
 [Order 79-20—Filed December 11, 1979]

I, James T. Hughes, director of Labor and Industries, do promulgate and adopt at the Director's office, Olympia, Washington, the annexed rules relating to Benzene, identical to OSHA—29 CFR 1910.1028, Benzene, repealing WAC 296-62-07335.

I, James T. Hughes, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is 29 CFR 1910.1028 Benzene, the new federal standard has been vacated. The standard was struck down by the appeals court and OSHA has reverted to their original Benzene standard 29 CFR 1910.1000. The state must enforce a standard on benzene at least as effective as 29 CFR 1910.1000, Table Z-2. EMERGENCY RULES

DEPARTMENT OF GAME

[Order 85—Filed December 11, 1979]

Be it resolved by the undersigned, Ralph W. Larson, Director, Washington State Department of Game, that I promulgate and adopt at Olympia, Washington, as emergency rule of this governing body, the annexed rule relating to closure of certain marine waters to the taking of steelhead trout with gill nets and purse seines, new section WAC 232-32-115.

I, Ralph W. Larson, find an emergency exists and that the foregoing order adopting emergency rule, WAC 232-32-115 is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action and that observance of the requirements for adoption of permanent rules which are effective only upon expiration of 30 days after the date of filing is contrary to public interest as the statement of facts constituting such emergency reveals. A statement of facts constituting such emergency is:

Interception of steelhead trout by gill net and purse seine fisheries in marine mixed stock areas should not be allowed because:

(a) the numbers, location and timing of each steelhead stock in such marine areas is unknown;

(b) the Department of Game is unable to assign fish caught in these marine areas to rivers of origin which thereby creates uncertainty in determining safe and allowable harvests in terminal areas open to fisheries and could cause an over-harvest of certain stocks later in the season;

(c) steelhead stocks which are protected and not open to any fisheries, for research or conservation purposes,

are likely to be present in mixed stock areas and must not be harvested in those areas;

(d) gill nets and purse seines have the potential of harvesting steelhead in substantial numbers; and

(e) steelhead, unlike most salmon, are still in prime condition upon entering freshwater and should be harvested only in terminal marine and freshwater areas; therefore, an immediate closure of certain marine areas in which mixed stocks are found is necessary to insure the protection of steelhead stocks returning to rivers of origin. Some streams for which there should be no harvest of steelhead are: Snow and Salmon creeks (strait of Juan de Fuca), Tarboo Creek (Hood Canal), Chambers Creek (Central Puget Sound), and Woodland Creek (Southern Puget Sound).

Such rule is therefore adopted as an emergency.

This rule is promulgated under the authority of the Director of Game as authorized in RCW 77.12.150 with the approval of the Game Commission as provided in that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), or the Administrative Procedures Act (chapter 34.14), as appropriate, and the State Register Act (chapter 34.08 RCW).

This order, after being first recorded in the Order Register of this governing body, shall be forwarded to the Code Reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

APPROVED AND ADOPTED December 11, 1979.

All payments collected as support ~~((received))~~ on behalf of persons receiving public assistance in the state of Washington for whom an assignment is made under WAC 388-24-108 and WAC 388-14-200 shall be distributed under the following conditions:

(1) The following provisions apply to this section:

(a) All payments will be reported in exact amounts without rounding.

(b) The date of collection shall be the date on which the payment is received by the office of support enforcement or the political subdivision making the collection under agreement and on behalf of the office of support enforcement. For interstate collections, the date of collection shall be the date on which the payment is received by the IV-D agency of the state in which the family is receiving aid.

(c) The amounts collected as support during periods of time when aid is being provided, shall, for the purposes of this distribution section only, be treated first as payment on the required support obligation for the month in which support was collected.

(d) ~~((The current month's support obligation is defined as the amount of a superior court order for support or the future periodic support amount determined pursuant to chapter 388-11 WAC.~~

The office of support enforcement is directed to distribute payments periodically to give effect to efficient administration.

~~((f))~~ (e) Any amounts distributed to the family will be reported to the ~~((local office))~~ community service office identifying whether or not the payment is ((exempt or nonexempt)) available to meet the need. This requirement shall not relieve the recipient of the duty to report receipt of any support moneys.

~~((g))~~ (f) Any amounts collected which represent support shall be used to reduce dollar for dollar the amount of the support obligation as defined in WAC 388-14-100.

~~((h))~~ (g) No distribution may be made under subdivision (2)(a) unless a new assignment has been made pursuant to WAC 388-24-108 and WAC 388-14-200.

(2) The amounts collected as support by the IV-D agency pursuant to the state plan for children who are current recipients of aid under the state's Title IV-A plan by the office of support enforcement and for whom ~~((as))~~ assignment under WAC 388-24-108 and 388-14-200 is effective shall be distributed as follows:

~~(a) ((Of any amount that is collected in a month which represents payment of the required support obligation for that month, 40 percent of the first \$50 of such amount shall be paid to the family. This payment may not be used in determining the amount paid, if any, to the family in subdivision (2)(c). If the amount collected includes payment of the required support obligation for a previous month or months, the family shall only receive 40 percent of the first \$50 of the amount which represents the required support obligation for the month in which support was collected. If amounts are collected for one family which represents support payments from two or more absent parents, only 40 percent of the first \$50 of the amount collected which represents the total required support obligation for the month in which the support was collected shall be paid to the family under this subdivision. No payment shall be made to a family under this subdivision for a month in which there is no child support collection. The requirements of this subdivision shall not be applicable after September 30, 1976.~~

~~(b)) Any amount that is collected in a month which represents payment on the required support obligation for that month ((and, prior to October 1, 1976, is in excess of the amount paid to the family under subdivision (2)(a))) shall be retained by the state to reimburse, in whole or in part, the assistance payment for the month in which the child support was collected or the next month. Of the amount retained by the state as reimbursement for that month's assistance payment, the office of support enforcement shall determine the federal government's share of the amount so retained so the IV-A agency may reimburse the federal government to the extent of its participation in the financing of the assistance payment. From the federal government's share, the office of support enforcement shall deduct and pay the incentive payments, if any, prescribed in WAC 388-14-370.~~

~~((c)) (b) If the amount collected is in excess of the amount required to be distributed under ((subdivisions)) subdivision (2)(a) ((and (2)(b))), the family shall be paid such excess up to the difference between the assistance payment for the month in which the amount of the collection was used to redetermine eligibility for an assistance payment under the state's Title IV-A plan and the court ordered amount for that month. This payment shall be made in the month following the month in which the amount of the collection was used to redetermine eligibility for an assistance payment under the state's Title IV-A plan. If such court ordered amount is less than such assistance payment, no amount shall be paid to the family under this subdivision. In cases in which there is no court order, the family shall not be paid any amount under this subdivision.~~

~~((d)) (c) If the amount collected is in excess of the amounts required to be distributed under subdivisions (2)(a)((;)) and (2)(b), ((and (2)(c;)), any such excess shall be retained by the state as reimbursement for past assistance payments made to the family for which the state has not been reimbursed. The state may apply the amount retained to any sequence of months for which it has not yet been reimbursed. Of the amount retained by the state as reimbursement of past assistance payments,~~

~~the office of support enforcement shall determine the federal government's share of the amount so retained so the IV-A agency may reimburse the federal government to the extent of its participation in the financing of the assistance payments. From the federal government's share, the office of support enforcement shall deduct and pay the incentive payment, if any, prescribed in WAC 388-14-370. If past assistance payments are greater than the total support obligation owed, the maximum amount the state may retain as reimbursement for such assistance payments is the amount of such obligation, unless amounts are collected which represent the required support obligation for periods prior to the first month in which the family received assistance under the state's Title IV-A plan, in which case such amounts shall be retained by the state to reimburse the difference between such support obligation and such assistance payments.~~

~~((e)) (d) If the amount collected is in excess of the amounts required to be distributed under subdivisions (2)(a), (2)(b)((;)) and (2)(c), ((and (2)(d;)), such excess shall be paid to the family. This payment shall be made in the month following the month in which the amount of the collection was used to redetermine eligibility for an assistance payment under the state's Title IV-A plan.~~

~~(3) If an amount collected as child support represents payment on the required support obligation for future months, the amount shall be applied to such future months. However, no such amounts shall be applied to future months unless amounts have been collected which fully satisfy the support obligation assigned under WAC 388-24-108 and WAC 388-14-200 for the current month and all past months.~~

~~(4) Any amount paid under subdivisions ((2)(a); (2)(c) or (2)(e)) (2)(b) and (2)(d) shall be identified as not being an assistance payment.~~

~~(5) Whenever the office of support enforcement is making collections on delinquent support assigned to the department pursuant to WAC 388-24-108 and 388-14-200, the office of support enforcement may pay to the family pursuant to WAC 388-14-250 from said collections an amount equal to the monthly amount owed for current support as established by either the superior court order for support or the administrative order or final determination entered pursuant to chapter 388-11 WAC:~~

~~(a) Payments to the family pursuant to this subsection may be made only during the four months following the last month in which aid was paid and thereafter for months subsequent to the submission and acceptance of a nonassistance support enforcement application pursuant to WAC 388-14-300 through 388-14-315;~~

~~(b) Payments may not be made for months in which no collections have been made on the delinquent support assigned and payments may not be made for a person from collections on the delinquent support assigned by a different person;~~

~~(c) Payments may only be made to a person if the person is owed an unpaid current support obligation for the month in which the payment is made;~~

(d) The department has, upon making any such payment, an additional assignment by operation of law of the unpaid current support obligation owed to the person for whom the payment is made for the month in which the payment is made. The hearing examiner shall, on request of the office of support enforcement, also condition the stay on execution by the responsible parent and spouse, if any, of an assignment of earnings. The stay shall not require release of liens already filed and shall also provide for the filing of additional liens pursuant to RCW 74.20A.060 to prevent transfer of any real or personal property subject to said liens during the pendency of this hearing. If conditions of the stay are not met, the office of support enforcement may immediately resume collection action pursuant to chapter 74.20A RCW with notice to the responsible parent and the hearing examiner or secretary or his designee as appropriate. Undisbursed moneys withheld by collection action taken prior to the date of issuance of the stay or by collection action taken pursuant to the terms of the stay shall be held in trust by the office of support enforcement, pending final order of the department or any appeal to the courts made pursuant to chapter 34.04 RCW, to be distributed in accordance with said final order. Temporary current and future support shall be disbursed to the custodial parent or as otherwise appropriate when received by the office of support enforcement.~~

~~The conditions under which a stay has been granted as stated above shall continue in effect as jurisdictional requirements during the pendency of the hearing and during the pendency of any appeal made to the courts pursuant to chapter 34.04 RCW unless the court in its discretion makes other provision as to these matters.~~

~~In the absence of a petition for a stay by the responsible parent, the office of support enforcement may also petition the hearing examiner to set temporary, current and future support which shall be governed by the same rules which apply to the petition for a stay by the responsible parent:)) (2) The granting of a request for a hearing under (1) above shall operate as a stay on any collection action to collect moneys due under the original notice.~~

~~(3) On petition of the responsible parent or office of support enforcement, a hearing may be scheduled to consider:~~

~~(a) Whether good cause exists to grant a hearing;~~

~~(b) Setting of temporary current and future support;~~

~~(c) Settlement of any or all of the issues;~~

~~(d) Such other matters as may aid in disposition of the proceeding; and~~

~~(e) If agreed to by the parties to hear the merits of the responsible parent's objections to the notice and finding of financial responsibility.~~

~~Notice of this hearing shall be mailed to the parties by certified mail, not less than ten days prior to the scheduled date of the hearing. The petition for setting temporary current and future support may be brought at any time prior to the final decision. The hearing examiner shall, in writing, order payment of temporary, current and future support in an amount determined pursuant to the scale of minimum contributions in WAC 388-11-190 unless such payment is contrary to law. Payment shall be ordered to be paid beginning with the month in which the petition for an untimely hearing is granted.~~

~~(4) In the event the responsible parent does not make payment of the temporary current and future support as ordered, the office of support enforcement may take collection action pursuant to chapter 74.20A RCW during the pendency of the hearing or thereafter to collect any amounts owing under the temporary order.~~

~~(5) Moneys withheld as a result of collection action in effect at the time of granting of the request for the hearing shall be delivered to the office of support enforcement and shall be held in trust by the office of support enforcement pending the final order of the secretary or during the pendency of any appeal to the courts. Temporary current and future support paid, or collected during the pendency of the hearing or appeal shall be disbursed when received by the office of support enforcement.~~

~~(6) If the final decision of the department or the courts on appeal is that the department has collected an amount from the responsible parent greater than such parents past support debt, other than temporary current and future support, such excess shall promptly be refunded to such parent.~~

Said order to appear and show cause together with a copy of the affidavit upon which the order is based shall be served in the manner of a

summons in a civil action on the other party by the petitioning party. A hearing, which shall be a contested case, shall be set not less than fifteen days nor more than thirty days from the date of service unless extended for good cause shown. The petition must be accompanied by a supporting affidavit setting forth the particular facts relied upon. On receipt of the petition and affidavit, the secretary or the secretary's designee shall issue to the petitioner the show cause order setting forth the time, date, and place of the show cause hearing.

The hearing examiner may set the effective date of prospective modification as either the date of entry of the order or the date of receipt of the petition or any time in between, but if no effective date is set, the effective date shall be the date of the entry of the order. AMENDATORY SECTION (Amending Order 1054, filed 9/25/75)

WAC 388-14-270 DISTRIBUTION OF SUPPORT PAYMENTS—PUBLIC ASSISTANCE. All payments collected as support ~~((received))~~ on behalf of persons receiving public assistance in the state of Washington for whom an assignment is made under WAC 388-24-108 and WAC 388-14-200 shall be distributed under the following conditions:

(1) The following provisions apply to this section:

(a) All payments will be reported in exact amounts without rounding.

(b) The date of collection shall be the date on which the payment is received by the office of support enforcement or the political subdivision making the collection under agreement and on behalf of the office of support enforcement. For interstate collections, the date of collection shall be the date on which the payment is received by the IV-D agency of the state in which the family is receiving aid.

(c) The amounts collected as support during periods of time when aid is being provided, shall, for the purposes of this distribution section only, be treated first as payment on the required support obligation for the month in which support was collected.

(d) ~~((The current month's support obligation is defined as the amount of a superior court order for support or the future periodic support amount determined pursuant to chapter 388-11 WAC.~~

~~((e)))~~ Amounts collected which are paid ((in frequencies other than monthly)) more frequently than once a month shall be converted to an amount which represents payment on the required support obligation for the current month. The office of support enforcement is directed to distribute payments periodically to give effect to efficient administration.

~~((f)))~~ (e) Any amounts distributed to the family will be reported to the ~~((local office))~~ community service office identifying whether or not the payment is ~~((exempt or nonexempt))~~ available to meet the need. This requirement shall not relieve the recipient of the duty to report receipt of any support moneys.

~~((g)))~~ (f) Any amounts collected which represent support shall be used to reduce dollar for dollar the amount of the support obligation as defined in WAC 388-14-100.

~~((h)))~~ (g) No distribution may be made under subdivision (2)(a) unless a new assignment has been made pursuant to WAC 388-24-108 and WAC 388-14-200.

(2) The amounts collected as support by the IV-D agency pursuant to the state plan for children who are current recipients of aid under the state's Title IV-A plan by the office of support enforcement and for whom ~~((as))~~ assignment under WAC 388-24-108 and 388-14-200 is effective shall be distributed as follows:

(a) ~~((Of any amount that is collected in a month which represents payment of the required support obligation for that month, 40 percent of the first \$50 of such amount shall be paid to the family. This payment may not be used in determining the amount paid, if any, to the family in subdivision (2)(c). If the amount collected includes payment of the required support obligation for a previous month or months, the family shall only receive 40 percent of the first \$50 of the amount which represents the required support obligation for the month in which support was collected. If amounts are collected for one family which represents support payments from two or more absent parents, only 40 percent of the first \$50 of the amount collected which represents the total required support obligation for the month in which the support was collected shall be paid to the family under this subdivision. No payment shall be made to a family under this subdivision for a month in which there is no child support collection. The requirements of this subdivision shall not be applicable after September 30, 1976.~~

~~((b)))~~ Any amount that is collected in a month which represents payment on the required support obligation for that month ~~((and, prior to October 1, 1976, is in excess of the amount paid to the family under subdivision (2)(a)))~~ shall be retained by the state to reimburse, in whole or in part, the assistance payment for the month in which the child support was collected or the next month. Of the amount retained by the state as reimbursement for that month's assistance payment, the office of support enforcement shall determine the federal government's share of the amount so retained so the IV-A agency may reimburse the federal government to the extent of its participation in the financing of the assistance payment. From the federal government's share, the office of support enforcement shall deduct and pay the

incentive payments, if any, prescribed in WAC 388-14-370.

~~((c))~~ (b) If the amount collected is in excess of the amount required to be distributed under ~~((subdivisions))~~ subdivision (2)(a) ~~((and (2)(b)))~~, the family shall be paid such excess up to the difference between the assistance payment for the month in which the amount of the collection was used to redetermine eligibility for an assistance payment under the state's Title IV-A plan and the court ordered amount for that month. This payment shall be made in the month following the month in which the amount of the collection was used to redetermine eligibility for an assistance payment under the state's Title IV-A plan. If such court ordered amount is less than such assistance payment, no amount shall be paid to the family under this subdivision. In cases in which there is no court order, the family shall not be paid any amount under this subdivision.

~~((d))~~ (c) If the amount collected is in excess of the amounts required to be distributed under subdivisions (2)(a) ~~((:))~~ and (2)(b), ~~((and (2)(c:)))~~ any such excess shall be retained by the state as reimbursement for past assistance payments made to the family for which the state has not been reimbursed. The state may apply the amount retained to any sequence of months for which it has not yet been reimbursed. Of the amount retained by the state as reimbursement of past assistance payments, the office of support enforcement shall determine the federal government's share of the amount so retained so the IV-A agency may reimburse the federal government to the extent of its participation in the financing of the assistance payments. From the federal government's share, the office of support enforcement shall deduct and pay the incentive payment, if any, prescribed in WAC 388-14-370. If past assistance payments are greater than the total support obligation owed, the maximum amount the state may retain as reimbursement for such assistance payments is the amount of such obligation, unless amounts are collected which represent the required support obligation for periods prior to the first month in which the family received assistance under the state's Title IV-A plan, in which case such amounts shall be retained by the state to reimburse the difference between such support obligation and such assistance payments.

~~((e))~~ (d) If the amount collected is in excess of the amounts required to be distributed under subdivisions (2)(a), (2)(b) ~~((:))~~ and (2)(c), ~~((and (2)(d:)))~~ such excess shall be paid to the family. This payment shall be made in the month following the month in which the amount of the collection was used to redetermine eligibility for an assistance payment under the state's Title IV-A plan.

(3) If an amount collected as child support represents payment on the required support obligation for future months, the amount shall be applied to such future months. However, no such amounts shall be applied to future months unless amounts have been collected which fully satisfy the support obligation assigned under WAC 388-24-108 and WAC 388-14-200 for the current month and all past months.

(4) Any amount paid under subdivisions ~~((2)(a); (2)(c) or (2)(e)))~~ (2)(b) and (2)(d) shall be identified as not being an assistance payment.

(5) Whenever the office of support enforcement is making collections on delinquent support assigned to the department pursuant to WAC 388-24-108 and 388-14-200, the office of support enforcement may pay to the family pursuant to WAC 388-14-250 from said collections an amount equal to the monthly amount owed for current support as established by either the superior court order for support or the administrative order or final determination entered pursuant to chapter 388-11 WAC:

(a) Payments to the family pursuant to this subsection may be made only during the four months following the last month in which aid was paid and thereafter for months subsequent to the submission and acceptance of a nonassistance support enforcement application pursuant to WAC 388-14-300 through 388-14-315;

(b) Payments may not be made for months in which no collections have been made on the delinquent support assigned and payments may not be made for a person from collections on the delinquent support assigned by a different person;

(c) Payments may only be made to a person if the person is owed an unpaid current support obligation for the month in which the payment is made;

(d) The department has, upon making any such payment, an additional assignment by operation of law of the unpaid current support obligation owed to the person for whom the payment is made for the month in which the payment is made. The office of support enforcement shall take action to collect this assigned unpaid obligation to reimburse the department and/or the federal government for the payment made.

NEW SECTION

WAC 132C-120-010 EVALUATION. The instructor in the classroom and in conferences shall encourage free discussion, inquiry and expression. Student performance shall be evaluated solely on an academic basis, not on opinions of conduct in matters unrelated to academic standards.

NEW SECTION

WAC 132C-120-015 PROTECTION OF FREEDOM OF EXPRESSION. Students shall be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

NEW SECTION

WAC 132C-120-020 PROTECTION AGAINST IMPROPER ACADEMIC EVALUATION. Students shall have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

NEW SECTION

WAC 132C-120-025 PROTECTION AGAINST IMPROPER DISCLOSURE. Information about student views, beliefs and political associations which faculty and staff acquire in the course of their work as instructors, advisers and counselors shall be considered confidential. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge of consent of the student.

NEW SECTION

WAC 132C-120-030 FREEDOM OF ASSOCIATION. Students bring to the campus a variety of interests previously acquired and develop many new interests as members of the academic community. They shall be free to organize and join associations to promote their common interests.

(1) Affiliation with an extramural organization shall not of itself disqualify a student organization from institutional recognition.

(2) Each organization shall have a campus advisor chosen by the membership of the organization with the approval of the Director of Student Programs and Activities. Campus advisors may advise organizations in the area of responsibility, but they shall not have the authority to control the policy of such organizations.

(3) In order to be officially recognized, a student organization must maintain a club charter with the Associated Students of Olympic College.

(d) Campus organizations, including those affiliated with an extramural organization, shall be open to all students without respect to race, religion or national origin.

NEW SECTION

WAC 132C-120-035 FREEDOM OF INQUIRY AND EXPRESSION. Students and student organizations shall be free to examine and to discuss all questions of interest to them and to express opinions publicly and privately. They shall always be free to support causes by orderly means which do not disrupt the regular and essential operation of the institution. At the same time it should be made clear to the academic and the larger community that in their public expressions or demonstrations, students or student organizations speak only for themselves.

Recognized student groups shall be allowed to invite and to hear any person of their own choosing, subject only to procedural rules relating to non-college speakers.

These rules are designed to insure that there is orderly scheduling of facilities and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. The

institutional control of campus facilities shall not be used as a device for censorship. It shall be made clear to the academic and larger community that sponsorship of guest speakers does not necessarily imply approval or endorsement of the views expressed either by the sponsoring group or the institution.

NEW SECTION

WAC 132C-120-040 STUDENT PARTICIPATION IN INSTITUTIONAL GOVERNMENT. As constituent of the academic community, students are free, individually and collectively, to express their views on issues of institutional policy and on matters of general interest to the student body. The student body shall have clearly defined means to participate in the formation and application of institutional policy affecting academic and student activities.

NEW SECTION

WAC 132C-120-045 STUDENT PUBLICATIONS. Student publications and the student press are a valuable aid in establishing and maintaining an atmosphere of free and responsible discussion and of intellectual exploration on the campus. They are a means of bringing student concerns to the attention of the faculty and the institutional authorities and of formulating student opinion on various issues on the campus and in the world at large. Financial and legal autonomy is not possible, therefore, Olympic College, as the publisher of student publications may have to bear the legal responsibility for the contents of the publications. In the delegation of editorial responsibility to students, the institution must provide sufficient editorial freedom and financial autonomy for the student publications to maintain their integrity of purpose as vehicles for free inquiry and free expression in an academic community. At the same time the editorial freedom of student editors and managers entails corollary responsibilities to be governed by the canons of responsibilities such as the avoidance of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo. As safeguards for the editorial freedom of student publications, the following provisions are necessary.

(1) The student press should be free of censorship and advance approval of copy, and its editors and managers should be free to develop their own editorial policies and news coverage consistent with Canons of Journalism.

(2) Editors and managers of student publications should be protected from arbitrary suspension and removal because of student, faculty, administration or public disapproval of editorial policy or content. Only for proper and stated causes should editors and managers be subject to removal and then by orderly and prescribed procedures. The agency responsible for the appointment of editors and managers should be the agency responsible for their removal.

(3) It is expected that campus student publications will have a written editorial policy consistent with the above.

NEW SECTION

WAC 132C-120-050 EXERCISE OF RIGHTS OF CITIZENSHIP. Olympic College students are both citizens and members of the academic community. As citizens, students shall enjoy the same freedom of speech, peaceful assembly, and right of petition that other citizens enjoy and, as members of the academic community, they are subject to the obligations which accrue to them by virtue of this membership. Faculty members and administrative officials shall insure that institutional powers are not employed to inhibit such intellectual and personal development of students as is often promoted by their exercise of the rights of citizenship both on and off campus.

NEW SECTION

WAC 132C-120-055 INSTITUTIONAL AUTHORITY AND CIVIL PENALTIES. Activities of students may upon occasion result in violation of law. In such case institutional officials shall be prepared to apprise students of sources of legal counsel and may offer other assistance. Students who violate the law may incur penalties prescribed by civil authorities, but institutional authority shall never be used merely to duplicate the function of general laws. Only where the institution's interests as an academic community are distinct and clearly involved should the special authority of the institution be asserted. The student who incidentally violates institutional regulations in the course of his off-campus activity such as those relating to class attendance, shall

be subject to no greater penalty than would normally be imposed. Institutional action should be independent of community pressure.

NEW SECTION

WAC 132C-120-060 PROCEDURAL STANDARDS IN DISCIPLINARY PROCEEDINGS. In developing responsible student conduct, disciplinary proceedings play a role substantially secondary to example, counseling, guidance and admonition. At the same time Olympic College has a duty and the corollary disciplinary powers to protect its educational purpose through the setting of standards of scholarship and conduct for the students who attend and through the regulation of the use of institutional facilities. In the exceptional circumstances when the preferred means fail to resolve problems of student conduct, prior procedural safeguards shall be observed to protect the student from the unfair imposition of serious penalties.

The administration of discipline shall guarantee procedural fairness to an accused student. Practices in disciplinary cases may vary in formality with the gravity of the offense and the sanctions which may be applied. They shall also take into account the presence or absence of an honor code and the degree to which the institutional officials have direct acquaintance with student life in general and the involved student and the circumstances of the case in particular. The jurisdictions of faculty or student judicial bodies, the disciplinary responsibilities of institutional officials and the regular disciplinary procedures, including the student's rights to appeal a decision shall be clearly formulated and communicated in advance. Minor penalties may be assessed informally under prescribed procedures.

In all situations procedural fair play requires that the student be informed of the nature of the charges against him, that he be given a fair opportunity to refute them, that the situation not be arbitrary in its actions, and that there be provision for appeal of a decision. The following are recommended as proper safeguards in such proceedings when there are no honor codes offering comparable guarantees.

NEW SECTION

WAC 132C-120-065 STANDARDS OF CONDUCT EXPECTED OF STUDENTS. The institution has an obligation to clarify those standards of behavior which it considers essential to its educational mission and its community life. These general behavior expectations and the resultant specific regulations should represent a reasonable regulation of student conduct, but the student shall be as free as possible from imposed limitations that have no direct relevance to his education. Offenses should be as clearly defined as possible and interpreted in a manner consistent with the aforementioned principles of relevancy and reasonableness. Disciplinary proceedings shall be instituted, only for violations of standards of conduct formulated with significant student participation and published in advance through such means as a student handbook as a generally available body of institutional regulations.

NEW SECTION

WAC 132C-070-070 INVESTIGATION OF STUDENT CONDUCT. Premises occupied by students and the personal possessions of students shall not be searched unless appropriate authorization has been obtained. For premises controlled by the institution, an appropriate and responsible authority shall be designated to whom application shall be made before a search is conducted. The application shall specify the reasons for the search and objects or information sought. The student shall be present, if possible, during the search. For premises not controlled by the institution, the ordinary requirements for lawful search shall be followed.

Students charged with violations of institutional regulations shall be informed of their right to due process. No form of harassment shall be used by institutional representatives to coerce admissions of guilt or information about conduct of other suspected persons.

Reviser's Note: The above new section was filed by the agency as WAC 132C-070-070. This section is placed among sections forming new chapter 132C-120 WAC, and therefore should be numbered WAC 132C-120-070. Pursuant to RCW 34.08.040, the section is published in the same form as filed by the agency.

NEW SECTION

WAC 132C-120-075 STATUS OF STUDENT PENDING FINANCIAL ACTION. Pending action on the charges, the status of a student

shall not be altered, or his right to be present on the campus and to attend classes suspended, except for reasons relating to his physical or emotional safety and well-being, or for reasons relating to safety and well-being of students, faculty or college property in accordance with Summary Suspension Rules.

NEW SECTION

WAC 132C-120-080 PURPOSE OF ADOPTION OF STUDENT CONDUCT CODE. Olympic College is maintained by the State of Washington for the accomplishment of certain special purposes, namely, the provision of programs of instruction in higher education, the provision of vocational-technical occupation education, the advancement of knowledge through scholarship and research, and the provision of related community services and adult education. Just as any other social institution has its own special purposes, a college must maintain conditions conducive to the effective performance of its functions. Consequently, the college has special expectations regarding the conduct of the various participants in the academic community. Student conduct which distracts from or interferes with accomplishment of college purposes is not acceptable.

Admission to the college carries with it the presumption that the student will conduct himself as a responsible member of the academic community. This includes an expectation that the student will obey the law, will comply with rules and regulations of the college, will maintain a high standard of integrity and honesty and will respect the rights, privileges and property of other members of the college community.

It is assumed that the student is, and wishes to be treated as, an adult. As such, he will accept responsibility for his own conduct. In order to accomplish educational purposes of the college and also to provide students a full understanding of the rules that will enable the college to maintain conditions conducive to the effective performance of the college's functions, the following rules regarding the conduct of students are hereby adopted. Sanctions for violations of the rules of student conduct herein adopted will be administered by the college in the manner provided by said rules. When violations of laws of the State of Washington and/or the United States are also involved, the College may refer such matters to proper civil authorities. In case of minors, this conduct may be referred to parents or legal guardians.

NEW SECTION

WAC 132C-120-100 COMMERCIAL ACTIVITIES. College facilities will not be used for commercial solicitation, advertising or promotional activities except when such activities clearly serve Olympic College educational objectives, including but not limited to, display of books of interest to the academic community or the display or demonstration of technical or research equipment, and when such commercial activities relate to educational objectives and are conducted under the sponsorship of, at the request of a college division or the office of student activities of the college, provided that such solicitation does not interfere with or operate to the detriment of the conduct of college affairs or the free flow of pedestrian or vehicular traffic.

NEW SECTION

WAC 132C-120-105 NON-COLLEGE SPEAKERS. The Trustees, the administration, and the faculty of Olympic College subscribe to the proposition that an important aspect of the education of college students is the opportunity to listen to speakers representing a wide variety of opinions and beliefs on important public issues. Because of the confidence reposed in Olympic College students' capacity to listen critically and to judge intelligently the statements made by advocates of varying ideologies, beliefs, and theories, and in conformity with American traditions of free speech and free inquiry, the following policies are established governing the appearance on campus of speakers not themselves members of the college community.

Any recognized student organization may invite to the campus any speaker a group wishes to hear, providing suitable space is available and there is no interference with the regular scheduled program of the college and officially sanctioned procedure is followed. It is understood that the appearance of such speakers on the campus implies neither approval nor disapproval of them or their viewpoints by this college, its faculty, its administration or the Board of Trustees. In the case of speakers who are candidates for political office, equal opportunities shall be available to opposing candidates if desired by them. Speakers are subject to the normal considerations for law and order and to the specific limitations imposed by the Washington State Constitution which prohibits religious worship, exercise, or instruction on state property.

In order to insure an atmosphere of open exchange and to insure that the educational objectives of the college are not obscured the President, in a case attended by extreme emotional feeling, may prescribe conditions for the conduct of the meeting, such as requiring a designated member of the faculty as chairman, or requiring permission for comments and questions from the floor. Likewise, the President may encourage the appearance of one or more additional speakers at the meeting in question or at a subsequent meeting so that other points of view may be expressed.

NEW SECTION

WAC 132C-120-110 TRESPASS. The President of the College, or, in such President's absence, the Acting President, in the instance of any event that the President deems to be disruptive of order or which the President deems impedes the movement of persons or vehicles or which the President deems to disrupt or threatens to disrupt the ingress and/or egress of persons from college facilities, and the President acting through the dean of students or such other person designated by the President shall have power and authority to:

- (1) Prohibit the entry of, or withdraw the license or privilege of a person or persons or any group of persons to enter onto or remain upon any portion of a college facility; or
- (2) To give notice against trespass by any manner specified in Section (2), Chapter 7, Laws of 1969, to any person, persons, or group of persons against whom the license or privilege has been withdrawn or who have been prohibited from, entering onto or remaining upon all or any portion of a college facility; or
- (3) To order any person, persons or group of persons to leave or vacate all or any portion of a college facility.

WAC 132C-120-115 DISTRIBUTION OF PRINTED MATERIAL ON CAMPUS. Publications, handbills, leaflets, statements, and similar materials except those which are commercial, obscene or unlawful in character, may be distributed without review or approval by any regularly enrolled student, faculty, or staff member or recognized group of students enrolled at Olympic College. It is to be understood that such materials do not necessarily represent the views of the college, its faculty, student body or staff. Such materials may be distributed from authorized public areas in the Student Center and at any outdoor area on the campus consistent with the maintenance of college property, with the free flow of traffic and persons, and not in a manner which in itself limits the orderly operation of college affairs.

All such materials shall indicate the name of the sponsor. Distribution of any printed materials by persons not members of the college community shall be prohibited unless approved in advance by the Dean of Students or his designee.

Any student who violates any provision of this rule relating to the distribution and sale of handbills, leaflets, newspapers or related materials, shall be subject to disciplinary action.

Any distribution of the materials regulated in this section shall not be construed as approval of the same by the College or by the Board of Trustees.

NEW SECTION

WAC 132C-120-120 PURPOSE OF DISCIPLINARY ACTIONS. Disciplinary action, up to and including dismissal from the College may be imposed upon a student for failure to abide by the rules of student conduct herein adopted. The form of disciplinary action imposed upon the non-abiding student will determine whether and under what conditions the violator may continue as a student at the College. Practices in disciplinary cases may vary in formality according to the severity of the case.

NEW SECTION

Faculty members shall have the authority to take such actions as may be necessary to maintain order and proper conduct in the classroom in order to assure the effective cooperation of students in the accomplishment of objectives of the course of instruction. Such actions may be appealed to the Dean of Students or his designee at any time before the end of the next succeeding quarter in which the student is enrolled.

NEW SECTION

WAC 132C-120-130 INITIAL DISCIPLINARY PROCEEDINGS. All disciplinary proceedings will be initiated by the Dean of Students or his designated representative, who may also establish advisory panels to advise or act for the office in disciplinary proceedings.

Any student accused of violating any provision of the rules of student conduct will be called for an initial conference with the Dean of Students or his designated representative, and will be informed of what provision or provisions of the code of student conduct he is charged with violating, and what appears to be the maximum penalties which might result from consideration of the disciplinary proceeding.

After considering the evidence in the case and interviewing the student or students accused of violating the code of student conduct, the Dean of Students or his designated representative may take any of the following actions:

- (1) Terminate the proceeding, exonerating the student or students, providing both parties agree;
- (2) Dismiss the case after whatever counseling and advice may be appropriate, provided both parties (accused and accuser) agree;
- (3) Impose minor sanctions directly (warning, reprimand, or disciplinary probation) subject to the student's right of appeal described in WAC 132C-120-135.
- (4) Refer the matter of the Student Conduct Board for a recommendation to the President of the College as to appropriate action. The student shall be notified in writing when such a recommendation is made;
- (5) Recommend to the President of the College that the student be dismissed, if the student agrees to waive a hearing and agrees to the dismissal.

A student accused of violating any provision of the code of student conduct shall be given written notification within five calendar days of any disciplinary action recommended by the Dean of Students or his designated representative.

No disciplinary action recommended by the Dean of Students or his designated representative is final unless the student fails to exercise his right of appeal as provided in WAC 132C-120-135 and the President of the College or his designated representative, after reviewing of the case including any statement the student may file with the President, shall either express written approval of the recommendation of the Dean of Students or give written direction as to what lesser disciplinary action, if any, is to be taken.

NEW SECTION

WAC 132C-120-135 APPEALS. Any disciplinary action taken may be appealed. Action taken by the Dean of Students may be appealed to the Student Conduct Board. Action taken by the Student

Conduct Board may be appealed to the President or his designee. Action taken by the President shall be final. All appeals by a student must be made in writing and presented to the appropriate agency within five instructional days after the original action was taken. Decisions on appeals will be made by the appropriate agency within five instructional days.

The chairman shall not vote except in case of tie vote.

NEW SECTION

WAC 132C-120-145 PROCEDURES FOR HEARING BEFORE THE STUDENT CONDUCT BOARD. The Student Conduct Board will hear, de novo, and make recommendations to the President of the College on all disciplinary cases referred to it by the Dean of Students or his designee.

The student has a right to a fair and impartial hearing before the Student Conduct Board on any charge of violating the rules of student conduct. The student's failure to cooperate with the hearing procedures hereinafter outlined, however, shall not preclude the Student Conduct Board from making its findings of fact, conclusions and recommendations as provided below. Failure by the student to cooperate may be taken into consideration by the committee in recommending to the President the appropriate disciplinary action.

The student shall be given written notice of the time and place of his hearing before the Student Conduct Board and be afforded not less than ten days notice thereof. Said notice shall contain:

(1) A state of the time, place and nature of the disciplinary proceeding.

(2) A statement of the charges against him including reference to the particular sections of the code of student conduct involved.

The student shall be entitled to hear and examine the evidence against him and be informed of the identity of its source; he shall be entitled to present evidence in his own behalf and cross examine witnesses testifying against him as of factual matters. The student shall have all authority possessed by the College to obtain information he specifically describes, in writing, and renders to the Dean of Students no later than three days prior to the hearings, or to request the presence of witnesses or the production of other evidence relevant to the issue of the hearings.

The student may be represented by counsel of his choice at the disciplinary hearing. If the student elects to choose a duly licensed attorney admitted to practice in any state in the United States as his counsel, he must render three days notice thereof to the Dean of Students.

In all disciplinary proceedings the College may be represented by a designee appointed by the Dean of Students; said designee may then present the College's case against the student accused of violating the code of student conduct, provided that in those cases in which the student elects to be represented by a licensed attorney, the Dean of Students may elect to have the College represented by an Assistant Attorney General.

An adequate summary of all the evidence and facts presented to the disciplinary committee during the course of the proceedings will be taken. A copy thereof shall be available at the office of the Dean of Students for distribution.

The chairman of the Student Conduct Board, as defined by the student conduct code, shall preside at the disciplinary hearing.

NEW SECTION

WAC 132C-120-150 CONDUCT OF DISCIPLINARY HEARINGS. Hearings conducted by the Student Conduct Board generally will be held in closed session except when the accused requests that student and faculty other than those directly involved be invited to attend. If at any time during the conduct of a hearing invited guests are disruptive of the proceedings, the chairman of the committee may exclude such persons from the hearing room.

Any student or faculty member attending the Student Conduct Board hearing as an invited guest who continues to disrupt said proceedings after the chairman of the committee has asked him to cease and desist therefrom, shall be subject to disciplinary action.

NEW SECTION

WAC 132C-120-155 EVIDENCE ADMISSIBLE IN HEARINGS. Only those matters presented at the hearing, in the presence of the accused student, will be considered in Student Conduct Board determinations.

NEW SECTION

WAC 132C-120-160 DECISION BY THE STUDENT CONDUCT BOARD. Upon conclusion of the disciplinary hearing, the Student Conduct Board shall in closed session consider all the evidence therein presented and decide by majority vote whether to recommend to the President any of the following actions:

(1) That the College terminate the proceedings and exonerate the student or students;

(2) That the College impose minor sanctions directly, such as warning, reprimand or minor fine, subject to the student's right of appeal as described below;

(3) That the College impose any of the disciplinary actions as provided in WAC 132C-120-170.

(4) Recommend to the President that the student be dismissed from the College.

The student shall be provided by the President of the College a copy of the Student Conduct Board's findings of fact and conclusions regarding whether the student did violate any rule or rules of the code of student conduct. The committee shall also advise the student of his rights to present, within seven days, a written statement to the President of the College appealing the recommendation of the Student Conduct Board.

NEW SECTION

WAC 132C-120-165 FINAL DECISION REGARDING DISCIPLINARY ACTION. The President of the College or any representative he may designate except the Dean of Students, shall, after reviewing the record of the case, include in the report of the Student Conduct Board in any statement filed by the student, either his indicated approval of the recommendations of the College Disciplinary Committee or give directions as to what lesser disciplinary action shall be taken.

If the President decides that discipline is to be imposed after the review provided by the above section, the President or his designee shall notify the student in writing of the discipline imposed.

NEW SECTION

WAC 132C-120-170 DISCIPLINARY ACTION. The following disciplinary actions are hereby established and shall be the sanctions imposed upon violators of the code of student conduct:

Disciplinary Warnings: Notice to a student either verbally or in writing, that he has been in violation of the rules of student conduct or has otherwise failed to satisfy the College's expectation regarding conduct. Such warnings imply that continuation or repetition of the specific conduct involved or other misconduct will result in one of the more serious disciplinary actions described below.

Reprimand: Formal action censuring a student for violation of the rules of student conduct. Reprimands are always made in writing to the student by the Dean of Students or his designee with copies to the office or agency involved. A reprimand indicates to the student that continuation or repetition of the specific conduct involved or other misconduct will result in one of the more serious disciplinary actions described below.

Disciplinary Probation: Formal action placing conditions upon the student's continued attendance for violation of code of student conduct.

The Dean of Students will specify, in writing, the period of probation and the conditions such as limiting the student's participation in extracurricular activities. Disciplinary probation may be for a specified term or for an indefinite period which may extend to graduation or other termination of the student's enrollment in the College.

Dismissal: Termination of student status for violation of the code of student conduct. Student may be dismissed only with the approval of the President of the College. Dismissal may be for a stated or for an indefinite period. The notification dismissing a student will indicate, in writing, the term of the dismissal and any special conditions which must be met before readmission. There is no refund of fees for the quarter in which action is taken, but fees paid in advance for a subsequent quarter are to be refunded.

Restitution: The Dean of Students may demand restitution from individual students for destruction or damage of property. Failure to make arrangements for restitution promptly will result in the cancellation of the student's registration and will prevent the student from re-registration.

NEW SECTION

WAC 132C-120-175 READMISSION AFTER DISMISSAL. Any student dismissed from the College for disciplinary reasons may be readmitted only on written petition to the Dean of Students. Such petitions must indicate how specified conditions have been met and, if the term of the dismissal has not expired, any reasons which support a reconsideration of the matter. Because the President of the College participates in all disciplinary actions dismissing students from the College, decisions on such petitions for readmission must be reviewed by the Student Conduct Board and recommendation made to the President and approved by the President before readmission is granted.

NEW SECTION

WAC 132C-120-180 SUMMARY SUSPENSION RULES. The Board of Trustees of Olympic College recognizes the need to provide the administration with a summary system of student discipline that can swiftly and fairly respond to immediate disorder or conditions relating to student's physical and emotional well-being.

The Board of Trustees recognizes the need to provide the College administrators with a summary system of student discipline that can swiftly and fairly respond to immediate disorder in conditions relating to students. The Board further desires to create and operate such a system within the framework of fundamental due process as presently embodied in the historic notions embodied in the jurisprudential tool of the Temporary Restraining Order. Therefore the Board adopts the following rules:

(1) It is to be understood, however, that nothing within the rules adopted shall be construed to supplant the provisions of the Student Conduct Code and Disciplinary Procedures and the student disciplinary system created therein. Rather, the provisions of the rules of this chapter shall be deemed to be supplementary to the Student Conduct Code by providing a method of suspension during the pendency of the investigation and prosecution for student violations that will be subsequently heard on their merits pursuant to the system embodied in the said student conduct code.

NEW SECTION

WAC 132C-120-185 INITIATION OF SUMMARY SUSPENSION PROCEEDINGS. If the President, or in his absence his designee, has cause to believe that any student has violated any law of the State or the United States, or any of the code of student conduct and the President or his designee also has further cause to believe that the student's violation involves:

(1) Participation in any mass protest or demonstration violative of WAC 132C-120-085 and that immediate disciplinary action is necessary to restore order on any college campus; or

(2) Violation of any other rule of student conduct code and there also appears to be a significant probability that said violation or violations will continue to the great injury of the College so as to render disciplinary process contained herein ineffectual.

Then the President or his designee shall, pursuant to the following rules, have authority to suspend said student for one to ten days prior to any subsequent disciplinary proceeding initiated under the code of student conduct contained in WAC 132C-120-185.

NEW SECTION

WAC 132C-120-190 NOTICE OF SUMMARY PROCEEDINGS. If the President desires to exercise the authority conferred by WAC 132C-120-185 against any student, he shall direct the Dean of Students to cause notice thereof to be served upon said student by registered or certified mail at the student's last known address, or by causing personal service of such notice upon said student.

The notice shall be entitled "Notice of Summary Suspension" and shall include:

(1) A description of evidence that misconduct did occur.

(2) The charges against the student, including reference to the law and/or code of student conduct involved, and

(3) A summons to appear before the Dean of Students or his designee at a time to be set by the Dean, but not later than 24 hours from the date and time of receipt of the "Notice of Summary Suspension."

NEW SECTION

WAC 132C-120-195 PROCEDURES OF SUMMARY SUSPENSION HEARING. At the Summary Suspension Hearing the Dean of Students or his designee, shall state that there is cause to believe that the violation stated on the Notice of Summary Suspension to the student did occur, and that the President or his designee did have probable cause to believe the immediate suspension of said student is necessary, pursuant to WAC 132C-120-190.

The student may offer oral testimony of himself or of any person, submit any statement or affidavit on his own behalf, examine any affidavit and cross examine any witness who may appear against him and submit any matter in extenuation or mitigation of the offense or offenses charged.

The Dean of Students shall at the time of the Summary Suspension Proceeding determine whether there is a probable cause to believe that a violation of law or of the code of student conduct has occurred, and whether there is cause to believe that immediate suspension is necessary pursuant to WAC 132C-120-200. In the course of making such a decision, said Dean may only consider the sworn affidavit or oral testimony of persons who have alleged that the student charged has committed a violation of law or of the code of student conduct and the oral testimony and affidavits submitted by the student charged.

Reviser's Note: Errors of punctuation or spelling in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 132C-120-200 DECISION BY DEAN OF STUDENTS. If the Dean of Students, following the conclusion of the Summary Suspension Proceeding, is still of the opinion that there is probable cause to believe:

(1) The student against whom specific violations of the law or of the code of student conduct are alleged has committed one or more such violations upon any college facility or college sponsored activity; and

(2) That summary suspension of said student is necessary to attain peace and order on the campus; and

(3) Such violation or violations of the law or of the code of student conduct constitute grounds for disciplinary probation or dismissal pursuant to WAC 132C-120-200, then the Dean of Students may, with the written approval of the President, continue suspension of such student from College for a maximum of ten days.

NEW SECTION

WAC 132C-120-205 NOTICE OF FINDINGS. If a student is suspended pursuant to the above rules, said student will be provided with a written copy of the Dean of Students findings of fact and conclusions, as expressly concurred in by the President, as to whether said Dean had probable cause to believe that the conditions for summary suspension outlined in WAC 132C-120-200 exists and whether immediate suspension of said student should issue.

The student suspended pursuant to the authority of this rule shall be served a copy of the notice of suspension by personal service or by registered mail. Notice by mail shall be sent to said student's last known address.

NEW SECTION

WAC 132C-120-210 SUSPENSION FOR FAILURE TO APPEAR. If the student against whom specific violations of the rules of

student conduct or law have been alleged has been served pursuant to the notice required in WAC 132C-120-200 willfully fails to appear at the time designated for the Summary Suspension Proceeding, the Dean of Students may, with the written concurrence of the President, suspend the student from College for a maximum of ten days.

NEW SECTION

WAC 132C-120-215 APPEAL. Any student aggrieved by an order issued at the Summary Suspension Proceeding may appeal the same to the President or his designee. No such appeal shall be entertained, however, unless written notice of the appeal, specifically describing alleged errors in the findings of the Dean of Students is tendered at the office of the President within 72 hours following the date notice of summary suspension was served or mailed to the student.

The President shall, as soon as reasonably possible examine the allegations contained within the Notice of Appeal, along with the findings of the Dean, the record of the Summary Suspension Proceedings and determine therefrom whether the summary suspension is justified. Following such examination, the President may, at his discretion, suspend the summary suspension pending determination of the merits of the disciplinary proceeding pursuant to the code of student conduct.

EMERGENCY RULES
GAMBLING COMMISSION
[Order 96—Filed December 18, 1979]

Be it resolved by the Washington State Gambling Commission, acting at Olympia, Washington, that it does promulgate and adopt the annexed rules relating to providing for the operation of fund raising events under a single license running from New Year's Eve to New Year's Day (December 31st to January 1st or 2nd), adopting as a new rule, WAC 230-25-033.

We, the Washington State Gambling Commission, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is under current rule structure, it is virtually impossible to operate a fund raising event on New Year's Eve, since it must end with the end of the calendar year. This imposes an undue hardship on qualified organizations, recognizing that New Year's Eve is one of the most desirable times to hold a fund raising event. In order to allow fund raising events this New Year's Eve, an emergency rule is necessary.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 9.46.010(13) which directs that the Washington State Gambling Commission has authority to implement the provisions of chapter 9.46 RCW.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED December 14, 1979.

NEW SECTION

WAC 230-25-033 FUND RAISING EVENTS ON NEW YEAR'S EVE EXTENDING PAST MIDNIGHT. For the purposes of computing and applying limitations in chapter 9.46 RCW and these rules upon income to the licensee and upon the number of events, or days in such events, in a calendar year, a multi-day fund raising event which (1) includes any part of December 31 less than the full calendar day, and (2) continues past midnight into the new calendar year, shall be treated as if each day of the event, or portion thereof, had been held solely in the new calendar year.

A class B license is required to conduct such an event since at least two calendar days are involved. The licensee may hold no other fund raising event at any time during that new calendar year, except as may be permitted by application of this rule.

EMERGENCY RULES
GAMBLING COMMISSION
 [Order 95—Filed December 18, 1979]

Be it resolved by the Washington State Gambling Commission, acting at Olympia, Washington, that it does promulgate and adopt the annexed rules relating to the creation of two new classes of bingo licensees, amending WAC 230-04-200.

We, the Washington State Gambling Commission, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is as originally adopted, WAC 230-04-200 did not foresee the rapid expansion of bingo operations within the state. In order to avoid penalizing efficient bingo operations, it is necessary to enact two new classes of licensees and to enact them on an emergency basis so that the licensees who must increase the class of their operation at the present time may do so without paying the unreasonable price that WAC 230-04-200, as originally enacted, would have required.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 9.46.070(1) and (5) and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

RAP 12.5(b)

(b) When Mandate Issued by Court of Appeals. The
clerk of the Court of Appeals issues the mandate for a
Court of Appeals decision terminating review upon stip-
ulation of the parties that no motion for reconsideration;
or petition for review; or notice of appeal will be filed. In
the absence of that stipulation, and except to the extent
the mandate is stayed as provided in Rule 12.6, the clerk
issues the mandate:

- (1) 20 days after the decision is filed, unless (i) a motion
for reconsideration of the decision has been earlier filed,
(ii) a notice of appeal to the Supreme Court has been
earlier filed, (iii) a petition for review to the Supreme
Court has been earlier filed, or (iv) (iii) the decision is a
ruling of the commissioner or clerk and a motion to
modify the ruling has been earlier filed.
(2) If a motion for reconsideration is timely filed and
denied, 30 days after filing the order denying the motion
for reconsideration, unless a petition for review to the
Supreme Court or a notice of appeal to the Supreme
Court has been earlier filed.
(3) If a petition for review has been timely filed and de-
nied by the Supreme Court, upon denial of the petition
for review.

RAP 13.1(a)

(a) Two One Methods of Seeking Review. There are
only two methods of seeking review by the Supreme
Court of decisions of the Court of Appeals: is The two
methods are review as a matter of right, called "appeal,"
and review by permission of the Supreme Court, called
"discretionary review." Both appeal and discretionary
review are called "review."

RULE 13.2
(Rescinded)

RAP 13.3(a) and (b)

(a) What May be Reviewed. A party may seek discretionary review by the Supreme Court of any decision of the Court of Appeals which is not a ruling and is not appealable as a matter of right, including:

(1) Decision Terminating Review. Any decision terminating review.

(2) Interlocutory Decision. Subject to the restrictions imposed by Rule 13.5(b), any interlocutory decision, including but not limited to (i) a decision denying a motion to modify a ruling of the commissioner or clerk which denies a motion for discretionary review, and (ii) if the clerk refers a motion for discretionary review to the court, a decision by the court which denies a motion for discretionary review.

(b) Decision Terminating Review. A party seeking review of a Court of Appeals decision terminating review which is not appealable must first file a motion for reconsideration under Rule 12.4 and must file a "petition for review" as provided in Rule 13.4.

RULE 13.6

ACCEPTANCE OF REVIEW

~~(a) Appeal. The Supreme Court accepts review of a Court of Appeals decision upon the timely filing in the Court of Appeals of a notice of appeal from a decision which is reviewable as a matter of right.~~

~~(b) Discretionary Review. The Supreme Court accepts discretionary review of a decision of the Court of Appeals by granting a motion for discretionary review or by granting a petition for review.~~

RULE 13.7

PROCEEDINGS AFTER ACCEPTANCE OF REVIEW

(a) Procedure. The procedure in the Supreme Court after acceptance of review of a decision of the Court of Appeals, is the same as the procedure in the Supreme Court after acceptance of review of a trial court decision, except that (1) the record in the Court of Appeals is the record on review in the Supreme Court, and (2) only the briefs filed in the Court of Appeals and the documents submitted in connection with the motion for discretionary review or petition for review will be considered by the Supreme Court, unless additional briefs are requested by the Supreme Court.

~~(b) Scope of Review of Decision Subject to Appeal. On an appeal to the Supreme Court from a decision of the Court of Appeals, the scope of review in the Supreme Court is the same as if the Supreme Court had initially accepted direct review of the trial court decision.~~

~~(c) (b) Scope of Review of Decision Subject to Discretionary Review. If the Supreme Court accepts review of a Court of Appeals decision which is subject to discretionary review, the Supreme Court will review only the questions raised in the motion for discretionary review, if review is sought of an interlocutory decision, or the petition for review and the answer, unless the Supreme Court orders otherwise upon the granting of the motion~~

or petition. The Supreme Court may limit the issues to one or more of those raised by the parties.

~~(d)~~ (c) Other Limitations on Scope of Review. The scope of review may be further affected by the circumstances set forth in Rule 2.5.

Chapter 173-422 WAC

MOTOR VEHICLE EMISSION INSPECTION

NEW SECTION

WAC 173-422-010 PURPOSE. This chapter implements chapter 163, Laws of 1979, 1st extraordinary session.

Motor vehicles are the primary emitters of carbon monoxide and emit significant quantities of hydrocarbons and oxides of nitrogen. Emission controls required by the federal government are designed to reduce motor vehicle related air pollution. However, the effectiveness of these controls is substantially reduced through deterioration, maladjustment and tampering. Motor vehicle emission inspection serves to identify high polluting vehicles and to reduce emissions, when such can be accomplished at reasonable cost. These rules establish the emission standards, testing procedures and associated activities necessary to implement the governing legislation.

NEW SECTION

WAC 173-422-020 DEFINITIONS. Unless a different meaning is clearly indicated by context, the following definitions will apply:

(1) "Accuracy" means the degree of correctness by which the true value of a measured sample is determined.

(2) "Calibration gases" mean a blend of hydrocarbon (propane), carbon monoxide (CO), and/or carbon dioxide using nitrogen as carrier gas. The concentrations are to be certified by the supplier as traceable to within two percent of NBS standards.

(3) "Certificate of Acceptance" means an official form, issued by someone authorized by the department which certifies that following conditions have been met: the recipient's vehicle initially failed to comply with applicable emission standards, more than fifty dollars of expenditures for repairs/parts were spent on the vehicle solely to meet such standards, the vehicle on reinspection again failed to meet such standards, and inspection fees have been paid.

(4) "Certificate of Compliance" means an official form, issued by someone authorized by the department which certifies that the following conditions have been met: the recipient's vehicle on inspection complied with applicable emission standards and inspection fees have been paid.

(5) "Dealer" means a motor vehicle dealer, as defined in RCW 46.70.011, that is licensed pursuant to chapter 46.70 RCW.

(6) "Department" means the department of ecology.

(7) "Drift" means the change in the response of the analyzer to a given sample over a period of time.

(8) "Emission contributing area" means a land area within whose boundaries are registered motor vehicles that contribute significantly to the violation of motor vehicle related air quality standards in a non-compliance area. (The inspection program implemented by this chapter applies only to vehicles registered in emission contributing areas.)

(9) "Farm vehicle" means any vehicle other than a farm tractor or farm implement which is designed and/or used primarily in agricultural pursuits on farms for the purpose of transporting machinery, equipment, implements, farm products, supplies and/or farm labor thereon and is only incidentally operated on or moved along public highways for the purpose of going from one farm to another.

(10) "Fleet" means a group of twenty-five or more motor vehicles owned or leased concurrently by one person.

(11) "Gaseous fuel" means liquefied petroleum gases and natural gases in liquefied or gaseous forms.

(12) "Gross vehicle weight (GVW)" means the manufacturer stated gross vehicle weight rating.

(13) "HC and CO emissions" means the concentration of hydrocarbons and carbon monoxide in the engine exhaust.

(14) "Motor vehicle" means any self-propelled vehicle required to be licensed pursuant to chapter 46.16 RCW.

(15) "Motorcycle" means every motor vehicle having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a farm tractor.

(16) "NBS" means National Bureau of Standards.

(17) "Noncompliance area" means a land area within whose boundaries any air quality standard for any air contaminant from the emissions of motor vehicles will probably be exceeded after December 31, 1982.

(18) "PPM" means parts per million by volume.

(19) "Repeatability" means the ability of an analyzer to report the same value for successive measurements of the same sample.

(20) "Response" means how quickly there is a change in reading following a change in concentration at the sample probe inlet.

(21) "Sensitivity" means the smallest change in the value of a measured sample that can be detected by the analyzer.

(22) "Zero calibration gases" means air or nitrogen in which total impurities do not exceed 0.01 percent.

NEW SECTION

WAC 173-422-030 VEHICLE EMISSION INSPECTION REQUIREMENT. All motor vehicles not specifically exempted which are registered within the boundaries of an emission contributing area are subject to the vehicle emission inspection requirements of this chapter. After January 1, 1982, all motor vehicles subject to this chapter shall be tested for emissions at an authorized inspection facility and shall not be licensed or have the license renewed unless a certificate of compliance or acceptance has been issued for the vehicle within ninety days prior to the date of licensing or renewing the license.

Government vehicles based in any emission contributing area that are not required to have their licenses renewed shall submit annually to the department of licensing a certificate of compliance or acceptance.

All motor vehicles which are being registered or reregistered in emission contributing areas specified in WAC 173-422-050, and which are not exempted by WAC 173-422-170, shall be subject to this chapter.

NEW SECTION

WAC 173-422-040 NONCOMPLIANCE AREAS. As based on monitoring data and projections for 1982, the following are designated noncompliance areas for the air contaminants specified:

(1) Carbon monoxide

(a) The following parts of Seattle: the Central Business District, the Rainier Valley Corridor, the University District, and the Fremont District.

(b) The following part of Bellevue: the Central Business District.

(2) Ozone

(a) The Central Puget Sound Basin.

(b) Areas of Clark County as they relate to the Portland, Oregon, metropolitan area of noncompliance.

(3) These areas are as set forth on maps on file with the department.

(a) In relation to the Clark County designation, the area where relevant air quality standards for ozone will probably be exceeded after December 31, 1982, is in fact in Oregon. However, Clark County, Washington, is in a federally designated interstate air quality control region which includes land in both Oregon and Washington. Emissions which originate in Clark County contribute significantly to the non-compliance problem for ozone experienced in Oregon. Emissions to the air do not respect political boundaries. Therefore, in order to comply with federal law, inspections must be conducted in Clark County to reduce Washington State's contribution to a regional problem. State law in Washington explicitly provides that compliance with the Federal Clean Air Act is one of the purposes of the state law.

(b) In relation to Spokane, analysis of monitoring, data and projections indicate that the Central Business District of that city will be a noncompliance area for carbon monoxide after December 31, 1982. However, this analysis is based on calculations which do not take into account all various means of emission reduction, other than vehicle inspection, which the city has proposed to implement in the near future. Therefore, no noncompliance area in Spokane is designated at this time. If, on technical analysis, the Spokane program is found to be adequate to achieve carbon monoxide compliance by December 31, 1982, no such noncompliance designation will be made. If the contrary is found, some portion of Spokane will have to be designated a noncompliance area for carbon monoxide. In the meantime, certain zip codes are set forth in this chapter on a standby basis to describe what the emission contributing area in Spokane County would be if a noncompliance area were designated.

NEW SECTION

WAC 173-422-070 TEST PROCEDURES. All persons certified by, or under contract to, the department to conduct motor vehicle emission inspections shall use the following test procedures:

- (1) An idle mode test shall be used to measure vehicle exhaust emissions for carbon monoxide, hydrocarbons, and carbon dioxide.
- (2) The engine shall be at normal operating temperature during the emission test.
- (3) Any vehicle causing an unsafe condition, such as the continuous leaking of any fluid onto the floor, may be rejected from the inspection site.
- (4) Vehicles shall be approximately level during the test.
- (5) Dual exhaust vehicles may be tested either by simultaneous sampling of both tail pipes or sampling each tail pipe and averaging the results.
- (6) The exhaust sample probe must be inserted at least ten inches into the tail pipe. If this is not possible, an extension boot shall be used. The exhaust emission test shall be aborted if the sum of the carbon monoxide and carbon dioxide concentration does not exceed seven percent.
- (7) If the engine stalls during the test, the test shall be restarted.
- (8) If the vehicle is capable of being operated with both gasoline and gaseous fuels, the emission test results shall be obtained with both fuels.
- (9) The exhaust analyzer range shall be selected so that the standard for the vehicles being tested is greater than twenty-five percent of full scale, if possible.
- (10) The engine shall be accelerated to one-third to one-half throttle (about 2500 rpm), with the transmission in neutral or park, and held there for fifteen seconds.
- (11) The accelerator shall then be released and the engine operated at idle, with the transmission in neutral or park, for at least twenty seconds. HC and CO emissions averaged over the last five seconds shall then be recorded.
- (12) A loaded (dynamometer) test may be used when authorized by the department. However, all requirements of the idle mode test shall be met and idle emission date recorded.

NEW SECTION

WAC 173-422-080 VEHICLE INSPECTION DATA HANDLING PROCEDURES. All persons certified by, or under contract to, the department to conduct motor vehicle emission inspections shall use the following data handling procedures.

- (1) The comparison of the test results with the state's emission standards shall be automated.
- (2) The emission test results, the comparison with the state's emission standards, and certificates of compliance shall be automatically printed.
- (3) The required vehicle identification data shall be entered and validated before the emission test is started.
- (4) The vehicle identification data flagged as incorrect by the established validation checks shall be corrected before the emission test is started.
- (5) The emission test results shall be automatically printed.
- (6) All required data shall be automatically printed on the vehicle inspection reports and stored on bulk storage devices.
- (7) In the case of data handling equipment problems, the vehicle emission test reports and certificates of compliance may be manually completed, but all the data is required to be included on the bulk storage devices submitted to the department. Penalties for excessive manual operation may be assessed.

Complete logs shall be kept for maintenance, repair and calibration.

- (2) The following procedures shall be followed by all testing facilities unless equivalent procedures have been approved by the department. Exhaust analyzers shall be warmed up for at least thirty minutes

prior to performing any test or equipment, calibration, span, or zero checks:

(a) Each Test. Before each test can start, the exhaust analyzer readings must be less than 20 ppm HC, 0.1% CO and 0.5% CO₂. If during a test the sampling system flow restriction indicator becomes activated, the test shall be stopped and restarted after the necessary repairs to the analyzer have been completed.

After each test with a hydrocarbon reading of less than 2000 ppm, the hydrocarbon reading of the exhaust analyzer must return to less than 60 ppm HC within thirty seconds. The carbon monoxide reading must return to less than 0.1% CO within thirty seconds after each test. Tests not meeting this requirement will be invalidated. The analyzer shall not be used for certification testing until the sampling system particulate filter(s) have been replaced and/or other necessary repairs completed.

(b) Hourly Check. The exhaust analyzer shall not be used to test vehicles unless within an hour prior to the test it was spanned with a calibration gas. The following procedure shall be used:

(i) Adjust the exhaust analyzer using the electronic span.

(ii) Adjust the exhaust analyzer to zero using ambient air or zero calibration gas.

(iii) Check the calibration of the exhaust analyzer using a calibration gas of approximately eighty percent of each range.

(iv) Adjust and repair as necessary to insure the accuracy specified in WAC 173-422-090.

(v) If adjustments or repairs were performed, check and adjust the electronic span and zero, then check the span point using the calibration gas without further adjustments. The analyzer shall not be used for certification testing unless all readings are within the accuracy limits specified in WAC 173-422-090.

(c) Monthly Check. The exhaust analyzer shall not be used to test vehicles unless a multipoint calibration has been performed within the last thirty days. The following procedure shall be used:

(i) Adjust the exhaust analyzer using the electronic span.

(ii) Adjust the exhaust analyzer to read zero using zero calibration gas.

(iii) Check the calibration of the exhaust analyzer using calibration gases of approximately twenty, forty, sixty, and eighty percent for each range.

(iv) Adjust and repair as necessary to obtain insure the accuracy specified in WAC 173-422-090 at each calibration point.

(v) If adjustments or repairs were performed, check and adjust the electronic span and zero, then check calibration points using the calibration gases without any further adjustments. The analyzer shall not be used for certification testing unless all readings are within the required accuracy limits upon completion of the calibration procedure.

AMENDATORY SECTION (Amending Order 78-9, filed 3/22/78)

WAC 132L-20-100 STUDENT RECORDS. In compliance with the Family Educational Rights and Privacy Act, this policy has been created to insure continued confidentiality of student records at Centralia College and govern the release of personally identifiable information contained within.

(1) Education Records. Education records are defined as those records, files, and documents containing information directly pertaining to a student. At Centralia College these are: (a) Records pertaining to admission, advisement, registration, grading, and progress to a degree that are maintained by the registrar. (b) Testing information used for advisement purposes by the counseling center. (c) Information concerning payment of fees as maintained by the treasurer. (d) Financial aid information as collected by the financial aid office. (e) Information regarding students participating in student government or athletics that is maintained by the student programs office.

(2) Access to Education Records. Students who are or have attended Centralia College have the right to examine or review their personal records, as defined above, by submitting to the registrar a written request indicating education records to which access is desired.

Charges for reproduced copies of education records are found in the current catalog.

(3) Directory Information. The following information is considered "Directory Information" and thus may be disclosed without consent of the student, unless otherwise directed by the student, at any time, to the registrar in writing: The student's name, address, telephone number, date and place of birth, major field of study, eligibility for and participation in officially recognized activities, organizations, and sports, weight and height of members of athletic teams, dates of attendance, honor roll, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

(4) Disclosures from Education Records. In addition to Directory Information the college will, at its discretion, make disclosures from education records of students with the student's prior written consent or to the following listed parties:

(a) College officials including college administrative and clerical staff, faculty, and students where officially elected or appointed to the ~~((student))~~ ASCC senate or employed by the college. Access or release of records to the above is permissible only when the information is required for advisement, counseling, record keeping, reporting, or other legitimate educational interest consonant with their specific duties and responsibilities.

(b) To officials of another school in which the student seeks or intends to enroll.

(c) To authorized federal, state, or local officials as required by law.

(d) In connection with financial aid for which the student has applied or received.

(e) To accrediting organization, or organizations conducting studies for or on behalf of the institution.

(f) To appropriate parties in a health or safety emergency.

(g) To parents of a dependent student, as defined in section 152 of the Internal Revenue Code of 1954, upon receipt of a written affidavit stating that the student is a dependent for income tax purposes. This, however, will not affect the other rights of the student.

In cases where consent of the student is required for release of education records, the student shall in writing, signed and dated by the student, specify: The records to be disclosed, the purpose or purposes of the disclosure, and the name of the party or parties to whom the disclosure can be made.

When personally identifiable information is released without prior consent of the student, other than directory information and information released to college officials or the student, the college official in charge of these records will record the names of the parties who have requested information from educational records and the nature of the interest in that information.

Education records released to third parties shall be accompanied by a statement indicating that the information cannot be subsequently released in a personally identifiable form to other parties without obtaining the consent of the student. The college is not precluded from

permitting third party disclosures to other parties listed in (a) through (g) of this section.

(5) Challenge of Education Records. Students who believe that information contained in their education records is inaccurate, misleading or violates the privacy of other rights of the student may request in writing to the appropriate college official that the college amend their record(s). The college official(s) will make every effort to settle disputes through informal meetings and discussion with the student.

In instances where disputes regarding contents of education records cannot be resolved by the parties concerned, the college official involved shall advise the student of the right to a hearing by the Academic Standards Committee through a written request to the registrar. Should the Academic Standards Committee deem that the education records in question are inaccurate or misleading, the committee can ask that the records be amended by the appropriate college official. If the education records are held to be accurate, the student shall be granted the opportunity to place within those records a personal statement commenting upon the information contained within.

Each eligible student is afforded the right to file a complaint concerning alleged failures by the college to comply with the requirements of the act. The address of the office designated to investigate, process, and review violations and complaints which are filed is:

Such petitions must state reasons which support a reconsideration of the matter. Before readmission may be granted, such petitions must be reviewed and approved by the ~~((executive dean))~~ campus president/district president or designee, or by the board in those cases in which it made the final disciplinary action decision.

In compliance with the Family Educational Rights and Privacy Act, this policy has been created to insure continued confidentiality of student records at Olympia Technical Community College and govern the release of personally identifiable information contained within.

(1) Education Records. Education records are defined as those records, files, and documents containing information directly pertaining to a student. At Olympia Technical Community College these are: (a) Records pertaining to admission, advisement, registration, grading, and progress to a degree that are maintained by the registrar; (b) testing information used for advisement purposes by the counseling center; (c) information concerning payment of fees as maintained by the treasurer; (d) financial aid information as collected by the financial aid office; (e) information regarding students participating in student government or athletics that is maintained by the student programs office.

(2) Access to Education Records. Students who are or have attended Olympia Technical Community College have the right to examine or review their personal records, as defined above, by submitting to the registrar a written request indicating education records to which access is desired.

Charges for reproduced copies of education records are found in the current catalog.

(3) Directory Information. The following information is considered "Directory Information" and thus may be disclosed without consent of the student, unless otherwise directed by the student, at any time, to the registrar in writing: The student's name, address, telephone number, date and place of birth, major field of study, eligibility for and participation in officially recognized activities, organizations, and sports, weight and height of members of athletic teams, dates of attendance, honor roll, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

(4) Disclosures from Education Records. In addition to directory information the college will, at its discretion, make disclosures from education records of students with the student's prior written consent or to the following listed parties:

(a) College officials including college administrative and clerical staff, faculty, and students where officially elected or appointed to the ~~((student))~~ ASOTCC senate or employed by the college. Access or release of records to the above is permissible only when the information is required for advisement, counseling, record keeping, reporting, or other legitimate educational interest consonant with their specific duties and responsibilities.

(g) To parents of a dependent student, as defined in section 152 of the Internal Revenue Code of 1954, upon receipt of a written affidavit stating that the student is a dependent for income tax purposes. This, however, will not affect the other rights of the student.

In cases where consent of the student is required for release of education records, the student shall in writing, signed and dated by the student, specify: The records to be disclosed, the purpose or purposes of the disclosure, and the name of the party or parties to whom the disclosure can be made.

When personally identifiable information is released without prior consent of the student, other than directory information and information released to college officials or the student, the college official in charge of these records will record the names of the parties who have requested information from educational records and the nature of the interest in that information.

Education records released to third parties shall be accompanied by a statement indicating that the information can not be subsequently released in a personally identifiable form to other parties without obtaining the consent of the student. The college is not precluded from permitting third party disclosures to other parties listed in (a) through (g) above.

Students who believe that information contained in their education records is inaccurate, misleading or violates the privacy or other rights of the student may request in writing to the appropriate college official that the college amend their record(s). The college official(s) will make every effort to settle disputes through informal meetings and discussion with the student.

In instances where disputes regarding contents of education records can not be resolved by the parties concerned, the college official involved shall advise the student of the right to a hearing by the Academic Standards Committee through a written request to the registrar. Should the Academic Standards Committee deem that the education records in question are inaccurate or misleading, the committee can ask that the records be amended by the appropriate college official. If the education records are held to be accurate, the student shall be granted the opportunity to place within those records a personal statement commenting upon the information contained within.

Formal action placing conditions upon the student's continued attendance for violation of college rules or regulations or other failure to meet the college's standards of conduct. The office or agency placing the student on disciplinary probation will specify, in writing, the period of probation and the conditions, such as limiting the student's participation in extracurricular activities. Disciplinary probation warns the student that any further misconduct will automatically raise the question of suspension from the college. Disciplinary probation may be for a specified term or for an indefinite period which may extend to graduation or other termination of the student's enrollment in the college.

(6) Suspension. Temporary or indefinite dismissal from the college and termination of the student status of a student for violation of college rules or regulations or for failure to meet the college's standards of conduct. The notification suspending a student will indicate, in writing, the term of the suspension and any special conditions which must be met before readmission.

There is no refund of fees for the quarter in which the action is taken, but fees paid in advance for a subsequent quarter are to be refunded.

Students suspended on the basis of conduct which disrupted the orderly operation of the campus or any facility of the district, may be denied access to all or any part of the campus or other facility.

AMENDATORY SECTION (Amending Order 77-29, filed 9/1/77)

Any student suspended from the college for disciplinary reasons may be readmitted upon expiration of the time period for which the suspension was issued. If the student has been suspended for an indefinite period, or feels that circumstances warrant reconsideration of the temporary suspension prior to its expiration, the student may be readmitted following approval of a written petition submitted to the ((~~director~~)) dean of students ((~~services~~)). Such petitions must state reasons which support a reconsideration of the matter. Before readmission may be granted, such petitions must be reviewed and approved by the campus president, district president, designee or by the board in those cases in which it made the final disciplinary action decision.

AMENDATORY SECTION (Amending Order 77-29, filed 9/1/77)

The ((~~executive-director~~)) campus president or designee may suspend any student of the college for not more than ten academic calendar days pending investigation, action or prosecution on charges of alleged Code of Student Rights and Responsibilities violation or violations, and if the ((~~executive-director~~)) campus president or designee has reason to believe the student's physical or emotional safety and well-being, or the safety and well-being of the college property command such suspension.

AMENDATORY SECTION (Amending Order 77-29, filed 9/1/77)

WAC 132L-524-020 PERMISSION TO ENTER OR REMAIN ON CAMPUS. During the period of summary suspension, the student shall not enter any campus of District 12 other than to meet with the ((~~director~~)) dean of students ((~~services~~)) or to attend the hearing. AMENDATORY SECTION (Amending Order 77-29, filed 9/1/77)

(1) At the summary suspension hearing, the student against whom the violation or violations are alleged shall have the opportunity of proving to the ((~~director~~)) dean of students ((~~services~~)) that there is no cause to believe that the violation stated on the notice of summary suspension proceedings did occur, and that immediate suspension is not necessary nor justifiable pursuant to Chapter 132L-424 WAC, Summary Suspension Rules.

(2) The student may offer personal oral testimony or that of any person, submit any statement or affidavit, examine any affidavit or

cross-examine any witness, and submit any matter in extenuation or mitigation of the violation or violations charged.

(3) The ((~~director~~)) dean of students ((~~services~~)) shall at the time of the summary suspension proceedings determine whether there is probable cause to believe that a violation of law or of provisions of the Code of Student Rights and Responsibilities has occurred, and whether there is reason to believe that immediate suspension is necessary. In the course of making such a decision, the ((~~director~~)) dean of students ((~~services~~)) may consider the sworn affidavits or oral testimonies of persons who have alleged that the student charged has committed a violation of law or of provisions of the Code of Student Rights and Responsibilities and the oral testimony and affidavits submitted by the student charged.

Reviser's Note: The typographical errors in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

(2) That summary suspension of said student is necessary under the provisions of WAC 132L-524-010, Summary Suspension Rules; and

(3) Such violation or violations of the law or of provisions of the Code of Student Rights and Responsibilities constitute grounds for disciplinary action, then the ((~~director~~)) dean of students ((~~services~~)) may, with the written approval of the ((~~executive-director~~)) campus president, suspend such student from the college.

AMENDATORY SECTION (Amending Order 77-29, filed 9/1/77)

Notice of mail shall be sent to said student's last known address. The suspension is mailed or personal service accomplished, whichever shall occur first.

dean students ((services)) and the ((executive-director)) campus president is tendered at the office of the ((executive-director)) campus president within seventy-two hours following the date notice of summary suspension was served or mailed to the student, whichever occurred first.

AMENDATORY SECTION (Amending Order 1374, filed 3/1/79)

WAC 388-54-750 INCOME—SELF-EMPLOYMENT. (1) A household whose primary source of income is from self-employment, including self-employed farmers, shall be certified according to this section.

Self-employment income which is received on a monthly basis but which represents a household's annual support shall normally be averaged over a 12 month period. If, however, the averaged amount does not accurately reflect the household's actual monthly circumstances because the household has experienced a substantial increase or decrease in business, the department shall calculate the self-employment income based on anticipated earnings.

(2) Income which represents annual income and costs of producing that income are to be computed on a yearly basis and averaged evenly over twelve months to determine eligibility even if it is received in only a short period of time.

(a) Self-employment income which represents only a part of a household's annual support shall be averaged over the period of time the income is intended to cover.

(b) If a household's self-employment enterprise has been in existence for less than a year, this income shall be averaged over the period of time the business has been in operation and the monthly amount projected for the coming year.

(3) In determining monthly income from self-employment:

(a) The household may choose to determine the benefit level by using either the same net income which was used to determine eligibility, or by unevenly prorating the household's total net income over the period for which the household's self-employment income was averaged. If income is prorated, the net income assigned in any month cannot exceed the maximum monthly income eligibility standards for the household's size.

(b) For the period of time over which self-employment income is determined the department shall add all gross self-employment income (including capital gains), exclude the cost of producing the self-employment income and divide this income by the number of months over which the income will be averaged.

~~((c))~~ (c) For those households whose self-employment income is not averaged but is instead calculated on

an anticipated basis, the department shall add any capital gains the household anticipates receiving in the next 12 months, starting with the date the application is filed and divide this amount by 12. This amount shall be used in successive certification periods during the next 12 months, but recalculated should anticipated capital gains amounts change. The anticipated monthly amount of capital gains shall be added to the anticipated monthly self-employment income, and subtract the cost of producing the income. Except for depreciation, the cost of producing the income shall be calculated by anticipating the monthly allowable costs of producing the income.

((c)) (d) The monthly net self-employment income shall be added to any other earned income received by the household. The total monthly earned income less the 20 percent earned income deduction shall then be added to all other monthly income received by the household. The standard deduction, dependent care, and shelter costs shall be computed as for any other household and subtracted to determine the adjusted monthly net income of the household.

(4) In calculating capital gains, the proceeds from the sale of capital goods or equipment shall be calculated in the same manner as a capital gain for federal income tax purposes. The department shall count the full amount of the capital gain as income for food stamp purposes even if only 50 percent of the proceeds from the sale of capital goods or equipment is taxed for federal income tax purposes.

(5) Allowable costs of producing self-employment income include, but are not limited to:

(a) The identifiable costs of labor, stock, raw material, seed and fertilizer, interest paid to purchase income-producing property, insurance premiums, and taxes paid on income-producing property;

(b) Depreciation, which shall be allowed as a cost of producing self-employment income for equipment, machinery or other capital investments necessary to the self-employment enterprise, as documented by a tax return.

(6) The following items shall not be allowed as a cost of producing self-employment income:

(a) Payments on the principal of the purchase price of income producing real estate and capital assets, equipment, machinery and other durable goods;

(b) Net losses from previous periods; and

(c) Federal, state and local income taxes, money set aside for retirement purposes, and other work-related personal expenses, such as transportation to and from work, as these expenses are accounted for by the 20 percent earned income deduction specified.

(7) In assigning certification periods:

(a) Households that receive their annual support from self-employment and have no other source of income may be certified for up to 12 months;

(b) For those households that receive other sources of income or whose self-employment income is intended to cover a period of time that is less than a year, the department shall assign a certification period appropriate for the household's circumstances;

(c) For businesses which have been in operation for such a short time that there is insufficient data to make

a reasonable projection, the household may be certified for less than a year until the business has been in operation long enough to base a longer projection.

(d) For those self-employed households that receive their annual income in a short period of time, the initial certification period shall be assigned to bring the household into the annual cycle.

WAC 388-54-775 CERTIFICATION PERIODS-EFFECTING CHANGES DURING. (1) For changes which result in an increase in benefits the department will make the change effective not later than

the first allotment issued 10 days after the change was reported to the department.

~~((a))~~ (2) For changes which result in an increase in a household's benefits due to the addition of a new household member who is not a member of another certified household, or due to a decrease of \$50 or more in the household's gross monthly income, the department shall:

~~((i))~~ (a) Make the change effective not later than the first allotment issued 10 days after the date the change was reported, except that;

~~((ii))~~ (b) In no event shall these changes take effect any later than the month following the month in which the change is reported.

~~((b))~~ For changes which must be made effective in the same month the household reported the change;

~~(i)~~ The department shall either adjust the household's allotment, or, if the household has already participated, issue a supplementary allotment.

~~(ii)~~ If an ATP card has been issued, replace the ATP with an adjusted card or supplementary card, or issue a supplementary card if the household has already participated.

~~(2))~~ (3) If the household's benefit level decreases or the household becomes ineligible as a result of the change, the department will take the following action:

(a) Issue a notice of adverse action within 10 days of the date the change was reported.

(b) The decrease in the benefit level shall be made effective with the first allotment to be issued after the 10 day notice of adverse action has expired, provided a fair hearing and continuation of benefits have not been requested.

~~((3))~~ (4) If the department discovers that the household has failed to report a change as required and has received benefits to which it was not entitled, the department shall file a claim against the household for the amount of the overpayment.

Individuals shall not be terminated for failing to report a change, unless the individual is disqualified in accordance with the fraud disqualification procedures.

~~((4))~~ (5) Public assistance households which report a change in circumstances to the department shall be considered to have reported the change for food stamp purposes.

(Transportation Commission)
 [Order 12, Resolution 63—Filed December 20, 1979]

Be it resolved by the Washington State Transportation Commission, acting at 1D2, Highway Administration Building, Olympia, Washington, that it does promulgate and adopt the annexed rules relating to special permits for movement over state highways of overlegal size or weight loads—Triple saddlemounts, amending WAC 468-38-450.

We, the Washington State Transportation Commission, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is that an unrealistic variance in length allowance exists between provision of law for double saddlemounts at 75 feet and limitation of rule Triple Saddlemounts at 65 feet. The emergency rules submitted are addressing this problem.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 46.44.038 which directs that the Transportation Commission has authority to implement the provisions of RCW 46.44.038.

This rule is promulgated under the general rule-making authority of the Washington State Transportation Commission as authorized in RCW 46.44.090.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

WSR 80-01-071**ADOPTED RULES****UTILITIES AND TRANSPORTATION
COMMISSION**

[Order R-138, Cause No. TV-1288—Filed December 24, 1979]

In the matter of amending WAC 480-12-200, relating to reporting of motor carrier accidents.

This action is taken pursuant to Notice No. WSR 79-11-139 filed with the Code Reviser on November 7, 1979. This amendment hereinafter adopted shall take effect pursuant to RCW 34.04.040(2).

This rule amendment proceeding is brought on pursuant to RCW 81.28.280, 81.28.290 and 81.80.130 and is intended to administratively implement these statutes.

This rulemaking proceeding is in compliance with the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW).

Pursuant to Notice No. WSR 79-11-139 the above matter was scheduled for amendment at 8:00 a.m., Wednesday, December 12, 1979, in the Commission's Conference Room, Seventh Floor, Highways-Licenses Building, Olympia, Washington before Chairman Robert C. Bailey and Commissioner A. J. Benedetti.

Under the terms of said notice, interested persons were afforded the opportunity to submit data, views, or arguments to the Commission in writing prior to December 7, 1979. Under the terms of said notice, interested persons were also afforded the opportunity to submit data, views, or arguments orally at 8:00 a.m., Wednesday, December 12, 1979, in the Commission's Conference Room, Seventh Floor, Highways-Licenses Building, Olympia, Washington.

At the December 12, 1979, meeting the Commission considered the adoption of the amendment to WAC 480-12-200.

Written comments opposing the proposed rule amendment were received from Byrne Trucking, Inc. Oral comments were received by the following persons who opposed the rule amendment: Gary Cason representing McLean Trucking, and Kenneth Martin representing West Trade Transport, Ltd. The written comments submitted by Byrne Trucking, Inc., criticized the proposed rule which required the reporting of accidents, at the latest, within twelve hours of their occurrence in that such a time period was unreasonable on weekends; non-business days. The criticism suggested by Mr. Martin

was that the term "hazardous materials" should be better defined to include only vehicles required to be placarded. Mr. Cason, as well as Mr. Martin, suggested that the twelve hour reporting requirement was unrealistic in most instances. It was further suggested that accidents "causing an injury to any person" were too broad and would include trivial occurrences.

In response, the staff reminded that the reporting requirement only requires notice that an accident occurred; no precise details are required. The staff would be in a position to respond promptly to any accident that was reported; an accident causing a trivial injury may have been caused by defective equipment. The staff noted that it should be in a position to respond to any accident so that it could accurately determine the cause of the accident. The Commission is of the judgment that 1) the carrier would learn about an accident within the prescribed time period, 2) the burden of reporting by telephone the fact that an accident has occurred is minimal, and cooperation by carrier drivers would substantially reduce any problem in implementing the rule. The Commission is aware of its role in carrier safety, and sees the need for prompt reporting rules of this type. The amendmenet [amendment] suggested to clarify the meaning of hazardous materials will be accepted.

The amendment to WAC 480-12-200 affects no economic values. The economic impact as a result of the adoption of the amendment to WAC 480-12-200 has been considered. The adoption of the amendment to WAC 480-12-200 will have no significant economic impact, inasmuch as it merely requires a timely telephone call to the Commission to report accidents.

In reviewing the entire record herein, it has been determined that WAC 480-12-200 should be amended to read as set forth in Appendix "A", attached hereto and made a part hereof by reference. WAC 480-12-200 as amended, requires common and contract carriers operating in this state to report to the Commission promptly, by telephone, the incidence of any accident involving death or injury, or involving a motor vehicle carrying hazardous materials.

ORDER

WHEREFORE, IT IS ORDERED That WAC 480-12-200 relating to motor carriers, be, and the same is hereby amended as set forth in Appendix "A" as permanent rules of the Washington Utilities and Transportation Commission to take effect pursuant to RCW 34.04.040(2).

IT IS FURTHER ORDERED That the order and the annexed rules after being first recorded in the order register of the Washington Utilities and Transportation Commission, shall be forwarded to the Code Reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

IT IS FURTHER ORDERED That there shall be forwarded to the secretary of the Senate and the Chief Clerks of the House of Representatives three copies of the statement required by RCW 34.04.045.

DATED at Olympia, Washington, this 24th day of December, 1979.

Washington Utilities and Transportation Commission
Robert C. Bailey, Chairman
A. J. Benedetti, Commissioner

(Board of Natural Resources)
 [Resolution 276—Filed December 26, 1979]

Be it resolved by the Board of Natural Resources, Department of Natural Resources, acting at Olympia, Washington, that it does promulgate and adopt the annexed rules relating to establishing temporary fees to be charged by the Commissioner of Public Lands for services performed, adopting WAC 332-10-150, 332-10-160, 332-10-170, 332-10-180 and 332-10-190.

We find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is the ability to change fees for services rendered pursuant to chapter 109, Laws of 1979 1st ex. sess. and the emergency rules relating to changes for services performed by the Commissioner of Public Lands ceases to be effective on December 26, 1979. Pursuant to chapter 109, Laws of 1979 1st ex. sess. the Board of Natural Resources is to promulgate rules relating to leasing of public lands and establish fees for services performed by the Commissioner of Public Lands. Sections 2 and 18 of the new law requires that fees for each category of services performed must be based on "costs incurred". Studies to determine "costs incurred" are under way, but cannot be completed in time to promulgate permanent rules by December 26, 1979. Unless emergency rules are adopted, there will be no provision for charging for services performed by the Commissioner of Public Lands.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to chapter 109, Laws of 1979 1st ex. sess. which directs that the Department of Natural Resources has authority to implement the provisions of chapter 109, Laws of 1979 1st ex. sess.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED December 12, 1979.

EMERGENCY RULES

DEPARTMENT OF GAME

[Order 86—Filed December 28, 1979]

Be it resolved by the undersigned, Ralph W. Larson, Director, Washington State Department of Game, that I promulgate and adopt at Olympia, Washington, as emergency rule of this governing body, the annexed rule relating to closure of certain marine waters to the taking of steelhead trout with gill nets and purse seines, WAC 232-32-116.

I, Ralph W. Larson, find an emergency exists and that the foregoing order adopting emergency rule WAC 232-32-116 is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action and that observance of the requirements for adoption of permanent rules which are

effective only upon expiration of 30 days after the date of filing is contrary to public interest as the statement of facts constituting such emergency reveals. A statement of facts constituting such emergency is interception of steelhead trout by gill net and purse seine fisheries in marine mixed stock areas should not be allowed because:

(a) the numbers, location and timing of each steelhead stock in such marine areas is unknown;

(b) the Department of Game is unable to assign fish caught in these marine areas to rivers of origin which thereby creates uncertainty in determining safe and allowable harvests in terminal areas open to fisheries and could cause an overharvest of certain stocks later in the season;

(c) steelhead stocks which are protected and not open to any fisheries, for research or conservation purposes, are likely to be present in mixed stock areas and must not be harvested in those areas;

(d) gill nets and purse seines have the potential of harvesting steelhead in substantial numbers; and

(e) steelhead, unlike most salmon, are still in prime condition upon entering freshwater and should be harvested only in terminal marine and freshwater areas; therefore, an immediate closure of certain marine areas in which mixed stocks are found is necessary to insure the protection of steelhead stocks returning to rivers of origin. Some streams for which there should be no harvest of steelhead are Snow and Salmon creeks (Strait of Juan de Fuca), Tarboo Creek (Hood Canal), Chambers Creek (Central Puget Sound), and Woodland Creek (Southern Puget Sound).

Such rule is therefore adopted as an emergency.

This rule is promulgated under the authority of the Director of Game as authorized in RCW 77.12.150 with the approval of the Game Commission as provided in that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), or the Administrative Procedure Act (chapter 34.14 [34.04]), as appropriate, and the State Register Act (chapter 34.08 RCW).

This order, after being first recorded in the Order Register of this governing body, shall be forwarded to the Code Reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

APPROVED AND ADOPTED December 28, 1979.

This rule is promulgated under the general rule-making authority of the Washington State Board of Optometry as authorized in RCW 18.54.070(5).

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

NEW SECTION

WAC 308-53-080 MINIMUM PRACTICAL EXAMINATION REQUIREMENTS. The practical examination portion of the optometry licensing

examination shall cover at a minimum the following subjects: retinoscopy, ocular pathology, biomicroscopy, contact lenses, tonometry, and case study.

AMENDATORY SECTION (Order PL 239, filed 3/3/76)

WAC 308-53-100 CONTINUING EDUCATION REQUIREMENT. Each applicant for renewal of a license to practice optometry in the state of Washington must have completed thirty hours of continuing education within the two years previous to his first renewal date on or after January 1, 1979, and must complete thirty hours of continuing education within each successive two-year period. For example, an individual with a renewal date of January 3, 1979, must have completed thirty credit hours of continuing education within the period beginning January 3, 1977, and ending January 2, 1979. On his renewal date of January 3, 1980, he will be eligible for renewal regardless of the number of continuing education credit hours he has accumulated since January 3, 1979, provided that he meets all other requirements for renewal; but then to be eligible for license renewal on January 3, 1981, he must have completed an additional thirty credit hours of continuing education within the period beginning January 3, 1979, and ending January 2, 1981, and so on for as long as he continues to practice. Provided, however, that each applicant for renewal of a license to practice optometry in the state of Washington must have completed fifty hours of continuing education within the two years previous to his first renewal date on or after January 1, 1985, and must complete fifty hours of continuing education within each successive two-year period. Applicants for renewal practicing only out of the state of Washington may petition the board for full recognition of the continuing education requirement through fulfillment of their state of practice's licensing and continuing education requirements. Failure to complete this requirement is cause for revocation of the license of any optometrist pursuant to RCW 18.53.100(14), or for refusal to renew the license of any optometrist, except that an optometrist applying for the first renewal of his license subsequent to his initial licensing will be exempt from this requirement.

NEW SECTION

WAC 308-53-125 POST-GRADUATE EDUCATIONAL PROGRAM. The board will be responsible, when financially permissible, to exercise control through the board, or its agent, of an annual post graduate educational program.

NEW SECTION

WAC 308-53-135 CREDIT FOR ADMISSION TO OPTOMETRIC ORGANIZATIONS AND PARTICIPATION IN PATIENT CARE REVIEWS. Continuing education credit may be granted for preparation and admission to optometric scientific groups (for example, the Academy of Optometry).

Continuing education credit may be granted for participation in formal reviews and evaluations of patient care such as Peer Review and case conference. Also,

Professional Standard Review Organization, Health Systems Agency, Health Planning Board, State Health Co-ordinating Council and State Health Planning Department, and sub-area councils of HSA and HEW and other official representation (and not mere attendance as an observer) relating to health care agencies may be granted continuing education credit.

NEW SECTION

WAC 308-53-165 CERTIFICATION FOR CONTINUING EDUCATION COURSES. All courses for which continuing education credit is requested shall be accompanied by proof of attendance at such courses and shall include: date(s), sponsor(s), location(s), subject(s) and hours attended with signed proof of attendance. If this is not possible, for good cause as determined by the board, then a statement signed by the claimant certifying his attendance at the course(s), the date(s), sponsor(s), location(s), subject(s), and hours attended shall be submitted to the Department of Licensing, Professional Licensing Division, in Olympia.

NEW SECTION

WAC 308-53-245 MISLEADING TITLES OR DEGREES. An optometrist shall not use misleading nor non-health related degrees or titles in connection with the professional practice of optometry. The use of an optometric designation such as "optometrist" or "doctor of optometry" shall not be used in connection with a business or activity that is not related to optometric care. Degrees, titles or professional identifications may not be used which have not been specifically granted to an optometrist by an approved school or college.

NEW SECTION

WAC 308-53-270 EMPLOYED DOCTORS OF OPTOMETRY. The salary, bonus or other remuneration of a doctor of optometry who is employed for professional optometric services, shall not be dependent upon the percentage or number of patients who obtain visual examinations or who have prescriptions filled. The employed optometrist, acting in the capacity of consultant, advisor or staff doctor of optometry, shall at all times remain cognizant of his professional responsibilities and with demeanor, decorum and determination retain his right of independent professional judgment and title in all situations and circumstances as he would in his own office. If at any time the right of independent professional judgment or title is abridged by the party or parties engaging the optometrist's services, it shall be incumbent upon the optometrist to resign his position as consultant, advisor or staff doctor of optometry.

NEW SECTION

WAC 308-53-275 PRACTICE UNDER ANOTHER OPTOMETRIST'S NAME. Pursuant to RCW 18.53.140, when the initial right to practice under the name of any lawfully licensed optometrist is transferred to another lawfully licensed optometrist or association of lawfully licensed optometrists, the right to

practice under such first optometrist's name may not be subsequently transferred by the first transferee and used by a third party or parties.

AMENDATORY SECTION (Amending Order 76-5, filed 12/31/76)

WAC 458-40-18600 GENERAL. Pursuant to the duty imposed by RCW ((~~82.04.291(3)~~) 84.33.071 (formerly RCW 82.04.291) to prepare tables of stumpage values for each species of timber and consistent with the duty to make allowances for age, size, quality, costs of removal, accessibility to point of conversion, market conditions, and all other relevant factors, the department has promulgated rules and prepared tables which prescribe stumpage values and make allowances for the relevant factors.

((These rules are intended to summarize certain of the provisions of RCW 82.04.291 and to promulgate rules and regulations authorized by RCW 82.04.291.)) These rules, WAC 458-40-18637 through 458-40-18642 and 458-40-19000 through 458-40-19004 are promulgated pursuant to the rule-making requirements, and procedures prescribed or authorized by chapter 34.04 RCW.

NEW SECTION

WAC 458-40-18637 DEFINITIONS FOR 1/1/80 THROUGH 6/30/80. (1) Acceptable Log Scaling Rule. The acceptable log scaling rule shall be the Scribner Decimal C Log Scale Rule or other prevalent measuring practice, provided that such other prevalent measuring practice shall be an acceptable scaling procedure and provided that such procedure shall be submitted to the department for approval prior to the time of harvest.

(2) Approved Log Scaling and Grading Rules.

(a) West of the Cascade Summit—Approved Scaling and Grading Rule. With respect to the reporting of timber harvested from private lands in areas west of the Cascade summit, which areas are designated as stumpage value areas 1, 2, 3, 4, 5, and 11 in the stumpage value area map of WAC 458-40-18638, the methods and procedures published by the Columbia River Log Scaling and Grading Bureau, Grays Harbor Log Scaling and Grading Bureau, and the Puget Sound Log Scaling and Grading Bureau and published as the "Official Log Scaling and Grading Rules" by the Puget Sound Log Scaling and Grading Bureau, Tacoma, Washington are approved by the department for use in those areas.

(b) East of the Cascade Summit—Approved Scaling Rule. With respect to the reporting of timber harvested from private lands in areas east of the Cascade summit, which areas are designated as stumpage value areas 6, 7, 8, 9, and 10 in the stumpage value area map of WAC 458-40-18638, the methods and procedures published

by the United States Forest Service under the title "National Forest Log Scaling Handbook" procedures are approved by the department for use in those areas. This log scaling handbook is published under the title FSH 2409-11 National Forest Log Scaling Handbook, Forest Service, United States Department of Agriculture.

(c) East of the Cascade Summit—Established Grading Rule. Because the National Forest Log Scaling Handbook does not contain grading rules, a separate computation shall be made to arrive at the proper grade for purposes of determining the timber quality code number for timber harvested east of the Cascade summit. The grade for quality classification purposes of the timber harvested from private land east of the Cascade summit shall be determined by the number of sawable sixteen foot logs per thousand feet net Scribner Decimal C Log Scale. The computation shall be made under the following three-step procedure:

(i) Step 1. The highest possible total number of sawable sixteen foot logs which could be recovered shall be determined by dividing the sum total of length of all sawable logs harvested by the number sixteen.

(ii) Step 2. The average net volume per sixteen foot recoverable log shall be determined by dividing the total volume harvested (net log scale) by the total number of sixteen foot logs as determined in Step 1.

(iii) Step 3. The total number of logs per thousand board feet (MBF) shall be determined by dividing one thousand by the average net volume as determined in Step 2.

(3) Codominant Trees. Trees whose crowns form the general level of the crown cover and receive full light from above, but comparatively little light from the sides.

(4) Department. Department, for the purposes of this chapter, shall mean the department of revenue of the state of Washington.

(5) Dominant Trees. Trees whose crowns are higher than the general level of the canopy and who receive full light from the sides as well as from above.

(6) Forest Excise Tax Payment. Every person who is engaged in business as a harvester of timber from privately owned land shall pay a forest excise tax which shall be equal to the taxable stumpage value of timber harvested for sale or for commercial or industrial use and multiplied by the appropriate rate as provided in RCW 82.04.291(1) and as amended by section 1, chapter 6, Laws of 1979.

(7) Harvester. Harvester shall mean every person who from his own privately owned land or from privately owned land of another under a right or license granted by lease or contract, either directly or by contracting with others, takes timber for sale or for commercial or industrial use. It does not include persons performing under contract the necessary labor or mechanical services for a harvester.

(8) Harvested Timber—When Determined. Timber shall be considered harvested at the time when in the ordinary course of business the quantity thereof by species is first definitely determined.

(9) Harvest Type. Harvest type shall be a term referring to the grouping of harvested timber by age and type

of harvest and shall include and is limited to the following harvest types:

(a) Merchantable Sawtimber, All Ages—The removal of timber east of the Cascade summit shall be reported as "merchantable sawtimber, all ages", unless the harvest type comes within the definition in this chapter of "special forest products harvest".

(b) Old Growth Final Harvest. The removal of any timber from a harvest unit that is over 100 years of age and west of the Cascade summit shall be reported as "old growth final harvest" unless the harvest type comes within the definition in this chapter of "special forest products harvest".

(c) Special Forest Products. The removal of Christmas trees (except as provided in RCW 84.33.170), shake blocks and boards, and posts and other western red cedar products shall be reported as "special forest products harvest".

(d) Thinning. The removal of timber from a harvest unit meeting all the following conditions:

(i) Harvest unit located west of the Cascade Summit;

(ii) Timber is less than 100 years of age;

(iii) The total merchantable volume which is removed is less than forty percent of the total merchantable volume of the harvest unit prior to harvest;

(iv) Not more than forty percent of the total volume removed is from the dominant and codominant trees;

(v) The trees removed in the harvest operation shall be distributed over the entire harvest unit.

(e) Young Growth Final Harvest. The removal of any timber from a harvest unit that is 100 years of age or less and west of the Cascade summit shall be reported as "young growth final harvest" unless the harvest type comes within the definition in this chapter of "special forest products harvest" or within the definition of "thinning harvest".

(10) Harvest Unit. A harvest unit is a harvest area having the same forest excise tax permit number, stumpage value area, hauling distance zone, harvest type, harvest adjustments and harvester. A harvest unit may include more than one section.

(11) MBF. As used herein MBF shall mean one thousand board feet measured in Scribner Decimal C Log Scale Rule.

(12) Sawlog. Sawlog shall mean any log large enough to produce one-third of its gross volume in sound lumber or other products that can be sawed.

(13) Small Harvest. A small harvest is defined as the total net volume harvested from all units, a selected unit, or a combination of units (including conifer special cull or utility and hardwood utility) is 250 thousand board feet or less in a given reporting quarter.

(14) Species. Species designation is a biologically-based grouping of harvested timber and shall include but is not limited to the following designations of species and subclassifications thereof:

(a) West of the Cascade summit:

(i) "Douglas fir", "western hemlock", "true fir", "western red cedar", "noble fir", "Sitka spruce", "Alaska yellow cedar", "red alder", and "cottonwood" shall be reported as separate species where designated as

such in the stumpage value tables of WAC 458-40-18641.

(ii) In areas west of the Cascade summit, species designations for the harvest type "special forest products" shall be "western red cedar" (shake blocks and boards), western red cedar flatsawn and shingle blocks "western red cedar and other" (posts), "Douglas fir", "true fir and others", (Christmas trees).

(b) East of the Cascade summit:

(i) "Ponderosa pine", "lodgepole pine", "white pine", "Douglas fir", "western hemlock", "true fir", "western red cedar", "western larch" and "Engelmann spruce" shall be reported as separate species where designated as such in the stumpage value tables of WAC 458-40-18641.

(ii) In areas east of the Cascade summit, species designations for the harvest type "special forest products" shall be "western red cedar" (flatsawn and shingles), "western larch" (flatsawn and shingle blocks), "lodgepole pine and other" (posts), "pine" (Christmas trees), "Douglas fir and other" (Christmas trees).

(c) All areas:

(i) "Other conifer", as used in the stumpage value tables, shall be all other conifers not separately designated in the applicable stumpage value tables.

(ii) "Hardwood", and "other hardwood", as used in the stumpage value tables, shall be all hardwoods not separately designated in the applicable stumpage value tables.

(iii) "Utility", "conifer utility", and "hardwood utility" are separate species as defined by the "Official Log Scaling and Grading Rules" published by the Puget Sound Log Scaling and Grading Bureau and shall be reported as separate species where designated as such in the stumpage value tables.

(15) Stumpage Value Area. A stumpage value area is an area with specified boundaries which contains timber having similar growing, harvesting, and marketing conditions. Presently, there are eleven such stumpage value areas designated in the state of Washington as shown under WAC 458-40-18638. Stumpage value areas 1, 2, 3, 4, 5, and 11 are located west of the Cascade summit and stumpage value areas 6, 7, 8, 9, and 10 are located east of the Cascade summit.

(16) Stumpage Value of Timber. The stumpage value of timber shall be the appropriate value for each species of timber harvested, or for each species of "special forest product" reported, as set forth in the stumpage value tables under WAC 458-40-18641.

(17) Timber. Timber shall include forest trees, standing or down, on privately owned land, and except as provided in RCW 84.33.170 includes Christmas trees, shake blocks and boards, posts and other western red cedar products.

(18) Timber Quality Code Number. The timber quality code number is a number assigned to the harvest of a particular species within a harvest type under WAC 458-40-18640, and is based upon the constituent percentage of log grade specifications within the total volume of timber harvested for that particular species.

NEW SECTION

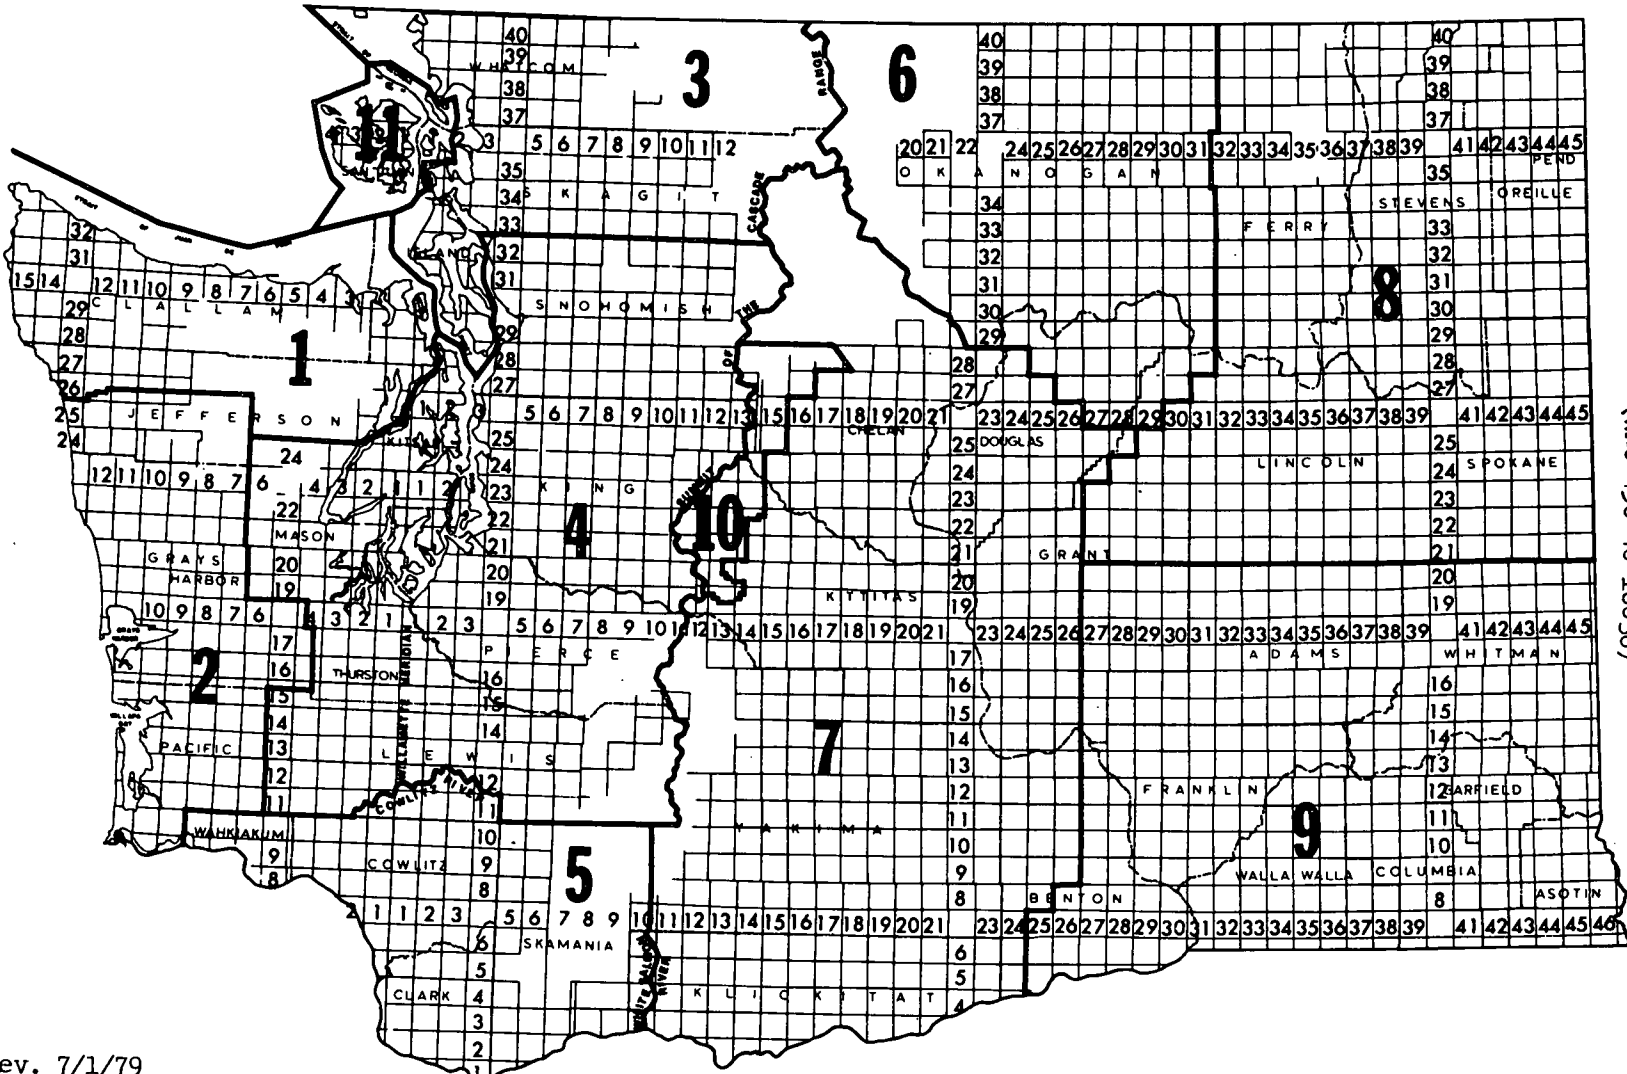

WAC 458-40-18638 STUMPAGE VALUE AREAS—MAP FOR 1/1/80 THROUGH 6/30/80. In order to allow for differences in market conditions and other relevant factors throughout the state as required by RCW 82.04.291(3) and as amended by section 1, chapter 6, Laws of 1979, the department has created a map designating areas containing timber having similar growing, harvesting, and marketing conditions. The stumpage value area map shall be used for the determination of stumpage values.

The stumpage value area map shown herein shall be used to determine the proper stumpage value table to be used in calculating the taxable stumpage value under WAC 458-40-18641.

The following stumpage value area map is hereby adopted for use during the period of January 1, 1980 through June 30, 1980:

WAC 458-40-18639 HAULING DISTANCE ZONES—MAPS FOR 1/1/80 THROUGH 6/30/80.
In order to allow for differences in hauling costs and other relevant factors as required by RCW 82.04.291(3) and as amended by section 1, chapter 6, Laws of 1979, the department has designated zones within each stumpage value area which have similar accessibility to conversion points and other similar hauling cost factors.

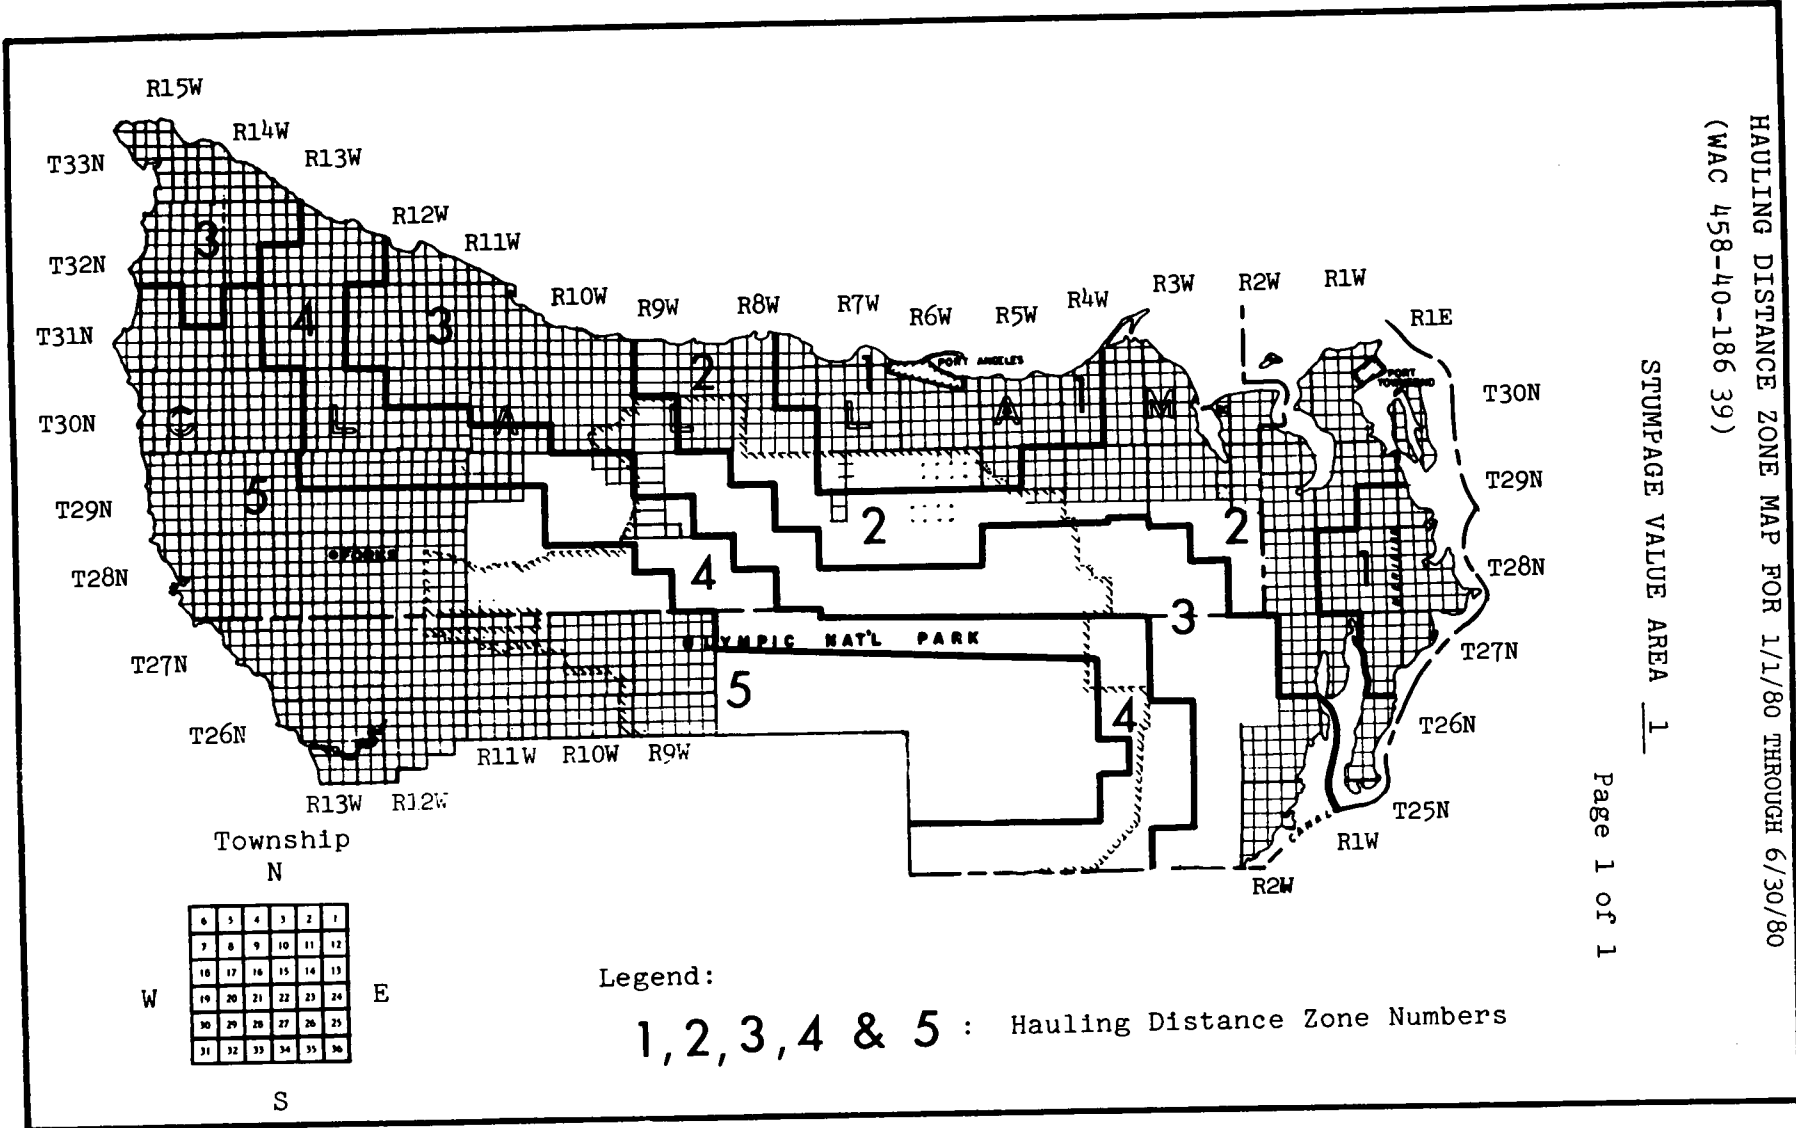

The hauling distance zone numbers on the following hauling distance zone maps establish the hauling distance zone numbers which are to be used in computing timber harvest value under the stumpage value tables of WAC 458-40-18641.

The following hauling distance zone maps designating zones established by the department as having similar hauling costs for transportation of forest products to the market, are hereby adopted for use during the period of January 1, 1980 through June 30, 1980:

WAC 458-40-18640 TIMBER QUALITY CODE NUMBERS—TABLES FOR 1/1/80 THROUGH 6/30/80. In order to allow for differences in age, size, quality of timber and other relevant factors as required by RCW 82.04.291(3) and as amended by section 1, chapter 6, Laws of 1979, the department has assigned timber quality code numbers for harvests of the various designated harvest types and species.

Scaling and grading information derived from an acceptable log scaling and grading rule for the particular harvest type and species shall be used to determine the proper quality code number.

For each timber quality code number in the following tables, there is a corresponding timber quality code number for that particular harvest type and species in the stumpage value tables of WAC 458-40-18641 which is to be used in computing timber harvest value.

The following timber quality code tables are hereby adopted for use during the period of January 1, 1980 through June 30, 1980:

¹ For detailed descriptions and definitions of log scaling rules and procedures see the Official Log Scaling and Grading Rules revised January 1, 1978, published by the Puget Sound Log Scaling and Grading Bureau. These are also used by the Columbia River and Grays Harbor Scaling and Grading Bureaus. To determine timber quality code number for Western Washington, see the following example.

WESTERN WASHINGTON EXAMPLE: The following example is for determining the timber quality number code for timber harvested in stumpage value areas 1, 2, 3, 4, 5, and 11 in Western Washington. The following method can be used to determine the quality code number for species in "old growth final harvest",

"young growth final harvest", and "thinning harvest" types.

The example shown below is for a harvest of 150 thousand board feet (150 MBF) of the species, Douglas Fir, and the harvest type, young growth final harvest, with the following volumes at the indicated grades:

Log Grade	Net Volume, Scribner Scale
Special Mill	20 MBF
No. 1 sawmill	20 MBF
No. 2 sawmill	45 MBF
No. 3 sawmill	35 MBF
No. 4 sawmill	30 MBF
TOTAL	150 MBF

To determine the proper quality code number, add the scale volumes for the grades as established by the approved grading rule. Divide this volume by the total volume harvested for the species. In this example, the Special Mill and the No. 1 and 2 sawmill logs account for 85 MBF of the 150 MBF Douglas Fir harvested. Divide as follows:

$$\frac{20 + 20 + 45}{150} \text{ or } \frac{85}{150} = .567 \times 100 = 56.7\%$$

In this example, the Special Mill, No. 1 and 2 sawmill logs make up 56.7% of the Douglas Fir harvested. Since this is between 40 and 70% No. 2 sawmill and better, the entire Douglas Fir harvested would be reported as:

Species	Timber Quality Code Number	Net Volume Harvested
Douglas Fir	2	150 MBF

TABLE 4—TIMBER QUALITY CODE TABLE STUMPAGE VALUE AREAS 6, 7, 8, AND 9 (for 1/1/80 through 6/30/80) MERCHANTABLE SAWTIMBER, ALL AGES

Timber Quality Code Number	Species	Log Grade Specifications ¹
1	Ponderosa Pine	Less than 10 logs 16 feet long per thousand board feet Scribner scale
	All Conifers Other Than Ponderosa Pine	All log sizes
	Hardwoods	Sawlogs only
2	Ponderosa Pine	10 or more logs 16 feet long per thousand board feet Scribner scale
4	Utility	All logs graded as utility

¹To determine timber quality code number in Stumpage Value Areas 6, 7, 8 and 9 for Eastern Washington, see the following example.

EASTERN WASHINGTON EXAMPLE: The following example is for determining the timber quality code for timber harvested in stumpage value areas 6, 7, 8 and 9 in Eastern Washington.

The example shown below is for a harvest of 150 thousand board feet (150 MBF) of the species, Ponderosa Pine, and harvest type merchantable sawtimber, all ages with a sum total log length of 19,200 feet.

Step 1. The highest possible number of sawable sixteen foot logs which could be recovered is determined by dividing the sum total length of all sawable logs harvested (i.e. 19,200) by 16. Answer: 1200 logs.

Step 2. The average net volume per sixteen foot recoverable log is determined by dividing the total volume harvested (150 MBF) by the number of sixteen foot logs (1200). Answer: 125.

Step 3. The total number of logs per thousand board feet is determined by dividing 1000 by the average net volume per sixteen foot recoverable log (125). Answer: 8 logs per 1 MBF.

Step 4. Because the timber quality code table lists 1 to 9 logs per 1 MBF for Ponderosa pine as timber quality code number 1, the harvest was at 8 logs per 1 MBF the entire Ponderosa pine harvest would be reported as:

Species	Timber Quality Code Number	Volume Harvested
Ponderosa Pine (PP)	1	150 MBF

TABLE 5—TIMBER QUALITY CODE TABLE STUMPAGE VALUE AREA 10 (for 1/1/80 through 6/30/80) MERCHANTABLE SAWTIMBER, ALL AGES

Timber Quality Code Number	Species	Log Grade Specifications ¹

2	Ponderosa Pine	5 to 9 logs inclusive 16 feet long per MBF net log Scribner scale
	Other Conifer	5 to 12 logs inclusive 16 feet long per MBF net log scale
3	Ponderosa Pine	More than 9 logs 16 feet long per MBF net log Scribner scale
	Other Conifer	More than 12 logs 16 feet long per MBF net log Scribner scale

¹To determine timber quality code number in Stumpage Value Area 10 in Eastern Washington, see the following example.

EASTERN WASHINGTON EXAMPLE: The following example is for determining the timber quality code for timber harvested in stumpage value area 10 in Eastern Washington.

The example shown below is for a harvest of 150 thousand board feet (150 MBF) of the species, Ponderosa Pine, and harvest type merchantable sawtimber, all ages with a sum total log length of 19,200 feet.

Step 1. The highest possible number of sawable sixteen foot logs which could be recovered is determined by dividing the sum total length of all sawable logs harvested (i.e. 19,200) by 16. Answer: 1200 logs.

Step 2. The average net volume per sixteen foot recoverable log is determined by dividing the total volume harvested (150 MBF) by the number of sixteen foot logs (1200). Answer: 125.

Step 3. The total number of logs per thousand board feet is determined by dividing 1000 by the average net volume per sixteen foot recoverable log (125). Answer: 8 logs per 1 MBF.

Step 4. Because the timber quality code table lists 5-9 logs per 1 MBF for Ponderosa pine as timber quality code number 2, the harvest was at 8 logs per 1 MBF the entire Ponderosa pine harvest would be reported as:

Species	Timber Quality Code Number	Volume Harvested
Ponderosa Pine (PP)	2	150 MBF

WAC 458-40-18641 STUMPAGE VALUES—TABLES FOR 1/1/80 THROUGH 6/30/80. As required by RCW 82.04.291 and as amended by section 1,

chapter 6, Laws of 1979, the department has prepared tables which assign stumpage value rates for the various harvest types, which rates vary depending upon the stumpage value area, species, timber quality code number and hauling distance zone involved. Where the timber harvested is used to produce harvest type "special forest products" the value tables of this section shall establish the values for such special forest products.

The following stumpage value and special forest product value tables are hereby adopted for use during the period of January 1, 1980 through June 30, 1980.

NEW SECTION

WAC 458-40-18642 HARVESTER ADJUSTMENTS—TABLES FOR 1/1/80 THROUGH 6/30/80. In order to make reasonable and adequate allowances for costs of removal and size of logging operation in computation of stumpage value rates as required by RCW 82.04.291(3) and as amended by section 1, chapter 6, Laws of 1979, the department has prepared tables which allow for adjustments to the stumpage value rates derived from the stumpage value tables of WAC 458-40-18641.

Harvest adjustments relating to harvest volume per acre, logging conditions and average volume per log shall be allowed against the stumpage value rates for the designated harvest types and in the designated stumpage value areas as set forth in the following tables with the following limitations:

- (1) No harvest adjustment shall be allowed against "special forest products".
- (2) No harvest adjustment shall be allowed against "utility", "conifer utility", and "hardwood utility".

- (3) Rates for the harvest type "old growth final harvest", shall be adjusted to a value no lower than \$10 per thousand board feet.
- (4) Rates for the harvest type "young growth final harvest", conifers, shall be adjusted to a value no lower than \$5 per thousand board feet.
- (5) Stumpage value rates for conifers within the harvest type "merchantable sawtimber, all ages", shall be adjusted to a value no lower than \$5 per thousand board feet.
- (6) Stumpage value rates for "hardwood" and for "thinning harvest" shall be adjusted to a value no lower than \$1 per thousand board feet.

A small harvest adjustment table for use in all stumpage value areas is set forth below providing for adjustment of stumpage value rates if the total volume of timber harvested in a given quarter is within the volume classes provided therein.

The following harvest adjustment tables are hereby adopted for use during the period of January 1, 1980 through June 30, 1980:

¹Pole class definitions as per American National Standard specifications and dimensions for wood poles as approved August 7, 1976 under American Nation Standard Institute, Inc. codified ANSI 05.1-1972.

²Long log volume calculations are based on Official Log Scaling and Grading Rules, revised January 1, 1978, published by The Puget Sound Log Scaling Bureau. These rules are also used by The Columbia River and the Grays Harbor Log Scaling and Grading Bureau.

³The number, enclosed in parenthesis after the total Scribner pole volume for each pole length and class, is the volume per pole for Number 2 sawmill and better log grade, where applicable.

¹ Pole class definitions as per American National Standard specifications and dimensions for wood poles as approved August 7, 1976 under American National Standard Institute, Inc. codified ANSI 05.1-1972.

² Volumes are based on the Scribner Decimal C log rule in the U.S.F.S. Log Scaling Handbook. Poles over 16 feet long were segment scaled in accordance with the rules set forth in the U.S.F.S. Log Scaling Handbook, using the average top diameter by size and class and assuming a 1" in 10' taper.

² Volumes are based on the Scribner Decimal C log rule in the U.S.F.S. Log Scaling Handbook. Poles over 16 feet long were segment scaled in accordance with the rules set forth in the U.S.F.S. Log Scaling Handbook, using the average top diameter by size and class and assuming a 1" in 10' taper.

AMENDATORY SECTION (Amending Emergency Order FT 79-34 and Permanent Order FT 79-35, filed 6/29/79)

WAC 458-40-19004 **CONVERSION DEFINITIONS AND FACTORS FOR THE CALENDAR PERIOD ((7/1/79)) 1/1/80 THROUGH ((12/31/79)) 6/30/80.** (1) The following standard conversion definitions and factors shall be used in determining Scribner board foot volume scale for timber harvested that was not originally scaled in Scribner board foot volume scale((-));

Table No.	Conversion Method
1	Standard Cord For logs on the average of 8 inches and larger on the small end of the log the conversion factor is 400 Scribner board feet per cord and for logs on the average of less than 8 inch on the small end of the log the conversion factor is 330 Scribner board feet per cord.
2	Shake Blocks and Boards A cord consisting of Cedar shingle or shake blocks based on stacked dimensions of 4 feet by 4 feet by 8 feet is equivalent to 600 Scribner board feet.

Table No. Conversion Method

- 3 Cants or Lumber from Portable Mills
Payment for cants is generally based on the board foot volume (lumber tally) cut from them. Payment for lumber cut from a portable mill is also generally based on the lumber tally from the log. To convert from lumber tally to Scribner log volume, multiply the lumber tally for the individual species by 75% and round to the nearest one thousand board feet Scribner scale.
- 4 Log Length Conversion Western Washington Only (Stumpage Value Areas 1, 2, 3, 4, 5, and 11).
Operations that cut and scale logs in short lengths (16 feet to 20 feet) shall adjust the volume downward to correspond to the long log scale basis used in the Stumpage Value Tables. To convert to long log scale, multiply the short log scale for each species by 82% and round to the nearest thousand board feet.
- 5 Log Length Conversion Eastern Washington Only (Stumpage Value Areas 6, 7, 8, 9 and 10).
Operations that cut and scale logs in long lengths (32 feet to 40 feet) shall adjust the volume upward to correspond to the short log scale basis used in the Stumpage Value Tables. To convert to short log scale, multiply the long log scale for each species by 118% and round to the nearest thousand board feet.
- 6 Some standard converting factors and equivalents:
 - (a) 1 standard cord equals 128 cubic feet, gross
 - (b) 1 standard cord equals 85 cubic feet, solid wood
 - (c) 1 standard cord equals 2.4069 cubic meters of solid wood
 - (d) 1 cunit equals 100 cubic feet, log scale
 - (e) 1 meter equals 39.37 inches
 - (f) 1 cubic meter equals 35.315 cubic feet log scale
 - (g) 1 cunit equals 2.832 cubic meters, log scale
 - (h) 1 pound equals 0.454 kilograms
 - (i) 1 kilogram equals 2.2046 pounds
 - (j) 1 short ton equals 2000 pounds
 - (k) 1 short ton equals 907.18 kilograms
 - (l) 1 long ton equals 2240.0 pounds
 - (m) 1 long ton equals 1016.05 kilograms
 - (n) 1 metric ton (or tonne) equals 1000 kilograms or approximately 2204.62 pounds.

(2) If the harvester chooses not to use the designated conversion definitions and/or factors, the harvester shall obtain approval of the procedure from the department before harvesting.

EXAMPLE: Weight or Cubic Measurement. If the original unit of measure was by weight (pounds or tons) or cubic feet (cunits or units), the harvester shall convert

to Scribner Board Foot volume, but may use only such conversion procedures and factors as have been given prior approval by the department.

- (c) The household, previously determined by the department to be entitled to benefits as a result of the household winning a fair hearing or an error being made in determining the household's eligibility, was denied restoration of benefits because the household was not currently participating.

(4) The department shall notify the household of its entitlement, the amount of benefits to be restored, the method of restoration and the right to appeal, and any offsetting that was done.

(5) If the department determines that a household is entitled to restoration of lost benefits, but the household does not agree with the amount to be restored or with any other action taken by the department, the household may request a fair hearing within 90 days of the date the household is notified of its entitlement to restoration of lost benefits(-), as specified in WAC 388-54-805(3)(c). Households previously notified they were due benefits but who could not receive them because they were not currently participating may request a fair hearing 90 days from the date the CSO makes a decision on the request to restore benefits.

(a) If a fair hearing is requested prior to or during the time lost benefits are being restored, the household shall continue to receive the lost benefits, as determined by the department, pending the result of the fair hearing.

(b) If the fair hearing decision is favorable to the household, the department shall restore the lost benefits in accordance with that decision.

(c) If a household and the department disagree about the household's entitlement to restoration of lost benefits, the household has 90 days from the date of the department determination to request a fair hearing. The department shall restore lost benefits to the household only if the fair hearing decision is favorable to the household. Benefits lost more than 12 months prior to the date the department was initially informed of the household's possible entitlement shall not be restored(-) unless the household was previously notified they were due benefits but could not receive them because they were not currently participating. In these cases, the 12-month limitation does not apply.

(6) Individuals disqualified for fraud are entitled to restoration of benefits lost during the months they were disqualified only if the decision which resulted in disqualification is subsequently reversed. Benefits shall be restored regardless of the length of time that has elapsed since the household member was disqualified.

(7) The department shall restore lost benefits to a household whether or not it is currently eligible or ineligible, by issuing an allotment equal to the amount of benefits that were lost.

(8) The department shall restore lost benefits that occurred prior to elimination of the purchase requirement.

Households assigned a purchase requirement that was too high or assigned an incorrect household size shall be entitled to restoration of their lost benefits. The amount shall be equal to the difference between the bonus stamps the household received and the correct amount the household should have received.

(9) Whenever lost benefits are due a household and the household's membership has changed, the department shall restore the lost benefits to the household containing a majority of the individuals who were household members at the time the loss occurred. If the department cannot locate or determine the household which contains this majority, it shall restore the lost benefits to the household containing the head of the household at the time the loss occurred.

(10) The department shall honor reasonable requests by households to restore lost benefits in monthly installments if, for example, the household fears the excess coupons may be stolen, or that the amount to be restored is more than it can use in a reasonable period of time.

(11) Households described in WAC 388-54-805(3)(c) shall provide the CSO with a copy of the notice they received if it was within the past three years. If it has been more than 3 years, the household may complete an affidavit stating they received notice that they were due an amount of stamps or were overcharged for the stamps they received. The affidavit shall also include an explanation by the household of their entitlement. The affidavit is not necessary if the amount due can be verified through case records or accounts payable ledgers.

(2) Nonfraud claims shall not be established against a household:

(a) That has transacted an expired ATP unless the household has altered the ATP.

(b) That failed to sign the application form, completed a current work registration form, was certified in the incorrect project area, or received food stamp benefits after its certification period had expired, as a result of department oversights.

(4) In calculating the amount of the nonfraud claim, the department shall determine the correct amount of food stamp benefits the household should have received after excluding those months that are more than 12 months prior to the date the overissuance was discovered. In cases involving reported changes, the department shall determine the month the overissuance initially occurred as follows:

(a) If the household failed to report a change within 10 days of the date the change became known to the household due to misunderstandings or inadvertent error, the first month affected by the household's failure to report shall be the first of the following month the change occurred.

(b) If the household timely reported a change, but the department did not timely act on the change, the first month affected by the department's failure to act shall be the first month the department should have made the change effective.

(5) After calculating the amount of the nonfraud claim, the department shall offset the amount of the claim against any amounts which have not yet been restored to the household pursuant to WAC 388-54-805.

(6) The department shall initiate collection action on all nonfraud claims unless the claim is collected through offset or one of the following conditions apply:

(a) The total amount of the nonfraud claim is less than \$35.00.

(b) The department has documentation which shows that the household cannot be located.

(c) The department shall initiate collection action by sending the household a written demand letter which informs the household:

- (i) The amount owed and the reason for the claim;
- (ii) The period of time the claim covers;
- (iii) Any offsetting that was done to reduce the claim and how the household may pay the claim;
- (iv) The household's right to a fair hearing;
- (v) The statement which specifies that if a household is delinquent in repayment or is unable to pay the claim, the household's eligibility or level of benefits will not be affected.

(d) If the household does not respond to the first demand letter, additional letters shall be sent at 30 day intervals until the household has responded by paying or agreeing to pay the claim or until criteria for suspending or terminating collection action have been met.

(7) Collection of a nonfraud claim shall be suspended when:

- (a) The household is financially unable to pay.
- (b) There is a little likelihood that the household will pay the claim.
- (c) The household cannot be located or;
- (d) The cost of further collection action is likely to exceed the amount that can be recovered.

(8) The department shall terminate collection action if the claim has been held in suspense for three years.

AMENDATORY SECTION (Order 1374, filed 3/1/79)

WAC 388-54-805 ISSUANCE—RESTORATION OF LOST BENEFITS. (1) Whenever a household receives fewer benefits than it is entitled to receive as a result of error by the department, the department shall restore those benefits which were lost within 12 months of:

- (a) The month the department was notified by the household or by another person or agency in writing or orally of the possible loss.
 - (b) The month the department discovers that a loss to a specific household has occurred.
 - (c) The date the household requested a fair hearing to contest the adverse action which resulted in the loss.
- (2) Benefits shall be restored even if the household is currently ineligible.
- (3) The 12-month limitation does not apply to benefits which are to be restored ~~((as a result of a reversal of a fraud disqualification penalty))~~ when:

- (a) A fraud disqualification penalty is reversed;
- (b) Amounts deducted from SSI benefits to repay SSI overpayments, since January 1976, were counted as food stamp income (households may apply for this benefit until 5-1-80);
- (c) The household, previously determined by the department to be entitled to benefits as a result of the household winning a fair hearing or an error being made in determining the household's eligibility, was denied restoration of benefits because the household was not currently participating.

(4) The department shall notify the household of its entitlement, the amount of benefits to be restored, the method of restoration and the right to appeal, and any offsetting that was done.

(5) If the department determines that a household is entitled to restoration of lost benefits, but the household does not agree with the amount to be restored or with any other action taken by the department, the household may request a fair hearing within 90 days of the date the household is notified of its entitlement to restoration of lost benefits~~(:)~~, as specified in WAC 388-54-805(3)(c). Households previously notified they were due benefits but who could not receive them because they were not currently participating may request a fair hearing 90 days from the date the CSO makes a decision on the request to restore benefits.

(a) If a fair hearing is requested prior to or during the time lost benefits are being restored, the household shall continue to receive the lost benefits, as determined by the department, pending the result of the fair hearing.

The department shall restore lost benefits to the household only if the fair hearing decision is favorable to the household. Benefits lost more than 12 months prior to the date the department was initially informed of the household's possible entitlement shall not be restored~~(:)~~ unless the household was previously notified they were due benefits but could not receive them because they were not currently participating. In these cases, the 12-month limitation does not apply.

(6) Individuals disqualified for fraud are entitled to restoration of benefits lost during the months they were disqualified only if the decision which resulted in disqualification is subsequently reversed. Benefits shall be restored regardless of the length of time that has elapsed since the household member was disqualified.

(7) The department shall restore lost benefits to a household whether or not it is currently eligible or ineligible, by issuing an allotment equal to the amount of benefits that were lost.

(8) The department shall restore lost benefits that occurred prior to elimination of the purchase requirement. Households assigned a purchase requirement that was too high or assigned an incorrect household size shall be entitled to restoration of their lost benefits. The amount shall be equal to the difference between the bonus stamps the household received and the correct amount the household should have received.

(9) Whenever lost benefits are due a household and the household's membership has changed, the department shall restore the lost benefits to the household containing a majority of the individuals who were household members at the time the loss occurred. If the department cannot locate or determine the household which contains this majority, it shall restore the lost benefits to the household containing the head of the household at the time the loss occurred.

(10) The department shall honor reasonable requests by households to restore lost benefits in monthly installments if, for example, the household fears the excess coupons may be stolen, or that the amount to be restored is more than it can use in a reasonable period of time.

(11) Households described in WAC 388-54-805(3)(c) shall provide the CSO with a copy of the notice they received if it was within the past three years. (7) Collection of a nonfraud claim shall be suspended when:

(a) The household is financially unable to pay.

(b) There is a little likelihood that the household will pay the claim.

(c) The household cannot be located or;

(d) The cost of further collection action is likely to exceed the amount that can be recovered.

(8) The department shall terminate collection action if the claim has been held in suspense for three years.

Lapsed approvals may be renewed for successive one-year periods thereafter at the discretion of the secretary upon the written request.

(b) As a condition of renewal, the secretary may require the plans and specifications to be revised to conform with the design standards and the requirements of the rules and regulations of this chapter current at the time of request for renewal.

(4) Requirements for engineers and certification: All preliminary engineering reports and plans and specifications for new larger on-site sewage disposal systems, extensions or alterations, shall be prepared by a professional engineer licensed in the state of Washington in accordance with chapter 18.43 RCW and shall bear the engineer's seal. Within sixty days following the completion of and prior to the use of any project or portion thereof for which plans and specifications have received the approval of the secretary, a certification shall be made to the department and signed by a professional engineer that the engineer or his authorized agent has inspected the physical facilities of the project, which as to layout, size and type of pipe, valves and materials and other designed physical facilities has been constructed in accordance with the plans and specifications approved by the secretary.

Chapter 173-563 WAC
INSTREAM RESOURCES PROTECTION PROGRAM FOR THE MAIN STEM COLUMBIA RIVER IN WASHINGTON STATE

NEW SECTION

WAC 173-563-010 BACKGROUND AND PURPOSE. The Columbia River is an international as well as an interstate river with

its waters subject to laws of seven western states, the Province of British Columbia, Canada, and the federal governments of the United States and Canada. The flows and levels of the river are in a state of continuous change through the operation of numerous federally owned or federally licensed dams located within the river. The waters of the Columbia River are operated to support extensive irrigation development, inland navigation, and municipal and industrial uses. Among all these uses, the anadromous fisheries of the Columbia River, which are dependent on clean flowing water, require for their survival the establishment of minimum flows of water and special actions by all agencies sharing in the management of the Columbia River.

The provisions of this chapter apply, as a matter of state law, to water right permits issued pursuant to the state's water rights code. The provisions hereof shall provide the department of ecology the basic state policy relating to minimum flows and levels for the Columbia River, for submission to various federal, interstate and state agencies having jurisdiction over the river. Further, the department of ecology of the state of Washington recognizes that, under our federal constitutional system, regulatory powers over the river are shared powers between the United States and the state of Washington and that by various federal actions the state's powers may, and in some cases, have been superseded through the mandates of the Supremacy Clause of the United States Constitution. Existing rights are not subject to the provisions of this chapter.

This chapter is adopted, under state legislative mandate, to promote the proper utilization of the water resources of the Columbia River and to protect and insure the viability of the instream resource values associated with the main stem of the Columbia River in the future through (1) the establishment of minimum flows on the main stem Columbia River in Washington State, and (2) the creation of conservation and efficiency requirements to facilitate a sharing of the burden of a water shortage among various uses and users during low water years.

NEW SECTION

WAC 173-563-020 APPLICABILITY. (1) This chapter applies to public surface waters of the main stem Columbia River in Washington State and to any ground or surface water the withdrawal of which is determined by the department of ecology to have a significant and direct impact on the surface waters of the main stem Columbia River.

(2) Chapter 173-500 WAC, the general rules of the department of ecology for the implementation of the comprehensive water resources program mandated by RCW 90.54.040, applies to this chapter.

(3) Nothing in this chapter shall affect existing water rights, riparian, appropriative, or otherwise, existing on the effective date of this chapter, including existing rights relating to the operation of any navigation, hydroelectric, or water storage reservoir, or related facilities.

NEW SECTION

WAC 173-563-030 AUTHORITY. These rules are adopted under the authority of chapter 90.54 RCW, chapter 90.22 RCW, chapter 90.03 RCW, and section 8, chapter 216, Laws of 1979 first extraordinary session, and in relation to chapter 173-500 WAC.

For the reach from Grand Coulee through Wanapum, minimum average daily flows shall be as shown above, or as necessary to maintain minimum flows (subject to low runoff adjustment) as Priest Rapids, whichever is higher. As provided in WAC 173-563-050(1), the minimum average daily flows set forth in this subsection are subject to a reduction of up to twenty five percent during low flow years, except that in no case shall the outflow from Priest Rapids Dam be less than 36,000 cfs.

NEW SECTION

WAC 173-563-050 CRITICAL FLOW ADJUSTMENT TO MINIMUM INSTANTANEOUS AND DAILY AVERAGE FLOWS. (1) The director of the department of ecology, when he deems it to be an overriding public interest requirement, may reduce the minimum instantaneous and/or daily average flows for the Columbia River established in WAC 173-563-040 up to twenty five percent during low flow years, except that in no case shall the outflow from Priest Rapids be less than 36,000 cfs. The amount of the reduction (from zero to twenty-five percent) shall be: (a) based on the March 1 forecast for April through September runoff at the Dalles, Oregon, as published by the National Weather Service in Water Supply Outlook for the Western United States, and (b) determined from Figure 1 in WAC 173-563-900.

(2) The department has determined that some damage to instream values will be incurred at flow values below eighty-eight million acre-feet. Therefore, the reduced flows shall be referred to as critical flows and shall be authorized by the director of the department of ecology under the critical flow adjustment only when the March 1 forecast of April through September flow at The Dalles is below eighty-eight million acre-feet (MAF). The critical flows shall, in no case, provide less than 39.4 MAF (seventy-five percent of 52.5 MAF for the April through September period).

(3) All water right permits and certificates subject to this chapter shall be issued subject to the department's minimum flow requirements. (The minimum average daily flows established in WAC 173-563-040(1) and (2) are equivalent to a flow of 52.5 MAF at The Dalles for the April through September period.) All water rights subject to this flow (or its modification as established in WAC 173-563-050 during low water years) shall be regulated against on the basis of first-in-time is first-in-right.

(4) When the actual regulated flow at The Dalles is less than the minimum flows established in WAC 173-563-040 and WAC 173-563-050 and when the quantity of water in water right permits and certificates subject to this chapter is less than the difference between the minimum flows and the actual regulated flow, all rights subject to this chapter shall be curtailed and all diversions shall cease.

(5) The director of the department of ecology may waive the state's minimum flow requirements delineated in WAC 173-563-040 for a defined period of time for the purpose of studying the impacts of various flow levels on the river system and its operation when such studies are to be conducted in consultation with the Washington departments of fisheries and/or game and when said exemption is requested by the

departments of fisheries and/or game. Such a request shall be made by letter to the director of the department of ecology.

(6) All permits and certificates issued subject to this chapter shall contain the following provision:

This permit/certificate is subject to the minimum flow provisions contained in WAC 173-563-040 and WAC 173-563-050 and is subject to regulation by the department of ecology to insure protection of instream resources.

NEW SECTION

WAC 173-563-060 ESTABLISHMENT OF CONSERVATION AND EFFICIENCY REQUIREMENTS. (1) The department, having determined that public water is available from the main stem of the Columbia River in Washington and that continued issuance of water right permits and certificates therefrom is in the public interest, does acknowledge that diversions from the main stem Columbia River in Washington State may, under certain flow conditions, have a detrimental effect on instream values.

(2) It is in the public interest that the state's water resources be conserved and that the burden of water shortages in low water years should be shared by the users.

(3) When, in the director's opinion, overriding considerations of the public interest will be served, the director may require conservation and efficiency measures to be applied against all future consumptive surface and ground water rights issued subject to this chapter.

(4) Conservation measures shall be based on the March 1 forecasted runoff for the April through September period as measured at The Dalles, Oregon as published in the National Weather Service's Water Supply Outlook for the Western United States. These measures may be instituted during years when the March 1 forecasted runoff for the April through September period is less than eighty-eight million acre-feet at The Dalles. Eighty-eight million acre-feet represents a level of forecast runoff at which other river uses, particularly instream uses, may begin to be adversely affected. These special measures will not be required when the March 1 forecast indicates that April through September runoff will exceed eighty-eight million acre-feet.

(5) During lower runoff years when less than eighty-eight million acre-feet is forecasted as of March 1 at The Dalles for the April through September period, conservation of water by users subject to this chapter may be required by the department with the conservation measure dependent on the March 1 forecast. The maximum conservation cutback shall be fifty percent at a forecasted flow equal to 52.5 million acre-feet or the critical flow established in WAC 173-563-050. The percentage cutback required shall be determined from WAC 173-563-901—Figure 2—Conservation Cutback as a Function of Forecasted April through September Runoff, and shall be required equally of all users subject to this section. Said conservation measures shall be applied to the quantity of water stated on the water right permit or certificate.

(6) All permits and certificates of water right issued subject to this chapter in accordance with chapter 90.03 RCW shall contain the following provision:

When the March 1 forecast of April through September runoff at The Dalles is less than eighty-eight million acre-feet, and when the director of the department of ecology determines that overriding considerations of the public interest will be served, the quantity of water allowed for diversion under the terms of this water right may be decreased by a maximum of fifty percent according to Figure 2 in WAC 173-563-901.

In determining the quantity of water associated with water rights subject to this chapter, the department shall base its decisions on currently accepted allocation practices.

(7) If the April 1 or May 1 forecasts indicate improved projected runoff conditions for the April through September period over those reported in the March 1 forecast, the department may, through the use of Figure 2 in WAC 173-563-901, reduce the cutback percentage. The department shall not, in any case, increase the cutback requirement beyond that level determined using the March 1 forecast.

(8) All water right permits and certificates applied to the waters defined in WAC 173-563-020 which are for less than five cubic feet per second shall be exempt from the conservation and efficiency provisions in WAC 173-563-060.

(9) The director's consideration of the public interest shall include consideration of all uses of the river and its impact on the State of Washington. The uses to be considered include, but are not limited to,

uses of water for domestic, stockwatering, industrial, commercial, agricultural, irrigation, hydroelectric power production, mining, fish and wildlife maintenance and enhancement, recreational, thermal power production, and preservation of environmental and aesthetic values and all other uses compatible with the enjoyment of the public waters of the state.

NEW SECTION

WAC 173-563-070 ENFORCEMENT. In enforcement of this chapter, the department of ecology may impose such sanctions as appropriate under the authorities vested in it, including but not limited to the issuance of regulatory orders under RCW 43.27A.190 and civil penalties under RCW 43.83B.355.

NEW SECTION

WAC 173-563-080 OVERRIDING CONSIDERATIONS. Future appropriations of water which would conflict with the provisions of this chapter shall be authorized by the director only in those situations when it is clear that overriding considerations of the public interest will be served.

Such considerations shall include all uses of the rivers and its impact on the State of Washington. The uses to be considered include, but are not limited to these uses described in WAC 173-563-060(9).

NEW SECTION

WAC 173-563-090 REGULATION REVIEW. This chapter shall be reviewed by the department of ecology at least once in every five-year period.

Chapter 173-475 WAC
 AMBIENT AIR QUALITY STANDARDS FOR CARBON MONOXIDE, OZONE, AND NITROGEN DIOXIDE

WAC

- 173-475-010 Purpose.
- 173-475-020 Definitions.
- 173-475-030 Air Quality Standards.
- 173-475-040 Measurement Methods.
- 173-475-050 Reporting Of Data.

NEW SECTION

WAC 173-475-010 PURPOSE. These rules implement chapter 70.94 RCW, the Washington State Clean Air Act, and chapter 163, Laws of 1979 1st ex. sess. The purpose of this chapter is to set state-wide air quality standards for carbon monoxide, ozone, and nitrogen dioxide.

NEW SECTION

WAC 173-475-020 DEFINITIONS. (1) "Air quality standard" means an established concentration, exposure time, or frequency of occurrence of a contaminant or multiple contaminants in the ambient air which shall not be exceeded.

- (2) "Ambient air" means the surrounding outside air.
- (3) "Department" means the state department of ecology.
- (4) "National air monitoring stations (NAMS)" means fixed monitoring stations operated by the state and local air pollution control agencies to meet national monitoring objectives. The stations are a subset of the SLAMS network and are sited with emphasis on urban and multi-source areas.
- (5) "State and local air monitoring stations (SLAMS)" means stations designed to meet any of four basic monitoring objectives:
 - (a) To determine highest concentrations expected to occur;
 - (b) To determine representative concentrations in areas of high population density;
 - (c) To determine the impact on ambient air pollution levels of significant sources or source categories; and
 - (d) To determine general background concentration levels.
- (6) "Special purpose monitoring stations (SPMS)" means monitoring stations operated by state and local air pollution control agencies to supplement the SLAMS network in order to increase the overall effectiveness of the state's monitoring efforts.

NEW SECTION

WAC 173-475-030 AIR QUALITY STANDARDS. (1) Carbon monoxide in the ambient air as measured at a SPMS designated by the department for the purpose of determining compliance with air quality standards, or at any NAMS or SLAMS, shall not exceed the following values:

- (a) Nine parts per million (ten milligrams per cubic meter) eight-hour average concentration not to be exceeded more than once per year at any location where people would be exposed to such concentrations for eight consecutive hours or more. Compliance shall be based on data that begins and ends on a clock hour. There shall be no overlapping of hours in any violation period. A maximum of three violations can occur in any one day.
- (b) Thirty-five parts per million (forty milligrams per cubic meter) one-hour average concentration not to be exceeded more than once per

year at any location where people would be exposed to such concentrations for one hour or more. Compliance shall be determined from data that begins on a clock hour.

(2) Ozone in the ambient air as measured at a SPMS designated by the department for the purpose of determining compliance with this air quality standard, or at any NAMS or SLAMS, shall not exceed 0.12 parts per million (two hundred and thirty-five milligrams per cubic meter) hourly concentration on more than 1.0 days per calendar year as determined under the following conditions:

- (a) Three calendar years of data shall be used in determining compliance with this standard. If three years of data are not available, a minimum of one calendar year must be used;
- (b) All hourly measurements must start on the clock hour; and
- (c) All daily maximum hourly averages not available for a year shall be accounted for by use of the following equation:

$$e = v + \frac{v/n}{N-n-z}$$

e = the estimated number of potential times the allowed concentrations are exceeded for the year.

N = the number of required monitoring days in the year.

n = the number of days that valid data was available.

v = the number of days that readings have exceeded compliance level.

z = the number of days that readings are assumed to be less than the level of the standard. If a day should be included is based on whether the daily maximum one-hour reading on both the preceding day and the following day do not exceed 0.09 ppm ozone.

(3) Nitrogen dioxide. The annual arithmetic mean of nitrogen dioxide readings in the ambient air measured at a SPMS designated by the department for the purpose of determining compliance with this air quality standard, or at any NAMS or SLAMS, shall not exceed 0.05 parts per million (one hundred micrograms per cubic meter).

NEW SECTION

WAC 173-475-040 MEASUREMENT METHODS. Measurements for determining compliance with WAC 173-475-030 shall be made by equipment and procedures approved by and on file with the department. All methods and procedures shall be available to the public upon request.

NEW SECTION

WAC 173-475-050 REPORTING OF DATA. Local and regional air pollution control agencies shall notify the department of all occurrences which exceed the applicable standards for carbon monoxide, ozone, or nitrogen dioxide. Notification shall be made quarterly and shall include:

- (a) Location of monitoring sites by address and UTM coordinates;
- (b) Date and time of each violation;
- (c) Concentrations recorded; and
- (d) Method of sampling used.

Chapter 458-57 WAC
 STATE OF WASHINGTON INHERITANCE TAX RULES

NEW SECTION

WAC 458-57-010 SCOPE OF RULES. These rules are promulgated under the general rule making authority of the Department of Revenue, Inheritance Tax Division, as authorized in RCW 82.01.060

and 83.36.010 and are intended to implement Chapters 83.01 through 83.52 RCW.

NEW SECTION

WAC 458-57-020 NATURE OF INHERITANCE TAX. The inheritance tax is a state tax on the privilege of succession to a decedent's property. The amount of the tax depends on the value of the property passing, the legal relationship between the decedent and the heir, and the number and relationship of all of the persons taking property from the decedent.

NEW SECTION

WAC 458-57-030 PROPERTY SUBJECT TO INHERITANCE TAX. The inheritance tax is measured by the full value of all property, or interest in any property, or the qualified use value of the property as set forth in chapters 83.16 and 83.40 RCW and WAC 458-57-490 within the jurisdiction of this state which passes by will or by statutes of inheritance, by transfer during the three-year period ending on the date of the decedent's death, by gifts in contemplation of death, by transfer which takes effect at death, or by a transfer in trust or otherwise, under which the grantor or donor retained a life interest in possession or enjoyment of the property or any income from it. The full value for inheritance tax purposes shall be deemed to be the fair market value less all liens and encumbrances as of the date of death.

NEW SECTION

WAC 458-57-040 JURISDICTION—DOMICILE OF DECEDENT. (1) If a decedent was domiciled in the State of Washington at the time of death, the jurisdiction of this state to impose the tax extends to all of his property interest, wherever located, except for real estate located outside this state, and tangible personal property which is located and has attained a situs outside the State of Washington. Mineral and oil leases shall be treated as tangible personal property, taxable at their situs. Royalties from mineral rights shall be taxed as intangibles. The intangible assets, wherever located, of a deceased domiciliary of the State of Washington shall be subject to inheritance tax in this state. Intangibles include vendor's interests in real estate contracts, bank accounts, stocks and bonds, and all other choses in action. Ownership by the decedent of any interest in trust assets regardless of their nature or location shall not operate to defeat the foregoing provisions.

(2) Where the decedent was a domiciliary of another state or territory of the United States at the time of death, the State of Washington has jurisdiction to tax the passage of real estate located within its borders, and of tangible personal property which has its situs within this state. Intangibles belonging to a deceased domiciliary of another state or territory of the United States is not taxed in this state.

(3) Where the decedent was domiciled in another country, all of his property interests within this state shall be subject to inheritance tax, including real estate, tangible and intangible personal property.

NEW SECTION

WAC 458-57-050 STATUS AND CHARACTER OF ASSETS. The status of the assets of the deceased is determined as of the date of acquisition, and, once established, the separate or community character of their status does not change unless changed in some manner recognized by law.

Example: If the decedent was a resident of another state before becoming domiciled in Washington, the character of his assets brought with him to the state of Washington will retain that of the other state until such time as they are no longer identifiable as having that characterization from the previous state.

NEW SECTION

WAC 458-57-060 VALUATION. (1) In general. The inheritance tax base is the fair market value, or qualified use value under Chapter 83.16 RCW, at the date of death. Fair market value generally is the price that a willing buyer will pay to a willing seller, neither of whom is under any compulsion to buy or sell. Qualified use value is that value as determined under Chapter 83.16 RCW and rule 458-57-490 WAC. All relevant facts and elements of value as of the date of death will be considered in the determination of value.

(2) Values. All values used for inheritance tax purposes shall be the value as of the date of death. Subsequent increases or decreases in value do not affect the tax base. Alternate date valuations cannot be used for state tax purposes.

NEW SECTION

WAC 458-57-070 VALUATION—REAL ESTATE. (1) In general. Where the assets consist of real property, the full legal description shall be given, with the County Assessor's identifying parcel number, together with the assessed value, as well as the fair market value plus the qualified use value where the qualified use is used as a basis of the inheritance tax base. The assessed value to be used is the most recent value assigned to the property by the County Assessor, including any reassessed value fixed after the most recent tax statement.

(2) Fair market value. In arriving at the fair market value, the personal representative may make the appraisal or a qualified appraiser may be retained for that purpose. In arriving at the qualified use value the value should be determined as prescribed in Chapter 83.16 RCW and WAC 458-57-490. However, since the tax is fixed on the full fair market value or qualified use value, the inheritance tax release will not be issued until the Department is satisfied that the value reported is, in fact, the fair market value or the proper qualified use value and the tax is paid on that amount.

(3) Assessed value. The assessed value of all real estate must be furnished on the Inventory. Such valuation shall not be controlling as a basis for inheritance tax.

(4) Character of real estate. The character and nature of each parcel of real estate shall be reported, e.g., business property, the kind of business; farm land, the number of acres and what all acreage is being used for, if under cultivation the yield per acre; and, if any of the real estate is classified forest land or "open space," that fact and the value placed thereon by the Assessor other than the "open space" or lesser value shall be reported and noted on the Inventory.

(5) Timber. Real estate which has standing timber thereon shall have the value of the timber stated separately.

(6) Growing crops. Factors to be considered in the valuation of a property interest consisting of growing crops shall be the probable market value of the crop when harvested and the probable cost of producing and marketing the crop and the price, if any, paid at or about the date of the transferor's death for futures in the same kind of crop.

(7) Market value less than assessed value. When it is reported that the fair market value of an asset is less than the assessed value, the reason for such position shall be stated and be accompanied with an appraisal by a qualified disinterested party.

NEW SECTION

WAC 458-57-080 VALUATION—GOLD AND SILVER BULLION. (1) If gold or silver owned by a Washington domiciliary before his death is situated within this state it shall be reported as in the case of all other assets at its fair market value.

(2) If ownership of gold, silver or coin is evidenced by a certificate showing a share of an undifferentiated mass, then it is taxable as an asset in the Washington estate regardless of its location.

NEW SECTION

WAC 458-57-090 VALUATION—SECURITIES. (1) Stocks and bonds. The value of stocks and bonds is measured by the fair market value of the shares or bonds on the date of death.

(a) Selling prices. If there is a published market price for stocks or bonds on a stock exchange, in an over-the-counter market, or otherwise, the mean between the highest and lowest quoted selling prices on the date of death is the fair market value per share or bond.

(b) No sales—Holidays. If there were no sales on the date of death but there were sales on dates within a reasonable time both before and after the date of death, the fair market value is determined by taking a weighted average of the mean between the highest and lowest sales on the nearest date before and the nearest date after the date of death. The average is to be weighted inversely by the respective numbers of trading days between the selling dates and the date of death.

(c) Lack of sufficient sales information. If there are no actual arm's length sales prices or bona fide bid and asked prices available within a reasonable time before the date of death, the most recent sale may be used provided it is trended to the fair market value as of the date of death.

(d) Source of information. If the stocks or bonds are listed on more than one exchange, the records of the exchange where the stocks or bonds are principally dealt in should be employed if such records are available in a generally available listing or publication of general circulation. In the event that such records are not so available and such stocks or bonds are listed on a composite listing of combined exchanges available in a generally available listing or publication of general circulation, the records of such combined exchanges shall be employed. In valuing listed securities, the personal representative is required to consult accurate records to obtain values as of the date of death. If quotations of unlisted securities are obtained from brokers, or evidence as to their sale is obtained from officers of the issuing companies, copies of the letters furnishing such quotations or evidence of sale should be attached to the Return.

(e) Blockage. In certain exceptional cases, the size of the block of stock to be valued in relation to the number of shares changing hands in sales may be relevant in determining whether selling prices reflect the fair market value of the block of stock to be valued. If the personal representative can show that the block of stock to be valued is so large in relation to the actual sales on the existing market that it could not be liquidated in a reasonable time without depressing the market, the price at which the block could be sold as such outside the usual market, as through an underwriter, may be a more accurate indication of value than market quotations. Complete data in support of any allowance claimed due to the size of the block of stock being valued shall be submitted with the Return. On the other hand, if the block of stock to be valued represents a controlling interest, either actual or effective, in a going business, the price at which other lots change hands may have little relation to its true value.

(f) Where selling prices or bid and asked prices are unavailable. If the foregoing provisions of this section are inapplicable because actual sale prices and bona fide bid and asked prices are lacking, then the fair market value is to be determined by taking the following factors into consideration:

(i) In the case of corporate or other bonds, the soundness of the security, the interest yield, the date of maturity, and any other relevant factors;

(ii) In the case of shares of stock, the company's net worth, prospective earning power and dividend-paying capacity, and any other relevant factors.

Some of the "other relevant factors" referred to in paragraphs (i) and (ii) of this subsection are: The good will of the business; the economic outlook in the particular industry; the company's position in the industry and its management; the degree of control of the business represented by the block of securities to be valued; and the values of securities of corporations engaged in the same or similar lines of business which are listed on a stock exchange. However, the weight to be accorded such comparisons or any other evidentiary factors considered in the determination of a value depends upon the facts of each case. In addition to the relevant factors described above, consideration shall also be given to non-operating assets, including proceeds of life insurance policies payable to or for the benefit of the company, to the extent such non-operating assets have not been taken into account in the determination of net worth, prospective earning power and dividend-earning capacity. Complete financial and other data upon which the valuation is based shall be submitted with the Return, including copies of reports of any examinations of the company made by accountants, engineers, or any technical experts as of or near the date of death.

(g) Pledged securities. The full value of securities pledged to secure an indebtedness of the decedent is includable in the gross estate. If the decedent had a trading account with a broker, all securities belonging to the decedent and held by the broker at the date of death shall be included at their fair market value as of the date of death. Securities purchased on margin for the decedent's account and held by a broker shall also be returned at their fair market value as of the date of death. The amount of the decedent's indebtedness to a broker or other person with whom securities were pledged shall be allowed as a deduction from the gross estate.

(h) Securities subject to an option or contract to purchase. Another person may hold an option or a contract to purchase securities owned by a decedent at the time of his death. The effect, if any, that is given to the option or contract price in determining the value of the securities for inheritance tax purposes depends upon the circumstances of the particular case. Little weight will be accorded a price contained in an option or contract under which the decedent is free to dispose of the underlying securities at any price he chooses during his lifetime. Such is the effect, for example, of an agreement on the part of a shareholder

to purchase whatever shares of stock the decedent may own at the time of his death. Even if the decedent is not free to dispose of the underlying securities at other than the option or contract price, such price will be disregarded in determining the value of the securities unless it is determined under the circumstances of the particular case that the agreement represents a bona fide business arrangement and not a device to pass the decedent's shares to the natural objects of his bounty for less than an adequate and full consideration in money or money's worth.

(i) Stock sold "ex-dividend." In any case where a dividend is declared on a share of stock before the decedent's death but payable to stockholders of record on a date after his death and the stock is selling "ex-dividend" on the date of the decedent's death, the amount of the dividend is added to the ex-dividend quotation in determining the fair market value of the stock as of the date of the decedent's death.

(j) United States treasury bonds. United States treasury bonds eligible for redemption at par for purposes of paying the United States estate tax shall be valued at par plus accrued interest to the extent they are redeemable at that value for federal estate tax purposes.

NEW SECTION

WAC 458-57-100 CLOSELY HELD SECURITIES—PARTNERSHIPS—SOLE PROPRIETORSHIPS. The valuation of the decedent's interest in a business, be it a sole proprietorship, partnership, or closely held shares in a corporation, is determined by all relevant factors such as the value of the assets, including the real estate, earning capacity, and the outlook of the particular business and of its industry in general. Relevant factors considered in the case of closely held stock include the period of time that the issuing corporation has been in existence and its position in the trade, the nature of the corporation, the operating history of the corporation and particularly its earnings over a period of time, the balance sheet of the corporation, the standard of earnings maintained by concerns engaged in similar lines of endeavor, dividend-paying capacity, the prices paid on private sales of the shares to persons who were in a position to know their value, future earning prospects, and the management and personnel. The factors in the valuation of corporate stock and for closely owned securities shall be considered to the extent applicable in the valuation of a partnership or a sole proprietorship.

NEW SECTION

WAC 458-57-110 VALUATION OF CERTAIN LIFE INSURANCE AND ANNUITY CONTRACTS—VALUATION OF SHARES IN AN OPEN-END INVESTMENT COMPANY. (1) Valuation of certain life insurance and annuity contracts.

(a) The value of a contract for the payment of an annuity, or an insurance policy on the life of a person other than the decedent, issued by a company regularly engaged in the selling of contracts of that character is established through the sale by that company of comparable contracts. An annuity payable under a combination annuity contract and life insurance policy on the decedent's life (e.g., a "retirement income" policy with death benefit) under which there was no insurance element at the time of the decedent's death, is treated like a contract for the payment of an annuity for purposes of this section.

(b) As valuation of an insurance policy through sale of comparable contracts is not readily ascertainable when, at the date of the decedent's death, the contract has been in force for some time and further premium payments are to be made, the value may be approximated by adding to the interpolated terminal reserve at the date of the decedent's death the proportionate part of the gross premium last paid before the date of the decedent's death which covers the period extending beyond that date. If, however, because of the unusual nature of the contract such an approximation is not reasonably close to the full value of the contract, this method may not be used.

(2) Examples. The application of this section may be illustrated by the following examples. In each case involving an insurance contract, it is assumed that there are no accrued dividends or outstanding indebtedness on the contract.

Example 1. X purchased from a life insurance company a joint and survivor annuity contract under the terms of which X was to receive payments of \$1,200 annually for his life and, upon X's death, his wife was to receive payments of \$1,200 annually for her life. Five years after such purchase, when his wife was fifty years of age, X died. The value of the annuity contract at the date of X's death is the amount which the company would charge for an annuity providing for the payment of \$1,200 annually for the life of a female fifty years of age.

Example 2. Y died holding the incidents of ownership in a life insurance policy on the life of his wife. The policy was one on which no further payments were to be made to the company (e.g., a single premium policy or a paid-up policy). The value of the insurance policy at the date of Y's death is the amount which the company would charge for a single premium contract of the same specified amount on the life of a person of the age of the insured.

Example 3. Z died holding the incidents of ownership in a life insurance policy on the life of his wife. The policy was an ordinary life policy issued nine years and four months prior to Z's death and at a time when Z's wife was thirty-five years of age. The gross annual premium is \$2,811 and the decedent died four months after the last premium due date. The value of the insurance policy at the date of Z's death is computed as follows:

Terminal reserve at end of tenth year	\$14,601.00
Terminal reserve at end of ninth year	\$12,965.00
Increase	\$ 1,636.00
One-third of such increase (Z having died four months following the last preceding premium due date) is	\$ 545.33
Terminal reserve at end of ninth year	\$12,965.00
Interpolated terminal reserve at date of Z's death	\$13,510.33
Two-thirds of gross premium (2/3 x \$2,811)	1,874.00
Value of the insurance policy	\$15,384.33

(3) Valuation of shares in an open-end investment company. The fair market value of a share in an open-end investment company (commonly known as a "mutual fund") is the public redemption price of a share. In the absence of an affirmative showing of the public redemption price in effect at the time of death, the last public redemption price quoted by the company prior to the date of death shall be presumed to be the applicable public redemption price. If there is no public redemption price quoted by the company for the date of death (e.g., the valuation date is a Saturday, Sunday, or holiday), the fair market value of the mutual fund share is the mean between the last public redemption price quoted by the company for the first day preceding the date of death and the day following the date of death for which there is a quotation. In any case where a dividend is declared on a share in an open-end investment company before the decedent's death but payable to shareholders of record on a date after his death and the share is quoted "ex-dividend" on the date of the decedent's death, the amount of the dividend is added to the ex-dividend quotation in determining the fair market value of the share as of the date of the decedent's death. As used in this paragraph, the term "open-end investment company" means a company which on the date of death was engaged in offering its shares to the public in the capacity of an open-end investment company.

NEW SECTION

WAC 458-57-120 NOTES—OTHER INTANGIBLES. The fair market value of notes, secured or unsecured, accounts receivable, claims, debts, contracts of all types, and other like intangibles is the amount of unpaid principal, plus interest accrued to the date of death unless the personal representative establishes that the value is lower or that the chattels are worthless. Sales of property outright or on contract at less than fair market value, promissory notes, and personal loans at low interest rates or no interest to close family members shall not be considered a disfavoring factor. Items of interest shall be separately stated. If not returned at face value, plus accrued interest, satisfactory evidence must be submitted that the chattel is worth less than the unpaid amount, because of the interest rate, date of maturity, or other cause, or that the chattel is uncollectible, either in whole or in part (by reason of insolvency of the party or parties liable, or for other cause), and that any property pledged or mortgaged as security is insufficient to satisfy the obligation.

NEW SECTION

WAC 458-57-130 REAL ESTATE CONTRACTS. (1) Real estate contracts shall be valued at face value, plus accrued interest to date of death, unless it can clearly be shown that the contract is disfavored.

(2) In determining the value of a real estate contract if a discount is proper, the amount allowed shall be that amount which will produce a

yield factor comparable to the current real estate first lien mortgage market in effect in the general area of the situs of the real estate for contracts of a like nature as of the date of death of decedent.

(3) Additional factors which may be taken into consideration in determining whether a contract is disfavored include:

(a) Where the contract has a history of delinquency, or the purchaser is not financially responsible;

(b) Where the real property is not of sufficient value to provide adequate security for the amount owing;

(c) Where there is no interest payable on the contract, or where the interest rate is considerably below the current market.

When a contract is discounted in the Inventory of Assets because one or more of these factors is deemed to exist, a full factual statement shall be provided by schedule or supplementary letter and forwarded to the Department along with the Return when filed.

When it is necessary to sell a contract during probate to pay the expenses and costs of administration, the value of the contract is the gross price paid the personal representative for same.

NEW SECTION

WAC 458-57-140 CASH ON HAND OR ON DEPOSIT. The amount of cash belonging to the decedent at the date of his death, whether in his possession or in the possession of another, or deposited with a bank, is included in the decedent's gross estate. If bank checks outstanding at the date of death and given in discharge of bona fide legal obligations of the decedent incurred for an adequate and full consideration in money or money's worth are subsequently honored by the bank and charged to the decedent's account, the balance remaining in the account may be reported, but only if the obligations are not claimed as deductions from the gross estate.

NEW SECTION

WAC 458-57-150 TANGIBLE PERSONAL PROPERTY, HOUSEHOLD AND PERSONAL EFFECTS. (1) Tangible personal property shall be valued at its fair market value as of the date of death. Amounts actually received from sales following the death shall not be controlling as to value; however, they may be considered as one factor in establishing value.

(2) General rule. The fair market value of the decedent's household and personal effects may be reported in a lump sum amount: PROVIDED, HOWEVER, That any individual items in excess of the value of one thousand dollars must be listed and reported individually.

(3) Special rule in cases involving a substantial amount of valuable articles. If there are included among the household and personal effects and those items specifically bequeathed articles having marked artistic or intrinsic value (e.g., jewelry, furs, silverware, paintings, etchings, engravings, antiques, statuary, vases, oriental rugs, coin or stamp or gun collections), the appraisal of an expert or experts, setting forth the fair market retail value, under oath, shall be filed with the Return. The appraisal shall be accompanied by a written affidavit as to the completeness of the itemized list of such property and as to the disinterested character and the qualifications of the appraiser or appraisers.

(4) Additional rules if an appraisal involved. If, pursuant to paragraphs (2) and (3) of this section, expert appraisers are employed, care shall be taken to see that they are reputable and of recognized competency to appraise the particular class of property involved. In the appraisal, if there are paintings having artistic value, the size, subject, and artist's name should be stated. In the case of oriental rugs, the size, make, and general condition should be given. Sets of silverware should be listed in separate groups. Groups or individual pieces of silverware should be weighed and the weights given in troy ounces. In arriving at the value of silverware, the appraisers should take into consideration its antiquity, utility, desirability, condition, and obsolescence.

NEW SECTION

WAC 458-57-160 VALUATION OF ANNUITIES, LIFE ESTATES, TERMS FOR YEARS, REMAINDERS, AND REVERSIONS. (1) In general. Except as otherwise provided in these regulations, the fair market value of annuities, life estates, terms for years, remainders, and reversions is their present value determined under this section and WAC 458-57-170. The value of annuities issued by companies regularly engaged in their sale, and of insurance policies on the lives of persons other than the decedent is determined under WAC 458-57-440(15). The fair market value of a remainder interest

in a charitable remainder unitrust is its present value as determined by the provisions of section 2031 of the Internal Revenue Code of 1954, as heretofore amended. The fair market value of a life interest or term for years in a charitable remainder unitrust is the fair market value of the property as of the date of death less the fair market value of the remainder interest on such date determined under the provisions of section 2031 of the Internal Revenue Code of 1954, as heretofore amended. The fair market value of interests in a pooled income fund is their value determined under the provisions of section 2031 of the Internal Revenue Code of 1954, as heretofore amended.

(2) Use of actuarial tables. The present value of an annuity, life estate, remainder or reversion determined under this section which is dependent on the continuation or termination of the life of one person is computed by the use of Table A(1) or A(2) in WAC 458-57-170. Table A(1) is to be used when the person upon whose life the interest is based is a male and Table A(2) is to be used when such person is a female. The present value of an annuity, term for years, remainder or reversion dependent on a term certain is computed by the use of Table B in WAC 458-57-170. If the interest to be valued is dependent upon more than one life or there is a term certain concurrent with one or more lives, see paragraph eight of this section. For purposes of the computations described in this section, the age of a person is that of his nearest birthday at the time of the decedent's death.

(3) Annuities—Payable annually at end of year. If an annuity is payable annually at the end of each year during the life of an individual (as, for example, if the first payment is due one year after decedent's death), the amount payable annually is multiplied by the figure in column 2 of Table A(1) or A(2) of WAC 458-57-170, whichever is appropriate, opposite the number of years in column 1 nearest the age of the individual whose life measures the duration of the annuity. If the annuity is payable annually at the end of each year for a definite number of years, the amount payable annually is multiplied by the figure in column 2 of Table B of WAC 458-57-170 opposite the number of years in column 1 representing the duration of the annuity. The application of this paragraph may be illustrated by the following examples:

Example 1. The decedent received, under the terms of his father's Will, an annuity of \$10,000 a year payable annually for the life of his elder brother. At the time he died, an annual payment had just been made. The brother at the decedent's death was forty years eight months old. By reference to Table A(1) of WAC 458-57-170, the figure in column 2 opposite forty-one years, the number nearest to the brother's actual age, is found to be 12.9934. The present value of the annuity at the date of the decedent's death is, therefore, \$129,934 ($\$10,000 \times 12.9934$).

Example 2. The decedent was entitled to receive an annuity of \$10,000 a year payable annually throughout a term certain. At the time he died, an annual payment had just been received and five more annual payments were still to be made. By reference to Table B of WAC 458-57-170, it is found that the figure in column 2 opposite five years is 4.2124. The present value of the annuity is, therefore, \$42,124 ($\$10,000 \times 4.2124$).

(4) Payable at the end of semiannual, quarterly, monthly, or weekly periods. If an annuity is payable at the end of semiannual, quarterly, monthly, or weekly periods during the life of an individual (as, for example, if the first payment is due one month after the decedent's death), the aggregate amount to be paid within a year is first multiplied by the figure in column 2 of Table A(1) or A(2) of WAC 458-57-170, whichever is appropriate, opposite the number of years in column 1 nearest the age of the individual whose life measures the duration of the annuity. The product so obtained is then multiplied by whichever of the following factors is appropriate:

- 1.0148 for semiannual payments,
- 1.0222 for quarterly payments,
- 1.0272 for monthly payments,
- 1.0291 for weekly payments.

If the annuity is payable at the end of semiannual, quarterly, monthly, or weekly periods for a definite number of years, the aggregate amount to be paid within a year is first multiplied by the figure in column 2 of Table B of WAC 458-57-170 opposite the number of years in column 1 representing the duration of the annuity. The product so obtained is then multiplied by whichever of the above factors is appropriate. The application of this paragraph may be illustrated by the following example:

Example. The facts are the same as those contained in example 1 set forth in paragraph (3) of this section, except that the annuity is payable semiannually. The aggregate annual amount, \$10,000, is multiplied by the factor 12.9934, and the product multiplied by 1.0148. The present value of the annuity at the date of the decedent's death is, therefore, \$131,857.02 ($\$10,000 \times 12.9934 \times 1.0148$).

(5) Payable at the beginning of annual, semiannual, quarterly, monthly, or weekly periods.

(a) If the first payment of an annuity for the life of an individual is due at the beginning of the annual or other payment period rather than at the end (as, for example, if the first payment is to be made immediately after the decedent's death), the value of the annuity is the sum of (i) the first payment plus (ii) the present value of a similar annuity, the first payment of which is not to be made until the end of the payment period, determined as provided in paragraphs (3) or (4) of this section. The application of this paragraph may be illustrated by the following example:

Example. The decedent was entitled to receive an annuity of \$50 a month during the life of another, a woman. The decedent died on the day a payment was due. At the date of the decedent's death, the person whose life measures the duration of the annuity is fifty years of age. The value of the annuity at the date of the decedent's death is \$50 plus the product of $\$50 \times 12 \times 12.5793$ (see Table A(2) WAC 458-57-170) $\times 1.0272$ (see paragraph (4) of this section). That is, \$50 plus \$7,528.87, or \$7,802.87.

(b) If the first payment of an annuity for a definite number of years is due at the beginning of the annual or other payment period, the applicable factor is the product of the factor shown in Table B (of WAC 458-57-170) multiplied by whichever of the following factors is appropriate:

- 1.0600 for annual payments,
- 1.0448 for semiannual payments,
- 1.0372 for quarterly payments,
- 1.0322 for monthly payments,
- 1.0303 for weekly payments.

The application of the foregoing may be illustrated by the following example:

Example. The decedent was the beneficiary of an annuity of \$50 a month. On the day a payment was due, the decedent died. There were three hundred payments to be made, including the payment due. The value of the annuity as of the date of decedent's death is the product of $\$50 \times 12 \times 12.7834$ (see Table B, WAC 458-57-170) $\times 1.0322$, or \$7,917.02.

(6) Life estates and terms for years. If the interest to be valued is the right of a person for his life, or for the life of another person, to receive the income of certain property or to use non-income producing property, the value of the interest is the value of the property multiplied by the figure in column 3 of Table A(1) or A(2) of WAC 458-57-170, whichever is appropriate, opposite the number of years nearest to the actual age of the measuring life. If the interest to be valued is the right to receive income of property or to use non-income producing property for a term of years, column 3 of Table B of WAC 458-57-170 is used. The application of this paragraph may be illustrated by the following example:

Example. The decedent or his estate was entitled to receive the income from a fund of \$50,000 during the life of his elder brother. Upon the brother's death, the remainder is to go to X. The brother was thirty-one years five months old at the time of decedent's death. By reference to Table A(1) of WAC 458-57-170 the figure in column 3 opposite thirty-one years is found to be 0.86117. The present value of decedent's interest is, therefore, \$43,058.50 ($\$50,000 \times 0.86117$).

(7) Remainders or reversionary interests. If a decedent had, at the time of his death, a remainder or a reversionary interest in property to take effect after an estate for the life of another, the present value of his interest is obtained by multiplying the value of the property by the figure in column 4 of Table A(1) or A(2) of WAC 458-57-170, whichever is appropriate, opposite the number of years nearest to the actual age of the person whose life measures the preceding estate. If the remainder or reversion is to take effect at the end of a term for years, column 4 of Table B of WAC 458-57-170 is used. The application of this section may be illustrated by the following example:

Example. The decedent was entitled to receive certain property worth \$50,000 upon the death of his elder sister, to whom the income was bequeathed for life. At the time of the decedent's death, the elder sister was thirty-one years five months old. By reference to Table A(2) of WAC 458-57-170, the figure in column 4 opposite thirty-one years

is found to be 0.10227. The present value of the remainder interest at the date of decedent's death is, therefore, \$5,113.50 (\$50,000 x 0.10227).

(8) Special actuarial computations. If the valuation of the interest involved is dependent upon the continuation or the termination of more than one life or upon a term certain concurrent with one or more lives, a special factor must be used. The factor is to be computed on the basis of interest at the rate of six percent a year, compounded annually,

and life contingencies determined, as to each male and female life involved, from the values of 1x that are set forth in columns 2 and 3, respectively, of Table LN of WAC 458-57-170. In these and other special instances the Inheritance Tax Division will compute the factor if needed.

NEW SECTION

WAC 458-57-180 TRANSFERS PRIOR TO DEATH—COMPUTATION OF TIME—VALUATION—CONTEMPLATION. (1) In the case of a decedent dying after May 29, 1979:

(a) A gift made after this date and within three years of death is includable in the decedent's estate if the transfer required a Gift Tax Return to be filed.

(b) A gift made prior to May 30, 1979 is includable in the decedent's estate if made in contemplation of death within the preceding three years.

(2) The value of all property which is includable in the decedent's estate which was transferred during the three-year period ending on the date of decedent's death shall be the value of the property on the date of death of the decedent, plus the amount of any state and Federal gift tax paid thereon.

NOTE: See WAC 458-57-440(12) Contents of Return - Transfers Prior to Death and RCW 83.04.010(2).

NEW SECTION

WAC 458-57-190 DEDUCTIONS. (1) In general. Only those items which are specifically referred to in RCW 83.04.013 and 83.24-.035 are deductible. They must be listed either on the Inheritance Tax Return or by appropriate schedules attached thereto.

(2) Taxes. These include all prior and current years' taxes, including real estate, assessed and that remain unpaid as of the date of death of the decedent.

(3) Debts. All debts owing by the decedent at the date of death are deductible, PROVIDED, That the debts founded upon a promise or agreement shall be only allowed to the extent that they were contracted, bona fide, and for full and adequate consideration in money or money's worth. The term "deductions from the gross value of the property passing" shall mean that the decedent's community one-half of the debts owed at decedent's death shall be deducted from decedent's one-half of the community estate passing to decedent's heirs. Community debts are chargeable as deductions first against the community property of the decedent and the surviving spouse. Only after the community property is exhausted may community debts be charged against decedent's separate estate. The separate debts of the decedent are primarily a charge upon the separate property until that fund is exhausted. Any balance of separate debts shall then be allowed as a deduction against decedent's one-half of the community property.

(4) Funeral and burial. The obligation of the personal representative to dispose of the remains of the decedent in a dignified manner and to provide a monument or crypt for a deceased person is a primary obligation, and the amount of such expense is to be deducted, in the case of community property, from the decedent's one-half. The amount of such expense shall be reasonable.

(5) Expenses of administering estate.

(a) In general. The other amounts deductible from a decedent's estate are limited to such fees as are actually and necessarily incurred in the administration of the decedent's estate; that is, in the collection of assets, payment of debts, and distribution of property to the persons entitled to it. The fees contemplated in the law are those only as attend the settlement of an estate and the transfer of the property of the estate to individual beneficiaries or to a trustee, whether the trustee is the personal representative or some other person. Fees incurred in settling the decedent's interest in property or vesting good title to property in the beneficiaries are deductible. Fees not coming within this description but incurred on behalf of the transferees are not deductible. Fees incurred not essential to the proper settlement of the estate, but incurred for the individual benefit of the heirs, legatees, or devisees, may not be taken as deductions. Administration fees include personal representative's fees, attorney's fees, appraiser's fees, accountant's fees, and court costs. The first two are considered separately below.

(b) Personal representative's fees.

(i) The personal representative (in a probated estate) may deduct his reasonable fees in such an amount as has actually been paid, or in an amount which at the time of filing the Return may reasonably be expected to be paid, but no deduction may be taken if no fees are to be collected. If the deduction is allowed in advance of payment and payment is thereafter waived, it shall be the duty of the personal representative to notify the Director and to pay the resulting tax, together with interest.

(ii) A bequest or devise to the personal representative in lieu of fees is not deductible. If, however, the decedent fixed by his will the compensation payable to the personal representative for services to be rendered in the administration of the estate, deduction may be taken to the extent that the amount does not exceed the usual and customary charge in the locality for similar services.

(iii) Except to the extent that a trustee is in fact performing services in connection with state and Federal death taxes or with respect to the estate which would normally be performed by a personal representative, amounts paid as trustee's fees do not constitute deductible expenses.

(c) Attorney's fees. (i) The personal representative, in filing the Return, may deduct such an amount of attorney's fees as are reasonable and have actually been paid, or an amount which at the time of filing may reasonably be expected to be paid. If on the final accounting the fees claimed have been disallowed in whole or in part, the deficiency in tax as a result thereof shall be paid.

(ii) A deduction for attorney's fees incurred in contesting an asserted deficiency or in prosecuting a claim for refund shall be claimed at the time the deficiency is contested or the refund claim is prosecuted. A deduction for reasonable attorney's fees actually paid in contesting an asserted deficiency or in prosecuting a claim for refund made within the time allowed by law will be allowed even though the deduction, as such, was not claimed in the Return or in the claim for refund.

(iii) Attorney's fees incurred by beneficiaries incident to litigation as to their respective interests do not constitute a proper deduction, inasmuch as expenses of this character are incurred on behalf of the beneficiaries personally.

The application of this section may be illustrated by the following examples:

Example 1. In 1970, the decedent made an irrevocable transfer of property to the X Trust Company, as trustee. The instrument of transfer provided that the trustee should pay the income from the property to the decedent for the duration of his life and, upon his death, distribute the corpus of the trust among designated beneficiaries. The property was included in the decedent's gross estate. Three months after the date of death, the trustee distributed the trust corpus among the beneficiaries, except for \$6,000 which it withheld. The amount withheld represented \$5,000 which it retained as trustee's fees in connection with the termination of the trust and \$1,000 which it had paid to an attorney for representing it in connection with the termination. Under these circumstances, the estate is allowed a deduction of \$6,000 if the fees are reasonable.

Example 2. In 1975, the decedent made an irrevocable transfer of property to Y Trust Company, as trustee. The instrument of transfer provided that the trustee should pay the income from the property to the decedent during his life. If the decedent's wife survived him, the trust was to continue for the duration of her life, with Y Trust Company and the decedent's son as co-trustees, and with income payable to the decedent's wife for the duration of her life. Upon the death of both the decedent and his wife, the corpus is to be distributed among designated remaindermen. The decedent was survived by his wife. The property was included in the decedent's gross estate. The trustee made an accounting to the court as of the date of the decedent's death. Following the death of the decedent, a controversy arose among the remaindermen as to their respective rights under the instrument of transfer, and a suit was brought in court to which the trustee was made a party. As a part of the accounting, the court approved the following expenses which the trustee paid within three years following the date of death: \$10,000, trustee's fees; \$5,000, accountant's fees; \$25,000, attorney's fees; and \$2,500, representing fees paid to the guardian of a remainderman who was a minor. The trustee's fees and accountant's fees were for services in connection with the usual issues involved in a trust accounting as also were one-half of the attorney's and guardian's fees. The remainder of the attorney's and guardian's fees were for services performed in connection with the suit brought by the remaindermen. The amount allowed as a deduction is the \$28,750, (\$10,000, trustee's fees; \$5,000, accountant's fees; \$12,500, attorney's fees; and \$1,250, guardian's fees) incurred as expenses in connection with the usual issues involved in a trust accounting. The remaining expenses are not allowed as deductions since they were incurred on behalf of the transferees.

Example 3. The decedent died without property, having disposed of all property by an irrevocable trust prior to death, and no personal representative of his estate is appointed, so that it is necessary for the trustee to prepare an Inheritance Tax Return; or, if the trustee required accounting proceedings for its own protection, trustee's, attorney's, and guardian's fees in connection with the inheritance tax or accounting proceedings would be deductible. Deductions incurred under similar circumstances by a surviving joint tenant or the recipient of life insurance proceeds would also be deductible.

(d) If more than fifty percent of the court costs and fees are claimed as deductions from decedent's one-half of the community estate, documentation to support such allocation of the deductions must be provided by the personal representative.

(6) No probate proceedings. Wherever applicable, the foregoing deductions shall be allowed in the determination of tax without probate proceedings.

WAC 458-57-200 NON-DEDUCTIBLE ITEMS. Some examples of non-deductible items are:

- (1) Federal estate tax.
- (2) Those fees of the appraiser, accountant, trustee, executor, or attorney in excess of the usual and customary charge in the locality for similar services.
- (3) Costs of insurance premiums during administration, repairs or additions to property, casualty losses, expenses to carry on estate business or trade, expenses incurred in administering assets not includable in the taxable estate, postage, telephone expenses, and mileage.
- (4) Income tax obligations of legatees in connection with the testamentary transfer of assets. Such taxes are personal to the legatees, rather than an encumbrance on the assets.

NEW SECTION

WAC 458-57-210 EXEMPT ENTITIES. (1) In general. In order for a request to be exempt from inheritance tax it must come within the provisions of RCW 83.20.010. Some examples where the bequest is not exempt are: (a) A bequest to a cemetery association as such associations are not charitable organizations, (b) bequests to the "Elks" or the "Eagles," since the organizations are not devoted exclusively to charitable or other like work. However, a bequest to one of such organizations to be used only for a specific charitable program, e.g., aid to the mentally retarded, is exempt.

(2) In establishing the right of an estate to the exemption authorized by RCW 83.20.010, the personal representative shall complete the Department's "Exemption Affidavit," along with other required documentation, for those organizations which are not clearly exempted by the statute. It should be noted that because an entity is exempt for Federal estate or income tax purposes it is not automatically exempt from state inheritance tax.

NEW SECTION

WAC 458-57-220 CLASSES OF BENEFICIARIES—HEIRS. (1) For inheritance tax purposes, the actual relationship and age of the heirs to the decedent must be accurately stated, since this is the basis for determining the applicable tax rates and exemptions. The Class A and Class B relationships cover only those persons specified by the statute. Failure to state age will result in all heirs being treated as though they are age twenty-five or older.

(2) The terms "son-in-law" and "daughter-in-law" are no longer used in the statute. The statute refers to lineal ancestors, descendants and spouses of lineal descendants. To be classified as a Class A heir, the wife (daughter-in-law) or husband (son-in-law) of a deceased lineal descendant must be an un-remarried widow or widower; e.g., a predeceased lineal descendant's spouse will be classified as a Class C heir if the lineal descendant's marital relationship has been severed by divorce, or death and a subsequent remarriage.

(3) (a) An adopted child is a lineal descendant by operation of law. The spouse of an adopted child is therefore a spouse of a lineal descendant. The adopted child is not a legal lineal descendant of his biological parents and is therefore a Class C heir to them.

(b) If the decedent is an adopted child and was over eighteen years of age at the time of the adoption and the legal relationship has not existed for more than five years, the surviving adoptive parent shall not be recognized as a Class A beneficiary.

(4) Stepchildren are Class A heirs and a person who was once a stepchild will continue under that designation, even though the parent by whom the relationship was created has been divorced or has died in the meantime. A spouse of a stepchild shall be treated the same as a spouse of a natural child or adopted child. Likewise, a spouse of a stepchild's lineal descendant and his or her lineal descendants are Class A heirs. Stepchildren are Class A heirs as to their stepparents only by virtue of RCW 83.08.005. Unless a stepchild is adopted by a stepparent, the Class A relationship as to the biological parents continues to exist.

(5) Class B heirs are decedent's brothers or sisters, or lineal descendants of decedent's brothers or sisters. Half-brothers and half-sisters of the decedent are also in a Class B relationship. Thus, lineal descendants of a half-brother or half-sister are Class B heirs.

NEW SECTION

WAC 458-57-230 EXEMPTIONS—CLASS A. (1) Only the total sum of any amounts up to the statutory exemption passing to the spouse or minor children of the decedent is exempt. If there is no spouse, the statutory exemption shall be attributable to the minor children of the decedent. The statutory exemption is the total exemption allowable to the spouse or children under this section.

(2) In addition, there is exempt \$10,000 for each living minor child of the decedent. This exemption is an automatic exemption for each living child under twenty-five years of age or for any child regardless of age who is incompetent or unable to support himself or herself because of a physical or mental handicap. Proof of said handicap must be by affidavit of a physician currently licensed to practice medicine in the State of Washington attesting to the fact of the handicap.

(3) \$10,000 of any amount passing to an adult child (twenty-five years of age or older) of the decedent is exempt.

(4) In addition, \$10,000 of any amount passing to the descendants of any deceased child, stepchild, or adopted child as a class, e.g., by their right of representation is exempt.

(5) In determining the exemptions for transfer of property to a surviving spouse or child, if less than an absolute interest in property is transferred to a beneficiary, the interests of the beneficiary shall be actuarially determined in accordance with the provisions of RCW 83.16.020.

Example: Decedent's Will bequeathed \$200,000 to a trustee to pay the income to his wife (W), age 45, for her life, remainder to their son (S). The factor for the valuation of the life estate is 0.80269. Accordingly, the value of the life estate of W is \$160,538 and the value of the remainder to S is \$39,462.

The value of property transferred to the surviving spouse and minor child may be aggregated for the purpose of the "spouse and minor child" exemption under RCW 83.08.015.

Example: Decedent's Will bequeathed \$100,000 to a trustee to pay the income to his wife (W), remainder to their minor son (S). The interests of W and S both qualify for the \$100,000 exemption.

Exemptions may be allowed for interests transferred to a surviving spouse, minor child, or adult unless there is a strong probability that the transfers will not be effective. The Department will take into account all of the relevant facts and circumstances. If any person has authority to divert the property in whole or in part which is not limited by an agreement with the Department (comparable to the agreement referred to in RCW 83.05.050), an exemption will not be allowed to the extent the property may be diverted.

(6) The exemptions allowed in paragraphs (1), (3), (4) and (5) of this regulation shall not be in excess of the amount actually passing to the heir or heirs.

NEW SECTION

WAC 458-57-240 EXEMPTIONS—CLASSES B AND C. (1) \$10,000 of any amount passing to Class B shall be exempt if no exemption is allowed for Class A. The Class B exemption is applied to that portion of the total amount passing to Class B which is taxable at the lowest rates.

(2) There is no exemption for Class C.

NEW SECTION

WAC 458-57-250 EXEMPTIONS—ALIENS. Where the decedent was not a resident of a state or territory of the United States, no exemptions are allowed in any class. The term "resident" shall be construed to mean "domiciliary."

NEW SECTION

WAC 458-57-260 INSURANCE—EXEMPTIONS. (1) All insurance on the life of the decedent shall be reported to the Department to determine if any portion of it is taxable. RCW 83.16.080 states in part: "The value of property passing shall include the proceeds of policies of life insurance on the life of the decedent . . ." Insurance payable to a decedent's estate, the executor or administrator, or a predeceased beneficiary is taxable as an asset. In these instances the estate is not accorded any exemption for insurance.

(2) Insurance purchased by the payment of premiums with community funds is community property, and each spouse owns an undivided one-half interest in the policy so purchased. Insurance purchased prior to marriage or after marriage with separate funds is separate property.

(3) A policy of life insurance insuring the life of the decedent claimed to be owned by the surviving spouse shall be deemed to be the surviving spouse's separate property if, and only if, the surviving spouse can show by competent evidence that ownership and the premiums were paid with non-community funds. In those cases where the insurance is claimed to be the separate property of the surviving spouse a copy of the application for the policy of life insurance must be provided.

(4) The \$60,000 insurance exemption is applicable to the decedent's interest in the insurance on his life. Where the insurance is community property, the total shall be divided in half before application of the special exemption.

Example: If there is \$120,000 life insurance on the life of the decedent and all of the property is community property, the \$120,000 life insurance is not taxable.

(5) Loans against insurance on decedent's life are debts and are deductible in arriving at the net estate for inheritance tax purposes. The

loans are treated the same as any other debt, and are deductible. The total face value, less the insurance exemption, is taxable.

Example: The decedent was married and had \$200,000 in community life insurance; a loan of \$20,000 exists against the insurance policies. The tax is computed on the amount in excess of \$120,000 (\$60,000 x 2); e.g., \$80,000. The \$20,000 loan is then included in the deductible items as a debt.

(6) The community one-half of the cash surrender value of insurance on the life of the surviving member of the community is a cash asset and is subject to inheritance tax.

(7) A decedent's ownership interest in insurance on the life of a third party is a cash asset to the extent of its cash surrender value. If the insurance in such an instance is encumbered by a loan, said loan shall be deducted as a debt along with the other debts of the decedent.

(8) Accumulated, post-mortem and terminal dividends, interest accumulated prior to death, and premium refunds included in the proceeds paid in settlement of an insurance policy on decedent's life are not subject to the insurance exemption but are cash assets subject to inheritance tax. Such amounts are taxable items and must be reported on Internal Revenue Service form 712, which may be obtained from the respective insurance company issuing the policy.

(9) If the decedent carried mortgage insurance and it is payable to other than the executor, administrator or representative of the estate, it comes within the life insurance exemption; otherwise, it becomes an asset of the estate and shall be reported as such. The insurance which pays the mortgage on decedent's death shall not affect the amount of the mortgage existing on the date of death which shall be allowed as a deduction for inheritance purposes.

(10) Funeral insurance is treated like any other life insurance and only that portion thereof in excess of the exemption shall be considered as a part of the taxable estate.

(11) Death benefits operate as an offset against funeral and burial costs and are includable in the reported assets. See WAC 458-57-500(4), Social Security Death Benefits.

(12) If the decedent was the owner of an endowment policy or supplemental contract with life insurance features and it was subject to surrender and withdrawal at the option of the deceased, it is a liquid investment and not a life insurance policy and therefore the proceeds are includable for inheritance tax purposes.

(13) Any original war risk insurance policy or a National Service Life Insurance policy shall be treated as war risk insurance and is a separate special insurance exemption apart from the normal insurance exemption.

(14) If life insurance proceeds are payable to more than one class of beneficiary, the exemption shall be prorated as follows:

$$\frac{\text{Amount of insurance to the class}}{\text{Total amount of insurance}} \times \$60,000 = \text{Prorated exemption to the class}$$

NEW SECTION

WAC 458-57-270 PRORATING OF EXEMPTIONS. (1) When a decedent's estate includes property located in another state not subject to Washington tax, the exemptions to be allowed in Classes A and B shall be prorated. Complete information and valuation of the out-of-state property shall be furnished by a certified copy of the Inventory, a copy of the Internal Revenue Service form 706, or an affidavit describing and valuing the property.

(2) When the estate passes entirely to Class C, the out-of-state inventory is not required. However, if Internal Revenue Service form 706 is filed, a copy thereof, as well as a copy of the Internal Revenue Service audit and closing letter, shall be filed with the Inheritance Tax Division.

(3) The formula to be used in prorating the exemption is:

$$\frac{\text{Gross Washington estate (less mortgages)}}{\text{Gross total estate (less all mortgages)}} \times \text{Exemptions} = \text{Exemptions allowed}$$

Example: If a Washington estate consists of \$300,000 worth of community property plus \$25,000 worth of separate property, and \$50,000 worth of separate out-of-state property, the exemption shall be computed as follows (assume two adult surviving children receive the separate property which would entitle the estate to a \$120,000 exemption if all property were located in Washington).

$$\frac{1/2 \text{ of } \$300,000 + 25,000}{1/2 \text{ of } \$300,000 + 25,000 + 50,000} \times \$120,000 = \$93,333.34 \text{ Prorated exemption}$$

NEW SECTION

WAC 458-57-280 PRORATING COSTS AND FEES. The debts of the community and the funeral and burial expense are community obligations and are allowed as deductions from the community estate. When the estate is partially separate, the probate fees and costs must be prorated between the two estates. The formula for prorating, using the figures from the example in subsection (3) of WAC 458-57-270, is:

$$\frac{\text{Gross Washington community estate} + \text{Comm. share}}{\text{Gross Washington comm.} + \text{gross separate estate}} \times \text{Costs} = \text{for \& fees deduction}$$

$$\frac{\$300,000}{\$325,000} \times \$4,999.58 = \$4,615.00 \text{ Prorated comm. costs and fees}$$

$$\frac{\$325,000}{\$384.58} = \text{Separate costs and fees}$$

The community deductions are then totaled with burial expense and prorated administrative fees, and then deducted from the community estate. The prorated separate deductions are taken from the separate estate.

The computation of tax in the foregoing example is as follows:

	Community	Separate
Gross Washington	\$300,000.00	\$25,000.00
Burial costs & gen. debts	[1,600.00]	
Prorated costs & fees	[4,615.00]	[384.58]
Net	\$293,785.00	\$24,615.42
	\$146,892.50	Decedent's 1/2 net community
		Decedent's net separate
	\$171,507.92	Total net for Washington tax
	93,333.34	Prorated exemption (see above)
	6,666.66	@ 4% = \$ 266.67
	71,507.92	@ 7% = 5,005.56
Total tax		\$5,272.23

Note: The expenses of probating property in another state are chargeable against that state's portion of the total estate and they shall not be allowed in this state. A decedent's debts are chargeable against his domiciliary estate. When a nonresident has Washington property, the only debts which are deductible are those directly connected with the Washington estate, such as a real estate mortgage or taxes due. Only the expense of probating a nonresident's property may be deducted in the Washington estate. Funeral expenses, etc., are a deduction only in the domiciliary estate.

NEW SECTION

WAC 458-57-290 CREDIT FOR PROPERTY PREVIOUSLY TAXED. (1) Credit for property previously taxed is allowable when (a) property in the present estate can be identified with property transferred to a Class A heir (the present decedent) in a prior estate, and (b) the property so identified is passing to a Class A heir in the present estate, and (c) the deaths of the prior decedent and the instant decedent occurred within a five-year period.

(2) No credit shall be allowable unless an inheritance tax was paid to this state on the transfer to the present decedent. When credit for property previously taxed is allowable under the criteria in section 1, it is then necessary to trace the property from the first estate into the second, identifying each item of property, giving the gross value of each item as reported in each estate, and setting out the low value for each item. Real estate will be treated as net of mortgage.

(3) Bank accounts shall be reported at the low balance to which a traceable bank account was reduced at any time during the interval between the first death and the death of the present decedent. Where the property traced was community property at the time of the first death, the total of property traced must be reduced to decedent's one-half interest therein before the exemption for property previously taxed is computed.

(4) The credit allowed is applied to reduce the amount of the net second estate, before application of the exemptions.

(5) In computing the credit for property previously taxed, if the basic credit exceeds the amount actually taxed in the first estate, the amount actually taxed in the first estate shall be used as the basic credit in the remainder of the computation of the credit for property previously taxed.

(6) If credit for property previously taxed is desired, a list of the assets appearing in the present estate which were taxed in the first estate must be furnished to the Department. The list shall show the values appearing in each estate and shall show the lower value of the two. In the case of bank accounts, the lowest value on or between the dates of death shall be shown.

NEW SECTION

WAC 458-57-300 COMPUTATION FORMULA—PROPERTY PREVIOUSLY TAXED—CLASS A. The formula for computing the credit is expressed as follows where the estate passes entirely to Class A following each death:

(Net first estate less exemptions = Amount actually taxed)

$$(1) \frac{\text{Amount actually taxed, 1st estate}}{\text{Net estate, 1st estate}} \times \text{Property traced} = \text{Basic credit}$$

$$(2) \frac{\text{Basic credit}}{\text{Gross 2nd estate}} \times \text{Deductions in 2nd estate} = \text{Proportion of deductions in 2nd estate chargeable against property traced}$$

Note: If the present decedent's estate consists of separate and community property and only the separate property is traceable, (2) of the above formula is expressed as follows:

$$(3) \text{Subtract line 2 from line 1} = \text{Credit for property previously taxed}$$

$$\frac{\text{Basic credit}}{\text{Gross separate 2nd estate}} \times \text{Separate deductions} = \text{Proportion of deductions in 2nd estate chargeable against property traced}$$

Example:

	1st Estate	2nd Estate	Lowest
Real estate—home (net of mort.)	\$30,000.00	\$40,250.00	\$30,000.00
Seattle Trust checking a/c	7,911.69	4,000.00	4,000.00
Washington Mutual savings a/c (low balance 3/23/78)	35,125.31	48,344.81	35,125.31
Household furnishings	2,000.00	2,345.00	2,000.00
Organ	1,000.00	900.00	900.00
1966 Ford Thunderbird	700.00	300.00	300.00
North Coast Life Ins. policy	*811.14	**1,273.00	811.14
			\$73,136.45

* Cash surrender value 1st estate
 ** Taxable dividends 2nd estate
 Community one-half traced \$36,568.23

Computation of credit for the foregoing example with the noted assumptions:

(Assuming the first estate had a net value of \$40,072.66 with \$15,000 in Class A exemptions and the second estate had a gross value \$42,571.51.)

$$(1) \frac{\$25,072.66}{\$40,072.66} \times \$36,568.23 = \$22,880.01 \text{ Basic credit}$$

$$(2) \frac{\$22,880.01}{\$142,571.51} \times \$10,131.86 = \$1,625.97 \text{ Proportion of deductions}$$

$$(3) \$22,880.01 - \$1,625.97 = \$21,254.04 \text{ Credit allowed}$$

NEW SECTION

WAC 458-57-340 FEDERAL CREDIT FOR DEATH TAXES. (1) In estates where there is allowed a credit for state death taxes by the Internal Revenue Code, and the total state tax paid is less than the credit available, the state tax shall be increased to the allowed credit. In those instances where the estate has property and has paid death taxes in more than one state, the credit shall be apportioned on the basis of each state's respective share of the gross value of the estate reported for Federal purposes.

(2) When there is a deferred tax as a result of a life estate and the Federal credit for state death tax exceeds the Washington tax presently due, payment must be made to the Federal credit amount, otherwise a loss of this credit may result.

(3) The term "gross estate" means the total of all assets less any mortgages outstanding against the real property.

(4) Example: Washington assets total \$320,000, out-of-state assets total \$140,000, Federal credit of \$8,720.

Washington assets		Washington's share of
<u>Total assets</u>	\times Federal credit	<u>Federal credit</u>
\$320,000		
	\times \$8,720	$=$ \$6,066.09
460,000		

Therefore, if Washington's normal tax due, because of exemptions, is below \$6,066.09, the difference shall be remitted to bring the total to the prorated share of the credit.

(5) For purposes of this administrative rule, the values as finally determined by the Internal Revenue Service shall be controlling.

NEW SECTION

WAC 458-57-350 PAYMENT OF TAX. (1) It is the duty of the personal representative to see that all of the inheritance tax is paid. All tax imposed by the inheritance tax law shall be paid to the Department of Revenue by the person or fiduciary liable for the tax. When such person or fiduciary fails to make the payment required, all heirs, legatees, devisees, executors, trustees, grantees, donees, or joint tenants, are respectively liable for any and all taxes and interest due to the extent of the value of the property received by such persons.

(2) Upon payment in full of the tax found to be due, together with any interest that is charged, the Department will issue a release, the original of which should be forwarded to the Clerk of the Court in the county wherein the estate is being probated. In those cases wherein the tax is determined without probate, the original and one copy of the release and consent to transfer shall be forwarded by the Department to the taxpayer or his attorney. The original should be recorded in the office of the County Auditor wherein the property is located and the other copy should be retained by the taxpayer. The Department of Revenue shall furnish only two copies of the release in non-probated estates. When additional copies of a release in a non-probate estate are desired, copies of such release can be provided by the County Auditor and may be obtained from the County Auditor's office where the original was recorded.

(3) If the inheritance tax is not paid in full by the legatee or the personal representative of the decedent, it shall be a lien upon the gross estate of the decedent for ten, or in the case of qualified use fifteen, years commencing from the date of the decedent's death. The inheritance tax is imposed against, and may be collected from, property of every kind which was owned by any decedent domiciled within the State of Washington at the time of his death, even though the property of said decedent so domiciled may be situated outside of the State of Washington. There is excepted from the lien that portion of the expenses and charges of the estate which are necessary for administration and which have been allowed by the court.

(4) In those cases where there is litigation pending and as a consequence the final tax cannot be determined, the ten-year period referred to in the immediately preceding section shall be extended for the period during which litigation is pending.

(5) The inheritance tax lien attaches immediately upon the death of the decedent, and a personal representative shall not be discharged from his liability, nor may a decree of distribution be entered until a receipt showing that the inheritance tax has been paid in full has been filed with the court, or a Consent to Distribution has been issued by the Department.

(6) If an estate is not probated and the heirs or personal representative do not pay the inheritance tax when due and the Department subsequently files findings in Superior Court indicating the amount of tax due and the heirs or personal representative fail to respond to the Department, they thereby waive their right to appeal the valuation to the Board of Tax Appeals.

NEW SECTION

WAC 458-57-360 PAYMENT OF TAX FROM RESIDUE—TAX ON TAX. (1) When the inheritance tax on a specific bequest is to be paid from the residue of an estate, it shall be treated as a bequest

in the amount of the specific bequest plus a bequest in an amount sufficient to pay the tax properly chargeable to the entire bequest when so calculated. When the tax is computed upon the sum so arrived at and deducted therefrom, the remainder is the amount of the legacy which, by the terms of the Will, is to be received by the legatee free from tax.

(2) Application of the above can be illustrated by the following examples and with reference to the tax on tax tables provided in this regulation.

WAC 458-57-370 DEFERRAL OF TAX—POWER OF APPOINTMENT—MINIMUM AND MAXIMUM TAX—SECURED TAX. (1) Under the statutes permitting powers of appointment, two computations of the tax are necessary. A minimum tax shall be computed based on the probability of devolution of the appointive property. The maximum, or the greatest possible tax, is computed on the possibility that the property will be appointed to Class C. The difference shall then be secured: PROVIDED, HOWEVER, That if a written agreement is entered into pursuant to RCW 83.05.050 limiting the power to someone other than Class C, the tax shall be recomputed and may be deferred and secured as in other cases. Once the written agreement is entered into, it shall not affect the deferral of the tax otherwise available to the estate.

NOTE: See RCW 64.24.010 et seq. relating to releases of powers of appointment.

(2) The written agreement referred to in section 1 of this Chapter must be acknowledged under oath by the remaindermen and the donee of the power in substantially the following form with a duplicate original thereof being filed with the Department:

We,, being the remaindermen named in the foregoing agreement as a result of desiring to exercise and limit (his) (her) power of appointment under the terms of the Will of do hereby agree to the terms thereof and do agree to be bound thereby.

(3) Any personal representative desiring to defer inheritance tax must make the election before the tax due date and file a copy of his election with the Department by the tax due date. A protective election may be filed.

(4) Any tax deferred draws interest at the rate of four percent per annum and shall be paid to the Department annually. The interest is computed from the date the tax is due, that is, nine months after the date of death. In the event that an audit of the Estate Tax Return (Internal Revenue Service form 706) by the Internal Revenue Service results in an increased valuation of the assets of the estate, the resulting increase in inheritance tax due shall be computed and the increase in deferrable tax shall draw interest from the initial due date of the tax.

In the event any interest is not paid within thirty days after notice by the Department, the total tax and interest immediately becomes due and payable.

(5) When a remainderman's tax is to be deferred under RCW 83-16.020 or the tax is to be secured under RCW 83.05.050, a copy of the Internal Revenue Service audit and of the Estate Tax Closing Letter shall be forwarded to the Inheritance Tax Division within thirty days of their receipt by the personal representative. The Inheritance Tax Division shall then notify the estate of its final inheritance tax computation, which shall include a statement of the amount to be secured.

(6) Security for the payment of the deferred tax must be posted with the Inheritance Tax Division within thirty days of the receipt of the final inheritance tax computation or receipt of the Internal Revenue Service Estate Tax Closing Letter, whichever is later. Acceptable security for the deferred or secured tax is limited to:

- (a) A surety company bond;
- (b) A Washington bank's corporate guarantee;
- (c) A blocked account in a Federally insured financial institution, confirmed by said institution in writing.

(7) In those cases where the entire amount of tax is paid even though a portion could have been deferred, refunds will not be allowed as the tax has not actually been overpaid; deferral is a privilege which must be requested prior to the payment of the tax.

NEW SECTION

WAC 458-57-380 INTEREST—PENALTIES. (1) Inheritance tax accrues as of the date of death, and is payable without interest until nine months after the date of death. Interest at eight percent per annum attaches to any tax due and unpaid nine months after the date of death. If the payment of the tax is received after the due date, interest will be computed from the due date to date of receipt of the tax and a statement forwarded for said amount. The inheritance tax release will not be issued in such cases until the total amount of tax and interest has been paid.

(2) The pendency of litigation involving the amount of tax due, either directly or indirectly, shall toll the interest during the time necessarily consumed by such litigation, to a maximum of three years: PROVIDED, HOWEVER, That a lis pendens has been filed by one of the parties with the County Auditor and the Department provided with a photocopy of said lis pendens reflecting the County Auditor's receiving number. The minimum tax due in any event shall be paid within nine months from the date of death. The interest shall be tolled only as to that portion of the tax which depends upon the outcome of the litigation.

(2) **Inheritance Tax Returns—Filing.** An Inheritance Tax Return shall be filed, subject to section 1 of this chapter on a form provided by the Department for every estate which owns or has an interest therein for all property as delineated in RCW 83.04.010.

(3) **Tax Returns—Duty to file—Full disclosure.** It is the duty of the personal representative to complete said Return and file it with the Department on or before nine months after the date of death of the decedent. Interest at the rate of eight percent per annum shall accrue against any inheritance tax unpaid after said time. If there is more than one personal representative, the Return shall be made jointly by all. If the personal representative is unable to make a complete Return as to any part of the gross estate, he is required to give all the information he has as to such property, including a full description, and the name of every person holding a legal or beneficial interest in the property. If the personal representative is unable to make a Return as to any property, every person holding a legal or beneficial interest therein shall, upon notice from the director, make a Return as to that part of the gross estate.

(4) **Tax Returns—Inventory.**

(a) The Inheritance Tax Return shall have attached thereto an itemized inventory of all of the property constituting the gross estate and shall be keyed to the estate asset section of the Inheritance Tax Return. There must also be attached to the Return an itemized list of the deductions which shall be keyed to the deduction section of the Inheritance Tax Return.

(b) In the case of no probate filings, three copies of the Inventory must be filed with the Inheritance Tax Return. No inheritance tax release in a no probate estate will issue until all required copies of the Inventory are received by the Department.

(5) **Real estate.** The correct legal description and Assessor's parcel number shall be given for each parcel of real estate, and, if located in an incorporated area, the name of the street and number, its area, and, if improved, a short statement of the character of the improvements shall also be provided.

(6) (a) **Bonds—Corporate.** A description of bonds should include the number held, principal amount, name of obligor, date of maturity, rate of interest, date or dates on which interest is payable, series number if there is more than one issue, and the principal exchange upon which listed. A description of stock shall include the number of shares, whether common or preferred, and, if preferred, what issue, par value, quotation at which returned, exact name of corporation, and, if the stock is unlisted, the location of the principal business office and state in which incorporated and the date of incorporation, or if the stock is listed, the principal exchange upon which sold.

(b) **United States savings bonds.** The series, face value and date of issue shall be shown for each bond. The bond listings shall be segregated according to denomination and series, and then listed chronologically in the order in which they were issued.

If the bonds are jointly held or payable to a survivor, this fact shall be shown, with the relationship of the survivor. The bonds passing to a particular individual shall be grouped under the name of that person.

United States savings bonds G, H and K are redeemable at face upon a death, and are so valued.

United States treasury bonds bear interest from date of issue until maturity, and interest accrued to date of death shall be included for tax purposes. When such bonds are redeemed at par for the purpose of paying the Federal estate tax, they shall be valued at par plus accrued interest for inheritance tax purposes.

(7) **Notes.** Include in a description of all notes the name of the maker, the relationship, if any, to decedent, date on which given, date of maturity, amount of principal, amount of principal unpaid, rate of interest and whether simple or compound, date to which interest has been paid and amount of unpaid interest.

(8) **Real estate contracts.** A description of the seller's interest in land contracts shall include the name of the buyer, the relationship, if any, to decedent, date of contract, description of property, sale price, initial payment, amounts of installment payments, unpaid balance of principal and accrued interest, interest rate and date prior to decedent's death to which interest had been paid.

(9) (a) **Bank accounts.** A description of bank accounts shall disclose the name and address of depository, amount on deposit, whether a checking, savings, or a time-deposit account, rate of interest, if any payable, amount of interest accrued and payable, and account number.

(b) **Joint bank accounts and deposits with right of survivorship** are includable in the decedent's estate. Where decedent was not the actual owner of the deposit, the facts as to true ownership must be shown by affidavit showing the source of the funds.

(c) The funds on deposit in a survivorship account will be taxed as passing to the surviving joint tenant, unless the survivor by disclaimer properly executed waives all interest in such account as survivor.

(d) If a joint account is not a survivorship account, it shall be so stated.

(e) The relationship of the decedent to the joint tenant shall be shown.

(f) Bank accounts in the name of the surviving spouse are presumed to be community property and shall be reported. If it is claimed that they are actually the separate property of the surviving spouse, such fact must be established to the satisfaction of the Director by affidavit. Supporting affidavits from persons other than the survivor shall be provided, if available. All claims of contributions shall be clearly traced to the source of the funds and it must be shown that the funds were those of the survivor and not of the decedent.

(10) **Life insurance.** The description of life insurance should give the name of the insurer, number of policy, name of the beneficiary, owner of the policy, and the amount of the proceeds. This information is to be provided on all insurance policies in which the decedent had an interest. All insurance companies doing business within the State of Washington shall provide the personal representative with Internal Revenue Service form 712 on all insurance policies in which the decedent had an interest and the personal representative shall provide a copy of same to the Department.

(11) **Judgments.** Judgment shall be described giving the title of the cause and the name of the court in which rendered, date of the judgment, name and address of the judgment debtor, amount of judgment, and rate of interest to which subject, and by stating whether any payments have been made thereon, and, if so, when and in what amounts.

(12) **Transfers prior to death.** All transfers in excess of \$1,000 per donee per calendar year made by the decedent during the three-year period ending on the date of the decedent's death, irrespective of the date of death, except bona fide sales for an adequate and full consideration in money or money's worth, shall be disclosed in the Return whether or not the personal representative regards the transfers subject to the tax. If the personal representative believes that such a transfer is not subject to the tax, a brief statement of the pertinent facts is required. Include in the explanation the fair market value of the asset as of the date of death and the date of transfer.

(13) **Fractional interests.** If the estate owns a fractional interest in any property, by reason of inheritance, or otherwise, only the value of the estate's interest need be shown, and the source of the fractional interest should be indicated.

(14) **Adoption.** When the relationship of an heir to the decedent rests upon an adoption, supporting evidence of legal adoption must be submitted as proof to the Inheritance Tax Division; without such proof Class A taxation rates and exemptions will not apply.

(15) **Annuities other than qualified retirement plans.**

(a) Annuities are treated as investments, rather than insurance, and are taxable to the surviving beneficiary upon the death of the principal. A lump sum payment to the beneficiary is taxable.

(b) When monthly or other periodic payments are to be made to the surviving beneficiary, the annuity shall be taxable at its commuted value as of the date of death of the decedent.

(c) A description of all annuities should be provided. Show the name, address, the relationship of the surviving beneficiary, and of the grantor. If the annuity is payable out of the trust or other funds, such a description as will fully identify it must be provided. If the annuity is payable for a term of years, the duration of the term and the date on which it began shall be given, and if payable for the life of a person other than the decedent, the date of birth of such person should be provided. If the personal representative has not included in the gross estate the full value of an annuity, he shall, nevertheless, fully describe the annuity and state its total purchase price and the amount of the contribution made by each and every person toward the purchase price. If the personal representative believes that any part of the annuity is excludable from the gross estate for any reason, he should state in the Return or an attachment thereto the reason for his belief.

(d) Annuities carried by a surviving spouse are presumed to be investments of the marital community and must be reported for inheritance tax purposes. If a claim is made that they are not community property, data in support of such claim shall be provided.

WAC 458-57-450 PAYMENT OF INHERITANCE TAX—
EXTENSION OF TIME-BASIS FOR-REASONABLE

CAUSE—UNDUE HARDSHIP. (1) Definitions. The following definitions shall apply to the terms used herein and in Title 83 RCW:

(a) Reasonable cause. Those facts of a character calculated to induce a belief in the mind of an ordinary and prudent business person.

(b) Reasonable time. Such length of time as may fairly, properly, and justly be allowed or required, having regard to the nature of the subject matter.

(c) Undue hardship. More than a necessary burden in a particular case, more than an inconvenience.

(d) Due diligence. Such measure of prudence or activity as is properly to be expected from and ordinarily exercised by a reasonable and prudent person under the particular circumstances, depending on the relative facts of the special case.

(e) Reasonable prudent person. A careful person, a person exercising that degree of care required by the circumstances of the particular case.

(f) Personal representative. Any person or institution in possession of the property owned by the decedent.

(2) Extensions—Basis for—Time. In any case in which the Director finds that payment of the inheritance tax or any part thereof would impose undue hardship upon the estate, he may extend the time for payment for reasonable periods of time not to exceed ten years from the date the tax is due.

(3) Extensions—Basis—More than general statement. The extension will not be granted upon a general statement of hardship. It must appear that a substantial financial loss, for example, due to the sale of property at a sacrifice price, will result to the estate from making the payment of the tax, a portion thereof, or a deficiency at the date prescribed therefor. If a market exists, a sale of property at the current market price shall not ordinarily be considered as resulting in an undue hardship, or constituting "reasonable cause." No extension will be granted for the payment of any tax, a portion thereof or of any deficiency if the delay sought is due to negligence, intentional disregard of the rules and regulations of the Department, or fraud with intent to evade the tax.

(4) Extensions—Applications—Granting—Discretionary—Time. All applications for an extension shall be in writing and must contain, or be supported by, information in affidavit form showing the hardship that would result to the estate if the extension were refused. The application, with the supporting information and supporting affidavit, must be filed with the Director at least sixty days before the date prescribed for the payment. When received, it will be examined, and, within thirty days shall be denied, granted, or tentatively granted subject to certain conditions of which the personal representative will be notified. The Director will not consider an application for such an extension unless it is applied for on or before the date prescribed. If the personal representative desires to obtain an additional extension, it must be applied for on or before the date of the expiration of the previous extension. The granting of an extension of time for paying the tax, a portion thereof, or any deficiency is discretionary with the Director.

(5) Payment—After extension granted. The payment of an amount for which an extension is granted, with interest thereon, must be paid on or before the expiration of the period of the extension without the necessity of notice and demand from the Director.

(6) Extension—Payment of interest. The granting of an extension of time for the payment of the tax, any portion thereof, or any deficiency does not operate to prevent the running of interest. Interest on any unpaid amount will be at the annual rate of eight percent.

(7) Examples. The following examples illustrate cases involving reasonable cause for granting an extension of time pursuant to RCW 83.44.025:

Example 1. An estate includes sufficient liquid assets to pay the inheritance tax when otherwise due. But for reasons beyond the control of the personal representative the assets cannot be readily marshalled for payment of the tax even with the exercise of due diligence.

Example 2. An estate is comprised in substantial part of assets consisting of rights to receive payments in the future (e.g., annuities, copyright royalties, contingent fees, or accounts receivable). These assets provide insufficient present cash with which to pay the inheritance tax when otherwise due and the estate cannot borrow against these assets except upon terms which would inflict loss upon the estate.

Example 3. An estate does not have sufficient funds (without borrowing at a rate of interest higher than that generally available) with which to pay the entire inheritance tax when due, to provide a reasonable allowance during the remaining period of administration of the estate for the decedent's surviving spouse and dependent children, and

to satisfy claims against the estate that are due and payable. Furthermore, the personal representative has used due diligence in an effort to convert assets in his possession (other than an interest in a closely held business) into cash.

Example 4. A farm (or other closely held business) comprises a significant portion of the estate. Sufficient funds for the payment of the inheritance tax when due are not readily available. The farm (or closely held business) could be sold to unrelated persons at a price equal to its fair market value, but the personal representative seeks an extension of time to facilitate the raising of funds from other sources for the payment of the inheritance tax.

NEW SECTION

WAC 458-57-460 INHERITANCE TAX—EXTENSION OF TIME FOR PAYMENT—FAILURE TO PAY ON TIME. If, after an agreement is entered into with the Director for the extension of time for payment of inheritance tax, any installment is not paid on or before the date fixed for payment, the balance of the tax plus interest shall be paid upon notice and demand.

NEW SECTION

WAC 458-57-470 INHERITANCE TAX—EXTENSION OF TIME FOR PAYMENT—SECURITY. In the event an extension of time is granted for the payment of inheritance tax, any portion thereof, or any deficiency, a bond or such other security as the Director deems necessary to fully provide for payment of the tax in accordance with the terms of the extension agreement shall be provided.

NEW SECTION

WAC 458-57-480 CLOSELY HELD BUSINESSES—WHAT CONSTITUTES. (1) (a) Requirements. An estate may be deemed to own an interest in a closely held business if at the time of the decedent's death, the value of the interest in the closely held business exceeded thirty-five percent or more of the gross value of the decedent's estate or fifty percent or more of his taxable estate. For the purposes of this section a farm used as a farm for farming purposes shall be deemed to be a closely held business if it otherwise qualifies as a closely held business, providing that there was material participation by the decedent at the time of his death in the operation of the farm.

(b) The terms "farm," "farming purposes" and "material participation" as used in these regulations shall be as defined in RCW 83.16.120.

(2) Definition. The term "interest in a closely held business" shall mean:

(a) An interest as a proprietor in a trade or business carried on as a sole proprietorship.

(b) An interest as a partner in a partnership carrying on a trade or business if twenty percent or more of the total capital interest in the partnership is included in determining the decedent's gross estate or if the partnership had ten or less partners.

(c) Stock in a corporation carrying on a trade or business if twenty percent or more in value of the voting stock of the corporation is included in determining the decedent's gross estate or if the corporation had ten or less shareholders.

(3) Number of partners or shareholders. The number of partners of the partnership or shareholders of the corporation is determined as of the time immediately before the decedent's death. Where an interest in a partnership, or stock in a corporation, is the community property of husband and wife, the husband and the wife are counted as one in arriving at the number of partners or shareholders.

(4) Carrying on a trade or business.

(a) In order for the interest in a partnership or the stock of a corporation to qualify as an interest in a closely held business it is necessary that the partnership or the corporation be engaged in carrying on a trade or business at the time of the decedent's death. However, it is not necessary that all the assets of the partnership or the corporation be utilized in the carrying on of the trade or business.

(b) In the case of a trade or business carried on as a sole proprietorship, the interest in the closely held business includes only those assets of the decedent which were actually utilized by him in the trade or business. Thus, if a building was used by the decedent in part as a personal residence and in part for the carrying on of a mercantile business, the part of the building used as a residence does not form any part of the interest in the closely held business. Whether an asset will be considered as used in the trade or business will depend on the facts

and circumstances of the particular case. For example, if a bank account was held by the decedent in his individual name (as distinguished from the trade or business name) and it can be clearly shown that the amount on deposit represents working capital of the business as well as non-business funds (e.g., receipt from investments, such as dividends and interest), then that part of the amount on deposit which represents working capital of the business will constitute a part of the interest in the closely held business. On the other hand, if a bank account is held by the decedent in the trade or business name and it can be shown that the amount represents non-business funds as well as working capital, then only that part of the amount on deposit which represents working capital of the business will constitute a part of the interest in the closely held business. In a case where an interest in a partnership or stock of a corporation qualifies as an interest in a closely held business, the decedent's entire interest in the partnership, or the decedent's entire holding of stock in the corporation, constitutes an interest in a closely held business even though a portion of the partnership or corporate assets is used for a purpose other than the carrying on of a trade or business.

(5) Interests in two or more closely held businesses. Interests in two or more closely held businesses shall be treated as an interest in a single closely held business if more than fifty percent of the total value of each such business is included in determining the value of the decedent's gross estate. For the purpose of the fifty percent requirement set forth in the preceding sentence, an interest in a closely held business which represents the surviving spouse's interest in community property will be considered as having been included in determining the value of the decedent's gross estate.

WAC 458-57-490 QUALIFIED OR SPECIAL USE—APPLICATION OF STATUTORY AND REGULATORY PROVISIONS.

(1) In general. The regulations and rules relating to qualified or special use under RCW 83.16.100 through 83.16.140 shall be those rules and regulations adopted and in use by the Internal Revenue Service of the United States for estate tax purposes wherever applicable and insofar as they do not conflict with RCW 83.04.024, 83.16.010, 83.16.100 through 83.16.145 and chapter 458-57 WAC.

(2) Election—Notification. If the personal representative elects to have any of the assets of the estate taxed at the qualified or special use value, he shall make such election and notify the Department on or before the due date of the inheritance tax to avail the estate of said election.

(3) Lien—Form—Recording. The lien prescribed by RCW 83.04.024 shall be substantially in form of the mortgage set forth in RCW 61.12.020, be recorded with the County Auditor and a photocopy thereof with the County Auditor's receiving number thereon must be provided to the Director.

(4) Lien—Security in lieu of. The security in lieu of the lien as referred to in RCW 83.04.024(5) shall be in accordance with WAC 458-57-370(6).

(5) Lien—Subordination. The subordination of any lien under RCW 83.04.024(6) will be considered only if the equity in the real property equals or exceeds five times the amount of the tax lien after subordination, (e.g., the tax lien equals twenty percent of the equity after subordination).

(6) Qualified use—Election—Filing for. The election for qualified use shall be made on Department of Revenue form REV 50-2032 and filed with the Director in accordance with RCW 83.16.115.

NEW SECTION

WAC 458-57-500 MISCELLANEOUS PROVISIONS. (1) Award in lieu of homestead. Property which is the subject of an award in lieu of homestead passes to the person who receives it by reason of the statutes of inheritance. Such an award does not remove the property from the estate for inheritance tax purposes, and does not increase the exemptions. The awards will increase the amount going to Class A in some instances, and that amount is then taxed as in any other estate. Amounts passing to other classes are reduced by the amounts transferred to Class A. The other classes are then taxed in their reduced amount.

This illustrated by the following example:

The Will leaves decedent's entire estate to his nephew. The estate is separate property, and his new wife files for an award in lieu of homestead.

\$50,000.00	Decedent's net estate
20,000.00	Awarded to wife in lieu of homestead
20,000.00	Class A exemption (no tax)
30,000.00	Remainder to Class B
10,000.00	@ 3% = 300.00
10,000.00	@ 4% = 400.00
10,000.00	@ 7% = 700.00
	\$1,400.00 Total tax due

In the above example there is no exemption accorded Class B heirs as there is an amount passing to a Class A heir.

(2) Partnerships. The interest of a deceased partner in a partnership, among whose assets are buildings and land, is an interest in the surplus of assets with a right to an accounting. This is an intangible asset (a chose in action) and is subject to inheritance tax at the domicile of the decedent.

(3) Life estate with power to invade. One who takes a life estate with full power to exhaust the entire estate during his life, with the remainder at his death to persons named by the decedent, takes a life estate, and the remainder is a vested rather than a contingent remainder for purposes of the inheritance tax statutes.

(4) Social security death benefits. The social security death benefit is payable to a surviving spouse as a right, without regard to payment of funeral expenses. When it is paid to a surviving spouse, it need not be reported as an asset or used to reduce the funeral expense deduction.

In all other cases, the death benefit is payable to reimburse funeral expenses, and shall be offset against the deduction claimed, or reported as a cash asset.

(5) Survivorship and wrongful death actions. The proceeds of a wrongful death action are not taxable and shall not be included in the assets of the estate of the decedent. The proceeds of a survivorship action are taxable and shall be included in the listing of the assets of the deceased. In those cases where the litigation is a combination of the two, the portion of the recovery or settlement attributable to the survival of action portion of the litigation shall be included as an asset in the inventory of the decedent's estate.

(6) Alien estates. When the decedent was not a resident of a territory or state in the United States, the property of such decedent shall be taxable whether tangible or intangible property, including certificates of stock, bonds, bills, notes, bank deposits, or other written evidences of tangible property which are physically situated within the State of Washington or where the domicile of the debtor is in the State of Washington.

(7) Stock transfer.

(a) Probate. If an estate is probated, no consent from the Department shall be necessary for the transfer of stock in which the decedent had an interest, nor will the Department issue such consent. Proof to a transfer agent of the qualification of the personal representative shall be sufficient. The rule is likewise in those cases where assets pass by right of survivorship.

(b) No probate. A survivor or trustee may secure an inheritance tax release of a deceased domiciliary's estate if it is not probated in Washington by reporting the estate directly to the Department. Should such a Return be made, the Department shall issue an inheritance tax release. Attached thereto shall be a schedule of all assets as reported. The certificate with the attached schedule constitutes the release of the Department and authorizes the transfer of all assets including the stock described therein.

(8) Federal Estate Tax Closing Letter. In those cases wherein a Federal Estate Tax Return is filed, the Department shall not issue its inheritance tax release until such time as a copy of the Federal Estate Tax Closing Letter has been received and the final inheritance tax determination made and any subsequent tax due paid.

(9) Correspondence—Failure to respond to Department.

(a) In those cases wherein the Department addresses correspondence to an attorney or accountant for an estate and the attorney or accountant does not respond to the Department within thirty days, the matter shall be referred to the attention of the personal representative and/or the probate judge or committee or both for appropriate action. If said action is ineffective, the matter shall then be referred for action as in subsection (b) of this section.

(b) Where there is no attorney or accountant and the personal representative fails to respond to the Department within thirty days, the matter shall be referred for a court appointed personal representative or for removal of the personal representative.
