STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined matter is new matter;
 - (ii) ~~deleted matter is ((lined out and bracketed between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

EMERGENCY RULES
DEPARTMENT OF
NATURAL RESOURCES
 [Order 397—Filed May 5, 1983]

I, Brian J. Boyle, Commissioner of Public Lands, do promulgate and adopt at Olympia, Washington, the annexed rules relating to the adoption of an emergency rule extending winter burning rules through midnight, May 31, 1983, on department-protected lands in Washington.

I, Brian J. Boyle, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is extending winter burning rules through midnight, May 31, 1983, throughout Washington due to cool, damp weather and thus reduce risk to life and property from burning.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 76.04.150 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED May 5, 1983.

Therefore, the following format is adopted by the commission and authorized for use by agencies, at their option, to bring uniformity to the administration of that statute.

4. I understand that section 2 and 3 herein apply when I use said records for commercial purposes and when others use said records or copies of same for commercial purposes. I understand that I may be liable in either case.

Be it resolved by the Board of Natural Resources, acting at Olympia, Washington, that it does adopt the annexed rules relating to allowing greater

discontinuations of deductions under RCW 79.64.040, amending WAC 332-100-040.

We, the Board of Natural Resources, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. (4) **DTF implementation/review committee of the Evergreen council:** This is a subcommittee of the council. Its responsibility is to receive the charge and membership and final report of all DTF's; maintain file on each DTF charged including the response to the final report made by decision-maker or charger of the DTF. In addition, this subcommittee may pursue any issues in the DTF report or response that it deems appropriate.

(5) Evergreen community: Currently enrolled or on leave students and all staff and faculty in pay or on leave status.

NEW SECTION

WAC 174-107-110 THE SOCIAL CONTRACT—GENERAL. Evergreen is an institution and a community that continues to organize itself so that it can clear away obstacles to learning. In order that both creative and routine work can be focused on education, and so that the mutual and reciprocal roles of the campus community members can best reflect the goals and purposes of the college, a system of governance and decision-making consonant with those goals and purposes is required.

NEW SECTION

WAC 174-107-120 THE SOCIAL CONTRACT—PURPOSE. (1) The Evergreen State College requires a social contract rather than a list of prohibitions and negative rules. Evergreen can thrive only if members respect the rights of others while enjoying their own rights. Students, faculty, administrators, and staff members may differ widely in their specific interests, in the degree and kinds of experiences they bring to Evergreen, and in the functions which they have agreed to perform. All must share alike in prizing academic and interpersonal honesty, in responsibly obtaining and in providing full and accurate information, and in resolving their differences through due process and with a strong will to collaboration.

(2) The Evergreen community should support experimentation with new and better ways to achieve Evergreen's goals. Specifically, it must attempt to emphasize the sense of community and require members of the campus community to play multiple, reciprocal, and reinforcing roles in both the teaching/learning process and in the governance process.

NEW SECTION

WAC 174-107-130 THE SOCIAL CONTRACT—FREEDOM AND CIVILITY. The individual members of the Evergreen community are responsible for protecting each other and visitors on campus from physical harm, from personal threats, and from uncivil abuse. Civility is not just a word; it must be present in all our interactions. Similarly, the institution is obligated, both by principle and by the general law, to protect its property from damage and unauthorized use

and its operating processes from interruption. Members of the community must exercise the right accorded them to voice their opinions with respect to basic matters of policy and other issues. The Evergreen community will support the right of its members, individually or in groups, to express ideas, judgments, and opinions in speech or writing. The members of the community, however, are obligated to make statements in their own names and not as expressions on behalf of the college. The board of trustees or the president speak on behalf of the college and may at times share or delegate the responsibility to others within the college. Among the basic rights of individuals are freedom of speech, freedom of peaceful assembly and association, freedom of belief, and freedom from intimidation, violence, and abuse.

NEW SECTION

WAC 174-107-140 THE SOCIAL CONTRACT—INDIVIDUAL AND INSTITUTIONAL RIGHTS. Each member of the community must protect: (1) The fundamental rights of others in the community as citizens; (2) the right of each member in the community to pursue different learning objectives within the limits defined by Evergreen's curriculum or resources of people, materials, equipment and money; (3) the rights and obligations of Evergreen as an institution established by the state of Washington; and (4) individual rights to fair and equitable procedures when the institution acts to protect the safety of its members.

NEW SECTION

WAC 174-107-150 THE SOCIAL CONTRACT—SOCIETY AND THE COLLEGE. (1) Members of the Evergreen community recognize that the college is part of the larger society as represented by the state of Washington, which funds it, and by the community of greater Olympia, in which it is located. Because the Evergreen community is part of the larger society, the campus is not a sanctuary from the general law or invulnerable to general public opinion.

(2) All members of the Evergreen community should strive to prevent the financial, political, or other exploitation of the campus by any individual or group.

(3) Evergreen has the right to prohibit individuals and groups from using its name, its financial or other resources, and its facilities for commercial, or political activities.

NEW SECTION

WAC 174-107-160 THE SOCIAL CONTRACT—PROHIBITION AGAINST DISCRIMINATION. There may be no discrimination at Evergreen with respect to race, sex, age, handicap, sexual orientation, religious or political belief, or national origin in considering individuals' admission, employment, or promotion. To this end the college has adopted an affirmative action policy (See Evergreen Administrative Code chapter 174-109 WAC, Equal opportunity policies and procedures—Affirmative action program). Affirmative action charges shall not be handled through the governance document because of the legal implications of such matters.

NEW SECTION

WAC 174-107-170 THE SOCIAL CONTRACT—RIGHT TO PRIVACY. (1) All members of the college community have the right to organize their personal lives and conduct according to their own values and preferences, with an appropriate respect for the rights of others to organize their lives differently.

(2) All members of the Evergreen community are entitled to privacy in the college's offices, facilities devoted to educational programs, and housing. The same right of privacy extends to personal papers, confidential records, and personal effects, whether maintained by the individual or by the institution.

(3) Evergreen does not stand in loco parentis for its members.

NEW SECTION

WAC 174-107-180 THE SOCIAL CONTRACT—INTELLECTUAL FREEDOM AND HONESTY. (1) Evergreen's members live under a special set of rights and responsibilities, foremost among which is that of enjoying the freedom to explore ideas and to discuss their explorations in both speech and print. Both institutional and individual censorship are at variance with this basic freedom. Research or other intellectual efforts, the results of which must be kept secret or

may be used only for the benefit of a special interest group, violate the principle of free inquiry.

(2) An essential condition for learning is the freedom and right on the part of an individual or group to express minority, unpopular, or controversial points of view. Only if minority and unpopular points of view are listened to, and are given opportunity for expression will Evergreen provide bona fide opportunities for significant learning.

(3) Honesty is an essential condition of learning, teaching or working. It includes the presentation of one's own work in one's own name, the necessity to claim only those honors earned, and the recognition of one's own biases and prejudices.

NEW SECTION

WAC 174-107-190 THE SOCIAL CONTRACT—OPEN FORUM AND ACCESS TO INFORMATION. (1) All members of the Evergreen community enjoy the right to hold and to participate in public meetings, to post notices on the campus, and to engage in peaceful demonstrations. Reasonable and impartially applied rules may be set with respect to time, place and use of Evergreen facilities in these activities. Meetings of public significance cannot be held in secret.

(2) As an institution, Evergreen has the obligation to provide an open forum for the members of its community to present and to debate public issues, to consider the problems of the college, and to serve as a mechanism of widespread involvement in the life of the larger community.

(3) The governance system must rest on open and ready access to information by all members of the community as well as on the effective keeping of necessary records.

(4) In the Evergreen community, individuals should not feel intimidated or be subject to reprisal for voicing their concerns or for participating in governance or policy making.

(5) Decision making processes must provide equal opportunity to initiate and participate in policy making, and Evergreen policies apply equally regardless of job description, status or role in the community.

NEW SECTION

WAC 174-107-200 THE SOCIAL CONTRACT—POLITICAL ACTIVITIES. The college is obligated not to take a position, as an institution, in electoral politics or on public issues except for those matters which directly affect its integrity, the freedom of the members of its community, its financial support, and its educational programs. At the same time, Evergreen has the obligation to recognize and support its community's members' rights to engage, as citizens of the larger society, in political affairs, in any way that they may elect within the provision of the general law.

NEW SECTION

WAC 174-107-210 THE LEGAL NATURE AND STATUS OF THE EVERGREEN STATE COLLEGE. (1) The Evergreen State College, established in Thurston county by the 1967 Washington State Legislature, operates under the provision of the Revised Code of Washington (chapter 28B.40 RCW).

(2) The board of trustees is responsible for the promulgation and approval of the policies and procedures that are required in the operation of the college. These policies and procedures include but are not limited to: Institutional goals and objectives, control and disbursement of funds, erection and construction of buildings and other facilities. The five members of the board of trustees are appointed by the governor with the consent of the senate for six-year overlapping terms. Evergreen's president is chosen by and is directly responsible to the board of trustees for executive direction and supervision of all operations of the college. The president is appointed for a six-year term, reviewable annually and renewable for one additional six-year term. The trustees and the president in turn delegate many duties and responsibilities to others in the Evergreen community.

(3) The governance system recognizes that Evergreen is bound by at least two sets of laws and regulations. The first set includes those federal, state, and local regulations which are legal in nature and binding upon all public institutions. The second set of rules and regulations and procedures, promulgated by Evergreen for internal use, make up the system of governance designed to advance the goals and objectives of the college. The campus grievance procedure and mediation process is

not intended to handle issues or conflict that are governed by legal forums, such as the Revised Code of Washington or contractual or bargaining agreements. The governance system is intended to provide an avenue of response and participation under campus promulgated rules and regulations.

NEW SECTION

WAC 174-107-220 STANDARDS FOR DECISION-MAKING AND GOVERNANCE AT EVERGREEN. (1) Evergreen must have an acknowledged governance day so that administrative responsibilities of the community members will not interfere with the productivity, service and creativity of the campus. This day shall also be utilized for faculty and student preparation, research and consultation. To this end all general campus governance (faculty meetings, DTF's, and standing committees) shall, whenever possible, take place on Wednesdays. No permanent scheduling of classes or labs shall be held on Wednesday prior to 5:00 p.m. Temporary scheduling of day time classes may be made on approval of the academic deans.

(2) Decisions and methods to be used for their implementation must be handled at the level of responsibility and accountability closest to those affected by a particular decision. Those persons involved in making decisions must be held accountable. "Accountable" means subject to consequences, commensurate with the seriousness of the decision. Decisions must be made only after consultation with those who are affected by the issue. Consultation must be a formal process to assure the widest possible community involvement.

(3) Location of those responsible for the functioning of various areas of the community is identified in the college's organization chart, the Faculty Handbook, and the Evergreen Administrative Code. Delegated duties and responsibilities should be made as explicit as possible, and information regarding the decision-making roles of various members of the Evergreen community should be made easily available.

(4) Evergreen's system of governance must provide an opportunity for participation by members of the Evergreen community.

(5) The community must avoid fractioning into decision-making constituency groups. Members may form consultative constituency groups that augment the decision-making process.

(6) Evergreen wishes to avoid the usual patterns of extensive standing committees and governing councils. Instead, the community uses short-term ad hoc committees named disappearing task forces (DTF) for the purposes of gathering information, preparing position papers, proposing policy, or offering advice. All DTF meetings are open to the public and the DTF must provide advance notice of time, date and location of meetings through the campus newsletter in the college relations office and if possible through the student newspaper.

Standing committees are discouraged, but should a standing committee be deemed essential, those desiring to establish such must submit a request to the Evergreen council through the president's office (see Evergreen council for procedures).

(7) Wherever possible decision-making groups should use the consensus approach.

(8) In cases of conflict, due process procedures set forth in the appropriate sections of the WAC/EAC must be followed.

(9) Governance procedures must be flexible enough to change as the institution changes and must, therefore, provide for an amendment procedure and periodic evaluation.

NEW SECTION

WAC 174-107-230 IMPLEMENTATION OF GOVERNANCE POLICIES AND PROCEDURES: THE EVERGREEN COUNCIL. The Evergreen council serves as a central forum where students, faculty, administrators and staff may meet for action, discussion and advice on issues affecting the college and its members. It shall act as advocate for the governance and decision-making document.

The council will have an active function of investigating, reporting and recommending on issues brought by members of the community. The council also will have a "watchdog" function as the place where the college's principles are reiterated and actions are weighed for compliance with those principles.

NEW SECTION

WAC 174-107-240 THE EVERGREEN COUNCIL—MEMBERSHIP. (1) The membership of the council shall consist of regular members and alternates. The president, four exempt staff, four classified staff, four faculty, and four students shall be regular members.

Two exempt staff, two classified staff, two faculty, and four students shall be the alternates.

(2) Members shall be selected randomly by the president's office using the institutional computer roster.

(3) Terms on the Evergreen council shall be for one year, except as noted elsewhere in this document. No one but the president will be expected to serve more than one term, except as noted elsewhere in this document.

(4) Only the members of the council may vote at council meetings or participate in consensus decisions.

(5) The president shall convene a meeting of the council within thirty days of appointment with appropriate notice to the community.

(6) The names of the members shall be published quarterly in the student newspaper and the campus newsletter. Posters shall be printed annually with the names and telephone numbers of the members, the chairman of each subcommittee, and the names and telephone numbers of the executive committee. These posters shall include information about the Evergreen council and the grievance procedures.

(7) Membership on the council is obligatory on any member of the Evergreen community when that person is selected for service, unless he or she is excused for good cause. Faculty are required to allow student members a reasonable time from class sessions for their council service without penalty. Program covenants will acknowledge the responsibility of students and faculty to serve on the council, if selected. Appointment letters to staff and faculty contracts will acknowledge the responsibility to serve. Supervisors are required to release subordinates who are members of the council and to allow reasonable time away from other duties for council service, also without penalty. Membership on the council will provide an exemption from DTF service.

NEW SECTION

WAC 174-107-250 THE EVERGREEN COUNCIL—THE EXECUTIVE COMMITTEE. (1) The executive committee, a committee of four, one from each constituency, shall serve as the adjudication center on issues dealing with the governance document. The committee shall decide if an issue is covered by the governance document and whether the issue shall be considered by the council. The committee shall be the focal point for all issues on campus. It will be the responsibility of the committee to assure timely and fair resolution of all issues and grievances filed with the council.

(2) The committee shall organize itself within ten working days of selection by the council and will publicly announce its readiness to consider issues. The executive committee shall meet at least weekly at a regular time and place.

(3) The committee will make all determinations that involve interpretations or challenges to COG, including determinations as to whether an issue is covered by the grievance procedure.

NEW SECTION

WAC 174-107-260 THE EVERGREEN COUNCIL—SUBCOMMITTEES. There will be minimum of two subcommittees within the council: The hearing board and DTF implementation/review committee. The council shall establish ad hoc committees or other subcommittees as issues dictate.

(1) Hearing board subcommittee will be composed of four members: One faculty, one exempt, one classified staff, and one student. For purposes of continuity a staff or faculty member shall serve as chair of this subcommittee. Members will be selected randomly from the constituency groups of those individuals previously selected for council membership. Hearing board members will be members of the council but shall serve for five quarters rather than four. During the fifth quarter the board will provide continuity to the council and will assist the new hearing board in organizing itself. The incoming hearing board shall adjudicate any issues that occur after its selection. The outgoing hearing board shall handle any issue that is submitted before the new board is constituted, and shall be discharged at the time the new board is constituted. (See WAC 174-107-400 for specific responsibilities and procedures of the hearing board.)

(2) DTF implementation/review committee of the Evergreen council: This is a subcommittee of the council. Its responsibility is to receive the charge and membership and final report of all DTF's; maintain file on each DTF charged including the response to the final report made by decision-maker or charger of the DTF. In addition, this subcommittee may pursue any issues in the DTF report or response that it deems appropriate.

NEW SECTION

WAC 174-107-270 THE EVERGREEN COUNCIL—AD HOC COMMITTEES. Ad hoc committees may be established to address specific issues or carry out particular activities of the council. Members from the community shall be appointed by the full council as appropriate.

NEW SECTION

WAC 174-107-280 THE EVERGREEN COUNCIL—STANDING COMMITTEES AND CONSULTATIVE CONSTITUENCY GROUPS. (1) The council has the authority and responsibility to review and act upon requests for establishment of official consultative constituency groups.

(2) The council shall establish or act on a request to establish all standing committees. All existing or newly requested standing committees must seek annual recognition for the council. The request must include the reason for establishment of the committee and the role of the committee as an adjunct to decision-making.

(3) Each committee shall have a life of one calendar year. The committee must be reconstituted annually and be approved by the Evergreen council. Failure to seek reconstitution will result in the committee's loss of standing on campus.

NEW SECTION

WAC 174-107-290 THE EVERGREEN COUNCIL—COMMUNITY ACCESS. (1) Any member of the Evergreen community wishing to bring a matter before the council shall submit a written statement of the question, grievance, problem or proposal to the executive committee of the council in care of the office of the president which shall immediately forward all correspondence to the executive committee. The executive committee shall decide within eight days to:

(a) Forward the matter to the committee-of-the-whole (i.e., the entire council) for consideration;

(b) Decline to investigate or carry the matter to the committee-of-the-whole either because it is trivial or lies outside the council's jurisdiction or violates the intent of the document; or

(c) Refer matters back to appropriate office or person, or campus mediator or to the appropriate subcommittee.

(2) The community member shall be advised in writing within nine days as to which procedure shall be followed.

(3) The community member shall be notified in writing within thirty days of the resolution or recommended action by the council.

NEW SECTION

WAC 174-107-300 THE EVERGREEN COUNCIL—THE AGENDA. (1) Matters referred to the council by a subcommittee;

(2) Matters referred to the council by the executive committee;

(3) Matters placed on the agenda by two members of the council.

NEW SECTION

WAC 174-107-310 THE EVERGREEN COUNCIL—MEETINGS. (1) The council shall meet at least monthly during the academic year, at a regular time and place established by the executive committee. In addition, five members can call a meeting. All meetings of the council, and the agenda for the next meeting, must be announced at least one week in advance through the college newspaper (if it is published during that period), on KAOS, the campus newsletter (or in a written announcement delivered to every office on campus if the newsletter is not published during that week) and in notices posted prominently around the campus.

(2) Those members of the council who are present constitute a quorum.

NEW SECTION

WAC 174-107-320 THE EVERGREEN COUNCIL—MINUTES OF MEETINGS. (1) Minutes shall be made at regular or special council meetings; recording equipment and supplies, or staff shall be the responsibility of the president's office.

(2) Minutes will be distributed five days after the meeting through the usual communications' channels, including the campus newsletter and student media.

NEW SECTION

WAC 174-107-330 THE EVERGREEN COUNCIL—ACTIONS OF COUNCIL. The council has the authority to call witnesses, review any document except those subject to personnel regulations, security generated, or registration records of students, and to hold open hearings and forums. At the conclusion of its deliberation, the council may:

- (1) Rule in favor of either side or neither;
- (2) Set up a DTF to investigate an issue or formulate a policy;
- (3) Issue a public comment or judgment;
- (4) Censure either side or both;
- (5) Forward an issue to the board of trustees, through the president's office;
- (6) Any combination of all of the above.

NEW SECTION

WAC 174-107-340 THE EVERGREEN COUNCIL—RELATIONSHIP WITH ADMINISTRATORS. Notice of action will be given to the appropriate administrator for implementation as necessary. The administrator will give the council a summary of his/her implementation or refusal thereof within thirty calendar days of receipt of the notice.

NEW SECTION

WAC 174-107-350 THE EVERGREEN COUNCIL—APPEALS FROM AND NOTIFICATION OF DECISIONS OR FINDINGS. (1) Decisions of the Evergreen council may be appealed to the trustees within thirty calendar days. No appeal shall be heard from an appellant who has failed to participate in the process prior to the decision. Appeals beyond the council must be made in accordance with WAC 174-107-530.

(2) All actions of the council shall be made public through publication in the campus newsletter, and whenever possible, through college newspaper, and broadcasting on campus radio station. Decisions of the council will be available at the information center and posted in several prominent locations on campus.

NEW SECTION

WAC 174-107-360 CONFLICT RESOLUTION, GENERAL. Members of the Evergreen community who come into conflict with one another should make a determined effort to resolve problems peacefully and constructively between themselves before recourse to mediation and grievance procedures.

(1) Mediation and grievance procedures are set up to serve currently enrolled students and current campus employees. However, former students and employees shall be permitted to grieve issues within the time frame in subsection (2) of this section if the adverse action occurred while the individual was in current status and if the adverse action is covered by the COG document.

(2) Issues covered by the governance document must be grieved within sixty days of receipt of notice of the adverse action.

(3) A determination notice will be issued by the Evergreen council or its subcommittees, within thirty days of the petition date.

(4) In disputes concerning timelines the executive committee of the Evergreen council will consider receipt of notice to be a reasonable time after the date of any official documents are issued. However, the Evergreen council may determine appropriate deviations from these time frames for good and sufficient reasons.

(5) Discrimination complaints and all other disputes covered by the Revised Code of Washington, federal and local regulations which are of a legal nature and binding on all public institutions or contractual agreements shall not be referred to the campus grievance procedure. The attorney general shall serve as advisor to the executive committee should a ruling on jurisdiction be required.

NEW SECTION

WAC 174-107-370 MEDIATION/MEDIATOR. (1) Mediator: Designated intervener in potential conflicts between two members or groups of the community. Individuals in the community should contact the mediator before requesting access to the grievance procedure.

(2) When unable to work out their difference one-to-one, the aggrieved parties shall contact the campus mediator for assistance. The mediator may appoint a third party mediator (m) if the parties fail to

agree upon one, or the mediator may serve as the mediator him/herself. The mediator may, if appropriate, refer the party or parties to the adjudicator. Mediation implies deliberation that attempts to result in a solution that will be accepted by the contending parties.

(3) If one party refuses to participate in third party mediation, the campus mediator may refer the issue to the hearing board through the executive committee.

(4) The third party mediation process is deliberately left unstructured; this is done to give the third party mediator the widest possible latitude; the mediator may, at his or her option, adopt any rules or procedures deemed necessary for the orderly resolution of the dispute.

(5) Within five work days of conclusion of mediation, the mediator shall send a summary statement of the nature of the conflict to the executive committee, through the president's office with a copy to the disputants. Mediation should be concluded within ten class days of the request for mediation.

NEW SECTION

(2) The mediator shall, upon receipt of the letter requesting a hearing, notify the administrator and shall hold a hearing on the issue.

(3) The mediator will, within three days, render a decision or notify both parties that additional information is required before a decision can be made.

(4) The decision of the mediator may be appealed to the president within ten class days.

(5) The decision of the president shall be final.

NEW SECTION

WAC 174-107-400 HEARING BOARD PROCEDURES. (1) Twelve temporary members (three from each constituency group) will be selected from the computer run for one hearing only to join the four regular members. These twelve temporary members will be a pool of available replacements for regular members of the board who disqualify themselves or are disqualified through challenge. Any such replacements must be from the constituency group of the member leaving.

(2) The first responsibility of hearing board members is to their education and work commitments. To insure that the hearing board does not become overworked, regular members may petition the executive committee to convene a supplemental hearing board from the Evergreen council to hear cases if the board feels it is overloaded.

(3) The hearing board cannot hear cases which challenge this governance document. (See WAC 174-107-250(3).)

NEW SECTION

WAC 174-107-410 PETITION FOR HEARING AND PRELIMINARY PROCEDURES. If third party mediation has failed, a disputant who wishes to pursue resolution of a dispute may petition in writing for a hearing within five days of receipt of mediator findings.

(1) Petition for a hearing:

(a) All requests for hearings shall contain the following:

(i) Specific charges or issues for review and response; a hearing will reply only to charges or issues stated in the petition.

(ii) Specific actions or remedy requested.

(b) The petitioner shall deliver a copy of the petition to the other party or agent in the dispute at the time it is submitted to the president's office. The respondent shall be entitled to file a response to the petition, but the time lines will continue to be met while (b) is being accomplished.

(2) Within five class days of receiving a petition for a hearing, the hearing board will convene to review the petition and the mediator's statement, and respond in writing to the disputants accepting or rejecting the case, or clearly stating the conditions which must be met before the request can be accepted. The hearing board may question the executive committee whether the issue is/is not grievable through COG. The executive committee may seek assistance from the attorney general. A decision not to hear a case may be appealed to the board of trustees if the appellant has participated in mediation, and if the appellant has followed the requirements of the hearing board.

NEW SECTION

WAC 174-107-420 HEARING BOARD CHAIRPERSON. (1) The hearing board chairperson will inform the disputants of the date, time, place of the hearing and procedures to be followed. The hearing shall commence within ten class days of acceptance by the hearing board.

(2) The chairperson of the hearing board shall notify disputants in advance of the hearing of time limits for presentation of the issue. Each side may allocate this time as it sees fit. Time for cross-examination will not count against either side, but may be limited. Time required of resource persons requested by the hearing board will likewise not count against either side, but may be limited. The board may modify the time limit if it feels the need.

NEW SECTION

WAC 174-107-430 REQUIREMENTS OF DISPUTANTS. (1) The hearing board may wish to have both parties submit a short and plainly written statement or the matters of positions asserted before the hearing convenes. If so, the chairperson shall request such from each party at the time of notification of the hearing. All documents will be shared with all principals in the dispute.

(2) Each party in the dispute may select one spokesperson. Disputants may be represented by a designee not party to the dispute, but the disputants must participate in order to have the right of appeal.

(3) Petitioner and respondent are responsible for reporting the names of their witnesses and spokesperson, at least three days in advance of the hearing to the chairman of the board and to each other and for insuring that witnesses on their behalf appear at the hearing.

(4) Failure to participate shall not be considered as a good or sufficient reason to postpone the hearing.

NEW SECTION

WAC 174-107-440 GUIDELINES: THE HEARING. (1) The hearing is not a trial, but a forum for full expression of differences. Fairness and truth must be the responsibility of all participants.

(2) The person pressing the complaint is the petitioner. The person responding to the complaint is the respondent. The petitioner and respondent collectively are known as the disputants.

(3) Both parties in the dispute have a right to a fair hearing.

NEW SECTION

WAC 174-107-450 ADMISSIBLE DOCUMENTS. When a hearing board proceeding is held following conclusion of mediation, the hearing shall be conducted without any reference to the mediation report. Further, statements, testimony, and all other evidence given during mediation shall be confidential and shall not be subject to discovery or released to anyone, without permission of the person who divulged the information (RCW 28B.19.120(4)), and the permission of the disputants. However, the summary statement of the mediator is not confidential and shall be considered a matter of public record. (See Mediation (5).)

NEW SECTION

WAC 174-107-460 COMPONENTS OF HEARINGS. Meetings of the hearing board include hearings and deliberations. Hearings shall be open to the community. (4) Petitioner shall present his/her closing arguments, then the respondent shall present his/her closing arguments.

(5) The chairperson of the hearing board is responsible for the smooth functioning of the hearing and providing for a fair hearing for both sides. For example, the chairperson may interrupt to keep the hearing pertinent to the issues and keep hearsay evidence off the records. The chairperson shall rule on procedural objections from the disputants. During the proceedings hearing board members upon recognition from the chair may ask questions which they feel are important to their understanding of the issues or facts.

NEW SECTION

WAC 174-107-510 TIMELINES FOR HEARING. (1) The board may grant delays in the hearing proceedings for valid reasons. For example, the board may wish to allow temporary adjournment to permit a party to respond to new and unexpected material coming to light during the hearing.

(2) The hearing board shall reach a decision within thirty days of receipt of petition for hearing.

NEW SECTION

WAC 174-107-520 HEARING BOARD DELIBERATIONS AND DECISIONS. (1) The hearing board, in deliberating, will consider only the merits of the case and not the consequences of its decision. Finding of fact shall be based exclusively on the evidence and on matters officially noticed.

(2) The hearing board will provide to both parties written notice of its decision within ten days of the close of the hearings, or within thirty class days of filing of original petition, whichever is greater.

NEW SECTION

WAC 174-107-530 APPEALS FROM HEARING DECISIONS. (1) Appeal beyond the campus hearing board may be made by a petition to the board of trustees within ten days. Such an appeal request may only be accepted if the appellant participated in mediation and in the hearing. The decision may be challenged if it:

- (a) Is clearly erroneous in view of the entire record as submitted;
- (b) Is arbitrary or capricious;
- (c) Is beyond jurisdiction of Evergreen (i.e., is covered by federal, state, local statutes);
- (d) Is contrary to usual practice at Evergreen.

(2) The appeal may include only information entered into the hearing record. No new material may be offered during the appeal hearing.

WAC 204-90

MINIMUM REQUIREMENTS FOR CONSTRUCTION AND EQUIPMENT OF SPECIAL MOTOR VEHICLES

NEW SECTION

WAC 204-90-010 PURPOSE. To establish equipment requirements for the manufacture of special motor vehicles, or the assembly and construction of vehicles from new or used parts or kits, or the alteration of a motor vehicle which places it in the category of a special motor vehicle, for the purpose of reducing the danger of death and injury to the operators and passengers of the vehicles subject to this rule and to other users of the public highways. To establish minimum construction and performance requirements that are technically feasible and based upon sound engineering to achieve operational safety and to furnish state administrators with a guide for registration eligibility and in-use conformity for vehicles in this category.

NEW SECTION

WAC 204-90-020 SCOPE. This rule sets forth performance and equipment requirements necessary for the safe operation of special motor vehicles upon the public highways. This rule does not apply to vehicles modified for the handicapped.

NEW SECTION

WAC 204-90-030 DEFINITIONS. (1) Special Motor Vehicles: Passenger vehicles, multi-purpose passenger vehicles, trucks and buses with a gross vehicle weight rating of 10,000 pounds or less equipped with two or more axles having at least two wheels per axle and which are intended for use on public highways. The term "special motor vehicle" shall include the following types:

(a) Type I: Vehicles that retain or are exact replicas of the original body configuration of a recognized vehicle manufacturer with changes made to the steering, brake, power train, or suspension systems. This type shall also include vehicles that have been modified from a recognized vehicle manufacturer's original body chassis configuration but that retain the general appearance of the original body chassis. Changes may also have been made to the engine, brake system, power train, steering or suspension.

(b) Type II: All special motor vehicles which are custom built with fabricated parts or parts taken from existing vehicles excluding Type I vehicles.

(c) Enclosed Vehicle: Every Type I and Type II vehicle having a solid enclosed compartment for occupants as compared to an open or "soft top" convertible vehicle.

(2) Recognized Manufacturer: A person, firm, co-partnership, association, or corporation who is or has engaged in the business of manufacturing motor vehicles intended for use on the public highways and offered for sale in interstate commerce.

(3) FMVSS: Federal Motor Vehicle Safety Standard. Notwithstanding any other provisions of law, a vehicle or exact replica of a vehicle more than thirty years old

owned and operated primarily as a collectors item and which has been restored to the original configuration and specifications of a recognized manufacturer is exempted from the requirements of this chapter.

NEW SECTION

WAC 204-90-040 BODY REQUIREMENTS. (1) Defroster and Defogging Devices: Every enclosed special motor vehicle shall be equipped with a device capable of defogging and defrosting the windshield area. Vehicles or exact replicas of vehicles manufactured prior to January, 1938, are exempt from this requirement.

(2) Door Latches: Every enclosed special motor vehicle equipped with side doors leading directly into a compartment that contains one or more seating accommodations shall be equipped with door latches which firmly and automatically secure the door when pushed closed and which allow each door to be opened both from the inside and outside.

(3) Hoodlatches: A front opening hood shall be equipped with a primary and a secondary latching system to hold the hood in a closed position.

(4) Enclosed Passenger Compartment: A special motor vehicle with an enclosed passenger compartment and powered by an internal combustion engine shall be constructed to prevent the entry of exhaust fumes into the passenger compartment.

(5) Floor Pan: A special motor vehicle shall be equipped with a floor pan under the entire passenger compartment capable of supporting the weight of the number of occupants that the vehicle is designed to carry.

(6) Bumpers: A special motor vehicle shall be equipped with a bumper on both the front and rear of the vehicle with the exception of motor vehicles where the original or predominant body configuration, provided by a recognized manufacturer, did not include such bumper or bumpers in the design of the vehicle. Bumpers or exact replicas of bumpers for Type I vehicles meeting the original specifications of a recognized manufacturer shall satisfy the requirements of this section.

Bumpers, unless specifically exempted above, shall be at least 4.5 inches in vertical height, centered on the vehicle's centerline, and extend no less than the width of the respective wheel track distances. Bumpers shall be horizontal load bearing and attach to the vehicle frame to effectively transfer energy when impacted.

The maximum bumper heights will be determined by weight category of gross vehicle weight rating (GVWR) measured from a level surface to the highest point on the bottom of the bumper. For vehicles exempted from the bumper requirement for the reasons stated above, a maximum frame elevation measurement shall be made to the bottom of the frame rail. Maximum heights are as follows:

	Front	Back
Passenger Vehicles	22 Inches	22 Inches
4,500 lbs. and under GVWR	24 Inches	26 Inches
4,501 lbs. to 7,500 lbs. GVWR	27 Inches	29 Inches
7,501 lbs. to 10,000 lbs. GVWR	28 Inches	30 Inches

(7) Fenders: All wheels of a special motor vehicle shall be equipped with fenders designed to cover the entire tire tread width that comes in contact with the road surface. Coverage of the tire tread circumference shall be from at least 15° in front and to at least 75° to the rear of the vertical centerline at each wheel measured from the center of the wheel rotation. At no time shall the tire come in contact with the body, fender, chassis, or suspension of the vehicle.

(8) Frame: A special motor vehicle shall be equipped with a frame. If an existing frame from a recognized manufacturer is not used and a special frame is fabricated, it shall be constructed of wall box or continuous section tubing, wall channel, or unitized construction capable of supporting the vehicle, its load, and the torque produced by the power source under all conditions of operation. Specially fabricated frames shall meet the Specialty Equipment Manufacturing Association "Recommended Practice for Chassis Construction of Special Motor Vehicles."

NEW SECTION

WAC 204-90-050 GLAZING MATERIAL/DRIVER VISIBILITY. (1) Windshields: A motor vehicle shall be equipped with a laminated safety glass windshield that complies with the provisions of FMVSS 205. The windshield shall be framed and in such a position that it affords continuous horizontal frontal protection to the driver and front seat occupants. The minimum vertical height of the unobstructed windshield glass shall be six inches, or as originally equipped by a recognized manufacturer.

(2) Side and Rear Glass: These items are not required, but if they are present, they must comply with the provisions of the current FMVSS 205.

(3) Driver Visibility: The vehicle shall be provided with a windshield and side windows or openings which allow the driver a minimum outward horizontal vision capability, 90° each side of a vertical plane passing through the fore and aft centerline of the vehicle. This range of vision may be interrupted by window framing not exceeding four inches in width at each side location.

A special motor vehicle shall have no obstruction forward of the windshield which extends more than two inches upward into the horizontally forward projected vision area of the windshield except windshield wiper components and hood ornaments identical to those originally installed by a recognized manufacturer. For the purposes of this section, the projected vision area of the windshield shall be defined as that area above a line from the top of the steering wheel to the top of the front fenders or hood, whichever is higher.

NEW SECTION

WAC 204-90-060 INSTRUMENTATION. Speedometer: A special motor vehicle shall be equipped with an operating speedometer calibrated to indicate "miles per hour," and may also indicate "kilometers per hour."

NEW SECTION

WAC 204-90-070 REARVIEW MIRROR. A special motor vehicle shall be equipped with at least two rear view mirrors each having substantial unit magnification. One shall be mounted on the inside of the vehicle in such a position that it affords the driver a clear view at least two hundred (200) feet to the rear. The other shall be mounted on the outside of the vehicle, on the driver's side, in such a position that it affords the driver a clear view to the rear. When an inside mirror does not give a clear view to the rear, an outside mirror meeting the requirements of this section shall be required on each side of the vehicle. The mirror mountings shall provide for mirror adjustment by tilting both horizontally and vertically.

NEW SECTION

WAC 204-90-080 ACCELERATOR CONTROL SYSTEMS. A special motor vehicle shall be equipped with an accelerator control system containing a double spring that returns the engine throttle to an idle position when the driver removes the actuating force from the accelerator control. The geometry of the throttle linkage shall be so designed that the throttle will not lock in an open position. A vehicle equipped with cruise control is exempt when the cruise control is actuated.

NEW SECTION

WAC 204-90-090 BRAKES. (1) Service Brakes: A special motor vehicle shall be equipped with brakes acting on all wheels. The service brakes, upon application, must be capable of stopping the vehicle within a 12 foot lane, and:

- (a) Developing an average tire to road braking or retardation force of not less than 52.8% of the gross vehicle weight;
- (b) Decelerating the vehicle at a rate of not less than 17 feet per second; or
- (c) Stopping the vehicle within a distance of 25 feet from a speed of 20 MPH.

Tests shall be made on a level, dry, concrete or asphalt surface free from loose material.

(2) Parking Brakes: A special motor vehicle shall be equipped with a parking brake operating on at least two wheels on the same axle which, when applied, shall be capable of holding the vehicle on any grade on which the vehicle is operated. Parking brakes must be separately actuated so that failure of any part of the service brake actuation system would not diminish the vehicle's parking brake holding capability.

NEW SECTION

WAC 204-90-100 FUEL SYSTEM. A special motor vehicle shall have all fuel components securely fastened to the vehicle so as not to interfere with the vehicle's operation. The components (tank, tubing, hoses, pump, etc.) shall be of leakproof design and be securely attached with fasteners designed for that purpose. All fuel system vent lines shall extend outside of the passenger compartment.

Fuel lines shall be positioned so as not to be in contact with the high temperature surfaces or moving components.

NEW SECTION

WAC 204-90-110 STEERING. A special motor vehicle shall be equipped with a continuous rim steering wheel the outside circumference of which shall be free from holes or angles capable of catching fingers, buttons, clothing, or jewelry, and having an outside diameter of not less than 12 inches. The steering wheel shall move not less than two turns nor more than six turns, and the steering system shall remain unobstructed when turning from stop to stop. The steering box mount shall be securely welded or bolted to the vehicle frame or other suitable location as originally installed by a recognized manufacturer. While the vehicle is in a sharp turn at a speed of between 5 and 15 MPH, release of the steering wheel shall result in a distinct tendency for the vehicle to increase its turning radius.

Note: Stability tests shall be performed on a dry, level concrete or asphalt road having no loose surface contaminant, and the vehicle's tires shall be inflated to the recommended pressure in accordance with the tire load per FMVSS 109. The vehicle shall contain a front seat passenger or simulated equivalent 150 lbs. weight secured to the seat in addition to the driver.

A special motor vehicle shall have steering capability for negotiating right and left turns of a 32 foot radius or less measured from the center of the turn circle to the outside front wheel track.

A special motor vehicle shall not have more free play or lash in the steering system than that allowed in the table below. The test for free play or lash shall be conducted as follows: With the engine on and the wheels in the straight ahead position, turn the steering wheel in one direction until there is a perceptible movement of a front wheel. If a point on the steering wheel rim moves more than the value shown in the table before perceptible return movement of the wheel under observation, there is excessive lash or free play in the steering system.

STEERING SYSTEM FREE PLAY VALUES	
STEERING WHEEL DIAMETER (Inches)	LASH (Inches)
16 or less	2
18	2-1/4
20	2-1/2
22	2-3/4

NEW SECTION

WAC 204-90-120 SUSPENSION. The ground clearance for a special motor vehicle shall be such that the vehicle shall be able to be in motion on its four rims on a flat surface with no other parts of the vehicle touching that surface. Maximum ground clearance for a special motor vehicle shall be determined using the table contained in subsection 204-90-040(6) Bumpers.

The spring mounts and shackles shall be properly aligned and of sufficient strength so as to support the gross weight of the vehicle and provide free travel in an

up and down movement under all conditions of operation. Rear coil spring suspension systems shall incorporate anti-sway devices to control lateral movement.

A special motor vehicle shall have a suspension system that allows movement between the unsprung axles and wheels and the chassis body and shall be equipped with a damping device at each wheel location. The suspension system shall be capable of providing a minimum relative motion of plus and minus 2 inches. When any corner of the vehicle is depressed and released, the damping device shall stop vertical body motion within two cycles.

There shall be no heating or welding of coil springs, leaf springs, or torsion bars.

No special motor vehicle shall be constructed or loaded so that the weight on the wheels of any axle is less than 30% of the gross weight of the vehicle.

A special motor vehicle shall be capable of stable, controlled operation while traversing a slalom-type path passing alternately to the left and right of at least four cones or markers arranged in a straight line and spaced 60 feet apart at a minimum speed of 25 MPH.

NEW SECTION

WAC 204-90-130 **EXHAUST SYSTEM.** A special motor vehicle shall be equipped with a leakproof exhaust system that includes the exhaust manifold(s), headers, the piping leading from the flange of the exhaust manifold(s), the muffler(s), and the tail piping.

Exhaust systems on property-carrying vehicles shall discharge the exhaust fumes to the rear of that part of the vehicle designed and normally used for carrying the driver and passengers.

Exhaust systems on passenger vehicles shall discharge the exhaust fumes at a location to the rear of the vehicle body or direct the exhaust fumes outward from the side of the vehicle body at a location rearward of any operable side windows.

No part of the exhaust system shall pass through any area of the vehicle that is used as a passenger compartment, nor in close proximity to the fuel system without being properly shielded.

NEW SECTION

WAC 204-90-140 **ELECTRICAL SYSTEM REQUIREMENTS.** NOTE: The lamps on special motor vehicles shall comply with standards contained in chapter 204-72 WAC.

The Washington State Patrol is authorized by RCW 46.61-.567 to remove vehicles from the highway by removing the vehicles directly, by using a rotational system of towing operators appointed by the commission, by entering into contracts with towing operators, or by a combination of these methods. If the vehicle to be removed is within an area covered by a rotation system, officers of the patrol shall obtain towing services to remove damaged or disabled vehicles from the highway or to remove vehicles from the highway with the following limitations:

(1) If the vehicle does not constitute an obstruction to traffic and the owner/operator of the vehicle is present

at the scene and appears competent to determine disposition of the vehicle, the owner/operator may, upon request, make his own arrangements for removal. This does not affect rotational positions.

(2) If the vehicle is to be removed from the scene, the owner/operator of the vehicle may make a specific request for a particular tow operator. The request will be honored by the officer of the patrol if the requested tow operator is reasonably available and the request is otherwise reasonable in view of the circumstances at the scene. This does not affect rotational positions.

(3) When the owner/operator of the vehicle makes no specific request, or when the owner/operator is incapacitated or is unavailable, the officer of the patrol shall, when practicable, obtain towing services by notifying the radio communications center and requesting tow service at that location.

(4) ~~((The commission shall specify that tow services obtained by the patrol will be on a contractual, rotational, or other basis in specific geographical areas in the state.))~~

(5) The district commander shall submit to the commission for approval the type of tow service in each tow zone.

~~((6))~~ For the purposes of rotational tow requests, an approved tow truck shall be used only in the single tow zone which has been assigned to the company or business enterprise operating such truck, except:

(a) in cases of specific requests covered by (2) above; and,

(b) when tow service is not reasonably available within a given zone and tow service must be obtained from another zone.

AMENDATORY SECTION (Amending 1244, filed 4/13/72)

WAC 16-304-020 ✓ ~~((Sampling in the administration of the Washington State Seed Act))~~ **SAMPLING IN THE ADMINISTRATION OF THE WASHINGTON STATE SEED ACT.** (1) General procedure for sampling seed shall be as follows:

(a) In order to secure a representative sample, equal portions shall be taken from evenly distributed parts of the quantity of seed to be sampled. Access shall be had to all parts of that quantity.

(b) For free-flowing seed in bags or bulk, a probe or trier shall be used. For small free-flowing seed in bags, a probe or trier long enough to sample all portions of the bag or container shall be used.

(c) Nonfree-flowing seed, such as certain grass seed, uncleaned seed, or screenings, difficult to sample with a probe or trier, shall be sampled by thrusting the hand into the bulk and withdrawing representative portions.

(d) Composite samples shall be obtained to determine the quality of a lot of seed, such as the percentages of pure seed, other crop seed, weed seed, inert matter, noxious weed seed, germination, varietal purity, freedom from disease, and effectiveness of seed treatment. Individual bag samples may be obtained to determine whether the seed is of uniform quality.

(2) Sampling Equipment. The trier shall be designed so that it will remove an equal volume of seed from each part of the bag through which the trier travels. Unless the trier has partitions in the seed chamber, it must be inserted into the bags horizontally.

(3) Obtaining Representative Samples.

(a) For lots of one to six bags, sample each bag and take a total of ((~~α~~)) at least five cores or ((handfuls)) handfuls.

(b) For lots of more than six bags, sample five bags plus at least ((+0%)) ten percent of the number of bags in the lot. (Round numbers with decimals to the nearest whole number.) Regardless of the lot size, it is not necessary to sample more than thirty bags.

Examples:

No. bags in lots	7	10	23	50	100	200	300	400
No. bags to sample	6	6	7	10	15	25	30	30

(c) For sampling bulk seed to obtain a composite sample, take at least as many cores or ((handfuls)) handfull as if the same quantity of seed were in bags of an ordinary size. Take the cores or ((handfuls)) handfull from well-distributed points throughout the bulk.

(d) Seed in small containers shall be sampled by taking entire unopened container in sufficient numbers to supply a minimum size sample as required in paragraph 4. The contents of a single container or the combined contents of multiple containers of the same lot shall be considered representative of the entire lot of seed sampled.

(4) Minimum Weights of Seed Samples to be Submitted for Testing ((are as follows)): See WAC 16-304-040, Schedule of Charges.

~~((a) Two ounces (approximately 55 grams) of grass seed not otherwise mentioned, white or alsike clover, or seeds not larger than these.~~

~~(b) Five ounces (approximately 150 grams) of red or crimson clover, alfalfa, lespedezas, ryegrasses, bromes, millet, flax, rape, or seeds of similar size.~~

~~(c) One pound of sudangrass, sorghum, proso, hemp seed, or seeds of similar size.~~

~~(d) Two pounds (approximately 1,000 grams) of screenings, cereals, vetches, or seed of similar or larger size.~~

~~(e) Vegetable seed samples shall consist of at least 400 seeds per sample.)~~

WAC 16-316-215 (Regulations and procedures for organization for economic cooperation and development scheme for varietal certification) RULES AND PROCEDURES FOR ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT SCHEME FOR VARIETAL CERTIFICATION (O.E.C.D.).

(1) O.E.C.D. certification is an international certification scheme limited to federal government membership. The agricultural research service of the United States department of agriculture is responsible for implementing the O.E.C.D. seed certification schemes in the United States. The state department of agriculture, by virtue of a memorandum of agreement with the agricultural research service, (USDA) United States department of agriculture, is authorized to implement O.E.C.D. certification in the state of Washington.

(2) The general and specific crop certification standards established by Washington state department of agriculture and the O.E.C.D. Scheme for Varietal Certification are basic and, together with the following specific (regulations) rules, constitute the rules for O.E.C.D. seed certification.

(3) Varieties eligible.

(a) Crop varieties of U.S. origin will be eligible for O.E.C.D. certification only if accepted into Washington's state's certification program.

(b) Crop varieties, (of or) of origin other than U.S., will be eligible for O.E.C.D. certification only if listed in O.E.C.D. publication, "List of Cultivars Eligible for Certification".

(4) Classes of seed eligible.

Washington and U.S. Seed Classes	Label Color	Equivalent O.E.C.D. Seed Classes	O.E.C.D. Label Color
Breeder	—	PreBasic	—
Foundation	White	Basic	White
Registered	Purple	Basic	White
Certified	Blue	1st Generation Certified Seed	Blue
Certified produced from Certified	Blue	2nd Generation Certified Seed	Red

(a) Breeder or PreBasic must be planted to be eligible to produce Basic White label.

(b) Foundation White label, Registered Purple label, or Basic White label must be planted to be eligible to produce 1st Generation Blue label.

(c) Certified or 1st Generation Blue label must be planted to be eligible to produce 2nd Generation Red label.

(5) Seed stock sample. Each lot of O.E.C.D. seed stock must be sampled under supervision of the certifying agency before seals are broken. Sample will be used as control for growout test and a portion may be submitted to seed laboratory for analysis if deemed necessary. Seed stock lots without official tags may not be granted O.E.C.D. approval.

(6) The department of agriculture must obtain approval from the originating country for each O.E.C.D. seed stock lot to be planted in the state of Washington for O.E.C.D. production. Request for O.E.C.D. approval will be submitted by the seed branch to ARS-Beltsville, Maryland, who then contacts the originating country.

(7) Application for certification and fees.

(a) Applicant desiring plantings to be eligible for O.E.C.D. certification must submit applications and fees as required for certification of that crop under Washington state's certification standards. Certification requirements and procedures for each kind shall be the genetic standards in Washington state certification program supplemented by O.E.C.D. standards and by the limitations specified by originating country; such as, length of stand and number of seed crops eligible.

These seed lots will not be required to meet Washington's minimum purity or germination certified seed standards; however, all seed must be officially sampled and tested prior to tagging.

(b) Washington O.E.C.D. eligible lots may, with approval of both agencies involved, be blended with O.E.C.D. eligible seed of other state agencies. Applicant is responsible for all fees of both agencies involved.

(c) Seed produced out of state and processed in Washington must be O.E.C.D. tagged by the state of origin.

(8) Tagging and sealing. O.E.C.D. tags will be printed and issued according to O.E.C.D. rules. Seed Branch will issue an O.E.C.D. reference number; e.g. (USA-W-78-000), which will be printed on each tag. It is recommended that O.E.C.D. reference numbers be stenciled

on each bag. Extra statement on the O.E.C.D. tag such as, "date of sealing", etc. will be kept to a minimum.

(9) Bagging sample. A bagging sample of each lot of O.E.C.D. seed tagged must be drawn under supervision of the certifying agency. (~~100 to 250~~) One hundred to two hundred fifty grams of the sample will be held for the originating country, the balance will be used for required post control grow-out tests.

(10) O.E.C.D. certificate. The seed branch will issue an O.E.C.D. certificate showing kind, variety, reference number, date of sealing, number of containers, weight of lot, class of seed and O.E.C.D. reference number of seed stock used for each lot tagged and sealed upon receipt of tagging report and bagging sample. One copy of the O.E.C.D. certificate is to be mailed to the shipper, one copy to ARS-USDA, one copy attached to bagging sample and one copy for seed branch files.

(11) Grow-out tests. As prescribed by O.E.C.D. rules, at least (~~1 of 4~~) one of four domestic lots tagged and all lots of foreign varieties O.E.C.D. tagged will be planted in grow-out tests.

(12) Special O.E.C.D. fees. In addition to fees required by applicable Washington certification rules, the following fees are in addition and will apply to all seed tagged O.E.C.D.:

~~((a))~~ Tagging \$ 0.25 cwt.

~~((d))~~ (c) Fees for seed stock sampling or services not listed in this order shall be the most applicable fee established by the director of agriculture.

~~((e))~~ (d) All fees payable by person requesting O.E.C.D. certificate. Certifying agency may require fees payable in advance.

With respect to the reporting of timber harvested from private or public lands in areas west of the Cascade Summit, which areas are designated as stumpage value areas 1, 2, 3, 4, 5, and 11 in the stumpage value area map of WAC 458-40-18689, the methods and procedures published by the Columbia River Log Scaling and Grading Bureau, Grays Harbor Log Scaling and Grading Bureau, and the Puget Sound Log Scaling and Grading Bureau and published as the "Official Log Scaling and Grading Rules" by the Puget Sound Log Scaling and Grading Bureau, Tacoma, Washington are approved by the department for use in those areas.

(b) East of the Cascade Summit—Approved scaling rule. With respect to the reporting of timber harvested from private or public lands in areas east of the Cascade Summit, which areas are designated as stumpage value areas 6, 7, 8, 9, and 10 in the stumpage value area map of WAC 458-40-18689, the methods and procedures published by the United States forest service under the title "National Forest Log Scaling Handbook" procedures are approved by the department for use in those areas. This log scaling handbook is published under the title FSH 2409-11 National Forest Log Scaling Handbook, Forest Service, United States Department of Agriculture.

(c) East of the Cascade Summit—Established grading rule. Because the National Forest Log Scaling Handbook does not contain grading rules, a separate computation shall be made to arrive at the proper grade for purposes of determining the timber quality code number for timber harvested east of the Cascade Summit. The grade for quality classification purposes of the timber harvested from private or public land east of the Cascade Summit shall be determined by the number of sawable sixteen foot logs per thousand feet net Scribner Decimal C Log Scale. The computation shall be made under the following three-step procedure:

(i) Step 1. The highest possible total number of sawable sixteen foot logs which could be recovered shall be determined by dividing the sum total of length of all sawable logs harvested by the number sixteen.

(ii) Step 2. The average net volume per sixteen foot recoverable log shall be determined by dividing the total volume harvested (net log scale) by the total number of sixteen foot logs as determined in Step 1.

(iii) Step 3. The total number of logs per thousand board feet (MBF) shall be determined by dividing one thousand by the average net volume as determined in step 2.

(3) Codominant Trees. Trees whose crowns form the general level of the crown cover and receive full light from above, but comparatively little light from the sides.

(4) Department. Department, for the purposes of this chapter, shall mean the department of revenue of the state of Washington.

(5) Dominant Trees. Trees whose crowns are higher than the general level of the canopy and who receive full light from the sides as well as from above.

(6) Forest Excise Tax Payment. Every person who is engaged in business as a harvester of timber from privately or publicly owned land shall pay a forest excise tax which shall be equal to the taxable stumpage value of timber harvested for sale or for commercial or industrial use and multiplied by the appropriate rate as provided in RCW 84.33.071.

(7) Harvester. Harvester shall mean every person who from his own land or from land of another under a right or license granted by lease or contract, either directly or by contracting with others, takes timber

for sale or for commercial or industrial use. It does not include persons performing under contract the necessary labor or mechanical services for a harvester.

(8) Harvested Timber—When Determined. Timber shall be considered harvested at the time when in the ordinary course of business the quantity thereof by species is first definitely determined.

(9) Harvest Type. Harvest type shall be a term referring to the grouping of harvested timber by age and type of harvest and shall include and is limited to the following harvest types:

(a) Merchantable sawtimber, all ages—The removal of timber east of the Cascade Summit shall be reported as "merchantable sawtimber, all ages," unless the harvest type comes within the definition in this chapter of "special forest products harvest."

(b) Old growth final harvest. The removal of any timber from a harvest unit that is 100 years of age or older and west of the Cascade Summit shall be reported as "old growth final harvest" unless the harvest type comes within the definition in this chapter of "special forest products harvest."

(c) Special forest products. The removal of Christmas trees (except as provided in RCW 84.33.170), shake blocks and boards, and posts and other western redcedar products shall be reported as "special forest products harvest."

(d) Thinning. The removal of timber from a harvest unit meeting all the following conditions:

(i) Harvest unit located west of the Cascade Summit;

(ii) Timber that is less than 100 years of age;

(iii) The total merchantable volume which is removed is less than forty percent of the total merchantable volume of the harvest unit prior to harvest;

(iv) Not more than forty percent of the total volume removed is from the dominant and codominant trees;

(v) The trees removed in the harvest operation shall be distributed over the entire harvest unit.

(e) Young growth final harvest. The removal of any timber from a harvest unit that is less than 100 years of age and does not meet the definition of thinning in paragraph (d) of this section and west of the Cascade Summit shall be reported as "young growth final harvest" unless the harvest type comes within the definition in this chapter of "special forest products harvest" or within the definition of "thinning harvest."

(10) Harvest Unit. A harvest unit is a harvest area having the same forest excise tax permit number, stumpage value area, hauling distance zone, harvest type, harvest adjustments and harvester. A harvest unit may include more than one section.

(11) MBF. As used herein MBF shall mean one thousand board feet measured in Scribner Decimal C Log Scale Rule.

(12) Private Timber. Private timber is all timber harvested from privately owned lands.

(13) Public Timber. Public timber is timber harvested from state, federal, municipal, and other government owned lands.

(14) Sawlog. Sawlog shall mean any log large enough to produce one-third of its gross volume in sound lumber or other products that can be sawed.

(15) Species. Species designation is a biologically-based grouping of harvested timber and shall include but is not limited to the following designations of species and subclassifications thereof (as defined in Agriculture Handbook No. 541 Checklist of United States Trees (Native and Naturalized)):

(a) West of the Cascade Summit:

(i) "Douglas-fir," "western hemlock," "true fir," "western redcedar," "noble fir," "Sitka spruce," "Alaska-cedar," "red alder," and "cottonwood" shall be reported as separate species where designated as such in the stumpage value tables of WAC 458-40-18692.

(ii) In areas west of the Cascade Summit, species designations for the harvest type "special forest products" shall be "western redcedar" (shake blocks and boards), "western redcedar" (flatsawn and shingle blocks), "western redcedar and other" (posts), "Douglas-fir" (Christmas trees), "true fir and others" (Christmas trees).

(b) East of the Cascade Summit:

(i) "Ponderosa pine," "lodgepole pine," "western white pine," "Douglas-fir," "western hemlock," "true fir," "western redcedar," "western larch" and "Engelmann spruce" shall be reported as separate species where designated as such in the stumpage value tables of WAC 458-40-18692.

(ii) In areas east of the Cascade Summit, species designations for the harvest type "special forest products" shall be "western redcedar"

(flatsawn and shingle blocks), "lodgepole pine and other" (posts), "pine" (Christmas trees), "Douglas-fir and other" (Christmas trees).

(c) All areas:

(i) "Other conifer," as used in the stumpage value tables, shall be all other conifers not separately designated in the applicable stumpage value tables.

(ii) "Hardwood," and "other hardwood," as used in the stumpage value tables, shall be all hardwoods not separately designated in the applicable stumpage value tables.

(iii) "Utility," "conifer utility," and "hardwood utility" are separate species as defined by the "Official Log Scaling and Grading Rules" published by the Puget Sound Log Scaling and Grading Bureau and shall be reported as separate species where designated as such in the stumpage value tables.

(16) Stumpage Value Area. A stumpage value area is an area with specified boundaries which contains timber having similar growing, harvesting, and marketing conditions. Presently, there are eleven such stumpage value areas designated in the state of Washington as shown under WAC 458-40-18689. Stumpage value areas 1, 2, 3, 4, 5, and 11 are located west of the Cascade Summit and stumpage value areas 6, 7, 8, 9, and 10 are located east of the Cascade Summit.

(17) Stumpage Value of Timber. The stumpage value of timber shall be the appropriate value for each species of timber harvested, or for each species of "special forest product" reported, as set forth in the stumpage value tables under WAC 458-40-18692.

(18) Timber. Timber shall include forest trees, standing or down, on privately or publicly owned land, and except as provided in RCW 84-33.170 includes Christmas trees, shake blocks and boards, posts and other western redcedar products.

(19) Timber Quality Code Number. The timber quality code number is a number assigned to the harvest of a particular species within a harvest type under WAC 458-40-18691, and is based upon the constituent percentage of log grade specifications within the total volume of timber harvested for that particular species.

(20) This rule shall not be construed to affect any public timber contracts in effect prior to August 1, 1982.

WAC 458-40-18689 STUMPAGE VALUE AREAS—MAP FOR JULY 1 THROUGH DECEMBER 31, 1983. In order to allow for differences in market conditions and other relevant factors throughout the state as required by RCW 84.33.071(3) the department has created a map designating areas containing timber having similar growing, harvesting, and marketing conditions. The stumpage value area map shall be used for the determination of stumpage values.

The stumpage value area map shown herein shall be used to determine the proper stumpage value table to be used in calculating the taxable stumpage value under WAC 458-40-18692.

The following stumpage value area map is hereby adopted for use during the period of July 1 through December 31, 1983:

WAC 458-40-18691 **TIMBER QUALITY CODE NUMBERS—TABLES FOR JULY 1 THROUGH DECEMBER 31, 1983.** In order to allow for differences in age, size, quality of timber and other relevant factors as required by RCW 84.33.071(3), the department has assigned timber quality code numbers for harvests of the various designated harvest types and species.

Scaling and grading information derived from an acceptable log scaling and grading rule for the particular harvest type and species shall be used to determine the proper quality code number.

For each timber quality code number in the following tables, there is a corresponding timber quality code number for that particular harvest type and species in the stumpage value tables of WAC 458-40-18692 which is to be used in computing timber harvest value.

The following timber quality code tables are hereby adopted for use during the period of July 1 through December 31, 1983:

¹For detailed descriptions and definitions of log scaling rules and procedures see the Official Log Scaling and Grading Rules revised January 1, 1980, published by the Puget Sound Log Scaling and Grading Bureau. These are also used by the Columbia River and Grays Harbor Scaling and Grading Bureaus. To determine timber quality code number for Western Washington, see the following example.

WESTERN WASHINGTON EXAMPLE: The following example is for determining the timber quality number code for timber harvested in stumpage value areas 1, 2, 3, 4, 5, and 11 in Western Washington. The following method can be used to determine the quality code number for species in "old growth final harvest," "young growth final harvest," and "thinning harvest" types.

The example shown below is for a harvest of 150 thousand board feet (150 MBF) of the species, Douglas-fir, and the harvest type, young growth final harvest, with the following volumes at the indicated grades:

Log Grade	Net Volume, Scribner Scale
Special Mill	20 MBF
No. 1 sawmill	20 MBF
No. 2 sawmill	45 MBF

Log Grade	Net Volume, Scribner Scale
No. 3 sawmill	35 MBF
No. 4 sawmill	30 MBF
TOTAL	150 MBF

To determine the proper quality code number, add the scale volumes for the grades as established by the approved grading rule. Divide this volume by the total volume harvested for the species. In this example, the Special Mill and the No. 1 and 2 sawmill logs account for 85 MBF of the 150 MBF Douglas-fir harvested. Divide as follows:

$$\frac{20 + 20 + 45}{150} \text{ or } \frac{85}{150} = .567 \times 100 = 56.7\%$$

In this example, the Special Mill, No. 1 and 2 sawmill logs make up 56.7% of the Douglas-fir harvested. Since this is between 40 and 70% No. 2 sawmill and better, the entire Douglas-fir harvested would be reported as:

Species	Timber Quality Code Number	Net Volume Harvested
Douglas-fir	2	150 MBF

2	Ponderosa Pine	10 or more logs 16 feet long per thousand board feet Scribner scale

¹To determine timber quality code number in Stumpage Value Areas 6, 7, 8 and 9 for Eastern Washington, see the following example.

EASTERN WASHINGTON EXAMPLE: The following example is for determining the timber quality code for timber harvested in stumpage value areas 6, 7, 8 and 9 in Eastern Washington.

The example shown below is for a harvest of 150 thousand board feet (150 MBF) of the species, Ponderosa Pine, and harvest type merchantable sawtimber, all ages with a sum total log length of 19,200 feet.

Step 1. The highest possible number of sawable sixteen foot logs which could be recovered is determined by dividing the sum total length of all sawable logs harvested (i.e. 19,200) by 16. Answer: 1200 logs.

Step 2. The average net volume per sixteen foot recoverable log is determined by dividing the total volume harvested (150 MBF) by the number of sixteen foot logs (1200). Answer: 125.

Step 3. The total number of logs per thousand board feet is determined by dividing 1000 by the average net volume per sixteen foot recoverable log (125). Answer: 8 logs per 1 MBF.

Step 4. Because the timber quality code table lists less than 10 logs per 1 MBF for Ponderosa pine as timber quality code number 1, the harvest was at 8 logs per 1

MBF the entire Ponderosa pine harvest would be reported as:

Species	Timber Quality Code Number	Volume Harvested
Ponderosa Pine (PP)	1	150 MBF

TABLE 5—TIMBER QUALITY CODE TABLE

Timber Quality Code Number	Species	Log Grade Specifications ¹
1	Ponderosa Pine & Other Conifers	Less than 5 logs 16 feet long per MBF net log Scribner scale
	Hardwoods	All logs graded as sawlogs
2	Ponderosa Pine	5 to 9 logs inclusive 16 feet long per MBF net log Scribner scale
	Other Conifer	5 to 12 logs inclusive 16 feet long per MBF net log Scribner scale
3	Ponderosa Pine	More than 9 logs 16 feet long per MBF net log Scribner scale
	Other Conifer	More than 12 logs 16 feet long per MBF net log Scribner scale
5	Utility	All logs graded as utility

¹To determine timber quality code number in Stumpage Value Area 10 in Eastern Washington, see the following example.

EASTERN WASHINGTON EXAMPLE: The following example is for determining the timber quality code for timber harvested in stumpage value area 10 in Eastern Washington.

The example shown below is for a harvest of 150 thousand board feet (150 MBF) of the species, Ponderosa Pine, and harvest type merchantable sawtimber, all ages with a sum total log length of 19,200 feet.

Step 1. The highest possible number of sawable sixteen foot logs which could be recovered is determined by dividing the sum total length of all sawable logs harvested (i.e. 19,200) by 16. Answer: 1200 logs.

Step 2. The average net volume per sixteen foot recoverable log is determined by dividing the total volume harvested (150 MBF) by the number of sixteen foot logs (1200). Answer: 125.

Step 3. The total number of logs per thousand board feet is determined by dividing 1000 by the average net volume per sixteen foot recoverable log (125). Answer: 8 logs per 1 MBF.

Step 4. Because the timber quality code table lists 5-9 logs per 1 MBF for Ponderosa pine as timber quality code number 2, the harvest was at 8 logs per 1 MBF the entire Ponderosa pine harvest would be reported as:

Species	Timber Quality Code Number	Volume Harvested
---------	----------------------------	------------------

Ponderosa Pine (PP) 2 150 MBF

NEW SECTION

WAC 458-40-18692 STUMPAGE VALUES—TABLES FOR JULY 1 THROUGH DECEMBER 31, 1983. As required by RCW 84.33.071 the department has prepared tables which assign stumpage value rates for the various harvest types, which rates vary depending upon the stumpage value area, species, timber quality code number and hauling distance zone involved. Where the timber harvested is used to produce harvest type "special forest products" the value tables of this section shall establish the values for such special forest products.

The following stumpage value and special forest product value tables are hereby adopted for use during the period of July 1 through December 31, 1983.

WAC 458-40-18693 HARVESTER ADJUSTMENTS—TABLES FOR JULY 1 THROUGH DECEMBER 31, 1983. In order to make reasonable and adequate allowances for costs of removal and size of logging operation in computation of stumpage value rates as required by RCW 84.33.071(3), the department has prepared tables which allow for adjustments to the stumpage value rates derived from the stumpage value tables of WAC 458-40-18692.

Harvest adjustments relating to harvest volume per acre, logging conditions and average volume per log shall be allowed against the stumpage value rates for the designated harvest types and in the designated stumpage value areas as set forth in the following tables with the following limitations:

- (1) No harvest adjustment shall be allowed against "special forest products."
- (2) No harvest adjustment shall be allowed against "utility," "conifer utility," and "hardwood utility."
- (3) Rates for the harvest type "old growth final harvest," shall be adjusted to a value no lower than \$10 per thousand board feet.
- (4) Rates for the harvest type "young growth final harvest," conifers, shall be adjusted to a value no lower than \$5 per thousand board feet.
- (5) Stumpage value rates for conifers within the harvest type "merchantable sawtimber, all ages," shall be adjusted to a value no lower than \$5 per thousand board feet.
- (6) Stumpage value rates for "hardwood" and for "thinning harvest" shall be adjusted to a value no lower than \$1 per thousand board feet.

Timber harvesters planning to remove timber from areas having damaged timber may apply to the department of revenue for adjustment in stumpage value rates. Such applications should contain a map with the legal description of the area from which the timber will be removed, a description of the damage sustained by the timber, and a listing of additional costs incurred. Such applications should be sent to the Department of Revenue AX-02, Forest Tax Division, General Administration Building, Olympia, Washington 98504, before the harvest commences.

In the event the extent of such timber damage or additional costs are not known at the time the application is filed, the harvester may supplement the application when the necessary information is obtained, but in no event later than 90 days following completion of the harvest unit.

Upon application from any person who plans to harvest damaged timber the department will make a determination as to the amount of adjustment to be allowed. The harvester will be notified by the department of the amount of the adjustment. This amount can then be taken as a credit against tax liabilities or if the harvester is no longer harvesting, a refund will be authorized.

The following harvest adjustment tables are hereby adopted for use during the period of July 1 through December 31, 1983:

WAC 458-40-18694 SMALL HARVESTER OPTION FOR JULY 1 THROUGH DECEMBER 31, 1983. Harvesters of no more than 500 MBF per calendar quarter or a total of 1,000 MBF in a calendar year of combined public and private harvest (excluding conifer and hardwood utility) may elect to calculate the timber tax in the manner provided by RCW 84.33.073 and 84.33.074. A harvester who elects to use this option shall use the quarterly reporting forms provided for this option by the department of revenue.

NEW SECTION

WAC 458-40-18695 DEFINITIONS FOR SMALL HARVESTER OPTION FOR JULY 1 THROUGH DECEMBER 31, 1983. (1) Small harvester. Small harvester means every person who from his own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use in an amount not exceeding 500 MBF in a calendar quarter and not exceeding 1,000 MBF in a calendar year of combined public and private harvest (excluding conifer and hardwood utility). It does not include persons performing under contract the necessary labor or mechanical services for a harvester, and it does not include harvests of forest products classified by the department of revenue as special forest products including Christmas trees, posts, shake boards, bolts, flatsawn and shingle blocks.

(2) Harvesting and marketing. Harvesting and marketing costs means only those costs directly associated with harvesting the timber from the land and delivering it to the buyer and may include the costs of disposing of logging residues but it does not include any other costs which are not directly and exclusively related to harvesting and marketing of the timber such as costs of permanent roads or costs of reforestation of the land following harvest.

(3) Stumpage value. Stumpage value shall be determined by the following methods, whichever is most appropriate to the circumstances of the harvest:

(a) Sale of logs - Timber which has been severed from the stump and cut into various lengths for further processing. A landowner who has sold logs for a percentage share of gross receipts should report the share received under WAC 458-40-18695 (3)(b). The taxable stumpage value is the actual gross receipts from the harvested timber less the costs of harvesting and marketing.

(b) Sale of stumpage - Standing or fallen trees which have not been severed from the stump, providing harvest occurs within 12 months of sale. If harvest occurs more than 12 months after sale report under

WAC 458-40-18695 (3)(a). The taxable stumpage value is the actual gross receipts received for the timber from the most recent sale prior to harvest. No harvesting and marketing cost deduction is allowable.

(4) This rule shall not be construed to affect any public timber contracts in effect prior to August 1, 1982.

NEW SECTION

WAC 458-40-18696 TAXABLE STUMPAGE VALUE FOR JULY 1 THROUGH DECEMBER 31, 1983. Taxable stumpage value shall be the stumpage value as determined by WAC 458-40-18695(3) (a) or (b). Actual harvesting and marketing costs must be used in all instances where documented records are available. When the taxpayer is unable to provide documented proof of harvesting and marketing costs, the deduction shall be a percentage of the gross receipts from the sale of the harvested timber as determined by the department of revenue. For the calendar period July 1 through December 31, 1983, the deduction shall be fifty percent of the gross receipts. The amount of tax due is determined by multiplying the total taxable stumpage value by the current rate of .065.

AMENDATORY SECTION (Amending Order FT-82-7, filed 12/30/82)

WAC 458-40-19004 CONVERSION DEFINITIONS AND FACTORS FOR THE CALENDAR PERIOD ((JANUARY-1

~~THROUGH JUNE 30))~~ **JULY 1 THROUGH DECEMBER 31, 1983.** (1) The following standard conversion definitions and factors shall be used in determining Scribner board foot volume scale for timber harvested that was not originally scaled in Scribner board foot volume scale:

- | Table No. | Conversion Method |
|-----------|---|
| 1 | <p>Standard Cord
For logs on the average of 8 inches and larger on the small end of the log the conversion factor is 400 Scribner board feet per cord and for logs on the average of less than 8 inch on the small end of the log the conversion factor is 330 Scribner board feet per cord.</p> |
| 2 | <p>Shake Blocks and Boards
A cord consisting of western redcedar shingle or shake blocks based on stacked dimensions of 4 feet by 4 feet by 8 feet is equivalent to 600 Scribner board feet.</p> |
| 3 | <p>Cants or Lumber from Portable Mills
Payment for cants is generally based on the board foot volume (lumber tally) cut from them. Payment for lumber cut from a portable mill is also generally based on the lumber tally from the log. To convert from lumber tally to Scribner log volume, multiply the lumber tally for the individual species by 75% and round to the nearest one thousand board feet Scribner scale.</p> |
| 4 | <p>Log Length Conversion Western Washington Only (Stumpage Value Areas 1, 2, 3, 4, 5, and 11).
Operations that cut and scale logs in short lengths (16 feet to 20 feet) shall adjust the volume downward to correspond to the long log scale basis used in the Stumpage Value Tables. To convert to long log scale, multiply the short log scale for each species by 82% and round to the nearest thousand board feet.</p> |
| 5 | <p>Log Length Conversion Eastern Washington Only (Stumpage Value Areas 6, 7, 8, 9 and 10).
Operations that cut and scale logs in long lengths (32 feet to 40 feet) shall adjust the volume upward to correspond to the short log scale basis used in the Stumpage Value Tables. To convert to short log scale, multiply the long log scale for each species by 118% and round to the nearest thousand board feet.</p> |
| 6 | <p>Some standard converting factors and equivalents:</p> <ul style="list-style-type: none"> (a) 1 standard cord equals 128 cubic feet, gross (b) 1 standard cord equals 85 cubic feet, solid wood (c) 1 standard cord equals 2.4069 cubic meters of solid wood (d) 1 cunit equals 100 cubic feet, log scale (e) 1 meter equals 39.37 inches (f) 1 cubic meter equals 35.315 cubic feet log scale (g) 1 cunit equals 2.832 cubic meters, log scale (h) 1 pound equals 0.454 kilograms (i) 1 kilogram equals 2.2046 pounds (j) 1 short ton equals 2000 pounds (k) 1 short ton equals 907.18 kilograms (l) 1 long ton equals 2240.0 pounds (m) 1 long ton equals 1016.05 kilograms (n) 1 metric ton (or tonne) equals 1000 kilograms or approximately 2204.62 pounds. |

(2) If the harvester chooses not to use the designated conversion definitions and/or factors, the harvester shall obtain approval of the procedure from the department before harvesting.

EXAMPLE: Weight or Cubic Measurement. If the original unit of measure was by weight (pounds or tons) or cubic feet (cunits or units), the harvester shall convert to Scribner Board Foot volume, but may use only such conversion procedures and factors as have been given prior approval by the department.

Proponents and Opponents: These rules are proposed by the Department of Licensing.

Small Business Economic Impact Statement: WAC 308-90-040 Dealer registration application form. Cost for small business is estimated to be \$0.021 per \$100 in sales. Costs for larger businesses is estimated to be \$0.001 per \$100 in sales. Discussion: The assumptions used are that the application form will require one hour to complete. Assume employee is being compensated at \$15 per hour. Using the revenue figures for small and large businesses provided by the Department of Revenue and the Office of Small Business of the Department of Commerce and Economic Development and apportioning the costs involved in completing the form over the revenues of the firm we arrive at a cost to small firms of \$0.021 per \$100 of sales and a cost to larger firms of \$0.001 per \$100 of sales; WAC 308-90-060 Display of registration. Cost for small business is estimated to be \$0.0052 per \$100 in sales. Cost for larger businesses is estimated to be \$0.0002 per \$100 in sales. Discussion: This rule requires the posting of the registration at the

dealer's place of business. Assuming it would take 15 minutes to adequately post the registration and employee time is being compensated at \$15 per hour it would cost \$3.75 to set the registration up for display. This cost of \$3.75 was distributed over total revenues received by small and large firms. Revenue figures were supplied by the Department of Revenue and the Office of Small Business of the Department of Commerce and Economic Development; WAC 308-90-080 Registration fee—Renewal. Cost for small business is estimated to be \$0.035 per \$100 in sales. Cost for larger businesses is estimated to be \$0.0017 per \$100 in sales. Discussion: This rule provides for a \$25 registration fee. Using the revenue figures for small and large businesses provided by the Department of Revenue and the Office of Small Business of the Department of Commerce and Economic Development the \$25 fee has been apportioned over the revenues; WAC 308-90-090 Change of business location. Cost for small business is estimated to be from zero to \$0.0052 per \$100 in sales. Cost for larger businesses is estimated to be from zero to \$0.0002 per \$100 in sales. Discussion: This rule requires a dealer to notify the director of any change in business location. The business would be required to fill out a short form regarding the change of address. The assumptions made are that the firm would require 15 minutes of time to complete. The employee is assumed to be compensated at \$15 per hour. Total cost would be \$3.75. This cost was apportioned over the revenue of the small and larger firms. Revenue information was provided by the Department of Revenue and the Office of Small Business of the Department of Commerce and Economic Development; and WAC 308-90-110 Statement of change in business structure, ownership interest or control. Cost for small business is estimated to be from zero to \$0.021 per \$100 in sales. Cost for larger businesses is estimated to be from zero to \$0.001 per \$100 in sales. Discussion: This rule requires a dealer to notify the department of any change in ownership or business structure. The assumption which is made is that a short statement of the changes occurring would require one hour of employee time to write and file. It is assumed that employee time is being compensated at \$15 per hour. The total cost of \$15 has been apportioned over the revenue received by small and larger firms. The information regarding revenues received was supplied by the Department of Revenue and the Office of Small Business of the Department of Commerce and Economic Development.
