STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

I. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined matter is new matter;
 - (ii) ~~deleted matter is ((lined out and bracketed between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

Reviser's note: Through an inadvertent error in the publication process, the version of WAC 261-50-030 and 261-50-045 that appeared in the October 17 issue of the state Register as WSR 84-20-067 did not accurately reflect the agency's filing. (3) Written notice of the time and place of the hearing before the committee shall be mailed and/or given to the student at least fourteen calendar days in advance of the scheduled hearing. Said notice shall contain:

(2) In determining whether sufficient cause, as stated in subsection (1) above, does exist, members of the hearing committee shall give probative effect to evidence which possesses probative value commonly accepted by reasonably prudent people in the conduct of their affairs. Hearsay evidence is admissible in the hearing.

(3) The chairperson of the hearing committee shall, in the course of presiding at the disciplinary hearing, give effect to the rules of privilege recognized by law and exclude incompetent, irrelevant, immaterial and unduly repetitious evidence.

(4) Evidence or testimony to be offered by or on behalf of the student in extenuation or mitigation shall not be presented or considered until all substantive evidence or testimony has been presented.

NEW SECTION

The committee shall also advise the student in writing of his or her right to present, within ten working days of the notification of the committee's recommendation, a written statement to the President of the college appealing the recommendation of the committee.

NEW SECTION

WAC 132V-120-180 REESTABLISHMENT OF ACADEMIC STANDING. A student who has been suspended or expelled pursuant to disciplinary procedures set forth in this chapter and whose suspension or expulsion upon appeal is found to have been unwarranted shall be provided the opportunity to reestablish academic and student standing to the extent possible within the abilities of the college, including an opportunity to retake exams or otherwise complete course offerings missed by reason of such action.

NEW SECTION

WAC 132V-120-190 SUMMARY SUSPENSION PROCEEDINGS. If the student development dean or the dean's designee (1) has cause to believe that any student has violated any provision of WAC 132V-120-050 or has committed a felony and (2) has further cause to believe that the student presents an imminent danger to himself or other persons on college facilities or to the educational process of the college, then the dean or the dean's designee shall have, pursuant to the rules herein, authority to suspend the student from the college until such time as the dean is satisfied the student's dangerous nature has ceased. The duration of summary suspension shall not exceed ten instructional days.

NEW SECTION

WAC 132V-120-200 NOTICE OF SUMMARY PROCEEDINGS. (1) If the student development dean desires to exercise the authority to summarily suspend a student, the dean shall notify the student by certified and regular mail at the student's last known address, or cause personal service of such notice upon said student.

(2) The notice shall be entitled "Notice of Summary Suspension Proceeding" and shall state:

(a) The charges against the student including reference to the provisions of WAC 132V-120-050 or statutory law involved; and

(b) That the student charged must appear before the student development dean or the dean's designee at a time specified in the notice for a formal hearing. This hearing shall be held as soon as practicable after the summary suspension. The student may elect to be accompanied by a personal advisor at the conference with the dean.

NEW SECTION

WAC 132V-120-210 PROCEDURES OF SUMMARY SUSPENSION HEARING. (1) At the summary suspension hearing, the student against whom the violation or violations are alleged shall have the opportunity of proving to the student development dean or the dean's designee, that there is no cause to believe that the violation stated on the notice of summary suspension proceedings to the student did occur, and that there exists no cause to believe that immediate suspension of said student is necessary.

(2) The student may offer oral testimony of any person, submit any statement or affidavit on his or her own behalf, examine any affidavit or statement and cross-examine any witness who may appear against the student, and submit any matter in extenuation or mitigation of the offense or offenses charged.

(3) The student development dean shall, at the time of the summary suspension proceeding, determine whether there is probable cause to believe that a violation of WAC 132V-120-050 has occurred and whether there is cause to believe that continued suspension is necessary. In the course of making such a decision, the dean may only consider the affidavits or oral testimony of persons who have alleged that the student charged has committed a violation of WAC 132V-120-050 and the oral testimony and affidavits submitted by the student charged.

NEW SECTION

WAC 132V-120-220 DECISION BY STUDENT DEVELOPMENT DEAN. If the student development dean, following the conclusion of the summary suspension proceeding, finds that there is probable cause to believe that:

(1) The student against whom specific violations of WAC 132V-120-050 are alleged has committed one or more such violations upon any college facility; and

(2) That summary suspension of said student is necessary for the safety of the student, other students or persons on college facilities, or the educational process of the institution; and

(3) Such violation or violations constitute grounds for disciplinary action as provided for in the Code of Student Rights and Responsibilities; then the student development dean may continue to enforce the suspension of the student from college so long as summary suspension does not exceed ten days.

NEW SECTION

WAC 132V-120-230 NOTICE OF SUSPENSION. (1) If a student is suspended pursuant to the above rules, the student will be provided within a written notice of suspension including the student development dean's findings of fact and conclusions which lead the

dean to believe that the summary suspension of the student should continue in force.

(2) The student suspended pursuant to the authority of this rule shall be served a copy of the notice of suspension by personal service or by certified and regular mail at the student's last known address within three working days following the conclusion of the hearing with the student development dean.

(3) The notice of suspension shall stipulate the duration of the suspension and conditions under which the suspension may be terminated.

NEW SECTION

WAC 132V-120-240 **SUSPENSION FOR FAILURE TO APPEAR.** If the student against whom specific violations of WAC 132V-120-050 have been alleged has been served pursuant to the notice required fails to appear at the time designated for the summary suspension proceeding, the student development dean is authorized to enforce the suspension of the student from college.

NEW SECTION

WAC 132V-120-250 **APPEAL OF SUMMARY SUSPENSION.** (1) Any student aggrieved by an order issued at the summary suspension proceeding may appeal the same to the President. No such appeal shall be entertained, however, unless and until:

(a) The student has first appeared before the student development dean at the hearing called for under WAC 132V-120-210 and 132V-120-220;

(b) The student has been officially notified of the outcome of this hearing;

(c) Summary suspension or a lesser disciplinary sanction has been upheld; and

(d) The appeal conforms to the standards set forth in WAC 132V-120-110(3).

(2) The President shall review, as soon as reasonably possible, the allegations contained within the notice of appeal, along with the findings of the student development dean, the record of the summary suspension proceeding, and determine therefrom whether the summary suspension order is justified.

(3) After completion of this review, the President shall promptly notify the appealing student by certified and regular mail whether the summary suspension shall be maintained, stayed, a lesser sanction imposed, or no sanction imposed.

NEW SECTION

WAC 132V-120-260 **SUMMARY SUSPENSION PROCEEDINGS NOT DUPLICITOUS.** (1) The summary suspension proceedings shall substitute for the disciplinary proceedings provided for in WAC 132V-120-100 through 132V-120-180. During the course of the summary suspension, the dean may refer the matter to the Student Rights and Responsibilities Committee with a recommendation for further disciplinary action. At the end of the summary suspension, the student shall be reinstated to full rights and privileges as a student, subject to whatever sanctions or conditions may have been or may be in the future imposed for violation of the Code of Student Rights and Responsibilities.

(2) Any disciplinary proceeding initiated against the student because of violations alleged against any student in the course of the summary suspension proceeding provided for herein, shall be heard, de novo, provided, that the records made and evidence presented during the course of any facet of the summary suspension proceeding brought against the student shall be available for the use of the student and of the college in the further disciplinary proceeding.

NEW SECTION

WAC 132V-120-270 **STUDENT GRIEVANCES.** The purpose of this section is to protect each student's freedom of expression in the classroom; to protect each student against improper disclosure of the student's views, beliefs and political associations; to protect each student from improper, arbitrary or capricious academic evaluation as evidenced by the student's final course grade, and to afford each student reasonable protection against arbitrary or capricious actions taken outside the classroom by other members of the college community.

NEW SECTION

WAC 132V-120-280 **GRIEVANCES EXCLUDED FROM THIS SECTION.** (1) A student may not use the provisions of this section as the basis for filing a grievance based on the outcome of summary or other disciplinary proceedings described in earlier sections of this Student Rights and Responsibilities Code.

(2) Federal and state laws, rules and regulations, in addition to policies, regulations and procedures adopted by the State Board for Community College Education or the Board of Trustees of Community College District 22, shall not be grievable matters.

(3) Academic evaluations, other than final course grades, shall not be grievable matters.

(4) For the purpose of filing a sexual harassment grievance, a student shall use the provisions of the established college sexual harassment grievance procedures, not the provisions of this section.

NEW SECTION

WAC 132V-120-290 **GRIEVANCE PROCEDURES.** (1) If a student believes he or she has been unfairly treated by an officer of the college, faculty member or a member of the college staff, the student shall first discuss the matter with the individual toward whom the grievance is directed. At this step and all subsequent steps in this grievance procedure, the student may elect, at no expense to the college, as an advocate or ombudsman to use one person to aid in preparing and presenting the grievance. The student shall take this action within twenty instructional days exclusive of Summer Quarter following the event or action giving rise to the grievance.

(2) If, within ten instructional days following the student's attempt to resolve the matter in the manner described in subsection (1) of this section, the student feels a satisfactory resolution has not been achieved, the student shall bring the grievance, in succession, to the attention of the employee's supervisor(s) before taking the grievance to the appropriate operational dean in whose area of responsibility the grievance initially arose.

(3) If the grievance is lodged against the office of a dean, the President shall designate another operational dean as the hearing officer.

(4) The grievant shall present his or her grievance in writing and shall include a statement specifying the nature of the grievance, a summary of actions taken by the student to resolve the grievance up to that point, and any proposed solution to the problem the grievant may wish to offer.

(5) The appropriate operational dean shall meet with the grievant and that employee (or employees) who are party to the grievance in an attempt to resolve the grievance.

 - (c) Of an escape by such inmate; or
 - (d) To the orderly operation of the institution.

NEW SECTION

(2) The hearing officer will meet with such inmate within two working days after initial placement for the initial review of the basis for the assignment of such inmate to administrative segregation status. During this initial review the inmate will be provided an opportunity to respond to the reasons for such inmate's placement in a segregation or intensive management unit.

(3) The hearing officer will prepare a written report of the initial review meeting with the inmate and deliver such report to the superintendent. This report will include the information provided to the inmate, the reason for initial placement in a segregation or intensive management unit, the inmate's response to the allegation resulting in the initial placement in a segregation or intensive management unit and the hearing officer's recommendation whether to continue the administrative segregation or to release the inmate to the general inmate population, together with the facts supporting such recommendation.

(4) The superintendent will review the hearing officer's report, and within three working days after the inmate's initial placement in segregation will prepare a written decision accepting or rejecting the hearing officer's recommendations. NEW SECTION

WAC 137-32-015 **CLASSIFICATION MEETING PROCEDURES.** (1) The hearing officer will preside over classification meetings of inmates assigned to administrative segregation status.

(2) A classification meeting will be held not more than ten working days after the initial review meeting decision.

Subsequent classification meetings shall be held at intervals not exceeding one hundred eighty days.

(4) Not less than forty-eight hours prior to each classification meeting the hearing officer, or the hearing officer's designee, will advise the inmate in writing:

- (a) Of the date, time and place of the classification meeting;
- (b) Of the specific allegations supporting placement or retention in administrative segregation;
- (c) Of related criminal charges, if any, evolving from the incident for which the inmate is placed on administrative segregation status;
- (d) That the inmate has the opportunity to provide the hearing officer with names of inmates or institution staff from whom witness statements should be obtained; and
- (e) That only written statements will be considered during the course of the hearing unless the hearing officer requires oral testimony for clarification.

(5) The hearing officer will ensure that all witnesses named by the inmate are provided with witness statement forms as soon as practical, but not less than twenty-four hours prior to the classification meeting.

(6) The following procedures will be adhered to during all classification meetings:

- (a) The inmate may be present at all stages of the meeting except during discussions involving information from confidential sources.

- (c) The superintendent shall designate an institution staff member, other than the hearing officer, to present evidence either supporting continued administrative segregation or release therefrom.
- (d) The hearing officer shall have the authority to request inmates, institution staff members, or other persons to appear and present or clarify information which may be relevant to the hearing officer's decision. If practical, information presented to the hearing officer from confidential sources shall be presented by the individual receiving information from the source. The source shall be identified to the hearing officer, except when the superintendent directs that the source is to remain confidential.

(e) The hearing officer will provide the inmate with an opportunity to present the inmate's views to the hearing officer and to clarify information from the witness statements. The inmate may present a

written statement in lieu of, or in addition to oral testimony. The written statement will be included in the record.

(f) If the inmate refuses to attend the hearing, this fact will be documented along with all pertinent facts and actions taken by the hearing officer.

(g) An inmate may select an institution staff member, approved by the superintendent, to assist and advise the inmate at the hearing. The advisor shall not be an inmate. The advisor will be approved by the superintendent only if, in the superintendent's judgment, the inmate is unable to present his/her own case.

(7) The hearing officer shall make a written report to the superintendent and the inmate within three working days after the classification meeting, which will include:

(a) A recommendation that the inmate be continued in administrative segregation, released back to the general population, or transferred to a more appropriate facility, in or out of state;

(b) Changes necessary in the inmate's behavior for the inmate's return to the general inmate population; provided, however, accomplishment of any such identified behavioral changes shall not necessarily require discharge from administrative segregation, but shall be considered along with all other circumstances; and

(c) A summary of the inmate's adjustment while in administrative segregation status.

(8) The inmate may appeal the report by submitting written objections and whatever other written information the inmate feels is relevant to the superintendent. Such material shall be filed within twenty-four hours of the inmate's receipt of the report.

(9) The superintendent shall notify the inmate in writing within five working days after receiving the hearing officer's recommendation of the superintendent's decision regarding retention of the inmate in administrative segregation or the inmate's release therefrom, other action directed by the superintendent, and the date of the next classification meeting, if any.

(10) Inmates reviewed at the second classification meeting will be considered for one or more of the following:

(a) Referral to the director with a recommendation that the inmate be placed on intensive management status;

(b) Return to the general inmate population with clear behavioral expectations for remaining there; or

(c) Transfer to a more appropriate facility, within or without the state.

NEW SECTION

WAC 137-32-020 INTERMEDIATE INFORMAL REVIEW.

(1) Twenty working days after the superintendent's decision to retain an inmate on administrative segregation status following the first classification meeting, the hearing officer will conduct an informal review of the administrative segregation status with the inmate. In this process the hearing officer will discuss the continued need for administrative segregation with the inmate, review any written material submitted by the inmate, review the inmate's behavior and attitude while in segregation, and such other information as appears relevant. The hearing officer may review any institution records and may discuss the inmate's case with staff as part of this review process.

(2) The hearing officer shall prepare a written summary of the meeting with recommendations for the superintendent who may either release the inmate from or retain the inmate on segregation.

(3) Decisions and recommendations made in this process shall not be appealable, nor shall they be subject to review through the grievance process.

(2) The superintendent will review the hearing officer's recommendation, and if approved will forward a copy thereof to the director for final approval.

(3) The cases of all inmates assigned to intensive management status will be reviewed by the hearing officer at intervals not to exceed one hundred eighty days; provided, however, if an inmate is assigned to intensive management status sooner than ninety days after the inmate's

placement in administrative segregation, the review period shall be consistent with those set forth in WAC 137-32-015 and 137-32-020.

(4) Inmates not approved for intensive management status by the director will be retained on administrative segregation status pending implementation of the action ordered by the director in lieu of assignment to intensive management. The cases of such inmates will be reviewed by the hearing officer at intervals not to exceed one hundred eighty days.

Decisions to limit the rights of an inmate in administrative segregation confinement in other than emergency situations must be approved in advance by the superintendent or duty officer. Limitations of rights imposed in emergency situations by other members of the institution staff shall be reviewed as soon as possible by the superintendent.

NEW SECTION

WAC 137-32-035 ADMINISTRATIVE RELEASE. (1) The superintendent may release an inmate from administrative segregation status at any time after determining that, in the superintendent's judgment, the conditions or reasons which required the inmate's administrative segregation no longer exist. Recommendations for release may be submitted to the superintendent at any time by segregation unit staff or other staff familiar with the inmate's situation.

(2) Only the director has the authority to release an inmate from intensive management status.

NEW SECTION

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.025.

Re: Amending WAC 248-100-075 List of reportable diseases.

Purpose of Amendment: To revise the list of reportable diseases by adding acquired immunodeficiency syndrome (AIDS). This revision corrects an error in the September 12, 1984, adoption. The disease was incorrectly listed as autoimmune deficiency syndrome (AIDS).

The Reason These Rules are Necessary: Epidemiologic report required on all cases, or suspected cases of AIDS. The case definition of AIDS, the required report

forms, and required procedures for disease control will be determined and distributed by the state health officer or his designee.

Summary of the Rule or Rule Change: As of June 18, 1984, over 4,918 cases of the acquired immunodeficiency syndrome (AIDS) has been reported in the United States. While only 41 cases have been reported in Washington in the past three years, 22 cases have been reported since January 1, 1984. It is very likely that additional cases will be reported in the future. Recent investigations and research indicate that AIDS is a communicable disease. The current communicable disease regulations require that "all sudden or extraordinary outbreaks of unusual or serious disease are to be reported..." which applies to AIDS. However, the Seattle-King and Tacoma-Pierce County Health Departments have recently reported occasional reluctance of some medical personnel to report AIDS cases, because AIDS is not specifically mentioned in the state regulations. Currently, 41 states, the District of Columbia, and Puerto Rico have either made AIDS reportable or have legislation pending to do so. Therefore, we propose that reporting of acquired immunodeficiency syndrome (AIDS) be required by the state Board of Health rules and regulations.

Person(s) Responsible for the Enforcement of the Rule: Jack Allard, Ph.D., Office Chief, Public Health Laboratories and Epidemiology, B-17 9, 8-576-6461; Steven Helgersen, MD, Seattle-King County Health, Communicable Disease, 400 Yesler Building, 7th Floor, Seattle, WA 98104, 8-378-4615; and Ray M. Nicola, MD, MHSA, Health Officer, Tacoma-Pierce Health Department, 3629 "D" Street, Tacoma, WA 98408, (206) 591-6500.

Rules Proposed by: Office of Public Health Laboratories and Epidemiology, Division of Health, DSHS.

These rules are not necessary as a result of federal law, federal court decision or state court decision.

No economic impact statement is required under the Regulatory Fairness Act, Laws of 1982.

(iii) If the hazardous chemical is a mixture which has not been tested as a whole:

(A) The chemical and common name(s) of all ingredients which have been determined to be health hazards, and which comprise 1% or greater of the composition, except that chemicals identified as carcinogens under WAC 296-62-05407(4) shall be listed if the concentrations are 0.1% or greater; and,

(b) Information contained in the material safety data sheet concerning the properties and effects of the hazardous chemical is disclosed;

(c) The material safety data sheet indicates that the specific chemical identity is being withheld as a trade secret; and,

(d) The specific chemical identity is made available to health professionals, in accordance with the applicable provisions of this section.

(2) Where a treating physician or nurse determines that a medical emergency exists and the specific chemical identity of a hazardous chemical is necessary for emergency or first-aid treatment, the chemical manufacturer, importer, or employer shall immediately disclose the specific chemical identity of a trade secret chemical to that treating physician or nurse, regardless of the existence of a written statement of need or a confidentiality agreement. The chemical manufacturer, importer, or employer may require a written statement of need and confidentiality agreement, in accordance with the provisions of subsections (3) and (4) of this section, as soon as circumstances permit.

(3) In nonemergency situations, a chemical manufacturer, importer, or employer shall, upon request, disclose a specific chemical identity, otherwise permitted to be withheld under subsection (1) of this section, to a health professional (i.e. physician, registered nurse, industrial hygienist, toxicologist, or epidemiologist) providing medical or other occupational health services to exposed employee(s) if:

(a) The request is in writing;

(b) The request describes with reasonable detail one or more of the following occupational health needs for the information:

(i) To assess the hazards of the chemicals to which employees will be exposed;

(ii) To conduct or assess sampling of the workplace atmosphere to determine employee exposure levels;

(iii) To conduct preassignment or periodic medical surveillance of exposed employees;

(iv) To provide medical treatment to exposed employees;

(v) To select or assess appropriate personal protective equipment for exposed employees;

(vi) To design or assess engineering controls or other protective measures for exposed employees; and,

(vii) To conduct studies to determine the health effects of exposure.

(c) The request explains in detail why the disclosure of the specific chemical identity is essential and that, in lieu thereof, the disclosure of the following information would not enable the health professional to provide the occupational health services described in subdivision (3)(b) of this section:

(i) The properties and effects of the chemical;

(ii) Measures for controlling workers' exposure to the chemical;

(iii) Methods of monitoring and analyzing worker exposure to the chemical; and,

(iv) Methods of diagnosing and treating harmful exposures to the chemical;

(d) The request includes a description of the procedures to be used to maintain the confidentiality of the disclosed information; and,

(e) The health professional, and the employer or contractor of the health professional's services (i.e., downstream employer, labor organization, or individual employer), agree in a written confidentiality agreement that the health professional will not use the trade secret information for any purpose other than the health need(s) asserted and agree not to release the information under any circumstances other than to the department, as provided in subsection (6) of this section, except as authorized by the terms of the agreement or by the chemical manufacturer, importer, or employer.

(4) The confidentiality agreement authorized by subdivision (3)(d) of this section:

(a) May restrict the use of the information to the health purposes indicated in the written statement of need;

(b) May provide for appropriate legal remedies in the event of a breach of the agreement, including stipulation of a reasonable preestimate of likely damages; and,

(c) May not include requirements for the posting of a penalty bond.

(5) Nothing in this standard is meant to preclude the parties from pursuing noncontractual remedies to the extent permitted by law.

(6) If the health professional receiving the trade secret information decides that there is a need to disclose it to the department, the chemical manufacturer, importer, or employer who provided the information shall be informed by the health professional prior to, or at the same time as, such disclosure.

(7) If the chemical manufacturer, importer, or employer denies a written request for disclosure of a specific chemical identity, the denial must:

(a) Be provided to the health professional within thirty days of the request;

(b) Be in writing;

(c) Include evidence to support the claim that the specific chemical identity is a trade secret;

(d) State the specific reasons why the request is being denied; and,

(e) Explain in detail how alternative information may satisfy the specific medical or occupational health need without revealing the specific chemical identity.

(8) The health professional whose request for information is denied under subsection (3) of this section may refer the request and the written denial of the request to the department for consideration.

(9) When a health professional refers the denial to the department under subsection (8) of this section, the director or his/her designee shall consider the evidence to determine if:

(a) The chemical manufacturer, importer, or employer has supported the claim that the specific chemical identity is a trade secret;

(b) The health professional has supported the claim that there is a medical or occupational health need for the information; and,

(c) The health professional has demonstrated adequate means to protect the confidentiality.

(10)(a) If the director or his/her designee determines that the specific chemical identity requested under subsection (3) of this section is not a bona fide trade secret, or that it is a trade secret but the requesting health professional has a legitimate medical or occupational health need for the information, has executed a written confidentiality agreement, and has shown adequate means to protect the confidentiality of the information, the chemical manufacturer, importer, or employer will be subject to citation by the department.

(b) If a chemical manufacturer, importer, or employer demonstrates to the department that the execution of a confidentiality agreement would not provide sufficient protection against the potential harm from the unauthorized disclosure of a trade secret specific chemical identity, the director or his/her designee may issue such orders or impose such additional limitations or conditions upon the disclosure of the requested chemical information as may be appropriate to assure that the occupational health services are provided without an undue risk of harm to the chemical manufacturer, importer, or employer.

(11) If, following the issuance of a citation and any protective orders, the chemical manufacturer, importer, or employer continues to withhold the information, further action may be taken by the department in accordance with chapter 49.17 RCW.

(12) Notwithstanding the existence of a trade secret claim, a chemical manufacturer, importer, or employer shall, upon request, disclose to the director or his/her designee any information which this section requires the chemical manufacturer, importer, or employer to make available. Where there is a trade secret claim, such claim shall be made no later than at the time the information is provided to the director or his/her designee so

that suitable determinations of trade secret status can be made and the necessary protections can be implemented.

(13) Nothing in this section shall be construed as requiring the disclosure under any circumstances of process or percentage of mixture information which is trade secret.

AMENDATORY SECTION (Amending Order 84-14, filed 6/7/84)

WAC 296-62-05421 APPENDIX A—HEALTH HAZARD DEFINITIONS (MANDATORY). Although safety hazards related to the physical characteristics of a chemical can be objectively defined in terms of testing requirements (e.g. flammability), health hazard definitions are less precise and more subjective. Health hazards may cause measurable changes in the body—such as decreased pulmonary function. These changes are generally indicated by the occurrence of signs and symptoms in the exposed employees—such as shortness of breath, a nonmeasurable, subjective feeling. Employees exposed to such hazards must be apprised of both the change in body function and the signs and symptoms that may occur to signal that change.

The determination of occupational health hazards is complicated by the fact that many of the effects or signs and symptoms occur commonly in nonoccupationally exposed populations, so that effects of exposure are difficult to separate from normally occurring illnesses. Occasionally, a substance causes an effect that is rarely seen in the population at large, such as angiosarcomas caused by vinyl chloride exposure, thus making it easier to ascertain that the occupational exposure was the primary causative factor. More often, however, the effects are common, such as lung cancer. The situation ((if [is])) is further complicated by the fact that most chemicals have not been adequately tested to determine their health hazard potential, and data do not exist to substantiate these effects.

There have been many attempts to categorize effects and to define them in various ways. Generally, the terms "acute" and "chronic" are used to delineate between effects on the basis of severity or duration. "Acute" effects usually occur rapidly as a result of short-term exposures, and are of short duration. "Chronic" effects generally occur as a result of long-term exposure, and are of long duration.

The acute effects referred to most frequently are those defined by the American National Standards Institute (ANSI) standard for Precautionary Labeling of Hazardous Industrial Chemicals (Z129.1-1982) — irritation, corrosivity, sensitization and lethal dose. Although these are important health effects, they do not adequately cover the considerable range of acute effects which may occur as a result of occupational exposure, such as, for example, narcosis.

Similarly, the term chronic effect is often used to cover only carcinogenicity, teratogenicity, and mutagenicity. These effects are obviously a concern in the workplace, but again, do not adequately cover the area of chronic effects, excluding, for example, blood dyscrasias (such as anemia), chronic bronchitis and liver atrophy.

The goal of defining precisely, in measurable terms, every possible health effect that may occur in the workplace as a result of chemical exposures cannot realistically be accomplished. This does not negate the need for employees to be informed of such effects and protected from them.

Appendix B, which is also mandatory, outlines the principles and procedures of hazard assessment.

For purposes of this section, any chemicals which meet any of the following definitions, as determined by the criteria set forth in Appendix B are health hazards:

(1) Carcinogen. A chemical is considered to be a carcinogen if:

(a) It has been evaluated by the International Agency for Research on Cancer (IARC), and found to be a carcinogen or potential carcinogen; or

(b) It is listed as a carcinogen or potential carcinogen in the Annual Report on Carcinogens published by the National Toxicology Program (NTP) (latest edition); or,

(c) It is regulated by WISHA as a carcinogen.

(2) Corrosive. A chemical that causes visible destruction of, or irreversible alterations in, living tissue by chemical action at the site of contact. For example, a chemical is considered to be corrosive if, when tested on the intact skin of albino rabbits by the method described by the U.S. Department of Transportation in Appendix A to 49 CFR Part 173, it destroys or changes irreversibly the structure of the tissue at the site of contact following an exposure period of four hours. This term shall not refer to action on inanimate surfaces.

(3) Highly toxic. A chemical falling within any of the following categories:

(a) A chemical that has a median lethal dose (LD₅₀) of 50 milligrams or less per kilogram of body weight when administered orally to albino rats weighing between 200 and 300 grams each.

(b) A chemical that has a median lethal dose (LD₅₀) of 200 milligrams or less per kilogram of body weight when administered by continuous contact for 24 hours (or less if death occurs within 24 hours) with the bare skin of albino rabbits weighing between two and three kilograms each.

(c) A chemical that has a median lethal concentration (LC₅₀) in air of 200 parts per million by volume or less of gas or vapor, or 2 milligrams per liter or less of mist, fume, or dust, when administered by continuous inhalation for one hour (or less if death occurs within one hour) to albino rats weighing between 200 and 300 grams each.

(4) Irritant. A chemical, which is not corrosive, but which causes a reversible inflammatory effect on living tissue by chemical action at the site of contact. A chemical is a skin irritant if, when tested on the intact skin of albino rabbits by the methods of 16 CFR 1500.41 for four hours exposure or by other appropriate techniques, it results in an empirical score of five or more. A chemical is (([as])) an eye irritant (([is])) if so determined under the procedure listed in 16 CFR 1500.42 or other appropriate techniques.

(5) Sensitizer. A chemical that causes a substantial proportion of exposed people or animals to develop an

allergic reaction in normal tissue after repeated exposure to the chemical.

(6) Toxic. A chemical falling within any of the following categories:

(a) A chemical that has a median lethal dose (LD₅₀) of more than 50 milligrams per kilogram but not more than 500 milligrams per kilogram of body weight when administered orally to albino rats weighing between 200 and 300 grams each.

(b) A chemical that has a median lethal dose (LD₅₀) of more than 200 milligrams per kilogram but not more than 1,000 milligrams per kilogram but not more than 1,000 milligrams per kilogram of body weight when administered by continuous contact for 24 hours (or less if death occurs within 24 hours) with the bare skin of albino rabbits weighing between two and three kilograms each.

(c) A chemical that has a median lethal concentration (LC₅₀) in air of more than 200 parts per million but not more than 2,000 parts per million by volume of gas or vapor, or more than two milligrams per liter but not more than 20 milligrams per liter of mist, fume, or dust, when administered by continuous inhalation for one hour (or less if death occurs within one hour) to albino rats weighing between 200 and 300 grams each.

(7) Target organ effects. The following is a target organ categorization of effects which may occur, including examples of signs and symptoms and chemicals which have been found to cause such effects. These examples are presented to illustrate the range and diversity of effects and hazards found in the workplace, and the broad scope employers must consider in this area, but are not intended to be all-inclusive.

EMERGENCY RULES
DEPARTMENT OF
VETERANS AFFAIRS
 [Order 84-02—Filed October 30, 1984]

I, John Reynolds, acting director of the Department of Veterans Affairs, do promulgate and adopt at East 11th and Washington Streets, Olympia, Washington, the annexed rules relating to the Washington veterans home and the Washington soldiers home and colony.

I, John Reynolds, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the existing rules of conduct for members of the Washington veterans home and the Washington soldiers home and colony have been declared invalid and unenforceable by a Pierce County superior court ruling.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

WAC 484-20-090 ((SUPPLEMENTARY RULES—PROMULGATION:)) RULES OF CONDUCT. ((The superintendent of each home shall promulgate supplementary rules not inconsistent with the substance and intent of the rules in this chapter provided such supplementary rules have been approved in writing by the director or designee before being put into effect. Further, rules relating to the personal conduct of the members shall have approval of a duly constituted body representative of the members.)) Members of the homes are required to comply with the following rules of conduct:

(1) Rules of conduct pertaining to health and safety.

(a) Emergency evacuation. Any time a fire or alarm is sounded, every member must evacuate the building immediately and report to the designated evacuation area. He/she will not be permitted to return to the evacuated building until informed that he/she may do so by an authorized person. Nursing care unit members must follow the instructions of the nursing staff.

(b) Personal cleanliness. Members must maintain their person, belongings, rooms, and jointly-shared toilet areas in such a manner so as not to reasonably offend their neighbors or create fire, health, and/or sanitation problems. Each domiciliary member is responsible for the cleanliness and sanitation of his own person and his own living quarters. When vacated, the room shall be

left in a clean condition. Each domiciliary member is responsible for proper disposition of waste and refuse which is accumulated in his room.

(c) Electrical appliances. Only low wattage electrical appliances such as television sets, electric clocks, electric razors, fans of 150 watts or less with acceptable finger guards, radios, audio and/or video recorders, and disc playing machines may be used in members' rooms. Use of any other electric equipment requires the approval of the superintendent.

(d) Repair of rooms. Any alterations or repairs required, including the hanging of pictures, must be done by home staff. Connection of television sets to the home's master antenna system by anyone other than authorized personnel is prohibited. A similar prohibition applies to any tampering with the master antenna system or any of its components. Requests for such repairs and/or installations must be made through a building captain.

(e) Alcohol – drugs. Possession or use of intoxicating beverages (except as authorized below), narcotics, or controlled substances on the grounds of the Washington veterans' homes without a physician's written prescription is prohibited. Drugs which were prescribed by a physician but which are no longer used by the member to whom they were issued, shall be turned in to the home pharmacy. Beer and wine may be served and consumed on the grounds at certain home-sponsored activities within limitations set by the home administration.

(f) Weapons. Members possessing firearms, ammunition, explosive or dangerous weapons must turn them in to the administration office. Possession of any of these items on the home grounds is prohibited.

(g) Animals. Possession or feeding of animals on home grounds is prohibited unless sanctioned by the superintendent.

(2) General rules of conduct.

(a) Visiting hours. Visiting hours for guests are 8:00 a.m. to 10:00 p.m. These may be extended if other members are not disturbed.

(b) Program listening. Radios, television sets, and tape recording-playing devices may be used in members' rooms, provided that volume levels are kept at a level that does not disturb others. Between the hours of 10:00 p.m. and 7:00 a.m., volume on such equipment must be reduced to match reduced noise levels in the general surroundings so that others will not be disturbed. The use of headphones, while not required, is strongly encouraged for those who wish to use such equipment after 10:00 p.m.

(c) Leave. Members leaving the grounds for any purpose must sign out with the building captain, C.Q., or appropriate nurses' station in such a manner as prescribed by the home administration. Upon returning, the member must sign in again. After returning from pass or furlough, the member must stay in his/her room overnight before permission to go on pass or furlough can be granted, except in the case of emergency. Leaving the grounds without proper authorization, or failure to return from pass or furlough at the prescribed time without obtaining permission for an extension, makes the member absent without official leave. Members being

admitted to the home must remain in their rooms overnight before pass or leave privileges may be exercised unless an exception is granted by the administration.

(d) Respect for property. No person may deface or destroy walls, buildings, trees, shrubbery, fences, grounds, or any other property or possessions belonging to the state of Washington or to any other person. Appropriation of the property of another person, corporate entity and the state of Washington without permission is also prohibited.

(e) Vehicle registration. Vehicles must be registered annually with the administration of the home. Members must possess a valid Washington state driver's license and must provide proof of ownership and/or registration. The requirement to register applies to vehicles owned by members, owned by another and registered in the name of the member, and any vehicle regardless of ownership that is regularly in the possession of the member. Vehicles must have current license tags and they must display the home identification sticker. All traffic and parking control signs must be obeyed. Members must comply with the provisions of the Washington state financial responsibility law.

(f) Conduct between members and staff. Members will conduct themselves in an orderly, courteous, and cooperative manner at all times among themselves, with visitors, and with staff members. Obscene and/or threatening language, or any physically assaultive behavior, directed at another person, whether on the grounds or off the grounds during a home-sponsored activity, will be considered a violation of this rule. Members will obey all valid instructions directed at them by staff acting in an officially authorized capacity. This includes member employees in positions of authority.

(g) Attire of home members. Dress of home members must meet acceptable standards. While in living areas, the following specific guidelines are established:

(ii) Members residing in living areas where both male and female residents are housed must at all times be dressed in a manner so as not to reasonably offend the sensitivity of others when outside their rooms.

(12) A member shall have the right to withdraw his appeal at any time prior to the hearing officer's decision by filing a written notice of withdrawal with the department. (2) Department staff will administer the client review questionnaire.

(3) When administering the client review questionnaire, department staff will take into account the client's risk of being placed in a residential care facility and ability to perform activities of daily living, living conditions, and arrangements, and the availability and use of alternative resources, including immediate family, other relatives, neighbors, friends, community programs, and volunteers.

(4)(a) The client review questionnaire is a series of questions designed to determine the client's need for the tasks which are available from the chore program. In answering each question, either "N," "M," "S," or "T" is circled to indicate the extent of assistance the client needs from the chore program for each task. "N," "M," "S," or "T" are defined as:

(i) N = None: The client is either able to perform this task without help or is already receiving or could receive all the help needed from other sources.

(ii) M = Minimal: The client cannot perform this task without help and needs a minimal amount of assistance from the chore program in addition to whatever help may or may not be received from other sources.

(iii) S = Substantial: The client cannot perform this task without help and needs a substantial amount of assistance from the chore program in addition to whatever help may or may not be received from other sources.

(iv) T = Total: Client is completely unable to perform this task and is not now receiving any help and needs total assistance from the chore program.

(b) Points are awarded for each task based on the degree of assistance needed from the chore services program. The number of points available for each task is set forth in subsection (5) of this section. The point total is converted into maximum allowable hours using the table set forth in subsection (6) of this section. For clients needing attendant care, as defined in subsection (5) of this section, the amount of services authorized is based on the total number of hours per month the chore provider must be with the client.

(5) The allowable chore services program tasks, as defined by the department, are scored as follows:

(a) Escort/transport to medical services. The scoring is as follows, based on the need and frequency of service: N = 0, M = 1, S = 2, T = 3.

(b) Essential shopping and errands. The scoring is based on need and frequency of service: N = 0, M = 5, S = 10, T = 15. When the chore provider must perform these tasks for the client because the client is unable to go along, the scoring is N = 0, M = 1, S = 3, and T = 5.

(c) Laundry. The scoring is N = 0, M = 1, S = 2, and T = 3. If there are no laundry facilities in the client's own home, additional points are awarded. The scoring for the additional points is N = 0, M = 3, S = 5, and T = 7.

(d) Splitting/stacking/carrying wood. The scoring is N = 0, M = 3, S = 5, and T = 7. This task is available only to persons who use wood as their sole source of fuel for heat and/or cooking.

(e) Housework. Housework is limited to tasks necessary to protect the client's health and safety and to those areas of the home actually used by the client, i.e., kitchen, bathroom, bedroom, living room, and dining room. The scoring is N = 0, M = 1, S = 2, and T = 3.

(f) Cooking. The scoring is based on the preparation of three meals, as follows:

- (i) Breakfast N = 0, M = 4, S = 7, T = 10.
- (ii) Light meal N = 0, M = 4, S = 7, T = 10.
- (iii) Main meal N = 0, M = 5, S = 10, T = 15.

(g) Feeding. The scoring is based on feeding three meals, as follows:

- (i) Breakfast N = 0, M = 4, S = 7, T = 10.
- (ii) Light meal N = 0, M = 4, S = 7, T = 10.
- (iii) Main meal N = 0, M = 5, S = 10, T = 15.

(h) Dressing/undressing. The scoring is N = 0, M = 4, S = 7, and T = 10.

(i) Care of appearance. The scoring is N = 0, M = 1, S = 3, and T = 5.

(j) Body care. The scoring is N = 0, M = 5, S = 10, and T = 15.

(k) Bed transfer. The scoring is N = 0, M = 1, S = 3, and T = 5.

(l) Ambulation. The scoring is N = 0, M = 4, S = 7, and T = 10.

(m) Wheelchair transfer. The scoring is N = 0, M = 1, S = 3, and T = 5.

(n) Bathing. The scoring is N = 0, M = 4, S = 7, and T = 10.

(o) Toileting. The scoring is N = 0, M = 5, S = 10, and T = 15.

(p) Remind to take medicines. The scoring for reminding to take medication is N = 0, M = 1, S = 2, and T = 3.

(q) Family care. The family care question (~~has four parts. Each part considers~~) takes into consideration the ages, number, level of responsibility of the children, and the presence of a spouse when determining the need for chore services.

(i) Family housework determines the need for additional help cleaning the household because of the presence of children. (~~The scoring is N = 0, M = 4, S = 7, and T = 10.~~)

(ii) Family tasks determines the need for escort and transportation, laundry services, meal preparation and shopping, and bathing and dressing for the client's children. (~~The scoring is N = 0, M = 5, S = 10, and T = 15.~~)

(iii) Supervision of children determines the need for physical supervision of the children. When the client is in the home, but unable to supervise (~~the scoring is N = 0, M = 5, S = 10, and T = 15~~) them.

(iv) The total scoring for the above are N = 0, M = 14, S = 27, and T = 40.

(r) Attendant care for adults/supervision of children.

(i) Attendant care for adults determines that the chore provider is available to help a client who requires assistance with such unscheduled tasks as toileting, ambulation, and wheelchair transfer or supervises or watches a client who cannot safely be left alone. Protective supervision may be necessary when a person may hurt himself or herself, others, or damage property if left alone, or is confused and may wander away, turn on a stove and forget to turn it off, or becomes easily disoriented. The chore service provider performs any household or personal care tasks or gives assistance with activities of daily living during the authorized attendant care hours. The scoring ((is)) and authorization are based on the number of days per month and hours per day during which the chore service provider must be with a client in need of attendant care. The ((authorization is the total number of attendant care hours required by the client each month)) client or applicant shall provide verification of the need for attendant care by producing a statement from the client's or applicant's physician.

(ii) Supervision of children determines the need for supervision of children when the client is temporarily absent from the home because of hospitalization. This question is not scored. The number of days and the number of hours per day that the children need supervision is recorded. The monthly authorization is the total number of hours required for supervision. The chore service provider performs household and personal care tasks for the children during the hours of supervision. Supervision of children when the client is absent from the home must not exceed two weeks during any six-month period.

(6) Except for cases where attendant care for adults or supervision of children when the client is temporarily absent are required, as defined in subsection (5)((~~(q)~~(iv)))(r) of this section, the amount of hours of chore services authorized per month shall be determined by translating the total number of points awarded on the client review questionnaire into a monthly authorization, utilizing the following CRQ authorization ceiling chart:

The department shall approve or deny requests within thirty days.

(10) Chore services may be provided either through the individual-provider-program or through the contracted program, as deemed most appropriate by department policy established by the state office.

STATEMENT OF PURPOSE

Title: Amendment to chapter 468-95 WAC. Adoption of Revision No. 2 to the 1978 manual on uniform traffic control devices for streets and highways (MUTCD).

Result of Federal Law or Federal or State Court Action: Implementation of changes in federal regulations.

Statutory Authority: Chapter 47.36 RCW, traffic control devices.

Summary of Rule: This rule incorporates the 19 official changes, and minor revisions, described in Revision No. 2 to the 1978 MUTCD. The 19 changes relate to signing and pavement marking and have been approved by the Federal Highway Administrator. The rule also incorporates the required designs for the signs and pavement markings of parking stall for disabled persons, pursuant to RCW 46.61.581 enacted during the 1984 legislative session.

Reason for Rule: This rule is necessary so that the signing, markings, signals, and construction and maintenance traffic control requirements on Washington streets and highways will remain uniform with those adopted by the Federal Highway Administrator, and as prescribed by state law.

For Further Information: Mr. D. D. Ernst, State Maintenance Engineer for the Department of Transportation, Room 1C-8, Transportation Building, phone 753-6014, is responsible for the drafting and implementation of this rule.

Proponents of Rule: The Washington State Department of Transportation is the proponent of the rule.

Agency Comments or Recommendations: The 1978 MUTCD, incorporating Revision No. 2, will continue to provide for uniformity in the application and use of traffic control devices on streets and highways in Washington. The 19 changes in Revision No. 2 should enhance safety and convenience for highway users.

NEW SECTION

WAC 468-95-010 GENERAL. The "Manual on Uniform Traffic Control Devices for Streets and Highways" 1978 edition (MUTCD), approved by the Federal Highway Administrator as the national standard for all highways open to public travel; published by the U.S. Department of Transportation, Federal Highway Administration, was duly adopted by Administrative Order No. 51 of the Secretary of Transportation dated March 17, 1980. Revision No. 1 of the 1978 edition was duly adopted by Administrative Order No. 59 of the Secretary of Transportation dated March 16, 1981. Revision No. 2 of the 1978 edition was duly adopted by Administrative Order No. of the Secretary of Transportation dated The manual includes in part many illustrations, some of which depend on color for proper interpretation. The reviser has deemed it inexpedient to convert these regulations and illustrations to the prescribed form and style of WAC and therefore excludes them from publication. Copies of the MUTCD, incorporating Revision No. 1 and Revision No. 2, may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The document is available for public inspection at the headquarters office and all district offices of the Washington State Department of Transportation. Further, each city, town, and county engineering office in the state will have a copy of the MUTCD with revisions in its possession.

NEW SECTION

AMENDATORY SECTION (Amending Order 1940, filed 1/28/83, effective 3/1/83)

WAC 388-28-475 USE OF INCOME AND INCOME POTENTIALS. (1) Meaning of income (see definition in WAC 388-20-030). Income includes all types of real or personal property, support from parent, stepparent, (~~assumptive~~) presumptive spouse, stocks and bonds, wages, interest in an estate, income from farming, all benefits and entitlements from private and public agencies, such as OASDI, veterans' agencies, U.C., gifts and prizes in the form of cash or marketable securities, etc. Its value is used to compute financial need in accordance with the policies herein.

(2) Ownership and use of income and income potentials. The policies in WAC 388-28-300 through 388-28-395 regarding ownership and use of resources also govern the ownership and use of income and income potentials.

(3) Resources and income. WAC 388-28-400 through 388-28-455 contain policies and procedures for considering and using nonexempt resource values to determine financial need. WAC 388-28-475 through 388-28-600 covers policies and procedures used in computing income to determine financial need. The total nonexempt resource values and nonexempt net income values are compared with the appropriate payment level plus authorized additional requirements to determine financial need and, if it exists, the amount of the grant for which the applicant is eligible.

AMENDATORY SECTION (Amending Order 2031, filed 10/6/83)

WAC 388-28-480 USE OF INCOME AND INCOME POTENTIALS—TYPES OF INCOME—EFFECT ON NEED. (1) An applicant or recipient whose nonexempt net income for the month exceeds the

monthly payment level plus authorized additional requirements is not eligible to receive assistance whether the income is received weekly, biweekly, or monthly, except as specified in WAC 388-24-250 through 388-24-265.

(2) Treatment of income.

(a) The grant amount for the month the application is approved shall be determined by subtracting all net income, received or reasonably expected to be received during the calendar month, from the payment level plus authorized additional requirements. The remainder shall be prorated for the number of days after grant authorization. This prorated figure is the grant amount for the first month of eligibility.

(b) The grant amount for the month following the month of initial eligibility shall be determined by subtracting all net income, received or reasonably expected to be received during the calendar month, from the payment level plus authorized additional requirements. The remainder is the grant amount for the second month of eligibility.

(c) The grant amount for the third month of assistance and subsequent months shall be based upon income and circumstances in the budget/report month. WAC 388-28-483(2) and (3), 388-33-135 and 388-33-140(1)(b) and (c) are exceptions to this rule.

(3) Irregular income up to five dollars per month received by a general assistance applicant or recipient may be disregarded towards meeting need by the local office if the probability exists that such future income will not be appreciable.

(4) Earned income credit (EIC) payments shall be considered earned income during the month received(~~;~~ whether received as advance payments or as an income tax refund, in accordance with PL 96-222).

~~(a) Such payments shall be considered as an addition to gross income for AFDC and refugee assistance whether actually received or not, providing that the recipient is eligible for such payment.~~

~~(b) If the family makes every effort to apply for and receive the advance EIC but cannot receive the advance EIC for some documented reason, e.g., the employer refuses to process it, the advance EIC shall not be deemed as income.~~

~~(c) Advance EIC is taken into consideration in the computation of need but is not deemed as income in the one hundred fifty percent test of gross income).~~

(5) Loans are not considered income, as defined in RCW 74.04.005(12), subject to the following restrictions:

(a) Any contractually agreed loan acquired by an applicant or recipient (~~which commits~~) committing all funds for a specific purpose other than current maintenance, and so expended, shall not be taken into account as income. The property used as collateral for the loan shall not be included in determining property reserves. The equity accumulated in the specified property shall be considered toward the resource ceiling.

(b) Any other loan, regardless of the loan's ability to meet current needs, shall not be taken into account as income when it is verified the following conditions are met:

(i) The terms of the loan are stated in a written agreement between the lender and the borrower, and

(ii) The agreement clearly specifies the obligation of the borrower to repay the loan. The agreement must include a repayment plan (~~which provides~~) providing for installments of specified amounts to begin within ninety days of the receipt of the loan and continue thereafter on a regular basis until the loan is fully repaid.

As part of the verification process, the recipient is required to submit loan contract papers or a written agreement setting forth the terms of the loan regarding the loan's amount and the repayment plan. The agreement must be signed by the lender and the recipient as parties to the agreement.

(6) Repayments to a recipient of money previously loaned by the recipient to another party shall not be taken into account as income, since the loan represents income or resources already considered in computing need. The facts of the loan must be verified. Consider any interest paid on the loan as newly acquired income.

(7) A gift in-kind, named as follows, supplied on condition that the gift in-kind be used only in a manner or for a purpose specified in writing by the donor shall not be considered as a resource or as income which is available to meet need.

(a) Real or personal property, excluding cash and marketable securities, which is exempted for an applicant and which is within the ceiling values. Example: A home or a new furnace.

(b) Any item in the department's standards for additional requirements which is not a requirement for the recipient of such a gift. Example: Telephone service.

(c) Needed goods or services not currently included as additional requirements in the department's standards. Example: Repair of house or of household equipment.

(8) WAC 388-28-482 and 388-28-484 cover newly acquired income received by a recipient.

AMENDATORY SECTION (Amending Order 1940, filed 1/28/83, effective 3/1/83)

WAC 388-28-482 EFFECT OF NEWLY ACQUIRED INCOME AND PROPERTY ON CONTINUING NEED. "Newly acquired income" means any previously unreported or undiscovered income which has come into the possession or control, in whole or in part, of a recipient of public assistance, or of a recipient in suspended grant status.

(1) Whenever a recipient shall come into the possession or control of any income, except as modified in subsection (3), (4), and (5) of this section, such income shall be deducted from the payment level plus authorized additional requirements to determine grant amount beginning with the effective date specified in WAC 388-28-483. The amount deducted shall equal the following:

(a) The net amount of the income if in cash or its equivalent.

(b) At least his or her equity in the quick sale value of property other than cash.

(2) When the property is only potentially available for use in meeting the recipient's requirements, WAC 388-28-400(7) applies.

(3) *Exceptions.* A recipient who comes into the possession and control of property listed in this subsection may retain such property without having the fact of possession or its sale value affect his or her eligibility or need.

(a) A home used as a residence – see WAC 388-28-420.

(b) Useful and needed clothing, household equipment, food, fuel, and other items included in the requirement standards.

(c) An automobile within the ceiling values in WAC 388-28-430(2).

(4) *Recipient with income.* The rule in subsection (1) of this section is modified for recipient of AFDC or continuing general assistance with income as follows:

(a) *Earned income retained by a child* according to WAC 388-28-535(3) shall be considered as the personal property of the family and shall be subject to the ceilings in WAC 388-28-430(2).

(b) *Income from the Economic Opportunity Act, Title I of the Elementary and Secondary Education Act, and from WIN((-MDTA)) and ((CEFA)) JTPA* is treated according to WAC 388-28-515 and 388-28-570 through 388-28-578.

(c) The possession of any amount of funds from sources listed in subsection (4)(a) and (b) of this section in a cash reserve or savings account does not affect the eligibility of a general assistance recipient. However, if such exempted income is converted into other types of property, WAC 388-28-410 through 388-28-455 apply.

(d) *Income from interest on exempt savings, dividends from exempt stocks, increase in life insurance cash surrender value, livestock births, etc.,* affect eligibility only to the extent that the amount causes the total value of the resource possessed to exceed the ceiling values of the resource. The excess is considered available.

(e) *Payment for funeral expenses for recipient.* When a public assistance recipient dies, his or her surviving spouse or children or parent of a minor child receiving public assistance((-)) may use any of their exempt or nonexempt resources or income, except the home property, to add to available funeral and burial resources in order to pay for the funeral expenses of the deceased person without affecting their eligibility for public assistance: PROVIDED((-)) HOWEVER, That if the total funeral expenses for the deceased recipient exceeds the department's maximum cost or the amount provided by the recipient toward the total cost of the funeral expense, whichever is the lesser, shall be considered available to meet the public assistance need of the surviving recipient in accordance with this section.

(f) *Funds received by an applicant or recipient ((which represent)) representing another person's or family's share of household costs* are exempt as income provided that:

(i) Such payments do not represent legally obligated child support except as provided in WAC 388-28-484(7)(b), and

(ii) The provisions of subsection (5) of this section are met.

(5) *Use of grant and cash reserve in relation to income.*

(a) *No question about eligibility is raised if public assistance grants and other income ((which has been)) considered in computing financial need are used to add to the cash reserve up to the legal personal property limitations – see WAC 388-28-430. The cash reserve may exceed the maximum only to the extent these unexpended moneys are on hand within thirty days after their receipt, and by exempted amounts as specified in this section.*

(b) A recipient always has the right to make a current expenditure out of a cash reserve and replace it from a succeeding grant, just as he or she might place his or her whole grant in a bank account, along with his or her cash reserve, at the beginning of the month and then spend out of the account during the month.

AMENDATORY SECTION (Amending Order 2087, filed 3/14/84)

WAC 388-28-484. TREATMENT OF NEWLY ACQUIRED NONEXEMPT INCOME AND RESOURCES. (1) *Income affects the grant amount according to the provisions of WAC 388-28-483.*

(2) *When the value of the income is taken into account in the assistance payment as specified in WAC 388-28-483, the following rules apply:*

(a) *If the income value plus any other income amounts to less than the payment ((level)) standard plus authorized additional requirements and is recurrent or nonrecurrent, assistance is continued in the amount of the difference.*

(b) *Effective January 1, 1982, for AFDC and refugee assistance, when the assistance unit's nonrecurrent income after applicable disregards exceeds the ((need)) payment standard, plus authorized additional requirements, the unit shall be ineligible for assistance for the number of full months derived by dividing this total income by the need standard plus authorized additional requirements. A minimum period of ineligibility shall be one month.*

(i) *Any income remaining after this calculation is treated as income received in the first month following the period of ineligibility.*

(ii) *The period of ineligibility may be shortened when the following conditions are met:*

(A) ((A life-threatening circumstance exists, and)) An event occurs which, had the assistance unit been receiving assistance, would result in an increase in the need standard, or

(B) ((The income causing the period of ineligibility has or will be expended in connection with the life-threatening circumstance, and)) The income received, or any part thereof, has become unavailable to the members of the assistance unit for reasons beyond their control, or

(C) ((Until the time of the life-threatening circumstance, the income must have been used to meet essential needs, and)) Members of the assistance unit incur, become responsible for, and pay medical expenses.

(D) ((Currently the assistance unit must have no other income or resources sufficient to meet the life-threatening circumstances)) Assistance is authorized only after the event in subsection (2)(b)(ii)(A), (B), or

(C) of this section has been verified and current eligibility has been established.

(c) If the nonrecurrent income equals or exceeds one month's payment level plus authorized additional requirements for general assistance, but is less than two months' payment level plus authorized additional requirements minus other income, the recipient is ineligible for a grant from the effective date specified in WAC 388-28-483, and his or her grant is suspended. The suspension period is determined exactly, that is, up to the date of the absorption of the income.

(d) If the income is recurrent and equal to or in excess of one month's payment level plus authorized additional requirements minus other income the recipient is ineligible from the effective date specified in WAC 388-28-483 and the grant is terminated, except for persons in institutions other than nursing homes as provided in WAC 388-34-160.

(e) For general assistance if the income is recurrent or nonrecurrent and its value is in excess of two months' payment level plus authorized additional requirements minus other income, the recipient is ineligible from the effective date specified in WAC 388-28-483 and the grant is terminated. Ineligibility shall continue for two months. The period of ineligibility, however, may be reduced if the applicant has verifiable expenses such as medical care, unforeseen disaster or other changes in circumstances (~~(which make)~~) making it impossible for him or her to live on his or her resource for the two-month period of ineligibility. The eligibility of a former recipient (~~(who reappplies)~~) reapplying shall be determined on the same basis as a new applicant.

(3) If income is not taken into account in assistance payments but is subsequently discovered, an overpayment shall be established according to chapter 388-44 WAC.

(4) If a general assistance recipient has been determined to be ineligible for a current or future period of time, and his or her grant will be suspended or terminated for such period of time, due to either newly acquired income, or transfer of property, and is in need during such period of ineligibility, assistance may be granted within the limits of the rule in WAC 388-28-464.

(5) A person acquiring income during suspended status shall be treated as a recipient in terms of eligibility, not as an applicant.

(6) Rules and procedure in chapter 388-44 WAC are followed in respect to overpayment.

(7) An applicant or recipient whose nonexempt gross income exceeds one hundred (~~(fifty)~~) eighty-five percent of the standard of need for the appropriate household size plus additional requirements authorized for that assistance unit, is not eligible for AFDC or refugee assistance from the date specified in WAC 388-28-483. The income of all members of the assistance unit and the income of natural, adoptive, or stepparents of children in the assistance unit residing in the same household, shall be considered in this test except for income identified in WAC 388-28-484(7)(a) and (b) of this section.

(a) (~~(Advance earned income credits are not counted in the one hundred fifty percent test)~~) In determining the total income of the family, the earned income of a

child who is a full-time student is excluded for six consecutive months per calendar year.

(b) The first fifty dollars per month of the current monthly support obligation of any child support collected on the family's behalf or received by the family.

(c) Gross income shall be defined as all income not specifically exempted by rule or regulation before applicable program disregards are applied.

~~((c) If the assistance unit's gross income exceeds one hundred fifty percent of the need standard plus authorized additional requirements but the net income does not exceed one hundred percent of the basic payment level plus authorized additional requirements, the assistance unit shall be ineligible for one full month.))~~

(d) Net income shall be defined as gross income less applicable disregards and deductions for which the applicant or recipient is eligible.

(8) Income which has been taken into account in computing financial need according to subsection (2) of this section if retained by a (~~(GAU)~~) GA-U recipient does not affect his or her eligibility unless the amount retained at the time of the next periodic review exceeds the exempt property holdings permitted for an applicant. In this event the rule on nonexempt resources or income pertaining to an applicant (~~(are)~~) is applied.

(c) A child earning income by working in a sheltered workshop or other training facility for handicapped children shall be considered, for purposes of income exemption, as being at least a part-time student (~~who is~~) working less than full time.

(d) To be employed full time, a child must be working thirty-five hours a week or the number of hours considered full time by the industry for which he or she works, whichever is less.

(e) Summer employment of students shall not be considered as full-time employment due to the temporary nature of such employment, even though the hours worked may exceed thirty-five hours a week.

See WAC 388-28-570(3) and (4)(d) for treatment of JTPA moneys received by a dependent nonstudent child.

AMENDATORY SECTION (Amending Order 2049, filed 11/16/83)

WAC 388-28-570 NET CASH INCOME—EXEMPT EARNED INCOME. (1) For rules on exempting earned income of a full- or part-time student, see WAC 388-28-535. For rules exempting income from training, see WAC 388-28-515. For rules on other income, see WAC 388-28-580.

(2) As used in this section, "earned income" shall mean income in cash or in-kind earned as wages, salary, commissions, or profit from activities in which the individual is engaged as a self-employed person or as an employee. Earned income may be derived from self-employment (such as business enterprise or farming), or derived from wages or salary received as an employee. Earned income also includes earnings over a period of time for which settlement is made at one time, for example, sale of farm crops, livestock, or poultry. Income

from rentals is earned income, provided the individual has managerial responsibility for the rental property.

(3) For an AFDC recipient, earned income includes earnings under Title I of the Elementary and Secondary Education Act, all earnings received under the Economic Opportunity Act, wages from WIN on-the-job training, and wages paid under the Job Training Partnership Act (JTPA) to adults and nonstudent dependent children. See WAC 388-28-535(1) for treatment of a child excluded from the grant, and WAC 388-28-535(4) for a dependent full-time student receiving JTPA wages.

(a) For public service employment under the Emergency Assistance Act, the thirty-dollar plus one-third earned income exemption is applicable.

(b) For public service employment under WIN, the thirty-dollar plus one-third earned income exemption does not apply. If net income after work expenses are deducted does not meet need according to department standards, a supplemental grant may be paid.

(4) The definition of "earned income" excludes:

(a) Returns from capital investment with respect to which the individual is not himself or herself actively engaged, as in a business. For example, under most circumstances, dividends and interest are excluded from "earned income." See WAC 388-28-580.

(b) Benefits accruing as compensation or reward for service, or as compensation for lack of employment, for example, pensions and benefits from labor organizations, veterans' benefits, unemployment compensation, RSDI, etc. See WAC 388-28-580.

(c) Income from WIN incentive payments, and training-related expenses derived from WIN institutional or work experience training.

(d) Income received under the Job Training Partnership Act for training allowances, payments for support services, etc. Such income shall be treated according to WAC 388-28-535(4) for dependent children who are full-time students. For adults and nonstudent dependent children, disregard all moneys directly related to expenses incurred from participating in the program. Exempt the remaining amount up to the difference between the need standard and the payment standard. Consider any amount in excess of the need standard as unearned income.

(5)(a) In AFDC and refugee assistance when payment of income earned over a period of more than one month is delayed, the exemption applies only to the period of payment.

(b) In general assistance, the exemption applies to the period during which the exemption was earned rather than the period of payment.

(6) Aid to families with dependent children and refugee assistance.

(a) The following shall be disregarded sequentially from the monthly gross earned income of each individual member of the assistance unit.

(i) ~~((Payroll deductions required by law or as a condition of employment, in the amounts actually withheld.~~

~~((ii) The following amounts))~~ Seventy-five dollars for work expenses ((depending upon)), regardless of the number of hours worked per month.

((Hours worked per month	Work expense deduction
0-40	\$ 20.00
41-80	40.00
81-120	60.00
+21 or more	75.00))

~~((iii))~~ (ii) The actual cost not to exceed the following amounts depending upon the number of hours worked per month for the care of each dependent child or incapacitated adult living in the same home and receiving AFDC or refugee assistance. No deduction shall be made for child care provided by a parent or stepparent.

Hours worked per month	Child care maximum deductions
0 - 40	\$ 40.00
41 - 80	80.00
81 - 120	120.00
121 or more	160.00

~~((iv) For individuals found otherwise eligible to receive assistance or who have received assistance in one of the prior four months, thirty-dollar plus one-third of the remainder not already disregarded.~~

~~(v) The thirty-dollar and one-third disregard shall be applied for a maximum of four consecutive months, it cannot be applied again until he or she is a nonrecipient for twelve consecutive months.~~

~~Total gross monthly earned income for the purpose of this rule means the combined gross earned income of nonstudent dependent children and adults who are included in the AFDC assistance unit.)~~

(b) The following shall be disregarded sequentially from the combined gross earned income of nonstudent dependent children and adults included in the AFDC assistance unit.

(i) For individuals found otherwise eligible to receive assistance or having received assistance in one of the four prior months, thirty dollars and one-third of the remainder not already disregarded. The thirty dollars and one-third disregard shall be applied for a maximum of four consecutive months; it cannot be applied again until he or she has been a nonrecipient for twelve consecutive months.

(ii) After expiration of the disregard in subsection (6)(b)(i) of this section, thirty dollars shall be disregarded for a maximum of eight consecutive months, whether or not the recipient has earnings or is receiving assistance; it cannot be applied again until he or she has been a nonrecipient for twelve consecutive months. This provision is effective November 1, 1984.

(c) The exemptions and deductions in subsection (6)(a)((ii) through (v)) and (b) of this section will not be applied for any month if the individual within a period of thirty days preceding the month in which the income was received:

(i) Terminated his or her employment or reduced his or her earned income without good cause((:); or

(ii) Refused without good cause to accept employment in which he or she is able to engage which is offered through SES, or is otherwise offered by an employer if

the offer of such employment is determined by the local office to be a bona fide offer of employment((:)); or

(iii) Failed without good cause as determined by the CSO, to report earnings to the department on or before the eighteenth day of the month following the month in which the income was received, or by the first following work day if the eighteenth day of the month falls on a weekend or holiday. Under these circumstances, the thirty-dollar and one-third exemption shall be counted in the ~~((four-month))~~ applicable time limits. Any circumstance beyond the control of the recipient shall constitute good cause.

(c) If a recipient requests termination in order to break the consecutiveness of the ~~((four-month))~~ applicable time limits for the thirty-dollar plus one-third exemption, and would have been eligible, the months of voluntary nonreceipt of assistance shall be counted toward the ~~((four-month))~~ applicable time limits.

(d) If a recipient quits work without good cause, the thirty-dollar and one-third exemption shall be deemed to have been received and shall be counted toward the ~~((four-month))~~ applicable time limits.

(e) Months in which the applicant/recipient received the thirty-dollar and one-third exemption in another state shall not apply ~~((towards))~~ toward the ~~((four-month limit unless there is a break in assistance which was not done voluntarily to break the continuity of the four-month limit))~~ applicable time limits.

(7) The following conditions when verified shall constitute good cause for refusal of an offer of employment or refusal to continue employment:

(a) Physical, mental, or emotional inability of the individual to satisfactorily perform the work required;

(b) Inability of the individual to get to and from the job without undue cost or hardship to him or her;

AMENDATORY SECTION (Amending Order ET 82-11, filed 11/23/82)

WAC 458-24-080 ((UNFAIR CIGARETTE SALES BELOW COST ACT RULES AND REGULATIONS:)) CIGARETTE WHOLESALERS AND RETAILERS; DETERMINATION OF

COST. (1) RCW 19.91.020(1) forbids sales of cigarettes by wholesalers at less than cost. The law specifies that the "cost to the wholesaler" is to be computed by adding the "basic cost of cigarettes" (RCW 19.91.010(8) and WAC 458-24-090) to the "cost of doing business by the wholesaler" (RCW 19.91.010(9)). It shall be presumed that the "cost of doing business by the wholesaler" is at least four percent of the "basic cost of cigarettes" to the wholesaler. If the wholesaler performs or pays for the cartage to the retail outlet, it shall be presumed that the cartage costs are at least one-half of one percent of the "basic cost of cigarettes" to the wholesaler and shall be added to the "cost of doing business."

(2) If the wholesaler of cigarettes believes that ~~((his))~~ its cost of doing business is less than four percent of the "basic cost of cigarettes" to the wholesaler or that ~~((his))~~ its cost of cartage to the retail outlet is less than one-half of one percent of the "basic cost of cigarettes" to the wholesaler, ~~((he))~~ the wholesaler must file a letter with the department of revenue stating ~~((his))~~ its intention to sell cigarettes at a cost less than that presumed under RCW 19.91.010(9) and setting forth proof of a lesser cost of doing business.

(3) RCW 19.91.020 (1) and (2) forbid sales of cigarettes by retailers at less than cost. The law specifies that the "cost to the retailer" is to be computed by adding the "basic cost of cigarettes" (RCW 19.91.010(8) and WAC 458-24-090) to the "cost of doing business by the retailer" (RCW 19.91.010(10)). Any retailer who, in connection with ~~((his))~~ its purchase, receives cash discounts ordinarily allowed upon purchases by a wholesaler shall, in determining "cost to the retailer," add the "cost of doing business by the wholesaler" to the "basic cost of doing business by the retailer." It shall be presumed that the "cost of doing business by the retailer" is at least ~~((ten))~~ twelve and one-half percent of the "basic cost of cigarettes" to the retailer. In the case of a retailer who receives the cash discounts ordinarily allowed upon purchases by a wholesaler, the "cost of doing business by the retailer" shall be presumed to be ~~((ten))~~ twelve and one-half percent of the sum of the "basic cost of cigarettes" and the "cost of doing business by the wholesaler."

(4) If the retailer of cigarettes believes that ~~((his))~~ its cost of doing business is less than ~~((ten))~~ twelve and one-half percent of the "basic cost of cigarettes" to the retailer or that ~~((his))~~ its cost of doing business is less than ~~((ten))~~ twelve and one-half percent of the sum of the "basic cost of cigarettes" and the "cost of doing business by the wholesaler" (where the retailer received the cash discounts ordinarily allowed upon purchases by a wholesaler), ~~((he))~~ the retailer must file a letter with the department of revenue stating ~~((his))~~ its intention to sell cigarettes at a cost less than that presumed under RCW 19.91.010(10) and setting forth proof of a lesser cost of doing business.

(5) The department of revenue shall examine the wholesaler's or retailer's proof and verify its accuracy. The verification may include review of the wholesaler's or retailer's accounting records to determine the "cost of doing business by the wholesaler" as defined by RCW 19.91.010(9) or "cost of doing business by the retailer" as defined by RCW 19.91.010(10).

(6) If the department finds that the wholesaler or retailer has presented satisfactory proof of a lesser cost of doing business, it shall issue a letter of approval stating that prices may be lowered in accordance with the letter.

(7) If the department finds that the wholesaler or retailer has not presented satisfactory proof of a lesser cost of doing business, it shall issue a letter denying the wholesaler's or retailer's request for lower costs and stating the reasons therefore.

(8) The wholesaler or retailer may petition the department of revenue in writing for a review of the denial of the use of a lesser cost. Petitions should be addressed: State of Washington, Department of Revenue, Interpretation and Appeals Division, Olympia, Washington 98504.

(9) The petition must be received by the department of revenue within twenty days after the issuance of the denial letter. An extension of thirty days will be granted if additional time is required for preparation of the petition and such extension is requested prior to expiration of the twenty-day period. If no petition is filed within these time periods, the department's denial letter shall become final.

(10) The department shall grant a conference for review of all denial letters if the wholesaler or retailer has filed a timely petition. Such conferences will be conducted by the director of the interpretation and appeals division. All conferences will be conducted informally and will be held at the departmental offices in Olympia.

(11) The wholesaler or retailer shall receive written notice of the assistant director's determination. The determination shall represent the

official position of the department of revenue and shall be binding upon the wholesaler or retailer.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

NEW SECTION

WAC 458-24-090 BASIC COST OF CIGARETTES—HOW CALCULATED. The term "basic cost of cigarettes," as used in RCW 19.91.010 and amended by chapter 173, laws of 1984, means the invoice price of cigarettes to the retailer or wholesaler, as the case may be, or the replacement cost of cigarettes to the retailer or wholesaler, as the case may be, in the quantity last purchased, whichever is lower, to which must be added the full face value of any stamps which may be required by any cigarette tax act of this state and by ordinance of any municipality thereof, presently in effect or hereafter enacted, if not already included by the manufacturer in its price list.

The law further provides that in computing the "basic cost of cigarettes" a wholesaler who actually receives a manufacturer's cash discount may, at the discretion of the wholesaler, pass along all or any portion of the discount to the retailer.

The term "cash discount" under the Unfair Cigarette Sales Below Cost Act (chapter 19.91 RCW) and these regulations shall be given the same definition as that provided in RCW 82.04.160, which is defined to mean a deduction from the invoice price of goods or charge for services allowed if the bill is paid on or before a specific date. For purposes of these rules, cash discount shall not include any anticipatory discount, anticipation allowance, anticipation discount, or any similar discount or allowance.

Statutory Authority: RCW 43.22.470, 43.22.480 and 43.22.490.

Specific Statutes that the Rules are Intended to Implement: RCW 43.22.470, 43.22.480 and 43.22.490.

Summary of the Rules: See above.

Reasons Supporting the Proposed Rules: WAC 296-150A-005 and 296-150A-016, provisions applying to in-plant inspection of closed construction not inspectable after delivery to the site, provides added public safety because inspections must be made at the factory; 296-150A-040, applies to restrictions regarding the time that the department may take to check a design plan; 296-150A-100, puts a time limit of one year when an occupant may complain about a structure or a component; 296-150A-105, is amended to correct verbiage, the term "application" should be "minimum inspection" fee; 296-150A-125, the term "violations" is amended to read "noncompliance," because noncompliance denotes more nonconformity rather than an infraction; and 296-150A-300, is amended to adopt current editions to building codes; these editions are the 1982 edition of the uniform building code, the 1984 edition of the national electrical code, 1982 edition of the uniform mechanical code, and the 1982 edition of the uniform plumbing code; these adoptions will ensure that the standards for factory building in this state will be equal to those in other states, and it will ensure the best safety for the citizens of Washington state.

The Agency Employee Responsible for the Drafting, Implementation and Enforcement of the Rules: Robert C. Cronkrite, Chief, FAS Section, 300 West Harrison, Room 512, Seattle, Washington 98119, (206) 281-5530.

The rule is not necessary to comply with a federal law or a federal or state court decision.

Any Other Information that may be of Assistance in Identifying the Rules or Their Purpose: None.

Reasons Supporting the Proposed Rules: WAC 308-171-001, this rule will assist the public in understanding the Occupational Therapy Practice Act; 308-171-010, this rule will advise applicants for licensure as occupational therapists of the educational programs which must be completed for licensure; 308-171-020, this rule will advise applicants for licensure as occupational therapy assistants of the educational programs which must be completed for licensure; 308-171-100, this rule will advise applicants of the examination necessary for licensure, the dates of the examination and the examination procedures; 308-171-101, this rule will advise those applicants seeking waiver of the education and experience requirements of what information must be provided to obtain the waiver; 308-171-102, this rule will advise those applicants obtaining a waiver of the education and experience requirements of the last examination date available to obtain a license using the waiver of the education and experience requirements; 308-171-200, this rule establishes the standards which must be met for those seeking exemption from licensure under RCW 18.59.040 (5)(b) and for those applicants seeking waiver of the examination, education or experience requirements for licensure; 308-171-201, this rule will advise applicants for licensure as occupational therapists of the fieldwork experience necessary for licensure; 308-171-202, this rule will advise applicants for licensure as occupational therapy assistants of the fieldwork experience necessary for licensure; and 308-171-300, this rule establishes the grounds for denial, refusal to renew, suspension or revocation of a license based on unprofessional conduct or gross incompetency.

The Agency Personnel Responsible for the Drafting, Implementation and Enforcement of the Rule: In addition to the members of the board, the following Department of Licensing personnel have knowledge of and responsibility for drafting, implementing and enforcing these rules: Cynthia Jones, Executive Secretary, 1300 South Quince, Olympia, WA 98504, 234-6936 scan, 753-6936 comm.

Name of the Person or Organization that is Proposing These Rules: Board of Occupational Therapy Practice.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation, Enforcement and Fiscal Matters Pertaining to These Rules: Most of these rules are necessary to commence licensure of occupational therapists and occupational therapy assistants; and several of these rules are necessary because the statute specifically requires that the statutory section must be implemented by rule.

These rules are not necessary to comply with a federal law or a federal or state court decision.

Any Other Information that may be of Assistance in Identifying the Rules or Their Purposes: None.

A small business impact statement is not required for these rules. The board has reviewed the impact that the adoption of new chapter 308-171 WAC would have on occupational therapists and occupational therapy assistants. The board finds that a small business impact statement is not required. Occupational therapists and occupational therapy assistants are classed in SIC Code 804, offices of other health care practitioners. As such, they account for less than 10 percent of the health practitioners in this area. Also, they are less than 20 percent of all industries. Finally, any impact that these proposed rules may have is intended to fall equally on all occupational therapists and occupational therapy assistants.

Upon receipt of such notice, the supervisor or his duly authorized representative may elect to be present at the time indicated in such notice, to witness the plugging of the well.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-131 **PROCEDURE FOR PLUGGING.** Each abandoned well drilled for the discovery of oil or gas or for any other purpose related to the exploration including seismic and core holes or production of oil and gas shall be plugged by or on behalf of the owner, operator, or producer who is in charge of the well or wells and responsible therefor. In general, cement plugs will be placed across specified intervals to protect oil and gas zones, to prevent degradation of potentially usable waters, and to protect surface conditions. Subject to approval of the supervisor, cement may be mixed with or replaced by other substances with adequate physical properties. The owner shall submit the proposed method and procedure for plugging to the supervisor on Form-3 (Notice of intention to abandon and plug well). Unless otherwise approved by the supervisor the method and procedure shall be as follows:

(1) Hole fluid. Drilling fluid having the proper weight and consistency to prevent movement of other fluids into the (~~well-bore~~) wellbore shall be placed in all intervals not plugged with cement, and shall be surface poured into all open annuli where required.

(2) Plugging by bailer. Placing of a cement plug by bailer shall not be permitted at a depth greater than 3,000 feet (914 meters). Water is the only permissible hole fluid in which a cement plug shall be placed by bailer.

(3) Surface pours. A surface cement-pour shall be permitted in an empty hole with a diameter of not less than 5 inches (12.7 centimeters). Depth limitations shall be determined on an individual well basis by the supervisor.

(4) Blowout prevention equipment. Blowout prevention equipment may be required during plugging and abandonment operations. Any blowout prevention equipment and inspection requirements deemed necessary by the supervisor shall appear on the approval issued by the supervisor.

(5) Junk in hole. Diligent effort shall be made to recover junk when such junk may prevent proper abandonment either in open hole or inside casing. In the event that junk cannot be removed from the hole and freshwater-saltwater contacts or oil or gas zones penetrated below cannot therefore be properly abandoned, cement shall be down-squeezed through or past the junk or a 100-foot (30-meter) cement plug shall be placed on top of the junk.

(6) A cement plug not less than 25 feet (7.6 meters) shall be placed in the hole and all annuli at the surface. All well casing shall be cut off at least 5 feet (1.5 meters) below the surface of the ground.

(7) Open hole.

(a) A cement plug shall be placed to extend from the total depth or at least 100 feet (30 meters) below the bottom of each oil or gas zone, whichever is less, to at least 100 feet (30 meters) above the top of each zone.

(b) A minimum 200-foot (61-meter) cement plug shall be placed across all (~~freshwater-saltwater~~) underground source of drinking water-saltwater interfaces.

(c) An interface plug may be placed wholly within a thick shale if such shale separates the freshwater sands from the brackish or saltwater sands.

(d) The hole may be filled between plugs up to the base of the surface string, if this reaches below the freshwater zone, with approved heavy mud.

(8) Cased hole.

(a) All perforations shall be plugged with cement, and the plug shall extend 100 feet (30 meters) above the top of a landed liner, the uppermost perforations, the casing cementing point, or water shut-off holes, whichever is highest.

(b) If there is cement behind the casing across the (~~freshwater-saltwater~~) underground source of drinking water-saltwater interface, a 100-foot (30-meter) cement plug shall be placed inside the casing across the interface.

(c) If the top of the cement behind the casing is below the top of the highest saltwater sands, squeeze-cementing shall be required through perforations to protect the (~~freshwater-zones~~) underground source of drinking water. In addition, a 100-foot (30-meter) cement plug shall be placed inside the casing across the (~~freshwater-saltwater~~) underground source of drinking water-saltwater interface. Notwithstanding other provisions of this section, the supervisor may approve a cavity shot followed by cementing operations at the base of the (~~freshwater~~) underground source of drinking water sands. The cavity shall be filled with cement and capped with a cement plug extending 100 feet (30 meters) above the cavity shot.

(9) Special requirements.

(a) Where geologic or (~~groundwater~~) ground water conditions dictate, special plugging procedures shall be required to prevent contamination of potentially usable waters by downward percolation of poor quality waters, and to separate water zones of varying quality, or varying hydrostatic pressure, and to isolate dry permeable strata that are brought into hydraulic continuity with (~~groundwater~~) ground water aquifers.

(b) The supervisor may set forth other plugging and abandonment requirements or may establish field rules for the plugging and abandonment of wells. Such cases include, but are limited to:

(i) The plugging of a high-pressure saltwater zone.

(ii) Perforating and squeeze-cementing previously uncemented casing within and above a hydrocarbon zone.

(10) In all holes open below the casing shoe, a cement plug shall extend from at least 50 feet (15 meters) below to at least 50 feet (15 meters) above the shoe of any cemented casing. If the hole cannot be cleaned out to 50 feet (15 meters) below the shoe, a 100-foot (30-meter) cement plug shall be placed as deep as possible.

(11) A steel plate at least one-quarter inch (0.64 centimeter) thick shall be welded to the top of the surface string of casing. The steel plate shall bear the drilling permit number and date of abandonment.

(12) Within thirty days after plugging of any well, the owner, operator, or producer responsible therefor who plugged or caused to be plugged the well shall file with the supervisor an affidavit on Form-4 (report on results of plugging well) setting forth in detail the method used in plugging the well.

(13) Inspection of plugging and abandonment operations. All plugging and abandonment operations shall be witnessed and approved as deemed necessary by the supervisor.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-140 **WELLS USED FOR (~~FRESH-WATER~~) UNDERGROUND SOURCE OF DRINKING WATER.** When the well to be plugged may safely be used as (~~a-fresh-water~~) an underground source of drinking water well and such utilization is desired by the landowner and is authorized by the operator, the cement plug normally required at the top of the surface casing may be waived, and the well need not be filled above the required sealing plug set below (~~fresh water~~) underground source of drinking water: PROVIDED, That written authority for such conversion is supplied by the landowner and authorization is obtained by the landowner from the state department of ecology and filed with the supervisor. Approval by the supervisor of the plugging accomplished or notice from the department of ecology of approval of the landowner's authorization as provided herein shall relieve the operator of further responsibility under the Oil and Gas Conservation Act and the supervisor shall release the bond once a water well has been satisfactorily completed.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-205 **TUBING.** Each flowing well shall be produced through tubing and shall be equipped with a master valve; however, a (~~dual~~) multiple completion is permissible when the production from each zone is kept separate.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-230 NOTIFICATION OF FIRE, BREAKS, LEAKS, OR BLOWOUTS. All persons controlling or operating any oil and gas wells, or receiving tanks, storage tanks, or receiving and storage receptacles into which crude oil is produced, received, or stored, shall immediately notify the supervisor by telephone followed by a letter giving full details concerning all fires which occur at such oil or gas wells or tanks or receptacles on their property, and all such persons shall immediately report all tanks or receptacles struck by lightning and any other fire which destroys oil or gas, and shall immediately report any breaks, blowouts, or leaks in or from tanks or receptacles and gathering pipe lines from which oil or gas is escaping or has escaped. In all such reports of fires, breaks, leaks, or escapes, or other accidents of this nature, the location of the well, tank receptacle, or line break shall be given by section, township, range, and property so that the exact location thereof can be readily located on the ground. Such report shall likewise specify what steps have been taken or are in progress to remedy the situation reported and shall detail the quantity of oil or gas lost, destroyed, or permitted to escape. In case any tank or receptacle is permitted to run over, the escape thus occurring shall be reported as in the case of a leak. The report hereby required as to oil losses shall be necessary only in case such oil loss exceeds ten barrels in the aggregate. Compliance with this section does not relieve such persons from taking appropriate action and reporting oil or chemical spills or leaks as required by chapter 90.48 RCW and other applicable state and federal laws.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-235 PRODUCING FROM DIFFERENT STRATA THROUGH THE SAME CASING STRING. No well shall be permitted to produce either oil or gas from different strata through the same string of casing without first receiving written permission from the ((supervisor)) committee.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-245 DETERMINING AND NAMING POOLS. Wells shall be classified as to the pool from which they produce, and pools shall be determined by the committee and named by the supervisor: PROVIDED, That in the event any person is dissatisfied with any such classification or determination, an application may be made to the committee for such ((classification)) reclassification or determination as the applicant deems proper, and the committee will hear and determine the same.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-260 ((INJECTION OF FLUIDS INTO GEOLOGICAL FORMATIONS)) DISPOSING OF UNWANTED FLUIDS ENCOUNTERED IN OIL AND GAS DRILLING AND PRODUCTION. Prior to ((approval for injection)) disposing of unwanted fluids the operator shall identify geological formations to be used, maximum bottom hole pressure in pounds per square inch or bars and maximum rate of injection in barrels of liquid per day or cubic feet of gas per day, detailed identification of materials to be injected, including additives, filters, if any, the entire casing and cementing record of the wells to be used for injection, packers, and any special downhole equipment, certification that the mechanical integrity of the well has been tested, and facilities or systems to protect the integrity of geological target formation or to prevent fracturing of the confining strata. ((Injection proposals are also subject to review and approval in accordance with chapter 90.48 RCW and other applicable state and federal laws:)) Prior to injection, the operator shall notify the supervisor. On acceptance of a completed permit application by the supervisor, the Washington department of ecology shall review, evaluate, and act upon the application in accordance with the rules of WAC 173-218-060. The applicant shall have approval to operate when the Washington department of ecology has approved the permit.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-262 UNDERGROUND INJECTION CONTROL. Injection of any fluids to enhance ((secondary)) recovery of oil or gas or for storage of liquid hydrocarbons is prohibited until such time as an application is made to do so. At that time the oil and gas conservation committee will promulgate rules and regulations that will conform with the underground injection control (UIC) ((regulations)) program, chapter 173-218 WAC, which implement portions of the Safe Drinking Water Act (Public Law ((93-253)) 93-523 as amended by Public Law ((95-190)) 96-502).

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-265 GAS WELL OPEN FLOW POTENTIAL TEST. Initial potential tests may be reported on forms furnished by the supervisor using the "one-point" method with a 45 degree slope for the plot. After a market is obtained and a pipe line is connected to the well, upon request of the supervisor, an operator shall make a "four-point" potential test and report on forms furnished by the supervisor. To establish comparable open flow capacity the "four-point" back pressure flows shall be taken in sequence from low to high flow. In the event the supervisor approves an alternate method of testing, all wells producing from a ((common source of supply)) pool shall be tested in a uniform and comparable manner. In a like manner all natural gas wells hereafter completed shall be tested and the potential test reported. Where it has been determined that a natural gas well in any pool has a potential of 400,000 cubic feet per day or less, further potential tests shall not be required provided the operator periodically reports the shut-in pressure of the well.

AMENDATORY SECTION (Amending Order 3, Resolution No. 7, filed 6/1/82)

WAC 344-12-275 GAS TO BE METERED. (1) Meters. All gas when produced or sold shall be metered with an approved meter of sufficient capacity, provided that gas may be metered from a lease or unitized property as a whole if it is shown that ratable taking can be maintained. ((PROVIDED, That meters shall not be required for gas produced and used on the lease for development purposes and lease operations)).

(2) Meter charts and records. Purchasers shall keep, in a permanent file, for a period of at least two years, meter charts and records on gas purchased, and such information shall be made available to the supervisor.

(3) Bypasses. Bypasses shall not be connected around meters in such manner as to permit the improper taking of gas.

 [Order 84-187—Filed November 6, 1984]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 6, 6A, 7 and 7A provide protection for Canadian origin chum. Restrictions in Areas 6B and 9 provide protection for Stillaguamish-Snohomish chum. Restrictions in Area 10C and the Cedar River provide protection for local coho stocks. Restrictions in Area 10D provide protection

for sockeye while allowing harvest of surplus coho. Restrictions in Area 7C and the Samish River protect natural Samish origin coho after the high harvest rate on Nooksack River hatchery origin coho in Area 7B. Restrictions in the Dungeness, Sekiu, Hoko, Clallam, Pysht, and Lyre rivers, Deep and Salt creeks and Area 6D provide protection for local coho stocks. Restrictions in Area 8 and the Skagit River provide protection for Skagit River origin chinook, chum and coho. Restrictions in Areas 12A and 12D provide secondary protection for Hood Canal natural chum stocks. Restrictions in Area 8A protect natural Stillaguamish River and Snohomish origin chum while allowing opportunity to harvest chum returning to Tulalip Bay. Restrictions in the Stillaguamish and Snohomish rivers protect Stillaguamish and Snohomish chum. Restrictions in Area 12C provide protection for milling chum returning to Hoodport Hatchery.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

PROPOSED RULES

CONVENTION AND TRADE CENTER

[Filed November 7, 1984]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Convention and Trade Center ("WSCTC") intends to adopt, amend, or repeal rules concerning implementation of the State Environmental Policy Act ("SEPA"), chapter 43.21C RCW. In order to comply with the 1984 SEPA rules adopted by the Department of Ecology (chapter 197-11 WAC), the WSCTC proposes to repeal its existing SEPA guidelines (chapter 140-08 WAC) and adopt new rules. The new proposed rules adopt by reference, specific sections of chapter 197-11 WAC, the

DOE SEPA rules. The new proposed rules include sections on: Purpose and authority; general requirements; categorical exemptions and threshold determinations; environmental impact statements; commenting; use of existing environmental documents; SEPA's effect on agency decisions; definitions; categorical exemptions; agency compliance with SEPA; and forms.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on December 20, 1984.

The authority under which these rules are proposed is RCW 43.21C.120, 43.21C.135 and 67.40.020.

The specific statute these rules are intended to implement is the State Environmental Policy Act, chapter 43.21C RCW.

STATEMENT OF PURPOSE

Title: Chapter 140-09 WAC, Washington State Convention and Trade Center SEPA rules.

Description of Purpose: The Washington State Convention and Trade Center (hereinafter called the "corporation") was created by the governor as authorized by the state legislature. All state agencies and public corporations are required to adopt rules implementing the State Environmental Policy Act ("SEPA"), chapter 43.21C RCW. The Department of Ecology has recently adopted new SEPA rules which are contained in chapter 197-11 WAC. State agencies are required to adopt or amend their procedures in order to be consistent with the DOE SEPA rules. The corporation therefore proposes to repeal its existing SEPA guidelines and adopt new rules that are consistent with chapter 197-11 WAC. The proposed rules are intended to satisfy the corporation's obligations under SEPA and to provide a method by which environmental concerns may be addressed by the corporation while fulfilling its statutory duties. Compliance with the proposed rules will constitute complete procedural compliance with SEPA.

Statutory Authority: RCW 43.21C.120, 43.21C.135 and 67.40.020.

Specific Statute Rule is Intended to Implement: The proposed rules are intended to implement SEPA, chapter 43.21C RCW.

Summary of Rule: The proposed rules adopt by reference specific sections of chapter 197-11 WAC, the SEPA rules administered by the Department of Ecology. The proposed rules include sections on: Purpose and authority; general requirements; categorical exemptions and threshold determinations; environmental impact statements; commenting; use of existing environmental

documents; SEPA's effect on agency decisions; definitions; categorical exemptions; agency compliance with SEPA; and forms.

Reasons Supporting Rules: The corporation finds that proposed rules are the most appropriate method of satisfying its obligations under SEPA, and further finds that the proposed rules would be consistent with chapter 197-11 WAC.

Personnel Responsible for Drafting, Implementation and Enforcement of the Rules: Peggy Flynn, Corporate Secretary, Washington State Convention and Trade Center, 720 Olive Way, Seattle, Washington 98107, telephone (206) 464-5305. These rules are promulgated pursuant to the State Environmental Policy Act (SEPA), RCW 43-21C.120, and is intended to administratively implement that statute, as further authorized by WAC 197-11-904. This chapter contains this corporation's SEPA procedures and policies. The SEPA rules, chapter 197-11 WAC, must be used in conjunction with this chapter.

PART TWO – GENERAL REQUIREMENTS

NEW SECTION

WAC 140-09-020 PURPOSE OF THIS PART AND ADOPTION BY REFERENCE. This part contains the basic requirements that apply to the SEPA process. The corporation adopts the following sections of chapter 197-11 of the Washington Administrative Code by reference:

WAC

- 197-11-040 Definitions.
- 197-11-050 Lead agency.
- 197-11-055 Timing of the SEPA process.
- 197-11-060 Content of environmental review.
- 197-11-070 Limitations on actions during SEPA process.
- 197-11-080 Incomplete or unavailable information.
- 197-11-090 Supporting documents.
- 197-11-100 Information required of applicants.

NEW SECTION

WAC 140-09-030 ADDITIONAL DEFINITIONS. In addition to those definitions contained within WAC 197-11-700 through 197-11-799, the following terms shall have the following meanings when used in this chapter, unless the context indicates otherwise:

- (1) "Corporation" means the Washington state convention and trade center as established by chapter 67.40 RCW.
- (2) "SEPA rules" means chapter 197-11 WAC adopted by the department of ecology.
- (3) "Early notice" means the corporation's response to an applicant stating whether it considers issuance of a determination of significance likely for the applicant's proposal (mitigated determination of nonsignificance (DNS) procedures).

NEW SECTION

WAC 140-09-040 DESIGNATION OF RESPONSIBLE OFFICIAL. (1) For those proposals for which the corporation is the lead agency, the responsible official shall be the administrator of the Washington state convention and trade center.

(2) For all proposals for which the corporation is the lead agency, the responsible official shall make the threshold determination, supervise scoping and preparation of any required environmental impact statement (EIS), and perform any other functions assigned to the "lead agency" or "responsible official" by those sections of the SEPA rules that were adopted by reference in WAC 140-09-020.

(3) The corporation shall retain all documents required by the SEPA rules (chapter 197-11 WAC) and make them available in accordance with chapter 42.17 RCW.

NEW SECTION

WAC 140-09-050 LEAD AGENCY DETERMINATION AND RESPONSIBILITIES. (1) The corporation receiving an application for or initiating a proposal that involves a nonexempt action shall determine the lead agency for that proposal under WAC 197-11-050 and 197-11-922 through 197-11-940.

(2) When the corporation is the lead agency for a proposal, it shall determine the responsible official who shall supervise compliance with the threshold determination requirements, and if an EIS is necessary, shall supervise preparation of the EIS.

(3) When the corporation is not the lead agency for a proposal, the corporation shall use and consider, as appropriate, either the DNS or the final EIS of the lead agency in making decisions on the proposal. The corporation shall not prepare or require preparation of a DNS or EIS in addition to that prepared by the lead agency, unless required under WAC 197-11-600. In some cases, the corporation may conduct supplemental environmental review under WAC 197-11-600.

(4) If the corporation receives a lead agency determination made by another agency that appears inconsistent with the criteria of WAC 197-11-922 through 197-11-940, it may object to the determination. Any objection must be made to the agency originally making the determination and resolved within fifteen days of receipt of the determination, or the corporation must petition the department of ecology for a lead agency determination under WAC 197-11-946 within the fifteen-day time period. Any such petition on behalf of the corporation may be initiated by the administrator of the Washington state convention and trade center.

(5) The corporation is authorized to make agreements as to lead agency status or shared lead agency duties for a proposal under WAC 197-11-942 and 197-11-944; provided that the responsible official approves the agreement.

(6) The corporation, making a lead agency determination for a private project shall require sufficient information from the applicant to identify which other agencies have jurisdiction over the proposal (That is: Which agencies require nonexempt licenses?).

NEW SECTION

WAC 140-09-058 ADDITIONAL TIMING CONSIDERATIONS. If the corporation's only action on a proposal is a decision on a license that requires detailed project plans and specifications, the applicant may request in writing that the corporation conduct environmental review prior to submission of the detailed plans and specifications.

PART THREE - CATEGORICAL EXEMPTIONS AND THRESHOLD DETERMINATIONS

NEW SECTION

WAC 140-09-065 PURPOSE OF THIS PART AND ADOPTION BY REFERENCE. This part contains the rules for deciding whether a proposal has a "probable significant, adverse environmental impact" requiring an environmental impact statement (EIS) to be prepared. This part also contains rules for evaluating the impacts of proposals not requiring an EIS. The corporation adopts the following sections by reference, as supplemented in this part:

WAC

197-11-300	Purpose of this part.
197-11-305	Categorical exemptions.
197-11-310	Threshold determination required.
197-11-315	Environmental checklist.
197-11-330	Threshold determination process.
197-11-335	Additional information.
197-11-340	Determination of nonsignificance (DNS).
197-11-350	Mitigated DNS.
197-11-360	Determination of significance (DS)/initiation of scoping.
197-11-390	Effect of threshold determination.

NEW SECTION

WAC 140-09-080 USE OF EXEMPTIONS. (1) When the corporation receives an application for a license or, in the case of governmental proposals, when the corporation initiates the proposal, it shall determine whether the license and/or the proposal is exempt. The corporation's determination that a proposal is exempt shall be final and not subject to administrative review. If a proposal is exempt, none of the procedural requirements of this ordinance apply to the proposal.

The corporation shall not require completion of an environmental checklist for an exempt proposal.

(2) In determining whether or not a proposal is exempt, the corporation shall make certain the proposal is properly defined and shall identify the governmental licenses required (WAC 197-11-060). If a proposal includes exempt and nonexempt actions, the corporation shall determine the lead agency, even if the license application that triggers the corporation's consideration is exempt.

(3) If a proposal includes both exempt and nonexempt actions, the corporation may authorize exempt actions prior to compliance with the procedural requirements of this ordinance, except that:

(a) The corporation shall not give authorization for:

(i) Any nonexempt action;

(ii) Any action that would have adverse environmental impact; or

(iii) Any action that would limit the choice of alternatives;

(b) The corporation may withhold approval of an exempt action that would lead to modification of the physical environment, when such modification would serve no purpose if nonexempt action(s) were not approved; and

(c) The corporation may withhold approval of exempt actions that would lead to substantial financial expenditures by a private applicant when the expenditures would serve no purpose if nonexempt action(s) were not approved.

NEW SECTION

WAC 140-09-090 ENVIRONMENTAL CHECKLIST. (1) A completed environmental checklist (or a copy), in the form provided in WAC 197-11-960, shall be filed at the same time as an application for a permit, license certificate, or other approval not specifically exempted in this rule; except, a checklist is not needed if the corporation and applicant agree an EIS is required, SEPA compliance has been completed, or SEPA compliance has been initiated by another agency. The corporation shall use the environmental checklist to determine the lead agency and, if the corporation is the lead agency, for determining the responsible official and for making the threshold determination.

(2) For private proposals, the corporation will require the applicant to complete the environmental checklist, providing assistance as necessary. For corporation proposals, it shall complete the environmental checklist for that proposal.

(3) The corporation may require that it, and not the private applicant, will complete all or part of the environmental checklist for a private proposal, if either of the following occurs:

(a) The corporation has technical information on a question or questions that is unavailable to the private applicant; or

(b) The applicant has provided inaccurate information on previous proposals or on proposals currently under consideration.

NEW SECTION

WAC 140-09-100 MITIGATED DNS. (1) As provided in this section and in WAC 197-11-350, the responsible official may issue a DNS based on conditions attached to the proposal by the responsible official or on changes to, or clarifications of, the proposal made by the applicant.

(2) An applicant may request in writing early notice of whether a DS is likely under WAC 197-11-350. The request must:

(a) Follow submission of a permit application and environmental checklist for a nonexempt proposal for which the corporation is lead agency; and

(b) Precede the corporation's actual threshold determination for the proposal.

(3) The corporation's response shall:

(a) Be written;

(b) State whether the corporation currently considers issuance of a DS likely and, if so, indicate the general or specific area(s) of concern that is/are leading the corporation to consider a DS; and

(c) State that the applicant may change or clarify the proposal to mitigate the indicated impact, revising the environmental checklist and/or permit application as necessary to reflect the change or clarifications.

(4) As much as possible, the corporation should assist the applicant with identification of impacts to the extent necessary to formulate mitigation measures.

(5) When an applicant submits a changed or clarified proposal, along with a revised or amended environmental checklist, the corporation shall base its threshold determination on the changed or clarified proposal.

(a) If the corporation indicated specific mitigation measures in its response to the request for early notice, and the applicant changed or clarified the proposal to include those specific mitigation measures, the corporation shall issue and circulate a DNS under WAC 197-11-340(2).

(b) If the corporation indicated areas of concern, but did not indicate specific mitigation measures that would allow it to issue a DNS, the corporation shall make the threshold determination, issuing a DNS or DS as appropriate.

(c) The applicant's proposed mitigation measures (clarifications, changes or conditions) must be in writing and must be specific. For example, proposals to "control noise" or "prevent stormwater runoff" are inadequate, whereas proposals to "muffle machinery to X decibel" or "construct 200-foot stormwater retention pond at Y location" are adequate.

(d) Mitigation measures which justify issuance of a mitigated DNS may be incorporated in the DNS by reference to agency staff reports, studies or other documents.

(6) A mitigated DNS is issued under WAC 197-11-340(2), requiring a fifteen-day comment period and public notice.

(7) Mitigation measures incorporated in the mitigated DNS shall be deemed conditions of approval of the permit decision and may be enforced in the same manner as any term or condition of the permit, or enforced in any manner specifically prescribed by the corporation.

(8) If the corporation's tentative decision on a permit or approval does not include mitigation measures that were incorporated in a mitigated DNS for the proposal, the corporation should evaluate the threshold determination to assure consistency with WAC 197-11-340(3)(a) (withdrawal of DNS).

(9) The corporation's written response under subsection (2) of this section shall not be construed as a determination of significance. In addition, preliminary discussion of clarifications or changes to a proposal, as opposed to a written request for early notice, shall not bind the corporation to consider the clarifications or changes in its threshold determination.

PART FOUR – ENVIRONMENTAL IMPACT STATEMENT (EIS)

Before the corporation issues an EIS, the responsible official shall be satisfied that it complies with this ordinance and chapter 197-11 WAC.

(2) The DEIS and FEIS or draft and final SEIS shall be prepared by the corporation staff, the applicant, or by a consultant selected by the corporation or the applicant. If the responsible official requires an

EIS for a proposal and determines that someone other than the corporation will prepare the EIS, the responsible official shall notify the applicant immediately after completion of the threshold determination. The responsible official shall also notify the applicant of the corporation's procedure for EIS preparation, including approval of the DEIS and FEIS prior to distribution.

(3) The corporation may require an applicant to provide information the corporation does not possess, including specific investigations. However, the applicant is not required to supply information that is not required under this chapter or information that is being requested from another agency. STATEMENT OF PURPOSE

This statement of purpose, prepared in compliance with RCW 34.04.045, accompanies proposed rules to be promulgated by the Department of Revenue as follows:

Title: Tables for determination of stumpage values, new sections WAC 458-40-18715, 458-40-18716 and amendatory sections WAC 458-40-18600, 458-40-18700, 458-40-18704 and 458-40-18706.

Purpose: To establish the values for reporting and payment of the timber excise tax levied by chapter 84.33 RCW.

Statutory Authority: Chapter 84.33 RCW, which directs the Department of Revenue to prepare tables of stumpage values before June 30 and December 31 of each year to be used for the six month periods thereafter.

Summary and Reasons for the Rule: The tables set out the value of stumpage for each species or subclassification of timber within designated areas having similar growing, harvesting and marketing conditions. These values are to be used for computing the timber excise tax due quarterly by timber harvesters upon timber harvested for sale or for commercial industrial use during the period January 1, 1985, through June 30, 1985.

Drafters of the Rule: John Conklin, (206) 753-2871, and Joe Gienty, (206) 754-2903, Evergreen Plaza Building, Room 303, 711 South Capitol Way, Olympia, WA 98501; and Rule Implementation and Enforcement: Trevor W. Thompson, Director, Property Tax, Evergreen Plaza Building, 711 South Capitol Way, Olympia, WA 98501, (206) 753-5503.

Proposer of the Rule: Department of Revenue, General Administration Building, Olympia, WA 98504.

Comments and Recommendations: None.

Federal Law or Court Action Citation: No federal laws involved or action requested by the courts.

AMENDATORY SECTION (Amending Order FT-84-4, filed 6/29/84)

WAC 458-40-18600 GENERAL. Pursuant to the duty imposed by chapter ~~((204, Laws of 1984))~~ 84.33 RCW, to prepare tables of stumpage values for each species of timber and consistent with the duty to make allowances for age, size, quality, costs of removal, accessibility to point of conversion, market conditions, and all other relevant factors, the department has promulgated rules and prepared tables which prescribe stumpage values and make allowances for the relevant factors.

Pursuant to the duty imposed by RCW 84.33.073 and 84.33.074 to establish an elective manner for the small harvester to report his forest excise tax, the department has promulgated rules providing for filing an optional short form forest excise tax return.

These rules shall not be construed to affect any public timber contracts in effect prior to August 1, 1982.

AMENDATORY SECTION (Amending Order FT-84-4, filed 6/29/84)

WAC 458-40-18700 DEFINITIONS. (1) Acceptable log scaling rule. The acceptable log scaling rule shall be the Scribner Decimal C Log Scale Rule or other prevalent measuring practice, provided that such other prevalent measuring practice shall be submitted to the department for approval prior to the time of harvest.

(2) Applicable rate of tax. The applicable rate of tax shall be that excise tax rate in effect at the time the timber is harvested.

(3) Approved log scaling and grading rules.

(a) West of the Cascade summit—Approved scaling and grading rule. With respect to the reporting of timber harvested from private or

public lands in areas west of the Cascade summit, which areas are designated as stumpage value areas 1, 2, 3, 4, and 5 in the stumpage value area map of WAC 458-40-18704, the methods and procedures published by the Columbia River Log Scaling and Grading Bureau, Grays Harbor Log Scaling and Grading Bureau, and the Puget Sound Log Scaling and Grading Bureau and published as the "Official Log Scaling and Grading Rules" are approved by the department for use in those areas.

(b) East of the Cascade summit—Approved scaling rule. With respect to the reporting of timber harvested from private or public lands in areas east of the Cascade summit, which areas are designated as stumpage value areas 6, 7, 8, 9, and 10 in the stumpage value area map of WAC 458-40-18704, the methods and procedures published by the United States Forest Service under the title "National Forest Log Scaling Handbook" procedures are approved by the department for use in those areas. This log scaling handbook is published under the title FSH 2409-11 National Forest Log Scaling Handbook, Forest Service, United States Department of Agriculture.

(c) East of the Cascade summit—Established grading rule. Because the National Forest Log Scaling Handbook does not contain grading rules, a separate computation shall be made to arrive at the proper grade for purposes of determining the timber quality code number for timber harvested east of the Cascade summit. The grade for quality classification purposes of the timber harvested from private or public land east of the Cascade summit shall be determined by the number of sawable sixteen foot logs per thousand feet net Scribner Decimal C Log Scale. The computation shall be made under the following three-step procedure:

(i) Step 1. The highest possible total number of sawable sixteen foot logs which could be recovered shall be determined by dividing the sum total of length of all sawable logs harvested by the number sixteen.

(ii) Step 2. The average net volume per sixteen foot recoverable log shall be determined by dividing the total volume harvested (net log scale) by the total number of sixteen foot logs as determined in Step 1.

(iii) Step 3. The total number of logs per thousand board feet (MBF) shall be determined by dividing one thousand by the average net volume as determined in step 2.

(4) Codominant trees. Trees whose crowns form the general level of the crown cover and receive full light from above, but comparatively little light from the sides.

(5) Competitive bidding process. The competitive bidding process means the offering of timber which is advertised to the general public for sale at a public auction under terms wherein all qualified potential buyers have an equal opportunity to bid on the sale, and the sale is awarded to the highest qualified bidder. For purposes of this chapter the competitive bidding process includes making available to the general public permits for the removal of forest products.

(6) Department. Department, for the purposes of this chapter, shall mean the department of revenue of the state of Washington.

(7) Dominant trees. Trees whose crowns are higher than the general level of the canopy and who receive full light from the sides as well as from above.

(8) Forest excise tax payment. Every person who is engaged in business as a harvester of timber from privately or publicly owned land shall pay a forest excise tax which shall be equal to the taxable stumpage value of timber harvested for sale or for commercial or industrial use and multiplied by the applicable rate of tax as provided in chapter ~~((204, Laws of 1984))~~ 84.33 RCW.

(9) Harvester. Harvester shall mean every person who from his own land or from land of another under a right or license granted by lease or contract, either directly or by contracting with others, fells, cuts, or takes timber for sale or for commercial or industrial use. It does not include persons performing under contract the necessary labor or mechanical services for a harvester.

(10) Harvested timber—When determined. Timber shall be considered harvested at the time when in the ordinary course of business the quantity thereof by species is first definitely determined.

(11) Harvesting and marketing costs. Harvesting and marketing costs means only those costs directly associated with harvesting the timber from the land and delivering it to the buyer and may include the costs of disposing of logging residues but does not include any other costs which are not directly and exclusively related to harvesting and marketing of the timber such as costs of permanent roads or costs of reforesting the land following harvest.

(12) Harvest type. Harvest type shall be a term referring to the grouping of harvested timber by age and type of harvest and shall include and is limited to the following harvest types:

(a) Merchantable sawtimber, all ages—The removal of timber east of the Cascade summit shall be reported as merchantable sawtimber, all ages, unless the harvest type comes within the definition in this chapter of special forest products.

(b) Old growth. The removal of any timber from a harvest unit that is 100 years of age or older and west of the Cascade summit shall be reported as old growth unless the harvest type comes within the definition in this chapter of special forest products.

(c) Special forest products. The removal of Christmas trees (except as provided in RCW 84.33.170), shake blocks and boards, and posts and other western redcedar products shall be reported as special forest products.

(d) Thinning. The removal of timber from a harvest unit meeting all the following conditions:

- (i) Harvest unit located west of the Cascade summit;
- (ii) Timber that is less than 100 years of age;
- (iii) The total merchantable volume which is removed is less than forty percent of the total merchantable volume of the harvest unit prior to harvest;
- (iv) Not more than forty percent of the total volume removed is from the dominant and codominant trees;
- (v) The trees removed in the harvest operation shall be distributed over the entire harvest unit.

(e) Young growth. The removal of any timber from a harvest unit that is less than 100 years of age and does not meet the definition of thinning in (d) of this subsection and west of the Cascade summit shall be reported as young growth unless the harvest type comes within the definition in this chapter of special forest products or within the definition of thinning.

(13) Harvest unit. A harvest unit is a harvest area having the same forest excise tax permit number, stumpage value area, hauling distance zone, harvest type, harvest adjustments and harvester. A harvest unit may include more than one section.

(14) Lump sum sale. A lump sum sale, also known as a cash sale or an installment sale, is a sale of timber wherein the total sale price as determined at the time of sale is final and not dependent upon the volume of timber actually harvested.

(15) MBF. As used herein MBF shall mean one thousand board feet measured in Scribner Decimal C Log Scale Rule.

(16) Other consideration. As used herein other consideration shall mean improvements to the land that are required by contract by the seller and are of a permanent nature. For instance, other consideration may include, but is not limited to the construction of permanent roads, and the installation of permanent bridges.

(17) Permanent road. A road built as part of the harvesting operation which is intended to have a useful life subsequent to the completion of the harvest is a permanent road.

(18) Private timber. Private timber is all timber harvested from privately owned lands. Private timber includes timber on reclassified reforestation land under chapter 84.28 and 84.33 RCW (as amended by chapter 204, Laws of 1984).

(19) Pro rata unit price. The pro rata unit price shall be the result of dividing the total sale price of a lump sum sale by the sale volume.

(20) Public timber. Public timber is timber harvested from state, federal, municipal, county, and other government owned lands.

(21) Remote island. A remote island is an area of land which is totally surrounded by water at normal high tide and which has no bridge or causeway connecting it to the mainland.

(22) Sale price. The sale price shall mean the amount paid for standing timber in cash or other consideration.

(23) Sawlog. Sawlog shall mean any log large enough to produce one-third of its gross volume in sound lumber or other products that can be sawed.

(24) Scale sale. A scale sale means a sale in which the sale price is the product of the actual volume harvested and the unit price at the time of harvest.

(25) Small harvester. Small harvester means every person who from his own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use in an amount not exceeding 500 MBF in a calendar quarter and not exceeding 1000 MBF in a calendar year of combined public and private harvest (excluding conifer and hardwood utility). It does not include persons performing under contract the necessary labor or mechanical services for

a harvester, and it does not include harvests of forest products classified by the department as special forest products including Christmas trees, posts, shake boards, bolts, flatsawn, and shingle blocks.

(26) Small harvester option. Harvesters of no more than 500 MBF per calendar quarter or a total of 1000 MBF in a calendar year of combined public and private harvest (excluding conifer and hardwood utility) may elect to calculate the timber tax in the manner provided by RCW 84.33.073 and 84.33.074. A harvester who elects to use this option shall use the quarterly reporting forms provided for this option by the department.

(27) Species. Species designation is a biologically-based grouping of harvested timber and shall include but is not limited to the following designations of species and subclassifications thereof (as defined in Agriculture Handbook No. 541 Checklist of United States Trees (Native and Naturalized)):

(a) Douglas-fir, western hemlock, true fir, noble fir, western redcedar, Alaska-cedar, western larch, ponderosa pine, lodgepole pine, western white pine, Sitka spruce, Engelmann spruce, red alder, and cottonwood shall be reported as separate species where designated as such in the stumpage value tables.

(b) Species designations for the harvest type special forest products shall be western redcedar shake blocks and boards, western redcedar flatsawn and shingle blocks, western redcedar and other posts, lodgepole pine and other posts, pine Christmas trees, Douglas-fir Christmas trees, Douglas-fir and other Christmas trees, true fir and other Christmas trees.

(c) Other conifer, as used in the stumpage value tables, shall be all other conifers not separately designated in the applicable stumpage value tables.

(d) Hardwood, and other hardwood, as used in the stumpage value tables, shall be all hardwoods not separately designated in the applicable stumpage value tables.

(e) Utility, conifer utility, and hardwood utility are separate species as defined by the "Official Log Scaling and Grading Rules" published by the Puget Sound Log Scaling and Grading Bureau and shall be reported as separate species where designated as such in the stumpage value tables.

(28) Stumpage value area. A stumpage value area is an area with specified boundaries which contains timber having similar growing, harvesting, and marketing conditions. Presently, there are ten such stumpage value areas designated in the state of Washington as shown under WAC 458-40-18704. Stumpage value areas 1, 2, 3, 4, and 5 are located west of the Cascade summit and stumpage value areas 6, 7, 8, 9, and 10 are located east of the Cascade summit.

(29) Taxable stumpage value of timber. The taxable stumpage value of timber shall be the value determined by one of the following methods as appropriate:

(a) Private timber. The taxable stumpage value of private timber shall be the appropriate value for each species of timber harvested, or for each species of special forest product harvested, as set forth in the stumpage value tables adopted under this chapter.

(b) Private timber — small harvester option. The taxable stumpage value for the small harvester option shall be determined by one of the following methods, whichever is most appropriate to the circumstances of the harvest.

(i) Sale of logs — Timber which has been severed from the stump and cut into various lengths for further processing. The taxable stumpage value is the actual gross receipts from the harvested timber less the costs of harvesting and marketing. Actual harvesting and marketing costs must be used in all instances where documented records are available. When the taxpayer is unable to provide documented proof of harvesting and marketing costs, the deduction shall be a percentage of the gross receipts from the sale of the harvested timber as determined by the department. The deduction shall be fifty percent of the gross receipts. A landowner who has sold logs for a percentage share of gross receipts should report the value received under WAC 458-40-18700(29)(b)(ii).

(ii) Sale of stumpage — Standing or fallen trees which have not been severed from the stump, providing the harvest occurs within twelve months of the date of sale. The taxable stumpage value is the actual gross receipts received for the timber for the most recent sale prior to harvest. No harvesting and marketing cost deduction is allowable. If harvest occurs more than twelve months after the date of sale, report under WAC 458-40-18700(29)(b)(i).

(c) Public timber. The taxable stumpage value for public timber sales shall be determined as follows:

(i) Noncompetitive sales: Timber not sold by a competitive bidding process shall be valued in the same manner as private timber.

(ii) Scale sales: The taxable stumpage value shall be the sum of the products of each species volume multiplied by the unit price for each species.

(iii) Lump sum sales: For sales in which the harvest is completed within a single quarterly reporting period, the taxable value shall be the actual sale price for the timber in cash or other consideration. For sales in which the harvest extends over more than one quarterly reporting period, the taxable value for each period shall be based on the actual quantity harvested and the estimated pro rata unit price. In no event shall the taxable value of the sale differ from the original sale price in cash or other consideration.

(iv) Sale of logs: When public timber is sold in the form of logs, the taxable value shall be the actual purchase price for the logs less deductions as appropriate for the costs of felling, bucking, and yarding the logs to the point of sale. Cost deductions shall be the actual costs when documented proof of such costs are available. In the absence of verifiable actual cost data, cost deductions shall be based on the appraised costs as appraised by the seller, if available; or an estimate of such costs based on the best available information from the sale of similar timber under similar harvesting conditions.

(30) Timber. Timber shall include forest trees, standing or down, on privately or publicly owned land, and except as provided in RCW 84.33.170 includes Christmas trees, shake blocks and boards, posts and other western redcedar products.

(31) Timber quality code number. The timber quality code number is a number assigned to the harvest of a particular species within a harvest type under WAC 458-40-18706, and is based upon the constituent percentage of log grade specifications within the total volume of timber harvested for that particular species.

(32) Unit price. The unit price shall mean the sale price (including cash or other consideration) for each unit of volume. The unit price will most often be expressed as dollars per MBF.

(33) This rule shall not be construed to affect any public timber contracts in effect prior to August 1, 1982.

AMENDATORY SECTION (Amending Order FT-84-4, filed 6/29/84)

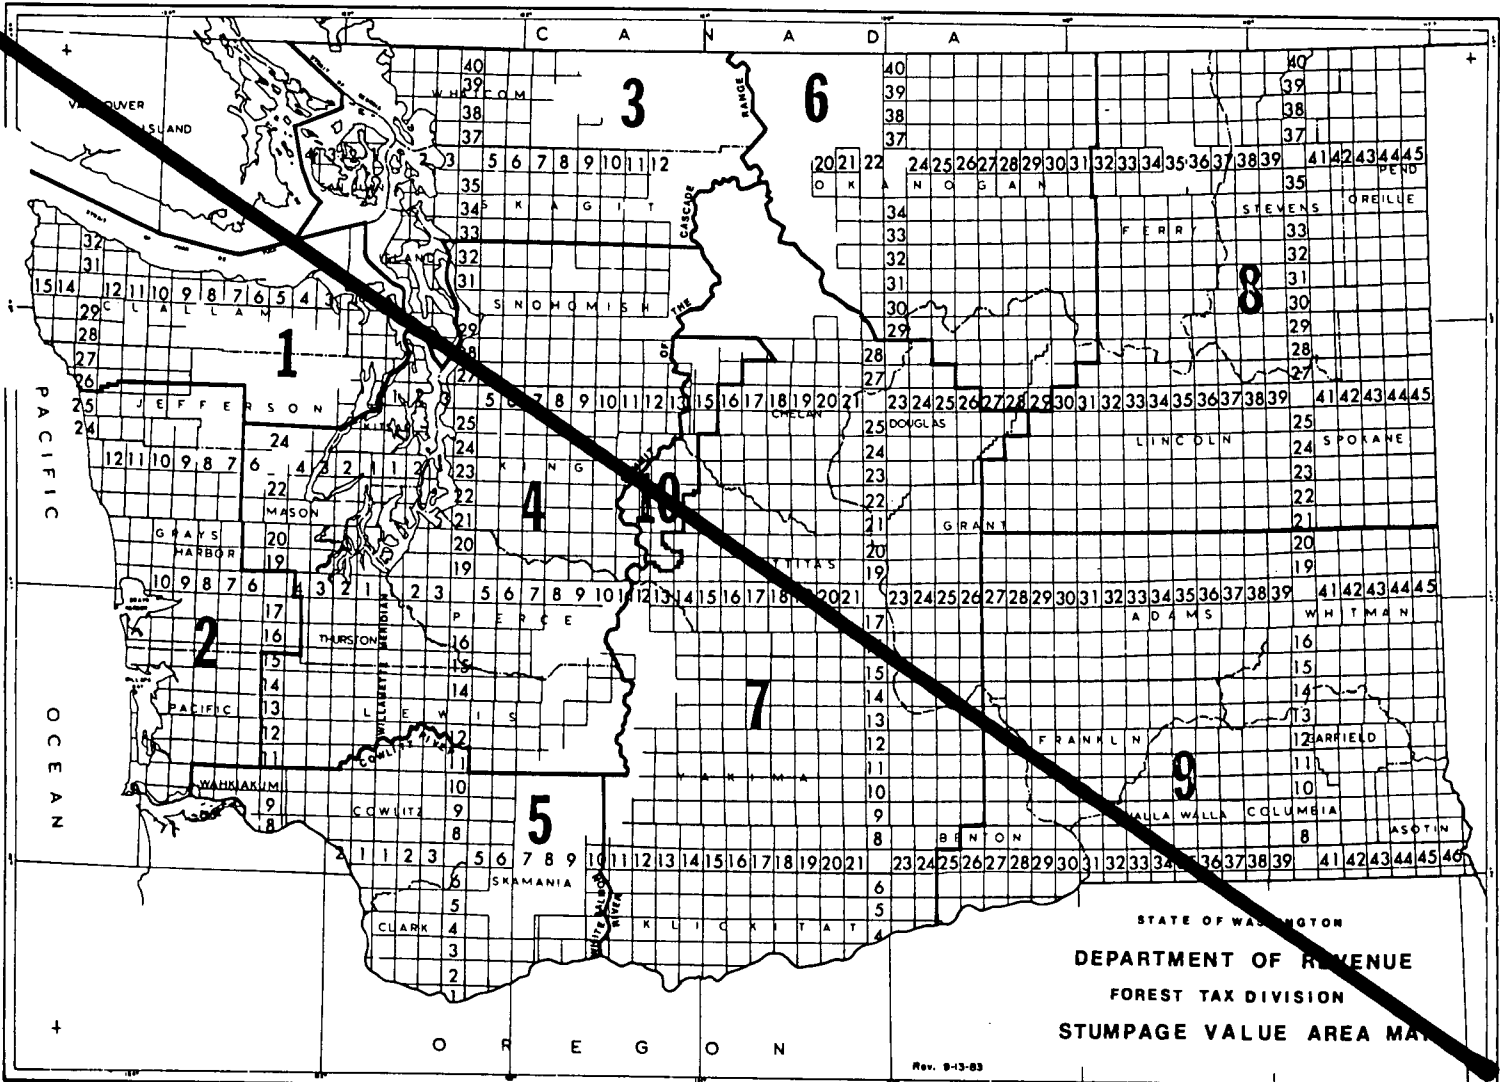

WAC 458-40-18704 STUMPAGE VALUE AREAS AND HAULING DISTANCE ZONE—MAP. In order to allow for differences in market conditions and other relevant factors throughout the state as required by chapter ~~((204, Laws of 1984))~~ 84.33 RCW, the department has created a map designating areas containing timber having similar growing, harvesting, and marketing conditions ~~((The stumpage value area map shall be used for the determination of stumpage values))~~; the department has designated zones within each area which have similar accessibility to conversion points and other similar hauling cost factors.

The stumpage value area and hauling distance zone map ~~((shown herein))~~ shall be used to determine the proper stumpage value table and haul zone to be used in calculating the taxable stumpage value.

The following stumpage value area and hauling distance zone map is hereby adopted:

AMENDATORY SECTION (Amending Order FT-84-4, filed 6/29/84)

WAC 458-40-18706 **TIMBER QUALITY CODE NUMBERS—TABLES.** In order to allow for differences in age, size, quality of timber and other relevant factors as required by chapter ((204; Laws of 1984)) 84.33 RCW, the department has assigned timber quality code numbers for harvests of the various designated harvest types and species.

Scaling and grading information derived from an acceptable log scaling and grading rule for the particular harvest type and species shall be used to determine the proper quality code number.

For each timber quality code number in the following tables, there is a corresponding timber quality code number for that particular harvest type and species in the stumpage value tables which is to be used in computing timber harvest value.

The following timber quality code tables are hereby adopted:

WAC 458-40-18716 HARVESTER ADJUSTMENTS—TABLES FOR JANUARY 1 THROUGH JUNE 30, 1985. In order to make reasonable and adequate allowances for costs of removal and size of logging operation in computation of stumpage value rates as required by chapter 84.33 RCW, the department has prepared tables which allow for adjustments to the stumpage value rates derived from the stumpage value tables of WAC 458-40-18715.

Harvest adjustments relating to harvest volume per acre, logging conditions and average volume per log shall be allowed against the stumpage value rates for the designated harvest types and in the designated stumpage value areas as set forth in the following tables with the following limitations:

- (1) No harvest adjustment shall be allowed against special forest products.
- (2) No harvest adjustment shall be allowed against utility, conifer utility, and hardwood utility.
- (3) Stumpage value rates for conifers and hardwoods shall be adjusted to a value no lower than \$1 per thousand board feet.

Timber harvesters planning to remove timber from areas having damaged timber may apply to the department for adjustment in stumpage value rates. Such applications should contain a map with the legal description of the area from which the timber will be removed, a description of the damage sustained by the timber, and a listing of additional costs incurred. Such applications should be sent to the Department of Revenue AX-02, Forest Tax Division, General Administration Building, Olympia, Washington 98504, before the harvest commences.

In the event the extent of such timber damage or additional costs are not known at the time the application is filed, the harvester may supplement the application when the necessary information is obtained, but in no event later than 90 days following completion of the harvest unit.

Upon application from any person who plans to harvest damaged timber the department will make a determination as to the amount of adjustment to be allowed. The harvester will be notified by the department of the amount of the adjustment. This amount can then be taken as a credit against tax liabilities or if the harvester is no longer harvesting, a refund will be authorized.

The following harvest adjustment tables are hereby adopted for use during the period of January 1 through June 30, 1985:

Delivered notice shall be deemed effective if handed to a person of apparent competence in the residence or, if a business account, a person employed at the place of business of the service customer. If no person is available to receive notice, notice shall be deemed served if attached to the primary door of the residence unit or business office at which service is provided. If service is not discontinued within ten working days of the first day on

which disconnection may be effected, a new notice shall be required before the service can be discontinued.

(b)(i) Before effecting disconnection of service, a utility shall make a good faith, bona fide effort to reach the customer in person or by telephone to advise the customer of the pending disconnection and the reasons therefor. Where telephone contact is elected, at least two attempts to reach a customer by telephone shall be made during the utility's regular business hours. If a business or message telephone number is provided by the customer, the utility shall endeavor by that means to reach the customer if unable to make contact through the customer's home telephone. A log or record of the attempts shall be maintained by the utility showing the telephone number called and the time of call. Telephone or personal contact shall not be a substitute for written notice of disconnection as specified above.

(ii) Where the service address is different from the billing address, the utility shall in all instances prior to effecting discontinuance of service upon its own initiative provide notice to the service address except as provided in subsection (2)(e) of this section regarding master meters. If personal service is effected upon the billing address, then personal service must be effected upon the service address; if service by mail is effected to the billing address, then service by mail must also be effected to the service address.

(iii) When a customer of record orders termination of service at a service address, and the utility through its representative discovers that the actual service user at the service address has no prior notice of such termination, the utility shall delay termination for at least one complete business day following provision of actual notice to the service user.

(d) When a utility employee is dispatched to disconnect service, that person shall be required to accept payment of a delinquent account at the service address if tendered in cash, but shall not be required to dispense change for cash tendered in excess of the amount due and owing. Any excess payment shall be credited to the customer's account. The utility shall be permitted to assess a reasonable fee as provided for in the tariff of the utility for the disconnection visit to the service address. Notice of the amount of such fee, if any, shall be provided within the notice of disconnection.

(e) Where service is provided through a master meter, or where the utility has reasonable grounds to believe service is to other than the customer of record, the utility shall undertake all reasonable efforts to inform occupants of the service address of the impending

disconnection. Upon request of one or more service users, where service is to other than the subscriber of record, a minimum period of five days shall be allowed to permit the service users to arrange for continued service.

(f) Where service is provided to a hospital, medical clinic with resident patients, or nursing home, notice of pending disconnection shall be provided to the director, Washington state department of social and health services, as well as to the customer. Upon request from the director or his designee, a delay in disconnection of no less than five business days from the date of notice shall be allowed so that the department may take whatever steps are necessary in its view to protect the interests of patients resident therein who are responsibilities of the department.

(g) Service may not be disconnected while a customer is pursuing any remedy or appeal provided for by these rules, provided any amounts not in dispute are paid when due. The customer shall be so informed by the utility upon referral of a complaint to a utility supervisor or the commission.

(h) (i) The utility shall postpone termination of utility service or will reinstate service to a residential customer for thirty days from the date of receipt of a certificate by a licensed physician which states that termination of gas service will aggravate an existing medical condition or create a medical emergency for the customer, a member of the customer's family, or other permanent resident of the premises where service is rendered. Where service is reinstated, payment of a reconnection charge and/or a deposit shall not be required prior to such reinstatement of service.

The utility shall offer all customers the opportunity to make such designation. When the utility discovers that a customer appears to be unable to comprehend the impact of a termination of service, it shall consider an appropriate social agency to be third party. In either case, it shall not effect termination until five business days after provision of notice to the third party. Utilities shall discover which social agencies are appropriate for and willing to receive such notice, and the name and/or title of the person able to deal with the termination situation, and shall inform the commission on a current basis which agencies and position titles receive such notifications.

(3) Payment of any delinquent amounts to a designated payment agency of the utility shall constitute payment to the utility, if the customer informs the utility of such payment and the utility verifies such payment.

(4) Service shall be restored when the causes of discontinuance have been removed and when payment of all proper charges due from the customer, including any proper deposit, has been made as provided for in the

tariff of the utility; or as the commission may order pending resolution of any bona fide dispute between the utility and customer over the propriety of disconnection.

(5) A utility may make a charge for restoring service when service has been discontinued for nonpayment of bills. The amount of such charge is to be specified in the utility's tariff.

(2) Residential customers shall be notified that the utility, upon contact by a customer whose account is delinquent or who desires to avoid a delinquency, will make extended payment arrangements appropriate for both the customer and the utility. If the customer fails to propose payment terms acceptable to the utility, the utility shall advise a customer of the payment plan set forth in subsection (3) of this section, if appropriate.

(3) During the winter period the utility shall offer the following payment plan if the residential space heating customer qualifies under subsection (4) of this section and if the customer agrees:

(a) To a payment plan designed both to pay the past due bill by the following October 15 and to pay for continued utility service;

(b) To pay a monthly payment during the winter period not to exceed seven percent of the monthly household income during the winter period. A customer may agree to pay a higher percentage of their income during this period, but the payment plan shall not be invalidated unless payment during this period is less than seven percent;

(d) To pay the moneys owed even if he or she moves.

A customer's failure to make a payment provided for in this section shall entitle the utility to discontinue service in accordance with the procedures set forth in WAC 480-90-071, discontinuance of service.

The utility shall furnish to the customer entering into an extended payment plan a written copy of the plan.

(4) The customer shall meet the following requirements in order to qualify for payment arrangements as provided in subsection (3) of this section:

This statement shall

also include a dollar figure showing seven percent of the monthly household income;

When the utility discovers that a customer appears to be unable to comprehend the impact of a termination of service, the utility shall consider an appropriate social agency to be the third party. In either case, the utility shall not effect termination until five business days after provision of notice to the third party. Utilities shall discover which social agencies are appropriate and willing to receive

such notice, and the name and/or title of the person able to deal with the termination situation, and shall inform the commission on a current basis which agencies and position titles receive such notifications.

(3) Payment of any delinquent amounts to a designated payment agency of the utility shall constitute payment to the utility, if the customer informs the utility of such payment and the utility verifies such payment.

(4) Service shall be restored when the causes of discontinuance have been removed and when payment of all proper charges due from the customer, including any proper deposit, has been made as provided for in the tariff of the utility; or as the commission may order pending resolution of any bona fide dispute between the utility and customer over the propriety of disconnection.

(5) A utility may make a charge for restoring service when service has been discontinued for nonpayment of bills. The amount of such charge is to be specified in the utility's tariff.

NEW SECTION

WAC 480-100-072 PAYMENT ARRANGEMENTS AND RESPONSIBILITIES. (1) The utility shall offer residential customers the option of a budget billing or equal payment plan.

(2) Residential customers shall be notified that the utility, upon contact by a customer whose account is delinquent or who desires to avoid a delinquency, will make extended payment arrangements appropriate for both the customer and the utility. If the customer fails to propose payment terms acceptable to the utility, the utility shall advise a customer of the payment plan set forth in subsection (3) of this section, if appropriate.

(3) During the winter period the utility shall offer the following payment plan if the residential space heating customer qualifies under subsection (4) of this section and if the customer agrees:

(a) To a payment plan designed both to pay the past due bill by the following October 15 and to pay for continued utility service;

(b) To pay a monthly payment during the winter period not to exceed seven percent of the monthly household income during the winter period. A customer may agree to pay a higher percentage of their income during this period, but the payment plan shall not be invalidated unless payment during this period is less than seven percent;

(c) To certify to the utility that any home heating assistance payment received by the customer from applicable government and/or private sector organizations subsequent to implementation of the plan shall be the basis for the customer to contact the utility to reformulate the plan;

(d) To pay the moneys owed even if he or she moves. A customer's failure to make a payment provided for in this section shall entitle the utility to discontinue service in accordance with the procedures set forth in WAC 480-100-071, discontinuance of service.

The utility shall furnish to the customer entering into an extended payment plan a written copy of the plan.

(4) The customer shall meet the following requirements in order to qualify for payment arrangements as provided in subsection (3) of this section:

(a) Within five business days of receiving a notice of disconnection, notify the utility in person, in writing, or through telephone contact of inability to pay, unless there are extenuating circumstances;

(b) Bring a statement from an energy assistance grantee or the department of social and health services within thirty calendar days of the customer's response to the utility's notice of disconnection stating their household income does not exceed the maximum allowed for eligibility under the state's plan for low income energy assistance under 42 U.S.C. § 8624. This statement shall also include a dollar figure showing seven percent of the monthly household income;

(c) Apply for home energy assistance from appropriate government and/or private sector organizations and certify that any assistance received will be applied to their current and future utility bills;

(d) Apply to the utility or other appropriate agency for low income weatherization assistance if such assistance is applicable for the dwelling;

(e) Agrees to a payment plan designed to pay the past due bill by the following October 15, as well as paying for continued utility service.

NEW SECTION

WAC 458-20-247 TRADE-INS, SELLING PRICE, SELLERS' TAX MEASURES. Initiative Measure No. 464, approved November 6, 1984 amended RCW 82.08.010(1), the statutory definition of "selling price," by excluding from that term the value of "trade-in property of like kind." The effective date of this exclusion is December 6, 1984. As a result, the retail sales tax measure on trade-in sales is reduced by the value of the property traded in. Thus, on and after the effective date, the value of "trade-in property" may be excluded from the measure of retail sales tax to be collected and reported by the seller who accepts the trade-in property as partial payment for new or used property sold. Actual delivery of the property to the buyer determines when the sale is made (see WAC 458-20-103). The Initiative applies only to sales where the property is delivered to the purchaser on or after December 6, 1984.

Under RCW 82.08.010, as amended by the Initiative, "the term 'selling price' means the consideration, whether money, credits, rights, or other property except trade-in property of like kind, expressed in terms of money, paid or delivered by a buyer to a seller, all without any deduction, on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discounts, delivery costs, taxes or any other expense whatsoever paid or accrued and without any deduction on account of losses." (Amendatory language underscored.)

Definitions

Unless otherwise stated, the terms "tax," "taxable," and "nontaxable," as used in this rule, refer to retail sales tax only.

The terms, "trade-in," "traded-in," and "property traded-in" have their ordinary and common meaning. They mean property of like kind to that acquired in a retail sale which is applied, in part, toward the selling price. These terms do not mean or include property transferred by barter or straight across exchange transfers, whether or not the property transferred is of like kind.

The term "property of like kind" means articles of tangible property of the same generic classification. It refers to the class and kind of property, not to its grade or quality. The term includes all property within a general classification rather than within a specific category in the classification. Thus, as examples, it means furniture for furniture, motor vehicles for motor vehicles, appliances for appliances, auto parts for auto parts, audio/video equipment for audio/video equipment, and the like.

Under these definitions it is not required that a car be traded-in exclusively on another car in order to get the trade-in reduction of the tax measure. It could, as well, be traded-in as part payment for a truck, motorcycle, motor home, or any other qualifying motor vehicle. Similarly, a sofa for a recliner chair, a pistol for a rifle, a sailboat for a

motorboat, or a gold chain for a wrist watch are the kinds of generic trade-in transfers which would qualify. However, the exclusion of the value of property traded-in does not include such things as a motorcycle for a boat, a diamond ring for a television set, a battery for lumber, or farm machinery (including tractors and self propelled combines) for a car.

Value of Property Traded-In — The seller and buyer establish the value of property traded-in. However, the parties may not overstate the value of the property traded-in in order to artificially lower the amount of sales or use tax due. Absent proof of a higher value, the property traded-in must be determined by the fair market value of similar property of like quality, quantity, and age, sold or traded under comparable conditions.

Record Keeping — RCW 82.32.070 requires every person liable for any tax to keep and preserve records from which true tax liability can be determined. Before any exclusion from the selling price for the value of property traded-in will be allowed, the property traded-in must be specifically identified and clearly indicated as "trade-in," by model, serial number and year of manufacture where applicable, and the full trade-in value must be shown on the sales agreement or invoice given to the purchaser, with a copy retained in the seller's permanent sales records.

For example:

Less "trade-in" - 1983 G.E. Refrigerator/Freezer
Model No. GE-RF0001, Serial No. 0001, \$300.

Encumbered Property Traded-In — Sellers are allowed to consider as nontaxable the value of property traded-in even though ownership of the property may be encumbered by a conditional sale, retail installment contract, or security interest; provided that, the property traded-in must be actually transferred to the seller of the new or used property for which it is traded-in as part payment.

Casual or Isolated Sales — The retail sales tax applies to all casual or isolated retail sales made by any person who is engaged in business activity, that is, a person required to be registered and reporting tax to the state. Persons who are not engaged in business activity, i.e., private persons, are not required to be registered and are not required to collect sales tax on their casual or isolated sales (see WAC 458-20-106). Registered person who make casual or isolated sales (e.g., a law firm which sells its law books) may reduce the taxable selling price by the value of the property traded-in. The same record keeping requirements apply as explained earlier in this rule.

Retail Services — The exclusion of the value of property traded-in from the selling price tax measure applies only to sales involving tangible property traded-in for tangible property sold. It does not apply to any transactions involving services which have been statutorily included as "sales at retail" (see RCW 82.04.050). Thus, for example, a construction contractor may not accept part payment in tangible property to thereby reduce the sales tax measure of the construction contract selling price. Similarly, a seller of tangible personal property may not accept retail services as part payment to thereby reduce the selling price tax measure. Such transfers neither qualify as trade-in transfers of tangible property nor "in-kind" transfers.

Trade-In for Rental Property — Under RCW 82.04.050, rentals or leases of tangible personal property are "retail sales." The term "selling price" as amended by Initiative 464 is also the tax measure for such rentals and leases. Thus, where tangible property is traded-in as part payment for the rental or lease of property of like kind (e.g., a used computer against the rental of a new one) the sales tax will apply to all payments after the value of the property traded-in has been depleted or consumed and the lessor of the property actually begins making charges for the lease or rental of tangible property.

When tangible personal property is rented or leased, the "selling price" includes all charges to the renter or lessee for the use of the property rented or leased, including charges designated as insurance, interest and other costs recovered stated separately from the regular rental fee. When tangible personal property is rented or leased under circumstances that the consideration paid does not represent a reasonable rental for the use of the articles so rented or leased, the "selling price" must be determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character. In cases of doubt, all of the pertinent facts should be submitted to the department of revenue for an advisory determination.

Real Property Transfers — The trade-in exclusion does not apply to sales of real property. It also does not apply where real property is traded-in for tangible personal property.

Business and Occupation Tax

The trade-in exclusion affects only the measure of retail sales tax to be collected and paid. There is no trade-in exclusion for business and occupation tax. Thus, the gross receipts to be reported under the Retailing classification of business and occupation tax continues to be the total value proceeding or accruing from the sale, including the value of property traded-in.

RCW 82.04.070 provides, "The term 'gross proceeds of sales' means the value proceeding or accruing from the sale of tangible personal property . . . without any deduction on account of the cost of property sold, the cost of materials used, labor costs, interest, discount paid, delivery costs, taxes or any other expense whatsoever paid or accrued and without any deduction on account of losses."

Also, the terms "selling price" and "gross proceeds of sales" include items of cost which are the direct obligation of the seller but which the seller may invoice separately to the purchaser. Examples of such costs are the cost of the contractor's performance bond, the cost of city or state business and occupation taxes of public utility taxes, the cost of insurance protecting the seller and the cost of freight in. The selling price can be payable in money or otherwise. If it is payable in whole or in part in property, each party is a seller of the property being transferred.

Use Tax

RCW 82.12.010 defines the measure of the use tax as the "value of the article used." Under certain circumstances that value is determined by the "selling price" of the article or property used. Also, this use tax statute provides that the meaning of words in chapter 82.08 RCW (Retail Sales Tax) shall have full force as well with respect to the use tax chapter. Thus, the Initiative 464 amendment of the definition of "selling price" will apply equally for use tax purposes. Therefore, the measure of the use tax for tangible property upon which no retail sales tax has been paid (e.g., if it were purchased in another state with no sales tax) is the same "selling price" as defined for retail sales tax purposes. In such cases the value of the property traded-in will be excluded from the use tax measure.

The consumer-user, or any out-of-state seller who is registered in this state and collects this state's use tax, must retain the sales records reflecting property "traded-in," as explained earlier in this rule.

Preparing Tax Returns

The gross amounts reported under column 2 on the Combined Excise Tax Return should be the same amounts on both the Retailing business and occupation tax line (line 19) and the retail sales tax lines (line 22 or line 20 where applicable). The reduction of the "selling price" tax measure for property traded-in should be reflected as a deduction under column 3, line 22. Until return forms are amended, this sales tax deduction should be shown on the back side of the form, line 20, under "Other Deductions" and explained as "trade-in sales."

Reviser's note: Errors of punctuation or spelling in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

NOTICE OF PUBLIC MEETINGS
HOUSING FINANCE COMMISSION
[Memorandum—November 7, 1984]

The Washington State Housing Finance Commission (the "commission") will hold two open public hearings for the purpose of considering amendments to its 1984-85 state housing finance plan and the issuance by the commission of multifamily revenue bonds (the "bonds") to be issued in several series. The open public hearings will be held on Thursday, December 13, 1984, at 9:00 a.m. in the Circus-Circus Room at the Edgewater Inn, 2411 Alaskan Way, Seattle; and Friday, December 14, 1984, at 1:00 p.m. in the Washington Room of the Ramada Inn at the Spokane International Airport, Spokane.

The proposed amendments to the 1984-85 state housing finance plan are being considered by the commission to comply with requirements of the Deficit Reduction Act of 1984, which requires the commission to adopt a statement of the policies with respect to housing, development, and low-income housing assistance which the commission is to follow in issuing qualified mortgage bonds and mortgage credit certificates after December 31, 1984. The commission is considering amending its plan to include such a policy statement and to make other amendments to keep the plan current with commission activities. A copy of the proposed policy statement and a list of the other amendments may be obtained from the Commission Office at 216 First Avenue South, Suite 366, Seattle, Washington 98104.

The multifamily revenue bonds will be issued pursuant to the authority of the commission under chapter 43.180 RCW and the Internal Revenue Code of 1954, as amended (the "code").

The proceeds of the proposed bonds will be used to provide financing for the development, acquisition, construction and/or rehabilitation of multifamily residential rental projects comprised of separate and complete dwelling units containing living, eating, cooking and sanitation facilities. Twenty percent of the dwelling units (15% in targeted areas, as defined by the code) in each project will be reserved for rental to persons or families of low or moderate income as defined by the code. All projects must comply with local land use, environmental and building code requirements and underwriting standards established by mortgage lenders, including the Federal National Mortgage Association for some projects.

Written comments with respect to the proposed amendments to the state housing finance plan and the proposed housing projects and the proposed bonds may be mailed to the Washington State Housing Finance Commission, 216 First Avenue South, Suite 366, Seattle, Washington 98104, for receipt no later than December 7, 1984. Public testimony will be heard from all interested members of the public attending the hearing.

Below is a list of projects for which applications have been received and which will be considered for financing through the issuance of the bonds. Only those projects which meet local requirements, strict underwriting

standards and are determined to be financially feasible will be considered for financing. The commission will consider the public testimony and written comments in determining which projects will receive financing.

Pursuant to the code, the commission is required to state the estimated aggregate face amount of the bonds. If all the projects meet the above requirements and were funded, the maximum aggregate face amount of the bonds would be approximately \$58,965,000 million dollars.

STATEMENT OF PURPOSE

Title: Adding new trade practices sections to chapter 284-30 WAC and amending WAC 284-30-390.

The purpose of the proposed rules is to define unfair and prohibited trade practices, and to establish standards to be met by insurers, agents and solicitors, adding new sections to the trade practices, chapter 284-30 WAC pertaining to receipts for premiums; private passenger automobile insurance standards; property and casualty insurance applications and binders; disclosure of reasons for canceling, denying or refusing to renew insurance; delivery and retention of policies; and amending WAC 284-30-390. The general statutory authority for the rules is RCW 48.02.060, primarily to effectuate RCW 48.30.010 which permits the insurance commissioner to define methods of competition and other acts and practices in the conduct of the business of insurance

reasonably found by him to be unfair or deceptive. In addition, the rules effectuate certain specific statutes as indicated below.

The amendment to WAC 284-30-390 clarifies existing language to emphasize that insurers must rely upon automobile repair shops which are properly equipped to make the repairs with suitably trained personnel. This is particularly important because of unibody construction of cars. This amendment will assist the insurance commissioner in dealing with problems arising out of disputes related to competency of shops and quality of repairs. The primary statutory authority is RCW 48.30.010.

Proposed WAC 284-30-500 pertains to vehicle insurance. It will require that private passenger auto policies provide liability limits at least equal to those imposed by the financial responsibility law, specifically RCW 46.29-.090. It will prohibit such policies from limiting or excluding liability coverage because of family or household relationships, within the limits equal to the financial responsibility law's limits. It will prohibit liability insurance exclusions with respect to motorcycle passengers' injuries, within the bodily injury liability limits required by the financial responsibility law. These standards will give insureds the protection the legislature obviously contemplated in enacting the financial responsibility law. In addition, the proposed rule will require that named insureds under private passenger auto policies be given an itemization of the premium charges both at commencement of coverage and with each offer to renew. Most insurers do this now, but some give only the total charge for all coverages combined, and an insured can not readily determine the exact costs of the various coverages making up the entire package. Among other things, the rule will assist insureds to shop-around and to get the best buy for their money in auto insurance. Personal injury protection, commonly referred to as PIP, is often included in the private passenger automobile insurance policies written in Washington state. It provides first-party coverage to insureds (including passengers) for medical expenses, loss of wages and loss of services about the home, regardless of fault. Some insurers have not increased the limits available under the coverage in ten years or thereabouts, with the result that some people have considerably less protection than they need or probably believe they have. The proposed rule will require insurers to offer higher limits, as specified in the rule, and thereby more realistically protect the insured with respect to wage loss and medical expenses. The statutory basis for proposed WAC 284-30-500, in addition to RCW 48.30.010, is RCW 48.01.030 and 48.18-.110 (1)(c).

Proposed WAC 284-30-550 requires that receipts be given. It applies to agents, solicitors and other company representatives who receive payments for insurance in cash, or by checks which are not payable to the insurance company. (The effect of the rule can be avoided by having the check made out to the insurance company.) The receipt may be incorporated in an application or binder, if appropriate. Contents of the receipt are specified and a copy must be retained pursuant to the rule.

Most licensees already act in conformity with the requirements of the rule. It will prevent sloppy practices by others. It should also prevent agents from acting, in effect, as brokers, in that they will not be able to take the money for insurance and then search for a company—an acceptable practice for a broker, but not for an agent. It will also identify the specific insurance company which is responsible for the conduct of the agent and to whom an insured or applicant can look for a proper accounting of the funds paid. The statutory basis for the rule is RCW 48.30.010, and it also effectuates RCW 48.17.060, 48.17.470 and 48.17.480.

Proposed WAC 284-30-560 deals with applications and binders in connection with property and casualty insurance. It will require that applications clearly state whether coverage has commenced and when, or what will cause it to commence and when. The applicant is to be given a copy promptly. It will require that binders be reduced to writing and given or mailed to the insured promptly—generally by the next business day. The minimum contents of a binder are specified. It will also require that binders be replaced promptly with insurance policies and a failure to do so within 90 days and in compliance with RCW 48.18.230(2) is an unfair practice. This rule tightens up the requirements for applications and binders so that the insurance buying public will receive better and more accurate disclosures. Most insurers have improved their application and binder forms over the years, but some still lack sufficient clarity and too many are not sufficiently definite in specifying when or whether coverage has commenced. The statutory basis for the rule is primarily RCW 48.30.010, but RCW 48.18.110 and 48.18.230 are also effectuated.

Proposed WAC 284-30-570 relates to situations where the legislature has told insurers that they must give the reason for canceling, denying or refusing to renew insurance. The purpose of the rule is to emphasize that the actual reason for the action must be given by the insurer with sufficient clarity that the recipient won't have to search elsewhere for the reason. The rule will effectuate such statutes as RCW 48.18.291 and 48.18.292 which relate to nonrenewals and cancellations of auto insurance, and RCW 48.30.320 which applies to actions concerning individual life, individual disability, homeowner, dwelling fire and private passenger automobile insurance.

Proposed WAC 284-30-580 will require that policies be delivered promptly by actual physical delivery, and agents will be prohibited from holding policies as custodians for others. The purpose of the rule is to place policies where they belong—in the possession of the consumer. It will prevent agents (who actually represent insurance companies, not insureds) from having an unfair advantage by holding another's policy. The rule will permit agents to obtain insurance policies and hold them briefly for analysis or servicing, and should encourage better competition in that policies will be available from their owners, instead of from some agent. When a policy is obtained for such purpose, the agent must give a receipt therefor. The statutory basis for the rule is RCW 48.30.010, with respect to defining unfair practices and

unfair competition, and it also effectuates RCW 48.18.260 which relates to delivery of policies.

Robert E. Johnson, Deputy Insurance Commissioner, (206) 753-2406, with the assistance of Scott Jarvis and Patricia Petersen, Deputies, was primarily responsible for drafting the rules. As deputy in charge of the consumer protection division, he, and Virgil McQueen, Deputy Commissioner for Company Supervision, (206) 753-7303, will share responsibility for the implementation and enforcement of the proposed rules. Their addresses are Insurance Building, AQ-21, Olympia, Washington 98504.

The rules are proposed by the Insurance Commissioner, a state public official.

The proposed rules are not necessary as the result of federal law or federal or state court action.

Small Business Economic Impact Statement: The cost per employee or per hour of labor for small businesses is estimated to be zero. The cost per employee or per hour of labor for larger businesses is estimated to be zero. For the most part, the rules require greater disclosure or utilization of information already available. Some insurers will have to upgrade their rates and forms, as, for example, in meeting the vehicle insurance requirements established by proposed WAC 284-30-500, but that is the nature of conducting the business of insurance and must be done periodically. There is not greater impact on an insurer with fifty or fewer employees than on one with more employees. The requirement that insureds be given an itemization of the premium charge for their private passenger automobile will require some work by a few companies. However, they already have all the information and the various figures which add up to the final premium figure and they need only break them out and report the respective figures to the consumer. Assuming there is an adverse economic impact on an insurer with fifty or fewer employees as a result of the rules, the right of the consumer to be treated fairly and to receive proper disclosure in insurance transactions greatly outweighs what could only be a modest affect on the insurer. In considering the protection of the public, the number of employees an insurer has should be irrelevant.

AMENDATORY SECTION (Amending Order R 78-3, filed 7/27/78, effective 9/1/78)

WAC 284-30-390 STANDARDS FOR PROMPT, FAIR AND EQUITABLE SETTLEMENTS APPLICABLE TO AUTOMOBILE INSURANCE. The following standards apply to insurance claims relating to motorcycles and private passenger automobiles as defined in RCW 48.18.297: (1) When the insurance policy provides for the adjustment and settlement of first party automobile total losses on the basis of actual cash value or replacement with another of like kind and quality, one of the following methods must apply:

(a) The insurer may elect to offer a replacement automobile which is a specific comparable automobile available to the insured, with all applicable taxes, license fees and other fees incident to transfer of evidence of ownership of the automobile paid, at no cost other than any deductible provided in the policy. The offer and any rejection thereof must be documented in the claim file.

(b) The insurer may elect a cash settlement based upon the actual cost, less any deductible provided in the policy, to purchase a comparable automobile including all applicable taxes, license fees and other fee incident to transfer of evidence of ownership of a comparable automobile. Such cost may be determined by

(i) The cost of a comparable automobile in the local market area when a comparable automobile is available in the local market area.

(ii) One of two or more quotations obtained by the insurer from two or more qualified dealers located within the local market area when a comparable automobile is not available in the local market area.

(c) When a first party automobile total loss is settled on a basis which deviates from the methods described in subsections (1)(a) and (1)(b) of this section, the deviation must be supported by documentation giving particulars of the automobile condition. Any deductions from such cost, including deduction for salvage, must be measurable, discernible, itemized and specified as to dollar amount and shall be appropriate in amount. The basis for such settlement shall be fully explained to the first party claimant.

(2) Where liability and damages are reasonably clear, insurers shall not recommend that third party claimants make claim under their own policies solely to avoid paying claims under such insurer's insurance policy or insurance contract.

(3) Insurers shall not require a claimant to travel unreasonably either to inspect a replacement automobile, to obtain a repair estimate or to have the automobile repaired at a specific repair shop, or to obtain a temporary rental or loaner automobile.

(4) Insurers shall, upon the claimant's request, include the first party claimant's deductible, if any, in subrogation demands. Subrogation recoveries shall be shared on a proportionate basis with the first party claimant, unless the deductible amount has been otherwise recovered. No deduction for expenses can be made from the deductible recovery unless an outside attorney is retained to collect such recovery. The deduction may then be for only a pro rata share of the allocated loss adjustment expense.

(5) If an insurer prepares an estimate of the cost of automobile repairs, such estimate shall be itemized and shall be in an amount for which it may be reasonably expected the damage can be satisfactorily repaired. The insurer shall give a copy of the estimate to the claimant and shall, upon request, furnish to the claimant the names of repair shops convenient to the claimant that are properly equipped and have personnel adequately trained to make the necessary repairs and will satisfactorily complete the repairs for the estimated cost.

(6) In first party claim situations, if an insurer elects to exercise a contract right to repair and designates a specific repair shop for automobile repairs, the insurer shall cause the damaged automobile to be restored to its condition prior to the loss at no additional cost to the claimant other than as stated in the policy and within a reasonable period of time.

(7) In any claim situation, an insurer shall make a good faith effort to honor a claimant's request for repairs to be made in a specific repair shop of the claimant's choice, and shall not arbitrarily deny such request. A denial of such a request solely because of the repair shop's hourly rate is arbitrary if such rate does not result in a higher overall cost of repairs. The insurer shall make an appropriate notation in its claim file setting forth the reason it has rejected a claimant's request.

(8) Deductions for betterment and depreciation are permitted only for parts normally subject to repair and replacement during the useful life of the insured motor vehicle. Deductions for betterment and depreciation shall be limited to the lesser of an amount equal to the proportion that the expired life of the part to be repaired or replaced bears to the normal useful life of that part, or the amount which the resale value of the vehicle is increased by the repair or replacement. Calculations for betterment, depreciation, and normal useful life must be included in the insurer's claim file.

NEW SECTION

WAC 284-30-500 UNFAIR PRACTICES WITH RESPECT TO VEHICLE INSURANCE. (1) Beginning July 1, 1985, the following practices by any insurer with respect to every vehicle liability insurance policy applicable to private passenger automobiles registered or principally garaged in this state are unfair and prohibited:

(a) Failing to provide, to any insured under such policy, liability limits at least as great as those required by RCW 46.29.090, as measured at the effective date of the pertinent policy or its renewal;

(b) Denying or limiting liability coverage in such policy to less than the limits required by RCW 46.29.090, solely because the injured person is related to the insured by blood or marriage, as, for example, through use of so-called "family" or "household" exclusions;

(c) Limiting liability coverage in such policy, with respect to injuries sustained by motorcycle passengers, to an amount below the bodily injury liability limits required by RCW 46.29.090.

(2) Beginning July 1, 1985, the following practices by any insurer, with respect to vehicle insurance policies applicable to private passenger vehicles registered or principally garaged in this state, are unfair and prohibited:

(a) Failing to provide a named insured under such policy an itemization of the premium costs for the coverages under the policy as to which there are identifiable separate premium charges. Such itemization shall be given no later than the time of delivery of a policy and with each offer to renew thereafter;

(b) Failing, except with respect to a motorcycle policy, to provide, to any named insured who so requests and pays the premium therefor, first party automobile medical payments coverage or personal injury protection, on approved forms commonly used by the insurer in the state of Washington, with maximum benefit limits, as appropriate to the particular form, of at least:

(i) \$35,000 for medical and hospital benefits incurred within three years of the accident, and \$3,500 for funeral services;

(ii) \$35,000 for income continuation benefits, subject to a limit of the lesser of \$700 per week or eighty-five percent of the weekly income; and

(iii) \$40 per day for loss of services benefits, for at least a year.

(3) For purposes of this section, the definition of a "private passenger automobile" is that set forth in RCW 48.18.297, and includes a motorcycle except as otherwise specifically provided in this section.

NEW SECTION

WAC 284-30-550 RECEIPTS TO BE GIVEN. (1) Beginning April 1, 1985, to effectuate RCW 48.17.470 and 48.17.480 and to eliminate unfair practices in accord with RCW 48.30.010, any agent, solicitor or other representative of an insurer who receives a contract payment or premium from or on behalf of an insured or applicant for homeowners', dwelling fire, private passenger automobile, motorcycle, individual life, or individual disability insurance shall deliver or mail a signed receipt therefor as promptly as possible, which should generally be no later than the next business day. Such receipt must be dated, identify the agent and the agent's address, identify the person by or for whom payment is made, state the amount received, identify the applicable insurer by its full legal name (or the premium finance company or Washington Automobile Insurance Plan if payment is intended therefor), and identify the contract or policy including a brief description of the coverage for which payment is received.

(2) The receipt need not be an independent document but may be incorporated in an application or binder, if appropriate.

(3) The agent or representative shall keep a copy of each receipt available for the inspection of the commissioner, in the manner and for the time specified by RCW 48.17.470 whether or not that statute is applicable to the particular transaction.

(4) For purposes of this section "insurer" includes a health care service contractor and a health maintenance organization, and "disability insurance" includes their contracts and agreements.

(5) This section shall not apply to the receipt of checks or other instruments payable on their face to the insurer, premium finance company or the Washington Automobile Insurance Plan.

(6) A failure to comply with this section shall be an unfair practice pursuant to RCW 48.30.010, and a violation of a regulation pursuant to RCW 48.17.530.

(7) Each insurer shall inform its agents and appropriate representatives of the requirements of this section.

NEW SECTION

WAC 284-30-560 APPLICATIONS AND BINDERS. (1) Beginning June 1, 1985, every application form used in connection with property, marine and transportation, vehicle and general casualty insurance, as those kinds of insurance are defined in chapter 48.11 RCW, shall contain a clear and conspicuous statement setting forth whether or not coverage has commenced.

(a) If coverage has commenced, the effective date shall be stated.

(b) If coverage has not commenced, there shall be an explanation as to the circumstances which will cause coverage to commence and the time when coverage will become effective.

(c) The statement concerning commencement of coverage shall not be minimized, rendered obscure, or presented in an ambiguous fashion or intermingled with the other contents of the application so as to be confusing, misleading or not readily evident.

(d) A copy of such application shall be delivered or mailed to the applicant promptly following its execution.

(2) Beginning June 1, 1985, every binder used pending the issuance of a policy of property, marine and transportation, vehicle and general casualty insurance, as those kinds of insurance are defined in chapter 48.11 RCW, shall be reduced to writing or printed form and delivered or mailed to the insured as promptly as possible, which should generally be no later than the next business day.

(a) Such binder must be dated, identify the insurer in which coverage is bound, briefly describe the coverage bound, state the date and time coverage is effective, and acknowledge receipt of the amount of any premium money received.

(b) Such binder may be incorporated in or be attached to the application for the insurance but must be clear and conspicuous.

(3) Binders should be replaced promptly with insurance policies. With few exceptions and then only in compliance with RCW 48.18.230(2), insurers must replace binders within ninety days of their effective date.

(4) It shall be an unfair practice and unfair competition for an insurer or agent to engage in acts or practices which are contrary to or not in conformity with the requirements of this section, and a violation of this section is prohibited and shall subject an insurer and agent to the penalties or procedures set forth in RCW 48.05.140, 48.17.530, or 48.30.010.

(5) Each insurer shall inform its agents and appropriate representatives of the requirements of this section.

NEW SECTION

WAC 284-30-570 ACTUAL REASON FOR CANCELING, DENYING OR REFUSING TO RENEW INSURANCE TO BE DISCLOSED. Whenever an insurer is required by law to give the reason for its canceling, denying, or refusing to renew insurance, as, for example, pursuant to RCW 48.18.291, 48.18.292, or 48.30.320, it shall give the true and actual reason for its action in clear and simple language, so that the insured or other individual will not need to resort to additional research to understand the real reason for the action. It is not sufficient, for example, to state that an insured "does not meet the company's underwriting standards." The reason why the individual does not meet such underwriting standards is what must be given.

NEW SECTION

WAC 284-30-580 POLICIES TO BE DELIVERED, NOT HELD BY AGENTS. (1) RCW 48.18.260 requires that policies be delivered within a reasonable period of time after issuance. If an insurer relies upon its agents to make deliveries of its policies, the insurer, as well as the agent, is responsible for any delay resulting from the failure of the agent to act diligently.

(2) Insurance agents delivering insurance policies to insureds must make an actual physical delivery. It is not acceptable for an agent to merely obtain a receipt indicating a delivery and then to retain the policy, for safekeeping or otherwise, in the agent's possession.

(3) Agents may obtain policies from owners or insureds and hold such policies briefly for analysis or servicing, giving a receipt therefor in every instance, but shall promptly return any such policies to their owners or insureds. Agents shall not otherwise take custody of, or hold, insurance policies, whether for fee or at no charge, unless a family or legal relationship clearly justifies such conduct, as, for example, where a policy belonging to a minor child of the agent is held, or where the agent is acting as a legal guardian or a court appointed representative and holds a policy of a ward or of an estate.

(4) It shall be an unfair practice and unfair competition for an insurer or agent to engage in acts or practices which are contrary to or not in conformity with the requirements of this section, and a violation of this section is prohibited and shall subject an insurer and agent to the penalties or procedures set forth in RCW 48.05.140, 48.17.530, or 48.30.010.

(5) Each insurer shall inform its agents and appropriate representatives of the requirements of this section.

Acting Deputy Director

RULE BACKGROUND STATEMENT

The growth of the state of Washington's population and economy places greater demands on available water resources, including the state's ground water supplies. Current ground water laws and regulations, which are based on the first in time is first in right (prior appropriation doctrine) contain some uncertainties concerning the consequences of one water user's use or proposed use of the ground water interfering with another water user's use. The extent to which a water user's withdrawal facilities are protected and how such protection is obtained and enforced is not clear in all cases. Controversies concerning dropping water tables, interference between withdrawal facilities, the degree of protection afforded by statute and the procedures to be employed in the exercise of statutory authority are arising in many areas of the state. The intent of the proposed regulation, chapter 173-150 WAC, protection of withdrawal facilities associated with ground water rights, is to clarify relevant existing ground water management policies and to set forth the specific procedures to be followed by the department of ecology in the protection of ground water withdrawal facilities pursuant to chapter 90.44 RCW.

STATEMENT OF PURPOSE

Title: Chapter 173-150 WAC, Protection of withdrawal facilities associated with ground water rights.

Description of Purpose: Sets forth policies and procedures to be followed in protection of availability of ground water to water withdrawal facilities.

Statutory Authority: Chapters 43.21A, 90.44, 90.54 and 18.104 RCW.

Summary of Rule: Defines qualifying withdrawal facilities, degree of protection to be afforded and procedures to be followed to invoke agency response.

Reasons Supporting Proposed Action: The Department of Ecology (WDOE) has determined that there is a need to adopt a regulation stating the degree of protection of ground water rights and withdrawal facilities authorized by statute and to establish a standardized procedure and policy for implementing the statutes.

Agency Personnel Responsible for Drafting: David Peeler, MS PV-11, Olympia, WA 98504, (206) 459-6120; Implementation: Eugene F. Wallace, MS PV-11, Olympia, WA 98504, (206) 459-6055; and Enforcement: Don Dubois, MS PV-11, Olympia, WA 98504, (206) 459-6054.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: Implementation and enforcement will be the responsibility of WDOE regional office staff.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: No.

Small Business Economic Impact Statement: Issued October 1, 1984.

Chapter 173-150 WAC

Protection of withdrawal facilities associated with ground water rights

NEW SECTION

WAC 173-150-010 PURPOSE. The purpose of this chapter is to establish and set forth the policies and procedures of the department of ecology in regard to the protection of the availability of ground water as it pertains to the water withdrawal facilities of holders of ground water rights.

NEW SECTION

WAC 173-150-020 AUTHORITY. This chapter is promulgated by the department of ecology pursuant to chapters 43.21A, 90.44, 90.54 and 18.104 RCW.

NEW SECTION

WAC 173-150-030 DEFINITIONS. For the purposes of this chapter the following definitions shall apply:

(1) "Department" means the Washington State department of ecology.

(2) "Ground water right" means an authorization to use ground water established pursuant to chapter 90.44 RCW, state common or statutory law existing prior to the enactment of chapter 90.44 RCW, or federal law.

(3) "Withdrawal facilities" means and includes any well, infiltration trench or other excavation that is drilled, cored, bored, washed, driven, dug, jetted or otherwise constructed, together with the casing, screen, pump, pump column, motor and related equipment, which is used for the withdrawal of ground water.

(4) "Aquifer" means any geologic formation that will yield water to a well or other withdrawal works in sufficient quantity for beneficial use.

(5) "Ground water" means all waters that exist beneath the land surface or beneath the bed of any stream, lake or reservoir, or other body of surface water, whatever may be the geological formation or structure in which such water stands or flows, percolates or otherwise moves.

(6) "Contamination" means an impairment of the beneficial use of ground water arising from the modification of the quality thereof by the introduction of organisms, chemical, organic or radioactive material or of heated or cooled water.

(7) "Significant modification" means the deepening or reaming of a well, lowering the pump bowls by adding lengths of pump column, adding water quality treatment devices, or other similar modifications, where the total cost of such modifications exceeds \$1000.00.

(8) "Qualifying withdrawal facilities" means those withdrawal facilities which in the opinion of the department constitute a reasonable development of the aquifer. A reasonable development must satisfy the following requirements:

(a) The withdrawal facilities must be constructed in accordance with chapter 18.104 RCW (Water Well Construction Act) and chapter 173-160 WAC (Minimum Standards for Construction and Maintenance of Water Wells);

(b) The withdrawal facilities must have a depth of aquifer penetration which will allow the withdrawal of water from a reasonable or feasible pumping lift;

(c) The withdrawal facilities must be able to accommodate a reasonable variation in seasonal water levels;

(d) The withdrawal facilities, including the pumping facilities, must be properly sized to the ability of the aquifer to produce water.

NEW SECTION

WAC 173-150-040 REASONABLE OR FEASIBLE PUMPING LIFT. For the purposes of this chapter, reasonable or feasible pumping lift shall be determined by the department taking into account the following factors, among others:

(1) The geohydraulic characteristics of the aquifer;

(2) The state of construction technology of water withdrawal facilities;

(3) Economic considerations in regards to the construction, maintenance and use of water withdrawal facilities.

NEW SECTION

WAC 173-150-050 ESTABLISHMENT OF NEW RIGHTS-INTERFERENCE CONSIDERATIONS. If the department determines that a proposed appropriation of ground water would cause a lowering of the water levels below a reasonable or feasible pumping lift in any withdrawal facilities of an existing ground water right holder or that approval of the proposed appropriation would impair any existing water rights or would otherwise be detrimental to the public welfare, the application shall be rejected. If, however, the application is to be rejected because of conflict with existing rights, and the applicant thereafter indicates that such existing rights will be acquired by the applicant by purchase, gift or condemnation under RCW 90.03.040, the department may issue an interim conditional ruling and defer final decision on the application for a reasonable period of time to be specified by the department in the interim ruling.

NEW SECTION

WAC 173-150-060 IMPAIRMENT OF WATER RIGHT. For the purposes of this chapter, a ground water right, which consists in part of qualifying withdrawal facilities, shall be deemed to be impaired whenever:

(1) There is an interruption or an interference in the availability of water to said facilities, including a reduction in water quality or water quantity, caused by the withdrawal of ground water by a junior water right holder or holders; and

(2) Significant modification is required to be made to said facilities in order to allow the senior ground water right to be exercised.

NEW SECTION

WAC 173-150-070 NOTIFICATION OF IMPAIRMENT OF RIGHT. Any senior ground water right holder who believes that his water right has been impaired may notify the department of such impairment and request the assistance of the department to protect the availability of water to his withdrawal facilities. Such notification and request for assistance must be in writing and must contain the following information:

(1) Name, address and signature of the senior water right holder;

(2) Description of the water right, including the water right number if one exists; the quantities of water permitted and the quantities of water historically withdrawn; the priority date of the water right; the location of the withdrawal facilities; a description of the withdrawal

facilities including well depth, casing, pump size and depth and historic water levels, especially in relation to WAC 173-150-030(8); the name of the water well contractor and a copy of the water well report of the construction of the withdrawal facilities, if one exists;

(3) Description of the alleged impairment of the senior water right, the date of the beginning of impairment, the degree of impairment and any steps taken by the senior water right holder to alleviate the impairment;

(4) Location and description of the junior water withdrawal facilities together with the name of the user thereof, if known, which in the opinion of the senior water right holder are the cause of the impairment;

(5) Any other information which may be required by the department.

NEW SECTION

WAC 173-150-080 PROCEDURES FOR CORRECTION OF IMPAIRMENT. Upon notification to the department of the impairment of a ground water right as provided in WAC 173-150-070 or on the department's own motion, the department may, when appropriate, notify the water right holders of the alleged impairment and of its intention to make investigations concerning the matter. The department may make investigations of the withdrawal works, geology, hydrology, water quality, historic water use or other factors which may influence the local aquifers, and may make a written report of its findings. If it is determined that ground water withdrawals by a junior water right holder or holders have caused the impairment, the department may, through regulatory orders, take one or more of the following actions:

(1) Bar or regulate the withdrawals of the junior appropriator(s) in a fashion which will preclude future impairment of the senior right;

(2) Bar or regulate the ground water withdrawals of the most junior water right holders in order of priority of right if the aggregate withdrawals exceed the maximum amount set by the department for the area, subarea or zone pursuant to the procedures of RCW 90.44.180;

(3) Require the well owner(s), including the senior water right holder, to rehabilitate or abandon the well(s) in accordance with chapter 173-160 WAC in the case of impairment caused by the failure of wells to meet the well construction standards or the requirements of water right permit or certificate provisions, if any;

(4) Rescind authorizations for additional junior withdrawal facilities, where the department finds that an appropriation by a junior right holder is the cause of the impairment and where the said junior ground water right holder has not yet constructed all of the authorized withdrawal facilities. The department shall include a provision concerning the possibility of such rescissions as a condition on ground water permits with multiple points of withdrawal.

NEW SECTION

WAC 173-150-090 VOLUNTARY AGREEMENTS. (1) Notwithstanding the provisions of WAC 173-150-080, should the senior and junior water right holders reach a voluntary agreement which satisfies the concerns stated in the notification of impairment, the department, if it determines that the public interest is fully protected thereby, shall not regulate the withdrawals by the junior water right holder under this regulation.

(2) If such an agreement includes provisions for the delivery of water from another water withdrawal facility to the holder of the senior water right, said agreement shall not take effect until all requirements of RCW 90.44.100 are satisfied or, if a new right to withdraw water is required to be established, a permit is issued pursuant to RCW 90.44.050.

NEW SECTION

WAC 173-150-100 WATER QUALITY. As a general rule, an element of a ground water right is the right to use waters of quality appropriate to the beneficial use. In addition to the protection of the availability of ground water to the water withdrawal facilities of ground water right holders, it shall be the policy of the department to protect the quality of the ground waters of the state and in relation thereto to discourage any withdrawal facilities construction methods, water use or disposal practices which would contaminate or otherwise reduce the quality of the ground waters or impair the beneficial uses of ground waters of the state.

NEW SECTION

WAC 173-150-110 SALTWATER INTRUSION AND GROUND WATER CONTAMINATION. In addition to the procedures outlined in WAC 173-150-080, the department may regulate or control saltwater intrusion conditions caused by withdrawals from a freshwater aquifer or ground water contamination caused by improper well construction techniques or other causes, through other means, including artificial recharge projects, the importation of additional water from other sources, or any other means deemed by the department to be reasonable, feasible and appropriate.

NEW SECTION

WAC 173-150-120 APPLICABILITY. The provisions of this chapter shall apply to all ground water rights and ground water users within the state, except that WAC 173-150-080 shall apply only to permits issued subsequent to the effective date of this chapter, or to withdrawal facilities which are the subject of an application for change of water right filed pursuant to RCW 90.44.100 subsequent to the effective date of this chapter.

NEW SECTION

WAC 173-150-130 APPEALS. (1) Regulatory orders issued by the department pursuant to this chapter shall be issued in accordance with RCW 43.27A.190.

(2) All final decisions of the department pertaining to permits, regulatory orders, and related decisions shall be subject to review by the pollution control hearings board under chapter 43.21B RCW.

NEW SECTION

WAC 173-150-140 EXISTING LAWS AND REGULATIONS NOT AFFECTED. Nothing in this chapter shall be construed to in any manner limit the authority of the department to administer and enforce the existing water resources laws of the state, including but not limited to chapters 18.104, 90.03, 90.36, 90.44, 90.48 and 90.54 RCW, and regulations promulgated thereunder.

Chapter 173-154 WAC

PROTECTION OF UPPER AQUIFER ZONES

NEW SECTION

WAC 173-154-010 BACKGROUND. In many parts of the state ground water aquifers exist at various depths below land surface. Such aquifers or groups of such aquifers may demonstrate a natural hydraulic separation to a significant degree over local or regional areas as evidenced, in part, by differing hydraulic heads and variable responses to pumping stress. The upper aquifer or upper aquifer zone often will not yield water in sufficient or sustainable quantities for uses which require a large volume of water. Therefore, they have often been traditionally used for domestic water supplies, stockwatering and other uses that require only minimal water supplies and for which it is not cost effective to tap deeper aquifers. Further, the uppermost aquifers also commonly contribute to spring and stream flows. In some cases, the

withdrawal of water from the lower aquifers causes the depletion of the upper aquifers through cascading waters or simultaneous withdrawals from both upper and lower aquifers, and in such cases, poor quality waters from one zone can also contaminate a different aquifer zone.

NEW SECTION

WAC 173-154-020 PURPOSE. The purpose of this chapter is to establish and set forth the policies and procedures of the department of ecology in regard to the protection of the occurrence and availability of ground water within the upper aquifers or upper aquifer zones where there are multiple aquifer systems. Consistent therewith, the department shall manage the state's ground water resources in a manner that protects, to the extent practicable, the upper aquifers of multiple aquifer systems from depletions, excessive water level declines or reductions in water quality, and which recognizes that the highest and best use of the waters of limited capacity aquifers may be for domestic, stockwater and other similar uses.

NEW SECTION

WAC 173-154-030 AUTHORITY. This chapter is promulgated by the department of ecology pursuant to chapters 18.104, 43.21A, 90.44 and 90.54 RCW.

NEW SECTION

WAC 173-154-040 DEFINITIONS. For the purposes of this chapter the following definitions shall apply:

(1) "Department" means the Washington State department of ecology.

(2) "Ground water right" means an authorization to use ground water established pursuant to chapter 90.44 RCW, state common or statutory law existing prior to the enactment of chapter 90.44 RCW, or federal law.

(3) "Withdrawal facilities" means and includes any well, infiltration trench or other excavation that is drilled, cored, bored, washed, driven, dug, jetted or otherwise constructed, together with the casing, screen, pump, pump column, motor and related equipment which is used for the withdrawal of ground water.

(4) "Aquifer" means any geologic formation that will yield water to a well or other withdrawal facilities in sufficient quantity for beneficial use.

(5) "Ground water" means all waters that exist beneath the land surface or beneath the bed of any stream, lake or reservoir, or other body of surface water, whatever may be the geological formation or structure in which such water stands or flows, percolates or otherwise moves.

(6) "Multiple aquifer system" means any geologic formation(s) which contains distinct aquifers at different depths that exhibit a significant degree of local or regional hydraulic separation.

(7) "Upper aquifer zone" means all aquifers lying between the land surface and a depth or geologic formation, as determined by the department consistent with the purposes of this chapter, within a multiple aquifer system.

(8) "Lower aquifer zone" means any aquifers occurring at a depth below the upper aquifer zone, as determined by the department, within a multiple aquifer system.

(9) "Cascading waters" means any ground waters which fall or flow downward through a well or other withdrawal facilities, from one ground water aquifer to another.

(10) "Rehabilitation of withdrawal facilities" means the work necessary to reconstruct or modify existing withdrawal facilities in order to bring them into conformance with applicable laws, regulations, permit or certificate provisions and orders of the department.

NEW SECTION

WAC 173-154-050 PROTECTION OF UPPER AQUIFER ZONES. In any multiple aquifer system, where the department determines that the uppermost aquifers or upper aquifer zone will not sustain large volume ground water withdrawals without (1) causing adverse effects to existing water rights, (2) an unreasonable drop in the water table, (3) permanent damage to the aquifer through depletion of the aquifer or zone, or (4) a reduction in water quality, the department shall require new or additional withdrawals to be restricted to a lower

aquifer zone. Permits for withdrawals of water from such lower aquifer zones shall specify an approved manner of construction of the withdrawal facilities, including a minimum and maximum well depth, specific casing and sealing requirements, and the construction of monitoring wells for the purpose of periodic measurements in areas where the aquifers cannot be readily monitored through the use of existing wells.

NEW SECTION

WAC 173-154-060 INSPECTIONS AND TESTS. In any case where the department requires a specific manner of construction of withdrawal facilities under WAC 173-154-050, the department may also require inspections and/or tests of the withdrawal facilities in order to verify the proper construction of the facilities prior to any withdrawals therefrom, except for testing purposes. Such inspections and tests shall be performed at the expense of the holder of the permit, except that there shall be no charge for any portions of such tests or inspections which are performed by department employees. If it is the determination of the department that the facilities are not properly constructed or that the facilities may adversely affect the upper aquifers or upper aquifer zone, the department may (1) require further construction and/or testing of the facilities, or (2) require abandonment of the facilities in accordance with chapter 173-160 WAC, or (3) revoke the permit.

NEW SECTION

WAC 173-154-070 REHABILITATION OF WITHDRAWAL FACILITIES. The department may require the rehabilitation of existing withdrawal facilities if it finds that the facilities were not constructed or are presently not in a condition that accords with the permit provisions, if any, or the applicable laws and regulations of the department which were in effect at the time of construction of the facilities, and that the withdrawal of waters from such facilities will adversely affect the upper aquifers or upper aquifer zone. The department shall allow a reasonable period for completion of such rehabilitation.

NEW SECTION

WAC 173-154-080 DEEPENING OF WITHDRAWAL FACILITIES. At any time that the holder of a valid ground water right proposes to deepen a withdrawal facility, the modification of the facility shall be made in such a manner as to preclude the occurrence of cascading waters. Such a facility shall not be deepened to tap a different body of public ground water, or a different aquifer zone where such zones have been determined by the department, without further appropriate authorization from the department.

NEW SECTION

WAC 173-154-090 APPLICABILITY. The provisions of this chapter shall apply to all ground water rights within the state, except that WAC 173-154-050 and WAC 173-154-060 shall apply only to permits issued subsequent to the effective date of this chapter and to withdrawal facilities which are the subject of an application for change of water right filed pursuant to RCW 90.44.100 subsequent to the effective date of this chapter.

NEW SECTION

WAC 173-154-100 APPEALS. (1) Regulatory orders issued by the department pursuant to this chapter shall be issued in accordance with RCW 43.27A.190.

(2) All final decisions of the department pertaining to permits, regulatory orders, and related decisions shall be subject to review by the pollution control hearings board under chapter 43.21B RCW.

NEW SECTION

WAC 173-154-110 EXISTING LAWS AND REGULATIONS NOT AFFECTED. Nothing in this chapter shall be construed to limit in any manner the authority of the department to administer and enforce the existing water resources laws of the state, including but not limited to chapters 18.104, 90.03, 90.36, 90.44, 90.48 and 90.54 RCW, and regulations promulgated thereunder.

NOTE: WAC 314-12-140 is not intended to be a relaxation in any respect of section 90 of the Liquor Act (RCW 66.28.010). As a word of caution to persons desiring to avail themselves of the opportunity to sell to retail licensees fixtures, equipment and supplies subject to the conditions and restrictions provided in section 90 of the act and the foregoing regulation, notice is hereby given that, if at any time such privilege is abused or experience proves that as a matter of policy it should be further curtailed or eliminated completely, the board will be free to impose added restrictions or to limit all manufacturers and wholesalers solely to the sale of liquor when dealing with retail licensees. WAC 314-12-140 shall not be considered as granting any vested right to any person, and persons who engage in the business of selling to retail licensees property or merchandise of any nature voluntarily assume the risk of being divested of that privilege and they will undertake such business subject to this understanding. The board also cautions that certain trade practices are prohibited by rulings issued under the Federal Alcohol Administration Act by the United States Bureau of Alcohol, Tobacco and Firearms, and WAC 314-12-140 is not intended to conflict with such rulings or other requirements of federal law or regulations.
