## STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

### 1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

### 2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** *have been adopted on an emergency basis and are set forth in ten point oblique type.*

### 3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATTER

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
  - (i) underlined matter is new matter;
  - (ii) ~~deleted matter is ((lined out and bracketed between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading **NEW SECTION**;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading **REPEALER**.

### 4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

### 5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

### 6. EDITORIAL CORRECTIONS

Material inserted by the code reviser for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [ ].

### 7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

(1) The validity of a local ordinance making it either a criminal or civil offense to be in possession of a firearm while under the influence of alcohol or other drugs will not turn on RCW 9.41.290, in the sense that such a local ordinance is, or is not, thereby statutorily preempted; instead, it will depend upon the effect which a particular ordinance has on constitutionally-protected rights.

(2) A local ordinance providing for the mandatory forfeiture of a firearm in the possession of one who is intoxicated would be within the purview of RCW 9.41.290 and, therefore, would be required to be consistent with its state statutory counterpart (RCW 9.41.098) in order to be legally effective.

**WAC 253-16-090 SELECTION OF INVESTMENT BANKING FIRMS AS UNDERWRITERS.**

(1) The authority shall maintain an approved list of underwriters which it deems qualified to act as manager or co-manager on an authority bond issue. The applicants may select an investment banking firm as senior managing underwriter for its proposed financing, from this authority maintained list. However, such selection must be approved by the authority. In every instance, the senior manager selected must be able to demonstrate a familiarity, competence and experience in the sale and structuring of higher educational facility bond financing. The applicant shall not enter into any contractual agreement with an underwriter not on the approved list until written approval has been granted by the authority.

The authority will not name an investment banking firm or firms as a co-managing underwriter or co-managing underwriters on bond issues of less than ten million dollars unless the authority determines that special circumstances so require. On each issue aggregating more than ten million dollars the authority may name a co-manager or co-managers. On each issue aggregating more than twenty million dollars the authority may name two or more co-managers. The authority will also review and approve the division of the management fee in each instance where a co-manager is named. While the authority will actually select the co-managers, it will consider recommendations from the applicant as to the selection of any co-manager or co-managers. In each instance, the applicant will be given a written notification fifteen days prior to the authority's actual designation of an investment banking firm or firms as a co-manager on a particular bond issue.

All compensation of the senior and co-managing underwriters, members of any underwriting syndicate, and placement agents shall be contingent upon the successful issuance and payment for the obligations and shall be paid from the proceeds of the sale or through the underwriting spread. The amount of the compensation for all such parties shall be determined by the authority, after considering the recommendations of the participant.

(3) Each senior or co-manager firm selected must be able to demonstrate current competence and experience in the structuring and sale of higher educational facility bond financing. In addition the senior manager or co-manager firm must meet the following minimum standards:

(a) The firm must have a minimum equity capital of twenty million dollars; and

managed or co-managed two higher educational facility bond issues within the last three calendar years; or

(c) The firm has served as a credit facility for a higher education facility within the past three years; or

(d) The firm meets other criteria as the authority may adopt from time to time which establish a firm's ability to prepare for issuance, underwrite and market bonds to be issued by the authority.

In all cases the firm should be familiar with higher educational facility financing in Washington state.

(4) For private placements the applicants may select a firm as placement agent for its proposed financing, subject to review and approval by the authority. In every instance, the placement agent selected must be able to demonstrate a familiarity with, and competence and experience in, the structuring and sale of higher education facility bonds. The applicant shall notify the authority in writing of its proposed placement agent selection fifteen days prior to the date it intends to enter into a formal contractual agreement. The authority will notify the applicant of its acceptance or rejection of the applicant's placement agent selection no later than ten days after receipt of the applicant's notification. If rejected, the authority will set forth the reasons for rejection, and the applicant will then propose another placement agent subject to authority approval in the same manner. The authority shall, in its discretion, make the final determination whether an issue is a private placement.

#### NEW SECTION

**WAC 253-16-100 SELECTION OF BOND COUNSEL.** The authority will establish a roster of bond counsels whom the authority believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bond holders, rating agencies and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on bonds issued by the authority.

The authority will notify bond counsel firms that the authority is establishing an initial roster by publishing a notice in a publication commonly circulated among bond counsels, by sending notice to each of the bond counsel firms listed in the Washington state section of the "Red Book" (Bond Buyers' Directory of Municipal Bond Dealers of the United States — 1984 spring edition) and notifying the Washington state Bar Association. Interested firms will be requested to submit their qualifications for listing on the authority's initial roster, together with its proposal for serving as bond counsel, including a determination as to whether the firm believes that a test suit is necessary as a prerequisite to the issuance of any bonds.

The authority will upon receipt of these submissions establish an initial roster of bond counsel whom the authority believes possess the requisite special expertise and professional standing to provide bond counsel opinions.

Any firm or attorney wishing to be considered for the initial roster or added to the roster shall provide the background, expertise, professional standing and a listing of approving bond counsel opinions previously written to the authority for its consideration in adding the firm's or attorney's name to the roster of bond counsel.

Law firms or attorneys may submit to the authority at any time the request to be included on the roster of approved bond counsel.

Before beginning the selection process for bond counsel from the approved roster, the authority will give notice of its intention to select bond counsel. Each firm or attorney listed on the approved roster will be asked to submit a proposal, including a fee schedule for providing bond counsel services if such proposal and fee schedule would be different from that previously submitted to the authority for establishing the approved roster. The authority when making the initial selection will review the submissions, determine the relative expertise of those who wish to be selected, and will review the fee schedule and whether the firm believes that a test case or litigation is necessary prior to the issuance of the bonds. The authority has wide discretion in selecting the attorney or attorneys or bond firm it considers to be most appropriate to provide the services, but in exercise of this discretion the authority shall consider all submitted fee schedules and the public interest in achieving the issuance of bonds on terms most favorable to the authority.

The authority will select initial bond counsel for up to a two-year period. Once every two calendar years the authority may select an attorney or bond firm to serve as new bond counsel, but the authority may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously selected may be selected again, but the authority will provide other attorneys or bond counsel on the roster with an opportunity to be selected prior to this action being taken. The authority also reserves the right to appoint bond counsel with respect to only a particular bond issue or issues.

**EMERGENCY RULES**  
**DEPARTMENT OF ECOLOGY**  
 [Order 84-42—Filed November 28, 1984]

I, Donald W. Moos, director of the Washington State Department of Ecology, do promulgate and adopt at Olympia, Washington, the annexed rules relating to state waste discharge permit program: discharges not subject to permits, WAC 173-216-050.

I, Donald W. Moos, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is delegation of authority by EPA to the department to administer a state pretreatment program appears imminent. The state Office of the Attorney General has determined that, in the case where a municipality has an approved local pretreatment program which does not use state waste discharge permits, the proposed rule change is necessary to grant the department adequate enforcement authority against industrial users which violate pretreatment requirements.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to chapter 90.48 RCW which directs that the Department of Ecology has authority to implement the provisions of Water Pollution Control.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED November 27, 1984.

**AMENDATORY SECTION** (Amending Order DE 83-29, filed 11/18/83)

**WAC 173-216-050 DISCHARGES NOT SUBJECT TO PERMITS.** (1) *The following discharges are not subject to permits under this chapter:*

(a) *Discharges to municipal sewerage systems of domestic wastewater from residential, commercial, or industrial structures.*

(b) *Any industrial or commercial discharge to a municipal sewerage system for which authority to issue permits has been granted to the municipality under RCW 90.48.165.*

(c) *Any industrial or commercial discharge to a municipal sewerage system operating under a local pretreatment program approved under section 307 of FWPCA, so long as the person undertaking such discharge complies with the applicable requirements of the pretreatment program. In the event of noncompliance, this exemption no longer applies and the discharger is immediately subject to enforcement action under chapter 90.48 RCW for discharging without a waste discharge permit.*

(d) *Discharges to municipal sewerage systems of wastes from industrial or commercial sources whose wastewater is similar in character and strength to normal domestic wastewater: PROVIDED, That such discharges do not have the potential to adversely affect performance of the system. Examples of this type of discharge sources may include hotels, restaurants, laundries and food preparation establishments.*

(e) *Discharges for which an NPDES permit from the department is required pursuant to chapter 173-220 WAC.*

(f) *Discharges of domestic wastewater from a septic tank with subsurface sewage treatment and disposal and an ultimate design capacity less than or equal to fourteen thousand five hundred gallons per day. These systems are governed by on-site sewage disposal systems, chapter 248-96 WAC which is administered by the Washington state department of social and health services.*

(g) *Discharges of domestic wastewater from a mechanical treatment system or lagoon followed by subsurface disposal with an ultimate design capacity less than or equal to three thousand five hundred gallons per day. These systems are governed by on-site sewage disposal systems, chapter 248-96 WAC which is administered by the Washington state department of social and health services.*

(2) *A permit is required for any source subject to pretreatment standards promulgated under section 307 of FWPCA, unless exempted under subsections (1)(b) and (1)(c) of this section.*

(3) *These exemptions shall not relieve any discharger from the requirement to apply all known, available, and reasonable methods to prevent and control waste discharges to the waters of the state, nor the requirement to obtain approval of plans and reports for the construction of wastewater facilities. Nothing herein shall limit the authority of the department to take enforcement action for any unlawful discharge of waste materials or other violations of the Water Pollution Control Act, chapter 90.48 RCW.*

**AMENDATORY SECTION** (Amending Order 79-18, filed 11/30/79, effective 1/1/80)

**WAC 296-17-330 OFFICERS OR MEMBERS OF A CORPORATE EMPLOYER.** As used in this manual, the terms "member" and "officer" are synonymous and mean any executive officer elected and empowered in accordance with the articles of incorporation or bylaws of a corporation and who is also a director and shareholder of the corporation.

All such regularly constituted executive officers who have not voluntarily elected to withdraw from coverage or who have been included for coverage in accordance with RCW 51.12.020 and 51.12.110 shall be included in

the corporation's statement of payroll (on a form prescribed by the department) and premium shall be charged thereon. Any such regularly constituted executive officer who is compensated by means of a wage or a salary for work performed for the corporation shall be regarded as an employee. For the purpose of this rule, wages or salary shall be construed as meaning earnings of any kind, actual or anticipated. Each executive officer electing coverage pursuant to RCW 51.12.110 shall report and pay premiums based on one hundred sixty hours per month until such time as elective adoption coverage is cancelled. This will apply to all executive officers electing coverage regardless of the method of compensation.

The statement of payroll so developed of each executive officer shall be assigned to classification 71-1, WAC 296-17-754: **PROVIDED, HOWEVER,** That the statement of payroll of each executive officer who performs such duties as are ordinarily undertaken by a superintendent, foreman, or worker, shall be assigned as provided in this manual of an individual employee who is not an executive officer: **PROVIDED FURTHER,** That no executive officer will be assigned the "clerical office" classification: **PROVIDED FURTHER,** In case the employer's business is subject to a classification which specifically includes clerical office or salesmen, and the corporate officer's duties are primarily in connection with such business, the classification assigned to the business shall apply with respect to any such executive officer.

**AMENDATORY SECTION** (Amending Order 75-28, filed 8/29/75, effective 10/1/75)

**WAC 296-17-340 SOLE PROPRIETORS AND PARTNERS.** Any individual employer (sole proprietor or partner) desiring to obtain coverage (under the authority of RCW 51.32.030, as now or hereafter amended) shall give notice in writing on a form prescribed by the department. Any such employer so covered shall be assigned without division to the governing classification; provided, in case of the employer conducting a separate enterprise, the "multiple enterprise" rule as set forth in this manual shall apply.

In case of the employer conducting any aircraft operations, the hours of the sole proprietor or partner who is a pilot or member of the crew on any aircraft used in the employer's business, shall be assigned to the appropriate aviation class and where an "aircraft operation" classification applies, the entire number of hours of the employer shall be assigned to this classification unless the records of the employer indicate the hours in which flying is performed by such employer; in such event, only the hours such employer is engaged in flying shall be assigned to the aircraft operation classification. The hours in which no flying was done shall be assigned to the governing classification. If "aircraft operations, N.O.C.," as defined in this manual, is the governing classification, the hours in which no flying was done shall be assigned to the aircraft operations, N.O.C., ground crew classification.

Each sole proprietor or partner who has elected coverage pursuant to RCW 51.32.030 shall report ((to the

~~department quarterly not less than 40 hours of employment per week for the purposes of premium computation. Any exception granted to the foregoing number of hours to be reported per week on the quarterly report form shall be dependent upon submission to the department of sufficient and satisfactory evidence in support of such exception. Any such evidence to support an exception to be considered sufficient and satisfactory must be capable of verification on any audit that may be conducted by the department)) and pay premiums based on one hundred sixty hours per month until such time as elective coverage is cancelled. This will apply to all sole proprietors and partners who have elected coverage regardless of the method of compensation.~~

AMENDATORY SECTION (Amending Order 84-11, filed 5/15/84)

WAC 296-17-350 MINIMUM PREMIUMS—ASSUMED WORKER HOURS. A minimum premium is the lowest amount of premium to be paid by an employer and is also the basis for determining premium computation for workers for whom an assumed number of worker hours must be, and hereby, is established:

(1) Minimum premium. Except as otherwise provided in this chapter, every employer shall be liable for a premium not less than ten dollars for any calendar quarter regardless of number of worker hours reported.

(2) Minimum premium for elective adoption. Any employer having in their employ any person exempt from mandatory coverage under the provisions of RCW 51.12.020 and whose application for coverage under the elective adoption provisions of RCW 51.12.110 is accepted by the director, shall have a minimum premium rate for such employer's applicable class based upon not less than 40 worker hours for each month, until such time as elective adoption coverage is cancelled: PROVIDED, That the minimum premium rate as specified above shall not apply to executive officers obtaining coverage under this rule and the elective adoption provisions of RCW 51.12.110.

(3) Apartment house, apartment hotel, motor court and similar operations. Resident managers, caretakers or other similar occupations who are employed for irregular periods and whose compensation is for a stipulated sum in money or a substitute for money shall be reported for the purpose of calculation of premiums, each four dollars of compensation in money or a substitute for money shall represent one worker hour: PROVIDED, That the employer shall not be required to report in excess of 40 hours per week for each person so employed.

(4) Commission personnel. Commission personnel are persons whose compensation is based upon a percentage of the amount charged for the commodity or service rendered. Commission personnel are to be reported for premium purposes at a minimum of assumed worker hours of not less than eight worker hours a day for part-time employment, or not less than 40 worker hours per week for full-time employment: PROVIDED, That the assumed eight worker hours daily for part-time employment will apply only if the employer's books and records are maintained so as to show separately such person's actual record of employment.

(5) Salaried personnel. Salaried personnel for the purposes of this chapter means persons whose compensation is not governed by the number of hours devoted to employment for their employer. Employers having salaried personnel in their employ shall for the purpose of premium calculation report assumed worker hours based upon ~~((40))~~ one hundred sixty worker hours for each ~~((week))~~ month in which ~~((any duties of salaried personnel are performed))~~ the employee is on salary: PROVIDED, That ~~((salaried personnel, as defined by the foregoing, who are not regularly and continuously employed by the employer may for the purpose of premium calculation compute premiums in accordance with the piece worker rule, subsection (6) of this section: PROVIDED FURTHER, The 40 hours per week may be substituted on behalf of all salaried employees by assuming 160 hours per month for each month in which employees are on salary))~~ if the employer maintains complete and accurate records, supported by original time cards or timebook entries, the employer may report and pay premium on the actual hours worked by salaried personnel. All salaried personnel must be reported in the same manner: PROVIDED FURTHER, That the department may, at its discretion, authorize some other method in assuming workers hours for premium calculating purposes in the case of contract ((teachers)) personnel employed by schools and/or school districts.

(6) Piece workers. Employees whose compensation is based upon the accomplishment of a number of individual tasks whether computed on the number of pounds, items, pieces, or otherwise, the employer shall for the purpose of premium calculation assume each two dollars of earnings of each employee as representing one worker hour: PROVIDED, That if the average rate of compensation for the applicable classification is at least \$3.00 but less than \$3.50 per worker hour the assumed amount shall be \$3.00 of earnings as representing one worker hour, and on a progressive basis, if the average compensation is at least \$3.50 but less than \$4.00 the assumed amount shall be \$3.50 of earnings as representing one worker hour, and so forth. The records of the department as compiled for the preceding fiscal year ending June 30, shall be the basis for determining the average rate of compensation for each classification: PROVIDED FURTHER, That if the employer maintains books and records to show separately the hours employed for each worker in their employ engaged in piece work then such actual worker hours shall be reported for the purpose of premium calculation. Notwithstanding any other provisions of this section, workers employed in a work activity center pursuant to WAC 296-17-779 shall be reported on the basis of the piece worker rule.

(7) Noncontact sports teams. All employers having personnel in their employ as defined under WAC 296-17-745 shall for the purpose of premium calculations, report assumed worker hours based upon 40 worker hours for each week in which any duties are performed.

(8) All employers having personnel in their employ as defined under WAC 296-17-739 shall, for the purpose of premium calculations, report assumed worker hours based upon ten hours for each mount in each horse race; professional drivers shall report worker hours based upon

ten hours for each heat or race of any racing event: PROVIDED, That any day such personnel do not ride or drive in a race, the premium calculation shall be made by assuming ten worker hours for any day in which duties are performed.

**AMENDATORY SECTION** (Amending Order 83-36, filed 11/30/83, effective 1/1/84)

**WAC 296-17-855 EXPERIENCE MODIFICATION.** The basis of the experience modification shall be a comparison of the actual losses charged to an employer during the experience period with the losses which would be expected for an average employer reporting the same exposures in each classification. The comparison shall contain actuarial refinements designed to mitigate the effects of losses which may be considered catastrophic or of doubtful statistical significance, due consideration being given to the volume of the employer's experience. Except for those employers who qualify for an adjusted experience modification as specified in WAC 296-17-860 or 296-17-865, the experience modification shall be calculated from the formula:

$$\text{MODIFICATION} = \frac{A_p + W A_e + (1-W) E_e + B}{E + B}$$

The components  $A_p$ ,  $W A_e$ , and  $(1-W) E_e$  are values which shall be charged against an employer's experience record. The component,  $E$ , shall be the expected value of these charges for an average employer reporting the same exposures in each classification. The meaning and function of each symbol in the formula is specified below.

" $A_p$ " signifies "primary actual losses." For each claim the primary actual loss is defined as that portion of the claim which is considered completely rateable for all employers and which is to enter the experience modification calculation at its full value. For each claim in excess of  $\$(\cancel{3,602})4,046$  the primary actual loss shall be determined from the formula:

$$\text{Primary loss} = \frac{(\cancel{9,004}) \frac{10,114}{x \text{ total loss}}}{\text{Total loss} + (\cancel{5,402}) \underline{6,068}}$$

Primary actual losses for selected claim values are shown in Table I. For each claim less than  $\$(\cancel{3,602})4,046$  the full value of the claim shall be considered a primary loss.

" $A_e$ " signifies "excess actual losses." For each claim the excess actual loss is defined as that portion of the claim which is not considered completely rateable for all employers. The excess actual loss for each claim shall be determined by subtracting the primary loss from the total loss.

" $W$ " signifies "W value." For each employer, the W value determines the portion of the actual excess losses which shall be included in the calculation of his experience modification, due consideration being given to the

volume of his experience. This amount is represented by the symbol " $W A_e$ " in the experience modification formula. W values are set forth in Table II.

" $E$ " signifies "expected losses." An employer's expected losses shall be determined by multiplying his reported exposure in each classification during the experience period by the classification expected loss rate. Expected loss rates are set forth in Table III.

" $E_e$ " signifies "expected excess losses." Expected losses in each classification shall be multiplied by the classification " $D$ -Ratio" to obtain "expected primary losses." Expected excess losses shall then be calculated by subtracting expected primary losses from expected total losses. Each employer shall have a statistical charge included in the calculation of his experience modification, said charge to be actuarially equivalent to the amount forgiven an average employer because of the exclusion of a portion of his excess actual losses. This charge is represented by " $(1-W) E_e$ " in the experience modification formula.  $D$ -Ratios are set forth in Table III.

" $B$ " signifies "B value" or "ballast." In order to limit the effect of a single severe accident on the modification of a small employer, a stabilizing element (B value) shall be added to both actual and expected losses. B values are set forth in Table II.

**STATEMENT OF PURPOSE**

Title: Amending WAC 284-52-050 and 284-52-060, to remove prescription drugs and prescribed durable medical equipment as mandatory benefits under major medical and comprehensive medical conversion plans.

The statutory authority for the proposed amendments is, with respect to insurers, RCW 48.02.060 to effectuate RCW 48.21.270; with respect to health care service contractors, RCW 48.44.050 to effectuate RCW 48.44.380; and with respect to health maintenance organizations, RCW 48.46.200 to effectuate RCW 48.46.460.

As originally adopted, the rules required that prescription drugs and prescribed durable medical equipment be included as benefits under major medical comprehensive medical conversion plans. Following adoption, comments were received indicating that the effect of the rules was to require insurers, health care service contractors, and, particularly, health maintenance organizations to provide benefits in conversion plans which had not been provided in the original plans from which conversions would be made. It was concluded that it was not the intent of the legislature to substantially broaden coverage in conversion plans from the

coverage generally offered under the original plans. Further, it was determined that substantial reductions in premiums would result from eliminating the two benefits from the list of mandatory benefits.

Robert E. Johnson, Deputy Commissioner, (206) 753-2406, was responsible for drafting the amendment. Implementation and enforcement of the changes with respect to health care service contractors and health maintenance organizations will be the responsibility of A. G. Vande Wiele, Deputy Commissioner, (206) 753-7381; and with respect to insurers will be the responsibility of Don Starovasnik, Actuary, (206) 753-7305. Each of those individuals has his office in the Insurance Building, AQ-21, Olympia, Washington 98504.

The amendments are proposed by the insurance commissioner, a state public official.

The amendments are not necessary as the result of federal law or federal or state court action.

**Small Business Economic Impact Statement:** The proposed amendments will have no economic impact on large or small businesses. They merely make the providing of coverage for prescription drugs and prescribed durable medical equipment an option rather than a mandatory requirement, with respect to conversion plans.

### NEW SECTION

WAC 458-20-246 SALES TO OR THROUGH A DIRECT SELLER'S REPRESENTATIVE. Under RCW 82.04.423, the business and occupation tax does not apply to any out-of-state person in respect to the gross income derived from the business of making sales in this state of "consumer products" at wholesale or retail to or through a "direct seller's representative," subject to certain requirements explained more fully below. The effective date of this exemption is August 23, 1983. For an outline of the tax liability of persons making sales of goods which originate in other states to customers in Washington, other than sales to or through a "direct seller's representative," see WAC 458-20-193B.

#### DEFINITIONS

For purposes of the exemption explained herein, the following definitions shall apply:

The term "consumer product" means any article of tangible personal property, or component part thereof, of the type sold for personal use or enjoyment. The term includes only those kinds of items of tangible personal property which are customarily sold at stores, shops, and retail outlets open to the public in general. It includes such things as home furnishings, clothing, personal effects, household goods, food products, and similar items purchased for personal use or consumption. The term does not include commercial equipment, manufacturing items, industrial use products, and the like, including component parts thereof. However, if a product is primarily used for personal use or enjoyment, it remains a "consumer product" within this definition notwithstanding that a portion of the product's distribution is for commercial, industrial, or manufacturing purposes.

A "direct seller's representative" is a person who (a) buys "consumer products" on a buy-sell basis or a deposit-commission basis for resale, by the buyer or any other person, in the home or other than in a permanent retail establishment or (b) sells or solicits the sale of, "consumer products" in the home or other than in a permanent retail establishment. In order to be considered a "direct seller's representative" a person must also show that:

1. Substantially all of the remuneration paid, whether or not paid in cash, for the performance of services is directly related to sales or other output, including the performance of services, rather than the number of hours worked; and

2. The services performed are performed pursuant to a written contract between such person and the person for whom the services are performed and such contract provides that the person will not be treated as an employee with respect to such services for federal tax purposes.

#### BUSINESS AND OCCUPATION TAX

WHOLESALE AND RETAILING. The business and occupation tax does not apply to an out-of-state seller making wholesale or retail sales to or through a "direct seller's representative." The out-of-state seller must show that it is represented in this state by a "direct seller's representative," as defined above. In addition, the out-of-state seller must also show that it:

1. Does not own or lease real property within this state;

2. Does not regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business;

3. Is not a corporation incorporated under the laws of this state; and

4. Makes sales in this state exclusively to or through a "direct seller's representative."

Thus, a representative who solicits sales of "consumer products" in this state, other than in a permanent retail establishment, and also meets the other requirements of the law as set forth above, qualifies as a "direct seller's representative." If the out-of-state seller and the in-state representative can factually establish compliance with all of the above listed requirements, the out-of-state seller is exempt from business and occupation tax.

The exemption is available only where an out-of-state seller is present in this state and represented exclusively by a "direct seller's representative." If an out-of-state seller makes wholesale or retail sales of "consumer products" in Washington to or through a "direct seller's representative" and also has a branch office, local outlet, or other local place of business, or is represented by any other employee, agent, or other representative, no portion of the sales are exempt from business and occupation tax.

The business and occupation tax likewise applies to the gross income of a "direct seller's representative" who buys "consumer products" for resale and does in fact resell the products. The measure of the business and occupation tax is the gross proceeds of sales.

SERVICE. The law provides no similar business and occupation tax exemption with regard to the compensation paid to the "direct seller's representative." Thus, the representative will remain subject to the business and occupation tax on all commissions or other compensation earned.

#### SALES AND USE TAX

An out-of-state vendor is required to pay or collect and remit the tax imposed by chapter 82.08 or 82.12 RCW if the vendor regularly solicits or makes retail

sales of "consumer products" in this state through a "direct seller's representative," as defined above, even though such sales are exempt from business and occupation tax pursuant to RCW 82.04.423.

Every person who engages in this state in the business of acting as a "direct seller's representative" for unregistered principals, and who receives compensation by reason of sales of "consumer products" of such principals for use in this state, is required to collect the use tax from purchasers, and remit the same to the department of revenue, in the manner and to the extent set forth in WAC 458-20-221.

**WAC 236-70-020 PURPOSE.** The purpose of this chapter is to establish rules which can be used to facilitate private investment in energy conservation measures and services for state-owned facilities.

**NEW SECTION**

**WAC 236-70-030 SCOPE AND COVERAGE OF THIS CHAPTER.** The scope of this chapter is to provide guidelines for state agencies acquiring private financing for energy conservation measures and services, and for administration of this rule by the department of general administration. This chapter does not provide authority or guidance for private financing of nonenergy related projects.

NEW SECTION

WAC 236-70-040 DEFINITIONS. The following words and terms have the following meanings for the purposes of this chapter:

(1) "Base period" means a preceding twelve-month period, or longer, selected as the standard for measurement of energy consumption and energy savings due to implementation of energy conservation measures or services.

(2) "Energy conservation maintenance and operating procedure" means modification or modifications in maintenance and operations of a facility, and any installations within the facility, which are designed to reduce energy consumption in the facility and which require no significant expenditure of funds.

(3) "Energy conservation measure" means an installation or modification of an installation in a facility which is primarily intended to reduce energy consumption or allow use of an alternative energy source.

(4) "Energy conservation service" means a service which provides preestablished levels of heating, cooling, lighting, and equipment use at reduced energy consumption levels. The services may include, but are not limited to, providing financing, design, installation, repair, maintenance, management, technical advice, and/or training.

(5) "Energy cost savings" means energy savings converted into dollar savings.

(6) "Energy savings" means the amount of energy expressed in standard units (e.g., therms, gallons, kilowatt hours) of energy saved by an energy conservation measure or service.

(7) "Facility" means a building, a group of buildings served by a central energy distribution system, components of a central energy distribution system, related structures and/or energy consuming appurtenances.

(8) "Net benefit" means the energy cost savings less the cost of the energy conservation measure or service provided.

(9) "Private investment or private financing" of energy projects means obtaining project funds by other than capital appropriation or governmental grants, and includes, but is not limited to, the following:

(a) "Guaranteed savings" means a program in which a company guarantees a user a predetermined reduction in energy costs. The company guarantees that energy costs plus all costs of the energy conservation measures or services provided will be less than the user's normal energy costs.

(c) "Municipal or capital leasing" means a tax exempt lease where the cost of equipment is amortized over the lease term. At the end of the lease period ownership passes to the lessee. This is also known as a lease purchase.

(d) "Shared savings" means a program in which the sole source of payment for energy conservation measures or services provided by a company is a predetermined

percentage of the energy cost savings of the user resulting from the energy conservation measure or service.

(e) "Utility financing" means grants provided by utilities for energy conservation.

(f) "Vendor financing" means financing provided by an equipment supplier, equipment manufacturer, company or contractor.

(10) "Request for proposal" means the document which communicates information to prospective contractors and should include, but not be limited to:

[Order 84-207—Filed December 3, 1984]

I, William R. Wilkerson, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, William R. Wilkerson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 7 and 7A

provide protection for Canadian origin chum. Restrictions in Area 10C and the Cedar River provide protection for local sockeye stocks. Restrictions in Area 10D provide protection for sockeye while allowing harvest of surplus coho. Restrictions in the Samish River protect natural Samish origin chum. Restrictions in the Dungeness, Sekiu, Hoko, Clallam, Pysht, and Lyre rivers, Deep and Salt creeks and Area 6D provide protection for local coho and chum stocks. Restrictions in Area 8 and the Skagit River provide protection for Skagit River origin chinook, chum and coho. Restrictions in Areas 12A and 12D provide secondary protection for Hood Canal natural chum stocks. Restrictions in the Stillaguamish River and Snohomish River protect natural Stillaguamish and Snohomish chum. Restrictions in Minter Creek protect normal timed chum returning to Minter Creek Hatchery. Restrictions in Areas 13E, 13I, 13J and 13K are required to protect south sound normal chum stocks. Restrictions in Areas 6A and 13H no longer required. Late chum management needs prevail in Areas 6, 6B, 9, 10, 11, 13 and 13C.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

#### NEW SECTION

*WAC 180-29-106 MORATORIUM ON FINAL APPROVAL OF SCHOOL CONSTRUCTION PROJECTS. The state board of education finds it necessary due to the projected insufficiency of state moneys for matching local school construction projects during the 1985-86 state fiscal year and to the inappropriateness of the current priority system for approval of such projects to institute a moratorium until the state board of education gives consideration to and institutes a new priority system. The state board of education has scheduled a public meeting, including a public hearing, for January 17-18, 1985 to consider proposed amendments to state board of education rules affecting the current priority system. Therefore, notwithstanding any other regulation to the contrary, the state board of education hereby declares a moratorium on final approval pursuant to WAC 180-29-107 by the superintendent of public instruction for any school construction project. Such moratorium shall extend for ninety calendar days unless rescinded by the state board of education at its January 17-18, 1985 meeting.*

**EMERGENCY RULES**  
**DEPARTMENT OF GAME**  
**(Game Commission)**  
 [Order 254—Filed December 4, 1984]

Be it resolved by the Washington State Game Commission, acting at Olympia, conference call, that it does adopt the annexed rules relating to regulation change for 1984-85 Upland Game Bird and Migratory Waterfowl Seasons, WAC 232-28-40801.

We, the Washington State Game Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is to date, harvest data emanating from the U.S. Fish and Wildlife Service, Washington Department of Game, and Oregon Department of Fish and Wildlife indicate that harvest of the dusky race of Canada goose, which winters in southwest Washington and western Oregon, has exceeded the 1984 production of young in this population. Hunting mortality combined with reduced productivity on the nesting grounds in Alaska has resulted in a decline from an estimated 25,500 dusky geese in January 1979 to 10,000 in January 1984. An emergency closure of goose hunting in Clark and Cowlitz counties will serve to prevent further loss to the returning breeding cohort of this depressed race of Canada goose.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 77.12.040 and is intended to administratively implement that statute.

**AMENDATORY SECTION** (Amending Order 1892, filed 10/13/82)

WAC 388-96-505 OFFSET OF MISCELLANEOUS REVENUES. (1) Allowable costs shall be reduced by the contractor whenever the item, service, or activity covered by such costs generates revenue or financial benefits (e.g., purchase discounts or rebates) other than through the contractor's normal billing for care services; except that, unrestricted grants, gifts, and endowments, and interest therefrom, will not be deducted from the allowable costs of a nonprofit facility.

(2) Allowable costs will be reduced for hold-bed revenue in the property and administration and operations cost areas only. In the property cost area, the amount of reduction will be determined by dividing allowable property costs by total patient days and multiplying the result by total hold-room days. In the administration and operations cost area, the amount of reduction will be determined by dividing allowable administration and operations costs minus dietary, laundry, and nursing supply costs by the total patient days and multiplying the result by total hold-room days.

(3) Where goods or services are sold, the amount of the reduction shall be the actual cost relating to the item, service, or activity. In the absence of adequate documentation of cost, it shall be the full amount of the revenue received. Where financial benefits such as purchase discounts or rebates are received, the amount of the reduction shall be the amount of the discount or rebate.

~~((3))~~ (4) Only allowable costs shall be recovered under this section. Costs allocable to activities or services which are not included in SNF or ICF services (e.g., costs of vending machines, patients' personal laundry, and services specified in chapter 388-86 WAC which are not included in SNF or ICF services) are nonallowable costs.

**AMENDATORY SECTION** (Amending Order 2025, filed 9/16/83)

Effective January 1, 1981, for settlement purposes for periods subsequent to that date, and for purposes of setting rates for periods beginning July 1, 1982, and subsequently, this equipment shall be characterized by a minimum life of greater than one year.

(d) Minor equipment – such items as wastebaskets, bedpans, syringes, catheters, silverware, mops, and buckets which are properly capitalized. No depreciation shall be taken on items which are not properly capitalized (see WAC 388-96-553). The general characteristics of minor equipment are:

**AMENDATORY SECTION** (Amending Order 1712, filed 11/4/81)

WAC 388-96-559 DEPRECIATION BASE. (1) Effective January 1, 1985, the depreciation base shall be the historical cost of the contractor, or lessor if the assets are leased by the contractor, in acquiring the asset ~~((from an unrelated organization))~~ in an arm's-length

transaction, and preparing the asset for use, less goodwill, and less accumulated depreciation which has been incurred during periods that the assets have been used in or as a facility by the contractor, such accumulated depreciation to be measured in accordance with subsection (4) of this section and WAC 388-96-561, 388-96-565, and 388-96-567. If the department challenges the historical cost of an asset or if the contractor cannot or will not provide the historical cost of a leased asset, the department will have the fair market value of the asset at the time of purchase established by appraisal. (~~The fair market value of items of equipment will be established by appraisals performed by vendors of the particular type of equipment~~) For leased assets, the department may examine documentation in its files to determine the lessor's acquisition date at the time of the last arm's-length transaction. If the department is unable to determine the lessor's acquisition date by review of its records, the department may use the construction date of the facility, as found in the state fire marshal's records, as the lessor's acquisition date of leased assets in determining fair market value. When the appraisals are conducted, the depreciation base of the asset will not exceed the fair market value of the asset. Estimated salvage value shall be deducted from historical cost where the straight-line or sum-of-the-years digits method of depreciation is used.

(2) Effective January 1, 1981, for purposes of setting rates for rate periods beginning July 1, 1982, and subsequently, subsection (1) of this section shall be applied with the phrase "in an arm's-length transaction" replacing the phrase "from an unrelated organization."

(3) Effective July 1, 1982, in all cases subsection (1) of this section shall be applied with the phrase "in an arm's-length transaction" replacing the phrase "from an unrelated organization."

(4) Where depreciable assets are acquired from a related organization, the contractor's depreciation base shall not exceed the base the related organization had or would have had under a contract with the department.

(5) If a contractor cannot or will not provide the lessor's acquisition cost of assets leased by the contractor, the appraised asset value of land, building, or equipment, determined by the department of general administration shall be adjusted by the department using the Marshall and Swift Valuation Guide to reflect the value at the lessor's acquisition date. If an appraisal has been prepared for leased assets and the assets subsequently sell in the first arm's-length transaction since January 1, 1980, pursuant to subsection (7) of this section, the Marshall and Swift Valuation Guide will be used to adjust the asset value determined by the appraisal to the sale date. If the assets are located in a city for which the Marshall and Swift Valuation Guide publishes a specific index, or if the assets are located in a county containing that city, the city-specific index shall be used to adjust the appraised value of the asset. If the assets are located in a city or county for which a specific index is not calculated, the Western District Index calculated by Marshall and Swift shall be used.

(6) If depreciable assets are acquired which were used in the Medicaid program on or after January 1, 1980, the depreciation base of such assets shall not exceed the net book value existing at the time of acquisition or which would have existed had the assets continued in use under the previous Medicaid contract with the department; except that depreciation shall not be accumulated for periods during which such assets were not in use in or as a nursing care facility.

(7) Subsection (6) of this section shall not apply to the most recent arm's-length acquisition if it occurs at least ten years after the previous arm's-length transfer of ownership nor shall subsection (6) apply to the first arm's-length acquisition of assets which occur on or after January 1, 1980, for facilities participating in the Medicaid program prior to January 1, 1980. The depreciation base for such acquisitions shall not exceed the lesser of the fair market value of the assets determined by an appraisal conducted by the department of general administration and the owner's acquisition cost of each asset, land, building, or equipment. An appraisal conducted by the department of general administration shall be final unless the appraisal is shown to be arbitrary and capricious. Should a contractor request a revaluation of an asset, the contractor must document ten years have passed since the most recent arm's-length transfer of ownership.

(8) For purposes of establishing the property and return on investment component rates, the value of leased equipment, if unknown by the contractor, may be estimated by the department using previous department of general administration appraisals as a data base. The estimated value may be adjusted using the Marshall and Swift Valuation Guide to reflect the value of the asset at the lessor's acquisition date.

**AMENDATORY SECTION** (Amending Order 2025, filed 9/16/83)

**WAC 388-96-561 DEPRECIATION BASE—DONATED OR INHERITED ASSETS.** (1) The depreciation base of donated assets, as defined in WAC 388-96-010, or of assets received through testate or intestate distribution, shall be the lesser of:

(a) Fair market value at the date of donation or death, less goodwill, provided that, estimated salvage value shall be deducted from fair market value where the straight-line or sum-of-the-years digits method of depreciation is used; or

(b) The ~~(depreciation base under the cost-related reimbursement program)~~ historical cost of the owner last contracting with the department, if any.

(2) If the donation or distribution is between related organizations, the base shall be the lesser of:

(a) Fair market value, less goodwill and, where appropriate, salvage value; or

(b) The depreciation base the related organization had or would have had for the asset under a contract with the department.

Beginning January 1, 1985, office equipment rental costs shall be reimbursed in the administration and operations cost center. Office equipment may include items typically used in administrative or clerical functions such as telephones or PBX equipment, copy machines, desks and chairs, calculators and adding machines, file cabinets, typewriters, and computers.

AMENDATORY SECTION (Amending Order 2025, filed 9/16/83)

(2) Each contractor's allowable, inflation adjusted, per patient day administration and operations cost shall be determined.

(3) Costs for contractors having submitted correct and complete cost reports by the time July rates are initially to be established shall be ranked from highest to lowest. The eighty-fifth percentile of the ranking shall be determined.

(4) Administration and operations rates for individual providers shall be the lower of the provider's allowable cost or the eighty-fifth percentile.

(5) Beginning July 1, 1984, allowable costs for administration and operations for rate setting purposes shall include allowable retained savings for the preceding report year.

NEW SECTION

WAC 388-96-745 PROPERTY COST AREA REIMBURSEMENT RATE. (1) The property cost

area rate for each facility shall be determined by dividing the sum of the prior period depreciation costs subject to the provisions of this chapter, adjusted for any capitalized addition or replacements approved by the department and the retained savings from the property cost center as provided in WAC 388-96-228, by total patient days for the facility in the prior period. Allowable depreciation costs are defined as the costs of depreciation of tangible assets meeting the criteria specified in WAC 388-96-557, regardless of whether owned or leased by the contractor. Depreciation of leased office equipment shall not be reimbursable.

(2) If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the property cost center rate shall be adjusted to anticipated patient day level.

(3) If a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum determined by the department.

NEW SECTION

WAC 388-96-752 DOCUMENTATION OF LEASED ASSETS. If the department challenges the historical cost of a leased asset or if the contractor cannot or will not provide the lessor's acquisition cost of an asset, the asset will be excluded from reimbursement until a department of general administration appraisal is prepared for the asset.

NEW SECTION

WAC 388-96-754 A CONTRACTOR'S RETURN ON INVESTMENT. (1) The department shall establish for individual Medicaid facilities return on investment allowances composed of a financing allowance and a variable return allowance.

(2)(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by eleven percent and dividing by the contractor's total patient days. Annual patient days taken from the contractor's cost report for the most recent twelve-month cost report period will be used. If the cost report covers less than twelve months, annual patient days will be estimated based upon data in the cost report. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to anticipated patient day level.

(b) In computing the portion of net invested funds, representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives and methods referred to in this chapter, including owned and leased assets, shall be used, except the capitalized cost of land upon which a facility is located and other such contiguous land which is reasonable and necessary for use in the regular course of providing patient care shall also be included. In the case of leased facilities where the net invested funds are unknown or the contractor is unable or

unwilling to provide necessary information to determine net invested funds, the department may determine an amount to be used for net invested funds based upon an appraisal conducted by the department of general administration pursuant to this chapter.

(3) The variable return allowance shall be determined according to the following procedure:

(a) The department shall rank all facilities in numerical order from highest to lowest based upon average per diem allowable costs for the sum of the administration and operations and property cost centers for the preceding cost report period. If the contractor's administration and operations and property rates have been established based on a budget, the variable return allowance shall be calculated based on budgeted costs.

(b) The variable return allowance shall be computed by multiplying the total prospective rate for each facility by the appropriate percentage which shall not be less than one percent nor greater than four percent. The department shall divide the facilities ranked according to subsection (3)(a) of this section into four groups, from highest to lowest, with an equal number of facilities in each group or nearly equal as is possible. Facilities in the highest quarter will be assigned a percentage of one, in the second highest quarter a percentage of two, in the third highest quarter a percentage of three, and in the lowest quarter a percentage of four.

(4) The sum of the financing allowance and the variable return allowance shall be the return on investment for each facility and shall be added to the prospective rate for each facility.

(5) If a facility is leased by a contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement as defined in this chapter, and for which the annualized lease payment, plus any interest and depreciation expenses of contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center determined according to this chapter, is more than the return on investment allowance determined according to this section, the following shall apply:

(a) The financing allowance shall be recomputed substituting the fair market value of the assets, as of January 1, 1982, determined by department of general administration appraisal, for the net book value of the assets in determining net invested funds for the facility. Said appraisal shall be final unless shown to be arbitrary and capricious.

(b) The sum of the financing allowance computed under this subsection and the variable return allowance shall be compared to the annualized lease payment, plus any interest and depreciation expenses of contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to this chapter. The lesser of the two amounts shall be called the alternate return on investment allowances.

(c) The return on investment allowance determined in accordance with subsections (1), (2), (3), and (4) of this section or the alternate return on investment allowance, whichever is greater, shall be the return on investment

allowance for the facility and shall be added to the prospective rate of the facility.

(6) In the event the department of health and human services disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for computing individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.

AMENDATORY SECTION (Amending Order 2025, filed 9/16/83)

WAC 388-96-760 UPPER LIMITS TO REIMBURSEMENT RATE. The reimbursement rate shall not exceed the contractor's customary charges to the general public for the services covered by the rate, except that public facilities rendering such services free of charge or at a nominal charge will be reimbursed according to the methods and standards set out in this chapter. The contractor shall provide as part of the annual cost report a statement of the average charges for the cost report year for services covered by the rate and supporting computations and documentation. The contractor shall immediately inform the department if its reimbursement rate does exceed customary charges for comparable services. If necessary, the rate will be adjusted in accordance with WAC 388-96-769.

#### NEW SECTION

WAC 180-27-053 STATE MONEYS FOR STUDIES AND SURVEYS. State moneys for school district studies and surveys conducted pursuant to chapter 180-25 WAC shall be available even though the state board of education deems it necessary to order a priority approval process pursuant to WAC 180-27-054. At the beginning of each biennium, the superintendent of public instruction shall estimate the amount of moneys necessary for allocation to districts for studies and surveys and not make such moneys available for any other purpose. In the event the estimated amount proves to be insufficient, the superintendent shall set aside additional moneys.

#### NEW SECTION

WAC 180-27-054 IMPLEMENTATION OF PRIORITY APPROVAL PROCESS. In the event the state board of education determines that projected revenues, as calculated by the ceiling established in WAC 180-27-056(2), are insufficient to meet school construction needs of school districts for the ensuing state fiscal year, the state board of education shall order the implementation of a priority approval process on final approval by the superintendent of public instruction of additional school construction projects pursuant to WAC 180-29-107. Such priority approval process shall remain in effect until the order is rescinded by the state board of education.

#### NEW SECTION

WAC 180-27-056 FUNDING DURING THE PERIOD OF A PRIORITY APPROVAL PROCESS ORDER BY STATE BOARD OF EDUCATION. During the period of a priority approval process imposed by order of the state board of education school construction projects shall receive final approval pursuant to WAC 180-29-107 as follows:

(1) On or after July 1 following the state board of education order for the implementation of a priority approval process the superintendent of public instruction shall rank all projects for which final approval has been requested pursuant to WAC 180-29-107 as per the priority list in WAC 180-27-058. Only school construction projects with secured local capital funds by December 31 of the previous state fiscal year and eligible for final approval pursuant to WAC 180-29-107 by June 30 of the previous state fiscal year shall be placed on that priority list.

(2) Based on a ceiling of one and one-half times the amount of the estimated revenue available for the state fiscal year plus fund balance for the state fiscal year minus outstanding encumbrances for the state fiscal year or as close thereto as is reasonably practical, the superintendent of public instruction shall give final approval pursuant to WAC 180-29-107 during the state fiscal year to school construction projects on the priority list. For the purpose of this subsection the term "estimated revenue available for the state fiscal year" shall mean the estimated revenue from the common school construction fund for the current state fiscal year and the subsequent state fiscal year, the result of which is divided by two.

(3) In the event the state board of education does not rescind the order for the implementation of a priority approval process by the close of the state fiscal year, school construction projects remaining on the priority list without final approval and, therefore, without secured funding status pursuant to WAC 180-29-107 shall be combined with new school construction projects that have secured local capital funds by December 31 of the state fiscal year and that are eligible, pursuant to WAC 180-29-107, for final approval by the close of the state fiscal year, and a new priority list shall be established on or after July 1 of the next state fiscal year and such remaining and new school construction projects shall be eligible for final approval pursuant to the provisions of subsections (1) and (2) of this section.

#### NEW SECTION

In the event two or more districts possess an equal percentage of unhoused students, the district with the greatest number of unhoused students shall be ranked the highest.

on the date of project approval pursuant to WAC 180-25-040 shall be ranked highest. In the event two or more districts possess an equal percentage of unboxed students, the district with the greatest number of unboxed students shall be ranked the highest.

In the event two or more projects possess an equal number of students affected, the highest ranking shall be given to the district with the earliest date of project approval pursuant to WAC 180-25-040.

(6) Priority six: Modernization projects in districts with no unboxed students and not funded under priorities three and five. Projects within this priority shall be ranked as follows: The project with the highest percentage of projected student occupancy shall be ranked the highest—i.e., projected enrollment times authorized space allocation as calculated pursuant to WAC 180-27-035 divided by capacity of existing buildings as calculated pursuant to WAC 180-27-050(1). In the event two or more projects possess an equal percentage, the highest ranking shall be given to the project with the earliest date of project approval pursuant to WAC 180-25-040.

**NEW SECTION**

WAC 308-122-600 CODE OF ETHICS — GENERAL CONSIDERATIONS. Psychologists respect the dignity and worth of the individual and strive for the preservation and protection of fundamental human rights. They are committed to increasing knowledge of human behavior and of people's understanding of themselves and others and to the utilization of such knowledge for the promotion of human welfare. While pursuing these objectives, they make every effort to protect the welfare of those who seek their services of the research participants that may be the object of study. They use their skills only for purposes consistent with these values and do not knowingly permit their misuse by others. While demanding for themselves freedom of inquiry and communication, psychologists accept the responsibility this freedom requires: competence, objectivity in the application of skills, and concerns for the best interests of clients, colleagues, students, research participants, and society. In the pursuit of these ideals, psychologists subscribe to principles in the following areas: 1. Responsibility, 2. Competence, 3. Moral and Legal Standards, 4. Public Statements, 5. Confidentiality, 6. Welfare of the Consumer, 7. Professional Relationships, 8. Assessment Techniques, 9. Research with Human Participants, and 10. Care and Use of Animals.

**NEW SECTION**

WAC 308-122-610 RESPONSIBILITY. In providing services, psychologists maintain the highest standards of their profession. They accept responsibility for the consequences of their acts and make every effort to ensure that their services are used appropriately.

(1) As scientists, psychologists accept responsibility for the selection of their research topics and the methods used in investigation, analysis, and reporting. They plan their research in ways to minimize the possibility that their findings will be misleading. They provide thorough discussion of the limitations of their data, especially where their work touches on social policy or might be construed to the detriment of persons in specific age, sex, ethnic, socioeconomic, or other social groups. In publishing reports of their work, they never suppress disconfirming data, and they acknowledge the existence of alternative hypotheses and explanations of their findings. Psychologists take credit only for work they have actually done.

(2) Psychologists clarify in advance with all appropriate persons and agencies the expectations for sharing and utilizing research data. They avoid relationships that may limit their objectivity or create a conflict of interest. Interference with the milieu in which data are collected is kept to a minimum.

(3) Psychologists have the responsibility to attempt to prevent distortion, misuse, or suppression of psychological findings by the institution or agency of which they are employees.

(4) As members of governmental or other organizational bodies, psychologists remain accountable as individuals to the highest standards of their profession.

(5) As teachers, psychologists recognize their primary obligation to help others acquire knowledge and skill. They maintain high standards of scholarship by presenting psychological information objectively, fully, and accurately.

(6) As practitioners, psychologists know that they bear a heavy social responsibility because their recommendations and professional actions may alter the lives of others. They are alert to personal, social, organizational, financial, or political situations and pressures that might lead to misuse of their influence.

(7) Psychologists do not employ psychological techniques for entertainment, nor for other purposes inconsistent with the development of psychology as a science.

#### NEW SECTION

**WAC 308-122-620 COMPETENCE.** The maintenance of high standards of competence is a responsibility shared by all psychologists in the interest of the public and the profession as a whole. Psychologists recognize the boundaries of their competence and the limitations of their techniques. They only provide services and only use techniques for which they are qualified by training and experience. In those areas in which recognized standards do not yet exist, psychologists take whatever precautions are necessary to protect the welfare of their clients. They maintain knowledge of current scientific and professional information related to the services they render.

(1) Psychologists accurately represent their competence, education, training, and experience.

(2) As teachers, psychologists perform their duties on the basis of careful preparation so that their instruction is accurate, current, and scholarly.

(3) Psychologists recognize the need for continuing education and are open to new procedures and changes in expectations and values over time.

(4) Psychologists recognize differences among people, such as those that may be associated with age, sex, socioeconomic, and ethnic backgrounds. When necessary, they obtain training, experience, or counsel to assure competent service or research relating to such persons.

(5) Psychologists responsible for decisions involving individuals or policies based on test results have an understanding of psychological or educational measurement, validation problems, and test research.

(6) Psychologists recognize that personal problems and conflicts may interfere with professional effectiveness. Accordingly, they refrain from undertaking any activity in which their personal problems are likely to lead to inadequate performance or harm to a client, colleague, student, or research participant. If engaged in such activity when they become aware of their personal problems, they seek competent professional assistance to determine whether they should suspend, terminate, or limit the scope of their professional and/or scientific activities.

#### NEW SECTION

**WAC 308-122-630 MORAL AND LEGAL STANDARDS.** Psychologists' moral and ethical standards of behavior are a personal matter to the same degree as they are for any other citizen, except as these may compromise the fulfillment of their professional responsibilities or reduce the public trust in psychology and psychologists. Regarding their own behavior, psychologists are sensitive to prevailing community standards and to the possible impact that conformity to or deviation from these standards may have upon the quality of their performance as psychologists. Psychologists are also aware of the possible impact of their public behavior upon the ability of colleagues to perform their professional duties.

(1) As teachers, psychologists are aware of the fact that their personal values may affect the selection and presentation of instructional materials. When dealing with topics that may give offense, they recognize and respect the diverse attitudes that students may have toward such materials.

(2) As employees or employers, psychologists do not engage in or condone practices that are inhumane or that result in illegal or unjustifiable actions. Such practices include, but are not limited to, those based on considerations of race, handicap, age, gender, sexual preference, religion, or national origin in hiring, promotion, or training.

(3) In their professional roles, psychologists avoid any action that will violate or diminish the legal and civil rights of clients or of others who may be affected by their actions.

(4) As practitioners and researchers, psychologists act in accord with current professional standards and guidelines related to practice and to the conduct of research with human beings and animals. In the ordinary course of events, psychologists adhere to relevant governmental laws and institutional regulations. When federal, state, provincial, organizational, or institutional laws, regulations, or practices are in conflict with professional standards and guidelines, psychologists make known their commitment to professional standards and guidelines and, wherever possible, work toward a resolution of the conflict. Both practitioners and researchers are concerned with the development of such legal and quasi-legal regulations as best serve the public interest, and they work toward changing existing regulations that are not beneficial to the public interest.

#### NEW SECTION

**WAC 308-122-640 PUBLIC STATEMENTS.** Public statements, announcements of service, advertising, and promotional activities of psychologists serve the purpose of helping the public make informed judgments and choice. Psychologists represent accurately and objectively their professional qualifications, affiliations, and functions, as well as those of the institutions or organizations with which they or the statements may be associated. In public statements providing psychological information or professional opinions or providing information or professional opinions or providing information about the availability of psychological products, publications, and services, psychologists base their statements on scientifically acceptable psychological findings and techniques with full recognition of the limits and uncertainties of such evidence.

(1) When announcing or advertising professional services, psychologists may list the following information to describe the provider and services provided: name, highest relevant academic degree earned from a regionally accredited institution, date, type, and level of certification or licensure, diplomat status, professional association status, address, telephone number, office hours, a brief listing of the type of psychological services offered, an appropriate presentation of fee information, foreign languages spoken, and policy with regard to third-party payments. Additional relevant or important consumer information may be included if not prohibited by other sections of those Ethical Principles.

(2) In announcing or advertising the availability of psychological products, publications, or services, psychologists do not present their affiliation with any organization in a manner which falsely implies sponsorship or certification of that organization. Public statements include, but are not limited to, communication by means of periodical, book, list, directory, television, radio, or motion picture. They do not contain

(a) a false, fraudulent, misleading, deceptive, or unfair statement;

(b) a misinterpretation of fact or a statement likely to mislead or deceive because in context it makes only a partial disclosure of relevant facts;

(c) a testimonial from a patient regarding the quality of a psychologists' services or products;

(d) a statement intended or likely to create false or unjustified expectations of favorable results;

(e) a statement implying unusual, unique, or one-of-a-kind abilities;

(f) a statement intended or likely to appeal to a client's fears, anxieties, or emotions concerning the possible results of failure to obtain the offered services;

(g) a statement concerning the comparative desirability of offered services;

(h) a statement of direct solicitation of individual clients.

(3) Psychologists do not compensate or give anything of value to a representative of the press, radio, television, or other communication medium in anticipation of or in return for professional publicity in a news item. A paid advertisement must be identified as such, unless it is apparent from the context that it is a paid advertisement. If communicated to the public by use of radio or television, an advertisement is prerecorded and approved for broadcast by the psychologist, and a recording of the actual transmission is retained by the psychologist.

(4) Announcements or advertisements of "personal growth groups," clinics, and agencies give a clear statement of purpose and a clear description of the experiences to be provided. The education, training, and experience of the staff members are appropriately specified.

(5) Psychologists associated with the development or promotion of psychological devices, books, or other products offered for commercial sale make reasonable efforts to ensure that announcements and advertisements are presented in a professional, scientifically acceptable, and factually informative manner.

(6) Psychologists do not participate for personal gain in commercial announcements or advertisements recommending to the public the purchase or use of proprietary or single-source products or services when that participation is based solely upon their identification as psychologists.

(7) Psychologists present the science of psychology and offer their services, products, and publications fairly and accurately, avoiding misrepresentation through sensationalism, exaggeration, or superficiality. Psychologists are guided by the primary obligation to aid the public in developing informed judgments, opinions, and choices.

(8) As teachers, psychologists ensure that statements in catalogs and course outlines are accurate and not misleading, particularly in terms of subject matter to be covered, bases for evaluating progress, and the nature of course experiences. Announcements, brochures, or advertisements describing workshops, seminars, or other educational programs accurately describe the audience for which the program is intended as well as eligibility requirements, educational objectives, and nature of the materials to be covered. These announcements also accurately represent the education, training, and experience of the psychologists presenting the programs and any fees involved.

(9) Public announcements or advertisements soliciting research participants in which clinical services or other professional services are offered as an inducement make clear the nature of the services as well as the costs and other obligations to be accepted by participants in the research.

(10) A psychologist accepts the obligation to correct others who represent the psychologist's professional qualifications, or associations with products or services, in a manner incompatible with these guidelines.

(11) Individual diagnostic and therapeutic services are provided only in the context of a professional psychological relationship. When personal advice is given by means of public lectures or demonstrations, newspaper or similar media, the psychologist utilizes the most current relevant data and exercises the highest level of professional judgment.

(12) Products that are described or presented by means of public lectures or demonstrations, newspaper or magazine articles, radio or television programs, or similar media meet the same recognized standards as exist for products used in the context of a professional relationship.

**Reviser's note:** The typographical errors in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

#### NEW SECTION

**WAC 308-122-650 CONFIDENTIALITY.** Psychologists have a primary obligation to respect the confidentiality of information obtained from persons in the course of their work as psychologists. They reveal such information to others with only the consent of the person or the person's legal representative, except in those unusual circumstances in which not to do so would result in clear danger to the person or to others. Where appropriate, psychologists inform their clients of the legal limits of confidentiality.

(1) Information obtained in clinical or consulting relationships or evaluative data concerning children, students, employees, and others, is discussed only for professional purposes and only with persons clearly concerned with the case. Written and oral reports present only data germane to the purposes of the evaluation, and every effort is made to avoid undue invasion of privacy.

(2) Psychologists who present personal information obtained during the course of professional work in writings, lectures, or other public forums either obtain adequate prior consent to do so or adequately disguise all identifying information.

(3) Psychologists make provisions for maintaining confidentiality in the storage and disposal of records.

(4) When working with minors or other persons who are unable to give voluntary, informed consent, psychologists take special care to protect these persons' best interests.

#### NEW SECTION

**WAC 308-122-660 WELFARE OF THE CONSUMER.** Psychologists respect the integrity and protect the welfare of the people and groups with whom they work. When conflicts of interest arise between clients and psychologists' employing institutions, psychologists clarify the nature and direction of their loyalties and responsibilities and keep all parties informed of their commitments. Psychologists fully inform consumers as to the purpose and nature of an evaluation, treatment, educational, or training procedure, and they freely acknowledge that clients, students, or participants in research have freedom of choice with regard to participation.

(1) Psychologists are continually cognizant of their own needs and of their potentially influential position vis-a-vis persons such as clients, students, and subordinates. They avoid exploiting the trust and dependency of such persons. Psychologists make every effort to avoid dual relationships that could impair their professional judgment or increase the risk of exploitation. Examples of such dual relationships include, but are not limited to, research with and treatment of employees, students, supervisees, close friends, or relatives. Sexual intimacies with clients are unethical.

(2) When a psychologist agrees to provide services to a client at the request of a third party, the psychologist assumes the responsibility of clarifying the nature of the relationships to all parties concerned.

(3) Where the demands of an organization require psychologists to violate this code of ethics, psychologists clarify the nature of the conflict between the demands and these principles. They inform all parties of psychologists' ethical responsibilities and take appropriate action.

(4) Psychologists make advance financial arrangements that safeguard the best interests of and are clearly understood by their clients. They neither give nor receive any remuneration for referring clients for professional services.

(5) Psychologists terminate a clinical or consulting relationship when it is reasonably clear that the consumer is not benefiting from it. They offer to help the consumer locate alternative sources of assistance.

(6) Psychologists do not offer psychological services entirely by mail. They do not use or utilize mechanical devices alone in the interpretation of test results.

(7) Psychologists do not use untrained personnel for provision of psychological services.

#### NEW SECTION

**WAC 308-122-670 PROFESSIONAL RELATIONSHIPS.** Psychologists act with due regard for the needs, special competencies, and obligations of their colleagues in psychology and other professions. They respect the prerogatives and obligations of the institutions or organizations with which these other colleagues are associated.

(1) Psychologists understand the areas of competence of related professions. They make full use of all the professional, technical, and administrative resources that serve the best interests of consumers. The absence of formal relationships with other professional workers does not relieve psychologists of the responsibility of securing for their clients the best possible professional service, nor does it relieve them of the obligation to exercise foresight, diligence, and tact in obtaining the complementary or alternative assistance needed by clients.

(2) Psychologists know and take into account the traditions and practices of other professional groups with whom they work and cooperate fully with such groups. If a person is receiving similar services from another professional, psychologists do not offer their own services directly to such a person. If a psychologist is contacted by a person who is already receiving similar services from another professional, the psychologist carefully considers that professional relationship and proceed with caution and sensitivity to the therapeutic issues as well as the client's welfare. The psychologist discusses these issues with the client so as to minimize the risk of confusion and conflict.

(3) Psychologists who employ or supervise other professionals or professionals in training accept the obligation to facilitate the further professional development of these individuals. They provide appropriate working conditions, timely evaluations, constructive consultation, and experience opportunities.

(4) Psychologists do not exploit their professional relationships with clients, supervisees, students, employees, or research participants sexually or otherwise. Psychologists do not condone or engage in sexual harassment. Sexual harassment is defined as deliberate or repeated comments, gestures, or physical contacts of a sexual nature that are unwanted by the recipient.

(5) In conducting research in institutions or organizations, psychologists secure appropriate authorization to conduct such research. They are aware of their obligations to future research workers and ensure that host institutions receive adequate information about the research and proper acknowledgement of their contributions.

(6) Publication credit is assigned to those who have contributed to a publication in proportion to their professional contributions. Major contributions of a professional character made by several persons to a common project are recognized by joint authorship, with the individual who made the principal contribution listed first. Minor contributions of a professional character and extensive clerical or similar non-professional assistance may be acknowledged in footnotes or in an introductory statement. Acknowledgment through specific citations is made for unpublished as well as published material that has directly influenced the research or writing. Psychologists who compile and edit material of others for publication, publish the material in the name of the originating group, if appropriate, with their own name appearing as chairperson or editor. All contributors are to be acknowledged and named.

(7) When psychologists know of an ethical violation by another psychologist, and it seems appropriate, they informally attempt to resolve the issue by bringing the behavior to the attention of the psychologist. If the misconduct is of a minor nature and/or appears to be due to lack of sensitivity, knowledge, or experience, such an informal solution is usually appropriate. Such informal corrective efforts are made with sensitivity to any rights to confidentiality involved. If the violation does not seem amenable to an informal solution, or is of a more serious nature, psychologists bring it to the attention of the appropriate local, state, and/or national committee on professional ethics and conduct, as well as the licensing authority of the state in which the offending psychologist is licensed.

#### NEW SECTION

WAC 308-122-680 ASSESSMENT TECHNIQUES. In the development, publication, and utilization of psychological assessment techniques, psychologists make every effort to promote the welfare and best interests of the client. They guard against the misuse of assessment results. They respect the client's right to know the results, the interpretations made, and the bases for their conclusions and recommendations. Psychologists make every effort to maintain the security of tests and other assessment techniques within limits of legal mandates. They strive to ensure the appropriate use of assessment techniques by others.

(1) In using assessment techniques, psychologists respect the right of clients to have full explanations of the nature and purpose of the techniques in language the clients can understand, unless an explicit exception to the right has been agreed upon in advance. When the explanations are to be provided by others, psychologists establish procedures for ensuring the adequacy of these explanations.

(2) Psychologists responsible for the development and standardization of psychological test and other assessment techniques utilize established scientific procedures and observe the 1974 American Psychological Association standards.

(3) In reporting assessment results, psychologists indicate any reservations that exist regarding validity or reliability because of the circumstances of the assessments or the inappropriateness of the norms for the person tested. Psychologists strive to ensure that the results of assessments and their interpretations are not misused by others.

(4) Psychologists recognize that assessment results may become obsolete. They make every effort to avoid and prevent the misuse of obsolete measures.

(5) Psychologists offering scoring and interpretation services are able to produce appropriate evidence for the validity of the programs and procedures used in arriving at interpretations. The public offering of an automated interpretation service is considered a professional-to-professional consultation. Psychologists make every effort to avoid misuse of assessments reports.

(6) Psychologists do not encourage or promote the use of psychological assessment techniques by inappropriately trained or otherwise unqualified persons through teaching, sponsorship, or supervision.

#### NEW SECTION

WAC 308-122-690 RESEARCH WITH HUMAN PARTICIPANTS. The decision to undertake research rests upon a considered judgment by the individual psychologist about how best to contribute to psychological science and human welfare. Having made the decision to conduct research, the psychologist considers alternative directions in

which research energies and resources might be invested. On the basis of this consideration, the psychologist carries out the investigation with respect and concern for the dignity and welfare of the people who participate and with cognizance of federal and state regulations and professional standards governing the conduct of research with human participants.

(1) In planning a study, the investigator has the responsibility to make a careful evaluation of its ethical acceptability. To the extent that the weighing of scientific and human values suggests a compromise of any principle, the investigator incurs a correspondingly serious obligation to seek ethical advice and to observe stringent safeguards to protect the rights of human participants.

(2) Considering whether a participant in a planned study will be a "subject at risk" or a "subject at minimal risk," according to recognized standards, is of primary ethical concern to the investigator.

(3) The investigator always retains the responsibility for ensuring ethical practice in research. The investigator is also responsible for the ethical treatment of research participants by collaborators, assistants, students, and employees, all of whom, however, incur similar obligations.

(4) Except in minimal-risk research, the investigator establishes a clear and fair agreement with research participants, prior to their participation, that clarifies the obligations and responsibilities of each. The investigator has the obligation to honor all promises and commitments included in that agreement. The investigator informs the participants of all aspects of the research that might reasonably be expected to influence willingness to participate and explains all other aspects of the research about which the participants inquire. Failure to make full disclosure prior to obtaining informed consent requires additional safeguards to protect the welfare and dignity of the research participants. Research with children or with participants who have impairments that would limit understanding and/or communication requires special safeguarding procedures.

(5) Methodological requirements of a study may make the use of concealment or deception necessary. Before conducting such a study, the investigator has a special responsibility to

(a) determine whether the use of such techniques is justified by the study's prospective scientific, educational, or applied value;

(b) determine whether alternative procedures are available that do not use concealment or deception; and

(c) ensure that the participants are provided with sufficient explanation as soon as possible.

(6) The investigator respects the individual's freedom to decline to participate in or to withdraw from the research at any time. The obligation to protect this freedom requires careful thought and consideration when the investigator is in a position of authority or influence over the participant. Such positions of authority include, but are not limited to, situations in which research participation is required as part of employment or in which the participant is a student, client, or employee of the investigator.

(7) The investigator protects the participant from physical and mental discomfort, harm, and danger that may arise from research procedures. If risks of such consequences exist, the investigator informs the participant of the fact. Research procedures likely to cause serious or lasting harm to a participant are not used unless the failure to use the procedures might expose the participant to risk of greater harm, or unless the research has great potential benefit and fully informed and voluntary consent is obtained from such participant. The participant should be informed of procedures for contacting the investigator within a reasonable time period following participation should stress, potential harm, or related questions or concerns arise.

(8) After the data are collected, the investigator provides the participant with information about the nature of the study and attempts to remove any misconceptions that may have arisen. Where scientific or human values justify delaying or withholding this information, the investigator incurs a special responsibility to monitor the research and to ensure that there are no damaging consequences for the participant.

(9) Where research procedures result in undesirable consequences for the individual participant, the investigator has the responsibility to detect and remove or correct these consequences, including long-term effects.

(10) Information obtained about a research participant during the course of an investigation is confidential unless otherwise agreed upon in advance. When the possibility exists that others may obtain access to such information, this possibility, together with the plans for protecting confidentiality, is explained to the participant as part of the procedure for obtaining informed consent.

## NEW SECTION

WAC 308-122-695 CARE AND USE OF ANIMALS. An investigator of animal behavior strives to advance understanding of basic behavior principles and/or to contribute to the improvement of human health and welfare. In seeking these ends, the investigator ensures the welfare of animals and treats them humanely. Laws and regulations notwithstanding, an animal's immediate protection depends upon the scientist's own conscience.

(1) The acquisition, care, use, and disposal of all animals are in compliance with current federal, state or provincial, and local laws and regulations.

(2) A psychologist trained in research methods and experienced in the care of laboratory animals closely supervises all procedures involving animals and is responsible for ensuring appropriate consideration of their comfort, health, and humane treatment.

(3) Psychologists ensure that all individuals using animals under their supervision have received explicit instruction in experimental methods and in the care, maintenance, and handling of the species being used. Responsibilities and activities of individuals participating in a research project are consistent with their respective competencies.

(4) Psychologists make every effort to minimize discomfort, illness, and pain of animals. A procedure subjecting animals to pain, stress, or privation is used only when an alternative procedure is unavailable and the goal is justified by its prospective scientific, educational, or applied value. Surgical procedures are performed under appropriate anesthesia; techniques to avoid infection and minimize pain are followed during and after surgery.

(5) When it is appropriate that the animal's life be terminated, it is done rapidly and painlessly.
