STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) Proposed rules are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) Adopted rules have been permanently adopted and are set forth in ten point type.
- (c) Emergency rules have been adopted on an emergency basis and are set forth in ten point oblique type.

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections -
 - (i) <u>underlined matter</u> is new matter;
 - (ii) deleted matter is ((lined-out-and-bracketed-between double-parentheses));
- (b) Complete new sections are prefaced by the heading NEW SECTION:
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

Secretary

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.025. Amending chapter 248-54 WAC.

The Purpose of this Rule Change: To revise the regulations of the state Board of Health regarding public water systems.

This Rule Change is Necessary: To incorporate new federal requirements and reorganization of current regulations.

Statutory Authority: RCW 43.20.050.

Summary of the Rule Change: To revise the regulations to incorporate new federal requirements regarding trihalomethane and corrosivity monitoring and to organize existing regulations in a more understandable format.

Person Responsible for Drafting, Implementation and Enforcement of the Rule: John Littler, Program Manager, Water Supply and Waste Section, Mailstop: LD-11, Olympia, Washington 98504, phone: 753-9674.

The Organization Who Proposed These Rules: The Water Supply and Waste Section, Office of Environmental Health Programs, Division of Health, DSHS.

The rules are necessary as a result of federal law, 40 CFR 141 and 142.

These rule changes ensure that public water systems are designed, constructed, and operated in accordance with basic public health standards. The regulations contain basic requirements for minimizing the potential for disease transmission through a public drinking water supply. In general, requirements of these regulations along with associated costs are proportional to the size and complexity of the public water system. The smaller the system, the smaller the costs associated with meeting these regulations.

PART I. GENERAL

NEW SECTION

WAC 248-54-005 PURPOSE AND SCOPE. These state board of health regulations address the health aspects of public water supply in a manner designed to encourage sound design, construction, management, and operations practice. The department strives to gain compliance with these regulations by working cooperatively with water purveyors through a variety of programs, including technical assistance to resolve problems and administration of a comprehensive funding program through voter-approved bond issues.

The regulations set forth are adopted pursuant to the provision of chapter 43.20 RCW. These regulations are intended to conform with the intent of P.L. 93-523, the Federal Safe Drinking Water Act of 1974, to assure the supply of safe, high-quality drinking water in a reliable manner and in a quantity suitable for intended use. The water supply and waste section of the health services division, department of social and health services, has accepted primary responsibility for enforcing the provisions of this act in the state of Washington.

Other statutes relating to this chapter are: Chapters 43.20A, 70-

.05, 70.116, and 70.119 RCW.

(d) "Class 4" - A water system having three through nine permanent services or serving a transitory population of less than twenty-five people on any one day or any other public water system which is not a class 1, 2 or 3 system. When the class designation is based on transitory population, the suffix "T" will follow the 4, i.e., 4T, designating a class 4 transitory system.

NOTE: If the water system serves both permanent services and a transitory population, the system is classified according to the number of permanent services, and transitory population. The higher classification will be used (class 1 being the highest, class 4T the lowest).

(3) "Contaminant" - Any physical, chemical, biological, or radiological substance or matter when present in drinking water above an acceptable level may adversely affect the health of the consumer and/or the aesthetic qualities of the water consumed.

(4) "Cross-connection" - Any physical arrangement connecting a public water system, directly or indirectly, with anything other than another potable water system, capable of contaminating the public water system as a result of backflow.

(5) "Department" - The Washington state department of social and health services.

(6) "Disinfection" - Introduction of chlorine or other agent or process approved by the department, in sufficient concentration, followed by adequate contact time so as to kill or inactivate pathogenic and indicator organisms.

Hydraulic analysis includes consideration of all factors affecting system energy losses.
- (12) "Maximum contaminant level" The maximum permissible level of a contaminant in water delivered to the free-flowing outlet of the ultimate user of a public water system, except in the case of turbidity where the maximum permissible level is measured at the point of entry to the distribution system. Contaminants added to the water under circumstances controlled by the user, except those resulting from corrosion of piping and plumbing caused by water quality, are excluded from this definition.
- (13) "Maximum daily turbidity" The level determined by the average of the maximum hour over a twenty-four hour period when continuous monitoring is used or the average of two grab samples taken within one hour when daily monitoring has been approved by the department.

PART 3. DESIGN OF PUBLIC WATER SYSTEMS

NEW SECTION

WAC 248-54-105 APPROPRIATE STANDARDS. Good engineering practice, such as the current edition of Recommended Standards for Water Works, a Committee Report of the Great Lakes — Upper Mississippi River Board of State Sanitary Engineers, department guidelines — Sizing Criteria for Public Water Supplies, American public works association (APWA), American water works association (AWWA) standard specifications or other design criteria and standards acceptable to the department, shall be used in the design of all public water systems.

NEW SECTION

WAC 248-54-115 LOCATION. New public water systems or additions to existing systems which in the judgment of the department are within an area subject to significant risk from earthquakes, floods,

fires, or other disasters causing a breakdown to any portion of the public water system shall not be allowed.

NEW SECTION

WAC 248-54-125 SOURCE PROTECTION. Public drinking water shall be obtained from the highest quality source feasible. Existing and proposed sources of supply shall conform to the water quality standards established in WAC 248-54-175.

(1) For wells and springs, the water purveyor shall provide an area of sanitary control for a radius of one hundred feet (thirty meters) and two hundred feet (sixty meters) respectively; except the water purveyor shall control land of a greater or lesser size or of a different shape than is defined by a one hundred or two hundred foot radius where an engineering justification has been reviewed and accepted by the department. The engineering justification must address geological and hydrological data, well construction details, and other relevant factors indicating a control area of different size or shape is necessary to assure adequate sanitary control in the vicinity of the source.

Within the control area, no source of contamination may be constructed, stored, disposed of, or applied without the permission of the department and the purveyor. The control area must be owned by the water purveyor in fee simple, or he or she must have the right to exercise complete sanitary control of the land through other legal provisions.

A purveyor owning all or part of the control area in fee simple, or who has possession and control of the sanitary control area, even though the legal title is held by another, shall convey to the department a restriction on the use of the land in accordance with these rules, by appropriate legal document, such as a declaration of covenant. This document shall state no source of contamination may be constructed, stored, disposed of, or applied without the permission of the department and the purveyor, and if any change in ownership of the system or sanitary control area is considered, all affected parties shall be informed of these requirements.

Where portions of the control area are in the possession and control of another, the purveyor must obtain a duly recorded restrictive covenant which shall run with the land, restricting the use of said land in accordance with these rules, which shall be recorded in the county wherein the land is located.

- (2) Adequate watershed control, consistent with treatment provided, shall be demonstrated and documented for all surface water sources pursuant to WAC 248-54-225. A department guideline regarding watershed control is available to assist utilities in this regard.
- (3) In situations where regional ground water resources are being utilized, collaborative actions may be taken by appropriate local, state, or federal agencies when necessary to protect underground sources of drinking water. These may include, but not be limited to: Sole source aquifer designation; special design criteria; or ground water resource management.

NEW SECTION

WAC 248-54-135 DISTRIBUTION SYSTEMS. (1) All new distribution reservoirs shall have suitable watertight roofs or covers excluding birds, animals, insects, and dust, and shall include appropriate provisions to safeguard against trespass, vandalism, and sabotage. Existing uncovered distribution reservoirs shall comply with the provisions of WAC 248-54-245.

(2) Distribution systems shall be evaluated by use of a hydraulic analysis acceptable to the department.

(3) In general, the minimum diameter of all distribution mains should be six inches (150 mm). Systems designed to provide fire flows shall have a minimum distribution main size of six inches (150 mm). Installation of standard fire hydrants shall not be allowed on mains less than six inches (150 mm) in diameter. Distribution lines smaller than two inches (50 mm) in diameter are not acceptable, except for class 4 systems, when justified by hydraulic analysis.

(4) New public water systems or additions to existing systems shall provide a design quantity of water at a positive pressure of at least 30 psi (200 kPa) under maximum instantaneous demand flow conditions measured at the water meter or at the property line of the premises when meters are not used. When a system is being designed to provide fire flows, a positive pressure shall be maintained throughout the system under fire flow conditions at the water meter or at the property line.

(5) If individual booster pumps are used to maintain adequate pressure in a customer's system, the installation shall be made under the

supervision of the purveyor to assure minimum pressure requirements in the purveyor's system are maintained at all times. Low pressure cutoff switches may be required on the suction side of the pump.

NEW SECTION

WAC 248-54-145 DISINFECTION OF FACILITIES. No portion of a public water system containing potable water shall be put into service, nor may the use of any facility be resumed after being out of service, until the facility has been effectively disinfected. The procedure used for disinfection shall conform to the American water works association standards or other standards acceptable to the department. In cases of new construction, drinking water shall not be furnished for the use of the consumer until bacteriological samples have been analyzed by a laboratory having a current certificate of approval from the department and satisfactory results obtained.

NEW SECTION

WAC 248-54-155 TREATMENT DESIGN. (1) Finished water quality from existing and proposed sources of supply shall conform to the minimum water quality standards established in WAC 248-54-175.

(2) Predesign studies shall be required for proposed surface water supplies and those ground water supplies requiring treatment. The goal of the predesign study shall be to establish the most acceptable method to produce satisfactory finished water quality.

(3) The minimum level of treatment for all ground water supplies shall be continuous and effective disinfection. The requirement for disinfection may be waived for public water systems with:

(a) Well sources with a satisfactory bacteriological history drawing from a protected ground water aquifer as determined by the department, or

(b) Spring sources with a satisfactory bacteriological history provided sufficient evidence is submitted to the department demonstrating to the satisfaction of the department the spring originates in a stratum not subject to contamination.

(4) The minimum treatment for surface water supplies shall be coagulation, flocculation, filtration, and disinfection. In certain cases with cost analysis and adequate engineering justification, alternative treatment designs followed by disinfection may be acceptable to the department. Disinfection as the sole means of treatment for existing surface water supplies may be acceptable to the department provided the purveyor can demonstrate to the satisfaction of the department adequate watershed control pursuant to WAC 248-54-225, raw and finished water quality, and water system design and operation.

(5) Disinfection methods, other than chlorine, i.e., ozonation, ultraviolet radiation, iodination may be approved by the department under special circumstances with appropriate engineering justification.

PART 4. WATER QUALITY

NEW SECTION

WAC 248-54-165 MONITORING REQUIREMENTS. (1) General.

(a) The purveyor shall be responsible for satisfying the requirements of this section. The monitoring requirements in this section are minimums. Additional monitoring may be required by the department.

(b) Samples required in this section shall be collected, transported, and analyzed according to methods approved by the department. The analyses shall be done only by the state public health laboratory or by any other laboratory having a current certificate of approval from the state office of laboratories and epidemiology for the analyses to be performed, except turbidity, free chlorine residual, and fluoride as required by this section may be tested by qualified water utility operators or health department personnel.

(c) When one public water system receives water from another public water system, the receiving system is required to take bacteriological samples as noted in Table 1.

The department may reduce the monitoring requirement of the receiving system provided the receiving system has had a good water quality history, is operated in a satisfactory manner, and the supplying system includes the receiving system in a regular monitoring schedule, and includes the number of services and population in the total.

Periodic reviews of the system's sampling record will be made to determine if continued reduction is appropriate.

- (d) Special purpose samples, such as check samples or samples taken to determine if disinfection following pipe repair has been sufficient, shall not count toward fulfillment of these monitoring requirements.
- (e) All monitoring requirements in subsections (2) through (9) of this section apply equally to systems serving permanent or transitory populations unless otherwise stated.
 - (2) Bacteriological.
- (a) Drinking water samples shall be collected for bacteriological analysis from representative points in the distribution system at regular time intervals.
- (b) The frequency for monitoring drinking water shall be determined according to the following:
- (i) For systems whose class is determined by the number of permanent connections served, the minimum number of routine samples to be analyzed is shown on Table 1.
- (ii) For systems whose class is determined by the transitory population served, the minimum number of routine samples to be analyzed is shown on Table 2.
- (iii) For systems having both permanent connections and transitory population, the minimum number of routine samples to be analyzed

may vary from month to month. The number of samples required each month will be the higher number of samples from Table 1 and Table 2.

- (c) When disinfection is practiced, the purveyor shall collect untreated (raw) water samples from each source for bacteriological analysis of total coliform in addition to the number of treated samples required. The frequency of monitoring untreated water shall be determined according to the following:
- (i) For protected ground water sources, one sample every three months shall be analyzed.
- (ii) For unprotected ground water sources, the number of samples analyzed shall be twenty percent of the distribution samples required each month, and in no case less than one every three months.
- (iii) For surface sources with treatment including coagulation, filtration, and disinfection or other treatment practice, the number of samples analyzed shall be ten percent of the distribution samples required each month, and in no case less than one every three months.
- (iv) For surface sources without coagulation and filtration treatment, the number of samples analyzed shall be twenty percent of the distribution samples required each month, and in no case less than one every three months.

The minimum requirement for the initial complete analysis may be waived or reduced by the department if available information shows to the satisfaction of the department that the aquifer provides water of satisfactory quality.
- (iv) After the initial analysis, class 3 and 4 systems shall have analyzed from each source or well field one nitrate sample every thirty-six months.
- (d) When treatment is provided for one or more inorganic chemical or physical contaminants, samples shall be taken for the specific contaminant or contaminants before and after treatment. The frequency shall be determined by the department.
 - (4) Turbidity.
- (a) Class 1, 2, and 3 systems with surface water sources shall continuously monitor turbidity.
- (b) Automatic turbidity measuring and recording equipment shall be operated at the entry point to the distribution system and where needed for treatment process control. Manual monitoring of turbidity may be allowed by the department in special cases.
- (c) The monitoring requirements for class 4 systems shall be determined by the department.
- (d) Turbidimeters shall be properly operated, maintained, and calibrated at all times, based on the manufacturer's recommendations.
 - (5) Trihalomethanes.
- (a) Class 1 systems serving a population of 10,000 or more and using chlorine or other oxidants in the treatment process shall monitor for total trihalomethanes (TTHMs).

- (A) Four samples for each treatment plant every three months shall be collected. The samples shall be taken within a twenty-four hour period with twenty-five percent of the samples taken from the extreme end of the distribution system and seventy-five percent from locations representing the population distribution. The samples shall be analyzed for total trihalomethanes (TTHMs).

One sample shall be taken from each source (prior to treatment) and for each source, two additional samples shall be collected from free-flowing outlets at different locations within the distribution system reasonably judged to represent worst case locations for corrosion, to screen for corrosion effects. Samples from additional distribution system locations may be required in larger systems using several pipe materials.
- (ii) Systems with ground water sources shall take a series of samples once during a twelve-month period in the same manner as required for surface water sources.
- (b) The analysis shall be for the corrosion byproducts of cadmium, cooper, iron, lead, and zinc. In addition, alkalinity, pH, hardness, temperature, total dissolved solids (TDS), and the Langelier index value shall be determined.

- (a) Monitoring requirements for gross alpha particle activity, radium-226 and radium-228 are:
- (i) Class 1 and 2 systems shall monitor once every forty-eight months or as directed by the department. Compliance shall be based on the analysis of an annual composite of four consecutive quarterly samples or the average of the analyses of four samples obtained at quarterly intervals.
- (ii) Analysis for radium-226 and radium-228 may be omitted if the gross alpha particle activity is less than five pCi/L.
- (iii) If the results of the initial analysis are less than half of the established MCL, the department may allow compliance with the monitoring requirements to be based on analysis of a single sample collected every forty-eight months.
 - (b) Monitoring requirements for man-made radioactivity:
- (i) Class 1 systems using surface water sources and serving more than one hundred thousand persons and other water systems designated by the department shall monitor for man-made radioactivity every forty-eight months or as required by the department. WAC 248-54-175 MAXIMUM CONTAMINANT LEVELS. (1) The standards of water quality in this section shall apply throughout the entire water system to the free-flowing outlet of the ultimate user of a public water system, except in the case of turbidity where the maximum permissible level is measured at the point of entry to the distribution system.

The free-flowing outlet shall be considered any location in the active portion of the distribution system where water samples may be gathered representing the quality of water typically served to and ingested by the consumer.

If any parameter exceeds the maximum contaminant level, followup action as outlined in WAC 248-54-185 shall be taken.

(2) Bacteriological.

(a) If any coliform bacteria is present in any sample, follow-up action as outlined in WAC 248-54-185 shall be taken.

- (b) The maximum contaminant levels for coliform bacteria is as follows:
- (i) When the membrane filter test is used, the number of coliform bacteria shall not be greater than:
- (A) One per one hundred milliliters as the average of all samples tested each month;
- (B) Four per one hundred milliliters in two or more samples when less than twenty samples are tested each month; or
- (C) Four per one hundred milliliters in more than five percent of the samples when twenty or more samples are tested each month.
- (ii) When the five-tube MPN method is used, coliform bacteria shall not be present in:
 - (A) More than ten percent of the tubes tested each month;
- (B) Three or more tubes in two or more samples when less than twenty samples are tested each month; or

- (iii) The department may allow systems required to take less than four samples each month to base compliance with this section on the samples taken during the three-month period consisting of the month in question and the previous two months.
- (iv) Special purpose samples, such as those taken to determine if disinfection following pipe repair or replacement has been sufficient, or check samples shall not be used to determine compliance with the maximum contaminant level.
 - (3) Inorganic chemical and physical.

The maximum contaminant levels are as follows:

Sodium					
Turbidity	1.0	TU			

Note: Although there has not been a maximum contaminant level established for sodium, there is enough public health significance connected with sodium levels to require inclusion in inorganic chemical and physical monitoring. Information on sodium levels in drinking water should be provided to physicians needing these results to treat persons on sodium-restricted diets.

- (4) Turbidity.
- The maximum contaminant levels for turbidity are as follows:
- (a) One turbidity unit (TU), based on a monthly average of the maximum daily turbidity. The limit may be increased to five turbidity units if the purveyor can show the source is within a controlled watershed and meets all the requirements of WAC 248-54-125 and WAC 248-54-225.
- (b) Five turbidity units based on an average of the maximum daily turbidity for two consecutive days.
- (5) Trihalomethanes.
- The maximum contaminant level for total trihalomethanes (TTHMs) is 0.10 mg/L. The concentrations of each of the trihalomethane compounds [trichloromethane (chloroform), dibromochloromethane, bromo-dichloromethane, and tribromomethane (bromoform)] are added together to determine the TTHM level.
- (6) Corrosivity.

 If any corrosion byproduct parameter exceeds the maximum contaminant level or the increase in parameter levels between source and distribution sampling points is significant, follow-up action as outlined in WAC 248-54-185 shall be taken.

Radium-226	3 pCi/L
Combined Radium-226 and Radium-228	5 pCi/L
Gross alpha particle activity (excluding uranium)	15 pCi/L

(b) The maximum contaminant level for beta particle and photon radioactivity from man-made radionuclides is that the average annual concentration shall not produce an annual dose equivalent to the total body or any internal organ greater than four millirem/year.

Compliance with the four millirem/year dose limitation may be assumed if the average annual concentration for gross beta activity, tritium, and strontium-90 are less than 50 pCi/L, 20,000 pCi/L, and 8 pCi/L respectively.

(9) The maximum levels allowable for any additional parameters monitored shall be determined by the department.

NEW SECTION

- WAC 248-54-185 FOLLOW-UP ACTION. (1) General.
- (a) If water quality exceeds any maximum contaminant levels (MCL) listed in WAC 248-54-175, follow-up action as outlined in this section shall be taken.
- (b) When an MCL has been exceeded, the purveyor shall notify the public according to the procedures outlined in WAC 248-54-255.
- (c) When an MCL violation is confirmed, the purveyor shall determine the cause of the contamination. Corrective action shall be taken as required by the department.
 - (2) Bacteriological.
- (a) All additional samples required by this section shall be collected from the same location where the unsatisfactory sample was taken, except as specified by the department.
- (b) All additional samples shall be submitted for analyses as soon as possible after the unsatisfactory results are known.
- (c) When any coliform bacteria is present in any sample analyzed by the membrane filter method, the purveyor shall take action as follows:
- (i) When the sample result is less than two per one hundred milliliters, an additional drinking water sample shall be collected to verify the initial sample result.
- (ii) When the sample result is two through four per one hundred milliliters, the sample is unsatisfactory and an additional drinking water sample shall be taken to determine the cause of the contamination.
- (iii) When the sample result is greater than four per one hundred milliliters, the sample is unsatisfactory and nonconforming. The purveyor shall take action to determine and correct the cause of the contamination. Daily check samples shall continue to be collected until at least two consecutive daily check samples show less than one per one hundred milliliters coliform bacteria. When the presence of coliform bacteria in water has been confirmed by any daily check samples, the purveyor shall notify the department within forty—eight hours.
- (d) When any coliform bacteria is present in any sample analyzed by the five-tube MPN method, the purveyor shall take action as follows:
- (i) When the sample result is one tube positive, the sample is unsatisfactory and an additional drinking water sample shall be collected to verify the initial sample result.
- (ii) When the sample result is two tubes positive, the sample is unsatisfactory and an additional drinking water sample shall be taken to determine the cause of the contamination.
- (iii) When the sample result is three or more tubes positive, the sample is unsatisfactory and nonconforming. The purveyor shall take

action to determine and correct the cause of the contamination. Daily check samples shall continue to be collected until at least two consecutive daily check samples show no coliform bacteria is present. When the presence of coliform bacteria in water has been confirmed by any daily check samples, the purveyor shall notify the department within forty-eight hours.

- (e) Samples with unsuitable test results, i.e., confluent growth, TNTC (too numerous to count), excess debris, etc., will not be accepted as routine samples and will not count toward fulfillment of the monitoring requirement. The purveyor shall notify the department of these sample results within forty-eight hours. An additional drinking water sample shall then be submitted for analysis for each unsuitable result immediately upon notification of the unsuitable result. The additional sample shall be analyzed by the MPN testing method.
- (f) The location where the daily check samples were taken to fulfill the requirements of this section shall not be eliminated from future sampling without the department's approval.
 - (3) Inorganic chemical and physical.
- (a) When a primary or secondary chemical or physical parameter exceeds the MCL, the purveyor shall take action to determine and correct the cause of the contamination. The purveyor shall notify the department of the violation within forty-eight hours. When a primary MCL violation is confirmed, the purveyor shall notify the public according to the procedures outlined in WAC 248-54-255. When a secondary MCL violation is confirmed, the purveyor shall notify the department.
- (i) The method for confirming an MCL violation for all inorganic chemical and physical parameters except nitrate is as follows: When an initial analysis of any parameter exceeds the MCL, the purveyor shall take three additional samples for analysis of that parameter within one month of the initial sample and from the same sampling point.

If the average of the initial analysis and the three additional analyses exceeds the MCL, a violation has been confirmed. The purveyor shall report the confirmed violation to the department. When a primary MCL violation occurs, the purveyor shall notify the public according to the procedures outlined in WAC 248-54-255.

- (ii) The method for confirming an MCL violation for nitrate is as follows: When an initial analysis for nitrate exceeds the MCL, the purveyor shall immediately take one additional sample from the same sampling point. If the average of the two samples exceeds the MCL, a violation has been confirmed. The purveyor shall report the confirmed violation to the department and notify the public according to the procedures outlined in WAC 248-54-255.
- (b) Since an MCL for sodium has not yet been established, the purveyor shall make analytical results available to the public on request. (This will allow physicians and persons on sodium-restricted diets to obtain results as needed.)
 - (4) Turbidity.
- (a) When the turbidity exceeds the maximum allowable limit identified in WAC 248-54-175 for longer than one hour monitored continuously, the purveyor shall report to the department within forty-eight hours. When the results of a manual turbidity analysis exceeds the maximum allowable limit, another sample shall be collected within one hour. When the repeat sample confirms the maximum allowable limit has been exceeded, the purveyor shall notify the department within forty-eight hours. The purveyor shall also determine the cause of the contamination and take necessary corrective action as required.
- (b) When the MCL is exceeded, the purveyor shall notify the department and notify the public according to the procedures outlined in WAC 248-54-255.
 - (5) Trihalomethanes.
- When the average of all samples taken during any twelve-month period exceeds the MCL for total trihalomethanes, the purveyor shall notify the department and the public according to the procedures outlined in WAC 248-54-255. The purveyor shall also take corrective action as required by the department. Monitoring after public notification in addition to the minimum sampling required in WAC 248-54-165 shall be as required by the department.
 - (6) Corrosivity.
- (a) When an MCL is exceeded, the purveyor shall notify the department and complete an evaluation of the situation and establish a correction program acceptable to the department. If daily check sampling confirms an MCL violation, the purveyor shall also notify the public according to the procedures outlined in WAC 248-54-255.

- (b) When a comparison of the byproduct parameter level shows substantial increases from source to distribution system and the primary parameter MCL has not been exceeded, the purveyor shall take action as directed by the department.
 - (7) Pesticides.

When any organic chemical contaminant exceeds the MCL or maximum allowable level, the purveyor shall notify the department within forty-eight hours. The purveyor shall determine the cause of the contamination and take necessary corrective actions as required. Public notification may be required by the department.

- (8) Radionuclides.

The purveyor shall determine the cause of the contamination and take corrective action as required by the department. Additional monitoring shall be as required by the department.
- (b) When the average annual MCL for man-made radioactivity is exceeded, the purveyor shall notify the department and notify the public according to the procedures outlined in WAC 248-54-255. The purveyor shall determine the cause of the contamination and take corrective action as required by the department. Additional monitoring shall be as required by the department.
- (9) Follow-up action shall be determined by the department when the maximum allowable level for any additional parameter is exceeded.

- (a) A public water system has water quality and/or reliability problems associated with improper operations.
- (b) Required by a water system plan pursuant to WAC 248-54-065.
- (c) An existing water system is without approved plans and specifications.
- (2) The department shall assist the purveyor in establishing the level of detail and content of the operations program. Content and detail shall be consistent with the size, complexity, past performance, and use of the public water system. General content topics shall include: Personnel responsibility and authority, system operation and control, system preventive maintenance, water quality monitoring, emergency response, watershed control, and cross-connection control.

NEW SECTION

WAC 248-54-205 CONTINUITY OF SERVICE. (1) A public water system facility shall be designed to provide an adequate quantity and quality of water in a reliable manner at all times. The system shall be constructed, operated, and maintained to protect against failures of the power supply, treatment process, equipment, or structural failure, with appropriate backup facilities. Security measures shall be employed to assure the water source, water treatment process, water storage facilities, and the distribution system are under the strict control of the purveyor.

- (2) Where applicable, fire flow as established in WAC 248-57-500 shall be maintained.
- (3) A public water system shall have an emergency response plan as part of the operations program as required in WAC 248-54-195. The emergency response plan shall include:
- (a) General procedures for routine or major emergencies within the water system, and
- (b) A vulnerability analysis and a contingency plan for facilities becoming inoperable in a major emergency.

The emergency plan shall be reviewed and updated as necessary (at least each time the water system plan is updated) to assure adequate emergency response. The emergency plan shall be maintained in such a manner as to be readily usable by personnel of the public water system responsible for responding to emergencies.

(4) The department and customers shall be notified immediately when a breakdown or failure of public health significance occurs in the water treatment process, when an emergency arises causing or threatens to cause, a loss in water service for more than twenty-four hours,

or when any other situation occurs where the water quality may be degraded and public health may be threatened.

(5) No intake or other connection shall be maintained between a public water system and a source of water not approved by the department, unless an emergency connection has been approved by the department. Utilization of such emergency sources shall be in accordance with precautions specified by the department.

(6) No purveyor shall transfer ownership without providing written notice to the department and all customers at least one year prior to the transfer, unless new ownership agrees to an earlier date. Notification shall include a time schedule for transferring responsibilities, identification of the new owner, and under what authority the new ownership will operate.

(7) It will be the responsibility of the utility transferring ownership to ensure all health-related standards pursuant to chapter 248-54 WAC are met during transfer of the utility. It is also the responsibility of the utility transferring ownership to inform and train the new ownership regarding operation of the utility.

(8) No purveyor shall end utility operations without providing written notice to all customers and the department at least one year prior

to termination of service.

A minimum contact time of thirty minutes with a 0.2 mg/L free chlorine residual or ten minutes with a 0.6 mg/L free chlorine residual shall be provided ahead of the first point of domestic use at peak flow conditions, except as otherwise approved by the department. Longer contact times, higher chlorine residuals, or additional treatment may be required for sources more susceptible to contamination, such as shallow wells and infiltration galleries, and for sources with quality factors, such as pH and turbidity interfering with disinfection efficiency.
- (4) All water purveyors practicing chlorination shall monitor chlorine residual at a representative number of points in the system on at least a daily basis. The analysis shall be conducted in accordance with Standard Methods for the Examination of Water and Waste Water. Reports shall be sent to the department on forms provided by the department within ten days of the end of the reporting month. In order to assure adequate monitoring of chlorine residual, the department may require the use of continuous chlorine residual analyzers and recorders.

WAC 248-54-285 CROSS-CONNECTION CONTROL. (1) Administration.

- (a) A cross-connection control program is required as part of the operations program outlined in WAC 248-54-195.
- (b) The purpose of a cross-connection control program is to protect the health of water consumers by:
- (i) The inspection and regulation of plumbing in existing and proposed piping networks; and
- (ii) The proper installation and surveillance of backflow prevention devices when actual or potential cross-connections exist and cannot be eliminated.
- (c) It shall be the primary responsibility of the water purveyor to work cooperatively with local authorities to eliminate or control potential cross-connections.
- (d) The water purveyor shall develop and document enforcement authority and operating policies in a manner acceptable to the department. The current edition of The Accepted Procedure and Practice in Cross-Connection Control Manual - Pacific Northwest Section American Waterworks Association, shall be used as a resource to establish minimum cross-connection control operating policies. Water purveyors and local authorities shall have the option of establishing more stringent requirements.
- (e) If an immediate hazard to health is caused by a cross-connection, then the water purveyor shall discontinue water service to the premises impacted by the cross-connection, until it is verified the cross-connection has been eliminated or controlled.

(3) Backflow device installation and testing.

- (a) If a cross-connection cannot be eliminated, then a backflow device shall be required:
- (i) An air-gap separation or reduced pressure principle device shall be installed if the cross-connection creates an actual or potential health or system hazard.
- (ii) An air-gap separation, reduced pressure principle backflow prevention device or double-check valve assembly shall be installed if the cross-connection is objectionable, but not hazardous to health.

Pursuant to the authority of RCW 43.20.050 (Powers and Duties of State Board of Health), these regulations are hereby established as minimum requirements of the state board of health((;)) governing on-site sewage ((disposal)) systems ((for individual homes and any other source of sewage)).

AMENDATORY SECTION (Amending Order 101, filed 6/10/74)

WAC 248-96-011 PURPOSE AND OBJECTIVES. (1) The purpose of these regulations is to assure protection of public health by minimizing:

(a) Public health effects of on-site sewage systems on surface and ground waters, and

(b) Potential for public exposure to sewage.

(2) These regulations provide for a uniform framework through which local boards of health ((will)) may establish a system of local regulations. Such local regulations ((will integrate)) shall reflect local conditions and be consistent with ((uniform state standards)) the intent of these regulations. These regulations are intended to accomplish the following objectives:

(((++))) (a) Establish design, ((standards)) installation, and management requirements for on-site sewage systems to accommodate long-term treatment and disposal of sewage ((using on-site methods for rural areas)).

(((2) Establish design and management system criteria to permit on-site methods of sewage disposal for subdivisions and suburban areas where significant population growth is occurring or likely to occur.

(3))) (b) Establish minimum functional regulations ((and guidelines)) for local boards of health ((jurisdictions)) choosing not to adopt local regulations.

AMENDATORY SECTION (Amending Order 101, filed 6/10/74)

WAC 248-96-018 ADMINISTRATION. The health officer and local board of health shall administer these regulations under the authority and requirements of chapters 70.05, 70.46 and 43.20 RCW. As provided in RCW 70.05.060(7), ((he may charge)) fees may be charged for this administration.

NEW SECTION

WAC 248-96-025 LOCAL REGULATION. (1) Local boards of health may adopt local rules and regulations governing on-site sewage systems. Local rules, regulations, and guidelines shall be consistent with, and at least as stringent as, the state board of health regulations. Local rules and regulations and any subsequent revisions shall be approved by the department in accordance with the procedure outlined in subsections (2) through (7) of this section.

Beginning June, 1984, the health officer shall begin to enforce these regulations, unless local rules and regulations have been approved by the department and adopted locally. This shall not preclude the adoption of rules and regulations by local boards of health after June, 1984.

(2) Local boards of health shall submit to the department for review

and approval a copy of proposed local regulations.

(3) Upon reviewing the local regulations, the department shall consider all factors relevant to the administration of the local health department's program.

(4) The department shall have ninety days from the date of receipt of the local regulations to either approve or disapprove the proposal. Failure of the department to approve or disapprove within the ninety-day period results in the approval of the local regulation.

(5) Locally proposed or adopted regulations or revisions will become effective after the regulations or revisions have received approval from the department or ninety days after receipt by the department, whichever comes first. The local health department shall provide to the department a copy of the adopted local regulations.

(6) If the department determines that the local regulations are not consistent with the purpose and objectives of the state board of health regulations, the department shall provide in writing to the local board of health, the specific reasons for not approving the local regulations. Decisions may be appealed to the state board of health within one hundred twenty days after the disapproval has been received by the local board of health. Resubmission of revised local regulations may occur any time after disapproval has been received.

(7) Local rules and regulations shall include special requirements for areas within their jurisdiction identified as having type I soils. The requirements within these regulations shall be commensurate with the degree of protection deemed necessary for the underground source of drinking water by the health officer and the department. The minimum requirement shall be as noted in WAC 248-96-090 (Minimum Land Area Requirement).

(8) Nothing in these regulations shall prohibit the adoption and enforcement of more stringent regulations by local health departments where such regulations are needed to protect the public health.

AMENDATORY SECTION (Amending Order 196, filed 3/20/80)

WAC 248-96-040 APPLICABILITY. (1) These regulations shall ((not)) apply ((to new construction for which a permit was issued prior to the effective date of the regulations or to existing systems where extensions or alterations are undertaken as a result of failure of the system or portions thereof, or pursuant to an order of the health officer)) to all on-site sewage systems except the following:

portions of the new regulations are less stringent.

- (((2))) (b) ((Lots, parcels or tracts that have received written approval by the health officer prior to the effective date of these regulations shall be subject to only the design section of these regulations (WAC 248-96-110) and any additional standards prescribed by the health officer. Provisions of this subsection shall also include extensions of existing systems to handle increase in flows from dwelling unit expansion)) An extension, alteration, or replacement necessitated by the failure of an existing on-site sewage system. These regulations shall be applied to the maximum extent permitted by the site. A permit shall be required as per WAC 248-96-080 (Permit).

Representatives may be selected from local health departments; consumer organizations; engineering firms; the department of ecology; a public sewer utility; land sales, subdivision and building industries; and other interested organizations. The functions of the committee are to review and evaluate alternative systems and establish guidelines for use. Such guidelines may include national standards including, but not limited to, guidelines of the national sanitation foundation.

(3) Once guidelines for an alternative system have been established by the technical review committee, that system can be permitted for use. However, before a proprietary device or method can be permitted, certification in a manner prescribed by the department must be provided to the department that all criteria in the appropriate guidelines

have been satisfied.

(4) The health officer shall require monitoring of the performance of any alternative system installed for which guidelines have been developed. The frequency and duration of monitoring shall be in accordance with guidelines developed by the technical review committee. Costs for monitoring and/or reporting may be included as an addition to the permit fee. Procedures for monitoring and reporting shall be developed by the technical review committee. Copies of any records of such performance evaluation shall be submitted to the department.

Prior to the installation of such a system, an experimental system permit shall be obtained from the local health officer. Costs for monitoring and reporting may be included as part of the experimental system permit fee.

(2) The use of an experimental system may be considered when:

- (a) The experimental system proposed is attempting to correct a failing system and other conventional or alternative systems are not feasible.
- (b) The experimental system proposed is for new construction where it has been determined that an on-site sewage system meeting the requirements of these rules and regulations could be installed in the event of failure of the experiment. A recorded agreement shall exist stating that, in the event of unsatisfactory performance or a failure to adequately monitor the system and submit the records to the health officer, the health officer may direct that use of the experimental system be discontinued and a new system meeting the requirements of these regulations be installed.
- (3) General guidelines for the use of experimental systems shall be developed by the technical review committee.
- (4) The health officer shall require monitoring of the performance of experimental systems in a manner and with a frequency as established by the technical review committee guideline.

AMENDATORY SECTION (Amending Order 101, filed 6/10/74)

WAC 248-96-050 NO SURFACE DISCHARGE ((TO WATERS OR GROUND SURFACE)). (((t) Effluent)) Sewage from any on-site sewage ((disposal)) system, excluding septic tank waste as per WAC 248-96-170 (Disposal of Septic Tank Waste), shall not be discharged to surface water or upon the surface of the ground.

(((2) Subsurface on-site sewage disposal systems shall not be permitted in areas where a minimum separation of three feet between the bottom of the disposal field and the maximum seasonal ground water elevation or impermeable layer cannot be maintained. The health officer shall require such greater vertical separation as needed to protect health when the aquifer is used for a potable water supply. The health officer may reduce the vertical separation provided the local health department has in effect an adequate designer program as described in WAC 248-96-130. However, in no case shall the separation be less than one foot.

(3) Subsurface on-site sewage disposal systems shall not be permitted in areas of fractured rock or excessively permeable material where it is likely that action of the soil profile will be ineffective in retaining and removing substances having an adverse effect on ground waters.))

AMENDATORY SECTION (Amending Order 101, filed 6/10/74)

WAC 248-96-060 CONNECTION TO PUBLIC SEWER SYS-TEM. (1) Connection of any existing dwelling unit or other premises ((where sewage originates)) with a failing on-site sewage system shall be made to a public sewer system where there is an adequate public sewer within ((200)) two hundred feet of the dwelling or other facility to be served as measured along the usual or most feasible route of access, and such connection is permitted by the sewer utility((-Such connection shall be made and use of the on-site sewage disposal system discontinued when repair or replacement of the on-site sewage disposal system is required or as directed by local ordinance; whichever is sooner, but in any case shall be accomplished within two years after public sewer service becomes available)). This requirement may be waived if the health officer determines that ((such connection is not feasible)) adequate site conditions exist which allow the installation of a replacement on-site sewage system.

(2) ((If the distance between the facility to be served and an adequate public sewer is greater than 200 feet, and where the anticipated sewage flow is greater than 1,000 gallons per day, connection shall be made thereto if the health officer determines that a connection is feasible and such connection is permitted by the sewer utility)) Local regulations may provide requirements for connections of new construc-

tion to public sewer systems.

* Lot sizes for soil type 1 can be reduced by the health officer if engineering justification can be provided that shows significant adverse effects on ground water quality will not occur; however, in no case shall the reduced size be less than that for soil type 2.

The requirements for percolation tests may be waived by the health officer if existing soils information, such as soil logs, soil maps and Soil Conservation Service data, is sufficient to accurately classify soils.))

Soil types are defined in WAC 248-96-094 (Determination of site characteristics).

(b) METHOD (((2))) II. requirement

(i) On-site sewage ((disposal)) systems shall be installed on lots, parcels, or tracts that have a sufficient amount of area with proper soils in which sewage can be retained and treated properly on-site. ((If engineering)) Justification ((can be provided that a lot or lots have a)) demonstrating the development has sufficient ((amount of)) area with proper soils to adequately retain and treat sewage on-site((, taking into consideration those factors outlined in subsection (2), then minimum lot size will be established by the health officer on the basis of the information submitted)) shall be provided in a report. The report shall fully support the conclusions reached by the proper analysis of all needed data. All such data shall be contained or referenced. This justification shall be sufficient to enable the health officer to establish minimum gross land area requirements. The minimum gross land area

requirement for each unit volume of sewage or for each single family residence shall be twelve thousand five hundred square feet. Application of this will result in a maximum single family density of 3.5 units per acre or a maximum flow density of one thousand five hundred seventy gallons per acre per day. Factors that must be considered ((when determining minimum lot size)) in the report shall include but ((are)) not be limited to the following:

 $((\overline{(a)}))$ (A) Soil type and depth.

(((b))) (B) Area drainage, development and/or lot drainage.

(((c))) (C) ((Protection of surface and groundwaters)) Public health impact on ground and surface water quality.

(((d))) (D) Setbacks from property lines, water supplies, etc.

(((c))) (E) Source of domestic water.

(((f))) (F) Topography, geology, and ground cover.

- $((\frac{g}{g}))$ (G) Climatic conditions.
- (((h))) (H) Availability of public sewers.
- (((i))) (1) Activity or land use, present, and anticipated.
- (((i))) (J) Growth patterns.
- (((k) Individual and accumulated gross effects on water quality.
- (+))) (K) Reserve areas for additional subsurface disposal.
- (((m))) (L) Anticipated sewage volume.
- ((METHOD (3) If the lot or lots are within the jurisdiction of an approved sewer utility which will provide maintenance and operation responsibility and replacement of systems as necessary, then minimum lot sizes shall be established jointly between the sewer utility, the local health, planning, established county public works departments, and other applicable local agencies.))
 - (M) Compliance with zoning and other requirements.
 - (N) Possible use of alternative systems or designs.
 - (O) Other justification submitted by the developer
- (ii) If the report required in section (1)(b)(i) of this subsection identifies type 1 soils, the health officer may allow a reduction below the requirements noted in Table 1. The department shall develop guidelines to be applied when such reductions are considered. Until guidelines have been developed, the health officer may permit such reductions only when an alternative system will be used. The alternative system shall provide a degree of treatment to the sewage, before the sewage enters the original, undisturbed soil, equal to or greater than the treatment provided by a mound or sand filter. Mounds and sand filters are defined and the design criteria specified in the appropriate technical review committee guidelines. In no case shall the resulting gross land area per unit volume or single family residence be less than one-half acre.
- (2) The health officer may reduce land area requirements in this section if the proposed on-site sewage systems are to be located within the boundaries of a recognized sewer utility and where the assessment roll has been finalized.
- (3) Single family residences proposed for lots in subdivisions recorded prior to June, 1984, shall be excluded from the requirements of this section.

NEW SECTION

WAC 248-96-094 DETERMINATION OF SITE CHARAC-TERISTICS. (1) Site characteristics shall be determined in accordance with chapter 3 and Appendix A of Design Manual: On-site Wastewater Treatment and Disposal Systems, United States Environmental Protection Agency, Report No. EPA-625/1-80-012, October, 1980, except where modified or in conflict with these regulations.

(2) The textural classification of a soil shall be determined by using normal laboratory and/or field procedures such as particle size analyses and percolation tests. Following are the specific soil textural classifications and soil type designations. (The soil textures in Table 7-2 of the design manual referenced in subsection (1) of this section are amended as follows:

Soil Type	Soil Textural Classifications

5	Porous, well-developed structure
	in silt and silt loams
6	Other silt loams, silty clay loams,
	and clay loams.

According to the United States department of agriculture, soil conservation service's soil classification system.

- (3) All site evaluations shall be performed by or under the direct supervision of the health officer, a registered sanitarian, professional engineer, registered soil scientist (American registry of certified professionals in agronomy, crops and soils), or certified designer having knowledge and experience in the areas of soil and wastewater treatment and disposal.

Additional ((tests)) soil logs may be required where the soil ((structure varies)) characteristics vary ((or if large disposal areas are required)).

(3) ((All percolation tests and soil logs shall be performed by or under the direct supervision of a registered sanitarian, professional engi neer or approved designer, except as specified in WAC 248-96-130)) Individuals performing subdivision and individual site reviews shall meet the requirements and use the procedures specified in WAC 248-96-094.

(((4) If a sufficient amount of information is not available on water table conditions, the health officer can require that percolation tests and soil logs be conducted during the months of suspected high water table conditions:

(5) All soil tests shall be conducted using a uniform procedure developed by the secretary and the local health officers. Such procedures shall be developed within six months after the effective date of these regulations.))

lower elevation than, the SSAS. (b) A restrictive covenant against further subdivision of the property

into parcels or lots less than 1/128th of a section shall be recorded on the building site, and remain in effect until connection to public sewer is made or some approved alternative is installed which the health officer determines will permit development of smaller parcels.

(3) On-site sewage systems installed under the provisions of this section shall meet the purpose and objectives of these regulations to the

maximum extent possible.

Includes other soils and/or conditions where the treatment potential is ineffective in retaining and/or removing substances of public health significance in underground sources of drinking water.

STATEMENT OF PURPOSE

Title: Financial obligation of students—Policy—Student accounts collection policy.

Summary: The purpose of this revision of policy is to change the time at which a student accounts receivable becomes delinquent and a hold is placed on the account to deny services from 90 days to 60 days. Further, the change includes moving the time at which a delinquent account is turned over to an outside collection agency from 120 days to 75 days. These changes will improve our ability to collect on delinquent accounts receivable.

Staff: David Judd, Supervisor of Student Accounts, and Karen Wynkoop, Controller.

Organization: The Evergreen State College. Necessity: No legislative or legal requirement.

AMENDATORY SECTION (Amending Order 80-3, Resolution 80-43, filed 11/26/80)

WAC 174-162-300 COLLECTION AND APPEAL. As an institution of public higher education administering public funds, the college has the responsibility to exercise due diligence in the collection of its outstanding accounts. To this end, the following policy is adopted:

- (1) When students register, tuition and fee obligations are incurred unless the students officially withdraw by the fifth day of the quarter. Tuition and fees are payable in full by the fifth day of the quarter. Students who have not paid full tuition and fees prior to the sixth day of the quarter will be assessed a fifteen dollar late payment fee. Students who have not paid the full amount of tuition and fees by the thirtieth calendar day will be disenrolled for nonpayment of fees on the thirty-first calendar day. If the student is reinstated following disenrollment, a fifty dollar reinstatement fee will be assessed in addition to tuition and fees (as well as the late payment fee), and will be due and payable at the time of reinstatement. All other charges presented on accounts receivable statement forms are due and payable on the tenth day of the month following the month that the charges were recorded. Charges that are not paid when due are considered delinquent and as such are subject to interest and penalty charges.
- (2) Every student has the right to appeal a decision to assess any fee, fine, charge, debt or other financial obligation to the college as long as the appeal is made within ten days after the written notice of assessment. The appeal must be in writing and directed to the budgetary unit head of the unit assessing the charge(s) in question. The budgetary unit head receiving the appeal must respond to the appeal within ten days of the date of the appeal. If the appeal is denied and the student has not resolved his or her financial obligation to the college within ten days after the response to the appeal, the college may take the action authorized by WAC 174-162-310. If the student is still in disagreement with the decision, he or she may initiate COG mediation procedures as long as those actions are started within ten days after the response to the appeal.

AMENDATORY SECTION (Amending Order 81-2, Motion No. 81-20, filed 7/8/81)

WAC 174-162-305 EMERGENCY LOANS COLLECTIONS POLICY. Emergency loans are made by the office of financial aid to assist students with short-term financial problems. The success of this program is dependent on timely repayment of those loans because old loans must be collected before new loans can be made.

Emergency loans are generally made so the due date occurs within the same quarter the loan is taken. These loans are made for tuition and fees and a variety of other reasons when students are faced with an emergency situation or a cash flow problem. Each loan, regardless of size, will be charged a \$2.00 service fee. Interest charges will not apply if the loan is repaid within thirty days. Loans not repaid within thirty days will be charged interest at one percent per month on the balance outstanding on the last day of each month.

Students who do not repay their emergency loans within thirty calendar days from their due date will have all credit privileges canceled, and the registrar will be advised to withhold the student's transcript and registration privileges. In the event an account becomes ((one hundred twenty)) seventy-five days past due, it will be turned over to the collection agency for collection and/or legal action if appropriate.

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045. Amending WAC 440-44-040, Medical facilities and boarding home licensing fees.

The Purpose of the Rule: To change the method of assessing licensing fees in boarding homes. The licensing fee would be assessed based upon approved resident capacity rather than licensed bed capacity of a boarding home. The term "resident" is defined in the licensing code WAC 248-16-001.

The Reason the Rule Change is Necessary: To address one concern expressed by providers of care while maintaining an equitable distribution of fees to support the boarding home licensure program.

Statutory Authority: Section 2, chapter 201, Laws of 1982.

Summary of the Rule Change: The method of assessment of annual fees to support the cost of the boarding home licensure program will emphasize licensed resident capacity rather than the number of beds in boarding homes. This number would be determined by the boarding home operators and approved by the department prior to initial issuance or annual renewal license pursuant to RCW 18.20.050.

Person Responsible for Drafting, Implementation and Enforcement of the Rule: John H. Gerth, Section Head, Licensing and Development Section, Office of State Health Planning and Development, Division of Health, Mailstop LM-13, Phone: 753-5851.

Rule change proposed by a task force appointed by John A. Beare, MD, M.P.H., Director, Division of

Health, and recommended by staff of the Division of Health, DSHS.

These rules are not necessary as a result of federal law, federal court decision, or state court decision.

This proposed rule change does not impose an additional cost of compliance and therefore no economic impact statement is required under the Regulatory Fairness Act.

Amending WAC 356-06-080.

Title: Personnel Board—Powers—Duties.

Purpose: Outlines responsibilities of the State Personnel Board.

Statutory Authority: RCW 41.06.150.

Summary and Reasons: The proposed changes are of a housekeeping nature only. Changes update the duties of the State Personnel Board.

Responsibility for Drafting: Roger Sanford, Department of Personnel, 600 South Franklin, MS: FE-11, Olympia, WA 98504, Phone: 753-5928; Implementation and Enforcement: Department of Personnel and the State Personnel Board.

Amending WAC 356-14-260.

Title: Compensation time—Liquidation.

Purpose: Requires that compensatory time be liquidated before vacation leave is granted.

Statutory Authority: RCW 41.06.150.

Summary: The present wording says, "Accumulated overtime shall be liquidated before vacation leave is granted except in those instances where this procedure..." It means "Accumulated compensatory time shall be..."

Reasons: Rule as currently written has been misinterpreted and vacation pay has been denied in some instances during the same month in which case overtime is earned. Liquidation of cash overtime is dealt with in WAC 356-14-050. WAC 356-14-260 should not pertain to cash liquidation and will be correct with the proposed change.

Responsibility for Drafting: Gail A. Salisbury, Department of Personnel, 600 South Franklin, MS: FE-11, Olympia, WA 98504, Phone: 753-5383; Implementation and Enforcement: Department of Personnel.

Proposed by: Department of Personnel, governmental agency.

Statutory Authority: RCW 41.06.150.

Summary and Reasons: WAC 356-18-050(6) makes reference to WAC 356-06-055(4). WAC 356-06-055 has been revised and reference should now be made to WAC 356-06-055(6). Proposed change would correct this reference.

Responsibility for Drafting: Roger Sanford, Department of Personnel, 600 South Franklin, MS: FE-11, Olympia, WA 98504, Phone: 753-5928; Implementation: All state agencies; and Enforcement: Department of Personnel.

Proposed by: Department of Personnel, governmental agency.

Amending WAC 356-30-030.

Title: Appointments—Provisional—Limitations—Prohibited.

Purpose: Rule places a time limitation on provisional appointments.

Statutory Authority: RCW 41.06.150.

Summary: Proposal continues a time limitation on provisional appointments, but will allow flexibility in the recruitment process.

Reasons: In some instances, the recruitment process extends beyond the current allowable six month period. The proposed change would permit continuation of the appointment if there is extended recruitment.

Responsibility for Drafting: Al Gonzales, Department of Social and Health Services, Office Building #2, MS: OB-14, Olympia, WA 98504, Phone: 753-5184; Implementation: All state agencies; and Enforcement: Department of Personnel.

Amending WAC 356-30-330.

Title: Reduction-in-force—Rules, regulations—Procedure.

Purpose: To set forth regulations and procedures for carrying of reduction-in-force procedures.

Statutory Authority: RCW 41.06.150.

Summary: To provide for warranted selective certifications now, when selective requests were not necessary in the past because they were inherent in the previous classification specifications.

Reasons: Reduction-in-force practices together with classification changes require it.

Responsibility for Drafting: Bill B. Turney, Department of Personnel, 600 South Franklin, MS: FE-11, Olympia, WA 98504, Phone: 753-7125; Implementation and Enforcement: Department of Personnel.

Proposed by: Department of Social and Health Services, governmental agency.

AMENDATORY SECTION (Amending Order 163, filed 11/16/81)

WAC 356-15-130 ✓SPECIAL PAY RANGES. These ranges are used to equal or approximate prevailing rate practices found in private industry or other governmental units. An affected class is identified either by a letter designation following the basic salary range number or by a letter designation preceding a number. In the latter case, a special salary schedule will be used for such classes.

(1) "E" Range: This range is used for classes having a prevailing pay range which is shorter than Washington's standard ranges. An "E" range is a standard range with the first four steps removed. Thus, the first step of such a

range is the same as step E of the standard range having the same range number. Periodic increases through the steps of this range are made at the same time intervals as through standard ranges, i.e., a two-step increase after six months at step E and two annually thereafter up to the maximum step of the range.

- (2) "L" Range: This special range is used only for the class of liquor store clerk (0628). The "L" range was designed to more closely parallel the prevailing pay structure for retail clerks in private industry. Periodic increases through the steps of the "L" range are made at the same time intervals as through a standard range. Normal progression is steps A, D, G and K, which represents ten percent per periodic increase.
- (3) "T" Range: Used only for the classes of institution teachers. These ranges are constructed by identifying Step K of the correspondingly numbered regular state ranges as "Step 10" of the T-range; the lower nine steps of the T-range are each two regular-range steps (approximately 5%) apart. Advancement through these ranges is at the rate of one step per year.
- (4) "V" Range: Used only for the classes of teachers of the deaf or blind and principals, school for the deaf or blind. ((A special salary schedule will be published when received from school district #37, Vancouver, Washington.)) "V" ranges are the same as the current ranges of Vancouver, Washington School District #37 for certificated employees of similar background and experience. Advancement through the range is at the rate of one step per year.

AMENDATORY SECTION (Amending Order 36, filed 7/1/71, effective 8/1/71)

WAC 356-26-100 CERTIFICATION—LOCAL AREAS—CONDITIONS. The appointing authority may request and the director of personnel may designate, by agency, classes of positions for which only persons living in the area of a vacancy will be considered available for employment. Such classes shall be only those for which there is evidence to show that certification on a statewide basis constitutes a hindrance to efficient and economical hiring by the agency. If certification of at least ((three)) five names from the register for that class is not possible, certification shall be from eligibles who have indicated willingness for consideration in that geographic area.

AMENDATORY SECTION (Amending Order 179, filed 12/22/82)

WAC 356-30-330 [♥] REDUCTION-IN-FORCE— ((RULES)) <u>REASONS</u>, REGULATIONS—PROCE-DURE. (1) <u>The reasons for reduction-in-force actions</u> and the minimum period of notice are:

(a) Employees may be separated in accordance with the statutes and the agencies' approved reduction—inforce procedures after at least fifteen calendar days' notice in writing, without prejudice, because of lack of funds or curtailment of work, or good faith reorganization for efficiency purposes, ineligibility to continue in a position reallocated upward, or when there are fewer

positions than there are employees entitled to such positions either by statute or within other provisions of merit system rules.

- ((Incumbents of positions reclaimed by previously exempted employees will have the rights and options of the approved procedures developed as prescribed below when the positions are being reclaimed in accordance with RCW 41.06.070(22), 41.06.100, and WAC 356-30-045.))

- (2) The agencies shall develop a reduction-in-force procedure ((which shall include)) that is consistent with the following:
- (a) ((The definition of "seniority" as defined in WAC 356-06-010.)) When the above seniority determination process results in a tie, the tie will be broken by comparing the employees' last regular annual performance evaluation.
- (b) Clearly defined layoff ((limits)) units, either geographically or by administrative units or both, so as to limit the disruption of an agency's total operation; but not ((so small as)) to unduly restrict the options available to employees with greater seniority. The definition of layoff units may be a series of progressively larger units within an agency when a valid option in lieu of separation cannot be offered to respective employees within a lesser-sized unit.
- (c) (("Bumping" by employees with greater seniority will be limited to the same layoff unit.

- (v) Competition at one progressively lower classification at a time.
- (f) An employee may not exercise a bumping option in lieu of separation due to a reduction—in-force if there is within the agency a vacant position which satisfies all of the criteria set forth below.

The position is one which:

- (i) The agency intends to fill;
- (ii) Is in the current classification of the employee being offered the option, or in a classification within which the employee being offered the option previously held permanent status;
- (iii) Is at a salary range no lower than the range that would have otherwise been a bumping option;
- (iv) Is located within a reasonable commuting distance of the employee's permanent work location; and
- (v) Is on the same or similar workshift as the one which the employee currently holds.

For the purpose of these offers, employees who previously accepted part-time positions due to a reduction-in-force action or to lessen the impact of a reduction-in-force shall be considered full-time employees.
- (j) Seniority for part-time employees will be computed on a basic payroll hour basis within the same provision and restrictions of the general definition of seniority. When part-time employees become full-time employees, their payroll hours will be integrated on a comparable time basis as full-time employees.
- (k) Permanent employees who have been scheduled for reduction—in—force shall have the right to take a transfer or a voluntary demotion to a vacancy that is to be filled in their own layoff unit for which they qualify, as determined by the director of personnel. This right is to be exercised according to the seniority of those desiring the same vacancy.
- (1) Options of other than permanent positions as named in subsection (2)(m) of this section are to be

WSR 83-08-018 EMERGENCY RULES DAIRY PRODUCTS COMMISSION

[Order 83-1—Filed March 29, 1983]

Be it resolved by the Washington State Dairy Products Commission, acting at Olympia, Washington, that it does adopt the annexed rules relating to WAC 142-30-010.

We, the Washington State Dairy Products Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is at the annual meeting of the Washington State Dairymen's Federation held in Bellevue, Washington, November 10, 1982, dairy producers serving as delegates passed a resolution supporting a proposal to increase the assessment rate on milk from 0.8 percent to 1.0 percent per hundredweight in order to reverse declining fluid milk and dairy product sales. The increased assessment would provide additional monies for advertising and sales promotion activities, would double the availability of nutrition education programs to public schools in the state, and expand research conducted at Washington State University that would guide dairy producers in reducing production costs, enhancing milk quality, and developing new and improved products. Resolutions adopted at

commission meetings held January 26, 1983, and March 8, 1983; statements made at a public hearing conducted in Olympia, March 8, 1983; statements made on referendum ballots and in communications to producers, and at nineteen meetings held throughout the state, advised that the effective date of the new assessment rate would be April 1, 1983. A permanent rule will not become effective in time to comply with the numerous statements made to dairy farmers who approved the proposed increased assessment rate in a referendum conducted by the director of agriculture and tabulated March 24, 1983, with 538 producers voting in favor of the increased assessment and 200 voting against the increased assessment.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to chapter 15.44 RCW which directs that the Washington State Dairy Products Commission has authority to implement the provisions of RCW 15.44.080 to increase the amount of the assessment levied on milk to effectuate the stated purpose of the commission.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED March 28, 1983.

(2) The proposed assessment increase shall not become effective until approved by fifty—one percent of the producers voting in a referendum conducted by the commission.

- (2) Continuing general assistance cannot be granted to a person eligible for or receiving AFDC or to a person eligible for or whose needs are being met by Supplemental Security Income with the following exceptions:

AMENDATORY SECTION (Amending Order 1894, filed 10/26/82)

WAC 388-37-032

(b) Request additional information when necessary.

- (c) Determine probable duration of incapacity. The probable duration shall be related to the prognosis for the condition as predicted by the medical evidence but shall not exceed twelve months without a redetermination of incapacity.
- (d) ((Recommend)) Require available medical treatment which can reasonably be expected to render the client able to work.

(e) Recommend available medical services, provided under the state-financed medical care services program as defined in WAC 388-86-120.

(4) Redetermination of eligibility for general assistance due to incapacity is based on available medical evidence. If the available medical evidence does not substantiate incapacity, then continued eligibility is denied.

(((4))) (5) Cost of necessary medical reports to determine incapacity shall be paid by the department. Payment for such reports shall not be made to DSHS agencies.

AMENDATORY SECTION (Amending Order 1894, filed 10/26/82)

Reasons for unemployment other than incapacity, such as individual employer preferences, business and economic conditions, social handicaps, etc., are not factors to be considered in determining his or her inabil-

ity to obtain and continue in employment.

- (2) The source of evidence for physiological incapacity will be a written report from a physician, for a mental incapacity, the source may be a report from a psychiatrist, licensed clinical psychologist((;)) or mental health professional designated by the local community mental health agency as defined in RCW 71.05.020. Supplemental medical evidence may be obtained from a nurse practitioner, physician's assistant, or DSHS institutions and agencies from which the individual is receiving or has received services. Such reports must include a diagnosis and prognosis for the incapacitating condition and the effect of the condition on the individual's ability to function.
- (3) The determination of incapacity will be made on the facts of each case. This requires evaluation of the severity of the impairment and its effect on the individual((, and consideration of the individual's abilities,)) so ((that)) it can be determined whether there remains a capacity to engage in a useful occupation.

AMENDATORY SECTION (Amending Order 1894, filed 10/26/82)

WAC 388-37-037 CONTINUING GENERAL ASSISTANCE—REFUSAL TO ACCEPT AVAILABLE AND ((RECOMMENDED)) REQUIRED MEDICAL TREATMENT. (1) A continuing general assistance applicant or recipient who refuses without good cause to accept available ((recommended)) required medical treatment, which can reasonably be expected to render him or her able to work shall be ineligible. The decision that the client has refused such treatment without good cause is based on the best objective judgment of the CSO incapacity review team.

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-177 (((RULE 177))) SALES OF MOTOR VEHICLES, CAMPERS, AND TRAILERS TO NONRESIDENTS((, AND TO RESIDENTS TAKING DELIVERY OUTSIDE THIS STATE)). The scope of this rule is limited to sales by dealers in this state of motor vehicles, campers, and trailers to((:

- +:)) nonresidents of the state for use outside the state((;
- 2. Residents of this state for use in this state but who take delivery outside this state)).

For the purposes of this rule, members of the armed services (but not including civilian military employees) who are temporarily stationed in the State of Washington pursuant to military orders will be presumed to be nonresidents unless such persons were residents of this state at the time of their induction; the term "vehicle" as used herein refers to motor vehicles, campers, and trailers.

BUSINESS AND OCCUPATION TAX

In computing the tax liability of persons engaged in the business of selling ((motor)) vehicles ((and trailers)) no deduction is allowed by reason of sales made to non-residents for use outside this state but who take delivery in Washington, and irrespective of the fact that such buyers may be entitled to a statutory exemption from the retail sales tax.

A deduction from gross proceeds of sales will be allowed when, as a necessary incident of the contract of sale, the seller agrees to, and does, deliver the vehicle to the buyer at a point outside the state, or delivers the same to a common carrier consigned to the purchaser outside the state.

The foregoing deduction, however, will be allowed only when the seller has secured and retains in his files satisfactory proof:

- a. That under the terms of the sales agreement the seller was required to deliver the vehicle to the buyer at a point outside this state; and
- b. That such out-of-state delivery was actually made by the seller or by a common carrier acting as his agent.

For forms of proof acceptable to the Department of Revenue see below under Retail Sales Tax-Out-of-State Delivery. For "interstate commerce" deductions, generally, refer to WAC ((458-20-193)) 458-20-193A.

RETAIL SALES TAX

- 1. SALES TO NONRESIDENTS. Under RCW ((82.08.030(13))) 82.08.0264 the retail sales tax does not apply to sales of ((motor)) vehicles ((and trailers)) to nonresidents of Washington for use outside this state, ((and)) even though delivery be made within this state, but only when either one of the following conditions is met:
- a. Said ((motor)) vehicle ((or trailer)) will be taken from the point of delivery in this state directly to a point outside this state under the authority of a ((one-transit)) trip permit issued by the Department of ((Motor Vehicles)) Licenses pursuant to the provisions of RCW ((46-16.100)) 46.16.160; or
- b. Said ((motor)) vehicle ((or trailer)) will be registered and licensed immediately (at the time of delivery) under the laws of the state of the purchaser's residence, will not be used in this state more than three months, and will not be required to be registered and licensed under the laws of this state.

Thus, in determining whether or not this particular exemption from the retail sales tax is applicable the dealer must establish the facts, first, that the purchaser is a bona fide nonresident of Washington and that the vehicle is for use ((in the)) outside this state ((of the purchaser's residence)) and, second, that the vehicle is to be driven from his premises under the authority of either (a) a ((one-transit)) trip permit, or (b) valid license plates issued to that vehicle by the state of the purchaser's residence, with such plates actually affixed to the vehicle at the time of final delivery.

As evidence of the exempt nature of the sales transaction the seller, at the time of sale, is required to take an affidavit from the buyer giving his name, the state of his residence, his address in that state, the name, year and motor or serial number of the vehicle purchased, the date of sale, his declaration that the described vehicle is being purchased for use ((in the state of his residence)) outside this state and, finally, that the vehicle will be driven from the premises of the dealer ((to the state of his residence)) under the authority of a ((one-transit)) trip permit (giving the number) or that the vehicle has been registered and licensed by the state of his residence and will be driven from the premises of the dealer with valid license plates (giving the number) issued by that state affixed thereto. If the vehicle ((or trailer)) being sold is already licensed with valid Washington plates and the nonresident purchaser wishes to qualify for exemption by transporting the vehicle out of state under authority of a ((one-transit)) trip permit, the dealer is required to remove the Washington plates prior to delivery of the vehicle and retain evidence of such removal to avoid liability for collection and payment of the retail sales tax. ((In addition to the affidavit from the buyer;)) The seller must himself certify((, either by a separate writing or)) by appending a certification to the affidavit, to the fact that the vehicle left his premises under the

authority of a ((one-transit)) trip permit or with valid license plates issued by the state of the buyer's residence affixed thereto. The buyer's affidavit and the dealer's certificate ((should)) must be ((substantially)) in ((one of)) the ((two)) following form((s, whichever may be applicable)):

CERTIFICATE OF DEALER

I hereby certify that before final delivery of the ((motor)) vehicle described in the foregoing affidavit (a) I have examined trip permit No. which authorizes transit of the vehicle described, or (b) that license plates numbered, issued to said vehicle by the state of and expiring, were affixed thereto. I further certify that I have personally examined two or more of the following

items of documentary evidence showing the purchaser's
residency in the state of
Driver's license
Voter's registration
Fishing or hunting license
Income tax returns
Other (specify)
I further certify that if the vehicle sold was already li-
censed with valid Washington plates, they were physi-
cally removed by, agent of the seller.

(Signature of dealer or representative)

(Title-Officer or Agent)

Failure to take this affidavit and to complete the dealer's certification, in full, at the time of delivery of the vehicle will negate any exemption from the buyer's duty to pay and the dealer's duty to collect the retail sales tax under RCW 82.08.0264. Furthermore, a copy of the completed affidavit and certification must be attached to the dealer's excise tax report submitted for the reporting period in which any such vehicles were sold. Such filing is a procedural requirement and does not conclusively establish the buyer's or seller's right to exemption.

The foregoing affidavit((s)) will be prima facie evidence that sales of ((motor)) vehicles ((and trailers)) to nonresidents have qualified for the sales tax exemption provided in RCW ((82.08.030(13) of the law)) 82.08-.0264 when there are no contrary facts which would negate the presumption that the seller relied thereon in complete good faith. ((This statutory tax exemption was enacted primarily to benefit sellers of motor vehicles and trailers whose natural trading areas cut across the state boundaries. Therefore,)) The burden rests upon the seller to exercise a reasonable degree of prudence in accepting statements relative to the nonresidence of buyers. Lack of good faith on the part of the seller or lack of the exercise of the degree of care required would be indicated, for example, if the seller has knowledge that the buyer is living or is employed in Washington, if for the purpose of financing the purchase of the vehicle the buyer gives a local address, if at the time of sale arrangements are made for future servicing of the vehicle in the seller's shop and a local address is shown for the shop customer, or if the seller has ready access to any other information which discloses that the buyer may not be in fact a resident of the state which he claims. ((As a protection to sellers, it is recommended that they follow the practice of examining the driver's license held by the buyer or ask for some other documentary proof of residence.)) A Nonresident Permit issued by the Department of Revenue may be accepted as prima facie evidence of the out of state residence of the buyer, but does not relieve the seller from obtaining the affidavit((s,)) and completing the certificate((s and other

Members of the armed services who are temporarily stationed in Washington pursuant to military orders will

forms of proof)) required by this rule.

be presumed to be nonresidents unless such persons were residents of this state at the time of their induction. This presumption is not applicable in respect to civilian employees of the armed services.

In all other cases where delivery ((of possession)) of the ((motor)) vehicle ((or trailer sold passes)) is made to the buyer in this state, the retail sales tax applies and must be collected at the time of sale. The mere fact that the buyer may be or claims to be a nonresident or that he intends to, and actually does, use the vehicle ((or trailer)) in some other state are not in themselves sufficient to entitle him to the benefit of this exemption. In every instance where the ((motor)) vehicle ((or trailer)) is licensed or titled in Washington by the purchaser the retail sales tax is applicable.

2. OUT-OF-STATE DELIVERIES. Out-of-state deliveries to buyers who are bona fide nonresidents are exempt from the retail sales tax when the seller, as a necessary incident to the contract of sale, delivers possession of ((motor)) vehicles ((and trailers)) to such buyers at points outside Washington and such ((motor)) vehicles are not licensed or titled in this state. If the vehicle ((or trailer)) being sold bears valid Washington plates and the nonresident wishes to qualify for exemption by taking delivery from the dealer at a point outside the state, the dealer is required to remove the Washington plates prior to delivery and retain evidence of such removal to avoid liability for collection and payment of the retail sales tax.

In such cases, as evidence of the exempt nature of the transaction, the seller must take from the buyer a certificate of out-of-state delivery which shall give the purchaser's name and address, the name, model, year and motor number of the vehicle purchased, and contain the buyer's statement that he is a bona fide resident of the named state, that the vehicle was purchased for use ((in such)) outside Washington state and that under the terms of the sales agreement the dealer was required to and did deliver the vehicle to a named point outside the State of Washington. The certificate shall be signed by the buyer at the place of delivery. Attached to this certificate and made a part thereof shall be a certification by the seller that he delivered the vehicle to the purchaser named at the named place of delivery.

These certificates shall be substantially in the following form:

When such out-of-state delivery is made by a common carrier acting as agent of the seller then, as evidence of the exempt nature of the transaction, the seller shall retain in his files a signed copy of the bill of lading issued by the carrier in which the seller is shown as the consignor and by which the carrier agrees to transport the vehicle to a point outside the state.

The retail sales tax applies upon sales at retail made by local dealers to local residents for use by them in this state, even though delivery may be taken by the purchaser at the factory or other point outside this state, or that shipment may be made direct from outside this state to the purchaser in this state. However, where delivery is taken by local residents in foreign countries the ((motor)) vehicles will be deemed not to be for use in this state and local dealers will not be required to collect the retail sales tax.

3. RECORDS TO BE RETAINED BY SELLER. The affidavits and certificates referred to in this rule must be retained by the seller in his files as a part of his permanent records subject to audit by the Department of Revenue. In the absence of such proof, claims that transactions were exempt from tax will be disallowed ((unless the seller can, by other clear and convincing evidence, establish the exempt nature of the transaction)).

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-194 DOING BUSINESS ((WITH-IN)) INSIDE AND ((WITHOUT)) OUTSIDE THE STATE. Persons domiciled outside this state who (1) sell or lease personal property to buyers or lessees in this state, or (2) perform construction or installation contracts in this state, or (3) render services to others herein, are doing business in this state, irrespective of the domicile of such persons and irrespective of whether or

not such persons maintain a permanent place of business in this state.

Persons domiciled in and having a place of business in this state, who (1) sell or lease personal property to buyers or lessees outside this state, or (2) perform construction or installation contracts outside this state, or (3) render services to others outside this state, are doing business both ((within)) inside and ((without)) outside this state. Whether or not such persons are subject to business tax under the law depends upon the kind of business and the manner in which it is transacted. The following general principles govern in determining tax liability or tax immunity.

BUSINESS AND OCCUPATION TAX

When the business involves a transaction in or related to interstate or foreign commerce, see WAC 458-20-193.

When the business involves a construction or installation contract in this state, no deduction from the measure of the tax is permitted, even though the contractor is domiciled outside this state and maintains a place of business outside this state which may contribute to the contract performed in this state. See WAC 458-20-137, 458-20-170, 458-20-171 and 458-20-172.

When the business involves a construction or installation contract outside this state, the tax does not apply to any part of the income derived therefrom (except such part of the income as may be applicable to the manufacture in this state by the contractor of articles used or incorporated in such construction or installation), even though the contractor is domiciled in this state and maintains a place of business herein which may contribute to the contract performed outside this state. See WAC 458-20-136.

When the business involves a transaction taxable under the classification service and other business activities, the tax does not apply upon any part of the gross income received for services incidentally rendered to persons in this state by a person who does not maintain a place of business in this state and who is not domiciled herein. However, the tax applies upon the income received for services incidentally rendered to persons outside this state by a person domiciled herein who does not maintain a place of business within the jurisdiction of the place of domicile of the person to whom the service is rendered.

For example, persons domiciled herein, but having no place of business outside this state, are taxable upon the following types of income:

- 1. An insurance agency upon commissions received for insurance placed without the state.
- 2. An attorney upon fees received from persons without the state, even though a portion of his services were necessarily performed without the state.
- 3. A collection agency upon income received from clients without the state or with respect to collections made from persons without the state.
- 4. An accountant upon income received from persons for services performed without the state.
- 5. A financial business upon income received from loans placed without the state.

- 6. A commodity broker upon commissions received from persons without the state.
- 7. An advertising agency upon income received from advertising solicited and secured from firms without the state.
- 8. An employment agency upon income received for securing employees for firms without the state.
- 9. A physician upon income received from the treatment of patients without the state.
- 10. A purchasing agency upon commissions received from clients without the state or with respect to purchases made without the state.

Persons engaged in a business taxable under the service and other business activities classification and who maintain places of business both ((within)) inside and ((without)) outside this state which contribute to the performance of a service, shall apportion to this state that portion of gross income derived from services rendered by them in this state. Where it is not practical to determine such apportionment by separate accounting methods, the taxpayer shall apportion to this state that proportion of total income which the cost of doing business within this state bears to the total cost of doing business both within and without this state.

For purposes of apportionment under RCW 82.04.460 and this rule the term "place of business" generally means a location at which regular business of the tax-payer is conducted and which is either owned by the taxpayer or over which the taxpayer exercises legal dominion and control. The term does not include locations or facilities at which the taxpayer acquires merely transient lodging nor does it include mere telephone number listings or telephone answering services.

PUBLIC UTILITY TAX

Persons engaged in a public service business in this state are not taxable with respect to gross income derived from conducting business outside this state, nor in respect to conducting business in interstate or foreign commerce.

((Revised June 1, 1970.))

AMENDATORY SECTION (Amending Order ET 70–3, filed 5/29/70, effective 7/1/70)

WAC 458-20-195 TAXES, DEDUCTIBILITY. A. DEDUCTIBILITY, GENERALLY. In computing tax liability, the amount of certain taxes may be excluded or deducted from the gross amount reported as the measure of tax under the business and occupation tax, the retail sales tax and the public utility tax. Such taxes may be deducted provided they (1) have been included in the gross amount reported under the classification with respect to which the deduction is sought, and (2) have not been otherwise deducted through inclusion in the amount of an allowable deduction taken under such classification for another reason, i.e., interstate commerce etc.

The amount of taxes which are not allowable as deductions or exclusions must in every case be included in the gross amount reported.

B. MOTOR VEHICLE FUEL TAXES. So much of the sale price of motor vehicle fuel as constitutes the amount of

tax imposed by the state of Washington or the United States government upon the sale thereof may be deducted by every seller thereof from the gross proceeds of sales reported under the business and occupation tax.

C. OTHER TAXES. The amount of taxes collected by a taxpayer, as agent for the state of Washington or its political subdivisions, or for the federal government, may be deducted from the gross amount reported. Such taxes are deductible under each tax classification of the Revenue Act under which the gross amount from such sales or services must be reported.

This deduction applies only where the amount of such taxes is received by the taxpayer as collecting agent and is paid by the agent directly to the state, its political subdivisions, or to the federal government. When the taxpayer is the person upon whom a tax is primarily imposed, no deduction or exclusion is allowed, since in such case the tax is a part of the cost of doing business. The mere fact that the amount of tax is added by the taxpayer as a separate item to the price of goods he sells, or to the charge for services he renders, does not in itself, make such taxpayer a collecting agent for the purpose of this deduction.

Specific taxes, Deductible. The deductions under paragraphs B and C above apply to the following excise taxes among others:

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-201 INTERDEPARTMENTAL CHARGES. The term "interdepartmental charges" means amounts credited to the sales account or other gross income account of a taxpayer for goods, materials or services furnished by one department or branch of a business organization to another department or branch of the same business concern ((of)) or firm.

Tax ((is)) may be due upon interdepartmental charges covering transfers of goods from a central location to two or more retail outlets. See WAC 458-20-231, tax on ((Wholesaling Functions)) internal distributions. Tax is also due upon the value of products extracted or manufactured by one branch or department of a business for commercial or industrial use of another branch or department of the same business. See WAC 458-20-134. In other cases amounts representing interdepartmental charges may be excluded in computing tax due. This does not permit the exclusion or deduction of charges against or income derived from an affiliated corporation or other affiliated association.

Municipal corporations are entitled to an exclusion of interdepartmental charges in computing tax whether or not the charges represent an actual transfer of money or merely a bookkeeping entry (see WAC 458-20-189).

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-206 USE TAX, FUEL OIL, OIL PRODUCTS, OTHER EXTRACTED PRODUCTS. The use tax applies to the use of any oil products (except motor vehicle fuel for highway use) or other extracted products used within the state by the producer or extractor thereof, whether such products have been produced or extracted within or without the state, except when used as a fuel directly in the operation of the particular extractive operation or manufacturing plant which produced the same. (RCW ((82.12.030(11))) 82.12.0263.)

Distributors who are consumers of fuel oil, are subject to the use tax with respect to the use of such fuel oil, unless the sale of such oil has been subjected to the retail sales tax and the tax paid thereon by such distributor.

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-209 FARMING OPERATIONS PERFORMED FOR HIRE. Persons engaging in the

business of threshing grain, baling hay, cutting or binding hay or grain, tilling the land or performing for hire other services connected with farming activities are taxable under the service and other business activities classification of the business and occupation tax upon the gross income received from the performance of such services.

The extent to which the above functions are performed for others is determinative of whether or not a person is engaged in a taxable business in respect thereto. In other words, a person is not construed as being engaged in a taxable business when his activities are casual and incidental, such as a farmer owning baling equipment or threshing equipment which is used primarily for baling hay or threshing grain produced by himself but who may occasionally accommodate neighboring farmers by baling small quantities of hay or threshing small quantities of grain produced by them. On the other hand, persons owning baling equipment or threshing outfits whose primary business is baling hay or threshing grain for others are engaged in business and taxable with respect thereto, irrespective of the amount or extent of such business and are required to pay the retail sales tax upon the purchase of materials and equipment used in the performance of such services.

In cases where doubt exists in determining whether or not a person is engaging in the business of performing the aforementioned services, all pertinent facts should be submitted to the department of revenue for a specific ruling.

((Revised May 1, 1943.))

AMENDATORY SECTION (Amending Order ET 78-4, filed 6/27/78)

WAC 458-20-210 SALES OF FARM PRODUCTS BY FARMERS PRODUCING THE SAME. The term "farm products" as used herein means all farm products such as poultry, livestock, fruit, vegetables and grains.

All farmers engaging in the business of making retail sales of farm products produced by them are required to apply for and obtain a certificate of registration. The ((registration fee is \$1.00 and the)) certificate shall remain valid as long as the taxpayer remains in business.

BUSINESS AND OCCUPATION TAX

Farmers are not subject to tax under the wholesaling classification of the business and occupation tax upon wholesale sales of farm products which have been raised by them upon land owned by or leased to them. This exemption does not extend to sales of manufactured or extracted products (see WAC 458-20-135 and 458-20-136), nor to the taking, cultivating, or raising of Christmas trees or timber.

Farmers are subject to tax under the retailing classification of the business and occupation tax upon sales of farm products when the farmer holds himself out to the public as a seller by:

- 1. Conducting a roadside stand or a stand displaying farm products for sale at retail;
- 2. Posting signs on his premises, or through other forms of advertising soliciting sales at retail;

- 3. Operating a regular delivery route from which farm products are sold from door to door; or
- 4. Maintaining an established place of business for the purpose of making retail sales of farm products.

Farmers selling farm products not raised by them, should obtain information from the department of revenue with respect to their tax liability.

RETAIL SALES TAX

All farmers are required to collect the retail sales tax upon all retail sales made by them, except sales of food products exempt under WAC 458-20-244, when the farmer holds himself out to the public as a seller in any of the ways described above.

((Revised April 28, 1978. Effective July 1, 1978.))

AMENDATORY SECTION (Amending Order ET 71–1, filed 7/22/71)

WAC 458-20-211 LEASES OR RENTALS OF TANGIBLE PERSONAL PROPERTY, BAIL-MENTS. The terms "leasing" and "renting" are used interchangeably and refer generally to the act of granting to another the right of possession to and use of tangible personal property for a consideration. The term "bailment" refers to the act of granting to another the right of possession to and use of tangible personal property without consideration. The terms do not include rental agreements pursuant to which the owner or lessor operates the equipment or supplies an employee operator, whether or not such employee operator works under the supervision or control of the lessee.

BUSINESS AND OCCUPATION TAX

The renting or leasing of tangible personal property constitutes a "sale" (RCW 82.04.040) and persons engaged in renting or leasing such property to users or consumers are taxable under the retailing classification upon the gross income from rentals as of the time the rental payments fall due. Persons renting or leasing tangible personal property to persons who will rent or lease such property to others are taxable under the classification wholesaling.

Persons who rent equipment or other tangible personal property and, in addition, operate the equipment or supply an employee to operate the same, are subject to the business and occupation tax (or public utility tax) according to the classification of the activities performed by the equipment and operator. Thus, the charge made to a construction contractor for equipment with operator used in the construction of a building would be taxable under wholesaling—other and a similar charge to a contractor for use in the construction of a publicly owned road would be taxable under public road construction.

RETAIL SALES TAX

Persons who rent or lease tangible personal property to users or consumers are required to collect from their ((lessess)) lessees the retail sales tax measured by gross income from rentals as of the time the rental payments fall due.

The retail sales tax does not apply upon the rental or lease of motor vehicles and trailers to nonresidents of this state for use exclusively in transporting persons or property across the boundaries of this state and in intrastate operations incidental thereto when the motor vehicle or trailer is registered and licensed in a foreign state. For purposes of this exemption, the term "nonresident" shall apply to a renter or lessee who has one or more places of business in this state as well as in one or more other states but the exemption for nonresidents shall apply only to those vehicles which are most frequently dispatched, garaged, serviced, maintained and operated from the renter's or lessee's place of business in another state.

The retail sales tax does not apply upon sales of tangible personal property to persons who purchase the same solely for the purpose of renting or leasing such property. However, the retail sales tax applies upon sales to persons who rent such property with operator or who intend to made some use of the property other than or in addition to renting or leasing.

USE TAX

((Persons)) Consumers who rent or lease tangible personal property from others and who have not paid the retail sales tax to their lessors are liable for the use tax on the amount of the rental payments as of the time the payments fall due.

The value of tangible personal property held or used under bailment is subject to tax if the property was purchased or acquired under conditions whereby the retail sales tax was not paid by the bailor. Tax liability is that of the bailor, or of the bailee if the bailor has not paid the tax. The measure of the use tax for articles acquired by bailment is the reasonable rental for such articles to be determined as nearly as possible according to the rental price at the place of use of similar products of like quality and character. In the absence of rental prices for similar products the reasonable rental may be computed by prorating the retail selling price over the period of possession had by a bailee and payable in monthly installments. No further use tax is due upon property acquired by bailment after tax has been paid by the bailee or any previous bailee upon the full original value of the article. Use tax does not apply to use by a bailee of any article of tangible personal property which is entirely consumed in the course of research, development, experimental, and testing activities conducted by the user, providing the acquisition or use of such articles by the bailor are exempt from sales or use tax.

AMENDATORY SECTION (Amending Order ET 78-4, filed 6/27/78)

SERVICE. Taxable under the service and other business activities classification with respect to:

- 1. Commissions for buying or selling;
- 2. Charges made for interest, no deduction being allowed for interest paid;
 - 3. Charges for handling;
- 4. ((Charges for warehousing (but see WAC 458-20-182 for Public Warehouses);
- 5.)) Charges for receiving, washing, sorting, and packing of fresh perishable horticultural products and the material and supplies used therein, when performed for persons other than the grower thereof;
 - ((6.)) 5. Rentals of cold storage lockers; and
- ((7.)) 6. Other miscellaneous charges, including analysis fees, but excepting actual charges made for foreign brokerage and bona fide charges for receiving, washing, sorting and packing fresh perishable horticultural crops and the materials and supplies used therein when performed for the grower, either as agent or independent contractor.

Where a seller performs packing services for the grower and furnishes the materials and supplies used therein, the amount of the charge therefor is deductible, even though the boxes and other packing material are loaned or charged to the grower prior to the time the fruit or produce is received for packing, provided that the boxes and packing materials are returned by the grower to the seller for use in packing fruit and produce for the grower.

RETAIL SALES TAX

The retail sales tax applies to sales of ladders, picking bags, and other equipment sold to consumers, whether sold by associations to members, or by agents to their principals. See WAC 458-20-244 for sales of food products.

USE TAX

The use tax applies upon the use by consumers of any article of tangible personal property, unless the user paid the Washington retail sales tax upon the sale of the property to him.

PUBLIC UTILITY TAX

WAREHOUSING. Charges for warehousing are taxable under the public utility tax. See WAC 458-20-182.

WAC 458-20-215 AUDITING OUT-OF-STATE BUSINESS. Whenever ((it appears from a review of the returns filed by any out-of-state taxpayer, than)) the department of revenue determines that an audit of the books and records of an out-of-state taxpayer is necessary, ((a notice will be sent to)) the taxpayer ((asking the taxpayer to select)) may elect one of the following methods for the audit:

- 1. If complete records are maintained by each branch of the taxpayer within the state of Washington or at Portland, Oregon, the audit may be made by auditing each of such branches and, if this method is elected, letters of authorization to the department of revenue for each branch should be supplied.
- 2. If complete books and records are not maintained within the state of Washington or at Portland, Oregon, the taxpayer's books and records may be brought from without the state to either the Olympia, Seattle, Spokane, Tacoma, Vancouver, Bellingham, or Walla Walla offices of the department of revenue, and the audit will be made at one of these offices. In the event this election is made, the taxpayer must set a definite time for submitting the books and records and advise to which office he will submit them.
- 3. If complete books and records are not maintained within the state of Washington or at Portland, Oregon, and the taxpayer does not desire to submit such books and records for audit at any of the department offices specified, the taxpayer may elect to have the audit made by an agent designated by the department at the place where such books and records are kept.

In the event the taxpayer elects to have the audit made as provided under method "3", he should so advise the department and signify his willingness to cooperate with the department in order that audits of other taxpayers located in or near the same locality may be grouped.

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-218 ADVERTISING AGENCIES. Advertising agencies are primarily engaged in the business of rendering professional services, but may also make sales of tangible personal property to their clients or others or make purchases of such articles as agents in behalf of their clients. Articles acquired or produced by advertising agencies may be for their own use in connection with the rendition of an advertising service or may be for resale as tangible personal property to their clients.

BUSINESS AND OCCUPATION TAX

The gross income received for advertising services, including commissions or discounts received upon articles purchased as agents in behalf of clients, is taxable under the service and other business activities classification. (See WAC 458-20-144 for discounts or commissions allowed by printers.) Included in this classification are amounts attributable to sales of tangible personal property, unless charges for such articles are separately stated in billings rendered to clients.

The retailing or wholesaling classification applies to articles of tangible personal property sold to persons for whom no advertising service is rendered and also to charges to clients for such articles if separately stated from charges for advertising services in billings rendered.

The manufacturing classification applies to articles manufactured for sale or commercial or industrial use (see WAC 458-20-134), and also to interstate sales of manufactured articles separately stated from advertising services. (General principles covering sales or services to persons in other states are contained in WAC 458-20-193.)

RETAIL SALES TAX

The retail sales tax applies upon all sales of plates, engravings, electrotypes, etchings, mats, and other articles to advertising agencies for use by them in rendering an advertising service and not resold to clients.

The retail sales tax must be paid by advertising agencies to vendors upon retail purchases made by them as agent in behalf of clients.

Advertising agencies are required to collect the retail sales tax upon charges taxable under the retailing classification as indicated hereinabove, and resale certificates may be given by advertising agencies in respect to purchases of such articles.

USE TAX

The use tax applies upon the use of articles purchased or manufactured for use in rendering an advertising service. Articles acquired without payment of retail sales tax which are resold to clients, but not separately stated from charges for advertising service, are also subject to use tax.

WAC 458-20-219 PATRONAGE DIVIDENDS OF COOPERATIVE ASSOCIATIONS, NOT DEDUCTIBLE. Patronage dividends declared by co-operative selling associations or corporations and paid from the earnings of such associations or corporations are not deductible in computing tax liability under ((either)) business and occupation tax, public utility tax, or retail sales tax.

((Revised May 1, 1943.))

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-221 COLLECTION OF USE TAX BY RETAILERS AND SELLING AGENTS. Every person who has obtained a ((Use Tax)) certificate of registration (((Form 2402-C,)) see WAC 458-20-101) is required to collect the use tax from retail buyers in this state, and to report and remit the same to the department of revenue.

RCW 82.12.040 of the law provides, among other things, as follows:

"Every person who engages in this state in the business of acting as an independent selling agent for persons who do not hold a valid certificate of registration, and who receives compensation by reason of sales of tangible personal property of his principals made for use in this state, shall, at the time such sales are made, collect from the purchasers the tax imposed under this ((title)) chapter, and for that purpose shall be deemed a retailer as defined in this chapter." (For exceptions as to sale to certain persons engaged in interstate or foreign commerce see WAC 458-20-175.)

However, in those cases where the agent receives compensation by reason of a sale made pursuant to an order given directly to his principal by the buyer, and of which the agent had no knowledge at the time of sale, the said agent will be relieved of all liability for the collection of or payment of the tax. Furthermore, in other cases where payment is made by the buyer direct to the principal and the agent is unable to collect the tax from the buyer, the agent will be relieved from all liability for the collection of the tax from the buyer and for payment of the tax to the department, provided that within ten days after receipt of commission on any such sale, the agent shall forward to the department a written statement showing the following: Name and address of purchaser, date of sale, type of goods sold, and selling price. (Agents may avoid all liability for collection of this tax, provided their principals obtain a ((use tax)) certificate of registration((, Form 2402-C)).)

The use tax is computed upon the value of the property sold. At the time of making a sale of tangible personal property, the use of which is taxable under the use tax, the seller must collect the tax from the purchaser and upon request give to the purchaser a receipt therefor. This receipt need not be in any particular form, and may be an invoice which identifies the property sold, shows the sale price thereof and the amount of the tax.

The law provides that the tax required to be collected shall be deemed to be held in trust until paid to the department and shall be available for payment on the due date thereof, and that the tax shall not be absorbed by the retailer but shall be collected as a separate item and that the retailer shall be personally liable for any tax which he fails to collect. (See WAC 458-20-178.)

AMENDATORY SECTION (Amending Order ET 70–3, filed 5/29/70, effective 7/1/70)

WAC 458-20-231 V TAX ON ((WHOLESALING FUNCTIONS)) INTERNAL DISTRIBUTION. Persons engaged in the business of distributing in this state articles of tangible personal property owned by them from their own warehouse or other central location in this state to two or more of their own retail stores or outlets, though no change in title or ownership to such property occurs, are taxable under the ((wholesaling functions)) internal distribution classification of the business and occupation tax on the value of the articles so distributed, the intent being to impose a tax equal to the wholesaler's tax upon persons performing functions essentially comparable to those of a wholesaler, but not actually making sales. The internal distribution tax is applicable to transfers of merchandise from a central location which were preordered for a receiving retail outlet even if there is no inspection or opening of cartons or boxes at or by the central location. The tax may also be applicable to transfers by a retail outlet to two or more other retail outlets which are under the same ownership.

WAREHOUSE OR OTHER CENTRAL LOCATION

The term "warehouse or other central location" generally means any facility regardless of the type of activity conducted there, which is operated in this state by a person who distributed tangible personal property from that facility to two or more of his own retail stores or outlets.

The said term includes any retail outlet irrespective of how the distributed goods may be inventoried or stored at such outlet. The term includes any facility, central distributing point, building, loading platform and adjacent areas operated by the taxpayer where articles of tangible personal property are received and from which they are distributed. Such facilities, distributing points, buildings, platforms and areas are included within the term regardless of how long such property may remain at such places and regardless of the nature of the activity performed at such places with respect to such property.

The said term also includes any manufacturing or processing facility operated by the taxpayer from which such distribution is made. The term does not include facilities operated by other persons at which team track deliveries are made into trucks for distribution to retail outlets nor does it include any individual trucks owned by the taxpayer from which deliveries are made at facilities or places not owned by the taxpayer to other trucks for distribution to retail outlets.

Two or more retail stores or outlets

The term "two or more of their own retail stores or outlets" means two or more retail stores operated within this state separate and apart from any "warehouse or other central location." The term does not include a retail store or retail outlet, a part of which is operated as a warehouse from which distribution is made. However, a retail store or outlet will be counted as separate and apart, even though it may be located within the same premises or under the same roof as a warehouse or central location, if it is operated separately, as evidenced for example by separate employee payrolls, accounting records, inventory control, or clearly defined work and retail sale areas. The term does not include delivery trucks or vans. The term "retail store or outlet" does not include vending machines or similar devices through which sales are activated by coin deposits. However, the term includes((, but is not limited to, automats or)) business establishments retailing diversified goods primarily through the use of such devices.

ARTICLES OF TANGIBLE PERSONAL PROPERTY

The term "articles of tangible personal property" means all commodities distributed from a warehouse or central location for sale, including particular articles which may be distributed to only one of two or more retail stores or outlets.

TAXABLE DISTRIBUTIONS

In cases where the taxpayer sells at both wholesale and retail, the ((wholesaling functions)) internal distribution tax will not be applicable with respect to articles distributed for sale at wholesale and upon the sale of which tax will be due under the classification Wholesaling - ((AH)) Other ((s)). Further, the ((wholesaling))functions)) internal distribution tax will not be applicable where the person liable for the tax can show by proper invoice, or by certification from his vendor that he has purchased such property from a wholesaler who has paid the business and occupation tax to the state upon the sale of such property to such person. The tax is applicable, however, to transfers of merchandise purchased from manufacturers in this state, as defined in RCW 82.04.110, even though the manufacturer may have paid business and occupation tax on the manufacture and sale of such merchandise. When transfers of all merchandise purchased from a particular vendor will be exempt from the ((wholesaling functions)) internal distribution tax under the conditions set forth above, certification by the vendor may be in blanket form covering all prior and subsequent transactions between the taxpayer and the certifying vendor. In such case, the certificate should be in substantially the following form:

CERTIFICATE OF VENDOR—((WHOLESALING FUNCTIONS)) INTERNAL DISTRIBUTION TAX

The undersigned vendor hereby certifies that he is registered with the Department of Revenue of the State of Washington under Certificate No. and that he has paid, or will pay, the applicable Business and Occupation Tax (chapter 82.04 RCW) upon all sales heretofore or hereafter made to The undersigned vendor further certifies that he is not a "manufacturer" in this state, as the term is defined in RCW 82.04.110, in respect to any of the commodities sold or to be sold to the above named purchaser. Date

Articles distributed from independent manufacturers or distributors directly to the taxpayer's retail customers are not taxable distributions by the taxpayer. ((However, property transferred from the taxpayer's own warehouse or central location directly to his retail customer pursuant to orders placed at a retail outlet of the taxpayer are taxable distributions if distribution of the property would have been subject to the tax had it been distributed from such warehouse or central location to the store at which the customer's order was taken.)) Articles distributed from independent manufacturers or distributors directly to the taxpayer's retail stores or outlets are not taxable distributions by the taxpayer. Only the first distribution of seasonal or other goods from a warehouse or central location is taxable, whether or not such goods were originally received in a retail store and later transferred to the warehouse or central location from which taxable distribution is later made.

DETERMINATION OF THE VALUE OF THE ARTICLES DISTRIBUTED

The value of articles distributed shall correspond as nearly as possible to gross proceeds of sales at wholesale in this state by other taxpayers of similar articles of like quality and character and in similar quantities. Taxpayers may determine the value of articles distributed by one of the following methods:

METHOD 1. COST.

A. Cost of production. The value of articles distributed may be computed upon the basis of the cost of manufacturing or producing such articles. In such case there shall be included every item of cost attributable to the particular article or articles manufactured or produced, including cost of transportation to the local distribution point. In such event tax liability accrues during the period in which the articles are distributed.

B. Purchase Price. The value of articles distributed may be computed upon the basis of purchase price including delivery costs of such articles delivered at the local distribution point. The purchase price must include

the amount of state and federal excise taxes imposed upon the distributor for the sale, handling or distribution of the articles distributed, whether such taxes are paid by the distributor to his vendor, or are paid by him directly to the taxing body. In such event tax liability accrues during the period in which the articles were purchased, even though the particular articles purchased may not be distributed until a later date. (Not available to those who manufacture or produce the articles distributed.)

METHOD 2. INVOICE PRICE TO RETAIL STORE. The value of articles distributed may be computed upon the basis of charges or memorandum invoices rendered to the retail stores at the time the articles are distributed, providing the amount of such charges or invoices is not less than the cost price of such articles. In computing the cost price, there must be included the amount of state and federal excise taxes imposed upon the distributor for the sale, handling or distribution of the articles distributed, whether such taxes are paid by the distributor to his vendor, or are paid by him directly to the taxing body. In such event tax liability accrues during the period in which the articles are distributed.

METHOD 3. RETAIL SELLING PRICE LESS 15%. The value of articles distributed may be computed upon the basis of the retail selling price less 15%. In such event tax liability accrues during the period in which the articles are sold at retail.

METHOD 4. CORRESPONDING WHOLESALE SALES. The value of articles distributed may be determined according to the gross proceeds of sales of similar articles of like quality, character and quantity where bona fide wholesale sales are made during the same period, either by the taxpayer or by others, and providing a general standard price is established for such articles during said period. In such event tax liability accrues during the period in which the articles are distributed.

A taxpayer may elect to report upon the basis of any one of the four above methods, providing that the method elected shall be applied to all articles distributed, and after such election is made such taxpayer shall not be permitted to change to any other method without securing the written consent of the department of revenue. A taxpayer may use both method IA and IB if conditions warrant. Intricate or unusual problems concerning determination of the value of articles distributed should be submitted to the department for special ruling.

The statute provides that the ((wholesaling functions)) internal distributions tax may not be assessed twice to the same person for the same article. In lieu of separate accounting for articles upon which the tax has or has not been paid, determination may be based upon the percentage formula computed according to a factual segregation of articles distributed for a test period of at least two representative months. Any such formula is subject to approval by the department.

AMENDATORY SECTION (Amending Order ET 73-1, filed 11/2/73)

WAC 458–20–232 $\sqrt{\text{SALES OF INTOXICATING LIQUOR}}$.

SALES OF INTOXICATING LIQUOR

Intoxicating liquor as covered by this rule means spirits, wine, beer and strong beer as those terms are defined in chapter 66.04 RCW.

BUSINESS AND OCCUPATION TAX

Persons selling intoxicating liquor to consumers by the drink, opened bottle or unopened bottle are subject to the business and occupation tax under the retailing classification upon the gross proceeds of sales. No deduction is allowable for the special liquor sales taxes levied on these commodities.

Persons selling intoxicating liquor, mixers, ice, etc., for resale are subject to the business and occupation tax under the wholesaling—Others classification upon the gross proceeds of sales.

LIQUOR AGENCIES. Persons operating liquor agencies on a commission basis are employees of the Washington state liquor control board and are not subject to business and occupation tax on income from this activity.

SPECIAL LIQUOR SALES TAXES

These taxes are imposed by RCW 82.08.150 and are collected and administered by the Washington state liquor control board.

GENERAL RETAIL SALES TAXES OF CHAPTER 82.08 RCW (STATE SALES TAX) AND CHAPTER 82.14 RCW (LOCAL SALES TAX)

Sales of wine and beer to consumers by the drink, opened bottle or unopened bottle, and sales of spirits by the drink, are subject to the retail sales taxes imposed by chapters 82.08 and 82.14 RCW. These taxes are also collectible by the Washington state liquor control board and its agencies on sales of wine and beer. The measure of the tax is the gross selling price without deduction for special liquor sales taxes. Sales of spirits and strong beer in the original package by the Washington state liquor control board and its agencies are not subject to these retail sales taxes. For sales tax collection instructions with respect to sales of alcoholic beverages by Class H licensees. Taverns, and the like, see WAC 458-20-119.

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-234 BUSINESS TAX ON FLOUR MILLERS, MANUFACTURERS OF SOYBEAN OR SUNFLOWER OIL. RCW 82.04.260(2) imposes business and occupation tax upon the manufacture of wheat into flour, soybean oil, or sunflower oil as follows:

"Upon every person engaging within this state in the business of manufacturing wheat into flour, soybeans into soybean oil, or sunflower seeds into sunflower oil; as to such persons the amount of tax with respect to such business shall be equal to the value of the flour or oil

manufactured, multiplied by the rate of one-eighth of one percent."

This special classification for flour millers is limited strictly to those manufacturing "wheat into flour" and does not apply to the milling of any other type of grain; nor does it apply to the manufacture of any other product from wheat than flour. The term "flour" shall have its ordinary meaning and includes flours such as wheat, wholewheat, cracked wheat, entire wheat graham, bulgar, and rolled wheat ((shall not include)) but excluding such by-products as bran and shorts. Insofar as such other products are concerned, the tax under the general manufacturing classification (RCW 82.04.240) will apply.

Accordingly a miller milling wheat into flour will be taxable under manufacturing wheat into flour on the value of the flour manufactured and manufacturing—other on the value of the offal produced as a result of the milling process.

Persons making sales in this state of flour, soybean oil, or sunflower oil which they have manufactured are subject to business tax under either the retailing or wholesaling—all others classification and are not subject to tax under the classification manufacturing wheat into flour. (RCW 82.04.440.)

AMENDATORY SECTION (Amending Order ET 71–1, filed 7/22/71)

WAC 458-20-240 MANUFACTURING, TAX CREDITS. GENERAL RULE. RCW 82.04.435 provides for a credit against the business and occupation tax otherwise payable by qualified manufacturers as a result of tax actually paid under chapter 82.08 RCW (retail sales tax) or chapter 82.12 RCW (use tax) on materials, labor and services in the construction of new buildings or the enlarging of existing buildings directly used in such manufacturing activities. In general, the credit is extended to those persons whose activities are defined in RCW 82.04.120 (the definition of the term "to manufacture") with respect to retail sales tax or use tax paid by such persons, their lessors or their contract vendors, on materials, labor and services in connection with such construction or enlarging. The following general principles will apply.

LIMITATIONS:

1. By statutory restriction this credit is available only to "persons engaging in activities defined in RCW 82-.04.120" (the definition of the term "to manufacture"), which will include only those persons whose business activities falling within the purview of the business and occupation tax occur under RCW 82.04.240 tax on

manufacturers, RCW 82.04.260(2) flour and soybean or sunflower oil manufacturers, (3) seafood products manufacturers, (4) manufacturing fruit and vegetables, (5) manufacturing aluminum, and RCW 82.04.280 printing and publishing, and including manufacturing activities which might be reported for tax under RCW 82.04.250 (retailing) or RCW 82.04.270 (wholesaling) according to the provisions of RCW 82.04.440. As to persons taxable under RCW 82.04.260(8) (slaughtering, breaking and/or processing perishable meat products and/or selling the same at wholesale) the credit will be allowable only as to tax paid on the construction of new buildings or the enlarging of existing buildings directly used in those of the listed activities which constitute "manufacturing" as defined in RCW 82.04.120 and not with respect to tax paid on buildings, or portions of buildings used in the storage, handling or marketing of unprocessed fresh perishable meat products.

2. Credits will not be allowable until an application therefor has been filed with and approved by the department of revenue. Such application must be made within two years of the date of payment of the taxes giving rise to such credits.

3. Credits are allowable only in respect to tax paid on the construction of new buildings or the enlargement of existing buildings (as hereinafter defined) directly used in manufacturing activities. Where a building is used partly for manufacturing and partly for purposes which do not qualify for credit under this rule, the applicable tax credit shall be determined by apportionment according to the ratio which the construction cost per square foot of that portion of the building directly used for manufacturing purposes bears to the construction cost per square foot of the total building.

4. The terms "manufacturer" and "manufacturing" are to be narrowly construed and the credit is not allowable in respect to buildings utilized for such nonmanufacturing activities as extracting, marketing, parking and transportation, nor to office and storage facilities except as specifically provided herein.

5. Credits are allowable only in respect to tax paid on the construction of new or enlarged buildings, not on the repair or renovation of existing buildings.

- 6. Credits may be taken only against tax payable which is attributable to manufacturing activities conducted in the particular factory, mill or manufacturing plant in which such buildings are located. Thus, the credit may not be taken against business and occupation tax liability occurring as the result of manufacturing activities conducted at a separate plant nor against the tax due on any nonmanufacturing activities.
- 7. No credit will be allowable for tax paid on purchases of labor, material or services on which the supplier becomes entitled to compensation after January 1, 1971, except that with respect to purchases made pursuant to any contract entered into prior to January 1, 1971, credit will be allowed in respect to tax paid on such purchases prior to July 1, 1972; further, as to the construction of buildings used directly in the manufacture of metals, the credit will include taxes paid on all purchases for construction which was in progress on January 1, 1971 and was completed after that date.

DEFINITIONS:

- 1. The term "contract vendor" shall mean only those persons who will convey by a contract of sale buildings, as defined herein, to a manufacturer to be used as a new manufacturing facility. The term will not include contractors who may be engaged by manufacturers for the purpose of the construction of structures, nor will it include vendors who will supply tangible personal property under contract to a manufacturer. The term will not include vendors of buildings which have been previously used for any purpose.
- 2. The term "lessors" shall mean only those persons who will rent or lease buildings, as herein defined, to a manufacturer to be used as a new manufacturing facility. The term will not include lessors of tangible personal property to manufacturers nor will it include lessors of manufacturing buildings which have previously been used for any purpose.
- 3. The term "manufacturer" shall include only those persons operating a manufacturing plant whose activities are described under the provisions of RCW 82.04.120 "to manufacture" and as further defined under the subheading "definitions" of the department of revenue's published WAC 458-20-136, manufacturing, processing for hire, fabricating.
- 4. The term "buildings" means and includes only those structures used to house or shelter manufacturing activities, including the usual lighting, heating, and sanitary plumbing facilities. The term does not include any construction performed outside the exterior walls of the building such as landscaping, walks and driveways, parking areas, septic tanks and drain fields, water, electrical or sewer lines and the like. The term does include plant offices and facilities for the storage of raw materials or finished goods when such facilities are essential to and an integral part of the factory, mill or manufacturing plant in which they are located. The term includes potlines and furnaces used directly in the manufacture of metals, but does not include any other manufacturing or industrial fixtures or equipment such as tanks, conveyor systems, cranes, industrial machinery and related facilities irrespective of whether or not such facilities or equipment are affixed to the realty.

CHANGES IN OWNERSHIP. In general, a tax credit may be taken only by the person who has paid the retail sales tax or use tax, or whose lessors or contract vendors have paid the tax, and the credit may not be transferred or sold to a successor as defined in RCW 82.04.180. However, when the control of and beneficial interest in the subject matter of the transfer of assets remains in the same individuals or entity after completion, and the transfer of assets is deemed exempt from retail sales tax or use tax according to the principles set forth in WAC 458-20-106, any portion of the tax credit remaining unused may be utilized by the surviving entity under the limitations otherwise provided by the law.

DETERMINING ALLOWABLE CREDITS. Prior to taking any deduction under the business and occupation tax on a regular return filed, the amount of the sales tax or use tax paid on the constructing or enlarging of buildings directly used in performing manufacturing activities is to

be established and approved by the department of revenue so that the appropriate credit can be established on the manufacturer's account, against which subsequent deductions will apply. In no event may a tax credit be deducted until the retail sales tax has been paid. In the case of a complex project where an advisory ruling is desired, application for a tentative determination by the department of revenue as to the eligibility of the project for credit may be made in letter form at any time. Application for tax credit shall be made by letter describing the project, setting forth all pertinent facts including the following: Name of contractor or material vendor, nature and location of work performed or materials supplied, date of invoice, date of payment, amount of invoice exclusive of sales tax and amount of tax paid. Tentative authorization must be secured from the department before deductions or offsets against the business and occupation tax will be allowed. Upon such authorization, special reporting forms will be supplied the taxpayer for purposes of deducting and reconciling the tax credit.

AMENDATORY SECTION (Amending Order ET 70-3, filed 5/29/70, effective 7/1/70)

WAC 458-20-241¹ RADIO AND TELEVISION BROADCASTING. For the purpose of this rule:

"Broadcast" or "broadcasting" includes both radio and television commercial broadcasting stations unless it clearly appears from the context to refer only to radio or television.

"Local advertising" means all broadcast advertising other than national, network, or regional advertising as herein defined.

"National advertising" means broadcast advertising paid for by sponsors which supply goods or services on a national or international basis ((and which advertising is billed to an advertising agency office, national representative or sponsor located outside the state of Washington)).

"Network advertising" means broadcast advertising originated by national or regional broadcast networks from outside the state of Washington, the broadcast advertising being supplied by national or regional network broadcasting companies.

"Regional advertising" means broadcast advertising paid for by sponsors which supply goods or services on a regional basis over two or more states ((and which advertising is billed to an advertising agency office, regional representative or sponsor located outside the state of Washington)).

BUSINESS AND OCCUPATION TAX

RADIO AND TELEVISION BROADCASTING. Taxable ((or)) on gross income from the sale of radio or television advertising, and any other gross income from broadcasting, ((including)) excluding sales to other broadcasters of the right to broadcast material on processed film, sound recorded magnetic tape, and other transcriptions (see ((retail sales tax)) service and other activities).

DEDUCTIONS FROM GROSS INCOME FROM ADVERTISING:

- 1. AGENCY FEES. It is a general trade practice in the broadcasting industry to make allowances to advertising agencies in the form of the deduction or exclusion of a certain percentage of the gross charge made for advertising ordered by the agency for the advertiser. This allowance will be deductible as a discount in the computation of the broadcaster's tax liability in the event that the allowance is shown as a discount or price reduction in the billing or that the billing is on a net basis, i.e., less the discount.
- 2. GROSS RECEIPTS FROM NATIONAL, NETWORK, AND REGIONAL ADVERTISING. The taxpayer may deduct either actual gross receipts from national, network, and regional advertising as herein defined, as included in the gross amount reported under radio and television broadcasting, or may take a "standard deduction" as provided by RCW 82.04.280, as amended by chapter 149, Laws of 1967 ex. sess., which will be a percentage arrived at annually for all broadcast stations in the state of Washington which use the standard deduction method. This percentage will be determined by dividing the total broadcast advertising receipts in the nation from network, national, and regional advertising (((as annually announced by the Federal Communications Commission))) by the total broadcast advertising receipts in the nation (((as annually announced by the Federal Communications Commission)).

This standard deduction will be based on the most current figures published ((by the Federal Communications Commission)) at the beginning of the calendar year and shall be used throughout that calendar year notwithstanding the publishing of the following year's figures within that calendar year. Previously the Federal Communications Commission published the figures used to compute the standard deduction. The Federal Communications Commission no longer publishes these figures and henceforth it will be the responsibility of the industry to annually provide these figures to the department of revenue. The figures used will be subject to verification by the department.

Example of computation:

The standard deduction for persons engaged in radio and television broadcasting ((is)) was 64% for the calendar year 1970. The deduction ((is)) was computed ((from 1968 F.C.C. figures, which are the most recent available)) as follows:

1. Total radio advertising receipts 1968	\$1,076,300,000
2. Total television advertising receipts 1968	2,087,600,000
3. Total broadcast advertising receipts	3,163,900,000
4. Total national, network, regional advertising receipts, radio, 1968	379,200,000
5. Total national, network, regional advertising receipts, television, 1968	1,635,100,000

6. Total broadcast advertising receipts from national, network, and regional advertis-

2,014,300,000

7. Standard deduction for 1970 will be the quotient of line 6 divided by line 3 or

64%

3. Interstate business, allocation. It is recognized that radio and television broadcasting is an interstate business and that under the Constitution of the United States a tax is prohibited upon so much of the revenue of a radio or television broadcasting station as is derived from the service of broadcasting to persons in other states or foreign countries. Accordingly, revenues from local advertising shall be allocated to remove from the tax base the gross income from advertising which is intended to reach potential customers of the advertiser who are located outside the state of Washington.

It will be presumed that the entire gross income of radio and television stations located within the state of Washington from local advertising as herein defined is subject to tax unless and until the taxpayer submits proof to the department of revenue that some portion of such income is exempt according to the principles set forth herein and until a specific allocation formula has been approved by the department.

METHOD OF ALLOCATION. When the total daytime listening area of a radio or television station extends bevond the boundaries of the state of Washington, the allowable deduction is that portion of revenue represented by the out-of-state audience computed as a ratio to the station's total audience as measured by the 100 microvolt signal strength and delivery by wire, if any. The out-of-state audience may therefore be determined by delivery "over the air" and by community antenna television systems. However, community antenna television audiences may not be claimed by a station in the same area in which it claims an audience served over the air, thus eliminating a claim for double exemption.

The most current ((U.S.)) United States and Canadian census figures will be used to determine the in-state and out-of-state audience.

An engineer holding at least a first class operator's license from the Federal Communications Commission must compute the 100 microvolt contour for the station claiming the exemption. The 100 microvolt contour will be applicable to all broadcasting stations, whether standard (AM), frequency modulation (FM), or television (TV), and the applicable contour will be the daytime ground-wave contour. The computation must be submitted to the department of revenue in map form, showing the scale used in miles, with the contour drawn on the map and the counties or cities within the contour indicated. The map must be certified as being correct by the personal signature of the engineer making the computation. The type of license held by the engineer should be indicated. The map must have attached to it the population covered both within and without the state according to the applicable ((U.S.)) United States and Canadian census.

In the event that cable antenna television subscribers are claimed as part of the out-of-state audience, the name of the systems, the location, and the number of subscribers must also be attached to the map. The number of subscribers will be multiplied by a factor of 3, representing the average size household family.

The foregoing exhibits must be forwarded to the Department of Revenue, Olympia, Washington ((98501)) 98504, and must be approved by the department before any deduction is allowable.

Service and other activities. Taxable on gross income from personal or professional services ((which are not included within the definition of the term "sale at retail" in RCW 82.04.050)), including gross income from producing and making custom commercials or special programs, fees for providing writers, directors, artists and technicians, ((as well as)) charges for the granting of a license to use facilities (as distinct from the leasing or renting of tangible personal property, see WAC 458-20-211), and charges to other broadcasters for the mere right to broadcast material on processed film, sound recorded magnetic tape, and other transcriptions when the material is returned to the original broadcaster.

RETAILING OR WHOLESALING. Taxable on gross proceeds of sales of tangible personal property ((or of services included within the definition of "sale at retail" in RCW 82.04.050. (See subheading retail sales tax.))), including gross proceeds from sales of films and tape produced for general distribution and from sales of copies of commercials, programs, films, etc., even though the original was not subjected to sales tax. The sale of custom—made programs, commercials, films, etc., is not taxable under this classification. (See subheading SERV-ICE AND OTHER ACTIVITIES above.)

Manufacturing. Taxable on the cost to produce special programs, such as public affairs, religious, travelogues, and other general programming, which are vended to other broadcasters under a lease or contract granting a mere license to use. This tax does not apply to a recording made for the broadcaster's own use, including news, delayed programs, commercials and promotions, special and syndicated programming, and "entire day" programming.

RETAIL SALES TAX. Sales to broadcasters of equipment, supplies and materials for use and not for resale ((without intervening use)) are subject to the retail sales tax. This includes sales of <u>raw or unprocessed</u> film or magnetic tape and other transcription material as well as processed film, recorded magnetic tape or other transcriptions unless vended under a lease or contract granting a mere license to use.

If the tapes, films, etc., upon which the sales tax has been paid are later sold by the broadcaster in the regular course of business, the provisions of WAC 458-20-102 concerning purchases for dual purposes will apply.

Sales to broadcasters of the right to broadcast the material on processed film, sound recorded magnetic tape, and other transcriptions under a right or license granted by lease or contract are not retail sales and the retail sales tax is not applicable.

The broadcaster must collect retail sales tax on sales of packaged films, programs, etc., produced for general distribution, including training and industrial films, and also on sales of copies of films, commercials, programs, etc., even though the original was not subjected to sales tax.

Use TAX. Acquisition or exercise of the right to broadcast processed film, recorded magnetic tape or other transcriptions under a right or license granted by lease or contract is not the use of tangible personable property by the broadcaster and the use tax is not applicable.

Broadcasters of radio and television programs are subject to use tax on the value of articles manufactured or produced by them for their own use (excluding custom produced commercials or special programs which includes, but is not necessarily limited to, recordings of news, delayed programs, commercials and promotions, special and syndicated programming, and "entire day" programming) and on the use of tangible personal property purchased or acquired under conditions whereby the retail sales tax has not been paid. The broadcaster is liable for use tax ((is applicable to)) on the value (cost of production) of processed film, sound recorded magnetic tape, and other transcriptions when the ((taxpayer)) broadcaster vends merely the right to broadcast such material under a right or license granted by lease or contract.

AMENDATORY SECTION (Amending Order ET 77–1, filed 12/8/77)

WAC 458-20-242A ∜POLLUTION CONTROL EXEMPTION AND/OR CREDITS FOR SINGLE PURPOSE FACILITIES ADDED TO EXISTING PRODUCTION PLANTS TO MEET POLLUTION CONTROL REQUIREMENTS AND WHICH ARE SEPARATELY IDENTIFIABLE EQUIPMENT PRINCIPALLY FOR POLLUTION CONTROL. Rule 242 deals with pollution control facilities and is published in two parts:

- Part A. Single purpose facilities added to existing production plants as separately identifiable equipment principally for pollution control and which are not designed for production of products other than recovered products which but for the facility would be released as pollutants.
- Part B. Dual purpose facilities which consist of new plant equipment which achieves pollution control in the process of production of the plant's products rather than through the add on of a pollution device to existing plant equipment at some point in processing or upon completion of processing.

DEFINITION OF TERMS

For purposes of this rule:

- 1. "Facility" shall mean an "air pollution control facility" or a "water pollution control facility" as herein defined:
- a. "Air pollution control facility" includes any treatment works, control devices and disposal systems, machinery, equipment, structures, property or any part or accessories thereof, installed or acquired for the primary purpose of reducing, controlling or disposing of industrial waste which if released to the outdoor atmosphere could cause air pollution. "Air pollution control facility" shall not mean any motor vehicle air pollution control devices used to control the emission of air contaminants from any motor vehicle.
- b. "Water pollution control facility" includes any treatment works, control device or disposal system, machinery, equipment, structures, property or any accessories thereof installed or acquired for the primary purpose of reducing, controlling or disposing of sewage and industrial waste, which if released to a water course could cause water pollution; provided, that the word "facility" shall not be construed to include any control device, machinery, equipment, structure, disposal system or other property installed or constructed for a municipal corporation or for the primary purpose of connecting any commercial establishment with the waste collecting facilities of public or privately owned utilities.
- c. For purposes of this exemption or credit, the terms "commercial establishment" and "other commercial establishment" do not include contractors or their suppliers who install pollution control equipment in facilities of and for another person.
- 2. For the purpose of tax credit or exemption, "cost" shall be limited to capital expenditures directly related to the acquisition and installation of the control facility as described in the application. For the purposes of this definition, capital expenditures may include engineering, architecture, legal fees, overhead and other costs which may be directly attributed to the control facility.
- 3. "Net commercial value of recovered products" shall mean the value of recovered products less the costs incurred in processing, including overhead costs, and costs attributable to their sale, or other disposition for value. The term shall not include a deduction for the cost or the depreciation of the facility.
- 4. "Certificate" shall mean a pollution control tax exemption and credit certificate for which application has been timely made.
- 5. "Appropriate control agency" shall mean the state department of ecology; or the operating local or regional air pollution control agency within whose jurisdiction a facility is or will be located.
- 6. For the purposes of this rule "depreciation" shall be determined by the straight line method. That is, the cost of the facility, less the salvage or residual value, divided by months of useful life yields the amount by which the facility is depreciated monthly. In computing depreciation for purposes of obtaining a certificate, depreciation shall be computed through the last full month prior to the month in which the application for certificate is filed.

7. "Department" shall mean the Washington state department of revenue.

FILING APPLICATION AND ISSUANCE OF CERTIFICATES

An application for a certificate will be made available by the department to cover the following conditions:

- 1. Existing facilities, to provide the basis for a tax credit and for sales tax paid.
 - 2. Proposed facilities
- a. to provide the basis for a tax exemption on the purchase of material and equipment;

b. to provide the basis for a tax credit.

The application must show the cost of the facility, specifically stating costs of materials and equipment incorporated into it. When the certificate is for the purposes referred to in "2" above, estimated costs must be shown. The certificate issued on an application based on estimated costs will not permit the holder to claim the credit referred to in "2b" above until an application showing actual costs has been filed and a supplement to the certificate issued.

Applications showing actual costs must also show the total depreciation which is applicable to the facility to the date of the application, the net commercial value of all materials recovered or captured by the facility during the entire period of operation prior to the date of application, and the amount of federal tax credit taken on federal tax returns filed prior to the date of application.

If, subsequent to the issuance of a certificate for a facility, a determination is made to modify or replace such facility, the certificate holder may file an application for a new or a supplemental certificate covering the modification or replacement following the same procedures provided for making application for original certificate. After the issuance by the department of any new certificate or supplement, all subsequent tax exemption and credits for the modified replacement facility shall be based thereon.

The application will be submitted to the department which will forward it to the appropriate control agency within ten days of its receipt from the applicant. The determination that a facility is designed and operated or is intended to be operated primarily for the control, capture and removal of pollutants from the air, or for the control and reduction of water pollution, and that the facility is suitable and reasonably adequate, and meets the intent and purposes of chapter 70.94 RCW (air pollution) or chapter 90.48 RCW (water pollution) will be made by the appropriate control agency. The control agency will notify the department of its findings within thirty days of the date the application was received for approval. The department will make the final determination of cost.

In making a determination, the appropriate control agency will afford to the applicant an opportunity for a hearing. If the local or regional air pollution control agency fails to act or if the applicant feels aggrieved by the action of the local board, the applicant may appeal to the department of ecology pursuant to rules and regulations established by that department.

Upon notification of the action taken by the control agency the department will issue a certificate or notice

of denial within thirty days of the receipt of the application from the control agency. The department will send a certificate or supplement, when issued, by certified mail. Notice of refusal to issue a certificate will likewise be sent by certified mail.

TIME LIMITATIONS. Application must be made no later than December 31, 1969, except that with respect solely to a facility required to be installed in an industrial, manufacturing, waste disposal, utility, or other commercial establishment which is in operation or under construction as of July 30, 1967, such application will be deemed timely if made within one year after the effective date of specific requirements for such facility promulgated by the appropriate control agency; whether or not the determination is made before or after the limitation date of December 31, 1969. The "effective date of specific requirements" refers to the compliance order's date for completion of engineering.

REVOCATION OF CERTIFICATE. The department may revoke an issued certificate upon subsequent discovery that it was improperly issued for reason of illegality, fraud, mistake, or the ineligibility of the applicant.

UTILIZATION OF EXEMPTION AND CREDIT

SALES TAX EXEMPTION. The original acquisition of a facility, or the modification (meaning a substantial improvement resulting from added capacity in the removal of pollutants from the air or water) of an existing facility by the holder of a certificate shall be exempt from sales tax imposed by chapter 82.08 RCW and use tax subsequent to the effective date of the certificate. For applications filed subsequent to January 1, 1975 certificate holders shall receive credit for sales and use tax paid on acquisition of the facility prior to receiving certification. This exemption does not extend to servicing, maintenance, repairs or replacement parts after a facility is complete and placed in service.

Subsequent to July 30, 1967, a certificate holder may elect to pay sales or use tax on the acquisition and installation of a control facility and, subsequently, take a credit against future liability under business and occupation, use, or public utility tax to the extent of the foregoing exemption, except that a person so electing may not take any further manufacturing tax credit as provided in RCW 82.04.435 on the same facility.

BUSINESS AND OCCUPATION, USE, OR PUBLIC UTILITY TAX CREDIT. With respect to a facility which has been placed in operation and for which a certificate has been issued, a tax credit not exceeding 2 percent of the cost of a new facility or of the depreciated cost of an existing facility may be taken for each year the certificate is in force. Such credit may be claimed against business and occupation, use, or public utility tax liability; however, it shall not exceed 50 percent of the tax liability for any reporting period for which it is claimed nor shall the cumulative amount of credit allowed for any facility exceed 50 percent of the cost of the facility.

CREDITS TO BE REDUCED. Credits claimed will be reduced by the net commercial value of materials captured or recovered by the pollution control facility. The value of such material shall first reduce the credit available in the current reporting period and then be applied against

the cumulative credit balance which has been established but which may not be currently available to the certificate holder. Applicants and certificate holders shall provide the department with information required to establish the net commercial value of recovered or captured material and will be required to make books and records available to the department to verify the correctness of information furnished. The cumulative credit will also be reduced by the amount of federal investment tax credit or other federal tax credits allowed to the certificate holder which are applicable to the facility. The federal tax credits shall be taken as an offset against a pollution control tax credit claimed in the first reporting period following the date of filing the tax return on which the federal tax credit was taken, and thereafter as an offset against a credit hereunder as it becomes available to the certificate holder. The applicant shall advise the department of adjustments to the federal tax credits, either increase or decrease, resulting from either an audit by the internal revenue service, or otherwise. Adjustments to the credit allowable under this rule will be made by the department accordingly.

The department will issue instructions and forms to the certificate holder covering the accounting for the credit for which the certificate holder is eligible. Where a certificate holder is also eligible for manufacturing tax credit, the department may issue special instructions covering the separate accounting for the tax credits.

Credit will be allowable only in any period in which a certificate is in force.

AMENDATORY SECTION (Amending Order ET 71–2, filed 10/27/71)

WAC 458-20-243 LITTER TAX. ((Section 12, chapter 307, Laws of 1971 1st ex. sess.,)) RCW 70.93-120 levies an annual litter assessment upon manufacturers, wholesalers, and retailers of certain products. The rate of this special tax is .00015 (.015%) and it applies to sales within this state made on and after May 21, 1971.

The tax is to be computed on and paid with the last return for the calendar year. A designated space on this return ((designated as line 34-A)) is to be used for reporting the litter tax.

The measure of the tax is the gross proceeds of the sales of the business and will apply to places of business on sales of products falling into the thirteen categories listed in ((section 13 of the law)) RCW 70.93.130 which are defined as follows:

1. Food for human or pet consumption means any substance, except drugs, the chief general use of which is for human or pet nourishment, including candy, chewing gum, and condiments. It includes sales of meals, snacks, lunches, or other food by restaurants, drive-ins, snack bars, concessions, and taverns. Drugs means substances or products appearing in the latest listing of ((U.S.)) United States pharmacopoeia or national formulary the chief general use of which is as medicine for treating disease, healing, or relieving pain, but excluding devices, apparatus, instruments, prostheses and the like.

- 2. Groceries means all products, except drugs, sold by persons in a place of business selling food for off premises consumption, but excluding building materials, clothing, furniture, and appliances.
- 3. Cigarettes and tobacco products include all of the products subject to the excise taxes of chapters 82.24 and 82.26 RCW.
- 4. Soft drinks and carbonated waters means all beverages, excluding liquor as defined by Title 66 RCW or rules and regulations of the Washington state liquor control board, but including fruit juices, milk, and all mixtures or dilutions of nonalcoholic beverages.
- 5. Beer and other malt beverages means all beverages defined as beer or malt liquor by Title 66 RCW or rules and regulations of the Washington state liquor control board.
- 6. Wine means all alcoholic beverages defined as wine in Title 66 RCW or rules and regulations of the Washington state liquor control board.
- 7. Newspapers and magazines means all daily and periodical publications.
- 8. Household paper and paper products means materials or substances made into sheets or leaves from natural organic or synthetic fibrous material for home or other personal use. It includes also products or articles made from such sheets or leaves for home or other personal use.
- 9. Glass containers means articles made wholly or in substantial part of processed silicates which can be, or are, used to hold other things within themselves.
- 10. Metal containers means articles made wholly or in substantial part of materials such as iron, steel, tin, aluminum, copper, zinc, lead, silver and any alloys thereof and which can be, or are, used to hold other things within themselves.
- 11. Plastic or fiber containers made of synthetic material means articles which can be, or are, used to hold other things within themselves and which are made of synthetically produced ethylene derivatives, resins, waxes, adhesives, or polymers or by synthesis of fiber materials with adhesives, polymers, waxes, resins, or other materials. It includes containers made of paper, pasteboard, or cardboard in which the container materials consists of fibrous substances synthesized with other materials. Synthetic material means that produced by synthesis which is the process of making or building up by a composition or union of simpler parts or elements as distinguished from the process of extraction or refinement.
- 12. Cleaning agents means all soaps, detergents, solvents, or other cleansing substances used for cleaning buildings, places, persons, animals, or other things.

Toiletries means all substances such as soap, powder, cologne, perfume, cosmetics, toothpaste, etc., used in connection with personal dressing or grooming.

13. Nondrug drugstore sundry products means all products, goods, or articles, except drugs, sold by persons in a place of business selling drugs, but excluding building materials, clothing, furniture, and appliances.

"Place of business" for purposes of this rule means any location, department, or division even though it be a part of a larger business operation provided it is separate from such other or additional business physically, operationally, and in its books and records. Thus, a department store which consists of a grocery department and a clothing department, each with its own space and having separate employees, cash registers, and accounting records would not be subject to the groceries litter tax on the sales of its clothing department merely because it was located in the same building and under the same ownership as the grocery department.

"Gross proceeds of the sales of the business" means the value proceeding or accruing from the sale of tangible personal property and/or for services rendered without any deduction for costs or expenses. In the case of publishers of newspapers and magazines the measure of the litter tax is the same as specified in WAC 458-20-143 for business and occupation tax; i.e., gross income from the publishing business including advertising income.

The law intends that the tax be limited to sales within this state and therefore there may be deducted from the measure of the tax sales to persons in other states or transfers to points outside the state without sale. Out of state firms making sales in or into Washington will be subject to the litter tax under the principles set out for business and occupation tax in WAC 458-20-193B.

Persons operating drugstores may report and pay the litter tax measured by 50% of total sales in lieu of separately accounting for sales of drugstore sundry products. Persons operating grocery stores may report and pay the litter tax measured by 95% of total sales in lieu of separately accounting for grocery and nongrocery products sold.

AMENDATORY SECTION (Amending Order 80-31, filed 8/19/80)

WAC 392-171-386 DEFINITION AND ELIGIBILITY FOR SERIOUSLY BEHAVIORALLY DISABLED. (1) Seriously behaviorally disabled students are those who exhibit one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects their own educational performance:

- (a) An inability to learn which cannot be explained by intellectual, sensory or health factors;
- (b) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- (c) Inappropriate types of behavior or feelings under normal circumstances;
- (d) A general pervasive mood of unhappiness or depression; or
- (e) A tendency to develop physical symptoms or fears associated with personal or school problems.

(2) The term includes students who are schizophrenic ((or autistic)). The term does not include students who are socially maladjusted, unless it is determined that they are also seriously behaviorally disabled.

Students whose primary disability is identified in another handicapping category do not qualify as seriously behaviorally disabled.

- (3) All students considered for initial placement in special education as seriously behaviorally disabled shall be assessed by a multidisciplinary team including at least one school psychologist or school social worker and determined as eligible for special education and related services according to the following:
- (a) A current school district evaluation which concludes that the student has a serious behavioral disability and which considers and describes the student's social and emotional behaviors and provides any implications for educational planning.
- (i) For the purposes of establishing that the student has a behavioral disability, the evaluation shall describe behaviors which distinguish between common disciplinary problem behaviors and serious behavioral disabilities. Common disciplinary problem behaviors (e.g. truancy, smoking, breaking school conduct rules) may exist in conjunction with serious behavioral disabilities, but cannot be used as the sole criteria for recommending special education and related services.
 - (ii) The evaluation must include:
- (A) Dated and signed documented anecdotal records of behavioral observations made by two or more persons at separate times and places, each of which cite and corroborate specific behaviors which, in the aggregate, provide foundation for probable concern for serious behavioral disability. Multiple settings are required (e.g., in addition to the classroom setting consider playground, cafeteria, school bus, hallway, etc.); and
- (B) Dated and signed documented evidence of at least two intervention techniques that have been tried and the effect of each. These interventions may include, but are not limited to, changes in student's regular class schedule, and/or curriculum, and/or teacher; school counseling or community agency therapy or counseling; and
- (C) A social or developmental history compiled directly from the parent(s) and/or records, when parents are not available.
- (b) Current assessment of level of academic or cognitive achievement as measured by standardized tests appropriate to age level and administered individually.

(c) A current vision and hearing screening report.

EXCEPTION: Provided that the required academic assessment and vision and hearing screening are concluded, and provided that there are documented and dated anecdotal records of behavioral observations showing that the student's disability is evidenced in the school environment, the following evaluation reports may be substituted for the school district's evaluation:

(i) A current psychiatric evaluation which considers and describes the student's social and emotional behaviors, which concludes and describes a serious behavioral disability and where implications for educational planning are provided, the multidisciplinary team must consider these implications in planning and implementing the student's educational program; or

(ii) A current psychological evaluation by a nonpublic school mental health professional who holds a graduate degree in a recognized mental health specialty that considers and describes the student's social and emotional behaviors, which concludes that the student has a serious behavioral disability, the consequences of which entail the necessity for active, on—going therapy and/or counseling, and where implications for educational planning are provided, the multidisciplinary team must consider these implications in planning and implementing the student's educational program.

AMENDATORY SECTION (Amending Order 80-31, filed 8/19/80)

All students considered for initial placement in special education as health impaired shall be assessed and determined eligible for special education and related services according to the following:

- (1) A current medical evaluation by a qualified medical practitioner which describes and confirms the student's health circumstances and which provides any medical implications for educational planning; and
- (2) Current assessment of level of academic achievement as measured by standardized tests appropriate to age level and administered individually; and
- (3) A current evaluation which considers and describes the student's social and emotional behaviors and which provides any implications for educational planning which may include an evaluation of adaptive behaviors as measured by standardized instrument(s), or professionally recognized scales addressing the student's selfhelp and interpersonal communication skills in relation to chronological age/grade peers; and
 - (4) A current vision and hearing screening report.

- (b) Used for any purpose other than meeting a requirement imposed by this chapter.

STATEMENT OF PURPOSE

Title: Chapter 12-40 WAC.

Summary of Rules: This rule prescribes operational and other standards for the use of state owned and/or operated airports throughout the state, for individual, group, and commercial users.

Reason for Rule: Currently there are no prescribed standards available to the public for operations at state airports. The increasing recreational use and requests for private and commercial leases on state airports requires the establishment of uniform rules. The uniformity will enhance safety and reduce the state's exposure to liability.

Agency Proposing Rule: Washington State Department of Transportation.

Department Personnel Responsible for Drafting Rule: Mr. LeMoine D. Stitt, Aeronautics Program Specialist.

Department Personnel Responsible for Implementing Rule: Mr. Wm. H. Hamilton, Assistant Secretary for Aeronautics, 8600 Perimeter Road, Boeing Field, Seattle, WA 98108, (206) 764-4131.

Small Business Economic Impact Statement: This rule will affect major industry group 45-Transportation by Air, and all sub groups. It will also affect major industry group 01-Agriculture Production. In neither case will this rule affect more than 20 percent of all industries or more than 10 percent of any one industry. Therefore, a Small Business Economic Impact Statement is not required for this rule under the terms of the Small Business Regulatory Fairness Act.

AMENDATORY SECTION (Amending Order 10-79, filed 9/12/79)

WAC 180-16-195 ANNUAL REPORTING AND REVIEW PROCESS. (1) Annual district reports. A review of each school district's kindergarten through twelfth grade program shall be conducted annually for the purpose of determining compliance or noncompliance with these basic education allocation entitlement requirements. On or before the third Monday in October of each school year each school district superintendent shall complete and return the program data report form(s) now and hereafter prepared and distributed by the superintendent of public instruction. Such forms shall be designed to elicit data necessary to a determination of a school district's compliance or noncompliance with these entitlement requirements. Data reported on any such form(s) by a school district shall accurately represent the actual status of the school district's program as of the first school day in October and as thus far provided and scheduled for the entire current school year. Such forms shall be signed by: (a) The school board president or chairperson, and (b) the superintendent of the school district.

(2) State staff review. State staff shall review each school district's program data report and such supplemental state reports as staff deems necessary, and prepare recommendations and supporting reports for presentation to the state board of education: PROVIDED, That if a school district's initial program data report and any other state reports considered do not establish compliance with these basic education allocation entitlement requirements, the district shall be provided the opportunity to explain the deficiency and provide supplemental data. School districts which foresee that they will not be able to comply with these entitlement requirements or that are deemed by state staff to be in noncompliance may petition for a waiver on the basis of the limited ground((s)) of substantial lack of classroom space as set forth in WAC 180-16-225.

(3) Annual certification of compliance or noncompliance—Withholding of funds for noncompliance.

(a) At the annual March meeting of the state board of education, or at such other meeting as the board shall designate, the board shall certify each school district as being in compliance or noncompliance with these basic education allocation entitlement requirements.

(b) A certification of compliance shall be effective for the then current school year subject to any subsequent ad hoc review and determination of noncompliance as may be deemed necessary or advisable by the state board of education or the superintendent of public instruction. In addition, a certification of compliance shall be effective tentatively for the succeeding school year until such time as the state board takes its annual action certifying compliance and noncompliance with these entitlement requirements, at which time the state board may retroactively and/or otherwise revoke such tentative certification upon a finding of noncompliance.

(c) A certification of noncompliance shall be effective until program compliance is assured by the school district to the satisfaction of the superintendent of public instruction, subject to review by the state board. Basic education allocation funds in an amount(s) established by the state board shall be permanently deducted from the basic education allocation of a school district that has been certified as being in noncompliance unless such district has received a waiver, pursuant to WAC 180-16-225, from the state board for such noncompliance, or assurance of program compliance is subsequently provided for the

school year previously certified as in noncompliance and is accepted by the state board.

AMENDATORY SECTION (Amending Order 7-80, filed 5/29/80)

WAC 180-16-225 WAIVER—SUBSTANTIAL LACK OF CLASSROOM SPACE—GROUNDS AND PROCEDURE. (1) Grounds. The state board of education may waive one or more of the basic education allocation entitlement requirements set forth in WAC 180-16-200 through 180-16-220(1) only if a school district's failure to comply with such requirement(s) is found by the state board to be caused by ((levy failure and/or)) substantial lack of classroom space ((as set forth below:)).

(((a) Levy failure. For the school years 1978-79 through 1980-81 the state board may waive the requirements of WAC 180-16-200 through 180-16-220(1) if the board finds that the noncompliance has been caused by special levy failure. As a condition to a waiver based on levy failure the state board will consider and a school district must demonstrate at least the following:

(i) That the district made reasonable efforts to submit a levy proposition to the voters twice during the levy year in an amount sufficient to enable it to meet these entitlement requirements, and

- (ii) That the district's failure to comply with these entitlement requirements was caused by the lack of the revenue that would have been received from the levy. Noncompliance may be deemed to have been caused by a levy loss if the school district can demonstrate that all funds that it reasonably has available to support basic education are not sufficient to enable it to meet the referenced entitlement requirements:
- (b) Substantial lack of classroom space. The state board may waive the requirements of WAC 180-16-200 through 180-16-220(1) if the board finds that the noncompliance has been caused by a substantial lack of classroom space.)) As a condition to a waiver based on substantial lack of classroom space the state board will consider and a school district must demonstrate at least that the facilities of the school district do not contain enough classroom space or other space that can reasonably be converted into classroom space, and that necessary classroom space may not reasonably be acquired by lease or rental, to enable the district to comply with the referenced entitlement requirements.
- (2) Waiver procedure. In order to secure a waiver pursuant to subsection (1) of this section a school district must submit a petition together with a detailed explanation and documentation in support of its request not later than thirty days prior to either:
- (a) The state board of education meeting immediately preceding commencement of the school year; or

STATEMENT OF PURPOSE

Title: New section WAC 230-08-070, Raffle records; amendment to WAC 230-20-010, Disclosure of prizes and rules; new section WAC 230-20-325, Raffle tickets—Limitations and requirements for use; repeal of WAC 230-20-310, Raffle tickets—Consecutive numbering; repeal of WAC 230-20-320, All raffle tickets sold to be available for drawing; repeal of WAC 230-20-330, Presence requirement at raffle drawing; repeal of WAC 230-20-340, No more than \$1.00 per ticket may be charged to enter raffle; new section WAC 230-40-063, Charge for cutting cards; and repeal of WAC 230-40-062, No charge for cutting cards.

Statutory Authority: RCW 9.46.070(8) and (11).

Summary of Proposed Rules and Reasons Supporting Action: New section WAC 230-08-070, provides standard format for recording raffle activity to assist licensee

in maintaining records and facilitate inspection and audit of records; amendment to WAC 230-20-010, provides more specific instructions for the disclosure of prizes and rules to participants in bingo, raffles, and amusement games; new section WAC 230-20-325, consolidates instructions on raffle tickets into one rule for ease of reference and replaces following four current rules which would be repealed; repeal of WAC 230-20-310, to be merged into new section WAC 230-20-325; repeal of WAC 230-20-320, to be merged into new section WAC 230-20-325; repeal of WAC 230-20-330, to be merged into new section WAC 230-20-325; repeal of WAC 230-20-340; new section WAC 230-40-063, after initial cut of cards, proposed rule would allow cards to be cut a maximum of twice per hand at \$1.00 per cut. Would replace existing rule which prohibits charge for cutting of cards. Proponents of rule change feel that charge is necessary to prevent increasing number of requests to cut cards which interrupts play and annoys other players; and repeal of WAC 230-40-062, if WAC 230-40-063 is approved, existing rule would need to be repealed.

Agency Personnel Responsible for Drafting, Implementing and Enforcing the Rules: Keith Kisor, Director, and Elwin Hart, Deputy Director, Capital Plaza Building, 1025 East Union, Olympia, WA 98504, 234–0865 scan, 753–0865 comm.

WSR 83-08-049 PROPOSED RULES GAMBLING COMMISSION

[Filed April 1, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Gambling Commission intends to adopt, amend, or repeal rules concerning new section WAC 230-20-060, alternatives 1 and 2;

that the agency will at 10:00 a.m., Thursday, May 12, 1983, in the Town Plaza Motor Inn, North 7th Street and East Yakima Way, Yakima, Washington, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 9.46.070(10) and (11).

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before May 12, 1983.

Dated: March 14, 1983 By: Elwin Hart Deputy Director

STATEMENT OF PURPOSE

Title: New section WAC 230-20-060 (alternative #1), Limits on bingo gross receipts, prizes, expenses, and net income, and new section WAC 230-20-060 (alternative #2), Limits on bingo gross receipts, prizes, and net income.

Description of Purpose: Adopt a new rule which would place certain limits on bingo activity. Two alternatives are being filed with alternative #1 representing a proposal from a study committee of licensees and alternative #2 representing an alternate proposal from the Gambling Commission staff derived from staff analysis and the recommendations of a majority of bingo licensees.

Statutory Authority: RCW 9.46.070(10) and (11).

Summary of Proposed Rules and Reasons Supporting Action: New section WAC 230-20-060, this rule is proposed by a study committee of bingo licensees to limit prize payouts as percentages of gross receipts by class of license. It also limits expenses to amounts not in excess of net income, but places no upper limit on gross receipts. The study committee feels that limits on prizes and expenses are necessary to ensure an adequate net return to the licensed organization, but feels that an upper limit on annual gross receipts is not needed. Imposition of upper limits would impose severe hardship on one licensee which is currently in excess of upper limits on gross receipts proposed by staff, and new section WAC 230-20-060, this alternative rule is proposed by Gambling Commission staff based on staff analysis and the recommendations of a majority of licensees contacted. It would place an upper limit on bingo gross receipts and limit prize payouts as percentages of gross receipts to certain levels based on class of license. The proposed rule would be phased in over a two year period with minimum net income levels established by class of license in the second year. An upper limit on annual gross

receipts is proposed to assist in controlling an increasing trend to larger prize percentages as a method to obtain larger gross receipts. The effect of increasing prize levels has been a steady decline in net income. In addition, smaller bingo games have complained that the prize competition among the larger games has adversely impacted their attendance and gross receipts.

Agency Personnel Responsible for Drafting, Implementing and Enforcing the Rules: Keith Kisor, Director, and Elwin Hart, Deputy Director, Capital Plaza Building, 1025 East Union, Olympia, WA 98504, 234–0865 scan, 753–0865 comm.

Proponents and Opponents: WAC 230-20-060 (alternative #1), study committee of bingo licensees, and WAC 230-20-060 (alternative #2), Gambling Commission staff based on analysis of declining net incomes to organization and recommendations of majority of licensees contacted.

Agency Comments: The agency believes the proposed rules and foregoing reasons are self-explanatory and need no further comment.

These rules were not made necessary as a result of federal law or federal or state court action.

Small Business Economic Impact Statement: This agency has determined that there would be no economic impact upon small businesses in the state of Washington by the adoption of these amendments or new rules.

WSR 83-08-050 EMERGENCY RULES GAMBLING COMMISSION

[Order 129-Filed April 1, 1983]

Be it resolved by the Washington State Gambling Commission, acting at Olympia, Washington, that it does adopt the annexed rules relating to adding new section WAC 230-20-060.

We, the Washington State Gambling Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is WAC 230-20-060 is proposed because prize payouts as percentages of gross receipts from the sale of bingo cards have increased to the extent that net income to licensed organizations has been significantly reduced. This rule is proposed to prevent further increases in the prize payout percentages which would lead to even greater reductions

in net income to the licensed organization. Such continuing reductions in net income would not be in the best interests of the licensed organizations and might not reflect the intent of chapter 9.46 RCW.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 9.46.070(11) and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED March 11, 1983.

This emergency action is taken pending final action on the recommendations of a study committee of bingo licensees and agency staff.

This rule is promulgated pursuant to RCW 77.12.040 and is intended to administratively implement that statute.

- WAC 504-17-110 SPECIAL CONDITIONS. The parking regulations are enforced every day, 24 hours a day throughout the year. However, during the following periods special conditions exist and the regulations are modified accordingly:
- (1) During vacation periods and between terms temporary permits are available without fee for the period when school is not in session.
- (2) At the beginning of a semester or a summer session, parking permits are not required in student (commuter) lots, specific residence hall lots, and university housing areas from the Monday of registration week until the beginning of the sixth day of classes.
- (3) During finals week, permits are not required in student (commuter) lots, specific residence hall lots, and university housing areas.
- (4) During vacation periods and summer sessions, any valid parking permit except those issued by University Housing authorizes parking in any lot designated for students.
- (5) At the beginning of the fall semester, the prior year permits will be valid until the beginning of the sixth day of classes.
- WAC 504-17-120 PARKING AREAS. (1) Restricted Hours: During the hours of 7:30 a.m. to 5:00 p.m. Monday through Friday, all parking areas on campus are subject to restriction.
- (2) Restricted Areas: Some areas on campus are restricted at all times, except as provided in WAC 504–17–110(4). These include, but are not limited to, pedestrian mall areas, handicap zones, service zones, loading zones, motorcycle zones, spaces assigned to state vehicles, specific residence hall lots, hall director spaces, university housing zones, Rogers-Orton Lot, Wilson Road Lot, crosswalk areas and yellow curb areas. Parking is not permitted in these areas except by specifically authorized vehicles.

(3) Marked Areas:

- (a) Parking on campus is permitted only in the marked and/or signed spaces in lots and on streets. All other areas outside these designated areas are "No Parking Zones". Each parking area has signs to indicate the type of permit or permits required.
- (b) Individual parking spaces are clearly marked, and no vehicle may be parked so as to occupy any portion of more than one parking space. The fact that other vehicles may have been parked so as to require other vehicles to occupy a portion of more than one space shall not constitute an excuse for the subsequent violation.

(4) Metered Parking Spaces:

- (a) Spaces in certain lots are metered parking only. Permits are not effective in these spaces, and the meter must be paid for the amount of time parked in such space.
- (b) Except in the Student Bookstore parking area (Lots 50 and 55), parking meters are effective from 8:00 a.m. to 5:00 p.m. daily except Saturdays, Sundays and university holidays. In the Bookstore parking area, meters are effective 8:00 a.m. to 5:00 p.m. daily except Sundays and university holidays.

WAC 504-17-130 PARKING PERMITS—GEN-ERAL INFORMATION. (1) Where to Obtain Permits: Housing Area Permits are issued by the respective Housing Offices. All other parking permits are available at University Parking Services, located in the Safety Building, upon application and the payment of the appropriate fees. The applicant will receive a decal which—according to its design, color, and number code—will identify the vehicle in the categories of student commuter, student resident, staff, visitor, housing area, contractor, or other permit type, and also indicate the type of parking and the type of parking area where the vehicle may be parked.

(2) The Display of Permits:

- (a) Manner: Parking permit decals must be completely affixed by means of their own adhesive (not by tape) in the approved position on the vehicle so that they are clearly visible and readable from the outside.
- (b) Location: Parking permit decals must be affixed to the lower left corner (driver's side) of the rear window with the following exceptions:
- (i) On convertibles and trucks, they must be clearly affixed in the lower left corner of the front windshield.
- (ii) On station wagons and cars with heated rear windows they must be affixed in the lower left rear side window.
- (iii) On motorcycles they must be affixed in a conspicuous place.
- (iv) Temporary permits are displayed by hanging them from the rear-view mirror.
- (3) Pool Permits: Each vehicle in a pool group must display a pool decal in the approved location. In addition, the vehicle to be parked on campus must display the transferable card in the lower left corner (driver's side) of the windshield, or in close proximity to the pool decal
- (4) Ownership of Permits: A parking permit application must be on file for each vehicle displaying a permit. The ownership of permits is generally not transferable, but exceptions can be made by University Parking Services provided that:
- (a) the person relinquishing ownership and the purchaser appear in person at Parking Services when requesting such a transfer;
- (b) the former owner relinquishes all ownership or claim to the permit;
 - (c) the purchaser qualifies for ownership; and
- (d) the new owner completes a new application form for the permit.

If the vehicle is sold, and for any reason a replacement permit is requested, the old permit must be removed and presented to University Parking Services to be eligible for a replacement or a refund.

WAC 504-17-140 PARKING PERMITS-STAFF. (1) Any staff member who wishes to park his/her vehicle on campus in other than metered spaces must have a parking permit displayed. Such permits may be a Structure Permit, which designates a particular parking structure to be used (and which also validates parking in staff parking areas, but not in other structures), or a general Staff Permit, which validates parking in staff parking areas, and student (commuter) lots.

(2) Special Indicator Decals may be issued to staff members holding valid parking permits in the following cases, each of which must be approved by the Traffic Control Subcommittee of the University Planning Committee or its designated representative:

(a) Staff with a physical disability may be issued a Handicap Permit to meet individual needs. Applications must be accompanied by a doctor's written certification that the employee's mobility is so severely impaired as to require handicap parking privileges and the anticipated duration of the disability.

(b) Service Indicators may be issued to a staff member who must use his/her private vehicle as a service vehicle for university business; these indicators authorize parking in service zones for not more than 15 minutes.

(c) Night Parking Indicators are available to those staff members whose work schedule, certified by their department head, requires that they routinely park in areas posted "No 3:00 a.m. to 6:00 a.m. Parking" during those hours.

WAC 504-17-150 PARKING PERMITS-STU-DENTS. (1) Commuters: Those commuters who wish to park on campus during restricted hours must purchase a Student Lot Permit.

- (2) Student Residents: Students living in residence halls who wish to park in an overnight lot must purchase a Student Resident Permit and obtain a lot indicator which authorizes parking either in an assigned hall lot or Rogers-Orton or Wilson Road lots.
- (3) University Housing Occupants: Occupants of university housing may obtain parking permits which authorize parking in their specific housing areas from the following offices:
- (a) Occupants of family housing apartments may obtain parking permits from the Housing Office, Room 131, Rogers Hall.
- (b) Occupants of single students apartments may obtain permits from the Housing and Food Service Office, Room 124, French Administration Building.

These permits are valid only in the specific housing area. To park elsewhere on campus during restricted hours, the occupant must purchase a Student Lot Permit.

(4) Exceptions:

(a) Students with a physical disability may be issued a Handicap Permit to meet individual needs. Applications must be accompanied by a WSU Student Health physician's written certification that the student's mobility is so severely impaired as to require handicap parking privileges and the anticipated duration of the disability.

(b) Students who need their own vehicles for university work may buy a Staff Permit at the staff rate for periods varying up to one year. The application for such permits must be accompanied by certification by the dean, the director, or the administrative officer supervising the work, and must be submitted to the Traffic Control Subcommittee or its designated representative for approval.

WAC 504-17-160 FARKING PERMITS-VISI-TORS. (1) Annual Visitor Permits. Visitors may purchase an annual Visitor's Permit. This permit authorizes parking in the areas marked "Visitors" in the staff parking areas or in the student (commuter) lots.

(2) Temporary Visitor Permit: Individuals who visit the campus only occasionally may be issued a Temporary Visitor Permit without charge. This permit is valid for a maximum of five consecutive days, and is extended or renewed only upon reapplication.

(3) Conference Guest Permits. Conference Guest Permits are available to the conference sponsor upon application through University Relations and University Parking Services. Arrangements may be made with the latter for the sponsor to print such permits on the conference brochure.

(4) Other: The following vehicles may be parked on campus without charge: those of members of the Board of Regents, those of members of the State Legislature, and those bearing tax-exempt licenses.

WAC 504-17-180 PARKING PERMITS-MO-TORCYCLES. Motorcycle Permits may be purchased by either staff or students and are valid only in designated motorcycle areas, which are marked by signs and/or the letter "M" painted on the parking surface. Several cycles may park in one space.

- (e) coordinates campus traffic planning with the work of the University Planning Committee.
 - (2) The Parking Appeals Committee. This committee:
- (a) establishes and maintains an appeals procedure for parking violations on campus;
 - (b) hears appeals as requested and renders decisions.
- (3) The Washington State University Police and Parking Services. These departments are responsible for the administration and enforcement of these regulations. This responsibility also involves recommending the installation of appropriate traffic and parking signs, maintaining a registration record system, the issuance of permits, the patrol of the university campus, and the keeping of a record of the violations, warnings, court summonses and arrests.

WAC 504-17-210 ENFORCEMENT—GEN-ERAL. (1) Any vehicle found parked in violation of these regulations will be given notice of such violation. Fines will be imposed, but anyone contesting the propriety of such fine may appeal such to the Parking Appeals Committee.

(2) Moving violations will be referred to the local district court.

- (3) Visitors: The first violation of the notices listed in WAC 504-17-220(d) (no parking permit) and (e) (no parking permit for area) issued to visitors are considered warning notices upon presentation to Parking Services office.
- (4) Failure to pay fines: If a student or staff member fails to pay the fine assessed for any violation, the fine will be referred to the Controller's Office for collection. The Controller may, if other collection efforts fail, deduct outstanding fines from the salary warrants of employees or withhold the amount of the outstanding fines from damage deposits or other funds held for any student in order to secure payment. Where collection efforts are unsuccessful, the Controller may notify the Registrar to refrain from issuing student transcripts or to withhold permission to re-enroll for a subsequent term until outstanding fines are paid. The procedures discussed above are not exclusive, however, and failure to pay fines may lead to towing or use of the wheel-lock device described in these regulations. Nor are the procedures discussed above a precondition to towing or use of the wheel lock.

WAC 504-17-230 ENFORCEMENT—ACCU-MULATED VIOLATIONS—WHEEL LOCK—TOWING (1) Any vehicle with an accumulation of three or more unpaid parking violations may be temporarily immobilized by use of a wheel lock device placed on a wheel. Any vehicle may be towed away if the vehicle:

- (a) has been immobilized by wheel lock more than 24 hours; or
 - (b) is illegally parked in a marked tow-away zone; or
- (c) is a hazard or obstruction to vehicular or pedestrian traffic (including, but not limited to, vehicles parked in yellow curb zones or crosswalks); or
 - (d) cannot be impounded with a wheel lock device.

The driver and/or owner of a towed vehicle shall pay towing and storage expenses. Any vehicle immobilized by use of the wheel lock device in excess of 24 hours in a location where towing away is impossible or impractical will be assessed a storage fee of \$5.00 for each calendar day or portion thereof, beyond the first 24 hours. The university assumes no responsibility in the event of damages resulting from towing, use of wheel lock devices, storage, or attempts to move a vehicle with a wheel lock device installed. No vehicle impounded by tow—away or wheel lock device shall be released until the following fines are paid:

- (a) all unpaid parking violation penalties against said vehicle;
 - (b) all towing and storage fees.

Any vehicle impounded pursuant to these regulations in excess of 30 calendar days shall be considered an abandoned vehicle and shall be disposed of in accordance with RCW 46.52. A person wishing to challenge

the validity of any fines or fees imposed under this subsection may appeal such fines or fees as elsewhere provided in these regulations. However, in order to secure release of the vehicle, such person must pay the amount of such fines or fees as a bond which may be refunded after a successful appeal.

(2) An accumulation of six unpaid violations during any 12-month period, exclusive of meter violations, overtime in time zone violations, and no transferable pool permit violations, will subject the violator to revocation or denial of parking privileges. Vehicles without permits which accumulate the above number of violations will be prohibited from parking on university property.

WAC 504-17-240 APPEALS PROCEDURE. (1) The appeals procedure serves two primary functions:

- (a) to assure an impartial evaluation of the circumstances relating to a particular parking violation; and
- (b) to aid in the appraisal of parking and traffic problems.
- (2) Any person who has received notice of a parking violation may appeal the alleged violation. The appeal must be made in writing within ten days after receipt of notice of the violation. Forms for this purpose are available from University Parking Services.
- (3) The Parking Appeals Committee will make a preliminary decision on the appeal and notify the appellant of the decision within 20 days during the academic year and 45 days during the summer months after receipt of the appeal. If the appellant is dissatisfied with the preliminary decision, he/she may request a hearing before the committee. Such request must be made within 10 days of receipt of the notice of the preliminary decision. If no such request is received, the preliminary decision shall be final.
- (4) During the hearing the appellant and representatives of University Parking Services may present and cross-examine witnesses. After the presentation of evidence, the Parking Appeals Committee shall render a decision within 5 days. Such decision shall be final.

WAC 504-17-250 FAILURE TO PAY FINES. Failure to pay a fine or comply with other penalties assessed pursuant to these regulations, after exhausting or failing to exercise appeals provided for in these regulations, constitutes a violation of RCW 28B.10.560 and .565. A citation or complaint for such violation may be issued and filed with the district court.

WAC 504-17-900 REPEAL AND SAVINGS. Chapter 504-16 WAC is hereby repealed, provided that neither this repeal nor any other provision of this enactment shall have the effect of terminating, or in any way modifying, any liability, civil or criminal, which is already in existence on the effective date of this enactment. Insofar as the provisions of this enactment are substantially the same as prior regulations, or relate to the same subject matter, they shall be construed as restatements and continuations, and not as new enactments. Provisions of Chapter 504-16 which relate to E-

lots shall remain in effect until the beginning of the 1983-84 permit year.

WAC 504-17-910 SEVERABILITY. If any provision of this chapter, WAC 504-17, or its application to any person or circumstance is held invalid, the remainder of the chapter or its application to other persons or circumstances is unaffected.

WAC 504-17-930 EFFECTIVE DATE. Except as otherwise provided in these regulations, this chapter shall take effect on July 1, 1983.

WSR 83-08-064 EMERGENCY RULES DEPARTMENT OF AGRICULTURE

[Order 1793-Filed April 6, 1983]

I, M. Keith Ellis, director of the Department of Agriculture, do promulgate and adopt at Olympia, Washington, the annexed rules relating to bean certification fees, WAC 16-316-270.

I, M. Keith Ellis, find that an emergency exists and that the foregoing order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting such emergency is due to the economic climate and the financial problems of the bean seed industry, this amendment would allow the industry to pay certification fees only on bean seed that is certified instead of all bean seed submitted for certification.

Such rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to chapter 15.49 RCW and is intended to administratively implement that statute.

The undersigned hereby declares that he has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), as appropriate, and the State Register Act (chapter 34.08 RCW).

APPROVED AND ADOPTED April 6, 1983.

By M. Keith Ellis Director

Description of Purpose: To enforce and administer the Washington State Seed Act, chapter 15.49 RCW, for the purpose of promoting the well-being of the seed industry and consumer.

Authority: Chapter 15.49 Statutory Washington State Seed Act.

Summary of Rules: General procedures for sampling of seed and lab fees charged for seed testing.

Reasons for Supporting Proposed Actions: Housekeeping changes for uniformity within the Washington Administrative Code; proposed fee increases necessary to cover increased operating costs.

Drafting, Implementation and Enforcement: Max G. Long, Chief, Seed Branch, 2015 South 1st Street, Yakima, Washington 98903, phone (509) 575-2750.

Person or Agency Proposing Rule: Washington State Department of Agriculture.

Whether Rule is Necessary as a Result of Federal Law No

Economic Impact: Increase in testing fees for bentgrass will affect only 50 acres of seed produced out of 10,000 acres of seed produced, therefore, impact to the industry is minimal. The seed count fee is not a new fee.

AMENDATORY SECTION (Amending 1244, filed 4/13/72)

WAC 16-304-020 ((Sampling in the administration of the Washington State Seed Act)) SAMPLING IN THE ADMINISTRATION OF THE WASHINGTON STATE SEED ACT. (1) General procedure for sampling seed shall be as follows:

(a) In order to secure a representative sample, equal portions shall be taken from evenly distributed parts of the quantity of seed to be sampled. Access shall be had to all parts of that quantity.

(b) For free-flowing seed in bags or bulk, a probe or trier shall be used. For small free-flowing seed in bags, a probe or trier long enough to sample all portions of the bag or container shall be used.

(c) Nonfree-flowing seed, such as certain grass seed, uncleaned seed, or screenings, difficult to sample with a probe or trier, shall be sampled by thrusting the hand into the bulk and withdrawing representative portions.

(d) Composite samples shall be obtained to determine the quality of a lot of seed, such as the percentages of pure seed, other crop seed, weed seed, inert matter, noxious weed seed, germination, varietal purity, freedom from disease, and effectiveness of seed treatment. Individual bag samples may be obtained to determine whether the seed is of uniform quality.

(2) Sampling Equipment. The trier shall be designed so that it will remove an equal volume of seed from each part of the bag through which the trier travels. Unless the trier has partitions in the seed

chamber, it must be inserted into the bags horizontally.

(3) Obtaining Representative Samples.

(a) For lots of one to six bags, sample each bag and take a total of

((a)) at least five cores or ((handfuls)) handsfull.

(b) For lots of more than six bags, sample five bags plus at least ((10%)) 10 percent of the number of bags in the lot. (Round numbers with decimals to the nearest whole number.) Regardless of the lot size, it is not necessary to sample more than thirty bags.

Examples:

No. bags in lots 7 10 23 50 100 200 300 400 No. bags to sample 6 6 7 10 15 25 30 30

(c) For sampling bulk seed to obtain a composite sample, take at least as many cores or ((handfuls)) handsfull as if the same quantity of seed were in bags of an ordinary size. Take the cores or ((handfuls)) handsfull from well-distributed points throughout the bulk.

(d) Seed in small containers shall be sampled by taking entire unopened container in sufficient numbers to supply a minimum size sample as required in paragraph 4. The contents of a single container or the combined contents of multiple containers of the same lot shall be considered representative of the entire lot of seed sampled.

(4) Minimum Weights of Seed Samples to be Submitted for Testing ((are as follows)): See WAC 16-304-040, Schedule of Charges.

(((a) Two ounces (approximately 55 grams) of grass seed not otherwise mentioned, white or alsike clover, or seeds not larger than these:

(b) Five ounces (approximately 150 grams) of red or crimson clover, alfalfa, lespedezas, ryegrasses, bromes, millet, flax, rape, or seeds of similar size.

(c) One pound of sudangrass, sorghum, proso, hemp seed, or seeds of similar size.

(d) Two pounds (approximately 1,000 grams) of screenings, cereals, vetches, or seed of similar or larger size.

(c) Vegetable seed samples shall consist of at least 400 seeds per sample.))

AMENDATORY SECTION (Amending Order 1647, filed 8/31/79)

WAC 16-316-215 ((Regulations and procedures for organization for economic cooperation and development scheme for varietal certifireation)) RULES AND PROCEDURES FOR ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT SCHEME FOR VARIETAL CERTIFICATION (O.E.C.D.) (1) O.E.C.D. certification is an international certification scheme limited to federal government membership. The agricultural research service of the United States department of agriculture is responsible for implementing the O.E.C.D. seed certification schemes in the United States. The state department of agriculture, by virtue of a memorandum of agreement with the agricultural research service, ((USDA)) United States department of agriculture, is authorized to implement O.E.C.D. certification in the state of Washington.

(2) The general and specific crop certification standards established by Washington state department of agriculture and the O.E.C.D. Scheme for Varietal Certification are basic and, together with the following specific ((regulations)) rules, constitute the rules for O.E.C.D. seed certification.

(3) Varieties Eligible.

(a) Crop varieties of U.S. origin will be eligible for O.E.C.D. certification only if accepted into Washington State's certification program.

(b) Crop varieties, (([of] [or])) of origin other than U.S., will be eligible for O.E.C.D. certification only if listed in O.E.C.D. publication, 'List of Cultivars Eligible for Certification".

(4) Classes of Seed Eligible.

Washington and U.S. Seed Classes	Label Color	Equivalent O.E.C.D. Seed Classes	O.E.C.D. Label Color
Breeder Foundation Registered Certified	White Purple Blue	PreBasic Basic Basic Ist Generation Certified	White White Blue
Certified produced from Certified	Blue	Seed 2nd Generation Certified Seed	Red

- (5) Seed Stock Sample. Each lot of O.E.C.D. seed stock must be sampled under supervision of the certifying agency before seals are broken. Sample will be used as control for grow out test and a portion may be submitted to seed laboratory for analysis if deemed necessary. Seed stock lots without official tags may not be granted O.E.C.D. approval.
- (6) The department of agriculture must obtain approval from the originating country for each O.E.C.D. seed stock lot to be planted in the state of Washington for O.E.C.D. production. Request for O.E.C.D. approval will be submitted by the seed branch to ARS-Beltsville, Maryland, who then contacts the originating country.
 - (7) Application for Certification and Fees.

Certification requirements and procedures for each kind shall be the genetic standards in Washington State certification program supplemented by O.E.C.D. standards and by the limitations specified by originating country; such as, length of stand and number of seed crops eligible.

These seed lots will not be required to meet Washington's minimum purity or germination certified seed standards; however, all seed must be officially sampled and tested prior to tagging.

- (c) Seed produced out of state and processed in Washington must be O.E.C.D. tagged by the state of origin.
- (8) Tagging and Sealing. O.E.C.D. tags will be printed and issued according to O.E.C.D. rules. Seed Branch will issue an O.E.C.D. reference number; e.g. (USA-W-78-000), which will be printed on each tag. It is recommended that O.E.C.D. reference numbers be stenciled on each bag. - (9) Bagging Sample. A bagging sample of each lot of O.E.C.D. seed tagged must be drawn under supervision of the certifying agency. 100 to 250 grams of the sample will be held for the originating country, the balance will be used for required post control grow-out tests.
- (10) O.E.C.D. Certificate. The seed branch will issue an O.E.C.D. certificate showing kind, variety, reference number, date of sealing, number of containers, weight of lot, class of seed and O.E.C.D. reference number of seed stock used for each lot tagged and sealed upon receipt of tagging report and bagging sample. By: Judy Couture

Administrative Secretary

STATEMENT OF PURPOSE

Title: Chapter 106-140 WAC, Use of college facilities—Business office.

Statutory Authority: RCW 28B.35.120(11).

Summary: This proposal will rescind rules regarding used book purchases. The current rule restricts the price paid by the university store for used textbooks to no more than fifty percent of list price. The decision to purchase used books at the university store is based upon the market conditions and the needs of the university store rather than on a fixed policy. There are times when the university store needs larger quantities of some textbooks and, therefore, needs to pay more than 50%. This is a procedural matter, not one of policy.

Agency Responsible for Drafting: Judy Couture, Administrative Secretary, Assistant Attorney General's Office, Central Washington University, Ellensburg, WA 98926, (509) 963–2111 or scan 453–2111; Implementation: Mr. Wendell Hill, Director of Auxiliary Services; and Enforcement: Bookstore manager.

Organization Proposing Rule: None.

REPEALER

The following section of the Washington Administrative is repealed:

WAC 106-140-151 UNIVERSITY BOOKSTORE—USED BOOK PURCHASES.

WSR 83-08-083 EMERGENCY RULES LOTTERY COMMISSION

[Order 19—Filed April 6, 1983]

Be it resolved by the Lottery Commission, acting at Olympia, Washington, that it does adopt the annexed rules relating to criteria for instant games conducted by the commission, WAC 315-10-030.

We, the Lottery Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the general instant game criteria need to be brought into conformity with the existing rules for lottery games 2 and 3 prior to the drawing for the grand prize winners in these games which will occur before permanent rules can be adopted.

The grand prize drawings for games 2, 3 and 4 will each have 20 finalists and the grand prize in games 3 and 4 will be \$1,000 per week for life which may exceed \$1,000,000. This amendment will make this rule consistent with the rules for games 2, 3 and 4 and will give the commission the flexibility to adopt innovative grand prize formats and payouts.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 67.50.040[67.70.040] and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED April 1, 1983.

In the event a defective ticket is purchased, the only responsibility of liability of the director shall be the replacement of the defective ticket with another unplayed ticket (or tickets of equivalent sale price from any other current game).
