STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined matter is new matter;
 - (ii) deleted matter is (~~lined out and bracketed between double parentheses~~);
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

STATEMENT OF PURPOSE

Personnel Rules for the Classified Staff Service of Grays Harbor College (repeal)

On July 1, 1968, Personnel Rules for the Classified Staff Service of Grays Harbor College were filed under WAC 132B-12-003-363. The purpose of these rules was to give effect to the State Civil Service Law, chapter 41.06 RCW, of the state of Washington. These rules provided basic statements of personnel policy and procedures which were to be applied equitably to all classified employees of Grays Harbor College. The college is now proposing that

WAC 132B-12-003-363 be repealed because it has been superseded by rules promulgated by the Higher Education Personnel Board under chapter 251-04 WAC, et. seq.

Policies and Procedures for Tenure and Dismissal (amend)

Under the statutory authority of RCW 28B.50.850, et seq. Grays Harbor College filed Policies and Procedures for Tenure and Dismissal (Title: WAC 132B-128-010-050). The purpose of this action was to set forth procedures for implementing the statutes which protect the rights of tenured faculty. By seeking to amend these rules, Grays Harbor College wishes to bring about uniformity in the lists of administrative positions and titles as they appear in the Washington Administrative Code and in the various college publications (catalog, brochures, student handbook, etc.). This amendatory filing will reflect minor changes in grammar and style.

Public Records Policy (amend)

Under the statutory authority of RCW 42.30.060, Grays Harbor College filed its Operations and Procedures rule (WAC 132B-276-040). The purpose of this rule was to insure compliance with chapter 42.30 RCW, commonly called Initiative No. 276. Grays Harbor College wishes to amend its original filing by deleting the wording which schedules meeting dates for the board of trustees on precise days. Legal counsel has advised the college that it is unnecessary to include the deleted information within formal codified WAC form if this information is published annually by the Washington Code Reviser in the Washington State Register.

Inquiries relating to the above proposals for repealing or amending rules may be directed to:

AMENDATORY SECTION (Order PL 339, filed 3/27/80)

WAC 308-120-100 DEFINITIONS. (1) "Board" means the Washington state board of nursing.

(2) "School" means an educational unit charged with the responsibility of preparing persons to practice as registered nurses((f)).((f)) Three types of basic schools of nursing are distinguished by the certificate awarded to the graduate. Schools of nursing within colleges and universities award the associate degree or baccalaureate degree. Schools of nursing sponsored by a hospital award a diploma.

(3) "Initial approval" of schools of nursing is the approval given a new school of nursing based on its proposed program prior to the admission of its first class.

(4) "Full approval" of a school of nursing is the approval given a school of nursing that meets the requirements of the law and the rules and regulations of the board.

(5) "Conditional approval" of a school of nursing is the approval given a school of nursing that has failed to meet the requirements of the law and the rules and regulations of the board, and it specifies conditions that must be met within a designated time to rectify the failure.

(6) An "unapproved school of nursing" is a school of nursing that has been removed from the list of approved schools for failure to meet the requirements of the law and the rules and regulations of the board or a school that has never been approved by the board.

((f(7)))(7) "Extended Learning Sites" refers to any area external to the parent organization selected by faculty for student learning experiences.

((f(8)))(8) "Faculty" means persons who are responsible for the educational program of the school of nursing and who hold faculty appointment in the school.

((f(9)))(9) "Nursing student" is a person currently enrolled in an approved school of nursing.

((f(10)))(10) "Nursing aide" as that phrase is used in RCW 18.88.280 (the Professional Nurse Practice Act) is a nursing student who is employed for the purpose of giving help, assistance and support in the performance of those services which constitute the practice of ((professional)) registered nursing.

(a) "Direction(~~(; control)~~) and supervision" - the nursing aide may function only under the "direction(~~(; control);~~) and supervision" of the licensed ((professional)) registered nurse. She/he may never function as an independent practitioner or in a supervisory capacity, such as, e.g., head nurse, charge nurse, supervisor, administrator, or private duty nurse. She/he ((~~should never~~)) shall not perform duties or functions beyond her/his educational ((~~and professional~~)) nursing preparation, as determined by the school in which she/he is enrolled. Supervision(~~(;)~~) and direction ((~~and control~~)) shall include, but not be limited to, the following:

(i) A delegation of duties with regard to each individual patient, which duties shall be consistent with and shall not be greater than the abilities of the nursing aide, as indicated by her/his level of educational ((~~and professional~~)) preparation;

(ii) An awareness of the activity of the nursing aide as it occurs; and

(iii) A continuing evaluation of the performance of the nursing aide, and reassignment consistent therewith.

(b) "Responsibilities - employer, school of nursing, and nursing aide":

(i) Employer. It is the responsibility of the employer of such a nursing aide to obtain evidence of the aide's preparation from the school of nursing in which this student is enrolled.

(ii) School of nursing. It is the responsibility of the ((~~nursing~~)) school of nursing to furnish the prospective employer of the nursing aide with written evidence of ((~~this~~)) the student's educational ((~~and professional~~)) preparation. Evidence of ((~~this~~)) the student's educational ((~~and professional~~)) preparation should include

types of patients for whom she/he is prepared to care, specific procedures which she/he can perform, and additional nursing functions which she/he is prepared to do.

(iii) Nursing aide. It is the responsibility of the nursing aide((f;)) to accept only those assignments which are within the limits of her/his preparation as specified by her/his school of nursing.

(11) "Registered nurse" as used in these rules shall mean a nurse as defined by RCW 18.88.170.

(12) "Nurse administrator" is an individual who meets the qualifications contained in WAC 308-120-210 and who has been designated as the person primarily responsible for the direction of the program in nursing. Titles for this position may include, among others, dean, director, co-ordinator or chairperson.

(13) "Definition of terms appearing in RCW 18.88-.280" - the terms "direction and supervision", "auxiliary services", and "minor nursing services" are defined as follows:

(a) "Minor nursing services". The techniques and procedures used by the nursing profession are extremely difficult to categorize as major or minor nursing services. The important factor with which this law is concerned is the determination of which nursing person and at what level of preparation that person may perform said technique or procedure in relation to the condition of a given patient, and this kind of determination rests with the registered nurse.

(b) "Auxiliary services" are all those nursing services provided to patients by persons other than the registered nurse, the licensed practical nurse and the nursing student.

(c) "Direction and supervision" shall include, but not be limited to the following:

(i) "Delegation of duties with regard to each individual patient, which duties shall be consistent with and shall not be greater than the abilities of the auxiliary personnel, as indicated by their level of education preparation."

(ii) "An awareness of the activity of auxiliary personnel."

(iii) "A continuing evaluation of the performance of the auxiliary personnel."

(iv) "It is the responsibility of the auxiliary person to accept only those assignments which are within the limits of his or her preparation."

ADOPTED RULES

UTILITIES AND TRANSPORTATION COMMISSION

[Order R-160, Cause No. U-80-105—Filed January 28, 1981]

In the matter of adopting chapter 480-105 WAC, relating to electric companies.

This action is taken pursuant to Notice No. WSR 80-18-021, filed with the Code Reviser on November 26, 1980. These rules hereinafter adopted shall take effect on a permanent basis pursuant to RCW 34.04.040(2).

These rules are being promulgated pursuant to RCW 80.04.160, and are intended to administratively implement the provisions of that chapter. In addition, this rule-making action is necessary pursuant to the provisions of section 210(f) of the federal Public Utility Regulatory Policies [Policies] Act of 1978 (PURPA), Public Law 95-617.

This rule-making proceeding is in compliance with the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), the State Register Act (chapter 34.08 RCW), the Economic Policy Act (chapter 43.21H RCW), and the State Environmental Policy Act of 1971 (chapter 43.21C RCW).

Pursuant to Notice No. WSR 80-18-021, a public hearing in the above matter was held beginning at 9:30 a.m., Tuesday, January 13, 1981, in the Commission's Hearing Room, Sixth Floor, Highways-Licenses Building, Olympia, Washington. In addition, under the terms of said notice, interested persons were afforded the opportunity to submit written data, views, or arguments to the Commission prior to January 7, 1981. Both the written and verbal comments submitted pursuant to the notice have been given consideration by the Commission.

Pursuant to Notice No. WSR 80-18-021, final action on adoption of these rules was scheduled for 8:00 a.m. Wednesday, January 28, 1981, in the Commission's Conference Room, Seventh Floor, Highways-Licenses Building, Olympia, Washington. The matter was heard before Commissioners Robert C. Bailey, and A. J. Benedetti.

The adoption of chapter 480-105 WAC is intended to foster more efficient utilization of the region's resources in producing electric power, to mitigate the strain on the region's power resources, and to enable the electric utilities to provide electricity to their customers at the lowest possible rates.

In reviewing the entire record herein, it has been determined that chapter 480-105 WAC should be adopted to read as set forth in Appendix A, attached hereto and made a part hereof by reference. In general, chapter 480-105 WAC governs the terms and conditions under which regulated electric companies shall interconnect with electric co-generation and small power production facilities and purchase and supply power to those facilities. As to individual sections, WAC 480-105-001 sets out the purpose of the chapter. The specific application of the rules in this chapter is described in WAC 480-105-005. The definition of terms as used in this chapter are set out in WAC 480-105-010. The obligations of qualifying facilities which desire to interconnect with electric companies are set out in WAC 480-105-020. WAC 480-105-030 requires each electric utility to provide on a regular basis certain cost data by which payments to qualifying facilities for purchased power may be computed. WAC 480-105-040 sets out the obligations of electric utilities to interconnected qualifying facilities. The general requirements for the rates for purchases of power from qualifying facilities, and the manner in which those rates are to be calculated, are set out in WAC 480-105-050. The required provisions for rates for sale of power to qualifying facilities by electric utilities are specified in WAC 480-105-060. WAC 480-105-070 requires the qualifying facilities to pay for interconnection costs as described in that section. Finally, WAC 480-105-080 sets out the responsibilities of an electric utility in a condition of system emergency.

ORDER

WHEREFORE, IT IS ORDERED That chapter 480-105 WAC be adopted, as set forth in Appendix A, as permanent rules of the Washington Utilities and Transportation Commission to take effect pursuant to RCW 34.04.040(2).

IT IS FURTHER ORDERED That the order and the annexed rules, after being first recorded in the order register of the Washington Utilities and Transportation Commission, shall be forwarded to the Code Reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

NEW SECTION

WAC 480-105-001 PURPOSE. The purpose of this chapter is to implement regulations regarding arrangements between electric utilities and qualifying cogeneration and small power production facilities as provided under section 210 of the federal Public Utility Regulatory Policies Act of 1978 (PURPA), Public Law 95-617.

NEW SECTION

WAC 480-105-005 APPLICATION OF RULES. (1) These rules shall apply to any interconnection arrangement between an electric utility regulated by the commission and facilities which are qualifying facilities as defined herein. Provisions of these rules shall not supersede existing contracts. At the expiration of any existing contract between an electric utility and a cogenerator or small power producer, any contract extension or new contract shall comply with these rules.

(2) Nothing in these rules relieves the utility from carrying out its responsibilities as described in Section 210 of the Public Utility Regulatory Policies Act of 1978 (PURPA) or in the rules promulgated pursuant to said act.

(3) Nothing in these rules limits the authority of an electric utility or a qualifying facility to agree to a rate for any purchase, or terms or conditions relating to any purchase, which differ from the rate or terms or conditions which would otherwise be provided by these rules, provided such rates do not burden other ratepayers.

(4) In the event of an impasse in negotiations between an electric utility and a qualifying facility, either party may request a determination by the commission of the matter at issue.

NEW SECTION

WAC 480-105-010 DEFINITIONS. (1) "Avoided costs" means the incremental costs to an electric utility of electric energy or capacity or both which, but for the purchase from the qualifying facility or qualifying facilities, the utility would generate itself or purchase from another source.

(2) "Back-up power" means electric energy or capacity supplied by an electric utility to replace energy ordinarily generated by a qualifying facility's own generation equipment during an unscheduled outage of the facility.

(3) "Capacity" means the capability to deliver energy, measured in kilowatts (Kw).

(4) "Capacity costs" means the costs associated with supplying capacity; they are an allocated component of the fixed costs associated with providing the capability to deliver energy.

(5) "Cogeneration" means the sequential generation of electric energy and useful heat from the same primary energy source or fuel for industrial, commercial, heating, or cooling purposes.

(6) "Cogeneration facility" means a facility which produces electric energy, and steam or other forms of useful energy (such as heat) which are used for industrial, commercial, heating, or cooling purposes, through the sequential use of energy. An electric utility is not a cogeneration facility for the purposes of this chapter.

(7) "Commission" means the Washington utilities and transportation commission.

(8) "Costs of interconnection" means the reasonable costs of connection, switching, dispatching, metering, transmission, distribution, equipment necessary for system protection, safety provisions and administrative costs incurred by an electric utility directly related to the installation and maintenance of the physical facilities necessary to permit interconnected operations with a qualifying facility, to the extent that such costs are in excess of the corresponding costs which the electric utility would have incurred if it had not engaged in interconnected operations, but instead generated an equivalent amount of electric energy itself or purchased an equivalent amount of electric energy or capacity from other sources. Interconnection costs do not include any costs included in the calculation of avoided costs.

(9) "Demand" means the average rate in kilowatts at which electric energy is delivered during a set period of time, to be determined by mutual agreement between the utility and the customer.

(10) "Electric utility" means any public service company as defined by RCW 80.04.010 engaged in the generation, distribution, sale or furnishing of electricity and which is subject to the jurisdiction of the commission.

(11) "Energy" means electric energy, measured in kilowatt hours (kWh).

(12) "Energy costs" means: (a) for the short term, the incremental costs associated with the production or purchase of electric energy by the utility, which costs include the cost of fuel and variable operation and maintenance expenses, or the cost of purchased energy; and (b) for the long term, the combined allocated fixed costs and associated variable costs applicable to a displaced generating unit or to a purchase.

(13) "Interruptible power" means electric energy or capacity supplied by an electric utility to a qualifying facility subject to interruption by the electric utility under certain specified conditions.

(14) "Maintenance power" means electric energy or capacity supplied by an electric utility during scheduled outages of a qualifying facility.

(15) "Primary energy source" means the fuel or fuels used for the generation of electric energy, not including minimum amounts of fuel required for ignition, start-up, testing, flame stabilization, and control uses, nor minimum amounts of fuel required to alleviate or prevent unanticipated equipment outages and emergencies that directly affect the public health, safety, or welfare, which would result from electric power outages.

(16) "Purchase" means the purchase of electric energy or capacity or both from a qualifying facility by an electric utility.

(17) "Qualifying facility" means a cogeneration facility or a small power production facility as defined by these rules.

(18) "Rate" means any price, rate, charge, or classification made, demanded, observed or received with respect to the sale or purchase of electric energy or capacity, or any rule, regulation, or practice respecting any such rate, charge, or classification, and any contract pertaining to the sale or purchase of electric energy or capacity.

(19) "Sale" means the sale of electric energy or capacity or both by an electric utility to a qualifying facility.

(20) "Small power production facility" means a facility which produces electric energy solely by the use, as a primary energy source, of biomass, waste, renewable resources, or any combination thereof. Only small power production facilities which, together with any other facilities located at the same site (as determined by the Federal Energy Regulatory Commission), have power production capacities of 80 megawatts or less, are covered by these rules. An electric utility is not a small power production facility for the purposes of this chapter.

(21) "Supplementary power" means electric energy or capacity supplied by an electric utility, regularly used by

a qualifying facility in addition to that which the facility generates itself.

(22) "System emergency" means a condition on an electric utility's system which is likely to result in imminent significant disruption of service to customers or is imminently likely to endanger life or property.

NEW SECTION

WAC 480-105-020 OBLIGATIONS OF QUALIFYING FACILITIES TO ELECTRIC UTILITY. The conditions listed in this section shall apply to all qualifying facilities to be served by an electric utility under this chapter.

(1) The owner or operator of a qualifying facility purchasing or selling electricity pursuant to these rules shall execute a written agreement with the electric utility.

(2) In order to ensure system safety and reliability of interconnected operations, all interconnected qualifying facilities shall be constructed and operated in accordance with all applicable federal, state, and local laws and regulations.

(3) The qualifying facility shall furnish, install, operate, and maintain in good order and repair and without cost to the electric utility such relays, locks and seals, breakers, automatic synchronizers, and other control and protective apparatus as shown by the utility to be reasonably necessary for the operation of the qualifying facility in parallel with the electric utility's system.

(4) Switching equipment capable of isolating the qualifying facility from the electric utility's system shall be accessible to the utility at all times.

(5) At its option, the electric utility may choose to operate the switching equipment described in (3) above if, in the sole opinion of the utility, continued operation of the customer's qualifying facility in connection with the utility's system may create or contribute to a system emergency. Such a decision by the utility is subject to commission verification pursuant to WAC 480-105-080. The utility shall endeavor to minimize any adverse effects of such operation on the customer.

(6) Any agreement between a qualifying facility and an electric utility shall provide for the degree to which the qualifying facility will assume responsibility for the safe operation of the interconnection facilities. No qualifying facility may be required to assume responsibility for negligent acts of the utility.

NEW SECTION

WAC 480-105-030 AVAILABILITY OF ELECTRIC UTILITY SYSTEM COST DATA. (1) Each electric utility shall provide sufficient data concerning the utility's avoided costs and costs of interconnection in order to allow the owner or operator of a qualifying facility to estimate, with reasonable accuracy, the payment it could receive from the utility if the qualifying facility went into operation under any of the purchase agreements provided for in these rules.

(2) To make available data from which avoided costs may be derived, not later than May 31, 1982, and not less often than annually thereafter, each electric utility

shall provide to the commission for its review, and shall maintain for public inspection, the following data:

(a) The estimated avoided cost on the electric utility's system, solely with respect to the energy component, for expected levels of purchases from qualifying facilities. Such levels of purchases shall be stated in blocks of not more than one hundred megawatts for systems with peak demand of one thousand megawatts or more and in blocks equivalent to not more than ten percent of the system peak demand for systems of less than one thousand megawatts. The avoided costs shall be stated on a cents per kilowatt-hour basis, during peak and off-peak periods, by year, for the current calendar year and each of the next five years;

(b) The electric utility's plan for the addition of capacity by amount and type, for purchases of firm energy and capacity, and for capacity retirements for each year during the succeeding ten years; and

(c) The estimated capacity costs at completion of the planned capacity additions and planned capacity firm purchases, on the basis of dollars per kilowatt, and the associated energy costs of each addition or purchase, expressed in cents per kilowatt hour. These costs shall be expressed in terms of individual generating resources and of individual planned firm purchases. The necessity of differentiating between costs of individual units of a resource shall be at the discretion of the utility.

(d) Nothing herein shall preclude the determination of avoided costs (i) as the average avoided costs over an appropriate period of time or (ii) to reflect variations in avoided costs because of changes in streamflows, generating unit availability, loads, or other conditions.

(e) If any electric utility fails to provide on request the information required herein, the qualifying facility may apply to the commission for an order requiring that the information be provided.

(3) State review:

(a) Any data submitted by an electric utility under this section shall be subject to review by the commission.

(b) In any such review, the electric utility has the burden of coming forward with justification for its data.

NEW SECTION

WAC 480-105-040 OBLIGATIONS OF ELECTRIC UTILITY TO QUALIFYING FACILITIES. (1) Obligation to purchase from qualifying facilities:

Each electric utility shall purchase, in accordance with WAC 480-105-050, any energy and capacity which is made available from a qualifying facility:

(a) Directly to the electric utility; or

(b) Indirectly to the electric utility in accordance with subsection (4) of this section.

(2) Obligation to sell to qualifying facilities: Each electric utility shall sell to any qualifying facility, in accordance with WAC 480-105-060, any energy and capacity requested by the qualifying facility on the same basis as available to other customers of the utility in the same class.

(3) Obligation to interconnect:

(a) Subject to subsection (3)(b) of this section, any electric utility shall make such interconnections with any qualifying facility as may be necessary to accomplish

purchases or sales under this chapter. The obligation to pay for any interconnection costs shall be determined in accordance with WAC 480-105-070.

(b) No electric utility is required to interconnect with any qualifying facility if, solely by reason of purchases or sales over the interconnection, the electric utility would become subject to regulation as a public utility under Part II of the Federal Power Act.

(4) Transmission to other electric utilities. At the request of a qualifying facility, an electric utility which would otherwise be obligated to purchase energy or capacity from such qualifying facility may, at the option of the utilities involved, transmit energy or capacity to any other electric utility. The rate paid to a qualifying facility by the electric utility to which such energy or capacity is transmitted shall be adjusted up or down to reflect line losses pursuant to WAC 480-105-050(6)(d) and shall not include any charges for transmission. Nothing contained herein shall be construed to obligate the electric utility connected with the qualifying facility to transmit to other utilities or to obligate such other utilities to purchase from the qualifying facility.

(5) Parallel operation: Each electric utility shall offer to operate in parallel with a qualifying facility, provided that the qualifying facility complies with any applicable standards established in accordance with WAC 480-105-020.

NEW SECTION

WAC 480-105-050 RATES FOR PURCHASES.

(1) Rates for purchases shall:

(a) Be just and reasonable to the electric consumer of the electric utility and in the public interest; and

(b) Not discriminate against qualifying cogeneration and small power production facilities.

(2) Nothing in this chapter requires any electric utility to pay more than the avoided costs for purchases.

(3) Relationship to avoided costs:

(a) A rate for purchases satisfies the requirements of subsection (1) of this section if the rate equals the avoided costs determined after consideration of the factors set forth in subsection (6) of this section.

(b) Rates for purchases shall be in accordance with subsection (3)(a) of this section, regardless of whether the electric utility making such purchases is simultaneously making sales to the qualifying facility.

(c) In the case in which the rates for purchases are based upon estimates of avoided costs over the specific term of the contract or other legally enforceable obligation, such rates do not violate this chapter if they differ from avoided costs at the time of delivery.

(4) Standard rates for purchases:

(a) Each electric utility shall put into effect standard rates for purchases from qualifying facilities with a design capacity of one hundred kilowatts or less.

(b) The standard rates for purchases under subsection (4)(a) of this section:

(i) Shall be consistent with subsections (1) and (6) of this section; and

(ii) May differentiate among qualifying facilities using various technologies on the basis of the supply characteristics of the different technologies.

(5) Purchases "as available" or pursuant to a legally enforceable obligation. Each qualifying facility shall have the option either:

(a) To provide energy as the qualifying facility determines such energy to be available for such purchases, in which case the rates for such purchases shall be based on the purchasing utility's avoided energy costs calculated at the time of delivery; or

(b) To provide energy or capacity pursuant to a legally enforceable obligation for the delivery of energy or capacity over a specified term, in which case the rates for such purchases shall, at the option of the qualifying facility exercised prior to the beginning of the specified term, be based on either:

(i) The avoided costs calculated at the time of delivery; or

(ii) The avoided costs projected to apply over the life of the obligation as calculated at the time the obligation is incurred.

(6) Factors affecting rates for purchases: In determining avoided costs the following factors shall, to the extent practicable, be taken into account:

(a) The data provided pursuant to WAC 480-105-030(2), including commission review of any such data;

(b) The availability of capacity or energy from a qualifying facility during the system daily and seasonal peak periods, including:

(i) The ability of the utility to dispatch output of the qualifying facility;

(ii) The expected or demonstrated reliability of the qualifying facility;

(iii) The terms of any contract or other legally enforceable obligation, including the duration of the obligation, termination notice requirement and sanctions for noncompliance;

(iv) The extent to which scheduled outages of the qualifying facility can be usefully coordinated with scheduled outages of the utility's facilities;

(v) The usefulness of energy and capacity supplied from a qualifying facility during system emergencies, including its ability to separate its load from its generation;

(vi) The individual and aggregate value of energy and capacity from qualifying facilities on the electric utility's system; and

(vii) The smaller capacity increments and the shorter lead times available, if any, with additions of capacity from qualifying facilities.

(c) The relationship of the availability of energy or capacity from the qualifying facility as derived in paragraph (6)(b) of this section, to the ability of the electric utility to avoid costs, including the deferral of capacity additions and the reduction of fossil fuel use; and

(d) The costs or savings resulting from variations in line losses from those that would have existed in the absence of purchases from a qualifying facility, if the purchasing electric utility generated an equivalent amount of energy itself or purchased an equivalent amount of energy or capacity.

NEW SECTION

WAC 480-105-060 RATES FOR SALES. (1) General rules:

(a) Shall be just and reasonable and in the public interest; and

(b) Shall not discriminate against any qualifying facility in comparison to rates for sales to other customers served by the electric utility.

(2) Rates for sales which are based on accurate data and consistent system-wide costing principles shall not be considered to discriminate against any qualifying facility to the extent that such rates apply to the utility's other customers with similar load or other cost-related characteristics.

(3) Additional services to be provided to qualifying facilities:

(a) Upon request of a qualifying facility, each electric utility shall provide:

(i) Supplementary power;

(ii) Back-up power;

(iii) Maintenance power; and

(iv) Interruptible power.

(b) The commission may waive any requirement of subsection (3)(a) of this section if, after notice in the area served by the electric utility and after opportunity for public comment, the electric utility demonstrates and the commission finds that compliance with such requirement will:

(i) Impair the electric utility's ability to render adequate service to its customers; or

(ii) Place an undue burden on the electric utility.

(4) The rate for sale of back-up power or maintenance power:

(a) Shall not be based upon an assumption (unless supported by factual data) that forced outages or other reductions in electric output by all qualifying facilities on an electric utility's system will occur simultaneously, or during the system peak, or both; and

(b) Shall take into account the extent to which scheduled outages of the qualifying facilities can be usefully coordinated with scheduled outages of the utility's facilities.

NEW SECTION

WAC 480-105-070 INTERCONNECTION COSTS. (1) Obligation to pay: Any costs of interconnection shall be the responsibility of the owner or operator of the qualifying facility. Interconnection costs which may be reasonably incurred by the utility shall be assessed against a qualifying facility on a nondiscriminatory basis with respect to other customers with similar load characteristics.

(2) Reimbursement of interconnection costs: The electric utility shall be reimbursed by the qualifying facility for any reasonable interconnection costs the utility may incur. Such reimbursement may be over an agreed period of time, but not greater than the length of any contract between the utility and the qualifying facility.

NEW SECTION**WAC 480-105-080 SYSTEM EMERGENCIES.**

(1) Qualifying facility obligation to provide power during system emergencies: A qualifying facility shall be required to provide energy or capacity to an electric utility during a system emergency only to the extent:

(a) Provided by agreement between such qualifying facility and electric utility; or

(b) Ordered under section 202(c) of the Federal Power Act.

(2) Discontinuance of purchases and sales during system emergencies:

(a) During any system emergency, an electric utility may discontinue or curtail:

(i) Purchases from a qualifying facility if such purchases would contribute to such emergency; and

(ii) Sales to a qualifying facility, provided that such discontinuance or curtailment does not discriminate against a qualifying facility, and takes into account the degree to which purchases from the qualifying facility would offset the need to discontinue or curtail sales to the qualifying facility.

(b) System emergencies resulting in utility action under these rules are subject to verification by the commission if either party requests such verification.

AMENDATORY SECTION (Amending Order 79-01, Resolution 596, 597, 598, filed 8/1/79)

WAC 479-20-033 PROCEDURE FOR REQUESTING AN INCREASE IN AUTHORIZED AMOUNT OF URBAN ARTERIAL TRUST FUNDS. Participation of urban arterial trust funds in urban arterial projects may be approved by the urban arterial board in amounts requested in the current separate section of the local government's six year construction program.

These amounts may be modified only as set forth in WAC 479-20-036.

An updated cost estimate on the project shall be submitted to the urban arterial board at the following stages of project development:

- (1) At the time the project prospectus for preliminary engineering (phase 1) is submitted further defining the work to be accomplished which was outlined in the six year construction program;
- (2) At any time during the preliminary engineering or right of way phase of the project when estimated total project cost is determined to exceed the amount authorized by the urban arterial board more than twenty-five percent, or \$75,000, whichever is the lesser;
- (3) At the time the engineer's final estimates become available and the construction prospectus is submitted to the urban arterial board for approval;
- (4) At the time contract bids are considered but prior to award of contract;
- (5) At the time of contract completion but prior to final settlement on the project between the local government and the urban arterial board.

The submitting local government may request increased participation by urban arterial trust funds above the amount submitted in the agency's current six year construction program or the amount originally authorized by the board, as applicable, at ~~((each of the five specified stages))~~ the first, third and fifth stages in the project's development. All such requests shall be evaluated by the board in accordance with board rules.

AMENDATORY SECTION (Amending Order 457, filed 9/16/77)

WAC 479-16-070 STANDARDS FOR FUNCTIONAL CLASSIFICATION OF URBAN ARTERIALS. All roads and streets of each county and city lying within or having within its boundaries a federal urban area shall be divided by the county or city into arterial roads or streets and access roads or streets. Arterial roads or streets shall be established and subdivided into three functional classes to be known as ~~((major))~~ principal arterials, ~~((secondary))~~ minor arterials, and collector arterials in accordance with uniform standards established by the Urban Arterial Board ~~((pursuant to the Administrative Procedure Act))~~ in compliance with the federal classification system. Incorporated cities lying outside federal designated urban areas are not required to divide their roads and streets by functional class.

All new roads or streets within federal urban areas that are under construction, have right of way acquired, or are definitely programmed for funding and construction shall be evaluated and functionally classified. New roads or streets planned for in regional comprehensive land use studies, and which represent the participation and joint planning efforts of all levels of government, shall be considered to approach a committed status and may be functionally classified. Projected routes to meet future transportation requirements may be designated and functionally classified when:

(1) such routes are included in the transportation study relating to the comprehensive land use studies in regions where such plans exist;

(2) such routes are included in the comprehensive plan of the local agency of jurisdiction, have been reviewed by adjacent or other affected agencies, and are integrated with routes contained in the comprehensive plans of adjacent agencies.

All roads or streets within federal urban areas not classified as ~~((major))~~ principal arterials, ~~((secondary))~~ minor arterials, or collector arterials shall be identified as access roads or streets.

Each request ~~((to the Urban Arterial Board for changes in))~~ that would change, add to or delete from the previously approved functionally classified arterial system shall be submitted to the district state aid engineer for processing through the department of transportation, planning division. The request shall also be accompanied by information indicating that the request has been reviewed and approved by the legislative body. A copy of the request shall be submitted to the urban arterial board for information purposes only.

All urban arterials within federal urban areas shall be functionally classified on the basis of type and volume of traffic accommodated by the road or street, hereafter referred to as street, and by the street's relative social and economic importance. Each street's traffic type is to be evaluated in terms of its local or through traffic carrying characteristics. The higher the proportion of through traffic carried by a given street, the higher it should normally be functionally classified.

To assist in identifying through traffic carrying characteristics of streets, aerial photographs should be evaluated to identify the hierarchy of traffic generators and traffic generating areas in each urban area. These traffic generators shall be considered to be the most important factor in determining the magnitude of through traffic and shall include, but shall not be limited to, business districts, industrial plants, shopping centers, schools, churches, parks and airports.

Transportation study data, traffic flow maps, master plans and other background data should also be considered, to the extent it is available, in identifying traffic generators.

Examples of other factors that may be considered in determining the proportion of through traffic carried by a street, in addition to actual field interviews, include street designation as "by-pass routes", "truck routes" or high proportions of vehicles bearing out-of-state license plates.

The composition of traffic should also be considered in evaluating the through traffic carrying characteristics of streets. Bus transit routes often follow important arterial streets with only the extreme outward ends of bus routes normally making use of nonarterial streets. Similarly, any street which carries a significant number of truck trips is apt to be performing some level of arterial function insofar as such trips reflect a nearby traffic generator of significant economic importance.

Average daily traffic volume on streets shall be evaluated to determine the use currently being given to the street. Traffic volumes, in conjunction with the analysis of through versus local traffic, may be considered to be one of the most important single criterion determining the functional class of urban arterials. However, traffic volumes on streets shall also be considered in relation to the principle of concentrating major traffic flows on a selected system of arterials rather than permitting through traffic to diffuse through many parallel streets designed to a lesser level with resulting increased congestion and accident hazards.

Counties and cities within federal urban areas shall develop urban arterial classification plans so as to integrate with important adjacent rural and state highways. Each city or county preparing a functional classification plan shall coordinate its classifications with those of adjacent units of government to ensure smooth progression from one system to another regardless of trip length, purpose or other qualification. This necessary coordination may sometimes result in an urban arterial designation not otherwise justified.

Special consideration shall be given to streets connecting with freeway and expressway interchanges. Such interchanges should normally carry at least a collector arterial designation in recognition of the fact that:

(1) land development comes quickly at interchange areas and traffic volumes tend to grow more rapidly than in other areas.

(2) providing adequate on and off ramp facilities makes better utilization of the limited access facility avoiding back-ups at more "popular" ramps.

Off-set arterial intersections shall be avoided to the maximum extent possible to alleviate the need for additional signing, traffic signals and difficult turning movements for drivers.

Frontage roads serving as an integral part of a limited access facility and which serve a number of large, abutting trip generators should normally be considered to be not more than a secondary arterial. Those frontage roads with medium to high traffic volumes without significant abutting land use service would have collector arterial status while low traffic frontage roads without significant abutting land use service would have no arterial status.

"Relief valve" arterials of several blocks duration, often providing a crude kind of downtown by-pass, should not be designated directly parallel to an actual arterial street which is severely congested. Such designation tends to perpetuate the congestion on the actual arterial street by discouraging improvements thereon. If there is no way of improving the congested arterial street, one way operation of the facility should be considered to create a properly planned and engineered couplet. The two streets comprising such a couplet would be considered a single functional route for classification purposes. Such couplets would normally be required only for ((major)) principal or ((secondary)) minor arterials and both streets comprising the couplet would be considered to be of the same functional class.

Streets considered to be arterial in nature when evaluated in accordance with the above standards and instructions shall be further evaluated to determine their appropriate functional classification. This evaluation shall consider the following standards and instructions for ((major)) principal, ((secondary)) minor and collector arterials.

((MAJOR)) PRINCIPAL ARTERIALS. TRAFFIC SERVICE PROVIDED. ((Major)) Principal arterials provide for movement across and between large subparts of an urban region and serve predominately "through" trips with minimum direct service to abutting land uses.

GROUPING OF TRAFFIC GENERATORS. ((Major)) Principal arterial service is required by medium-to-large central business districts, most municipal airports, large shopping centers, large colleges and universities, large industrial plants, major governmental centers, large hospitals, important secondary business districts, major rail and seaport terminals and similar land uses which comprise the top layer of the hierarchy of trip generators.

SPACING. ((Major)) Principal arterials will seldom be closer than one mile apart in even the most densely developed urban regions. In practice, it is expected that for most federal urban areas in Washington, spacing of ((major)) principal arterials will be wider. Moreover, spacing will vary within any given federal urban area with ((major)) principal arterials being closest together in the vicinity of the central business district and becoming increasingly farther apart toward the suburban, rural boundary.

ROUTE CONTINUITY. ((Major)) Principal arterials shall form a closed, interconnected system linking together major traffic generators in federal urban areas.

Stub end arterials are not normally classified as ((major)) principal arterials.

((SECONDARY)) MINOR ARTERIALS. TRAFFIC SERVICE PROVIDED. ((Secondary)) Minor arterials provide for movement within the large subparts prescribed by ((major)) principal arterials. ((Secondary)) Minor arterials may also serve "through traffic" but provide very much more direct service to abutting land uses than do ((major)) principal arterials.

GROUPING OF TRAFFIC GENERATORS. ((Secondary)) Minor arterial service is required by small central business districts and traffic generators as listed above for ((major)) principal arterials except that such generators will be smaller, plus high schools and some grade schools, strip commercial development, parks, and low-use intensity recreational areas, warehousing areas, and similar land uses which comprise the middle layer of the trip generator hierarchy.

SPACING. ((Secondary)) Minor arterial streets will seldom be closer than one-half mile from another ((secondary)) minor, or ((major)) principal, arterial street. In practice, it is expected that for most federal urban areas in the state of Washington, the spacing of arterial streets will be wider. Moreover, spacing will vary within any given federal urban area with ((secondary)) minor arterials being closest together in the vicinity of the central business district and becoming increasingly farther apart toward the suburban, rural boundary.

ROUTE CONTINUITY. ((Secondary)) Minor arterials shall, wherever possible, be long, continuous streets with direct rather than meandering alignments.

COLLECTOR ARTERIALS. TRAFFIC SERVICE PROVIDED. Collector arterials provide for movement within the smaller areas, which are often definable neighborhoods, and may be bounded by higher class arterials. Collector arterials serve very little "through" traffic, but serve a high proportion of local traffic requiring direct access to abutting land uses.

GROUPING OF TRAFFIC GENERATORS. Collector arterial service is required for the majority of the nonresidential land uses which generate measurably important traffic volumes and which are not served by ((major)) principal or ((secondary)) minor arterials.

SPACING. Collector arterials will seldom be closer than one-fourth mile from any other arterial street. In practice, it is expected that for most federal urban areas in the state of Washington, the spacing of arterial streets will be wider. Moreover, spacing will vary within any given federal urban area with collector arterials being closest together in the vicinity of the central business district and becoming increasingly farther apart toward the suburban, rural boundary.

ROUTE CONTINUITY. Collector arterials need not be particularly long or continuous since this would tend to attract through trips in unduly high proportions.

When the classification is complete, arterials classified and designated and local streets identified, it is recommended that each city or county tabulate its street mileage by functional class. These tabulations should be compared with the following recommended tabulations for street mileage by system and vehicle miles traveled

by system to serve as a general internal review procedure.

TEST FACTOR	FEDERAL URBAN AREA POPULATION		
	Under 50,000	50,000 to 500,000	Over 500,000
Street Mileage by System			
((Major)) Principal Streets	12-15%	10-12%	8-10%
((Secondary)) Minor Streets	10-12	8-10	7-9
Collector Streets	10-12	8-10	7-9
Local Streets	68-61	74-68	78-72
Total	100-100%	100-100%	100-100%
Vehicle Miles Traveled by System			
((Major)) Principal Streets	30-40%	40-50%	50-60%
((Secondary)) Minor Streets	10-15	10-15	10-15
Collector Streets	5-10	5-10	5-10
Local Streets	55-35	45-25	35-15
Total	100-100%	100-100%	100-100%

Upon receipt of the classification plans from the cities and counties, the Urban Arterial Board will tabulate total street mileage by system and vehicle miles traveled by system for all of the cities and counties. This information will be used by the board as a guide in its approval of arterial classifications and mileages.

EMERGENCY RULES

DEPARTMENT OF GAME

[Order 122—Filed January 29, 1981]

Be it resolved by the undersigned, Jack S. Wayland, Acting Director, Washington State Department of Game, that I promulgate and adopt at Olympia, Washington, as emergency rule of this governing body, the annexed rule relating to closure of the Nooksack River, Elwha River, Sekiu River, and Marine Areas 7B and 9A to the taking of steelhead trout by treaty Indians, WAC 232-32-131.

I, Jack S. Wayland, Acting Director, find an emergency exists and that the foregoing order adopting emergency rule WAC 232-32-131 is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action and that observance of the requirements for adoption of permanent rules which are effective only upon expiration of 30 days after the date of filing is contrary to public interest as the statement of facts constituting such emergency reveals. A statement of the facts constituting such emergency is data gathered by Department of Game from information provided by fish buyers reporting sales of steelhead harvested by treaty Indian fishermen pursuant to the reporting system approved by the United States District Court in United States v. Washington, and information from the Lummi, Nooksack, and Point No Point tribes indicates that the treaty share of harvestable steelhead for the Nooksack River, Elwha River, Sekiu River, and Marine Areas 7B and 9A has been reached or will have been reached on the effective date of this order. Therefore a closure of the Nooksack River, Elwha River, Sekiu River, and Marine Areas 7B and 9A is necessary to assure non-treaty sports fishermen their right to take their share of those remaining steelhead.

Such rule is therefore adopted as an emergency.

This rule is promulgated under the authority of the Director of Game as authorized in RCW 77.12.150 with the approval of the Game Commission as provided in that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW) or the Administrative Procedure Act (chapter 34.04 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

This order, after being first recorded in the Order Register of this governing body, shall be forwarded to the Code Reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

APPROVED AND ADOPTED January 29, 1981.

MOTOR VEHICLES—INTOXICATING LIQUOR—HOSPITALS—BLOOD TEST—LIABILITY FOR IMPOSITION OF BLOOD TEST

(1) The immunity from civil liability which is granted by RCW 46.61.508 to hospitals and their personnel administering blood tests in accordance with RCW 46.20.308 (implied consent) is not dependent upon the ultimate lawfulness of the accused person's arrest or a later court determination that the arresting officer had reasonable grounds to believe that the accused had been driving or was in actual physical control of the motor vehicle while under the influence of intoxicating liquor.

(2) The question of possible civil liability by the arresting agency under such circumstances is not dependent upon RCW 46.61.508, and the possibility of liability on the basis of a hospital's negligence in administering the blood test would be dependent upon ordinary principles of tort law as between the plaintiff driver and the defendant county or other arresting agency.

PUBLIC DISCLOSURE COMMISSION
[Order 80-09—Filed January 29, 1981]

Be it resolved by the Public Disclosure Commission, acting at 403 Evergreen Plaza Building, FJ-42, Olympia, Washington 98504, that it does promulgate and adopt the annexed rules relating to Agency lobbying—Report of lobbying by independent contractors, adopting WAC 390-20-054.

We, the members of the Public Disclosure Commission, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is several recent requests from agencies for an interpretation of the reporting requirements when retaining individuals or firms on personal services contracts for lobbying necessitated a response. The commission elected to issue its interpretation in a rule of general applicability. Because the legislature is in session and contracts are being arranged, there was need for the emergency adoption.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045.

The purpose of this rule is to provide for the orderly and logical implementation of the provisions of RCW 41.40.010(9)(b) insofar as it confers certain rights to LEOFF members who serve in state elective positions, since the cited statute is silent as to the manner of implementation.

The rule provides an administrative mechanism to give effect to provisions of RCW 41.40.010(9)(b) as it relates to LEOFF members. The rule addresses issues not specifically covered by the statute including: crediting of service, contributions on elective compensation, and the basis for death, disability, and medical benefits.

The reason these rules are necessary is to provide a uniform and logical implementation of the provisions of RCW 41.40.010(9)(b) as it pertains to law enforcement officers and firefighters since the

statute is silent as to the manner of its implementation.

These rules were drafted by Dr. Robert L. Hollister, Jr., Director of the Department of Retirement Systems, who is also responsible for the implementation and enforcement of these rules. The director's office address and office telephone number is 1025 East Union, Olympia, Washington 98504, (206) 753-5281 or (SCAN) 234-5281.

These rules were not proposed by a private person or organization, but were made necessary by the election of a LEOFF member to state elective office.

SERVICE IN STATE ELECTIVE POSITIONS

NEW SECTION

WAC 415-104-800 CONTINUED LEOFF MEMBERSHIP FOR MEMBERS IN STATE ELECTIVE POSITIONS. RCW 41.40.010(9)(b) provides in part as follows: "Service in any state elective position shall be deemed to be full time service, except that persons serving in state elective positions who are members of the teachers' retirement system or law enforcement officers' and fire fighters' retirement system at the time of election or appointment to such position may elect to continue membership in the teachers' retirement system or law enforcement officers' and fire fighters' retirement system."

An individual covered by RCW 41.40.010(9)(b) in order to remain an active member of the retirement system provided by chapter 41.26 RCW and receive service credit therein for elective service must execute a written election to do so in a format provided by the Department.

NEW SECTION

WAC 415-104-810 CONTRIBUTIONS AND SERVICE CREDIT FOR MEMBERS IN STATE ELECTIVE POSITIONS. When an individual makes the election provided in WAC 415-104-800 the following shall apply:

(1) Service credit earned by virtue of elective service shall be credited in LEOFF together with service earned in LEOFF capacity except that no more than one month's service credit shall be allowed during any one calendar month.

(2) Contributions shall be paid on all basic salary earned either as a law enforcement officer or firefighter, or as an elected official, by the employee at the rate prescribed for employees in the LEOFF retirement system.

(3) Contributions shall be paid on basic salary paid by the LEOFF employer or elected official employer at the rate prescribed for employers in the LEOFF retirement system.

NEW SECTION

WAC 415-104-820 MEMBERS IN STATE ELECTIVE POSITIONS - ENTITLEMENT TO BENEFITS. (1) In the event an individual who has made the election provided by WAC 415-104-800 qualifies and applies for a service or disability retirement or dies while serving in elective office, the basis for establishing the benefit amount shall be an imputed salary equal to the full salary the member would have been receiving according to the member's rank or position if the member had been in full-time service with the member's last LEOFF employer. Regular increases in basic salary will be included but increases based on promotions which might have occurred but which, in fact, did not occur shall not be considered.

(2) An individual who has made the election provided by WAC 415-104-800 shall not be eligible for a service retirement until such member has terminated both service as a law enforcement officer or fire fighter, and service as a state elective official.

(3) An individual who has made the election provided by WAC 415-104-800 shall not be eligible for a disability retirement allowance until such member has terminated both service as a law enforcement officer or fire fighter, and service as a state elective official.

(4) All payments for disability leave or for medical benefits for an individual who has made the election provided by WAC 415-104-800 shall be made by the individual's last LEOFF employer rather than his or her elective service employer.

NEW SECTION

WAC 296-17-904 DEFINITIONS. The definitions in this section shall apply throughout WAC 296-17-905 through 296-17-91902.

(1) "Coverage period" means the period beginning July 1 and ending June 30.

(2) "Group" means those members of an association who have elected to have a group dividend and/or retrospective premium calculated based on the combined premium and incurred loss data of the participants, and have satisfactorily complied with eligibility requirements for doing so.

(3) "Premium" means only that portion of the money collected from an employer for worker's compensation (not to include any money paid in penalties or security deposits), which is deposited in the accident fund.

(4) "Standard premium" for a particular coverage period means premium collected or due for insurance coverage provided during the period, prior to any adjustments under a dividend or retrospective rating plan.

(5) "Incurred losses" for a coverage period means the estimated ultimate cost to the accident fund of claims arising from incidents occurring during the coverage period, subject to the special evaluation methods prescribed in WAC 296-17-915.

(6) "Loss development factor" means an actuarially determined factor which is multiplied times individual case basis estimates of claim costs to produce incurred losses for a firm or group of firms during a coverage period. Loss development factors allow for reopenings, aggravations, and any other individually unpredictable contingencies which may affect claim costs based on past experience of the accident fund as a whole.

(7) "Loss ratio" means incurred losses divided by standard premium.

(8) "Dividend" is a partial refund of standard premium based on a firm's standard premium and loss ratio for the coverage period.

(9) "Retrospective premium" is a premium determined after a coverage period has ended, based on a firm's standard premium, incurred losses, and other pre-selected parameters for the coverage period.

(10) "Retrospective premium adjustment" is an additional assessment or refund of premium owing to an employer's retrospective premium as of a given evaluation date being more or less than the premium previously paid for the coverage period.

AMENDATORY SECTION (Amending Order 73-22, filed 11/9/73, effective 1/1/74)

WAC 296-17-905 DIVIDENDS. Periodically, the department shall determine the total liability existing against the accident fund. If, after such determination, the department finds the accident fund, aside from the reserves deemed actuarially necessary according to recognized insurance principles, contains a surplus, the director, in his discretion may declare a dividend to be paid to, or credited to the accounts of, employers who were insured with the department during all or part of the period for which the dividend is declared, according to a uniform formula to be promulgated by the department. Any dividends so declared shall give due consideration to the solvency of the accident fund, not be unfairly discriminatory, and not be promised in advance of such declaration. An employer in default when the dividend is declared shall not be eligible to receive payment as provided by this section but credit will be made towards reducing the employer's obligation to the department.

NEW SECTION

WAC 296-17-907 DIVIDEND DECLARATIONS AND DISTRIBUTIONS. Dividends, if any, will be declared approximately fifteen months after the conclusion of the coverage period with credit or payment made within sixty days of the calculation. No dividend checks will be written for less than ten dollars.

Adjustments to the dividend calculation due to clerical errors will be made if reported to the department within ninety days of the payments. No subsequent adjustments will be made.

AMENDATORY SECTION (Amending Order 73-22, filed 11/9/73, effective 1/1/74)

WAC 296-17-910 QUALIFICATIONS FOR EMPLOYER GROUPS FOR (~~WORKMEN'S~~) WORKERS' COMPENSATION INSURANCE. The department may insure the (~~workmen's~~) workers' compensation obligations of employers as a group, provided the following conditions are met:

(1) All the employers in the group are members of an organization that has been in existence for at least two years.

(2) The organization was formed for a purpose other than that of obtaining (~~workmen's~~) workers' compensation coverage.

(3) The (~~occupations~~) business of the employers in the organization (~~are~~) is substantially similar, taking into consideration the nature of the (~~services~~) work being performed by (~~workmen~~) workers of such employers such that the group comprises substantially homogeneous risks.

(4) The employers in the group constitute at least fifty percent of the total eligible employers in such organization (~~(, unless the total number of workmen to be covered in the group exceeds 500, in which event the employers in the group must constitute at least twenty-five percent of all employers in the organization)~~). No groups with less than one hundred participating members will be formed unless the aggregate premium of those members is expected to exceed \$500,000 during the coverage period.

(5) The formation and operation of the group program in the organization will substantially improve accident prevention and claims handling for the employers in the group.

The above conditions do not pertain to groupings or combination of persons or risks by way of common ownership or common use and control for experience rating purposes. Combinations for experience rating are governed by WAC 296-17-873.

Final determination of group eligibility under this section rests with the department subject to review under chapter 51.52 RCW.

In providing employer group plans under this rule, the department may consider an employer group as a single employing entity for purposes of dividends or ((premium discounts)) retrospective rating. No employer will be a member of more than one group for the purposes of insuring their workers' compensation obligations.

NEW SECTION

WAC 296-17-911 GROUP DIVIDENDS. Group dividends will be calculated provided:

(1) Employers qualify as a group as defined by WAC 296-17-910.

(2) Group submits a satisfactorily completed:

(a) Application for Group Dividend Plan no later than April 30 for the coverage period beginning the following July 1;

(b) Employer's Authorization for Release of Insurance Data and Group Membership Enrollment Application no later than July 1;

(c) Group Dividend Agreement no later than July 1.

(3) A dividend is declared under provisions of WAC 296-17-905.

Employers associated with the group at any time during the term of the Group Dividend Agreement will remain parties to the Group Dividend Agreement for the balance of its term.

Members of the organization or association which do not elect to participate in the group dividend at the inception of the agreement shall not become participating members in the group during the term of the agreement.

Each employer included as a group member in the Group Dividend Agreement will maintain an individual account with the department and will continue to pay quarterly premiums based on his own risk classification(s) and his individual experience rating.

Any premiums, penalties or assessments owing the department by any member of the group will be withheld from the group's dividend.

Dividends will be calculated in accordance with WAC 296-17-905 and are subject to WAC 296-17-907 and 296-17-915.

The payment of the group dividend will be made by the department to the association and shall be distributed to the individual group members by the association according to the system for allocation described in the Group Dividend Agreement and agreed upon by the members in their membership enrollment application. Dividend allocation systems must be applied in a consistent manner and shall not unfairly discriminate against any group member. Any portion of the dividend to be retained by the association as expenses, etc. must be clearly defined in the agreement.

NEW SECTION

WAC 296-17-912 RETROSPECTIVE RATING PLAN. The department shall offer a retrospective rating plan to qualified employers. This plan shall be available on a voluntary basis for the period of one coverage period and may be renewed at the end of that year. The retrospective rating plan shall be consistent with recognized insurance principles and shall be administered according to rules, scales, tables, formulas, schedules and factors promulgated by the department.

NEW SECTION

WAC 296-17-913 QUALIFICATIONS FOR EMPLOYER PARTICIPATION IN A RETROSPECTIVE RATING PLAN. The department may enroll interested employers in a retrospective rating plan as a means of insuring their workers' compensation obligations provided the following conditions are met:

(1) The employer submits a satisfactorily completed Retrospective Rating Plan Agreement.

(2) The employer maintains an industrial insurance account in good standing with the department.

(3) The employer may be required to post a surety bond or other security deposit separate from the cash deposit required for establishing an industrial insurance account with the department. Such surety bond or security deposit would be sufficient to cover the difference between the employer's estimated standard premium and the maximum premium due under the retrospective rating plan. Past reporting data and current rate levels will be used to determine the estimated standard premium and maximum percentage retrospective premium due under the plan.

Final determination as to the employer's eligibility under this section and financial ability to assume the responsibilities under the retrospective rating plan rests with the department subject to review under chapter 51.52 RCW.

NEW SECTION

WAC 296-17-914 RETROSPECTIVE RATING FORMULA. An employer who elects to have his premium adjusted under a retrospective rating plan must submit an application on a form provided by the department no later than April 30 for the coverage period beginning the following July 1. The employer must

preselect a "maximum premium ratio" from Plan A or Plan B.

The employer's retrospective premium shall be calculated from the formula:

Retrospective Premium = Basic Premium + (loss conversion factor x incurred losses)

In the above formula, the basic premium is the product of the basis premium ratio times the employer's standard premium. The basic premium ratio is taken from Plan A (WAC 296-17-91901) or Plan B (WAC 296-17-91902) based on the employer's standard premium and preselected maximum premium ratio. The maximum retrospective premium is the product of the maximum premium ratio times the employer's standard premium. In the event that the retrospective premium formula produces a value greater than the maximum premium, the retrospective premium shall be reduced to the maximum premium.

Under Plan A, a firm may elect to forego the protection of a maximum premium ratio if its financial condition is sufficiently strong and stable so that it could qualify as a self-insurer under the department's guidelines for certification of self-insurers. The basic premium ratio will be .089 if the firm selects and qualifies for an unlimited maximum premium.

NEW SECTION

WAC 296-17-915 EVALUATION OF INCURRED LOSSES DIVIDEND AND RETROSPECTIVE RATING PLANS. The initial evaluation date for each claim arising from incidents occurring during the coverage period shall be on and include December 31, six months immediately following the end of the coverage period. Each subsequent annual incurred loss evaluation under the retrospective rating plan shall have a valuation date of December 31, twelve months following the preceding evaluation date.

The estimated cost of each claim shall include all payments made as of the valuation date and may also include a reserve for future payments consistent with evaluation methods applicable to experience rating as set forth in WAC 296-17-870, subsections (1) through (6). The incurred losses for each employer shall be determined by multiplying the individual claim cost estimates by loss development factors, and adding the resulting developed losses for all the employer's claims. The following special procedures will be used for making individual claim cost estimates:

Fatal Claims

Each fatal claim shall be assigned the "average death value", said value to be the average incurred cost for all fatal claims occurring during the coverage period.

Permanent Total Claims

Pension costs for permanent total injuries will be based on the annuity value at the time that the pension is awarded. Pension costs will not be reevaluated based on events after the pension has been awarded.

Occupational Disease Claims

The cost of any occupational disease claim paid from the accident fund and arising from exposure to the disease hazard under two or more employers, shall be prorated to each period of employment. Each employer's share of the claim cost shall be assigned to the coverage period during which he last employed the claimant under conditions of injurious exposure.

NEW SECTION

WAC 296-17-916 RETROSPECTIVE PREMIUM ADJUSTMENTS—DUE AND PAYABLE. The initial retrospective premium adjustment will be calculated approximately fifteen months from the close of the coverage period and annually thereafter for a period of four years. Provided a request is made within ninety days following promulgation of the fifth and final required retrospective premium adjustment by either the employer or department up to two subsequent annual retrospective premium adjustments on the coverage period will be made.

Retrospective premium adjustments become due or payable within sixty days of notification of amount. Reevaluation of incurred losses or premium audits will not delay retrospective premium adjustment payments.

NEW SECTION

WAC 296-17-917 QUALIFICATIONS FOR EMPLOYER GROUP PARTICIPATION IN RETROSPECTIVE RATING PLAN. The department may enroll interested groups in the retrospective rating plan provided:

(1) Employers qualify as a group as defined by WAC 296-17-910.

(2) Group submits a satisfactorily completed:

(a) Application for group retrospective rating plan no later than April 30 for the coverage period beginning the following July 1;

(b) Employer's Authorization for Release of Insurance Data and Group Membership Enrollment Application by July 1;

(c) Group Retrospective Rating Plan Agreement by July 1.

(3) The group may be required to post a surety bond or other security deposit separate from the individual employer's cash deposits required for establishing industrial insurance accounts with the department. The amount of such surety bond or other security deposit, if required, may be fixed by the department in any amount equal to or less than the difference between the group's estimated standard premium and the maximum premium due under the retrospective rating plan. Past reporting data and current rate levels will be used to determine the estimated standard premium and maximum percentage retrospective premium due under the plan.

Each employer included as a group member in the Group Retrospective Rating Plan Agreement will maintain an individual account with the department and will continue to pay quarterly premiums based on his own risk classification(s) and his individual experience rating.

Employers associated with the group at any time during the term of the Group Retrospective Rating Plan

Agreement will remain parties to the agreement for the balance of its term.

Members of the organization or association which do not elect to participate in the group retrospective rating plan at the inception of the agreement shall not become participating members in the group during the term of the agreement.

The payment of the group retrospective premium adjustment will be made to or collected from the association. The distribution to the individual group members or collection from the individual group members will be done by the association according to the system for allocation described in the Group Retrospective Rating Plan Agreement and agreed upon by the members in their membership enrollment application. Group Retrospective Rating Plan allocation systems must be applied in a consistent manner and shall not unfairly discriminate against any group member. Any portion of the retrospective premium adjustment to be retained by the association as expenses, etc. or any surcharge to the group member for expenses, etc. by the association over and above the portion of the retrospective premium adjustment to be collected from the group member must be clearly defined in the agreement.

Any premium, penalties or assessments owing the department by any employer in the group will be included in the group's retrospective premium adjustment.

Group retrospective premium adjustment will be calculated according to WAC 296-17-914 and is subject to WAC 296-17-915 and 296-17-916.

AMENDATORY SECTION (Amending Order DE 78-7, filed 6/14/78)

WAC 173-14-140 REVIEW CRITERIA FOR CONDITIONAL USE PERMITS. The purpose of a conditional use permit is to allow greater flexibility in ((administering)) varying the application of the use regulations of the master program in a manner consistent with the policies of RCW 90.58.020: PROVIDED, That conditional use permits should also be granted in a circumstance where denial of the permit would result in a thwarting of the policy enumerated in RCW 90.58.020. In authorizing a conditional use, special conditions may be attached to the permit by local government or the department to prevent undesirable effects of the proposed use.

(1) Uses which are classified or set forth in the applicable master program as conditional uses may be authorized provided the applicant can demonstrate all of the following:

(a) That the proposed use will be consistent with the policies of RCW 90.58.020 and the policies of the master program.

(b) That the proposed use will not interfere with the normal public use of public shorelines.

(c) That the proposed use of the site and design of the project will be compatible with other permitted uses within the area.

(d) That the proposed use will cause no unreasonably adverse effects to the shoreline environment designation in which it is to be located.

(e) That the public interest suffers no substantial detrimental effect.

(2) Other uses which are not classified or set forth in the applicable master program may be authorized as conditional uses provided the applicant can demonstrate, in addition to the criteria set forth in WAC 173-14-140(1) above, that extraordinary circumstances preclude reasonable use of the property in a manner consistent with the use regulations of the master program.

(3) Uses which are specifically prohibited by the master program may not be authorized.

(4) In the granting of all conditional use permits, consideration shall be given to the cumulative impact of additional requests for like actions in the area. For example, if conditional use permits were granted for other developments in the area where similar circumstances exist, the total of the conditional uses should also remain consistent with the policies of RCW 90.58.020 and

should not produce substantial adverse effects to the shoreline environment.

AMENDATORY SECTION (Amending Order DE 78-7, filed 6/14/78)

WAC 173-14-150 REVIEW CRITERIA FOR VARIANCE PERMITS. The purpose of a variance permit is strictly limited to granting relief to specific bulk, dimensional or performance standards set forth in the applicable master program where there are extraordinary or unique circumstances relating to the property such that the strict implementation of the master program would impose unnecessary hardships on the applicant or thwart the policies set forth in RCW 90.58.020.

(1) Variance permits should be granted in a circumstance where denial of the permit would result in a thwarting of the policy enumerated in RCW 90.58.020. In all instances extraordinary circumstances should be shown and the public interest shall suffer no substantial detrimental effect.

(2) Variance permits for development that will be located landward of the ordinary high water mark (OHWM), as defined in RCW 90.58.030(2)(b), except within those areas designated by the department as marshes, bogs, or swamps pursuant to chapter 173-22 WAC, may be authorized provided the applicant can demonstrate all of the following:

(a) That the strict application of the bulk, dimensional or performance standards set forth in the applicable master program precludes or significantly interferes with a reasonable ((permitted)) use of the property not otherwise prohibited by the master program.

(b) That the hardship described in WAC 173-14-150(2)(a) above is specifically related to the property, and is the result of unique conditions such as irregular lot shape, size, or natural features and the application of the master program, and not, for example, from deed restrictions or the applicant's own actions.

(c) That the design of the project will be compatible with other permitted activities in the area and will not cause adverse effects to adjacent properties or the shoreline environment designation.

(d) That the variance authorized does not constitute a grant of special privilege not enjoyed by the other properties in the area, and will be the minimum necessary to afford relief.

(e) That the public interest will suffer no substantial detrimental effect.

(3) Variance permits for development that will be located either waterward of the ordinary high water mark (OHWM), as defined in RCW 90.58.030(2)(b), or within marshes, bogs, or swamps as designated by the department pursuant to chapter 173-22 WAC, may be authorized provided the applicant can demonstrate all of the following:

(a) That the strict application of the bulk, dimensional or performance standards set forth in the applicable master program precludes a reasonable ((permitted)) use of the property not otherwise prohibited by the master program.

(b) That the hardship described in WAC 173-14-150(3)(a) above is specifically related to the property,

and is the result of unique conditions such as irregular lot shape, size, or natural features and the application of the master program, and not, for example, from deed restrictions or the applicant's own actions.

(c) That the design of the project will be compatible with other permitted activities in the area and will not cause adverse effects to adjacent properties or the shoreline environment designation.

(d) That the requested variance will not constitute a grant of special privilege not enjoyed by the other properties in the area, and will be the minimum necessary to afford relief.

(e) That the public rights of navigation and use of the shorelines will not be adversely affected by the granting of the variance.

(f) That the public interest will suffer no substantial detrimental effect.

(4) In the granting of all variance permits, consideration shall be given to the cumulative impact of additional requests for like actions in the area. For example if variances were granted to other developments in the area where similar circumstances exist the total of the variances should also remain consistent with the policies of RCW 90.58.020 and should not produce substantial adverse effects to the shoreline environment.

(5) Requests for varying the use to which a shoreline area is to be put are not requests for variances, but rather requests for conditional uses. Such requests shall be evaluated using the criteria set forth in WAC 173-14-140.

NEW SECTION

WAC 173-14-155 MINIMUM STANDARDS FOR CONDITIONAL USE AND VARIANCE PERMITS. Pursuant to RCW 90.58.100(5) and 90.58.140(3), the criteria contained in WAC 173-14-140 and 173-14-150 for shoreline conditional use and variance permits shall constitute the minimum criteria for review of these permits by local government and the department. Local government and the department may, in addition, apply the more restrictive criteria where it exists in approved and adopted master programs.

(b) The development being undertaken, although an integral part of a project approved by an existing, valid substantial development, conditional use, or variance permit is outside the scope and intent of said permit; or

(c) The development being undertaken on the shorelines of the state is in violation of chapter 90.58 RCW, and/or one of the following:

(i) Prior to the formal adoption or approval by the department of a master program for the area, the guidelines and regulations of the department, and so far as can be ascertained, the master program being developed for the area.

(ii) Thereafter this regulation of the department and the adopted or approved master program for the area.

(2) The regulatory order shall set forth or contain:

(a) The specific nature, extent and time of violation, and the damage or potential damage;

(b) An order that the violation or the potential violation cease and desist or, in appropriate cases, the specific corrective action to be taken within a specific and reasonable time(, and

~~(c) The right of the person to whom the order is directed to a hearing before the shorelines hearings board).~~

(3) A regulatory order issued pursuant hereto shall become effective immediately upon receipt by the person to whom the order is directed ~~((and shall become final unless review is requested pursuant to WAC 173-14-190)).~~

WAC 173-511-040 SURFACE WATER SOURCE LIMITATIONS TO FURTHER CONSUMPTIVE APPROPRIATIONS. (1) The department has determined that (a) certain streams exhibit low summer flows or have a potential for going dry thereby inhibiting anadromous fish passage during critical life stages, and (b) historic flow regimes and current uses of certain other streams indicate that no water is available for additional appropriation. Based upon these determinations the following streams and lakes are closed to further appropriation for the periods indicated:

WAC 173-511-050 GROUND WATER. Future ground water withdrawal proposals will not be affected by this chapter unless it is verified that such withdrawal would clearly have an adverse impact upon the surface water system contrary to the intent and objectives of this chapter.

NEW SECTION

WAC 173-511-060 LAKES. In future permitting actions relating to withdrawal of lake waters, lakes and ponds shall be retained substantially in their natural condition. Withdrawals of water which would conflict therewith shall be authorized only in situations where it is clear that overriding considerations of the public interest will be served.

NEW SECTION

(2) If, upon detailed analysis, appropriate and environmentally sound proposed storage facilities are found to be compatible with this chapter, such facilities may be approved.

(3) Domestic use for a single residence shall be exempt from the provisions of this chapter; provided that, if the cumulative effects of numerous single domestic diversions and/or withdrawals would seriously affect the quantity of water available for instream uses, then only domestic in-house use shall be exempt if no alternative source is available.

(4) Stock-watering use, except that related to feedlots, shall be exempt from the provisions established in this chapter.

(5) Future rights for nonconsumptive uses may be granted.

STATEMENT OF PURPOSE

Title: Amendment to chapter 468-95 WAC. Adoption of Revision No. 1 to the 1978 "Manual on Uniform Traffic Control Devices for Streets and Highways" (MUTCD). Result Of Federal Law Or Federal Or State Court Action: Implementation of changes in federal regulations.

Statutory Authority: chapter 47.36 RCW, Traffic Control Devices.

Summary Of Rule: This rule incorporates the seven official "Changes," and minor revisions, described in Revision No. 1 to the 1978 MUTCD. The seven "Changes" relate to signing and pavement marking and have been approved by the Federal Highway Administrator.

Reason For Rule: This rule is necessary so that the signing, markings, signals, and construction and maintenance traffic control requirements on Washington streets and highways will remain uniform with those adopted by the Federal Highway Administrator.

For Further Information: Mr. R. E. Bockstruck, Project Development Engineer for the Department of Transportation, Room 2C-3, Highway Administration Building, phone 753-6135, is responsible for the drafting and implementation of this rule. Proponents Of Rule: The Washington State Department of Transportation is the proponent of the rule.

Agency Comments Or Recommendations: The 1978 MUTCD, incorporating Revision No. 1, will continue to provide for uniformity in the application and use of traffic control devices on streets and highways in Washington. The seven "Changes" in Revision No. 1 should enhance safety and convenience for highway users.

AMENDATORY SECTION (Amending Order 51, filed 3/21/80)

Chapter 468-95 WAC
MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES FOR STREETS AND HIGHWAYS

.....
The "Manual on Uniform Traffic Control Devices for Streets and Highways" 1978 edition (MUTCD), approved by the Federal Highway Administrator as the national standard for all highways open to public travel; published by the U. S. Department of Transportation, Federal Highway Administration, was duly adopted by Administrative Order No. 51 of the Secretary of Transportation dated March 17, 1980. Revision No. 1 of the 1978 edition was duly adopted by Administrative Order No. of the Secretary of Transportation dated The manual includes in part many illustrations, some of which depend on color for proper interpretation. The reviser has deemed it inexpedient to convert these regulations and illustrations to the prescribed form and style of WAC and therefore excludes them from publication. Copies of the MUTCD, incorporating Revision No. 1, may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, Price \$18.00. The document is available for public inspection at the headquarters office and all district offices of the Washington State Department of

Transportation. Further, each city, town, and county engineering office in the state will have a copy of the MUTCD in its possession.

The following modifications to the MUTCD have also been adopted by Administrative Order No. 51 of the Secretary of Transportation on March 17, 1980:

The second paragraph of Section 2C-3, "Placement of Warning Signs," of the MUTCD is amended to read as follows:

Since warning signs are primarily for the protection of the vehicle operator who is unacquainted with the road, it is very important that care is given to their location. Warning signs should normally be placed in a range of 250 feet to 750 feet in advance of the hazard or conditions. On high speed roads, and particularly on freeways, advance warning distances may have to be as great as 1500 feet or more.

The first paragraph of Section 3B-3, "No-Passing Zone Markings," of the MUTCD is amended to read as follows:

Where center lines are installed, no-passing zone markings shall be established at vertical curves on two- and three-lane highways where an engineering study indicates passing must be prohibited because of inadequate sight distances or other special conditions.

Effective December 31, 1982, where center lines are installed, no-passing zone markings shall be established at horizontal curves on two- and three-lane highways where an engineering study indicates passing must be prohibited because of inadequate sight distances or other special conditions except: Along highway sections of almost continuous horizontal curvatures such as in mountainous terrain no-passing zone markings shall not be established at horizontal curves. Such highway sections would otherwise require almost continuous no-passing zone markings which could restrict motorists from exercising judgment that it is safe to pass a slow moving vehicle and still be in compliance with chapter 46.61 RCW.

The first sentence of Paragraph 3, Item (c), of Section 4B-5, "Meaning of Signal Indications," of the MUTCD is amended to read as follows:

Except when a sign is in place prohibiting a turn, vehicular traffic facing any steady red signal may cautiously enter the intersection to turn right, or to turn left from a one-way or two-way street into a one-way street, after stopping as required by (a) and (b) above.

Paragraph 2 of Section 4E-9, "Meaning of Lane-use Control Indications," of the MUTCD is amended to read as follows:

A steady YELLOW X or a flashing RED X means that a driver should prepare to vacate, in a safe manner, the lane over which the signal is located because a lane control change is being made, and to avoid occupying that lane when a steady RED X is displayed.

The second sentence of paragraph 3, Section 6B-3, "Position of Signs," of the MUTCD states:

Signs mounted on barricades, or temporary supports, may be at lower heights, but the bottom of the sign shall not be less than one foot above the pavement elevation.

A compliance date of December 31, 1983 is hereby established.

The following supplemental paragraph is hereby added to Section 7B-12, "School Speed Limit Signs (S4-1, S4-2, S4-3, S4-4)," of the MUTCD:

**DEFINITION OF
SCHOOL SPEED LIMIT SIGN SUPPLEMENT
"WHEN CHILDREN ARE PRESENT"**

The supplemental or lower panel of a "SCHOOL SPEED LIMIT 20" sign which reads "WHEN CHILDREN ARE PRESENT" shall indicate to the motorist that the 20 mile per hour school speed limit is in force under the following conditions:

- (1) School children are occupying or walking within the marked crosswalk.
- (2) School children are waiting at the curb or on the shoulder of the roadway and are about to cross the roadway by way of the marked crosswalk.
- (3) School children are present or walking along the roadway, either on the adjacent sidewalk or, in the absence of sidewalks, on the shoulder within the posted school speed limit zone which extends 300 feet in either direction from the marked crosswalk.

The first sentence of Paragraph 3 applicable only to CIRCULAR RED or RED ARROW, of Section 7D-5, "Meaning of Signal Indications," of the MUTCD is amended to read as follows:

Except when a sign is in place prohibiting a turn, vehicular traffic facing any steady red signal may cautiously enter the intersection to turn right, or to turn left from a one-way or two-way street into a one-way street, after stopping as required by (1) and (2) above.

Paragraph 2 of Section 8A-1, "Functions," of the MUTCD is amended to read as follows:

With due regard for safety and for the integrity of operations by highway and railroad users, the highway agency and the railroad company are entitled to jointly occupy the right of way in the conduct of their assigned duties. This requires joint responsibility in the traffic control function between the public agency and the railroad.

There is added to the MUTCD, the following regulation pertaining to signing of county roads:

In accordance with section 1, chapter 45, Laws of 1980, the legislative authority of each county may by resolution classify and designate portions of the county roads as primitive roads where the designated road portion:

- (1) Is not classified as part of the county primary road system, as provided for in RCW 36.86.070;
- (2) Has a gravel or earth driving surface; and
- (3) Has an average annual daily traffic of one hundred or fewer vehicles.

Any road designated as a primitive road shall be marked with a "PRIMITIVE ROAD" sign at all places where the primitive road portion begins or connects with a highway other than a primitive road.

A sign with the caption "CAUTION - NO WARNING SIGNS" may be installed on the same post with the "PRIMITIVE ROAD" sign, and may be individually erected at intermediate points along the road section if conditions warrant. In addition, a sign with the caption "NEXT....MILES" may be installed on the same post below the "CAUTION - NO WARNING SIGNS" sign.

The designs of the "PRIMITIVE ROAD, CAUTION - NO WARNING SIGNS, and NEXT....MILES" signs are available for public inspection at the headquarters office and all district offices of the Washington state department of transportation.

Existing signing placed in accordance with the requirements for I 7-7 of the June 1978 Supplement to the MUTCD (1971 edition) is hereby authorized, on an optional basis, until December 31, 1980.

Children - Children under five years of age will be carried free when accompanied by parent or guardian. Children five through eleven years of age will be charged half-fare. Children twelve years of age will be charged full-fare.

Handicapped - Any individual who, by reason of illness, injury, congenital malfunction, or other incapacity or disability is unable without special facilities or special planning or design to utilize Ferry System services, may travel at half-fare tolls on any route upon presentation of a WSF Handicapped Travel Permit at time of travel. In addition, those handicapped persons who require attendant care while traveling on the ferries, and are so certified by their physician, may obtain an endorsement on their WSF Handicapped Travel Permit and such endorsement shall allow the attendant to also travel at half fare. NOTE: Half-fare privilege does not include vehicle.

***One day excursion for walk-on passengers with limited time ashore. Special stay aboard excursion rate (one-half of amounts shown) effective only during designated special events on routes and at times as determined by the Secretary of Transportation (not to exceed 14 days per year on any route).

****School Commutation Tickets - Tickets are for the exclusive use of bona fide students under twenty-one years of age attending grade, junior high, and high schools. Student shall be required to present credentials at time of purchase. A letter indicating school attendance signed by school principal or authorized representative shall be considered proper credentials. Tickets are valid for transportation on school days only.

*****A combination Ferry/Bus Public Transit Passenger Monthly Reusable Ticket Rate may be available for a particular route in conjunction with a public transit operating authority whenever it is determined by the Transportation Commission that said ticket is a necessary element of a Transit Operating Plan designed to eliminate the necessity for assigning an additional ferry to such particular route; and that the resulting savings in Ferry System operating and amortized capital costs exceed the total revenue lost as a result of this reduced rate as projected during the period of time during which such transit operating plan is projected to eliminate the need for an additional ferry. The equivalent ferry fare per ride with this special rate shall be one-half the equivalent fare per ride with the standard commutation book, and shall assume 40 one-way trips per month. The total cost of the ticket shall be the cost of the ferry portion, calculated as described above plus the cost of the bus portion as determined by the Public Transit Operating Authority, subject to the approval of the Secretary of Transportation. The ticket shall be valid only for passengers on board a bus; or for walk-on passengers, on weekdays only, on those routes which have connecting bus service as part of the Transit Operating Plan. The assigning of an additional ferry to such particular route may be cause for removal of the special rate. If the conditions of eliminating the assignment of an additional ferry or realizing sufficient resulting savings cannot be met, the ticket may be sold for any route authorized by the Secretary of Transportation, at the full ferry commutation fare per ride based on forty one-way trips per month plus the cost of the bus portion.

*****On the Fauntleroy-Vashon route, a combination Ferry/Bus Public Transit Monthly Reusable Ticket Rate shall apply.

*****Commutation tickets shall be valid only for 90-days from date of purchase after which time the tickets shall not be accepted for passage or for refunds.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Institutions)**

[Order 1592—Filed February 2, 1981]

I, N. Spencer Hammond, Ex. Asst. of the Department of Social and Health Services, do promulgate and adopt at Olympia, Washington, the annexed rules relating to liability for costs of care and hospitalization of the mentally ill, amending chapter 275-16 WAC.

I, N. A statement of the facts constituting such emergency is the present rule does not appear to comply adequately with the statute it is supposed to implement. Substantial fiscal impact is involved.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 71.02.412 and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED January 30, 1981.

By N. S. Hammond
Executive Assistant

AMENDATORY SECTION (Amending Order 1270, filed 2/17/78)

WAC 275-16-010 AUTHORITY. ((+)) The following rules regarding hospitalization charges are hereby adopted under the authority of Title 71 RCW.

((2) "Hospitalization" includes treatment, transportation, examination, diagnosis, care, detention, training, pharmaceutical services, outpatient services and other services provided for patients needing mental health treatment.)

NEW SECTION

WAC 275-16-015 DEFINITIONS. (1) "Adjusted charges" are those charges levied upon a patient who is or has been confined to a state hospital for the mentally ill, either by voluntary or involuntary admission, and their estates and responsible relatives, which are less than the actual cost of hospitalization as reflected in the Schedule of Charges herein and which has been established by the issuance of a Notice of Finding of Responsibility.

(2) "Adjusted gross income" is that gross income of the estate of the patient and responsible relatives less any deductions, contributions or payments mandated by law including, but not necessarily limited to, income tax and social security.

(3) "Dependent" means any spouse, minor son or daughter, or permanently disabled son or daughter, of the patient living in the patient's household. If the patient is a minor, then the same definitions shall apply in determining the dependency of members of the parent's household. If a minor son or daughter is not living in the patient's household, that son or daughter shall not be considered a dependent unless the patient is in fact contributing more than fifty percent of that child's support

in accordance with a court order or court-recognized agreement.

(4) "Department" means the department of social and health services.

(5) "Determination officer" is that duly appointed and qualified claims investigator who is delegated authority by the secretary to conduct or cause to have conducted an investigation of the financial condition of the estate of the patient and responsible relatives, to evaluate the results of such investigations, to make determinations of the ability to pay hospitalization charges from such investigations and evaluations, and to issue Notices of Findings of Responsibility to the responsible parties.

(6) "Estate of patient and responsible relative" means the total assets available to the patient and his responsible relatives to reimburse the department for hospitalization charges incurred by the patient in a state hospital for the mentally ill in accordance with these regulations.

(7) "Gross income" means the total assets available to the estate of the patient and responsible relatives expressed in terms of their cash equivalent on a monthly basis. It includes gross wages for service, net earnings from self-employment, and all other assets of the estate prior to any mandatory deductions.

(8) "Secretary" means the secretary of the department of social and health services.

NEW SECTION

WAC 275-16-035 AVAILABLE ASSETS OF ESTATE OF PATIENTS AND RESPONSIBLE RELATIVES. (1) The department will include, but not necessarily be limited to, in their determination of the assets of the estates of present and former patients of state hospitals for the mentally ill and their responsible relatives, cash, stocks, bonds, savings, security interests, insurance benefits, guardianship funds, trust funds, governmental benefits, pension benefits and personal property.

(2) Real property shall also be an available asset to the estate: **PROVIDED**, That the patient's home shall not be considered an available asset if that property is owned by the estate and serves as the principal dwelling and actual residence of the patient, the patient's spouse, and/or minor children and disabled sons or daughters: **PROVIDED FURTHER**, That if the home is not being used for residential purposes by the patient, the patient's spouse, and/or minor children and disabled sons or daughters, and in the opinion of two physicians, there is no reasonable expectancy that the patient will be able to return to the home during the remainder of his life, the home shall be considered an asset available to the estate.

(3) In determining if a particular asset is available to the estate of a patient who is eligible or potentially eligible for Medicaid, the determination officer will apply the standards of WAC 388-92-045.

NEW SECTION

WAC 275-16-055 NOTICE OF FINDING OF RESPONSIBILITY (NFR). The determination officer's assessment of the ability and liability of the estate to pay hospitalization charges shall be issued in the form of a

Notice of Finding of Responsibility, hereinafter referred to as an NFR, as prescribed by RCW 71.02.413. The NFR will be served upon those responsible parties as otherwise required by law, will indicate the charges being assessed, and explain the procedure for appeal therefrom. When the NFR is for full hospitalization charges as specified in WAC 275-16-030, the financially responsible person will be informed of the current charges and that those charges are periodically recomputed by the department in accordance with RCW 71.02.410. When the NFR is for adjusted charges, those charges will be expressed in a daily rate. Charges for ancillary services will be set aside when the NFR is for adjusted charges.

NEW SECTION

WAC 275-16-065 DETERMINATION OF LIABILITY. (1) In determining the ability of the estate of the patient and responsible relative to pay hospitalization charges, first priority shall be given to any third party benefits which might be available. The availability of third party benefits, such as medical insurance, health insurance, Medicare, Medicaid, CHAMPUS, CHAMPVA, shall be considered as an available asset of the estate and shall justify a finding for actual costs of hospitalization during such period as the coverage is in effect.

(2) In the absence of third party benefits, charges shall be based upon the available assets of the estate giving consideration to any unusual and exceptional circumstances and other pertinent factors. No financial determination of the ability of the estate to pay hospitalization charges shall conflict with the eligibility requirements for Medicaid for those patients who are eligible or potentially eligible for such benefits.

(3) The ability of the estate to pay adjusted charges will be determined by applying the following formula:

$$X = (Z-E)F$$

$$\text{where } Z = (A-Y-N-R) \div D$$

Z = available income per family member

X = adjusted charges (daily)

A = gross income

Y = mandatory deductions

N = allowance for unusual and exceptional circumstances

R = allowance for other pertinent factors

D = number of dependents

E = exempt income

F = a factor which converts the monthly figures to a daily rate (.0328767).

All calculations are expressed in monthly terms except the final adjusted charge which is converted to a daily rate. All final figures are rounded out to the nearest cent.

(4) The adjusted gross income (A-Y) is determined by first developing the gross income of the estate. Gross income (A) includes not only gross wages for services rendered, and/or net earnings from self-employment, but all other available assets converted to some reasonable monthly figure. All mandatory deductions (Y), such

as income tax and social security, are deducted from the gross income to arrive at the adjusted gross income.

(5) Approved allowances for unusual and exceptional circumstances (N) and for other pertinent factors (R) are then subtracted from the adjusted gross income.

(6) The available income (A-Y-N-R) is then divided by the number of dependents in the household of the patient (D) to determine the available income per family member.

(7) Exempt income (E) as defined in WAC 275-16-045 is then subtracted from the available income per family member to arrive at the monthly adjusted charges.

(8) The monthly adjusted charges are multiplied by the factor of .0328767 which converts the monthly figure to a daily rate.

NEW SECTION

WAC 275-16-075 UNUSUAL AND EXCEPTIONAL CIRCUMSTANCES. Unusual and exceptional circumstances for these purposes will cover those expenses other than usual or common; rare and extraordinary; that are of a medical nature and must be supplied to the patient for his health, medical or physical well being. Such expenses do not include those expenses that are reimbursable from insurance benefits or can be reasonably obtained from welfare agencies, health maintenance organizations, free clinics, or other free private or governmental sources. The existence and necessity of such unusual and exceptional circumstances must be attested to in writing, by the institution superintendent, that those expenses resulting therefrom are an integral part of the patient's treatment plan and that allowance for such circumstances is necessary for the medical and/or mental well-being of the patient. Upon such written certification, the resources necessary to meet the unusual and exceptional circumstances will not be considered as an asset available to the estate of the patient and responsible relatives for these purposes: **PROVIDED**, That any such attestation by the institution superintendent must conform with the eligibility criteria of Medicaid if the patient is eligible or potentially eligible for such benefits.

NEW SECTION

WAC 275-16-085 OTHER PERTINENT FACTORS. In considering other pertinent factors in determining the ability of the estate of the patient and responsible relatives to pay, the determination officer may consider those factors related to the well-being, education and training, child support obligations set by court order or by administrative finding under chapter 74.20A RCW, and/or rehabilitation of the patient and his or her immediate family, to whom the patient owes a duty of support. The patient and/or responsible relatives must show the existence and the necessity for the pertinent factors as defined. Upon such a showing, the determination officer may consider such resources necessary to reasonably provide for such pertinent factors as assets not available to the estate of the patient and responsible

relatives: **PROVIDED**, That any allowance for other pertinent factors must not conflict with Medicaid eligibility requirements for those patients who are eligible or potentially eligible for such benefits.

NEW SECTION

WAC 275-16-095 FAILURE TO COOPERATE WITH DEPARTMENT. Any patient, former patient, guardian, or other responsible party or parties who, after diligent effort by the department, has been shown to have failed to cooperate with the financial investigation by the department; or fails to comply with, or ignores, departmental correspondence; or supplies false or misleading information; or willfully conceals assets or potential assets; will be subject to a determination by the department that the estate of the patient and responsible relatives has the ability to pay full hospitalization charges: **PROVIDED**, That no person adjudged incompetent by a court of this state at the time of said investigation shall be penalized by his or her actions: **PROVIDED FURTHER**, That such a finding of liability to pay full hospitalization charges shall in no way diminish the responsible party's right to appeal such a finding of responsibility.

NEW SECTION

WAC 275-16-105 PETITION FOR REVIEW. (1) After a finding of responsibility becomes final in accordance with RCW 71.02.413, the responsible party may petition for a review of such findings to the secretary. The petitioner must show a substantial change in the financial ability of the estate to pay the charges in a petition for review. The burden of proof of a change in financial ability rests with the petitioner.

(2) A petition for review shall be in writing and to the following address:

Secretary, DSHS
Attn: Determination Officer
P.O. Box 9768
Olympia, WA 98504

(3) The determination officer, upon receipt of the petition for review, may conduct or cause to have conducted such investigation as may be necessary to verify the alleged changes in financial status or to determine any other facts which would bear upon the financial ability of the estate to pay.

(4) Based upon the review of the facts, the determination officer may modify or vacate the NFR under the provisions of RCW 71.02.415.

(5) The NFR will not be modified or vacated, if such modification or vacation inflicts or causes the loss of Medicaid eligibility; jeopardizes the eligibility for other third-party benefits; or has the potential end result of diminishing or jeopardizing the recovery of hospitalization cost by the department without a clear showing of real benefit, financial or otherwise, to the patient and/or responsible relatives.

(6) Nothing herein is intended to preclude the reinvestigation and/or review of the finding of responsibility by the department of its own volition.

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045.

Amend: WAC 388-28-480 and chapter 388-54 WAC.

Purpose of the rule or rule change is to bring rules on the earned income credit into conformity with federal law.

The reason(s) these rules are necessary is to comply with P. L. 96-222.

Statutory authority: RCW 74.04.510.

Summary of the rule or rule change: Public Law 96-222, The Technical Corrections Act of 1979, amending the Social Security Act, requires that earned income credit (EIC) payments are considered earned income during the month received both when received as advance payments and when received as a tax refund. The following WAC sections are revised:

WAC 388-28-480(7) requires the department to consider EIC payments during the month received as earned income retroactively to January 1, 1980;

WAC 388-54-725 deletes the word "Advance" as all EIC payments must be considered earned income;

WAC 388-54-725(12) deletes the phrase "an earned income tax credit (EIC) payment" since Public Law 96-222 requires its consideration as earned income rather than a single non-recurrent lump sum payment.

Person or persons responsible for the drafting, implementation and enforcement of the rule:

Name of initiator: Mick Determan.

Title: Program Manager.

Office: Bureau of Income Maintenance.

Mailstop: OB-31 C.

Phone: 3-4381.

The remainder, if any, shall be deducted from the assistance grant for the month.

AMENDATORY SECTION (Amending Order 1270, filed 2/17/78)

WAC 275-16-010 AUTHORITY. ((+)) The following rules regarding hospitalization charges are hereby adopted under the authority of Title 71 RCW.

(((2) "Hospitalization" includes treatment, transportation, examination, diagnosis, care, detention, training, pharmaceutical services, out-patient services and other services provided for patients needing mental health treatment.))

NEW SECTION

WAC 275-16-015 DEFINITIONS. (1) "Adjusted charges" are those charges levied upon a patient who is or has been confined to a state hospital for the mentally ill, either by voluntary or involuntary admission, and their estates and responsible relatives, which are less than the actual cost of hospitalization as reflected in the Schedule of Charges herein and which has been established by the issuance of a Notice of Finding of Responsibility.

(2) "Adjusted gross income" is that gross income of the estate of the patient and responsible relatives less any deductions, contributions or payments mandated by law including, but not necessarily limited to, income tax and social security.

(3) "Dependent" means any spouse, minor son or daughter, or permanently disabled son or daughter, of the patient living in the patient's household. If the patient is a minor, then the same definitions shall apply in determining the dependency of members of the parent's household. If a minor son or daughter is not living in the patient's household, that son or daughter shall not be considered a dependent unless the patient is in fact contributing more than fifty percent of that child's support in accordance with a court order or court-recognized agreement.

(4) "Department" means the department of social and health services.

(5) "Determination officer" is that duly appointed and qualified claims investigator who is delegated authority by the secretary to conduct or cause to have conducted an investigation of the financial condition of the estate of the patient and responsible relatives; to evaluate

the results of such investigations; to make determinations of the ability to pay hospitalization charges from such investigations and evaluations; and to issue Notices of Findings of Responsibility to the responsible parties.

(6) "Estate of patient and responsible relative" means the total assets available to the patient and his responsible relatives to reimburse the department for hospitalization charges incurred by the patient in a state hospital for the mentally ill in accordance with these regulations.

(7) "Gross income" means the total assets available to the estate of the patient and responsible relatives expressed in terms of their cash equivalent on a monthly basis. It includes gross wages for service; net earnings from self-employment; and all other assets of the estate prior to any mandatory deductions.

(8) "Secretary" means the secretary of the department of social and health services.

NEW SECTION

WAC 275-16-035 AVAILABLE ASSETS OF ESTATE OF PATIENTS AND RESPONSIBLE RELATIVES. (1) The department will include, but not necessarily be limited to, in their determination of the assets of the estates of present and former patients of state hospitals for the mentally ill and their responsible relatives, cash, stocks, bonds, savings, security interests, insurance benefits, guardianship funds, trust funds, governmental benefits, pension benefits and personal property.

(2) Real property shall also be an available asset to the estate: PROVIDED, That the patient's home shall not be considered an available asset if that property is owned by the estate and serves as the principal dwelling and actual residence of the patient, the patient's spouse, and/or minor children and disabled sons or daughters: PROVIDED FURTHER, That if the home is not being used for residential purposes by the patient, the patient's spouse, and/or minor children and disabled sons or daughters, and in the opinion of two physicians, there is no reasonable expectancy that the patient will be able to return to the home during the remainder of his life, the home shall be considered an asset available to the estate.

(3) In determining if a particular asset is available to the estate of a patient who is eligible or potentially eligible for Medicaid, the determination officer will apply the standards of WAC 388-92-045.

NEW SECTION

WAC 275-16-055 NOTICE OF FINDING OF RESPONSIBILITY (NFR). The determination officer's assessment of the ability and liability of the estate to pay hospitalization charges shall be issued in the form of a Notice of Finding of Responsibility, hereinafter referred to as an NFR, as prescribed by RCW 71.02.413. The NFR will be served upon those responsible parties as otherwise required by law, will indicate the charges being assessed, and explain the procedure for appeal therefrom. When the NFR is for full hospitalization charges as specified in WAC 275-16-030, the financially responsible person will be informed of the current charges and that those charges are periodically recomputed by the department in accordance with RCW 71.02-410. When the NFR is for adjusted charges, those charges will be expressed in a daily rate. Charges for ancillary services will be set aside when the NFR is for adjusted charges.

NEW SECTION

WAC 275-16-065 DETERMINATION OF LIABILITY. (1) In determining the ability of the estate of the patient and responsible relative to pay hospitalization charges, first priority shall be given to any third party benefits which might be available. The availability of third party benefits, such as medical insurance, health insurance, Medicare, Medicaid, CHAMPUS, CHAMPVA, shall be considered as an available asset of the estate and shall justify a finding for actual costs of hospitalization during such period as the coverage is in effect.

(2) In the absence of third party benefits, charges shall be based upon the available assets of the estate giving consideration to any unusual and exceptional circumstances and other pertinent factors. No financial determination of the ability of the estate to pay hospitalization charges shall conflict with the eligibility requirements for Medicaid for those patients who are eligible or potentially eligible for such benefits.

(3) The ability of the estate to pay adjusted charges will be determined by applying the following formula:

$$X = (Z-E)F$$

where $Z = (A - Y - N - R) \div D$

Z = available income per family member

X = adjusted charges (daily)

A = gross income

Y = mandatory deductions

N = allowance for unusual and exceptional circumstances

R = allowance for other pertinent factors

D = number of dependents

E = exempt income

F = a factor which converts the monthly figures to a daily rate (.0328767).

All calculations are expressed in monthly terms except the final adjusted charge which is converted to a daily rate. All final figures are rounded out to the nearest cent.

(4) The adjusted gross income (A-Y) is determined by first developing the gross income of the estate. Gross income (A) includes not only gross wages for services rendered, and/or net earnings from self-employment, but all other available assets converted to some reasonable monthly figure. All mandatory deductions (Y), such as income tax and social security, are deducted from the gross income to arrive at the adjusted gross income.

(5) Approved allowances for unusual and exceptional circumstances (N) and for other pertinent factors (R) are then subtracted from the adjusted gross income.

(6) The available income (A-Y-N-R) is then divided by the number of dependents in the household of the patient (D) to determine the available income per family member.

(7) Exempt income (E) as defined in WAC 275-16-045 is then subtracted from the available income per family member to arrive at the monthly adjusted charges.

(8) The monthly adjusted charges are multiplied by the factor of .0328767 which converts the monthly figure to a daily rate.

NEW SECTION

WAC 275-16-075 UNUSUAL AND EXCEPTIONAL CIRCUMSTANCES. Unusual and exceptional circumstances for these purposes will cover those expenses other than usual or common; rare and extraordinary; that are of a medical nature and must be supplied to the patient for his health, medical or physical well being. Such expenses do not include those expenses that are reimbursable from insurance benefits or can be reasonably obtained from welfare agencies, health maintenance organizations, free clinics, or other free private or governmental sources. The existence and necessity of such unusual and exceptional circumstances must be attested to in writing, by the institution superintendent, that those expenses resulting therefrom are an integral part of the patient's treatment plan and that allowance for such circumstances is necessary for the medical and/or mental well-being of the patient. Upon such written certification, the resources necessary to meet the unusual and exceptional circumstances will not be considered as an asset available to the estate of the patient and responsible relatives for these purposes: PROVIDED, That any such attestation by the institution superintendent must conform with the eligibility criteria of Medicaid if the patient is eligible or potentially eligible for such benefits.

NEW SECTION

WAC 275-16-085 OTHER PERTINENT FACTORS. In considering other pertinent factors in determining the ability of the estate of the patient and responsible relatives to pay, the determination officer may consider those factors related to the well-being, education and training, child support obligations set by court order or by administrative finding under chapter 74.20A RCW, and/or rehabilitation of the patient and his or her immediate family, to whom the patient owes a duty of support. The patient and/or responsible relatives must show the existence and the necessity for the pertinent factors as defined. Upon such a showing, the determination officer may consider such resources necessary to reasonably provide for such pertinent factors as assets not available to the estate of the patient and responsible relatives: PROVIDED, That any allowance for other pertinent factors must not conflict with Medicaid eligibility requirements for those patients who are eligible or potentially eligible for such benefits.

NEW SECTION

WAC 275-16-095 FAILURE TO COOPERATE WITH DEPARTMENT. Any patient, former patient, guardian, or other responsible party or parties who, after diligent effort by the department, has been shown to have failed to cooperate with the financial investigation by the department; or fails to comply with, or ignores, departmental correspondence; or supplies false or misleading information; or willfully conceals assets or potential assets; will be subject to a determination by the department that the estate of the patient and responsible relatives has the ability to pay full hospitalization charges: PROVIDED, That no person adjudged incompetent by a court of this state at the time of said investigation shall be penalized by his or her actions: PROVIDED FURTHER, That such a finding of liability to pay full hospitalization charges shall in no way diminish the responsible party's right to appeal such a finding of responsibility.

NEW SECTION

WAC 275-16-105 PETITION FOR REVIEW. (1) After a finding of responsibility becomes final in accordance with RCW 71.02.413, the responsible party may petition for a review of such findings to the secretary. The petitioner must show a substantial change in the financial ability of the estate to pay the charges in a petition for review. The burden of proof of a change in financial ability rests with the petitioner.

(2) A petition for review shall be in writing and to the following address:

Secretary, DSHS
Attn: Determination Officer
P.O. Box 9768
Olympia, WA 98504

(3) The determination officer, upon receipt of the petition for review, may conduct or cause to have conducted such investigation as may be necessary to verify the alleged changes in financial status or to determine any other facts which would bear upon the financial ability of the estate to pay.

(4) Based upon the review of the facts, the determination officer may modify or vacate the NFR under the provisions of RCW 71.02.415.

(5) The NFR will not be modified or vacated, if such modification or vacation inflicts or causes the loss of Medicaid eligibility; jeopardizes the eligibility for other third-party benefits; or has the potential end result of diminishing or jeopardizing the recovery of hospitalization cost by the department without a clear showing of real benefit, financial or otherwise, to the patient and/or responsible relatives.

(6) Nothing herein is intended to preclude the reinvestigation and/or review of the finding of responsibility by the department of its own volition.

The tow operator also will advise the patrol of all traffic accidents on private property resulting in bodily injury or death when the operator has received a private call for a tow at such an accident.

(8) The tow operator will notify the patrol before moving any vehicle involved in an accident on a public highway under the jurisdiction of the patrol as defined in the motor vehicle code, Title 46 RCW or where it appears that the driver of the vehicle to be moved is under the influence of intoxicants or drugs, or is otherwise incapacitated.

The commission shall be notified within ten days of any change which leaves the tow operator without the necessary minimum coverage. STATEMENT OF PURPOSE

Chapter 204-38 WAC - Flashing Amber Lamps.

To permit flashing lamps on certain vehicles not otherwise permitted by statute.
RCW 46.37.280.

Includes animal control vehicles in those classes of vehicles permitted to use flashing amber lamps.

Vehicles used by humane societies, animal shelters, veterinarians, and other publicly owned vehicles used primarily for the purpose of transporting animals frequently are in need of warning lamps to warn approaching motorists when removing dead, injured or endangered animals from the public roadway.

Lieutenant R. C. Dale, Secretary, Commission on Equipment.

Commission on Equipment.

Lieutenant R. C. Dale, Secretary, Commission on Equipment.

Governmental.

Many animal control vehicles, because of traffic speed and congestion, are presently using red emergency vehicle warning lamps which is statutorily prohibited. Conditions do require that a sufficient warning be given to other motorists, so the use of some type warning lamp is a necessity. Most of the vehicles mentioned would not qualify for authorized emergency vehicle permits, therefore, inclusion into this rule is the most expeditious way to accomplish the needed warning. It is also the best fiscally, as a simple change of lens will change colors.

The rule amendment is not a result of federal law or federal or state court action.

WAC 180-55-020 COMPLIANCE WITH REQUIREMENTS FOR ENTITLEMENT TO BASIC EDUCATION ALLOCATION FUNDS OR APPROVED PRIVATE SCHOOL STATUS. (1) Public schools.

(a) District compliance. Compliance of a school district's program pursuant to provisions of "basic education allocation entitlement requirements" or receipt of waiver therefrom (WAC 180-16-191 through 180-16-225) shall be prerequisite to a public school's participation in accreditation activities and to a public school's receipt of any accreditation status from the state board of education.

(b) School contribution to district compliance with requirements for entitlement to basic education allocation funds. Each school engaged in the state board of education's accreditation procedures must review the school's contribution to district compliance with such entitlement requirements (WAC 180-16-191 through 180-16-225). Although these entitlement requirements are enforced at the district level rather than at the individual school, the intent of this review shall be to serve the following purposes:

(i) Increase the awareness of and familiarity with such entitlement requirements by staff and community members.

(ii) Identify those instances where district compliance is affected adversely by the school.

(iii) Prepare rationale or proposals for corrective action in such instances.

(c) Assessment of school compliance with supplemental program standards. Supplemental program standards (WAC 180-16-240), if unmet, do not affect basic education allocations to the district. At the school level, however, failure to comply with these standards may create an adverse impact on the instructional program. Therefore, each school engaged in the state board of education's accreditation procedures must review the school's compliance with these standards in order to serve the following purposes:

(i) Increase the awareness of and familiarity with supplemental program standards by staff and community members.

(ii) Identify those instances where district compliance is affected adversely by the school.

(iii) Prepare rationale or proposals for corrective action in such instances.

(2) Private schools. Compliance of a private school with the approval requirements of chapter 180-90 WAC shall be prerequisite to a private school's participation in the state board of education's accreditation activities and to a private school's receipt of any accreditation status from the state board of education.

WAC 180-55-025 TYPES OF ACCREDITATION—CONDITIONS—EFFECTIVE PERIODS. (1) Self-study procedures:

(a) Standard accreditation – seven years, shall be granted to a school upon successful completion of self-study activities, adoption of a plan for program improvement based upon findings of the self-study, and validation of the self-study and the plan by an objective review process external to the school being considered for accreditation.

(b) Conditional accreditation, is limited to a one year period and shall be designated for a school where validation identifies minor omissions, inaccuracies or weaknesses in the accreditation procedures, the plan, or the school program, and which are not addressed in the plan. Should such omissions from the plan not be so addressed, or not be explained satisfactorily in terms of constraints on the district, during the one year term of this rating, the school will be reclassified downward in accreditation status.

(c) Probationary accreditation, is limited to a one year period, and shall be designated for a school where validation identifies major omissions, inaccuracies, or weaknesses in the accreditation procedures, the plan, or the school program, and which are either not addressed in the plan for program improvement or not explained satisfactorily in terms of constraints on the district, or, for schools where prior conditional rating has not been upgraded. If upgraded accreditation status is not achieved by the end of the one year period, the school will be reclassified as unaccredited.

(d) Unaccredited status shall be assigned to a participating school that fails to upgrade probationary accreditation status within the prescribed time, or to a participating school that has drastic inadequacies or omissions in major required self-study components or procedures.

Such status must be improved to standard accreditation the following year or the school will be reclassified downward in accreditation status.

(c) Probationary accreditation, is limited to a one year period, and shall be designated for a school where validation identifies major omissions, inaccuracies, or weaknesses in the school program in the area(s) of the accreditation standards, or, for a school where prior conditional rating has not been upgraded. If upgraded accreditation status is not achieved by the end of the one year period, the school will be reclassified as unaccredited.

 Rules Coordinator

STATEMENT OF PURPOSE

Title: The proposed amendatory section to chapter 352-32 WAC defines "Campsites" in state parks; establishes a limit for continuous occupancy of overnight camping facilities by the same person; and revises overnight camping fees for state parks and Environmental Learning Centers.

Statutory Authority: RCW 43.51.040 and 43.51.060.

Summary: The amendatory sections increase the overnight camping fees charged in state parks and Environmental Learning Centers. An extra fee is established for additional unhitched vehicles in excess of the one allowed at each campsite. New fees are established for utility hookups of domestic water, sewer and electricity when they are available at a campsite. The length of stay for a camper is increased from seven to ten consecutive days in one park. Commission policy directs annual review of overnight camping fees. The cost of operating a park

has increased significantly since the last fee increase - electricity costs have increased by 50 percent. The suggested fee increases are restructured to more accurately reimburse for time spent in parks and utilities available at overnight camping sites. The present limit on consecutive camping days in one park is being expanded to help reduce camper travel and in response to public request.

I, Glenn R. Pascall, director of Revenue, do promulgate and adopt at Olympia, Washington, the annexed rules relating to State levy—Apportionment between counties, adopting WAC 458-19-550.

This action is taken pursuant to Notice No. WSR 81-01-026 filed with the code reviser on December 9, 1980. Such rules shall take effect pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 84.55.060 and is intended to administratively implement that statute.

PROPERTY TAX LEVIES, RATES, AND LIMITS

NEW SECTION

WAC 458-19-550 STATE LEVY—APPOR-
TIONMENT BETWEEN COUNTIES. (1) The de-
partment of revenue is empowered by statute to
formulate such rules and processes as will ensure the

equalization of taxation and uniformity of administration of the property tax laws of this state. The department is further directed to apportion the amount of the state property tax levy among the counties in proportion to the equalized value of taxable property in each county in order that each county shall pay its due and just proportion of the state tax. The application of the 106 percent limit to the state levy necessitates reasonable measures by the department to achieve the statutory requirement of just apportionment. This rule provides for adjustment in the apportionment of the next following year state levy when changes in property values are effected, in the manner described below, after the certification of the state levy by the department for the previous year. This rule also provides for adjustment for errors as defined herein which are not otherwise correctable in a timely and orderly manner in the year of levy through the exercise or enforcement of the department's supervisory powers. This rule shall be applied in the manner provided below to preserve an equitable and uniform apportionment of the state levy and to ensure the collection of the proper portion of the state levy from within each county.

(2) The levy rate for the state property tax levy is the lesser of (a) \$3.60 per thousand dollars of the full true and fair value of the taxable property in the state, or (b) that rate which, when applied to the valuation figures specified in (3) below, will produce a total amount equal to one hundred and six percent of the base amount, i.e., of the highest state tax levy of the most recent three annual state levies, plus an amount calculated by multiplying the value of a new construction, improvements to real property, and increases in the value of centrally assessed property as determined by the department of revenue, by the levy rate of the state tax applicable in the year prior to the current year for which the tax levy is being computed.

(3) When determining the amount of the state levy with reference to the calculations under (b) above, the dollar amount apportioned to each county shall be computed based upon those valuation figures made available to the department by each county by October 1 of the levy year. If the use of certification of the counties' assessed values for state levy purposes results in an erroneous apportionment among the counties by reason of changes or errors in valuation within a county, the department of revenue shall adjust the following year's levy apportionment to correct for such changes or errors. For purposes of this rule a change in valuation shall include any adjustment effected by a reviewing body (county board of equalization, state board of tax appeals, or court of competent jurisdiction) and may also include additions of omitted property and other additions to or deletions from the assessment and tax rolls. Errors for purposes of adjustments under this rule shall include errors corrected by a final reviewing body and such other errors which have come to the attention of the department and which would otherwise be a subject for correction in the exercise of its supervisory powers.

(4) Correction required by reason of changes or errors relating to that valuation used in apportioning the current levy shall be made by adjusting the apportionment

of the next following year's levy. The department shall recompute the apportionment of the previous year's levy with reference to taxable values corrected for changes and errors and equalized to true and fair value for such previous year's levy. Each county's apportioned amount for the current year's state levy shall be adjusted by the difference between the dollar amounts of state levy due from each county as shown by the original and revised levy computations for the previous year.

(5) Nothing in this rule shall relieve a county from its obligation to correct any error immediately upon discovery, including the calculation of an erroneous rate or the levy of an incorrect amount of tax, when such correction may be timely made to avoid distortion in the true apportionment of the state levy between counties.

ADOPTED RULES

DEPARTMENT OF REVENUE

[Order PT 81-5—Filed February 4, 1981]

I, Glenn R. Pascall, director of Revenue, do promulgate and adopt at Olympia, Washington, the annexed rules relating to Indicated real property ratio—Computation, amending WAC 458-53-150.

This action is taken pursuant to Notice No. WSR 81-01-028 filed with the code reviser on December 9, 1980. Such rules shall take effect pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 84.48.075 and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

AMENDATORY SECTION (Amending Order PT 79-3, filed 10/11/79)

WAC 458-53-150 INDICATED REAL PROPERTY RATIO—COMPUTATION. (1) For each real property value or land use stratum within a county average sample assessed value and average sample true and fair value will be determined from the results of selected sales and appraisal studies. Average sample assessed value and average sample true and fair value for each stratum will be multiplied by the total number of real property parcels in each corresponding stratum to derive an estimated total assessed value and a total estimated true and fair value for each stratum. Stratum estimated totals will be added to derive county estimated total assessed value and county estimated total true and fair value. When the ratio relationship between these

two estimated values is applied to the actual county assessed value, as provided by the assessor in his current Assessors' Certificate of Assessment Rolls to the County Board of Equalization, and forest land and current use values are added to the actual assessed value and ratio-related market value, the totals will represent the county real property indicated ratio.

(2) Valid arms-length sales occurring in each county will be the basis for determining individual stratum ratios unless a representative number of samples for any one stratum requires the addition of department appraisals. In all strata where both sales and appraisal samples are present, assessment and market values for all valid appraisal samples will be combined with assessment and market values for all valid sales samples to derive a stratum ratio.

(3) Present county forest land assessed values (chapter 84.33 RCW) will be included in determination of the indicated real property ratios for each county. Current use assessed values (chapter 84.34 RCW) will be included in determination of the indicated real property ratios for counties whose current use land values are five percent or greater in proportion to the total county land value outside of cities and towns. Counties with less than five percent of total land value outside of cities and towns in current use property values may request inclusion of current use values in determination of their real property ratio: PROVIDED, That in order for current use values to be used, the request, in writing, ((should)) must be submitted to the department prior to October 1 of each ratio study period for which current use consideration is desired, and: PROVIDED, FURTHER, That for the 1981 ratio study year, the request must be submitted, in writing, prior to January 31, 1981. Department current use appraisals will be the basis for the

assessment-to-appraisal values from which current use ratios are determined.

(4) Values from each county's Assessor's Certificate of Assessment Rolls to County Board of Equalization will be used in the computation of each county's indicated real property ratio except as provided in subsection (6) of this section.

(a) The county preliminary real property ratio, calculated from estimated totals of county sales and appraisal study results, will be applied to each county's certificate listing of total real property assessed value (excluding forest land and current use assessed values) to determine an estimated true and fair value which relates to the actual assessed real property value of a county.

(b) To the actual real property assessed value and ratio-related true and fair value totals for a county are added certificate forest land and current use assessed values (as provided in subsection (2) of this section), and related true and fair values calculated by the ratio relationships determined for forest lands and current use properties.

(c) The sum of the total real property assessed and true and fair values, forest land assessed and true and fair values, and current use assessed and true and fair values (as provided in subsection (2) of this section) shall be the basis for a county's indicated real property ratio. The sum total of assessed values will be divided by the sum total of true and fair values to derive the ratio.

(5) The following illustration, using simulated values, indicates simplified ratio study computation procedures for real property.

Step 1 - Determination of Average Sample Values

(6) If a copy of the certification of current values is not received from an assessor in a timely manner for inclusion in ratio computation, the Assessors Abstract of Assessed Values from the previous year will be used as the information source for ratio computation.

(7) A copy of each county's certification of values to the County Board of Equalization will be filed with the department on or before the second Monday in July. The certification will show the total taxable assessed value of the real property roll (indicating separately the total value of forest land assessed pursuant to chapter 84.33 RCW and land classified under chapter 84.34 RCW – current use) and the total taxable assessed value of the personal property roll.

(8) Valid ratio study individual assessed or true and fair values which either exceed or fall below the mean assessed or true and fair value by more than five times the average deviation of other values in a stratum, will be classified as "outriders" and shall be considered separately in average sample computation. Outriders are so treated to prevent the

application of excess weight by nontypical sample values in determining average sample values and resulting total estimated assessed and total estimated true and fair values.

(9) The department may consider the relationship between the market value trends of real property and the assessed value increases or decreases made by the assessor during the year in each county as validity checks of the result of the sales and appraisal studies. The director may authorize modification of the results of the sales and appraisal study where there is a demonstrable showing to the director that the sales and appraisal study is inconclusive or does not result in a reasonable and factual determination of the relationship of assessed values to true and fair value such that a significant variation results from the rates of the previous year not deemed by the director comparable with general trends in property values. Such modification shall be made only after notice to all assessors that information other than the sales and appraisal studies are being considered, and opportunity for a meeting has been made available for the director (or the director of property tax) and a representative committee authorized and appointed by the assessors to review the results of the sales and appraisal study and the proposal to modify the study results.

EMERGENCY RULES
DEPARTMENT OF GAME
 [Order 123—Filed February 4, 1981]

Be it resolved by the undersigned, Jack S. Wayland, Acting Director, Washington State Department of Game, that I promulgate and adopt at Olympia, Washington, as emergency rule of this governing body, the annexed rule relating to the closure of the Quillayute and Puyallup river systems and Marine Area 11A to the taking of steelhead trout by Treaty Indians, adopting WAC 232-32-132.

I, Jack S. Wayland, Acting Director, find an emergency exists and that the foregoing order adopting emergency rule WAC 232-32-132 is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action and that observance of the requirements for adoption of permanent rules which are effective only upon expiration of 30 days after the date of filing is contrary to public interest as the statement of facts constituting such emergency reveals. A statement of the facts constituting such emergency is data gathered by Department of Game from information provided by fish buyers reporting sales of steelhead harvested by Treaty Indian fishermen from the Quillayute and Puyallup river systems and Marine Area 11A pursuant to the reporting system approved by the United States District Court in United States v. Washington, and information from the Quileute, Puyallup, and Muckleshoot Tribe indicates that the treaty share of harvestable steelhead for the Quillayute and Puyallup river systems has been reached or will have been reached on the effective date of this order. Therefore, a closure of the Quillayute and Puyallup river systems and Area 11A is necessary to assure non-treaty sports fishermen their right to take their share of those remaining steelhead.

Such rule is therefore adopted as an emergency.

This rule is promulgated under the authority of the Director of Game as authorized in RCW 77.12.150 with the approval of the Game Commission as provided in that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW) or the Administrative Procedure Act (chapter 34.04 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

This order, after being first recorded in the Order Register of this governing body, shall be forwarded to the Code Reviser for filing pursuant to chapter 34.04 RCW, and chapter 1-12 WAC.

APPROVED AND ADOPTED February 4, 1981.

Chapter 212-10 WAC
SMOKE DETECTION DEVICES IN DWELLING
UNITS

NEW SECTION

WAC 212-10-010 ADMINISTRATION, AUTHORITY. These rules are adopted pursuant to chapter 50, Laws of 1980, entitled smoke detection devices in dwelling units, and to RCW 48.48.140 to provide for the installation and maintenance of smoke detection devices inside all dwelling units (1) occupied by persons other than the owner, or (2) built or manufactured in this state.

NEW SECTION

WAC 212-10-015 APPLICATION AND SCOPE. (1) The provisions of these rules shall apply to (a) all dwelling units occupied by persons other than the owner after December 31, 1981, and (b) all dwelling units built or manufactured in this state after December 31, 1980.

(2) Notwithstanding the provisions of chapter 19.27 RCW, RCW 43.22.340 through 43.22.434 and 43.22.450 through 43.22.490, the provisions of these rules shall also apply to all buildings or structures, mobile homes and factory built housing used as dwelling units.

NEW SECTION

WAC 212-10-020 DEFINITIONS. (1) SMOKE DETECTION DEVICE. A self-contained alarm for detecting visible or invisible particles of combustion, which consists of an assembly of electrical components including a smoke chamber, alarm sounding appliance, and provision for connection to a power supply source, either by splice leads or a cord and plug arrangement or containing integral batteries. A supplemental heat detector may be included as part of the appliance. Terminals may be included for connection to a remote, audible signaling appliance or accessory. An integral transmitter may also be included to energize a remote audible signaling appliance. The smoke detection device may be of the photoelectric and/or ionization type.

(2) PHOTOELECTRIC DETECTOR. A smoke detection device which activates when visible smoke from a fire enters the detector. Sensitive to smoldering fires as well as smoke generated by an open flame fire.

(3) IONIZATION DETECTOR. A smoke detection device which activates in response to invisible particles created by combustion. Sensitive to open flame fire.

(4) COMBINATION PHOTOELECTRIC/IONIZATION DETECTOR. A smoke detection device containing both an ionization and a photoelectric element.

(5) DWELLING UNIT. A single unit providing complete, independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation.

(6) FACTORY BUILT HOUSING. For the purpose of these rules, factory built housing is considered as any structure designed primarily for human occupancy other than a mobile home, the structure of any room of which is either entirely or substantially prefabricated or assembled at a place other than a building site, and which is subject to regulation by the Washington Department of Labor and Industries pursuant to RCW 43.22.450 through 43.22.490.

(7) MOBILE HOME. For the purpose of these rules, a mobile home is considered as a factory-assembled structure or structures assembled with the necessary service connections and made so as to be readily movable as a unit or units on its (their) own running gear and designed to be used as a dwelling unit without a permanent foundation, and which is subject to regulation by the Washington Department of Labor and Industries pursuant to RCW 43.22.340 through 43.22.434.

(8) NEW BUILDING. For the purpose of these rules, a new building is considered as any structure constructed, erected or moved onto a permanent site on or after December 31, 1980, any portion of which is used or intended for use as a dwelling unit by any person or persons.

(9) EXISTING BUILDING. For the purpose of these rules an existing building is considered as any structure in existence prior to December 31, 1981, any portion of which is used, intended for use or thereafter converted for use as a dwelling unit by any person or persons other than the owner who do not otherwise qualify as a guest or member of the household of the owner.

NEW SECTION

WAC 212-10-025 CONFORMANCE WITH NATIONALLY ACCEPTED STANDARDS. All smoke detection devices shall be designed and manufactured in conformance with the requirements of Underwriters Laboratories, Inc. Standard UL 217 or International Conference of Building Officials Standard 43-6, and shall be approved or listed for the purposes for which they are intended.

NEW SECTION

WAC 212-10-030 PRIMARY POWER SUPPLY. The primary power supply of a smoke detection device shall be either a commercial light and power source normally available in the dwelling unit, or an integral battery or batteries. Connection to a commercial power and light source, if used, shall be in the form of permanent wiring to terminals or leads in a separate wiring compartment having provision for the connection of a conduit, metal-clad or nonmetallic sheathed cable, by means of a power supply cord and attachment-plug cap, or by means of a separate power supply. EXCEPTION: Smoke detection devices in dwelling units built or manufactured in this state after December 31, 1980, shall receive their primary power from the building wiring when such wiring is served from a commercial source. Wiring shall be permanent without a disconnecting

switch other than those required for overcurrent protection.

NEW SECTION

WAC 212-10-035 NUMBER OF SMOKE DETECTION DEVICES. (1) At least one smoke detection device shall be installed to protect the sleeping area within each dwelling unit. A sleeping area is defined as the area or areas of the dwelling unit in which the bedrooms (or sleeping rooms) are located. Where bedrooms or rooms ordinarily used for sleeping are separated by other-use areas (such as kitchens or living rooms but not bathrooms or closets), or are located on different stories or floor levels, they shall be considered as separate sleeping areas for the purposes of these rules.

(2) Dwelling units with more than one sleeping area shall require the installation of additional smoke detection devices to protect each sleeping area.

NEW SECTION

WAC 212-10-040 LOCATION OF SMOKE DETECTION DEVICES. (1) Smoke detection devices shall be installed outside of bedrooms or rooms used for sleeping purposes but in the immediate vicinity of such rooms, centrally located in the corridor or area giving access to the rooms. In dwelling units without separate sleeping rooms, the smoke detection devices shall be centrally located in the main room. Smoke detection devices shall be located on or near the ceiling. NOTE: Smoke detection devices should be installed in those locations recommended by the manufacturer except in those cases where the space above the ceiling is open to the outside and little or no insulation is present over the ceiling. Such cases result in the ceiling being excessively cold in the winter time or excessively hot in the summer time. Where the ceiling is significantly different in temperature from the air space below, smoke has difficulty reaching the ceiling and to a detector which may be placed there. In this situation, placement of the detector on a side wall, with the top four inches to twelve inches from the ceiling is preferred. In dwelling units employing radiant heating in the ceiling, the wall location is the preferred location. Radiant heating in the ceiling can create a hot-air boundary layer along the ceiling surface which can seriously restrict the movement of smoke to a ceiling-mounted detector.

(2) A smoke detection device installed in a stairwell shall be so located as to assure that smoke rising in the stairwell cannot be prevented from reaching the detection device by an intervening door or obstruction.

(3) Smoke detection devices in rooms with ceiling slopes greater than one-foot rise per eight feet horizontally shall be located at the high side of the room.

(4) Smoke detection devices shall not be mounted in front of an air supply duct outlet or between the bedroom and the furnace cold air return.

NEW SECTION

WAC 212-10-045 INSTALLATION. (1) It is the responsibility of the builder or manufacturer of each

new building, mobile home or factory built housing to install smoke detection devices within each dwelling unit.

(2) It is the responsibility of the owner of each existing building, mobile home or factory built housing to install smoke detection devices within each dwelling unit occupied by persons other than the owner.

(3) It is the responsibility of the owner of each new or existing building, mobile home or factory built housing, containing dwelling units occupied by persons other than the owner, to inspect and test all smoke detection devices at the time of vacancy and make the necessary repairs or replacements to insure that the smoke detection devices are operational prior to reoccupancy, and to instruct the occupants of the purpose, operation and maintenance of the smoke detection device(s).

NEW SECTION

WAC 212-10-050 MAINTENANCE. It is the responsibility of the occupant of all new or existing dwelling units, owned by other than the occupant, to maintain and test all smoke detection devices installed within the dwelling unit by the owner. Actual costs of maintenance, repair or replacement of smoke detection devices shall be as agreed beforehand by the occupant and owner. However, failure of the owner to abide by the terms of any such agreement does not relieve the occupant of the responsibility to maintain the smoke detection devices in a fully operational condition at all times. Failure to do so can subject the occupant to the penalty provisions of WAC 212-10-055.

NEW SECTION

WAC 212-10-055 PENALTIES. Any person who violates any of the provisions of RCW 48.48.140 or these rules shall be punished by a fine of not more than fifty dollars.

NEW SECTION

WAC 212-10-060 SEVERABILITY. If any provision of these rules or its application to any person is held invalid, the remainder of the rules or the application of the provision to other persons or circumstances is not affected.

PROPOSED RULES
DEPARTMENT OF
NATURAL RESOURCES
(Board of Natural Resources)
[Filed February 4, 1981]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Board of Natural Resources intends to adopt, amend, or repeal rules concerning the disposal of deposited dredge spoils from portions of the Toutle and Cowlitz Rivers without charge.

Written or oral submissions may also contain data, views, and arguments concerning the effect of the proposed rules on economic values, pursuant to chapter 43.21H RCW.

The agency reserves the right to modify the text of these proposed rules before the public hearing or in response to written or oral comments received before or during the public hearing;

that such agency will at 7:30, Monday, March 16, 1981, in the Department of Natural Resources, Castle Rock Office, 601 Bond Drive, Castle Rock, Washington, conduct a hearing relative thereto;

and that the adoption, amendment, or repeal such rules will take place at 9:00 a.m., Tuesday, April 6, 1981, in the Office of the Commissioner of Public Lands, Public Lands Building, Olympia, Washington.

The authority under which these rules are proposed is RCW 43.30.150(6).

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency prior to March 27, 1981, and/or orally at 7:30 p.m., Monday, March 16, 1981, Department of Natural Resources, Castle Rock Office, 601 Bond Drive, Castle Rock, Washington.

Dated: February 4, 1981

By: Brian J. Boyle
Commissioner of Public Lands
Executive Secretary,
Board of Natural Resources

STATEMENT OF PURPOSE

Purpose and Implementation: The purpose of this rule is to adopt a permanent rule authorizing owners on non-state-owned land abutting portions of the Toutle and Cowlitz Rivers to dispose of dredge materials placed upon those lands without the necessity of a charge by the Department of Natural Resources. The rule relates to dredge spoils placed upon abutting lands during 1980 and 1981 although this period may be enlarged based on data, views, or arguments received by the agency.

Adopting Agency: Board of Natural Resources, Department of Natural Resources.

Statutory Authority: RCW 43.30.150(6) in conjunction with RCW 79.01.178.

Summary of Rule and Reasons Therefore: RCW 43.30.150(6) authorizes the Board of

Natural Resources to adopt rules relating to carrying out the policies and overall supervision of the Department of Natural Resources within the department's jurisdiction. RCW 79.01.178 authorizes the disposition of dredge materials on non-state-owned lands where public lands sites are not available. Material dredged from the Toutle and Cowlitz Rivers by the U.S. Army Corps of Engineers has been authorized to be placed on adjacent non-state-owned land. Normally, a charge can be made for further sale or disposition of such material by the non-state land owner if the use of such material is off the original disposal site. The Board of Natural Resources has found that the extraordinary amount of material dredged by the U.S. Army Corps of Engineers and placed on non-state-owned land because of the eruption of Mt. St. Helens has made any further charges that otherwise would have been made on further dispositions to be of nominal value. The board has also determined that it would be in the best interests of the state to allow further disposal of the dispositions without further charge or control by the department.

The rule as proposed would allow the material so placed to be further disposed of by the land owner without charge by the department and free of any interest of the department.

Agency Personnel Involved:

Ralph Beswick, Supervisor, Department of Natural Resources, Public Lands Building, Olympia, Washington 98504, Telephone: (206) 753-5331.

John DeMeyer, Southwest Area Manager, 601 Bond Drive, Castle Rock, Washington, Telephone: (206) 577-2025.

Jack Shero, Deputy Supervisor, Department of Natural Resources, Public Lands Building, Olympia, Washington 98504, Telephone: (206) 753-5331.

Proponents or Opponents: The rules were initiated and drafted by the Department of Natural Resources staff and revised to its present form after meetings and inputs with interested persons. No opponents are known.

Agency Comments: The extraordinary amount of dredge materials deposited on adjacent private land reduces the value of any charge by the department of the material if further sold off the original dredge sites. The costs of implementing such charges far exceeds any possible financial return to the department.

NEW SECTION

WAC 332-30-164 DREDGE MATERIAL FROM THE TOUTLE AND COWLITZ RIVERS. (1) The Board of Natural Resources pursuant to RCW 43.30.150 determines that, due to the extraordinary volume of material washed down onto state-owned beds

and shorelands in the Toutle and portions of the Cowlitz Rivers, the dredge spoils placed upon adjacent privately owned property in such areas, if further disposed, will be of nominal value to the state and that it would be in the best interests of the state to allow further disposal without charge.

(2) The Board authorizes that all dredge spoil or materials removed from the state-owned beds and shores of the Toutle River and that portion of the Cowlitz River from the confluence of the Toutle River to its mouth deposited on adjacent non-state-owned lands during the years 1980 and 1981 as a result of dredging of the foregoing rivers for navigation and flood control purposes may be further sold, transferred or otherwise disposed of by owners of such lands without the necessity of any charge by the department of natural resources and free and clear of any interest of the department of natural resources state of Washington.

Reviser's Note: The typographical errors in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

that such agency will at 10 a.m., Thursday, March 12, 1981, in Conference Room B, 4th Floor, Highways-Licenses Building, Olympia, Washington, conduct a hearing relative thereto;

and that the adoption, amendment, or repeal of such rules will take place at 10 a.m., Thursday, March 12, 1981, in Conference Room B, 4th Floor, Highways-Licenses Building, Olympia, Washington.

STATEMENT OF PURPOSE

Title: Appointment of director—Agency documents.

Description of Purpose: The purpose of this rule is to permit the use of thousands of unused forms now in the Department of Licensing's inventory which are preprinted with the name of the previous director, in order to prevent the expenditure of substantial state money for replacement of the forms.

Statutory Authority: This rule is promulgated pursuant to RCW 43.17.060 which provides that an agency director may adopt rules for the disposition of its business and the use of its documents pertaining to that business. The rule is authorized as well under RCW 43.24.040 and 46.01.160.

Summary of Rule: The rule simply provides that all documents issued from the Department of Licensing in the name of the director after January 14, 1981 shall be considered issued by the newly appointed director, Mr. Gonzalez, even if the name of the former director appears on the documents.

Reasons Supporting Proposed Action: Currently, several statutes require that certain documents be issued "in the name of the director" or "under the director's signature" or similar language. The department has in its inventory many thousands of dollars worth of unused forms, such as vehicle titles, bearing the printed name of the predecessor of the current director. This rule makes it clear that those currently unused documents bearing the former director's name shall be deemed issued by the current director so they may be used rather than discarded to save the substantial expense of replacement.

Agency Personnel Responsible for Drafting, Implementing and Enforcement: In addition to the Director of the Department of Licensing, the following personnel have knowledge of and have responsibility for drafting, implementing and enforcing this rule:

Cheryl Lux Duryea Assistant Director	Sixth Floor Highways-Licenses Bldg. Olympia, WA 98504	234-1369 SCAN 753-1369 COMM
Merle Steffenson Assistant Director	Second Floor Highways-Licenses Bldg. Olympia, WA 98504	234-6914 SCAN 753-6914 COMM

Person or Organization Proposing Rule, and Whether Public, Private or Governmental: This rule is proposed by the Department of Licensing, a governmental agency.
Agency Comments and Recommendations: None.

Whether the Rule is Necessary as a Result of Federal Law or Federal or State Court Action: This rule is not made necessary as a result of federal law or federal or state court action.

NEW SECTION

WAC 308-04-001 APPOINTMENT OF DIRECTOR - AGENCY DOCUMENTS. John Gonzalez was appointed Director of the Department of Licensing on January 14, 1981. All documents issued after that date in the name of the director in the disposition and performance of the official business of the Department of Licensing shall be considered to have been issued by him or at his direction whether his name, or the name of the former director, appears on the document.

This rule is adopted to ratify the use of thousands of forms now in the department's inventory which have been preprinted with the name of the former director's name, the replacement of which would result in the unnecessary expenditure of state funds.

STATEMENT OF PURPOSE

Title, Description of Purpose and Statutory Authority for Rules:

Title:

New WAC 230-02-418 Bingo game manager defined.

New WAC 230-04-145 Licensing of managers of bingo games.

New WAC 230-04-147 Notification to the commission upon beginning, terminating or changing employment.

Amend WAC 230-04-200 License fees.

Amend WAC 230-30-015 Identification stamps.

Description of Purpose:

1. New Section, WAC 230-02-418. The purpose of this new rule is to define the term "bingo game manager" for the purposes of a licensing requirement imposed by a separate rule, the purpose of which is discussed in number 2 below. The proposal sets out those functions determined by the Commission to fall within the term bingo game manager.

2. New Section, WAC 23-04-145. The purpose of this new rule is to require licensure by the Gambling Commission in order to act as a manager of a bingo game. Alternatives set out in the proposed draft of the new section would limit the license requirement to managers who receive some type of compensation from the operator of the bingo game and might exempt from the application of the rule bingo managers in class A and B license bingo games, i.e., very small bingo games. Currently, persons may act as managers of bingo games without being licensed. This has led to a circumstance where bingo operator may commit violations of the gambling act or cause violations of the Commission's rules with no effective action respecting that manager available to the Commission. In such a circumstance, the Commission currently may take action only against the licensed operator while the bingo manager may move on to another bingo game to potentially repeat such violations. The proposed rule requiring licensure would prevent anyone from operating as a bingo manager without a license from the Commission and permit the Commission then to foreclose people from those positions who cause violations of the gambling statute, chapter 9.46 RCW, or the Commission's rules.

3. New Section, WAC 230-04-147. The purpose of this rule is to require that a licensed bingo operator notify the Commission when a bingo game manager begins work for the bingo game or leaves the employ of the bingo game so that the Commission is better able to keep track of its

licensees. An alternate form of the rule would make it apply only to bingo game managers who receive some form of compensation. The alternate would be included if the licensing requirement for bingo managers discussed in 2 above is limited to persons receiving some form of compensation. Another alternate would except application of the rule from bingo games with a Class A or B license.

4. Amendment to WAC 230-04-200. The purpose of this amendment is establish a license fee for a bingo game manager's license. The amount of the fee is left blank in the draft and the Commission will determine precisely what the fee will be after hearing. It is not expected the fee would exceed \$300.

5. Amendment to WAC 230-30-015. This amendment simply increases the charge for identification stamps from the current five cents to twenty-five cents. The cost of the Commission obtaining and distributing such stamps has risen substantially since the five cent fee was established several years ago.

Summary of Proposed Rules and Reasons Supporting Action.

Summary of Rules:

1. New section, WAC 230-02-418. This new rule defines the term bingo game manager for the purposes of determining the scope of a licensing requirement imposed by new section WAC 230-04-145 discussed below. The rule lists several functions commonly engaged in by bingo game managers and provides that a person performing any of those functions falls within the definition. The rule excludes persons who serve in a ministerial capacity and have no discretionary authority whatsoever unless that person has been expressly designated as a bingo game manager by the organization conducting the bingo game. It also provides that a bingo game may well employ more than one person whose functions constitute those of a bingo game manager under the definition.

2. New section, WAC 230-04-145. This section requires that a person obtain a license from the Gambling Commission before he acts as a manager of a bingo game conducted by a licensed bingo game operator. It further provides that no person shall permit or employ any unlicensed person to perform the duties or functions of a bingo

game manager. Finally, it provides that the president of the bingo licensee or the equivalent officer operating the bingo game in connection with which a license applicant for a bingo game manager license will work must sign the original application for such bingo manager's license acknowledging that the applicant would be working for that bingo licensee with that bingo licensee's knowledge and consent.

3. New section, WAC 230-04-147. This rule requires licensed bingo game operators to notify the Commission in writing when any bingo game manager employed by them begins work or terminates work for that licensee. The notification is required to include the name, sex and birthdate of the employee, the date the employee began to work for the bingo game operator, and an acknowledgement that he or she has done so with the operator's knowledge and consent or if applicable, the date employment has terminated. The report must be made immediately and reach the Commission within ten days. Operators of Class A or B licensed bingo games are excepted from application of the rule. Notices will be required only for bingo game managers who receive some form of compensation if the licensing requirement discussed in 2 above applies only to bingo game managers receiving some compensation.

4. Amendatory Section, WAC 230-04-200. This amendment simply establishes a license fee for the bingo manager's license required by rules discussed in 2 above. The precise fee will be established by the Commission after a hearing on this matter. It is currently expected by staff the fee will not exceed \$300.

5. Amendatory Section, WAC 230-30-015. This rule simply raises the fee for identification stamps obtained from the Commission to affix to punchboards and pull tabs and pull tab dispensing devices from the current five cents to twenty-five cents.

Reasons Supporting Action:

1. New section, WAC 230-02-418. See statement in general description of the rule above.

2. New section, WAC 230-04-145. See statement in general description of the rule above.

3. New section, WAC 230-04-147. Experience has taught the Commission that it needs a method of keeping track of its employee licensees as they move from employer to employer wherein such movement does not require relicensure. Not only does this aid the Commission in processing its routine work respecting the licensee, it provides a valuable aid to its enforcement division both

in anticipating problems and in investigating them.

4. Amendatory section, WAC 230-04-200. See statement in general description of the rule above.

5. Amendatory section, WAC 230-30-015. The Commission instituted its identification stamp program in 1974. Its cost to procure and distribute the identification stamps has risen substantially since then and now approximates the twenty-five cents to which the fee will be raised.
