CITATION

Cite all material in the Washington State Register by its issue number and sequence within that issue, preceded by the acronym WSR. Example: The 37th item in the August 5, 1981, Register would be cited as WSR 81-15-037.

PUBLIC INSPECTION OF DOCUMENTS

A copy of each document filed with the Code Reviser pursuant to chapter 28B.19 or 34.04 RCW is available for public inspection during normal office hours. The Code Reviser's Office is located on the ground floor of the Legislative Building in Olympia. Office hours are from 8 a.m. to noon and from 1 p.m. to 5 p.m. Monday through Friday, except legal holidays. Telephone inquiries concerning material in the Register or the Washington Administrative Code (WAC) may be made by calling (206) 753-7470 (SCAN 234-7470).

REPUBLICATION OF OFFICIAL DOCUMENTS

All documents appearing in the Washington State Register are prepared and printed at public expense. There are no restrictions on the republication of official documents appearing in the Washington State Register. All news services are especially encouraged to give wide publicity to all documents printed in the Washington State Register.

CERTIFICATE

Pursuant to RCW 34.08.040, the publication of rules or other information in this issue of the Washington State Register is hereby certified to be a true and correct copy of such rules or other information, except that headings of public meeting notices have been edited for uniformity of style.

STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined matter is new matter;
 - (ii) ~~deleted matter is ((lined out and bracketed between double parentheses));~~
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

*Dates adjusted to accommodate July 4th holiday on normal distribution and closing date. See WAC 1-12-030(5)(c) and 1-13-030(5)(c).

¹All documents are due at the Code Reviser's Office by 5:00 p.m. on the applicable closing date for inclusion in a particular issue of the Register; see WAC 1-12-035 or 1-13-035.

²A filing of any length will be accepted on the closing dates of this column if it has been prepared by the Order Typing Service (OTS) of the Code Reviser's Office; see WAC 1-12-220 or 1-13-240. Agency-typed material is subject to a ten page limit for these dates; longer agency-typed material is subject to the earlier non-OTS dates.

³No proceeding may be held on any rule until twenty days have passed from the distribution date of the Register in which notice thereof was contained.* RCW 28B.19.030(4) and 34.04.025(4). These dates represent the twentieth day after the distribution date of the applicable Register.

WSR 83-17-044
EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 83-93—Filed August 12, 1983]

Reviser's note: The following repealed section (WAC 220-24-02000W) was adopted by the Department of Fisheries in Order 83-93 and was filed in the code reviser's office on August 12, 1983. Through a clerical error it was omitted from publication in WSR 83-17-044, and is therefore set forth in this issue of the Register. Pursuant to RCW 34.04.040(2), the effective date of the repealer is August 12, 1983.

REPEALER

The following section of the Washington Administrative Code is repealed:

**WAC 220-24-02000W LAWFUL ACTS—
TROLL FISHERY (83-83)**

WSR 83-18-001
ADOPTED RULES
BELLEVUE COMMUNITY COLLEGE

[Order 85, Resolution No. 158—Filed August 25, 1983]

Be it resolved by the board of trustees of Bellevue Community College, Community College District VIII, acting at 3000 Landerholm Circle S.E., Bellevue, WA 98007, that it does adopt the annexed rules relating to addition of new chapter and section of the Washington Administrative Code of Community College District VIII. Chapter 132H-200 WAC, "general operating policies of Community College District VIII," and WAC 132H-200-100, "policy on the illness of alcoholism and other chemical dependency," are being instituted.

This action is taken pursuant to Notice No. WSR 83-13-074 filed with the code reviser on June 17, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 28B.19.050(2).

This rule is promulgated under the general rule-making authority of Bellevue Community College, Community College District VIII, as authorized in RCW 28B.50.140.

The undersigned hereby declares that the institution has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 22, 1983.

By Paul N. Thompson
Secretary

Chapter 132H-200

**GENERAL OPERATING POLICIES OF
COMMUNITY COLLEGE DISTRICT VIII**

WAC 132H-200-010 TITLE. WAC 132H-200-010 through 132H-200-150 shall be known as the General Operating Policies of Community College District VIII.

WAC 132H-200-020 PURPOSE. To incorporate those policies that pertain to the campus-wide community and not otherwise incorporated in the Washington Administrative Code of Community College District VIII.

WAC 132H-200-100 POLICY ON THE ILLNESS OF ALCOHOLISM AND OTHER CHEMICAL DEPENDENCY. The Board of Trustees of Community College District VIII recognizes alcoholism, alcohol abuse, chemical dependency and other health and related behavioral problems as treatable conditions which repeatedly and continually interfere with an employee's ability to perform his/her job.

A college employee having these conditions will be given the same consideration and offer of assistance presently extended to employees having other illnesses.

WSR 83-18-002
ADOPTED RULES
BOARD OF HEALTH
[Order 265—Filed August 25, 1983]

Be it resolved by the Washington State Board of Health, acting at Olympia, Washington, that it does adopt the annexed rules relating to kidney centers, amending chapter 248-30 WAC.

This action is taken pursuant to Notice No. WSR 83-13-102 filed with the code reviser on June 21, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated under the general rule-making authority of the Washington State Board of Health as authorized in RCW 43.20.050.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 10, 1983.

By John A. Beare, MD
Secretary

AMENDATORY SECTION (Amending Order 198, filed 5/22/80)

WAC 248-30-080 DEFINITIONS. For the purposes of administering the state kidney disease program, the following shall apply:

(1) "End Stage Renal Disease (ESRD)" shall mean that stage of renal impairment which is virtually always irreversible and permanent, and requires dialysis or kidney transplantation to ameliorate uremic symptoms and maintain life;

(2) "Patient" shall mean resident of the state with a diagnosis of ESRD;

(3) "Kidney center" shall mean those facilities as defined and certified by the federal government to provide ESRD services and which provide the services specified

in WAC 248-30-090 and which promote and encourage home dialysis for patients when medically indicated;

(4) "Affiliate" shall mean a facility, hospital, unit, business, or individual which has an agreement with a kidney center to provide specified services to ESRD patients;

(5) "Department" shall mean the Washington state department of social and health services;

(6) "State kidney disease program" shall mean state general funds appropriated to the department to assist persons with ESRD to meet the cost of their medical care;

(7) "Application for eligibility" shall mean the form provided by the department which the patient must complete and submit to determine eligibility;

(8) "Certification" or "certified" shall mean the approval by the department of a patient's eligibility for the state kidney disease program pursuant to WAC 248-30-110;

(9) "Application period" shall mean the time between the date of application and certification.

AMENDATORY SECTION (Amending Order 198, filed 5/22/80)

WAC 248-30-100 REIMBURSEMENT. Reimbursement for services described ~~((above))~~ in WAC 248-30-090 shall be made to kidney centers to the extent the legislature has appropriated funds therefore and when documented evidence is submitted to the department showing:

(1) Services for which reimbursement is requested;

(2) ~~((Certification that the patient has been determined to be))~~ Application information required by the department to determine the patient is financially eligible for the state kidney disease program pursuant to WAC 248-30-110~~((;))~~ except ~~((that))~~:

(a) Reimbursement for services provided to a patient in a location outside the state shall be limited to a period of two weeks per calendar year; and

(b) Reimbursement for services described under WAC 248-30-090~~((, paragraph))~~(3) shall be determined on a case-by-case basis by the department.

AMENDATORY SECTION (Amending Order 243, filed 9/20/82)

WAC 248-30-110 ELIGIBILITY. The kidney center shall ~~((determine and))~~ review at least annually the eligibility of an individual patient for the state kidney disease program according to ~~((criteria established by the department))~~ procedures outlined in WAC 248-30-130. Generally a patient shall be considered eligible if he or she has exhausted or is ineligible for all other resources providing similar benefits to meet the costs of ESRD related medical care. Resources shall include:

(1) Income in excess of a level necessary to maintain a moderate standard of living, as defined by the department, using accepted national standards;

(2) Savings, property, and other assets;

(3) Government and private medical insurance programs;

(4) Government or private disability programs;

(5) Local funds raised for the purpose of providing financial support for a specified ESRD patient: PROVIDED, That in determining eligibility the following resources shall be exempt:

(a) A home, defined as real property owned by a patient as a place of residence together with the property surrounding and contiguous thereto not to exceed five acres. Commercial property or property used for the purpose of producing income shall be considered excess property and subject to the limitations of subsection (5)(d) of this section;

(b) Household furnishings;

(c) An automobile; and

(d) Savings, property, or other assets, the value not to exceed the sum of five thousand dollars.

NEW SECTION

WAC 248-30-130 PROCEDURES FOR ELIGIBILITY DETERMINATION. The following procedures will be followed to determine eligibility:

(1) The department shall provide the necessary forms and instructions;

(2) The kidney center shall inform the patient of the requirements for eligibility as defined in WAC 248-30-110 and 248-30-130;

(3) The kidney center shall provide to the patient the necessary forms and instructions in a timely manner;

(4) Patients shall complete and submit the application for eligibility form and any necessary documentation to the kidney center in the manner and form prescribed by the department;

(5) New patients shall apply for medical assistance (Medicaid) at the local office of the department and shall obtain and send to the kidney center a letter of eligibility or denial;

(6) The kidney center shall review the application and documentation for completeness and accuracy according to instructions provided by the department;

(7) The kidney center shall forward to the department the application and any documentation needed to approve or deny eligibility. The department shall review the application and documentation and notify the kidney center the patient has been certified or denied; or request additional information as needed;

(8) The application period shall be limited to one hundred twenty days. The kidney center may request an extension if there are extenuating circumstances prohibiting the patient from completing the application process within the allowed time. The department, at its discretion, may grant and specify the limits of the extension;

(9) The patient shall be eligible for a period of one year from the date of application unless his or her resources or income increase or decrease substantially, in which case the patient must complete a new application for eligibility;

(10) Patients currently eligible must be recertified prior to the end of their eligibility period.

WSR 83-18-003
EMERGENCY RULES
DEPARTMENT OF FISHERIES
 [Order 83-101—Filed August 25, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 4B, 5, 6, 6A, 7 and 7A provide protection for summer/fall chinook during IPSFC sockeye and pink management. Restrictions in Area 7C and the Samish River protect milling chinook destined for the Samish Hatchery. Restrictions in Area 6D and Strait of Juan de Fuca tributaries provide protection for local chinook stocks (and pink stocks in Area 6D and the Dungeness and Elwha rivers). Restrictions in Area 12C provide protection for summer/fall chinook and pink salmon returning to Hoodspout Hatchery. Restrictions in Areas 6B, 8, 8A, 9, 10, 11, 11A, 12, 12B, 13, Nooksack, Puyallup, Nisqually, Snohomish and Stillaguamish rivers protect weak Puget Sound pink stocks (and summer/fall chinook in Area 8 and the Skagit River). Restrictions in 10B, 10C, 10D and the Cedar River are the least restrictive regulations that provide opportunity to harvest chinook and protect Lake Washington sockeye.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 25, 1983.

By William R. Wilkerson
 Director

NEW SECTION

WAC 220-28-315 PUGET SOUND COMMERCIAL FISHERY RESTRICTIONS. *Effective immediately it is unlawful for treaty Indian fishermen to take, fish for, or possess salmon for commercial purposes in the following Puget Sound Salmon Management and Catch Reporting Areas except in accordance with the following restrictions:*

Areas 4B, 5, and 6C – Effective through September 3, drift gill net gear restricted to 5-7/8-inch maximum mesh, when open.

Areas 6 and 6A – Effective through September 10, gill net gear restricted to 5-7/8-inch maximum mesh, when open.

**Areas 6B, 9, 10, 11 and 11A – Effective through September 10, gill net gear restricted to 7-inch minimum mesh when open and purse seine gear is prohibited.*

Area 6D and Dungeness River – Effective through September 24, closed to all commercial fishing.

Areas 7 and 7A – Effective through September 10, gill net gear restricted to 5-7/8-inch maximum mesh, when open.

Area 7C – Closed to all commercial fishing.

Area 8 – Effective through September 10, closed to all commercial fishing.

Area 8A – Effective through September 10, gill net gear restricted to 7-inch minimum mesh and all other gear must immediately release pink salmon, when open. Purse seine gear is prohibited.

Area 10B – Effective through September 24, gill nets restricted to 6-1/2-inch minimum mesh and all other gear must release sockeye, when open.

Area 10C – Effective through December 31, closed to all commercial fishing.

Area 10D – Effective through October 8, gill net gear restricted to 6-1/2-inch minimum mesh and all other gear must release sockeye, when open. That portion within 250 yards of the eastern and northern shores of Lake Sammamish between the Sammamish River and Issaquah Creek is closed to all commercial fishing through December 31.

Areas 12 and 12B – Effective through September 3, gill net gear restricted to 7-inch minimum mesh, when open, and purse seine gear is prohibited.

Area 12C – Effective through September 30, closed to all commercial fishing within 1,000 feet of the western shore between Hoodspout Marina Dock and Glen Ayr Trailer Park.

**Area 13 – Effective through October 1, excluding (1) that portion of Chambers Bay east of the railroad trestle, and (2) that portion north of a line from Green Point on the eastern shoreline of Carr Inlet to the flashing signal beacon #4 on the west shoreline, gill net gear is restricted to 7-inch minimum mesh, and all other gear must immediately release pink salmon, when open. Purse seine gear is prohibited.*

Cedar River – Effective through December 31, closed to all commercial fishing.

Nooksack River – Marietta Bridge to the confluence of the north and south forks, effective through September 1, gill net gear restricted to 7-1/2-inch minimum mesh, when open; upstream of the confluence of north and south forks, closed to all net gear.

Puyallup River – Effective through September 10, gill nets restricted to 7-1/2-inch minimum mesh, when open.

Nisqually River - Effective through September 24, gill net gear restricted to 7-1/2" minimum mesh, when open.

Stillaguamish and Snohomish rivers - Effective through September 10, gill net gear restricted to 7-1/2" minimum mesh, when open.

Skagit River including all tributaries - Effective through September 10, closed to all commercial fishing.

Samish River - Closed to all commercial fishing.

Elwah, Hoko, East and West Twin, Clallam, Lyre, Sekiu, Sail and Pysht rivers, and Salt and Deep creeks - Effective through September 24, closed to all commercial fishing.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-28-314 PUGET SOUND COMMERCIAL FISHERY RESTRICTIONS (83-98)

WSR 83-18-004 ✓
ADOPTED RULES
DEPARTMENT OF
GENERAL ADMINISTRATION
[Order 83-03—Filed August 26, 1983]

I, Keith A. Angier, director of the Department of General Administration, do promulgate and adopt at Olympia, Washington, the annexed rules relating to chapter 236-48 WAC, division of purchasing, relating to the solicitation of bids and the awarding of contracts. In addition, new language is offered in the area of credit card use by state agencies, the operation of the cooperative purchasing program and the application of an in-state preference as directed by the legislature during the 1983 session.

This action is taken pursuant to Notice No. WSR 83-15-053 filed with the code reviser on July 20, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to chapter 43.19 RCW and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 26, 1983.

By John C. Nicholson
Deputy Director
State Services

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-004 PROCEDURE FOLLOWED IN THE SOLICITATION OF BIDS. Whenever practicable the governing standard for state purchases is one of competitive bids in combination with a formal sealed bid procedure. The state purchasing division mails invitations to bid to a sufficient number of prospective bidders to elicit adequate competition, such vendors being drawn from established vendor lists and from any other source thought to be of advantage to the state. Invitations to bid may call for bid prices with and without trade-in.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-005 EXCEPTIONS TO COMPETITIVE FORMAL SEALED BID PROCEDURE. (1) Emergency purchase. Emergency purchases need not be procured through a formal sealed bid procedure. Unless revoked by the state purchasing division, all agencies have the delegated authority to make emergency purchases if notice of such a purchase and the reason therefor is transmitted to the state purchasing division immediately after the purchase is made.

(2) Purchases not exceeding \$2500. Purchases not exceeding \$2500 may be secured by other than a formal sealed bid procedure unless the director specifically requires a formal sealed bid.

(3) Single source or special facilities, services or market conditions. Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions may be acquired through direct negotiation.

(4) Used equipment. The purchase of used equipment from private vendors is generally considered by the state purchasing division to be a purchase falling within the exception set forth in subsection (3) of this regulation. A purchasing or supply activity desiring to purchase used equipment shall be responsible to determine what used equipment is available on the market and properly record this search. In the case of a purchase involving used equipment for less than (~~(\$200)~~) \$400, the purchase request must fully justify the acquisition of used equipment. Appraisals are not required. In the case of purchases involving (~~(\$200)~~) \$400 to \$2500 the agency must submit at least two written (~~(appraisals [appraisals])~~) appraisals with the purchase request. In the case of purchases exceeding \$2500 three written appraisals are required with the purchase request. The purchase request file must contain justification for the acquisition of used equipment. All appraisals must be from competent firms or persons not associated with the vendor or purchaser which certify that the agreed upon price represents a fair market value for the equipment. The appraisals will normally be made by individuals or firms knowledgeable of a particular market, not just knowledgeable of the equipment.

(5) Purchases from sheltered workshops, institutional industries and other vendors who, under law, receive a preference.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-011 PUBLIC NOTICE. A listing or copy of all purchases being made through formal sealed bid by or through the state purchasing division shall be posted in the foyer of the office of the State Purchasing Division, Room 216, General Administration Building, Olympia, Washington 98504. Purchases ~~((unique to))~~ acquired by one ((agency)) college or university shall be posted or otherwise publicized by the purchasing office of that ((agency)) college or university.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-012 BIDDING OR QUOTING TIME. The bidding or quoting time shall be as determined by the buyer involved. All invitations to bid shall provide sufficient time to allow bidders an opportunity to prepare and submit their bid. The buyer shall have the discretion to lengthen or shorten bid or quote times, should special circumstances or needs dictate a shorter or longer time frame. When extending or shortening the time allowed to submit a bid or quote the buyer is to issue an addendum notifying vendors of the revised opening/due date. If it is determined that regular mail will not reach bidders in time to respond, the buyer shall attempt to notify each prospective bidder by telephone. All bids must be received by the time specified for bid opening. No deviations will be allowed. Late bids will be returned unopened. Quotations must be received by close of the normal business day on the date indicated. Late quotations will neither be considered nor returned to vendors.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-024 REMOVAL OR SUSPENSION. The director may remove or suspend a vendor from any vendor list for cause. Examples of reasons for removal or suspension include but are not limited to the following:

- (1) Illegal act(s);
- (2) ~~((Failure to respond, without good cause, to three (3) consecutive Invitations to Bid of the same commodity description))~~ Repetitive failure to respond to invitations to bid;
- (3) Unreasonable number of "No Bid" responses;
- (4) Any material failure to perform, e.g., delivery, quality;
- (5) Any significant detrimental change in supplier status, e.g., financial condition, lines carried, service ability;
- (6) Unauthorized product substitution, or representation of an alternate as an equal; or
- (7) Discriminatory practices.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-041 TELEGRAPHED BIDS. Telegraphed bids will not be accepted unless approved in advance by the buyer. Telegraphed withdrawals of bids will be accepted on all bids, provided they are received in written form before the opening of bids.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-051 TELEPHONE BIDS. Telephone bids will not be accepted unless solicited under emergency purchase procedures. Telephone withdrawals of bids will not be accepted.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-071 FORM OF BID. To receive consideration, bids and quotes shall be made on the form provided by the state purchasing division, or on a letter containing the information and conditions of the appropriate form. If a letter form is used it must meet the satisfaction of the buyer, be properly headed and signed, properly marked on the outside of the envelope, and received by the time specified.

~~((AH))~~ Bids ((and quotes)) must be filled out in ink or with typewriter and properly signed by an authorized representative of the vendor. All changes and/or erasures shall be initialed in ink. The buyer may declare that a quotation (not a bid) prepared in pencil is a minor informality and may accept and consider a clear pencil quotation. Unless accompanied by satisfactory evidence of a vendor's desire to be bound by his bid, such as a signed cover letter or a bond, unsigned bids ((or quotes)) will be rejected on opening.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-079 STANDARD SPECIFICATIONS. Specifications contained in the invitation to bid will, where practical, be nonrestrictive so as to provide an equal basis for competition and participation by an optimum number of qualified bidders. Unless otherwise specifically provided in the invitation to bid, reference to any equipment, material or supplies by trade name, make, or catalog number, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition. All bids which offer a different trade name, make, or catalog number must state whether the item offered is an equal or an alternate, and literature which describes the item offered must be provided when available. The final decision as to whether an item is an equal or a satisfactory alternate shall rest with the state purchasing division. In the absence of a bidder's statement of a bid being an "alternate" it shall be evaluated as an "equal".

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-082 REQUEST FOR SAMPLES, DESCRIPTIVE LITERATURE. The state purchasing division reserves the right to ask for samples, competitive demonstrations, and/or descriptive literature at bidder's expense. If not received within a reasonable period of time, a bid may be rejected. If not destroyed in testing or required for quality control, bidders may request return of samples at their expense. Unclaimed samples shall become the property of the state sixty days after respective bidders have been notified to pick up their samples or to advise shipping instructions.

NEW SECTION

WAC 236-48-085 IN-STATE PREFERENCE BIDS. In accordance with the Laws of 1983 and chapter 43.19 RCW, the director of general administration shall compile a list of each state, relating to state purchasing, which statutes or regulations the director believes grant a preference to vendors located within that state or to goods manufactured within that state. This list shall be updated on an annual basis and shall include only those states with currently active in-state preference clauses for procuring goods and services and the list shall contain the percentage of preference allowed. States with only reciprocity legislation will not be included on the list. The state purchasing division will be responsible for the official compilation of the list and notification to impacted state agency, college and university purchasing offices. The notification shall be made by state purchasing division circular letter.

For the purposes of determining whether to assess a percentage penalty against a vendor's bid, and the amount of that penalty, the buyer in charge of the bid will consider only the business address from which the bid was submitted. It is recognized that under certain circumstances this will adversely affect vendors with in-state operations whose bids are prepared centrally in an out-of-state office.

Buyers will add the appropriate percentage penalty to each bid bearing the address from a state with in-state preference rather than subtracting a like amount from Washington state vendors.

This action will be used only for bid analysis and award. In no instance shall the increase be paid to a vendor whose bid is accepted.

This WAC section applies only to formal invitations to bid solicited in accordance with chapter 43.19 RCW.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-093 AWARD. A contract shall be awarded to the lowest responsible bidder based upon the following criteria:

(1) The price, including sales tax, compensatory tax, and the effect of term discounts (not less than ((+5)) twenty calendar days after receipt of goods((-) and

taxes)) or correct invoice, whichever is later) but excluding business and occupation tax. Price may be determined by life cycle costing if so indicated in the invitation to bid.

(2) The quality of the articles proposed to be supplied, their conformity with specifications and the purposes for which they are required.

(3) The ability, capacity and skill of the bidder to perform the contract or provide the services required.

(4) The character, integrity, reputation, judgment, experience and efficiency of the bidder.

(5) Whether the bidder can perform the contract within the time specified.

(6) The quality of performance of pervious contracts or services.

(7) The previous and existing compliance by the bidder with the laws relating to the contract or services.

(8) Servicing resources, capability and capacity.

(9) Lack of uniformity or interchangeability if such factors are important.

(10) The energy efficiency of the product as projected throughout the anticipated useful life of the product.

(11) Such other information as may be secured having a bearing on the decision to award the contract.

~~((+12) All things being equal, tie bids shall be resolved by a flip of a coin in the presence of witnesses.))~~

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-096 PREFERENCE—INSTITUTIONAL INDUSTRIES, SHELTERED WORKSHOPS AND RECYCLED PAPER. Preference shall be given(;) to the extent allowed by law(;): (1) To those materials, equipment, supplies, and services provided by industries authorized and approved by the ~~((Institutional Industries Commission))~~ department of corrections. ~~((Agencies are encouraged to purchase))~~ (2) Products and services manufactured or provided by sheltered workshops and programs of the department of social and health services ((at)) (as required by law, fair market prices will be as determined by the state purchasing division.) (3) To paper products containing recycled paper if the bids for recycled paper do not exceed the lowest bid offered by suppliers of paper products that are not recycled. Paper products that may be recycled or reused shall be purchased if quality, price, and grade are otherwise equal to other paper products bid. Agencies shall, to the maximum extent economically feasible, purchase paper products with fifty percent of the total weight consisting of post consumer waste. Exceptions are when printing or duplicating equipment cannot accept paper containing this amount or when use of this paper affects the printing quality.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-097 STANDARD ((CERTIFICATE)) NOTICE OF AWARD. A standard ~~((certificate of award))~~ contract, or in the case of a direct purchase, a purchase order or field order, will normally be mailed to the successful ~~((vendor))~~ bidder.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-098 REJECTION. No notice will be sent to unsuccessful bidders submitting higher bid/quote pricing than awarded. Bidders whose bids are rejected for noncompliance will be notified of the reasons for such rejection.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-099 ACCEPTANCE OF TERMS. Acceptance shall be expressly limited to the terms and conditions of the contract/bid prescribed by the state purchasing division. All material alterations, additional or different terms proposed by the bidder shall be and are rejected unless otherwise provided for in writing by the director or his designee.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-123 DISCLOSURE OF BID INFORMATION. After award the bids of all bidders shall be open to public inspection at the offices of the state purchasing division during normal office hours. Copies will be made available upon request to the bid supervisor ((for a reasonable charge sufficient to compensate the Division for the cost of making such copies)). The vendors must provide a stamped self addressed envelope. Unless noted to the contrary in a bid specification the state purchasing division assumes no responsibility for the confidentiality of submitted bids.

NEW SECTION

WAC 236-48-124 MINOR INFORMALITIES OR IRREGULARITIES IN BIDS OR QUOTES. The director of purchasing and material control or his designee reserves the right to waive minor informalities or irregularities as defined in WAC 236-48-003. Minor informalities or irregularities may be corrected by the director or his designee after clearly noting the reasons for the action in the purchase file.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-131 CANCELLATION OF INVITATION TO BID OR REJECTION OF ALL BIDS. The state purchasing division reserves the right to reject all bids or to cancel an invitation or request, however, every effort will be made to guard against such an occurrence. Examples of reasons for cancellation of an invitation, or request, or rejection of all bids are:

- (1) Inadequate or ambiguous specifications.
- (2) Specifications have been revised.
- (3) Supplies or services being ((processed)) purchased are no longer required.
- (4) Change in agency requirements.
- (5) All bids are deemed unreasonable or sufficient funds are not available.
- (6) Bids were not independently arrived at, or were submitted in bad faith.

(7) A determination is made that all the necessary requirements of the bid process have not been met.

(8) Insufficient competition.

(9) For reasons which indicate that cancellation or rejection of all bids is clearly in the best interest of the state.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-166 RENEWAL. If basic contract provisions allow, a vendor and the state purchasing division may covenant and agree that the contract in question may be renewed for predetermined periods by the state purchasing division under the same terms and conditions of the original contract.

The buyer shall have discretion to renew, the reasons for renewal being documented. The vendor shall be notified in writing of the intent to renew ((no later than 30 days)) prior to the termination date of the existing or renewed contract. If the vendor does not wish to have the contract renewed, he shall so notify the state purchasing division in writing ((immediately, and in any event, not less than fifteen days after the notification of intent to renew)) renewals, to be effective, must be reduced to writing and signed by authorized representatives of both the vendor and state.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-167 ADDITIONS OR DELETIONS TO THE CONTRACT. Within reason, the state purchasing division ((my)) may increase or decrease the items or quantities specified in a contract.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-192 SEALED BID—SURPLUS PROPERTY. Public notice shall be given of the sealed bid and the date set for public bid openings. ((The Invitation to Bid may call for bid prices with and without trade-in.)) In addition, information will be provided to interested parties describing the merchandise in question, together with an opportunity for inspection of the same.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-197 WITHDRAWAL FROM SALE OR REJECTION OF BIDS—SURPLUS PROPERTY. The state ((Purchasing Division)) may withdraw from sale the item(s) scheduled for disposal at any time prior to the formation of a contract. The state ((Purchasing Division)) may also reject any or all bids if the best interests of the state so require.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-198 SALE OF SURPLUS PROPERTY TO STATE ELECTED OFFICIALS OR EMPLOYEES. Surplus property available for disposal

under the provisions of RCW 43.19.1919 shall not be sold to state elected officials, officers or employees, except at public sale: PROVIDED, HOWEVER, An item valued at less than \$400 and declared surplus of a personal nature such as a chair, desk or bookcase, which in some way depicts or represents the office in which he has served, may be sold to an elected official after leaving office at private sale for its fair market value: PROVIDED FURTHER, That a retiring commissioned officer of the Washington state patrol or other state-wide law enforcement activity may purchase his or her career service revolver at private sale for its current fair market value.

AMENDATORY SECTION (Amending Order 77-2, filed 1/28/77)

WAC 236-48-240 LATE PAYMENTS. The purchaser should make payment expeditiously in order to benefit from prompt payment discounts. If purchaser fails to make timely payment, vendor may invoice for a minimum of one dollar or one percent per month on the amount overdue. Complaints made to the state purchasing division with regard to late payment will be referred to the purchaser. For effective communication and supervision, copies of correspondence dealing with delays in payment should be directed to the buyer in charge of the contract.

NEW SECTION

WAC 236-48-250 USE OF CREDIT CARDS. All credit cards, other than those for gasoline, vehicle rental, travel, and telephone, shall be ordered by the director of an agency or his designee. It shall not be mandatory upon an agency to obtain credit cards.

NEW SECTION

WAC 236-48-251 DISTRIBUTION OF CREDIT CARDS. Agency heads (or their designees) shall institute a system for responsibility, control and distribution of credit cards within each agency. Control shall be so structured that, upon request of the state purchasing division, each agency will be able to report the number of cards used, the type of cards used, the amount of purchases made by card within a stated time together with any problems they have encountered.

NEW SECTION

WAC 236-48-252 CREDIT LIMITS. When an agency determines that the use of credit cards will be to its advantage, the source will be the existing state contract with a financial institution. The contract establishes a credit limit of \$2,500 for each ordering agency. Within the agency, the director will establish the credit limit for each card ordered, with the aggregate credit limit for each agency to be no more than \$2,500. Any requests for exception to this monetary limit must be made in writing by the agency head to the director of state purchasing, who will approve or deny.

NEW SECTION

WAC 236-48-253 PAYMENTS OF CREDIT CARD BILLS. Statements received from the financial institution or firm issuing credit cards shall be handled in the same manner as an invoice bearing a prompt payment discount. Payments shall be made in full each month to avoid late payment penalties imposed by credit card issuers.

NEW SECTION

WAC 236-48-254 GASOLINE CREDIT CARDS. Whenever possible, users of state gasoline credit cards shall utilize self-service pumps when servicing state vehicles.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 236-48-022 CRITERIA FOR QUALIFICATION.

NEW SECTION

WAC 236-49-060 COOPERATIVE PURCHASING. Under the authority of chapter 39.34 RCW, political subdivisions may enter into an interlocal cooperative purchasing agreement with the state purchasing division. Participation is voluntary—A political subdivision may use state contracts and the state purchasing division need not make all contracts available.

NEW SECTION

WAC 236-49-061 COOPERATIVE PURCHASING PROGRAM FEE. In order to distribute contract copies to political subdivisions in a current mode similar to state agencies distribution, it is necessary to require payment of an annual fee to cover costs. When the nature of a contract requires that the political subdivision orders be prepared by the state purchasing division, an additional charge per order processed may be assessed.

ADOPTED RULES

DEPARTMENT OF ECOLOGY

[Order DE 83-23—Filed August 26, 1983]

I, Donald W. Moos, director of the Department of Ecology, do promulgate and adopt at Lacey, Washington, the annexed rules relating to Snohomish County, amending WAC 173-19-390.

This action is taken pursuant to Notice No. WSR 83-13-119 filed with the code reviser on June 22, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 90.58.120 and 90.58.200 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 25, 1983.

By Donald W. Moos
Director

AMENDATORY SECTION (Amending Order DE 82-19, filed 6/28/82)

WAC 173-19-390 SNOHOMISH COUNTY. Snohomish County Master Program approved December 27, 1974. Revision approved June 16, 1978. Revision approved June 23, 1982. Revision approved August 25, 1983.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

WSR 83-18-006

**NOTICE OF PUBLIC MEETINGS
WESTERN WASHINGTON UNIVERSITY**

[Memorandum—August 25, 1983]

The board of trustees of Western Washington University will hold a special meeting on Thursday, September 1, 1983, at 1:30 p.m. in Old Main 340 on the campus of the university.

WSR 83-18-007

**EMERGENCY RULES
DEPARTMENT OF FISHERIES**

[Order 83-100—Filed August 26, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is this regulation provides for state law consistent with the U. S. Department of Commerce Fisheries Conservation Zone salmon regulations which meet various spawning escapement and treaty allocation requirements and discourages illegal salmon harvest through landing restrictions.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 26, 1983.

By William R. Wilkerson
Director

NEW SECTION

WAC 220-24-02000Y LAWFUL ACTS—TROLL FISHERY. Notwithstanding the provisions of WAC 220-24-010, 220-24-020, and 220-24-030, effective immediately it is unlawful to take, fish for or possess salmon for commercial purposes from the waters of the Pacific Ocean or Washington State coastal waters. Further, it is unlawful to land troll caught salmon in any Washington State port except that chinook and coho salmon caught in opened commercial troll seasons south of the Columbia River may be landed in Washington State ports south of Point Brown.

REPEALER

The following section of the Washington State Administrative Code is repealed:

WAC 220-24-02000X LAWFUL ACTS—TROLL FISHERY (83-93)

WSR 83-18-008

**EMERGENCY RULES
DEPARTMENT OF FISHERIES**

[Order 83-104—Filed August 26, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 4B, 5, 6, 6A, 6C, 7, and 7A provide protection for Canadian and Puget Sound chinook during sockeye and pink fisheries under the direction of IPSFC. Openings in Areas 7B, 8A, 12, and 12B provide opportunity to harvest non-Indian chinook allocations. All other areas are closed to prevent overharvest. Troll landing restrictions provide protection for chinook and coho stocks.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 26, 1983.

Director

NEW SECTION

WAC 220-47-807 PUGET SOUND ALL-CITIZEN COMMERCIAL SALMON FISHERY. *Notwithstanding the provisions of Chapter 220-47 WAC, effective immediately until further notice, it is unlawful to take, fish for, or possess salmon for commercial purposes in the following Puget Sound Salmon Management and Catch Reporting Areas except in accordance with the following restrictions:*

**All areas - It is unlawful to land troll caught salmon.*

**Area 4B, 5, 6, 6A, 6C, 7 and 7A - Under control of International Pacific Salmon Fisheries Commission and U. S. Department of Commerce. Gill net gear is restricted to 5-7/8-inch maximum mesh, when open.*

Area 7D - Under control of International Pacific Salmon Fisheries Commission and U. S. Department of Commerce.

**Area 7B - Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly August 28 through the morning of September 1. That portion south and east of a line from William Point on Samish Island to Saddlebag Island to the southeast tip of Guemes Island is closed as provided in WAC 220-47-307.*

**Area 8A - Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly August 28 through the morning of September 2. The Port Gardner Preserve and the waters of Port Susan are closed as provided in WAC 220-47-307.*

**Areas 12 and 12B - Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly August 28 through the morning of September 2. That portion of Area 12 near the mouth of Big Beef Creek is closed as provided in WAC 220-47-307.*

Areas 6B, 6D, 7C, 8, 9, 9A, 10, 10A, 10B, 10C, 10D, 10E, 11, 11A, 12A, 12C, 12D, 13, 13A, 13B, and all freshwater areas - Closed.

REPEALER

The following section of the Washington Administrative Code is repealed:

ADOPTED RULES
DEPARTMENT OF
NATURAL RESOURCES
[Order 401—Filed August 26, 1983]

I, Brian Boyle, Commission of Public Lands and Administrator of the Department of Natural Resources, do promulgate and adopt at Olympia, Washington, the annexed rules relating to the indexing of stumpage rates to be paid on state timber sales sold on a scale basis after October 1, 1983.

This action is taken pursuant to Notice No. WSR 83-15-051 filed with the code reviser on July 20, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 79.01.126 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 26, 1983.

By Brian J. Boyle
Commissioner of Public Lands

NEW SECTION

WAC 332-140-200 INTRODUCTION AND DEFINITIONS. (1) Implementation of RCW 79.01.126. These regulations, WAC 332-140-200 through WAC 332-140-230, are promulgated by the department of natural resources for the purpose of implementing RCW 79.01.126, which provides for the adjustment of contract bid prices on timber sales sold on a scale basis having a minimum appraisal value over twenty thousand dollars and which are auctioned on or after October 1, 1983. Stumpage rate adjustment shall apply only to major species of timber removed.

(2) Definitions. As used in these regulation and in RCW 79.01.126, where applicable:

(a) "Coast publication" means the market indexes published by the Western Woods Products Association in its publication known as the PNW Coast Lumber Price Index.

(b) "Inland publication" means the market indexes published by the Western Wood Products Association in its publication known as the Inland Lumber Price Index.

(c) "Contract bid price" for a given species of timber means the price for that species bid by the purchaser or set in the contract where bidding is not allowed on that species.

(d) "Department" means the department of natural resources.

(e) "Market index change amount" means the same in these regulations as it is defined in RCW 79.01.126(2).

(f) Timber "removed" means and includes only timber that is taken from the sale area.

(g) "Timber removed during a calendar quarter" shall be determined using the date the timber removed is scaled as provided for in the contract.

NEW SECTION

WAC 332-140-210 MARKET INDEXES ESTABLISHED. (1) Following the conclusion of each calendar quarter, the department shall establish the amount of each market index for that quarter for the species of timber listed below. These species are determined to be major species, for which reasonably available and reliable market price information is available. Each index amount shall be established by extracting from the appropriate Western Wood Products Association index the quarterly average prices per thousand board feet. The major species will be indexed to the following indexes:

(a) Douglas fir and larch. For Douglas fir situated west of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "Douglas fir" index of the Coast publication. For Douglas fir and larch situated east of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "dry Douglas fir-larch" index of the Inland publication. Larch situated west of the cascade crest is not a major species and shall not be subject to adjustment of the contract bid price.

(b) Hemlock/true fir. For the hemlocks and true firs situated west of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "hem-fir" index of the Coast publication. For the hemlocks and true firs situated east of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "white fir (hem-fir)" index of the Inland publication.

(c) Ponderosa pine. For ponderosa pine situated east of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "coast-inland north ponderosa pine" index of the Inland publication. Ponderosa pine situated west of the cascade crest is not a major species and is not subject to adjustment of the contract bid price.

(d) White pine. For white pine situated east of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "Idaho white pine" index of the Inland publication. White pine situated west of the cascade crest is not a major species and is not subject to adjustment of the contract bid price.

(e) Englemann spruce and lodgepole pine. For Englemann spruce and lodgepole pine situated east of the cascade crest, the market index shall be the appropriate quarterly price extracted from the "white woods" index of the Inland publication. Englemann spruce and lodgepole pine situated west of cascade crest are not major species and are not subject to adjustment of the contract bid prices.

(2) Other species not indexed. Species other than those listed above are not major species. There is no readily available and reliable market information for

such species and they are not subject to adjustment of the contract bid price.

(3) Cull volume not indexed. Cull logs, including utility logs as defined in the contract, of all species are not major species. There is no readily available and reliable market information for such logs and they are not subject to adjustment of the contract bid price.

NEW SECTION

WAC 332-140-220 PRICE TO BE PAID FOR TIMBER REMOVED. The rate to be paid by the purchaser for each species of timber subject to adjustment of the contract bid price shall be the contract bid price plus or minus the market index change amount, as appropriate, but not less than sixty-five percent of the contract bid price.

NEW SECTION

WAC 332-140-230 PAYMENT AND ADJUSTMENTS. The periodic payments made by the purchaser for timber removed during a given quarter shall be based upon the adjusted price for the previous quarter, except that for removals during a quarter in which the sale is sold, the price used shall be the contract bid price. Following the establishment of the market index for the quarter, the appropriate adjustments will be made to the payments for the timber removed during that quarter.

WSR 83-18-010

ADOPTED RULES

DEPARTMENT OF ECOLOGY

[Order DE 83-22—Filed August 26, 1983]

I, Donald W. Moos, director of the Department of Ecology, do promulgate and adopt at the Department of Ecology, Lacey, Washington, the annexed rules relating to:

Amd ch. 173-403 WAC Implementation of regulations for air contaminant sources.
Amd ch. 173-405 WAC Kraft pulping mills.
Amd ch. 173-410 WAC Sulfite pulping mills.

This action is taken pursuant to Notice Nos. WSR 83-13-118 and 83-16-020 filed with the code reviser on June 22, 1983, and July 25, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to chapters 70.94 and 43.21A RCW and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 25, 1983.

By Donald W. Moos
Director

AMENDATORY SECTION (Amending Order DE 83-12, filed 4/11/83)

WAC 173-403-030 DEFINITIONS. Unless a different meaning is plainly required by context, the following words and phrases, as hereinafter used in this chapter, shall have the following meanings:

(1) "Actual emissions" as of a particular date means the average rate, in weight per unit time, with air pollution controls applied, at which the affected emission((s)) unit emitted the pollutant during the two-year period which precedes the particular date, and which is representative of normal operation. An adjustment may be made to the average annual emission rate to account for unusual circumstances during the two-year period. The department or cognizant local authority may allow or require the use of an alternative time period upon a determination that the alternative time period is more representative of normal operation than is the immediately-preceding two years. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

The department or cognizant local authority may presume that source-specific allowable emissions, which incorporate limits on hours of operation or production rate, are equivalent to the actual emissions of the unit.

(2) "Adverse impact on visibility" means visibility impairment which interferes with the management, protection, preservation, or enjoyment of the visitor's visual experience of the Federal Class I area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency, and time of visibility impairments, and how these factors correlate with (a) times of visitor use of the Federal Class I area, and (b) the frequency and timing of natural conditions that reduce visibility. This term does not include effects on integral vistas.

(3) "Air contaminant" means dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substance, or any combination thereof. "Air pollutant" means the same as "air contaminant."

~~((3))~~ (4) "Air pollution" means the presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities, and of such characteristics and duration as is, or is likely to be, injurious to human health, plant or animal life, or property, or which unreasonably interferes with enjoyment of life and property.

~~((4))~~ (5) "Allowable emissions" means the emission rate calculated using the maximum rated capacity of the source (unless the source is limited in production rate or hours of operation, or both, by an applicable regulatory order) and the most stringent of (a), (b), or (c) of this subsection. Physical and process limitations must be considered in determining maximum rated capacity.

(a) Standards as set forth in 40 CFR Part 60 and Part 61, if applicable to the source; or

(b) The applicable state implementation plan emission limitation; or

(c) The emission rate specified by an applicable regulatory order.

~~((5))~~ (6) "Ambient air" means the surrounding outside air.

~~((6))~~ (7) "Ambient air quality standard" means an established concentration, exposure time, and frequency of occurrence of air contaminant or multiple air contaminants in the ambient air which shall not be exceeded.

~~((7))~~ "~~Baseline emissions~~" means ~~the most stringent of the following:~~

~~(a) The emissions rate resulting from the application of reasonably available control technology; or~~

~~(b) Allowable emissions; or~~

~~(c) Actual emissions.~~

~~In addition to annual emissions, baseline emissions may include daily emissions and/or hourly emissions as deemed appropriate by the department or cognizant local authority.))~~

(8) "Best available control technology (BACT)" means technology which will result in an emission limitation (including a visible emission standard) based on the maximum degree of reduction for each air pollutant subject to this regulation which would be emitted from any proposed new or modified source which the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such sources or modification through application of production processes, available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such air pollutant. In no event shall application of the best available technology result in emissions of any air pollutant which would exceed the emissions allowed by any applicable standard under 40 CFR Part 60 and Part 61. If the reviewing agency determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of an emission standard infeasible, it may instead prescribe a design, equipment, work practice or operational standard, or combination thereof, to meet the requirement of best available control technology. Such standard shall, to the degree possible, set forth the emission reduction achievable by implementation of such design, equipment, work practice or operation and shall provide for compliance by means which achieve equivalent results. The requirement of RCW 70.94.152 that a new source will provide "all known available and reasonable methods of emission control" is interpreted to mean the same as best available control technology.

(9) "Best available retrofit technology (BART)" means any emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant which is emitted by source. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result

from the use of such technology. If an emission limitation is not feasible, a design, equipment, work practice, operational standard, or combination thereof, may be required. Such standards shall, to the degree possible, set forth the emission reductions achieved and provide for compliance by prescribing appropriate conditions in a regulatory order.

(10) "Bubble" means a set of emission limits which allows an increase in emissions from a given emissions unit or units in exchange for a decrease in emissions from another emissions unit or units, pursuant to RCW 70.94 155.

(11) "Class I area" means any federal, state, or Indian land which is classified or reclassified Class I.

(12) "Cognizant local authority" means an activated air pollution control authority formed pursuant to chapter 70.94 RCW, which authority has jurisdiction over the source being considered.

((+10)) (13) "Commenced construction" means that the owner or operator has all the necessary preconstruction approvals or permits and either has:

(a) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

(b) Entered into binding agreements or contractual obligations, which cannot be cancelled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

((+11)) (14) "Department" means the department of ecology.

((+12)) (15) "Director" means director of the department of ecology or his authorized representative.

((+13)) (16) "Dispersion technique" means any one of the following:

(a) A stack whose height exceeds good engineering practice; or

(b) An intermittent or supplemental control of pollutants varying with atmospheric conditions, including any method which attempts to affect the concentration of a pollutant according to atmospheric conditions and the manipulation of source process parameters or selective handling of exhaust gas streams; or

(c) Use of a fan or reheater to obtain a less stringent emission limitation.

((+14)) (17) "Emission" means a release of air contaminants into the ambient air.

(18) "Emission reduction credit (ERC)" means a credit granted to a source for a voluntary reduction in actual emissions.

((+15)) (19) "Emission standard" means a regulation or regulatory order (or portion thereof) setting forth an allowable rate of emissions, level of opacity, or prescribing equipment or operating conditions that result in control of air pollution emission.

((+16)) (20) "Emissions unit" means any equipment, device, process, or activity that produces and emits to the outside air, or that may produce and emit to the outside air, any contaminant regulated by state or federal law.

((+17)) (21) "Fugitive emissions" means emissions which do not pass and which could not reasonably pass

through a stack, chimney, vent, or other functionally equivalent opening.

((+18)) (22) "Good engineering practice (GEP)" refers to the height of a stack and means one of the following, whichever is the greatest:

(a) Sixty-five meters; or

(b) Height determined by formula. For stacks in existence on or before January 12, 1979, formula height is two and one-half times the height of any nearby structure. For stacks constructed after January 12, 1979, formula height is the height of any nearby structure plus one and one-half times the height or width of said structure, whichever is lesser. The height of the nearby structure is measured from ground level at the base of the stack. "Nearby," as used in this paragraph, means that distance up to five times the lesser of the height or width dimension of said structure, but no greater than .8 kilometer; or

(c) Height determined by physical demonstration of need to prevent excessive concentrations of a pollutant due to downwash, wakes, or eddies created by structures or terrain obstacles. To make such a demonstration it is required that maximum concentrations caused by the source's emissions from its proposed stack height, without consideration of nearby structures or terrain obstacles, will increase at least forty percent when the effects of the structures or terrain obstacles are considered. This difference in concentrations must be shown either by a fluid model study conducted in accordance with guidelines published by the environmental protection agency or by a field study which has been approved by the department or cognizant local authority. Such a study may be approved only after public involvement pursuant to WAC 173-403-110.

(23) "In operation" means engaged in activity related to the primary design function of the source.

(24) "Integral vista" means a view perceived from within the Class I area of a specific landmark or panorama located outside the boundary of the Class I area.

(25) "Land manager" means the secretary of the federal or head of the state department or Indian governing body with authority over the Class I area.

((+19)) (26) "Lowest achievable emission rate (LAER)" means for any source that rate of emissions which reflects:

(a) The most stringent emission limitation which is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed new or modified source demonstrates that such limitations are not achievable; or

(b) The most stringent emission limitation which is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

((+20)) (27) "Major emissions unit" means any emissions unit which has actual or allowable emissions of one hundred tons per year or more of any pollutant regulated by state or federal law.

~~((21))~~ (28) "Major modification" means (a), (b), or (c) of this subsection, whichever is the most stringent:

(a) Any physical change or change in the method of operation of a major source, a source that would become a major source as a result of the proposed change, or a major emissions unit or an emissions unit that would become a major emissions unit as a result of the proposed change that is located in an area that is not in attainment for the pollutant under consideration or is located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, which change would cause a net significant emissions increase for any pollutant regulated by state or federal law, except that a net significant emissions increase for any one of the following reasons shall not, in itself, cause the change to be a major modification:

(i) Use of an alternative fuel or raw material by reason of an order under Sections 2 (a) and (b) of the Federal Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan pursuant to the Federal Power Act; or

(ii) Use of an alternative fuel by reason of an order or rule under Section 125 of the Federal Clean Air Act; or

(iii) Use of an alternative fuel or raw material that the source is capable of accommodating and was capable of accommodating prior to December 21, 1976, unless such change in fuel or raw material use is prohibited by a regulatory order; or

(iv) Use of an alternative fuel at a steam-generating unit to the extent that the fuel is generated from municipal solid waste; or

(v) An increase in the hours of operation or the production rate unless such increases are prohibited by a regulatory order.

(b) Any physical change or change in the method of operation of a major source, a source that would become a major source as a result of the proposed change, or a major emissions unit or an emissions unit that would become a major emissions unit as a result of the proposed change that is located in an area that is not in attainment for the pollutant under consideration or is located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, which change would cause the allowable emissions to be exceeded.

(c) Any reconstruction of a major source, or any reconstruction of a major emissions unit that is located in an area that is not in attainment for the pollutant under consideration or located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, for which reconstruction the fixed capital cost of the new components exceeds fifty percent of the fixed capital cost of a comparable entirely new source or emissions unit.

~~((22))~~ (29) "Major source" means any source which has actual or allowable emissions of one hundred tons per year or more of any pollutant regulated by state or federal law.

~~((23))~~ (30) "National emission standards for hazardous air pollutants (NESHAPS)" means the federal

regulations set forth in 40 CFR Part 61, as promulgated prior to January 1, 1983.

(31) "Natural conditions" include naturally occurring phenomenon that reduce visibility as measured in terms of visual range, contrast, or coloration.

~~((24))~~ (32) "Net emissions increase" means the amount by which the sum of the following exceeds zero:

(a) Any increase in actual emissions of a pollutant resulting from a physical change or change in method of operation of a specific emission(s) unit in a source; and

(b) Any other increases or decreases in actual emissions of the same pollutant from the source that are contemporaneous with the change (~~and are otherwise creditable~~): PROVIDED, That

(i) Said other increases or decreases are contemporaneous with the change only if they occur at the same time or within one year prior to the change, or if said decrease(s) has been documented by an emission reduction credit; and

(ii) Said other decreases in emissions are creditable only to the extent that the old level of (~~baseline~~) actual emissions or the old level of allowable emissions, whichever is the lesser, exceeds the new level of (~~baseline~~) allowable emissions; and

(iii) Said other decreases in emissions are not creditable if the specific emissions unit is a major emissions unit and is located (A) in an area that is not in attainment for the pollutant or (B) in an area that is not in attainment for ozone and the pollutant is volatile organic compounds; and

(iv) The determination of net emissions increase shall be valid only after a regulatory order has been issued which establishes that the new emissions from every emissions unit involved in the determination are equal to the new allowable emissions expressed as weight of the pollutant per unit time.

~~((25))~~ (33) "New source" means a source which commences construction after the effective date of this chapter. Addition to, enlargement, modification, replacement, or any alteration of any process or source which may increase emissions or ambient air concentrations of any contaminant for which federal or state ambient or emission standards have been established shall be construed as construction or installation or establishment of a new source. In addition every major modification shall be construed as construction or installation or establishment of a new source.

~~((26))~~ (34) "New source performance standards (NSPS)" means the federal regulations set forth in 40 CFR Part 60, as promulgated prior to January 1, 1983.

~~((27))~~ (35) "Nonattainment area" means a clearly delineated geographic area which has been designated by EPA promulgation as exceeding a national ambient air quality standard or standards for one or more of the criteria pollutants.

~~((28))~~ (36) "Notice of construction" means a document which makes application for permission to construct a new source or to accomplish the modification of an existing source.

~~((29))~~ (37) "Opacity" means the degree to which an object seen through a plume is obscured, stated as a percentage.

~~((30))~~ (38) "Particulate matter" or "particulates" means small discrete masses of liquid or solid, exclusive of uncombined water.

~~((31))~~ (39) "Person" means an individual, firm, public or private corporation, association, partnership, political subdivision, municipality, or government agency.

(40) "Prevention of significant deterioration (PSD)" means the federal regulations set forth in 40 CFR Subpart 52.21 as promulgated prior to July 1, 1982, and as modified by WAC 173-403-080.

(41) "Reasonably attributable" means attributable by visual observation or any other technique the state deems appropriate.

~~((32))~~ (42) "Reasonably available control technology (RACT)" means the lowest emission limit that a particular source or source category is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility. RACT is determined on a case-by-case basis for an individual source or source category taking into account the impact of the source upon air quality, the availability of additional controls, the emission reduction to be achieved by additional controls, the impact of additional controls on air quality, and the capital and operating costs of the additional controls. RACT requirements for any source or source category may be adopted as an order or regulation after public involvement per WAC 173-403-110.

~~((33))~~ (43) "Regulatory order" means an order issued by the department or cognizant local authority to an air contaminant source which approves a notice of construction and/or limits emissions and/or establishes other air pollution control requirements.

~~((34))~~ (44) "Significant emission" means a rate of emission equal to or greater than any one of the following rates:

Pollutant	Tons/Year	Pounds/Day	Pounds/Hour
Carbon Monoxide	100		
Nitrogen Oxides	40		
Sulfur Dioxide	40	800	80
Volatile Organic Compounds	40		
Particulates	25	500	50
Lead	.6		
Total Reduced Sulfur (as H ₂ S)	10		
Total Fluoride	3		

(45) "Significant visibility impairment" means visibility impairment which interferes with the management, protection, preservation, or enjoyment of visitor visual experience of the Class I area. The determination must be made on a case-by-case basis, taking into account the geographic extent, intensity, duration, frequency, and time of the visibility impairment, and how these factors correlate with the time of visitor use of the Class I area and frequency and timing of natural conditions that reduce visibility.

~~((35))~~ (46) "Source" means all of the emissions unit(s) including quantifiable fugitive emissions, which are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control), whose activities are ancillary to the production of a single product or functionally related group of products.

~~((36))~~ (47) "Source category" means all sources of the same type or classification.

(48) "Total reduced sulfur, (TRS)" means hydrogen sulfide, mercaptans, dimethyl sulfide, dimethyl disulfide, and any other organic sulfides present, expressed as hydrogen sulfide.

(49) "Visibility impairment" means any humanly perceptible change in visibility (visual range, contrast, coloration) from that which would have existed under natural conditions.

(50) "Visibility impairment of a Class I areas" means visibility impairment within the area and visibility impairment of any formally designated integral vista associated with the area.

~~((37))~~ (51) "Volatile organic compound" means a hydrocarbon or derivative of hydrocarbon that has a vapor pressure greater than 0.1 millimeters of mercury at 20 degrees C, except the following excluded compounds: Methane, ethane, trichlorofluoromethane, dichlorodifluoromethane, chlorodifluoromethane, trifluoromethane, trichlorotrifluoroethane, dichlorotetrafluoroethane, chloropentafluoroethane, methylene chloride, and 1,1,1-trichloroethane (methyl chloroform).

AMENDATORY SECTION (Amending Order DE 83-12, filed 4/11/83)

WAC 173-403-050 NEW SOURCE REVIEW (NSR). (1) Applicability.

(a) A notice of construction must be filed with the department or cognizant local authority prior to the construction, installation, or establishment of a new source, if the source is in a category that is required to submit to new source review per applicable regulation of the said authority.

(b) The department or cognizant local authority may require a notice of construction prior to the construction, installation, or establishment of any new source, other than a single family or duplex dwelling.

(c) The notice of construction and new source review shall apply only to the emission(s) unit(s) affected and the contaminants involved.

(2) Additional information. Within thirty days of receipt of a notice of construction, the department or cognizant local authority may require the submission of additional plans, specifications, and such other information as deemed necessary for the review of the proposed new or modified source.

(3) Requirements for nonattainment areas. If the proposed new source is located in an area that is not in attainment for any air contaminant that would be emitted by the source, or if the source is located in an area that is not in attainment for ozone and the source would emit volatile organic compounds, the department or cognizant local authority shall review notice(s) of construction, plans, specifications, and other information associated therewith to determine that:

(a) The new source will be in accord with applicable federal and state rules and regulations, including new source performance standards (NSPS) and national emissions standards for hazardous air pollutants (NESHAPS).

(b) The new source will use best available control technology (BACT) for emissions control.

(c) If the new source is a major source or the proposed change is a major modification, it will comply with lowest achievable emission rate (LAER) for emissions of the contaminants for which nonattainment has been designated.

(d) If the source is a major source and is located in an area that is not in attainment for carbon monoxide or ozone and the source will emit carbon monoxide or volatile organic compounds, it is required that there be an analysis of alternative sites, sizes, and production processes and environmental control techniques for the proposed new source which demonstrates that benefits of the proposed new source significantly outweigh the environmental and social costs imposed as a result of its location, construction, and modification. This analysis is the responsibility of the applicant, who may use an environmental impact statement prepared under the State Environmental Policy Act or the National Environmental Policy Act as a source of information for this analysis.

(e) The proposed new source will not violate the requirements for reasonable further progress established by the state implementation plan. If the source is a major source or the project is a major modification, the total new ~~((baseline))~~ actual emissions from all sources existing at the time of application for notice of construction plus proposed allowable emissions for the new source, of the contaminants for which nonattainment has been designated, shall be no greater than the total ~~((baseline))~~ actual emissions from existing sources, except that (i) the department or cognizant local authority may require that new total ~~((baseline))~~ actual emissions be reduced to less than existing total ~~((baseline))~~ actual emissions, as necessary to achieve air quality attainment goals stated in an approved plan of attainment, and except that (ii) the emissions from the proposed new source may be approved without an offsetting reduction from existing sources if an adequate emissions growth allowance is included in an approved plan of attainment. The above requirements must be met by reducing ~~((baseline))~~ actual emissions from existing source(s). Arrangements for such offsetting reduction(s) of ~~((baseline))~~ actual emissions must be made by the owner or operator of the proposed new source. The proposed new source may be constructed only after the issuance of a regulatory order(s) to the proposed new source and to all the source(s) that provided the offset. The said orders shall include new allowable emissions limits for all the affected sources. ~~((If the offset is accomplished by the shutdown of existing emissions unit(s), the regulatory order(s) shall prohibit the operation of the affected emissions unit(s). Emission reduction(s) which are documented and enforced by regulatory order but are not used to satisfy the requirements of this paragraph, may be acknowledged and reserved for future use by the applicant in the applicable regulatory order.))~~ An emission reduction that is the result of the shutdown or curtailment of an existing emissions unit may be used as an offsetting reduction to satisfy the requirements of this paragraph only by the source that created the reduction.

(f) If the source is a major source or the project is a major modification, the owner or operator shall demonstrate that all major sources owned or operated by such person (or persons under common control with such person) in the state which are subject to emission limitations are in compliance or on a schedule for compliance with applicable emission limitations and standards under the Federal Clean Air Act.

(4) Requirements for attainment areas. If the proposed new source is located in an area that is in attainment for all contaminants that would be emitted by the source and the source is located in an ozone attainment area if the source would emit volatile organic compounds, the department or cognizant local authority shall review notice(s) of construction, plans, specifications, and other information associated therewith to determine that:

(a) The new source will be in accord with applicable federal and state regulations, including new source performance standards (NSPS) and national emissions standards for hazardous air pollutants (NESHAPS).

(b) The project will use best available control technology (BACT) for emissions control.

(c) ~~((The proposed new source meets))~~ If the new source is a major source the source shall meet all the requirements of prevention of significant deterioration regulations under WAC 173-403-080, in Washington and any adjacent state.

(d) The allowable emissions from the proposed new facility will not delay the attainment date for an area not in attainment. This requirement will be considered to be met if the impact at any location within a nonattainment area does not exceed the following levels:

Pollutant	Annual Average	24-Hour Average	8-Hour Average	3-Hour Average	1-Hour Average
CO	-	-	0.5 mg/m ³	-	2 mg/m ³
TSP	1.0 ug/m ³	5 ug/m ³	-	-	-
SO ₂	1.0 ug/m ³	5 ug/m ³	-	25 ug/m ³	30 ug/m ³

(e) If the new source is a major source, the source shall undergo an impact analysis for visibility impairment with respect to all areas in Washington and any adjacent state that are mandatory Class I areas per 40 CFR 52.21 (e). The impact analysis shall consist of the following procedures:

(i) If the land manager has officially designated visibility as an important attribute of any mandatory Class I area, the owner or operator of the proposed new source shall demonstrate that the potential to emit any pollutant at a significant emission rate, in conjunction with the emissions from any other new source permitted since January 1982, shall not cause or contribute to significant visibility impairment of the Class I area.

(ii) Upon application for a notice of construction, the department shall notify the land manager of any potentially affected mandatory Class I area. Such notification must be made in writing and include a copy of all information relevant to the application, including the information developed for (e) of this subsection. This information shall be transmitted to the land manager within thirty days of receipt of the application and at

least sixty days prior to public hearing on the application for permit to construct.

(iii) All estimates of visibility impacts required under this section shall be based on the models on file with the department. Equivalent models may be substituted if approved by the department or EPA.

(iv) The results of the analysis must be sent to the affected land manager(s). The land manager(s) in the affected mandatory Class I area(s) will review the results. Frequency and time of impact, duration, geographic extent, and intensity of the predicted impairment would also be considered in this step. The land manager(s) may demonstrate within thirty days following their receipt of the source's visibility impact analysis that adverse impact on visibility in the Class I area would result.

If the department concurs with the demonstration, the notice of construction for the proposed source will not be approved unless or until mitigating measures are developed. If the department feels a land manager's demonstration is not adequate, the department will determine whether significant impairment of a mandatory Class I area would result. If the department determines it would, approval for the proposed source will not be issued unless or until mitigating measures are developed.

The land manager(s) or department may also demonstrate that the proposed source would cause impairment of any integral vista officially designated at least six months prior to the proposed source's submission of a complete application. In determining whether a source should be controlled to protect an integral vista, the department may take into account the time necessary for compliance, the energy and nonair quality environmental impacts of compliance, and the useful life of the source.

(v) The department may require pre-construction and/or post-construction visibility monitoring at the proposed site or potentially affected area as part of the applicable regulatory order.

(f) The proposed new source will not cause a violation of any ambient air quality standard.

((f)) (g) An offsetting emissions reduction, issued per WAC 173-403-050(3)(e), may be used to satisfy the requirements of (c), (d), (e), or ((f)) (f) of this subsection, if required.

(5) Preliminary determination. Within thirty days after receipt of all information required, the department or cognizant local authority shall:

(a) Make preliminary determinations on the matters set forth in WAC 173-403-050 (3) or (4), whichever is applicable; and

(b) Initiate compliance with the provisions of WAC 173-403-110 relating to public notice and public comment, as applicable.

(6) Final determination. If, after review of all information received including public comment, the department or cognizant local authority finds that all the conditions in WAC 173-403-050 (3) or (4) are satisfied, whichever is applicable, the authority will issue a regulatory order to approve the notice of construction for the proposed new source or modification.

(7) Portable sources. For portable sources which locate temporarily at particular sites, the owner or operator shall be allowed to operate at the temporary location

without filing a notice of construction, providing that the owner or operator notifies the department or cognizant local authority of intent to operate at the new location at least thirty days prior to starting the operation, and supplies sufficient information to enable the department or cognizant local authority to determine that the operation will comply with the emission standards for a new source, will not cause a violation of applicable ambient air quality standards and, if in a nonattainment area, will not interfere with scheduled attainment of ambient standards. The permission to operate shall be for a limited period of time, but in no case longer than one year, and the department or cognizant local authority may set specific conditions for operation during said period. A temporary source shall be required to comply with all applicable emission standards.

(8) Commencement of construction. The owner or operator of the new source shall not commence construction until the applicable notice of construction has been approved.

NEW SECTION

WAC 173-403-060 BUBBLE RULES. (1) Applicability. The owner(s) or operator(s) of any source(s) may apply for a bubble for any contaminant regulated by state or federal law for which the emission requirement may be stated as an allowable limit in weight of contaminant per unit time for the emissions units involved.

(2) Conditions. A bubble may be authorized provided the following conditions have been demonstrated to the satisfaction of the department or cognizant local authority.

(a) The contaminants exchanged must be of the same type, that is, particulates for particulates, sulfur dioxide for sulfur dioxide, etc.

(b) The bubble will not interfere with the attainment and maintenance of air quality standards.

(c) The bubble will not result in a delay in compliance by any source, nor a delay in any existing enforcement action.

(d) The bubble will not supersede NSPS, NESHAPS, BACT, or LAER. The emissions of hazardous (NESHAPS) contaminants shall not be increased.

(e) The bubble will not result in an increase in the sum of actual emission rates of the contaminant involved from the emissions units involved.

(f) A bubble may not be authorized for opacity per se. If the emission limit for particulates for a given emissions unit is increased as part of a bubble, the opacity limit for the given emissions unit may be increased subject to the following limitations:

(i) The new opacity limit shall be specific for the given emissions unit;

(ii) The new opacity limit shall be consistent with the new particulates limit;

(iii) An opacity greater than sixty percent shall never be authorized;

(iv) If the given emissions unit is a major emissions unit, the opacity shall be monitored continuously.

(g) The emission limits of the bubble are equivalent to existing limits in enforceability.

(h) Concurrently with or prior to the authorization of a bubble, each affected source shall receive (have received) a regulatory order that establishes total allowable emissions from the source of the contaminant being bubbled, expressed as weight of the contaminant per unit time. The new total allowable emissions shall be considered RACT.

(i) There will be no net adverse impact upon air quality from the establishment of new emission requirements for a specific source or emissions unit. Determination of net adverse impact shall include but not be limited to public perception of opacity and public perception of odorous contaminants.

(j) Specific situations may require additional demonstration as requested by the department or cognizant local authority.

(3) Jurisdiction. Whenever a bubble application involves emissions units, some of which and under the jurisdiction of the department and some of which are under the jurisdiction of a local authority, approval will require concurrence by both authorities. The new emission limits for each emissions unit will be enforced by the authority of original jurisdiction.

(4) Additional information. Within thirty days, after the receipt of a bubble application and all supporting data and documentation, the department or cognizant local authority may require the submission of additional information needed to review the application.

(5) Approval. Within thirty days after all the required information has been received, the department or cognizant local authority shall approve or deny the application, based on a finding that conditions in subsection (2) (a) through (j) of this section have been satisfied or not. If the application is approved, a regulatory order or equivalent document shall be issued which includes new allowable emissions expressed in weight of pollutant per unit time for each emissions unit involved in the application. The order or equivalent document must include all requirements necessary to assure that conditions in subsection (2) (a) through (j) of this section will be satisfied. If the bubble depends in whole or in part upon the shutdown of equipment, the regulatory order or equivalent document must prohibit the operation of the affected equipment.

NEW SECTION

WAC 173-403-070 ISSUANCE OF EMISSION REDUCTION CREDITS. (1) Applicability. The owner or operator of any source may apply to the department or cognizant local authority for an emission reduction credit (ERC) if the source proposes to reduce its actual emissions rate for any contaminant regulated by state or federal law for which the emission requirement may be stated as an allowable limit in weight of contaminant per unit time for the emissions unit(s) involved.

(2) Time of application. The application for an ERC must be made prior to or within one hundred eighty days after the emission reduction has been accomplished, except that within one hundred eighty days after the adoption of this regulation, an ERC application may be

made for an emission reduction which took place between April 1, 1980, and the date of adoption of this regulation.

(3) Conditions. An ERC may be authorized provided the following conditions have been demonstrated to the satisfaction of the department or cognizant local authority.

(a) The quantity of emissions in the ERC shall be no greater than the old allowable emissions rate or the old actual emissions rate, whichever is the lesser, minus the new allowable emissions rate.

(b) The ERC application must include a description of all the changes that are required to accomplish the claimed emissions reduction, such as, new control equipment, process modifications, limitation of hours of operation, permanent shutdown or equipment, specified control practices, etc.

(c) The ERC must be large enough so as to be readily quantifiable in relation to the source strength of the emissions unit(s) involved, but in no case shall the ERC be for less than one ton per year.

(d) No part of the emission reductions claimed for credit shall have been used as part of a determination of net emission increase, nor as part of an offsetting transaction under WAC 173-403-050(3)(e), nor as part of a bubble transaction under WAC 173-403-060, nor to satisfy NSPS, BACT, or LAER.

(e) Concurrently with or prior to the authorization of an ERC, the applicant shall receive (have received) a regulatory order that establishes total allowable emissions from the source of the contaminant for which the ERC is requested, expressed as weight of contaminant per unit time. The new allowable emissions shall be considered RACT.

(4) Additional information. Within thirty days after the receipt of an ERC application and all supporting data and documentation, the department or cognizant local authority may require the submission of additional information needed to review the application.

(5) Approval. Within thirty days after all the required information has been received, the department or cognizant local authority shall approve or deny the application, based on a finding that conditions in subsection (3) (a) through (e) of this section have been satisfied or not. If the application is approved, the department or cognizant local authority shall:

(a) Issue a regulatory order or equivalent document to assure that the emissions from the source will not exceed the proposed new allowable emission rate(s) claimed in the ERC application, expressed as weight of pollutant per unit time. The regulatory order or equivalent document must include all requirements that are necessary to provide such assurance. If the ERC depends in whole or in part upon the shutdown or equipment, the regulatory order or equivalent document must prohibit the startup of the affected equipment; and,

(b) Issue a certificate of emission reduction credit. The certificate shall specify the issue date, the contaminant(s) involved, the nonattainment area involved, if applicable, to what extent the ERC results from the shutdown or curtailment of an emissions unit, and the person to whom the certificate is issued.

NEW SECTION

WAC 173-403-075 USE OF EMISSION REDUCTION CREDITS. (1) Permissible use. An ERC may be used to satisfy the requirements for authorization of a bubble under WAC 173-403-060, as a part of a determination of "net emissions increase," as an offsetting reduction to satisfy the requirements for new source review per WAC 173-403-050(3)(e), to satisfy requirements for PSD review per WAC 173-403-050(4)(c), or to satisfy requirements for visibility review per WAC 173-403-050(4)(e).

(2) Surrender of ERC certificate. When an ERC is used under subsection (1) of this section, the certificate for the ERC must be surrendered to the issuing authority. If only a portion of the ERC is used, the amended certificate will be returned to the owner.

(3) Conditions of use. An ERC may be used only for the contaminant(s) for which it was issued. The department or cognizant local authority may impose additional conditions of use to account for temporal and spatial differences between the emissions unit(s) that generated the ERC and the emissions unit(s) that use the ERC.

(4) Sale of an ERC. An ERC may be sold or otherwise transferred to a person other than the person to whom it was originally issued. Within thirty days after the transfer of ownership, the certificate must be surrendered to the issuing authority. After receiving the certificate, the issuing authority shall reissue the certificate to the new owner.

(5) Time of use. An unused ERC and any unused portion thereof shall expire ten years after date of original issue.

(6) Discount due to change in SIP. If reductions in emissions beyond those identified in the state implementation plan are required to meet an ambient air quality standard, if the standard cannot be met through controls on operating sources, and if the plan must be revised, an ERC may be discounted by the department or cognizant local authority after public involvement per WAC 173-403-110. Any such discount shall not exceed the percentage of additional emission reduction needed to reach attainment.

NEW SECTION

WAC 173-403-080 PREVENTION OF SIGNIFICANT DETERIORATION (PSD). Section 40 CFR 52.21, Subparts (b), (c), (d), (e), (f), (g), (h), (i), (j), (k), (l), (m), (n), (o), (p), (r), (t), (v), and (w), Prevention of Significant Deterioration of Air Quality, as in effect on July 1, 1982, are herein incorporated by reference with the following additions and modifications:

(1) Construction of "administrator." In 40 CFR 52.21 (b)(17), federally enforceable, (f)(1)(v), (f)(3), and (f)(4)(i), exclusions from increment consumption, (g), redesignation, (l)(2), air quality models, and (t), disputed permits or redesignations, the word "administrator" shall be construed in its original meaning. In all other cases, the word "administrator" shall be construed to mean the director of the department.

(2) Contemporaneous. Subpart 40 CFR 52.21 (b)(3)(ii) is changed to read: "An increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if it occurs at the same time or within one year prior to the change, or if a decrease has been documented by an emission reduction credit."

(3) Public participation. Subpart 40 CFR 52.24(q) public participation, as in effect July 1, 1982, is hereby incorporated by reference, with the following modifications:

(a) In 40 CFR 52.24(q)(2)(iv), the word "administrator" shall be construed in its original meaning.

(b) In 40 CFR 52.24(q)(1), the phrase "specified time period" shall mean thirty days.

(4) List of Class I areas. The following areas are the Class I areas in Washington state as of January 1, 1983:

Mount Rainier National Park
North Cascade National Park
Olympic National Park
Alpine Lakes Wilderness Area
Glacier Peak Wilderness Area
Goat Pocks Wilderness Area
Mount Adams Wilderness Area
Pasayten Wilderness Area.

NEW SECTION

WAC 173-403-090 RETROFIT REQUIREMENTS FOR VISIBILITY PROTECTION. (1) Determination of best available retrofit technology (BART). The department shall identify and analyze each source which may reasonably be anticipated to cause or contribute to impairment of visibility in any mandatory Class I area in Washington and any adjacent state and to determine BART for the contaminant of concern and those additional air pollution control technologies that are to be required to reduce impairment from the source.

(2) Initially defined BART. The owner or operator of any source to which significant visibility impairment of a mandatory Class I area is reasonably attributable shall apply BART for each contaminant contributing to visibility impairment that is emitted at more than 250 tons per year. Each source for which BART is required must install and operate BART as expeditiously as possible, but in no case later than five years after the conditions are included in a regulatory order.

(3) Future definitions of BART. The owner or operator of any source to which significant visibility impairment of a mandatory Class I area is reasonably attributable shall apply BART as new technology becomes available for a contaminant if:

(a) The source emits more than 250 tons per year of the contaminant; and,

(b) The controls representing BART have not previously been required in this section.

(4) Appeal. Any source subject to the requirements under this section to install, operate, and maintain BART, may apply to the department for an exception from that requirement pursuant to 40 CFR 51.303.

AMENDATORY SECTION (Amending Order DE 83-12, filed 4/11/83)

WAC 173-403-110 PUBLIC INVOLVEMENT.

(1) Applicability. Public notice shall be provided prior to the approval or denial of any of the following types of applications or other actions:

(a) Notice of construction for any new or modified source or emissions unit, the approval of which would result in a net significant emissions increase for any pollutant regulated by state or federal law; or

(b) Any application or other proposed action for which a public hearing is required by EPA prevention of significant deterioration rules; or

(c) Any order to determine reasonably available control technology; or

(d) An order to establish a compliance schedule or a variance; or

(e) The establishment or disestablishment of a nonattainment area, or the changing of the boundaries thereof; or

(f) An approval of a study to demonstrate good engineering practice for a stack; or

(g) An order to authorize a bubble; or

(h) Any application or other proposed action made pursuant to this chapter in which there is a substantial public interest according to the discretion of the department or cognizant local authority.

(2) Public notice. Public notice shall be made only after all information required by the department or cognizant local authority has been submitted and after applicable preliminary determinations, if any, have been made. The cost of providing public notice shall be borne by the applicant or other initiator of the action. Public notice shall include:

(a) Availability for public inspection in at least one location near the proposed project, of the nonproprietary information submitted by the applicant and of any applicable preliminary determinations, including analyses of the effect on air quality.

(b) Publication in a newspaper of general circulation in the area of the proposed project of notice:

(i) Giving a brief description of the proposal;

(ii) Advising of the location of the documents made available for public inspection;

(iii) Advising of a thirty-day period for submitting written comment to the department or cognizant local authority;

(iv) Advising that a public hearing may be held if the department or cognizant local authority determine within a thirty-day period that there is a significant public interest.

(3) Public comment. No final decision on any application or action of any of the types described in subsection (1) of this section, shall be made until the public comment period has ended and any comments received have been considered. Unless a public hearing is held, the public comment period shall be the thirty-day period for written comment published as provided above. If a public hearing is held the public comment period shall

extend through the hearing date and thereafter for such period, if any, as the notice of public hearing may specify.

(4) Public hearings. The applicant, any interested governmental entity, any group or any person may request a public hearing within the thirty-day period published as above. Any such request shall indicate the interest of the entity filing it and why a hearing is warranted. The department or cognizant local authority may, in its discretion, hold a public hearing if it determines there is a significant public interest. Any such hearing shall be held upon such notice and at such time and place as the department or cognizant local authority deems reasonable.

(5) Other requirements of law. Whenever other procedures permitted or mandated by law will accomplish the objectives of public notice and opportunity for comment served by this section, such procedures may be used in lieu of the provisions of this section.

(6) Public information. Copies of notices of construction, orders, and modifications thereof, not declared confidential by the applicant, which are issued hereunder shall be available for public inspection on request at the department or cognizant local authority.

NEW SECTION

WAC 173-405-035 EMISSION STANDARDS FOR SOURCES EMITTING HAZARDOUS AIR POLLUTANTS. (1) The national emissions standards for hazardous air pollutants (NESHAPS) are by this reference adopted and incorporated herein.

(2) The department, at any time after the effective date of this section, may conduct source tests and require access to records, books, files, and other information specific to the control, recovery, or release of asbestos, beryllium, mercury, or vinyl chloride in order to determine the status of compliance of sources of these contaminants and to carry out its enforcement responsibilities. Source testing, monitoring, and analytical methods for sources of the above-named contaminants shall conform with the requirements of NESHAPS.

(3) This section shall not apply to any source operating pursuant to a waiver granted by the United States Environmental Protection Agency or an exemption granted by the president of the United States during the effective life of such waiver or exemption.

NEW SECTION

WAC 173-410-035 EMISSION STANDARDS FOR SOURCES EMITTING HAZARDOUS AIR POLLUTANTS. (1) The national emissions standards for hazardous air pollutants (NESHAPS) are by this reference adopted and incorporated herein.

(2) The department, at any time after the effective date of this section, may conduct source tests and require access to records, books, files, and other information specific to the control, recovery, or release of asbestos, beryllium, mercury, or vinyl chloride in order to determine the status of compliance of sources of these

contaminants and to carry out its enforcement responsibilities. Source testing, monitoring, and analytical methods for sources of the above-named contaminants shall conform with the requirements of NESHAPS.

(3) This section shall not apply to any source operating pursuant to a waiver granted by the United States Environmental Protection Agency or an exemption granted by the president of the United States during the effective life of such waiver or exemption.

WSR 83-18-011
EMERGENCY RULES
OFFICE OF
MINORITY AND WOMEN'S
BUSINESS ENTERPRISES
 [Order 83-2—Filed August 26, 1983]

I, Carolyn V. Patton, director of the Office of Minority and Women's Business Enterprises, do promulgate and adopt at 221 5th Avenue West, Olympia, WA 98504, the annexed rules relating to general provisions, chapter 326-02 WAC, and certification, chapter 326-20 WAC.

I, Carolyn V. Patton, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is chapter 120, Laws of 1983 provides that contracts entered into by state agencies and educational institutions after September 1, 1983, must include goals for minority and women's business enterprises. In order to begin certifying businesses for use by the agencies and institutions in meeting their goals, it is necessary to adopt these rules on an emergency basis.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to section 3(7), chapter 120, Laws of 1983 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 26, 1983.

By Carolyn V. Patton
 Director

Chapter 326-02

GENERAL PROVISIONS

WAC	
326-02-010	Purpose.
326-02-020	Applicability.
326-02-030	Definitions.

NEW SECTION

WAC 326-02-010 PURPOSE. The purpose and intent of chapter 120, Laws of 1983, and of these rules is to provide the maximum practicable opportunity for increased participation by minority and women-owned businesses in participating in public works and the process by which goods and services are procured by state agencies and educational institutions from the private sector. This purpose will be accomplished by encouraging the full use of existing minority and women-owned businesses and the entry of new and diversified minority and women-owned businesses into the marketplace. These rules shall be applied and interpreted to promote this purpose.

NEW SECTION

WAC 326-02-020 APPLICABILITY. This chapter applies to all applications for certification as a minority or women's business enterprise by the state of Washington and to all public works and procurement by state agencies and educational institutions: Provided, That this chapter does not apply where it is found to be in conflict with federal requirements which are a prescribed condition to the allocation of federal funds to the state. In such a case, the conflicting portions of this chapter are inoperative solely to the extent of the conflict and with respect to the agencies directly affected.

NEW SECTION

WAC 326-02-030 DEFINITIONS. Words and terms used in these rules shall have the same meaning as each has under chapter 120, Laws of 1983, unless otherwise specifically provided in these rules, or the context in which they are used clearly indicates that they be given some other meaning.

(1) "Advisory committee" means the advisory committee on minority and women's business enterprises.

(2) "Class of contract basis" means an entire group of contracts having a common characteristic, including, but not limited to, personal service contracts, purchasing contracts, public works contracts, emergency purchases, discretionary purchases, leases, and contracts for specific types of goods and/or services.

(3) "Combination Minority and Women's Business Enterprise" means a business organized for profit, performing a commercially useful function, which is fifty percent (50%) owned and controlled by a minority male and fifty percent (50%) owned and controlled by a non-minority woman. Both owners must be United States citizens or lawful permanent residents and cannot be married to each other.

(4) "Commercially useful function" means being responsible for execution of a contract or a distinct element of the work under a contract by actually performing, managing and supervising the work involved.

(5) "Contract" means a mutually binding legal relationship, including a lease, or any modification thereof, obligating the seller to furnish goods or services, including construction, and the buyer to pay for them.

(6) "Contract by contract basis" means a single contract within a specific class of contracts.

(7) "Contractor" means a party who enters into a contract to provide a state agency or educational institution with goods or services, including construction, or a subcontractor or sublessee of such a party.

(8) "Director" means the director of the office of minority and women's business enterprises.

(9) "Educational institutions" means the state universities, the regional universities, The Evergreen State College, and the community colleges.

(10) "Goals" means annual overall agency goals, expressed as a percentage of dollar volume, for participation by minority and women-owned businesses, and shall not be construed as a minimum goal for any particular contract or for any particular geographical area. Goals shall be met on a contract by contract or class of contract basis. In meeting their goals on both a contract by contract and a class of contract basis state agencies and educational institutions should facilitate the entry of minority and women's business enterprises into types of businesses in which MBE's and WBE's are underrepresented.

(11) "Goods and/or services" means all goods and services, including professional services.

(12) "Joint venture" means an association of two or more persons or businesses to carry out a single business enterprise for profit for which purpose they combine their property, capital, efforts, skills, and knowledge and in which they exercise control and share in profits and losses in proportion to their contribution to the enterprise.

(13) "Minority" means a person who is a citizen or lawful permanent resident of the United States and who is:

(a) Black: having origins in any of the black racial groups of Africa;

(b) Hispanic: of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish or Portuguese culture or origin, regardless of race;

(c) Asian American: having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands; or

(d) American Indian or Alaskan Native: having origins in any of the original peoples of North America.

Persons who are visibly identifiable as a minority need not provide documentation of their racial heritage but may be required to submit a photograph. Persons who are not visibly identifiable as a minority must provide documentation of their racial heritage which will be determined on a case-by-case basis. The final determination will be in the sole discretion of the office.

(14) "Minority business enterprise", "minority-owned business enterprise," or "MBE" means a business organized for profit, performing a commercially useful function, which is owned and controlled by one or more minority individuals or minority business enterprises certified by this office. Owned and controlled means a business in which one or more minorities or MBE's certified by this office own at least fifty-one percent (51%), or in the case of a corporation at least fifty-one percent (51%) of the voting stock, and control at least fifty-one

percent (51%) of the management and daily business operations of the business.

(15) "MWBE" means a minority owned business enterprise, a women-owned business enterprise, and/or a combination minority and women's business enterprise certified by the office of minority and women's business enterprises of the state of Washington.

(16) "Office" means the office of minority and women's business enterprises of the state of Washington.

(17) "Procurement" means the purchase, lease, or rental of any goods or services.

(18) "Public works" means all work, including construction, highway and ferry construction, alteration, repair, or improvement other than ordinary maintenance, which a state agency or educational institution is authorized or required by law to undertake.

(19) "State agency" includes the state of Washington and all agencies, departments, offices, divisions, boards, commissions, and correctional and other types of institutions. "State agency" does not include the judicial or legislative branches of government except to the extent that procurement or public works for these branches is performed by a state agency.

(20) "Women's business enterprise," "women-owned business enterprise," or "WBE" means a business organized for profit, performing a commercially useful function, which is owned and controlled by one or more women or women's business enterprises certified by this office. Owned and controlled means a business in which one or more women or WBE's certified by this office own at least fifty-one percent (51%) or in the case of a corporation at least fifty-one percent (51%) of the voting stock, and control at least fifty-one percent (51%) of the management and daily business operations of the business. The women owners must be United States citizens or lawful permanent residents.

Reviser's note: Errors of punctuation or spelling in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 326-20-010 IN GENERAL. Any business which meets the definition of a minority business enterprise, a women's business enterprise, or a combination minority and women's business enterprise as set forth in this title is eligible to be certified by the state of Washington as a minority business enterprise, a women's business enterprise or a combination minority and women's business enterprise. A business owned and controlled by one or more minority females may be certified as both a MBE and a WBE.

NEW SECTION

WAC 326-20-020 FEDERALLY FUNDED PROJECTS. Where a federal requirement which is a prescribed condition for allocation of federal funds to the state of Washington sets forth criteria for certification which are in conflict with those in this chapter, a business which meets those federal criteria may be certified as a minority business enterprise or women's business enterprise for state projects funded under those requirements.

NEW SECTION

WAC 326-20-030 PROOF OF MINORITY STATUS. Each minority owner of a business applying for MBE or combination minority and women's business enterprise certification who is visibly identifiable as a minority shall submit with the MWBE application form a photograph or copy of documentation containing the owner's photograph. Each minority owner who is not visibly identifiable as a minority shall submit a copy of his or her birth certificate, tribal enrollment papers, or other document which shows that the owner meets the definition of "minority" as set forth in these rules. The final determination will be in the sole discretion of the office.

NEW SECTION

WAC 326-20-040 PROOF OF WOMAN'S STATUS. Each woman owner of a business applying for certification as a WBE or as a combination minority and women's business enterprise must submit with the MWBE application form a copy of her birth certificate, valid driver's license, or other document which shows that the owner is a woman.

NEW SECTION

WAC 326-20-050 PROOF OF OWNERSHIP OF BUSINESS. All minority or women owners shall submit to the office proof of their ownership of the requisite percentage of the business at the time the application is submitted. Such proof shall consist of stock certificates, a notarized affidavit of stock ownership from the corporate treasurer, a partnership agreement, cancelled check

used to purchase ownership, or other recognized proof of ownership. In cases of sole proprietorships or other cases where documentary proof of ownership is not available, the minority or women owners shall so advise the office, which may undertake further investigation. The office may also require documents showing how and when the minority or women owner's interest in the business was acquired. The office may, for any reason, require any minority or women owners to provide additional proof of, or information concerning, ownership.

NEW SECTION

WAC 326-20-060 COUNTING COMMUNITY PROPERTY. The fifty-one percent (51%) ownership requirement is not met by an owner having only his or her fifty percent (50%) interest under community property laws. Except as provided in this section, each minority or woman owner who is a resident of a community property state and who is married must submit a copy of a separate property agreement signed by both spouses showing that the owner's spouse has acknowledged that at least two percent (2%) of the owner's interest in the business is held as the owner's separate property. This will not be required in these situations:

(a) Where a male minority owner of an MBE is married to a minority female.

(b) Where the fifty-one percent (51%) ownership requirement can be satisfied without requiring each owner to file a separate property agreement. Example: If fifty percent (50%) of the stock of a corporation is in the name of an unmarried woman and the other fifty percent (50%) is in the name of a married woman in a community property state, the fifty-one percent (51%) ownership criteria for WBE certification is satisfied. In this case, fifty percent (50%) of the stock is owned by the unmarried woman as her separate property, twenty-five percent (25%) of the stock is owned by the married woman as community property, and twenty-five percent (25%) of the stock is owned by the married woman's husband as community property. Thus, since seventy-five percent (75%) of a stock is owned by women, the married woman does not need a separate property agreement.

NEW SECTION

WAC 326-20-070 COUNTING OWNERSHIP HELD IN TRUST. In determining whether the fifty-one percent (51%) ownership requirement is met, no stock or ownership held in trust shall be counted, except where both the trustee and the beneficiary are minorities, or both are women, and the trustee meets the fifty-one percent (51%) control requirement.

NEW SECTION

WAC 326-20-080 FACTORS CONSIDERED IN DETERMINING CONTROL. Whether a minority or woman owner meets the fifty-one percent (51%) control requirement is determined on an application-by-application basis. Factors which may be considered in determining whether the minority or woman meets the

control requirement include, but are not limited to, the following:

(1) Authority and restrictions as indicated in the articles of incorporation, by-laws, partnership agreements and/or other business agreements and documents;

(2) The financial interest and/or participation in any other business by any owner or key personnel;

(3) Past and current employment history of minority and women owners involved in the business;

(4) Members of the board of directors and corporate officers;

(5) Experience, training, and expertise of any owners;

(6) Recent changes in ownership and/or control of the business;

(7) Financial obligation to and capital contributions from non-owners of the business, and

(8) Documentation indicating who has ultimate authority to make policy and management decisions and to legally obligate the business.

NEW SECTION

WAC 326-20-090 SIZE AND LENGTH OF TIME IN BUSINESS. Size of business or length of time in business shall not be considered a prerequisite for certification. However, the office may require that this information be provided in order to determine whether the business qualifies for MWBE status under federal regulations.

NEW SECTION

WAC 326-20-100 JOINT VENTURES. The office will not certify a joint venture as a MWBE. However, where a MWBE is participating in a joint venture and is responsible for a clearly defined portion of the work, the MWBE's percentage of the joint venture may be counted toward an agency's or institution's MWBE goal.

NEW SECTION

WAC 326-20-110 APPLICATION FORM. The office will develop and make available an application form for certification as a MWBE, which may be modified at any time. The form will solicit enough information to determine whether the applicant is eligible for MWBE certification for state-funded projects and may include supplemental questions necessary to determine whether the applicant is eligible for certification for a specific federally-funded projects. As part of its investigation, the office may require minority and women owners to provide information in addition to that requested on the application forms.

Where additional information is required from the applicant business to complete the investigation, the office will send a certified letter requesting the necessary information. The office must receive the information no later than twenty (20) calendar days after mailing of the letter. If the requested information is not received by the office within twenty (20) days, the office may administratively close the file. If for unusual circumstances an extension is necessary, the applicant may file a written request for extension before the twenty (20) days has

expired. The office may grant the applicant an additional twenty (20) calendar days in which to respond.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 326-20-120 SUBMITTAL OF FORMS. Application forms shall be submitted by mail or in person to the office at the following address:

STATE OF WASHINGTON
OFFICE OF MINORITY AND WOMEN'S BUSINESS
ENTERPRISES
211 - Fifth Avenue West
MS: FK-11
Olympia, WA 98504

The minority or woman owner shall be responsible for ensuring that the form is complete and accurate and is properly delivered to the office. The applicant should keep a copy of the completed form and all documents submitted with the form for its reference.

NEW SECTION

WAC 326-20-130 PROCESSING APPLICATIONS - TIME. The office will process all applications as promptly as its resources permit. The office cannot guarantee that any application will be processed within any certain time period and the inability to process an application by a certain time shall not subject the office or the state to liability.

NEW SECTION

WAC 326-20-140 DUTY TO COOPERATE. The owners shall have the duty to cooperate fully in the office's investigation of the application, including promptly submitting any additional information requested by the office.

NEW SECTION

WAC 326-20-150 ON-SITE INVESTIGATIONS. The office may, whenever it deems necessary, conduct an unannounced on-site investigation of an applicant's operations. By submitting the MWBE application form the applicant agrees that the office may conduct such investigations.

NEW SECTION

WAC 326-20-160 BURDEN OF PROOF. The applicant business shall have the burden of proving to the satisfaction of the office that it is eligible for certification.

NEW SECTION

WAC 326-20-170 DECISION. The office shall notify the applicant business by certified mail of its decision to grant or deny certification promptly after the decision has been made. The decision shall indicate whether the certification is for the state program, a federal program or both. Where the office has denied the

application, the decision shall set forth the bases for denial. Where the office has denied certification because the women or minority owners did not meet the ownership criteria, this shall not preclude the office from denying the application on additional bases following resubmittal or reconsideration.

NEW SECTION

WAC 326-20-180 EFFECT OF CERTIFICATION. Certification as a MWBE shall have the following effects:

(1) Certification as a MWBE for the state program shall entitle the MWBE to be counted by state agencies and educational institutions toward meeting their MWBE goals under this chapter. Certification as a MWBE for a federal program shall entitle the MWBE to be counted by state agencies and educational institutions toward meeting the MWBE goals under those programs. Certification shall be effective as of the date the decision is made in writing.

(2) Certification may be revoked at any time the office determines that the MWBE does not meet the current criteria for eligibility for certification.

(3) The MWBE shall notify the office of any changes in its ownership, control, or operations which may affect its continued eligibility as a MWBE. The office may require of all applicants and/or of selected applicants periodic notarized statements regarding changes in the information provided during the initial certification process.

(4) Certification as a MWBE does not constitute compliance with any other laws or regulations, including contractor registration or prequalification, and does not relieve any firm of its obligations under other laws or regulations. Certification as a MWBE does not constitute any determination by the office that the firm is responsible or capable of performing any work.

NEW SECTION

WAC 326-20-190 STATE MWBE DIRECTORY. The office will maintain a directory of certified MWBE's as follows:

(1) The office will maintain a complete directory of all MWBE's certified by the office for state projects and for federally-funded projects.

(2) The office will update and compile the directory into a form suitable for distribution at least semiannually and may issue supplements on a more frequent basis.

(3) The state MWBE director will be available for purchase from the office at a reasonable cost. One copy will be made available to each state agency and educational institution at no charge. Copies will be provided to the state library.

(4) Bidders and others proposing to enter into contracts with state agencies and educational institutions shall have the responsibility of ensuring that firms proposed to be used by them toward MWBE goals are certified. State agencies and educational institutions contracting directly with a purported MWBE shall have the responsibility of ensuring that the firm is certified.

(5) Information concerning the status of a firm as a MWBE may be obtained by contacting the office during designated working hours.

NEW SECTION

WAC 326-20-200 COMPLAINTS. Complaints regarding certification of MWBE's may be submitted, and will be processed, according to the following procedures:

(1) Any individual, firm, agency or other person who believes that an applicant certified as a MWBE does not qualify under the standards of eligibility for certification may file a complaint with the office.

(2) The complaint must be submitted to the office, must be in writing, and must set forth facts which indicate that the MWBE is not eligible, along with copies of any supporting documents the complainant may have. Facts should be described in as much detail as possible.

(3) The complainant should sign the complaint and give an address and telephone number where he or she may be reached during the investigation. However, the office will process anonymous complaints which include sufficient facts to indicate that they may have merit.

(4) Complaints, as well as names, addresses, and telephone numbers of complainants, cannot be considered confidential by the office.

(5) The office will investigate each complaint as promptly as resources allow. The MWBE shall cooperate fully in the office's investigation. The office will notify the business of the complaint by registered mail. No MWBE will be decertified based on a complaint without first having an opportunity to respond to the complaint: Provided, that failure of the MWBE to respond to the complaint within twenty (20) calendar days of mailing from the office may result in suspension of certification or decertification.

(6) The director may, at his or her discretion, suspend the MWBE's certification pending the outcome of the investigation after providing the MWBE seven (7) calendar days notice by certified mail to show cause in writing why the suspension of certification should not occur. No suspensions may last more than thirty (30) calendar days.

(7) After the investigation is completed, the office shall issue a written decision either rejecting the complaint or revoking the certification. The written decision shall be mailed to the MWBE involved and to the complainant, if known.

(8) Information received about an applicant prior to the certification decision being made will not be considered a complaint, but will be considered in the investigation of the application for certification.

NEW SECTION

WAC 326-20-210 RECONSIDERATION OF DECISION. Decisions to deny certification or to revoke certification will be reconsidered on the following basis:

(1) When an applicant has been denied certification, or when a MWBE's certification has been revoked, the applicant may petition the office for reconsideration of the decision on the grounds that the office did not have

all relevant information, that the office misapplied its rules, or that the office otherwise made an error.

(2) A petition for reconsideration must be in writing and must be received by the office within thirty (30) calendar days of the mailing of the decision, or the decision becomes administratively final. The petition must set forth the grounds on which the applicant believes the decision is in error, including any additional information which the applicant business has to offer.

(3) Upon receipt of the petition, the office shall review the petition and any additional information, and may conduct further investigation. The office will then notify the applicant by certified mail of its decision either to affirm the denial or revocation of certification or to grant certification by certified mail.

(4) If a petition for reconsideration is filed, a decision to deny certification following consideration of the petition is administratively final.

NEW SECTION

WAC 326-20-220 RESUBMISSION OF APPLICATIONS. An applicant which has withdrawn its application or whose application has been denied may file a new application if there has been a substantial change in ownership, control, or organization of the business. However, no business may file more than two (2) applications in any calendar year.

PROPOSED RULES
DEPARTMENT OF LICENSING
[Filed August 29, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Department of Licensing intends to adopt, amend, or repeal rules concerning adding new chapter 308-99 WAC, vehicle reciprocity; WAC 308-99-010 application; 308-99-020 definitions; 308-99-030 basic policy defined; 308-99-040 restrictions and conditions; and repealing chapter 410-20 WAC;

that the agency will at 10:00 a.m., Friday, September 9, 1983, in Conference Rooms B and C, Fourth Floor, Highways-Licenses Building, Olympia, Washington, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 46.01.110.

The specific statute these rules are intended to implement is section 18 et seq., chapter 227, Laws of 1982.

This notice is connected to and continues the matter in Notice No. WSR 83-15-064 filed with the code reviser's office on July 20, 1983.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 83-102-Filed August 29, 1983]**

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington the annexed rules relating to personal use rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is this regulation is necessary to protect crab stocks from handling mortality due to unseasonal molting.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 26, 1983.

WSR 83-18-015
EXECUTIVE ORDER
OFFICE OF THE GOVERNOR
[EO 83-12]

SEXUAL HARASSMENT

It is the policy of the state of Washington, as an employer, to provide and maintain a working environment for its employees, free from harassment on the basis of sex.

Sexual harassment occurs through unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

- A. Submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment;
- B. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- C. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

The best tool for the elimination of sexual harassment is prevention.

NOW, THEREFORE, I, John Spellman, Governor of the state of Washington, by virtue of the power vested in me, direct that state agencies take steps necessary to prevent sexual harassment from occurring, including, but not limited to, the following:

- A. Develop and disseminate among all agency employees a policy statement that defines and strongly expresses disapproval of sexual harassment;
- B. Inform employees of their right to raise and the means of raising the issue of sexual harassment under Chapter 49.60 RCW, or under Title VII of the Civil Rights Act of 1964, as amended in 1972;
- C. Provide training and education in order to eliminate and prevent sexual harassment in the organization;
- D. Develop and exercise appropriate sanctions.

The Department of Personnel, in consultation with the Human Rights Commission, has agreed to provide guidelines and other assistance to all agencies to aid in implementing this order.

Each agency is directed to submit to me no later than October 1, 1983, a report on its implementation of this order.

IN WITNESS WHERE-
OF, I have hereunto set my
hand and caused the seal of
the state of Washington to
be affixed at Olympia this
24th day of August, A.D.,
nineteen hundred and
eighty-three.

John Spellman

Governor of Washington

BY THE GOVERNOR:

Ralph Munro

Secretary of State

WSR 83-18-016
EXECUTIVE ORDER
OFFICE OF THE GOVERNOR
[EO 83-13]

**ESTABLISHING AN INTERAGENCY
ECONOMIC DEVELOPMENT COORDINATING
COUNCIL**

Economic development is of major importance to the state of Washington. The attraction of new business, retention and expansion of businesses of all size, marketing of Washington products to foreign countries, job development and training, attraction of tourists to the state, and having an adequate infrastructure to support these activities are top priorities for the state of Washington. While the Department of Commerce and Economic Development is the primary agency involved with these matters, several other agencies are involved in related activities such as job and community development. In

order to provide better coordination between these agencies, it is desirable that an Interagency Economic Development Coordinating Council be established.

NOW, THEREFORE, I, John Spellman, Governor of the state of Washington, by virtue of the authority vested in me, do hereby order and direct the following:

- A. A council known as the Interagency Economic Development Coordinating Council shall be established.
- B. The Council shall be composed of the directors of the Department of Commerce and Economic Development, Employment Security, Agriculture, Planning and Community Affairs Agency, the Small Business Development Council, Washington State University, the Interagency Committee for Outdoor Recreation, Department of Ecology, Office of Financial Management, Department of Transportation, and the Department of Revenue. The Governor shall designate one of the members of his staff as chairman. The Council shall meet regularly and shall create subcommittees as needed to deal with specific issues of concern.
- C. The Council shall review the administrative efforts of its member agencies to provide adequate infrastructure support, small business development, environmental coordination, and other actions necessary to foster economic development within the State of Washington.
- D. The Council shall report periodically its recommendations for action to the Governor, who shall disseminate them to the legislature and the public.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the state of Washington to be affixed at Olympia this 26th day of August, A.D., nineteen hundred and eighty-three.

John Spellman

Governor of Washington

WSR 83-18-017
ADOPTED RULES
DEPARTMENT OF
GENERAL ADMINISTRATION
(Division of Banking)
 [Order 54—Filed August 30, 1983]

I, L. O. Malmberg, Acting Supervisor of the Division of Banking, do promulgate and adopt at Olympia, Washington, the annexed rules relating to the Consumer Finance Act, creating new section WAC 50-16-105, related to insufficient funds charge.

This action is taken pursuant to Notice No. WSR 83-14-071 filed with the code reviser on July 6, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 31.08.230 which directs that the Division of Banking, Department of General Administration, has authority to implement the provisions of chapter 31.08 RCW.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 23, 1983.

By L. O. Malmberg
Acting Supervisor

NEW SECTION

WAC 50-16-105 INSUFFICIENT FUNDS CHARGE. If any payment on a loan is made by check and payment of that check is refused because there was no account or due to insufficient funds, the licensee may charge a fee not to exceed ten dollars for each check on which payment is refused.

WSR 83-18-018
PROPOSED RULES
URBAN ARTERIAL BOARD
 [Filed August 30, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Urban Arterial Board intends to adopt, amend, or repeal rules concerning WAC 479-01-010 organization of Urban Arterial Board, the board proposes to amend the organization to recognize the appointive authority of the secretary of transportation instead of the Highway Commission; WAC 479-01-020 time and place of meeting, the board proposes to amend the meeting dates of the Urban Arterial Board from the third Thursday of the first month of each calendar quarter to the third Friday. This also proposes to amend additional public meetings necessary to be held on the third Friday of each month instead of the third Thursday; and WAC 479-01-030 address of board, the board proposes to change the address of the Urban Arterial Board as currently listed in the Highway Administration Building to the Transportation Building due to a building name change;

that the agency will at 9:30 a.m., Friday, October 21, 1983, in the Transportation Building Board Room, Olympia, Washington 98504, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is chapter 47.26 RCW.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 21, 1983.

Dated: August 10, 1983

By: Robert A. Plaquet
Executive Director

STATEMENT OF PURPOSE

Authority: Chapter 47.26 RCW.

Summary of Rule: The board proposes to amend the meeting dates of the Urban Arterial board from the third Thursday of the first month of each calendar quarter to the third Friday. This also proposes to amend additional public meetings necessary to be held on the third Friday of each month instead of the third Thursday.

Personnel Responsible for Drafting, Implementation and Enforcement: Mr. Robert Plaquet, UAB Program Director, 1B9 Transportation Building, Olympia, WA 98504, 753-7199.

Organization Proposing Rule Change: Urban Arterial Board, governmental agency.

Comments: The reason for the change is that the meetings as currently listed in the WAC have been conflicting with the Department of Transportation in the utilization of this room on Thursdays.

Reason for Rule Change: There has been no law change which necessitates this change. See comments above.

Small Business Economic Impact: None.

Authority: Chapter 47.26 RCW.

Summary of Rule: Recognizing the appointive authority of the secretary of transportation instead of the Highway Commission in the appointment of the Urban Arterial Board members.

Personnel Responsible for Drafting: Mr. Robert Plaquet, UAB Program Director, 1B9 Transportation Building, Olympia, WA 98504, 753-7199; Implementation: Mr. Duane Berentson, Secretary of Transportation, Transportation Building, Olympia, WA 98504, 753-6054; and Enforcement: Urban Arterial Board, Mr. Keith Eggen, Chairman, Transportation Building, Olympia, WA 98504, 753-6123.

Organization Proposing Rule Change: Urban Arterial Board, governmental agency.

Comments: See summary of rule.

Reason for Rule Change: The law change transferring authority from the Highway Commission to the secretary of transportation.

Small Business Economic Impact: None.

Authority: Chapter 47.26 RCW.

Summary of Rule: The board proposes to change the address of the Urban Arterial Board as currently listed in the Highway Administration Building to the Transportation Building.

Personnel Responsible for Drafting, Implementation and Enforcement: Mr. Robert Plaquet, UAB Program Director, 1B9 Transportation Building, Olympia, WA 98504, 753-7199.

Organization Proposing Rule Change: Urban Arterial Board, governmental agency.

Comments: The reason for the name change is that the building has been renamed from the Highway Administration Building to the Transportation Building. This is a housekeeping change.

Reason for Rule Change: There has been no law change which necessitates this change. See comments above.

Small Business Economic Impact: None.

AMENDATORY SECTION (Amending Order 31 (part), filed 11/8/67)

WAC 479-01-010 ORGANIZATION OF URBAN ARTERIAL BOARD. The urban arterial board is a thirteen-member board, organized under the provisions of chapter 83, Laws of 1967 ex. sess. for the purpose of administering the urban arterial program created and financed under the provisions contained therein. Ten members of the board are appointed by the (~~State Highway Commission~~) secretary of transportation, with six being city officials and four being county officials. The chairman of the county road administration board and the county road administration engineer, created by RCW 36.78.030 and 36.78.060 respectively, are ex-officio members of the urban arterial board. The assistant director of highways for state aid is an ex-officio member and chairman of the urban arterial board.

AMENDATORY SECTION (Amending Order 279, filed 4/17/73)

WAC 479-01-020 TIME AND PLACE OF MEETINGS. Regular public meetings of the urban arterial board shall be held beginning on the third (~~Thursday~~) Friday of the first month of each calendar quarter or the first business day thereafter if that (~~Thursday~~) Friday is a holiday. Each such regular meeting shall be held at the offices of the urban arterial board in Olympia, Washington, and begin at the hour of 9:30 a.m.

Additional public meetings necessary to discharge business of the board shall be held beginning on the third (~~Thursday~~) Friday of each month at the offices of the urban arterial board in Olympia, Washington, and begin at the hour of 9:30 a.m. Further public meetings necessary to discharge business of the board may be called by the chairman at such time and place, within the state of Washington, as by him designated. Upon petition of three members of the board and pursuant to the provisions of the internal rules, the chairman shall call a meeting of the board at the offices of the board in Olympia.

AMENDATORY SECTION (Amending Order 281, filed 11/8/67)

WAC 479-01-030 ADDRESS OF BOARD. Persons wishing to obtain information or to make submissions or requests of any kind shall address their correspondence to:

Chairman, Urban Arterial Board
(~~Highway Administration~~) Transportation Building
Olympia, Washington 98504

WSR 83-18-019
PROPOSED RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Public Assistance)
 [Filed August 30, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Social and Health Services intends to adopt, amend, or repeal rules concerning Nursing homes—Residents' rights, amending WAC 388-88-101;

that the agency will at 10:00 a.m., Tuesday, October 11, 1983, in the Third Floor Conference Room, H-19, Office Building #2, Olympia, Washington, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on October 19, 1983.

The authority under which these rules are proposed is RCW 74.42.620.

The specific statute these rules are intended to implement is RCW 74.42.010 through 74.42.570.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 11, 1983.

Correspondence concerning this notice and proposed rules attached should be addressed to:

David A. Hogan, Director
 Division of Administration and Personnel
 Department of Social and Health Services
 Mailstop OB 14
 Olympia, WA 98504

Interpreters for people with hearing impairments and brailled or taped information for people with visual impairments can be provided. Please contact William B. Pope, Chief, Office of Administrative Regulations, at State Office Building #2, 12th and Franklin, Olympia, Phone (206) 753-7015, by September 27, 1983. The meeting site is in a location which is barrier free.

Dated: August 30, 1983

By: David A. Hogan, Director

Division of Administration and Personnel

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045.

Re: WAC 388-88-101.

Purpose of the Rule Change: To clarify that thirty rather than ninety days advance notice is required to transfer or change the level of care of a medical recipient.

The Reason These Rules are Necessary: To correctly reflect the required advance notice.

Statutory Authority: RCW 74.42.620.

Summary of the Rule Change: Changes from ninety to thirty days the written advance notice required to relocate or reclassify medical care recipients.

Person Responsible for the Drafting, Implementation and Enforcement of the Rule Change: Pat Hague, Consultation/Education Unit Manager, Bureau of Nursing Home Affairs, Mailstop: OB 31, Phone: 753-1851.

These rules are not necessary as a result of federal law, federal court decision or state court decision.

The above change is expected to have no financial impact individually or collectively on nursing homes, whether or not classified as small businesses.

AMENDATORY SECTION (Amending Order 1871, filed 9/1/82)

WAC 388-88-101 RESIDENTS' RIGHTS. (1) Except in cases specified in WAC 388-88-101(3), the medical assistance client or next of kin, guardian or responsible party or the guardian of the client, if the client has been adjudicated to be incompetent, must be informed in writing (~~ninety~~) thirty days prior to the relocation or reclassification. Such notice must include:

- (a) The reasons for the proposed change and/or transfer;
 - (b) A right to a conference with departmental representatives and any other individuals the client wishes to speak to within thirty days of receipt of such notice;
 - (c) The right to request a fair hearing within ninety days of receipt of the notice to contest the department's decision;
 - (d) The method by which a fair hearing may be obtained;
 - (e) The right to be represented at the fair hearing by an authorized representative;
 - (f) The existence of any legal services available in the community.
- (2) A fair hearing request form shall be sent with the notice of relocation and/or reclassification.

(a) The client must request a fair hearing within thirty days of receipt of the reclassification notice in order to have the current level of care continued. Any proposed change and/or transfer shall be delayed pending the outcome of the appeal process.

(b) If the secretary or his or her designee finds a change in the level of care is not appropriate, no further action shall be taken to change the level of care or transfer the patient, unless there is a change in the situation or circumstances at which time the request may be resubmitted.

(c) If the secretary or his or her designee affirms the determination to change the level of care and/or transfer, and no judicial review is filed within thirty days of the receipt of notice of determination, the department shall proceed with the planned action.

(d) Medical assistance clients assessed as no longer requiring nursing home care who refuse to transfer to another level of care will be ineligible for medicaid nursing home payment thirty days following the effective date of determination or thirty days following the fair hearing decision affirming the department's determination of not in need of nursing care.

(3) Advance notice is not required when:

(a) The medical assistance client or the next of kin, guardian or responsible party, requests a transfer in writing and waives the right to a period of notice.

(b) An immediate threat to the client's life or health, or that of others is present.

(c) The department judges the facility where the client resides is no longer able to provide Title XIX services due to:

- (i) Termination of provider's contract;
- (ii) Decertification of the provider;
- (iii) Nonrenewal of provider's contract;
- (iv) Revocation of provider's license;
- (v) Emergency license suspension.

WSR 83-18-020

ADOPTED RULES

DEPARTMENT OF ECOLOGY

[Order DE 83-25—Filed August 30, 1983]

I, Donald W. Moos, director of the Department of Ecology, do promulgate and adopt at the Department of Ecology, Lacey, Washington, the annexed rules relating to Fees—Radioactive waste management facilities, adopting chapter 173-44 WAC and repealing chapter 194-16 WAC.

This action is taken pursuant to Notice Nos. WSR 83-15-044 and 83-17-112 filed with the code reviser on July 19, 1983, and August 24, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to chapter 19, Laws of 1983 1st ex. sess., Title 43 RCW, and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 30, 1983.

By Donald W. Moos

Director

Chapter 173-44 WAC

FEES—RADIOACTIVE WASTE MANAGEMENT FACILITIES

NEW SECTION

WAC 173-44-010 PURPOSE AND SCOPE. The proper perpetual care and maintenance of radioactive waste management facilities is required to protect the public health, safety, and welfare. This chapter establishes the fees charged by the Washington State Department of Ecology for financing the necessary perpetual care and maintenance of radioactive waste management facilities. Promulgation of this regulation is further intended to satisfy the state's financial responsibilities to the United States government pursuant to the perpetual care agreement executed July 29, 1965.

NEW SECTION

WAC 173-44-020 AUTHORITY. This chapter is promulgated by the state Department of Ecology pursuant to authority granted in RCW 43.21F.045 and Chapter 19, Laws of 1983, El.

NEW SECTION

WAC 173-44-030 DEFINITIONS. (1) "Facility" means any site, location, structure, or property used or to be used for the storage, disposal, or burial of radioactive materials or waste, which lies within the one hundred acre tract described in the perpetual care agreement between the State of Washington and the United States government executed July 29, 1965.

(2) "Department" means the Washington State Department of Ecology.

(3) "Perpetual care and maintenance" means the activities necessary to stabilize and secure a closed facility during the perpetual care period, including but not limited to: Trench stabilization; upkeep of erosion control measures, fences, and warning signs; and sampling of monitor wells.

(4) "Sublessee" means a party to a sublease with the State of Washington for a portion of the one thousand acres of land, as described in the state's lease with the United States government executed September 10, 1964, lying within the Hanford Reservation.

NEW SECTION

WAC 173-44-040 PERPETUAL CARE AND MAINTENANCE FEE. (1) Any sublessee of the state who stores, disposes, or buries radioactive materials or waste at a facility shall pay a perpetual care and maintenance fee.

(2) The perpetual care and maintenance fee shall be one dollar seventy-five cents per cubic foot of radioactive material or waste buried or permanently stored at a facility.

NEW SECTION

WAC 173-44-050 PCM FEE—METHOD OF PAYMENT. (1) The perpetual care and maintenance fee shall be due on a quarterly basis for the quarters ending January 15, April 15, July 15, and October 15. All perpetual care and maintenance fee payments shall be paid within forty-five days after the due date.

(2) Perpetual care and maintenance payments shall be by check, draft, or money order payable to the Washington State Department of Ecology.

NEW SECTION

WAC 173-44-060 PCM FEE—DISPOSITION. (1) Upon receipt of perpetual care and maintenance fee payments, the department shall transmit such payments to the state treasurer for deposit in the perpetual maintenance account authorized by Chapter 19, Laws of 1983, El.

(2) Moneys in the perpetual maintenance account shall be invested by the state investment board in the same manner as other state moneys. Any interest accruing as a result of investment shall accrue to the perpetual maintenance account.

(3) The department shall maintain a segregated account of perpetual care and maintenance fee payments which are deposited in the perpetual maintenance account.

(4) The department, in consultation with the state radiation control agency, shall periodically evaluate the perpetual care and maintenance fee to determine whether it will provide adequate financing to assure perpetual care and maintenance of a closed facility. Any adjustments to the fees shall be made by rule adopted pursuant to Chapter 34.04 RCW.

NEW SECTION

WAC 173-44-070 SEVERABILITY. If any portion of this chapter or its application to any person or circumstance is held invalid, the remainder of this chapter, or the application of the provision to other persons or circumstances, shall not be affected.

REPEALER

The following sections of the Washington Administrative Code are each repealed:

- (1) WAC 194-16-010 PURPOSE AND SCOPE.
- (2) WAC 194-16-020 AUTHORITY.
- (3) WAC 194-16-030 DEFINITIONS.

- (4) WAC 194-16-040 PERPETUAL CARE AND MAINTENANCE FEE.
- (5) WAC 194-16-050 PCM FEE—METHOD OF PAYMENT.
- (6) WAC 194-16-060 PCM FEE—DISPOSITION.
- (7) WAC 194-16-070 SEVERABILITY.

WSR 83-18-021
ADOPTED RULES
BOARD OF PHARMACY
 [Order 175—Filed August 30, 1983]

Be it resolved by the Washington State Board of Pharmacy, acting at Midway, Washington, that it does adopt the annexed rules relating to registration of pharmacy interns, WAC 360-10-020; license fees, WAC 360-18-020; and repealing WAC 360-18-030.

This action is taken pursuant to Notice No. WSR 83-14-084 filed with the code reviser on July 6, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 18.64.005 and 18.64A.020 which directs that the Washington State Board of Pharmacy has authority to implement the provisions of RCW 18.64.050, 18.64.043, 18.64.044, 18.64.045, 18.64.046, 18.64.047, 18.64.080, 18.64.140 and 18.64A.060.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 18, 1983.
 By Donald H. Williams
 Executive Secretary

AMENDATORY SECTION (Amending Order 106, filed 6/3/71)

WAC 360-10-020 REGISTRATION OF INTERNS AND PRECEPTORS. (1) In order to be registered as a pharmacy intern, the qualified applicant in WAC 360-12-010 must file with the board of pharmacy an application for registration as a pharmacy intern as provided for in RCW 18.64.080. The application shall be accompanied by a fee ~~((of \$1.00))~~ as specified in WAC 360-18-020.

(2) A pharmacist who has met the certification requirements prescribed in WAC 360-10-050 and presented proper application to, and has been accepted by the board of pharmacy shall be certified as a preceptor. The board shall issue a certificate to qualified applicants and the certificate shall be in the pharmacy during the period that the intern is receiving training in the pharmacy.

(3) Registration as a preceptor shall be valid until July 31 of the odd-numbered year following registration. Said registration can be renewed by filing a renewal registration form supplied by the board of pharmacy no

later than July 31st of the odd-numbered year. Said form shall indicate that the renewal applicant has the necessary qualifications to continue as a preceptor.

AMENDATORY SECTION (Amending Order 155, filed 6/26/80)

**WSR 83-18-022
EMERGENCY RULES
DEPARTMENT OF FISHERIES**
[Order 83-105—Filed August 31, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to personal use fishing rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that

observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is limited numbers of harvestable northern coho salmon are available, and coastal waters closure together with bag limit reduction in inside waters subject to the ocean harvest quota allows extension of the sport salmon season in those waters.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 30, 1983.

By William R. Wilkerson
Director

NEW SECTION

WAC 220-56-19000B SALTWATER SEASONS AND BAG LIMITS Notwithstanding the provisions of WAC 220-56-190, (1) effective September 6, 1983, until further notice it is unlawful to fish for or take and retain salmon taken for personal use from coastal waters except that it is lawful to fish under bag limit F in those waters southerly of a line drawn due west from Leadbetter Point and northerly of a line drawn due west from Klipsan Beach (Latitude 46° 28' 12" N).

(2) Effective September 6, 1983, until further notice, in waters of the Strait of Juan de Fuca westerly of the mouth of the Sekiu River to a line projected from the most westerly point on Cape Flattery to the Tatoosh Island Light then to Bonilla Point on Vancouver Island – bag limit F.

REPEALER

The following section of the Washington Administrative Code is repealed effective September 6, 1983:

WAC 220-56-19000A SALTWATER SEASONS AND BAG LIMITS. (83-97)

**WSR 83-18-023
EMERGENCY RULES
DEPARTMENT OF FISHERIES**
[Order 83-106—Filed August 31, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity

to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is these rules are adopted pursuant to the Columbia River compact.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 30, 1983.

By William R. Wilkerson
Director

NEW SECTION

WAC 220-32-03000H GILL NET SEASON. Notwithstanding the provisions of WAC 220-32-030, 220-32-031, and 220-32-032, it is unlawful to take, fish for, or possess salmon taken for commercial purposes with gill net gear in Columbia River Salmon Management and Catch Reporting Areas 1A, 1B, 1C, 1D, or 1E, except in those areas and at those times designated below:

Area 1A - 6:00 p.m. September 1 to 6:00 a.m. September 2, 1983.

EMERGENCY RULES

DEPARTMENT OF FISHERIES

[Order 83-107—Filed August 31, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is this regulation is necessary to protect crab stocks from handling mortality due to unseasonal molting.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 30, 1983.

WSR 83-18-030
ADOPTED RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Public Assistance)
 [Order 2020—Filed August 31, 1983]

I, David A. Hogan, director of the Division of Administration and Personnel, do promulgate and adopt at Olympia, Washington, the annexed rules relating to community options program entry system, amending WAC 388-83-200.

This action is taken pursuant to Notice No. WSR 83-15-020 filed with the code reviser on July 14, 1983. These rules shall take effect thirty days after they are

filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated under the general rule-making authority of the Department of Social and Health Services as authorized in RCW 74.08.090.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 31, 1983.

By David A. Hogan, Director
 Division of Administration and Personnel

AMENDATORY SECTION (Amending Order 1954, filed 3/30/83)

WAC 388-83-200 COMMUNITY OPTIONS PROGRAM ENTRY SYSTEM (COPES) PROJECT. (See WAC 388-15-600.) (1) Eligible persons for the COPES project are individuals age eighteen and over who:

(a) Meet the Title XIX categorically needy eligibility requirements for SSI related institutionalized individuals. See chapters 388-83 and 388-92 WAC. Income and resources of parents or spouses will not be considered available when determining eligibility or participation for a COPES applicant or recipient;

(b) Are assessed by the department to require the level of care provided in a skilled nursing facility, intermediate care facility or an intermediate care facility for the mentally retarded;

(c) Have a plan of care approved by the department and the total cost for this plan of care including the MNIL for one person, is less than ~~((eight hundred eighty-one dollars per month-))~~ eighty percent of the department's state-wide average nursing home rate(~~(?)~~); and

(d) Are able and choose to live at home with community support services, or in a congregate care facility, or in a licensed adult family home.

(2) Income disregarded in determining eligibility is not available for participation in COPES services.

(3) Available income (total income(~~(-including))~~ less amounts disregarded in determining eligibility), of a COPES participant living at home shall be allocated as follows:

(a) An amount equal to the medically needy income level for one person shall be protected for the maintenance needs of the recipient; or

(b) For an individual with a spouse or family at home, an amount shall be protected equal to the medically needy income level adjusted for the appropriate family size;

(c) Amounts for incurred medical expenses not subject to third party payment shall be protected, including:

(i) Medicare and other health insurance premiums, deductibles, or coinsurance charges; and

(ii) Necessary medical care recognized under state law but not covered under Medicaid;

(d) Income remaining after deductions in subsections ~~((2))~~ (3)(a), ~~((2))~~ (3)(b) and ~~((2))~~ (3)(c) of this

section will be the participation amount for COPEs services. (See WAC 388-15-620).

((3)) (4) Income of a COPEs participant living in an adult family home or congregate care facility shall be allocated as for other eligible categorically needy persons in similar living situations.

WSR 83-18-031
ADOPTED RULES
DEPARTMENT OF PERSONNEL
(Personnel Board)
 [Order 191—Filed August 31, 1983]

Be it resolved by the State Personnel Board, acting at the Department of Personnel, 600 South Franklin, Olympia, WA 98504, that it does adopt the annexed rules relating to:

- Amd WAC 356-15-090 Schedule/shift change provisions and compensation.
- New WAC 356-18-095 Vacation leave—Accumulation—Excess.
- Amd WAC 356-18-105 Exit leave.
- Amd WAC 356-30-270 Probationary period—Dismissal—Notice—Rights acquired.
- Amd WAC 356-30-300 Performance evaluation—Requirements—Monitoring.

This action is taken pursuant to Notice Nos. WSR 83-14-013, 83-14-035 and 83-15-048 filed with the code reviser on June 28, 1983, June 30, 1983, and July 20, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 41.06.150 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 11, 1983.
 By Leonard Nord
 Secretary

AMENDATORY SECTION (Amending Order 114, filed 12/21/77)

WAC 356-15-090 SCHEDULE/SHIFT CHANGE PROVISIONS AND COMPENSATION. The appointing authority shall schedule the working days/hours of their scheduled work period employees.

(1) This schedule ~~((is permanent and can))~~ shall remain in effect for at least seven calendar days, and may only be changed with ~~((not less than))~~ seven or more calendar days notice. If ~~((such))~~ seven calendar days notice is not given, a new schedule does not exist until the notice period expires. Agencies may notify employees of more than one future schedule change in a single notice.

The seven calendar days notice of changes in working days and/or hours must be given to the affected employees during their scheduled working hours. The day that notification is given shall constitute a day of notice.

(2) If the appointing authority changes employees' assigned days/hours without giving them at least seven days notice of the change, employees will be paid for all time worked outside the scheduled days/hours at the overtime rate for the duration of the notice period.

(a) When changes in employees' assigned days/hours are made without proper notice, employees may work their scheduled days/hours unless the appointing authority deems that:

(i) The employees are unable to perform satisfactorily as the result of excessive overtime hours; or

(ii) the work which normally would have been performed within the scheduled days/hours cannot be performed.

(b) The state is not obligated to pay for those scheduled days/hours not worked, unless the employee is on an authorized leave of absence with pay.

(c) Overtime pay and schedule/shift change pay shall not be paid for the same incident.

(3) The transition period for necessary schedule changes from one scheduled standard work period to another scheduled standard work period shall be considered and filed as a scheduled alternate work period in accordance with WAC 356-15-020(1)(b) except that:

(a) Transitioning employees may receive the overtime rate for all hours worked in the month which exceed the number of scheduled hours of Monday through Friday counterpart employees during the month of the transition; or

(b) Transitioning employees may receive the overtime rate of pay for those shifts actually worked that would be the sixth and/or seventh scheduled shift in the previous work week if the employee is not scheduled to have two consecutive days off.

The new scheduled standard work period and work day shall be identified and begin during the schedule transition period.

(4) Contingency scheduling is allowed for those positions having the following responsibilities: Highway snow, ice and avalanche control, grain inspection, horticulture inspection, and in the department of natural resources, forest fire suppression, "hoot owl," forest fuels management and aerial applications.

Therefore, for those positions, the appointing authority shall not be bound by the above scheduled shift change notice requirement, if the appointing authority notifies affected employees of the contingency schedule in writing when they enter the position or not less than 30 days prior to implementation.

When conditions mandate the activating of the contingency schedule, the appointing authority shall pay affected employees the overtime rate for all hours worked outside the original schedule at least the employee's first shift of the contingency schedule.

NEW SECTION

WAC 356-18-095 VACATION LEAVE—ACCUMULATION—EXCESS. Vacation leave may be

accumulated to a maximum of 30 days (240 hours). However, there are two methods which allow vacation leave to be accumulated above the maximum.

(1) If an employee's request for vacation leave is denied by the employing agency, then the maximum of 30 working days' accrual shall be extended for each month that the leave is deferred, provided a statement of necessity justifying the denial is filed with the Department of Personnel.

(2) As an alternative to (1) above, employees may also accumulate vacation leave in excess of 30 days as follows:

(a) An employee may accumulate the vacation leave days between the time 30 days is accrued and his/her anniversary date of state employment.

(b) Such leave accumulated shall be used by the anniversary date and at a time convenient to the employing institution/agency. If such leave is not used prior to the employee's anniversary date, such leave shall be automatically extinguished and considered to have never existed.

(c) Such leave credit acquired and accumulated shall never, regardless of circumstances, be deferred by the employing institution/agency by filing a statement of necessity as described in (1) above.

AMENDATORY SECTION (Amending Order 179, filed 12/22/82)

WAC 356-18-105 EXIT LEAVE. (1) Employees who separate from the state service (voluntarily or involuntarily, except by death) and are not members of the public employees retirement system Plan 1 shall exhaust their accrued vacation leave to which they are entitled by taking exit leave.

(2) ~~((Effective July 1, 1983, exit leave time shall not be credited toward sick leave or periodic increments.~~

~~(3))~~ Time spent in exit leave by employees in probationary or trial service status shall not be credited toward gaining permanent status.

~~((4))~~ (3) Time spent in exit leave shall not be counted as part of the advance notice required for dismissals, demotions, suspensions, or separations due to reduction in force.

~~((5))~~ (4) Employees may not take accrued sick leave during the period of exit leave.

AMENDATORY SECTION (Amending Order 36, filed 7/1/71, effective 8/1/71)

WAC 356-30-270 PROBATIONARY PERIOD—DISMISSAL—NOTICE—RIGHTS ACQUIRED. (1) An employee may be dismissed during a probationary period after being given written notice five working days prior to the effective date of dismissal. However, if the agency believes the good of the service requires the immediate dismissal of the probationary employee, written notice of only one full working day prior to the effective date of the dismissal will be required. The reasons for the dismissal shall be filed with the director of personnel and the personnel appeals board.

(2) An employee dismissed during a probationary period shall not have the right to appeal the dismissal.

When proper advance notice of the dismissal is not given, the employee may enter an appeal for payment of salary for up to five days which the employee would have worked had proper notice been given. If such a claim is sustained, the employee will be entitled to the appropriate payment of salary but will not be entitled to reinstatement.

AMENDATORY SECTION (Amending Order 175, filed 9/22/82)

WAC 356-30-300 PERFORMANCE EVALUATION—REQUIREMENTS—MONITORING. (1) Agencies shall evaluate the performance of their employees during their probationary or trial service periods and at least once a year thereafter.

(2) The evaluation will be conducted during the month preceding the employee's anniversary date, except an agency can establish, on a consistent basis, a date which better accommodates a specific work cycle.

(3) Agencies will utilize the procedures and evaluation forms prescribed by the director of personnel, supplement shall include provisions whereby individual agencies may, with the approval of the director of personnel, supplement the process with special performance factors peculiar to the specific organizational needs.

(4) The procedures and forms shall:

(a) Be designed to aid in communications between supervisors and subordinates and clarify duties and expectations.

(b) Be designed to inform employees of their performance strengths and weaknesses.

(c) Be based on performance toward the goals and objectives of the agency and its sub-units.

(d) Include provisions for the counseling and the development of employees.

(5) The department of personnel shall monitor the evaluation of employees for timeliness, effectiveness and standardization.

(6) Allowing a probationary employee to gain permanent status or a trial service employee to gain permanent status in the class to which he/she has been promoted without completion of an evaluation may be regarded as neglect of duty, incompetence or insubordination on the part of the supervisor and may be cause for disciplinary action.

WSR 83-18-034**PROPOSED RULES****DEPARTMENT OF****SOCIAL AND HEALTH SERVICES****(Institutions)**

[Filed August 31, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Social and Health Services intends to adopt, amend, or repeal rules concerning alcoholism treatment facilities, amending chapter 275-19 WAC;

that the agency will at 10:00 a.m., Tuesday, October 25, 1983, in the Auditorium, General Administration Building, 11th and Columbia, Olympia, Washington, and at 2:00 p.m., Thursday, October 27, 1983, in the Auditorium, Spokane County Public Health Center, West 1101 College, Spokane, Washington, conduct public hearings on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 1, 1983.

The authority under which these rules are proposed is RCW 70.96A.040.

The specific statute these rules are intended to implement is chapter 70.96A RCW and chapter 150, Laws of 1983.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 27, 1983.

Correspondence concerning this notice and proposed rules attached should be addressed to:

David A. Hogan, Director
Division of Administration and Personnel
Department of Social and Health Services
Mailstop OB 14
Olympia, WA 98504

Interpreters for people with hearing impairments and brailled or taped information for people with visual impairments can be provided. Please contact William B. Pope, Chief, Office of Administrative Regulations, at State Office Building #2, 12th and Franklin, Olympia, Phone (206) 753-7015, by October 11, 1983. The meeting site is in a location which is barrier free.

Dated: August 30, 1983

By: David A. Hogan, Director

Division of Administration and Personnel

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.025.

Adds new sections and amends chapter 275-19 WAC. Amending WAC 275-19-020, 275-19-030, 275-19-170, 275-19-610, 275-19-700, 275-19-810, 275-19-820 and 275-19-830 and new sections WAC 275-19-145, 275-19-185, 275-19-630, 275-19-750, 275-19-760 and 275-19-770.

The Purpose of These Rules: To establish standards for DWI assessment services and alcoholism intensive outpatient treatment services. It will also make changes in existing chapter 275-19 WAC sections which would be in conflict with the new service responsibilities.

The Reasons These Rules are Necessary: The 1983 legislature passed Substitute House Bill 498. This bill requires that the alcohol evaluation and assessment of those drivers who receive citations for driving while under the influence and for physical control of a motor vehicle while under the influence be conducted by a DSHS approved alcoholism treatment facility or DSHS approved court probation service. The former law required that the alcohol assessments be done by a DSHS approved alcohol information school. Chapter 275-19 WAC is being revised to provide approval of the probation officers as required by the new law and to ensure uniformity of the assessment process. A new class of service, DWI assessment service, is being developed which will apply to probation offices and existing alcohol treatment facilities which will be doing the alcohol assessments. This action made it necessary to revise the alcohol information school regulations so a second assessment of these clients would not be necessary. Some other sections of the WAC also had to be revised to add definitions, record requirements and personnel requirements. Facilities have implemented new programs called

intensive outpatient treatment programs. These programs vary in the number of hours of service they provide, the size of groups and the qualifications of personnel. As a result, many experience difficulty in collecting payments from insurance companies for client services. The proposed revision will add language to the WAC which will set standards for these programs and as a result, assist agencies in obtaining insurance payments.

Statutory Authority: Chapter 70.96A RCW and 1983 Substitute House Bill 498 (RCW 46.61.515).

Summary of the Rule Changes: Adds new sections to chapter 275-19 WAC. These sections establish a new class of alcoholism treatment service called DWI assessment service. Definition, personnel, records and the alcohol information school sections of the WAC are revised to accommodate the new service. Adds a new sub class of service under alcoholism outpatient treatment services called intensive outpatient treatment.

Person Responsible for the Drafting, Implementation and Enforcement of the Rule: Jess McCabe, Coordinator, Alcoholism Program Certification, Office on Alcoholism, Phone: 753-5866, MS: OB-44W.

These rules are not necessary because of a federal law, federal court decision or state court decision.

AMENDATORY SECTION (Amending Order 1727, filed 12/2/81)

WAC 275-19-020 FACILITY SERVICES. (1) The department shall approve alcoholism treatment facilities pursuant to these rules and regulations to provide the following services:

(a) Alcohol detoxification: Care and/or treatment of persons intoxicated or incapacitated by alcohol during the period in which the person recovers from the transitory effects of acute intoxication.

(b) Alcoholism intensive inpatient treatment: Provided to the detoxified alcoholic in a residential setting.

(c) Alcoholism long-term treatment: Provided on a long-term basis (ninety days or more) in a residential care setting with personal care services for alcoholics with impaired self-maintenance capabilities (~~who need~~) needing personal guidance and assistance to maintain sobriety and good health.

(d) Alcoholism recovery house: Provides an alcohol-free residential setting with social and recreational activities for detoxified alcoholics to aid their adjustment to sobriety and their engagement in occupational training, gainful employment, or other types of community activities.

(e) Alcoholism outpatient treatment: A variety of diagnostic and primary alcoholism treatment services provided according to a prescribed plan in a nonresidential setting.

(f) Alcohol information and referral: A community-based resource for information concerning alcohol, alcohol abuse and alcoholism; assess the individual's and/or family's involvement with alcohol, assist the individual and/or family in designing a continuum of care, and coordinate referrals to and from the appropriate alcoholism treatment programs or other community resources.

(g) DWI client assessment: A diagnostic service designed to evaluate client's involvement with alcohol and other drugs, and recommend an appropriate course of action. All persons arrested for a violation of driving while under the influence of intoxicating liquor or drugs (RCW 46.61.502), and actual physical control of a motor vehicle while under the influence of intoxicating liquor or drugs (RCW 46.61.504), or petitioning for a deferred prosecution (chapter 10.05 RCW) for those offenses shall be evaluated by this service.

(h) Alcohol information school ((provides the individual student): An educational program providing students with information regarding the use and abuse of alcohol ((and attempts to motivate the individual with a drinking problem to evaluate the problem and seek treatment)). The goal of the school is to help students not currently presenting a significant alcohol problem to make informed decisions about the use of alcohol.

((~~h~~)) (i) Emergency service patrol: Gives assistance in the streets and in other public places to persons who are intoxicated.

(2) A facility may be approved for more than one service if the facility complies with the specific requirements for approval of each service provided.

AMENDATORY SECTION (Amending Order 1727, filed 12/2/81)

WAC 275-19-030 DEFINITIONS. For the purpose of these rules and regulations, the following words and phrases shall have the following meanings unless the context clearly indicates otherwise:

(1) "Acute detoxification" means detoxification service provided to individuals for whom the consequences of withdrawal from alcohol are so severe as to merit assistance from medical and/or nursing personnel.

(2) "Administrator" means the individual appointed as the chief executive officer by the governing body of a facility to act in ((~~its~~)) the facility's behalf in the overall management of the alcoholism treatment facility.

(3) "Alcoholic" means a person with alcoholism.

(4) "Alcoholism" means an illness characterized by lack of control as to the consumption of alcoholic beverages or the consumption of alcoholic beverages to the extent ((~~that~~)) a person's health is substantially impaired or endangered or his or her social and economic function is substantially disrupted.

(5) "Alcoholism treatment facility" means a place ((~~whose~~)) where the primary function is the treatment of alcoholism and/or alcohol abuse.

(6) "Approved" means having met the standards of the department contained in these rules and regulations and having been certified pursuant to RCW 70.96A.090.

(7) "Approved public treatment facility" means a treatment facility ((~~which is operated~~)) operating under the direction and control of the department, or a treatment facility ((~~which is~~)) providing treatment for the department either through contract with the department or through a county subcontract, ((~~that has been~~)) approved by the department pursuant to these rules and regulations and chapter 70.96A RCW.

(8) "Approved treatment facility" means an alcoholism treatment facility, either public or private, profit or nonprofit ((~~which has~~)), having been approved by the department pursuant to these rules and regulations and chapter 70.96A RCW.

(9) "Bureau" means the Washington state department of social and health services bureau of alcohol and substance abuse.

(10) "Bureau of alcohol and substance abuse" means the Washington state department of social and health services bureau of alcohol and substance abuse.

((~~9~~)) (11) "Cancel" means a permanent invalidation of the approval of an alcoholism treatment facility.

(12) "Department" means the Washington state department of social and health services.

(13) "Department of licensing" means the Washington state department of licensing.

((~~10~~)) (14) "Detoxification" means care and treatment of an intoxicated person during the period in which the person recovers from the transitory effects of acute intoxication.

((~~11~~)) (15) "Detoxified" means withdrawn from the consumption of alcohol, and recovered from the transitory effects of intoxication, and any associated acute physiological withdrawal reactions.

((~~12~~)) "Department" means the Washington state department of social and health services.

((~~13~~)) (16) "Facilities" means rooms, areas, and equipment to serve a specific function.

((~~14~~)) (17) "Governing body" means the individual or group ((~~which is~~)) legally responsible for the conduct of an alcoholism treatment facility.

((~~15~~)) (18) "Incapacitated by alcohol" means that a person, as a result of the use of alcohol, has his or her judgment so impaired ((~~that~~)) he or she is incapable of realizing what his or her condition is and making a rational decision with respect to the need for treatment and constitutes a danger to himself or herself, to any other person, or to property.

((~~16~~)) (19) "Intensive outpatient treatment" means a concentrated, nonresidential program ((~~which consists~~)) consisting of a combination of education sessions, individual therapy, group therapy, and related activities provided to detoxified alcoholics and their families.

((~~17~~)) (20) "Intoxication" means acute alcohol poisoning or temporary impairment of a person's mental or physical functioning caused by alcohol in ((~~his/her~~)) his or her body.

~~((18))~~ (21) "Licensed nurse" means either a registered nurse per chapter 18.88 RCW or a licensed practical nurse per chapter 18.78 RCW.

~~((19))~~ (22) "Physician" means a person duly licensed to practice medicine or osteopathic medicine in the state of Washington.

(23) "Probation alcohol assessment facility" means a qualified probation department for a district or municipal court within the state of Washington meeting the standards contained in these rules and regulations governing the operation of a DWI client assessment service as defined in WAC 275-19-020(1)(g).

~~((20))~~ (24) "Qualified alcoholism counselor" means a person who has adequate education, experience, and knowledge regarding the nature and treatment of alcoholism, is knowledgeable about community resources ~~((which provide))~~ providing services alcoholics may need, knows and understands the principles and techniques of alcoholism counseling, and is skilled in the application of these principles and techniques. A qualified alcoholism counselor shall:

(a) Have no history of alcohol or other drug misuse for a period of two years immediately prior to the time of employment as an alcoholism counselor, and no misuse of alcohol or other drugs while employed as an alcoholism counselor.

(b) Possess these professional attributes:

(i) Show evidence of a genuine interest in helping alcoholic persons, and of dedication to helping ~~((them))~~ alcoholic persons help themselves as much as possible.

(ii) The ability to maintain confidentiality of all records, materials, and communications concerning the identity of clients.

(iii) The ability to work under supervision and to cooperate with other personnel, as well as to function effectively on one's own.

(iv) The ability to assess one's own personal and vocational strengths and limitations, biases, and effectiveness.

(v) The ability and willingness to recognize when it is in the client's best interest to refer or release him or her to another individual or program.

(vi) Show responsibility for self-evaluation and continued growth through further education or training.

(vii) Show respect for the client by avoidance of any intrusion into the client's personal life outside of a professional relationship.

(viii) Show respect for rights and reputation of other alcoholism workers and workers of other professions.

(ix) Show no discrimination among clients or professionals on the basis of race, color, creed, sex, or age.

(c) Possess these qualifications:

(i) A high school diploma or equivalent.

(ii) Satisfactory completion of a minimum twelve quarter credits or eight semester credits of course work in an accredited institution of higher learning (college or university), of which:

(A) At least six quarter (four semester) credits must be specialized alcoholism courses, and

(B) The remaining six quarter (four semester) credits may be in either such courses or counseling, psychology, sociology, or social work.

NOTE: Effective January 1, 1984, this requirement, (ii), shall change to read: "Satisfactory completion of a minimum of twenty-four quarter (sixteen semester) credits, of course working in an accredited institution of higher learning (college or university) of which twelve quarter (eight semester) credits must be specialized alcoholism courses exclusive of field experience credit, and which must include distinct courses in: (A) Introduction To, or Survey of Alcoholism, (B) Physiological Actions of Alcohol and Other Drugs, and (C) Alcoholism Counseling. The remaining twelve quarter (eight semester) credits may be in alcoholism, multi-drug abuse, counseling, psychology, social work, human services, or social services."

Grandfather Clause

Persons who are qualified alcoholism counselors prior to January 1, 1984, will not be required to meet these new education standards.

(iii) Two thousand hours (approximately one year) of supervised work experience, in a counseling capacity, in an approved alcoholism agency or facility (may include hours spent in supervised field experience under academic supervision).

(d) Possess adequate knowledge and competence in the following areas:

(i) Communications:

(A) Demonstrated communication skills in writing and speaking.

(B) Demonstrated ability to maintain clinical records and write reports.

(C) Demonstrated ability to establish communication readily with incoming referrals in order to evaluate, screen and record pertinent information.

(ii) Knowledge of alcoholism:

(A) Physiological, e.g., ingestion, absorption, metabolism, effects of alcohol blood level, organic damage, acute alcoholism, long-range management of the illness.

(B) Psychological, e.g., dependency, patterns of progression (denial, projection, rationalization collapse), psychiatric complications, patterns of recovery, personal and social reconstruction.

(C) Social/cultural, e.g., history of alcohol use and abuse, family ramifications, value system of subcultures, spiritual, industrial, and legal aspects, including new legislation.

(iii) Evaluation and assessment:

(A) A thorough knowledge of the symptoms of early, middle, and late stages of alcoholism (~~((=early, middle, and late stages))~~).

(B) Strategies for assessing the individual in regard to the degree of alcoholism.

(C) Ability to recognize other medical/behavioral problems.

(D) Case history method.

(E) Ability to assess the effectiveness of various treatment and program modalities.

(iv) Referral:

(A) Knowledge of appropriate referral resources, their eligibility requirements, treatment philosophy, admission and contact procedures.

(B) Skill in evaluating a client's problem, reporting ~~((it))~~ the problem to ~~((him/her))~~ him or her at the client's level of understanding, and making a referral to a suitable program. This includes ability to work with persons, groups, or agencies with different treatment philosophies.

(C) Ability to assist clients and families with alcohol-related problems, with referrals for public assistance, medical or health needs, pastoral counseling, etc.

(D) Demonstrate exposure to Alcoholics Anonymous, Alanon, and/or Alateen, as well as other community programs, through direct contact.

(v) Counseling principles and procedures, including:

(A) Crisis intervention.

(B) Establishing a working relationship with a variety of clients.

(C) Establishing treatment goals.

(D) Use of techniques designed to educate the client regarding alcoholism, illicit feelings, facilitate self-understanding in the client, and motivate the client for treatment.

(E) Knowledge of different counseling philosophies and theories.

(F) Skill in individual and group counseling appropriate to alcoholism.

(G) Appropriate termination of session.

(H) An understanding and adherence to the ethics of counseling.

(vi) Treatment:

(A) A knowledge of various inpatient and outpatient methods and their rationale, their relation to other methods, and their limitations.

(B) Skill in managing the transition between detoxification and treatment, and the transition between intensive treatment and rehabilitation.

(C) Understanding of the steps and traditions of Alcoholics Anonymous, Alanon, and Alateen, their relations to various treatments, and their functions and limitations.

(D) Knowledge of long-range rehabilitative processes, including awareness of the need for medical care, post-treatment crisis, relapse, and new problems arising from sobriety.

(e) Maintain the qualified counselor status by completing the following requirements within each two years of service.

(i) Sixty clock hours of continuing education, including at least fifteen clock hours in which alcoholism or counseling alcoholic people or families is the primary part of the course content, as evidenced by the course description and/or syllabus. The remaining forty-five clock hours may be in subject areas that will increase the counselor's knowledge and skills in counseling and aiding the alcoholic person or family to recover.

(ii) For any portion of these sixty clock hours of continuing education, college credit-bearing courses will have the value of one and one-half, i.e., one college credit contact hour will equal one and one-half hours of continuing education.

(iii) No course or workshop previously taken may be repeated to meet these requirements.

(iv) An acceptable workshop must be conducted by an instructor who is either qualified as an alcoholism counselor or has state approval as a trainer.

(v) In-service training does not satisfy this requirement, but ~~(short courses)~~ short courses, retreats, or workshops ~~(which meet)~~ meeting the ~~(above)~~ conditions in subsection (24)(e) of this section may be used.

~~((21))~~ (25) "Residential facilities" means facilities ~~(that provide)~~ providing board and room as part of their treatment program.

~~((22))~~ (26) "Revoke" means a permanent invalidation of the approval of an alcoholism treatment facility.

~~((23))~~ (27) "Secretary" means the secretary of the Washington state department of social and health services or ~~(his/her)~~ his or her designee.

~~((24))~~ (28) "Shall" means compliance is mandatory.

~~((25))~~ (29) "~~(Sub-acute)~~ Subacute detoxification" means detoxification service provided to individuals in a supportive, homelike environment within which a person can recover from the effects of intoxication. Prescription medication is not provided for the management of withdrawal discomfort.

~~((26))~~ (30) "Substantial compliance" means being in conformity with the requirements of the major components of each section of chapter 275-19 WAC ~~(which applies)~~ applying to the class or classes of alcoholism treatment services for which an alcoholism treatment facility is approved or has applied for approval.

~~((27))~~ (31) "Suspend" means invalidation of the approval of an alcoholism treatment facility for any period less than one calendar year or until the agency is notified of reinstatement.

NEW SECTION

WAC 275-19-145 ALL FACILITIES—QUALIFIED COUNSELORS, INSTRUCTORS, AND ASSESSMENT OFFICERS. (1) A "qualified alcoholism counselor" is a person meeting the requirements outlined in WAC 275-19-030(24).

(2) A "qualified alcohol information school instructor" is a person possessing a certificate of completion of the alcohol information school instructor's training course offered or authorized by the bureau of alcohol and substance abuse.

(3) A "qualified alcohol assessment officer" is a person who:

(a) Is employed as a probation officer for a district or municipal court within the state of Washington;

(b) Meets the requirements of a qualified alcoholism counselor as defined in WAC 275-19-030(24), except that the two thousand hours of supervised work may be satisfied by completing an equivalent number of hours of supervised work doing alcohol assessments within a probation department.

AMENDATORY SECTION (Amending Order 1727, filed 12/2/81)

WAC 275-19-170 ALL FACILITIES—RECORDS. (1) All alcoholism treatment facilities shall have an accurate and complete record system ~~(which)~~:

(a) ~~(Provides)~~ Providing for maintenance of a current and complete record for each client.

(b) ~~(Provides)~~ Providing a systematic method of identifying and filing client's records so each record can be located readily.

(c) ~~(Ensures)~~ Ensuring confidentiality of patients' case records by storing and handling ~~(them)~~ the records under conditions ~~(which meet)~~ meeting all pertinent federal, state, and local regulations governing such records.

(d) ~~(Includes)~~ Including all required state and county data.

(e) ~~(Reflect)~~ Reflecting all financial transactions of the facility. The accounting system shall meet all federal, state, and county requirements.

(2) Client file records required in this section shall be retained by the treatment facility for a minimum of five years following the discharge or transfer of the client.

In the event an approved alcoholism treatment facility is closed, clinical records may be forwarded to any other approved alcoholism treatment center with the client's consent. Clinical records still subject to minimum retention requirements, where client consent is not obtained, shall be sealed and labeled as follows: "Records of (insert name of approved alcoholism treatment facility) required to be maintained pursuant to WAC 275-19-170, until a date not later than December 31, (insert year)." Sealed records shall be forwarded to the department, and shall be disclosed only under such circumstances and to such

extent as would be permissible for the program in which they originated. The department shall destroy the records as soon as possible after the date specified on the label.

(3) Residential and outpatient facilities shall have individual case records which include the following:

(a) An intake form ~~(which includes)~~ including the client's full name; sex; birthdate; home address; date of admission; name, address, and telephone number of the client's next of kin or other responsible person; name and city of the client's personal physician, if any.

(b) A record of the evaluation and assessment (diagnostic impression) of the client's involvement with alcohol.

(c) An individualized treatment plan designed to help the person understand his or her alcohol problem ~~(which takes)~~ taking into account all case history and diagnostic information. The plan shall include the specific problems to be addressed, the objectives to be accomplished in treating the problems, and the time-linked means to be used in achieving the objectives.

(d) Progress notes on the client's response to treatment ~~(which relate)~~ relating to the treatment plan and ~~(note)~~ noting all significant events during treatment.

(e) Each entry in a client's record shall be dated and shall be signed by the person making the entry.

(f) The client's signed voluntary consent to treatment.

(g) A properly completed authorization for release of information form, which meets all federal and state requirements, for each disclosure of information.

(h) At completion of treatment, a discharge summary ~~(which includes)~~ including the date of discharge, and a summary of the client's progress in meeting the objectives outlined in the treatment plan.

(i) Medical records in accordance with chapter 248-22 WAC.

(4) Information and referral facilities shall have individual case records ~~(which include)~~ including:

(a) Identifying sociological data including the client's full name, sex, birthdate, and home address.

(b) The date of ~~(contact(s))~~ contact or contacts.

(c) A record of the client's problem statement.

(d) A record of the evaluation and assessment (diagnostic impression).

(e) A record of any referral.

(f) A properly completed authorization for release of information form, which meets all federal and state requirements, for each disclosure of information concerning the client.

(g) Each entry in a client's record shall be dated and signed by the person making the entry.

(5) DWI client assessment service facilities including probation alcohol assessment facilities shall have individual case records including:

(a) Identifying sociological data including the client's full name, sex, birthdate, and home address.

(b) The dates of contacts.

(c) A copy of the completed Washington alcohol screening inventory showing the client's score.

(d) When available, a record of the client's blood alcohol level at the time of arrest on any alcohol-related offense, the client's driving record, and alcoholism treatment history.

(e) The court referring the client for assessment, including the name of the specific court and the presiding judge.

(f) A record of the evaluation and assessment of the client's involvement with alcohol and other drugs as required by WAC 275-19-190.

(g) A record of the referral of the client to an alcoholism or drug abuse treatment center or alcohol information school.

(h) A properly completed authorization for the release of confidential information form, which meets all federal and state requirements, for each disclosure of information.

(i) Copies of any assessment reports sent to the department of licensing, referring court, the client's attorney, or other person or agency.

(j) Copies of all correspondence relating to the client.

(6) Alcohol information schools shall have individual case records (which include) including:

(a) Identifying sociological data including the client's full name, sex, birthdate, and home address.

(b) Dates in attendance.

(c) Source of referral.

(d) (A record of the assessment of the client's involvement with alcohol) Copies of all reports, letters, certificates, and other correspondence sent to attorneys, courts, department of licensing, or any other agency.

- (e) A record of any referral.
- (f) A properly completed authorization for release of information form, which meets all federal and state requirements, for each disclosure of information concerning the client.
- (g) A copy of the completed post-test as written in An Instructor's Guide to Alcohol Information School, published January 1980.
- (h) Each entry in a client's record shall be dated and signed by the person making the entry.
- ~~((67))~~ (7) Emergency service patrols shall maintain a log ~~((which includes))~~ including:
- The time and origin of the call received.
 - The time of arrival at the scene.
 - The location of the pickup.
 - The name and sex of the person transported.
 - The destination of transport (either home or detox facility).
 - The time of transport completion.
 - In nonpickup cases, notation shall be made of the reason why said pickup was not made.
 - Each entry in the log shall be dated and signed by the person making the entry.

NEW SECTION

WAC 275-19-185 ASSESSMENT PROCEDURES. (1) The procedures for assessing client's involvement with alcohol shall include as a minimum the following:

- A diagnostic interview with each client which gathers as a minimum:
 - A history of the client's involvement with alcohol and drugs, including frequency of use, volume, and type of substance used.
 - The client's statement concerning his or her current physical condition.
 - Sociological data describing the client's most recent living situation and activities (e.g., family, environment, employment, school, and other activities).
- When available, the client's blood alcohol level at the time of arrest on any alcohol-related offense, previous criminal record, driving record, and alcoholism treatment history.
- A written test of each client, using as a minimum, the Washington alcohol screening inventory.
- A written assessment, based upon the information collected per WAC 275-19-185(1), shall be completed. It shall include as a minimum the following:
 - The client's raw score and percentile score from the Washington alcohol screening inventory.
 - The client's own assessment of his or her involvement with alcohol or other drugs.
 - The qualified alcoholism counselor's or the qualified alcoholism assessment officer's evaluation of the information required by WAC 275-19-185(2)(a) and (b), a diagnostic statement specifically describing the client's involvement with alcohol or other drugs, and the signs and symptoms leading to that assessment.

(3) If the assessment concludes the person has an alcohol or drug problem requiring treatment, the person shall be referred to an appropriate approved alcoholism treatment facility or approved drug treatment center. If the assessment concludes the person requires only alcohol education, the person shall be referred to an approved alcohol information school.

(4) All reports required by the courts and the department of licensing shall be properly completed and shall be submitted in a timely manner.

AMENDATORY SECTION (Amending Order 1727, filed 12/2/81)

WAC 275-19-610 ALCOHOLISM OUTPATIENT TREATMENT—REQUIRED SERVICES. There shall be an organized program and staff sufficient to provide the following services:

- Assessment of each client's needs regarding specific alcohol-related problems as perceived by the client, center staff, and involved others.
- Immediate evaluation for persons in a crisis.
- Individual, group counseling, and educational services on a scheduled basis ~~((which are))~~ conducted by a qualified alcoholism counselor or other treatment staff person under the direct supervision of a qualified alcoholism counselor.
- Referral of clients for ancillary services as necessary and follow-up efforts to ensure the efficacy of such referrals.

(5) A client follow-up program for those completing treatment that maintains periodic supportive and evaluative contact for a period of one year following discharge.

~~((66) Facilities which provide intensive outpatient program services as defined in WAC 275-19-030 shall meet the standards for intensive outpatient programs published by the office on alcoholism.))~~

NEW SECTION

WAC 275-19-630 ALCOHOLISM OUTPATIENT—INTENSIVE OUTPATIENT TREATMENT. To be approved for intensive outpatient treatment services as defined in WAC 275-19-030, the treatment program shall meet the following additional requirements.

(1) Screening criteria shall be developed and applied including such diagnostic techniques as needed to assure the appropriateness of placement in this treatment modality. The diagnosis shall, at a minimum, include an assessment of the clients:

- Progression in the disease of alcoholism and other chemical dependency.
- Motivation for recovery and the ability to attain and maintain abstinence on an outpatient basis.
- Social support systems, including family or significant others, financial condition, and employment status.
- Physical health and general mental status.
- Program Requirements. The following services shall be provided to clients and their families:

(a) The program shall deliver a minimum of seventy-two hours of treatment services within a maximum of twelve weeks. During the course of the program, three sessions of at least one hour each must be conducted on three separate days of each week.

(b) A review of each active case by the client's case manager not less than once in every twenty hours of treatment. This review shall be noted in the client's case file.

(c) Individual counseling sessions with each client every twenty hours of treatment and additionally as needed.

(d) Education of clients regarding alcohol and alcoholism. No more than twenty percent of treatment time shall be taken up by film presentations.

(e) Group therapy sessions. Sessions shall be limited in attendance to no more than twelve clients per counselor.

(f) Whenever possible, the client's family or other social support system shall be substantially involved in the treatment program.

(g) Upon completion of intensive outpatient treatment, the client shall be referred to a structured after care program.

(h) All clients and their families shall be encouraged to participate in Alcoholics Anonymous, Alanon, and Alateen.

AMENDATORY SECTION (Amending Order 1486, filed 2/1/80)

WAC 275-19-700 INFORMATION AND REFERRAL SERVICES—PURPOSE. The purpose of WAC 275-19-700 through ~~((275-19-799))~~ 275-19-749 is to provide specific program standards and objectives for approval of facilities providing alcoholism information and referral services as described in WAC 275-19-020. To be approved as an alcoholism treatment facility to provide alcoholism information and referral services, the facility must comply with the requirements of WAC 275-19-010 through 275-19-199, the rules and regulations in this section, and chapter 70.96A RCW.

NEW SECTION

WAC 275-19-750 DWI CLIENT ASSESSMENT SERVICES—PURPOSE. The purpose of WAC 275-19-750 through WAC 275-19-799 is to provide specific program standards for approval of facilities providing DWI client assessment services as described in WAC 275-19-020. To be approved as an alcoholism treatment facility to provide DWI client assessment services, the facility must comply with the requirements of WAC 275-19-010 through 275-19-199, the rules and regulations in this section, and chapter 70.96A RCW.

NEW SECTION

WAC 275-19-760 DWI CLIENT ASSESSMENT SERVICES—CLIENTS. Admission of clients to an alcoholism treatment facility providing DWI client assessment services shall be limited to persons who have been arrested for a violation of driving while under the influence of intoxicating liquor or drugs (RCW 46.61.502), and actual physical control of a motor vehicle while under the influence of

intoxicating liquor or drugs (RCW 46.61.504), or petitioning for a deferred prosecution (chapter 10.05 RCW) for those offenses.

NEW SECTION

WAC 275-19-770 DWI CLIENT ASSESSMENT SERVICES—REQUIRED SERVICES. The following direct services shall be provided to clients by qualified alcoholism counselors or qualified alcohol assessment officers as defined in WAC 275-19-145:

- (1) Assess the client's involvement with alcohol and other drugs using, as a minimum, a diagnostic interview and the Washington alcohol screening inventory as described in WAC 275-19-185.
- (2) Provide a written report of the diagnostic evaluation and a recommended education or treatment program to the court of jurisdiction and forward a copy of the report to the department of licensing.
- (3) Provide the client with appropriate referral information.

AMENDATORY SECTION (Amending Order 1486, filed 2/1/80)

WAC 275-19-810 ALCOHOL INFORMATION SCHOOL—~~((STUDENT ASSESSMENT))~~ SCHOOL REQUIREMENTS. ~~((+))~~ There shall be an assessment of each enrolled student's involvement with alcohol by a qualified alcoholism counselor, prior to the classroom instruction.

~~(2) The alcohol assessment of students shall be by an individual interview or group diagnostic screening mechanism that meets the guidelines published by the office on alcoholism.~~

~~(3) Students showing signs of alcohol abuse and/or alcoholism shall be scheduled for an individual interview with a qualified alcoholism counselor for attempts to refer to specific treatment resources.))~~

(1) The course shall be taught by a qualified alcohol information school instructor as defined in WAC 275-19-145. This requirement shall become effective July 1, 1984.

(2) Prior to beginning the first lesson, the instructor shall:

(a) Advise the students the course:

(i) Does not assume they are all alcoholics.

(ii) Is not a therapy session.

(b) Clearly identify and share the class rules with the students.

(c) Share the course objectives with the students.

(3) Seating shall be flexible and comfortably arranged.

(4) Rooms shall be well-lit and well-ventilated.

(5) All reports required by the courts and the department of licensing shall be properly completed and shall be submitted in a timely manner.

AMENDATORY SECTION (Amending Order 1486, filed 2/1/80)

WAC 275-19-820 ALCOHOL INFORMATION SCHOOL—CURRICULUM. (1) The ~~((alcohol information school shall provide a school curriculum which meets the guidelines published by the office on alcoholism))~~ course must be taught following the content and objectives outlined in An Instructor's Guide to Alcohol Information School, published January 1980.

(2) The alcohol information school curriculum shall include the following:

(a) Adequate information regarding alcohol, alcohol abuse, and alcoholism.

(b) Information on the current laws addressing drinking alcoholic beverages and driving a motor vehicle.

(c) Information on the effect of the use of alcohol on driving ability.

(d) Information regarding the availability of alcoholism treatment resources, for the primary alcoholic and ~~((his/her))~~ his or her family.

(e) Information on the dangers of the use of alcohol in combination with other drugs.

(f) Information on the impact of alcohol abuse and alcoholism on the family.

(3) The curriculum shall consist of not less than eight nor more than twelve hours of classroom instruction.

(4) Not more than three hours of instruction shall be conducted in any one day.

~~((A test or tests))~~ The post-test as written in An Instructor's Guide to Alcohol Information School, published January 1980, shall be administered to each enrolled student ((which will reveal the degree of subject retention and assist in evaluating the efficiency and effectiveness of the curriculum)).

AMENDATORY SECTION (Amending Order 1486, filed 2/1/80)

WAC 275-19-830 ALCOHOL INFORMATION SCHOOL—FEES. ~~((Student fees))~~ All students shall be ((limited to not more than two hundred fifty dollars for the classroom instruction and assessment. These fees shall be in accordance with guidelines established by the office on alcoholism)) advised of the designated fees at the time of enrollment for the school.

WSR 83-18-035

EMERGENCY RULES

DEPARTMENT OF FISHERIES

[Order 83-112—Filed August 31, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 4B, 5, 6, 6A, 6C, 7 and 7A provide protection for Canadian and Puget Sound chinook during sockeye and pink fisheries under the direction of IPSFC. Openings in Areas 7B, 8A, 12, and 12B provide opportunity to harvest non-Indian chinook allocations. All other areas are closed to prevent overharvest. Troll landing restrictions provide protection for chinook and coho stocks.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 31, 1983.

By William R. Wilkerson

Director

NEW SECTION

WAC 220-47-808 PUGET SOUND ALL-CITIZEN COMMERCIAL SALMON FISHERY. *Notwithstanding the provisions of Chapter 220-47 WAC, effective immediately until further notice, it is unlawful to take, fish for, or possess salmon for commercial purposes in the following Puget Sound Salmon Management and Catch Reporting Areas except in accordance with the following restrictions:*

All areas - It is unlawful to land troll caught salmon.

Area 4B, 5, 6, 6A, 6C, 7 and 7A - Under control of International Pacific Salmon Fisheries Commission and U.S. Department of Commerce. Gill net gear is restricted to 5-7/8-inch maximum mesh, when open.

Area 7D – Under control of International Pacific Salmon Fisheries Commission and U.S. Department of Commerce.

**Area 7B – Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly August 31 through the morning of September 2. That portion south and east of a line from William Point on Samish Island to Saddlebag Island to the southeast tip of Guemes Island is closed as provided in WAC 220-47-307.*

**Area 8A – Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly August 31 through the morning of September 2. The Port Gardner Preserve and the waters of Port Susan are closed as provided in WAC 220-47-307.*

**Areas 12 and 12B – Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly August 31 through the morning of September 2. That portion of Area 12 near the mouth of Big Beef Creek is closed as provided in WAC 220-47-307.*

Areas 6B, 6D, 7C, 8, 9, 9A, 10, 10A, 10B, 10C, 10D, 10E, 11, 11A, 12A, 12C, 12D, 13, 13A, 13B, and all freshwater areas – Closed.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-47-807 PUGET SOUND COMMERCIAL FISHERY RESTRICTIONS (83-104)

**WSR 83-18-036
EMERGENCY RULES
UTILITIES AND TRANSPORTATION
COMMISSION**

[Order R-206, Cause No. U-83-38—Filed August 31, 1983]

In the matter of adopting chapter 480-125 WAC relating to telephone company access charges.

The Washington Utilities and Transportation Commission finds that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to the public interest. A statement of the facts constituting such emergency is the existing division of revenues process among telephone companies which is responsible, among other things, for local telephone rate levels, will dissolve by federal court order January 1, 1984. A restructuring of tariffs must occur because of this. Guidance must be given to telephone companies and others so that the review of this restructuring may be done by us and our staff. We have previously published proposed rules in this cause, but may determine to amend them in ways which do not substantially affect them. Some

commenters have indicated their view that certain proposed changes are substantial and require republication. The delay for republication would preclude our timely guidance for rate filings due October 1, which would jeopardize our chance of completing a timely review to fulfill our duty to determine just and reasonable rates.

This rule amendment is being promulgated pursuant to RCW 80.01.040 and 80.36.160.

This rule-making proceeding is in compliance with the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), the State Register Act (chapter 34.08 RCW), the State Environmental Policy Act of 1971 (chapter 43.21C RCW) and the Regulatory Fairness Act (chapter 19.85 RCW).

This adoption may affect economic values of individual consumers or providers of telephone service, but will not affect the aggregate economic value of the service provided and the compensation paid for that service.

In reviewing the entire record herein, it has been determined that chapter 480-125 WAC should be adopted, to read as set forth in Appendix A shown below and made a part hereof by this reference. Chapter 480-125 WAC as adopted, will create a system of access charges for intrastate telecommunications.

ORDER

WHEREFORE, IT IS ORDERED That chapter 480-125 WAC as set forth in Appendix A, be adopted, as emergency rules of the Washington Utilities and Transportation Commission to take effect pursuant to RCW 34.04.030 and 34.04.040(2).

IT IS FURTHER ORDERED That the order and the annexed rules, after being first recorded in the order register of the Washington Utilities and Transportation Commission, shall be forwarded to the code reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

DATED at Olympia, Washington, this 31st day of August, 1983.

Washington Utilities and Transportation Commission
Robert W. Bratton, Chairman
Mary D. Hall, Commissioner
A. J. "Bud" Pardini, Commissioner

NEW SECTION

WAC 480-125-005 DEFINITIONS. For purposes of this chapter, the following definitions shall apply.

a. Access charge – Charge to a customer or a long distance carrier from a local telephone company for service of making available the local network to send or receive long distance telephone calls. There are three types of access charges.

i. Customer Access Line Charge (CALC) – monthly charge to each user of the local network which will be increased through the transition period to move toward recovering each user's share of the nontraffic sensitive costs of the local network.

ii. Carrier's Carrier Access Charge (CCAC) – Charge per minute of originating and terminating long distance service for carrier access to local telephone company nontraffic sensitive switching and distribution facilities.

iii. Traffic Sensitive Access Charge – charge paid by long distance carriers for use of portions of the investment of exchange companies other than nontraffic sensitive plant. These charges will contain elements for operator assistance, billing and collecting, traffic sensitive switching service, and local transport of long distance calls.

b. Local network – wires and associated equipment from customers' locations to central switching offices, and associated switching and other equipment within the local telephone company exchange area.

c. Nontraffic sensitive plant – property of the local telephone company which is a part of the local network and which is dedicated to the use of specific customers.

d. Exchange company, local telephone company, or company – Company which operates the local switching and distribution network and transports local calls from sender to receiver.

e. Long distance carrier – Company which operates facilities for transmission of telephonic communications between local distribution and switching systems; some exchange companies are also long distance carriers for traffic which moves between points located within a single LATA.

f. End user – subscriber to dial tone.

g. LATA – local access and transport area as defined and approved in U.S. v. AT&T order approving Plan of Reorganization.

NEW SECTION

WAC 480-125-010 STATEMENT OF POLICY.

(1) In this state, local exchange and long distance telephone service has historically been provided by telephone companies operating within exclusive assigned geographical territories. These companies have been regulated under statute with respect to a number of things, including the services they offer, and the rates they charge. In each assigned geographic territory there is a single company which provides local distribution and switching service to all users of telephone service. Users

of this local service also gain access to the facilities of that local company to send and receive local and long distance calls.

(2) Long distance service has been provided by the companies under a system in which toll revenues are pooled and expenses as well as taxes, net investment, and a return on that investment, are used to determine the allocation of revenues from the settlement pool to individual companies. In general, the Federal Communications Commission (FCC) has jurisdiction to regulate interstate long distance services and the WUTC has jurisdiction to regulate intrastate long distance and local exchange services. A regulatory objective has been to maintain a close relationship between the rates charged for intrastate and interstate long distance calls. However, the rates charged for toll calls have not always been based on the cost of providing the calls.

(3) The telephone plant which comprises the subscriber loop, including central office termination and inside wiring is used to provide both toll and local exchange service. The costs of this plant may not be sensitive to the number of toll or local calls. Historically, some of the costs associated with this telephone plant and equipment that is used to provide both toll and local exchange service have been assigned to toll, and have been recovered through toll rates.

(4) The underlying general purposes of this process have been to promote universal service throughout the state and nation, and to enhance the network for the benefit of all users of the network. This network was established in a regulated monopoly environment in which the telephone companies had the responsibility to provide both local and long distance service, although these companies were free of competition. However, rates were set by federal and state regulators. Achievement of nearly universal service was possible because duplication of systems was prevented and pricing based on value of service was permitted.

(5) Within the past several years, federal law and policy have fostered the development of competition in the telecommunications industry. Numerous companies now provide long distance services which compete with long distance services provided by local telephone companies. These new long distance carriers currently have no public service responsibility to provide local exchange service. These carriers complete long distance calls by gaining access to the local distribution and switching network of local telephone companies. The rates these carriers pay for that access do not include the same level of revenue support of the local exchange network as exists in toll rates charged by the local exchange companies. Because of this, these new long distance carriers are generally able to charge long distance rates which are less than those charged by the regulated telephone companies. The rates for long distance service presently charged by these new long distance carriers are especially attractive to high volume users.

(6) The emergence of competition in long distance service and the related disparity in rates between the new long distance carriers and the regulated telephone companies have created an incentive for toll users to bypass the existing toll network. That, in turn, reduces the

revenue support for the existing integrated national toll network, as well as the local network. The construction of alternative networks which is prompted by pricing disparities rather than cost differences is economically inefficient and should not be encouraged. The construction of alternative networks which is prompted by cost differences is economically efficient and should not be discouraged.

(7) In addition, the legal requirement that rates be nondiscriminatory means that all providers of long distance services that use the local switching and distribution facilities of the local telephone company for access to the local network must pay equal rates for access. The rates should be fully compensatory. This is consistent with the requirements of the Modified Final Judgment entered in the Bell System divestiture proceedings, which provides that access to the local switching and distribution system be equal for all long distance carriers, both in terms of quality and price.

(8) In response to technology and changes in the telecommunications industry mandated by the FCC and the courts, the FCC has recognized these principles of equal access at nondiscriminatory and compensatory rates and has adopted a policy that the revenue support for the local exchange network that has traditionally been derived from interstate toll revenue be derived instead from users of the local exchange network through the utilization of a gradually phased plan of access charges and that equal access to the local distribution and switching network at nondiscriminatory, compensatory rates is necessary.

(9) The same principles of equal access and nondiscriminatory and compensatory rates and concerns about the efficiency of the network lead the commission to find that a policy which protects the efficiency of the intrastate toll network by beginning to shift the revenue support of the local exchange network from toll revenues to the users of the local exchange network through the utilization of a gradually phased plan of access charges, and which provides access to the local exchange network at nondiscriminatory, compensatory rates, is in the public interest.

(10) To accomplish these policy objectives, commission use of a combination of mechanisms consistent with but not necessarily identical to those applied by the FCC at the interstate level is fair and reasonable, and will be efficient for the commission and companies to administer.

NEW SECTION

WAC 480-125-020 IMPLEMENTATION PROCEDURE. To implement these policy objectives, effective January 1, 1984, the following steps need to be taken:

(1) Convert from a system in which local exchange and toll rates for services do not uniformly reflect the cost of providing those services to a system where customers and carriers pay for costs caused by their access to, and use of, the local distribution and switching network to send and receive calls. The charges for these costs are called access charges.

(2) Shift the charges for that portion of the local network which is dedicated to end users, the costs of which are referred to as "nontraffic sensitive costs," because they do not vary with usage, to the end user over a six-year transition period using procedures consistent with but not necessarily identical to those established by the FCC. During that transition a declining portion of those costs will be borne by long distance carriers through payment of an access charge (the "carrier's carrier" access charge) based on minutes of use. An increasing portion will be borne by the end users through a monthly charge (the "customer access line charge," or CALC).

(3) A system of traffic sensitive access charges to be imposed on long distance carriers will be implemented by tariff to become effective January 1, 1984 to recover the local exchange companies' traffic sensitive costs, those which do vary with usage, incurred in sending and receiving the carriers' traffic over the local switching and distribution network. Intrastate traffic sensitive access charges should be identical to the comparable interstate charges. Traffic sensitive charges should be billed and collected by each company, not subject to the pooling requirements of WAC 480-125-080.

NEW SECTION

WAC 480-125-030 FILING OF CARRIER'S CARRIER ACCESS CHARGE RATES AND TRAFFIC SENSITIVE ACCESS CHARGE RATES. For technological and economic reasons, companies are currently unable to distinguish between intrastate and interstate calls. For this reason, it is not practical for the commission to adopt a policy and structure for intrastate carrier's carrier access charges and traffic sensitive access charges to be paid by long distance carriers which is different from the policy and structure which has been adopted for the corresponding interstate charges. If charges for intrastate access to be billed to long distance carriers are different from those for interstate access, the long distance carriers would have an incentive to obtain the lower of two rates by incorrectly identifying the origin of the call. This would impose a greater burden on local exchange customers as their rates are increased to cover lost revenues. To avoid that, therefore, intrastate and interstate carrier's carrier access charges and traffic sensitive access charges should be identical for access to the same facilities of a local telephone company. Each company, or an association acting on behalf of participating companies, shall file intrastate carrier's carrier access charge rates and traffic sensitive access charge rates identical to corresponding interstate rates as ordered by the FCC.

NEW SECTION

WAC 480-125-040 CUSTOMER ACCESS LINE CHARGE. Implementation of the policy described in WAC 480-125-010(9) by the commission requires that nontraffic sensitive costs for intrastate access be recovered from the end user through a customer access line charge (CALC). This will require the filing and approval of appropriate tariffs. Initially the tariffs will only have to recover that portion of the costs (as determined in

WAC 480-125-060) not recovered from carrier's carrier access charges and pooling arrangements. As the carrier's carrier access charges are phased down over a six-year period, using procedures consistent with those established by the FCC, the CALCs and the tariffs will have to be adjusted to reflect the shift of charges for nontraffic sensitive costs from the carriers to the end users.

NEW SECTION

WAC 480-125-050 **NECESSITY FOR FILING OF CUSTOMER ACCESS LINE CHARGE TARIFFS.** Because there is insufficient time to process general rate cases for the companies prior to the January 1, 1984 implementation date, and because the CALC tariffs will deal with prospective revenue requirements, the commission finds it is necessary to adopt a special procedure to authorize the companies to file CALC tariffs. The CALC tariffs must be filed by October of each year to be effective January 1 of the following year.

NEW SECTION

WAC 480-125-060 **CALCULATION OF CUSTOMER ACCESS LINE CHARGES.** The CALC will be calculated for each company by:

(1) Determining its 1984 intrastate toll revenue requirement, including traffic sensitive and non traffic sensitive costs, based on Pacific Northwest Bell's then currently authorized overall rate of return. Each subsequent year's CALC will be determined in a similar manner.

(2) Adjusting the proposed revenue requirement to reflect the transfer of toll plant and toll business to other entities.

(3) Subtracting from that revenue requirement the revenues which are to be derived from toll revenues, the carrier's carrier access charge pool described in WAC 480-125-080, and traffic sensitive access charges according to the distribution procedure applicable to each year, had those charges and that procedure been in effect in the annual period from which the revenue requirement data is obtained.

(4) The resulting number is the proposed CALC revenue requirement for each company. To obtain the monthly CALC rate for each access line, divide the total CALC revenue requirement by estimated average number of access lines in service for the year and then divide that number by twelve. The resulting number is the proposed monthly CALC tariff rate per access line for the year. The party line CALC shall be determined in accordance with guidelines issued by the FCC.

NEW SECTION

WAC 480-125-070 **FILING PROCEDURE.** (1) At the time each proposed CALC tariff is filed, each company shall file data to support the CALC calculations in a format approved by the commission. In addition, information and data necessary for commission review of total intrastate revenue requirements should be filed. At a minimum, data from the most recent available historic test year should be used.

(2) Prior to the effective date of the tariffs, the commission shall either enter an order approving the CALC to be collected or it may suspend the operation of those tariffs pursuant to RCW 80.04.130. Prior to the approval of a CALC filing, the company shall certify that its customers have been notified. If suspension is ordered, the commission may order that a temporary CALC be collected pending conclusion of the hearing. This temporary CALC will be subject to refund.

(3) In any event, each company which has an approved CALC or temporary CALC in effect, shall file with the commission within thirty days of the end of the reporting period, its monthly or quarterly results of operations, and additional supporting data, as the commission may require.

NEW SECTION

WAC 480-125-080 **POOLING OF ACCESS CHARGE REVENUES.** During the period in which carrier's carrier access charges, and a premium access charge, if any, are imposed, the revenues from all such charges shall be collected, pooled, and distributed in accordance with contractual arrangements among the local telephone companies, and the other provisions of this rule. The administrator of the pool will be Pacific Northwest Bell. Such contractual arrangements shall be submitted to the commission for review and approval. The administrator will be entitled to recover its reasonable administrative expenses from the pooled revenues. Those expenses are subject to commission review and approval.

NEW SECTION

WAC 480-125-090 **TRANSITION AND WIDELY AVAILABLE AFFORDABLE TELEPHONE SERVICE.** (1) **Monitoring.** The commission has continuously followed policies that support widely available, affordable telephone service for the citizens of the state of Washington. It reaffirms that position at this time. Being cognizant of the possible impact on certain groups of subscribers of the transition to the policies adopted in this rule, it is the intent of the commission to continually monitor this transition and take whatever action is necessary to insure the continual availability of widely available affordable telephone service in this state including seeking advice from consumers from time to time.

(2) **Procedures.** The commission finds that a cap procedure for individual company CALCs is an appropriate transition mechanism for 1984 and 1985, and that a waiver of the intrastate CALC for specific categories of customers will assist in maintaining widely available, affordable telephone service. Therefore, the following procedures are established:

a. Place a cap on individual company CALCs in 1984 in the amount of \$2.00 and in 1985 in an amount to be determined by the commission.

b. A waiver of the intrastate CALC for specific categories of customers of each company may be approved by the commission.

(3) *Funding.* The funding necessary to implement the above procedures will be determined by the commission. While not imposing limitations on the commission, to the extent practical such funding should be consistent with methods used by the FCC. In the absence of more appropriate funding sources, revenues which are in the NTS pool will be made available. In 1984 and 1985 the total shall not exceed .5¢ per minute, multiplied by the total number of minutes of use used in funding the NTS pool. For 1986 and following years, the maximum amount of all NTS pool funds available for this purpose will not exceed the cents per minute amount prescribed by the FCC for funding the interstate USF, multiplied by the total number of minutes of use used in funding the NTS pool in those years.

**ADOPTED RULES
DEPARTMENT OF
LABOR AND INDUSTRIES
[Order 83-28—Filed September 1, 1983]**

I, Sam Kinville, director of the Department of Labor and Industries, do promulgate and adopt at the General Administration Building, Olympia, Washington 98504, the annexed rules relating to new rule to protect the department's interests and the interests of those parties who are beneficiaries of its orders, by representation in cases where those orders are appealed to the Board of Industrial Insurance Appeals, WAC 296-15-250. As a result of testimony received at the August 25, 1983, hearing on WAC 296-15-250, representation in self-insured appeals, the department has amended the proposed rule. This rule is being implemented on October 1, 1983. For the remainder of calendar year 1983, the self-insured appeals costs generated as a result of the rule will be paid from the administrative assessment. In response to testimony received from the Washington Self-Insurance Association and other interested parties, effective January 1, 1984, a direct employer billing process will be adopted for self-insured appeals costs.

This action is taken pursuant to Notice No. WSR 83-15-050 filed with the code reviser on July 20, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 51.14.020(1) which directs that the Department of Labor and Industries has authority to implement the provisions of Title 51 RCW, Industrial Insurance Law.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 1, 1983.

By Sam Kinville
Director

WAC 296-15-250 The Department has determined that in order to protect its interests and the interests of those parties who are beneficiaries of its orders, the Department shall be represented in cases where those orders are appealed to the Board of Industrial Insurance Appeals.

Pursuant to the authority granted by RCW 51.52.100, the Department shall, through the Office of the Attorney General, appear in proceedings before the Board of Industrial Insurance Appeals to defend any of the Department orders appealed to the Board of Industrial Insurance Appeals by a self-insured employer. Further, the Department may elect to appear and defend the Department orders appealed by claimants or their beneficiaries when such action is deemed necessary to protect the Department's interests.

This rule will apply to appeals filed with the Board of Industrial Insurance Appeals on or after the effective date of this rule.

WSR 83-18-039

**EMERGENCY RULES
DEPARTMENT OF GAME
(Game Commission)**

[Order 210—Filed September 1, 1983]

Be it resolved by the State Game Commission, acting at the Thunderbird Inn at the Quay, Foot of Columbia Street, Vancouver, Washington 98660, that it does adopt the annexed rules relating to Mt. St. Helens' area hunting, fishing, and trapping closure, repealing WAC 232-28-60420.

We, the Washington State Game Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the governor has declared Volcanic Hazard Zone I as a restricted zone. WAC 232-28-60420 closes both Volcanic Hazard Zones I and 1A to hunting, fishing, and trapping.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 77.12.040 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State

Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 22, 1983.

By Vern E. Ziegler
Chairman, Game Commission

REPEALER

The following section of the Washington Administrative Code is hereby repealed:

WAC 232-28-60420 Mt. St. Helens' Area Hunting, Fishing, and Trapping Closure

NEW SECTION

WAC 232-16-630 ROCKY FORD SPRINGS GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: T21N, R27E, West 1/2 Section 16. 320 acres.

NEW SECTION

WAC 232-16-640 WINCHESTER WASTEWAY GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: T18N, R25E, Section 12, T18N, R26E and South 1/2 Section 7. 960 acres.

NEW SECTION

WAC 232-16-650 HARRIS LAKE GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: T18N, R27E, Section 31 and T18N, R26E, East 1/2 Section 36. 960 acres.

NEW SECTION

WAC 232-16-660 FRENCHMEN HILLS WASTEWAY GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: T17N, R27E, North 1/2 of North 1/2 of South 1/2 of Section 17. 640 acres.

NEW SECTION

WAC 232-16-670 LOWER CRAB CREEK GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: T16N, R25E; that part of SE 1/4 Section 30 east of Midway Coulee Transmission line and south of wooden pole powerline; SW 1/4 of Section 29; that part of Section 31 east of Midway Coulee Transmission line and north of Smyrna-Beverly Road; and that part of NW 1/4 Section 32 north of Smyrna-Beverly Road. 480 acres.

NEW SECTION

WAC 232-16-680 LENICE LAKE GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: T16N, R24E; that part of SW 1/4 Section 28 south of wooden pole powerline; that part of NE 1/4 Section 32 north of Smyrna-Beverly Road, and that part of NW 1/4 Section 33 north of Smyrna-Beverly Road; that part of SE 1/4 Section 29 south of wooden pole powerline. 640 acres.

NEW SECTION

WAC 232-16-690 BAYVIEW GAME RESERVE. It shall be unlawful to hunt wild animals and wild birds within the following described boundary: beginning at a point on the Bayview-Edison Road 750 feet south of the intersection of the Bayview Cemetery Entrance road; thence 4,000 feet WNW (west-northwest); thence 5,750 feet NNW (north-northwest); thence 3,750 feet ENE (east-northeast) to the northwest corner of Padilla Bay Tract No. 532; thence east to the northeast corner of Padilla Bay Tract No. 532; thence SSE (south-south-east) to the Bayview-Edison Road; thence southerly along said road to the point of beginning.

WSR 83-18-044**PROPOSED RULES****UTILITIES AND TRANSPORTATION
COMMISSION**

[Filed September 1, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington Utilities and Transportation Commission intends to adopt, amend, or repeal rules relating to telephone company access charges, chapter 480-125 WAC. Rules were adopted on an emergency basis in Cause No. U-83-38 by General Order No. R-206, dated and filed with the code reviser on August 31, 1983. The rule as adopted on an emergency basis is set forth below for comment. Written and/or oral submissions may also contain data, views, and arguments concerning the effect of the proposed chapter on economic values, pursuant to chapter 43.21H RCW and WAC 480-08-050(17);

that the agency will at 8:00 a.m., Wednesday, October 26, 1983, in the Commission's Conference Room, Seventh Floor, Highways-Licenses Building, Olympia, Washington, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 80.01.040.

The specific statute these rules are intended to implement is RCW 80.36.160.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 21, 1983.

This notice is connected to and continues the matter in Notice Nos. WSR 83-14-023 and 83-17-039 filed with the code reviser's office on June 29, 1983, and August 11, 1983.

Dated: September 1, 1983

480-125-070 Filing procedure.
480-125-080 Pooling of access charge revenues.
480-125-090 Transition and widely available affordable telephone service.

NEW SECTION

WAC 480-125-005 DEFINITIONS. For purposes of this chapter, the following definitions shall apply.

a. Access charge - Charge to a customer or a long distance carrier from a local telephone company for service of making available the local network to send or receive long distance telephone calls. There are three types of access charges.

i. Customer Access Line Charge (CALC) - monthly charge to each user of the local network which will be increased through the transition period to move toward recovering each user's share of the nontraffic sensitive costs of the local network.

ii. Carrier's Carrier Access Charge (CCAC) - Charge per minute of originating and terminating long distance service for carrier access to local telephone company nontraffic sensitive switching and distribution facilities.

iii. Traffic Sensitive Access Charge - charge paid by long distance carriers for use of portions of the investment of exchange companies other than nontraffic sensitive plant. These charges will contain elements for operator assistance, billing and collecting, traffic sensitive switching service, and local transport of long distance calls.

b. Local network - wires and associated equipment from customers' locations to central switching offices, and associated switching and other equipment within the local telephone company exchange area.

c. Nontraffic sensitive plant - property of the local telephone company which is a part of the local network and which is dedicated to the use of specific customers.

d. Exchange company, local telephone company, or company - Company which operates the local switching and distribution network and transports local calls from sender to receiver.

e. Long distance carrier - Company which operates facilities for transmission of telephonic communications between local distribution and switching systems; some exchange companies are also long distance carriers for traffic which moves between points located within a single LATA.

f. End user - subscriber to dial tone.

g. LATA - local access and transport area as defined and approved in U.S. v. AT&T order approving Plan of Reorganization.

NEW SECTION

WAC 480-125-010 STATEMENT OF POLICY. (1) In this state, local exchange and long distance telephone service has historically been provided by telephone companies operating within exclusive assigned geographical territories. These companies have been regulated under statute with respect to a number of things, including the services they offer, and the rates they charge. In each assigned geographic territory there is a single company which provides local distribution and switching service to all users of telephone service. Users of this local service also gain access to the facilities of that local company to send and receive local and long distance calls.

(2) Long distance service has been provided by the companies under a system in which toll revenues are pooled and expenses as well as taxes, net investment, and a return on that investment, are used to determine the allocation of revenues from the settlement pool to individual companies. In general, the Federal Communications Commission (FCC) has jurisdiction to regulate interstate long distance services and the WUTC has jurisdiction to regulate intrastate long distance and local exchange services. A regulatory objective has been to maintain a close relationship between the rates charged for intrastate and interstate long distance calls. However, the rates charged for toll calls have not always been based on the cost of providing the calls.

(3) The telephone plant which comprises the subscriber loop, including central office termination and inside wiring is used to provide both toll and local exchange service. The costs of this plant may not be sensitive to the number of toll or local calls. Historically, some of the costs associated with this telephone plant and equipment that is used to

provide both toll and local exchange service have been assigned to toll, and have been recovered through toll rates.

(4) The underlying general purposes of this process have been to promote universal service throughout the state and nation, and to enhance the network for the benefit of all users of the network. This network was established in a regulated monopoly environment in which the telephone companies had the responsibility to provide both local and long distance service, although these companies were free of competition. However, rates were set by federal and state regulators. Achievement of nearly universal service was possible because duplication of systems was prevented and pricing based on value of service was permitted.

(5) Within the past several years, federal law and policy have fostered the development of competition in the telecommunications industry. Numerous companies now provide long distance services which compete with long distance services provided by local telephone companies. These new long distance carriers currently have no public service responsibility to provide local exchange service. These carriers complete long distance calls by gaining access to the local distribution and switching network of local telephone companies. The rates these carriers pay for that access do not include the same level of revenue support of the local exchange network as exists in toll rates charged by the local exchange companies. Because of this, these new long distance carriers are generally able to charge long distance rates which are less than those charged by the regulated telephone companies. The rates for long distance service presently charged by these new long distance carriers are especially attractive to high volume users.

(6) The emergence of competition in long distance service and the related disparity in rates between the new long distance carriers and the regulated telephone companies have created an incentive for toll users to bypass the existing toll network. That, in turn, reduces the revenue support for the existing integrated national toll network, as well as the local network. The construction of alternative networks which is prompted by pricing disparities rather than cost differences is economically inefficient and should not be encouraged. The construction of alternative networks which is prompted by cost differences is economically efficient and should not be discouraged.

(7) In addition, the legal requirement that rates be nondiscriminatory means that all providers of long distance services that use the local switching and distribution facilities of the local telephone company for access to the local network must pay equal rates for access. The rates should be fully compensatory. This is consistent with the requirements of the Modified Final Judgment entered in the Bell System divestiture proceedings, which provides that access to the local switching and distribution system be equal for all long distance carriers, both in terms of quality and price.

(8) In response to technology and changes in the telecommunications industry mandated by the FCC and the courts, the FCC has recognized these principles of equal access at nondiscriminatory and compensatory rates and has adopted a policy that the revenue support for the local exchange network that has traditionally been derived from interstate toll revenue be derived instead from users of the local exchange network through the utilization of a gradually phased plan of access charges and that equal access to the local distribution and switching network at nondiscriminatory, compensatory rates is necessary.

(9) The same principles of equal access and nondiscriminatory and compensatory rates and concerns about the efficiency of the network lead the commission to find that a policy which protects the efficiency of the intrastate toll network by beginning to shift the revenue support of the local exchange network from toll revenues to the users of the local exchange network through the utilization of a gradually phased plan of access charges, and which provides access to the local exchange network at nondiscriminatory, compensatory rates, is in the public interest.

(10) To accomplish these policy objectives, commission use of a combination of mechanisms consistent with but not necessarily identical to those applied by the FCC at the interstate level is fair and reasonable, and will be efficient for the commission and companies to administer.

NEW SECTION

WAC 480-125-020 IMPLEMENTATION PROCEDURE. To implement these policy objectives, effective January 1, 1984, the following steps need to be taken:

(1) Convert from a system in which local exchange and toll rates for services do not uniformly reflect the cost of providing those services to

a system where customers and carriers pay for costs caused by their access to, and use of, the local distribution and switching network to send and receive calls. The charges for these costs are called access charges.

(2) Shift the charges for that portion of the local network which is dedicated to end users, the costs of which are referred to as "nontraffic sensitive costs," because they do not vary with usage, to the end user over a six-year transition period using procedures consistent with but not necessarily identical to those established by the FCC. During that transition a declining portion of those costs will be borne by long distance carriers through payment of an access charge (the "carrier's carrier" access charge) based on minutes of use. An increasing portion will be borne by the end users through a monthly charge (the "customer access line charge," or CALC).

(3) A system of traffic sensitive access charges to be imposed on long distance carriers will be implemented by tariff to become effective January 1, 1984 to recover the local exchange companies' traffic sensitive costs, those which do vary with usage, incurred in sending and receiving the carriers' traffic over the local switching and distribution network. Intrastate traffic sensitive access charges should be identical to the comparable interstate charges. Traffic sensitive charges should be billed and collected by each company, not subject to the pooling requirements of WAC 480-125-080.

NEW SECTION

WAC 480-125-030 FILING OF CARRIER'S CARRIER ACCESS CHARGE RATES AND TRAFFIC SENSITIVE ACCESS CHARGE RATES. For technological and economic reasons, companies are currently unable to distinguish between intrastate and interstate calls. For this reason, it is not practical for the commission to adopt a policy and structure for intrastate carrier's carrier access charges and traffic sensitive access charges to be paid by long distance carriers which is different from the policy and structure which has been adopted for the corresponding interstate charges. If charges for intrastate access to be billed to long distance carriers are different from those for interstate access, the long distance carriers would have an incentive to obtain the lower of two rates by incorrectly identifying the origin of the call. This would impose a greater burden on local exchange customers as their rates are increased to cover lost revenues. To avoid that, therefore, intrastate and interstate carrier's carrier access charges and traffic sensitive access charges should be identical for access to the same facilities of a local telephone company. Each company, or an association acting on behalf of participating companies, shall file intrastate carrier's carrier access charge rates and traffic sensitive access charge rates identical to corresponding interstate rates as ordered by the FCC.

NEW SECTION

WAC 480-125-040 CUSTOMER ACCESS LINE CHARGE. Implementation of the policy described in WAC 480-125-010(9) by the commission requires that nontraffic sensitive costs for intrastate access be recovered from the end user through a customer access line charge (CALC). This will require the filing and approval of appropriate tariffs. Initially the tariffs will only have to recover that portion of the costs (as determined in WAC 480-125-060) not recovered from carrier's carrier access charges and pooling arrangements. As the carrier's carrier access charges are phased down over a six-year period, using procedures consistent with those established by the FCC, the CALCs and the tariffs will have to be adjusted to reflect the shift of charges for nontraffic sensitive costs from the carriers to the end users.

NEW SECTION

WAC 480-125-050 NECESSITY FOR FILING OF CUSTOMER ACCESS LINE CHARGE TARIFFS. Because there is insufficient time to process general rate cases for the companies prior to the January 1, 1984 implementation date, and because the CALC tariffs will deal with prospective revenue requirements, the commission finds it is necessary to adopt a special procedure to authorize the companies to file CALC tariffs. The CALC tariffs must be filed by October of each year to be effective January 1 of the following year.

NEW SECTION

WAC 480-125-060 CALCULATION OF CUSTOMER ACCESS LINE CHARGES. The CALC will be calculated for each company by:

(1) Determining its 1984 intrastate toll revenue requirement, including traffic sensitive and non traffic sensitive costs, based on Pacific Northwest Bell's then currently authorized overall rate of return. Each subsequent year's CALC will be determined in a similar manner.

(2) Adjusting the proposed revenue requirement to reflect the transfer of toll plant and toll business to other entities.

(3) Subtracting from that revenue requirement the revenues which are to be derived from toll revenues, the carrier's carrier access charge pool described in WAC 480-125-080, and traffic sensitive access charges according to the distribution procedure applicable to each year, had those charges and that procedure been in effect in the annual period from which the revenue requirement data is obtained.

(4) The resulting number is the proposed CALC revenue requirement for each company. To obtain the monthly CALC rate for each access line, divide the total CALC revenue requirement by estimated average number of access lines in service for the year and then divide that number by twelve. The resulting number is the proposed monthly CALC tariff rate per access line for the year. The party line CALC shall be determined in accordance with guidelines issued by the FCC.

NEW SECTION

WAC 480-125-070 FILING PROCEDURE. (1) At the time each proposed CALC tariff is filed, each company shall file data to support the CALC calculations in a format approved by the commission. In addition, information and data necessary for commission review of total intrastate revenue requirements should be filed. At a minimum, data from the most recent available historic test year should be used.

(2) Prior to the effective date of the tariffs, the commission shall either enter an order approving the CALC to be collected or it may suspend the operation of those tariffs pursuant to RCW 80.04.130. Prior to the approval of a CALC filing, the company shall certify that its customers have been notified. If suspension is ordered, the commission may order that a temporary CALC be collected pending conclusion of the hearing. This temporary CALC will be subject to refund.

(3) In any event, each company which has an approved CALC or temporary CALC in effect, shall file with the commission within thirty days of the end of the reporting period, its monthly or quarterly results of operations, and additional supporting data, as the commission may require.

NEW SECTION

WAC 480-125-080 POOLING OF ACCESS CHARGE REVENUES. During the period in which carrier's carrier access charges, and a premium access charge, if any, are imposed, the revenues from all such charges shall be collected, pooled, and distributed in accordance with contractual arrangements among the local telephone companies, and the other provisions of this rule. The administrator of the pool will be Pacific Northwest Bell. Such contractual arrangements shall be submitted to the commission for review and approval. The administrator will be entitled to recover its reasonable administrative expenses from the pooled revenues. Those expenses are subject to commission review and approval.

NEW SECTION

WAC 480-125-090 TRANSITION AND WIDELY AVAILABLE AFFORDABLE TELEPHONE SERVICE. (1) Monitoring. The commission has continuously followed policies that support widely available, affordable telephone service for the citizens of the state of Washington. It reaffirms that position at this time. Being cognizant of the possible impact on certain groups of subscribers of the transition to the policies adopted in this rule, it is the intent of the commission to continually monitor this transition and take whatever action is necessary to insure the continual availability of widely available affordable telephone service in this state including seeking advice from consumers from time to time.

(2) Procedures. The commission finds that a cap procedure for individual company CALCs is an appropriate transition mechanism for 1984 and 1985, and that a waiver of the intrastate CALC for specific categories of customers will assist in maintaining widely available, affordable telephone service. Therefore, the following procedures are established:

a. Place a cap on individual company CALCs in 1984 in the amount of \$2.00 and in 1985 in an amount to be determined by the commission.

b. A waiver of the intrastate CALC for specific categories of customers of each company may be approved by the commission.

(3) Funding. The funding necessary to implement the above procedures will be determined by the commission. While not imposing limitations on the commission, to the extent practical such funding should be consistent with methods used by the FCC. In the absence of more appropriate funding sources, revenues which are in the NTS pool will be made available. In 1984 and 1985 the total shall not exceed .5¢ per minute, multiplied by the total number of minutes of use used in funding the NTS pool. For 1986 and following years, the maximum amount of all NTS pool funds available for this purpose will not exceed the cents per minute amount prescribed by the FCC for funding the interstate USF, multiplied by the total number of minutes of use used in funding the NTS pool in those years.

WSR 83-18-045

NOTICE OF PUBLIC MEETINGS SEATTLE COMMUNITY COLLEGE DISTRICT

[Memorandum—September 1, 1983]

A special meeting of the board of trustees of the Seattle Community College District VI has been scheduled for Monday, September 12, 1983, at 6:30 p.m., in the President's Board Room, RS 030, at South Seattle Community College, 6000 16th Avenue S.W., Seattle, WA 98106.

WSR 83-18-046

PROPOSED RULES DEPARTMENT OF SOCIAL AND HEALTH SERVICES (Public Assistance)

[Filed September 2, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Social and Health Services intends to adopt, amend, or repeal rules concerning Food stamps—Verification of eligibility, amending WAC 388-54-630.

It is the intention of the secretary to adopt these rules on an emergency basis effective October 1, 1983;

that the agency will at 10:00 a.m., Tuesday, October 11, 1983, in the Third Floor Conference Room, H-19, Office Building #2, 12th and Franklin, Olympia, Washington, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on October 19, 1983.

The authority under which these rules are proposed is RCW 74.04.510.

The specific statute these rules are intended to implement is RCW 74.04.510.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 11, 1983.

Correspondence concerning this notice and proposed rules attached should be addressed to:

David A. Hogan, Director
Division of Administration and Personnel
Department of Social and Health Services

Mailstop OB 14
Olympia, WA 98504

Interpreters for people with hearing impairments and brailled or taped information for people with visual impairments can be provided. Please contact William B. Pope, Chief, Office of Administrative Regulations, at State Office Building #2, 12th and Franklin, Olympia, Phone (206) 753-7015, by September 27, 1983. The meeting site is in a location which is barrier free.

Dated: September 1, 1983

By: David A. Hogan, Director

Division of Administration and Personnel

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045.

Re: WAC 388-54-630, Food stamps.

The Purpose of the Rule Change: To amend application verification. WAC 388-54-630 includes a new subsection for food stamp monthly reporting. The application verification changes are permitted by federal regulation. The food stamp monthly reporting is required by federal regulations.

Statutory Authority: RCW 74.04.510.

Summary of Rule Changes: Federal regulations permit states to develop guidelines for application verification. The intent of the new verification regulations is to reduce errors. Federal regulations require that monthly food stamp reporting becomes effective October 1, 1983.

Person Responsible for the Drafting, Implementation and Enforcement of the Rule Change: Dana Beck, Program Manager, Division of Income Assistance, Mailstop: OB 31C, Phone: 753-4912.

These rule changes are necessary as a result of federal law, 7 CFR 271, 272, and 273.

These rule changes do not fall under the Regulatory Fairness Act.

AMENDATORY SECTION (Amending Order 1956, filed 4/6/83)

WAC 388-54-630 APPLICATION AND PARTICIPATION—VERIFICATION. ((†) Mandatory verifications shall include:

(a) ~~Gross nonexempt income. Where verification is not possible because either the person or organization providing the income has failed to cooperate or is unavailable, the department shall determine the amount to be used for certification purposes based on the best available information.~~

(b) ~~Alien status. The department shall verify the alien status of those household members identified as aliens on the application by the use of INS documents, court orders or other appropriate documentations in possession of the household member. The following applies:~~

~~(i) The alien may contact INS to obtain the necessary verification.~~

~~(ii) If the alien does not wish to contact INS, the household shall be given the option of withdrawing the application or participating without the alien member.~~

~~(iii) If an alien is unable to provide INS documents, the department has no responsibility to offer to contact INS on the alien's behalf. The department's responsibility exists only when the alien has an INS document that does not clearly establish eligible or ineligible alien status. The department shall not contact INS to obtain information about the alien's correct status without the alien's written consent.~~

~~(iv) While awaiting acceptable verification, the alien whose status is questionable shall be ineligible. The income and resources of the ineligible alien shall be treated in the same manner as a disqualified individual as found in WAC 388-54-830.~~

~~(c) A Social Security number (SSN) for each household member (effective February 1, 1983):~~

~~(i) Certification shall be delayed for the verification of SSNs.~~

~~(ii) A verified SSN shall be reverified only if the SSN or the identity of the individual becomes questionable.~~

~~(iii) If verification of SSN is not completed, the household shall provide proof of application from SSAGO.~~

~~(iv) If verification is not completed, only the individual whose SSN is not verified shall be disqualified if he or she is unable to show "good cause" for failure to acquire or apply for the SSN. (See WAC 388-54-687.)~~

~~(d) Identity. The department shall verify the identity of the person making the application. When an authorized representative applies for a household, the identity of the authorized representative and the head of household shall be verified.~~

~~(e) Residency. The residency requirements in WAC 388-54-685 shall be verified except in unusual cases (such as migrant households or households newly arrived in the area) where verification of residency cannot reasonably be accomplished.~~

~~(f) Continuing shelter expenses. Shelter costs, other than utilities, shall be verified if allowing the expense could potentially result in a deduction. Verification will be on a one-time basis unless the household has moved; reported an increase in cost which would affect the level of the deduction (only the changed cost shall be verified) or unless questionable.~~

~~(g) Utility expenses. The department shall verify utility expenses:~~

~~(i) If the household is entitled to the utility standard (heating or cooling costs shall be verified on a one-time basis unless the household has moved, changed its utilities or the information is questionable); or~~

~~(ii) If the household wishes to claim expenses in excess of the utility standard and the expense would actually result in a deduction;~~

~~(iii) Utility expenses claimed for an unoccupied home will be the actual expenses incurred.~~

~~(2) If a deductible expense which a household is entitled to claim (shelter cost, utilities, medical) cannot be verified within thirty days of the date of application, the department shall determine the household's eligibility and benefit level without providing a deduction of the claimed but unverified expense.~~

~~(3) The following need not be verified unless inconsistent with other information on the application; previous applications or other documented information known to the department:~~

~~(a) Resource information or the exempt status of income;~~

~~(b) Nonfinancial information such as household composition, deductible expenses, liquid resources and loans, and citizenship.~~

~~If it is necessary to verify a loan, a simple statement signed by both parties to the loan shall be sufficient.~~

~~(4) The following sources of verification shall be used:~~

~~(a) Documentary evidence shall be the primary source of verification. Documentary evidence consists of a written confirmation of a household's circumstances. Whenever documentary evidence cannot be obtained, the department shall use alternate sources of verifications such as:~~

~~(i) Collateral contacts. A collateral contact is a verbal confirmation of a household's circumstances by a person outside of the household. This contact may be made either in person or over the phone with any individual who can provide an accurate third-party verification of the household's statements.~~

~~(ii) Home visits shall be made only if documentary evidence cannot be obtained and the visit is scheduled in advance with the household.~~

~~(b) Documentation shall be in sufficient detail to permit a reviewer to determine the reasonableness and accuracy of the determination.~~

~~(5) The household has primary responsibility for providing documentary evidence to support its income statements and to resolve any questionable information. If it would be difficult or impossible for the household to obtain the documentary evidence in a timely manner, the department shall offer assistance in obtaining this evidence. Designation of a collateral contact is also the responsibility of the household.~~

~~(6) At recertification, a change in income or source of income, medical expenses or actual utility expenses claimed, in an amount over twenty-five dollars, shall be verified.~~

~~(a) All other changes shall be subject to the same verification procedures as apply at initial certification.~~

~~(b) Unchanged information shall not be verified unless questionable.) (1) Sources of verification shall be:~~

~~(a) Documentary evidence. Documentary evidence consists of a written confirmation of a household's circumstances and shall be the primary source of verification. Whenever documentary evidence cannot be obtained, the department shall use alternate sources of verifications, such as collateral contacts or home visits.~~

~~(b) Collateral contacts. A collateral contact is a verbal contact confirmation of a household's circumstances by a person outside the~~

household. A collateral contact is the secondary source of verification (except for household size and citizenship).

(c) Home visits. Home visits shall be scheduled in advance with the household. See WAC 388-54-620(4).

(2) The household has primary responsibility for providing documentary evidence. If it would be difficult or impossible for the household to obtain the documentary evidence in a timely manner, the department shall offer assistance in obtaining this evidence. Designation of a collateral contact is the responsibility of the household; however, the CSO may designate a collateral contact if collateral contact designated by the client is not acceptable.

(3) Mandatory verifications shall include:

(a) Identity of the person making the application. When an authorized representative applies for a household, the identity of the authorized representative and the head of household shall be verified.

(b) Residency; except in unusual cases where verification of residency cannot reasonably be accomplished.

(c) Social Security Number (SSN) for each household member. If verification is not completed, only the individual whose SSN is not verified shall be disqualified if he or she is unable to show "good cause" for failure to acquire the SSN (see WAC 388-54-687).

(d) Resources.

(e) Loans.

(f) Gross nonexempt income. Gross nonexempt income shall be verified for all households prior to certification (except expedited service households).

(g) Continuing shelter expenses, other than utilities, if allowing the expense could potentially result in a deduction. Verification will be on a one-time basis unless the household has moved, reported an increase in cost which would affect the level of the deduction, or unless questionable.

(h) Utility expenses.

(i) If the household is entitled to the utility standard, heating and/or cooling costs shall be verified on a one-time basis unless the household has moved, changed its utilities, or the information is questionable.

(ii) If the household wishes to claim expenses in excess of the utility standard and the expense would actually result in a deduction, excess utility costs shall be verified.

(i) Medical care costs. Verify medical expenses that will result in a deduction including the amount of reimbursement. If reimbursement cannot be verified, certify without allowing the expense.

(j) Dependent care cost. Verify actual costs of care of a child or other dependent when necessary for a household member to seek, accept, or continue employment or training.

(k) Household size. Verify the number of individuals within a food stamp household who reside in a domicile.

(l) Household composition. Verify the number of people who customarily purchase and prepare meals together.

(4) Verification of questionable information. Verify all other factors of eligibility prior to certification if the factors are questionable and affect a household's eligibility or benefit level. Questionable factors shall include but not be limited to:

(a) Citizenship. When a household's statement that one or more of its members are U.S. citizens is questionable, the household shall be asked to provide verification.

(b) Alien status. When a household identifies that a member is not a citizen, verification of alien status is required.

(i) The alien not providing documentation of status shall be ineligible.

(ii) The household is responsible for providing documentation of alien status. The department shall not contact INS to obtain information about the alien's correct status without the alien's written consent.

(iii) The household shall be given the option of withdrawing the application or participating without the alien member.

(iv) The income and resources of the ineligible alien shall be treated in the same manner as a disqualified individual as found in WAC 388-54-830.

(5) Verification at reapplication. At reapplication, a change in income or source of income, medical expenses, or actual utility expenses claimed in an amount over twenty-five dollars must be verified.

(a) All other changes may be reverified at recertification.

(b) Verifications shall be subject to the same verification procedures as apply during initial verification.

(6) For cases subject to food stamp monthly reporting, the department shall verify on a monthly basis:

(a) Gross nonexempt income;

(b) Utility expenses which exceed the standard;

(c) All other questionable information;

(d) Alien status if changed.

WSR 83-18-047
PROPOSED RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Public Assistance)
 [Filed September 2, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Social and Health Services intends to adopt, amend, or repeal rules concerning Food stamps—Workfare, new WAC 388-54-676;

that the agency will at 10:00 a.m., Tuesday, October 11, 1983, in the Third Floor Conference Room, H-19, Office Building #2, 12th and Franklin, Olympia, Washington, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on October 19, 1983.

The authority under which these rules are proposed is chapter 41, Laws of 1983 1st ex. sess.

The specific statute these rules are intended to implement is chapter 41, Laws of 1983 1st ex. sess.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 11, 1983.

Correspondence concerning this notice and proposed rules attached should be addressed to:

David A. Hogan, Director
 Division of Administration and Personnel
 Department of Social and Health Services
 Mailstop OB 14
 Olympia, WA 98504

Interpreters for people with hearing impairments and brailled or taped information for people with visual impairments can be provided. Please contact William B. Pope, Chief, Office of Administrative Regulations, at State Office Building #2, 12th and Franklin, Olympia, Phone (206) 753-7015, by September 27, 1983. The meeting site is in a location which is barrier free.

Dated: September 1, 1983

By: David A. Hogan, Director
 Division of Administration and Personnel

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045.

Re: New WAC 388-54-676, Workfare.

The Purpose of Rule: To adopt workfare in the food stamp program. The rule is necessary because a workfare-type program is required by the 1983 state legislative session for the food stamp program.

Statutory Authority: Chapter 41, Laws of 1983 1st ex. sess.

Summary of the Rule: The state legislature required a community work and training program for food stamp

recipients. Federal regulations offer workfare as an optional program; hence the food stamp program will adopt workfare to meet the state requirement.

Person Responsible for the Drafting, Implementation and Enforcement of the Rule: Dana Beck, Program Manager, Division of Income Assistance, Mailstop: OB 31C, Phone: 753-4912.

This change is required by chapter 41, Laws of 1983 1st ex. sess. and implements amendments to 7 CFR 272 and 273 published in the Federal Register of October 8, 1982, starting on page 44692.

This rule does not fall under the Regulator Fairness Act.

NEW SECTION

WAC 388-54-676 WORKFARE. (1) All individuals required to register for work under WAC 388-54-677 shall be required to register for workfare if residing in a designated workfare project area. Workfare registration referrals shall be extended to include:

(a) Households exempt from work registration because they are receiving unemployment compensation;

(b) Caretaker of a child over six; and

(c) A person working less than twenty hours per week.

(2) The hours of mandatory workfare participation shall be determined by dividing the food stamp allotment by the federal or state minimum wage, whichever is higher.

(a) The participant shall not be required to work more than thirty hours a week; however, the participant may elect to work in excess of thirty hours per week provided the weekly average for the month does not exceed thirty hours.

(b) Participants working part time shall not be required to participate in workfare and employment more than a combined total of thirty hours per week.

(c) Participants shall not be required to work more than eight hours per day. The participant may voluntarily work more than eight hours a day.

(3) The workfare site shall be considered suitable unless the household can demonstrate or the department becomes aware that:

(a) The participant is required to join, resign from, or refrain from joining any legitimate labor organization;

(b) The work offered is at a site subject to a strike or lockout;

(c) The degree of risk to health and safety is unreasonable;

(d) The participant is physically or mentally unfit to perform the employment, as documented by medical evidence or by reliable information from other sources;

(e) The distance from the participant's home to the place of employment is more than a two-hour round trip commute not including transporting a child to and from a child care facility; or

(f) The working hours or nature of the work interferes with the participant's religious observances, conviction, or beliefs.

(4) In determining if a household has good cause for refusal or failure to cooperate, the following criteria shall apply:

(a) Circumstances beyond a household member's control, such as, but not limited to:

(i) Illness;

(ii) The illness or incapacitation of another household member requiring the presence of the workfare participant;

(iii) A household emergency; or

(iv) The lack of transportation when transportation is not provided by the department.

(b) Necessity for a parent or other responsible household member to care for a child between the age of six and twelve because adequate child care is not otherwise available;

(c) Becoming exempt from the workfare eligibility requirements; or

(d) Household moving out of the area of the workfare project.

(5) If the department finds a household member refuses or fails to comply with workfare requirements without good cause, the household shall be ineligible for participation until the member completes the outstanding workfare obligation or serves the sanction period. The sanction period shall be two months for every month of refusal or failure to participate.

(a) When a household is sanctioned for refusal or failure to comply, none of the household shall be eligible to participate in the food stamp program during the sanction.

(b) If a sanctioned household member joins another food stamp household, that household's eligibility and benefit level shall be determined as follows:

(i) The income and resources of the household member or members disqualified for noncompliance with workfare shall count in their entirety, and the entire household's allowable earned income, standard, medical, dependent care, and excess shelter deductions shall apply to the remaining household members.

(ii) An individual disqualified for noncompliance with workfare shall not be included when determining the household's size for the purpose of assigning a benefit level to the household or of comparing the household's monthly income with income eligibility standards. No household's coupon allotment shall be increased as a result of the disqualification of one or more household member or members for workfare noncompliance.

(6) Eligibility may be re-established during a disqualification period if the household reapplies and is determined eligible, and the member failing to comply or any other eligible workfare member satisfies all outstanding workfare obligations. Eligibility for participation will resume the day the outstanding workfare obligation is completed.

(7) Child care, transportation expenses, and other work-related costs may be provided by DSHS.

WSR 83-18-048

EMERGENCY RULES

DEPARTMENT OF FISHERIES

[Order 83-109—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to personal use rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is harvestable numbers of coho salmon are available.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 2, 1983.

By William R. Wilkerson

WAC 220-57-47300A TILTON RIVER. *Notwithstanding the provisions of WAC 220-57-473, the North Fork of the Tilton River from the mouth upstream approximately two miles to markers 400 feet upstream from the 73 Road Bridge is open to salmon angling under bag limit A from the Saturday preceding Memorial Day through November 30, 1983.*

WSR 83-18-049
EMERGENCY RULES
DEPARTMENT OF FISHERIES
 [Order 83-111—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to personal use rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is this regulation is necessary to allow harvest opportunity on sports - allocated fish.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 2, 1983.

By William R. Wilkerson
 Director

NEW SECTION

WAC 220-57-13000E BOGACHIEL RIVER. Notwithstanding the provisions of WAC 220-57-130, effective September 3, 1983 through November 30, 1983, special bag limit: six salmon not less than 10 inches in length, not more than four of these salmon may be chinook salmon over 24 inches in length, and not more than two of these salmon may be chum, pink or sockeye salmon, and all coho salmon over 20 inches in length must be released immediately. This special bag limit applies in those waters of the Bogachiel River downstream from the confluence with the Calawah River to the mouth. The possession limit at any one time shall not exceed the equivalent of two daily bag limits of fresh salmon. Additional salmon may be possessed in a frozen or processed form.

NEW SECTION

WAC 220-57-13500D CALAWAH RIVER. Notwithstanding the provisions of WAC 220-57-135, effective September 3, 1983 through November 30, 1983, special bag limit: six salmon not less than 10 inches in length, not more than four of these salmon may be chinook salmon over 24 inches in length, and not more than two of these salmon may be chum, pink or sockeye salmon, and all coho salmon over 20 inches in length must be released immediately. This special bag limit applies in those waters of the Calawah River downstream from the Highway 101 Bridge to the confluence with the Bogachiel River. The possession limit at any one time

shall not exceed the equivalent of two daily bag limits of fresh salmon. Additional salmon may be possessed in a frozen or processed form.

NEW SECTION

WAC 220-57-15000C CLEARWATER RIVER. Notwithstanding the provisions of WAC 220-57-155, effective October 9, 1983 through November 30, 1983, special bag limit: six salmon not less than 10 inches in length, not more than four of these salmon may be chinook salmon over 24 inches in length, and not more than two of these salmon may be chum, pink or sockeye salmon, and all coho salmon over 20 inches in length must be released immediately. This special bag limit applies in those waters of the Clearwater River downstream from the confluence with the Snahapish River to the confluence with the Queets River. The possession limit at any one time shall not exceed the equivalent of two daily bag limits of fresh salmon. Additional salmon may be possessed in a frozen or processed form.

NEW SECTION

WAC 220-57-27000M HOH RIVER. Notwithstanding the provisions of WAC 220-57-270, effective September 3, 1983 through November 30, 1983, special bag limit: six salmon not less than 10 inches in length, not more than four of these salmon may be chinook salmon over 24 inches in length, and not more than two of these salmon may be chum, pink or sockeye salmon, and all coho salmon over 20 inches in length must be released immediately. This special bag limit applies in those waters of the Hoh River downstream from the Highway 101 Bridge to the National Park Boundary at Oil City. The possession limit at any one time shall not exceed the equivalent of two daily bag limits of fresh salmon. Additional salmon may be possessed in a frozen or processed form.

NEW SECTION

WAC 220-57-38500G QUILLAYUTE RIVER. Notwithstanding the provisions of WAC 220-57-385, effective September 3, 1983 through November 30, 1983, special bag limit: six salmon not less than 10 inches in length, not more than four of these salmon may be chinook salmon over 24 inches in length, and not more than two of these salmon may be chum, pink or sockeye salmon, and all coho salmon over 20 inches in length must be released immediately. This special bag limit applies in those waters of the Quillayute River downstream from the confluence of the Bogachiel and Soleduck Rivers to the National Park Boundary. The possession limit at any one time shall not exceed the equivalent of two daily bag limits of fresh salmon. Additional salmon may be possessed in a frozen or processed form.

NEW SECTION

WAC 220-57-46000L SOLEDUCK RIVER. Notwithstanding the provisions of WAC 220-57-460, effective September 3, 1983 through November 30, 1983,

special bag limit: six salmon not less than 10 inches in length, not more than four of these salmon may be chinook salmon over 24 inches in length, and not more than two of these salmon may be chum, pink or sockeye salmon, and all coho salmon over 20 inches in length must be released after September 30, 1983. This special bag limit applies in those waters of the Soleduck River downstream from the lowermost Highway 101 Bridge (2.5 miles north of Forks) to the confluence with the Quillayute River. The possession limit at any one time shall not exceed the equivalent of two daily bag limits of fresh salmon. Additional salmon may be possessed in a frozen or processed form.

REPEALER

The following sections of the Washington Administrative Code are repealed:

- WAC 220-57-13000D BOGACHIEL RIVER (83-70)
- WAC 220-57-13500C CALAWAH RIVER (83-70)
- WAC 220-57-38500F QUILLAYUTE RIVER (83-70)
- WAC 220-57-46000K SOLEDUCK RIVER (83-70)
- WAC 220-57-27000L HOH RIVER (83-74)

EMERGENCY RULES
DEPARTMENT OF FISHERIES
 [Order 83-113—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is this regulation is necessary to provide chinook escapement for hatchery needs.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 2, 1983.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 83-114—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is coastal Sebastes stocks need protection and this regulation allows an incidental catch while preventing targeting on Sebastes stocks.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 2, 1983.

Director

NEW SECTION

WAC 220-44-05000A COASTAL BOTTOM-FISH CATCH LIMITS. Notwithstanding the provisions of WAC 220-44-050, effective 12:01 a.m. September 7, 1983, until further notice it is unlawful to possess, transport through the waters of the state, or land in any Washington state port bottomfish taken from Coastal Marine Fish-Shellfish Management and Catch Reporting Areas 58B, 59, 60A, 61, 62, or 63 in excess of the amounts or less than the minimum sizes shown below the species indicated:

(1) Widow Rockfish (Sebastes entomelas)— 30,000 pounds per vessel trip; no minimum size.

(2) Shortbelly Rockfish (Sebastes jordani) and Idiot Rockfish (Sebastolomus spp.)— no maximum poundage per vessel trip; no minimum size.

(3) Pacific Ocean Perch (Sebastes alutus)— 5,000 pounds or 10 percent of total weight of fish on board, whichever is greater per vessel trip; no minimum size.

(4) All other species of rockfish (Sebastes spp.)— 3,000 pounds of all other species combined per vessel trip; no minimum size.

(5) Sablefish— minimum size 22 inches in length, unless dressed in which case minimum size 16 inches in length from the anterior insertion of the first dorsal fin

to the tip of the tail, except that an incidental catch less than the minimum size of 5,000 pounds is allowed.

WSR 83-18-052
EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 83-115—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to Commercial fishing rules—Definitions.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is this regulation prevents unintentional violation of area boundaries by drifting vessels that have ceased fishing activity.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

WSR 83-18-053
EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 83-116—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 4B, 5, 6, 6A, 6C, 7 and 7A provide protection for Canadian and Puget Sound chinook during sockeye and pink fisheries

under the direction of IPSFC. Openings in Areas 7B and 8A provide opportunity to harvest non-Indian chinook allocations. All other areas are closed to prevent overharvest. Troll landing restrictions provide protection for chinook and coho stocks.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 2, 1983.

NEW SECTION

WAC 220-47-809 PUGET SOUND ALL-CITIZEN COMMERCIAL SALMON FISHERY. *Notwithstanding the provisions of Chapter 220-47 WAC, effective immediately until further notice, it is unlawful to take, fish for, or possess salmon for commercial purposes in the following Puget Sound Salmon Management and Catch Reporting Areas except in accordance with the following restrictions:*

All areas - It is unlawful to land troll caught salmon.

Area 4B, 5, 6, 6A, 6C, 7 and 7A - Under control of International Pacific Salmon Fisheries Commission and U.S. Department of Commerce. Gill net gear is restricted to 5-7/8-inch maximum mesh, when open.

Area 7D - Under control of International Pacific Salmon Fisheries Commission and U.S. Department of Commerce.

**Area 7B - Closed except gill nets using 5-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly September 5 through the morning of September 9. That portion south and east of a line from William Point on Samish Island to Saddlebag Island to the southeast tip of Guemes Island is closed as provided in WAC 220-47-307.*

**Area 8A - Closed except gill nets using 7-inch minimum mesh may fish from 6:00 PM to 9:00 AM nightly September 5 through the morning of September 9. The Port Gardner Preserve and the waters of Port Susan are closed as provided in WAC 220-47-307.*

Areas 6B, 6D, 7C, 8, 9, 9A, 10, 10A, 10B, 10C, 10D, 10E, 11, 11A, 12, 12A, 12B, 12C, 12D, 13, 13A, 13B, and all freshwater areas - Closed.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-47-808 PUGET SOUND COMMERCIAL FISHING RESTRICTIONS (83-112)

WSR 83-18-054 EMERGENCY RULES DEPARTMENT OF FISHERIES [Order 83-117—Filed September 2, 1983]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing rules.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 4B, 5, 6, 6A, 7 and 7A provide protection for summer/fall chinook during IPSFC sockeye and pink management. Restrictions in Area 7C and the Samish River protect milling chinook destined for the Samish Hatchery. Restrictions in Area 6D and Strait of Juan de Fuca tributaries provide protection for local chinook stocks (and pink stocks in Area 6D and the Dungeness and Elwha rivers). Restrictions in Area 12C provide protection for summer/fall chinook and pink salmon returning to Hoodsport Hatchery. Restrictions in Areas 6B, 8, 8A, 9, 10, 11, 11A, 12, 12B, 13, Nooksack, Puyallup, Nisqually, Snohomish and Stillaguamish rivers protect weak Puget Sound pink stocks (and summer/fall chinook in Area 8 and the Skagit River). Restrictions in 10B, 10C, 10D and the Cedar River are the least restrictive regulations that provide opportunity to harvest chinook and protect Lake Washington sockeye.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 2, 1983.

NEW SECTION

WAC 220-28-316 PUGET SOUND COMMERCIAL FISHERY RESTRICTIONS. *Effective immediately it is unlawful for treaty Indian fishermen to take, fish for, or possess salmon for commercial purposes in the following Puget Sound Salmon Management and Catch Reporting Areas except in accordance with the following restrictions:*

*Areas 4B, 5, and 6C – Drift gill net gear restricted to 5-7/8-inch maximum mesh, when open.

*Areas 6 and 6A – Gill net gear restricted to 5-7/8-inch maximum mesh, when open.

Areas 6B, 9, 10, 11 and 11A – Effective through September 10, gill net gear restricted to 7-inch minimum mesh when open and purse seine gear is prohibited.

Area 6D and Dungeness River – Effective through September 24, closed to all commercial fishing.

*Areas 7 and 7A – Gill net gear restricted to 5-7/8-inch maximum mesh, when open.

Area 7C – Closed to all commercial fishing.

Area 8 – Effective through September 10, closed to all commercial fishing.

Area 8A – Effective through September 10, gill net gear restricted to 7-inch minimum mesh and all other gear must immediately release pink salmon, when open. Purse seine gear is prohibited.

Area 10B – Effective through September 24, gill nets restricted to 6-1/2-inch minimum mesh and all other gear must release sockeye, when open.

Area 10C – Effective through December 31, closed to all commercial fishing.

Area 10D – Effective through October 8, gill net gear restricted to 6-1/2-inch minimum mesh and all other gear must release sockeye, when open. That portion within 250 yards of the eastern and northern shores of Lake Sammamish between the Sammamish River and Issaquah Creek is closed to all commercial fishing through December 31.

Areas 12 and 12B – Effective through September 3, gill net gear restricted to 7-inch minimum mesh, when open, and purse seine gear is prohibited.

Area 12C – Effective through September 30, closed to all commercial fishing within 1,000 feet of the western shore between Hoodspout Marina Dock and Glen Ayr Trailer Park.

Area 13 – Effective through October 1, excluding (1) that portion of Chambers Bay east of the railroad trestle, and (2) that portion north of a line from Green Point on the eastern shoreline of Carr Inlet to the flashing signal beacon #4 on the west shoreline, gill net gear is restricted to 7-inch minimum mesh, and all other gear must immediately release pink salmon, when open. Purse seine gear is prohibited.

Cedar River – Effective through December 31, closed to all commercial fishing.

Nooksack River – Marietta Bridge to the confluence of the north and south forks, effective through September 1, gill net gear restricted to 7-1/2-inch minimum mesh, when open; upstream of the confluence of north and south forks, closed to all net gear.

Puyallup River – Effective through September 10, gill nets restricted to 7-1/2-inch minimum mesh, when open.

Nisqually River – Effective through September 24, gill net gear restricted to 7-1/2" minimum mesh, when open.

Stillaguamish and Snohomish rivers – Effective through September 10, gill net gear restricted to 7-1/2" minimum mesh, when open.

Skagit River including all tributaries – Effective through September 10, closed to all commercial fishing.

Samish River – Closed to all commercial fishing.

Elwha, Hoko, East and West Twin, Clallam, Lyre, Sekiu, Sail and Pysht rivers, and Salt and Deep creeks – Effective through September 24, closed to all commercial fishing.

PROPOSED RULES

DEPARTMENT OF

LABOR AND INDUSTRIES

[Filed September 6, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Labor

and Industries intends to adopt, amend, or repeal rules concerning WAC 296-401-030 Issuing of permits; WAC 296-401-060 Specialty certificates; WAC 296-401-160 Enforcement; WAC 296-401-165 Electrical license and administrator certificate designation; WAC 296-401-175 Electrical contractor license, journeyman, specialty, and trainee certificate examination and copy fees; repealing WAC 296-46-115 Definitions; WAC 296-46-492 Electrical license and administrator certificate designation; WAC 296-46-493 Electrical contractor license and administrator certificate fees; WAC 296-46-506 Responsibilities of electrical contractors administrator certificate holders—Revocation of certificates—Appeals; WAC 296-46-530 Hearings; WAC 296-401-010 Examination and fees; WAC 296-401-070 Eligibility for specialty examination; WAC 296-401-130 Annual renewal of electrical journeyman, specialty, and trainee certificates; and WAC 296-401-140 Supervision of trainees in the electrical trade. The amendments to WAC 296-401-030 and 296-401-160 are for clarification. The amendment to WAC 296-401-060 adds the new specialty of nonresidential maintenance as required by the 1983 amendments to chapter 19.28 RCW, the electrical law. New WAC 296-401-165 is the same as repealed WAC 296-46-492. New WAC 296-401-175 is a combination of the repealed WAC 296-46-493 and 296-401-010. The two rules are moved from chapter 296-46 to 296-401 WAC to ensure that all license and certificate rules are in one chapter. The fees set for examinations and electricians' certificates are increased in the new WAC 296-401-175. The other repealed rules are unnecessary and are thus deleted;

that the agency will at 9:30 a.m., Wednesday, October 12, 1983, in the Small Conference Room, 3rd Floor, General Administration Building, Olympia, Washington 98504, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 14, 1983.

The authority under which these rules are proposed is RCW 19.28.120 and 19.28.510.

The specific statute these rules are intended to implement is RCW 19.28.120 and 19.28.510.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 12, 1983.

Written or oral submissions may also contain data, views, and arguments concerning the effect of the proposed rules or amendments of rules on economic values, pursuant to chapter 43.21H RCW.

The agency reserves the right to modify the text of these proposed rules before the hearing or in response to written or oral comments received before or during the hearing.

The agency may need to change the date for hearing or adoption on short notice. To ascertain that the hearing or adoption will take place as stated in this notice, an interested person may contact the person named below.

Correspondence relating to this notice and the proposed rules should be addressed to:

Robert C. Cronkrite, Administrator
Electrical Section

Department of Labor and Industries
300 West Harrison, #509
Seattle, Washington 98119
Phone: (206) 281-5575.

Director

STATEMENT OF PURPOSE

Title and Number of Rule: WAC 296-401-030 Issuing of permits; WAC 296-401-060 Specialty certificates; WAC 296-401-160 Enforcement; WAC 296-401-165 Electrical license and administrator certificate designation; WAC 296-401-175 Electrical contractor license, journeyman, specialty, and trainee certificate, examination and copy fees; repealing sections: WAC 296-46-115 Definitions; WAC 296-46-492 Electrical license and administrator certificate designation; WAC 296-46-493 Electrical contractor license and administrator certificate fees; WAC 296-46-506 Responsibilities of electrical contractors' administrator certificate holders—Revocation of certificates—Appeals; WAC 296-46-530 Hearings; WAC 296-401-010 Examination and fees; WAC 296-401-070 Eligibility for specialty examination; 296-401-130 Annual renewal of electrical journeyman, specialty, and trainee certificates; and WAC 296-401-140 Supervision of trainees in the electrical trades.

Statutory Authority: RCW 19.28.120 and 19.28.510.

Specific Statute that the Rules are Intended to Implement: RCW 19.28.120 and 19.28.510.

Summary of the Rules: The amendments to WAC 296-401-030 and 296-401-160 clarify confusing language. The change to WAC 296-401-060 adds a new nonresidential maintenance specialty as required by the 1983 amendments to chapter 19.28 RCW. New WAC 296-401-165 is the same as repealed WAC 296-46-492 and new WAC 296-401-175 combines the repealed rules, WAC 296-46-493 and 296-401-010. The fees set for examinations and electricians' certificates by new WAC 296-401-175 are increased.

Reasons Supporting the Proposed Rules: The changes in WAC 296-401-030 and 296-401-160 eliminate unclear language. The new WAC 296-401-165 and 296-401-175, in combination with the repeal of WAC 296-46-492, 296-46-493, and 296-46-506, place all license and certificate rules in one chapter - chapter 296-401 WAC. Chapter 296-46 WAC will contain only rules relating to electrical installation requirements. The other repealed rules are unnecessary.

The Agency Personnel, with Office Location and Telephone Number, who are Responsible for the Drafting, Implementation, and Enforcement of the Rules: Robert C. Cronkrite, Administrator, Electrical Section, 300 West Harrison, #509, Seattle, Washington 98119, Tel: (206) 281-5575.

Name of the Person or Organization, Whether Private, Public, or Governmental, that is Proposing the Rules: Department of Labor and Industries.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation, Enforcement, and Fiscal Matters Pertaining to the Rule: Although some of the fees listed in new WAC 296-401-

175 are increased, the increase is necessary to cover the costs of providing the service. The fees previously were set by statute and for some time have not covered the actual costs.

The rules are not necessary to comply with a federal law or a federal or state court decision.

Any Other Information that may Help Identify the Rule or its Purpose: None.

No small business economic impact is necessary because the small fee increases in WAC 296-401-175 are required by law to cover the department's costs. Further, the increased fees have no disparate affect on small businesses.

REPEALER

The following sections of the Washington Administrative Code are repealed:

- (1) WAC 296-46-115 DEFINITIONS.
- (2) WAC 296-46-492 ELECTRICAL LICENSE AND ADMINISTRATOR CERTIFICATE DESIGNATION.
- (3) WAC 296-46-493 ELECTRICAL CONTRACTOR LICENSE AND ADMINISTRATOR CERTIFICATE FEES.
- (4) WAC 296-46-506 RESPONSIBILITIES OF ELECTRICAL CONTRACTORS ADMINISTRATOR CERTIFICATE HOLDERS—REVOCATION OF CERTIFICATES—APPEALS.
- (5) WAC 296-46-530 HEARINGS.

AMENDATORY SECTION (Amending Order 74-12, filed 4/15/74)

WAC 296-401-030 ISSUING OF PERMITS. ~~((+))~~ The department will issue to an applicant one out-of-state temporary permit ((sec section 8) will be issued prior to) before the examination of the applicant for a period of ninety days or less.

~~((2)) One temporary permit may be issued prior to examination to any applicant for a period of ninety days or less, subject to the approval of the department.~~

~~This)) The applicant shall surrender the permit ((shall be surrendered)) to the person conducting the examination ((at the time)) when the applicant appears for ((said)) the examination. If the applicant with a temporary permit does not appear for his examination ((upon written, certified notification, he will forfeit the fee for examination and certification: PROVIDED, That extenuating circumstances deemed sufficient by the director will be considered in excusing the applicant for failure to appear for the examination)), the permit will expire on the expiration date specified on the permit.~~

AMENDATORY SECTION (Amending Order 80-1, filed 1/16/80)

WAC 296-401-060 SPECIALTY CERTIFICATES. The department shall issue specialty electrician's certificates of competency in the following areas of electrical work:

(1) Residential. The holder of a residential certificate is limited to wiring one and two-family dwellings, or multi-family dwellings that do not exceed three floors above grade. All wiring shall be in nonmetallic sheathed cable, except service and feeder wiring.

(2) Domestic appliances. The holder is limited to the electrical connection of domestic appliances and their wiring, such as hot water heaters, ranges, dishwashers, clothes dryers, oil and gas furnaces, and similar appliances. The holder may also install the circuits to domestic appliances but may not install service or feeder wires.

(3) Pump and irrigation. The holder is limited to the electrical connection of domestic and irrigation water pumps, circular irrigating systems, and related pumps and pump houses. The holder may also install the circuits, feeders, controls, and services necessary to supply electricity to the pumps.

(4) Limited energy system. The holder is limited to installing signaling circuits, power limited circuits, and related equipment. Such equipment includes fire protection signaling systems, intrusion alarms, nonutility-owned communication systems, and similar low energy circuits and equipment.

(5) Signs. The holder is limited to placing and connecting signs and outline lighting and their electrical supply, controls, and associated circuit extensions.

(6) Nonresidential maintenance. The holder is limited to maintaining, repairing and replacing electrical equipment and conductors on industrial or commercial premises. This specialty certificate does not include maintenance activities in hotel, motel or dwelling units.

AMENDATORY SECTION (Amending Order 81-5, filed 2/27/81, effective 4/1/81)

WAC 296-401-160 ENFORCEMENT. (1) The department shall ensure that employers and employees subject to chapter 19.28 RCW comply with that chapter and chapter 296-401 WAC by inspecting electrical job sites. The inspections shall be made by the department's compliance officers, or electrical inspectors.

(2) The compliance officer or electrical inspector shall determine whether:

(a) Each person doing electrical work on the job site has a proper journeyman, specialty, or trainee certificate;

(b) The ratio of the certified journeyman electricians to the certified trainees on the job site is correct; and

(c) Each certified trainee is directly supervised by an individual with a journeyman or specialty certificate of competency.

(3) If the compliance officer or electrical inspector determines that an employer or employee has violated chapters 19.28 RCW or 296-401 WAC, the department shall issue a ((notice of violation)) cease and desist order that describes the reason the employer or employee has violated chapters 19.28 RCW or 296-401 WAC ((and prescribes a time for abatement of the violation).

~~(4) If the employer or employee has not abated the violation within the time prescribed in the notice of violation issued pursuant to subsection (3), the department may:~~

~~(a) Inform the electrical inspection section and the electrical utility that the electrical worker or workers on the job site are in violation of chapters 19.28 RCW or 296-401 WAC pursuant to the authority granted in RCW 19.28.620. The electrical inspection section shall prohibit the connection of electrical service and the utility shall not connect the electrical service until the department is satisfied that the electrical work complies with chapters 19.28 RCW and 296-401 WAC.~~

~~(b) Ask the attorney general to begin an action to collect the civil penalties provided for in RCW 19.28.620; and~~

~~(c) Issue a cease and desist order that forbids future conduct that is similar to the violation. The order shall take effect immediately when it is received by the employer or employee to whom it is directed.~~

~~(5))~~ (4) The employer or employee to whom a cease and desist order is directed may request a hearing pursuant to WAC 296-401-170; however, the request shall not stay the effect of the order. If the employer or employee disobeys the cease and desist order, the department shall apply to the superior court for a court order enforcing the cease and desist order. If the employer or employee disobeys the court order, the department shall request the attorney general to apply to the superior court for an order holding the employer or employee in contempt of court.

NEW SECTION

WAC 296-401-165 ELECTRICAL LICENSE AND ADMINISTRATOR CERTIFICATE DESIGNATION. See RCW 19.28.120. (1) General electrical license and/or administrator's certificate encompasses all phases of electrical installations for heat, light and power.

(2) Specialty (limited) electrical licenses and/or administrator's certificates are as follows:

(a) Residential: Limited to the wiring of one and two family dwellings, or multi-family dwellings not exceeding three floors above grade. All wiring to be in nonmetallic sheathed cable, except service and/or feeders.

(b) Domestic appliances: Limited to the electrical connection of household appliances and the wiring thereto; such as hot water heaters, ranges, dishwashers, clothes dryers, oil and gas furnaces and similar appliances. This specialty license includes circuits to the appliances; however, it does not include the installation of service and/or feeders.

(c) Pump and irrigation: Limited to the electrical connection of domestic and irrigation water pumps, circular irrigating systems and related pumps and pump houses. This specialty license includes circuits, feeders, controls and services to supply said pumps.

(d) Limited energy system: Limited to the installation of signaling and power limited circuits and related equipment. Such license includes the installation of fire protection signaling systems, intrusion

alarms, nonutility owned communication systems and such similar low energy circuits and equipment.

(e) Signs: Limited to the placement and connection of signs and outline lighting, the electrical supply, related controls and associated circuit extensions thereto.

(f) Nonresidential maintenance: Limited to maintenance, repair and replacement of electrical equipment and conductors on industrial or commercial premises. This specialty certificate or license does not include maintenance activities in hotel, motel, or dwelling units.

NEW SECTION

WAC 296-401-175 ELECTRICAL CONTRACTOR LICENSE, JOURNEYMAN, SPECIALTY AND TRAINEE CERTIFICATE, EXAMINATION AND COPY FEES.

- (1) General electrical contractor license (annual) - \$200
- (2) Specialty electrical contractor license (annual) - \$150
- (3) Administrator certificate examination - \$ 50
- (4) Administrator certificate renewal (annual) - \$ 20
- (5) Late renewal of administrator certificate - \$ 40
- (6) Journeyman or specialty certificate (annual) - \$ 25
- (7) Journeyman or specialty examination - \$ 50
- (8) Trainee certificate (annual) - \$ 20
- (9) Certified copy of bond - \$ 2

REPEALER

The following sections of the Washington Administrative Code are repealed:

- (1) WAC 296-401-010 EXAMINATION AND FEES.
- (2) WAC 296-401-070 ELIGIBILITY FOR SPECIALTY EXAMINATION.
- (3) WAC 296-401-130 ANNUAL RENEWAL OF ELECTRICAL JOURNEYMAN, SPECIALTY, AND TRAINEE CERTIFICATES.
- (4) WAC 296-401-140 SUPERVISION OF TRAINEES IN THE ELECTRICAL TRADES.

**WSR 83-18-057
PROPOSED RULES
DEPARTMENT OF REVENUE
[Filed September 6, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Revenue intends to adopt, amend, or repeal rules concerning:

- New WAC 458-12-326 Revaluation—Definitions.
- New WAC 458-12-327 Revaluation—Valuation criteria—Methods.
- New WAC 458-12-342 New construction—Assessment.
- New WAC 458-12-343 New construction—Reports.
- Amd WAC 458-12-335 Revaluation process by county assessor.
- Amd WAC 458-12-336 Assessor's revaluation plan.
- Amd WAC 458-12-337 Revaluation process—Reports.
- Amd WAC 458-12-339 Revaluation process—Valuation procedure—Uniformity within cyclical period;

that the agency will at 3 p.m., Tuesday, October 18, 1983, in the General Administration Building, Room 415, Olympia, Washington, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 84.08.010 and 84.41.090.

The specific statute these rules are intended to implement is RCW 36.21.040 through 36.21.080 and 84.41.041.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 14, 1983.

Dated: September 6, 1983
By: Trevor W. Thompson
Assistant Director

STATEMENT OF PURPOSE

This statement of purpose, prepared in compliance with RCW 34.04.045, accompanies proposed rules to be promulgated by the Department of Revenue, as follows:

Title: Revaluation of property (WAC 458-12-326 through 458-12-339) and the assessment of new construction (WAC 458-12-342 and 458-12-343).

Purpose: To establish methods of annually updating the value of real property and the valuation and assessment of new construction.

Statutory Authority: RCW 84.41.090 requires the Department of Revenue to establish rules for adjusting the value of property between physical inspections and for the general guidance and assistance of county assessors.

Summary and Reasons for the Rules: Chapter 46, Laws of 1982 1st ex. sess. changed the assessment date of new construction and the time frame in which the county assessor must physically inspect all real property in the county. These new and amendatory sections are to comply with those changes.

Drafter of the Rule, Rule Implementation and Enforcement: Trevor W. Thompson, Evergreen Plaza Building, Room 301, 711 South Capitol Way, Olympia, Washington 98501, (206) 753-5503.

Proposer of the Rule: Department of Revenue, Olympia, Washington 98504.

Comments and Recommendations: None.

Federal Law or Court Action Citation: No federal laws involved or action required by the courts.

NEW SECTION

WAC 458-12-326 REVALUATION—DEFINITIONS. Unless the context clearly indicates otherwise, the following definitions shall apply to WAC 458-12-327 through 458-12-339.

(1) "Appropriate statistical data" shall be the data required to adjust real property values in the intervals between physical inspection and appraisal. It shall include but not be limited to real property market trends and new building costs.

(2) "Physical inspection" shall mean an exterior observation of the property to check against the property improvement record to determine any change in the physical characteristics that would affect value.

NEW SECTION

WAC 458-12-327 REVALUATION—VALUATION CRITERIA—METHODS. (1) When changes in the physical characteristics of a property are discovered, the assessor's records shall be corrected to reflect the changes. The property shall then be valued according to WAC 458-12-301 and 458-12-305 and placed on the current year's assessment rolls. All real property in the county shall be physically appraised in accordance with WAC 458-12-301, 458-12-305 and 458-12-326 through 458-12-339.

(2) Statistical updating shall be accomplished in the following manner.

(a) The value shall be adjusted using current sales data;

(b) The subject property is to be compared to properties that have sold within comparable areas;

(c) Properties shall be valued or adjusted based upon the following uses.

- (i) Single family residential
- (ii) Residential 2 - 4 units
- (iii) Residential multiple units (5 or more)
- (iv) Residential hotels, condominiums
- (v) Hotels/motels
- (vi) Vacation homes and cabins
- (vii) Retail
- (viii) Warehouse
- (ix) Office and professional services
- (x) Commercial other than listed
- (xi) Manufacturing
- (xii) Agricultural
- (xiii) Further subclasses may be included as needed.

(3) The valuation or adjustment of values shall be accomplished through the use of one or more of the following methods.

- (a) Multiple or linear regression
- (b) Sales ratios
- (c) Physical appraisal, or
- (d) Any other accepted appraisal method.

AMENDATORY SECTION (Amending Order 73-5, filed 8/13/73)

WAC 458-12-335 REVALUATION PROCESS BY COUNTY ASSESSOR. Each county assessor shall maintain an active and systematic program of revaluation on a continuous basis and shall establish and maintain a schedule which will result in revaluation of all taxable real property within the county at least once every four years. Those counties on a revaluation plan that provides for a physical inspection on a five or six year cycle shall adjust the valuation of such property annually during the interval years. The adjustments are to be made based on appropriate statistical data. The valuation, appraisal or adjustment of value shall be placed on the current assessment roll for taxes payable the following year (RCW 84.41.030).

The county assessor shall submit ((a revaluation plan)) to the department of revenue on or before ((September 1, 1973. A revaluation plan shall also be submitted on or before September 1 of the year prior to the beginning of each)) March 1st of the year beginning a new revaluation cycle a new ((four year)) revaluation ((cycle)) plan.

((In those counties where a four year cyclical revaluation plan is in operation on or before the September 1, 1973 filing date as provided above, that plan shall be submitted to the department of revenue for approval.

All other counties shall submit a revaluation plan that will result in revaluation of all taxable real property in the county in accordance with RCW 84.41.030.))

As a part of the annual progress report as provided in WAC 458-12-337, the assessor shall update the original revaluation plan and submit additions or corrections to the plan. Substantive deviations from the original revaluation plan must be approved by the department of revenue.

AMENDATORY SECTION (Amending Order 73-5, filed 8/13/73)

WAC 458-12-336 ASSESSOR'S REVALUATION PLAN. (1) In order to proceed systematically in accomplishing revaluation, the assessor shall prepare a schedule showing the workload distribution in the county and the manner in which appraisers will be assigned to complete the revaluation ((at least once every four years)) cycle. ((P.T.B. 232, 6-8-55))

In most instances it may be desirable to divide the county into suitable subdivisions recognizing taxing district boundaries for orderly completion of the program. (AGO 53-55 No. 117))

The revaluation plan must be sufficiently detailed to show that the assessor can successfully complete the revaluation program and contain among other items the following:

- ((+)) (a) Comprehensive analysis of numbers of properties to be appraised by revaluation area;
- ((+)) (b) Specific geographical revaluation areas, taxing districts, or parcels;
- ((+)) (c) Appraisal workload and number of personnel required;
- ((+)) (d) Available staff;
- ((+)) (e) Required additional staff;
- ((+)) (f) Contract work or special assistance;
- ((+)) (g) Equipment, supplies, space.

When the parcel method is used for establishing revaluation areas, the property records shall be permanently coded as to which year or phase of the revaluation cycle the property will be physically inspected. The revaluation plan shall be reviewed by the department of revenue. If the revaluation plan is not approved by the department, the county assessor shall, with the assistance of the department of revenue, develop a revaluation plan that will comply with the provisions of RCW 84.41.030.

(2) In order to show that all real property will be valued according to law, the plan shall also include:

- (a) The method of valuation; and
- (b) A statement that all property will be valued at one hundred percent of its true and fair value unless specifically provided otherwise by law (RCW 84.40.030).

AMENDATORY SECTION (Amending Order 73-5, filed 8/13/73)

WAC 458-12-337 REVALUATION PROCESS—REPORTS. ((A progress report shall be filed with the department of revenue showing the progress of the revaluation plan for the period of July 1 through December 31. Such report shall be filed prior to April 15.))

The annual progress report as required in RCW 84.41.130 shall be filed prior to October 15 and shall be for the period related to the January 1 assessment date of that year ((which shall cover fiscal year July 1 to June 30)).

The assessor shall require work reports of his employees, or of contractors, which shall be the basis of the progress reports.

The department of revenue shall supply the forms for the required reports.

AMENDATORY SECTION (Amending Order 73-5, filed 8/13/73)

WAC 458-12-339 REVALUATION PROCESS—VALUATION PROCEDURE—UNIFORMITY WITHIN CYCLICAL PERIOD. All appraisals made as part of the revaluation program shall reflect current market value which shall be determined in accordance with WAC 458-12-301 and 458-12-305.

All real property being valued shall be physically inspected at least once every four years in order to provide adequate data from which to make accurate valuations: PROVIDED, That if the county has a department of revenue approved plan that requires annual valuation adjustments of all properties each year, the physical inspections shall be made at least once each revaluation cycle, as approved, in a uniform and cyclical manner.

((During the interval between each physical inspection,)) Any county on less than a five year revaluation cycle may adjust the valuation of real property ((may be adjusted)) to current true and fair value using appropriate statistical data during intervals between physical inspections. (RCW 84.41.040)

When records have been developed on every parcel of property, showing sufficient data on which to base accurate valuation, the process of periodic physical inspection will serve to insure ((+)) (1) that all taxable property is listed, and ((+)) (2) that data on each parcel is kept reasonably up-to-date, for comparison with data on similar property which have sold, and ((+)) (3) that the property has been observed as a whole including its environmental elements ((amenities)) amenities to the extent necessary to arrive at an estimate of current market value.

Manuals and procedures prescribed or approved by the department of revenue in accordance with WAC 458-12-305 shall be used in all appraisals. (P.T.B. 231, 6-7-55; AGO 57-58, 1-8-57)

In complying with the mandate of RCW 84.41.030 and Dore vs. Kinnear 79 Wn.2d 755, a substantially equal amount of taxable property must be revalued and placed upon the assessment roll in each year of the cyclical process in order to comply with the equal protection requirements of the state and federal constitutions and the uniformity of taxation clauses of the state constitution.

Cyclical revaluation on a value or workload basis can be considered where severe administration problems are evident on a strictly parcel count basis.

NEW SECTION

WAC 458-12-342 NEW CONSTRUCTION—ASSESSMENT. (1) New construction covered under the provisions of RCW 36.21.040 through 36.21.080 shall be assessed at its true and fair value as of July 31st each year regardless of its percentage of completion according to the following rules.

(a) A physical appraisal of new construction may be made at any stage of completion but shall be made if fifty percent or more complete.

(b) New construction that is not fifty percent complete may be valued and assessed without a physical appraisal if based upon the owner's report authorized by RCW 84.41.041 and WAC 458-12-343.

(2) The assessor is authorized to place new construction on the assessment rolls up to August 31st each year and shall notify the owner of the value of any new construction that has been assessed. The notice shall advise the owner that he has thirty days to appeal the valuation to the county board of equalization as provided for in WAC 458-14-120.

NEW SECTION

WAC 458-12-343 NEW CONSTRUCTION—REPORTS. The county assessor is authorized to require property owners to submit pertinent data respecting the cost and characteristics of any improvements on their property (RCW 84.41.041). When requiring owners to report costs associated with new construction, the assessor shall use forms prescribed or approved by the department of revenue, which forms shall require the total investment in the improvements as of the new construction assessment date. The forms shall also require the percentage of completion of the major components of the improvements.

The reporting forms may be sent to the owners of any property upon which a building permit has been issued for two months prior to the new construction assessment date.

The owner shall return the reporting form to the assessor, properly filled out, within thirty days of receipt.

PROPOSED RULES
DEPARTMENT OF ECOLOGY
[Filed September 6, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Ecology intends to adopt, amend, or repeal rules concerning Mason County, amending WAC 173-19-310;

that the agency will at 7:00 p.m., Wednesday, October 19, 1983, in the Courtroom, County Courthouse, 4th and Alder, Shelton, Washington, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on Thursday, November 3, 1983, at 2:00 p.m., Room 273, WDOE Headquarters, St. Martin's Campus.

The authority under which these rules are proposed is RCW 90.58.120 and 90.58.200.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 25, 1983.

Dated: September 2, 1983

By: John F. Spencer
Deputy Director

STATEMENT OF PURPOSE

Title: Amending WAC 173-19-310, Mason County.

Description of Purpose: Adoption of revised shoreline master programs into the state master program, chapter 173-19 WAC.

Statutory Authority: RCW 90.58.120 and 90.58.200.

Summary of Rule Changes: The amendment adopts revisions to shoreline master program for Mason County.

Reasons Supporting Proposed Action: Shoreline master programs and revisions thereto are developed by local government and submitted to the Department of Ecology for approval. The programs do not become effective until adopted by the department in accordance with the Administrative Procedure Act.

Agency Personnel Responsible for Drafting, Implementation and Enforcement: Jeanne Holloman, Department of Ecology, Mailstop PV-11, Olympia, WA 98504, 459-6287.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: None.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: No.

Small Business Economic Impact Statement: The Regulatory Fairness Act, chapter 19.85 RCW, requires that rules which have an economic impact on more than 20 percent of all industries or more than 10 percent of the businesses in any one industry be reviewed and altered to minimize their impact on small businesses. This regulation would impact the sand and gravel mining industry (Standard Industrial Classification (SIC) 144). According to March 1982 data from the Employment Security Department, all businesses in SIC 144 are small businesses (less than 50 employee), with the average size being 6 employees. Therefore, no comparison can be made of impact between large and small firms.

AMENDATORY SECTION (Amending Order DE 82-18, filed 6/28/82)

WAC 173-19-310 MASON COUNTY. Mason County master program approved August 6, 1975. Revision approved December 18, 1975. Revision approved February 22, 1980. Revision approved June 23, 1982. Revision approved November 3, 1983.

**WSR 83-18-059
PROPOSED RULES
DEPARTMENT OF ECOLOGY
[Filed September 6, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Ecology intends to adopt, amend, or repeal rules concerning motor vehicle emission inspection, amending chapter 173-422 WAC;

that the agency will at 2:00 p.m., Tuesday, October 11, 1983, in the King County Library, 300 8th North, Seattle, WA, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 23, 1983.

The authority under which these rules are proposed is RCW 70.120.120, 43.21A.080, 70.94.331 and 70.94.141(1).

The specific statute these rules are intended to implement is chapter 70.120, 43.21A and 70.94 RCW.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before November 16, 1983.

Dated: September 2, 1983
 By: John F. Spencer
 Deputy Director

STATEMENT OF PURPOSE

Title: Amending chapter 173-422 WAC, Motor vehicle emission inspection.

Description of Purpose: Designates parts of the city of Spokane as a noncompliance area for carbon monoxide, modifies emission standards; changes test procedure for 1981 and newer Ford products to include stop and restart prior to testing; modifies testing equipment calibration requirements; identifies penalties for fraudulent actions in obtaining certificates and exemption; and minor revisions.

Summary of Rule: Establishes motor vehicle emission inspection program in areas where needed to meet air quality standards.

Reasons Supporting Proposed Action: Required by state law RCW 70.120.040(1)(b); increases emission reduction obtained while minimizing public inconvenience by more effective identification of those vehicles whose emissions can be greatly reduced; these vehicles may fail the test needlessly because a portion of the emission control system is deactivated with extended idling; allows test station flexibility in select hourly calibration gas concentrations without sacrificing federal warranty protection to vehicle owner; activation of available civil sanctions is desired to combat obtaining certificates and exemptions by fraud; and many minor revisions are to simplify or clarify wording, add new zip codes (no actual change in test area), add new exemptions provided for by law.

Agency Personnel Responsible for Drafting, Implementation and Enforcement: John Raymond, Department of Ecology, Mailstop PV-11, Olympia, WA 98504, 459-6261.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: None.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: No.

Small Business Economic Impact Statement: Small business will not be affected differently than large business. Any automotive repair facility doing tune-ups could have more business.

The Regulatory Fairness Act, chapter 19.85 RCW, requires that rules which have an economic impact on more than 20 percent of all industries or more than 10 percent of the businesses in any one industry be reviewed and altered, if necessary, to minimize their impact on small businesses.

Chapter 173-422 WAC requires that all motor vehicles not specifically exempted which are registered within the boundaries of an emission contributing area are subject to vehicle emission inspection requirements.

The inspections are performed by a state contractor. However, repair work to correct a vehicle which fails to meet the emission standards may be performed by an entity of the vehicle owner's choice.

Businesses which may be impacted by this regulation in its current form, or as proposed to be revised, may be classified in Standard Industrial Classification (SIC) 501, 551, 552, 553, 554, or 559. Table 1 displays the total number of employer units and employees, and the number of employer units and employees in businesses employing less than 50 employees (small business), throughout the state. Data is not available for subareas, as defined in the regulation. However, businesses in King County equal approximately 30 percent of the businesses in the state in SIC 55, therefore, it is assumed that this regulation impacts more than 10 percent of the businesses in any one industry.

As is shown by Table 1, most of the businesses in these industrial classifications are small businesses. Economic impact on these businesses, as compared to large businesses, will be determined by market conditions, rather than by adoption of this regulation.

Table 1: Employer Units and Employees, March 1982, Washington State

SIC	Description	All Businesses Emp. Units	Employees	Small Businesses ^{1/} Emp. Units	Employees
Wholesale trade					
501	Automobiles & parts	575	6,082	552	4,239
Retail trade					
551	New & used car dealers	455	11,656	394	7,482
552	Used car dealers	232	683	232	683
553	Auto & home supply stores	706	5,643	696	4,690
554	Gasoline service & stations & auto dealers, not elsewhere classified	1,778	9,190	1,764	8,237

^{1/} Less than 50 employees

AMENDATORY SECTION (Amending Order DE 79-35, filed 2/28/80)

WAC 173-422-010 PURPOSE. This chapter implements (~~chapter 163, Laws of 1979 ex. sess~~) the Washington Clean Air Act, chapter 70.94 RCW, as supplemented by the motor vehicle emission inspection provisions codified as chapter 70.120 RCW.

Motor vehicles are the primary emitters of carbon monoxide and emit significant quantities of hydrocarbons and oxides of nitrogen. Emission controls required by the federal government are designed to reduce motor vehicle related air pollution. However, the effectiveness of these controls is substantially reduced through deterioration, maladjustment and tampering. Motor vehicle emission inspection serves to identify high polluting vehicles and to reduce emissions, when such can be accomplished at reasonable cost. These rules establish the emission standards, testing procedures, and associated activities necessary to implement (~~the governing legislation~~) a program of air pollution prevention and control involving motor vehicle emission inspections.

AMENDATORY SECTION (Amending Order DE 79-35, filed 2/28/80)

WAC 173-422-020 DEFINITIONS. Unless a different meaning is clearly indicated by context, the following definitions will apply:

(1) "Accuracy" means the degree of correctness by which the true value of a measured sample is determined.

(2) "Calibration gases" mean a blend of hydrocarbon (propane), carbon monoxide (CO), and carbon dioxide using nitrogen as carrier gas. The concentrations are to be traceable to within two percent of NBS standards.

(3) "Certificate of acceptance" means an official form, issued by someone authorized by the department, which certifies that all of the following conditions have been met: The recipient's vehicle initially failed to comply with applicable emission standards, (~~more than fifty dollars of expenditures for repairs/parts were spent on the vehicle solely to meet such~~) the recipient has provided original receipts proving that more than fifty dollars were spent after the first test and before the final test on repairs and/or parts solely to meet emission standards, the vehicle on final reinspection again failed to meet such standards, and (~~inspection fees have been paid~~) the repair information section of the test report has been completed.

(4) "Certificate of compliance" means an official form, issued by someone authorized by the department, which certifies that the following conditions have been met: The recipient's vehicle on inspection complied with applicable emission standards and inspection fees have been paid.

(5) "Dealer" means a motor vehicle dealer, as defined in RCW 46.70.011, that is licensed pursuant to chapter 46.70 RCW.

(6) "Department" means the department of ecology.

(7) "Drift" means the change in the reading of the analyzer to a given sample over a period of time with no adjustment to the analyzer having been made between the initial and final measurements.

(8) "Emission contributing area" means a land area within whose boundaries are registered motor vehicles that contribute significantly to the violation of motor vehicle related air quality standards in a non-compliance area. (The inspection program implemented by this chapter applies only to vehicles registered in emission contributing areas.)

(9) "Farm vehicle" means any vehicle other than a farm tractor or farm implement which is designed and/or used primarily in agricultural pursuits on farms for the purpose of transporting machinery, equipment, implements, farm products, supplies, and/or farm labor thereon and is only incidentally operated on or moved along public highways for the purpose of going from one farm to another.

(10) "Fleet" means a group of twenty-five or more motor vehicles owned or leased concurrently by one person.

(11) "Gaseous fuel" means liquefied petroleum gases and natural gases in liquefied or gaseous forms.

(12) "Gross vehicle weight (GVW)" means the manufacturer stated gross vehicle weight rating.

(13) "HC and CO emissions" means the concentration of hydrocarbons (measured as n-hexane) and carbon monoxide in the engine exhaust.

(14) "Motor vehicle" means any self-propelled vehicle required to be licensed pursuant to chapter 46.16 RCW.

(15) "Motorcycle" means every motor vehicle having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a farm tractor.

(16) "NBS" means National Bureau of Standards.

(17) "Noncompliance area" means a land area within whose boundaries any air quality standard for any air contaminant from the emissions of motor vehicles will probably be exceeded after December 31, 1982.

(18) "PPM" means parts per million by volume.

(19) "Repeatability" means the ability of an analyzer to report the same value for successive measurements of the same sample.

(20) "Response" means how quickly there is a change in reading following a change in concentration at the sample probe inlet.

(21) "Sensitivity" means the smallest change in the value of a measured sample that can be detected by the analyzer.

(22) "Zero calibration gases" means air or nitrogen in which total impurities do not exceed 0.01 percent.

AMENDATORY SECTION (Amending Order DE 79-35, filed 2/28/80)

WAC 173-422-030 VEHICLE EMISSION INSPECTION REQUIREMENT. All motor vehicles, not specifically exempted by WAC 173-422-170, which are registered or reregistered within the boundaries of an emission contributing area, as specified in WAC 173-422-050, are subject to the vehicle emission inspection requirements of this chapter. (~~After January 1, 1982, all motor vehicles subject to this chapter shall be tested for emissions at an authorized inspection facility and shall not be licensed or have the license renewed unless a certificate of compliance or acceptance has been issued for the vehicle within ninety days prior to the date of licensing or renewing the license.~~

All motor vehicles which are being registered or reregistered in emission contributing areas specified in WAC 173-422-050, and

~~which are not exempted by WAC 173-422-170, shall be subject to this chapter-)) Neither the department of licensing nor its agents may issue or renew a motor vehicle license for any vehicle registered in an emission contributing area, as that area is established under RCW 70.120.040, unless the application for issuance or renewal is: (1) Accompanied by a valid certificate of compliance issued pursuant to RCW 70.120.060, 70.120.080, or 70.120.090 or a valid certificate of acceptance issued pursuant to RCW 70.120.070; or (2) exempted from this requirement pursuant to RCW 46.16.015(2). The certificates must have a date of validation which is within ninety days of the date of application for the vehicle license or license renewal. Certificates for fleet vehicles may have a date of validation which is within twelve months of the assigned license renewal date.~~

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-040 NONCOMPLIANCE AREAS. (~~As based on monitoring data and projections for 1982;)) The following areas are designated noncompliance areas for the air contaminants specified (these areas are set forth on maps on file with the department):~~

(1) Carbon monoxide

(a) (~~The following parts of Seattle: The Central Business District, the Rainier Valley Corridor, the University District, and the Fremont District.~~

(b) ~~The following part of Bellevue: The Central Business District.~~

(c) ~~In relation to Spokane, analysis of monitoring, data, and projections indicate that the Central Business District of that city may be a noncompliance area for carbon monoxide after December 31, 1982. However, this analysis is based on calculations which do not take into account all various means of emission reduction, other than vehicle inspection, which the city has proposed to implement in the near future. Therefore, no noncompliance area in Spokane is designated at this time. If, on technical analysis, the Spokane program is found to be adequate to achieve carbon monoxide compliance by December 31, 1982, no such noncompliance designation will be made. If the contrary is found, some portion of Spokane will have to be designated a noncompliance area for carbon monoxide. In the meantime, certain zip codes are set forth in this chapter on a standby basis to describe what the emission contributing area in Spokane County would be if a noncompliance area were designated-)) Parts of the city of Seattle.~~

(b) ~~Parts of the city of Bellevue.~~

(c) ~~Parts of the city of Spokane.~~

(2) Ozone

The Central Puget Sound Basin.

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-050 EMISSION CONTRIBUTING AREAS. Emission contributing areas within which the motor vehicle emission inspection program will apply are designated by the following United States Postal Service ZIP codes as of the effective date of this regulation.

(1) Puget Sound Region

98004	98007
98005	98008
98006	98009
98011	98040
98012	98043
98020	98052
98021	
98027	98055
	98056
	98057
98028	98062
98033	98063
98036	98072
98039	98101 thru 98199,
98041	inclusive except 98110

(2) Spokane Region. The designations below shall apply only if local programs for reducing motor vehicle related air contaminants by means other than inspection and maintenance are not demonstrated to the satisfaction of the United States Environmental Protection Agency to bring the area hereby designated into compliance with applicable air quality standards (~~by December 31, 1982~~)).

99201	99206
99202	99207
99203	99208
99204	99216
99205	99218

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-060 EMISSION STANDARDS. Motor vehicles subject to this chapter shall meet the following emission standards prior to receiving a certificate of compliance. ~~((C) standards apply in emission contributing areas related to noncompliance areas for carbon monoxide. HC standards apply in emission contributing area related to noncompliance areas for ozone.))~~

Model Year	STANDARDS		HC(ppm)	
	CO(%) 4 or less* ((Cyl.)) Cyl.	More Than 4 Cyl.	((4 or less* Cyl.))	More Than 4 Cyl.
69	8.0	8.0	1000	1000
70-74	7.0	6.0	900	700
75-80	5.0	4.0	700	650
81 and later))	3.0	3.0	300	300
70-74	6.0	5.0	1000	
75-78	3.0	3.0	800	
79 and later	3.0	3.0	600	

When 1979 and later model vehicles were manufactured with a catalytic converter the standards are:

2.0	1.5	300
-----	-----	-----

*Includes all rotary engines

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-070 TEST PROCEDURES. All persons certified by, or under contract to, the department to conduct motor vehicle emission inspections shall use the following test procedures. Variations to the procedures specified may be used if approved by the department after receipt of evidence that such changes will not interfere with the validity of the test.

- (1) An idle mode test shall be used to measure vehicle exhaust emissions for carbon monoxide, hydrocarbons, and carbon dioxide.
- (2) The engine shall be at normal operating temperature during the emission test with all accessories off.
- (3) Any vehicle causing an unsafe condition, such as the continuous leaking of any fluid onto the floor, may be rejected from the inspection site.
- (4) Vehicles shall be approximately level during the test.
- (5) Vehicles with more than one exhaust pipe shall be tested by sampling each tail pipe and averaging the results, unless the exhaust pipes originate from a common point in the exhaust system.
- (6) The following steps shall be taken to prevent excessive dilution. The exhaust sample probe must be inserted at least ten inches into the tail pipe. If this is not possible, an extension boot shall be used. The exhaust emission test results shall not be recorded if the carbon dioxide concentration does not meet or exceed five percent.
- (7) If the engine stalls during the test, the engine shall be restarted and one additional attempt will be made to complete the test.
- (8) If a vehicle is capable of being operated with either gasoline or gaseous fuels, the vehicle shall be tested using the fuel it is operating on when it enters the testing facility.
- (9) If a multiple range analyzer is used, the exhaust analyzer range shall be selected so that the standard for the vehicles being tested is between twenty-five percent and seventy-five percent of full scale, if possible.
- (10) Before testing a 1981 and later model Ford Motor Company vehicle, the engine shall be turned off and then restarted.
- (11) For all vehicles, the engine shall be accelerated to one-third to one-half throttle (about 2500 rpm), with the transmission in neutral or park, and held there for fifteen seconds.
- ~~((++))~~ (12) With the engine idling, insert the probe into the tailpipe for at least thirty seconds. The exhaust emissions averaged over

the last five seconds shall then be recorded. A shorter testing time may be used if the emission stabilization procedure in WAC 173-422-110(2)(d) is used. When readings from multiple exhaust pipes are averaged, steps 10, 11, and 12 shall be repeated for all exhaust pipes.

~~((+2) A loaded (dynamometer) test may be used when authorized by the department. However, all requirements of the idle mode test shall be met and idle emission data recorded.~~

~~((+3) No emission test shall be conducted with any analyzer that is not operating within all required specifications.))~~

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-080 VEHICLE INSPECTION DATA HANDLING PROCEDURES. All persons under contract to the state to conduct motor vehicle emission inspections shall use the following data handling procedures.

- (1) The comparison of the test results with the state's emission standards shall be automated.
- (2) The emission test results, the comparison with the state's emission standards, and certificates of compliance shall be automatically printed.
- (3) The required vehicle identification data shall be entered and validated before the emission test is started.
- (4) Vehicle identification data flagged as incorrect by the established validation checks shall be corrected before the emission test is started.
- (5) The emission test results shall be automatically printed.
- (6) All required data shall be automatically printed on the vehicle inspection reports and stored on bulk storage devices.
- (7) In the case of data handling equipment problems, the vehicle emission test reports and certificates of compliance may be manually completed, but all the data is required to be included on the bulk storage devices submitted to the department. ~~((Penalties for excessive manual operation may be assessed.))~~

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-090 EXHAUST ANALYZER SPECIFICATIONS. Only exhaust analyzers meeting the following specifications at the time of certification testing may be used for certification testing. The department will maintain a list of analyzers that have been certified by the manufacturers as meeting the specifications at the time of manufacture. The department does not require the use of these analyzers or guarantee the performance of these analyzers. Any person authorized by the department to certify vehicles is solely responsible for insuring that the testing equipment is operating within the following specifications at the time of certification testing.

(1) Accuracy: The readings or the printed test results of the exhaust analyzers compared to the true value of a measured sample shall have the following accuracy tolerances.

HC - Measured as n - hexane	
0 to ((+000)) 600 ppm	±30 ppm
((+000)) 600 to 2000 ppm	((±100 ppm))
	±5%
CO	
0 to 5%	±0.2 %
5 to 10%	±0.5 %
CO ₂	
((0 to 12%))	((±1%))
4 to 6%	±1/2%

- (2) Calibration: The analyzer shall have the capability of being calibrated electronically and ~~((or))~~ by gas.
- (3) Drift: The drift of the zero reading or any calibration reading of each analyzer shall not exceed ((±))20 ppm HC, ((±))0.1% CO ~~((and ±))~~ or 0.5% CO₂ in one hour.
- (4) Flow restriction indicator: The analyzer shall be operated within manufacturer's specifications for sample flow. The sampling system shall be equipped with a visual and/or audible warning that sample flow is not within operating requirements.
- (5) Interference effects: Sampling the following concentrations of noninterest gases shall not cause the HC reading to change ±10 ppm: 15% CO₂ in N₂, 10% CO in N₂, 3000 ppm NO in N₂, 10% O₂ in N₂, and 3% H₂O vapor in air.

Sampling the following concentrations of noninterest gases shall not cause the CO reading to change $\pm 0.05\%$: 15% CO₂ in N₂, 1600 ppm HC in N₂, 3000 ppm NO in N₂, 10% O₂ in N₂, and 3% H₂O vapor in air.

Sampling the following concentrations of noninterest gases shall not cause the CO₂ reading to change $\pm 0.5\%$: 1600 ppm HC in N₂, 10% CO in N₂, 3000 ppm NO in N₂, 10% O₂ in N₂, and 3% H₂O vapor in air.

(6) Repeatability: The repeatability of the exhaust analyzers used shall be within $(\pm)10$ ppm HC, $(\pm)0.05\%$ CO and $(\pm)0.2\%$ CO₂ during five successive measurements of the same sample.

(7) Response: The response of the exhaust analyzers shall be at least ninety-five percent of the final value within fifteen seconds.

(8) Sensitivity: The sensitivity of each analyzer shall be equal to or less than 10 ppm HC, 0.05% CO and 0.2% CO₂.

~~(9) (Temperature and humidity operating range: The analyzer shall be capable of meeting all specifications from zero to eighty-five percent relative humidity and 35°F to 110°F temperature.~~

~~(10) Range of measurement: The analyzer shall have a range equal to or greater than 0-2000 ppm HC (n-Hexane), 0 to 10% CO, and 0 to (at least 10%) 6% CO₂.~~

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-100 TESTING EQUIPMENT MAINTENANCE AND CALIBRATION. (1) Unless alternative procedures have been approved or required by the department all equipment used in the inspection shall be calibrated and maintained according to the manufacturer's specifications and recommendations. Complete logs as approved by the department shall be kept for maintenance, repair, and calibration.

(2) The following procedures shall be followed by all testing facilities unless equivalent procedures have been approved by the department. Exhaust analyzers and all electronic components necessary for producing gas concentration results shall be warmed up for at least thirty minutes prior to performing any test (or) on equipment, calibration, span, or zero checks:

(a) Each test. Before each test can start, the exhaust analyzer readings must be less than 20 ppm HC, 0.1% CO and 0.5% CO₂. If during a test the sampling system flow restriction indicator becomes activated, the test shall be stopped and restarted after the necessary repairs to the analyzer have been completed.

(b) Hourly check. The exhaust analyzer shall not be used to test vehicles unless within an hour prior to the test it was spanned with a calibration gas. The following procedure shall be used:

(i) Adjust the exhaust analyzer using the electronic span.

(ii) Adjust the exhaust analyzer to zero using ambient air or zero calibration gas.

(iii) Check the calibration of the exhaust analyzer using a calibration gas ((with a CO concentration of 0.6 to 2.4% and a HC concentration 110 to 440 ppm measured as n-hexane)).

(iv) Adjust and repair as necessary to insure the accuracy specified in WAC 173-422-090.

~~((v) If adjustments or repairs were performed, check and adjust the electronic span and zero, then check the span point using the calibration gas without further adjustments. The analyzer shall not be used for certification testing unless all readings are within the accuracy limits specified in WAC 173-422-090:))~~

(c) Weekly check. The exhaust analyzer shall not be used to test vehicles unless within one week prior to the test it was spanned with a calibration gas. The following procedure shall be used:

(i) Adjust the exhaust analyzer using the electronic span.

(ii) Adjust the exhaust analyzer to zero using ambient air or zero calibration gas.

(iii) Check the calibration of the exhaust analyzer using a calibration gas with a CO concentration of 0.6 to 2.4%, a HC concentration of 110 to 440 ppm measured as n-hexane, and a CO₂ concentration of 4.0 to 6.0%.

(iv) Adjust and repair as necessary to insure the accuracy specified in WAC 173-422-090.

(d) Monthly check. The exhaust analyzer shall not be used to test vehicles unless a multipoint calibration has been performed within the last thirty days. ((The following procedure shall be used:

(i) Adjust the exhaust analyzer using the electronic span:

(ii) Adjust the exhaust analyzer to read zero using zero calibration gas.

(iii)) Check the calibration of the exhaust analyzer using calibration gases of approximately twenty, forty, sixty, and eighty percent for each range. (CO₂ must be present at concentrations of at least 2.0%.)

((iv)) Adjust and repair as necessary to insure the accuracy specified in WAC 173-422-090 at each calibration point.

~~((v) If adjustments or repairs were performed, check and adjust the electronic span and zero, then check calibration points using the calibration gases without any further adjustments. The analyzer shall not be used for certification testing unless all readings are within the required accuracy limits upon completion of the calibration procedure. If the barometric pressure was not within the range of 1002 to 1023 millibars (29.62" to 30.21" Hg) corrected to sea level during the calibration procedure the calibration procedure may be repeated when the barometric pressure is within the specified range.~~

~~(d)) (e) Repair check. A multipoint calibration as specified in WAC 173-422-100((e)) (d) shall be performed before the analyzer is used for certification testing following the replacement of an optical or electronic component that can cause a variation in the analyzer reading.~~

The manufacturer's recommended procedures to determine any change in the correction factor from the propane calibration gas to n-hexane readings shall be followed.

~~((e)) (f) Leak check. The exhaust analyzer shall not be used to test vehicles unless within one week prior to the testing, CO readings have been taken while introducing calibration gas through the calibration port and through the probe. Discrepancies of over 3% in the readings shall require repair of leaks. No analyzer adjustments shall be permitted during this check. Other leak check procedures may be used if it can be shown to the department's satisfaction that the method identifies leaks as well as the method in this subsection.~~

AMENDATORY SECTION (Amending Order DE 79-35, filed 2/28/80)

WAC 173-422-120 QUALITY ASSURANCE. The department, or its designee, will monitor the operation of each ((testing station)) authorized emission testing facility with unannounced, unscheduled inspections to check the calibration and maintenance of the exhaust analyzers, test procedures, and records.

Vehicle inspection reports and fiscal reports submitted by inspection station operators will be checked for completeness and accuracy. The department or its designee shall have the right to audit contractor's and subcontractor's records.

The department (or its designee) may conduct unidentified surveillance.

The department (or its designee) may require that the use of an exhaust analyzer be suspended due to a malfunction or incorrect calibration of the analyzer.

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-140 INSPECTION FORMS AND CERTIFICATES. All inspection stations shall use inspection forms and certificates provided or approved by the department. Additional diagnostic information may be provided to the vehicle operator. Other materials may be given the vehicle operator only if approved by the department.

(1) Vehicle inspection report: The driver of each vehicle tested shall be given a vehicle inspection report on a form to be provided or approved by the department. The inspection station operator shall provide the following information.

(a) Station number (lane number).

(b) Date and time of test(s).

(c) Who conducted the test(s) (name or identification number).

(d) Vehicle identification number (VIN).

(e) Odometer reading in thousands of miles.

(f) Vehicle license number.

(g) Vehicle model year.

(h) Make of the vehicle.

(i) Number of cylinders.

(j) Whether or not the vehicle was manufactured with a catalytic converter.

(k) Gross vehicle weight class.

(l) Emission test results.

(m) Applicable standards.

(n) Whether the vehicle has passed or failed the appropriate emission standards.

(o) Carbon dioxide reading.

(p) When and who issued a certificate of compliance or acceptance (name or identification number).

(q) First test or retest.

(r) All other information required on the form.

(2) Certificate of compliance: The driver of a vehicle meeting the appropriate emission standards shall be issued a certificate of compliance. A vehicle failing the initial test shall be allowed one free retest within sixty days of the initial test.

(3) Certificate of acceptance: If a vehicle has failed to pass the emission test applicable to any vehicle license year, the vehicle owner may request a certificate of acceptance. To receive the certificate of acceptance(;) the vehicle owner must provide (~~documentation of repairs completed:~~

A certificate of acceptance may be issued only if) original receipts totalling at least fifty dollars, dated between the time of the first test and the final retest, for costs of repairs and/or parts solely devoted to meeting the emission standards ((~~exceed fifty dollars. Original receipts for such repairs and parts must be provided~~)). Guidelines for obtaining a certificate of acceptance are on file with the department and printed on the emission test report.

(4) Form storage: Copies of each certificate of compliance/acceptance, and all vehicle inspection reports shall be kept on file by the contractor and be available for the department's review for one year after they are issued. This requirement includes forms that are voided for any reason.

(5) Reporting: The inspection station operator shall forward to the department within ten working days after the end of each month (a) an approved storage device containing all data collected from each inspection conducted that month, and (b) a copy of all certificates of acceptance issued that month along with the related vehicle inspection reports and repair and/or parts receipts.

Before the storage device is forwarded to the department, a backup bulk storage device shall be in the possession of the contractor. The backup bulk storage device shall be retained for one year and be available to the department upon request.

NEW SECTION

WAC 173-422-145 FRAUDULENT CERTIFICATES OF COMPLIANCE/ACCEPTANCE. (1)(a) Obtaining or attempting to obtain a certificate of compliance by (i) providing false information or (ii) any fraudulent means; or

(b) Obtaining or attempting to obtain a certificate of acceptance (i) through the use of receipts or other documentation containing false information, or (ii) without having expended more than fifty dollars after the first test and before the final test for repairs or parts solely devoted to meeting the emission standards, or (iii) any fraudulent means shall be construed as a violation of these rules implementing chapter 70.94 RCW as supplemented by chapter 70.120 RCW.

(2) Any person who commits such violation or who aids or abets another in committing the same shall be subject to a civil penalty not to exceed two hundred fifty dollars for each violation.

(3) For the purposes of this section the term "expended" refers to the net actual cost to the vehicle owner in the purchase of repairs or parts derived after the amount of any rebate, discount or cash-return has been subtracted.

(4) Any civil penalty imposed by the department hereunder shall be appealable to the pollution control hearing board as provided for in chapter 43.21B RCW.

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-160 FLEET(~~/DEALER~~) TESTING REQUIREMENTS. Self-inspection of vehicles by a fleet operator (~~or dealer~~) may be authorized by the department. The department may also authorize emission inspection of fleet (~~and dealer~~) vehicles by an automotive service or testing facility engaged by the fleet (~~or dealer~~) for such activity. Authorizations to conduct emission tests and issue certificates of compliance under this section are limited to vehicles within the fleet or fleets(~~and vehicles owned and offered for sale by dealers;~~) requesting such authorization. Any person or facility conducting fleet (~~and dealer~~) tests under authorization of this section must meet all requirements of this section.

(1) The exhaust analyzers used for certification testing shall meet the specifications in WAC 173-422-090 except (~~that CO₂ need not~~) for those that pertain to CO₂. (CO₂ does not need to be measured).

In order to utilize existing equipment as much as possible, the department may allow testing facilities to use analyzers that do not meet all the specifications of WAC 173-422-090 if the analyzers were purchased prior to December 31, 1981.

To qualify for this exception, the test facility must request a waiver for each analyzer, demonstrate to the satisfaction of the department that the analyzer and procedures being used will provide satisfactory emission tests, and obtain approval from the department prior to using the analyzer for certification testing. Any analyzer model that has been approved by the State of California Bureau of Automotive Repair will qualify for this exception.

(2) All persons engaged in testing (~~for~~) of fleet (~~or dealer~~) vehicles must comply with all provisions of this chapter except WAC 173-422-080, 173-422-100(2)(~~or~~) (d), 173-422-110, 173-422-130, 173-422-140, and 173-422-150. The check specified in WAC 173-422-100(2)(b)(i) and (ii) shall be performed within one hour prior to the test. The complete check specified in WAC 173-422-100(2)(~~or~~) (c) shall have been performed within one week prior to the test. The check specified in WAC 173-422-100(2)(~~or~~) (c), in addition to being required weekly, shall be performed after each relocation of the analyzer.

(3) All persons conducting tests for the purpose of issuing certificates for fleets (~~or dealers~~) shall demonstrate to the satisfaction of the department the knowledge and capability to calibrate and operate emission testing equipment, and perform an emission test according to WAC 173-422-070.

(4) The department will provide test forms upon request. Fully completed forms (~~forms must be legible with no erasures or changes~~) with appropriate signature(s) will constitute certificates of compliance for licensing purposes. Any person conducting testing under this section shall forward to the department within ten working days after the end of each month, a copy of each certificate of compliance(~~and one dollar fifty cents for each certificate;~~) issued during that month. Copies of each certificate of compliance shall be retained by the person issuing the certificate for at least two years from date of issuance.

Forms (~~may also~~) must be purchased from the department in advance of issuance through payment of one dollar fifty cents to the department for each certificate requested. Refunds may be given for unused certificates.

Test forms provided under this section are official documents. Persons receiving the forms from the department are accountable for each form provided.

Voided forms must be handled the same as certificates of compliance. One copy shall be sent to the department within ten days after the end of the month in which the form was voided and one copy shall be retained by the person accountable for the forms for at least two years after date of voiding. Refunds will not be made for voided forms.

(5) All persons authorized to conduct fleet (~~or dealer~~) inspections under this section shall be subject to (~~fiscal and~~) performance audits and compliance inspections by the department, during normal business hours.

(6) Fleet vehicles may be inspected any time between their scheduled license renewals.

(7) Certificates of acceptance may not be issued under this section.

AMENDATORY SECTION (Amending Order DE 81-32, filed 12/31/81)

WAC 173-422-170 EXEMPTIONS. The following motor vehicles are exempt from the inspection requirement:

(1) Vehicles proportionally registered pursuant to chapter 46.85 RCW.

(2) Vehicles whose model year when subtracted from the calendar year equals or exceeds fourteen.

(3) New motor vehicles whose equitable or legal title has never been transferred to a person who in good faith purchases the vehicle for purposes other than resale; this does not exempt motor vehicles that are or have been leased.

(4) Motor vehicles that use propulsion units powered exclusively by electricity.

(5) Motor-driven cycles as defined by RCW 46.04.332.

(6) Motor vehicles powered by diesel engines or two-cycle engines.

(7) Farm vehicles.

(8) Vehicles exempted from licensing pursuant to RCW 46.16.010.

(9) Mopeds as defined by RCW 46.04.304.

(10) (a) Vehicles garaged and operated out of the emission contributing area (~~more than six months during the registration year or~~ (b) for less than six months) and not returning prior to six months

following the registration renewal date, may be exempted provided the registered owner/authorized agent provides a signed statement which includes:

- (i) The registered owner's name and address.
- (ii) ~~((Date of departure from and return to the emission contributing area:))~~ The vehicle license number.
- (iii) ~~((For vehicles to be exempted under (b):))~~ A statement that the vehicle is now garaged and operated outside the emission contributing area and will not be returning to the emission contributing area prior to six months following the registration renewal date ~~((and that within thirty days after returning to the emission contributing area, a valid certificate of compliance or acceptance will be obtained.~~

~~Persons making false statements to secure exemptions are punishable under RCW 9A.72.040 (a gross misdemeanor) and RCW 46.12-160 (cancellation of vehicle registration)).~~

(b) Vehicles garaged and operated out of the emission contributing area and returning to the emission contributing area within six months after the registration renewal date may postpone the emission testing requirements provided the registered owner/agent provides a signed exemption statement which includes:

- (i) The registered owner's name and address.
- (ii) The vehicle license number.
- (iii) A statement that the vehicle will not be returning to the emission contributing area prior to the registration renewal date.
- (iv) A statement that within thirty days of returning to the emission contributing area the vehicle will be tested and a valid certificate of compliance or a certificate of acceptance will be obtained and forwarded to the department.
- (v) The date of departure from the emission contributing area.
- (vi) The anticipated date of return to the emission contributing area.
- (11) Vehicles registered with the state but not for highway use.
- (12) Used vehicles which are offered for sale by a motor vehicle dealer, as defined in RCW 46.70.011, that is licensed pursuant to chapter 46.70 RCW.
- (13) Motor vehicles fueled exclusively by propane, compressed natural gas, or liquid petroleum gas.

NEW SECTION

WAC 173-422-175 FRAUDULENT EXEMPTIONS. (1) Obtaining or attempting to obtain an exemption from emission inspection requirements by false statements, or failure to comply with the exemption procedures established to implement WAC 173-422-170, shall be construed as a violation of these rules implementing chapter 70.94 RCW as supplemented by chapter 70.120 RCW.

(2) Any person who commits such violation or who aids or abets another in committing the same shall be subject to a civil penalty not to exceed two hundred fifty dollars for each violation.

(3) Any civil penalty imposed by the department hereunder shall be appealable to the pollution control board as provided for in chapter 43.21B RCW.

WSR 83-18-060
PROPOSED RULES
BOARD OF PHARMACY
 [Filed September 7, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Board of Pharmacy intends to adopt, amend, or repeal rules concerning the amending of WAC 360-18-020 and adding WAC 360-17-055;

that the agency will at 1:00 p.m., Wednesday, October 19, 1983, in the Arcade Room, Ridpath Hotel, 515 West Sprague, Spokane, WA, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 18.64.005.

The specific statute these rules are intended to implement is RCW 18.64.005.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 12, 1983.

Dated: September 7, 1983
 By: Donald H. Williams
 Executive Secretary

STATEMENT OF PURPOSE

Name of Agency: Washington State Board of Pharmacy.

Purpose: The purpose of new section WAC 360-17-055 is to outline the requirements for issuing medications to emergency room outpatients. The purpose of the amendment to WAC 360-18-020 is to modify the license renewal fee for pharmacists and to impose a fee for certifying information to other states.

Statutory Authority: RCW 18.64.005.

Summary of the Rules: WAC 360-17-005 contains the requirements for issuing medications to outpatients of emergency rooms. It includes a requirement for policies and procedures and labeling and recordkeeping requirements. WAC 360-18-020 contains the schedule of fees to be charged by the Pharmacy Board.

Reason for Proposed Amendments: WAC 360-17-055 is proposed so that medications can be issued to emergency outpatients. The amendments to WAC 360-18-020 are proposed in order to ensure that sufficient revenue is raised to defray the expected costs of administering the programs.

Responsible Personnel: In addition to the members of the board, the following Board of Pharmacy personnel have knowledge of and responsibility for drafting, implementing and enforcing these rules: Donald H. Williams, Executive Secretary, WEA Building, 319 East 7th Avenue, Olympia, WA 98504, 234-6834 scan, 753-6834 comm.

Proponents: These rules are proposed by the Washington State Board of Pharmacy.

Agency Comments: These rules are promulgated pursuant to the authority granted to the board in RCW 18.64.005.

Small Business Economic Impact Statement: A small business economic impact statement is not required and has not been filed since these rules do not impact any small businesses as that term is defined by RCW 43.31.920.

AMENDATORY SECTION (Amending Order 175, filed 8/30/83)

WAC 360-18-020 LICENSE FEES. Effective October 1, 1983 the following fees shall be charged by the board of pharmacy:

(a) PHARMACY LOCATION, CSA & PROPHYLACTIC	
Original pharmacy fee	\$125.00
Original CSA fee	35.00
Original prophylactic fee	10.00
Original pharmacy assistant utilization fee	30.00
Renewal pharmacy fee	65.00
Renewal CSA fee	30.00
Renewal prophylactic fee	10.00
Renewal pharmacy assistant utilization fee	30.00

	Penalty pharmacy fee	130.00
(b)	VENDOR	
	Original fee	20.00
	Renewal fee	20.00
	Penalty fee	20.00
(c)	PHARMACIST	
	Exam fee (full exam)	100.00
	Re-examination fee (jurisprudence portion)	25.00
	Original license fee	75.00
	Renewal fee	((25.00))
		50.00
	Penalty fee	35.00
	Reciprocity fee	200.00
	<u>Certification of license status</u> <u>to other states</u>	<u>10.00</u>
(d)	SHOPKEEPER	
	Original fee	20.00
	Renewal fee	20.00
	Penalty fee	20.00
(i)	SHOPKEEPER - 6 or fewer drugs	
	Original fee	5.00
	Renewal fee	5.00
	Penalty fee	5.00
(ii)	SHOPKEEPER - with differential hours	
	Original fee	20.00
	Renewal fee	20.00
	Penalty fee	20.00
(e)	DRUG MANUFACTURER	
	Original fee	175.00
	Renewal fee	175.00
	Penalty fee	175.00
(f)	DRUG WHOLESALER - full line	
	Original fee	175.00
	Renewal fee	175.00
	Penalty fee	175.00
(g)	DRUG WHOLESALER - OTC only	
	Original fee	125.00
	Renewal fee	125.00
	Penalty fee	125.00
(h)	PHARMACY ASSISTANT - Level "A"	
	Original fee	20.00
	Renewal fee	15.00
(i)	PHARMACY INTERN	
	Original registration fee	10.00
	Renewal registration fee	10.00

NEW SECTION

WAC 360-17-055 EMERGENCY OUTPATIENT MEDICATIONS. The director of pharmacy of a hospital shall, in concert with the appropriate committee of the hospital medical staff, develop policies and procedures, which shall be implemented, to provide emergency pharmaceuticals to outpatients during hours when normal community or hospital pharmacy services are not available. Such policies shall allow the designated registered nurse to issue medications other than controlled substances pursuant to the policies and procedures, which shall require that:

- (1) A written order of a practitioner authorized to prescribe a drug is presented.
- (2) The medication is prepackaged by a pharmacist and has a label that contains:
 - (a) Name, address, and telephone number of the hospital.
 - (b) Name of drug, strength, and number of units, when a generic name is used, the label shall also contain the name of the manufacturer or distributor.
 - (c) Cautionary information as required for patient safety.

(d) An expiration date after which the patient should not use the medication.

(3) No more than a 24-hour supply is provided to the patient except when the pharmacist has informed the designated registered nurse that normal services will not be available within 24 hours.

(4) The container is labeled by the designated registered nurse before presenting to the patient and shows the following:

- (a) Name of patient;
- (b) Directions for use to the patient;
- (c) Date;
- (d) Identifying number;
- (e) Name of prescribing practitioner;
- (f) Initials of the registered nurse.

The withdrawal of a single dose for immediate administration to the patient need not follow the requirements of this subsection.

(5) The original or a direct copy of the written order by the prescriber is retained for verification by the pharmacist after completion by the designated registered nurse and shall bear:

- (a) Name and address of patient;
- (b) Date of issuance;
- (c) Units issued;
- (d) Initials of designated registered nurse.

(6) The original written order is verified by the pharmacist initialed, dated and filed separately for a period of three years for board inspection.

(7) The medications to be issued as emergency pharmaceuticals shall be kept in a secure place in or near the emergency room in such a manner so as to preclude the necessity for entry into the pharmacy by anyone other than a licensed pharmacist.

The procedures outlined in this rule may not be used for controlled substances. Only a pharmacist or the prescriber may issue controlled substances.

WSR 83-18-061
PROPOSED RULES
DEPARTMENT OF LICENSING
(Massage Examining Board)
[Filed September 7, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Massage Examining Board intends to adopt, amend, or repeal rules concerning frequency and location of examinations, amending WAC 308-51-120;

that the agency will at 2:00 p.m., Friday, November 4, 1983, in the Doubletree Plaza Hotel, 15600 Southcenter Parkway, Seattle, WA, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 18.108.020.

The specific statute these rules are intended to implement is RCW 18.108.060.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 14, 1983.

Dated: September 7, 1983

By: Yvonne Braeme
Executive Secretary

STATEMENT OF PURPOSE

Name of Agency: Washington State Massage Examining Board.

Purpose: The purpose of the amendment to the rules is to establish that massage examination fees are non-refundable. It will also establish that exam applicants who

have given five days notice of inability to appear, may reschedule their exam within two years of their application.

Statutory Authority: RCW 18.108.020.

Summary of the Rules: The amendment establishes that massage examination fees are nonrefundable. It also establishes that exam applicants who have given five days notice of inability to appear may reschedule their exam within two years of their application.

Reason for Proposed Amendment: These amendments are being proposed in order to delineate examination administrative procedures.

Responsible Personnel: Persons responsible for the amendment include members of the Washington State Massage Examining Board and Yvonne Braeme, Executive Secretary to the Board, Professional Licensing Division, Highways-Licenses Building, Olympia, WA 98504, 234-0776 scan, 753-0776 comm.

Proponents: These rules are proposed by the Washington State Massage Examining Board.

Agency Comments: These rules are promulgated pursuant to the authority granted to the board in RCW 18.108.020.

Small Business Economic Impact Statement: A small business economic impact statement is not required and has not been filed since these rules do not impact any small businesses as that term is defined by RCW 43.31.920.

AMENDATORY SECTION (Amending Order PL 330, filed 12/13/79)

WAC 308-51-120 FREQUENCY AND LOCATION OF EXAMINATIONS. (1) The board will normally conduct practical examinations in March and September of each year.

(2) Written examinations will be conducted at least twenty days prior to scheduled practical examinations. Applicants will be required to pass the written examination prior to being scheduled for the practical examination.

(3) Written and practical examinations will be conducted at a location within the state as determined by the director, with due consideration to be given to the residential location of the examinees and the availability and costs of required facilities and services.

(4) A notification will be sent to the residential address of record of each examination applicant at least fifteen days prior to each applicant's scheduled examination dates. Such notification will contain appropriate instructions or information and will reflect the time, date and location at which the applicant is expected to appear for examination. Examination fees are nonrefundable. Should an applicant fail to appear for examination at the designated time and place, he shall forfeit the examination fee unless he has notified the division of professional licensing of his inability to appear for the scheduled examination at least five days before the designated time. With the required five days notice, a candidate may request to be rescheduled for examination any time within two years of the time they submitted their original application.

WSR 83-18-062
PROPOSED RULES
DEPARTMENT OF
LABOR AND INDUSTRIES
 [Filed September 7, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Labor and Industries intends to adopt, amend, or repeal rules

concerning WAC 296-24-33015, service stations is being amended to mirror OSHA changes published in Federal Register, Vol. 47, No. 173, September 7, 1982. Action is taken on this rule to correct problems and conflicts between current OSHA standard requirements, and nationally recognized consensus standards used by local code enforcement officials. WAC 296-27-078 is amended to clarify which "establishments" are exempt from certain recordkeeping requirements. Only private employers within specified standard industrial classifications (SIC) shall be exempt. WAC 296-27-16011 is amended to reflect OSHA requirements with regard to "a hazard which could cause serious injury or death," as opposed to current standard which reads "an imminent danger that could cause serious injury or death." Amendment required to comply with OSHA certification requirements. WAC 296-45-65038, underground residential distribution safety standards is amended to include the use of the term "energized" with regard to terminators and load-break elbows. WAC 296-54-511, personal protective equipment is amended to reference the respiratory protection requirements of the general occupational health standards, chapter 296-62 WAC. This ensures uniform compliance with respiratory protection standards. WAC 296-56-43803, respiratory protection is amended to reference the respiratory protection requirements of the general occupational health standards, chapter 296-62 WAC. This ensures uniform compliance with respiratory protection standards. Chapter 296-62 WAC, general occupational health standards is amended in the following sections: WAC 296-62-020, definitions is amended to exclude asphalt from coverage under the "coal tar pitch volatiles" standard. This mirrors OSHA revisions published in Federal Register, Vol. 48, No. 15, January 21, 1983. WAC 296-62-05209, access to records is amended to give representatives of the director of the Department of Labor and Industries access to employees records. WAC 296-62-07115, use of respirators is amended to correct a reference. WAC 296-62-07308, general regulated area requirements is amended to correct a reference. WAC 296-62-07521, lead is amended to reflect OSHA revisions published in Federal Register Vol. 48, No. 46, March 8, 1983, with regard to respirator fit testing. WAC 296-62-09015 through 296-62-09055, hearing conservation is amended to reflect various changes both state initiated and OSHA initiated. OSHA changes are from Federal Register, Vol. 48, No. 46 published March 8, 1983. State initiated changes are editorial or for standard clarification purposes. WAC 296-62-09045, effective dates is amended to include amended hearing conservation sections. WAC 296-79-050, 296-155-210 and 296-304-09003 are all state initiated amendments to reflect hearing protection standard in the general occupational health standards, chapter 296-62 WAC. Designed to create uniformity of the hearing protection standard. WAC 296-155-160 is amended to correct a typographical error. Chapter 296-305 WAC, safety standards for fire fighters is amended to update the standard to address new or outdated requirements in the industry. WAC 296-306-060 is

amended to reference the respiratory protection requirements of the general occupational health standards, chapter 296-62 WAC. This will ensure uniform compliance with respiratory protection requirements. WAC 296-24-950, electrical repealed to avoid conflict with new standard already codified. WAC 296-62-09011, hearing conservation is repealed and replaced with newly amended standard;

that the agency will at 9:30 a.m., Tuesday, October 11, 1983, in the Large Conference Room, General Administration Building, Olympia, Washington 98504, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 8, 1983.

The authority under which these rules are proposed is RCW 49.17.040 and 49.17.050.

The specific statute these rules are intended to implement is RCW 49.17.050(4), 49.17.220(3), 49.17.060(1) and 49.17.240(1).

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 4, 1983.

Written or oral submissions may also contain data, views, or arguments concerning the effect of the proposed rules or amendments of rules and economic values, pursuant to chapter 43.21H RCW.

The agency reserves the right to modify the text of these proposed rules before the public hearing or in response to written or oral comments received before or during the public hearing.

The agency may need to change the date for public hearing or adoption on short notice. To ascertain that the public hearing or adoption will take place as stated in this notice, an interested person may contact the person named below.

Correspondence relating to this notice and the proposed rules should be addressed to:

Richard E. Martin, Assistant Director
Industrial Safety and Health Division
Post Office Box 207
Olympia, Washington 98507
(206) 753-6500

Dated: September 7, 1983
By: Sam Kinville
Director

STATEMENT OF PURPOSE

Title and Number of Rule(s) or Chapter: Chapter 296-24 WAC, General safety and health standards, WAC 296-24-33015 Service stations; chapter 296-27 WAC, Administrative rules, WAC 296-27-078 Establishments, WAC 296-27-16011 Objection to inspection; chapter 296-45 WAC, Electrical workers safety standards, WAC 296-45-65038 Underground residential distribution; chapter 296-54 WAC, Safety standards for logging operations, WAC 296-54-511 Personal protective equipment; chapter 296-56 WAC, Longshore, Stevedore and related waterfront operations, WAC 296-56-43803 Respiratory protection; chapter 296-62 WAC, General occupational and health standards, WAC 296-

62-020 Definitions, WAC 296-62-05209 Access to records, WAC 296-62-07115 Use of respirators, WAC 296-62-07308 General regulated area requirements, WAC 296-62-07521 Lead, WAC 296-62-09003 Lighting and illumination, WAC 296-62-09015 through 296-62-09055 Hearing conservation; chapter 296-79 WAC, Pulp, paper and paperboard, WAC 296-79-050 Personal protection; chapter 296-155 WAC, Construction workers safety standards, WAC 296-155-160 Gases, vapors, fumes, dusts, and mists, WAC 296-155-210 Hearing protection; chapter 296-304 WAC, Ship repairing, shipbuilding and shipbreaking, WAC 296-304-09003 Respiratory protection; chapter 296-305 WAC, Safety standards for fire fighters; and chapter 296-306 WAC, Safety standards for agriculture, WAC 296-306-060 Personal protective equipment.

Statutory Authority: RCW 49.17.040 and 49.17.050.

Specific Statute that Rules are Intended to Implement: RCW 49.17.050(4), 49.17.220(3), 49.17.060(1) and 49.17.240(1).

Summary of the Rule(s): See information above.

Reasons Supporting the Proposed Rule(s): To ensure safe and healthful working conditions for every person working in the state of Washington; and to be in compliance with federal regulations.

The Agency Personnel Responsible for Drafting: Charles L. Preston, Technical Services Chief, Division of Industrial Safety and Health, 814 East Fourth, Olympia, Washington 98504, 753-6381; Implementation: Richard E. Martin, Assistant Director, Division of Industrial Safety and Health, 814 East Fourth, Olympia, Washington 98504, 753-6500; and Enforcement: Same as above.

Name of Person or Organization, Whether Private, Public, or Governmental that is Proposing the Rule(s): Department of Labor and Industries.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation, Enforcement and Fiscal Matters Pertaining to the Rule(s): These are basic rules that will not be difficult or expensive for employers who must comply with them. However, the rules will likely prevent many costly injuries, including death, to employees in the state of Washington. Portions of the rules are necessary to comply with a federal law, 29 U.S.C. Subsection 667(c)(2).

Any Other Information that may be of Assistance in Identifying the Rule or its Purpose: None.

Small Business Economic Impact Statement: No negative impact.

AMENDATORY SECTION (Amending Order 76-6, filed 3/1/76)

WAC 296-24-33015 SERVICE STATIONS. (1) Storage and handling.

(a) General provisions.

(i) Liquids shall be stored in approved closed containers not exceeding 60 gallons capacity, in tanks located underground, in tanks in special enclosures as described in (1)(b) of this section, or in aboveground tanks as provided for in (4)(b)(i), (ii), (iii) and (iv) of this section.

(ii) Aboveground tanks, located in an adjoining bulk plant, may be connected by piping to service station underground tanks if, in addition to valves at aboveground tanks, a valve is also installed within control of service station personnel.

(iii) Apparatus dispensing Class I liquids into the fuel tanks of motor vehicles of the public shall not be located at a bulk plant unless

separated by a fence or similar barrier from the area in which bulk operations are conducted.

(iv) The provisions of subsection (1) of this section shall not prohibit the dispensing of flammable liquids in the open from a tank vehicle to a motor vehicle. Such dispensing shall be permitted provided:

(A) The tank vehicle complies with the requirements covered in the Standard on Tank Vehicles for Flammable Liquids, NFPA 385-1966.

(B) The dispensing is done on premises not open to the public.

(C) The dispensing hose does not exceed 50 feet in length.

(D) The dispensing nozzle is a listed automatic-closing type without a latch-open device.

(vi) Class I liquids shall not be stored or handled within a building having a basement or pit into which flammable vapors may travel, unless such area is provided with ventilation designed to prevent the accumulation of flammable vapors therein.

(vii) Accurate inventory records shall be maintained and reconciled on all Class I liquid storage tanks for possible indication of leakage from tanks or piping.

(b) Special enclosures.

(i) When installation of tanks in accordance with WAC 296-24-33005(3) is impractical because of property or building limitations, tanks for flammable or combustible liquids may be installed in buildings if properly enclosed.

(ii) The enclosure shall be substantially liquid and vaportight without backfill. Sides, top, and bottom of the enclosure shall be of reinforced concrete at least 6 inches thick, with openings for inspection through the top only. Tank connections shall be so piped or closed that neither vapors nor liquid can escape into the enclosed space. Means shall be provided whereby portable equipment may be employed to discharge to the outside any liquid or vapors which might accumulate should leakage occur.

(iii) At automotive service stations provided in connection with tenant or customer parking facilities at or below grade level in large buildings of commercial, mercantile, or residential occupancy, tanks containing Class I liquids, installed of necessity in accordance with (1)(b)(ii) of this section, shall not exceed 6,000 gallons individual or 18,000 gallons aggregate capacity.

(c) Inside buildings.

(i) Except where stored in tanks as provided in (1)(b) of this section, no Class I liquids shall be stored within any service station building except in closed containers of aggregate capacity not exceeding 60 gallons. One container not exceeding 60 gallons capacity equipped with an approved pump is permitted.

(ii) Class I liquids may be transferred from one container to another in lubrication or service rooms of a service station building provided the electrical installation complies with Table H-19 and provided that any heating equipment complies with subsection (6) of this section.

(iii) Class II and Class III liquids may be stored and dispensed inside service station buildings from tanks of not more than 120 gallons capacity each.

(d) Labeling. No sale or purchase of any Class I, II, or III liquids shall be made in containers unless such containers are clearly marked with the name of the product contained therein.

(e) Dispensing into portable containers. No delivery of any Class I liquids shall be made into portable containers unless the container is constructed of metal, has a tight closure with screwed or spring cover, and is fitted with a spout or so designed that the contents can be poured without spilling.

(2) ~~((Private Stations. Service stations not accessible to or open to the public do not require an attendant or supervisor. Such stations may be used by commercial, industrial, governmental, or manufacturing establishments.~~

~~(3))~~ Dispensing systems.

(a) Location. Dispensing devices at automotive service stations shall be so located that all parts of the vehicle being served will be on the premises of the service station.

(b) Inside location. Approved dispensing units may be located inside of buildings. The dispensing area shall be separated from other areas in an approved manner. The dispensing unit and its piping shall be mounted either on a concrete island or protected against collision damage by suitable means and shall be located in a position where it cannot be struck by a vehicle descending a ramp or other slope out of control. The dispensing area shall be provided with an approved mechanical or gravity ventilation system. When dispensing units are located below grade, only approved mechanical ventilation shall be used

and the entire dispensing area shall be protected by an approved automatic sprinkler system. Ventilating systems shall be electrically interlocked with gasoline dispensing units so that the dispensing units cannot be operated unless the ventilating fan motors are energized.

(c) Emergency power cutoff. A clearly identified and easily accessible switch(es) or a circuit breaker(s) shall be provided at a location remote from dispensing devices, including remote pumping systems, to shut off the power to all dispensing devices in the event of an emergency.

(d) Dispensing units.

(i) Class I liquids shall be transferred from tanks by means of fixed pumps so designed and equipped as to allow control of the flow and to prevent leakage or accidental discharge.

(ii) Only listed devices may be used for dispensing Class I liquids. No such device may be used if it shows evidence of having been dismantled.

(iii) Every dispensing device for Class I liquids installed after December 31, 1978, shall contain evidence of listing so placed that any attempt to dismantle the device will result in damage to such evidence, visible without disassembly or dismantling of the nozzle.

(iv) Class I liquids shall not be dispensed by pressure from drums, barrels, and similar containers. Approved pumps taking suction through the top of the container or approved self-closing faucets shall be used.

(v) The dispensing units, except those attached to containers, shall be mounted either on a concrete island or protected against collision damage by suitable means.

(e) Remote pumping systems.

(i) This subdivision shall apply to systems for dispensing Class I liquids where such liquids are transferred from storage to individual or multiple dispensing units by pumps located elsewhere than at the dispensing units.

(ii) Pumps shall be designed or equipped so that no part of the system will be subjected to pressures above its allowable working pressure. Pumps installed above grade, outside of buildings, shall be located not less than 10 feet from lines of adjoining property which is/or may be built upon, and not less than 5 feet from any building opening. When an outside pump location is impractical, pumps may be installed inside of buildings, as provided for dispensers in subsection (3)(b) of this section, or in pits as provided in subsection (3)(e)(iii) of this section. Pumps shall be substantially anchored and protected against physical damage by vehicles.

(iii) Pits for subsurface pumps or piping manifolds of submersible pumps shall withstand the external forces to which they may be subjected without damage to the pump, tank, or piping. The pit shall be no larger than necessary for inspection and maintenance and shall be provided with a fitted cover.

(iv) A control shall be provided that will permit the pump to operate only when a dispensing nozzle is removed from its bracket on the dispensing unit and the switch on this dispensing unit is manually actuated. This control shall also stop the pump when all nozzles have been returned to their brackets.

(v) An approved impact valve, incorporating a fusible link, designed to close automatically in the event of severe impact or fire exposure shall be properly installed in the dispensing supply line at the base of each individual dispensing device.

(vi) Testing. After the completion of the installation, including any paving, that section of the pressure piping system between the pump discharge and the connection for the dispensing facility shall be tested for at least 30 minutes at the maximum operating pressure of the system. Such tests shall be repeated at 5-year intervals thereafter.

(f) Delivery nozzles.

~~(i) ((Hose-nozzle valves of either the manual or automatic-closing type for dispensing class I liquids into a fuel tank or into a container shall be manually held open during the dispensing operation except as provided in (3)(f)(ii)).~~

~~(ii) On any service station dispenser accessible to the public a listed automatic type nozzle with hold-open latch is permitted only when all dispensing of Class I liquids is to be done by the service station attendant.~~

~~(iii) If the dispensing of Class I liquids at a service station available and open to the public is to be done by a person other than the service station attendant, the nozzle shall be a listed automatic-closing type without a hold-open latch.) A listed manual or automatic-closing type hose nozzle valve shall be provided on dispensers used for the dispensing of Class I liquids.~~

(ii) Manual-closing type valves shall be held open manually during dispensing. Automatic-closing type valves may be used in conjunction with an approved latch-open device.

(g) Special type dispensers.

(i) Emergency controls shall be installed at an acceptable location, but controls shall not be more than 100 feet from dispensers.

(ii) Instructions for the operation of dispensers shall be conspicuously posted.

(4) Marine service stations.

(a) Dispensing.

(i) The dispensing area shall be located away from other structures so as to provide room for safe ingress and egress of craft to be fueled. Dispensing units shall in all cases be at least 20 feet from any activity involving fixed sources of ignition.

(ii) Dispensing shall be by approved dispensing units with or without integral pumps and may be located on open piers, wharves, or floating docks or on shore or on piers of the solid fill type.

(iii) Dispensing nozzles shall be automatic-closing without a hold-open latch.

(b) Tanks and pumps.

(i) Tanks, and pumps not integral with the dispensing unit, shall be on shore or on a pier of the solid fill type, except as provided in subsections (4)(b)(ii) and (iii) of this section.

(ii) Where shore location would require excessively long supply lines to dispensers, tanks may be installed on a pier provided that applicable portions of WAC 296-24-33005 relative to spacing, diking, and piping are complied with and the quantity so stored does not exceed 1,100 gallons aggregate capacity.

(iii) Shore tanks supplying marine service stations may be located above ground, where rock ledges or high water table make underground tanks impractical.

(iv) Where tanks are at an elevation which would produce gravity head on the dispensing unit, the tank outlet shall be equipped with a pressure control valve positioned adjacent to and outside the tank block valve specified in WAC 296-24-33005(2)(h)(ii) of this section, so adjusted that liquid cannot flow by gravity from the tank in case of piping or hose failure.

(c) Piping.

(i) Piping between shore tanks and dispensing units shall be as described in WAC 296-24-33007, except that, where dispensing is from a floating structure, suitable lengths of oil-resistant flexible hose may be employed between the shore piping and the piping on the floating structure as made necessary by change in water level or shoreline.

(ii) A readily accessible valve to shut off the supply from shore shall be provided in each pipeline at or near the approach to the pier and at the shore end of each pipeline adjacent to the point where flexible hose is attached.

(iii) Piping shall be located so as to be protected from physical damage.

(iv) Piping handling Class I liquids shall be grounded to control stray currents.

(5) Electrical equipment.

(a) Application. This subsection shall apply to areas where Class I liquids are stored or handled. For areas where Class II or Class III liquids are stored or handled the electrical equipment may be installed in accordance with the provisions of WAC 296-24-950 and 296-24-955 for ordinary locations.

(b) All electrical equipment and wiring shall be of a type specified by and shall be installed in accordance with WAC 296-24-950 and 296-24-955.

(c) So far as it applies, Table H-19 shall be used to delineate and classify hazardous areas for the purpose of installation of electrical equipment under normal circumstances. A classified area shall not extend beyond an unpierced wall, roof, or other solid partition.

(d) The area classifications listed shall be based on the assumption that the installation meets the applicable requirements of this section in all respects.

TABLE H-19

ELECTRICAL EQUIPMENT HAZARDOUS AREAS—SERVICE STATIONS

Location	NEC Class 1, Group D division	Extent of classified area
Underground tank:		
Fill opening	1	Any pit, box or space below grade level, any part of which is within the Division 1 or 2 classified area.
	2	Up to 18 inches above grade level within a horizontal radius of 10 feet from a loose fill connection and within a horizontal radius of 5 feet from a tight fill connection.
Vent—Discharging upward	1	Within 3 feet of open end of vent, extending in all directions.
	2	Area between 3 feet and 5 feet of open end of vent, extending in all directions.
Dispenser:		
Pits	1	Any pit, box or space below grade level, any part of which is within the Division 1 or 2 classified area.
Dispenser enclosure	1	The area 4 feet vertically above base within the enclosure and 18 inches horizontally in all directions.
Outdoor	2	Up to 18 inches above grade level within 20 feet horizontally of any edge of enclosure.
Indoor:		
With mechanical ventilation	2	Up to 18 inches above grade or floor level within 20 feet horizontally of any edge of enclosure.
With gravity ventilation	2	Up to 18 inches above grade or floor level within 25 feet horizontally of any edge of enclosure.
Remote pump—Outdoor	1	Any pit, box or space below grade level if any part is within a horizontal distance of 10 feet from any edge of pump.
	2	Within 3 feet of any edge of pump, extending in all directions. Also up to 18 inches above grade level within 10 feet horizontally from any edge of pump.
Remote pump—Indoor	1	Entire area within any pit.
	2	Within 5 feet of any edge of pump, extending in all directions. Also up to 3 feet above floor or grade level within 25 feet horizontally from any edge of pump.
Lubrication or service room	1	Entire area within any pit.
	2	Area up to 18 inches above floor or grade level within entire lubrication room.
Dispenser for Class I Liquids	2	Within 3 feet of any fill or dispensing point, extending in all directions.
Special enclosure inside building per WAC 296-24-33013(1)(b).	1	Entire enclosure.
Sales, storage and rest rooms	Ordinary	If there is any opening to these rooms within the extent of a Division 1 area, the entire room shall be classified as Division 1.

(6) Heating equipment.

(a) Conformance. Heating equipment shall be installed as provided in subsections (6)(b) through (e) of this section.

(b) Application. Heating equipment may be installed in the conventional manner in an area except as provided in subsection (6)(c), (d) or (e) of this section.

(c) Special room. Heating equipment may be installed in a special room separated from an area classified by Table H-19 by walls having a fire resistance rating of at least 1 hour and without any openings in the walls within 8 feet of the floor into an area classified in Table H-19. This room shall not be used for combustible storage and all air for combustion purposes shall come from outside the building.

(d) Work areas. Heating equipment using gas or oil fuel may be installed in the lubrication, sales, or service room where there is no dispensing or transferring of Class I liquids provided the bottom of the combustion chamber is at least 18 inches above the floor and the heating equipment is protected from physical damage by vehicles. Heating equipment using gas or oil fuel listed for use in garages may be installed in the lubrication or service room where Class I liquids are dispensed provided the equipment is installed at least 8 feet above the floor.

(e) Electric heat. Electrical heating equipment shall conform to (5) of this section.

(7) Drainage and waste disposal. Provision shall be made in the area where Class I liquids are dispensed to prevent spilled liquids from flowing into the interior of service station buildings. Such provision may be by grading driveways, raising door sills, or other equally effective means. Crankcase drainings and flammable or combustible liquids shall not be dumped into sewers but shall be stored in tanks or drums outside of any building until removed from the premises.

(8) Sources of ignition. In addition to the previous restrictions of this section, the following shall apply: There shall be no smoking or open flames in the areas used for fueling, servicing fuel systems for internal combustion engines, receiving or dispensing of flammable or combustible liquids. Conspicuous and legible signs prohibiting smoking shall be posted within sight of the customer being served. The motors of all equipment being fueled shall be shut off during the fueling operation.

(9) Fire control. Each service station shall be provided with at least one fire extinguisher having a minimum approved classification of 6 B, C located so that an extinguisher will be within 75 feet of each pump, dispenser, underground fill pipe opening, and lubrication or service room.

AMENDATORY SECTION (Amending Order 83-19, filed 7/13/83)

WAC 296-27-078 ((ESTABLISHMENTS)) PRIVATE EMPLOYERS CLASSIFIED IN STANDARD INDUSTRIAL CLASSIFICATION CODES (SIC) 52 THROUGH 89, (EXCEPT 52 THROUGH 54, 76, 79 AND 80). ((Am)) A private employer whose establishment is classified in SIC's 52 through 89, (excluding 52 through 54, 70, 75, 76, 79 and 80) need not comply, for such establishment, with any of the requirements of this section except the following:

(1) Obligation to report under WAC 296-27-090 concerning fatalities or multiple hospitalization accidents.

(2) Obligation to maintain a log of occupational injuries and illnesses under WAC 296-27-140, upon being notified in writing by the Bureau of Labor Statistics that the employer has been selected to participate in a statistical survey of occupational injuries and illnesses.

(3) The requirements of this section shall become effective January 1, 1984.

AMENDATORY SECTION (Amending Order 81-13, filed 6/22/81)

WAC 296-27-16011 OBJECTION TO INSPECTION. (1) If the employer refuses to permit an inspection, or if the employer permits an inspection but interferes with or limits an important part of the inspection, the inspector may end the inspection or confine the inspection to the areas or limits that the employer will allow. The inspector shall attempt to ascertain the reason for the refusal, interference, or limitation, and shall report it to his or her supervisor. The supervisor may consult with the assistant attorney general. The department may seek an ex parte inspection warrant or other compulsory process from a court if an inspection is refused or limited.

(2) The department may seek an ex parte inspection warrant or other compulsory process from a court before an inspection if the department anticipates that permission to conduct the inspection might be denied or improperly limited.

(3) The department will seek an inspection warrant in response to a complaint only if the complaint is in written form and signed by the complainant, unless the complainant alleges ((an imminent danger that)) a hazard which could cause serious injury or death.

AMENDATORY SECTION (Amending Order 83-19, filed 7/14/83)

WAC 296-45-65038 UNDERGROUND RESIDENTIAL DISTRIBUTION (URD). (1) General. (a) Each employee shall be knowledgeable of the equipment provided for their use and shall at all times use this equipment only for the purpose intended.

(b) U.R.D. cables which are properly insulated for the voltages to which they are energized shall be considered as an effective barrier to protect the employees and table one (1) need not apply.

(i) Workers will take adequate precautions to avoid physical contact with energized U.R.D. cable by using approved procedures and/or protective devices.

(ii) When handling energized U.R.D. primary cables, the work shall be done with approved tools and/or procedures by two qualified employees.

(Exception: Switching is exempt from this rule.)

(iii) When energized terminators or load-break elbows are handled by a hot stick, there shall be two (2) qualified employees at the scene.

(c) When energized pad-mounted transformers or similar equipment are to be left unlocked and open, they shall be attended by a qualified employee.

(d) Approved tools and procedures shall be used to remove any debris, vines, weeds, etc., from an underground system.

(e) A primary and secondary system neutral on any energized circuit shall not be opened under any circumstances except for testing.

(f) Primary and secondary neutrals shall be firmly connected and grounded before the circuit or equipment is energized.

(g) Where different phases are in the same vault, enclosures, or parked in some manner that they could be looped, these phases shall be marked or identified.

(h) Bayonet fuses:

(i) Bayonet fuses shall not be closed into suspected faults or overloads.

(ii) Submersible U.G. transformer installations will require other methods of energizing or de-energizing and bayonet fuses shall not be used for this purpose.

(iii) Bayonet fuses shall only be operated after pad-mount transformers have been properly vented.

(iv) Bayonet fuses shall only be operated in accordance with manufacturing design and rating capabilities.

(2) Opening and guarding holes. Whenever a cover is to be removed from a manhole or underground vault, or making excavations in places accessible to vehicular or pedestrian traffic, the following precautions shall be taken:

(a) Before removal or excavating, protective barriers or approved guards and warning signs shall be erected.

(b) After dark, approved lights, reflectors, or similar devices shall be used.

(c) Where permissible and practical, the truck shall also be placed to guard the work area.

(d) A blow torch or other open flame shall never be used to melt ice around a manhole or underground vault cover.

(e) Care shall be taken to prevent the possibility of vehicles coming in contact with the wires and equipment.

(3) Entering underground structures. Before entry into any manhole or underground vault, the following precautions shall be taken:

(a) Observe subsection (2), opening and guarding holes.

(b) Prior to entering an unvented underground vault or manhole, an inspection shall be made to determine if any hazardous conditions exist. Appropriate safeguards shall be applied as required prior to the performance of any work.

(c) No entry shall be permitted unless forced ventilation is provided or the atmosphere is found safe by testing for oxygen deficiency and for the presence of explosive gases or fumes.

(d) Where unsafe conditions are detected, by testing or other means, the work area shall be ventilated and/or otherwise made safe before entry.

(e) Provisions shall be made for a continuous supply of air as provided in WAC 296-62-110 through 296-62-11013.

(f) When forced ventilation is not used, a method of monitoring for oxygen deficiency and to detect the presence of any explosive gases or fumes shall be used.

(g) In any emergency when it becomes necessary for an employee to enter an underground vault where oxygen deficiency, toxic or explosive gases are present, the employee shall use approved respiratory equipment, and a safety belt to which there is attached a fire retardant life line, attended by a qualified person stationed at the underground vault opening.

(h) A watchman shall be kept at the surface when there is any hazard to the employees in the manhole and he should not leave the manhole unwatched until such time as all employees are out and the cover has been replaced.

(i) Except in emergency conditions, a ladder shall always be used when entering or leaving an underground vault.

(4) Working in manholes and underground vaults. (a) No work shall be permitted to be done in any manhole or subway on any energized wire, cable, or appliance carrying more than 300 volts of electricity by less than two qualified persons who shall at all times, while performing such work, be in the same manhole or subway in which work is being done. This rule shall not apply to work on telephone, telegraph, or signal wires or cables.

(b) Cable in manholes or underground vaults shall be accessible to employees and a clear working space (see items (1)(b)(i) and (ii) of this section) shall be maintained at all times; and/or approved protective guards, barriers, etc. when installed and maintained in compliance with the rules of the Department of Labor and Industries shall be considered as providing adequate working clearance for cables over 5 k.v.

If a manhole and/or underground vault is determined to be unsafe by the man in charge, no work shall be done in the manhole and/or vault until the unsafe condition is corrected or de-energized.

(c) No work shall be performed on cables or equipment unless they have been properly identified by an approved method.

(d) Tools and materials shall not be thrown into or out of manholes or underground vaults, but shall be placed in proper receptacles and hoisted in and out by means of an approved method.

(5) Working on cables. (a) Before any work is to be performed on underground cables and apparatus carrying high voltage, they shall be de-energized with the following exceptions:

(i) Replacing fuses, operating switches, closing or opening load-break elbows, when approved protective devices are used.

(ii) Work in the high-voltage compartment of pad-mounted transformers and similar equipment installed above ground, provided the work is done by approved methods.

(b) Where multiple cables exist in an excavation or manhole, cables other than the one being worked on shall be protected.

(c) Only one energized conductor shall be worked on at any one time, and protective means shall be used to insulate or isolate it from all others.

(d) Any cables to be worked on shall be identified by approved testing unless its identification is obvious by reason of the distinctive appearance, such as, tags, color, or other approved methods.

(e) Where work is to be performed on de-energized cables or equipment, the employee directly in charge of the work shall be responsible for determining that the conductors or equipment is deenergized.

(f) After conductors or equipment are cleared for work and the proper clearances have been obtained (WAC 296-45-65023) tests shall be made to determine that the conductors or equipment are de-energized.

(g) When working on underground cables, the metallic sheath continuity shall be maintained by bonding across the opening or by equivalent means.

(h) When work is to be performed in manholes containing any wires or appliances carrying electrical current, they shall be in a sanitary condition.

(i) Insulated platforms or other protective devices shall be provided when work is to be done on energized wires or equipment in manholes.

(6) Grounding. A capacitance charge can remain in the high voltage cables after it has been disconnected from the circuit and a static-type arc can occur when grounds are applied to such cables.

(a) All high voltage cables and equipment that have been energized or could become energized shall be considered as energized until such cables have been grounded.

(b) Grounding shall be done at a point as near to the work locations as possible, except where their installations or use increases the working hazard.

(c) Grounds may be removed for test purposes.

(d) When work is to be done on cables or equipment of a high-voltage underground system, precautions to prevent back-feed shall be

taken. This shall include either isolating or grounding of the secondary conductors.

(e) After testing the cable dead, approved grounding devices shall be used. They shall be first connected to a ground before being brought into contact with any de-energized conductors to be grounded. When removed they shall be removed from all circuit conductors before being disconnected from ground.

(f) After grounding the cable, if the workman is to work on the cable between terminations, he must first spike the cable or use other approved methods of testing. If the cable is to be cut, it shall be cut only with approved hot cutters.

(7) Trenching and excavating. (a) During excavation or trenching, in order to prevent exposure of employees to the hazards created by damage to underground facilities, the man in charge shall make every effort to determine the location of such facilities and conduct the work in a manner designed to avoid damage.

(b) Trenching and excavating operations shall comply with the provisions of WAC 296-155-650 through WAC 296-155-665.

(c) All employees engaged in trenching and excavation operations shall have access at the work site to codes, and/or standards, applicable to such work or shall have been trained in the application of trenching and excavation standards.

(8) Pulling cables. When fishing conduits or ducts, it shall first be determined that the fish tape or wires will not contact any energized lines or equipment.

(9) Heating materials. Furnaces shall always be placed in a secure level position on the downhill side of the manhole to avoid spillage of hot metals or compounds in the manhole and/or underground vault.

(10) Definitions. (a) Load-break elbow - a connector designed to close and interrupt current on energized circuits within the design current and voltage rating.

(b) Dead-break elbow - a connector designed to be separated and engaged on de-energized circuits only.

(c) Underground network distribution system - an underground electrical installation fed from multiple primary sources directly associated with area-wide secondary network connected into a common grid.

(d) Underground residential distribution system (URD) - an electrical installation normally fed from a single primary source which may feed one or more transformers with secondaries not connected to a common grid.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

AMENDATORY SECTION (Amending Order 80-15, filed 8/20/80)

WAC 296-54-511 PERSONAL PROTECTIVE EQUIPMENT.

(1) General requirements.

(a) Protective equipment, including personal protective equipment for eyes, face, head, hearing and extremities, protective clothing, respiratory devices and protective shields and barriers, shall be provided, used, and maintained in a sanitary and reliable condition wherever it is necessary by reason of hazards of processes or environment, chemical hazards, radiological hazards, or mechanical irritants encountered in a manner capable of causing injury or impairment in the function of any part of the body through absorption, inhalation or physical contact.

(b) Employee owned equipment. Where employees are required to provide their own protective equipment, the employer shall be responsible to assure its adequacy, including proper maintenance and sanitation of such equipment.

(c) Design. All personal protective equipment shall be of safe design and construction for the work to be performed. All safety belts and attachments shall meet the requirements of section 3 of ANSI A10.14-1975.

(2) Eye and face protection. Protective eye and/or face equipment shall be required and worn where there is a probability of injury that can be prevented by such equipment. In such cases, employers shall make conveniently available a type of protector suitable for the work to be performed, and employees shall use such protectors. Suitable eye protectors shall be provided and worn where machines or operations present the hazard of flying objects, glare, liquids, injurious radiation, or a combination of these hazards.

(3) Respiratory protection. (~~In the control of those occupational diseases caused by breathing air contaminated with harmful dusts,~~

fogs, fumes, mists, gases, smokes, sprays, or vapors, the primary objective shall be to prevent atmospheric contamination. This shall be accomplished as far as feasible by accepted engineering control measures (for example: Enclosure or confinement of the operation, general and local ventilation, and substitution of less toxic materials). When effective engineering controls are not feasible, or while they are being instituted, appropriate respirators shall be used pursuant to The General Safety and Health Standards, WAC 296-24-081)) The respiratory protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.

(4) Occupational head protection. Hard hats meeting the specifications contained in American National Standards Institute (ANSI) Z89.1-1969, shall be worn by all employees involved in the logging operation or any of its related activities unless such employees are protected by F.O.P.S., cabs or canopies. Hard hats shall be maintained in serviceable condition.

(5) Personal flotation devices. Employees working on, over or along water, where the danger of drowning exists, shall be provided with and shall wear approved personal flotation devices in accordance with General Safety and Health Standards, WAC 296-24-086.

(6) Occupational footwear.

(a) All employees whose duties require them to walk on logs or boomsticks, shall wear sharp-calked shoes, or the equivalent, except when conditions such as ice, snow, etc., render calks ineffective. When calks are ineffective and other footwear does not afford suitable protection, workers shall not be required to work on logs or boomsticks.

(b) When nonslip type shoes or boots afford a greater degree of employee protection than calk shoes, such as at scaling stations, log sorting yards, etc., then this type footwear may be worn in lieu of calk shoes providing firm ankle support and secure footing are maintained.

(7) Leg protection. Employees whose normal duties require them to operate a power saw shall wear a flexible ballistic nylon pad or pads, sewn or otherwise fastened into the trousers, or other equivalent protection, that will protect the vulnerable area of the legs.

(8) Hand protection. All employees handling lines or other rough materials where there is a reasonable possibility of hand injury, shall wear suitable gloves or other hand protection to prevent injury.

(9) Hearing protection. ~~((Employees shall be protected against the effects of exposure to noise which exceeds the permissible noise exposures shown in the following table and chapter 296-62 WAC:~~

PERMISSIBLE NOISE EXPOSURES

Duration per day Hours	Sound Level dBA**
8	90
6	92
4	95
3	97
2	100
1-1/2	102
1	105
3/4	107
1/2	110
1/4	115*

* Ceiling Value. No exposure in excess of 115 dBA.

** Sound level in decibels as measured on a standard sound level meter operating on the A-weighting network with slow meter response)) The hearing protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.

(10) Protective clothing. Employees working on landings or in log sorting yards, when working on or from the ground, shall wear highly visible hard hats and/or yellow or orange vests, or similarly colored garments, to enable equipment operators to readily see them. It is recommended that such hard hats and vests or outer garments be of a luminous or reflectorized material. Employees performing duties of a flagperson shall wear a hard hat and vest or garment of contrasting colors. Warning vests and hard hats worn at night shall be of a reflectorized material.

AMENDATORY SECTION (Amending Order 74-14, filed 4/22/74)

WAC 296-56-43803 RESPIRATORY PROTECTION. ((+)) General. (a) Except as provided in (3)(c) of this section, respiratory protective equipment required by this part shall carry U.S. Bureau of Mines approval for the use intended. In cases where the U.S. Bureau

of Mines does not issue approval against the particular hazard, equipment shall be approved by the Department of Labor and Industries. Respiratory protective equipment shall be used only for the purpose intended and no modification of the equipment shall be made.

(b) Respiratory protective equipment shall be inspected regularly and maintained as necessary to provide complete protection for employee. Gas mask canisters and chemical cartridges shall be replaced as necessary so as to provide complete protection. Mechanical filters shall be cleaned or replaced as necessary so as to avoid undue resistance to breathing.

(c) Respiratory protective equipment which has been previously used shall be cleaned and disinfected before it is issued by the employer to another employee.

(d) Employees required to use respiratory protective equipment shall be instructed in its use.

(2) Canister Masks. (a) In concentrations of ammonia of less than 3 percent, or of other gases less than 2 percent, by volume a canister type gas mask equipped with the proper type of canister shall be used. Different canisters are approved for use against the following gases and groups of gases: acid gases, hydrocyanic acid gas, chlorine gas, organic vapors, ammonia gas, carbon monoxide or combination of the above. (Refer to the General Occupational Health Standards chapter 296-62 WAC for classification.

(b) In low concentrations (less than 0.1 percent by volume, but above the Threshold Limit Value of the gas), a chemical cartridge respirator equipped with the type of cartridge approved for use against the particular gases or groups of gases listed in (2)(a) of this section shall be used.

(3) Protection Against Dusts. (a) For protection against pneumoconiosis producing dusts, a respirator equipped with the type of filter approved for such purpose shall be used.

(b) For protection against toxic dusts, a respirator equipped with the type of filter approved for such purpose shall be used.

(c) For protection against nuisance dusts, a respirator equipped with the type of filter required in (3)(a) of this section or a suitable dust mask shall be used)) The respiratory protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.

AMENDATORY SECTION (Amending Order 80-21, filed 11/13/80)

WAC 296-62-020 DEFINITIONS APPLICABLE TO ALL SECTIONS OF THIS CHAPTER. Unless the context indicates otherwise, words used in this chapter shall have the meaning given in this section.

(1) "Adequate" or "effective" means compliance with terms and intent of these standards.

(2) "Appendix" means references or recommendations to be used as guides in applying the provisions of this chapter.

(3) "Approved" means approved by the director of the Department of Labor and Industries or his authorized representative: Provided, however, That should a provision of this chapter state that approval by an agency or organization other than the Department of Labor and Industries is required, such as Underwriters' Laboratories or the Bureau of Mines, the provision of WAC 296-24-006 shall apply.

(4) "Authorized person" means a person approved or assigned by the employer to perform a specific type of duty or duties or to be at a specific location or locations at the job site.

(5) "Coal tar pitch volatiles" ((means the inclusion of)) as used in WAC 296-62-07515, Table I, include the fused polycyclic hydrocarbons which volatilize from the distillation residues of coal, petroleum, (excluding asphalt), wood, and other organic matter. Asphalt [CAS 8052-42-4, and CAS 64742-93-4] is not covered under the "coal tar pitch volatiles" standard.

(6) "Competent person" means one who is capable of identifying existing and predictable hazards in the surroundings or working conditions which are unsanitary, hazardous, or dangerous to employees, and who has authorization to take prompt corrective action to eliminate them.

(7) "Department" means the Department of Labor and Industries.

(8) "Director" means the director of the Department of Labor and Industries, or his designated representative.

(9) "Employer" means any person, firm, corporation, partnership, business trust, legal representative, or other business entity which engages in any business, industry, profession, or activity in this state and employs one or more employees or who contracts with one or more persons, the essence of which is the personal labor of such person or

persons and includes the state, counties, cities, and all municipal corporations, public corporations, political subdivisions of the state and charitable organizations: Provided, That any persons, partnership, or business entity not having employees, and who is covered by the industrial insurance act shall be considered both an employer and an employee.

(10) "Hazard" means that condition, potential or inherent, which can cause injury, death, or occupational disease.

(11) "Occupational Disease" means such disease or infection as arises naturally and proximately out of employment.

(12) "Qualified" means one who, by possession of a recognized degree, certificate, or professional standing, or who by extensive knowledge, training, and experience, has successfully demonstrated his ability to solve or resolve problems relating to the subject matter, the work, or the project.

(13) "Shall" or "must" means mandatory.

(14) "Should" or "may" means recommended.

(15) "Suitable" means that which fits, or has the qualities or qualifications to meet a given purpose, occasion, condition, function, or circumstance.

(16) "Workmen," "personnel," "man," "person," "employee," and other terms of like meaning, unless the context of the provision containing such term indicates otherwise, mean an employee of an employer who is employed in the business of his employer whether by way of manual labor or otherwise and every person in this state who is engaged in the employment of or who is working under an independent contract the essence of which is his personal labor for an employer whether by manual labor or otherwise.

(17) "Work place" means any plant, yard, premises, room, or other place where an employee or employees are employed for the performance of labor or service over which the employer has the right of access or control, and includes, but is not limited to, all work places covered by industrial insurance under Title 51 RCW, as now or hereafter amended.

(18) Abbreviations used in this chapter:

(a) "ANSI" means American National Standards Institute.

(b) "ASHRE" means American Society of Heating and Refrigeration Engineers.

(c) (~~"BTU"~~) "BTU" means British Thermal Unit.

(d) "BTUH" means British Thermal Unit per Hour.

(e) "CFM" means cubic feet per minute.

(f) "CFR" means Code of Federal Register.

(g) "CGA" means Compressed Gas Association.

(h) "ID" means Inside Diameter.

(i) "MCA" means Manufacturing Chemist Association.

(j) "NEMA" means National Electrical Manufacturing Association.

(k) "NFPA" means National Fire Protection Association.

(l) "OD" means Outside Diameter.

(m) "WAC" means Washington Administrative Code.

(n) "WISHA" means Washington Industrial Safety and Health Act (Chapter 80, Laws of 1973).

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

Reviser's note: The brackets and enclosed material in the text of the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

AMENDATORY SECTION (Amending Order 81-21, filed 8/27/81)

WAC 296-62-05209 ACCESS TO RECORDS. (1) General.

(a) Whenever an employee or designated representative requests access to a record, the employer shall assure that access is provided in a reasonable time, place and manner, but in no event later than fifteen days after the request for access is made.

(b) Whenever an employee or designated representative requests a copy of a record, the employer shall, within the period of time previously specified, assure that either:

(i) A copy of the record is provided without cost to the employee or representative;

(ii) The necessary mechanical copying facilities (e.g., photocopying) are made available without cost to the employee or representative for copying the record; or

(iii) The record is loaned to the employee or representative for a reasonable time to enable a copy to be made.

(c) Whenever a record has been previously provided without cost to an employee or designated representative, the employer may charge reasonable, nondiscriminatory administrative costs (i.e., search and copying expenses but not including overhead expenses) for a request by the employee or designated representative for additional copies of the record, except that:

(i) An employer shall not charge for an initial request for a copy of new information that has been added to a record which was previously provided; and

(ii) An employer shall not charge for an initial request by a recognized or certified collective bargaining agent for a copy of an employee exposure record or an analysis using exposure or medical records.

(d) Nothing in this section is intended to preclude employees and collective bargaining agents from collectively bargaining to obtain access to information in addition to that available under this section.

(2) Employee and designated representative access.

(a) Employee exposure records. Each employer shall, upon request, assure the access of each employee and designated representative to employee exposure records relevant to the employee. For the purpose of this section, exposure records relevant to the employee consist of:

(i) Records of the employee's past or present exposure to toxic substances or harmful physical agents;

(ii) Exposure records of other employees with past or present job duties or working conditions related to or similar to those of the employee;

(iii) Records containing exposure information concerning the employee's workplace or working conditions; and

(iv) Exposure records pertaining to workplaces or working conditions to which the employee is being assigned or transferred.

(b) Employee medical records.

(i) Each employer shall, upon request, assure the access of each employee to employee medical records of which the employee is the subject, except as provided in subdivision (2)(b)(iv) of this section.

(ii) Each employer shall, upon request, assure the access of each designated representative to the employee medical records of any employee who has given the designated representative specific written consent. Appendix A to this section contains a sample form which may be used to establish specific written consent for access to employee medical records.

(iii) Whenever access to employee medical records is requested, a physician representing the employer may recommend that the employee or designated representative:

(A) Consult with the physician for the purposes of reviewing and discussing the records requested;

(B) Accept a summary of material facts and opinions in lieu of the records requested; or

(C) Accept release of the requested records only to a physician or other designated representative.

(iv) Whenever an employee requests access to his or her employee medical records, and a physician representing the employer believes that direct employee access to information contained in the records regarding a specific diagnosis of a terminal illness or a psychiatric condition could be detrimental to the employee's health, the employer may inform the employee that access will only be provided to a designated representative of the employee having specific written consent, and deny the employee's request for direct access to this information only. Where a designated representative with specific written consent requests access to information so withheld, the employer shall assure the access of the designated representative to this information, even when it is known that the designated representative will give the information to the employee.

(v) Nothing in this section precludes a physician, nurse, or other responsible health care personnel maintaining employee medical records from deleting from requested medical records the identity of a family member, personal friend, or fellow employee who has provided confidential information concerning an employee's health status.

(c) Analyses using exposure or medical records.

(i) Each employer shall, upon request, assure the access of each employee and designated representative to each analysis using exposure or medical records concerning the employee's working conditions or workplace.

(ii) Whenever access is requested to an analysis which reports the contents of employee medical records by either direct identifier (name, address, social security number, payroll number, etc.) or by information which could reasonably be used under the circumstances indirectly to identify specific employees (exact age, height, weight, race, sex, date of initial employment, job title, etc.) the employer shall assure that

personal identifiers are removed before access is provided. If the employer can demonstrate that removal of personal identifiers from an analysis is not feasible, access to the personally identifiable portions of the analysis need not be provided.

(3) Department access.

(a) Each employer shall upon request, assure the immediate access of representatives of the director of the department of labor and industries to employee exposure and medical records and to analyses using exposure or medical records. Agency practice and procedures governing WISHA access to employee medical records shall apply.

(b) Whenever the department seeks access to personally identifiable employee medical information by presenting to the employer a written access order, the employer shall prominently post a copy of the written access order and its accompanying cover letter for at least fifteen working days.

AMENDATORY SECTION (Amending Order 82-10, filed 3/30/82)

WAC 296-62-07115 USE OF RESPIRATORS. (1) Standard operating procedures. Written standard operating procedures shall cover a complete respirator program and shall include information necessary for the proper use of respirators, including training of respirator wearers, respirator sealing tests, issuance of respirators, inspection of respirators prior to use, monitoring respirator use, monitoring respiratory hazard, and planning for routine, nonroutine, emergency, and rescue uses of respirators.

(a) The written standard operating procedures shall include plans necessary to ensure the safe routine use and nonroutine use of respirators. Emergency and rescue uses of respirators shall be anticipated, and the written standard operating procedures shall include plans necessary to ensure the safe emergency and rescue uses of respirators. Persons who wear respirators routinely, who wear respirators nonroutinely, and who may be required to wear respirators for emergency and rescue work shall be given adequate information concerning plans covering these respirator uses to ensure the safe use of respirators.

(b) Standard operating procedures for emergency and rescue use of respirators. It is recognized that it is not possible to foresee every emergency and rescue use of respirators for every kind of operation. Nevertheless, a wide variety of possible conditions requiring the emergency or rescue use of respirators can be envisioned and an adequate emergency and rescue respirator-response capability can be achieved through a serious effort to anticipate the worst possible consequences of particular malfunctions or mishaps.

The written standard operating procedures governing the emergency and rescue uses of respirators shall be developed in the following manner:

(i) An analysis of the emergency and rescue uses of respirators that may occur in each operation shall be made by careful consideration of materials, equipment, processes, and personnel involved. Such an analysis shall be reviewed by the person who is thoroughly familiar with the particular operation. Consideration shall be given to past occurrences requiring emergency or rescue uses of respirators as well as conditions which resulted in such respirator applications. The possible consequences of equipment or power failures, uncontrolled chemical reactions, fire, explosion, or human error shall be given consideration. All potential hazards which may result in emergency or rescue use of respirators shall be listed.

(ii) Based upon the analysis, appropriate types of respirators shall be selected, an adequate number shall be provided for each area where they may be needed for emergency or rescue use, and these respirators shall be maintained and stored so that they are readily accessible and operational when needed.

(iii) In areas where the wearer, with failure of the respirator, could be overcome by a toxic or oxygen-deficient atmosphere, at least one additional man shall be present. Communications (visual, voice, or signal line) shall be maintained between both or all individuals present. Planning shall be such that one individual will be unaffected by any likely incident and have the proper rescue equipment to be able to assist the other(s) in case of emergency.

(iv) When self-contained breathing apparatus or airline respirators with an escape provision are used in atmospheres immediately dangerous to life or health, standby workers must be present at the nearest fresh air base with suitable rescue equipment.

(v) Persons using air line respirators in atmospheres immediately hazardous to life or health shall be equipped with safety harnesses and safety lines for lifting or removing persons from hazardous atmospheres or other and equivalent provisions for the rescue of persons

from hazardous atmospheres shall be used. A standby worker or workers with suitable self-contained breathing apparatus shall be at the nearest fresh air base for emergency rescue.

(2) Training. The supervisor, the person issuing respirators, and the respirator wearers shall be given adequate training by a qualified person(s) to ensure the proper use of respirators. Written records shall be kept of the names of the persons trained and the dates when training occurred.

(a) Training of supervisor. A supervisor - that is, a person who has the responsibility of overseeing the work activities of one or more persons who must wear respirators - shall be given adequate training to ensure the proper use of respirators.

(b) Training of person issuing respirators. A person assigned the task of issuing respirators to persons who must wear respirators for protection against harmful atmospheres shall be given adequate training to ensure that the correct respirator is issued for each application in accordance with written standard operating procedures.

(c) Training of respirator wearer. To ensure the proper and safe use of a respirator, the minimum training of each respirator wearer shall include the following elements:

(i) The reasons for the need of respiratory protection.

(ii) The nature, extent, and effects of respiratory hazards to which the person may be exposed.

(iii) An explanation of why engineering controls are not being applied or are not adequate and of what effort is being made to reduce or eliminate the need for respirators.

(iv) An explanation of why a particular type of respirator has been selected for a specific respiratory hazard.

(v) An explanation of the operation, and the capabilities and limitations, of the respirator selected.

(vi) Instruction in inspecting, donning, checking the fit of, and wearing the respirator.

(vii) An opportunity for each respirator wearer to handle the respirator, learn how to don and wear it properly, check its seals, wear it in a safe atmosphere, and wear it in a test atmosphere.

(viii) An explanation of how maintenance and storage of the respirator is carried out.

(ix) Instructions in how to recognize and cope with emergency situations.

(x) Instructions as needed for special respirator use.

(xi) Regulations concerning respirator use.

(A) Wearing instructions and training. Wearing instructions and training, including practice demonstrations, shall be given to each respirator wearer and shall cover:

(aa) Donning, wearing, and removing the respirator.

(bb) Adjusting the respirator so that its respiratory-inlet covering is properly fitted on the wearer and so that the respirator causes a minimum of discomfort to the wearer.

(cc) Allowing the respirator wearer to wear the respirator in a safe atmosphere for an adequate period of time to ensure that the wearer is familiar with the operational characteristics of the respirator.

(dd) Providing the respirator wearer an opportunity to wear the respirator in a test atmosphere to demonstrate that the respirator provides protection to the wearer. A test atmosphere is any atmosphere in which the wearer can carry out activities simulating work movements and respirator leakage or respirator malfunction can be detected by the wearer.

(B) Retraining. Each respirator wearer shall be retrained as necessary to assure effective respirator use. Refresher training shall be given at least annually and shall include the provisions of WAC 296-62-07115(2)(c)(vii) through (2)(c)(xi)(A)(cc).

(3) Respirator sealing problems. Respirators shall not be worn when conditions prevent a seal of the respirator to the wearer.

(a) A person who has hair (stubble, mustache, sideburns, beard, low hairline, bangs) which passes between the face and the sealing surface of the facepiece of the respirator shall not be permitted to wear such a respirator.

(b) A person who has hair (mustache, beard) which interferes with the function of a respirator valve(s) shall not be permitted to wear the respirator.

(c) A spectacle which has temple bars or straps which pass between the sealing surface of a respirator full facepiece and the wearer's face shall not be used.

(d) A head covering which passes between the sealing surface of a respirator facepiece and the wearer's face shall not be used.

(e) The wearing of a spectacle, a goggle, a faceshield, a welding helmet, or other eye and face protective device which interferes with the seal of a respirator to the wearer shall not be allowed.

(f) If scars, hollow temples, excessively protruding cheekbones, deep creases in facial skin, the absence of teeth or dentures, or unusual facial configurations prevent a seal of a respirator facepiece to a wearer's face, the person shall not be permitted to wear the respirator.

(g) If missing teeth or dentures prevent a seal of a respirator mouthpiece in a person's mouth, the person shall not be allowed to wear a respirator equipped with a mouthpiece.

(h) If a person has a nose of a shape or size which prevents the closing of the nose by the nose clamp of a mouthpiece/nose-clamp type of respirator, the person shall not be permitted to wear this type of respirator.

(4) Respirator sealing tests. To ensure proper protection, the wearer of a respirator equipped with a facepiece shall check the seal of the facepiece prior to each entry into a hazardous atmosphere. This may be done using procedures recommended by respirator manufacturers or by approved field tests.

(5) Issuance of respirators. The proper respirator shall be specified for each application and shall be listed in the written standard operating procedures. If a respirator is marked for the worker to whom it is assigned or for other identification purposes, the markings shall not affect the respirator performance in any way.

(6) Respirator inspection prior to use. Each person issued a respirator for routine, nonroutine, emergency, or rescue use shall inspect the respirator prior to its use to ensure that it is in good operating condition.

(7) Monitoring respirator use. The use of respirators on a routine or nonroutine basis shall be monitored to ensure that the correct respirators are being used, that the respirators are being worn properly and that the respirators being used are in good working condition.

(8) Evaluation of respiratory hazard during use. The level of the respiratory hazard in the workplace to which a person wearing a respirator is exposed shall be evaluated periodically.

(9) Leaving a hazardous area. A respirator wearer shall be permitted to leave the hazardous area for any respirator-related cause. Reasons which may cause a respirator wearer to leave a hazardous area include, but are not limited to, the following:

- (a) Failure of the respirator to provide adequate protection.
- (b) Malfunction of the respirator.
- (c) Detection of leakage of air contaminant into the respirator.
- (d) Increase in resistance of respirator to breathing.
- (e) Severe discomfort in wearing the respirator.
- (f) Illness of respirator wearer, including: Sensation of dizziness, nausea, weakness, breathing difficulty, coughing, sneezing, vomiting, fever, and chills.

AMENDATORY SECTION (Amending Order 80-20, filed 11/13/80)

WAC 296-62-07308 GENERAL REGULATED AREA REQUIREMENTS. (1) Emergencies. In an emergency, immediate measures including, but not limited to, the requirements of ((WAC 296-62-07308(2)))(a),(b),(c),(d) and (e) of this subsection shall be implemented.

(a) The potentially affected area shall be evacuated as soon as the emergency has been determined.

(b) Hazardous conditions created by the emergency shall be eliminated and the potentially affected area shall be decontaminated prior to the resumption of normal operations.

(c) Special medical surveillance by a physician shall be instituted within twenty-four hours for employees present in the potentially affected area at the time of the emergency. A report of the medical surveillance and any treatment shall be included in the incident report, in accordance with WAC 296-62-07312(2).

(d) Where an employee has a known contact with a listed carcinogen, such employee shall be required to shower as soon as possible, unless contraindicated by physical injuries.

(e) An incident report on the emergency shall be reported as provided in WAC 296-62-07312(2).

(2) Hygiene facilities and practices.

(a) Storage or consumption of food, storage or use of containers of beverages, storage or application of cosmetics, smoking, storage of smoking materials, tobacco products or other products for chewing, or the chewing of such products, are prohibited in regulated areas.

(b) Where employees are required by this section to wash, washing facilities shall be provided in accordance with WAC 296-24-12009, of the General Safety and Health Standards.

(c) Where employees are required by this section to shower, shower facilities shall be provided.

(i) One shower shall be provided for each ten employees of each sex, or numerical fraction thereof, who are required to shower during the same shift.

(ii) Body soap or other appropriate cleansing agents convenient to the showers shall be provided as specified in WAC 296-24-12009, of the General Safety and Health Standards.

(iii) Showers shall be provided with hot and cold water feeding a common discharge line.

(iv) Employees who use showers shall be provided with individual clean towels.

(d) Where employees wear protective clothing and equipment, clean change rooms shall be provided and shall be equipped with storage facilities for street clothes and separate storage facilities for the protective clothing for the number of such employees required to change clothes.

(e) Where toilets are in regulated areas, such toilets shall be in a separate room.

(3) Contamination control.

(a) Regulated areas, except for outdoor systems, shall be maintained under pressure negative with respect to nonregulated areas. Local exhaust ventilation may be used to satisfy this requirement. Clean make-up air in equal volume shall replace air removed.

(b) Any equipment, material, or other item taken into or removed from a regulated area shall be done so in a manner that does not cause contamination in nonregulated areas or the external environment.

(c) Decontamination procedures shall be established and implemented to remove carcinogens from the surfaces of materials, equipment and the decontamination facility.

(d) Dry sweeping and dry mopping are prohibited.

AMENDATORY SECTION (Amending Order 82-22, filed 6/11/82)

WAC 296-62-07521 LEAD. (1) Scope and application.

(a) This section applies to all occupational exposure to lead, except as provided in subdivision (1)(b).

(b) This section does not apply to the construction industry or to agricultural operations covered by chapter 296-306 WAC.

(2) Definitions as applicable to this part.

(a) "Action level" - employee exposure, without regard to the use of respirators, to an airborne concentration of lead of thirty micrograms per cubic meter of air ($30 \mu\text{g}/\text{m}^3$) averaged over an eight-hour period.

(b) "Director" - the director of the department of labor and industries.

(c) "Lead" - metallic lead, all inorganic lead compounds, and organic lead soaps. Excluded from this definition are all other organic lead compounds.

(3) Permissible exposure limit (PEL).

(a) The employer shall assure that no employee is exposed to lead at concentrations greater than fifty micrograms per cubic meter of air ($50 \mu\text{g}/\text{m}^3$) averaged over an eight-hour period.

(b) If an employee is exposed to lead for more than eight hours in any work day, the permissible exposure limit, as a time weighted average (TWA) for that day, shall be reduced according to the following formula:

$$\text{Maximum permissible limit (in } \mu\text{g}/\text{m}^3) = 400 \div \text{hours worked in the day.}$$

(c) When respirators are used to supplement engineering and work practice controls to comply with the PEL and all the requirements of subsection (6) have been met, employee exposure, for the purpose of determining whether the employer has complied with the PEL, may be considered to be at the level provided by the protection factor of the respirator for those periods the respirator is worn. Those periods may be averaged with exposure levels during periods when respirators are not worn to determine the employee's daily TWA exposure.

(4) Exposure monitoring.

(a) General.

(i) For the purposes of subsection (4), employee exposure is that exposure which would occur if the employee were not using a respirator.

(ii) With the exception of monitoring under subdivision (4)(c), the employer shall collect full shift (for at least seven continuous hours) personal samples including at least one sample for each shift for each job classification in each work area.

(iii) Full shift personal samples shall be representative of the monitored employee's regular, daily exposure to lead.

(b) Initial determination. Each employer who has a workplace or work operation covered by this standard shall determine if any employee may be exposed to lead at or above the action level.

(c) Basis of initial determination.

(i) The employer shall monitor employee exposures and shall base initial determinations on the employee exposure monitoring results and any of the following, relevant considerations:

(A) Any information, observations, or calculations which would indicate employee exposure to lead;

(B) Any previous measurements of airborne lead; and

(C) Any employee complaints of symptoms which may be attributable to exposure to lead.

(ii) Monitoring for the initial determination may be limited to a representative sample of the exposed employees who the employer reasonably believes are exposed to the greatest airborne concentrations of lead in the workplace.

(iii) Measurements of airborne lead made in the preceding twelve months may be used to satisfy the requirement to monitor under item (4)(c)(i) if the sampling and analytical methods used meet the accuracy and confidence levels of subdivision (4)(i) of this section.

(d) Positive initial determination and initial monitoring.

(i) Where a determination conducted under subdivision (4)(b) and (4)(c) of this section shows the possibility of any employee exposure at or above the action level, the employer shall conduct monitoring which is representative of the exposure for each employee in the workplace who is exposed to lead.

(ii) Measurements of airborne lead made in the preceding twelve months may be used to satisfy this requirement if the sampling and analytical methods used meet the accuracy and confidence levels of subdivision (4)(i) of this section.

(e) Negative initial determination. Where a determination, conducted under subdivisions (4)(b) and (4)(c) of this section is made that no employee is exposed to airborne concentrations of lead at or above the action level, the employer shall make a written record of such determination. The record shall include at least the information specified in subdivision (4)(c) of this section and shall also include the date of determination, location within the worksite, and the name and social security number of each employee monitored.

(f) Frequency.

(i) If the initial monitoring reveals employee exposure to be below the action level the measurements need not be repeated except as otherwise provided in subdivision (4)(g) of this section.

(ii) If the initial determination or subsequent monitoring reveals employee exposure to be at or above the action level but below the permissible exposure limit the employer shall repeat monitoring in accordance with this subsection at least every six months. The employer shall continue monitoring at the required frequency until at least two consecutive measurements, taken at least seven days apart, are below the action level at which time the employer may discontinue monitoring for that employee except as otherwise provided in subdivision (4)(g) of this section.

(iii) If the initial monitoring reveals that employee exposure is above the permissible exposure limit the employer shall repeat monitoring quarterly. The employer shall continue monitoring at the required frequency until at least two consecutive measurements, taken at least seven days apart, are below the PEL but at or above the action level at which time the employer shall repeat monitoring for that employee at the frequency specified in item (4)(f)(ii), except as otherwise provided in subdivision (4)(g) of this section.

(g) Additional monitoring. Whenever there has been a production, process, control or personnel change which may result in new or additional exposure to lead, or whenever the employer has any other reason to suspect a change which may result in new or additional exposures to lead, additional monitoring in accordance with this subsection shall be conducted.

(h) Employee notification.

(i) Within five working days after the receipt of monitoring results, the employer shall notify each employee in writing of the results which represent that employee's exposure.

(ii) Whenever the results indicate that the representative employee exposure, without regard to respirators, exceeds the permissible exposure limit, the employer shall include in the written notice a statement that the permissible exposure limit was exceeded and a description of the corrective action taken or to be taken to reduce exposure to or below the permissible exposure limit.

(i) Accuracy of measurement. The employer shall use a method of monitoring and analysis which has an accuracy (to a confidence level of ninety-five percent) of not less than plus or minus twenty percent for airborne concentrations of lead equal to or greater than 30 $\mu\text{g}/\text{m}^3$.

(5) Methods of compliance.

(a) Engineering and work practice controls.

(i) Where any employee is exposed to lead above the permissible exposure limit for more than thirty days per year, the employer shall implement engineering and work practice controls (including administrative controls) to reduce and maintain employee exposure to lead in accordance with the implementation schedule in Table I below, except to the extent that the employer can demonstrate that such controls are not feasible. Wherever the engineering and work practice controls which can be instituted are not sufficient to reduce employee exposure to or below the permissible exposure limit, the employer shall nonetheless use them to reduce exposures to the lowest feasible level and shall supplement them by the use of respiratory protection which complies with the requirements of subsection (6) of this section.

(ii) Where any employee is exposed to lead above the permissible exposure limit, but for thirty days or less per year, the employer shall implement engineering controls to reduce exposures to 200 $\mu\text{g}/\text{m}^3$, but thereafter may implement any combination of engineering, work practice (including administrative controls), and respiratory controls to reduce and maintain employee exposure to lead to or below 50 $\mu\text{g}/\text{m}^3$.

TABLE I

IMPLEMENTATION SCHEDULE

Industry ¹	Compliance Dates ²		
	200 $\mu\text{g}/\text{m}^3$	100 $\mu\text{g}/\text{m}^3$	50 $\mu\text{g}/\text{m}^3$
Primary lead production	(3)	3	10
Secondary lead production	(3)	3	5
Lead-acid battery manufacturing	(3)	2	5
Automobile manufacture/ solder grinding	(3)	N/A	7
Electronics, gray iron foundries, ink manufacture, paints and coatings manufacture, wall paper manufacture, can manufacture, and printing	(3)	N/A	1
Lead pigment manufacture, nonferrous foundries, leaded steel manufacture, lead chemical manufacture, shipbuilding and ship repair, battery breaking in the collection and processing of scrap (excluding collection and processing of scrap which is part of a secondary smelting operation), secondary lead smelting of copper, and lead casting	(3)	N/A	N/A
All other industries	(3)	N/A	2 1/2

¹ Includes ancillary activities located on the same worksite.

² Expressed as the number of years from the effective date by which compliance with the given airborne exposure level, as an eight-hour TWA, must be achieved.

³ On effective date. This continues an obligation from WAC 296-62-07515 Table 1 which had been in effect since 1973.

(b) Respiratory protection. Where engineering and work practice controls do not reduce employee exposure to or below the 50 $\mu\text{g}/\text{m}^3$ permissible exposure limit, the employer shall supplement these controls with respirators in accordance with subsection (6).

(c) Compliance program.

(i) Each employer shall establish and implement a written compliance program to reduce exposures to or below the permissible exposure limit, and interim levels if applicable, solely by means of engineering and work practice controls in accordance with the implementation schedule in subdivision (5)(a).

(ii) Written plans for these compliance programs shall include at least the following:

(A) A description of each operation in which lead is emitted; e.g., machinery used, material processed, controls in place, crew size, employee job responsibilities, operating procedures and maintenance practices;

(B) A description of the specific means that will be employed to achieve compliance, including engineering plans and studies used to determine methods selected for controlling exposure to lead;

(C) A report of the technology considered in meeting the permissible exposure limit;

(D) Air monitoring data which documents the source of lead emissions;

(E) A detailed schedule for implementation of the program, including documentation such as copies of purchase orders for equipment, construction contracts, etc.;

(F) A work practice program which includes items required under subsections (7), (8) and (9) of this regulation;

(G) An administrative control schedule required by subdivision (5)(f), if applicable; and

(H) Other relevant information.

(iii) Written programs shall be submitted upon request to the director, and shall be available at the worksite for examination and copying by the director, any affected employee or authorized employee representatives.

(iv) Written programs shall be revised and updated at least every six months to reflect the current status of the program.

(d) Bypass of interim level. Where an employer's compliance plan provides for a reduction of employee exposures to or below the PEL solely by means of engineering and work practice controls in accordance with the implementation schedule in Table I, and the employer has determined that compliance with the 100 $\mu\text{g}/\text{m}^3$ interim level would divert resources to the extent that it clearly precludes compliance, otherwise attainable, with the PEL by the required time, the employer may proceed with the plan to comply with the PEL in lieu of compliance with the interim level if:

(i) The compliance plan clearly documents the basis of the determination;

(ii) The employer takes all feasible steps to provide maximum protection for employees until the PEL is met; and

(iii) The employer notifies the director in writing within ten working days of the completion or revision of the compliance plan reflecting the determination.

(e) Mechanical ventilation.

(i) When ventilation is used to control exposure, measurements which demonstrate the effectiveness of the system in controlling exposure, such as capture velocity, duct velocity, or static pressure shall be made at least every three months. Measurements of the system's effectiveness in controlling exposure shall be made within five days of any change in production, process, or control which might result in a change in employee exposure to lead.

(ii) Recirculation of air. If air from exhaust ventilation is recirculated into the workplace, the employer shall assure that (A) the system has a high efficiency filter with reliable back-up filter; and (B) controls to monitor the concentration of lead in the return air and to bypass the recirculation system automatically if it fails are installed, operating, and maintained.

(f) Administrative controls. If administrative controls are used as a means of reducing employees TWA exposure to lead, the employer shall establish and implement a job rotation schedule which includes:

(i) Name or identification number of each affected employee;

(ii) Duration and exposure levels at each job or work station where each affected employee is located; and

(iii) Any other information which may be useful in assessing the reliability of administrative controls to reduce exposure to lead.

(6) Respiratory protection.

(a) General. Where the use of respirators is required under this section, the employer shall provide, at no cost to the employee, and assure the use of respirators which comply with the requirements of this subsection. Respirators shall be used in the following circumstances:

(i) During the time period necessary to install or implement engineering or work practice controls, except that after the dates for compliance with the interim levels in Table I, no employer shall require an employee to wear a negative pressure respirator longer than 4.4 hours per day;

(ii) In work situations in which engineering and work practice controls are not sufficient to reduce exposures to or below the permissible exposure limit; and

(iii) Whenever an employee requests a respirator.

(b) Respirator selection.

(i) Where respirators are required under this section the employer shall select the appropriate respirator or combination of respirators from Table II.

TABLE II

RESPIRATORY PROTECTION FOR LEAD AEROSOLS

Airborne Concentration of Lead or Condition of Use	Required Respirator ¹
Not in excess of 0.5 mg/m ³ (10X PEL).	Half-mask, air-purifying respirator equipped with high efficiency filters. ^{2,3}
Not in excess of 2.5 mg/m ³ (50X PEL).	Full facepiece, air-purifying respirator with high efficiency filters. ³
Not in excess of 50 mg/m ³ (1000X PEL).	(1) Any powered, air-purifying respirator with high efficiency filters ³ ; or (2) Half-mask supplied air respirator operated in positive-pressure mode. ²
Not in excess of 100 mg/m ³ (2000X PEL).	Supplied-air respirators with full facepiece, hood, helmet, or suit, operated in positive pressure mode.
Greater than 100 mg/m ³ , unknown concentration or fire fighting.	Full facepiece, self-contained breathing apparatus operated in positive-pressure mode.

¹ Respirators specified for high concentrations can be used at lower concentrations of lead.

² Full facepiece is required if the lead aerosols cause eye or skin irritation at the use concentrations.

³ A high efficiency particulate filter means 99.97 percent efficient against 0.3 micron size particles.

(ii) The employer shall provide a powered, air-purifying respirator in lieu of the respirator specified, in Table II whenever:

(A) An employee chooses to use this type of respirator; and

(B) This respirator will provide adequate protection to the employee.

(iii) The employer shall select respirators from among those approved for protection against lead dust, fume, and mist by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health (NIOSH) under the provisions of 30 CFR Part 11.

(c) Respirator usage.

(i) The employer shall assure that the respirator issued to the employee exhibits minimum facepiece leakage and that the respirator is fitted properly.

(ii) Employers shall perform ((quantitative face fit tests at the time of initial fitting and at least semiannually thereafter for each employee wearing negative pressure respirators)) either quantitative or qualitative face fit tests at the time of initial fitting and at least every six months thereafter for each employee wearing negative pressure respirators. The qualitative fit tests may be used only for testing the fit of half-mask respirators where they are permitted to be worn, and shall be conducted in accordance with Appendix D. The tests shall be used to select facepieces that provide the required protection as prescribed in Table II.

(iii) If an employee exhibits difficulty in breathing during the fitting test or during use, the employer shall make available to the employee an examination in accordance with subitem (10)(c)(i)(C) of this section to determine whether the employee can wear a respirator while performing the required duty.

(d) Respirator program.

(i) The employer shall institute a respiratory protection program in accordance with WAC 296-62-071.

(ii) The employer shall permit each employee who uses a filter respirator to change the filter elements whenever an increase in breathing resistance is detected and shall maintain an adequate supply of filter elements for this purpose.

(iii) Employees who wear respirators shall be permitted to leave work areas to wash their face and respirator facepiece whenever necessary to prevent skin irritation associated with respirator use.

(7) Protective work clothing and equipment.

(a) Provision and use. If an employee is exposed to lead above the PEL, without regard to the use of respirators or where the possibility of skin or eye irritation exists, the employer shall provide at no cost to the employee and assure that the employee uses appropriate protective work clothing and equipment such as, but not limited to:

(i) Coveralls or similar full-body work clothing;

(ii) Gloves, hats, and shoes or disposable shoe coverlets; and

(iii) Face shields, vented goggles, or other appropriate protective equipment which complies with WAC 296-24-078.

(b) Cleaning and replacement.

(i) The employer shall provide the protective clothing required in subdivision (7)(a) of this section in a clean and dry condition at least weekly, and daily to employees whose exposure levels without regard to a respirator are over $200 \mu\text{g}/\text{m}^3$ of lead as an eight-hour TWA.

(ii) The employer shall provide for the cleaning, laundering, or disposal of protective clothing and equipment required by subdivision (7)(a) of this section.

(iii) The employer shall repair or replace required protective clothing and equipment as needed to maintain their effectiveness.

(iv) The employer shall assure that all protective clothing is removed at the completion of a work shift only in change rooms provided for that purpose as prescribed in subdivision (9)(b) of this section.

(v) The employer shall assure that contaminated protective clothing which is to be cleaned, laundered, or disposed of, is placed in a closed container in the change-room which prevents dispersion of lead outside the container.

(vi) The employer shall inform in writing any person who cleans or launders protective clothing or equipment of the potentially harmful effects of exposure to lead.

(vii) The employer shall assure that the containers of contaminated protective clothing and equipment required by subdivision (7)(b)(v) are labeled as follows:

CAUTION: CLOTHING CONTAMINATED WITH LEAD. DO NOT REMOVE DUST BY BLOWING OR SHAKING. DISPOSE OF LEAD CONTAMINATED WASH WATER IN ACCORDANCE WITH APPLICABLE LOCAL, STATE, OR FEDERAL REGULATIONS.

(viii) The employer shall prohibit the removal of lead from protective clothing or equipment by blowing, shaking, or any other means which disperses lead into the air.

(8) Housekeeping.

(a) Surfaces. All surfaces shall be maintained as free as practicable of accumulations of lead.

(b) Cleaning floors.

(i) Floors and other surfaces where lead accumulates may not be cleaned by the use of compressed air.

(ii) Shoveling, dry or wet sweeping, and brushing may be used only where vacuuming or other equally effective methods have been tried and found not to be effective.

(c) Vacuuming. Where vacuuming methods are selected, the vacuums shall be used and emptied in a manner which minimizes the reentry of lead into the workplace.

(9) Hygiene facilities and practices.

(a) The employer shall assure that in areas where employees are exposed to lead above the PEL, without regard to the use of respirators, food or beverage is not present or consumed, tobacco products are not present or used, and cosmetics are not applied, except in change rooms, lunchrooms, and showers required under subdivision (9)(b) through (9)(d) of this section.

(b) Change rooms.

(i) The employer shall provide clean change rooms for employees who work in areas where their airborne exposure to lead is above the PEL, without regard to the use of respirators.

(ii) The employer shall assure that change rooms are equipped with separate storage facilities for protective work clothing and equipment and for street clothes which prevent cross-contamination.

(c) Showers.

(i) The employer shall assure that employees who work in areas where their airborne exposure to lead is above the PEL, without regard to the use of respirators, shower at the end of the work shift.

(ii) The employer shall provide shower facilities in accordance with WAC 296-24-12009.

(iii) The employer shall assure that employees who are required to shower pursuant to item (9)(c)(i) do not leave the workplace wearing any clothing or equipment worn during the work shift.

(d) Lunchrooms.

(i) The employer shall provide lunchroom facilities for employees who work in areas where their airborne exposure to lead is above the PEL, without regard to the use of respirators.

(ii) The employer shall assure that lunchroom facilities have a temperature controlled, positive pressure, filtered air supply, and are readily accessible to employees.

(iii) The employer shall assure that employees who work in areas where their airborne exposure to lead is above the PEL without regard to the use of a respirator wash their hands and face prior to eating, drinking, smoking or applying cosmetics.

(iv) The employer shall assure that employees do not enter lunchroom facilities with protective work clothing or equipment unless surface lead dust has been removed by vacuuming, downdraft booth, or other cleaning method.

(e) Lavatories. The employer shall provide an adequate number of lavatory facilities which comply with WAC 296-24-12009(1) and (2).

(10) Medical surveillance.

(a) General.

(i) The employer shall institute a medical surveillance program for all employees who are or may be exposed above the action level for more than thirty days per year.

(ii) The employer shall assure that all medical examinations and procedures are performed by or under the supervision of a licensed physician.

(iii) The employer shall provide the required medical surveillance including multiple physician review under item (10)(c)(iii) without cost to employees and at a reasonable time and place.

(b) Biological monitoring.

(i) Blood lead and ZPP level sampling and analysis. The employer shall make available biological monitoring in the form of blood sampling and analysis for lead and zinc protoporphyrin levels to each employee covered under item (10)(a)(i) of this section on the following schedule:

(A) At least every six months to each employee covered under item (10)(a)(i) of this section;

(B) At least every two months for each employee whose last blood sampling and analysis indicated a blood lead level at or above $40 \mu\text{g}/100 \text{ g}$ of whole blood. This frequency shall continue until two consecutive blood samples and analyses indicate a blood lead level below $40 \mu\text{g}/100 \text{ g}$ of whole blood; and

(C) At least monthly during the removal period of each employee removed from exposure to lead due to an elevated blood lead level.

(ii) Follow-up blood sampling tests. Whenever the results of a blood lead level test indicate that an employee's blood lead level exceeds the numerical criterion for medical removal under item (11)(a)(i), the employer shall provide a second (follow-up) blood sampling test within two weeks after the employer receives the results of the first blood sampling test.

(iii) Accuracy of blood lead level sampling and analysis. Blood lead level sampling and analysis provided pursuant to this section shall have an accuracy (to a confidence level of ninety-five percent) within plus or minus fifteen percent or $6 \mu\text{g}/100 \text{ ml}$, whichever is greater, and shall be conducted by a laboratory licensed by the Center for Disease Control (CDC), United States Department of Health, Education and Welfare or which has received a satisfactory grade in blood lead proficiency testing from CDC in the prior twelve months.

(iv) Employee notification. Within five working days after the receipt of biological monitoring results, the employer shall notify in writing each employee whose blood lead level exceeds $40 \mu\text{g}/100 \text{ g}$: (A) of that employee's blood lead level and (B) that the standard requires temporary medical removal with medical removal protection benefits when an employee's blood lead level exceeds the numerical criterion for medical removal under item (11)(a)(i) of this section.

(c) Medical examinations and consultations.

(i) Frequency. The employer shall make available medical examinations and consultations to each employee covered under item (10)(a)(i) of this section on the following schedule:

(A) At least annually for each employee for whom a blood sampling test conducted at any time during the preceding twelve months indicated a blood lead level at or above $40 \mu\text{g}/100 \text{ g}$;

(B) Prior to assignment for each employee being assigned for the first time to an area in which airborne concentrations of lead are at or above the action level;

(C) As soon as possible, upon notification by an employee either that the employee has developed signs or symptoms commonly associated with lead intoxication, that the employee desires medical advice concerning the effects of current or past exposure to lead on the employee's ability to procreate a healthy child, or that the employee has demonstrated difficulty in breathing during a respirator fitting test or during use; and

(D) As medically appropriate for each employee either removed from exposure to lead due to a risk of sustaining material impairment to health, or otherwise limited pursuant to a final medical determination.

(ii) Content. Medical examinations made available pursuant to sub-items (10)(c)(i)(A) through (B) of this section shall include the following elements:

(A) A detailed work history and a medical history, with particular attention to past lead exposure (occupational and nonoccupational), personal habits (smoking, hygiene), and past gastrointestinal, hematologic, renal, cardiovascular, reproductive and neurological problems;

(B) A thorough physical examination, with particular attention to teeth, gums, hematologic, gastrointestinal, renal, cardiovascular, and neurological systems. Pulmonary status should be evaluated if respiratory protection will be used;

(C) A blood pressure measurement;

(D) A blood sample and analysis which determines:

(aa) Blood lead level;

(bb) Hemoglobin and hematocrit determinations, red cell indices, and examination of peripheral smear morphology;

(cc) Zinc protoporphyrin;

(dd) Blood urea nitrogen; and

(ee) Serum creatinine;

(E) A routine urinalysis with microscopic examination; and

(F) Any laboratory or other test which the examining physician deems necessary by sound medical practice.

The content of medical examinations made available pursuant to subitems (10)(c)(i)(C) through (D) of this section shall be determined by an examining physician and, if requested by an employee, shall include pregnancy testing or laboratory evaluation of male fertility.

(iii) Multiple physician review mechanism.

(A) If the employer selects the initial physician who conducts any medical examination or consultation provided to an employee under this section, the employee may designate a second physician:

(aa) To review any findings, determinations or recommendations of the initial physician; and

(bb) To conduct such examinations, consultations, and laboratory tests as the second physician deems necessary to facilitate this review.

(B) The employer shall promptly notify an employee of the right to seek a second medical opinion after each occasion that an initial physician conducts a medical examination or consultation pursuant to this section. The employer may condition its participation in, and payment for, the multiple physician review mechanism upon the employee doing the following within fifteen days after receipt of the foregoing notification, or receipt of the initial physician's written opinion, whichever is later:

(aa) The employee informing the employer that he or she intends to seek a second medical opinion, and

(bb) The employee initiating steps to make an appointment with a second physician.

(C) If the findings, determinations or recommendations of the second physician differ from those of the initial physician, then the employer and the employee shall assure that efforts are made for the two physicians to resolve any disagreement.

(D) If the two physicians have been unable to quickly resolve their disagreement, then the employer and the employee through their respective physicians shall designate a third physician:

(aa) To review any findings, determinations or recommendations of the prior physicians; and

(bb) To conduct such examinations, consultations, laboratory tests and discussions with the prior physicians as the third physician deems necessary to resolve the disagreement of the prior physicians.

(E) The employer shall act consistent with the findings, determinations and recommendations of the third physician, unless the employer and the employee reach an agreement which is otherwise consistent with the recommendations of at least one of the three physicians.

(iv) Information provided to examining and consulting physicians.

(A) The employer shall provide an initial physician conducting a medical examination or consultation under this section with the following information:

(aa) A copy of this regulation for lead including all appendices;

(bb) A description of the affected employee's duties as they relate to the employee's exposure;

(cc) The employee's exposure level or anticipated exposure level to lead and to any other toxic substance (if applicable);

(dd) A description of any personal protective equipment used or to be used;

(ee) Prior blood lead determinations; and

(ff) All prior written medical opinions concerning the employee in the employer's possession or control.

(B) The employer shall provide the foregoing information to a second or third physician conducting a medical examination or consultation under this section upon request either by the second or third physician, or by the employee.

(v) Written medical opinions.

(A) The employer shall obtain and furnish the employee with a copy of a written medical opinion from each examining or consulting physician which contains the following information:

(aa) The physician's opinion as to whether the employee has any detected medical condition which would place the employee at increased risk of material impairment of the employee's health from exposure to lead;

(bb) Any recommended special protective measures to be provided to the employee, or limitations to be placed upon the employee's exposure to lead;

(cc) Any recommended limitation upon the employee's use of respirators, including a determination of whether the employee can wear a powered air purifying respirator if a physician determines that the employee cannot wear a negative pressure respirator; and

(dd) The results of the blood lead determinations.

(B) The employer shall instruct each examining and consulting physician to:

(aa) Not reveal either in the written opinion, or in any other means of communication with the employer, findings, including laboratory results, or diagnoses unrelated to an employee's occupational exposure to lead; and

(bb) Advise the employee of any medical condition, occupational or nonoccupational, which dictates further medical examination or treatment.

(vi) Alternate physician determination mechanisms. The employer and an employee or authorized employee representative may agree upon the use of any expeditious alternate physician determination mechanism in lieu of the multiple physician review mechanism provided by this subsection so long as the alternate mechanism otherwise satisfies the requirements contained in this subsection.

(d) Chelation.

(i) The employer shall assure that any person whom he retains, employs, supervises or controls does not engage in prophylactic chelation of any employee at any time.

(ii) If therapeutic or diagnostic chelation is to be performed by any person in item (10)(d)(i), the employer shall assure that it be done under the supervision of a licensed physician in a clinical setting with thorough and appropriate medical monitoring and that the employee is notified in writing prior to its occurrence.

(1) Medical removal protection.

(a) Temporary medical removal and return of an employee.

(i) Temporary removal due to elevated blood lead levels.

(A) First year of the standard. During the first year following the effective date of the standard, the employer shall remove an employee from work having a daily eight hour TWA exposure to lead at or above 100 $\mu\text{g}/\text{m}^3$ on each occasion that a periodic and a follow-up blood sampling test conducted pursuant to this section indicate that the employee's blood lead level is at or above 80 $\mu\text{g}/100$ g of whole blood;

(B) Second year of the standard. During the second year following the effective date of the standard, the employer shall remove an employee from work having a daily eight hour TWA exposure to lead at or above 50 $\mu\text{g}/\text{m}^3$ on each occasion that a periodic and a follow-up blood sampling test conducted pursuant to this section indicate that the employee's blood lead level is at or above 70 $\mu\text{g}/100$ g of whole blood;

(C) Third year of the standard, and thereafter. Beginning with the third year following the effective date of the standard, the employer shall remove an employee from work having an exposure to lead at or above the action level on each occasion that a periodic and a follow-up blood sampling test conducted pursuant to this section indicate that the employee's blood lead level is at or above 60 $\mu\text{g}/100$ g of whole blood; and

(D) Fifth year of the standard, and thereafter. Beginning with the fifth year following the effective date of the standard, the employer shall remove an employee from work having an exposure to lead at or above the action level on each occasion that the average of the last three blood sampling tests conducted pursuant to this section (or the average of all blood sampling tests conducted over the previous six months, whichever is longer) indicates that the employee's blood lead level is at or above 50 $\mu\text{g}/100$ g of whole blood; provided, however, that an employee need not be removed if the last blood sampling test indicates a blood lead level at or below 40 $\mu\text{g}/100$ g of whole blood.

(ii) Temporary removal due to a final medical determination.

(A) The employer shall remove an employee from work having an exposure to lead at or above the action level on each occasion that a final medical determination results in a medical finding, determination, or opinion that the employee has a detected medical condition which places the employee at increased risk of material impairment to health from exposure to lead.

(B) For the purposes of this section, the phrase "final medical determination" shall mean the outcome of the multiple physician review mechanism or alternate medical determination mechanism used pursuant to the medical surveillance provisions of this section.

(C) Where a final medical determination results in any recommended special protective measures for an employee, or limitations on an employee's exposure to lead, the employer shall implement and act consistent with the recommendation.

(iii) Return of the employee to former job status.

(A) The employer shall return an employee to his or her former job status:

(aa) For an employee removed due to a blood lead level at or above 80 $\mu\text{g}/100\text{ g}$, when two consecutive blood sampling tests indicate that the employee's blood lead level is at or below 60 $\mu\text{g}/100\text{ g}$ of whole blood;

(bb) For an employee removed due to a blood lead level at or above 70 $\mu\text{g}/100\text{ g}$, when two consecutive blood sampling tests indicate that the employee's blood lead level is at or below 50 $\mu\text{g}/100\text{ g}$ of whole blood;

(cc) For an employee removed due to a blood lead level at or above 60 $\mu\text{g}/100\text{ g}$, or due to an average blood lead level at or above 50 $\mu\text{g}/100\text{ g}$, when two consecutive blood sampling tests indicate that the employee's blood lead level is at or below 40 $\mu\text{g}/100\text{ g}$ of whole blood;

(dd) For an employee removed due to a final medical determination, when a subsequent final medical determination results in a medical finding, determination, or opinion that the employee no longer has a detected medical condition which places the employee at increased risk of material impairment to health from exposure to lead.

(B) For the purposes of this section, the requirement that an employer return an employee to his or her former job status is not intended to expand upon or restrict any rights an employee has or would have had, absent temporary medical removal, to a specific job classification or position under the terms of a collective bargaining agreement.

(iv) Removal of other employee special protective measure or limitations. The employer shall remove any limitations placed on an employee or end any special protective measures provided to an employee pursuant to a final medical determination when a subsequent final medical determination indicates that the limitations or special protective measures are no longer necessary.

(v) Employer options pending a final medical determination. Where the multiple physician review mechanism, or alternate medical determination mechanism used pursuant to the medical surveillance provisions of this section, has not yet resulted in a final medical determination with respect to an employee, the employer shall act as follows:

(A) Removal. The employer may remove the employee from exposure to lead, provide special protective measures to the employee, or place limitations upon the employee, consistent with the medical findings, determinations, or recommendations of any of the physicians who have reviewed the employee's health status.

(B) Return. The employer may return the employee to his or her former job status, end any special protective measures provided to the employee, and remove any limitations placed upon the employee, consistent with the medical findings, determinations, or recommendations of any of the physicians who have reviewed the employee's health status, with two exceptions. If:

(aa) The initial removal, special protection, or limitation of the employee resulted from a final medical determination which differed from the findings, determinations, or recommendations of the initial physician; or

(bb) The employee has been on removal status for the preceding eighteen months due to an elevated blood lead level, then the employer shall await a final medical determination.

(b) Medical removal protection benefits.

(i) Provision of medical removal protection benefits. The employer shall provide to an employee up to eighteen months of medical removal protection benefits on each occasion that an employee is removed from exposure to lead or otherwise limited pursuant to this section.

(ii) Definition of medical removal protection benefits. For the purposes of this section, the requirement that an employer provide medical

removal protection benefits means that the employer shall maintain the earnings, seniority and other employment rights and benefits of an employee as though the employee had not been removed from normal exposure to lead or otherwise limited.

(iii) Follow-up medical surveillance during the period of employee removal or limitation. During the period of time that an employee is removed from normal exposure to lead or otherwise limited, the employer may condition the provision of medical removal protection benefits upon the employee's participation in follow-up medical surveillance made available pursuant to this section.

(iv) Workers' compensation claims. If a removed employee files a claim for workers' compensation payments for a lead-related disability, then the employer shall continue to provide medical removal protection benefits pending disposition of the claim. To the extent that an award is made to the employee for earnings lost during the period of removal, the employer's medical removal protection obligation shall be reduced by such amount. The employer shall receive no credit for workers' compensation payments received by the employee for treatment related expenses.

(v) Other credits. The employer's obligation to provide medical removal protection benefits to a removed employee shall be reduced to the extent that the employee receives compensation for earnings lost during the period of removal either from a publicly or employer-funded compensation program, or receives income from employment with another employer made possible by virtue of the employee's removal.

(vi) Employees whose blood lead levels do not adequately decline within eighteen months of removal. The employer shall take the following measures with respect to any employee removed from exposure to lead due to an elevated blood lead level whose blood lead level has not declined within the past eighteen months of removal so that the employee has been returned to his or her former job status:

(A) The employer shall make available to the employee a medical examination pursuant to this section to obtain a final medical determination with respect to the employee;

(B) The employer shall assure that the final medical determination obtained indicates whether or not the employee may be returned to his or her former job status, and if not, what steps should be taken to protect the employee's health;

(C) Where the final medical determination has not yet been obtained, or once obtained indicates that the employee may not yet be returned to his or her former job status, the employer shall continue to provide medical removal protection benefits to the employee until either the employee is returned to former job status, or a final medical determination is made that the employee is incapable of ever safely returning to his or her former job status.

(D) Where the employer acts pursuant to a final medical determination which permits the return of the employee to his or her former job status despite what would otherwise be an unacceptable blood lead level, later questions concerning removing the employee again shall be decided by a final medical determination. The employer need not automatically remove such an employee pursuant to the blood lead level removal criteria provided by this section.

(vii) Voluntary removal or restriction of an employee. Where an employer, although not required by this section to do so, removes an employee from exposure to lead or otherwise places limitations on an employee due to the effects of lead exposure on the employee's medical condition, the employer shall provide medical removal protection benefits to the employee equal to that required by item (11)(b)(i) of this section.

(12) Employee information and training.

(a) Training program.

(i) Each employer who has a workplace in which there is a potential exposure to airborne lead at any level shall inform employees of the content of Appendices A and B of this regulation.

(ii) The employer shall institute a training program for and assure the participation of all employees who are subject to exposure to lead at or above the action level or for whom the possibility of skin or eye irritation exists.

(iii) The employer shall provide initial training by one hundred eighty days from the effective date for those employees covered by item (12)(a)(ii) on the standard's effective date and prior to the time of initial job assignment for those employees subsequently covered by this subsection.

(iv) The training program shall be repeated at least annually for each employee.

(v) The employer shall assure that each employee is informed of the following:

- (A) The content of this standard and its appendices;
 - (B) The specific nature of the operations which could result in exposure to lead above the action level;
 - (C) The purpose, proper selection, fitting, use, and limitations of respirators;
 - (D) The purpose and a description of the medical surveillance program, and the medical removal protection program including information concerning the adverse health effects associated with excessive exposure to lead (with particular attention to the adverse reproductive effects on both males and females);
 - (E) The engineering controls and work practices associated with the employee's job assignment;
 - (F) The contents of any compliance plan in effect; and
 - (G) Instructions to employees that chelating agents should not routinely be used to remove lead from their bodies and should not be used at all except under the direction of a licensed physician.
- (b) Access to information and training materials.
- (i) The employer shall make readily available to all affected employees a copy of this standard and its appendices.
 - (ii) The employer shall provide, upon request, all materials relating to the employee information and training program to the director.
 - (iii) In addition to the information required by item (12)(a)(v), the employer shall include as part of the training program, and shall distribute to employees, any materials pertaining to the Occupational Safety and Health Act, the regulations issued pursuant to the act, and this lead standard, which are made available to the employer by the director.

(13) Signs.

(a) General.

(i) The employer may use signs required by other statutes, regulations or ordinances in addition to, or in combination with, signs required by this subsection.

(ii) The employer shall assure that no statement appears on or near any sign required by this subsection which contradicts or detracts from the meaning of the required sign.

(b) Signs.

(i) The employer shall post the following warning signs in each work area where the PEL is exceeded:

WARNING
LEAD WORK AREA
POISON
NO SMOKING OR EATING

(ii) The employer shall assure that signs required by this subsection are illuminated and cleaned as necessary so that the legend is readily visible.

(14) Recordkeeping.

(a) Exposure monitoring.

(i) The employer shall establish and maintain an accurate record of all monitoring required in subsection (4) of this section.

(ii) This record shall include:

(A) The date(s), number, duration, location and results of each of the samples taken, including a description of the sampling procedure used to determine representative employee exposure where applicable;

(B) A description of the sampling and analytical methods used and evidence of their accuracy;

(C) The type of respiratory protective devices worn, if any;

(D) Name, social security number, and job classification of the employee monitored and of all other employees whose exposure the measurement is intended to represent; and

(E) the environmental variables that could affect the measurement of employee exposure.

(iii) The employer shall maintain these monitoring records for at least forty years or for the duration of employment plus twenty years, whichever is longer.

(b) Medical surveillance.

(i) The employer shall establish and maintain an accurate record for each employee subject to medical surveillance as required by subsection (10) of this section.

(ii) This record shall include:

(A) The name, social security number, and description of the duties of the employee;

(B) A copy of the physician's written opinions;

(C) Results of any airborne exposure monitoring done for that employee and the representative exposure levels supplied to the physician; and

(D) Any employee medical complaints related to exposure to lead.

(iii) the employer shall keep, or assure that the examining physician keeps, the following medical records:

(A) A copy of the medical examination results including medical and work history required under subsection (10) of this section;

(B) A description of the laboratory procedures and a copy of any standards or guidelines used to interpret the test results or references to that information; and

(C) A copy of the results of biological monitoring.

(iv) The employer shall maintain or assure that the physician maintains those medical records for at least forty years, or for the duration of employment plus twenty years, whichever is longer.

(c) Medical removals.

(i) The employer shall establish and maintain an accurate record for each employee removed from current exposure to lead pursuant to subsection (11) of this section.

(ii) Each record shall include:

(A) The name and social security number of the employee;

(B) The date on each occasion that the employee was removed from current exposure to lead as well as the corresponding date on which the employee was returned to his or her former job status;

(C) A brief explanation of how each removal was or is being accomplished; and

(D) A statement with respect to each removal indicating whether or not the reason for the removal was an elevated blood lead level.

(iii) The employer shall maintain each medical removal record for at least the duration of an employee's employment.

(d) Availability.

(i) The employer shall make available upon request all records required to be maintained by subsection (14) of this section to the director for examination and copying.

(ii) Environmental monitoring, medical removal, and medical records required by this subsection shall be provided upon request to employees, designated representatives, and the assistant director in accordance with WAC 296-62-05201 through 296-62-05209 and 296-62-05213 through 296-62-05217. Medical removal records shall be provided in the same manner as environmental monitoring records.

(iii) Upon request, the employer shall make an employee's medical records required to be maintained by this section available to the affected employee or former employee or to a physician or other individual designated by such affected employee or former employees for examination and copying.

(e) Transfer of records.

(i) Whenever the employer ceases to do business, the successor employer shall receive and retain all records required to be maintained by subsection (14) of this section.

(ii) Whenever the employer ceases to do business and there is no successor employer to receive and retain the records required to be maintained by this section for the prescribed period, these records shall be transmitted to the director.

(iii) At the expiration of the retention period for the records required to be maintained by this section, the employer shall notify the director at least three months prior to the disposal of such records and shall transmit those records to the director if requested within the period.

(iv) The employer shall also comply with any additional requirements involving transfer of records set forth in WAC 296-62-05215.

(15) Observation of monitoring.

(a) Employee observation. The employer shall provide affected employees or their designated representatives an opportunity to observe any monitoring of employee exposure to lead conducted pursuant to subsection (4) of this section.

(b) Observation procedures.

(i) Whenever observation of the monitoring of employee exposure to lead requires entry into an area where the use of respirators, protective clothing or equipment is required, the employer shall provide the observer with and assure the use of such respirators, clothing and such equipment, and shall require the observer to comply with all other applicable safety and health procedures.

(ii) Without interfering with the monitoring, observers shall be entitled to:

(A) Receive an explanation of the measurement procedures;

(B) Observe all steps related to the monitoring of lead performed at the place of exposure; and

(C) Record the results obtained or receive copies of the results when returned by the laboratory.

(16) Effective date. (~~This standard shall become effective thirty days after filing with the code reviser~~) The effective date of this standard is September 6, 1980.

(17) Appendices. The information contained in the appendices to this section is not intended by itself, to create any additional obligations not otherwise imposed by this standard nor detract from any existing obligation. Appendices are available from:

The Technical Services Section
Division of Industrial Safety and Health
P.O. Box 207
Olympia, WA 98504 (206)753-6381

(18) Startup dates. All obligations of this standard commence on the effective date except as follows:

(a) The initial determination under subdivision (4)(b) shall be made as soon as possible but no later than thirty days from the effective date.

(b) Initial monitoring under subdivision (4)(d) shall be completed as soon as possible but no later than ninety days from the effective date.

(c) Initial biological monitoring and medical examinations under subsection (10) shall be completed as soon as possible but no later than one hundred eighty days from the effective date. Priority for biological monitoring and medical examinations shall be given to employees whom the employer believes to be at greatest risk from continued exposure.

(d) Initial training and education shall be completed as soon as possible but no later than one hundred eighty days from the effective date.

(e) Hygiene and lunchroom facilities under subsection (9) shall be in operation as soon as possible but no later than one year from the effective year.

(f) Respiratory protection required by subsection (6) shall be provided as soon as possible but no later than the following schedule:

(i) Employees whose eight-hour TWA exposure exceeds $200 \mu\text{g}/\text{m}^3$ - on the effective date.

(ii) Employees whose eight-hour TWA exposure exceeds the PEL but is less than $200 \mu\text{g}/\text{m}^3$ - one hundred fifty days from the effective date.

(iii) Powered, air-purifying respirators provided under (6)(b)(ii) - two hundred ten days from the effective date.

(iv) Quantitative fit testing required under item (6)(c)(ii) - one year from effective date. Qualitative fit testing is required in the interim.

(g) Written compliance plans required by subdivision (5)(c) shall be completed and available for inspection and copying as soon as possible but no later than the following schedule:

(i) Employers for whom compliance with the PEL or interim level is required within one year from the effective date - six months from the effective date.

(ii) Employers in secondary smelting and refining, lead storage battery manufacturing, lead pigment manufacturing and nonferrous foundry industries - one year from the effective date.

(iii) Employers in primary smelting and refining industry - one year from the effective date from the interim level; five years from the effective date for PEL.

(iv) Plans for construction of hygiene facilities, if required - six months from the effective date.

(h) The permissible exposure limit in subsection (3) shall become effective one hundred fifty days from the effective date.

AMENDATORY SECTION (Amending Order 82-22, filed 6/11/82)

WAC 296-62-09003 LIGHTING AND ILLUMINATION. (1) Lighting which is adequately adjusted to provide a margin of safety (~~in production and inspection tasks shall be provided and maintained. The minimum level of task lighting in all shops shall be an average of 10 foot candles measured 30 inches above the floor.~~

~~(2) If general lighting is not provided throughout the work place, the employer shall provide illumination which is adequately adjusted to provide visibility of nearby objects which might be potential hazards or to see to operate emergency control equipment. The minimum level of nontask lighting in all shops shall be an average of 3 foot candles measured 30 inches above the floor.)~~ for all work tasks shall be provided and maintained.

(a) The minimum level of task lighting for all indoor activities shall be an average of ten foot candles measured thirty inches above the floor or at the task.

(b) The minimum level of task lighting for all outdoor activities shall be an average of five foot candles measured thirty inches above the working surface or at the task.

(2) If general lighting is not provided throughout the work area, the employer shall provide illumination which is adequately adjusted to provide visibility of nearby objects which might be potential hazards or to see to operate emergency control or other equipment. The minimum level of nontask lighting for all indoor and outdoor activities shall be an average of three foot candles measured thirty inches above the floor or working surface.

NOTE: This section establishes minimal levels of illumination for safety purposes only. Guidelines pertaining to optimal levels of lighting and illumination may be found in Practice for Industrial Lighting, ANSI/IES RP7-1979. The minimum levels specified in subsections (1) and (2) of this section represent averages with the lowest level in an area to be no less than fifty percent of the indicated value.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09015 HEARING CONSERVATION. The employer shall administer a continuing effective hearing conservation program, as described in WAC 296-62-09015 through (~~296-62-09053~~) 296-62-09055 whenever employee noise exposures equal or exceed an 8-hour time-weighted average (TWA) sound level of 85 decibels (dB) measured on the A-scale weighting at slow response or, equivalently, a noise dose of fifty percent. For purposes of the hearing conservation program, employee noise exposures shall be computed in accordance with WAC 296-62-09055, Appendix E: Noise Exposure Computation, without regard to any attenuation provided by the use of personal protective equipment.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09017 DEFINITIONS. These definitions apply to the following terms as used in WAC 296-62-09015 through (~~296-62-09053~~) 296-62-09055.

(1) Audiogram - A chart, graph, or table resulting from an audiometric test showing an individual's hearing threshold levels as a function of frequency.

(2) Audiologist - A professional, specializing in the study and rehabilitation of hearing, who is certified by the American Speech, Hearing, and Language Association or licensed by a state board of examiners.

(3) Baseline audiogram - The audiogram against which future audiograms are compared.

(4) (~~Crest factor - Absolute value of the ratio of the peak value and the root-mean-square value measured over a specified time interval where both values are measured in reference to the arithmetic mean value of the wave.~~

~~(5))~~ Criterion sound level - A sound level of 90 decibels.

~~((6))~~ (5) Decibel (dB) - Unit of measurement of sound level.

~~((7))~~ (6) Hertz (Hz) - Unit of measurement of frequency, numerically equal to cycles per second.

(7) Impulsive or impact noise - Noise levels which involve maxima at intervals greater than one second. Where the intervals are less than one second, the noise levels shall be considered continuous.

(8) Medical pathology - A disorder or disease. For purposes of this regulation, a condition or disease affecting the ear, which should be treated by a physician specialist.

(9) Noise dose - The ratio, expressed as a percentage, of ~~((+))~~ (a) the time integral, over a stated time or event, of the 0.6 power of the measured slow exponential time-averaged, squared A-weighted sound pressure and ~~((2))~~ (b) the product of the criterion duration (8 hours) and the 0.6 power of the squared sound pressure corresponding to the criterion sound level (90 dB).

(10) Noise dosimeter - An instrument that integrates a function of sound pressure over a period of time in such a manner that it directly indicates a noise dose.

(11) Otolaryngologist - A physician specializing in diagnosis and treatment of disorders of the ear, nose and throat.

(12) Representative exposure - Measurements of an employee's noise dose or 8-hour time-weighted average sound level that the employer deems to be representative of the exposure of other employees in the workplace.

(13) ~~((Significant)) Standard~~ threshold shift - A hearing level change, relative to the baseline audiogram, of ~~((20 db or more at 500, 1000,))~~ an average of 10 dB or more at 2000, 3000, and 4000 ~~((, or 6000))~~ Hz ~~((;))~~ in either ear.

(14) Sound level - Ten times the common logarithm of the ratio of the the square of the measured A-weighted sound pressure to the square of the standard reference pressure of 20 micropascals. Unit: Decibels (dB). For use with this regulation, slow time response, in accordance with ANSI S1.4-1971 (R1976), is required unless specifically specified otherwise.

(15) Sound level meter - An instrument for the measurement of sound level.

(16) Time-weighted average sound level - That sound level, which if constant over an 8-hour ~~((exposure))~~ period, would result in the same noise dose as if measured in the time varying noise level environment.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09019 MONITORING. (1) When reasonable information indicates that any employee's exposure may equal or exceed an 8-hour time-weighted average of 85 dBA, the employer shall obtain individual or representative exposure measurements for all employees who may be exposed at or above that level.

~~((Note: Whenever an employer complies with the requirements of WAC 296-62-09015 through 296-62-09053, the monitoring requirements of this section shall be waived.))~~ (2) The sampling strategy shall be designed to identify all employees required to be included in the hearing conservation program and to enable the proper selection of hearing protectors.

(3) Where circumstances such as high worker mobility, significant variations in sound level, or a significant component of impulse noise exist, the employer shall use representative personal sampling to comply with the monitoring requirements of this section unless the employer can establish that area sampling produces equivalent results.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09021 METHOD OF NOISE MEASUREMENT. (1) Noise dosimeters which comply, as a minimum, with the provisions of subdivision (1)(a) of this section or sound level meters which comply, as a minimum, with the provisions of subdivision (1)(b) of this section shall be used whenever employee exposures are evaluated for the purpose of complying with WAC 296-62-09015 through ~~((296-62-09053))~~ 296-62-09055.

(a) Dosimeters. Dosimeters shall meet the Class ~~((2A-90/85-5))~~ 2A-90/80-5 requirements of the American National Standard Specification for Personal Noise Dosimeters, S1.25-1978.

(b) Sound level meters. Sound level meters shall meet the Type 2 requirements of the American National Standard Specification for Sound Level Meters, S1.4-1971 (R1976).

(2) All continuous, intermittent, and impulsive sound levels ~~((measured in accordance with subsection (1) of this section))~~ from 80 dBA to 130 dBA shall be integrated into the exposure computation.

(3) Monitoring shall be repeated whenever a change in production, process, equipment or controls increases noise exposures to the extent that:

(a) Additional employees may be exposed at or above an 8-hour time-weighted average of 85 dBA; or

(b) The attenuation provided by hearing protectors being used by employees may be rendered inadequate to meet the requirements of WAC 296-62-09033.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09023 CALIBRATION OF MONITORING EQUIPMENT. Dosimeters and sound level meters used to monitor employee noise exposure shall be calibrated using the instrument manufacturer's calibration instructions before ~~((and after))~~ each day's use.

NEW SECTION

WAC 296-62-09024 EMPLOYEE NOTIFICATION. The employer shall notify each employee exposed at or above an 8-hour time-weighted average of 85 dBA of the results of the monitoring.

NEW SECTION

WAC 296-62-09026 NOISE CONTROL. (1) Whenever employee noise exposures equal or exceed an 8-hour time-weighted average of 90 dBA, feasible administrative or engineering controls shall be utilized.

(2) Upon request, the employer shall prepare and submit a written compliance plan to the director or his/her designee. This plan must include a description of the manner in which compliance will be achieved with respect to cited violations of WAC 296-62-09026(1) and shall include proposed abatement methods, anticipated completion dates, and provision for progress reports to the director or his/her designee.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09027 AUDIOMETRIC TESTING PROGRAM.

(1) The employer shall establish and maintain a mandatory audiometric testing program as provided in this section for all employees whose exposures equal or exceed an 8-hour time-weighted average of 85 dBA.

(2) The program shall be provided at no cost to employees.

(3) Audiometric tests shall be performed by a licensed or certified audiologist, otolaryngologist, or other qualified physician, or by a technician who is certified by the Council of Accreditation in Occupational Hearing Conservation ~~((or who has satisfactorily demonstrated competence in administering audiometric examinations, obtaining valid audiograms, and properly using, maintaining and calibrating audiometers)).~~ A technician who performs audiometric tests must be responsible to an audiologist, otolaryngologist or other qualified physician.

(4) All audiograms obtained pursuant to this section shall meet the requirements of WAC 296-62-09047, Appendix A: Audiometric measuring instruments.

(5) Baseline audiogram.

(a) Prior to or within 180 days after an employee's first exposure to noise at or above a time-weighted average of 85 dBA, the employer shall establish for each employee so exposed a valid baseline audiogram against which subsequent audiograms can be compared.

(b) Testing to establish a baseline audiogram shall be preceded by at least 14 hours without exposure to workplace noise.

~~((Note:))~~ This may be accomplished by use of hearing protectors; however, the employer ~~((should))~~ shall notify employees of the need to avoid high levels of nonoccupational noise exposure during ~~((this))~~ the 14-hour period immediately preceding the audiometric examination.

(6) Annual audiogram.

(a) At least annually (i.e. every 12-month interval) after obtaining the baseline audiogram, the employer shall obtain a new audiogram for each employee exposed at or above a time-weighted average of 85 dBA.

(b) Annual audiometric testing may be conducted at any time during the workshift.

(7) Evaluation of audiogram.

(a) Each employee's annual audiogram shall be compared to that employee's baseline audiogram to determine ~~((if the audiogram is valid and))~~ if a ~~((significant))~~ standard threshold shift has occurred. This comparison may be made by a certified audiometric technician.

(b) If the annual audiogram indicates that an employee has suffered a standard threshold shift, the employer may obtain a retest within 30 days and consider the results of the retest as the annual audiogram.

(c) An audiologist, otolaryngologist or other qualified physician shall review audiograms which indicate a ~~((significant))~~ standard threshold shift to determine whether there is need for further evaluation. The employer shall provide to the person performing this evaluation the following information:

(i) A copy of the requirements for hearing conservation as set forth in WAC 296-62-09015 through ~~((296-62-09053))~~ 296-62-09055;

(ii) The baseline audiogram and most recent audiogram of the employee to be evaluated;

(iii) Measurements of background sound pressure levels in the audiometric test room as required in WAC 296-62-09049, Appendix B: Audiometric Test Rooms; and

(iv) Records of audiometer calibrations required by WAC 296-62-09029(5).

(d) Inform each employee of the results of his/her audiometric test and whether or not there has been a hearing level decrease or improvement since his/her previous test.

(8) Follow-up procedures. If a comparison of the annual audiogram to the baseline audiogram indicates a ~~((significant))~~ standard threshold shift, the employer shall ensure that the following steps are taken:

(a) Employees not using hearing protectors shall be fitted with hearing protectors, trained in their use and care, and required to use them.

(b) Employees already using hearing protectors shall be refitted and retained in the use of hearing protectors and provided with hearing protectors offering greater attenuation if necessary.

(c) Inform the employee in writing, within 21 days of the determination, of the existence of a ~~((significant))~~ standard threshold shift;

(d) Refer the employee, at no cost to the employee, for a clinical audiological evaluation or an otological examination, as appropriate, if additional testing is necessary or if the employer suspects that a medical pathology of the ear (as defined in WAC 296-62-09017) is caused or aggravated by the wearing of hearing protectors; and

(e) Inform the employee of the need for an otological examination if a medical pathology of the ear which is unrelated to the use of hearing protectors is suspected.

(9) Revised baseline. An annual audiogram may be substituted for the baseline audiogram when, in the judgment of the audiologist, otolaryngologist or other qualified physician who is evaluating the audiogram:

(a) The standard threshold shift revealed by the audiogram is persistent; or

(b) The hearing threshold shown in the annual audiogram indicates significant improvement over the baseline audiogram.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09029 **AUDIOMETRIC TEST REQUIREMENTS.** (1) Audiometric tests shall be pure tone, air conduction, hearing threshold examinations, with test frequencies including a minimum 500, 1000, 2000, 3000, 4000, and 6000 Hz. Tests at each frequency shall be taken separately for each ear.

(2) Audiometric tests shall be conducted with ~~((equipment))~~ audiometers (including microprocessor audiometers) that meet((s)) the specifications of, and ((ts)) are maintained and used in accordance with, American National Standard Specification for Audiometers, S3.6-1969(R1973).

(3) Pulsed-tone and self-recording audiometers, if used, shall meet the requirements specified in WAC 296-62-09047, Appendix A: Audiometric measuring instruments.

(4) Audiometric examinations shall be administered in a room meeting the requirements listed in WAC 296-62-09049, Appendix B: Audiometric test rooms.

(5) Audiometer calibration.

(a) The functional operation of the audiometer shall be checked before each day's use by testing a person with known, stable hearing thresholds, and by listening to the audiometer's output to make sure that the output is free from distorted or unwanted sounds. Deviations of 10 dB or greater shall require an acoustic calibration.

(b) Audiometer calibration shall be checked acoustically at least annually in accordance with WAC 296-62-09051, Appendix C: Acoustic calibration of audiometers. Test frequencies below 500 Hz and above 6000 Hz may be omitted from this check. Deviations of 15 dB or greater necessitate an exhaustive calibration.

(c) An exhaustive calibration shall be performed at least every two years in accordance with sections 4.1.2; 4.1.3; 4.1.4.3; 4.2; 4.4.1; 4.4.2; 4.4.3; and 4.5 of the American National Standard Specification for Audiometers, S3.6-1969(R1973). Test frequencies below 500 Hz and above 6000 Hz may be omitted from the calibration.

AMENDATORY SECTION (Amending Order 82-22, filed 6/11/82)

WAC 296-62-09031 **HEARING PROTECTORS.** (1) Employers shall make hearing protectors available to all employees exposed to a time-weighted average of 85 dBA or greater at no cost to the employees. Hearing protectors shall be replaced as necessary.

(2) Employers shall ensure that hearing protectors are worn ~~((by all employees)):~~

~~(a) ((Who are exposed to a time-weighted average of 85 dBA or greater and who have experienced a permanent significant threshold shift; or~~

~~(b) Who are required by WAC 296-62-09011 (7)(a) to wear personal protective equipment.))~~ By any employee who is exposed to an 8-hour time-weighted average of 85 dBA or greater; or

(b) By any employee who is exposed to noise above 115 dBA; or

(c) By any employee who is exposed to any impulsive or impact noise measured at or above 140 dB peak using an impulse sound level meter set to either the linear or C-scale.

(3) Employees shall be given the opportunity to select their hearing protectors from ~~((a variety))~~ at least two different types (i.e. molded, self-molded, custom molded, or ear muffs) of suitable hearing protectors provided by the employer.

(4) The employer shall provide training in the use and care of all hearing protectors provided to employees.

(5) The employer shall ensure proper initial fitting and supervise the correct use of all hearing protectors.

AMENDATORY SECTION (Amending Order 82-22, filed 6/11/82)

WAC 296-62-09033 **HEARING PROTECTOR ATTENUATION.** (1) The employer shall evaluate hearing protector attenuation for the specific noise environments in which the protector will be used by one of the methods described in WAC 296-62-09053, Appendix D: Methods for estimating the adequacy of hearing protector attenuation, or by other methods if approved by the director.

(2) Hearing protectors must attenuate employee exposure to at least to a time-weighted average of ~~((90))~~ 85 dBA ~~((as required by WAC 296-62-09011 (7)(a)))~~ or below.

~~(3) ((For employees who have experienced a significant threshold shift, hearing protectors must attenuate employee exposures to a time-weighted average of 85 dBA or below.~~

~~(4))~~ The adequacy of hearing protector attenuation shall be re-evaluated whenever employee noise exposures increase to the extent that the hearing protectors provided may no longer provide adequate attenuation. The employer shall provide more effective hearing protectors where necessary.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09035 **TRAINING PROGRAM.** (1) The employer shall institute a training program for all employees who are exposed to noise at or above ~~((a-TWA))~~ an 8-hour time-weighted average of 85 dBA, and shall ensure employee participation in such program.

(2) The training program shall be repeated annually for each employee included in the hearing conservation program. Information provided in the training program shall be updated to be consistent with changes in protective equipment and work processes.

(3) The employer shall ensure that each employee is informed of the following:

(a) The effects of noise on hearing;

(b) The purpose of hearing protectors, the advantages, disadvantages, and attenuation of various types, and instructions on selection, fitting, use, and care; and

(c) The purpose of audiometric testing, and an explanation of the test procedures.

(d) The right to access to records as specified in WAC 296-62-09041(5).

(4) A written description of the training program instituted shall be maintained by each employer.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09039 **WARNING SIGNS.** (1) Signs shall be posted at entrances to or on the periphery of all well defined work areas in which employees may be exposed at or above 115 dBA.

(2) Warning signs shall clearly indicate that the area is a high noise area and that hearing protectors ~~((shall be))~~ are required.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09041 **RECORDKEEPING.** (1) Exposure measurements. The employer shall maintain an accurate record of all employee exposure measurements required by this section.

(2) Audiometric tests.

(a) The employer shall retain a legible copy of all employee audiograms obtained pursuant to WAC 296-62-09027.

(b) This record shall include:

(i) Name and job classification of the employee;

(ii) Date of the audiogram;

(iii) The examiner's name; ~~((and))~~

(iv) Date of the last acoustic or exhaustive calibration of the audiometer; and

(v) Employee's most recent noise exposure assessment.

(3) Audiometric test rooms. The employer shall maintain accurate records of the measurements of the background sound pressure levels in audiometric test rooms.

(4) Record retention. The employer shall retain records required in this section for at least the following periods:

(a) Noise exposure measurement records shall be retained for two years.

(b) Audiometric test records shall be retained for the duration of the affected employee's employment.

(5) Access to records. All records required by this section shall be provided upon request to employees, former employees, representatives designated by the individual employee, and the director. The provisions of WAC 296-62-05201 through 296-62-05209 and 296-62-05213 through 296-62-05217 apply to access to records under this section.

(6) Transfer of records. If the employer ceases to do business, the employer shall transfer to the successor employer all records required to be maintained by this section, and the successor employer shall retain them for the remainder of the period prescribed in WAC 296-62-09041((5)) (4).

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09043 APPENDICES. WAC 296-62-09047, 296-62-09049, 296-62-09051, and 296-62-09053(;) and 296-62-09055, Appendices A, B, C, ((and)) D, and E are incorporated as part of this section and the contents of these appendices are mandatory.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09047 APPENDIX A: AUDIOMETRIC MEASURING INSTRUMENTS. (1) In the event that pulsed-tone audiometers are used, they shall have a tone on-time of at least 200 milliseconds.

(2) Self-recording audiometers shall comply with the following requirements:

(a) The chart upon which the audiogram is traced shall have lines at positions corresponding to all multiples of 10 dB hearing level within the intensity range spanned by the audiometer. The lines shall be equally spaced and shall be separated by at least 1/4 inch. Additional increments are optional. The audiogram pen tracings shall not exceed 2 dB in width.

(b) It shall be possible to set the stylus manually at the 10((-))dB increment lines for calibration purposes.

(c) The slewing rate for the audiometer attenuator shall not be more than 6 dB/sec except that an initial slewing rate greater than 6 dB/sec is permitted at the beginning of each new test frequency, but only until the second subject response.

(d) The audiometer shall remain at each required test frequency for 30 seconds (±3 seconds). The audiogram shall be clearly marked at each change of frequency and the actual frequency change of the audiometer shall not deviate from the frequency boundaries marked on the audiogram by more than ±3 seconds.

(e) It must be possible at each test frequency to place a horizontal line segment parallel to the time axis on the audiogram, such that the audiometric tracing crosses the line segment at least six times at the test frequency. At each test frequency the threshold shall be the average of the midpoints of the tracing excursions.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09053 APPENDIX D: METHODS FOR ESTIMATING THE ADEQUACY OF HEARING PROTECTOR ATTENUATION. (1) ((For employees who have experienced a significant threshold shift,)) Hearing protector attenuation must be sufficient to reduce employee exposure to a TWA of 85 dBA.

(2) The most convenient method to use is the Noise Reduction Rating (NRR) developed by the Environmental Protection Agency (EPA). According to EPA regulation, the NRR must be shown on the hearing protector package. The NRR is then related to an individual worker's noise environment in order to assess the adequacy of the attenuation of a given hearing protector. This appendix describes two methods of using the NRR to determine whether a particular hearing protector provides adequate protection within a given exposure environment. Selection between the two procedures is dependent upon the employer's noise measuring instruments.

(3) When using the NRR to assess hearing protector adequacy, one of the following methods must be used:

(a) When using a dosimeter that is capable of making A-weighted measurements:

(i) Convert the A-weighted dose to TWA.

(ii) Subtract 7 dB from the NRR.

(iii) Subtract the remainder from the A-weighted TWA to obtain the estimated A-weighted TWA under the ear protector.

(b) When using a sound level meter set to the A-weighting network:

(i) Obtain the employee's A-weighted TWA.

(ii) Subtract 7 dB from the NRR, and subtract the remainder from the A-weighted TWA to obtain the estimated A-weighted TWA under the ear protector.

(4) Other methods may be utilized if they are at least as effective as the N.P.R. if approved by the director.

NEW SECTION

WAC 296-62-09055 APPENDIX E: NOISE EXPOSURE COMPUTATION. (1) Computation of employee noise exposure.

(a) Noise dose is computed using Table E-1 as follows:

(i) When the sound level, L, is constant over the entire work shift, the noise dose, D, in percent, is given by: $D=100 C/T$ where C is the total length of the work day, in hours, and T is the reference duration corresponding to the measured sound level, L, as given in Table E-1 or by the formula shown as a footnote to that table.

(ii) When the workshift noise exposure is composed of two or more periods of noise at different levels, the total noise dose over the work day is given by: $D=100(C_1/T_1+C_2/T_2+...+C_n/T_n)$, where C_n indicates the total time of exposure at a specific noise level, and T_n indicates the reference duration for that level as given by Table E-1.

(b) The 8-hour time-weighted average sound level (TWA), in decibels, may be computed from the dose, in percent, by means of the formula: $TWA = 16.61 \log_{10}(D/100)+90$. For an 8-hour workshift with the noise level constant over the entire shift, the TWA is equal to the measured sound level.

(c) A table relating dose and TWA is given in subsection (2) of this section.

		310 ... 98.2
		320 ... 98.4
		330 ... 98.6
		340 ... 98.8
		350 ... 99.0
		360 ... 99.2
		370 ... 99.4
		380 ... 99.6
		390 ... 99.8
		400 ... 100.0
		410 ... 100.2
		420 ... 100.4
		430 ... 100.5
		440 ... 100.7
		450 ... 100.8

In the above table the reference duration T, is computed by

$$T = \frac{8}{2(L-90)/5}$$

where L is the measured A-weighted sound level.

(2) Conversion between "dose" and "8-hour time-weighted average" sound level.

(a) Compliance with WAC 296-62-09015 through 296-62-09055 of this regulation is determined by the amount of exposure to noise in the workplace. The amount of such exposure is usually measured with an audiodosimeter which gives a readout in terms of "dose." In order to better understand the requirements of these standards, dosimeter readings can be converted to an "8-hour time-weighted average (TWA) sound level."

(b) In order to convert the reading of a dosimeter into TWA, see Table E-2. This table applies to dosimeters that are set by the manufacturer to calculate dose or percent exposure according to the relationships in Table E-1. So, for example, a dose of 91 percent over an eight-hour day results in a TWA of 89.3 dB, and a dose of 50 percent corresponds to a TWA of 85 dB.

(c) If the dose as read on the dosimeter is less than or greater than the values found in Table E-2, the TWA may be calculated by using the formula: $TWA = 16.61 \log_{10} (D/100) + 90$ where TWA = 8-hour time-weighted average sound level and D = accumulated dose in percent exposure.

AMENDATORY SECTION

WAC 296-62-09051 APPENDIX C: ACOUSTIC CALIBRATION OF AUDIOMETERS. Audiometer calibration shall be checked acoustically, at least annually, according to the procedures described in this Appendix. The equipment necessary to perform these measurements is a sound level meter, octave-band filter set, and a National Bureau of Standards 9A coupler. In making these measurements, the accuracy of the calibrating equipment shall be sufficient to determine that the audiometer is within the tolerance permitted by American National Standard Specification for Audiometers, S3.6-1969(R1973).

(1) Sound pressure output check.

(a) Place the earphone coupler over the microphone of the sound level meter and place the earphone on the coupler.

(b) Set the audiometer's hearing threshold level (HTL) dial to 70 dB.

(c) Measure the sound pressure level of the tones at each test frequency from 500 Hz through 6000 Hz for each earphone.

(d) At each frequency the readout on the sound level meter should correspond to the levels in Table C-1 or Table C-2, as appropriate, for the type of earphone, in the column entitled "sound level meter reading."

(2) Linearity check.

(a) With the earphone in place, set the frequency to 1000 Hz and the HTL dial on the audiometer to 70 dB.

(b) Measure the sound levels in the coupler at each 10dB decrement from 70 dB to 10 dB, noting the sound level meter reading at each setting.

(c) For each 10dB decrement on the audiometer the sound level meter should indicate a corresponding 10 dB decrease.

(d) This measurement may be made electrically with a voltmeter connected to the earphone terminals.

(3) Tolerances.

When any of the measured sound levels deviate from the levels in Table C-1 or Table C-2 by ± 3 dB at any test frequency between 500 and 3000 Hz, 4 dB at 4000 Hz, or 5 dB at 6000 Hz, an exhaustive calibration is advised. An exhaustive calibration is required if the deviations are (~~greater than 10 dB~~) 15 dB or greater at any test frequency.

Table C-1 - Reference Threshold Levels for Telephonics - TDH-39 Earphones

Frequency, Hz	Reference threshold level for TDH-39 earphones, dB	Sound level meter reading, dB
500	11.5	81.5
1000	7	77
2000	9	79
3000	10	80
4000	9.5	79.5
6000	15.5	85.5

TABLE C-2 - Reference Threshold Levels for Telephonics - TDH-49 Earphones

Frequency, Hz	Reference threshold level for TDH-49 earphones, dB	Sound level meter reading, dB
500	13.5	83.5
1000	7.5	77.5
2000	11	81.0
3000	9.5	79.5
4000	10.5	80.5
6000	13.5	83.5

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-09045 EFFECTIVE DATES. (1) WAC 296-62-09015 through (~~296-62-09053~~) 296-62-09055 shall become effective 60 days after filing with the Code Reviser, unless otherwise noted below.

(2) Monitoring conducted pursuant to WAC 296-62-09012 shall be completed no later than 180 days from the effective date of the standard.

(3) Baseline audiograms required by WAC 296-62-09027 shall be completed no later than December 31, 1982.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

AMENDATORY SECTION (Amending Order 82-22, filed 6/11/82)

WAC 296-79-050 PERSONAL PROTECTION. (1) Personal protective equipment and clothing. Personal protective clothing and equipment as required by the general safety and health standards and the general occupational health standards shall be furnished by the employer and worn or used by the employee when needed to eliminate or minimize the degree of hazard involved with any specific operation.

(a) Required clothing, caps, etc. Employees shall wear sufficient clothing to protect them from hazards to which they may be exposed while performing their duties. Consideration must be given to temperatures in certain areas in which persons work. Employees whose hair is long enough to be caught in machinery or equipment around which they work shall wear caps, hair nets or other protection which will adequately confine the hair while performing their duties.

Rings or other jewelry which could create a hazard should not be worn by employees while in the performance of their work.

(b) Protective footwear. Employees who work in areas where there is a possibility of foot injury due to falling or rolling objects shall wear safety type footwear. Shoe guards and toe protectors will be supplied by management. Management shall also make safety shoes available for purchase by employees at not more than actual cost to management.

Calks or other suitable footwear which will afford reasonable protection from slipping shall be worn while working on logs. Calk boots shall be made available at cost.

(2) Working over or near water. (a) Employees working over or near water who are exposed to the danger of drowning shall be provided with and shall wear U.S. Coast Guard approved personal flotation devices.

(b) Prior to and after each use, buoyant work devices shall be inspected for defects which would alter their strength or buoyancy. Defective units shall not be used.

(3) Protection from noise. ~~((a) Employees shall be protected from the effects of noise exposures which exceed the noise levels deemed to be safe as defined by the general occupational health standards adopted by the department of labor and industries.~~

~~(b) Noise levels which exceed the maximum allowable amount deemed to be safe shall be reduced by feasible administrative or engineering control.~~

~~(c) When feasible administrative and engineering controls do not lower the noise levels below the limits deemed to be safe, all persons exposed shall be provided with and shall use proper personal protective equipment.~~

~~(d) In all cases where the noise levels in any area exceed the levels deemed to be safe, a continuing effective hearing conservation program as defined in chapter 296-62 WAC, general occupational health standards, shall be administered.)) The hearing protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.~~

(4) Respiratory protection. ~~((a) Respiratory protective equipment is designed to protect the wearer from inhalation of hazardous atmospheres. Such equipment shall include air purifying respirators, airline respirators, hose masks, self-contained breathing apparatus and combinations thereof.~~

~~(b) Where reasonable engineering or operational controls will afford the proper protection, these shall be instituted by the employer in preference to requiring employees to wear respiratory protective equipment. Where control by engineering or operational means is impractical, workers shall be required to wear respiratory protective equipment in hazardous atmospheres.~~

~~(c) The Respiratory Protective Devices Manual published by the American Conference of Governmental Industrial Hygienists and the American Industrial Hygiene Association shall be used as a guide for selecting respiratory protective equipment.~~

~~(d) Respiratory protective equipment and its use shall be approved by the department of labor and industries. The department will accept approval by the U.S. Bureau of Mines, U.S. Department of Agriculture, Atomic Energy Commission and the U.S. Department of Defense for the conditions for which the equipment has been approved.~~

~~(e) When the use of respiratory protective equipment is required the proper equipment shall be furnished by the employer and it shall be used in the prescribed manner by the employee. The employer shall~~

~~provide training, maintenance and surveillance to insure this equipment is properly used. (Refer to the general occupational health standards.)~~

~~(f) Self-contained breathing apparatus, air supplied masks or other approved respiratory protective equipment compatible with the conditions which may be encountered shall be provided for emergency or rescue purposes in areas throughout the plant where they may be needed. Storage locations shall be clearly identified and persons shall familiarize themselves with the locations.)) The respiratory protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.~~

AMENDATORY SECTION (Amending Order 74-26, filed 5/7/74, effective 6/6/74)

WAC 296-155-160 GASES, VAPORS, FUMES, DUSTS, AND MISTS. (1) Exposure of employees to inhalation, ingestion, skin absorption, or contact with any material or substance at a concentration above those specified in the General Occupational Health Standards, WAC 296-62-07515 shall be avoided.

(2) To achieve compliance with (1) of this section, administrative or engineering controls must first be implemented whenever feasible. When such controls are not feasible to achieve full compliance, protective equipment or other protective measures shall be used to keep the exposure of employees to air contaminants within the limits prescribed in WAC 296-62-07515. Any equipment and technical measures used for this purpose must first be approved for each particular use by a competent industrial ((hygienist)) hygienist or other technically qualified person. Whenever respirators are used, their use shall comply with WAC 296-155-220.

(3) Subsections (1) and (2) of this section do not apply to the exposure of employees to airborne asbestos dust. Whenever any employee is exposed to airborne asbestos dust, the requirements of the General Occupational Health Standards, WAC 296-62-07517 shall apply.

AMENDATORY SECTION (Amending Order 74-26, filed 5/7/74, effective 6/6/74)

WAC 296-155-210 HEARING PROTECTION. ~~((+)) Wherever it is not feasible to reduce the noise levels or duration of exposures to those specified in Table B-2, Permissible Noise Exposures, in WAC 296-155-145, protective devices for hearing conservation shall be used.~~

~~(2) Protective devices for hearing conservation inserted in the ear shall be fitted individually by competent persons.~~

~~(3) Plain cotton is not an acceptable protective device.)) The hearing protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.~~

AMENDATORY SECTION (Amending Order 74-25, filed 5/7/74)

WAC 296-304-09003 RESPIRATORY PROTECTION. ~~((+)) General. (a) All respiratory protective equipment required by these regulations shall carry the U.S. Bureau of Mines approval for the use for which it is intended. Respiratory protective equipment shall be used only for the purpose intended and no modifications of the equipment shall be made.~~

~~(b) Respiratory protective equipment shall be inspected regularly and maintained in good condition. Gas mask canisters and chemical cartridges shall be replaced as necessary so as to provide complete protection. Mechanical filters shall be cleaned or replaced as necessary so as to avoid undue resistance to breathing.~~

~~(c) Respiratory protective equipment which has been previously used shall be cleaned and disinfected before it is issued by the employer to another employee. Emergency rescue equipment shall be cleaned and disinfected immediately after each use.~~

~~(d) Employees required to use respiratory protective equipment approved for use in atmospheres immediately dangerous to life shall be thoroughly trained in its use. Employees required to use other types of respiratory protective equipment shall be instructed in the use and limitations of such equipment.~~

~~(e) When an air line respirator is used, the air line shall be fitted with a pressure regulating valve and a filter which will remove oil, water, and rust particles. The air intake shall be from a source which is free from all contaminants, such as the exhaust from internal combustion engines.~~

~~(f) In all cases when an employee is stationed outside a compartment, tank or space as a tender or safety man for men working inside in an atmosphere immediately dangerous to life, the tender shall have~~

immediately available for emergency use respiratory protective equipment equivalent to that required for the men in the compartment. When a tender is stationed outside a compartment for men working inside in an atmosphere not immediately dangerous to life, the tender shall wear respiratory protective equipment equivalent to that required for the men in the compartment if he is exposed for prolonged periods to the same concentration of atmospheric contaminants:

(2) ~~Protection in Atmospheres Immediately Dangerous to Life.~~ (a) Atmospheres immediately dangerous to life are those which contain less than 16.5 percent oxygen, or which by reason of the high toxicity of the contaminant, as in fumigation, or high concentration of the contaminant, as with carbon dioxide, would endanger the life of a person breathing them for even a short period of time.

(b) In atmospheres immediately dangerous to life the only approved types of respiratory protective equipment are the following:

(i) Self-contained breathing apparatus, in which the wearer carries with him a supply of oxygen, air, or an oxygen generating material.

(ii) Hose mask with blower, in which a hand or motor operated blower supplies air at high volume and low pressure through a large diameter hose through which the wearer can draw air in case the blower fails.

(iii) If there is known to be more than 16.5 percent oxygen and less than 2 percent gas by volume, a gas mask equipped with a canister approved for the particular type gas involved.

NOTE: A gas mask offers absolutely no protection in an atmosphere deficient in oxygen.

(c) ~~Work in atmospheres immediately dangerous to life shall be performed only in an emergency, as when rescuing a man who has been overcome or when shutting off a source of contamination that cannot otherwise be controlled. When an employee enters such an atmosphere he shall be provided with and use an adequate, attended life line.~~

(d) In the vicinity of each vessel in which there is a danger of employees being exposed to an atmosphere immediately dangerous to life the employer shall have on hand and ready for use respiratory protective equipment approved for such use. When such equipment is required, one or more persons shall be thoroughly trained in the use of the equipment.

(3) ~~Protection Against Gaseous Contaminants Not Immediately Dangerous to Life.~~ (a) Gaseous contaminants not immediately dangerous to life are gases present in concentrations that could be breathed for a short period without endangering the life of a person breathing them, but which might produce discomfort and possible injury after a prolonged single exposure or repeated short exposures.

(b) When employees are exposed to a gaseous contaminated atmosphere not immediately dangerous to life, they shall be protected by respiratory protective equipment approved for use in the type and concentration of the gaseous contaminant as follows:

(i) In high or unknown concentrations, a hose mask or an air line respirator. The use of either a hose mask or an air line respirator in lower concentrations is permissible.

(ii) In concentrations of ammonia of less than 3 percent, or of other gases less than 2 percent, by volume, a canister type gas mask equipped with the proper type of canister. Different canisters are approved for specific use against the following gases or groups of gases: acid gases, hydrocyanic acid gas, chlorine gas, organic vapors, ammonia gas, carbon monoxide, or combination of the above.

(iii) In low concentrations (less than 0.1 percent by volume), a chemical cartridge respirator equipped with the type of cartridge approved for use against the particular gases or groups of gases listed in (iii) of this section.

(4) ~~Protection Against Particulate Contaminants not Immediately Dangerous to Life.~~ (a) When employees are exposed to unsafe concentrations of particulate contaminants, such as dusts and fumes, mists and fogs or combinations of solids and liquids, they shall be protected by either air line or filter respirators, except as otherwise provided in the regulations of this part.

(b) Filter respirators shall be equipped with the proper type of filter. Different filters are approved for specific protection against groups of contaminants, as follows:

(i) Pneumoconiosis-producing dust and nuisance dust filters which provide respiratory protection against pneumoconiosis-producing dusts, such as aluminum, cellulose, cement, charcoal, coal, coke, flour, gypsum, iron ore, limestone and wood.

(ii) Toxic dust filters which provide respiratory protection against toxic dusts that are not significantly more toxic than lead, such as

arsenic, cadmium, chromium, lead, manganese, selenium, vanadium, and their compounds.

(iii) Mist filters which provide respiratory protection against pneumoconiosis-producing mists, chromic acid mists, and nuisance mists.

(iv) Fume filters which provide respiratory protection against fumes (solid dispersoids or particulate matter formed by the condensation of vapors, such as those from heated metals and other substances).

(v) Filters which provide respiratory protection against combinations of two or more of the contaminants described in (i) through (iv) of this section.

(5) ~~Protection Against Combinations of Gaseous and Particulate Contaminants Not Immediately Dangerous to Life.~~ (a) When employees are exposed to combinations of gaseous and particulate contaminants not immediately dangerous to life, as in spray painting, they shall be protected by respiratory protective equipment approved for use in the type and concentration of the contaminants, as follows:

(i) In high or unknown concentrations, a hose mask or an air line respirator. The use of either a hose mask or an air line respirator is permissible in lower concentrations.

(ii) In concentrations of gaseous contaminants of less than 2 percent by volume, a canister type gas mask with a combination canister approved for the particular type of gaseous contaminant as specified in (3)(b) of this section and a filter for the particular type of particulate contaminant as specified in (4)(a) of this section.

(iii) In low concentrations of gaseous contaminants (less than 0.1 percent by volume) a respirator equipped with the type of cartridge and filter as specified in (ii) of this section.) The respiratory protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.

AMENDATORY SECTION (Amending Order 78-16, filed 8/31/78)

WAC 296-305-005 SCOPE AND APPLICATION. (1) The rules of this chapter shall apply with respect to any and all activities, operations and equipment of employers and employees involved in providing fire protection services which are subject to the provisions of the Washington Industrial Safety and Health Act of 1973 (chapter 49.17 RCW)((- Provided, That any other provision of this chapter notwithstanding, those fire fighters that are not fully paid are excluded from the requirements of this chapter)).

(2) The provisions of this chapter apply to all work places where fire fighters are employed, including the fire combat scene. Although enforcement of applicable standards will result from provable violations of these standards which occur at the fire combat scene, agents of the department will not act in any manner that will reduce or interfere with the effectiveness of the emergency response of a fire fighting unit. Activities directly related to the combating of a fire will not be subjected to the immediate restraint provisions of RCW 49.17.130.

(3) The provisions of this chapter shall be supplemented by the provisions of the safety and health standards of the department of labor and industries, chapters 296-24 and 296-62 WAC. In the event of conflict between any provisions of this chapter and any provision of either of the two chapters last cited, the provisions of this chapter shall apply. The requirements of this chapter (should) shall be reviewed by the appropriate labor-management committee at least every two years.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-007 DEFINITIONS. Unless the context indicates otherwise, words used in this chapter shall have the meaning given in this section.

(1) Aerial ladder: A ladder mounted on top of an apparatus, hydraulic or pneumatic controlled.

(2) Aerial platform: A device consisting of two or more booms or sections with a passenger carrying platform assembly.

(3) Aerial tower: Telescopic elevating platform or water tower assembly usually with a ladder on top of the section.

(4) Ancillary clothing: Outer garments auxiliary or supplemental to other protective clothing provided for fire fighters.

(5) ANSI: American National Standards Institute.

(6) Apparatus: A mobile piece of fire fighting equipment such as pumper, aerial, tanker, etc.

(7) Approved: A method, equipment, procedure, practice, tool, etc., which is sanctioned, consented to, confirmed or accepted as good or satisfactory for a particular purpose or use by a person or organization authorized to make such a judgement.

(8) **Bag mask:** A hand operated device consisting of a bellows type bag and a face piece used to administer artificial respiration to an individual.

(9) **Beacon:** A flashing or rotating light.

(10) **Chief:** An employer representative responsible for the fire department's operation.

(11) **City service apparatus:** An all purpose apparatus which carries ground ladders as well as forceable entry tools, salvage and overhaul equipment, and fire fighters.

(12) **Combat scene:** The site where the suppression of a fire or emergency exists.

(13) **dBA:** A measure of noise level expressed as decibels measured on the "A" scale.

(14) **Deck pipe:** A permanently mounted device which delivers a large stream of water.

(15) **Department:** Department of labor and industries.

(16) **Director of fire department:** The chief or principle administrator of the fire department.

(17) **Drill tower:** A structure which may or may not be attached to the station and which is principally used for training fire fighters in fire service techniques.

(18) **Employee:** An employee of an employer who is employed in the business of his employer whether by way of manual labor or otherwise and every person in this state who is engaged in the employment of or who is working under an independent contract the essence of which is his personal labor for an employer under this chapter whether by way of manual labor or otherwise.

(19) **Employer:** Any person, firm, corporation, partnership, business trust, legal representative, or other business entity which engages in any business, industry profession, or activity in this state and employs one or more employees or who contracts with one or more persons, the essence of which is the personal labor of such person or persons and includes the state, counties, cities, and all municipal corporations, public corporations, political subdivisions of the state, and charitable organizations.

(20) **Employer representative:** A fire department officer authorized by the chief or director to act in his behalf.

(21) **Engine (pumper):** A piece of apparatus equipped with hose and a pump for the purpose of supplying water under pressure through hose lines.

(22) **Explosion proof:** Capable of withstanding an explosion of a specified gas or vapor which may occur within it and of preventing the ignition of a specified gas or vapor surrounding the enclosure by sparks, flashes, or explosion of the gas or vapor within, and which operates at such an external temperature that a surrounding flammable atmosphere will not be ignited thereby.

(23) **Fastest means available:** The (nearest-closest) telephone, portable radio, mobile radio, telephone/radio dispatcher or any other mode of mechanical communication.

(24) **Fire combat training:** Training received by fire fighters on the drill ground, drill tower, or industrial site to maintain the fire fighter's proficiency.

(25) **Fire fighter:** An officer or any employee who by virtue of his position in a fire department has a duty to engage in the fighting and extinguishment of fires.

(26) **Fire retardant:** A material to reduce, stop or prevent the flame spread.

(27) **Foot stand, ladder:** Devices attached to inside of beams of ladders that when folded down, provide foot space.

(28) **Fly:** Extendable sections of ground or aerial ladders.

(29) **Hazardous condition:** The physical condition or act which is causally related to accident occurrence. The hazardous condition is related directly to both the accident type and the agency of the accident.

(30) **Hose bed:** Portion of fire apparatus where hose is stored.

(31) **((Host)) Hose tower:** A vertical enclosure where hose is hung to dry.

(32) **Industrial fire brigade:** An organized group of employees whose primary employment is other than fire fighting; who are knowledgeable, trained and skilled in the safe evacuation of employees during emergency situations, and in assisting in fire fighting operations.

(33) **Jack, ground:** Heavy jacks attached to frame of chassis of the aerial-equipped apparatus to provide stability when the aerial portion of the apparatus is used.

(34) **Ladder company:** The fire company manning an aerial ladder truck and especially trained in ladder work, ventilation, rescue, forcible entry, salvage and related tasks.

(35) **Ladder pipe:** A heavy stream nozzle attached to an aerial ladder usually supplied by a 3-inch hose from a Siamese intake at ground level.

(36) **Life line:** Length of rope to which employees and employer representatives are secured when in extremely hazardous areas.

(37) **Life line gun:** A gun designed to shoot a rope line, for rescue, to persons in distress such as in water, canyons, on cliffs and buildings, etc.

(38) **Life net:** A rescue item, commonly carried on ladder trucks, consisting of heavy canvas supported by a folding metal frame and springs and containing a pad to soften impact.

(39) **Live fire training:** Any fire set within a structure, tank, pipe, pan, etc., under controlled conditions to facilitate the training of fire fighters under actual fire conditions.

(40) **Locking in:** The act of securing oneself to a ladder by hooking a leg over a rung and placing top of foot against the other leg or against the ladder.

(41) **Manned station:** A fire station continuously occupied by fire fighters on scheduled work shifts. The manned station may also serve as headquarters for volunteers.

(42) **MESA:** Mining Enforcement and Safety Administration.

(43) **Monitor:** A portable device which delivers a large stream of water.

(44) **NFPA:** National Fire Protection Association.

(45) **NIOSH:** National Institute of Occupational Safety and Health.

(46) **Nondestructive testing:** A test to determine the characteristics or properties of a material or substance that does not involve its destruction or deterioration.

(47) **Nonskid:** The surface treatment that lessens the tendency of a foreign substance to reduce the coefficient of friction between opposing surfaces.

(48) **Overhauling:** That portion of fire extinguishment involving discovery of hidden fires or smoldering material.

(49) **Outrigger:** Manually or hydraulically operated metal enclosures and jacks which are extended and placed in contact with the ground to give the apparatus a wide, solid base to support different loads.

(50) **Place of employment:** Any premises, room or other place where an employee or employees are employed for the performance of labor or service over which the employer has the right of access or control.

(51) **Platform:** The portion of a telescoping or articulating boom used as an elevated working surface.

(52) **Pole hole:** An opening in a floor through which a pole passes and employees slide to get from one floor to another.

(53) **Pompier ladder:** Ladder constructed with a single spar to which a hook is attached on one end and rungs attached to the spar.

(54) **Prefire training:** The training of fire fighters in recognizing sources and locations of potential fires and the method of fire combat to be used.

(55) **Probable fatality:** An injury which by the doctor's (diagnosis) prognosis could lead to death.

(56) **Pumper (engine):** An apparatus equipped with hose and a pump for the purpose of supplying water under pressure through hose lines.

(57) **Qualified:** One who by possession of a recognized degree, certificate or professional standing, or who by extensive knowledge, training or experience has successfully demonstrated his ability to solve or resolve problems related to the subject matter, the work or the project.

(58) **RCW:** Revised Code of Washington.

(59) **Respiratory equipment:** Self-contained breathing apparatus designed to provide the wearer with a supply of respirable atmosphere carried in or generated by the breathing apparatus. When in use, this breathing apparatus requires no intake of air or oxygen from the outside atmosphere.

(a) **Respirators (Closed circuit):** Those types of respirators which retain exhaled air in the system and recondition such air for breathing again.

(b) **Respirators (Open circuit):** Those types of respirators which exhaust exhaled air to the outside of the mask into the ambient air.

(c) **Respirators (Demand):** Those types of respirators whose input air to the mask is started when a negative pressure is generated by inhalation.

(d) **Respirators (Pressure demand):** Those types of respirators which constantly and automatically maintain a positive pressure in the mask by the introduction of air when the positive pressure is lowered (usually from .018 psi to .064 psi) through the process of inhalation or leakage from the mask.

~~((59))~~ (60) Responding: The act of answering an emergency call or other alarm.

~~((60))~~ (61) Safe and healthful working environment: The work surroundings of an employee with minimum exposure to unsafe acts and/or unsafe conditions.

~~((61))~~ (62) Safety net: A rope or nylon strap net not to exceed 6-inch mesh, stretched and suspended above ground level at the base of drill tower, and at such a height that a falling body would be arrested prior to striking the ground.

~~((62))~~ (63) Safety officer: Employer representative as ~~((defined))~~ assigned by chief of fire department.

~~((63))~~ (64) Scabbard: A guard which will prevent accidental injury and covers the blade and pick of an axe or other sharp instrument when worn by the fire fighter.

~~((64))~~ (65) Shall: Means mandatory.

~~((65))~~ (66) Should: Means recommended.

~~((66))~~ (67) Siamese: A hose appliance having two or more female inlets with one male outlet.

~~((67))~~ (68) Signalman: A person so positioned that he can direct an activity, such as apparatus entering or leaving a fire station, where the operator's vision is obstructed or obscured.

~~((68))~~ (69) Station (Fire station): Structure in which fire service apparatus and/or personnel are housed.

~~((69))~~ (70) Tailboard: Standing space at rear of an engine or pumper apparatus where fire fighters ride.

~~((70))~~ (71) Tillerman: Rear driver of tractor-trailer aerial ladder.

~~((71))~~ (72) Turnout clothing: Outer garments worn by fire fighters for personal protection consisting of helmet, gloves, coat and pants with vapor and thermal barrier liners, and boots.

~~((72))~~ (73) Turntable: The rotating surface located at the base of an aerial ladder, or boom, on aerial apparatus.

~~((73))~~ (74) Unmanned station: A station serving as headquarters for volunteer fire fighters which may or may not be attended by a chief or other officials responsible for directing the company's activities.

(75) Volunteer: Individual other than a fully paid fire fighter whose primary employment is other than fire fighting.

~~((74))~~ (76) Wheel blocks (Chocks): A block or wedge placed under a wheel to prevent motion.

~~((75))~~ (77) Work environment: The surrounding conditions, influences or forces to which an employee is exposed while working.

~~((76))~~ (78) Work place: Any plant, yard, premises, room or other place where an employee or employees are employed for the performance of labor or service over which the employer has the right of access or control, and includes, but is not limited to, all work places covered by industrial insurance under Title 51 RCW, as now or hereafter amended.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-015 INJURY AND ILLNESS REPORT FOR FIRE FIGHTERS. (1) Notice of injury or illness;

(a) Whenever an occupational accident causes injury or illness to a fire fighter or other employee, or whenever a fire fighter or other employee becomes aware of an illness apparently caused by occupational exposure, it shall be the duty of such a fire fighter or other employee, or someone on his behalf, to report the injury or illness to the employer before the end of his duty period or not later than 24 hours. The employer shall report the accident or illness to the division of industrial safety and health, monthly or quarterly.

EXCEPTION: In the event that symptoms of an occupational injury or illness are not apparent at the time of the accident, the employee shall report the symptoms to his employer within 48 hours after becoming aware of the injury or illness.

(b) Whenever an injury occurs to a fire fighter or other employee while on duty and the injury results in a fatality, or probable fatality, the employer shall report the accident to the division of industrial safety and health by the fastest means available.

(2) Record keeping - written reports; all fire service employers shall maintain records and reports.

(3) An annual summary of the statistics tabulated in items (1) (a), (b), and (2) above shall be maintained by the department of labor and industries.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-030 EMPLOYEE'S RESPONSIBILITY. (1) Fire fighters shall cooperate with the employer and other employees in efforts to eliminate accidents.

(2) Each fire fighter or other employee shall comply with the provisions of this chapter which are applicable to his own actions and conduct in the course of his employment. However the failure of an employee to do so shall not in any way diminish the employer's exclusive responsibilities as described in chapter 296-305 WAC.

(3) Fire fighters and other employees shall notify the appropriate employer representative of unsafe work practices and of unsafe conditions of equipment apparatus or work places.

(4) Fire fighters and other employees shall apply the principles of accident prevention in their work. They shall use all required safety devices and protective equipment.

(5) Each fire fighter shall take proper care of all personal protective equipment.

(6) Fire fighters shall attend, when on duty, required training and/or orientation programs designed to increase their competency in occupational safety and health.

(7) Fire fighters and other employees shall not report to work under the influence of alcohol or controlled substances, with the exception of medications prescribed by a physician. These prescribed medications must not impair the performance of the individual.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-040 FIRST-AID TRAINING AND CERTIFICATION. (1) All fully paid fire fighters and volunteers, except directors of fire departments and the directors' designated personnel, shall have first-aid training as evidenced by a current, valid first-aid card as issued by an organization approved by the director of the department of labor and industries or by documented evidence of equivalent training. New fire fighters shall have such first-aid training within 90 days of the date of their employment or enroll for training within 30 days of the date of their employment.

(2) First-aid training and certification for other employees and directors of fire departments shall conform to the requirements of WAC 296-24-060.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-060 PERSONAL PROTECTIVE EQUIPMENT AND CLOTHING. (1) ~~((Employer provided protective equipment for eyes, face, head and extremities, protective clothing and respiratory devices shall be used and maintained as required by this section.~~

~~(2) Employer owned equipment. Where fire fighters provide their own protective equipment and clothing, the employer shall be responsible to assure its adequacy, including proper maintenance and sanitation of such equipment.~~

~~((3))~~ Employers shall provide and maintain at no cost to the employee and assure the use of all protective clothing and equipment required by this standard. The employer shall assure that the protective clothing ordered or purchased after July 1, 1981, meets the requirements of this standard. After July 1, 1985, the employer shall assure that all fire fighters wear protective clothing meeting the requirements of this standard when performing interior structural fire fighting.

(2) Personal protective equipment and clothing shall be of a type approved by NIOSH, MESA, NFPA, or as required by this section.

~~((4))~~ (3) Every fire fighter when working upon fire extinguishment on the emergency fire ground or training fire, shall wear a complete set of equipment and clothing, except where the wearing of such equipment and clothing will cause undue hardship in instances such as may occur when combating grass or wildland fires. Provided, clothing worn in place of full turnouts shall comply with the following performance standard:

(a) Ancillary clothing.

(i) Flame resistance: When tested in accordance with Federal Test 191, Method 5903.2 "Flame Resistance of Cloth, Vertical" (standard small scale test), the test results shall not exceed the following limits:

(A) 2.0 seconds after flame

(B) 4.0 seconds after glow

(C) 6.0 inches average char length or 4.0 inches

Ignition of the material shall not produce any melting and dripping of molten or flaming material. It is specifically required that upon exposure to flaming ignition or intense heat, the material will not adhere to the skin of the wearer so as to cause serious skin burns.

EXCEPTION: Ancillary clothing of 100% wool, with a weight of at least 14 ounces per lineal yard of 54-inch width shall be considered to be flame resistant.

(ii) Laundering: Garments shall be capable of withstanding not less than 50 washings or 25 dry cleanings with no significant changes in fire retardancy.

(iii) A label must be permanently attached, and shall attest that the fabric has been tested and meets the requirements of this section. The label shall include:

- (A) Lot number
- (B) The name and number of the specified test
- (C) The date of the successful test.

(b) all turnout clothing placed into service after the effective date of these regulations shall meet the requirements set forth in this standard.

(c) Ancillary clothing placed into service after the effective date of these regulations shall meet the requirements set forth in this standard. ((Ancillary clothing currently in use may be worn until 18 months following the effective date of these regulations.))

(d) The use of ancillary clothing does not exclude each employee from having a full set of turnouts. A written policy and procedure specifying the conditions under which less than a complete set of personal protective equipment and clothing can be worn, shall be established by each employer and distributed to both fully paid and volunteer (~~firemen~~) fire fighters.

((5)) (4) Written procedures with regard to repair, maintenance and servicing shall be established for the conservation of personal protective equipment. This provision applies to the fire fighter's personally owned equipment as well as to the employer owned equipment.

((6)) (5) Fire fighters shall wear the personal protective clothing and equipment designated for the task.

(6) The performance, construction, and testing of fire-resistive coats and protective trousers shall be at least equivalent to the requirements of the National Fire Protection Association (NFPA) standard NFPA No. 1971, current edition, "Protective Clothing for Structural Fire Fighting."

(7) This section shall apply to volunteer fire fighters for any equipment acquired.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06001 EYE AND FACE PROTECTION. Eye and face protection worn by fire fighters at the fire ground shall comply with the following regulations.

(1) General requirements. ((Eye and face protection shall be required where there is a reasonable probability of injury that can be prevented by such protection:

(a) Employers shall make conveniently available a type of protector suitable for the work to be performed, and employees shall use such protectors. Protectors shall meet the following minimum requirements:

(i) They shall provide adequate protection against the particular hazards for which they are designed:

(ii) They shall be reasonably comfortable when worn under the designated conditions:

(iii) They shall fit snugly and shall not unduly interfere with the movements of the wearer:

(iv) They shall be durable:

(v) They shall be capable of being disinfected:

(vi) They shall be easily cleanable:

(b) Suitable eye protectors shall be provided where machines or operations present the hazard of flying objects, glare, liquids, injurious radiation, or a combination of these hazards:

(c) Persons whose vision requires the use of corrective lenses in spectacles, and who are required by this standard to wear eye protection, shall wear goggles or spectacles of one of the following types:

(i) Spectacles whose protective lenses provide optical correction:

(ii) Goggles that can be worn over corrective spectacles without disturbing the adjustment of the spectacles:

(iii) Goggles that incorporate corrective lenses mounted behind the protective lenses:

(d) When limitations or precautions are indicated by the manufacturer, they shall be transmitted to the user and care taken to see that such limitations and precautions are strictly observed:

(e) Issue and use. Protectors are a personal item and should be for the individual and exclusive use of the person to whom they are issued. If circumstances require reissue, the protectors shall be thoroughly cleaned and disinfected:

(2) Face shields. (a) Face shields shall accommodate any of the following styles of windows:

(i) Clear transparent:

(ii) Colored transparent:

(iii) Wire screen:

(iv) Combination of plastic and wire screen:

(b) Plastic windows shall be not less than 0.040 inch nominal thickness:

(c) Clear or colored plastic materials used in windows shall be of an optical grade:

(d) Disinfection. When a person is assigned protective equipment, it is recommended that this equipment be cleaned and disinfected regularly:

(3) Styles and functions of eye protectors. (a) Eyecup goggles shall comprise two basic types as follows:

(i) Cup-Type goggles designed to be worn by individuals who do not wear corrective spectacles:

(ii) Cover-Cup-Type goggles designed to fit over corrective spectacles:

(b) Spectacles of metal, plastic, and combination metal and plastic:

(i) Safety spectacles require special frames. Therefore combinations of street-wear frames with safety lenses meeting this standard are definitely not in compliance:

(ii) Spectacles shall consist of two lenses in a frame which supports the lenses around their entire periphery, of suitable size and shape for the purpose intended, connected by a nose bridge, and retained on the face by temples or other suitable means:

(iii) Plastic frames or side shields shall be of the slowburning type:

(iv) Marking. These frames shall be designed for industrial exposure and shall bear a trademark identifying the manufacturer on both fronts and temples. The frame front shall carry a designation of the eye size and bridge size (where applicable). Temples will be marked as to the overall length or fitting value:

(v) Frame and lens sizes. Spectacle frame and lenses shall be of identical shape and configuration and of such dimensions to assure support of the lens by the lens frame around its entire periphery:

(vi) Plano lenses shall be flat or 6.00 diopter curve, and corrective lenses are to be as specified on the individual prescription:

(vii) Temples. Temples may be of the cable or spatula type as specified, and shall be of such design as to permit adjustment and fit comfortably and securely on the wearer:

(4) Goggles, flexible, or cushioned fitting. (a) Goggles shall consist of a wholly flexible frame, forming a lens holder, or with separable lens holder, or a rigid frame with integral lens or lenses, having a separate, cushioned fitting surface on the full periphery of the facial contact area:

(i) Materials used shall be chemical-resistant, nontoxic, nonirritating and slow-burning:

(ii) There shall be a positive means of support on the face, such as an adjustable headband of suitable material or other suitable means of support to retain the frame comfortably and snugly in place in front of the eyes:

(iii) Where chemical goggles are ventilated, the openings shall be such as to render the goggles splashproof:

(iv) Frames shall bear a trademark or name identifying the manufacturer:

(v) Each separate lens shall be distinctly marked in a manner by which the manufacturer may be identified:

(vi) To prolong the life of eye protectors, they shall be placed in suitable cases or containers between periods of use.)) Face protection shall be required where there is a reasonable probability of injury that can be prevented by such protection, when such face protection does not protect the eyes from foreign objects additional eye protection shall be provided.

(2) When self-contained respiratory equipment is being utilized by fire fighters, additional eye and face protection will not be required.

Employers shall make conveniently available a type of protection suitable for the work to be performed, and employees shall use such protectors. Protectors shall meet the following minimum requirements:

(a) Provide adequate protection against the particular hazards for which they are designed.

(b) Be reasonably comfortable when worn under the designated conditions.

(c) Be durable.

(d) Capable of being disinfected.

(e) Easily cleanable.

(f) Protectors that can be worn over corrective lenses shall be available for those who need them.

(3) Face shields.

(a) Face shields shall accommodate any of the following styles of windows:

(i) Clear transparent.

(ii) Colored transparent.

(b) Disinfection. When a person is assigned protective equipment, it is recommended that this equipment be cleaned and disinfected regularly.

(c) Face shields must be an integral part of the fire helmet and may be installed in a fixed position or hinged allowing adjustment of the shields.

(d) In the event breathing apparatus is being used which incorporates a face mask, the face mask will be considered an acceptable face shield.

(4) Goggles, flexible, or cushioned fitting. Goggles shall consist of a wholly flexible frame, forming a lens holder or a rigid frame with integral lens or lenses, having a separate, cushioned fitting surface on the full periphery of the facial contact area.

(a) Materials used shall be chemical-resistant, nontoxic, nonirritating and slow-burning.

(b) There shall be a positive means of support on the face, such as an adjustable headband of suitable material or other suitable means of support to retain the frame comfortable and snugly in front of the eyes.

(5) Design, testing and use of devices for eye and face protection shall be in accordance with current ANSI Z87.1 Occupational Eye and Face Protection.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06003 HEARING PROTECTION. ((1) Fire fighters shall be protected from the effects of noise exposures which exceed the noise levels deemed to be safe as defined by the General Occupational Health Standards adopted by the Washington State Department of Labor and Industries, chapter 296-62 WAC.

(2) When fire fighters on the fire scene are subject to sound levels for time periods exceeding those shown in this subsection's table, personal protective equipment shall be provided and used.

ALLOWABLE TIME-NOISE LEVEL TABLE

Duration In Hours	Sound Level **dBA
8	90
6	92
4	95
3	97
2	100
1-1/2	102
1	105
3/4	107
1/2	110
1/4	115*

*Ceiling value. No exposure in excess of 115 dBA.

**Sound level in decibels as measured on a standard level Meter operating on the A weighting network with slow meter response.

NOTE:

EXAMPLES OF TYPICAL NOISE EXPOSURES

	Gas Pumper dBA	Diesel Pumper dBA
Rear discharge closed at 150 lbs. at 1300 RPM	95	95
Rear discharge open 125 lbs. at 1500 RPM	97	94
Engine exhaust side	104 107	105
20 ft. behind apparatus	92	86
Idle	70	78

Jumper statistics compiled by University of Washington and Sand Point Naval Air Station in Seattle on October 30, 1973.)

The hearing protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06005 HAND PROTECTION. Any gloves purchased after the effective date of these standards shall meet the following criteria:

(1) ((Fire fighters' gloves shall be of a five finger design with wool or equivalent insulation covered by rough leather or equivalent material and shall be capable of insulating to the extent that a five minute exposure to 212°F (100°C) would not elevate the internal temperature above 140°F (60°C).

(2) Fire fighting gloves shall fit snugly around the wrist and extend 1-1/2 to 3 inches above the wrist. They shall not have a gauntlet which would allow sparks or embers to remain trapped by wearer's wrist.

(3)) Hand protection shall consist of protective gloves or glove system which will provide protection against cut, puncture, and heat penetration. Gloves or glove system shall be tested in accordance with the test methods contained in the National Institute of Occupational Safety and Health (NIOSH) 1976 publication, The Development of Criteria for Fire Fighter's Gloves and shall meet the requirements established by the current WISHA and OSHA standards.

(2) Fire fighters engaged in activities creating hazardous exposures to electricity shall wear approved hand protection.

(a) Electrical rubber gloves guaranteed by the manufacturer to pass a minimum dielectric test of 10,000 volts shall be worn.

(b) Rubber gloves shall be numbered and records kept for test purposes.

(c) Rubber gloves shall be tested ((once every three months)) by the following maximum retesting schedule:

Rubber Protective Gloves	Natural Rubber	Synthetic Rubber
	(Months)	(Months)
New	12	18
Reissued	9	15

After use, the rubber protective gloves shall be cleaned, sanitized, tested and restored for future use. The test after use shall consist of an air pressure test which is performed by grasping the cuff at opposite sides and twirling the glove so as to roll it up the cuff to produce air pressure within the glove. The glove shall be inspected for leaks, cuts, abrasions and thin places in the rubber. Patching or vulcanizing of rubber protective gloves is prohibited. Any rubber gloves found to be defective shall be removed from service and marked as being defective.

(d) Protector gloves must be worn at all times over electrical rubber gloves.

(e) Electrical rubber gloves, when not in use, shall be carried in a suitable bag provided and designed for that purpose.

(f) When electrical rubber gloves are transported on apparatus, a compartment or box shall be used to store the gloves. No other equipment shall be placed in this compartment or box.

(g) This section shall apply to volunteer fire fighters for any equipment, additions or replacement.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06007 FOOT PROTECTION. (1) Fire fighters' footwear when worn under fire combat conditions shall meet the following criteria:

(a) ~~((Puncture resistant and rust-resistant midsole.))~~ Protective footwear shall be water resistant for at least five inches above the bottom of the heel. Puncture resistant and rust resistant midsole that meet the puncture resistant requirements of MIL-B-2885, Specification for fireman's boots.

(b) Safety toe able to withstand current ANSI classification Z41.1 ~~((-1967/Revised 1975))~~ at time of purchase.

(c) Reinforced ladder shank in turnout boots.

(d) Sole shall provide nonskid protection.

(e) Hip high boots shall have heat resistant knee protection or equivalent in addition to above requirements. Hip high boots may be worn with ancillary clothing in lieu of turnout pants.

(2) ~~((All employers shall comply with criteria of this section within three years of the effective date of this chapter.~~

~~((3))~~ Fire fighters' boots may be resoled but the boot upon resoling shall meet the requirements as set forth in this section.

(3) This section shall apply to volunteer fire fighters for any equipment, additions or replacement.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06009 BODY PROTECTION. ~~((+))~~ Fire fighters turnout coats and pants shall comply with the following criteria:

(a) Trapezoidal tearing, American Society for Testing and Materials D 2263, requirements 29 pounds.

(b) Abrasion resistance, 5-minute accelerator weight loss, American Association of Textile Chemists and Colorists 93-1970, requirements 5%.

(c) 500^o aging 5-minutes, tear strength retention, A.S.T.M.D. 2262, requirements 75%.

(d) Water absorption, federal test method standard 191, method 5,500, requirements 28%.

(e) Fabric weight, 7.5 ounces per square yard.

(f) Shrinkage and laundering, AATCC method 96-Test IV-E, 3% maximum shrinkage.

(g) Turnout coat and pant shells shall have provisions for securely attaching the liners. The liners shall consist of an inner thermal barrier with an outer vapor barrier.

(h) Coat length shall be not less than mid-thigh.

(i) Reflective striping shall be fire retardant.

(j) Within 18 months of the effective date, turnout coats and pants shall be provided with two-inch wide strips or retroreflective fabric sewn on the outside at the following locations:

(i) Present turnouts with reflective strips shall be exempted from this provision until replaced:

(ii) Around lower portion of each pant leg.

(iii) Around lower portion of each sleeve.

(iv) Around the bottom of coat.

(v) Vertical strip on the coat storm flap.

(vi) Across the back at the shoulder yoke.

(k) When turnouts are purchased, following the effective date of this chapter, all reflective strips shall be three inches wide:

(i) The collar shall be the same material as the body of the coat.

(m) Pants shall be constructed of the same material as the coat.

(n) Bunking coat snap openings shall face toward body.

(2) With the exception of subdivision (i)(j), all employers shall be in compliance with the requirements of this section within five years of the effective date of this chapter.

(1) Body protection shall be coordinated with foot and leg protection to ensure full protection for the wearer. This shall be achieved by one of the following methods:

(a) Wearing of a fire resistive coat with fully extended boots meeting the requirements of WAC 296-305-06007; or

(b) Wearing of a fire resistant coat with fire resistant trousers; or
 (c) Wearing of ancillary clothing as specified in WAC 296-305-0603(a) of this chapter.

(2) Fire resistant coat and trousers shall be at least equivalent to the requirements of the NFPA Standard #1971, protective clothing for structural fire fighters, except that the outer shell fabric shall weigh not less than 7.5 oz/yd².

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06011 HEAD PROTECTION. ~~((+))~~ Aluminum or metal helmets shall not be worn by fire fighters:

(2) Fire fighter's helmets shall conform to the following criteria:

(a) Helmets shall withstand a 2,200 volt dielectric test.

(b) Helmets shall be fire retardant.

(c) Helmets shall withstand a heat range of 0^o F to 300^o F for three minutes without deterioration of the performance requirements in this subsection.

(d) Helmets shall meet or exceed NIOSH-HSM-99-72-86, January 1975, for impact.

(e) Helmets shall be of a light color with attached chin strap. Black colored helmets purchased prior to the effective date of this section may remain in service providing that bands of reflective tape are applied liberally to the exterior until replaced.

(f) Care, maintenance and alteration of helmets shall conform to the manufacturer's recommendations.

(g) Use, care, alterations and maintenance instructions for protective headgear shall be supplied for each helmet.

(h) Before using strong detergents, solvents, petroleum products, etc., to clean helmets, the helmet manufacturer shall be consulted for his recommendation.

~~(i) Before helmets are painted, the helmet manufacturer shall be consulted to determine which paint is compatible to the helmet material.~~

~~(j) Head protection shall consist of a protective head device with ear flaps and chin strap which meet the performance, construction and testing requirements of the United States Fire Administration model performance criteria for structural fire fighter's helmets, except that helmets shall be required to be of a light color (e.g., white, yellow, yellow/green, silver, red or orange). Black colored helmets purchased prior to the effective date of this section may remain in service providing that bands of reflective tape are applied liberally to the exterior until replaced. Employers shall comply with the requirements of this section within three years of the effective date of this chapter.~~

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-063 RESPIRATORY EQUIPMENT—GENERAL. (1) Approved self-contained respiratory equipment shall be available and used by all employees who enter into hazardous atmospheres. Filter cannister masks are not approved.

(2) Respiratory protection equipment used in fire combat situations shall be classified as self-contained pressure demand type and shall have a minimum rating of one-half hour nominal service life.

(3) In structural or confined space fires at least one person trained in the use of self-contained breathing equipment and equipped with such equipment shall remain free of the contaminated area in order to afford rescue potential for exposed, disabled fire fighters.

(4) The respiratory protection requirements of the General Occupational Health, chapter 296-62 WAC, shall apply in addition to the requirements listed in WAC 296-305-063 through 296-305-06313.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06301 RESPIRATORY EQUIPMENT EFFECTIVE DATES. (1) ~~((All respirators purchased after the effective date of this chapter shall be of the "pressure demand" type.~~

~~(2) "Demand" types of respirators purchased prior to the effective date of this chapter and relying on negative mask pressure to activate air entry may be used for a period of eight years after the effective date of this chapter, but following that period shall be prohibited unless modified to the "pressure demand" type. The "demand" type respirator shall not be used by any fire fighter whose facial characteristics are such that a "leak-proof" seal cannot be obtained.~~

~~(3) Three years following the effective date of this chapter,)) The employer shall assure that self-contained breathing apparatus ordered or purchased after July 1, 1981 are of the pressure-demand or other positive-pressure type. Effective July 1, 1983, only pressure-demand or other positive-pressure self-contained breathing apparatus shall be worn.~~

~~(2) All respirators using compressed air shall have an audible warning device which will activate when the air pressure drops below 20% of the rated capacity.~~

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06305 RESPIRATORY EQUIPMENT INSPECTION. (1) The inspection procedures for respiratory equipment shall be formalized by written directions for inspection steps and time schedules. The procedure shall be made available to fire fighters.

(2) The inspection programs for employers with fully manned fire stations shall include the following:

(a) Employers shall have respiratory equipment inspected daily, weekly and after each use.

(b) Daily inspections of hose connections, hose, condition of the face piece, head bands, harness components and gauges shall be conducted.

(c) Weekly inspections shall include all daily checks and the following:

(i) Inspection shall determine if the regulator and warning devices function properly.

(ii) Equipment shall be donned and checked for complete operation.

(iii) Face piece shall be cleaned as part of the weekly inspection.

(d) After each actual use, inspection shall include all daily and weekly inspections and the following:

(i) All supply cylinders on equipment shall be inspected to ensure they are charged to a minimum of 75% of the manufacturer's recommendation.

(ii) The exhalation valve and speaking diaphragm shall be inspected.

(e) All damaged parts that affect the safe use disclosed by the daily, weekly or after-use inspections shall be replaced before equipment is returned to service.

(f) All inspection in this section shall be recorded on a form provided for each unit of respiratory equipment, to include dates and findings.

(3) The inspection programs for employers operating from unmanned fire stations (volunteer) shall cover the same inspection requirements as those for the manned fire stations but the employer shall be responsible for developing a schedule compatible with ~~((his))~~ their operations, provided the inspection shall be made at least monthly.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06307 RESPIRATORY EQUIPMENT TESTING. (1) Testing of respiratory equipment under this section shall be done only by a qualified technician.

~~(2) ((Cylinders shall be tested every five years as prescribed in the Shipping Container Specification Regulations of the Department of Transportation (49 CFR Part 178) dated October 1, 1972. The exception to the five year interval would be the ten year period between tests allowed for D.O.T. approved cylinders identified with a star marking)) Cylinders shall be tested and maintained as prescribed in the shipping container specification regulations of the department of transportation (49 CFR part 178), manufacturers specifications whichever more protective or restrictive.~~

~~(3) The compressor for supplying air shall be equipped with necessary safety and standby devices. A breathing air-type compressor shall be used. Compressors shall be constructed and situated so as to avoid entry of contaminated air into the system and suitable in-line air purifying sorbent beds and filters installed to further assure breathing air quality. If an oil-lubricated compressor is used, it shall have a high-temperature or carbon monoxide alarm, or both. If only a high-temperature alarm is used, the air from the compressor shall be frequently tested for carbon monoxide to insure that it meets the specifications in WAC 296-305-06303.~~

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06309 RESPIRATORY EQUIPMENT MAINTENANCE AND REPAIR. (1) The employer shall be responsible for the establishment of a program of respiratory maintenance and repair to ensure respiratory equipment retains its original effectiveness.

(2) Maintenance and repair of respiratory equipment shall be done only by a qualified technician.

(3) No attempt shall be made to replace respirator components or to make adjustments or repairs beyond the manufacturer's recommendations.

(4) Self-contained respirators shall be completely overhauled every five years and worn or deteriorated parts replaced as needed or as recommended by the manufacturer of the equipment.

(5) Respiratory equipment shall be stored in a protected, convenient, clean location free from the direct rays of the sun.

NEW SECTION

WAC 296-305-06313 FILLING AIR CYLINDERS. Air cylinders for respiratory equipment shall be filled only by personnel trained, experienced and knowledgeable of equipment and procedures. Also the use of a charging station with proper facilities to insure compressed air is free from moisture, oil, and other impurities, and is fit for breathing purposes.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06501 GENERAL REQUIREMENTS. (1) Every manned fire station shall be equipped with an approved emergency

lighting system that will light ~~((dormitories))~~ dormitories, hallways and apparatus bay areas in case of electrical power failure. ~~((This provision shall be complied with within five years of effective date of this chapter.))~~ Unmanned stations shall comply within five years of revised date of this chapter.

(2) Stairway tread shall be of a nonskid design. Examples of nonskid: Grip strut grating, serrated edge grating, metal grating, aluminum safety tread, abrasive metal stair tread, ~~((etc.))~~ or pressure sensitive nonskid type.

(3) Stations and administrative offices shall comply with the requirements of WAC 296-62-09003, Lighting and illumination of the Washington state general occupational health standards.

(4) Where sliding poles are used the pole hole shall be guarded in such a manner as to prevent an employee or employer from walking directly into the pole hole opening.

(5) To absorb the shock of sliding employees, the bottom of all slide poles shall have a 3-foot diameter cushioned rubber mat, or its equivalent. The aforementioned shall be complied with within one year of the effective date of this chapter.

(6) Nothing shall be stored or placed at the bottom of a pole hole for a radius of 3-feet from the pole. Doors shall not protrude within three feet of the pole.

(7) The requirements of WAC 296-24-145 shall be followed when employees are engaged in window washing operations.

(8) When charging batteries the vent caps shall be kept in place to avoid electrolyte spray. Care shall be taken to assure that vent caps are functioning.

(9) Smoking shall be prohibited in the battery charging area.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06503 SANITATION. (1) Toilet facilities.
(a) General.

(i) Except as otherwise indicated in this section, toilet rooms separate for each sex shall be provided in all places of employment in accordance with table B-1 of this section. The number of facilities to be provided for each sex shall be based on the number of employees of that sex for whom the facilities are furnished. Where toilet rooms will be occupied by no more than one person at a time, can be locked from the inside, and contain at least one water closet, separate toilet rooms for each sex need not be provided. Where such single-occupancy rooms have more than one toilet facility, only one such facility in each toilet room shall be counted for the purpose of table B-1.

TABLE B-1

Number of employees on duty:	Minimum number of water closets
1 to 15	1
16 to 35	2
36 to 55	3
56 to 80	4
81 to 110	5
111 to 150	6
Over 150	One additional fixture for each additional 40 employees

(A) Where toilet facilities will not be used by women, urinals may be provided instead of water closets and in such cases shall not be reduced to less than 2/3 of the minimum specified.

(ii) The requirements of item (i) of this subdivision do not apply to mobile crews or to normally unattended work locations so long as employees working at these locations have transportation immediately available to nearby toilet facilities which meet the other requirements of this section.

(iii) The sewage disposal method shall not endanger the health of employees.

(iv) ~~((When persons other than employees are permitted the use of toilet facilities on the premises, the number of such facilities shall be appropriately increased in accordance with table B-1 of this section in determining the minimum number of toilet facilities required.))~~

(v) Toilet paper with holder shall be provided for every water closet.

~~((vi) Covered receptacles shall be kept in all toilet rooms used by women.))~~

(vii) ~~For each three required toilet facilities at least one lavatory shall be located either in the toilet room or adjacent thereto. Where only one or two toilet facilities are provided at least one lavatory so located shall be provided.))~~

(b) Construction of toilet rooms. ~~((i))~~ Each water closet shall occupy a separate compartment with a door and walls or partitions between fixtures sufficiently high to assure privacy.

~~((ii) In all toilet rooms installed on or after July 1, 1978, the floor and sidewalls, including the angle formed by the floor and sidewalls, and excluding doorways and entrances, shall be watertight. The sidewalls shall be watertight to a height of at least 5 inches.))~~

~~((iii) The floors, walls, ceilings, partitions, and doors of all toilet rooms shall be of a finish that can be easily cleaned. In installations made on or after July 1, 1978, cove bases shall be provided to facilitate cleaning.))~~

(c) Construction and installation of toilet facilities.

~~((i) Every water carriage toilet facility shall be set entirely free and open from all enclosing structures and shall be so installed that the space around the facility can be easily cleaned. This provision does not prohibit the use of wall-hung-type water closets or urinals.))~~

~~((ii) Every water closet shall have a hinged seat made of substantial material having a nonabsorbent finish. Seats installed or replaced after June 1, 1978, shall be of the open front type.))~~

(2) Drinking water.

(a) A common drinking cup and other common utensils are prohibited.

(b) Drinking fountain surfaces which become wet during fountain operation shall be constructed of materials impervious to water and not subject to oxidation. The nozzle of the fountain shall be at an angle and so located to prevent the return of water in the jet or bowl to the nozzle orifice. A guard shall be provided over the nozzle to prevent contact with the nozzle by the mouth or nose of persons using the drinking fountain. The drain from the bowl of the fountain shall not

have a direct physical connection with a waste pipe, unless it is trapped.

(3) Washing facilities.

(a) General. Facilities for maintaining personal cleanliness shall be provided. These shall be convenient for the employees for whom they are provided and shall be maintained in a sanitary condition.

(b) Lavatories.

(i) Lavatories shall be made available in accordance with the following table.

	Number of employees on duty	Minimum number of lavatory fixtures
Nonfire-fighting personnel.	1 to 15	1
	16 to 35	2
	36 to 60	3
	61 to 90	4
Firefighters	1 to 100	1 fixture for each 10 employees

NOTE: In a multiple-use lavatory, 24 lineal inches of wash sink or 20 inches of a circular basin, when provided with water outlets for each space, shall be considered equivalent to one lavatory.

(ii) Each lavatory shall be provided with hot and cold running water, or tepid running water.

(iii) Hand soap or similar cleansing agents shall be provided.

(iv) Individual hand towels or sections thereof, of cloth or paper, warm air blowers or clean individual sections of continuous cloth toweling, convenient to the lavatories, shall be provided.

(v) Receptacles shall be provided for disposal of used towels.

(c) Showers.

(i) Except as otherwise indicated in this section, shower rooms separate for each sex shall be provided in manned stations. The number of facilities to be provided for each sex shall be based on the number of employees of that sex for whom the facilities are furnished. Where shower rooms will be occupied by no more than one person at a time and can be locked from the inside, separate shower rooms for each sex need not be provided.

(ii) One shower shall be provided for each 10 employees of each sex, or numerical fraction thereof, who are required to shower during the same shift.

(iii) Body soap or other appropriate cleansing agents convenient to the showers shall be provided as specified in this section.

(iv) Showers shall be provided with hot and cold water feeding a common discharge line.

(v) Shower floors shall be equipped with rubber mats or nonskid material.

(vi) Light switches and electrical appliances in the shower area shall be of the approved type for wet locations and shall not be located where they can be contacted by employees standing directly in water.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06505 (~~(DORMITORIES)~~) **SLEEPING AREAS.** (1) Every ~~((manned))~~ fire station ~~((dormitory))~~ sleeping area shall be provided with approved detectors of products of combustion other than heat conforming to Uniform Building Code Standard 43-6, mounted in the sleeping room and on the ceiling or wall at a point centrally located in the corridor or area giving access to rooms used for sleeping purposes. Where sleeping rooms are on an upper level, ~~((the))~~ a detector shall be placed at the center of the ceiling directly above the stairway and at the top of the pole hole openings. All detectors shall be located within 12 inches of the ceiling. Care shall be exercised to insure that the installation will not interfere with the operating characteristics of the detector. When activated, the detector(s) shall provide an audible alarm.

(2) Smoking shall not be allowed in ~~((dormitories))~~ sleeping area after fire fighters turn-in.

(3) Dormitories for fire stations designed after the effective date of this chapter shall be located in such a position that vehicular traffic adjacent to the station house does not present a hazard.

(4) The employer shall establish and implement a schedule for the cleaning of bedding.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06509 **REFUELING AREAS.** (1) For all fire stations which are constructed after the effective date of this chapter, ~~((gasoline and diesel fuel))~~ refueling pumps, if installed, shall be in accordance with the provisions of the Uniform Fire Code-1973.

(2) Dispensing of Class I liquids shall be as required in the ~~((1973))~~ current Uniform Fire Code.

(3) Fuel tanks shall not be filled while the engine is running, except during fire ground operations. Spillage should be avoided.

(4) Spillage of oil or fuel shall be carefully washed away or completely evaporated and the fuel tank cap replaced before restarting engine.

(5) Fueling areas shall be posted - "NO SMOKING-STOP YOUR MOTOR."

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-06517 **STAIR AND LANDING PROTECTION.** (1) Stairway railings and handrails. Every flight of stairs having four or more risers shall be equipped with standard stair railings or standard handrails as follows:

(a) On stairways less than 44-inches wide having both sides enclosed, at least one handrail, preferably on the right side descending.

(b) On stairways less than 44-inches wide having one side open, at least one stair railing on open side.

(c) On stairways less than 44-inches wide having both sides open, one stair railing on each side.

(d) On stairways more than 44-inches wide but less than 88-inches wide, one handrail on each enclosed side and one stair railing on each open side.

(e) On stairways 88 or more inches wide, one handrail on each enclosed side, one stair railing on each open side, and one intermediate stair railing located approximately midway of the width.

(2) A standard guard railing shall consist of top rail, intermediate rail, and posts, and shall have a vertical height of 36 to 42 inches from upper surface of top rail to floor, platform, runway, or ramp level. The top rail shall be smooth-surfaced throughout the length of the railing. The intermediate rail shall be approximately halfway between the top rail and the floor, platform, runway, or ramp. The ends of the rails shall not overhang the terminal posts except where such overhang does not constitute a projection hazard.

(3) A standard guard railing for a landing platform shall include a toeboard which is a vertical barrier at floor level erected along exposed edges of a floor opening, wall opening, platform, runway or ramp to prevent falls of material.

(4) A stair railing shall be of construction similar to a standard railing but the vertical height shall be not more than 34 inches nor less than 30 inches from upper surface of top rail to surface of tread in line with face of riser at forward edge of tread.

~~((The provisions of this section shall be effective 18 months following the adoption of this chapter.))~~

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-07001 **DESIGN AND CONSTRUCTION.** (1) All fire apparatus with the exception of specialized equipment, shall conform to the minimum safety standards contained in N.F.P.A. Booklet No. 1901.

(2) Fire apparatus, purchased after effective date of code, weighing 10,000 pounds or more shall conform with the following department of transportation standards, when applicable:

- (a) 571-121 Standard 121, Air brake systems;
- (b) 571-106 Standard 106, Hydraulic brake hoses;
- (c) 571-211 Standard 211, Wheel nuts, wheel discs, hub caps.

(3) Employers purchasing used fire apparatus or used military equipment shall not be required to bring them under a more stringent code than the one in force at the time the apparatus was manufactured. The exception to this rule would be seat belts and communication systems between the tailboard or tiller's seat and driver compartment as stipulated in WAC 296-305-07003(2), 296-305-07007(1), 296-305-105(5)(a) and (b), and 296-305-110(4).

(4) Where practicable for the intended application and use, new apparatus purchased after the effective date of this chapter shall have covered crew cabs.

(5) Fire apparatus tailboards and steps leading to the cab shall have a nonskid rough surface.

(6) Shields shall be provided for individuals who ride the side of city service apparatus to protect them from flying debris and weather. ~~((All employers shall be in compliance with this section within two years after effective date of this chapter.))~~

(7) Exhaust systems shall be installed and maintained in proper condition, and shall be so designed as to eliminate the exposure of the fire fighter to the exhaust gases and fumes.

(8) Spinner knobs shall not be attached to steering handwheels of fire apparatus.

(9) The transmission shifting pattern of the apparatus shall be clearly stenciled or labeled and posted so it can be clearly read by the driver while operating the apparatus.

(10) The height of the apparatus from the ground to the top of the beacon or highest point of apparatus shall be clearly labeled in a place where it can be easily and clearly read by the driver while operating the apparatus.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-07003 AUTOMOTIVE FIRE APPARATUS EQUIPMENT. (1) Vehicles used to transport fire fighter and employer representatives shall have compartments for carrying sharp tools, saws, chisels, axes, etc., or if carried on the outside of the apparatus, sharp points and edges shall be covered to prevent injury to fire fighters and employer representatives.

(2) All apparatus shall have ~~((a))~~ at least pelvic seat belts for all fire fighters assigned a seated position. ~~((Provision of this section shall be complied with within one year after the effective date of this chapter.))~~

(3) Each fire apparatus shall carry a chemical safety slide rule, or its equivalent, available from the National Safety Council.

(4) Ladders stowed on the sides of apparatus, which protrude into a passage area of a fire station, shall have guards over the butt ends. This guard can be in the form of a short piece of 2-1/2 inch hose.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-07005 APPARATUS OPERATIONAL RULES.

(1) Each employer of fully manned stations shall establish a written policy and procedure whereby the apparatus has a scheduled daily maintenance check. Each employer of an unmanned or volunteer station shall establish a schedule appropriate to that department's activities.

(2) Any item found to be in need of repair shall be reported immediately to his supervisor.

(3) Fire fighting apparatus shall be brought to a full stop when employees are required to step from the apparatus.

(4) Fire fighters shall ride in crew cabs when available.

(5) Fire fighters shall not be in the apparatus hose bed while hose is being run out from the bed.

(6) Headlights ~~((should))~~ shall be on at all times when the apparatus is traveling streets, or responding.

(7) Whenever an apparatus is parked at a fire scene, wheel blocks shall be utilized.

(8) Apparatus responding to alarms shall meet specifications in RCW 46.61.035, relating to operations of authorized emergency vehicles.

(9) All operators of emergency vehicles shall be trained in the operation of their assigned apparatus before they are designated as drivers of such apparatus. The training program shall be established by each fire department.

(10) Stunt driving and horseplay shall not be allowed.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-07007 APPARATUS OPERATION COMMUNICATIONS. (1) When fire fighters are required to ride on the tailboard, or ~~((m))~~ tiller's seat, an electrical signal or voice communication system shall be installed ~~((within one year of the effective date of this chapter))~~ between tailboard or tiller's seat and driver compartment. The following set of signals shall be used for communication between the driver and a tillerman, or between the driver and fire fighters riding the tailboard:

- (a) One long buzz means stop;
- (b) Two buzzes means forward;
- (c) Three buzzes means reverse.

Before any of the above functions are undertaken, with the exception of stopping, the same appropriate signal must be received from the tailboard. Example: If driver is responding to an alarm before starting out, two beeps on the horn will be sounded. Driver will not advance, however, until the same signal is sounded from the tailboard or tillerman.

(2) When using hand signals, these signals are as follows:

STOP

Hold hands to the side, shoulder high, exposing palms to driver. At night, hold hands in the same manner, with the addition of a flashlight in one hand, shining at the driver. This will indicate an immediate STOP.

RIGHT OR LEFT

Point in the desired direction with one hand and motion in a circular "Come On" gesture with the other at chest level. At night, direct a flashlight beam at the hand pointing in the desired direction.

AHEAD OR BACK UP

Hold hands directly in front, chest high, fingers on hands directed toward one another, and motion in a circular "Come On" gesture. At night, hold a flashlight in one hand and direct the beam toward the other.

DIMINISHING CLEARANCE

Hold the hands to one side of the body indicating the approximate amount of distance the apparatus is from the obstacle. Close hands accordingly as the driver slowly maneuvers his apparatus toward same. Close hands as the distance narrows to a point where the signalman indicates immediate STOP. Always allow enough for driver's reaction time. At night, indicate in the same manner with a flashlight in the upper hand and beam directed at the palm of the other. On STOP, cover the flashlight beam with the hands.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-075 FIRE SERVICE EQUIPMENT. (1) Before using portable equipment, the user shall inspect it to determine to his satisfaction that it is operable.

(2) When equipment develops a defect which would result in a hazard to the fire fighter, it shall immediately cease to be used.

(3) Nylon utility straps or straps of equivalent strength should be used instead of hose belts.

(4) The utility strap shall be of 1 inch nylon, or equivalent belting, with a 4-inch overlap and sewn with polyester thread and shall measure at least ((5+)) 102 inches outside circumference.

(5) The load capacity of each portable jack shall be stenciled on each portable jack and shall not be exceeded.

(6) The instruction plate on portable jacks shall be maintained in a legible condition.

(7) When not in use the cutting teeth on a chain saw shall be covered either by an old section of hose, a wooden scabbard, or an equivalent method.

(8) All axes worn by employees shall be provided with a scabbard to guard against injury from the blade and pick of the axe.

(9) The guards on smoke ejectors as supplied by the manufacturer shall not be removed and the operator of the ejector shall wear gloves.

(10) Acetylene cylinders. Handling, storage and utilization of acetylene in cylinders shall be in accordance with Compressed Gas Association Pamphlet G-1-1966.

(11) Fiber rope that has been subjected to injurious chemicals or excessive heat shall not be used for load carrying purposes.

(12) In using formed-charge, explosive devices for forceable entry or ventilation, prescribed safety measures as stipulated by the manufacturer shall be followed.

(13) Each employer using formed-charge, explosive devices shall establish and use a procedure by which employees and the general public are notified and protected when explosive devices are to be fired.

(14) Formed-charge, explosive devices shall not be used in an explosive or flammable atmosphere.

(15) A storage container shall be furnished for the formed-charge device and the container labeled "EXPLOSIVE."

(a) The shipping container shall suffice as a storage container when labeled "EXPLOSIVE."

(16) ~~((A storage box or container equipped with a lid or cover shall be provided for the storage of explosive-actuated))~~ Powder activated life-line guns and accessories shall be stored in a box or container equipped with a lid or cover. When not in use the box shall be kept closed. A loaded life-line gun shall not be placed in the storage box.

(17) Instruction books, cleaning kits and hand tools needed for maintenance or breakdown purposes shall be kept in the life-line-gun storage box.

(18) The words "~~((Explosive))~~ Powder activated tool" shall be conspicuously printed on the top of the storage box.

(19) Portable abrasive saws shall have the upper half of the abrasive wheel guarded.

(20) Abrasive blades shall be protected from contact with oil, water, and liquids when stored.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-080 TESTING FIRE SERVICE EQUIPMENT.

- (1) When testing fire hose, a restricted orifice disc, having not more than a 25% opening, shall be installed on the pumper discharge port, or in the alternative the pumper discharge valve may be opened not more than 25%, to insure a minimum volume of water in case of a bursting hose.
- (2) Safety nets shall be tested annually by dropping a weight of not less than 160 pounds from the highest point to be used above the net. The test weight object may consist of two tightly tied rolls of 2-1/2 inch hose, each 100 feet long or any other object having similar weight and dimension.
 - (a) The net suspension system shall be designed and constructed with a safety factor of four and as a minimum shall withstand the test loading without permitting contact between the net and any surface or object below the net.
 - (b) Forged steel safety hooks or shackles shall be used to fasten the net to its supports.
 - (c) Training requiring safety net protection shall not be undertaken until the net is in place and has been tested by the weight of three fire fighters on the net.
 - (d) Safety nets shall extend 8 feet beyond the edge of the work surface.
 - (e) The mesh size of nets shall not exceed six inches by six inches.
 - (f) All nets shall meet accepted performance standards of 17,500 foot pounds minimum impact resistance as determined and certified by the manufacturer, and shall bear a label of proof test.
 - (g) Edge ropes shall provide a minimum breaking strength of 5,000 pounds.
 - ~~((h) Provisions of this section shall be complied with, within 5 years of effective date of this chapter.))~~

- (3) ~~((Life belts shall be capable of withstanding a dead weight test of 350 pounds. The connection between the weight and the safety harness shall be the waist band of the safety harness. Life belts and safety harnesses shall be tested semi-annually.))~~ Life belts shall meet the strength requirements of ANSI A10.14 Requirements for Safety Belts, Harnesses, Lanyards, Lifelines and Drop Lines for Industrial Use. Life belts shall be inspected after each use and not less than semi-annually in accordance with manufacturer's instructions.
- (4) ~~((Testing of fiber rope can be accomplished by suspending a weight of approximately 350 pounds or by three average size people (150 to 200 pounds) hanging on the free end of the line to be used.))~~ Rescue ropes shall be used for rescue purposes only.
- (5) ~~((Life lines and safety lines shall be tested not less than semi-annually by the method described in subsection (4).))~~ Rescue ropes shall meet the following requirements:
 - (a) Shall be constructed of rot-proof fiber with a melting point of not less than 400 degrees F;
 - (b) Shall be of abrasion resistant construction;
 - (c) Shall have a minimum breaking strength of not less than 9,000 pounds; and
 - (d) Shall have a breaking elongation of not less than twenty percent.
- (6) ~~((The interior lay of all fiber ropes shall be inspected for deterioration on a regularly scheduled basis.))~~
 - (a) Ropes shall be inspected for frayed, worn, cut or burned fibers.
 - (b) The inside of fiber ropes shall be checked for wear or deterioration by twisting against the lay of the strands causing them to spread open.
 - (c) Graying or powdering of the rope's core indicates rotting. When this condition is observed, rope shall be immediately removed from service.
 - (7) Rescue ropes shall be padded when deployed over edges or rough surfaces.
 - (7) Rescue ropes shall be inspected after each use and not less than semi-annually in accordance with manufacturer's instructions.
 - (8) The method of testing a life line gun shall be in accordance with the manufacturer's recommended procedure.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

- ~~WAC 296-305-090 ((FIRE COMBAT)) OPERATIONS.~~ (1) Special procedures to be used in the case of fires involving known hazardous materials shall be prepared in advance and made available to all fire fighters. ~~((This provision shall be complied with within 18 months of effective date of this chapter.))~~
- (2) Each fire department shall develop a set of tactical operating procedures to be used as guidelines for fire fighting operations including operating procedures for the use of ~~((safety))~~ life lines.
- (3) Every fire department shall possess a means for identifying the specific hazards associated with fires involving hazardous materials.
- (4) In cases where radioactive material is involved either through accidents, contamination or other related problems, the nearest ~~((Atomic Energy))~~ United States Nuclear Regulatory Commission Field Inspection Unit or the Hanford Atomic Works shall be notified for information or help in disposing of the problem.
- (5) When opening or closing hydrants, fire fighters shall stand at the rear of the hydrant whenever possible.
- (6) ~~((The absence of))~~ If a fire fighter ~~((on))~~ disappears from the fire ground, it shall be immediately reported to an officer ~~((in charge on the fire ground))~~ at the scene who will then cause additional search or rescue operations.
- (7) A life line gun shall be used according to the instructions along with the correct shield, guard, or attachment as recommended by the manufacturer.
 - (a) Life line guns shall not be loaded until just prior to the intended firing time.
 - (b) Neither loaded nor empty life line guns are to be pointed at any individual.
 - (c) A loaded life line gun shall not be left unattended.
- (8) Traffic cones or other traffic control devices shall be utilized when vehicular traffic hazards exist at the fire scene.
- (9) Scuba diving operations shall comply with the provisions of WISHA Commercial Diving Operations.
- (10) Portable generators for temporary lighting at fire scenes shall be grounded, where practicable.

(11) Temporary cords to light fixtures shall be strung overhead where practical or against the walls of the room so as not to cause a tripping accident.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-100 LADDERS. This section establishes the minimum requirements for the construction, care and use of the common types of ladders used in fire combat. Attic ladders, whether constructed of wood, metal or fiberglass shall be excluded from this section.

(1) Ladder locks or pawls on extension ladders shall be so fastened or secured to the beams that vibration and use will not cause loosening of bolts and nuts. Pawls or ladder locks shall be so constructed that the hook portion of the pawl that engages the rung shall have sufficient bearing surface or area to prevent the hook from cutting into rungs when engaged. Such hooks shall be properly finished to eliminate sharp edges and points.

(2) Portable roof ladders shall be provided with folding type hooks of sufficient strength to support a direct load of 500 pounds.

(3) Staypoles or tormenters shall be furnished on all extension ladders extending over 36 feet. Staypole or tormenters spikes shall not project beyond the end of the ladder when nested.

(4) All ladders shall be stored in a manner to provide ease of access for inspection, and to prevent danger of accident when withdrawing them for use.

(5) All ladders regardless of type must be inspected thoroughly after each use. Records shall be kept of the inspections and repairs.

(6) The following wooden ladder components shall be visually inspected:

(a) Rungs for looseness, wear, splinters, checks or cracks, dry rot, paint and varnish.

(b) Beams for splinters, checks or cracks, dry rot, condition of varnish or paint, warping and tie rods and beam bolts.

(c) Heal plates for defects in metal parts, dullness and cracked parts.

(d) Halyards for dry rot, weak spots and frayed or worn spots.

(e) Pulleys and locks for breakage, wear, lubrication and check springs.

(f) Bolts (tie and beam) for tightness and burrs or sharp edges.

(7) The following metal ladder components shall be checked:

(a) Rungs for welds, damage or weakness caused by overloading or bumping against other objects, looseness and cracks, etc.

(b) Beams for welds, rivets and bolts, signs of strain or metal fatigue, and deformation from heat or overloading.

(c) Halyards for the same defects listed for wood ladder halyards and cable halyards, for fraying or breaking.

(8) Methods of fastening ladder halyards, either of wire or fibrous material, shall be in a manner that the connection is stronger than the halyard.

(9) Any defect noted in above visual inspection shall be corrected prior to testing.

(10) Every portable ladder shall be tested following the correction of defects disclosed by the visual inspections.

(11) Portable ladder testing and inspecting shall follow the recommendations of the current National Fire Code(~~(, 1976, Vol. 11, chapter 8, pages 1931-18 through 1931-29)~~).

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-105 AERIAL LADDERS. (1) When operating aerial ladders, the manufacturer's suggested procedure shall be followed and the number of fire fighters permitted on aerial ladders shall be in accordance with the manufacturer's instructions.

(2) ~~((The upper fly section of the))~~ Ladders shall be designed to have nonskid protection on the rungs.

(3) Aerial ladders shall be used according to the requirements of the following:

(a) Aerial ladders shall not knowingly be positioned under dangerous cornices or other loose overhanging objects that may endanger fire fighters and fire fighters working on or climbing the ladder, except where rescue operations are essential.

(b) The tip of the aerial ladder shall not be forcefully extended against a solid structure.

(c) Aerial ladders shall not be extended or retracted while fire fighters are climbing the ladder.

(d) Locking in shall not be permitted. If it is necessary for fire fighters to be positioned on the aerial, they shall be secured by a life belt.

(e) Ladder pipes, when in use, shall be secured to the aerial in such a manner so that the ladder pipe cannot be accidentally dislodged while in operation.

(4) The following shall regulate the design and use of the operating turntable:

(a) Turntable controls and valves for rotating, extending, or elevating the aerial ladder shall be clearly and distinctly marked as to function.

(b) Aerial controls shall be spring loaded and have a safety catch so that the controls will return to the neutral position if the operator were incapacitated.

(c) The operator of the aerial shall be provided with a nonskid surface on the turntable surface.

(d) The aerial operator shall remain at the turntable whenever fire fighters are working on the aerial except when used as a ground ladder.

(e) A railing of approximately 44-inches in height and not less than 36-inches in length shall be installed on the turntable in back of the operator's position(~~(, this shall become effective within one year of adoption of this code)~~).

(f) A light of not less than 10,000 candlepower shall be provided at the base to illuminate the ladder at night in any position of operation (~~(; this shall become effective within one year of adoption of this code)~~).

(5) The following shall regulate the communication systems on the aerial ladders and on the automotive fire apparatus:

(a) A two-way voice communication system shall be (~~(provided)~~) installed between the top fly of the ladder and the lower control station (~~(; this shall become effective within one year of adoption of this code)~~).

(b) There shall be some type of electrical signal or voice communication located in the tractor of tillered aerial for communication signals between the tillerman and driver. The apparatus shall not be moved unless the proper signal, as shown in WAC 296-305-07007(1) is received from the tillerman (~~(and shall become effective within one year of adoption of this code)~~).

(6) Cables, pulleys, rails and rungs of aerial ladders shall be inspected for wear and tightness on a monthly basis.

(a) Pulleys on the aerial with cracks or pieces broken out of rims shall be replaced.

(b) Cables showing evidence of damage or wear shall be replaced.

(c) Rungs or rails that have been subjected to unusual impact shall be tested before usage.

(7) The automotive fire apparatus used in conjunction with aerial ladders shall be designed and used according to the following:

(a) The apparatus engine shall be able to be started from the main control panel in the event the engine dies.

(b) Ground jacks or outriggers shall be used when the aerial ladder is in operation.

(c) Ground plates shall be used under the outriggers or jacks any-time apparatus is not on a concrete paved street or alley.

(d) Hand, airbrakes and spring brakes for fifth wheel shall be set whenever aerial ladder is in operation.

(e) In addition to ground jack supports and outriggers, wheel blocks shall be used whenever the aerial is in operation.

(f) (~~The frame of the ladder truck shall be nondestructively tested whenever the apparatus has been in an accident which could indicate structural damage in the turntable area and boom.~~

(g)) Sand shall be put under jacks, outriggers and wheels when operating on ice or snow.

(8) (a) Annual testing of metal aerial ladders shall follow the recommendations of the current National Fire Code ((1976, Vol. 16; chapter 2, pages 1904-6 through 1904-16)).

(b) The aerial ladder as well as the support section of the apparatus which supports the turntable shall be nondestructively tested by a certified testing agency every five years or after any accident that causes structural damage. Defects detected shall be corrected before apparatus is returned to service.

(9) Fire apparatus metal aerial ladders shall be positioned for the greatest stability feasible at the fire scene.

(10) The minimum size for wheel chocks shall be approximately 7-inches high, 8-inches wide and 15-inches long. It is suggested they be made of a metal alloy.

Aerial ladder operators and officers should be familiar with these relative degrees of stability obtained by spotting the truck.

Ladder raised at right angle to truck without outrigger jacks provides minimum stability.

Where width of street does not permit placing the tractor at right angles to the trailer or in line with the ladder, a 60° jacking should provide excellent stability without unduly blocking the street. A ladder raised away from the V formed by the truck has greater stability than a ladder raised into the V.

Setting tractor-trailer aerial for maximum stability.

1. Approach until turntable is opposite desired objective. Then cut tractor slightly toward center of street.

2. Cut tractor wheels sharply and back up. This will push turntable slightly toward building and align tractor with point to which the ladder is to be raised.

A similar evolution can be used where the ladder is to be raised in line with the trailer where it is necessary to head in toward a building. On some trucks a warning signal is provided to guard against jacking in excess of 90° which is considered poor practice and may result in danger to the apparatus.

AMENDATORY SECTION (Amending Order 77-20, filed 10/18/77 and Emergency Order 77-24, filed 11/17/77, effective 12/17/77)

WAC 296-305-110 ELEVATED PLATFORMS. (1) Elevated platform systems shall meet the design requirements of this section.

(a) The platform shall have a minimum floor area of 14 square feet and shall be provided with a guardrailing between 42 and 45-inches high on all sides. The railing shall be constructed so that there is no opening below it greater than 24-inches. There shall be two gates below the top railing, each of which shall be provided with suitable safety latches. A kick plate not less than 4-inches high shall be provided

around the floor of the platform. Drain openings shall be provided to prevent water accumulation on the platform. A heat-protective shield shall be provided on the platform for the protection of the operator.

(b) Hydraulic or pneumatic systems shall have a minimum bursting strength of at least four times the operating pressure for which the system is designed.

(c) The basic structural elements of the hydraulic or articulating boom shall have a safety factor of three.

(d) Each hydraulic or pneumatic system for the boom shall be equipped with a pilot operated check valve or other appropriate device to prevent free fall in the event of hydraulic failure.

(2) The requirements related to the controlling of elevated platforms are addressed in this subsection.

(a) A control or device shall be provided at both the lower control station and the platform control station to allow either operator to completely deactivate the platform controls. During deactivation of the platform controls, the lower controls shall remain operable.

(b) A plate shall be located at the platform control unit or units listing the following information:

- (i) Model and serial number of the manufacturer;
- (ii) Rated capacity of the platform;
- (iii) Operating pressure of the hydraulic or pneumatic systems or both;
- (iv) Caution or restriction of operation or both;
- (v) Control instructions;
- (vi) This plate shall be clearly visible to the operator at the lower control position.

(c) There shall be an operator at the lower controls at all times while the fire fighter is in the bucket.

(d) The operator at the lower controls shall make certain the fire fighter on the platform is secured by his life belt or equivalent before raising platform.

(3) The requirements for testing elevated platforms and related equipment are outlined in this subsection.

(a) Annually the apparatus and platform shall be tested by the steps outlined in the following items:

(i) The apparatus shall be placed on solid level ground, brakes set, wheels chocked, and outriggers set to stabilize the apparatus.

(ii) The platform shall be placed in the manufacturers suggested strongest point three feet above the ground (measure from ground to center of platform's bottom).

(iii) Once in the aforementioned position, sand bags or a suitable substitute will be placed on the platform until the load totals 1-1/2 times its rated capacity, and maintained there for five minutes.

(iv) Upon completion of the five minutes, a measurement will again be taken from the ground to center of platform bottom. If the measurement measures a difference of more than two inches, the apparatus shall be taken out of service and repaired and retested until able to do so.

(v) Using the same static load of 1-1/2 the rated capacity, the apparatus will be operated through its entire range of motion. Failure to pass the test requires that the apparatus be placed out of service until it can be repaired and can properly complete the test.

(vi) The apparatus will be placed on a slope of 5 degrees and 1-1/2 times its rated capacity in weight will be placed in the basket. The 5 degree slope will be downward in the direction most likely to cause the apparatus to overturn and the basket will be operated through its entire range of motion.

(b) The boom section as well as the support section of the apparatus which supports the turntable shall be nondestructively tested (~~every five years. Defects detected by testing shall be corrected~~) by a certified testing agency every five years or after any accident that causes structural damage.

(c) Elevated platform testing shall follow the recommendations of the current National Fire Code (~~(1976, Vol. 16, chapter 3, pages 1904-17 through 1904-29)~~).

(d) Fire apparatus elevated platforms shall be positioned for the greatest stability feasible at the fire scene.

(4) Communications. (a) A two-way voice communication system shall be (~~provided~~) installed between the platform and the lower control station.

(5) The automotive apparatus used in conjunction with elevated platforms shall be used in accordance with the following subdivisions:

- (a) Hand or air brakes shall be set before the platform is operated.
- (b) Jacks or outriggers shall be used if the platform is to be elevated.

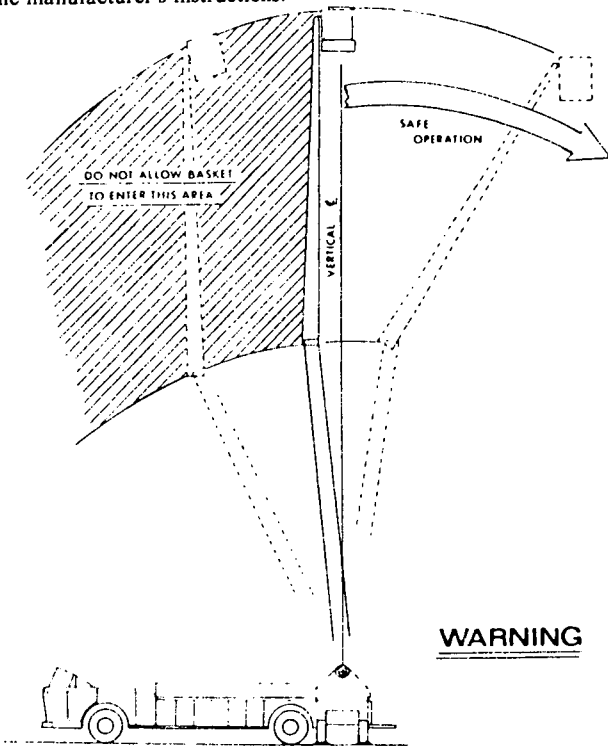

(c) Wheel blocks shall also be used when the platform is in operation unless the type of apparatus is one whose wheels lift off the ground when the jacks or outriggers are engaged.

(d) Ground plates shall be used under the outriggers or jacks any time apparatus is not on a concrete paved street or alley.

(e) Sand shall be put under jacks, outriggers and wheels when operating on ice or snow.

(6) Appliances mounted on elevated platforms.

(a) Platform mounted monitors shall be operated in accordance with the manufacturer's instructions.

RESTRICTED OPERATION ZONE

AMENDATORY SECTION (Amending Order 75-2, filed 1/24/75)

WAC 296-306-060 PERSONAL PROTECTIVE EQUIPMENT. (1) Employers shall make certain that employees are protected from injury or impairment of any bodily function that might occur through absorption, inhalation or physical contact of any substance, vapor, radiation or mechanical irritant. Adequate protective equipment for eyes, face, head and extremities, protective clothing, respiratory devices, shields and barriers shall be provided and used wherever appropriate. Such equipment shall be maintained in sanitary and reliable condition.

(2) If employees provide their own protective equipment, the employer shall require that such equipment be adequate, and properly maintained and sanitary.

(3) Every item of personal protective equipment shall be designed and constructed in such a way that it will be safe to use for the work being done, and reasonably comfortable to wear.

(4) Eye protectors shall be required wherever workers are exposed to flying objects, welding or cutting glare, injurious liquids, injurious radiation or any combination of these. Eye protectors shall meet the criteria of the American National Standard for Occupational and Educational Eye and Face Protection.

(5) (~~The employer shall provide a suitable respirator to any employee whose work must be done in air contaminated with harmful dusts, fogs, fumes, mists, gases, smokes, sprays or vapors. Respirators shall meet the standards established by the U.S. Department of Agriculture or the U.S. Department of Interior, Bureau of Mines. NOTE: The Bureau of Mines is the agency responsible for testing and approving pesticide respirators.~~) The respiratory protection requirements of the General Occupational Health Standards, chapter 296-62 WAC, shall apply.

(6) Employers shall instruct each employee in the proper use of any item of personal protective equipment used. Such instruction shall include, but not be limited to, any special limitations or precautions indicated by the manufacturer.

(7) At least five gallons of water shall be supplied for emergency while using pesticides or herbicides.

REPEALER

296-24-950 Electrical is repealed to avoid conflicting with revision which has already been codified.

REPEALER

296-62-09011 Hearing Conservation is repealed and replaced with new sections.

**WSR 83-18-063
PROPOSED RULES
DEPARTMENT OF
LABOR AND INDUSTRIES
[Filed September 7, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Labor and Industries intends to adopt, amend, or repeal rules concerning new chapter 296-93 WAC, standards for material lifts. These rules set installation, construction, and maintenance standards for a new category of conveyances. "Material lifts" currently are considered "elevators" under the elevator law, chapter 70.87 RCW. Consequently, they must currently be constructed in accordance with the rules for elevators. Because elevators carry people, the rules for construction and installation of elevators are extremely strict to ensure safety. Material lifts are not designed to carry people, and the elevator rules require more safety than is necessary for them. The new proposed rules will authorize material lifts to be constructed and installed in this state without the necessity of meeting the strict safety requirements of the elevator rules. The new rules will also enable businesses to purchase a conveyance for materials that will be substantially less expensive than an elevator. Although the new rules are less strict than the elevator rules, the department believes the rules will ensure that persons working on or near the material lifts will be as safe as those working on or riding elevators;

that the agency will at 9:00 a.m., Tuesday, October 18, 1983, in Conference Room A, 300 West Harrison, Seattle, WA 98119, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 25, 1983.

The authority under which these rules are proposed is RCW 70.87.030.

The specific statute these rules are intended to implement is RCW 70.87.030.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 18, 1983.

Written or oral submissions may also contain data, views, and arguments concerning the effects of the proposed rules or amendments of rules or economic values, pursuant to chapter 43.21H RCW.

The agency reserves the right to modify the text of these proposed rules before the hearing or in response to written or oral comments received before or during the hearing.

The agency may need to change the date for hearing or adoption on short notice. To ascertain that the hearing or adoption will take place as stated in this notice, an interested person may contact the person named below.

Correspondence relating to this notice and the proposed rules should be addressed to:

William T. O'Hara
300 West Harrison, Rm 508
Seattle, WA 98119
(206) 281-5578

Dated: August 31, 1983
By: Sam Kinville
Director

STATEMENT OF PURPOSE

Title and Number of Rule Chapter: Chapter 296-93 WAC, Standards for material lifts.

Statutory Authority: RCW 70.87.030.

Specific Statute that the Rules are Intended to Implement: RCW 70.87.030.

Summary of the Rules: These rules set installation, construction, and maintenance standards for a new category of conveyances. "Material lifts" currently are considered "elevators" under the elevator law, chapter 70.87 RCW. Consequently, they must currently be constructed in accordance with the rules for elevators. Because elevators carry people, the rules for construction and installation of elevators are extremely strict to ensure safety. Material lifts are not designed to carry people, and the elevator rules require more safety than is necessary for them. The new proposed rules will authorize material lifts to be constructed and installed in this state without the necessity of meeting the strict safety requirements of the elevator rules. The new rules will also enable businesses to purchase a conveyance for materials that will be substantially less expensive than an elevator. Although the new rules are less strict than the elevator rules, the department believes the rules will ensure that persons working on or near the material lifts will be as safe as those working on or riding elevators.

Reasons Supporting the Proposed Rules: Currently, material lifts are required to meet the rules for elevators. The elevator rules are more strict than is necessary to ensure that material lifts are safe for persons and property. The proposed rules set standards designed specifically for the construction and installation for material lifts. The proposed rules will allow material lifts to be less expensive, for both the manufacturers and consumers.

The Agency Person Responsible for the Drafting, Implementing and Enforcement of the Rules: William T. O'Hara, 300 West Harrison #508, Seattle, WA 98119, (206) 281-5578.

Name of the Person or Organization, Whether Private, Public, or Governmental, that is Proposing the Rules: Department of Labor and Industries.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation, Enforcement, and Fiscal Matters Pertaining to the Rules: Chapter 70.87 RCW requires all "conveyances" to meet standards set by the department. "Conveyance" as defined in RCW 70.87.010 does not include material lifts by name, but the broad definition clearly covers material lifts. Because material lifts were not specifically named as a category of conveyances, the department has placed them in the category of elevators. The proposed rules will lower costs for both manufacturers and consumers because material lifts are much more simple, and have less stringent safety requirements, than do elevators. The rule is not necessary to comply with a federal law or a federal state court decision.

Any Other Information that may Help Identify the Rule or its Purpose: None.

A small business impact statement is not required because the rules do not have a negative fiscal impact. The rules will lower costs for manufacturers and consumers.

Chapter 296-93 WAC
MATERIAL LIFTS

NEW SECTION

WAC 296-93-010 SCOPE. This chapter covers the requirements for installation and operation of material lifts. "Material lift" means a conveyance that moves in guides, serves two or more floors or landings of a building or structure, and does not exceed thirty-five feet of vertical travel or a speed of fifty feet per minute. Automatic loading and unloading lifts in a conveyor system may not exceed two hundred feet per minute. Material lifts may carry only inanimate objects and may not carry passengers or an operator. Material lifts may be installed only in areas that are not accessible to the public.

The department may grant a variance, upon request, if the variance ensures that the material lift in question meets or exceeds the safety requirements by this chapter.

NEW SECTION

WAC 296-93-030 HOISTWAY ENCLOSURES. (1) Local codes and ordinances, where they exist, govern the fire-resistance requirements for hoistway enclosures.

(2) Unless a local jurisdiction, fire-resistance codes, or ordinances otherwise require, a hoistway shall be enclosed to a height of eight feet above each floor or landing and above the treads of any adjacent stairways. Adjacent to any counterweights, the enclosure must extend the full height of the floor and extend eight inches past the counterweight raceway. The enclosing material shall be solid or have openings that do not exceed two inches in diameter.

(3) A hoistway enclosure shall be supported and braced so that it deflects not over one inch when it is subjected to a force of one hundred pounds applied perpendicularly at any point.

NEW SECTION

WAC 296-93-040 HOISTWAY ENCLOSURE GATES AND DOORS. (1) The opening at each material lift landing must have gates or doors that guard the full width of the opening. A hoistway door shall be vertically sliding, biparting, counter-balanced, or horizontally swinging or sliding. Gates and doors must meet the following requirements:

(a) A balanced type vertically sliding hoistway gate must extend from not more than two inches from the landing threshold to not less than sixty-six inches above the landing threshold.

(b) A gate must be solid or openwork of a design that will reject a ball two inches in diameter. A gate shall be located so that the distance from the hoistway face of the gate to the hoistway edge of the

landing sill is not more than two and one-half inches. A gate shall be constructed of metal or wood and shall be designed and guided so that it will withstand a lateral pressure of one hundred pounds applied at approximately its center without breaking or being permanently deformed and without displacing the gate from its guides or tracks.

(c) A hoistway gate or door of a pinion material lift shall have a mechanical lock and contact, which shall prevent operation of the material lift by the normal operating devices unless the door or gate is locked closed.

(2) If a hoistway door is equipped with a mechanical unlocking device, the device shall be designed to prevent unlocking the door with common tools.

The means for unlocking the door shall be available to, and used only by, inspectors, maintenance persons, and repair persons.

(3) Unlocking devices may be installed on a hoistway door of a material lift subject to the following provisions:

(a) The material lift shall have hoistway doors that are unlocked when closed with the car at the floor, or locked but operable from the landing by means that are effective only when the car is in the landing zone.

(b) The means for unlocking the door shall be mounted in a receptacle with a breakable, transparent cover clearly marked in letters at least one-eighth inch high: MATERIAL LIFT DOOR KEY FOR FIRE DEPARTMENT AND EMERGENCY USE ONLY.

(c) The receptacle that holds the means of unlocking the door shall be located at the bottom landing.

(4) If a swinging hoistway door has more than two and one-half inches clearance between the inside face of the hoistway door and the hoistway edge of the threshold, the hoistway door shall have an extension panel on the lower part of the door that extends at least thirty-six inches above the bottom of the door. The inside face of the extension panel must be within two and one-half inches of the line of the threshold when the door is closed, and the top surface of the panel shall be beveled at not less than sixty degrees from the horizontal.

NEW SECTION

WAC 296-93-050 **HOISTWAYS THAT DO NOT EXTEND TO THE LOWEST AREA OF A BUILDING OR STRUCTURE.** If the space directly below a material lift hoistway is not permanently secured against access, the following requirements apply:

(1) The material lift counterweights shall be provided with safeties.

(2) The cars and counterweights shall be provided with spring or oil buffers that conform to the following:

(a) Spring buffers shall be provided for material lifts.

(b) Spring buffers shall be so designed and installed that they will not be fully compressed when struck either by the car carrying its rated load or by the counterweight when the car or the counterweight is moving at the following speeds:

(i) The governor tripping speed if the safety is operated by a governor.

(ii) One hundred twenty-five percent of the rated speed if the safety is not operated by a governor.

(3) The car and counterweight-buffer supports shall be sufficiently strong to withstand, without permanent deformation, the impact resulting from engagement of the buffer at the following speeds:

(a) The governor-tripping speed if the safety is operated by a governor.

(b) One hundred twenty-five percent of the rated speed if the safety is not operated by a governor.

NEW SECTION

WAC 296-93-060 **DRIVING MACHINES AND EQUIPMENT.** A material hoist may use a winding drum, traction, direct plunger, hydraulic, roped or chained hydraulic, rack and pinion, roller chain drive, scissors, or screwtype driving machine.

(1) Driving machines located overhead shall be supported from the underside. Suspension of a driving machine by hooks, cables, chains, or similar devices is prohibited.

(2) The diameter of drive sheaves for traction machines may not be less than thirty times the diameter of the hoisting cables. The diameter of all other sheaves of a traction machine may be not less than twenty-one times the diameter of the hoisting cables.

(3) The driving machine and hoisting equipment for each material lift shall be inside enclosures and accessible for maintenance. A safe means of access shall be provided to each material lift's driving machine and equipment.

NEW SECTION

WAC 296-93-070 **HYDRAULIC MATERIAL LIFTS.** Hydraulic material lifts shall be equipped with automatically operated anti-creep leveling devices. These leveling devices shall maintain the floor of the material lift car to within one inch of the floor level of the landing.

NEW SECTION

WAC 296-93-080 **CAR ENCLOSURES.** A material lift car that serves more than one landing shall be enclosed with solid panels or openwork that will reject a two-inch ball. The enclosure must extend to a height of at least six feet from the floor on each side on which there is no hoistway door or gate, except that on the side of the car that is next to the counterweight runway, the enclosure shall extend to the car top or underside of car crosshead and shall extend six inches on each side of the counterweight runway.

NEW SECTION

WAC 296-93-090 **RUNNING CLEARANCE.** The running clearance between the car sill and a hoistway face shall be a minimum of one-half inch and a maximum of two inches.

NEW SECTION

WAC 296-93-100 **CAR AND COUNTERWEIGHT GUIDES.** Car and counterweight guides shall be securely fastened and may not deflect more than one-eighth inch. Guide rails must be sufficiently strong to withstand, without deformation, the application of the safety when stopping the car at the rated speed with the rated load.

NEW SECTION

WAC 296-93-110 **CAR LOADING.** Car slings and platforms shall be designed to withstand the impact of the gross loading imposed during loading and unloading.

NEW SECTION

WAC 296-93-120 **CAR DOORS AND GATES.** (1) Car doors or gates are required at each entrance to a material lift car.

(2) Car doors or gates may be collapsible, horizontal sliding, or vertical sliding.

(3) Gates, except collapsible gates, shall be solid or openwork of a design that rejects a ball two inches in diameter. A gate shall be constructed of metal or wood and must be sufficiently strong to withstand a lateral pressure of one hundred pounds applied at approximately its center, without breaking or being permanently deformed and without being displaced from its guides or tracks.

(4) Collapsible gates shall reject a ball four and one-half inches in diameter when fully extended (i.e., closed). A collapsible gate may not be opened by power for more than one-third of its clear opening distance or ten inches, whichever is less. At least every fourth vertical member of a collapsible gate must be guided at the top, and every second vertical member must be guided at the bottom.

(5) Car doors and gates when fully closed shall protect the full width of the car entrance opening. When closed, a car door shall extend from the car floor to a height of not less than six feet above the car floor. A vertically sliding gate shall extend from a point not more than one inch above the car floor to a point not less than six feet above the car floor.

(6) Car doors and gates of electric and electro-hydraulic material lifts shall be equipped with approved electric contacts attached to the car doors or gates that will prevent operation of the material lift by the normal operating devices unless the car doors or gates are closed.

NEW SECTION

WAC 296-93-130 **CAR OPERATING AND TERMINAL STOPPING DEVICES AND ELECTRICAL PROTECTIVE DEVICES.** (1) All devices that operate by electricity shall be enclosed.

(2) Phase reversal and failure protection. A material lift, other than a hydro-electric material lift, that is powered by polyphase alternating current must have a means to prevent the starting of the material lift motor if the phase rotation is in the wrong direction, or any phase fails.

(3) Main line contactor. A contactor shall be installed in addition to the direction switches. The contactor must cut off the main line current to the motor and apply the brake when any of the final terminal stopping devices operates.

(a) Final terminal stopping devices shall be provided and shall be arranged to remove the electric power automatically from the material lift driving machine motor and brake after the car has passed a terminal landing, but so that under normal operating conditions it will not function when the car is stopped by the normal terminal stopping device. If spring buffers are provided, the final terminal stopping device shall be set to function before the buffer is engaged.

(b) A material lift that is driven by a traction machine shall have the final terminal stopping switches located in the hoistway and operated by cams attached to the car.

(4) A material lift that is driven by a winding drum machine shall have a slack rope device with an enclosed electric switch, of the manually reset type, that will remove the electric power from the driving machine and brake if the hoisting ropes become slack.

NEW SECTION

WAC 296-93-140 STOP SWITCH. There shall be, in the bottom of each hoistway, an enclosed stop switch. When opened, the stop switch shall remove the electrical power from the driving machine and brake. The stop switch shall:

- (1) Be manually operated and closed;
- (2) Have red operating handles or buttons;
- (3) Be conspicuously and permanently marked "STOP";
- (4) Indicate the stop and run positions;
- (5) Be positively opened mechanically. The switch opening may not depend solely on springs; and
- (6) Be accessible from the access door.

NEW SECTION

WAC 296-93-150 CAR SAFETIES. Every material lift that is suspended by wire ropes or chains must have car safeties. The car safety must be able to stop and sustain the car with one hundred twenty-five percent of its rated load if the cable severs or overspeed occurs. The material lift must have a switch that will remove the electric power from the driving machine motor and the brake if the safeties are set. There are several kinds of approved safeties.

(1) Type A safeties are those that develop a rapidly increasing pressure on the guide rails during a stop. The stopping distance is very short due to the inherent design of the safety. The operating force is derived entirely from the mass and the motion of the car or the counterweight being stopped. These safeties apply pressure on the guide rails through eccentrics, rollers, or similar devices without any flexible medium purposely introduced to limit the retarding force and increase the stopping distance.

(2) Type B safeties are those that apply limited pressure on the guide rails during the stopping interval. The stopping distances are related to the mass being stopped and the speed at which application of the safety is begun. Retarding forces are reasonably uniform after the safety is fully applied. Continuous tension in the governor rope may or may not be required to operate the safety during the entire stopping interval. Minimum and maximum distances are specified on the basis of the governor tripping speed.

(3) Type C safeties (type A with oil buffers) are those that develop retarding forces during the compression stroke of one or more oil buffers interposed between the lower members of the car frame and a governor-operated type A auxiliary safety plank applied on the guide rails. The stopping distance is equal to the effective stroke of the buffers.

(4) Type G safeties are similar to type B safeties except that they have a gradually increasing retarding force. A type G safety may be either a wedge clamp or a flexible guide clamp applied by a cable that unwinds a drum below the car floor.

(5) Slack rope or chain safeties, which are actuated by the slackening or breaking of the hoisting ropes or chain. This safety is not required to be actuated by an overspeed governor.

(6) Material lifts driven by rack and pinion machines have safeties consisting of a freely rotating safety pinion, an overspeed governor, and a safety device that may form an integral unit mounted on the car. The freely rotating pinion travels on a stationary rack mounted vertically in the hoistway. The rotating pinion drives the overspeed governor. When the downward speed of the car reaches the tripping speed, the rotating overspeed governor actuates the safety device which, in turn, brings the car to a gradual stop.

Stopping distances. The travel of the car measured from the tripping values of the overspeed governor to the full stop shall not exceed the following values:

(a) For car safeties: 64 inches (1.63 meters).

(b) For counterweight safeties: 78 inches (1.98 meters).

NEW SECTION

WAC 296-93-160 OVERSPEED GOVERNORS. An overspeed governor installed on a material lift, except on hydraulic material lifts, shall be so designed that they will actuate the car safeties before the car attains a speed of one hundred forty percent of the rated speed. The overspeed governor ropes shall be not less than three-eighths inch in diameter, and shall be iron or steel rope.

NEW SECTION

WAC 296-93-170 BRAKES. Each electric material lift shall be equipped with effective brakes that are released electrically and applied by springs. The brakes must have a capacity sufficient to stop the car, and hold the car at rest, with one hundred twenty-five percent of its rated load. At least one brake shall be mounted on the worm shaft of the driving machine. The brakes on each indirectly-driven material lift must set if the driving machine fail. The department may make an exception to this rule if an impractical condition is encountered, as long as an equivalently safe method of braking is provided.

NEW SECTION

WAC 296-93-180 ROPES, ROPE CONNECTIONS, DATA, AND RECORD. (1) The car of each electric and roped hydraulic material lift shall be suspended by steel wire ropes or chains. Only iron (low carbon steel) or steel wire ropes with fibre cores shall be used for the suspension of material lift cars and for the suspension of counterweights.

(2) At least three hoisting ropes shall be used for a traction material lift and at least two shall be used for a drum material lift.

(3) The owner, operator, and installer of a material lift that is suspended by hoisting chains shall comply with the chain manufacturer's specifications for maintenance, inspection, and application. On material lifts using lifting chains of the roller chain type, the chains must have a 6 to 1 factor of safety, based on the A.N.S.I. minimum chain strength, not on average chain strength.

(4) The car and the counterweight ends of the car, and counterweight wire ropes or the stationary hitch ends where multiple roping is used, shall be fastened so that the looped ends of the turned back portion in the rope sockets shall be readily visible. Fastenings shall be:

- (a) Individual tapered, babbited rope sockets; or
- (b) Other types of rope fastenings that meet the approval of the department.

(5) The rope sockets must develop at least eighty percent of the breaking strength of the strongest rope to be used in the sockets. U-bolt rope clips (clamps) may not be used for load fastenings.

(6) A metal or plastic data tag shall be securely attached to one of the wire rope fastenings each time the ropes are replaced or reshackled. The data tag shall bear the following information:

- (a) Name of the rope manufacturer;
 - (b) The diameter of the rope in inches;
 - (c) The manufacturer's rated breaking strength;
 - (d) The month and year the ropes were installed;
 - (e) Whether the rope is nonpreformed or preformed; and
 - (f) The name of the person or firm who installed the ropes.
- (7) All replacements of wire rope or chain must be in accordance with the specifications of the manufacturer of the material lift.

NEW SECTION

WAC 296-93-190 CONTROLS. (1) The control station shall be remotely mounted so that it is inaccessible from the material lift car.

(2) Controls shall be clearly marked or labeled to indicate the function of control.

(3) Controls shall be of the constant pressure type. Momentary pressure will be allowed where the hoistway gate is at least seven feet high.

(4) All control stations shall have a stop switch. When opened, the stop switch shall remove the electrical power from the driving machine and brake. The stop switch shall:

- (a) Be manually operated and closed;
- (b) Have red operating handles or buttons;
- (c) Be conspicuously and permanently marked "STOP";
- (d) Indicate the stop and run position; and
- (e) Be arranged to be locked in the open position.

NEW SECTION

WAC 296-93-200 PIPES AND DUCTS. Pipes and ducts that convey gases, vapors, or liquids may not be installed in any hoistway, machine room, or machinery space unless they are necessary for the operation of the material lift.

NEW SECTION

WAC 296-93-210 MATERIAL LIFT PITS. (1) A material lift pit that extends to or into the ground shall have noncombustible floors, and shall be designed to prevent entry of ground water into the pit. The floor of the pit shall be approximately level. Drains connected directly to sewers may not be installed in material lift pits. Safe and convenient access shall be provided to all pits. An approved ladder shall be provided for pits that are over three feet deep.

(2) Unperforated metal guards shall be installed in the pit on the open sides of all counterweights to which spring or solid-type buffers or oil buffers are attached. Guards shall extend from a point not more than twelve inches above the pit floor to a point not less than seven feet or more than eight feet above the floor, and shall be fastened to a metal frame properly reinforced and braced to be at least equal in strength and stiffness to #14 U.S. gauge sheet steel. If compensating chains or ropes are attached to the counterweight on the side facing the material lift car, the guard may be omitted on the side facing the material lift car.

NEW SECTION

WAC 296-93-220 ILLUMINATION OF PITS AND LANDINGS. (1) All pits shall have permanent lighting, with an illumination of not less than five foot-candles at the pit floor.

(2) All landings shall be illuminated.

NEW SECTION

WAC 296-93-230 CAPACITY POSTING AND NO-RIDERS SIGN. (1) Each material lift shall have a capacity plate or sign permanently and securely fastened in place in the material lift car and on the landings. The capacity plates and signs shall indicate the rated load of the material lift in pounds. The sign shall be metal with black letters two inches high on white background.

(2) A sign stating, "NO PERSONS PERMITTED TO RIDE THIS DEVICE", shall be conspicuously and securely posted on the landing side of all hoistway gates and doors and in the enclosure of each material lift car. The sign shall be metal with black letters two inches high on white background.

NEW SECTION

WAC 296-93-240 ELECTRICAL WIRING. All electrical wiring, installations, and equipment in hoistways and machine rooms shall conform to the requirements of the 1982 edition of the National Electrical Code, including section 620 NEC. A material lift shall be provided with a single means of disconnecting all ungrounded main power connectors for each unit. The disconnecting means shall be an enclosed, externally operable fused motor circuit switch or circuit breaker arranged to be locked in the open position. No provision may be made to close this disconnecting means from any other part of the premises. The disconnecting means shall be located next to the door of the machine room or enclosure.

NEW SECTION

WAC 296-93-250 GUARDING OF EXPOSED EQUIPMENT. Guards to protect against accidental contact shall be provided for gears, sprockets, sheaves, drums, ropes, and chains in machine rooms and machinery spaces in accordance with Washington Industrial Safety and Health Act standards.

The machine room door shall be self-closing, and provided with a spring lock that permits the doors to be opened from inside without a key and that does not depend on a key or other device for locking. The door must be kept closed and locked except when an attendant is on duty in the machine room.

NEW SECTION

WAC 296-93-260 PERIODIC INSPECTIONS AND TESTS. (1) The owner of a material lift or his or her authorized agent shall

periodically inspect the material lift to determine that it is in proper operating condition and in conformity with these rules.

(2) The owner of a material lift or his or her authorized agent shall cause periodic tests to be made by a person qualified to inspect and test the material lift. A report that indicates the date of the test and all pertinent data shall be sent to the department.

(3) All parts of the material lift, including all safeties, overspeed governors, and oil buffers, shall be inspected and, when necessary, tested to ensure that they are in proper operating condition and that parts subject to wear, such as ropes, bearings, gears, car safety guide rails and fastenings, governor parts, and oil buffers, have not worn or become defective to such an extent as to affect the proper operation of the material lift. Worn or defective equipment or parts shall be adjusted, repaired, or replaced.

NEW SECTION

WAC 296-93-270 MAINTENANCE INSPECTION AND TEST PERIOD. (1) The owner of a material lift or his or her authorized agent shall cause a qualified person to test the material lift car and counterweight safeties, overspeed governors, and oil buffers at least once each five years. These tests may be made in lieu of one of the yearly inspections and tests. The car safety, counterweight safety, and overspeed governor shall be subjected to inspections and tests as follows:

(a) Type A safeties and the type A safety parts of type C safeties shall, before the safety tests, be inspected and operated by hand to determine that:

- (i) They are in a proper operating condition;
- (ii) After hand operation, the safety rollers or dogs operate simultaneously and have approximately the same travel; and
- (iii) There is sufficient remaining travel of the rollers or dogs to bring the car and its rated load to rest from the rated speed.

(b) The safety tests for type A, B, and C safeties shall be made with the rated load in the car by tripping the overspeed governor by hand at the rated speed. The tests shall also specify the stopping distances. A metal or plastic tag shall be permanently attached to the safety releasing carrier, giving the date of the safety test and the name of person or firm who performed the test.

(2) The persons who are qualified to inspect and test a material lift are:

- (a) A representative of a firm or manufacturer that is regularly engaged in the installing or servicing of material lifts; and
- (b) A person who has demonstrated to the department his or her ability to inspect and test a material lift.

**WSR 83-18-064
PROPOSED RULES
HIGHER EDUCATION
PERSONNEL BOARD
[Filed September 7, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Higher Education Personnel Board intends to adopt, amend, or repeal rules concerning:

- Amd WAC 251-04-020 Definitions (temporary appointment; student).
- Amd WAC 251-04-040 Exemptions.
- Amd WAC 251-18-350 Appointment—Temporary.
- New WAC 251-18-360 Appointment—Leave of absence.

The purpose of the changes is to modify the rules governing exemptions from coverage of Title 251 WAC; that such agency will at 9:00 a.m., Friday, October 21, 1983, in the Board Room, Old Main 340, Western Washington University, Bellingham, Washington, conduct a hearing relative thereto.

The adoption, amendment, or repeal of such rules will take place immediately following such hearing.

The authority under which these rules are proposed is RCW 28B.16.100.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency prior to October 21, 1983, and/or orally at 9:00 a.m., Friday, October 21, 1983, Board Room, Old Main 340, Western Washington University, Bellingham, Washington.

Dated: September 7, 1983
By: John A. Spitz
Director

STATEMENT OF PURPOSE

This statement is related to the notice filed with the code reviser on September 7, 1983, and is filed pursuant to RCW 34.04.025.

Rules Affected: WAC 251-04-020, 251-04-040, 251-18-350, and new WAC 251-18-360.

Statutory Authority: RCW 28B.16.100 to implement the provisions of that section.

Purpose of Existing Rules: Identify different types of temporary assignments--appointments. Identify positions and employees of higher education institutions/related boards that are exempt from coverage of Title 251 WAC.

Summary of Proposed Changes: To modify the rules governing exemptions from coverage of Title 251 WAC and temporary assignments--appointments.

Agency Person Responsible for Rule: Dennis Carlson, Assistant Director, Higher Education Personnel Board, 1202 Black Lake Blvd., FT-11, Olympia, WA 98504, scan 234-0653 or (206) 753-0653.

Organization Proposing Change: Higher Education Personnel Board staff.

The agency makes no additional comments/recommendations regarding the proposal.

The change is not the result of federal law or state court action.

AMENDATORY SECTION (Amending Order 105, filed 4/29/83, effective 6/1/83)

WAC 251-04-020 DEFINITIONS. Unless the context clearly indicates otherwise, the words used in these rules shall have the meanings given in this section.

"ADMINISTRATIVE ASSISTANT EXEMPTION" - A president or vice president may have individual(s) acting as his/her administrative assistant(s). The employee normally performs supportive work for his/her superior as an individual contributor without subordinates.

"ADMINISTRATIVE EMPLOYEES" - Personnel whose responsibilities require them to spend at least 80% of their work hours as follows:

- (1) Primary duty is office or nonmanual work directly related to the management policies or general business operations; and
- (2) Must have the authority to make important decisions, customarily and regularly exercise discretion and independent judgment, as distinguished from using skills and following procedures; and
- (3) Must regularly assist an executive or administrative employee, or perform work under, only general supervision along specialized or technical lines requiring special training, experience or knowledge; and
- (4) Must be paid at a rate of at least \$672 per month exclusive of board, lodging or other facilities.

For persons whose salaries exceed \$1083 per month, the 80% limitation does not apply if the primary duty consists of responsible office or nonmanual work directly related to management policies or general business operations.

"AGRICULTURAL EMPLOYEES" - Employees performing work which includes farming and all its branches, including cultivating the soil, or

growing or harvesting crops, or raising livestock, bees, fur-bearing animals, or poultry; or doing any practices performed by a farmer or on a farm as an incident to or in conjunction with such farming operations.

"ALLOCATION" - The assignment of an individual position to an appropriate class on the basis of the kind, difficulty, and responsibility of the work of the position.

"APPOINTING AUTHORITY" - A person or group of persons lawfully authorized to make appointments.

"AVAILABILITY" - An estimate of the number of women, minorities, and handicapped persons who have the skills and abilities required for employment in a particular job group as determined from an analysis of relevant data.

"BOARD" - The higher education personnel board established under the provisions of the higher education personnel law.

"CERTIFICATION" - The act of providing an employing official or appointing authority with the names of the appropriate eligibles to be considered for appointment to fill a vacancy.

"CHARGES" - A detailed statement of the specific incidents alleging cause for dismissal or disciplinary action.

"CLASS" - One or more positions sufficiently similar with respect to duties and responsibilities that the same descriptive title may be used with propriety to designate each position allocated to the class; that the same general qualification requirements are needed for performance of the duties of the class; that the same tests of fitness may be used to select employees; and that the same schedule of pay can be applied with equity to all positions in the class under the same or substantially the same employment conditions.

"CLASSIFIED SERVICE" - All positions in the higher education institutions which are subject to the provisions of the higher education personnel law.

"COLLECTIVE BARGAINING" - The performance of the mutual obligation of the appointing authority and the certified exclusive bargaining representative to meet at reasonable times, to confer and bargain in good faith, and to execute a written agreement with respect to those personnel matters over which the appointing authority may lawfully exercise discretion.

"COMPETITIVE SERVICE" - All positions in the classified service for which a competitive examination is required as a condition precedent to appointment.

"CORRECTIVE EMPLOYMENT PROGRAM" - A program designed to increase the employment of handicapped persons and of women and minorities who are underutilized in certain job groups because of present or past practices or other conditions which resulted in limited employment opportunities.

"COUNSELING EXEMPTION" - Individuals in counseling-exempt positions are responsible for directing and/or participating in providing academic, athletic, medical, career, financial aid, student activity and/or personal counseling to students. Such activities include, but are not limited to, providing individual and group guidance services using recognized professional techniques and practices.

"CYCLIC YEAR POSITION" - A position scheduled to work less than twelve full months each year, due to known, recurring periods in the annual cycle when the position is not needed.

"DEMOTION" - The change of an employee from a position in one class to a position in another class which has a lower salary range maximum.

"DEVELOPMENT" - The attainment through work experience and training of proficiency in skills which will enable the employee to perform higher level duties.

"DIRECTOR" - The personnel director of the higher education personnel board.

"DISMISSAL" - The termination of an individual's employment for just cause as specified in these rules.

"ELIGIBLE" - An applicant for a position in the competitive service who has met the minimum qualifications for the class involved, has been admitted to and passed the examinations, and has met all requirements for eligibility as stated on the bulletin board posting; or an applicant for a position in the noncompetitive service who has met all requirements for eligibility as stated on the bulletin board posting.

"ELIGIBLE LIST" - A list established by the personnel officer, composed of names of persons who have made proper application, met the minimum qualifications, and successfully completed the required examination process to be certified for vacancies in a class at the institution.

"EMPLOYEE" - A person working in the classified service at an institution.

"EMPLOYEE ORGANIZATION" - Any lawful association, labor organization, federation, council, or brotherhood, having as one of its purposes the improvement of working conditions among employees, and which has filed a notice of intent to represent employees with the director, and which has been authorized in accordance with WAC 251-14-020.

"EMPLOYING OFFICIAL" - An administrative or supervisory employee designated by the appointing authority to exercise responsibility for requesting certification, interviewing eligibles, and employing classified employees.

"EXECUTIVE EMPLOYEES" - Management personnel whose responsibilities require them to spend at least 80% of their work hours as follows:

- (1) Primary duty must be management of a recognized department or subdivision; and
- (2) Must customarily and regularly direct the work of two or more employees; and
- (3) Must have the authority to hire and fire, or to recommend with authority on these and other actions affecting employees; and
- (4) Must customarily and regularly exercise discretionary powers; and
- (5) Must be paid at a rate of at least \$672 per month exclusive of board, lodging or other facilities.

For persons whose salaries exceed \$1083 per month, the 80% limitation does not apply if he/she regularly directs the work of at least two other employees and the primary duty is management of a recognized department or subdivision.

"EXECUTIVE HEAD EXEMPTION" - Executive heads of major academic or administrative divisions are analogous in the hierarchy to vice presidents, deans and chairmen. Directors may be executive heads as determined by the higher education personnel board. An executive head is in charge of a separate budget unit and directs subordinates.

"EXEMPT POSITION" - A position properly designated as exempt from the application of these rules as provided in WAC 251-04-040. (Also see separate definitions of "administrative assistant exemption," "executive head exemption," "research exemption," "counseling exemption," "extension and/or continuing education exemption," "graphic arts or publication exemption," and "principal assistant exemption.")

"EXTENSION AND/OR CONTINUING EDUCATION EXEMPTION" - Individuals considered exempt in this category are responsible for originating and developing formal education programs for the general public, usually involving close contact with faculty and staff or training or consulting with specific groups in the community to enable them to provide specialized training and/or services to the community.

"FRINGE BENEFITS" - As used in the conduct of salary surveys, the term shall include but not be limited to compensation for leave time, including vacation, civil, and personal leave; employer retirement contributions; health insurance payments, including life, accident, and health insurance, workmen's compensation, and sick leave; and stock options, bonuses, and purchase discounts where appropriate.

"FULL-TIME EMPLOYMENT" - Work consisting of forty hours per week.

"GRAPHIC ARTS OR PUBLICATION EXEMPTION" - Individuals qualifying for exemption under this category will be involved in performing selected graphic arts or publication activities requiring prescribed academic preparation or special training. Positions of this type are those which use special visual techniques, require original design and layout and/or can be distinguished from positions associated with the standard editorial functions.

"GRIEVANCE" - A dispute filed in accordance with a grievance procedure of a signed collective bargaining agreement.

"HANDICAPPED PERSON" - Any person with physical, mental or sensory impairments that would impede that individual in obtaining and maintaining permanent employment and promotional opportunities. The impairments must be material rather than slight, static and permanent in that they are seldom fully corrected by medical replacement, therapy, or surgical means.

"HEARING EXAMINER" - An individual appointed by the board to preside over, conduct and make recommended decisions including findings of fact and conclusions of law in all cases of employee appeals to the board.

"INSTITUTIONS OF HIGHER EDUCATION" - The University of Washington, Washington State University, Central Washington University, Eastern Washington University, Western Washington University, The Evergreen State College, and the various state community colleges. For purposes of application of these rules, the term shall be

considered to include the various related boards as defined in this section, unless specifically indicated to the contrary.

"JOB GROUP" - For affirmative action goal-setting purposes, a group of jobs having similar content, wage rates and opportunities. An EEO job category may consist of one or more job groups.

"JOB CATEGORIES" - Those groupings required in equal employment opportunity reports to federal agencies.

"LATERAL MOVEMENT" - Appointment of an employee to a position in another class which has the same salary range maximum as the employee's current class.

"LAYOFF" - Any of the following management initiated actions caused by lack of funds, curtailment of work, or good faith reorganization for efficiency purposes:

- (1) Separation from service to an institution;
- (2) Separation from service within a class;
- (3) Reduction in the work year; and/or
- (4) Reduction in the number of work hours.

"LAYOFF SENIORITY" - The last period of unbroken service in the classified service of the higher education institution. Authorized leave of absence or leave without pay shall not constitute a break in service; however, the time spent on such leave shall not be included in computing seniority except where required by statute and except in the case of cyclic year positions. Permanent employees who are veterans or their unmarried widows/widowers as identified in WAC 251-10-045 shall have added to their unbroken institution service the veteran's active military service to a maximum of five years' credit.

"LAYOFF UNITY" - A clearly identified structure within an institution, which is approved by the director, and within which employment/layoff options are determined in accordance with the reduction in force procedure.

"LEAD" - An employee who performs the same duties as other employees in his/her work group and in addition regularly assigns, instructs and checks the work of the employees.

"NONCOMPETITIVE SERVICE" - All positions in the classified service for which a competitive examination is not required.

"ORGANIZATIONAL UNIT" - A clearly identified structure, or substructure of persons employed to achieve a common goal or function under the direction of a single official. An organizational unit may consist of either an administrative entity or a geographically separated activity.

"PART-TIME EMPLOYMENT" - Work of twenty or more hours per week but less than full time employment with an understanding of continuing employment for six months or more.

"PERIODIC INCREMENT DATE" - ("P.I.D.") - The date upon which an employee is scheduled to move to a higher salary step within the range for his/her current class, as provided in WAC 251-08-090 and 251-08-100.

"PERMANENT EMPLOYEE" - An employee who has successfully completed a probationary period at the institution within the current period of employment.

"PERSONNEL OFFICER" - The principal employee in each institution/related board responsible for administrative and technical personnel activities of the classified service.

"P.I.D." - Commonly used abbreviation for periodic increment date.

"POSITION" - A set of duties and responsibilities normally utilizing the full or part time employment of one employee.

"PRINCIPAL ASSISTANT EXEMPTION" - Individuals qualifying for exemption under this category function as second-in-command in importance levels. The individual may perform many of the functions of his/her superior in the superior's absence, or alternatively may have major administrative or program responsibilities. Reporting relationships will not be below that of the executive head. In some institutions an executive head may have more than one principal assistant as determined by the higher education personnel board.

"PROBATIONARY PERIOD" - The initial six-month period of employment in a class following appointment from an eligible list of a non-permanent employee of the institution. However, upon prior approval by the board, the probationary period for selected classes may be established for a period in excess of six months but not to exceed twelve months.

"PROBATIONARY REAPPOINTMENT" - Appointment of a probationary employee from an eligible list to a position in a different class.

"PROFESSIONAL EMPLOYEES" - Personnel whose responsibilities require them to spend at least 80% of their work hours as follows:

- (1) Primary duty must involve work that requires knowledge of an advanced type in a field of science or learning, customarily obtained by a prolonged course of specialized instruction and study or work that is

original and creative in character in a recognized field of artistic endeavor and the result of which depends primarily on invention, imagination, or talent; and

(2) Must consistently exercise discretion and judgment; and

(3) Must do work that is predominantly intellectual and varied, as distinguished from routine or mechanical duties; and

(4) Must be paid at a rate of at least \$737 per month exclusive of board, lodging or other facilities.

For persons whose salaries exceed \$1083 per month, the 80% limitation does not apply if the primary duty consists of work requiring knowledge of an advanced type in a field of science or learning which requires consistent exercise of discretion and judgment.

"PROMOTION" - The appointment as a result of recruitment, examination and certification, of a permanent employee to a position in another class having a higher salary range maximum.

"PROVISIONAL APPOINTMENT" - Appointment made prior to establishment of an eligible list, per the provisions of WAC 251-18-300. A person so appointed is required to apply through the competitive process to be considered for the position on a permanent basis.

"PUBLIC RECORDS" - Any writing containing information relating to conduct of government or the performance of any governmental or proprietary function prepared, owned, used or retained by any state or local agency regardless of physical form or characteristics.

"REALLOCATION" - The assignment of a position by the personnel officer to a different class.

"REASSIGNMENT" - A management initiated movement of a classified employee from one position to another in the same class.

"RELATED BOARDS" - The state board for community college education, the council for postsecondary education, the higher education personnel board, and such other boards, councils and commissions related to higher education as may be established. For purposes of application of these rules, the term "institution" shall be considered to include these related boards, unless specifically indicated to the contrary.

"RESEARCH EXEMPTION" - Individuals in research-exempt positions spend the majority of their time in one or more of the following activities: Identification and definition of research problems, design of approaches or hypotheses and methodology to be used, design of specific phases of research projects, analysis of results, development of conclusion and hypothesis, presentation of research results in publishable form.

"RESIGNATION" - A voluntary termination of employment.

"REVERSION" - The return of a permanent employee from trial service to the most recent class in which permanent status was achieved.

"STUDENT" - Person designated by an institution to be pursuing a formal education program.

"SUPERVISOR" - Any individual having authority, in the interest of the employer, to hire, transfer, suspend, layoff, recall, promote, discharge, assign, reward or discipline other employees, or responsibility to direct them or adjust their grievances, or effectively to recommend such action if in connection with the foregoing the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

"SUSPENSION" - An enforced absence without pay for disciplinary purposes.

"TEMPORARY ((APPOINTMENT)) ASSIGNMENT" -

((1) Work performed in the absence of an employee on leave for:

(a) ~~Less than ninety consecutive calendar days (WAC 251-18-350(4));~~

(b) ~~Ninety or more consecutive calendar days (WAC 251-18-350(2)); or~~

(2) ~~There are three types of temporary assignments. Such assignments are:~~

(1) ~~Work which does not exceed eighty-six hours per calendar month on a continuous or intermittent employment schedule for the duration of the entire assignment or multiple assignments.~~

(2) ~~Single or multiple work assignments exceeding eighty-six hours per month for one or more months and are less than one hundred sixty calendar days within a six consecutive month period beginning with the first day of employment.~~

Upon completion of assignment(s) in subsection (2) of this section, a thirty consecutive calendar day break in service must occur before the same person may be employed on a temporary assignment within the same institution.

(3) ~~Formal ((assignment)) delegation of the duties and responsibilities of a higher level class for a period of less than ((ninety)) one hundred sixty consecutive calendar days((7- or~~

(3) ~~Performance of extra work required at a work load peak, a special project, or a cyclic work load which does not exceed one hundred seventy-nine consecutive calendar days)).~~

Restrictions on temporary assignments.

Persons who are employed in temporary assignments shall not displace classified employees and/or shall not fill positions currently or formerly occupied by classified employees.

"TRAINING" - Formal and systematic learning activities intended to provide employees with the knowledge and skills necessary to become proficient or qualified in a particular field.

"TRANSFER" - An employee initiated change from one classified position to another in the same class within the institution without a break in service.

"TRIAL SERVICE" - The initial period of employment following promotion, demotion or lateral movement into a class in which the employee has not held permanent status, beginning with the effective date of the change and continuing for six months, unless interrupted as provided in these rules or extended as provided in WAC 251-18-330(5).

"UNDERUTILIZATION" - Having fewer minorities, women, or handicapped persons in a particular job group than would reasonably be expected by their availability.

"UNION SHOP" - A union membership provision which, as a condition of employment, requires all employees within a bargaining unit to become members of an employee organization.

"UNION SHOP REPRESENTATIVE" - An employee organization which is the exclusive representative of a bargaining unit that has been certified by the director as the union shop representative following an election wherein a majority of employees in the bargaining unit voted in favor of requiring membership in the employee organization as a condition of employment.

"UNION SHOP REPRESENTATION FEE" - Employees who are granted a nonassociation right based on religious tenets or teachings of a church or religious body of which they are members, must pay a representation fee to the union shop representative. Such fee is equivalent to the regular dues of the employee organization minus any monthly premiums for union sponsored insurance programs.

"WRITING" - Handwriting, typewriting, printing, photostating, photographing and every other means of recording any form of communication or representation including letters, words, pictures, sounds; or symbols or combination thereof and all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums and other documents.

AMENDATORY SECTION (Amending Order 98, filed 7/22/82, effective 9/1/82)

WAC 251-04-040 EXEMPTIONS. The following classifications, positions, and employees of higher education institutions/related boards are hereby exempted from coverage of this chapter.

(1) Members of the governing board of each institution/related board; all presidents, vice presidents and their confidential secretaries, administrative and personal assistants; deans, directors, and chairmen; academic personnel; executive heads of major administrative or academic divisions employed by institutions of higher education; and any employee of a community college district whose place of work is one which is physically located outside the state of Washington and who is employed pursuant to RCW 28B.50.092 and assigned to an educational program operating outside of the state of Washington.

(2) ((1)) Student(s):

(a) ~~Employed under ((separately funded student assistance work programs)) state or federally funded work study law, or who are employed in a position directly related to the major field of study to provide training opportunity; or who are elected or appointed to student body offices or student organization positions such as student officers or student news staff members.~~

(b) ~~((Persons employed in a position scheduled for less than twenty hours per week or on an intermittent employment schedule.)) Employed in a temporary assignment for eighty-six hours or more in a calendar month during the summer break or other institution designated breaks during the academic year.~~

(c) ~~Nonclassified employees ((filling positions identified in subsections (1)(a) and (3))) employed under provisions of the definition of "temporary ((appointment-in)) assignment" (reference WAC 251-04-020).~~

~~((d))~~ (3) Part-time professional consultants retained on an independent part-time or temporary basis such as physicians, architects, or other professional consultants employed on an independent contractual relationship for advisory purposes and who do not perform administrative or supervisory duties.

~~((3))~~ (4) The director, his confidential secretary, assistant directors, and professional education employees of the state board for community college education.

~~((4))~~ (5) The personnel director of the higher education personnel board and his confidential secretary.

~~((5))~~ (6) The governing board of each institution/related board may also exempt from this chapter, subject to the employee's right of appeal to the higher education personnel board, classifications involving research activities, counseling of students, extension or continuing education activities, graphic arts or publications activities requiring prescribed academic preparation or special training, and principal assistants to executive heads of major administrative or academic divisions, as determined by the higher education personnel board: PROVIDED, That no nonacademic employee engaged in office, clerical, maintenance, or food and trades services may be exempted by the higher education personnel board under this provision.

~~((6))~~ (7) Any employee who believes that any classification should or should not be exempt, or any employee because of academic qualifications which would enable such employee to teach and thus be exempt, may appeal to the board in the same manner as provided in WAC 251-12-080, et seq.

~~((7))~~ (8) Any classified employee having civil service status in a classified position who accepts an appointment in an exempt position shall have the right of reversion to the highest class of position previously held, or to a position of similar nature and salary, within four years from the date of appointment to the exempt position. However, (a) upon the prior request of the appointing authority of the exempt position, the board may approve one extension of no more than four years; and (b) if an appointment was accepted prior to July 10, 1982, then the four-year period shall begin on July 10, 1982. Application for return to classified service must be made not later than thirty calendar days following the conclusion of the exempt appointment.

~~((8))~~ (9) When action is taken to convert an exempt position to classified status, the effect upon the incumbent of such position shall be as provided in WAC 251-18-420.

AMENDATORY SECTION (Amending Order 93, filed 2/3/82)

WAC 251-18-350 ~~((APPOINTMENT))~~ ASSIGNMENT—TEMPORARY. (1) Temporary ~~((appointment))~~ assignments may be made ~~((only to meet employment conditions set forth in the definition of "temporary appointment" in WAC 251-04-020))~~ without regard to the rules governing appointment.

Persons who are employed in temporary assignments (reference WAC 251-04-020 (1), (2) or (3)) will be given a notice indicating the type and terms of such assignment including starting and end dates. Copies of this notice shall be on file for the duration of such assignments with the employing official, the appropriate payroll office and the institutional personnel office.

~~(2) ((Temporary appointment to perform work in the absence of an employee on leave for ninety or more consecutive calendar days shall be made following certification from appropriate eligible lists of eligibles who have indicated willingness to accept such temporary appointment. Employees appointed to classified positions in accordance with this subsection are covered by chapter 28B.16 RCW and Title 251 WAC. Temporary appointment made in accordance with this subsection is not limited to the one hundred seventy-nine consecutive calendar day limitation identified in WAC 251-04-020(3) and subsection (5) of this section.~~

~~(3) The employing official may temporarily assign a classified employee the duties and responsibilities of a higher-level class for a period of less than ninety consecutive calendar days. The salary shall be determined per WAC 251-08-110.~~

~~(4) Temporary appointment to positions identified in the definition of "temporary appointment" in WAC 251-04-020(1) (a), (2), and (3) may be made without regard to the rules governing appointment.~~

~~(5) Upon prior approval of the director, a temporary appointment to a position identified in WAC 251-04-020(1)(a) may be extended beyond the eighty-ninth day, however the total period of appointment shall not exceed one hundred seventy-nine consecutive calendar days.~~

~~(6)) A permanent classified employee accepting temporary ((ap-
pointment)) assignment to a position identified in the definition of "temporary ((appointment)) assignment" ((in WAC 251-04-020(1)~~

~~(a), (2), and (3);)) shall retain and continue to receive all rights and benefits provided by these rules for the duration of the temporary ((appointment)) assignment.~~

~~((7))~~ (3) At the conclusion of a temporary ~~((appointment))~~ assignment of less than one hundred ~~((eighty consecutive))~~ sixty calendar days, ~~((a))~~ within a six consecutive month period, permanent employees shall have the right to revert to ~~((his/her))~~ their former positions.

NEW SECTION

WAC 251-18-361 APPOINTMENT—LEAVE OF ABSENCE. Appointment to perform work of an employee on leave for one hundred sixty or more consecutive calendar days shall be made following certification from appropriate eligible lists; employees appointed to classified positions from the eligible list are covered by chapter 28B.16 RCW and Title 251 WAC.

**WSR 83-18-065
PROPOSED RULES
STATE EMPLOYEES
INSURANCE BOARD
[Filed September 7, 1983]**

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the State Employees Insurance Board intends to adopt, amend, or repeal rules concerning:

- Amd WAC 182-08-160 Group coverage when not in pay status.
- Amd WAC 182-08-120 Employer contribution.
- Rep WAC 182-12-170 State contribution for Medicare for actively employed;

that the agency will at 9:00 a.m., Friday, October 21, 1983, in the Department of Transportation Materials Lab Building, Tumwater, Washington, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is chapter 41.05 RCW.

The specific statute these rules are intended to implement is RCW 41.05.080 and 41.05.050.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 18, 1983.

Dated: September 7, 1983

By: C. H. Shay

Group Insurance Analyst

STATEMENT OF PURPOSE

WAC 182-08-160, Group coverage when not in pay status.

Statutory Authority: Chapter 41.05 RCW.

WAC 182-08-160 sets forth criteria for employee self-payment of premium for SEIB insurance coverages. The proposed change clarifies that the self-payment privilege includes employees who are receiving time loss benefits under worker's compensation.

Responsible for Drafting, Implementation and Enforcement: C. H. Shay, Group Insurance Analyst, Phone 753-3096, Department of Personnel, Insurance Benefits Division, 497 Tyee Drive, Tumwater, WA 98504, Mailstop QS-11.

Proposed by: State Employees Insurance Board.

Agency Comments: None.

Necessary Due to Federal Law or Federal/State Court Action: No.

WAC 182-08-120 Employer contribution, and WAC 182-12-170 State contribution for Medicare for actively employed.

Statutory Authority: Chapter 41.05 RCW.

WAC 182-08-120 sets forth how the employer contribution is to be used. The proposed change is to discontinue the contribution for Medicare Part "B". WAC 182-12-170 recognized Medicare as an eligible program for the employer contribution. This is to be repealed due to discontinuance of the employer contribution.

Responsible for Drafting, Implementation and Enforcement: C. H. Shay, Group Insurance Analyst, Phone 753-3096, Department of Personnel, Insurance Benefits Division, 497 Tye Drive, Tumwater, WA 98504, Mailstop QS-11.

Proposed by: State Employees Insurance Board.

Agency Comments: None.

Necessary Due to Federal Law or Federal/State Court Action: No.

AMENDATORY SECTION (Amending Order 5-79, filed 12/27/79)

WAC 182-08-160 GROUP COVERAGE WHEN NOT IN PAY STATUS. An employee who is temporarily not in pay status may retain state group coverages, except long term disability and dental, by self-payment of premium (~~up to twenty-nine months~~) during any authorized leave without pay (~~(or)~~), during a layoff because of a reduction-in-force, or while receiving time loss benefits under worker's compensation, subject to a maximum self-pay period of twenty-nine months. An employee may retain long term disability coverage by self-payment of premium up to twenty-four months during an authorized leave without pay, but only if such leave is an approved educational leave. Employees not in pay status are ineligible to receive credit for the employer premium contribution.

AMENDATORY SECTION (Amending Order 3-77, filed 11/17/77)

WAC 182-08-120 EMPLOYER CONTRIBUTION. The board has utilized the employers' contribution to provide coverage for the basic life insurance benefit, a basic long term disability benefit, medical coverage, and dental coverage, (~~and the premium cost for employees who are eligible for Medicare Part "B"~~) and to establish a reserve for any remaining balance. There is no employer contribution available for any other insurance coverages.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 182-12-170 STATE CONTRIBUTIONS FOR MEDICARE FOR ACTIVELY EMPLOYED.

**WSR 83-18-066
EMERGENCY RULES
STATE EMPLOYEES
INSURANCE BOARD**

[Order 4-83—Filed September 7, 1983]

Be it resolved by the State Employees Insurance Board, acting at the Department of Personnel Board Room, 600 South Franklin, Olympia, WA, that it does adopt the annexed rules relating to:

Amd WAC 182-08-120 Employer contribution.

Rep WAC 182-12-170 State contribution for Medicare for actively employed.

We, the State Employees Insurance Board, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is early effective date is needed to implement discontinuance of the employer contribution for Medicare on a timely basis.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated under the general rule-making authority of the State Employees Insurance Board as authorized in chapter 41.05 RCW.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 1, 1983.

By C. H. Shay
Group Insurance Analyst

AMENDATORY SECTION (Amending Order 3-77, filed 11/17/77)

WAC 182-08-120 EMPLOYER CONTRIBUTION. The board has utilized the employers' contribution to provide coverage for the basic life insurance benefit, a basic long term disability benefit, medical coverage, and dental coverage, (~~and the premium cost for employees who are eligible for Medicare Part "B"~~) and to establish a reserve for any remaining balance. There is no employer contribution available for any other insurance coverages.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 182-12-170 STATE CONTRIBUTIONS FOR MEDICARE FOR ACTIVELY EMPLOYED.

**WSR 83-18-067
PROPOSED RULES
DEPARTMENT OF REVENUE**

[Filed September 7, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Revenue intends to adopt, amend, or repeal rules concerning sales to nonresidents of watercraft requiring coast guard registration or documentation, WAC 458-20-238;

that the agency will at 9:00 a.m., Wednesday, October 12, 1983, in the Revenue Conference Room, Room 415, General Administration Building, Olympia, Washington 98504, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on October 17, 1983.

The authority under which these rules are proposed is RCW 82.32.300.

The specific statute these rules are intended to implement is RCW 82.08.0266.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 12, 1983.

Dated: September 7, 1983

By: Matthew J. Coyle
Deputy Director

STATEMENT OF PURPOSE

Title: WAC 458-20-238, Sales to nonresidents of watercraft requiring Coast Guard registration or documentation.

Description of Purpose: To eliminate any exemption for foreign country residents in documenting boats and to grant a use tax exemption for documenting boats to nonresidents of the state of Washington who are also residents of another U.S. state.

Statutory Authority: RCW 82.32.300.

Specific Statute Rule is Intended to Implement: RCW 82.08.0266.

Reasons Supporting Proposed Action: The Department of Revenue is holding this public hearing in accordance with the request by the Joint Administrative Rules Review Committee and pursuant to RCW 34.04.230.

Agency Personnel Responsible for Drafting: George C. Mastrodonato, Telephone: 753-0665; Implementation: Matthew J. Coyle, Telephone: 753-4196; and Enforcement: Department of Revenue, Telephone: 753-5540, all located at 415 General Administration Building, Olympia, Washington 98504.

AMENDATORY SECTION (Amending Order ET 83-1, filed 3/30/83)

WAC 458-20-238 SALES TO NONRESIDENTS OF WATERCRAFT REQUIRING COAST GUARD REGISTRATION OR DOCUMENTATION. The term "Coast Guard registration," in addition to its ordinary meaning, will include registration numbering by the state of principal use when this function has been assumed by the state under the Federal Boating Act of 1958.

BUSINESS AND OCCUPATION TAX

In computing tax under the retailing classification, no exemption or deduction is allowed by reason of the fact that watercraft requiring Coast Guard registration are sold to nonresidents for use outside this state.

RETAIL SALES TAX

Under RCW 82.08.0266 an exemption from retail sales tax is allowed in respect to sales to nonresidents of this state for use outside of this state of watercraft requiring Coast Guard registration, even though delivery be made within this state, but only when (a) the watercraft will not be used within this state for more than forty-five days and (b) the seller receives from the buyer an exemption certificate as hereafter provided, and examines acceptable proof that the buyer is a resident of a state ((or country)) other than the state of Washington. The exemption certificate should be in substantially the following form, one copy to be filed with the department of revenue with the regular excise tax return and a duplicate to be retained by the dealer as a part of his records.

EXEMPTION CERTIFICATE

I, (printed or typed name of purchaser), hereby certify: That I am a bona fide resident of the state of and my address is (street and number or route), (city, town or post office), (state). That on this date I have purchased from (dealer) the following described watercraft:

Make and Model Length
How propelled: Inboard Outboard Horsepower

I further certify that this water craft will be registered or documented with the (Coast Guard or State of principal use), will not be used in the state of Washington for more than forty-five days and is exempt from Washington State Retail Sales Tax under RCW 82.08.0266.

I hereby declare, under penalty of perjury, that the above statements are true and correct to the best of my knowledge and belief.

Date Signature

CERTIFICATION OF DEALER

I hereby certify that I personally examined the following items of documentary evidence submitted by the above purchaser to establish his residence in the state of

- ... Payroll or W-2 Forms
... Driver's License
... Fishing or Hunting License
... Voter's Registration Card
... Copies of Income Tax Returns
... Other Explain

(signature of dealer or representative)

(Dealer's registration number with Department of Revenue)

title-officer or agent

The foregoing exemption is limited to sales of watercraft requiring Coast Guard registration or, where the state in which the boat will be principally used has assumed the registration and numbering function under the Federal Boating Act of 1958, to sales of watercraft which have been registered and numbered by such state of principal use. The exemption is also available in respect to sales of vessels which are documented (registered, enrolled, or licensed) by the United States Coast Guard to and in a port other than in the state of Washington. This exemption is applicable only to the sale of watercraft in condition to be waterborne and not to unattached component parts, repair parts, repair labor, etc. The exemption is not applicable for sales to Canadian or other foreign country residents taking delivery in this state.

USE TAX

The use tax will be applicable to the use by a nonresident of watercraft registered or documented with the Coast Guard or with the state of principal use when the watercraft was purchased from a Washington vendor and is first used within this state for more than forty-five days.

WSR 83-18-068
PROPOSED RULES
DEPARTMENT OF
VETERANS AFFAIRS
[Filed September 7, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Veterans Affairs intends to adopt, amend, or repeal rules concerning the Washington Veterans Home and the Washington Soldiers Home and Colony;

that the agency will at 2:00 p.m., Wednesday, October 12, 1983, in the Chilson Hall, Washington Soldiers Home, Orting, Washington, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on October 17, 1983.

The authority under which these rules are proposed is RCW 43.60A.070.

The specific statute these rules are intended to implement is RCW 72.36.030 - 72.36.080 - 72.36.120 - 72.36.130.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 13, 1983.

Dated: September 7, 1983

By: John R. Reynolds

Assistant Director

Administrative Services

STATEMENT OF PURPOSE

Proposed rules regarding admissions procedures, member rules of conduct, and the treatment of member assets and income at the Washington Veterans Home and the Washington Soldiers Home and Colony.

Authority: RCW 43.60A.070.

The specific statutes this rule is intended to implement are RCW 72.36.030, 72.36.080, 72.36.120 and 72.36.130.

Summary of Proposed Rule Amendments: WAC 484-20-010 Definitions, proposed change is to add the definition of gross misconduct as substantial disregard for the rights of others or a disregard for the obligations/duties as a member of the homes. To remove supplementary rules and add rules of conduct in a new section; WAC 484-20-015 Application for membership, proposed change is to allow admission for a specified length of time; WAC 484-20-040 Eligibility—Property resources, proposed change is to allow the director to make exception to property limits, based not only on the recommendation of the superintendent, but also for good cause shown; WAC 484-20-065 Use of income and assets of member, proposed change is to require members to relinquish all income in excess of allowable income to the revolving fund. The amount given to the revolving fund is not to exceed the cost of care. Exceptions may be made for members on furlough or on therapeutic employment. Members who usually receive aid and attendance from VA, but who have lost this benefit due to excess assets, will contribute that same amount to the revolving fund monthly until they qualify for this benefit again. Members admitted prior to November 1, 1983, who receive income or accumulate assets in excess of the cost of their yearly care must donate these assets to the revolving fund or request voluntary discharge. Members admitted after November 1, 1983, must contribute assets in excess of \$2,000 to the revolving fund or request voluntary discharge; WAC 484-20-068 Duly constituted body, proposed change is to establish a representative body for each home, representing each living unit resulting in a proportionate representation of members receiving domiciliary care, nursing care and Soldiers Home

Colony members. Representatives of each living unit are to be elected by the members of that living unit. The number of representatives from each unit shall be determined by dividing by 30 and rounding. Those units with less than 30 shall have one vote. In case of a vacancy, the superintendent shall select a replacement subject to confirmation by a majority of elected representatives. The superintendent shall chair the meeting, but shall have no vote. Meetings may be called by the superintendent or by request of the majority of the body; WAC 484-20-070 Revolving fund, proposed change is a proposed budget will be prepared and presented to the duly constituted body for approval. When this budget is approved, the superintendent or his representative can make expenditures from the revolving fund in accordance with the approved budget. The budget must continue to fund existing civil service positions unless a RIF terminates a position and all appeal rights of that employee are exhausted; WAC 484-20-075 Aid and attendance account, proposed change is the portion of each member's excess income which comes from aid and attendance benefits, will be deposited in the A & A account within the revolving fund. An amount of the excess income received from nursing care members who are not receiving A & A benefits, will also be deposited in the A & A account. An amount (equivalent to the housebound rates paid by VA) of the excess income from domiciliary care members who are also receiving direct care services, will also be deposited in the A & A account; WAC 484-20-085 Members' rights and rules of conduct—Notification, proposed change is each member and employee will be furnished with a copy of the homes' policies regarding member rights and a copy of chapter 484-20 WAC; WAC 484-20-090 Rules of conduct, proposed change is rules of conduct will be put into the WAC rather than having them listed in supplementary rules.

(1) Rules of conduct pertaining to health and safety:

- (a) Emergency evacuation—Must leave buildings when alarms sound.
- (b) Personal cleanliness—Persons and living areas must be clean.
- (c) Electrical appliances—Only low-wattage appliances with acceptable safety features are allowed.
- (d) Repair of rooms—Any alterations to rooms must be done by home staff.
- (e) Alcohol - drugs—Possession or use of intoxicating beverages, narcotics, or controlled substances on the grounds of the homes without a physician's prescription is prohibited. Drugs which were prescribed by a physician and are no longer being used by the member for whom prescribed will be turned into the pharmacy. Beer and wine may be served and consumed on the grounds at certain home-sponsored activities within limitations set by the home administration.

- (f) Weapons—Must be turned into the administration. Possession is prohibited.
- (g) Animals—Possession or feeding of animals is prohibited.
- (2) General rules of conduct:
 - (a) Visiting hours—Visiting hours for guests are 8:00 a.m. to 10:00 p.m. and may be extended if other members are not disturbed.
 - (b) Program listening—May be done in members' rooms provided volume level is not disturbing to others.
 - (c) Leave—Must sign out and in as appropriate. Member must stay in his/her room overnight before leaving again. Leaving without proper authorization or failure to return from leave on time makes the member absent without leave.
 - (d) Respect for property—No person may deface or destroy property, or take property which does not belong to him/her.
 - (e) Vehicle registration—All vehicles used on the home grounds must be registered with the home superintendent. All traffic and parking controls must be obeyed.
 - (f) Conduct between members and staff—Members will conduct themselves in an orderly, courteous, and cooperative manner at all times among themselves, with visitors, and with staff.
 - (g) Attire of home members—Must meet acceptable standards.

WAC 484-20-100 Violation—Investigation, proposed change is reports of rule violation as described under WAC 484-20-085, or other misconduct, will be investigated by the superintendent or his designee; WAC 484-20-105 Penalties, proposed change is the superintendent may impose penalties for violation of rules of conduct or gross misconduct. Maximum time for restricting a member to the home grounds is changed from 30 to 60 days. This change would allow for a combination of penalties provided that the combined total time does not exceed 60 days. When determined appropriate by the superintendent, a reasonable requirement for signing in at designated intervals may be imposed during a period of restriction; WAC 484-20-110 Fair hearing, proposed change is to allow any member who has had a penalty imposed upon him/her under the WAC 484-20-105 to request a fair hearing either from the superintendent or the director. Disciplinary actions are to be deferred until the outcome of the appeal unless the member's conduct is a threat to the health and safety of others. The time limit for requesting a fair hearing is changed to ten days after receiving notification of violation. The fair hearing must be held within 60 days of receipt of the request. Fair hearings will be conducted by an administrative law

judge from the Office of Administrative Hearings and will give a proposed decision to the director. This change would allow notification of the hearing to be sent either by certified or registered mail; and WAC 484-20-120 Discharge, proposed change is a member may be discharged by the superintendent:

- (1) When the member so requests,
- (2) When the member appears to have sufficient financial ability to support himself or herself outside the home,
- (3) When the member appears not to need the care and services of the home regardless of financial ability,
- (4) For a conviction of a felony or gross misdemeanor,
- (5) For repeated violation of the general rules of conduct,
- (6) For gross misconduct whether or not it also violates the rules of conduct in WAC 484-20-090,
- (7) Absent without leave for more than 15 days,
- (8) For failure to fulfill the requirement of any disciplinary action,
- (9) For failure to correct a condition within a reasonable length of time which violates any rule of conduct pertaining to the safety of members.

The following sections of the Washington Administrative Code are repealed: WAC 484-20-125 Discharge—Honorable; WAC 484-20-130 Discharge—Disciplinary; and WAC 484-20-155 Administrative appeal.

Agency Personnel Responsible for Drafting: John Reynolds, DVA, Olympia, MS ED-11; Implementation: Randy Fisher, DVA, Olympia, MS ED-11; and Enforcement: Dale Hoagland, Washington Soldiers Home, P.O. Box 500, Orting, WA 98360, and Herbert Stumpf, Washington Veterans Home, Retsil, WA 98378.

Department of Veterans Affairs, governmental.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-010 DEFINITIONS. (1) Administrative appeal – The request for reversal or modification of an administrative decision.

(2) Aid and attendance fund – Aid and attendance funds are:

(a) Those received by members from the veterans administration for the benefit of members for aid and attendance(;) and

(b) Funds administered in accordance with WAC 484-20-065 through 484-20-075.

((2)) (3) Allowable income – That income not less than the amount stipulated by RCW 72.36.120 and 72.36.130 which a member may keep for his or her personal use except as delineated in WAC 484-20-065 and 484-20-075.

((3)) (4) Department – The department of veterans affairs.

((4)) (5) Duly constituted body, representative of the members – A body elected by the general membership of the home which shall act for the general membership in those cases where the RCWs or these WACs so specify.

((5)) (6) Director – The director of the department of veterans affairs or his designee.

((6)) (7) Gross misconduct – Intentional or negligent conduct evidencing substantial disregard (a) for the interests of other home member(s), staff person(s), or visitor(s), or (b) for the offending member's duties and obligations as a member of the home.

(8) Member – An individual admitted to the Washington soldiers' home, the Washington soldiers' home colony or the Washington veterans' home.

~~((7))~~ (9) Superintendent – The superintendent of the Washington soldiers' home and colony and/or the superintendent of the Washington veterans' home.

~~((8) Supplementary rules – Rules published under the authority of the superintendents and pertaining to the personal conduct of members as provided by WAC 484-20-085.~~

~~(9))~~ (10) Supplementary policies and procedures – Policies and procedures published under authority of the superintendents which significantly affect the members.

~~((10))~~ (11) Veterans and soldiers home revolving funds – The repository for income in excess of allowable income which shall include an aid and attendance account.

~~((11) Administrative appeal – The request for reversal or modification of an administrative decision.))~~

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-015 APPLICATION FOR MEMBERSHIP. (1) An application for admission to membership shall be made to the superintendent on forms prescribed by the director. Admissions may be made for a specified period of time.

(2) An applicant shall either submit a copy of his or her military discharge or other acceptable proof of qualifying military service with the application, or present a copy at the time of admission. An individual whose eligibility is based on the military service of a spouse shall provide proof of the spouse's service.

(3) The superintendent shall review the application and the supporting evidence and make a recommendation to the director that the application be approved or disapproved. After decision is made, the superintendent shall notify the applicant in writing of the decision. The superintendent may reject an application when the applicant fails to meet eligibility requirements for admission. If an applicant is denied admission, the document so informing him shall include a statement of the reason and authority for such denial.

(4) An applicant denied admission may, within thirty days of mailing of a written notification of denial, submit a written request for an appeal to the director.

(5) An applicant shall not be admitted without approval by the director.

(6) Subject to the availability of the appropriate level of care required, individuals shall be admitted in the order in which their applications are approved.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-040 ELIGIBILITY—PROPERTY RESOURCES.

(1) To be eligible for membership an applicant may not possess cash or its equivalent, or equity in real or personal property with a total value in excess of \$1500 except as provided in subsections (2) through (4) of this section.

(2) Upon recommendation of the superintendent and for good cause shown the director may authorize an exception to the limit in subsection (1) of this section.

(3) An applicant for membership in the colony of the state soldiers' home may not own real property except property within the Orting school district which is the domicile of the applicant(s).

(4) An applicant for membership in either home may own real property in excess of \$1500 provided such property is the domicile of the spouse and/or dependent children of the applicant.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-065 USE OF INCOME ~~((B))~~ AND ASSETS OF MEMBER. (1) ~~((A member who is receiving aid and attendance shall be charged an amount determined appropriate by the superintendent up to the cost of care per month with the funds so collected to be deposited in the aid and attendance account of the revolving fund.~~

~~(2) A member who receives nursing care, but does not receive a specific allowance from the veterans administration for aid and attendance shall contribute an amount to the aid and attendance account equivalent to the amount of aid and attendance allowance he/she would receive if entitled, spouses and surviving spouses receiving nursing care may be required to relinquish an amount equivalent to the amount a veteran is required to relinquish, provided that the aid and attendance charge may be reduced to an amount that will leave the member with sufficient funds to fully meet the member's needs.~~

~~(3)) Members shall relinquish all income in excess of allowable income to the veterans' home or soldiers' home revolving fund except as~~

outlined in subsection (3) of this section. The amount relinquished shall not exceed the total cost of care of the member. The superintendent may make exceptions for earnings of individuals on furlough who are attempting to reestablish residency within the community and for earnings of members participating in therapeutic employment programs approved by the superintendent.

(2) Allowable income shall be increased by a portion of each future increase of the maximum annual income limitation as set for a single veteran without dependents as authorized by P.L. 95-588. Subsequent to June 30, 1980. The monthly increase will be determined by the formula $P \times A/12$ rounded to the nearest dollar. ('P' equals the percent of increase, 'A' equals the amount of increase).

~~((4) Members shall contribute all income in excess of allowable income to the veterans home or soldiers home revolving fund except as outlined in subsection (2) except that such amount shall not exceed the total cost of care of the member. The superintendent may make exceptions for individuals on furlough who are attempting to reestablish residency within the community.~~

(5)) (3) A member may contribute toward the support of a nonresident spouse, dependent children or dependent parent an amount approved by the superintendent based on an itemized statement of the requirements of such relative(s). ~~((The needs of the dependents will take precedence over any requirement that the individual relinquish funds to the home.~~

(6) The provisions of this section do not apply to members of the soldiers' home colony.

~~(7) Individuals who are normally in receipt of aid and attendance allowance from the veterans administration and whose benefits have been discontinued as a result of their estate having exceeded the maximum authorized by the veterans administration, shall continue, during the period in which benefits are discontinued, pay from the estate the normal monthly amount of aid and attendance allowance to the aid and attendance account.))~~

~~(4) Individuals who are normally in receipt of aid and attendance allowance from the veterans administration and whose benefits have been discontinued as a result of their estate having exceeded the maximum authorized by the veterans administration, shall continue, during the period in which benefits are discontinued, to pay from the estate the normal monthly amount of aid and attendance allowance to the aid and attendance account.~~

~~(5) The provisions of this section do not apply to members of the soldiers' home colony.~~

~~(6) A member admitted to the home prior to November 1, 1983, who receives or accumulates assets or is the recipient of income in excess of the equivalent cost of his/her care at the home for one year based upon four times the total operating cost from the most recent quarter for which reports are readily available attributable to that member's level of care (i.e., domiciliary or nursing care) divided by the average member population for that level of care during the same quarter, must relinquish such excess assets to the revolving fund or request voluntary discharge.~~

~~(7) Members admitted to the veterans home and soldiers home after November 30, 1983, must relinquish assets in excess of two thousand dollars to the homes' revolving fund or request voluntary discharge.~~

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-068 DULY CONSTITUTED BODY. ~~((The duly constituted body, representative of the members, shall be selected by a vote of the general home membership. One representative from each living unit (including the Washington Soldiers' Home Colony) shall constitute the body, representative of the members. Each level of care must be represented (light nursing, heavy nursing and domiciliary.))~~

~~(1) Each home shall have a duly constituted body representative of the home members established to approve revolving fund disbursements and to communicate to management member needs and concerns.~~

~~(2) The duly constituted body shall be composed of representatives elected annually, on the first Monday in December, to serve for the succeeding calendar year.~~

~~(3) A proportionate representation of home members receiving domiciliary care, nursing care and soldiers home colony members shall make up the duly constituted body.~~

~~(4) Representatives will be elected from living units to be designated by the superintendent.~~

~~(5) Representatives from the living units shall be elected by members of that living unit.~~

(6) The number of representatives for each living unit shall be determined by dividing on November 1 the living unit population by thirty and rounding to the nearest whole number. Any living unit with less than thirty members shall have one representative.

(7) Each member shall be entitled to a number of votes equal to the number of representatives to be elected from his/her living unit as determined in subsection (6) of this section.

(8) The members receiving the largest number of votes from each living unit shall be elected to the duly constituted body.

(9) In the event of a vacancy due to an insufficient number of members requesting to serve or the resignation, medical disability (established by the medical director at the home), death or discharge from the home, the superintendent shall select a member representative to fill such vacancy subject to confirmation by a majority of the elected representatives.

(10) The duly constituted body shall meet when called together on reasonable notice by the superintendent or his delegee. The presence of at least two-thirds of the representatives is necessary to constitute a quorum. The superintendent or his delegee shall chair all meetings of the duly constituted body but shall have no vote.

(11) On the written request of a majority of the duly constituted body the superintendent shall call a meeting to be held within fourteen days of the request for such meeting and shall provide seven days' notice to each representative.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-070 VETERANS HOME OR SOLDIERS HOME REVOLVING FUND. (1) The superintendent shall deposit income in excess of allowable income in a revolving fund.

(2) Disbursement from the revolving fund shall be for the welfare and benefit of the members.

(3) Disbursement from the revolving fund shall be on authorization of the superintendent or his duly authorized representative after approval has been received from ((a)) the duly constituted body, representative of the members.

(4) A proposed budget shall be prepared for each fiscal year by the superintendent or a duly authorized representative which shall delineate income by sources and allocations by category((- which)). This budget shall be ((approved by)) presented to the duly constituted body representative of the members((- If agreement between the superintendent and the duly constituted body cannot be reached, the director of the department of veterans affairs shall make the final determination on an appropriate allocation of funds and the appropriateness of budget disbursements and expenses. This section does not authorize unilateral relocation or disbursement of funds)) for approval. Approval of the budget shall constitute authority for the superintendent or his duly authorized representative to make disbursements from the revolving fund in accordance with the approved budget.

(5) Expenditure of the revolving funds shall be subject to the provisions of state law and state personnel merit system rules. The revolving fund budget must contain continued funding for existing civil service positions until such time as the director or his delegee, either individually or pursuant to a good faith request from the majority of the duly constituted body, terminates position(s) through a reduction-in-force and all appeal rights of affected civil service employees have been exhausted.

(6) A quarterly report of the revolving fund activity shall be available for public inspection.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-075 AID AND ATTENDANCE ACCOUNT. (1) The superintendent shall establish an aid and attendance account within the revolving fund. Expenditures from this account may be made exclusively in connection with provision of direct care services to the members; limited to nursing, other health related care services.

(2) The portion of each members income in excess of allowable income, which is derived from a veterans administration aid and attendance allowance shall be deposited to the aid and attendance account within the revolving fund.

(3) An amount, not to exceed the cost of care, of income in excess of allowable income received from nursing care members shall be deposited in the aid and attendance account of the members.

(4) An amount, equivalent to housebound rates payable under Public Law 95-588, of income in excess of allowable income of domiciliary members receiving direct care services in addition to those services

provided to all domiciliary members shall be deposited to the aid and attendance account of the revolving fund.

AMENDATORY SECTION (Amending Order 7659, filed 7/28/77)

WAC 484-20-085 MEMBERS' RIGHTS AND ((RESPONSIBILITIES)) RULES OF CONDUCT--NOTIFICATION. (((+))) Each new home member and employee shall be ((advised in writing of the following supplementary rules

(a) his rights and responsibilities;

(b) acts prohibited in the institution;

(c) disciplinary action which may be taken in the event of misconduct and of the member's right to request a fair hearing pursuant to WAC 484-20-105.

(2) Each member shall be provided with a copy of the rules in this chapter and of any supplementary rules adopted pursuant to WAC 484-20-090. Copies of all rules shall be conspicuously posted in the home.)) furnished with the home's policies regarding member rights and with a copy of chapter 484-20 WAC.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-090 ((SUPPLEMENTARY RULES--PROMULGATION--)) RULES OF CONDUCT. ((The superintendent of each home shall promulgate supplementary rules not inconsistent with the substance and intent of the rules in this chapter provided such supplementary rules have been approved in writing by the director or designee before being put into effect. Further, rules relating to the personal conduct of the members shall have approval of a duly constituted body representative of the members.)) Members of the homes are required to comply with the following rules of conduct:

(1) Rules of conduct pertaining to health and safety.

(a) Emergency evacuation. Any time a fire or alarm is sounded, every member must evacuate the building immediately and report to the designated evacuation area. He/she will not be permitted to return to the evacuated building until informed that he/she may do so by an authorized person. Nursing care unit members must follow the instructions of the nursing staff.

(b) Personal cleanliness. Members must maintain their person, belongings, rooms, and jointly-shared toilet areas in such a manner so as not to reasonably offend their neighbors or create fire, health, and/or sanitation problems. Each domiciliary member is responsible for the cleanliness and sanitation of his own person and his own living quarters. When vacated, the room shall be left in a clean condition. Each domiciliary member is responsible for proper disposition of waste and refuse which is accumulated in his room.

(c) Electrical appliances. Only low wattage electrical appliances such as television sets, electric clocks, electric razors, fans of 150 watts or less with acceptable finger guards, radios, audio and/or video recorders, and disc playing machines may be used in members' rooms. Use of any other electric equipment requires the approval of the medical director and/or the superintendent.

(d) Repair of rooms. Any alterations or repairs required, including the hanging of pictures, must be done by home staff. Connection of television sets to the home's master antenna system by anyone other than authorized personnel is prohibited. A similar prohibition applies to any tampering with the master antenna system or any of its components. Requests for such repairs and/or installations must be made through a building captain.

(e) Alcohol - drugs. Possession or use of intoxicating beverages (except as authorized below), narcotics, or controlled substances on the grounds of the Washington veterans' home without a physician's written prescription is prohibited. Drugs which were prescribed by a physician but which are no longer used by the member to whom they were issued, shall be turned in to the home pharmacy. Beer and wine may be served and consumed on the grounds at certain home-sponsored activities within limitations set by the home administration.

(f) Weapons. Members possessing firearms, ammunition, explosive or dangerous weapons must turn them in to the administration office. Possession of any of these items on the home grounds is prohibited.

(g) Animals. Possession or feeding of animals on home grounds is prohibited.

(2) General rules of conduct.

(a) Visiting hours. Visiting hours for guests are 8:00 a.m. to 10:00 p.m. These may be extended if other members are not disturbed.

(b) Program listening. Radios, television sets, and tape recording-playing devices may be used in members' rooms, provided that volume levels are kept at a level that does not disturb others. Between the

hours of 10:00 p.m. and 7:00 a.m., volume on such equipment must be reduced to match reduced noise levels in the general surroundings so that others will not be disturbed. The use of headphones, while not required, is strongly encouraged for those who wish to use such equipment after 10:00 p.m.

(c) Leave. Members leaving the grounds for any purpose must sign out with the building captain, C.Q., or appropriate nurses' station in such a manner as prescribed by the home administration. Upon returning, the member must sign in again. After returning from pass or furlough, the member must stay in his/her room overnight before permission to go on pass or furlough can be granted, except in the case of emergency. Leaving the grounds without proper authorization, or failure to return from pass or furlough at the prescribed time without obtaining permission for an extension, makes the member absent without official leave. Members being admitted to the home must remain in their rooms overnight before pass or leave privileges may be exercised unless an exception is granted by the administration.

(d) Respect for property. No person may deface or destroy walls, buildings, trees, shrubbery, fences, grounds, or any other property or possessions belonging to the state of Washington or to any other person. Appropriation of the property of another person or corporate entity without permission is also prohibited.

(e) Vehicle registration. Vehicles must be registered annually with the administration of the home. Members must possess a valid Washington state driver's license and must provide proof of ownership and/or registration. The requirement to register applies to vehicles owned by members, owned by another and registered in the name of the member, and any vehicle regardless of ownership that is regularly in the possession of the member. Vehicles must have current license tags and they must display the home identification sticker. All traffic and parking control signs must be obeyed. Members must comply with the provisions of the Washington state financial responsibility law.

(f) Conduct between members and staff. Members will conduct themselves in an orderly, courteous, and cooperative manner at all times among themselves, with visitors, and with staff members. Obscene and/or threatening language, or any physically assaultive behavior, directed at another person, whether on the grounds or off the grounds during a home-sponsored activity, will be considered a violation of this rule. Members will obey all valid instructions directed at them by staff acting in an officially authorized capacity. This includes member employees in positions of authority.

(g) Attire of home members. Dress of home members must meet acceptable standards. While in living areas, the following specific guidelines are established:

(i) Between 8:00 a.m. and 10:00 p.m., domiciliary members must be dressed in a manner so as not to reasonably offend the sensitivity of others when outside their rooms;

(ii) Members residing in living areas where both male and female residents are housed must at all times be dressed in a manner so as not to reasonably offend the sensitivity of others when outside their rooms.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-100 VIOLATION—INVESTIGATION. Reports of possible rule violation ((of supplementary rules)) shall be investigated by the superintendent or designee. The superintendent charging a violation of the rules or other misconduct by a member shall have the burden of establishing the violation by clear, cogent and convincing evidence.

AMENDATORY SECTION (Amending Order 7659, filed 7/28/77)

WAC 484-20-105 PENALTIES. The superintendent may impose penalties for the violation of ((supplementary rules)) rules of conduct or for gross misconduct; such penalties may include:

(1) Restricting the member to the home grounds for a maximum of ((thirty)) sixty days(:); or

(2) An enforced furlough to a maximum of sixty days(:); or

(3) ((Discharge from the home)) A combination of penalties (1) and (2) provided the combined total time does not exceed sixty days;

(4) Transfer to another DVA home or colony;

(5) Discharge from a home pursuant to WAC 484-20-120.

When determined appropriate by the superintendent, a reasonable requirement for signing in at designated intervals may be imposed during a period of restriction.

AMENDATORY SECTION (Amending Order 80-01, filed 7/17/80)

WAC 484-20-110 FAIR HEARING. (1) Any member (~~disatisfied with the determination of violation by the superintendent, or the penalty imposed, if any, as a result of this chapter,~~) upon whom a penalty has been imposed under WAC 484-20-105 may request a fair hearing from the superintendent or the director. A member who desires a fair hearing shall request such hearing within ((thirty)) ten days after receiving notice from the superintendent as to the determination of violation and penalty, if any. Disciplinary sanctions imposed by this chapter shall be deferred until the outcome of any such appeal except where, in the judgment of the superintendent or other person acting in his absence, the members conduct is a threat to the health and safety of others.

(2) A request for fair hearing may be made either verbally or in writing and may be filed in the office of the superintendent or the director. If made verbally, such a request shall promptly be reduced to writing.

(3) All requests for fair hearings shall:

(a) Specify the date of the penalty which is being appealed from;

(b) Specify as precisely as possible the issue to be adjudicated at the fair hearing;

(c) Set forth the address of the member, his/her representative or attorney; and

(d) Be signed by the member, his/her representative or attorney.

(4) At any time after the filing of the request, the member shall have the right of access to and may examine any files and records of the home regarding the case which contain information which is relevant and material to the grievance. This right of access and examination shall extend to the member's representative or attorney if so authorized in writing by the member. All evidence to be used by the home or colony at the hearing, as well as the case file of the applicant, must be made available upon request at least five days prior to the date of the hearing.

(5) A fair hearing ((in accordance with the provisions of chapter 388-08 WAC)) shall be held within ((thirty)) sixty days after receipt of the request ((and shall be held)) either in the home or colony in which the client resides, or in the county in which he has been receiving services. The fair hearing shall be conducted by ((a hearing officer appointed by the director for such purposes)) an administrative law judge from the Office of Administrative Hearings who shall issue a proposed decision for consideration by the director.

(6) The department shall notify a member who has requested a fair hearing of the time and place of said hearing at least ten days prior to the time thereof by certified or registered mail or by personal service upon said member, unless agreed otherwise in writing by the member and the department.

(7) In the fair hearing any party shall be entitled to be represented by counsel and shall be entitled to introduce evidence and to cross-examine witnesses.

(8) Rules of evidence:

(a) All relevant and material evidence is admissible at fair hearings which in the opinion of the hearing officer is the best evidence reasonably obtainable, having due regard for its necessity, availability and trustworthiness. In passing upon the admissibility of evidence the officer conducting the hearing shall give consideration to, but shall not be bound to follow, rules of evidence governing civil proceedings.

(b) When objection is made to the admissibility of evidence, such evidence may be received subject to a later ruling. The hearing officer may, at his/her discretion, either with or without objection, exclude inadmissible evidence or order cumulative evidence discontinued. Parties objecting to the introduction of evidence shall state the precise ground of objection at the time evidence is offered.

(c) The record of the hearing shall contain all evidence, whether oral or documentary, upon which the final decision is based. The final decision shall not take into consideration any evidence or information not introduced as evidence at the hearing and included in the record of the hearing.

(d) Documentary evidence may be received in the form of copies and excerpts or through incorporation by reference.

(9) The department shall not be required to pay fees or mileage to witnesses appearing at fair hearings.

(10) The department or the hearing officer may take, or cause to be taken, depositions and interrogatories for use as evidence in the fair hearing when such action will expedite any fair hearing.

(11) Any party who desires a continuance shall immediately upon receipt of a notice of hearing, or as soon thereafter as facts requiring such continuance come to his knowledge, notify the department or its

designated hearing officer of said desire, stating in detail the reasons why such continuance is necessary. The department or its hearing officer, in passing upon a request for continuance, shall consider whether such request was promptly and timely made. The department or its hearing officer may grant a continuance for good cause shown, and may at any time order a continuance upon its own motion. If during the hearing it appears that further testimony or argument should be received in the interest of justice, the hearing officer conducting the hearing may, at his discretion, continue the hearing and fix the date for introduction of additional evidence or presentation of argument.

(12) A member shall have the right to withdraw his appeal at any time prior to the hearing officer's decision by filing a written notice of withdrawal with the department. If, after being duly notified of a hearing a member or his representative fails to appear, the appeal shall be considered abandoned and dismissed for failure to prosecute.

(13) The fair hearing shall be closed to the public, with only the hearing officer, the member and his representative, the member's witnesses, and the department's representatives and witnesses in attendance, unless the ((client)) appellant has made a written request to the department that the hearing be open to the public.

(14) In any fair hearing proceedings, the hearing officer may at his discretion direct the parties or their representatives to appear at a specified time and place for a conference to consider a simplification of the issues involved, the possibility of obtaining stipulations, admissions of fact, and relevant documents, and such other matters as may aid in efficient disposition of the proceedings.

(15) In the absence of controverting evidence, the hearing officer may, upon request made during a fair hearing officially notice:

(a) General customs and practices followed in the transaction of business;

(b) Facts generally and widely known to all informed persons as are not subject to reasonable dispute;

(c) The disposition of any proceedings then pending before or previously concluded by the department;

(d) Matters within the technical knowledge of the department as a body of experts, or pertaining to its duties, responsibilities, or jurisdiction.

(16) The department shall, within thirty days after the date of the fair hearing, notify the member in writing of its decision. Such notification shall include a concise statement of the nature of the proceedings, contain appropriate findings of fact and conclusions of law, and specify in reasonable detail the reasons for the decision.

(17) In computing any period of time prescribed or allowed by department rules or by applicable statutes, the date of the act, event or decision after which the designated period of time begins to run is not included. The last day of the period so computed is to be included unless it is a Saturday, Sunday or legal holiday, in which event the period runs until the end of the next day which is neither a Saturday, Sunday nor a legal holiday.

AMENDATORY SECTION (Amending Order 7659, filed 7/28/77)

WAC 484-20-120 DISCHARGE. A member may be discharged ((from the home)) by the superintendent:

- (1) When the member so requests;
- (2) When it appears that the member has sufficient financial ability to support himself or herself outside the home;
- (3) When it appears that the member no longer needs the care and services of the home, regardless of financial ability;
- (4) For conviction of a felony or gross misdemeanor;
- (5) For repeated violation of the general rules of conduct, WAC 484-20-090;
- (6) For gross misconduct whether or not such conduct also violates the rules of conduct, WAC 484-20-090;
- (7) When a member has been absent without leave for a period in excess of fifteen days;
- (8) For failure to fulfill the requirement of any disciplinary sanction;
- (9) For failure to correct a condition which violates any rule of conduct pertaining to health and safety of members, staff, or visitors to the home within a reasonable time specified in a written notice to the member from a staff member acting in an official capacity, including member employees in positions of authority which notice specifies that discharge may accompany such failure.

The discharge shall be reduced to writing. If the discharge is disciplinary, it shall state the reasons for the action.

REPEALER

The following sections of the Washington Administrative Code are repealed:

- (1) WAC 484-20-125 DISCHARGE—HONORABLE.
- (2) WAC 484-20-130 DISCHARGE—DISCIPLINARY.
- (3) WAC 484-20-155 ADMINISTRATIVE APPEAL.

WSR 83-18-069 PROPOSED RULES LIQUOR CONTROL BOARD [Filed September 7, 1983]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Liquor Control Board intends to adopt, amend, or repeal rules concerning Liquor sales in Indian country—Appointment of tribal liquor vendors—Qualifications, WAC 314-37-010.

Note: Change from previous version;

that the agency will at 9:30 a.m., Wednesday, November 30, 1983, in the Office of the Liquor Control Board, 5th Floor, Capital Plaza Building, 1025 East Union Avenue, Olympia, WA 98504, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 66.08.030 and 66.08.050(2).

The specific statute these rules are intended to implement is RCW 66.08.050(2).

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before November 30, 1983.

This notice is connected to and continues the matter in Notice No. WSR 83-17-108 filed with the code reviser's office on August 24, 1983.

Dated: September 7, 1983

Chairman

AMENDATORY SECTION (Amending Order 118, Resolution No. 127, filed 1/26/83)

WAC 314-37-010 LIQUOR SALES IN INDIAN COUNTRY—APPOINTMENT OF TRIBAL LIQUOR VENDORS—QUALIFICATIONS. (1) The Washington state liquor control board deems it necessary and advisable to adopt this rule for the following reasons:

(a) The decision of the ((Federal 9th Circuit Court of Appeals)) United State Supreme Court in the case of *Rice v. Rehner* filed ((June 8, 1982)) July 1, 1983 has established that the state of Washington has ((no)) licensing jurisdiction over tribal liquor sales in Indian country and that those sales, when made in conformity with federal law, are subject to ((the exclusive jurisdiction of the tribe)) both tribal and state regulatory requirements.

(b) ((Notwithstanding the decision in *Rice v. Rehner*, the state court of appeals in *State v. Aukeen District Court* has held that it still remains)) It is contrary to state law (see chapter 66.44 RCW) for ((nontribal)) purchasers of Indian liquor to remove that liquor from the reservation and into the state of Washington in those instances where the tribal liquor sellers are not authorized by the board to sell liquor ((to those nontribal purchasers. Substantial expense has been incurred by the board's enforcement division in arresting and prosecuting nontribal purchasers of liquor sold by tribal outlets in Indian country.

(c) The board has negotiated a settlement of pending litigation with certain Indian tribes, which settlement provides for recovery by the state of state tax on tribal liquor sold to nontribal purchasers provided that those sales are authorized by the board under RCW 66.08.050(2) through the appointment of qualifying Indian tribes as liquor vendors).

(2) Accordingly, pursuant to RCW 66.08.050(2), the Washington state liquor control board will ~~((appoint)), in its discretion, consider appointment of qualifying Indian tribes((which have entered into negotiated business agreements with the board,)) as liquor vendors ((for the purpose of sales to individuals who intend to remove the liquor from the reservation. The status of liquor vendor will authorize them to sell liquor by the bottle under)) which will authorize those vendor tribes to sell liquor by the bottle to such persons, firms or corporations as may be sold liquor from a state liquor store. All such appointments will be subject to the following conditions:~~

(a) ~~((The tribe must have in force a tribal ordinance governing liquor sales, which ordinance must have been certified by the Secretary of the Interior and published in the Federal Register)) The tribe must enter into a business agreement with the Washington state liquor control board for the purchase and sale of liquor which will insure that the state's control over liquor traffic will be maintained while taking into consideration the unique nature of a tribal liquor vendor operation.~~

(b) The tribe must purchase all of its spirituous liquor for resale in Indian country from the board at a negotiated price ~~((which will cover the board's cost of acquisition, transportation, and handling, and the taxes imposed by RCW 82.08.150:))~~ PROVIDED(:), That a quota of spirituous liquor will be sold by the board each year to the vendor tribe without the payment of state taxes~~((:))~~ for use by members of the tribe, and which quota shall ~~((be negotiated between the board and the qualified tribes and approved by the department of revenue))~~ not be sold to nontribal members or removed from Indian country. The amount of this quota shall not exceed the apparent per capita consumption of liquor in Washington multiplied by the number of enrolled tribal members over the age of twenty-one years.

(c) The tribe must ~~((purchase beer and wine only from the board or from board licensed manufacturers or wholesalers))~~ have in force a tribal ordinance governing liquor sales, which ordinance must have been certified by the Secretary of the Interior and published in the Federal Register as required by 18 U.S.C. § 1161.

(d) The tribe must make all liquor sales in Indian country in conformity with both state and federal law ~~((and must conform to state law insofar as state law is made applicable to such sales by federal law. The tribe may make sales of liquor by the bottle to such persons, firms or corporations as may be sold liquor from a state liquor store except that the tribe will not be authorized to sell liquor to any state licensed retail liquor licensees.~~

(e) The tribe shall collect and remit to the state department of revenue the retail sales tax imposed by RCW 82.08.020 on retail sales of beer and wine to nontribal members.

(f) "Indian country" as used herein shall have the meaning ascribed to it in Title 18 U.S.C. § 1154 as of the date of promulgation of this rule).

(3) Should a tribe which has been appointed as a liquor vendor pursuant to this section fail to comply with all the above enumerated conditions, which shall be construed as continuing requirements to maintain the status of liquor vendor, the appointment of that tribe as a liquor vendor may be revoked by the board.

(4) A tribe, whether or not it has status as an Indian liquor vendor, which desires to sell beer and wine purchased from a licensed wholesaler must obtain state licenses for the sale of beer and wine and must abide by all state laws and rules applicable to sale of beer and wine by state licensees. Tribes selling beer and wine shall collect and remit to the state department of revenue the retail sales tax imposed by RCW 82.08.020 on retail sales of beer and wine to nontribal members.

(5) "Indian country" as used herein shall have the meaning ascribed to it in Title 18 U.S.C. § 1151 as qualified by Title 18 U.S.C. § 1154 as of July 1, 1983.

WSR 83-18-070

ADOPTED RULES

LIQUOR CONTROL BOARD

[Order 126, Resolution No. 135—Filed September 7, 1983]

Be it resolved by the Washington State Liquor Control Board, acting at the Capital Plaza Building, 1025 East Union Avenue, Olympia, WA 98504, that it does adopt the annexed rules relating to Maintaining operation of licensed premises in accordance with law and rules of the board is responsibility of licensee—Failure to do so is cause for revocation of license, new section WAC 314-12-125.

This action is taken pursuant to Notice No. WSR 83-10-032 filed with the code reviser on April 29, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated under the general rule-making authority of the Washington State Liquor Control Board as authorized in RCW 66.08.030 and 66.98.070.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 7, 1983.

By Robert D. Hannah
Chairman

NEW SECTION

WAC 314-12-125 MAINTAINING OPERATION OF LICENSED PREMISES IN ACCORDANCE WITH LAW AND RULES OF THE BOARD IS RESPONSIBILITY OF LICENSEE—FAILURE TO DO SO IS CAUSE FOR REVOCATION OF LICENSE. (1) The licensee of a liquor licensed premises is responsible for operation of the licensed premises in compliance with the liquor laws (Title 66 RCW) and rules of the board (Title 314 WAC). If the licensee chooses to employ others in the operation of the business, any violations committed, or permitted, by those employees shall be treated by the board as violations committed, or permitted, by the licensee.

(2) Failure by a licensee to accomplish compliance with the liquor laws or rules of the board, for whatever reason, will constitute good and sufficient cause for revocation of license privileges.

WSR 83-18-071

ADOPTED RULES

LIQUOR CONTROL BOARD

[Order 129, Resolution No. 138—Filed September 7, 1983]

Be it resolved by the Washington State Liquor Control Board, acting at the Capital Plaza Building, 1025 East Union Avenue, Olympia, WA 98504, that it does

adopt the annexed rules relating to Applicants—Qualifications—Fingerprinting—Criminal history record information checks—Continuing conditions—Agreements—Reconsideration of denied applications, WAC 314-12-020.

This action is taken pursuant to Notice No. WSR 83-16-071 filed with the code reviser on August 3, 1983. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated under the general rule-making authority of the Washington State Liquor Control Board as authorized in RCW 66.08.030 and 66.08.050(2).

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED September 7, 1983.

By Robert D. Hannah
Chairman

AMENDATORY SECTION (Amending Order 58, filed 8/9/77, effective 9/12/77)

WAC 314-12-020 APPLICANTS—QUALIFICATIONS—FINGERPRINTING—CRIMINAL HISTORY RECORD INFORMATION CHECKS—CONTINUING CONDITIONS—AGREEMENTS ((RULE 1.5))—RECONSIDERATION OF DENIED APPLICATIONS. (1) Where a married person is an applicant for, or holder of a license, the spouse of such applicant, if the parties are maintaining a marital community, shall be required to have the same qualifications as the applicant.

(2) The board may require, as a condition precedent to the original issuance or transfer of any annual license, fingerprinting and criminal history record information checks on any person not previously licensed by the board. In addition to the applicant, fingerprinting and criminal history record information checks may be required of the applicant's spouse. In the case of a corporation, fingerprinting and criminal history record information checks may be required of its present and any subsequent officers, manager, and stockholders who hold ten percent or more of the total issued and outstanding stock of the applicant corporation if such persons have not previously had their fingerprints recorded with the board. In the case of a partnership, fingerprinting and criminal history record information checks may be required of all general partners and their spouses. Such fingerprints as are required by the board shall be submitted on forms provided by the board to the Washington State Identification Section of the Washington State Patrol and to the Identification Division of the Federal Bureau of Investigation in order that these agencies may search their records for prior arrests and convictions of the individuals fingerprinted. The applicant shall give full cooperation to the board and shall assist the board in all aspects of the fingerprinting and criminal history record information check. The applicant

may be required to pay a minimal fee to the agency which performs the fingerprinting and criminal history process.

(3) The restrictions on license issuance specified in RCW 66.24.010(2) shall be construed to be continuing conditions for retaining an existing license and any licensed person who ceases to be eligible for issuance of a license under RCW 66.24.010(2) shall also cease to be eligible to hold any license already issued.

(4) An applicant for any license or permit issued by the liquor control board, who employs an attorney or agent in connection with an application for such license or permit, shall, upon request, submit in writing the entire agreement between such applicant for license or permit, and the attorney or agent. No part of any compensation agreed upon, paid or received shall in any manner be contingent upon the outcome of the matter before said board. In the event the compensation agreed upon, paid or received, is determined to be excessive, the board reserves the right to refuse to consider the application for such license or permit.

(5) The board, in considering an application for a license, may require, in addition to all other information requested concerning the proposed licensed premises (see WAC 314-12-035), that the applicant justify the issuance of the license sought based on an analysis of population trends compared to licenses in the area, any uniqueness of the proposed operation, any unusual circumstances present, plus any other information the applicant(s) may feel will justify the issuance of the license sought.

(6) The board may, at its discretion and for good cause shown, reconsider a denied application upon receipt of new information within sixty days of the original denial date. Such reconsiderations are not considered part of the normal license application procedure and must be justified on an individual basis. Should the board determine to reconsider a denied application, notice of such reconsideration shall be given to those persons and/or entities entitled to receive notice of an original license application pursuant to RCW 66.24.010(8). Such notice shall be given at least twenty days prior to final determination on the reconsideration. Additionally, at the same time the notice is given, a press release will be issued informing the public of the impending reconsideration.

WSR 83-18-072

ADOPTED RULES

UTILITIES AND TRANSPORTATION
COMMISSION

[Order R-207, Cause No. TV-1711—Filed September 7, 1983]

In the matter of amending WAC 480-12-350 relating to insurance.

This action is taken pursuant to Notice No. WSR 83-16-030 filed with the code reviser on July 27, 1983. This rule change hereinafter adopted shall take effect pursuant to RCW 34.04.040(2).

This rule-making proceeding is brought on pursuant to RCW 80.01.040, 81.80.130 and 81.80.190 and is intended administratively to implement these statutes.

This rule-making proceeding is in compliance with the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), the State Register Act (chapter 34.08 RCW), the State Environmental Policy Act of 1971 (chapter 43.21C RCW), and the Regulatory Fairness Act (chapter 19.85 RCW).

Pursuant to Notice No. WSR 83-16-030 the above matter was scheduled for consideration at 8:00 a.m., Wednesday, September 7, 1983, in the Commission's Conference Room, Seventh Floor, Highways-Licenses Building, Olympia, Washington, before Chairman Robert W. Bratton and Commissioner A. J. "Bud" Pardini.

Under the terms of said notice, interested persons were afforded the opportunity to submit data, views, or arguments to the commission in writing prior to September 2, 1983. Under the terms of said notice, interested persons were afforded the opportunity to submit data, views, or arguments orally at 8:00 a.m., Wednesday, September 7, 1983, in the Commission's Conference Room, Seventh Floor, Highways-Licenses Building, Olympia, Washington.

At the September 7, 1983, meeting the commission considered the rule change proposal. No written comments were received. Mr. Chuck Skillman, Washington Contract Loggers, and Mr. Alan Fuller, Jr., Traveler's Insurance Company, were present at the meeting. No oral comments were received.

The rule change affects no economic values.

In reviewing the entire record herein, it has been determined that WAC 480-12-350 should be amended to read as set forth in Appendix A shown below and by this reference made a part hereof. WAC 480-12-350 as amended will change insurance requirements for common and contract carriers to be consistent with federal requirements. The requirements vary with the commodity carried; hazardous materials and substances, and explosives, require higher insurance coverage than other property.

ORDER

WHEREFORE, IT IS ORDERED That WAC 480-12-350 as set forth in Appendix A, be amended as a rule of the Washington Utilities and Transportation Commission to take effect pursuant to RCW 34.04.040(2).

IT IS FURTHER ORDERED That the order and the annexed rule, after first being recorded in the order register of the Washington Utilities and Transportation Commission, shall be forwarded to the code reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.

DATED at Olympia, Washington, this 7th day of September, 1983.

Washington Utilities and Transportation Commission
Robert W. Bratton, Chairman
A. J. "Bud" Pardini, Commissioner

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-189, filed 6/2/82, effective 7/2/82)

WAC 480-12-350 INSURANCE. Within ten days after the date an applicant is notified his application has been granted, and before permit shall be issued, the applicant shall file with the commission evidence of liability and property damage insurance having been written by a company authorized to write such insurance in the state of Washington, covering each motor vehicle as defined in RCW 81.80.010 used or to be used under the permit granted, in the amount (~~of not less than five hundred thousand dollars combined single limit (CSL) as of July 1, 1982, and seven hundred fifty thousand dollars combined single limit (CSL) as of July 1, 1983.~~ **PROVIDED**, That an amount of not less than one million dollars combined single limit (CSL) as of July 1, 1982, and five million dollars combined single limit (CSL) as of July 1, 1983, shall be required in the transportation of hazardous substances as defined in 49 CFR § 171.8. **AND PROVIDED FURTHER**, That applications) shown on the following table:

Commodity Transported	July 1, 1983	July 1, 1984
(1) Property (nonhazardous)	\$ 500,000	\$ 750,000
(2) Hazardous substances, as defined in 49 CFR 171.8 transported in cargo tanks, portable tanks, or hopper-type vehicles with capacities in excess of 3,500 water gallons; or in bulk Class A or B explosives, poison gas (Poison A), liquified compressed gas or compressed gas; or highway route controlled quantity radioactive materials as defined in 49 CFR 173.455.	1,000,000	5,000,000
(3) Oil listed in 49 CFR 172.101; hazardous waste, hazardous materials and hazardous substances defined in 49 CFR 171.8 and listed in 49 CFR 172.101, but not mentioned in (2) above or (4) below.	500,000	1,000,000
(4) Any quantity of Class A or B explosives; any quantity of poison gas (Poison A); or highway route controlled quantity radioactive materials as defined in 49 CFR 173.455.	1,000,000	5,000,000

Applications for permits to operate as temporary common carriers or temporary contract carriers shall be accompanied by evidence of insurance coverage as required herein.

Failure to file and keep such insurance in full force and effect shall be cause for dismissal of an application or cancellation of a permit.

Evidence of insurance shall be submitted on a "uniform motor carrier bodily injury and property damage liability certificate of insurance," (Form E) filed in triplicate with the commission. Insurance presently on file for existing permit holders shall be sufficient: **PROVIDED**, The (~~combined single limits~~) requirements set forth above are in effect.
