STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.04 RCW) or the Higher Education Administrative Procedure Act (chapter 28B.19 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and are set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** have been adopted on an emergency basis and are set forth in ten point oblique type.

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.04.058 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined material is new material;
 - (ii) ~~deleted material is ((lined out and bracketed between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA or the HEAPA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules take effect thirty days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed, but not advanced, and a delayed effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser's office and remain effective for a maximum of ninety days from that date.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser's office for purposes of clarification or correction or to show the source or history of a document is enclosed in brackets [].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

~~((ii) Maintain a pooled interest-bearing trust account for funds which would produce a positive net income after payment of bank fees with sub-accounting that will provide for computation of interest earned by each client and payment of the interest to the account of the client:))~~

(b) The agent shall disclose in writing to the party depositing more than five thousand dollars that the party has an option between (i) and (ii) below;

(i) All trust funds not required to be deposited in the account specified in subsection (a) of this section shall be deposited in a separate interest-bearing trust account for the particular party or party's matter on which the interest will be paid to the party(ies); or

As the monthly bank statements are received, indicating interest credited, the broker will post the amount to the pooled interest ledger card. When the bank statement indicates that the interest was paid to the state or bank fees were charged, the broker will debit the ledger card accordingly.

(ii) For accounts established as specified in subsection (b)(i) of this section, the interest earned or bank fees charged will be posted to the individual ledger card.

(d) When the bank charges/fees exceed the interest earned, causing the balance to be less than trust account liability, the broker shall within one banking day after receipt of such notice, deposit funds from the brokers business account or other non-trust account to bring the trust account into balance with outstanding liability. The broker may be reimbursed by the party depositing the funds for these charges for accounts established as specified in subsection (b)(i) of this section, if the reimbursement is authorized in writing by the party depositing the funds. For accounts established under subsection (a) of this section, the broker will absorb the excess bank charges/fees as a business expense.

Each commission check shall be identified to the transaction to which it applies.

(ii) Funds may be disbursed to the escrow agent designated in writing by the purchaser and seller to close the transaction, reasonably prior to the date of closing in order to permit checks to clear.

(4) When a transaction is negotiated that provides for the earnest money deposit/note or other instrument to be held by a party other than the broker, the broker will deliver the deposit within one banking day after all parties to the transaction have signed the agreement to the party designated to hold the funds, unless the parties to the transaction instruct otherwise in writing. A dated receipt will be obtained and placed in the transaction file.

[Order 88-61—Filed August 5, 1988]

I, Phillip C. Johnson, director of the Department of Ecology, do promulgate and adopt at Olympia, Washington, the annexed rules relating to interim financial assistance program, chapter 173-309 WAC, establishment of an interim financial assistance program for FY 1987-89 to provide grants to local government from the local toxics control account, under the Hazardous Waste Cleanup Act, chapter 70.105B RCW.

The Hazardous Waste Cleanup Act (chapter 70.105B RCW) was passed in October 1987. Chapter 173-309 WAC implements an interim program of grants to assist local governments in the cleanup [of] public and private landfills and the development of solid and hazardous waste plans and programs.

During the coming year the Department of Ecology will conduct a thorough public review of the interim regulations and solicit extensive public input as part of developing final regulations, which will be put into effect by July 1, 1989.

Some of the issues to be addressed during the coming year include: Applicant eligibility requirements and eligible project costs for all grant programs, but with particular focus on remedial action grants; the possible development of a loan program for the cleanup of landfills; and the impact of remedial action and solid and hazardous waste programs on residential ratepayers, without state financial assistance.

Interested parties who have questions or would like to be involved in the review process may contact Dan Swenson, Solid and Hazardous Waste Program Grants Section Supervisor at the following address:

For purposes of implementing the interim financial assistance program, the local toxics account shall be apportioned between the following funding categories as follows:

- (a) Remedial actions for public or private facilities used primarily for the disposal of municipal solid waste \$9,000,000
- (b) Hazardous waste plans and programs 2,300,000
- (c) Solid waste plans and programs 1,500,000
- (d) Solid waste disposal and management facilities 3,200,000

To be dispersed as follows:

- (i) Recycling facility grants 2,200,000
- (ii) Ground water monitoring grants 1,000,000

(2) Adjustment of funds. Based on a periodic internal review of grant applications received, grant obligations, grant fund balances, and revenue projections, the department may reallocate funds by grant category or re-adjust the amount of funds that may be allocated under any and all grant fund categories.

(3) Grant application process. Grant application deadlines and schedules will be announced for each of the funding priority grant programs.

Grant application packages which include grant application deadlines, guidelines, application forms, and detailed information will be provided to all interested parties.

When applications are received by the department, they will be reviewed and scored by a committee consisting of department personnel. Applications need to include all required elements, as outlined in the guidelines, in order to be competitive.

After an application is scored and an award letter is sent out, the department will contact the applicant to negotiate the final details of the scope of work, budget, and any other items of concern.

A grant offer is made by the department to the applicant in the form of a grant contract when all applicant and project eligibility requirements have been met, funds are available, and the formal application has been completed to the mutual satisfaction of the applicant and the department.

A grant award is made when a grant contract offer has been signed by both the applicant and the department. The grant contract becomes effective on the date the program manager of the solid and hazardous waste program of the department signs the contract. This also establishes the beginning date of the project. No costs incurred prior to that date are grant eligible unless specific provision is made in the grant contract for such costs.

(4) Appropriation and allotment of funds. The obligation of the department to make grant payments is contingent upon the availability of funds through legislative appropriation and allotment, and such other conditions not reasonably foreseeable by the department rendering performance impossible. When the grant crosses over bienniums, the obligation of the department is contingent upon the allotment of funds during the next biennium.

(5) Administrative practices. All grants under this chapter shall be consistent with the provisions of "Financial Guidelines for Grants Management," WDOE 80-6, May 1980, Reprinted March 1982, or subsequent guidelines adopted thereafter.

(6) The department encourages cooperation and coordination among units of local government and any funds granted under this chapter may be used by any unit of local government through interagency agreements.

UNIFORM LIMITED OFFERING REGISTRATION

WAC	
460-17A-010	ULOR-C registration.
460-17A-020	Application.
460-17A-030	Availability.
460-17A-040	Disqualification from use of ULOR-C registration.
460-17A-050	Agreement by registrant on stock splits and stock dividends.

460-17A-060	Documents to be filed with administrator by ULOR-C registrant.
460-17A-070	Application of chapter 460-16A WAC to registrations under this chapter.

NEW SECTION

WAC 460-17A-010 ULOR-C REGISTRATION. These rules are intended to encourage investment in small businesses. The rules in this chapter offer an optional method of registration for corporations issuing securities exempt from registration with the Securities and Exchange Commission under Rule 504 of Regulation D or under Section 3(a)(11) of the Securities Act of 1933. The administrator recognizes that small issuers raising small amounts of money face special problems not faced by issuers raising larger amounts, and that standards appropriate to registrations of larger offerings may become unduly burdensome when applied to registrations of small offerings. The optional registration method offered by these rules is intended to reduce the costs and burdens of raising capital for small business without sacrificing investor protection, and to maximize the amount of offering proceeds available to the issuer for investment in the business. Issuers eligible for this method of registration shall use the registration form ULOR-C as the disclosure document for the offering. This method of registration shall be known as ULOR-C registration.

NEW SECTION

WAC 460-17A-020 APPLICATION. (1) The rules in this chapter shall apply to ULOR-C registrations. While applications not conforming to the standards contained herein shall be looked upon with disfavor, where good cause is shown certain rules may be modified or waived by the administrator.

(2) Where individual characteristics of specific offerings warrant modification from these standards, they will be accommodated, insofar as possible, while still being consistent with the spirit of these rules.

NEW SECTION

WAC 460-17A-030 AVAILABILITY. (1) These rules are available only to the issuer of the securities and not to any affiliate of that issuer or to any other person for resale of the issuer's securities. In addition, each of the following requirements must be met:

(a) The issuer must be a corporation organized under the laws of one of the states or possessions of the United States.

(b) The issuer must engage in a business other than petroleum exploration or production or mining or other extractive industries.

(c) The offering is not a "blind pool" or other offering for which the specific business to be engaged in or property to be acquired by the issuer cannot be specified.

(d) The offering price for common stock (and the exercise price, if the securities offered are options, warrants or rights for common stock, and the conversion

price if the securities are convertible into common stock) must be equal to or greater than \$5.00 per share.

(e) The aggregate offering price of the securities offered (within or outside this state) shall not exceed \$1,000,000 less the aggregate offering price of all securities sold within the twelve months before the start of and during the offering of the securities under Securities and Exchange Commission Rule 504 in reliance on any exemption under section 3(b) of the Securities Act of 1933, in reliance on the exemption under section 3(a)(11) of that act, or in violation of section 5(a) of that act.

(2) ULOR-C registration is not available to investment companies subject to the Investment Company Act of 1940, nor is it available to issuers subject to the reporting requirements of section 13 or section 15(d) of the Securities Exchange Act of 1934.

(3) ULOR-C is available for registration of debt offerings only if the issuer can demonstrate reasonable ability to service its debt.

NEW SECTION

WAC 460-17A-040 DISQUALIFICATION FROM USE OF ULOR-C REGISTRATION. ULOR-C registration shall not be available for securities of any issuer if that issuer or any of its officers, directors, ten percent shareholders, promoters or any selling agents of the securities to be offered, or any officer, director, or partner of such selling agent:

(1) Has filed a registration statement which is the subject of a currently effective registration stop order entered pursuant to any federal or state securities law within five years prior to the filing of the ULOR-C registration application;

(2) Has been convicted within five years prior to the filing of the ULOR-C registration application of any felony or misdemeanor in connection with the offer, purchase or sale of any security or any felony involving fraud or deceit, including, but not limited to, forgery, embezzlement, obtaining money under false pretenses, larceny, or conspiracy to defraud;

(3) Is currently subject to any federal or state administrative enforcement order or judgment entered by any state securities administrator or the Securities and Exchange Commission within five years prior to the filing of the ULOR-C registration application or is subject to any federal or state administrative enforcement order or judgment in which fraud or deceit, including but not limited to making untrue statements of material facts and omitting to state material facts, was found and the order or judgment was entered within five years prior to the filing of the ULOR-C registration application;

(4) Is subject to any federal or state administrative enforcement order or judgment which prohibits, denies, or revokes the use of any exemption from registration in connection with this offer, purchase, or sale of securities;

(5) Is currently subject to any order, judgment, or decree of any court of competent jurisdiction temporarily or preliminarily restraining or enjoining, or is subject to any order, judgment, or decree of any court of competent jurisdiction, permanently restraining or enjoining such party from engaging in or continuing any conduct

or practice in connection with the purchase or sale of any security or involving the making of any false filing with any state or with the Securities and Exchange Commission entered within five years prior to the filing of the ULOR-C registration application; provided, however, the prohibition of this subsection and subsections (1) through (3) of this section shall not apply if the person subject to the disqualification is duly licensed or registered to conduct securities related business in the state in which the administrative order or judgment was entered against such person or if the broker-dealer employing such party is licensed or registered in this state and the Form BD filed in this state discloses the order, conviction, judgment, or decree relating to such person. No person disqualified under this section may act in any capacity other than that for which the person is licensed or registered. Any disqualification caused by this section is automatically waived if the state securities administrator or other state or federal agency which created the basis for disqualification determines upon a showing of good cause that it is not necessary under the circumstances that the exemption be denied.

NEW SECTION

WAC 460-17A-050 AGREEMENT BY REGISTRANT ON STOCK SPLITS AND STOCK DIVIDENDS. By filing for ULOR-C registration in this state, the registrant agrees with the administrator that the registrant will not split its common stock, or declare a stock dividend, for two years after the effectiveness of the registration without the prior written approval of the administrator.

NEW SECTION

NEW SECTION

WAC 132E-120-045 EVERETT COMMUNITY COLLEGE—STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES. Everett Community College exists as an institution for the transmission of knowledge, the pursuit of truth and the development of its students. The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of this educational community. The college has a responsibility to the students and society at large to develop policies and procedures which provide for and safeguard such freedom. This is a statement of essential rights, responsibilities, and freedoms of students enrolled at Everett Community College.

(1) The classroom. Student's scholastic performance shall be evaluated on the basis of educational performance, not on opinions or conduct in matters unrelated to scholastic standards.

(a) Protection of freedom of expression. Students shall be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course for which they are enrolled.

(b) Protection against improper academic evaluation. Students shall have protection, through orderly procedures, against prejudiced or capricious academic evaluation. At the same time, they are responsible for maintaining the standards of academic performance established for each course in which they are enrolled (see attached grievance procedure.)

(c) Protection against improper disclosure. Information about student views, beliefs, and political associations acquired by faculty members in the course of their work as instructors, advisers, and counselors will be considered as privileged and confidential.

(d) Right to attend classes as regularly scheduled. Students have the right to expect classes to be held as regularly scheduled and are expected to attend such classes as scheduled.

(2) Students as research subjects. Permission may be granted for conduct of research involving students for such purposes as the pursuit of advanced degrees, independent student research, and research for off-campus individuals and agencies. Participation therein is the choice of the individual student.

Persons planning research utilizing students as subjects must secure permission in advance of the project from the dean of students. Minimally such approval will entail:

(a) Assurance that the project does not conflict with examinations or require a major loss of classroom time.

(b) Assurance that students know they have the alternative of choosing to participate or not.

(c) Explanation of the purpose of the research and disclosure of any possible negative consequence of any procedure to which students might be exposed in the research.

(d) Provision for students to have the opportunity to see the results of the research.

(e) Evidence that the research method is appropriate for the subject to be studied.

(f) Guarantee of confidentiality of student records and responses.

Prior to the initiation of such a project, the researcher shall submit a resume of the research covering the points listed above to the dean of students. Written permission may be given with or without college endorsement of the project. In such instances where the dean of students deems appropriate, assistance may be sought from others with related knowledge before permission to proceed with the project is granted or denied.

(3) Student affairs. In student affairs, certain standards must be maintained in order to guarantee preservation of freedoms for all individuals.

(a) Freedom of association. Students are free to organize and join associations to promote their common interests, provided such organizations or associations do not disrupt or interfere with the mission of Everett Community College.

(i) The membership, policies, and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in the student body as determined by current enrollment in the college.

(ii) Affiliation with an extramural organization shall not of itself disqualify a student organization from institutional recognition.

(iii) Each organization is free to nominate its own adviser from the campus faculty. Campus advisers shall advise organizations in the exercise of responsibility, but they will not have authority to control the policies of such organizations.

(iv) Student organizations shall be required to submit a constitution which includes a statement of purpose, criteria for membership, rules or procedures and a current list of officers to the student government recognized by the college.

(v) Campus organizations, including those affiliated with an extramural organization, will be open to all students.

(b) Student participation in institutional government. As constituents of the educational community, students shall be free, individually and collectively, to express their views on issues of institutional policy and on matters of general interest to the student body. The student body shall have clearly defined means to participate in the formulation and application of institutional policy affecting academic and student affairs. The role of the student government will be made explicit. The actions of the student government within the areas of its jurisdiction shall be reviewed, by the director of student activities and by the dean of students, through orderly procedures.

(c) Publication and distribution of printed material on campus procedures.

(i) Textual material: Faculty at this college have the freedom to choose the texts which shall be used in classes.

(A) The college bookstore is obligated to order and stock textbooks. Faculty assume the responsibility for the applicability of textbooks to courses. The college bookstore is not in any way responsible for the content of such textbooks.

(B) The college library—media center receives requests for resources from college faculty members. Its book selection procedure remain free from restraint in order that selections may represent an opportunity for the student to examine all questions through free access to all sources of ideas.

(C) Students have a right to expect that each instructor will choose a text that will be usable for at least four consecutive quarters, starting with fall quarter, in those courses that are offered every quarter. It is recognized that the constant flow of new material will occasionally render this impossible.

(ii) Student publications: Student publications are communication devices for the presentation of student views and concerns. There shall be no prior censorship or control by faculty, administration, student government, or advertisers exercised over the student newspaper, student handbook, student literary magazines or publications of other student groups. Advisers to such publications are responsible for the guidance of learning through these vehicles. A paramount function of the advisers to these publications is to assure that student publications are published according to accepted principles of responsibility, impartiality, fair play, and decency, as set forth in the Canons of Journalism of the American Society of Newspaper Editors.

(iii) Distribution of materials: Handbills, leaflets, and similarly printed materials may be distributed by regularly enrolled students, by members of recognized student organizations, and by college personnel in campus areas designated by the director of student activities. Off-campus organizations may distribute materials only upon registration with the director of student activities, and designated locations. Any distribution of materials must not interfere with or operate to the detriment of college activities or the flow of traffic, entering or exiting the campus.

(iv) Posted materials: Materials, other than faculty instructional items, may be posted on designated campus bulletin boards only with clearance from the dean of students or his designated representative.

(d) Protection of confidentiality of student records. See attached policy.

(e) Commercial and promotional activities. College facilities may not be used for commercial solicitation, advertising, or promotional activities except as follows:

All commercial activity on campus will be confined to the bookstore if the activity involves sales of materials or published materials ordinarily handled through that avenue. Sales of food will be controlled by the director of food services.

If an exception seems warranted based upon college program, club, organization or academic class sponsorship, the director of student activities must use the following procedure: The proposed project must offer worthwhile articles of substantial academic, cultural or educational benefit. Before acceptance the proposal must be:

(i) Accepted by the director of student activities (he may use select-off professional staff for consideration);

(ii) Recommended by student council;

(iii) Approved by the dean of students (may use college resources to determine whether articles are of academic, cultural, or educational benefit.)

(f) Facilities use. Any recognized Everett student organization may utilize available college facilities for authorized activities after proper request has been approved by the director of student activities and scheduled by the director of facilities. Facilities may be used during normal operating hours if there is no conflict nor interference with previously scheduled activities. Requests for use outside of regular operating hours will be considered on an individual basis. Use of facilities for purposes other than those approved, or in an irresponsible manner, will result in withdrawal of this privilege for those involved in the activity.

Organizations will tentatively schedule facility use requests of TUB foyer, cafeteria and bookstore conference center with the director of student activities ten days in advance of an event. The director of facilities will authorize final approval of a specific facility.

(g) Freedom of inquiry and expression.

(i) Students and student organizations should be free to examine and discuss questions of interest to them, and to express opinions publicly and privately. They shall be free to support causes by orderly means which do not disrupt the regular and essential operation of the institution. At the same time, it should be made clear to the educational community and the community-at-large that, in their public expressions, students or student organizations speak only for themselves and, are solely responsible, individually or as groups, for such public expressions.

In support of the freedoms of speech and inquiry, the board of trustees (1969) has adopted the following policy:

"We encourage inviting to the college speakers who represent diverse points of view. Such speakers are expected to regard this privilege as entailing the same responsibilities and obligations as those faced by instructors. We, moreover, will always assure ourselves that the event is in no way an abuse of that privilege. In the discussion of sensitive issues, the board of trustees reserves the right, either by its own act or by delegation, to impose conditions upon these speakers which will insure the opportunity to challenge these views. The trustees further insist that there shall be left no implication by the college of approval or disapproval of either the speakers or their views.

We encourage student organizations which are officially recognized by the college to invite speakers to the campus providing suitable space is available and there is no interference with the regularly scheduled programs of the college.

In order to provide an atmosphere of open exchange and to insure that the educational objectives of the college are not obscured, the president may prescribe conditions for the conduct of the meeting in any case which may be attended by extreme emotional feeling. Such action may include designating a member of the faculty to be chairman, and/or requiring permission for comments and questions from the floor. Likewise, the president may require the appearance of one or more additional speakers at the meeting so that other points of view may be expressed. He/she shall also prescribe the regulations for the advanced planning of all meetings to be addressed by outside speakers and may designate representatives to recommend conditions for the conduct of particular meetings."

The president shall establish the procedures for the distribution of all printed matter on campus (referred to in (c)(iii) of this subsection.)

The board of trustees (1-31-69) will neither authorize nor tolerate actions by any speaker during a meeting which:

(A) Incite the audience to riot or violate state or federal laws.

(B) Advocate the overthrow, destruction, or alteration of the constitutional form of government of the United States, or of the state of

Washington, or any political subdivision of either of them by revolution, force, or violence.

The president or his/her duly delegated representative is charged with the responsibility of carrying out and implementing this policy.

(ii) When a student organization wishes to sponsor the appearance of an off-campus speaker or speaker on the college campus, the sponsoring organization must file with the director of student activities, at least ten school days (not including the day of the event) prior to the scheduled meeting, and a form indicating its intent. This form will provide information regarding the arrangements, date, time, place, topic to be discussed, name of the speaker, sufficient biographical data to identify the speaker clearly, name of the proposed chairman or moderator, and other pertinent information. The director shall forward copies of such request to the dean of students and president.

(iii) After recommendation by the dean of students, the president will prescribe any necessary special conditions for the conduct of particular meetings as indicated in the policy statement.

(iv) Sponsoring organizations are responsible for making room reservations and other arrangements will be given by the director of student activities.

(4) Disciplinary procedures. The administration of discipline at Everett Community College is intended to be educational, not punitive. The procedure includes serious and thorough deliberation with the rights of the student and the interests of the college and community being paramount.

Many disciplinary proceedings will be conducted informally between the student and the dean of students. In some cases, at the discretion of the dean of students or the student, formal procedures may be invoked.

(a) Responsibility. The dean of students is directed by the president to represent the college with regard to student affairs including discipline. He/she is responsible for assembling facts regarding incidents referred to his/her office, making provisions for suitable hearings, convening the designated discipline committee when it is requested, notifying students and others concerned, keeping confidential files and reports regarding incidents, following each discipline case until it is closed, and destroying out-of-date files related to discipline cases.

(b) Guidelines for student conduct. A student enrolling in the college assumes a responsibility to conduct himself/herself in a manner compatible with the college's function as an educational institution.

Grounds for disciplinary action are listed as follows:

(i) Cheating, plagiarism, or knowingly furnishing false information to the college.

(ii) Forgery, alteration, or misuse of college documents, records, or identification.

(iii) Obstruction or disruption of instruction, institutional or instructional research, administration of the college, disciplinary procedures, or other college activities.

(iv) Harassment, physical or verbal abuse of any person on college owned or controlled property or at college sponsored or supervised functions; or conduct which threatens or endangers the health or safety of any such person.

(v) Theft of or damage to property of the college or of a member of the college community or of a visitor to the campus.

(vi) Unauthorized entry or occupancy of college facilities or blocking access to or egress from such areas.

(vii) Unauthorized use of college supplies or equipment.

(viii) Use, possession, or distribution of an illegal or controlled substance on campus or at any college sponsored event.

(x) Disorderly conduct; lewd, indecent, or obscene conduct or expression as defined by law.

(xi) Breach of the peace; or aiding, abetting, or procuring another to breach the peace on college owned or controlled property, or at college sponsored or supervised functions.

(xii) Failure to comply with directions of college officials acting in the performance of their duties as such duties relate to these guidelines.

(c) Measures to enforce standards of student conduct.

(i) Sanctions which may be imposed for the commission of college offenses shall include the following:

(A) Expulsion from Everett Community College.

(B) Suspension from Everett Community College for a definite or indefinite period of time.

(C) Disciplinary probation with or without loss of designated privileges for a definite period of time. The violation of the terms of disciplinary probation or the infraction of any college rule during the period of the disciplinary probation may be grounds for suspension or expulsion from the college.

* Disciplinary admonition warning: The parents of any student under eighteen years of age who is placed on disciplinary probation, suspended, or expelled shall be so notified.

(ii) Expulsion or suspension shall not be imposed except upon proper determination by the disciplinary committee and approval of the college president.

(iii) The general policies, violations, and sanctions shall be printed and made available to students of the college.

(d) Composition of disciplinary committee. The committee will be established each fall. It will be composed of the following persons:

(i) Six faculty members appointed by the president of the college; and

(ii) Three students to be appointed by the student body association. The student being heard may request that the students not hear the case.

(iii) A quorum shall normally consist of at least four of the above named faculty, and two of the above named students. However, if students will not hear the case, a quorum shall consist of five faculty members.

(e) Disciplinary and hearing procedures and guidelines.

(i) Allegations of misconduct shall be filed in the dean of students office in writing. Upon investigation, the dean of students shall initiate action as described below.

(ii) Students alleged to have conducted themselves inappropriately shall be provided with written notice to meet with the dean of students or his/her designee for a preliminary conference regarding the basis for possible disciplinary action. The notice must be given at least twenty-four hours (one school day) prior to the scheduled appointment, and shall contain a statement of the allegations.

(iii) After considering the evidence in the case and interviewing the persons involved, the dean of students may take one of the following actions:

(A) Terminate the proceedings, exonerating the student or students.

(B) Dismiss the case after providing whatever counseling and advice may be appropriate.

(C) Impose a minor sanction (disciplinary admonition) subject to the student's right of appeal as described below. The student shall be notified in writing of such an action.

(D) Refer the matter to the college disciplinary committee. The students shall be notified in writing of such referral.

In all cases, the student shall be advised of his/her rights by reference to the appropriate section of this document.

(iv) If, after the preliminary conference the recommendation of the dean of students is for disciplinary action, the student shall receive in writing the following:

(A) Notification of the findings of the investigation and conclusions by the dean of students.

(B) Notification of the disciplinary action which is to be recommended.

(C) Notification that the student may either accept the disciplinary action or, within forty-eight hours (two school days) following receipt of this notification, file in the office of the president of the college a written request for a hearing by the committee on student conduct. If the request is not filed within the prescribed time, the right to do so is waived.

(D) Notification to appear at hearing (if convened.)

(v) If the student does not request a hearing, the president or designee shall review the recommendation of the dean of students and within forty-eight hours announce a decision with regard to the disciplinary action to be taken.

(vi) If the student requests a hearing, the student shall file at the office of the president a specific written response to each of the charges within twenty-four hours (one school day) after the request is made.

(vii) A hearing by the disciplinary committee shall be conducted not earlier than forty-eight hours (or two school days) nor later than seventy-two hours (or three school days) after submission of the student's response to the charges. The committee will make a recommendation within twenty-four hours to the president regarding the case under consideration. The time and place of the hearing are to be set by the chair of the committee.

(viii) The student has a right to a fair and impartial hearing before the disciplinary committee. The student's failure to cooperate with the

hearing procedures, however, shall not preclude the committee from making its findings of fact, conclusions, and recommendations as provided below:

(A) At least twenty-four hours (one school day) before the hearing, the student shall be given written notice of the time and place of the hearing, the charges against him/her, a list of witnesses who will appear, and a description of any documentary or other physical evidence that will be presented at the hearing. The notice may be amended at any time prior to the hearing, but if such amendment is felt to affect the student's preparation, the hearing shall be rescheduled to a later date. The committee shall establish general rules of procedure consistent with the foregoing procedural safeguards. A copy of any such rules of procedure shall be given to the student in advance of his/her hearing.

(B) The student shall be entitled to hear and examine the evidence against him/her and be informed of the identity of its sources; he/she shall be entitled to present evidence in his/her own behalf and to question witnesses testifying against him/her as to factual matters. The student shall have all authority possessed by the college to obtain information or to request the presence of witnesses or the production of other evidence relevant to the issues of the hearing.

The dean of students or designated representatives shall make the first presentation. Each witness may be cross-examined by the students; and after cross-examination is completed, any committee member who wishes may ask questions of the witness but only after both direct examination and cross examination of the witness have been completed.

Upon completion of the presentation by the student, both sides shall then be permitted to make any closing arguments after which the committee may ask questions. The hearing will then be closed and the committee will retire to executive session for deliberation. When a recommendation has been reached, the committee will reconvene and announce its recommendation within twenty-four hours. The meeting will then be adjourned.

(C) Only those matters presented at the hearing in the presence of the student involved will be considered in determining whether he/she is guilty of the misconduct charged. However, the student's past record of college misconduct, if relevant to the case at hand as determined by the chairman of the disciplinary committee, may be taken into account in formulating the committee's recommendation for disciplinary action.

(D) The student may be represented by counsel and/or accompanied by an advisor of his/her choice.

(E) The student cannot be required to give self-incriminating evidence.

(F) Hearings conducted by the committee may be held in closed session at the discretion of the committee or the accused student. The committee may, upon agreement by both parties, receive sworn written statements in lieu of sworn oral testimony at the hearing. The committee has the right to control relevance, materiality, competency, and conduct of witnesses.

(G) All proceedings of the committee will be conducted with reasonable dispatch and terminated as soon as fairness to all parties involved permits.

(H) A summary of the proceedings will be kept. As a minimum, such a summary would include the notes of a recording secretary and, at the request of the student or committee, a tape recording of testimony.

(I) The student will be provided with a copy of the findings of fact, the conclusions, and the recommendations of the committee. He/she will also be advised of his/her right to present within four calendar days, a written statement of appeal to the president of the college before action is taken on the recommendation.

(J) If discipline is to be imposed after this review, the dean of students shall notify the student in writing of the discipline imposed. In the case of an unmarried student under eighteen years of age, written notice of any action involving expulsion, suspension, or disciplinary probation also will be sent to the parents or guardian of the student.

(K) Recommendations of the committee include finding of facts, conclusions, and a recommendation. In deciding upon its recommendation, the committee shall consider the following issues:

(I) Does the alleged act constitute a violation of acceptable standards of student conduct?

(II) Did the student involved commit the acts with which he or she was charged?

(III) Were there any mitigating circumstances?

(ix) The president's review. The president of the college, or designated representative, shall: Review all cases heard by the college disciplinary committee, including the report of the committee and any statement filed by the student; either approve the recommendation of the committee or give directions as to what lesser disciplinary action should be taken; give written notice of action to the initiating authority, the committee chairman, and the student charged with misconduct.

(x) Appeals. An appeal by a student shall be made in writing and addressed to the committee within fifteen days after the student has been notified of the action taken. In all proceedings where the student is not exonerated, there shall be one automatic review by a reviewing authority.

(I) Disciplinary action by the dean of students may be appealed to and shall be reviewed by the disciplinary committee.

(II) Disciplinary action by the disciplinary committee may be appealed to and shall be reviewed by the president.

(III) Final authority in all disciplinary action shall rest with the board of trustees of the college district.

(xi) Readmission after expulsion. Any student expelled from the college may be readmitted only after written petition to the dean of students. Such petitions must indicate how specified conditions have been met and, if the term of the expulsion is not completed, reasons supporting a reconsideration must be presented. AMENDATORY SECTION (Amending Order 209 [303], filed 8/10/84 [7/18/88])

WAC 356-10-050 EMPLOYEE APPOINTMENT STATUS—UPWARD REALLOCATION. Employees in positions which have been reallocated upward are affected as follows:

(1) Employee must compete and be certified from the appropriate eligible register unless otherwise determined by the director of personnel or designee when the position is reallocated upward based on recent or impending changes in duties and responsibilities. The effective date of an incumbent's appointment status as provided in this subsection will be the date when he/she is appointed from a certification. If the employee is appointed from a certification, his/her salary is then adjusted in accordance with the rule governing promotion.

(2) Employees in positions which have been reallocated upwards based on duties performed of a higher level classification in excess of one year shall retain status in the reallocated position and shall have their salary adjusted in accordance with the rule governing promotion, provided:

(a) The incumbent meets the minimum or desirable qualifications for the new class; or, the incumbent meets acceptable qualifications as determined by the director of personnel or designee.

(b) The employee passes the appropriate examination.

(3) If the employee is not certified from the appropriate eligible register, transferred, promoted, demoted or otherwise retained in status within ninety days, the provisions governing reduction in force shall apply. This shall not preclude the employee's eligibility for a provisional appointment under these rules. Employees who do not achieve status in a reallocated position shall be paid for time worked in the higher class based on the rule governing promotion (up to a maximum of three years).

(4) The employee retains existing appointment status when the position is reallocated based on a revision of a class series, a class series study, or an agency-wide or major subdivision-wide classification review planned, conducted, or authorized by the department of personnel in advance of personnel board action (if any), when the reallocation involves no change in duties or responsibilities. The employee's salary then is adjusted to the same step in the new range as held in the present range. ~~((However, the personnel board may, by resolution, determine that salaries will be adjusted in accordance with the rules governing promotion (WAC 356-15-140) when both the agency and the affected employees are in~~

~~agreement. Approval by the exclusive representative shall constitute approval of employees within a certified bargaining unit.))~~

(a) An employee in an underfill status will maintain that status.

(b) Subsection (1) or (2) of this section apply when a change in duties, responsibilities, or organization coincides with a revision of a class series.

(5) The director of personnel or designee may approve the retention of status without examination for an incumbent in a reallocated position when it is evident that the reallocation is, in effect, the correction of a long-term inequity. The employee's salary is adjusted in accordance with the rule governing promotion. The application of this subsection shall not be denied in those cases where the employee has performed duties at a higher class for three continuous years or more.

(6) In reallocations determined by the department of personnel's director or designee the effective date of an incumbent's appointment status as provided for in subsection (2) or (5) of this section will be the earliest date that a copy of the classification questionnaire, either submitted directly by the incumbent or by the agency, is received by the department of personnel. Receipt of such classification questionnaires shall be acknowledged by the department of personnel if the submitting party includes a self-addressed stamped envelope with the copy of the classification questionnaire furnished the department of personnel.

For positions reallocated by agencies under their delegated allocation authority, the effective date of an incumbent's appointment status as provided for in subsection (2) or (5) of this section will be the earliest date that a copy of the classification questionnaire is received by the agency's personnel office or by the department of personnel.

(7) The department of personnel, the director of personnel, and the state personnel board shall not award additional compensation to an employee for any period prior to the date on which the classification questionnaire was received by the department of personnel.

Reviser's note: The bracketed material preceding the section above was supplied by the code reviser's office.

In addition, each telecommunications company shall publish in its directory a consumer information guide which details the rights and responsibilities of a utility customer. A copy of these rules (chapter 480-120 WAC) shall also be kept on file in each of the utility's listed business offices and made available to its subscribers or their representatives upon request.

Good cause shall include, but not be limited to, adjustment of the payment schedule to parallel receipt of income. A utility may be exempted from this adjustment requirement by the commission.

NEW SECTION

WAC 480-120-141 ALTERNATE OPERATOR SERVICES. All telecommunications companies providing alternate operator services shall conform to this and all other rules relating to telecommunications companies not specifically waived by order of the commission. Alternate operator services companies (AOS) are those with which a hotel, motel, hospital, prison, campus, customer-owned pay telephone, etc., contracts to provide operator services to its clientele.

For purposes of this section the "consumer" means the party billed for the completion of an interstate/intrastate or local call. "Customer" means the hotel, motel, hospital, prison, campus, customer-owned pay telephone, etc., contracting with an AOS for service.

(1) An alternate operator services company shall require, as a part of the contract with its customer, that the customer post on or near the telephone instrument in plain view of anyone using the telephone:

(a) The registered name of the alternate operator services company, as registered with the commission;

(b) An example of total charges for a typical local and long distance call assuming a direct dialed, three-minute credit card billed at day and evening rates;

(c) Dialing directions so that a consumer may reach the operator so as to receive specific rate information; and

(d) Dialing directions to access through that telephone equipment all telecommunications companies that can be accessed through the local telephone company providing service to the customer.

(2) The alternate operator services company shall:

(a) Identify the AOS company providing the service at the beginning of every call, including those handled automatically; and

(b) Provide to the local exchange company such information as may be necessary for billing purposes, as well as an address and toll free telephone number for consumer inquiries.

(3) The alternate operator services company shall assure that consumers are not billed for calls which are not completed. For billing purposes, calls shall be itemized, identified, and rated from the point of origination to the point of termination. No call shall be transferred to another carrier by an AOS which cannot or will not complete the call, unless the call can be billed in accordance with this subsection.

(4) For purposes of emergency calls, every alternate operator services company shall have the following capabilities:

(a) Automatic identification at the operator's console of the location from which the call is being made;

(b) Automatic identification at the operator's console of the verified telephone numbers of emergency service providers that serve the telephone location, including but not limited to, police, fire, ambulance, and poison control;

(c) Automatic ability at the operator's console of dialing the appropriate emergency service with a single keystroke;

(d) Ability of the operator to stay on the line with the emergency call until the emergency service is dispatched.

No charge shall be imposed on the caller from the telephone company or the alternate operator services company for the emergency call.

If the alternate operator services company does not possess these capabilities, all calls in which the caller dials zero (0) and no other digits within five seconds shall be routed directly to the local exchange company operator. AOS companies lacking sufficient facilities to provide such routing shall cease operations until such time as the requirements of this section are met.

(5) Consumer complaints and disputes shall be treated in accordance with WAC 480-120-101, Complaints and disputes.

(6) Charges billed to a credit card company (e.g., American Express or Visa) need not conform to the call detail requirements of this section. However, the AOS shall provide consumers with specific call detail in accordance with WAC 480-120-106 upon request.

AMENDATORY SECTION (Amending Order ET 87-5, filed 9/8/87)

WAC 458-20-240 MANUFACTURERS, TAX CREDITS. (1) Introduction. Chapter 82.62 RCW establishes a business and occupation tax credits program. Its purpose is to stimulate the economy and create employment opportunities in specific distressed areas of this state. In addition to the tax credit benefits of this program, specific financial incentives to employers who locate or expand business facilities in this state are administered by the Washington state employment security department. The provisions of this section, however, apply only for manufacturing or research and development activities conducted at specific business facilities in announced eligible areas of this state.

(2) Effective April 1, 1986, persons engaged in manufacturing or research and development activities, who otherwise qualify, will receive credits against their business and occupation tax due under chapter 82.04 RCW.

Those credits amount to one thousand dollars for each qualified employment position directly created in an eligible business project, as those terms are defined in this section.

(3) Definitions. For purposes of the tax credits program the following definitions will apply.

(a) "Applicant" means a person applying for tax credit under this program.

(b) "Department" means the department of revenue.

(c) "Eligible area" means:

(i) A county in which the average level of unemployment for the three years before the year in which an application is filed exceeds the average state unemployment for those years by twenty percent. The department will publish a list of such eligible areas by May 1 of each year during the life of this program.

(ii) A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application for credit is filed exceeds the average state unemployment for such calendar year by twenty percent. Applications under this subsection shall be filed by April 30, 1989.

(d) "Eligible business project" means manufacturing or research and development activities which are conducted by an applicant in an eligible area at a specific facility: PROVIDED, That in order to qualify as an eligible business project, the applicant's average full-time qualified employment positions at the specific facility will be at least fifteen percent greater in the year for which credit is being sought than they were at the same facility in the immediately preceding year.

(e) The term "eligible business project" defined earlier, does not include any of the following:

(i) Any business project undertaken by a light and power business;

(ii) Any portion of a business project creating employment positions outside an eligible area;

(iii) Any business projects of persons who are receiving sales tax deferrals under chapter 82.61 RCW (see WAC 458-20-24002).

(f) "Manufacturing" has the meaning given in RCW 82.04.110 and WAC 458-20-136. For purposes of this section the term also includes computer programming, the production of computer software, and other computer-related services, and the activities of research and development and commercial testing laboratories.

(g) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, services, or process before commercial sales have begun.

(h) "Qualified employment position" means a permanent full-time employee, employed in an eligible business project during the entire tax year: PROVIDED, That,

(i) Once a full-time position is established and filled it will continue to qualify for tax credit purposes so long as it is filled by any person or, during any period of vacancy, the employer is training or actively recruiting a replacement employee;

(ii) A position will not be deemed to be filled in order to qualify for tax credit if it is vacant for any period in excess of thirty consecutive days;

(iii) The requirement for employment during the "entire" tax year will be satisfied if the full-time position is filled for a period of twelve consecutive months.

(i) "Permanent full-time employee" means a person who works for the recipient on a paid basis, at least thirty-five hours per week. It does not include independent contractors, independent representatives, persons compensated exclusively on a commissioned basis, or seasonal and similar employment personnel who work for the recipient for only a part of the year.

(j) "Tax year" means the calendar year in which taxes are due.

(k) "Recipient" means a person receiving tax credits under this program.

(l) "Credit computation year" means the tax year for which credits are being sought. The first credit computation year for which any person can seek and qualify for credit approval under this program is tax year 1987.

(m) "Base year" means the entire calendar year immediately preceding the credit computation year. The first base year under this program is 1986.

(4) Application procedures. Application for tax credits under this program must be made using the prescribed application for B & O tax credit on new employees. These forms are available from the department on request. The completed application must be submitted to the department before the actual hiring of qualified employment positions for which credit is sought.

(5) The department will determine if the information contained on the application qualifies the applicant for tax credits and will either approve or disapprove the application within sixty days. If approved, the department will issue a credit approval notice which will notify the recipient in writing of the dollar amount of tax credits available for use and the credit taking procedures. If disapproved, the department will notify the applicant in writing of the specific reasons for disapproval. The applicant may seek administrative review of any credit disapproval pursuant to the provisions of WAC 458-20-100.

(6) Under the law, tax credits may be received only for the creation of qualified employment positions at specific facilities within "eligible areas" as defined earlier. For purposes of making application for tax credits the state-wide and county unemployment statistics last published by the department will be used to determine eligible areas. The department will publish such statistics and a list of eligible areas by county, on May 1 of each year.

(7) A separate application must be submitted for each credit computation year.

(8) Qualifying for credit. There are three qualifying tests, all of which must be met, in order to receive approval for tax credits under this program.

(a) The applicant must be a "manufacturing" business as defined earlier; and

(b) The specific facility at which the manufacturing activities are being conducted must be within an eligible area as defined earlier; and

(c) The average full-time qualified employment positions at the specific facility during the credit computation year must be at least fifteen percent greater than such employment average for the preceding year.

(9) Because chapter 116, Laws of 1986 includes an emergency effective date of April 1, 1986, and because the stated intent is to stimulate the economy and create employment opportunities, this tax credits program is effective immediately. Full-time employees expected to be hired after any application for credits is submitted but before January 1, 1987, will be deemed to be employed as of January 1, 1987. They will be includable within the qualified employment position computation for that year. Thus, credits may be available for all positions hired after the effective date of the law if they otherwise qualify and within the dollar limits explained later.

(10) The threshold, fifteen percent employment increase test (qualifying test number three) is met by:

(a) Stating in the application the actual average number of full-time employment positions which existed at the facility during the base year;

(b) Stating the projected number of new positions to be filled during the credit computation year;

(c) Stating the average number of full-time employment positions for the credit computation year including the new projected positions;

(d) Achieving an increase of at least fifteen percent of (c) over (a) above.

(i) Examples. Applicant has no employees at the facility for base year 1986 and intends to hire ten persons, some in 1986 and some in 1987. Because for first year implementation of the program the 1986 hires will be deemed to be hired January 1, 1987, the applicant's base year average remains zero. Thus, its credit computation year average will always meet the fifteen percent increase test, even if only one new position is hired.

(ii) Applicant has an average employment of ten positions in base year 1986 and intends to hire two more persons, one yet in 1986 and one in 1987. This applicant must achieve a 1.5 position increase in 1987 to meet the fifteen percent threshold test. Since its new 1986 hiree will be attributed to January 1, 1987, it must project to hire the other new position by July 1, 1987, in order to meet the fifteen percent increase average of 1.5 for that credit computation year.

(iii) Applicant has an average employment of fifty positions in base year 1986 and intends to hire five more persons by January 1, 1987. This applicant will not qualify for 1987 tax credits because its 1987 average (fifty-five positions) is not at least fifteen percent greater than its base year 1986. In order to qualify for any credits this applicant would have to project hiring of at least eight new positions (a 1987 average of at least 57.5 employment positions) to meet the needed percentage increase.

(iv) The applicant in the previous example intends to hire ten new positions, five yet in 1986 and the other five sometime in 1987. Since the 1986 hires will be attributed to January 1, 1987 hiring, this applicant must hire the other five new positions early enough in 1987 to be able to compute a 1987 average of at least 57.5 for that

year. Thus, the additional five 1987 hirings would have to be projected to be hired by at least July 1, 1987 in order to qualify for credits.

(11) Note. The department will be able to advise applicants of their minimum number of hiring needs and the latest time within the credit computation year that the positions must be filled to qualify for credits, based upon the information provided in the application.

(12) The carry-over of positions hired in 1986 into 1987 is a first year carry-over only. After 1986, all hiring increases must occur during the computation year for purposes of meeting the fifteen percent threshold test. Thus, applications for the 1988 credits computation year will be tested only by the average increase of 1988 employment positions over the 1987 base year average.

(13) In simplest terms, qualification for tax credits depends upon whether enough new positions are expected to be hired early enough to meet the fifteen percent average increase test.

(14) The fifteen percent threshold test to qualify for tax credits is a "lookahead" test which has no relationship to the dollar amount of credits which may be available. Also, the test for qualifying for approval of tax credits is unrelated to the end-of-year reporting and verification of credits, the "look-back" test explained later in this section. Rather, the fifteen percent test is a credits qualification test only.

(15) Applications for tax credits under this program must include the applicant's expected hirings for the full credit computation year for which credits are sought. After an application is approved and tax credits are granted, no adjustment or amendment of the credits approval will be possible for that credit computation year.

(16) Credits approval and use. Tax credits approved by the department may be used to offset current business and occupation tax liability if the recipient has incurred any such liability during the credit computation year. The credits may be used as soon as actual hiring of the projected qualified employment positions begin. For example, if a recipient has been approved for \$10,000.00 of tax credits based upon projections to hire ten new positions, that recipient may use each \$1,000.00 of tax credit at the time it hires each new employee.

(17) The law provides that the tax credits available under this program must be used to offset business and occupation tax which has been paid during the same tax year. However, rather than paying the tax and then seeking a refund in the amount of credits available, the recipient will take the available credits against current tax liability as it accrues.

(18) The tax credits approved under this program will be taken by the recipients on their regular combined excise tax return for their regular assigned tax reporting period. The amount of credit taken should be filled in on the front of the return form, with a copy of the credit approval notice issued to the recipient attached to that return.

(19) Credits may be used as hiring is done or may accrue until they are most beneficial for the recipient's use. This is true even for first year credits available for

hiring new positions in 1986. As soon as credits are approved and hiring begins, credits may be used, even during the remainder of 1986. No tax refunds will be made for any tax credits which exceed actual tax liability during the life of this program. Under no circumstances may tax credits exceed tax liability.

(20) If tax credits derived from qualified hiring exceed the recipients' business and occupation tax liability in any one calendar year under this program, they may be carried forward to the next calendar year, on an on-going basis, until used.

(21) The tax credits approved for a recipient under this program may be used to offset business and occupation tax liability which the recipient owes because of business activity anywhere in this state. The liability for which the credit is used does not have to be incurred or flow from business engaged in at the specific facility in the eligible area.

(22) Tax credits available in any credit computation year may be used to offset business and occupation tax due on the fourth quarterly return or last monthly return of the tax year, even though that return is not actually filed with the department until January 25 of the following year.

(23) Credit and program limitations. ~~((This is essentially a two year tax credit program. Unless it is extended by law))~~ Except as noted below, the credit application and approval provisions of this program will expire on July 1, ~~((1988))~~ 1994. However, credits which become available under approved applications may be used after July 1, ~~((1988))~~ 1994, as actual hiring is done. No applications submitted by metropolitan statistical areas as defined in subsection (3)(c)(ii) of this section will be accepted after April 30, 1989.

(24) No recipient is eligible for tax credits in excess of three hundred thousand dollars during the entire life of this program.

(25) The total of credits approved for all applicants under this program will not exceed fifteen million dollars per biennium. Any application for credits which is otherwise qualified but which is denied in whole or in part for a biennium because of this total program credit limit, will carry over for approval in the next biennium. However, once the total program credit limit has been met for the next biennium as well, no further tax credits will be approved.

(26) The law provides that no recipient may use tax credits approved under this program to decertify a union or to displace existing jobs in any community of the state. Thus, the average expected increase of qualified employment positions at the specific facility for which application is made must reflect a gross increase in the applicant's employment of persons at all locations in this state. Transfers of personnel from existing positions outside of an eligible area to new positions at the specific facility within an eligible area will not be allowed for purposes of approving tax credits. Also, layoffs or terminations of employment by the recipient at locations outside an eligible area for the purpose of hiring new positions within an eligible area will result in the withdrawal of any credits taken or approved.

(27) Perfecting approved credits. In order to perfect its entitlement to any credits approved and legally use such credits against business and occupation tax due, a recipient must actually hire the required number of qualified employment positions to comply with the application upon which tax credits were approved. Such created positions must be maintained for a continuous period of twelve consecutive months. (See the definition of "qualified employment position" at subsection (3)(h) of this section.) The law establishes a "look-back" test at the end of the credit computation year to determine that the tax recipient has complied.

For purposes of administering this program the department will consider a period of twelve consecutive months of employment to satisfy the definition of "qualified employment position," to perfect the entitlement to tax credits used.

(28) Reporting and monitoring. All recipients of tax credits under this program must file an annual report with the department reporting their employment activities through December 31 of each credit computation year. This report must be submitted by January 31 of the following year. Based upon this report the department will verify that the recipient is perfecting its entitlement to any tax credits approved by actually employing the required number of new qualified employment positions as represented in the recipient's credit application.

(29) Because this program is being fully implemented in mid-year 1986, the annual report due on December 31, 1986, will be an informational report only. No tax credits approved, whether actually used in 1986 or not, will be withdrawn or denied based upon this 1986 report. The annual report due on December 31, 1987, will be the first report which may result in tax credits being withdrawn.

(30) The law provides that if any recipient fails to submit a report or submits an inadequate report, the department may declare the amount of taxes for which credit has been used to be immediately assessed and payable. An inadequate report is one which fails to provide any information in the possession of a recipient which is necessary to confirm that the requisite number of employment positions have been created and maintained for twelve consecutive months. As credits are approved, the department will advise all recipients of the nature of information to be included on their annual reports.

(31) The department will monitor credit applications and annual reports on an ongoing basis over the life of this credit program. The department will maintain a running tabulation of credits approved for individual recipients as well as program credit totals and will advise applicants and recipients in writing of the program credit limitations which may affect their entitlement.

(32) Noncompliance—Withdrawal of credits. The law provides that if the department finds that a recipient is not eligible for tax credits for any reason other than failure to create the required number of qualified employment positions, the amount of taxes for which any credit has been used shall be immediately due. No interest or penalty will be assessed in such cases.

(33) However, if the department finds that a recipient has failed to create the specified number of qualified employment positions, the department shall assess interest, but not penalties, on the taxes against which the credit has been used. This interest assessment is mandatory and will be assessed at the statutory rate under RCW 82.32.050, retroactively to the date the tax credit was used. Such interest will accrue until the taxes for which the credit was used are fully repaid.

(34) The administrative review and appeal provisions of chapter 83.32 RCW are available for any actions of the department, under this program, by which any applicant or recipient is adversely affected.

(35) Disclosure of information. The law provides that information contained in applications, reports, or any other information received by the department in connection with this tax credits program shall not be confidential and shall be subject to disclosure.

AMENDATORY SECTION (Amending Order 87-6, filed 9/22/87)

WAC 458-20-24001 SALES AND USE TAX DEFERRAL—MANUFACTURING AND RESEARCH/DEVELOPMENT FACILITIES IN DISTRESSED AREAS. (1) Introduction. Chapter 82.60 RCW establishes a sales and use tax deferral program. The purpose of the program is to promote economic stimulation, create employment opportunities, and reduce poverty in certain distressed areas of the state. Thus, the legislature established this tax deferral program to be effective solely in those distressed areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified minimum number of jobs. In general, the deferral applies to sales and use taxes on materials, labor, and services rendered in the construction of qualified buildings, machinery, and equipment.

(2) In addition to the tax deferral benefits of this program, the department of employment security administers economic incentives and funding programs which encourage "first source contract" hiring of unemployed persons and state public assistance recipients. The employment security department should be contacted directly for information concerning such nontax-related programs.

(3) Definition of terms. For purposes of this section:

(a) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(b) "Person" has the meaning given in RCW 82.04-.030. It means any individual, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, municipal corporation, political subdivision of the state of Washington, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise and the United States or any instrumentality thereof. For purposes of this section the relationship of landlord and tenant between separate persons, at arms length, shall not be considered as any of the types of relationships which are identified above as "persons."

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Recipient" means a person who has been granted a tax deferral under this program.

(e) "Department" means the department of revenue.

(f) "Eligible area" means:

(i) A county in which the average level of unemployment for the three calendar years preceding the year in which an application is filed exceeds the average state unemployment for those years by twenty percent; ~~((i.e.,))~~ or

(ii) A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under this chapter exceeds the average state unemployment for such calendar year by twenty percent. Applications under this subsection shall be filed by April 30, 1989. For the purpose of (f)(i) of this subsection, the average unemployment rate for the county must be twenty percent above the average unemployment rate for the state in the preceding three calendar years. In determining an eligible area under this subsection the department may compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security.

(g) "Eligible investment project" means that portion of an investment project which:

(i) Is directly utilized to create at least one new full time qualified employment position for each three hundred thousand dollars of investment on which a deferral is requested; and

(ii) Either initiates a new operation or expands or diversifies a current operation by expanding or renovating an existing building, machinery and equipment, with costs in excess of twenty-five percent of the true and fair value of the plant complex prior to the improvement. (See the definition of "improvement" in (h)(iii) of this subsection).

(h) For the purposes of the above paragraph the following definitions will apply:

(i) "Qualified employment position" means a permanent, full time employee employed in the eligible investment project during the entire tax year following the operational completion of the project. In the event an employee is either voluntarily or involuntarily separated from employment the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee so long as the position is not actually vacant for any period in excess of thirty consecutive days.

(ii) The requirement for employment during the "entire tax year," for purposes of this tax deferral program, will be satisfied if the full time position is filled for a period of twelve consecutive months.

(iii) An "improvement" shall mean the physical alteration by significant expansion, modernization, or renovation of an existing plant complex, excluding land, where

the cost of such expansion, etc., exceeds twenty-five percent of the true and fair value of the existing plant complex prior to the initiation of the expansion or renovation. The term "improvement" is further defined to include those portions of an existing building which do not increase the usable floor space, but is limited to the renovation, modernization, or any other form of alteration or addition and the equipment and machinery installed therein during the course of construction. The twenty-five percent test may be satisfied by considering the value of both the building and machinery and equipment, however, at least forty percent of the total renovation costs must be attributable to the physical renovation of the building structure alone.

(iv) "True and fair value" means the value listed on the assessment rolls as determined by the county assessor for the land, buildings, or equipment for ad valorem property tax purposes at the time of application.

(v) "Plant complex" shall mean land, machinery, and buildings adapted to industrial, computer, warehouse, or research and development use as a single functional or operational unit for the designing, assembling, processing, or manufacturing of finished or partially finished products from raw materials or fabricated parts.

(vi) "Eligible investment project" does not include either an investment project undertaken by a light and power business as defined in RCW 82.16.010(5), or investment projects which have already received deferrals under chapter 82.60 RCW.

(i) "Investment project" means an investment in qualified buildings and qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. A person who does not build or remodel its own building, but leases from a third party, is eligible for sales and use tax deferral provided that an investment in qualified machinery and equipment is made by such person and a new structure used to house the manufacturing activities is constructed. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, and equipment vests in the same persons.

(j) "Manufacturing" has the meaning given in RCW 82.04.110 and WAC 458-20-136 now and as hereafter amended. Manufacturing, for purposes of this section, shall also include computer programming, the production of computer-related service, and the activities performed by research and development laboratories and commercial testing laboratories.

(k) "Qualified buildings" means new structures used to house manufacturing activities as defined above and includes plant offices, warehouses, or other facilities for the storage of raw material and finished goods if such facilities are essential or an integral part of a manufacturing operation. The term also includes parking lots, landscaping, sewage disposal systems, cafeterias, and the like, which are attendant to the initial construction of an eligible investment project. The term "new structures" means either a newly constructed building or a building newly purchased by the certificate holder. A preowned or existing building is eligible for deferral provided that the certificate holder expands, modernizes, renovates, or

remodels the preowned or existing building by physical alteration thereof.

(l) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing operation, as defined above. "Qualified machinery and equipment" includes, but is not limited to, computers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a long or short term lease by the recipient. The tax deferral applies to equipment purchased outright by the recipient (or the transfer of machinery and equipment into the state of Washington) and leased equipment. Acquisition of spare parts for machinery, equipment, etc., in excess of normal operating levels shall not be eligible for deferral.

(m) "New machinery and equipment" means either new to the taxing jurisdiction of the state or new to the certificate holder. Used equipment is eligible for deferral provided that the certificate holder either brings the machinery or equipment into Washington for the first time or purchases it at retail in Washington.

(n) "Initiation of construction," for purposes of applying for the investment tax deferral relating to the construction of new buildings, shall mean the date upon which on-site construction work commences.

(o) "Initiation of construction," for purposes of applying for the investment tax deferral relating to a major improvement of existing buildings, shall mean the date upon which the new construction by renovation, modernization, or expansion, by physical alteration, begins.

(p) "Operationally complete" means the eligible investment project is constructed or improved to the point of being fully and functionally useable for its intended purpose as described in the application.

(4) Application procedure. An application for sales and use tax deferral under this program must be made prior to the initiation of construction, as defined above. However, any application by a metropolitan statistical area defined as an "eligible area" in subsection (3)(f)(ii) of this section must be filed by April 30, 1989. Application forms will be supplied to the applicant by the department upon request. The completed application is to be sent in duplicate to the following address:

State of Washington
Department of Revenue
Audit Procedures & Review
Olympia, WA 98504
Mail Stop AX-02

(5) The department will verify the information contained in the application and either approve or disapprove the application within sixty days. If approved, a tax deferral certificate shall be issued effective as of the date the application was received by the department. If disapproved, the department shall notify the applicant as to the reason(s) for disapproval. The applicant may seek administrative review of the department's refusal to issue

a certificate pursuant to the provisions of WAC 458-20-100, within twenty days from the date of notice of the department's refusal, or within any extension of such time granted by the department.

(6) For purposes of making application for tax deferral and of approving such applications, the state-wide and county unemployment statistics last published by the department will be used to determine eligible areas. The department will publish a list of eligible areas by county, on May 1 of each year.

(7) Use of the certificate. A tax deferral certificate issued under this program shall be for the use of the recipient thereof for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings and qualified machinery and equipment as defined in this section. Thus, sales and use taxes cannot be deferred on items which do not become part of the qualified buildings, machinery, and equipment.

(8) The tax deferral certificate shall be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102. The certificate holder shall provide its vendors with a copy of the tax deferral certificate at the time goods or services are purchased. The seller or vendor shall be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller or vendor shall retain a copy of the certificate as part of its permanent records. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller or vendor is liable for reporting business and occupation tax on all tax deferral sales.

(9) Audit procedure. An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a sales and use tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate. At that time the certificate holder may not utilize the certificate further. If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may apply for a supplemental certificate stating a revised amount upon which the deferral of sales and use taxes is requested. The certificate holder shall amend the original application to account for the additional costs. The department will grant or deny the amended application on the same basis as original applications.

(10) The certificate holder shall notify the department in writing when the construction project is operationally complete. Upon receipt of such notification or other information, the department shall conduct a final audit of the investment project. The certificate holder shall open its books and records to the department and make available the final cost figures for the investment project. The department may request reasonable supporting documentation and other proof to justify the final cost of the project.

(11) Upon completion of the audit the department shall certify the amount of sales and use taxes subject to deferral and the date on which the project was operationally complete. The recipient shall be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes shall be paid, and any reports required to be submitted in the subsequent years. If the department disallows all or any portion of the amount of sales and use taxes requested for deferral, the recipient may seek administrative review of the department's action pursuant to the provisions of WAC 458-20-100, within twenty days from the date of the notice of disallowance.

(12) The department shall keep a running total of all deferral certificates granted during each fiscal biennium.

(13) The deferral is allowable only in respect to investment in the construction of a new plant complex or the enlargement or improvement of an existing plant complex directly used in manufacturing activities, as defined above. Where a plant complex is used partly for manufacturing and partly for purposes which do not qualify for deferral under this section and it is not possible to identify the nonqualifying items through separate accounting, the applicable tax deferral shall be determined by apportionment according to the ratio which the construction cost per square foot of that portion of the plant complex directly used for manufacturing purposes bears to the construction cost per square foot of the total plant complex.

(14) The amount of tax deferral allowable for leased equipment shall be calculated upon that amount of the consideration paid by the lessee/recipient to the lessor:

(a) Over the initial term of the lease, excluding any period of extension or option to renew, where the lease term ends on or before the last date for repayment of the deferred taxes; or

(b) Over that portion of the lease term to the last date for repayment of deferred taxes as provided hereinafter, where the lease term, excluding any period of extension or option to renew extends beyond such repayment date.

(15) After that date the lessee/recipient shall pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(16) No taxes may be deferred under this section prior to July 1, 1985. No applications for deferral of taxes will be accepted after May 1, ~~((1991))~~ 1994 nor will sales or use tax deferral certificates be issued on or after July 1, ~~((1991))~~ 1994. See subsection (4) of this section for application deadline for any metropolitan statistical area. In tabulating the total amount of deferrals granted under this law there shall be considered a total of three fiscal biennia within which applications shall be accepted.

(17) Reporting and monitoring procedure. Each recipient of sales and use tax deferral shall submit a report to the department on December 31st of each year during the repayment period until all taxes are repaid. The first report shall be submitted in the third year after the date on which the construction project has been operationally complete to coincide with the first payment of deferred taxes. The report shall contain information from which

the department may determine whether the recipient is meeting the requirements of the deferral law.

(18) The report shall be made to the department in a form and manner prescribed by the department. The report shall contain information regarding the recipient's average employment in the state for the prior three years, the actual employment related to the project, the actual wages of the employees related to the project, and any other information required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately assessed and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(19) The department shall notify the department of employment security of the names of all recipients of tax deferrals under this program. On or before December 31st of each year a deferral is in effect, the department shall request information on each recipient's employment in the state for that year, including employment related to the deferral project, and the wages of such employees. The department of employment security shall make, and certify to the department, all determinations of employment and wages required under this subsection.

(20) If, on the basis of the recipient's annual report or other information including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral, the department will (a) declare the amount of deferred taxes outstanding to be immediately due or (b) assess interest on the deferred taxes for the project.

(21) If the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the department shall assess interest, but not penalties, on the deferred taxes. The interest shall be assessed at the rate of nine percent per annum, shall be assessed retroactively to the date of deferral, and shall accrue until the deferred taxes are paid. A recipient of deferred taxes shall have from the date on which the construction project was certified as operationally complete to December 31st of the first year of repayment in which to create the required number of employment positions under this law.

(22) If the department finds that the investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the amount of deferred taxes outstanding for the project shall be immediately due. The reasons for disqualification include, but are not limited to, the following:

(a) The facility is not used for a manufacturing, warehouse, computer, or research and development operations;

(b) The recipient has not made an investment in qualified buildings, machinery, and equipment.

(23) Any action taken by the department to assess interest or disqualify a recipient for tax deferral shall be subject to administrative review pursuant to the provisions of WAC 458-20-100.

(24) The law expressly excuses the obligation for repayment of sales or use tax upon the value of labor directly applied in the construction of an investment project for which deferral has been granted, PROVIDED:

(a) That deferral has been granted after June 11, 1986; and

(b) That eligibility for the granted tax deferral has been perfected by actually meeting all of the eligibility requirements, based upon the recipient's annual December 31 reports and any other information available to the department.

(25) The recipient must establish, by clear and convincing evidence, the value of all construction and installation labor for which repayment of sales tax is sought to be excused. Such evidence must include, but is not limited to: A written, signed, and dated itemized billing from construction/installation contractors or independent third party labor providers which states the value of labor charged separately from the value of materials.

(26) The above information must be maintained in the recipient's permanent records for the department's review and verification at the time of the final audit of the investment project.

(27) In the absence of such itemized billings in its permanent records, no recipient may be excused from repayment of sales tax on the value of labor in an amount exceeding thirty percent of its gross construction or installation contract charges.

(28) The value of labor for which an excuse from repayment of sales or use tax may be received will not exceed the value which is subject to such taxes under the general provisions of chapters 82.08 and 82.12 RCW.

(29) Payment procedures. The recipient of sales and use tax deferral under this program shall begin paying the deferred taxes in the third year after the date certified by the department as the date on which the construction project was operationally complete. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years, with amounts of payment scheduled as follows:

Repayment Year	Percentage of Deferred Tax Repaid
1	10%
2	15%
3	20%
4	25%
5	30%

(30) The department may authorize an accelerated repayment schedule upon request of the recipient. Interest shall not be charged on any taxes deferred under this rule during the period of deferral, although other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for any delinquent payments during the repayment period pursuant to chapter 82.32 RCW. The debt for deferred taxes shall not be

extinguished by insolvency or other failure of the recipient nor shall the debt for the deferred taxes be extinguished by the sale, exchange, or other disposition of the recipient's business. Any person who becomes a successor (see WAC 458-20-216) to such investment project shall be liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(31) Disclosure of information. The law provides that information contained in applications, reports, and other information received by the department in connection with this tax deferral program shall not be confidential and shall be subject to disclosure.

AMENDATORY SECTION (Amending Order ET 87-5, filed 9/8/87)

WAC 458-20-24002 SALES AND USE TAX DEFERRAL—NEW MANUFACTURING AND RESEARCH/DEVELOPMENT FACILITIES. (1) Introduction. Chapter 82.61 RCW, as amended, establishes a sales and use tax deferral program for certain manufacturing or research and development investment projects. The deferral will be granted only to persons not currently engaged in manufacturing or research and development activities in the state of Washington on June 14, 1985, the effective date of the deferral program. Applications for the tax deferral may be accepted up through June 30, ((+1988)) 1994; a holder of a tax deferral certificate must initiate construction of the investment project within one hundred eighty days of receiving approval from the department and issuance of the tax deferral certificate. In general, the deferral applies to the construction of new buildings and the acquisition of related machinery and equipment.

(2) In addition to the tax deferral benefits of this program, the department of employment security administers economic incentives and funding programs which encourage "first source contract" hiring of unemployed persons and state public assistance recipients. The employment security department should be contacted directly for information concerning such nontax-related programs.

(3) Definition of terms. Unless the context clearly requires otherwise, the definitions in this section apply throughout this rule.

(4) "Applicant" means a person applying for a tax deferral under this ((rule)) section.

(5) "Person" has the meaning given in RCW 82.04-.030. It means any individual, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, municipal corporation, political subdivision of the state of Washington, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise and the United States or any instrumentality thereof. For purposes of this ((rule)) section the relationship of landlord and tenant between separate persons, at arms length, shall not be considered as any of the types of relationships which are identified above as "persons".

(6) "Eligible investment project" means construction of new buildings and the acquisition of new related machinery and equipment when the buildings, machinery, and equipment are to be used for either manufacturing or research and development activities, which construction is commenced prior to December 31, (~~(1988)~~) 1994. (See subsection (37) of this section for special provisions relating to aluminum plants.)

(7) "Manufacturing" means all activities of a commercial or industrial nature wherein labor or skill is applied, by hand or machinery, to materials so that as a result thereof a new, different, or useful substance or article of tangible personal property is produced for sale or commercial or industrial use and includes the production or fabrication of specially made or custom-made articles.

(8) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun.

(9) "Buildings" means only those new structures used for either manufacturing or research and development activities, including plant offices and warehouses or other facilities for the storage of raw materials or finished goods if such facilities are an essential or integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development purposes. If a building is used partly for manufacturing or research and development purposes and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under this (~~(rule)~~) section.

(10) "Machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation.

(11) "Qualified machinery and equipment" includes computers; software; data processing equipment; laboratory equipment; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; operating structures; and all equipment used to control or operate the machinery. For purposes of this definition, new machinery and equipment means either new to the taxing jurisdiction of the state or new to the certificate holder. Used machinery and equipment are eligible for deferral if the certificate holder either brings the machinery and equipment into Washington for the first time or makes a retail purchase of the machinery and equipment in Washington.

(12) "Acquisition of equipment and machinery" shall have the meaning given to the term "sale" in RCW 82-.04.040. It means any transfer of the ownership of, title to, or possession of, tangible personal property for a valuable consideration. A sale takes place when the goods sold are actually or constructively delivered to the buyer in this state.

(13) "Recipient" means a person receiving a tax deferral under this (~~(chapter)~~) section.

(14) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(15) "Operationally complete" means that the eligible investment project is constructed or improved to the

point of being fully and functionally useable for the intended purpose as described in the application.

(16) "Initiation of construction" means that date upon which on-site construction commences.

(17) "Plant complex" shall mean land, machinery, and buildings adapted to commercial, industrial, or research and development use as a single functional or operational unit for the designing, assembling, processing or manufacturing of finished or partially finished products from raw materials or fabricated parts.

(18) "Investment project" means an investment in qualified buildings and qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. A person who does not build its own building, but leases from a third party, is eligible for sales and use tax deferral provided that an investment in qualified machinery and equipment is made by such person and a new structure used to house the manufacturing activities is constructed. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, and equipment vests in the same persons. An eligible investment project does not include any project which or person who have previously been the recipient of a tax deferral under Washington law.

(19) Application procedures. An application for sales and use tax deferral under this program must be made prior to either the initiation of construction or the acquisition of equipment or machinery, as defined above, whichever occurs first. Application forms will be supplied to the applicant by the department upon request. The completed application is to be sent in duplicate to the following address:

State of Washington
Department of Revenue
Audit Procedures & Review
Olympia, WA 98504
Mail Stop AX-02

(20) The application shall contain information regarding the location of the investment project, estimated or actual costs, time schedules for completion and operation, and other information required by the department, including information relating to employment at the investment project.

(21) The department will examine and verify the information contained in the application and either approve or disapprove the application within sixty days. If approved, a tax deferral certificate will be issued effective as of the date the application was received by the department. If disapproved, the department shall notify the applicant as to the reason(s) for disapproval. The applicant may seek administrative review of the department's refusal to issue a certificate pursuant to the provisions of WAC 458-20-100 within twenty days from the date of notice of the department's refusal, or within any extension of such time granted by the department. A certificate holder shall initiate construction of the investment project within one hundred eighty days of receiving approval from the department and issuance of the tax deferral certificate.

(22) A tax deferral certificate shall only be issued to persons who, on June 14, 1985, are not engaged in manufacturing or research and development activities within this state. For purposes of this section, a person shall not be considered to be engaged in manufacturing or research and development activities where the only activities performed by such person in this state are sales, installation, repair, or promotional activities in respect to products manufactured outside this state. Any person who has succeeded by merger, consolidation, incorporation, or any other form or change of identity to the business of a person engaged in manufacturing or research and development activities in this state on June 14, 1985 and any person who is a subsidiary of a person engaged in manufacturing or research and development activities in this state on June 14, 1985 shall also be ineligible to receive a tax deferral certificate.

(23) No application for deferral of taxes shall be accepted after June 30, (~~(1988)~~) 1994. For purposes of this regulation, the time of receipt of an application shall be determined by the date shown by the post office cancellation mark stamped upon the envelope containing the application if transmitted by the United States Postal Service, the date stamped on the envelope if transmitted by another carrier, or the date of receipt if hand delivered to an office of the department.

(24) Use of the certificate. A tax deferral certificate issued under this program shall be for the use of the recipient thereof for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings, machinery, and equipment as defined in this section. Thus, sales and use taxes cannot be deferred on items which do not become part of the qualified buildings, machinery, and equipment.

(25) The tax deferral certificate shall be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102. The certificate holder shall provide its vendors with a copy of the tax deferral certificate at the time goods or services are purchased. The seller or vendor shall be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller or vendor shall retain a copy of the certificate as part of its permanent records. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller or vendor is liable for reporting business and occupation tax on all deferral sales.

(26) Audit procedures. The certificate holder shall notify the department in writing when the construction project is operationally complete. Upon receipt of such notification or other information, the department shall conduct a final audit of the investment project. The certificate holder shall open its books and records to the department and make available the final cost figures for the investment project. The department may request reasonable supporting documentation and other proof to justify the final cost of the project.

(27) Upon completion of the audit the department shall certify the amount of sales and use taxes subject to

deferral and the date on which the project was operationally complete. The recipient shall be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes shall be paid, and any reports required to be submitted in the subsequent years. If the department disallows all or any portion of the amount of sale and use taxes requested for deferral, the recipient may seek administrative review of the department's action pursuant to the provisions of WAC 458-20-100, within twenty days from the date of the notice of disallowance.

(28) The deferral is allowable only in respect to investment in the construction of a new plant complex used in manufacturing or research and development activities, as defined above. Where a plant complex is used partly for manufacturing or research and development purposes and partly for purposes which do not qualify for deferral under this section and it is not possible to identify the nonqualifying items through separate accounting, the applicable tax deferral shall be determined by apportionment according to the ratio which the construction cost per square foot of that portion of the plant complex directly used for manufacturing purposes bears to the construction cost per square foot of the total plant complex.

(29) The amount of tax deferral allowable for leased equipment shall be calculated upon that amount of the consideration paid by the lessee/recipient to the lessor:

(a) Over the initial term of the lease, excluding any period of extension or option to renew, where the lease term ends on or before the last date for repayment of the deferred taxes; or

(b) Over that portion of the lease term to the last date for repayment of deferred taxes as provided hereinafter, where the lease term, excluding any period of extension or option to renew extends beyond such repayment date.

(30) After that date the lessee/recipient shall pay the appropriate sales tax to the lessor for the remaining term of the lease.

(31) No taxes may be deferred under this section prior to June 14, 1985. No applications for deferral of taxes will be accepted after June 30, (~~(1988)~~) 1994, nor will sales or use tax deferral certificates be issued after August 29, (~~(1988)~~) 1994. A certificate holder must commence construction of the investment project within one hundred eighty days of receiving approval from the department and issuance of the tax deferral certificate but no later than December 31, (~~(1988)~~) 1994.

(32) Reporting and monitoring procedure. An applicant must provide the department with the estimated cost of the investment project at the time the application is made. The applicant shall also provide information relative to the number of jobs contemplated to be created by the project.

(33) The department and the department of trade and economic development shall jointly make two reports to the legislature about the effect of this deferral law on new manufacturing and research and development activities and projects in Washington. The report shall contain information concerning the number of deferral certificates granted, the amount of state and local sales and use taxes deferred, the number of jobs created, and other

information useful in measuring such effects. The departments shall submit their joint reports to the legislature by January 1, 1986 and by January 1 of each year through ~~((1989))~~ 1995.

(34) Any recipient of a sales and use tax deferral may be asked to submit reports to the department or department of trade and economic development during any period of time the recipient is receiving benefits under this deferral law. The report shall be made to the department in a form and manner prescribed by the department. The recipient may be asked to report information regarding the actual average employment related to the project, the actual wages of the employees related to the project, and any other information required by the department. If the recipient fails to submit a report, the department may not impose any penalties or sanctions against the recipient.

(35) Payment procedures. The recipient of sales and use tax deferral under this program shall begin paying the deferred taxes in the third year after the date certified by the department as the date on which the construction project was operationally complete. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years, with amounts of payment scheduled as follows:

Repayment Year	Percentage of Deferred Tax Repaid
1	10%
2	15%
3	20%
4	25%
5	30%

(36) The department may authorize an accelerated repayment schedule upon request of the recipient. Interest shall not be charged on any taxes deferred under this program during the period of deferral, although other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for any delinquent payments during the repayment period pursuant to chapter 82.32 RCW. The debt for deferred taxes shall not be extinguished by insolvency or other failure of the recipient nor shall the debt for the deferred taxes be extinguished by the sale, exchange, or other disposition of the recipient's business. Any person who becomes a successor (see WAC 458-20-216) to such investment project shall be liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(37) Special provisions affecting aluminum production facilities. Effective May 19, 1987, the law makes special provisions for sales and use tax deferrals for new or used equipment, machinery and operating property, and labor and services in connection with the startup or continued operation of aluminum smelter facilities which were in operation before 1975, but which have ceased operations (or are in imminent danger of ceasing operations). Also, such special provisions may apply to modernization projects involving the construction, acquisition, or upgrading of new or used equipment and machinery to increase

the operating efficiency of aluminum smelters or aluminum rolling mills and facilities. Such special provisions entail consultation with collective bargaining units for existing employees as well as the concurrence by such bargaining units with the deferral requested ~~((or a concurrence waiver by the department of trade and economic development))~~. Persons who operate such facilities should contact the department of revenue to determine if the sales and use tax deferrals are available in any specific case.

(38) Disclosure of information. The law provides that information contained in applications, reports, and other information received by the department in connection with this tax deferral program shall not be confidential and shall be subject to disclosure.

ADOPTED RULES

DEPARTMENT OF RETIREMENT SYSTEMS

[Order 88-13—Filed August 17, 1988]

I, Robert L. Hollister, Jr., director of the Department of Retirement Systems, do promulgate and adopt at 1025 East Union, Olympia, WA 98504, the annexed rules relating to this notice proposes to adopt new rules under chapter 415-112 WAC, entitled Teachers' retirement board of trustees. WAC 415-112-330, entitled Amount of service credit, permits part-time community college teachers members to receive pensions based on what their salary would have been if employed full time. This necessitates a more complete definition of full- and part-time service and a method for determining partial credit.

This action is taken pursuant to Notice No. WSR 88-13-120 filed with the code reviser on June 22, 1988. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 41.32.270 and 41.32.010 (11)(ii) and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 10, 1988.

(2) For members who are employed as classroom teachers by a school district, a school year shall consist

A fractional year of credit shall be granted to a member who is employed for at least twenty days but less than one hundred forty-four days during a school year. The fraction shall be that produced by using the days employed as the numerator and one hundred eighty as the denominator. In the absence of an indication in the contract or elsewhere concerning what constitutes one day of employment, a classroom teacher shall be granted one day of credit for every six hours the teacher works and for which the teacher is compensated.

(3) For members who are employed as community college academic employees as defined by chapter 28B-.52 RCW, a school year shall consist of at least three academic quarters or two semesters during a fiscal year. Academic employees shall be granted one full year of service credit for eighty percent of the full-time annual load as defined in their institution's negotiated agreement. In the absence of a definition of full-time annual load in the agreement, the official board-adopted college policy will apply. Percents of load of at least eleven percent (reported as not less than twenty days per fiscal year) and less than eighty percent (reported as eighty percent of the individual college academic calendar or one hundred thirty-four days per fiscal year, whichever is greater) will be applied pro rata. Percent of load will be converted to days for institution reporting and for retirement benefit calculation purposes. Nonacademic employees will have their service credit reported and benefits calculated based on actual days worked. Where there is no definition of full-time load in either the collective bargaining agreement or the official board-adopted college policy, service credit will be calculated pursuant to subsections (4) and (5) of this section.

(4) For members who are employed as community college classroom instructors, a school year shall consist of at least three academic quarters or two semesters during a fiscal year. Such a classroom instructor shall be granted one year of service credit for teaching thirty-six quarter hours or twenty-four semester hours. A fractional year of credit shall be granted to such instructors who teach at least five but less than thirty-six quarter hours, or at least three but less than twenty-four semester hours. (5) Members who are not employed as classroom instructors and who are employed for one hundred forty-four or more days during a fiscal year shall be granted one year of service credit. A fractional year of credit shall be granted to a member who is employed for at least twenty days but less than one hundred forty-four days. The credit granted shall be the fraction produced by using the days employed as the numerator and one hundred eighty as the denominator. Where there is no indication in the contract or elsewhere concerning what constitutes one day of employment, one day of credit shall be granted for every eight hours the member works

and for which the member is compensated: PROVIDED, That counselors and librarians who are employed by a community college district in an instructional position as defined in RCW 41.32.010 (11)(a)(ii) and paid on an hourly rate shall be granted one day of credit for every seven hours the member works and for which the member is compensated.

(6) The fact that a member is granted a fractional year of service credit under this section shall not be determinative as to whether that member was employed less than full time in a year used to determine benefits under RCW 41.32.497, 41.32.498, and 41.32.520, for purposes of determining whether the member held a bona fide part-time position and what earnable compensation the member would have received under RCW 41.32.011.

Be it resolved by the Washington State Hospital Commission, acting at the Seattle Airport Hilton, Seattle, Washington, that it does adopt the annexed rules relating to methodology and criteria for approval, modification, or disapproval of annual budget submittal and rates, rate schedules, other charges and changes therein, WAC 261-40-150.

This action is taken pursuant to Notice Nos. WSR 88-13-132 and 88-16-042 filed with the code reviser on June 22, 1988, and July 29, 1988. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to chapter 70.39 RCW and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 17, 1988.

AMENDATORY SECTION (Amending Order 88-02, Resolution No. 88-02, filed 5/13/88)

WAC 261-40-150 METHODOLOGY AND CRITERIA FOR APPROVAL, MODIFICATION, OR

DISAPPROVAL OF ANNUAL BUDGET SUBMITTAL AND RATES, RATE SCHEDULES, OTHER CHARGES, AND CHANGES THEREIN. The following methodology and criteria shall be utilized by the commission in reviewing and acting on annual budget submittals. The relative importance of each criterion, and the extent to which justification for variance from the methodology and criteria is accepted, is a matter of commission discretion:

The following is effective for hospital fiscal years beginning in 1987.

(1) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:

(a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;

(b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;

(c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs;

(d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.

(2) Whether the commission action will permit the hospital to render necessary, effective and efficient service in the public interest.

(3) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care services.

(a) Rural includes all areas of the state with the following exceptions:

(i) The entire counties of Snohomish (including Camano Island), King, Kitsap, Pierce, Thurston, Clark, and Spokane;

(ii) Areas within a twenty-mile radius of an urban area exceeding thirty thousand population; and

(iii) Those cities or city-clusters located in rural counties but which for all practical purposes are urban. These areas are Bellingham, Aberdeen-Hoquiam, Longview-Kelso, Wenatchee, Yakima, Sunnyside, Richland-Kennewick-Pasco, and Walla Walla.

(4) Whether the appropriate area-wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.

(5) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:

(a) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:

(i) Historical admission trends, including a revised current year estimate derived from seasonally-adjusted quarterly report information;

(ii) Historical trends of outpatient volumes as measured by inflation-adjusted outpatient revenue and outpatient equivalents of admissions;

(iii) Historical trends of the average length of stay;

(iv) Historical case mix indices as obtained from the commission hospital abstract reporting system; and

(v) Such other information as the commission may determine is appropriate as a basis for deviating from measures based upon historical trends including, but not limited to:

(A) Revisions necessary to maintain compliance with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Negotiated rate agreements that guarantee additional volumes related to a purchaser of hospital health care services;

(C) The implementation or deletion of services or programs for which certificate of need approval has been obtained, if required; and

(D) Other considerations presented by the hospital or other interested persons and determined to be appropriate by the commission.

(b) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from revenue) per adjusted case mix value unit to the hospital's baseline net patient services revenue per adjusted case mix value unit as calculated in item (i) below and modified by item (ii) below:

(i) Each hospital's baseline net patient services revenue per adjusted case mix value unit shall be calculated by applying to the individual hospital the same methodology utilized by the commission in establishing the volume, operating expense, and capital allowance components of the allocated target dollar amount of total state-wide hospital revenue adopted by the commission in accordance with RCW 70.39.150(6).

(ii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit does not exceed the revised baseline, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsection (5)(f), (6), and (7) of this section.

(iii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit exceeds the revised baseline, further review of the components of operating expense and capital allowance will be conducted.

(c) The commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's

health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not exceed those that are necessary for a reasonably and prudently managed hospital, based upon:

(i) Adjusting the requested level of operating expenses to reflect the adjusted case mix value units as determined according to (a) of this subsection, utilizing the variable cost factors described in subsection (6) of this section;

(ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic conditions, as appropriate;

(iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection (6) of this section or inflation forecasts. This information shall include but not be limited to:

(A) Revisions necessary to comply with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;

(C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required;

(D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection (6) of this section inappropriate; and

(E) Other consideration presented by the hospital and determined to be appropriate by the commission.

(d) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:

(i) Capital allowance includes a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations, an allowance for working capital, and other considerations as determined to be appropriate by the commission.

(A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.

(I) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate of need has been issued by the department of social and health services;

(II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's Accounting and Reporting Manual for Hospitals, pursuant to WAC 261-20-030, will be excluded from the base.

(B) A return on net property, plant and equipment as determined in (I), (II), and (III) below shall be presumed appropriate; however, the commission may vary from that rate, higher or lower, where appropriate.

(I) The rate of return on equity financed net property, plant and equipment shall be calculated by averaging the reported interest rates on twenty-five-year "A" rated tax-exempt bonds as reported in each issue of Rate Controls from the three months ending on August 31 of each year.

(II) The rate of return on debt financed net property, plant and equipment shall be a blended average of each hospital's average interest rate on long-term debt and the rate of return on equity financed net property, plant and equipment. The blending schedule is as follows:

(aa) For hospital fiscal years beginning in 1987: Seventy-five percent - each hospital's average interest rate on long-term debt, twenty-five percent - rate of return on equity financed net property, plant and equipment;

(bb) For hospital fiscal years beginning in 1988: Fifty percent - each hospital's average interest rate on long-term debt, fifty percent - rate of return on equity financed net property, plant and equipment;

(cc) For hospital fiscal years beginning in 1989: Twenty-five percent - each hospital's average interest rate on long-term debt, seventy-five percent - rate of return on equity financed net property, plant and equipment;

(dd) For hospital fiscal years beginning in 1990 and each year thereafter: Zero percent - each hospital's average interest rate on long-term debt, one hundred percent - rate of return on equity financed net property, plant and equipment.

(III) After computation of the return on net property, plant and equipment, allowable interest expense on long-term debt shall be deducted from the computed return.

(C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to thirteen and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate.

(I) The commission may determine that a hospital which is found essential to assure access of the rural public to basic health care services is experiencing financial distress and may determine to vary from the allowance for working capital.

(II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable.

(D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the following elements:

(I) Hospitals that have been undercapitalized as determined by an average accounting age of property,

plant and equipment which exceeds one hundred fifty percent of the state-wide average; and a total turnover rate of assets which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest Hospital Industry Financial Report of the healthcare financial management association or a fixed asset turnover rate which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest Hospital Industry Financial Report of the healthcare financial management association, provided that:

(aa) The total level of capital allowance for under-capitalized hospitals should not exceed one hundred twenty-five percent of the baseline level; and

(bb) The requested rate per adjusted admission, as revised to reflect the hospital's case mix index, does not exceed the peer group median; and

(cc) The resulting increase in the rate per adjusted case mix value unit does not exceed one hundred twenty-five percent of the baseline median rate of increase.

(II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;

(III) If the hospital has been approved for equity funding or accumulation of funds for a project in the future and its rate per adjusted case mix value unit is at or below the median of its peer group, the proposed project is consistent with the hospital's long-range plan and financing plan which have been approved by the hospital's governing body, the proposed project is consistent with the health systems plan of the appropriate health systems agency, and any equity funding allowed in total rate setting revenue is maintained in a separate subaccount within board designated assets and cannot be used for any other purpose without prior approval of the commission; and

(IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be excessive by the commission.

(e) Whether the budgeted deductions from revenue are appropriate:

(i) Contractual adjustments related to governmental programs, such as Titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, self-insured workers' compensation, Veteran's Administration, and Indian Health Service are allowable as deductions from revenue for rate setting purposes when the hospital payment rates are established unilaterally by the program;

(ii) Contractual adjustments related to bank card discounts, negotiated rates and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;

(iii) Contractual adjustments relating to contracts executed with the department of social and health services, under the Medicaid selective contracting program, are allowable as deductions from revenue for rate setting purposes;

(iv) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require justification;

(v) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification; and

(vi) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.

(f) Whether the reviews performed in accordance with (a), (b), (c), (d) and (e) of this subsection result in rates, rate schedules, other charges, and changes therein which are the most reasonable under the circumstances.

(i) Rate setting revenue per adjusted case mix value unit should not exceed the 70th percentile of the peer group revenue screens as adjusted for each hospital's case mix index unless the hospital demonstrates to the commission's satisfaction that the relatively high rates are acceptable.

(ii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by the hospitals;

(iii) If the rates are not approved as requested, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order.

(6) Whether the rates implemented and revenues collected by the hospital conform to the applicable commission determinations.

(a) For budget years beginning on or before 1986, conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of either the aggregate rate per adjusted patient day, or the revenues for individual revenue centers, as either may be modified, where appropriate, for volume variance between budgeted and actual levels; such comparison shall be made using actual, rather than budgeted, deductions from revenue.

The approved capital allowance shall be considered a fixed cost when considering year-end conformance. Only that portion of total costs per patient day designated as variable according to the following schedule will be adjusted for volume variance:

Peer groups 1 and 2 and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent.

Peer groups 3 and 4 and speciality hospitals having fifty or more beds; fixed costs - seventy percent, variable costs - thirty percent.

Peer groups 5 and 6 hospitals; fixed costs - sixty percent, variable costs - forty percent.

Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs, either in the aggregate or by revenue center. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable revenue variance due to volume changes.

The hospital may submit any justifying information to explain deviations/variances from approved revenues.

(b) For budget year 1987, conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of the aggregate rate per adjusted case mix value unit. The revenues may be modified, where appropriate, for volume variance between budgeted and actual levels of adjusted case mix value units.

(i) Actual allowable, rather than budgeted, deductions from revenue will be used in the conformance calculation.

(ii) The approved capital allowance shall be considered a fixed cost when considering year-end conformance.

(iii) Only that portion of total operating costs designated as variable according to the following schedule will be adjusted for volume variance:

(A) Peer Group A and specialty hospitals having fewer than fifty beds; fixed costs – eighty percent, variable costs – twenty percent;

(B) Peer Group B and specialty hospitals having from fifty to one hundred seventy-five beds; fixed costs – sixty-five percent, variable costs – thirty-five percent;

(C) Peer Group C and specialty hospitals having more than one hundred seventy-five beds; fixed costs – fifty percent, variable costs – fifty percent.

(iv) Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs by natural classification of expense. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable operating expense variance due to volume changes.

(v) The hospital may submit any proposed justifying information to explain deviations/variances from approved revenues.

(A) Any proposed justifying information must include at least the following supporting information:

(I) The exact nature and extent of the factors contributing to excess revenue;

(II) The date at which hospital management became aware of the factors contributing to excess revenue;

(III) The date at which hospital management increased rates above the allowable level taking into account volume changes and actual deductions from revenue;

(IV) An explanation of efforts to reduce other components of the budget to offset the factors contributing to the excess revenues; and

(V) An explanation of why the hospital did not seek a budget amendment.

(B) In no event will increased operating expenses be accepted as justification if the volume adjusted allowable operating expenses equal or exceed the actual level.

(C) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been controlled by hospital management.

(D) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been anticipated by the hospital or could have been identified by

the hospital in sufficient time to submit a budget amendment in accordance with WAC 261-20-045.

(E) In no event will capital allowance in excess of the approved level be accepted as justification.

(F) Hospitals will be allowed to retain any actual capital allowance in excess of the approved level that results from cost effective practices as defined as, and measured by, actual operating expenses that are below the volume adjusted approved operating expenses.

(vi) Staff shall notify each hospital found to be out of conformance based on this subsection, and a hearing shall be conducted by the commission on conformance within sixty days. If the commission determines that a hospital's revenues have not conformed to the applicable determinations for that year, a decision and order will be issued reducing the hospital's current budget and rates by the amount that actual revenues exceed allowable revenues.

(7) Whether the hospital or its medical staff either adopts or maintains admission practices or policies which result in:

(a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;

(b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services;

(c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.

The following is effective for hospital fiscal years beginning on or after January 1, 1988.

(1) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:

(a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;

(b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;

(c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs; and

(d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.

(2) Whether the commission action will permit the hospital to render necessary, effective and efficient service in the public interest.

(3) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care services.

(a) Rural includes all areas of the state with the following exceptions:

(i) The entire counties of Snohomish (including Camano Island), King, Kitsap, Pierce, Thurston, Clark, and Spokane;

(ii) Areas within a twenty-mile radius of an urban area exceeding thirty thousand population; and

(iii) Those cities or city-clusters located in rural counties but which for all practical purposes are urban. These areas are Bellingham, Aberdeen-Hoquiam, Longview-Kelso, Wenatchee, Yakima, Sunnyside, Richland-Kennewick-Pasco, and Walla Walla.

(b) The commission may, at its discretion, determine that individual hospitals located in areas meeting the aforementioned criteria should not be considered rural for purposes of conducting comparative budget reviews between hospitals. In such cases, the affected hospitals will be compared against those hospitals classified as either Peer Group B or Peer Group D for comparative purposes.

(4) Whether the appropriate area-wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.

(5) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:

(a) For purposes of conducting comparative budget review, the commission shall assign each hospital to a peer group, as follows:

(i) Peer Group A – those hospitals designated as rural in accordance with WAC 261-40-150 (3)(a);

(ii) Peer Group B – those hospitals not designated within Peer Groups A, C, or D;

(iii) Peer Group C – those hospitals with accredited graduate medical education programs, except those that are classified within Peer Group D; and

(iv) Peer Group D – those hospitals which the commission has determined exhibit unique characteristics that make comparative analysis inappropriate.

(b) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:

(i) The adjusted case mix value units for each hospital which were used to develop the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue; and

(ii) Maintaining a reasonable relationship between the volumes of each hospital department with the adjusted case mix value units which were used to develop the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue.

(A) Deviations from the volume levels determined through these procedures will be taken into account in the computation of year-end conformance, as described in WAC 261-40-150(6).

(c) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from

revenue) per adjusted case mix value unit to the hospital's baseline net patient services revenue per adjusted case mix value unit as calculated in item (i) below and applied by items (ii), (iii), and (iv) below:

(i) Each hospital's baseline net patient services revenue per adjusted case mix value unit shall be calculated as follows:

(A) Baseline adjusted case mix value units shall be equal to the level utilized by the commission in establishing the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue;

(B) Baseline operating expenses shall be equal to the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue; and

(C) Baseline capital allowance shall be determined as an allocated amount of the capital allowance component of the target dollar amount of total state-wide hospital revenue. The allocation of the state-wide capital allowance component of the target dollar amount of total state-wide hospital revenue shall be calculated as follows:

(I) Each hospital's 1987 baseline capital allowance will be divided by the sum of all hospitals' 1987 baseline capital allowances; and

(II) The ratio resulting from (I) above shall be multiplied against the 1988 capital allowance component of the target dollar amount of total state-wide hospital revenue.

(ii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit does not exceed the revised baseline, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsections (5)(g), (6), and (7) of this section.

(iii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit exceeds the revised baseline, further review of the components of operating expense and capital allowance will be conducted.

(iv) Peer Group A hospitals with requested net revenues per adjusted case mix value unit which are at or below the 70th percentile for their peer group, and which are increasing from the current year approved level at a percentage change which is at or below the 70th percentile rate of change for the peer group, shall be exempted from the principal screen review and the review of operating expenses and capital allowance, so long as the budgeted adjusted case mix value units appear to be reasonably attainable.

(d) The commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not

exceed those that are necessary for a reasonably and prudently managed hospital, based upon:

(i) Adjusting the requested level of operating expenses to reflect the adjusted case mix value units as determined according to (5)(b) of this section, utilizing the variable cost factors described in subsection (6) of this section;

(ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic conditions, as appropriate; and

(iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection (6) of this section or inflation forecasts. This information shall include but not be limited to:

(A) Revisions necessary to comply with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

(B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if requested;

(C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required;

(D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection (6) of this section inappropriate; and

(E) Reasonable operating expenses related to malpractice tail liability expense accruals, if requested, under the following conditions:

(I) The expense will be recognized in the year-end conformance calculations at the lesser of the approved or funded level;

(II) This expense will be subject to the statutory requirement that expenses be necessary for prudently and reasonably managed hospitals, including any determinations by the commission that risk sharing among multiple hospitals may result in lower costs to the consumers and purchasers of hospital health care services;

(III) If requested and approved in rates, this expense must be placed into a fund, restricted by the commission and reviewed annually, with interest earnings accruing to that fund;

(IV) Malpractice claims which are not otherwise covered by malpractice insurance which are in excess of the malpractice tail liability restricted fund should be included in rates in the year in which an actual award, resulting from litigation or negotiation, is made to the claimant: PROVIDED, That only that portion of any such awards that exceeds the restricted funds held for this purpose will be included in commission approved total rate setting revenue;

(V) In the event that a hospital changes insurance carriers, does not obtain insurance in a subsequent year, is sold, or discontinues services as a hospital as defined in RCW 70.39.020(3), the premium for malpractice tail coverage insurance must be paid out of the restricted fund: PROVIDED, That such malpractice tail coverage insurance is not otherwise made available to the hospital

as a condition of previous or existing malpractice insurance policies;

(VI) Annual requests for malpractice tail liability expense accrual funding must be documented by actuarial studies or reasonable estimates, subject to verification, of the total of such liabilities and documentation of the amount of such restricted funds, with the difference between the two amounts equalling the amount that the commission will consider including in rates for that budget period: PROVIDED, That if the commission determines that full funding of the malpractice liability restricted fund within any one budget period may result in unreasonable rates or excessive rates of increase in rates, the approval of rates to achieve full funding of the restricted fund may be spread over additional years;

(VII) Once a hospital has received approval from the commission to increase patient rates to include the malpractice tail liability expense accrual, the hospital must provide an annual report to the commission from a licensed actuary or reasonable estimate, subject to verification, showing the total estimate of such liabilities as of the end of the budget year, and any excesses which may have been expensed and funded in previous years will be deducted from that year's approved total rate setting revenue;

(VIII) As a condition of approving the inclusion of malpractice tail liability expense accruals in total rate setting revenue, the commission will require that each hospital for which this expense is approved file financial statements which have been audited by an independent certified public accountant.

(F) Other consideration presented by the hospital or other concerned persons and determined to be appropriate by the commission, including the impact that the acceptance of operating expense increases above the baseline level would have on the commission's ability to achieve total state-wide revenue that are within the target dollar amount of total state-wide hospital revenue as adopted by the commission in accordance with RCW 70.39.150(6), and comparative analysis of the hospital's operating expenses with hospitals within the same peer group.

(e) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:

(i) Capital allowance includes a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations, an allowance for working capital, and other considerations as determined to be appropriate by the commission.

(A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.

(I) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate of need

has been issued by the department of social and health services.

(II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's Accounting and Reporting Manual for Hospitals, pursuant to WAC 261-20-030, will be excluded from the base.

(B) A return on net property, plant and equipment as determined in (I), (II), and (III) below shall be presumed appropriate; however, the commission may vary from that return, higher or lower, where appropriate.

(I) The rate of return on equity financed net property, plant and equipment shall be calculated by averaging the reported interest rates on twenty-five year "A" rated tax-exempt bonds as reported in each issue of Rate Controls from the three months ending on August 31, 1987.

(II) The rate of return on debt financed net property, plant and equipment shall be a blended average of each hospital's average interest rate on long-term debt and the rate of return on equity financed net property, plant and equipment. The blending schedule is as follows:

(aa) For hospital fiscal years beginning in 1988: Fifty percent - each hospital's average interest rate on long-term debt, fifty percent - rate of return on equity financed net property, plant and equipment;

(bb) For hospital fiscal years beginning in 1989: Twenty-five percent - each hospital's average interest rate on long-term debt, seventy-five percent - rate of return on equity financed net property, plant and equipment;

(cc) For hospital fiscal years beginning in 1990 and each year thereafter: Zero percent - each hospital's average interest rate on long-term debt, one hundred percent - rate of return on equity financed net property, plant and equipment.

(III) After computation of the return on net property, plant and equipment, allowable interest expense on long-term debt shall be deducted from the computed return.

(C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to thirteen and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate.

(I) The commission may determine that a hospital which is found essential to assure access of the rural public to basic health care services is experiencing financial distress and may determine to vary from the allowance for working capital.

(II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable. In the event that increased working capital is determined by the commission to be necessary, but the amount of working capital is found by the commission to cause an

excessive impact on total revenues or rates, the commission may choose to allow the hospital to borrow the necessary cash and to allow interest on borrowed cash as an operating expense in the budget year.

(D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the following elements:

(I) Rural hospitals that have been under-capitalized as determined by an average accounting age of property, plant and equipment which exceeds one hundred fifty percent of the state-wide average; and a total turnover rate of assets which exceeds the upper quartile of far west hospitals of the same size category as defined in the latest "Hospital Industry Financial Report" of the healthcare financial management association or a fixed asset turnover rate which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest "Hospital Industry Financial Report" of the healthcare financial management association, provided that:

(aa) The total level of capital allowance for under-capitalized hospitals should not exceed one hundred twenty-five percent of the baseline level; and

(bb) The requested rate per adjusted admission, as revised to reflect the hospital's case mix index, does not exceed the peer group median; and

(cc) The resulting increase in the rate per adjusted case mix value unit does not exceed one hundred twenty-five percent of the budgeted peer group median rate of increase.

(II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;

(III) Whether the capital allowance should include equity funding or accumulation of funds for a project in the future, if the hospital's rate per adjusted case mix value unit is at or below the median of its peer group, the proposed project is consistent with the hospital's long-range plan and financing plan which have been approved by the hospital's governing body, and any equity funding allowed in total rate setting revenue is maintained in a separate subaccount within board designated assets and cannot be used for any other purpose without prior approval of the commission;

(IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be excessive by the commission; and

(V) Other considerations proposed by the hospital or other interested persons and determined to be appropriate by the commission, including the impact that any deviation from the baseline capital allowance will have on the commission's ability to achieve total state-wide hospital revenue that do not exceed the target dollar amount of total state-wide hospital revenue as adopted by the commission in accordance with RCW 70.39.150(6).

(f) Whether the budgeted deductions from revenue are appropriate:

(i) Contractual adjustments related to governmental programs, such as Titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, self-insured workers' compensation, Veteran's Administration, and Indian Health Service are allowable as deductions from revenue for rate setting purposes when the hospital payment rates are established unilaterally by the program.

(ii) Contractual adjustments related to bank card discounts, negotiated rates and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;

(iii) Contractual adjustments relating to contracts executed with the department of social and health services, under the Medicaid selective contracting program, are allowable as deductions from revenue for rate setting purposes;

(iv) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require justification;

(v) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification; and

(vi) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.

(g) Whether the reviews performed in accordance with (a), (b), (c), (d), (e) and (f) of this subsection result in rates, rate schedules, other charges, and changes therein which are the most reasonable under the circumstances.

(i) Rate setting revenue per adjusted case mix value unit should not exceed the 70th percentile of the peer group revenue screens as adjusted for each hospital's case mix index unless the hospital demonstrates to the commission's satisfaction that the relatively high rates are acceptable;

(ii) After allocating deductions from revenue and capital allowance to the various hospital revenue centers as a constant percentage of operating expenses, cross subsidization shall not exceed plus or minus five percent of expenses for rate setting, unless the commission concurs with a specific hospital request for larger levels of cross subsidization or the hospital is a basic service hospital as defined by the commission.

(iii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by the hospitals;

(iv) If the rates are not approved as requested, including the disapproval of requested cross-subsidization levels, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order. Upon notification that the rates are in accordance with the decision and order, the approved rates are the maximum revenue that a hospital may receive for each unit of service, except for such rate changes as may be necessary to reflect differences between approved and actual volumes and deductions from revenue. Variable costs associated with changes in volumes will be determined in accordance with the variable cost ratios as described in (6)(d) below.

(6) Whether the rates implemented and revenues collected by the hospital in the previous budget year conformed to the applicable commission determination for that year.

(a) Conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of the aggregate rate per adjusted case mix value unit. The revenues may be modified, where appropriate, for volume variance between budgeted and actual levels of adjusted case mix value units.

(b) Actual allowable, rather than budgeted, deductions from revenue will be used in the conformance calculation.

(c) The approved capital allowance shall be considered a fixed cost when considering year-end conformance.

(d) Only that portion of total operating costs designated as variable according to the following schedule will be adjusted for volume variance:

(i) Peer Group A and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent;

(ii) Peer Group B and specialty hospital having from fifty to one hundred seventy-five beds; fixed costs - sixty-five percent, variable costs - thirty-five percent; and

(iii) Peer Group C and specialty hospitals having more than one hundred seventy-five beds; fixed costs - fifty percent, variable costs - fifty percent.

(e) Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs by natural classification of expense. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable operating expense variance due to volume changes.

(f) The hospital may submit any proposed justifying information to explain deviations/variances from approved revenues.

(i) Any proposed justifying information must include at least the following supporting information:

(A) The exact nature and extent of the factors contributing to excess revenue;

(B) The date at which hospital management became aware of the factors contributing to excess revenue;

(C) The date at which hospital management increased rates above the allowable level taking into account volume changes and actual deductions from revenue;

(D) An explanation of efforts to reduce other components of the budget to offset the factors contributing to the excess revenues; and

(E) An explanation of why the hospital did not seek a budget amendment.

(ii) In no event will increased operating expenses be accepted as justification if the volume adjusted allowable operating expenses equal or exceed the actual level.

(iii) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been controlled by hospital management.

(iv) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been anticipated by the hospital or could have been identified by the hospital in sufficient time to submit a budget amendment in accordance with WAC 261-20-045.

(v) In no event will capital allowance in excess of the approved level be accepted as justification.

(vi) Hospitals will be allowed to retain any actual capital allowance in excess of the approved level that results from cost effective practices as defined as, and measured by, actual operating expenses that are below the volume adjusted approved operating expenses.

(g) Staff shall notify each hospital found to be out of conformance within sixty days of receiving the hospital's year-end conformance reports. If the commission determines that a hospital's revenues have not conformed to the applicable determinations for that year, a decision and order will be issued reducing the hospital's current budget and rates by the amount that actual revenues exceed allowable revenues.

(7) Whether the hospital or its medical staff either adopts or maintains admission practices or policies which result in:

(a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;

(b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services; and

(c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
 [Order 88-79—Filed August 17, 1988]

I, Joseph R. Blum, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to personal use rules.

I, Joseph R. Blum, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is salmon are available to be harvested without exceeding the harvest target of 100,000 coho salmon to be taken in the Buoy 10 fishery before August 28, 1988. It is in the public interest that salmon available for harvest are, in fact harvested. A Washington superior court judge has entered an order restraining the director of fisheries from enforcing WAC 220-57-16000Q (88-75), which provided for these fish to be

harvested with a daily bag limit of one fish. This regulation provides for a daily bag limit of two fish, the limit in effect prior to adoption of WAC 220-57-16000Q. It is necessary to have regulations in effect governing the taking and possession of fish immediately; there is insufficient time to follow permanent rule adoption procedures.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 17, 1988.

This action is taken pursuant to Notice No. WSR 88-14-079 filed with the code reviser on July 1, 1988. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to chapter 70.24 RCW and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 88-81—Filed August 18, 1988]

I, Joseph R. Blum, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to personal use rules.

I, Joseph R. Blum, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is in-season catch data has shown that the harvest target in the Buoy 10 fishery of 100,000 coho salmon through August 28, 1988, will be substantially exceeded unless the catch rate is reduced. This target was established pre-season as a level of harvest which would have a acceptable impact on the depressed stocks of north coastal and Puget Sound coho. Exceeding this target will have adverse impacts on the spawning escapement for these stocks. Action to reduce the catch rate has to be taken immediately to avoid exceeding the harvest target while allowing a continuous fishery; there is inadequate time to follow the permanent rule adoption procedures.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 18, 1988.

JUVENILE SENTENCING STANDARDS

INTRODUCTION

It is the responsibility of the Juvenile Disposition Standards Commission to propose sentencing standards which establish determinant ranges of sanctions based on the offender's age, current offense seriousness, and prior criminal history.

The court's options in sentencing offenders vary by type of offender.

For serious offenders the court has two options: (A) Ordering the standard range, or (B) Declaring a manifest injustice and imposing a disposition outside the standard range.

For middle offenders the court has three options: (A) Sentencing to the standard range, (B) Sentencing to community supervision (maximum of \$100 fine, 150 hours community service, one year of community supervision and after stating aggravating/mitigating circumstances, up to 30 days confinement), or (C) Declaring a manifest injustice and sentencing to a maximum term of confinement.

For minor/first offenders the court has three options: (A) Sentencing to the standard range, (B) Sentencing to a term of community supervision (maximum of \$100 fine, one year supervision, and/or 150 hours of community service), or (C) Declaring a manifest injustice and sentencing to a maximum term of confinement.

INSTRUCTIONS

After computing the points for each current individual offense using Sentencing Schedules A, B and C, use the following steps to determine the offender's disposition on each offense:

1. Using the most serious current offense, determine whether the offender is a serious, middle, or minor/first offender.
2.
 - a) If the offender is a serious offender, use Schedule D-3 to determine the sentencing options for each serious offense; use Schedule D-2 to determine the sentencing options for all other offenses.
 - b) If the offender is a middle offender, use Schedule D-2 to determine the sentencing options for all offenses.
 - c) If the offender is a minor/first offender, use Schedule D-1 to determine the sentencing options for all offenses.
3. Select one of the available sentencing options on the appropriate sentencing schedules for each of the current offenses.

DIVISION OF JUVENILE REHABILITATIONSentencing WorksheetInstructions

This instruction describes the use of the Division of Juvenile Rehabilitation (DJR) Sentencing Worksheet DSHS 20-198 (3-84).

Purpose: The DJR Sentencing Worksheet may be used to report information pertinent to the sentencing of each juvenile offender committed to a facility operated by or under contract to DSHS. The form is designed to function as a worksheet for determining the minimum and maximum length of the Standard Range of confinement for each offense. As a worksheet, the form may also be used by the juvenile courts for cases which do not result in commitment to DSHS. The structure of the form conforms to and facilitates the application of the sentencing standards developed by the Juvenile Disposition Standards Commission, as required by RCW 13.40.030.

The sentencing standards utilize a point system. A youth's age and current offense establish a base point number which is multiplied by an "increase factor" determined by the extent of criminal history; the resulting points establish what the standard disposition will be for that particular current offense.

If a sentencing alternative to the Standard Range is imposed (e.g., a Manifest Injustice commitment) the length of the alternative sentence should be entered on the worksheet in lieu of the Standard Range (see Item 28 on the worksheet).

Data from the DJR Sentencing Worksheet will be used by DSHS juvenile facilities for setting minimum and maximum release dates and review board dates for each juvenile received from a juvenile court. Data from the reports also will be processed and stored in DJR computer files in Olympia. Data extracted from the system will be used by DSHS to study the impact of the implementation of the Juvenile Justice Act.

General Instructions: A DJR Sentencing Worksheet may be completed for each juvenile committed to an institution operated by the DSHS Division of Juvenile Rehabilitation for offenses occurring after June 30, 1978.

AMENDED SENTENCING STANDARDS - PLEASE NOTE:

The Juvenile Disposition Sentencing Standards are reviewed by the Legislature in even numbered years. It is the responsibility of the sentencing court to ensure that the appropriate standards are being used for a specific offender.

Any questions as to the appropriateness of specific standards may be referred to:

 Division of Juvenile Rehabilitation
 Program Services Unit

 SCAN - 234-2732

Personnel designated by the administrator of each juvenile court are responsible for the accuracy of the information provided to DJR on committed offenders. Please read the detailed instructions on the following pages before completing the report. If you have any questions regarding the report or these instructions, please contact the DJR Research and Information Systems Manager.

The court may retain the white original and send a copy of the worksheet to the DSHS institution or diagnostic facility where the juvenile will be received. The worksheet should be sent, along with any other commitment documents, in time to precede or coincide with the juvenile's arrival. In some counties the worksheet will be completed by the diagnostic facility staff.

This worksheet may be used to determine the standard range sentence for each current offense. Compute the increase factor separately for each current offense.

Up to four current offenses can be put on a worksheet. If there are more than four offenses, attach a second sheet. Indicate the sequence number of each current offense and the total number of current offenses in the space provided above the seven column current offense code (e.g., 1-of-3).

If there are more than eight prior offenses compute the increase factors for each offense after the eighth and enter the sum of these values in the space marked "Additional Increase Factor."

Supply of Forms: Requests for blank forms should be directed to the DJR regional offices.

Instructions for Completing Each Item: The following definitions and procedures are to be used for completing the individual items. (The numbers correspond to the numbers written on the attached sample worksheet.)

SECTION I - IDENTIFICATION INFORMATION

1. Serious Offender
 - If the youth is classified as a serious offender check the box marked "yes". If not, check the box marked "no".

2. Detention Credit
 - If the youth has pre-commitment detention credit enter the days to be taken off the minimum & the maximum sentence. Pre-commitment detention credit is time in detention prior to the court hearing at which a disposition to DSHS custody is entered. Any additional "pre-admission" detention credit will be determined separately by the DSHS admitting agency.
3. Name
 - Enter the youth's Last Name, First Name and Middle Initial as they appear on the court order.
4. DJR Admission Date
 - Enter the official DJR admission date (juvenile courts leave blank.)
5. County of Admission
 - Enter the name of the county of the committing court and the three digit code from Appendix A.
6. Birthdate
 - Enter the year, month and day of the youth's birth.
7. JUVIS Number
 - Enter the youth's 6 digit JUVIS number..
8. DJR Number
 - Enter the youth's 6 digit DJR number, if available.
9. Agency Code
 - Leave blank. To be completed by receiving institution or diagnostic facility.
10. County of Residence
 - Enter the name of the county and the county code for the county where the youth normally resides. This is used to distinguish the county where the youth lives from county of commitment. Use the three digit code in Appendix A.

SENTENCING II - CURRENT OFFENSE DATA

Directions: Complete the following for each current offense.

11. Current Offense Code
 - Enter the seven digit Offense Code (Schedule A Sentencing Standards) of the youth's current offense. If the youth has multiple current offenses, enter the most serious offense in the

first column, the next most serious offense in the second column and so on up to four current offenses. Use a second sheet for more than four current offenses.

- 12. Current Offense Category - Enter the offense category from Schedule A, Sentencing Standards. Seriousness is indicated by the offense category, an A+ offense being the most serious, and E offense being the least serious.
- 13. Age at Current Offense - Enter the youth's age at the time the offense occurred. Round down to a whole number (e.g., if youth was 14 years and 11 months enter 14).
- 14. Current Offense Date - Enter the year, month, and day of the youth's current offense.
- 15. SR - Circle if standard range sentence used.
- 16. MI - Circle if Manifest Injustice was invoked.
- 17. 150% or 300% - Circle if 150% or 300% rule is invoked. The 300% rule is intended to limit the amount of sanction that an offender receives for multiple offenses which are disposed of during a court appearance. The 300% rule should apply across disposition orders. The statute holds the system accountable not to manipulate disposition orders or hearing dates to circumvent the intent of the 300% rule. (See RCW 13.40.180 for an explanation).

SECTION III - PRIOR OFFENSE DATA

- 18. Prior Offense Code - Space is provided for up to eight offenses committed by the youth prior to his/her current offense(s). In order to count as prior history, an offense must have been adjudicated before the current offense was committed. Enter the seven digit Offense Code (Schedule A) for each prior offense.
- 19. Prior Offense Category - Enter the offense category of the prior offense from Schedule A, Sentencing Standards.

20. Prior Offense Date - Enter the year, month and day of the youth's prior offense.
- For each prior offense compute:
21. Time Span - Compute the elapsed time from the date of the prior offense to the date of the CURRENT OFFENSE. Enter a "1" if within 1 year, a "2" if within 2 years, or a "3" if greater than 2 years.
22. Increase Factor - For each prior offense, find the correct increase factor from Schedule B, Sentencing Standards, using offense category and time span.
23. Additional Increase Factor - If there are more than eight prior offenses, compute the increase factor for each additional offense, sum, and enter here.
24. Constant - This value is 1.0 for all prior offenses and has been pre-coded.
25. Total Increase Factor - Enter the sum of the Increase Factor column including the additional increase factor and the constant.
26. Current Offense Points - Consult Schedule A, Sentencing Standards, and determine the number of points resulting from the youth's age and the current offense class. Enter offense points.
27. Total Current Offense Points - For each offense, multiply the Total Increase Factor by the Current Offense Points and enter the result. Round down to nearest whole number.
28. Minimum Sentence
Maximum Sentence - If sentenced using the Standard Range, enter the minimum and maximum sentences from the appropriate Schedule D, Sentencing Standards (if the youth is a middle offender (RCW 13.40.020) use Schedule D-2; if a serious offender (RCW 13.40.020) use Schedule D-3). If the sentence was ordered as Manifest Injustice, Detention, 150% Rule, or 300% Rule, enter actual sentence. If sentence is in days, circle DAYS.

EMERGENCY RULES
THE EVERGREEN STATE COLLEGE
 [Order 88-1, Motion No. 88-25—Filed August 18, 1988]

Be it resolved by the board of trustees of The Evergreen State College, acting at The Evergreen State College board room, that it does adopt the annexed rules relating to Social contract—Student conduct code—Grievance and appeals process, chapter 174-120 WAC.

We, The Evergreen State College board of trustees, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the institution lacks an adequate grievance and appeals process and continued operation without such a procedure jeopardizes individual's due process rights.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated under the general rule-making authority of The Evergreen State College as authorized in RCW 28B.40.120(12).

The undersigned hereby declares that the institution has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 17, 1988.

NEW SECTION

WAC 174-120-020 THE SOCIAL CONTRACT-COLLEGE PHILOSOPHY (1) GENERAL: Evergreen is an institution and a community that continues to organize itself so that it can clear away obstacles to learning. In order that both creative and routine work can be focused on education, and so that the mutual and reciprocal roles of campus community members can best reflect the goals and purposes of the College, a system of governance and decision-making consonant with those goals and purposes is required.

(2) PURPOSE:

(a) Evergreen can thrive only if members respect the rights of others while enjoying their own rights. Students, faculty, administrators, and staff members may differ widely in their specific interests, in the degree and kinds of experiences they bring to Evergreen, and in the functions which they have agreed to perform. All must share alike in prizing academic and interpersonal honesty, in responsibly obtaining and in providing full and accurate information, and in resolving their differences through due process and with a strong will to collaboration.

(b) The Evergreen community should support experimentation with new and better ways to achieve Evergreen's goals. Specifically, it must attempt to emphasize the sense of community and require members of the campus community to play multiple, reciprocal, and reinforcing roles in both the teaching/learning process and in the governance process.

(3) **FREEDOM AND CIVILITY:** The individual members of the Evergreen community are responsible for protecting each other and visitors on campus from physical harm, from personal threats, and from uncivil abuse. Civility is not just a word; it must be present in all our interactions. Similarly, the institution is obligated, both by principle and by the general law, to protect its property from damage and unauthorized use and its operating processes from interruption. Members of the community must exercise the rights accorded them to voice their opinions with respect to basic matters of policy and other issues. The Evergreen community will support the right of its members, individually or in groups, to express ideas, judgments, and opinions in speech or writing. The members of the community, however, are obligated to make statements in their own names and not as expressions on behalf of the College. The board of trustees or the president speaks on behalf of the college and may at times share or delegate the responsibility to others within the college. Among the basic rights of individuals are freedom of speech, freedom of peaceful assembly and association, freedom of belief, and freedom from intimidation, violence, and abuse.

(4) **INDIVIDUAL AND INSTITUTIONAL RIGHTS:** Each member of the community must protect:

(a) The fundamental rights of others in the community as citizens;

(b) The right of each member in the community to pursue different learning objectives within the limits defined by Evergreen's curriculum or resources of people, materials, equipment and money;

(c) The rights and obligations of Evergreen as an institution established by the state of Washington; and

(d) Individual rights to fair and equitable procedures when the institution acts to protect the safety of its members.

(5) SOCIETY AND THE COLLEGE:

(a) Members of the Evergreen community recognize that the college is part of the larger society as represented by the state of Washington, which funds it, and by the community of greater Olympia, in which it is located. Because the Evergreen community is part of the larger society, the campus is not a sanctuary from the general law or invulnerable to general public opinion.

(b) All members of the Evergreen community should strive to prevent the financial, political, or other exploitation of the campus by any individual or group.

(c) Evergreen has the right to prohibit individuals and groups from using its name, its financial or other resources, and its facilities for commercial, or political activities.

(6) **PROHIBITION AGAINST DISCRIMINATION:** There may be no discrimination at Evergreen with respect to race, sex, age, handicap, sexual orientation, religious or political belief, or national origin in considering individuals' admission, employment, or promotion. To this end the college has adopted an affirmative action policy approved by the state Human Rights Commission and the Higher Education Personnel Board. Affirmative action complaints shall be handled in accordance with state law, as amended (e.g. Ch. 49.74 WAC; RCW 28B.16-.100; Ch. 251-23 WAC).

(7) RIGHT TO PRIVACY:

(a) All members of the college community have the right to organize their personal lives and conduct according to their own values and preferences, with an appropriate respect for the rights of others to organize their lives differently.

(b) All members of the Evergreen community are entitled to privacy in the college's offices, facilities devoted to educational programs, and housing. The same right of privacy extends to personal papers, confidential records, and personal effects, whether maintained by the individual or by the institution.

(c) Evergreen does not stand in loco parentis for its members.

(8) INTELLECTUAL FREEDOM AND HONESTY:

(a) Evergreen's members live under a special set of rights and responsibilities, foremost among which is that of enjoying the freedom to explore ideas and to discuss their explorations in both speech and print. Both institutional and individual censorship are at variance with this basic freedom. Research or other intellectual efforts, the results of which must be kept secret or may be used only for the benefit of a special interest group, violate the principle of free inquiry.

(b) An essential condition for learning is the freedom and right on the part of an individual or group to express minority, unpopular, or controversial points of view. Only if minority and unpopular points are view are listened to, and are given opportunity for expression will Evergreen provide bona fide opportunities for significant learning.

(c) Honesty is an essential condition of learning, teaching or working. It includes the presentation of one's own work in one's own name, the necessity to claim only those honors earned, and the recognition of one's own biases and prejudices.

(9) OPEN FORUM AND ACCESS TO INFORMATION:

(a) All members of the Evergreen community enjoy the right to hold and to participate in public meetings, to post notices on the campus, and to engage in peaceful demonstrations. Reasonable and impartially applied rules may be set with respect to time, place and use of Evergreen facilities in these activities.

(b) As an institution, Evergreen has the obligation to provide open forum for the members of its community to present and to debate public issues, to consider the problems of the college, and to serve as a mechanism of widespread involvement in the life of the larger community.

(c) The governance system must rest on open and ready access to information by all members of the community as well as on the effective keeping of necessary records.

(d) In the Evergreen community, individuals should not feel intimidated or be subject to reprisal for voicing their concerns or for participating in governance or policy making.

(e) Decision making processes must provide equal opportunity to initiate and participate in policy making, and Evergreen policies apply equally regardless of job description, status or role in the community. However, College policies and rules shall not conflict with state law or statutory, regulatory and/or contractual commitments to college employees.

(10) POLITICAL ACTIVITIES: The college is obligated not to take a position, as an institution, in electoral politics or on public issues except for those matters which directly affect its integrity, the freedom of the members of its community, its financial support, and its educational programs. At the same time, Evergreen has the obligation to recognize and support its community's members' rights to engage, as citizens of the larger society, in political affairs, in any way that they may elect within the provision of the general law.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 174-120-040 STUDENT CONDUCT CODE - CORRECTIVE ACTION: The primary purpose for imposing corrective measures is to protect the

college community. Notification of corrective action shall be in writing, indicating the terms of any suspension or termination and any special conditions which must be met before readmission. Violations of WAC 174-120-030 (1) through (5), (6), (8), (10) through (12), inclusive, may result in expulsion or suspension, unless specific and significant mitigating factors are present. Factors to be considered in mitigation shall be the present demeanor and past disciplinary record of the student, as well as the nature of the offense and the severity of any damage, injury, or harm resulting from it. Repeated or aggravated violations of any rule may also result in expulsion or suspension or in the imposition of such lesser corrective measures as may be appropriate. A student's off-campus criminal conduct may also be considered in determining what discipline is warranted for similar on-campus conduct.

(1) **EXPULSION:** Permanent separation from the college and termination of community membership. The student may also be barred from college premises and/or college sponsored events.

(2) **REPRIMAND:** Warning(s) that further misconduct may result in more severe sanctions.

(3) **RESTITUTION:** Payment to the college or to other persons, groups, or organizations for damages incurred as a result of prohibited conduct.

At the time of the suspension, the student shall be notified in writing, if possible, otherwise orally of the circumstances constituting prohibited conduct and of their right to petition for a formal hearing. If oral notification is given at the time of the summary suspension, written notification shall be personally delivered or sent to the student's last known address within 24 hours.

(5) **SUSPENSION:** Temporary dismissal from the college and temporary termination of community membership for a stated period of time, but no longer than one year. The student shall not participate in any college-sponsored activity and may be barred from college premises. Suspension implies that the student may eventually return if evidence or other assurances are presented that prohibited conduct will not be repeated.

(6) **OTHER SANCTIONS:** Other sanctions may be imposed if related to the violation. For example, extracurricular activities may be limited; registration of motor vehicles may be restricted; and/or community service may be assigned. NEW SECTION

WAC 174-120-020 THE SOCIAL CONTRACT-COLLEGE PHILOSOPHY (1) **GENERAL:** Evergreen is an institution and a community that continues to organize itself so that it can clear away obstacles to learning. In order that both creative and routine work can be focused on education, and so that the mutual and reciprocal roles of campus community members can best reflect

the goals and purposes of the College, a system of governance and decision-making consonant with those goals and purposes is required.

(2) **PURPOSE:**

(a) Evergreen can thrive only if members respect the rights of others while enjoying their own rights. Students, faculty, administrators, and staff members may differ widely in their specific interests, in the degree and kinds of experiences they bring to Evergreen, and in the functions which they have agreed to perform. All must share alike in prizing academic and interpersonal honesty, in responsibly obtaining and in providing full and accurate information, and in resolving their differences through due process and with a strong will to collaboration.

(b) The Evergreen community should support experimentation with new and better ways to achieve Evergreen's goals. Specifically, it must attempt to emphasize the sense of community and require members of the campus community to play multiple, reciprocal, and reinforcing roles in both the teaching/learning process and in the governance process.

(3) **FREEDOM AND CIVILITY:** The individual members of the Evergreen community are responsible for protecting each other and visitors on campus from physical harm, from personal threats, and from uncivil abuse. Civility is not just a word; it must be present in all our interactions. Similarly, the institution is obligated, both by principle and by the general law, to protect its property from damage and unauthorized use and its operating processes from interruption. Members of the community must exercise the rights accorded them to voice their opinions with respect to basic matters of policy and other issues. The Evergreen community will support the right of its members, individually or in groups, to express ideas, judgments, and opinions in speech or writing. The members of the community, however, are obligated to make statements in their own names and not as expressions on behalf of the College. The board of trustees or the president speaks on behalf of the college and may at times share or delegate the responsibility to others within the college. Among the basic rights of individuals are freedom of speech, freedom of peaceful assembly and association, freedom of belief, and freedom from intimidation, violence, and abuse.

(4) **INDIVIDUAL AND INSTITUTIONAL RIGHTS:** Each member of the community must protect:

(a) The fundamental rights of others in the community as citizens;

(b) The right of each member in the community to pursue different learning objectives within the limits defined by Evergreen's curriculum or resources of people, materials, equipment and money;

(c) The rights and obligations of Evergreen as an institution established by the state of Washington; and

(d) Individual rights to fair and equitable procedures when the institution acts to protect the safety of its members.

(5) **SOCIETY AND THE COLLEGE:**

(a) Members of the Evergreen community recognize that the college is part of the larger society as represented by the state of Washington, which funds it, and

by the community of greater Olympia, in which it is located. Because the Evergreen community is part of the larger society, the campus is not a sanctuary from the general law or invulnerable to general public opinion.

(b) All members of the Evergreen community should strive to prevent the financial, political, or other exploitation of the campus by any individual or group.

(c) Evergreen has the right to prohibit individuals and groups from using its name, its financial or other resources, and its facilities for commercial, or political activities.

(6) **PROHIBITION AGAINST DISCRIMINATION:** There may be no discrimination at Evergreen with respect to race, sex, age, handicap, sexual orientation, religious or political belief, or national origin in considering individuals' admission, employment, or promotion. To this end the college has adopted an affirmative action policy approved by the state Human Rights Commission and the Higher Education Personnel Board. Affirmative action complaints shall be handled in accordance with state law, as amended (e.g. Ch. 49.74 WAC; RCW 28B.16-.100; Ch. 251-23 WAC).

(7) **RIGHT TO PRIVACY:**

(a) All members of the college community have the right to organize their personal lives and conduct according to their own values and preferences, with an appropriate respect for the rights of others to organize their lives differently.

(b) All members of the Evergreen community are entitled to privacy in the college's offices, facilities devoted to educational programs, and housing. The same right of privacy extends to personal papers, confidential records, and personal effects, whether maintained by the individual or by the institution.

(c) Evergreen does not stand in loco parentis for its members.

(8) **INTELLECTUAL FREEDOM AND HONESTY:**

(a) Evergreen's members live under a special set of rights and responsibilities, foremost among which is that of enjoying the freedom to explore ideas and to discuss their explorations in both speech and print. Both institutional and individual censorship are at variance with this basic freedom. Research or other intellectual efforts, the results of which must be kept secret or may be used only for the benefit of a special interest group, violate the principle of free inquiry.

(b) An essential condition for learning is the freedom and right on the part of an individual or group to express minority, unpopular, or controversial points of view. Only if minority and unpopular points are view are listened to, and are given opportunity for expression will Evergreen provide bona fide opportunities for significant learning.

(c) Honesty is an essential condition of learning, teaching or working. It includes the presentation of one's own work in one's own name, the necessity to claim only those honors earned, and the recognition of one's own biases and prejudices.

(9) **OPEN FORUM AND ACCESS TO INFORMATION:**

(a) All members of the Evergreen community enjoy the right to hold and to participate in public meetings, to post notices on the campus, and to engage in peaceful

demonstrations. Reasonable and impartially applied rules may be set with respect to time, place and use of Evergreen facilities in these activities.

(b) As an institution, Evergreen has the obligation to provide open forum for the members of its community to present and to debate public issues, to consider the problems of the college, and to serve as a mechanism of widespread involvement in the life of the larger community.

(c) The governance system must rest on open and ready access to information by all members of the community as well as on the effective keeping of necessary records.

(d) In the Evergreen community, individuals should not feel intimidated or be subject to reprisal for voicing their concerns or for participating in governance or policy making.

(e) Decision making processes must provide equal opportunity to initiate and participate in policy making, and Evergreen policies apply equally regardless of job description, status or role in the community. However, College policies and rules shall not conflict with state law or statutory, regulatory and/or contractual commitments to college employees.

(10) **POLITICAL ACTIVITIES:** The college is obligated not to take a position, as an institution, in electoral politics or on public issues except for those matters which directly affect its integrity, the freedom of the members of its community, its financial support, and its educational programs. At the same time, Evergreen has the obligation to recognize and support its community's members' rights to engage, as citizens of the larger society, in political affairs, in any way that they may elect within the provision of the general law.

Factors to be considered in mitigation shall be the present demeanor and past disciplinary record of the student, as well as the nature of the offense and the severity of any damage, injury, or harm resulting from it. WSR 88-17-070**EMERGENCY RULES****THE EVERGREEN STATE COLLEGE**

[Order 88-2, Motion No. 88-26—Filed August 18, 1988]

Be it resolved by the board of trustees of The Evergreen State College, acting at The Evergreen State College board room, Library 3112, that it does adopt the annexed rules relating to pet policy, WAC 174-136-310 through 174-136-330.

We, The Evergreen State College board of trustees, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the institution lacks an adequate pet policy and continued operation without such a procedure jeopardizes individual safety.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated under the general rule-making authority of The Evergreen State College as authorized in RCW 28B.40.120(12).

The undersigned hereby declares that the institution has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Higher Education Administrative Procedure Act (chapter 28B.19 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

Any pet or other animal in a college building, or on the campus, not under the direct physical control of its owner or keeper, is subject to impounding by the campus police chief or his/her designee. Owners or keepers may be subject to disciplinary action. Although principal responsibility rests with campus security, community support is urged in reminding pet owners of their obligation if a violation is observed by a community member. Impounded animals may be turned over to the Thurston County Animal Control if left unclaimed, and fines may be imposed by county animal control.

PET POLICY

NEW SECTION

WAC 174-136-300 PET POLICY—PURPOSE. This policy and its implementation procedures intend to govern the control and treatment of pets and other animals on and in The Evergreen State College's campus and buildings. This policy expects that pets and other animals must at all times be treated with due care and consideration for their well being. This policy allows for a pet-owner initiated formation of a pet owner's association which could in its charter provide for:

- (1) Complaint resolution about enforcement;
- (2) Support for enforcement activities;
- (3) Fund-raising and advocacy for the renovation/expansion of kennels and/or a large enclosed dog run subject to facilities approval.

NEW SECTION

WAC 174-136-310 PET POLICY—DEFINITIONS. (1) "Pets and other pet animals" means any animal other than:

- (a) A human being;
- (b) A caged bird; and
- (c) A fish in an aquarium.

(2) "Physical control" means control by means of a leash, cage, bridle, bowl, or other restraining device held by or leading from the pet animal to the owner or keeper. Voice control or indirect control by, for example, tying a leash to a railing, shall not constitute physical control.

(3) "Owner or keeper" means the person the pet or other animal is accompanying.

NEW SECTION

WAC 174-136-320 PET POLICY—ANIMAL CONTROL. All persons bringing animals onto college property shall be subject to Thurston County Code 9.10.050 et seq., as amended, relating to the keeping and control of pet animals. Pets and other animals will not be allowed in campus buildings except for: Guide animals accompanying disabled persons; shows or other

similar approved events; or research or other study of animals sponsored as part of the instructional program. Pets and other animals may be on campus only when under the physical control of their owners or keepers. No animal shall be permitted to run at large; animals left tied up in the absence of the owner shall not be considered under direct control but, rather, to be running at large. Any pet animal found in a college building, or on campus not under direct physical control is subject to impounding according to provisions of the Thurston County Code, as amended, attached to and made a part of this policy.

NEW SECTION

WAC 174-136-330 PET POLICY—ENFORCEMENT. Any pet or other animal in a college building, or on the campus, not under the direct physical control of its owner or keeper, is subject to impounding by the campus police chief or his/her designee. Owners or keepers may be subject to disciplinary action. Although principal responsibility rests with campus security, community support is urged in reminding pet owners of their obligation if a violation is observed by a community member. Impounded animals may be turned over to the Thurston County Animal Control if left unclaimed, and fines may be imposed by county animal control.

AMENDATORY SECTION (Amending Order 74-2, filed 6/24/74)

WAC 458-20-115 SALES OF PACKING MATERIALS AND CONTAINERS. (1) Definitions. The term "packing materials" means and includes all boxes, crates, bottles, cans, bags, drums, cartons, wrapping papers, cellophane, twines, gummed tapes, wire, bands, excelsior, waste paper, and all other materials in which tangible personal property may be contained or protected within a container, for transportation or delivery to a purchaser.

~~((Sales of packing materials to persons who sell tangible personal property contained therein or protected thereby are sales for resale and are not subject to the retail sales tax if title thereto passes with the goods contained therein.~~

~~Sales of containers to persons who sell tangible personal property therein, but who retain title to such containers which are to be returned, are sales for consumption. The retail sales tax or the use tax must be paid upon the sale or use thereof.)~~ (2) Business and occupation tax.

(a) Sales of packing materials to persons who sell tangible personal property contained therein or protected thereby are sales for resale and subject to tax under the wholesaling classification.

(b) Sales of containers to persons who sell tangible personal property therein, but who retain title to such containers which are to be returned, are sales for consumption and subject to tax under the retailing classification. This class includes wooden or metal bottle cases, barrels, gas tanks, carboys, drums, bags and other items, when title thereto remains in the seller of the tangible personal property contained therein, and even though a deposit is not made for the containers, and when such articles are customarily returned to ~~((him))~~ the seller. If a charge is made against a customer for the container, with the understanding that such charge will be cancelled or rebated when the container is returned, the amount charged is deemed to be made as security for the return of the container and is not part of the selling price for tax purposes.

(c) Title to containers for beverages and food sold at retail, including beer, milk, soft drinks, mixers and the like, will be deemed to pass to the customer along with the contents. In such cases, amounts charged for the containers are part of the selling price and subject to retailing ((business)) tax. ((However, the retail sales tax does not apply to sales of returnable food and beverage containers and vendors may take a deduction from gross retail sales for the amount of such sales in reporting sales tax due, providing (1) the seller separately states the charge for the container and (2) the separately stated charge is the amount the vendor will pay for a repurchase of the container. Return of the containers is a repurchase by the vendor and sales tax is not due on amounts paid to the customer on such repurchases, since the vendor will resell the containers in the regular course of his business.))

(d) Sales of packing materials to persons engaged in the business of custom or commercial packing are sales for consumption and are subject to the retail sales tax.

~~((No deduction is allowed in computing tax under the retail sales tax classification where the retail sales tax is collected from the customer upon the charge for the container.~~

~~Revised June 24, 1974:))~~

(3) Retail sales tax.

(a) All sales taxable under the retailing classification of the business and occupation tax as indicated in subsection (2) of this section are also subject to retail sales tax except those specifically distinguished hereafter in this subsection.

(b) Retail sales tax does not apply to sales of returnable food and beverage containers, and vendors may take a deduction from gross retail sales for the amount of such sales in reporting sales tax due, providing (i) the seller separately states the charge for the container and (ii) the separately stated charge is the amount the vendor will pay for a repurchase of the container. Return of the containers is a repurchase by the vendor, and sales tax is not due on amounts paid to the customer on such repurchases, since the vendor will resell the containers in the regular course of his business. (RCW 82.08.0282.)

(c) No deduction is allowed in computing tax under the retail sales tax classification where the retail sales tax is collected from the customer upon the charge for the container.

(d) Sales of packing materials to cooperative marketing associations, agents, or independent contractors for the purpose of packing fresh perishable horticultural products for the growers thereof, are not subject to retail sales tax. See also WAC 458-20-214 (3) and (4).

(4) Use tax. The use tax applies to uses of packing materials and containers to which retail sales tax would apply as indicated in subsection (3) of this section but, for some reason, was not paid at the time such materials and containers were acquired.

Effective July 1, 1974.

AMENDATORY SECTION (Amending Order ET 83-16, filed 3/15/83)

WAC 458-20-166 HOTELS, MOTELS, BOARDING HOUSES, ROOMING HOUSES, RESORTS, SUMMER CAMPS, TRAILER CAMPS, ETC. (1) DEFINITIONS.

(a) A hotel, motel, boarding house, rooming house, apartment hotel, resort lodge, auto or tourist camp, and bunkhouse, as used in this ruling, includes all establishments which are held out to the public as an inn, hotel, public lodging house, or place where sleeping accommodations may be obtained, whether with or without meals or facilities for preparing ~~((the same))~~ meals.

(i) The foregoing ~~((does))~~ terms do not include establishments in the business of renting real estate, such as apartments, nor ~~((does it))~~ do these terms include hospitals, sanitariums, nursing homes, rest homes, and similar institutions. Further, the ~~((foregoing does))~~ terms do not include private lodging houses, dormitories, bunkhouses, etc., operated by or on behalf of business and industrial firms solely for the accommodation of employees of such firms, and which are not held out to the public as a place where sleeping accommodations may be obtained.

(ii) The terms do not include guest ranches or summer camps which, in addition to supplying meals and lodging, offer special recreation facilities and instruction in sports, boating, riding, outdoor living, etc.

(b) A "boarding house", as used in this ~~((rating))~~ section, is an establishment selling meals on the average to five or more persons, exclusive of members of the immediate family. Where meals are furnished to less than five persons, exclusive of members of the immediate family, the establishment will not be considered as engaging in the business of operating a boarding house.

(c) A "trailer camp" as used in this ~~((rating))~~ section is an establishment making a charge for the rental of space to transients for locating or parking house trailers, campers, mobile homes, tents and the like which provide sleeping or living accommodations for the occupants. Additional charges for utility services will be deemed part of the charge made for the rental.

(d) The term "transient" as used in this section means: Any guest, resident, or other occupant to whom lodging and other services are furnished under a license to use real property and who does not continuously occupy the premises for a period of one month. Where such occupant remains in continuous occupancy for more than one month, he shall be deemed a transient as to his first month of occupancy, unless he has contracted in advance to remain one month. In cases where such person has so contracted in advance and does so remain in continuous occupancy for one month, he will be deemed a nontransient from the start of his occupancy.

(2) It will be presumed that the ~~((above))~~ establishments first defined above are conferring a license to use real estate, as distinguished

from a rental of real estate, where the occupant is a transient. Conversely, where the occupant who receives lodging is or has become a nontransient, it will be conclusively presumed that the occupancy is under a rental or lease of real property.

~~((Where lodging is furnished a transient, as that term is hereinafter defined, the charge therefor is subject to the retail sales tax and to the business and occupation tax under the retailing classification. Where the lodging is furnished a nontransient, the transaction is deemed a rental of real estate and is exempt from tax.~~

The term "transient" as used in this rule means: Any guest, resident, or other occupant to whom lodging and other services are furnished under a license to use real property and who does not continuously occupy the premises for a period of one month. Where such occupant remains in continuous occupancy for more than one month, he shall be deemed a transient as to his first month of occupancy, unless he has contracted in advance to remain one month. In cases where such person has so contracted in advance and does so remain in continuous occupancy for one month, he will be deemed a nontransient from the start of his occupancy.

An occupant does not become entitled to a refund of retail sales tax paid for lodging as a transient by reason of having remained one month and having thereby qualified as a nontransient.

The tax liability of hotels, motels, boarding houses, rooming houses, resorts, summer camps, trailer camps, etc., is as follows:))

(3) BUSINESS AND OCCUPATION TAX. The tax liability of hotels, motels, boarding houses, rooming houses, resorts, summer camps, trailer camps, etc., is as follows:

(a) RETAILING. Amounts derived from the charge made to transients for the furnishing of lodging; charges for such services as the rental of radio and television sets and the rental of rooms, space and facilities not for lodging, such as ballrooms, display rooms, meeting rooms, etc., and including automobile parking or storage; also amounts derived from the sale of tangible personal property at retail are taxable under this classification. See "retail sales tax" below for a more detailed explanation of the charges included herein as retailing.

(b) SERVICE AND OTHER BUSINESS ACTIVITIES. Taxable under this classification are amounts derived from the rental of sleeping accommodations by private lodging houses, and by dormitories, bunkhouses, etc., operated by or on behalf of business and industrial firms and which are not held out to the public as a place where sleeping accommodations may be obtained; commissions received from acting as a laundry agent for guests (see WAC 458-20-165) and commissions received for the use of telephone facilities. Summer camps, guest ranches and similar establishments making an unsegregated charge for meals, lodging, instruction and the use of recreational facilities must report the gross income from such charges under this classification. This classification is also applicable to gross income from charges for the use of coin operated laundry facilities when such facilities are situated in an apartment house, hotel, motel, rooming house or trailer camp for the exclusive use of the tenants. (See WAC 458-20-165 for information regarding the tax liability of laundry services generally.)

(c) Charges for lodging and related services described above are subject to tax even though they may be denominated or characterized as membership fees or dues.

(d) Where lodging is furnished to a nontransient, the transaction is deemed a rental of real estate which is exempt of B&O tax (RCW 82.04.390).

(4) RETAIL SALES TAX. All sales and rentals of tangible personal property by ~~((such))~~ the persons defined in this section are subject to the retail sales tax.

(a) The charge made for the furnishing of lodging and other services to transients is subject to the retail sales tax. Included is the charge made by a trailer camp for the furnishing of space and other facilities. Charges for automobile parking and storage are also subject to the retail sales tax.

(b) An occupant does not become entitled to a refund of retail sales tax paid for lodging as a transient by reason of having remained one month and having thereby qualified as a nontransient.

(c) Effective July 1, 1988, there is an exemption from the retail sales tax, convention and trade center tax, and the special hotel/motel tax on the charge made for the furnishing of emergency lodging to homeless persons purchased via a shelter voucher program administered by cities, towns, and counties or private organizations that provide emergency food and shelter services.

(d) Except as to guest ranches and summer camps as described herein, when a lump sum is charged for lodging to nontransients and for meals furnished, the retail sales tax must nevertheless be paid upon

the fair selling price of such meals, and unless accounts are kept showing such fair selling price, the tax will be computed upon double the cost of the meals served; and the cost shall include the price paid for food and drinks served, the cost of preparing and serving meals, and all other costs incidental thereto, including an appropriate portion of overhead expenses. The retail sales tax is not applicable to charges for the use of coin operated laundry facilities when such facilities are situated in an apartment house, hotel, motel, rooming house or trailer camp for the exclusive use of the tenants.

(e) All sales of tangible personal property to such persons, except such property as is to be resold as tangible personal property are subject to the retail sales tax. In this regard, all sales of tangible personal property for use in the furnishing of lodging and related services are subject to the retail sales tax, the charge made for lodging being for services rendered and not for the sale of any tangible property as such; included are items such as soap, towels, linens, laundry, laundry supply services and furnishings. See WAC 458-20-244 (Rule 244) for sales to persons operating guest ranches and summer camps of food supplies for use in the preparation of meals served to guests when such persons make an unsegregated charge for meals, lodging, and services and report such charges under the classification service and other activities as herein provided.

AMENDATORY SECTION (Amending Order ET 83-1, filed 3/30/83)

WAC 458-20-214 COOPERATIVE MARKETING ASSOCIATIONS AND INDEPENDENT DEALERS ACTING AS AGENTS OF OTHERS WITH RESPECT TO THE SALE OF FRUIT AND PRODUCE. (4) Where a seller performs packing services for the grower and furnishes the materials and supplies used therein, the amount of the charge therefor is deductible, even though the boxes and other packing material are loaned or charged to the grower prior to the time the fruit or produce is received for packing, provided that the boxes and packing materials are returned by the grower to the seller for use in packing fruit and produce for the grower.

(5) Retail sales tax.

(a) The retail sales tax applies to sales of ladders, picking bags, and other equipment sold to consumers, whether sold by associations to members, or by agents to their principals. (~~See WAC 458-20-244 for sales of food products.~~)

(1) Education records. Education records are defined as those records, files, and documents containing information directly pertaining to a student. At South Puget Sound Community College these are:

(a) Records pertaining to admission, advisement, registration, grading and progress to a degree that are maintained by the registrar.

(b) Testing information used for advisement purposes by the counseling center.

(c) Information concerning payment of fees as maintained by the treasurer.

(d) Financial aid information as collected by the financial aid office.

(e) Information regarding students participating in student government or athletics that is maintained by the student programs office.

(f) To persons in compliance with a judicial order or a lawfully issued subpoena, provided that the college first makes a reasonable effort to notify the student.

(2) Access to education records. Students who are or have attended the college have the right to examine or review their personal records, as defined above, by submitting to the registrar a written request indicating education records to which access is desired.

Note: Charges for reproduced copies of education records are found in the current catalog.

(3) Directory information. The following information is considered "directory information" and thus may be disclosed without consent of the student, unless otherwise directed by the student, at any time, to the registrar in writing: The student's name, address, telephone number, date and place of birth, major field of study, eligibility for and participation in officially recognized activities, organizations, and sports, weight and height of members of athletic teams, dates of attendance, honor roll, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

(4) Disclosure from education records. In addition to directory information the college will, at its discretion, make disclosures from education records of students with the student's prior written consent or to the following listed parties:

(a) College officials including college administrative and clerical staff, faculty, and students where officially elected or appointed to the ASSPSCC senate or employed by the college. Access or release of records to the above is permissible only when the information is required for the advisement, counseling, recordkeeping, reporting, or other legitimate educational interest consonant with their specific duties and responsibilities.

(b) To officials of another school in which the student seeks or intends to enroll.

(c) To authorized federal, state, or local officials as required by law.

(g) To parents of a dependent student, as defined in section 152 of the Internal Revenue Code of 1954, upon receipt of a written affidavit stating that the student is a dependent for income tax purposes. This, however, will not affect the other rights of the student.

In cases where consent of the student is required for release of education records, the student shall in writing, signed and dated by the student, specify: The records to be disclosed, the purpose or purposes of the disclosure, and the name of the party or parties to whom the disclosure can be made.

When personally identifiable information is released without prior consent of the student, other than directory information and information released to college officials or the student, the college official in

charge of these records will record the names of the parties who have requested information from educational records and the nature of the interest in that information.

Education records released to third parties shall be accompanied by a statement indicating that the information cannot be subsequently released in a personally identifiable form to other parties without obtaining the consent of the student. The college is not precluded from permitting third party disclosures to other parties listed in (a) through (g) of this subsection.

(5) Challenge of education records. Students who believe that information contained in their education records is inaccurate, misleading or violates the privacy or other rights of the student may request in writing to the appropriate college official that the college amend their record(s). The college official(s) will make every effort to settle disputes through informal meetings and discussion with the student.

In instances where disputes regarding contents of education records cannot be resolved by the parties concerned, the college official involved shall advise the student of the right to a hearing by the academic standards committee through a written request to the director of admissions and records. Should the academic standards committee deem that the education records in question are inaccurate or misleading, the committee can ask that the records be amended by the appropriate college official. If the education records are held to be accurate, the student shall be granted the opportunity to place within those records a personal statement commenting upon the information contained within.

(3) Fines. The dean of students and/or the student judicial board may assess monetary fines up to a maximum of one hundred dollars per violation against individual students for violation of college rules and regulations or for the failure to meet the college's standards of conduct. Such petitions must state reasons which support a reconsideration of the matter.

NEW SECTION

WAC 132X-60-140 SUMMARY SUSPENSION PROCEDURES. (1) Initiation of summary suspension procedures. The dean of students, or designee, may suspend any student of the college for not more than ten academic calendar days pending investigation, action or prosecution on charges of alleged violation or violations of college policy, if the dean of students has reason to believe the student's physical

or emotional safety and well-being, or the safety and well-being of other college community members, or the safety and well-being of the college property requires such suspension.

(2) Permission to enter or remain on campus. During the period of summary suspension, the suspended student shall not enter the campus of the college or any facility under the operation of the college other than to meet with the dean of students or to attend the hearing. However, the dean of students may grant the student special permission to enter a campus for the express purpose of meeting with faculty, staff, or students in preparation for the hearing.

(3) Notice of summary suspension proceedings.

(a) If the dean of students or designee finds it necessary to exercise the authority to summarily suspend a student, he/she shall give the student notice, orally or in writing, stating: The time, date, place, and nature of the alleged misconduct; the evidence in support of the charge(s); the corrective action or punishment which may be imposed against the student; that anything the student says to the dean may be used against the student; and that the student may either accept the disciplinary action or, within forty-eight hours or two work days following receipt of this notification, file at the office of the dean of students, a written request for a hearing by the student judicial board. If the request is not filed within the prescribed time, it will be deemed as waived.

The hearing shall be accomplished according to the procedures set forth in WAC 132X-60-100. Failure by the student to appear at the hearing with the student judicial board shall result in the dean of students or designee suspending the student from the college.

(c) Nothing herein shall prevent faculty members from taking reasonable summary action as may be reasonably necessary to maintain order when they have reason to believe that such action is necessary for the physical safety and well-being of the student, or the safety and protection of other students or of college property or where the student's conduct materially and substantially disrupts the educational process.

Such summary action in the form of removal from the classroom shall be effective for a period not to exceed two scheduled classroom days. Any summary action may be appealed to the dean of students for an informal hearing.

NEW SECTION

EMERGENCY RULES

DEPARTMENT OF FISHERIES

[Order 88-84—Filed August 19, 1988]

I, Joseph R. Blum, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, Joseph R. Blum, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is these regulations are adopted pursuant to the decision of the August 17, 1988, Columbia River Compact. Run size estimates for Columbia River salmon and steelhead stocks indicate that harvestable numbers of these species are available in the area above Bonneville Dam. Action to open the treaty fishery has to be taken immediately in order to harvest these fish, and

there is inadequate time to follow the permanent rule adoption procedures.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
 [Order 88-82—Filed August 19, 1988]

I, Joseph R. Blum, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to commercial fishing regulations.

I, Joseph R. Blum, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is restrictions in Areas 4B, 5, 6, 6A, 6C, 7 and 7A provide protection for Puget Sound and Canadian chinook stocks. Openings in Areas 7B and 7C provide opportunity for gillnet gear to harvest non-Indian allocation of chinook destined for the Nooksack-Samish region of origin. Openings in Area 7E provide opportunity to harvest non-Indian allocation of chinook stocks for the East Sound Hatchery facility. Restrictions in Area 7E provide opportunity for milling stocks. Openings in Areas 12B and 12C provide opportunity for gillnet and purse seine gear to harvest non-Indian allocation of chinook stocks destined for south Hood Canal. The non-Indian harvest remaining is too great to be taken in the sport fishery alone, and surplus to recognized escapement goals. Restrictions in Areas 12B and 12C provide protection for milling stocks. All other Puget Sound areas are closed to prevent overharvest of local salmon stocks.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

EMERGENCY RULES
DEPARTMENT OF AGRICULTURE
[Order 1986—Filed August 22, 1988]

I, C. Alan Pettibone, director of the Washington State Department of Agriculture, do promulgate and adopt at Olympia, Washington, the annexed rules relating to aerial application of herbicides prohibited in Benton County in chapter 16-232 WAC.

I, C. Alan Pettibone, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the department has found evidence of widespread air contamination with herbicides in the Badger Canyon area of Benton County. Preliminary

findings have confirmed that herbicide drift has occurred onto commercial crops and home gardens in residential areas near Kennewick.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to chapters 17.21 and 15.58 RCW and is intended to administratively implement that statute.

AMENDATORY SECTION (Amending Order PM 694, filed 12/11/87)

WAC 308-12-031 REGISTRATION EXAMINATION. The form of the examination required of applicants shall consist of a written and an oral examination. Where RCW 18.08.360 refers to the "entire examination," it means the written examination together with the oral examination. The written examination shall be administered ~~((in June of each year))~~ at ~~((a))~~ times and location~~((s))~~ the board determines appropriate.

The board adopts the architectural registration examination and grading procedures prepared by the National Council of Architectural Registration Boards as the written portion of the examination. The written examination includes computerized versions.

~~(((1)) The written examination. The "architectural registration examination" is divided into nine divisions. The examinees are tested on their ability to exercise value judgments in actual architectural practice situations. The examination covers the following:~~

TITLE	SUBJECT	HOURS ALLOWED
Division A	Pre-design	3
Division B	Site design	3 1/2
Division C	Building design	12
Division D/F	Structural technology general and long span	3
Division E	Structural-lateral forces	1 1/2
Division G	Mechanical, plumbing, electrical and life safety systems	2 1/2
Division H	Materials and methods	2 1/2
Division I	Construction documents and services	3 1/2))

(1) The director shall publish an information guide concerning examination content, locations, and schedules.

(2) To pass the written examination, an applicant must achieve a passing grade on each division.

(3) All nine divisions of the architects registration examination must be taken on the first attempt. On subsequent attempts, examinees may retake any divisions not passed on previous attempts.

(4) The oral examination is given upon the applicant's completion of the written examination.

The purpose of the oral examination is to test in those areas of knowledge and skill not covered in the written examination.

The oral part of the examination shall include a review of the applicant's practical experience, an understanding of the law and the responsibility to safeguard life, health, and property and to promote the public welfare.

The oral examination may be conducted by the full board or by an architect member of the board. The board may waive the full board examination if the examining board member deems the applicant prepared for registration. If such waiver is not granted or if the examining board member fails the applicant, the applicant must then appear for a full board oral examination.

The board may waive the entire oral examination based upon certification by the National Council of Architectural Registration Boards of successful completion of the intern development program. Applicants may submit the "Green Cover" IDP certificate in lieu of the exhibit checklist which is required for the oral examination. This waiver of oral examination does not affect the requirement to summarize the law and rules pertaining to architecture.

If an applicant does not receive a recommendation for registration, the board will advise the applicant of the areas of deficiency and schedule another oral examination.

The examinee will be required to retake the entire examination if all portions of the written and oral examination ~~(((is)))~~ are not successfully completed as per

RCW 18.08.360. The five-year period shall begin to run effective with the date on which the examinee first takes the examination. If the examinee does not successfully pass all portions of the written and oral examination, within five years from the date he or she first took the examination, he or she shall lose credit for all portions of the examination previously passed, and a new five-year period shall begin on the date on which the examinee begins to retake the examination.

AMENDATORY SECTION (Amending Order PM 693, filed 12/1/87)

WAC 113-12-200 SCOPE OF PRACTICE—REVOCATION OR SUSPENSION OF LICENSE AUTHORIZED FOR PRACTICE OUTSIDE SCOPE.

(1) The chiropractic disciplinary board finds that over the past few years there has been an increasing number of persons licensed as chiropractors who have been practicing other healing arts while holding themselves out to the public as chiropractors to the detriment of the public health and welfare of the state of Washington and contrary to the legislative directive contained in RCW 18.26.010(5). The board further finds and deems it necessary to carry out the provisions of chapter 18.26 RCW that this rule be adopted to give guidance to members of the profession, and the public, in interpreting for purposes of application by the disciplinary board of RCW 18.26.030, the scope of health care which comes within the definition of chiropractic in RCW 18.25.005 and which is authorized under a license to practice chiropractic in the state of Washington.

(2) RCW 18.25.005 defines the term "chiropractic" for purposes of chapters 18.25 and 18.26 RCW, as that practice of health care which deals with the detection of subluxations, which shall be defined as any alteration of the biomechanical and physiological dynamics of contiguous spinal structures which can cause neuronal disturbances, the chiropractic procedure preparatory to, and complementary to the correction thereof, by adjustment or manipulation of the articulations of the vertebral column and its immediate articulations for the restoration and maintenance of health; it includes the normal regimen and rehabilitation of the patient, physical examination to determine the necessity for chiropractic care, the use of x-ray and other analytical instruments generally used in the practice of chiropractic: PROVIDED, That no chiropractor shall prescribe or dispense any medicine or drug nor practice obstetrics or surgery nor use x-rays for therapeutic purposes: PROVIDED, HOWEVER, That the term "chiropractic" as defined in this act shall not prohibit a practitioner licensed under chapter 18.71 RCW from performing accepted medical procedures, except such procedures shall not include the adjustment by hand of any articulation of the spine: AND PROVIDED FURTHER, That nothing herein shall be construed to prohibit the rendering of dietary advice.

(3) The board finds that the following diagnostic techniques and procedures, by whatever name known, are not within the definition of "chiropractic" as specified in subsection (2) of this section and in RCW 18.25.005, and, consequently, a license to practice chiropractic does not authorize their use:

(a) The use of x-rays or other forms of radiation for any other reason than to x-ray the human skeleton.

(b) The use of any form of electrocardiogram.

(c) The testing and reduction to mathematical formulae of sputum and/or urine (commonly known as "Reams" testing).

(d) Hair analysis.

(e) The use of a vasculizer or plethysonograph (commonly known as plethysmography) except for research purposes.

(f) The use of iridology.

(g) The taking of blood samples.

(h) Female breast examinations.

The above list is not to be considered exhaustive or to limit the board in any way from finding under the statutory definition in RCW 18.25.005 that any other diagnostic technique or procedure is outside the scope of chiropractic practice.

(4) The board finds that the following treatment modalities, by whatever name known, are not within the definition of "chiropractic" as specified in subsection (2) of this section and in RCW 18.25.005 and, consequently, a license to practice chiropractic does not authorize their use:

(a) Ultrasound, diathermy, high voltage galvanic therapy and x-rays or other radiation.

(b) Colonic irrigation.

(c) Extremity adjusting (~~(, unless complementary to and/or preparatory to a spinal adjustment and not solely as a treatment of a specific extremity condition))~~).

(d) Electrotherapy.

(e) The use of a transcutaneous electrical nerve stimulator (TENS).

(f) The use of the endonasal technique.

(g) The use of any type of casting other than light body casting.

(h) The use of meridian therapy, whether known as "acupressure," or the same type of therapy under any other names.

(i) The use of hypnosis for any other than relaxation purposes.

(j) The use of clinical herbology.

~~((k) Adjustment of the temporomandibular joint unless used preparatory to or complimentary to the correction of a spinal subluxation and not as the sole treatment of a dysfunction in the temporomandibular joint.~~

~~(l) Furnishing foot orthotics unless provided complementary to and/or preparatory to a spinal adjustment and not solely as a treatment of a specific foot condition:))~~

The above list is not to be considered exhaustive or to limit the board in any way from finding under the statutory definition in RCW 18.25.005 that any other treatment modalities are outside the scope of chiropractic practice.

(5) The use by a chiropractor of diagnostic techniques or procedures or treatment modalities which are outside the definition of chiropractic in RCW 18.25.005, whether or not listed in this rule, or the use by a chiropractor of any of the diagnostic techniques and procedures listed

in subsection (3) of this section or the use by a chiropractor of any of the treatment modalities listed in subsection (4) of this section shall constitute unprofessional conduct under RCW 18.130.180(12) which shall be good and sufficient cause for revocation or suspension of that chiropractor's license to practice chiropractic in Washington.

EMERGENCY RULES
DEPARTMENT OF FISHERIES
[Order 88-83—Filed August 23, 1988]

I, Joseph R. Blum, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to personal use rules.

I, Joseph R. Blum, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is salmon are available to be harvested without exceeding the harvest target in the Buoy 10 fishery of 100,000 coho salmon before August 28, 1988. It is in the public interest to harvest the available salmon and an immediate return to a two fish bag limit is necessary in order to do so. There is insufficient time to follow permanent rule adoption procedures.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

STATEMENT OF PURPOSE

This statement is related to the notice filed with the code reviser on August 24, 1988, and is filed pursuant to RCW 34.04.025.

Description of Purpose: To clarify the procedures for exceptions and to allow the board to request additional information during exception hearings.

Specific Statute this Rule is Intended to Implement: RCW 28B.16.100.

Statutory Authority: RCW 28B.16.100 to implement the provisions of that section.

Title: WAC 251-12-075 Appeals from alleged violations of HEPB law or rules.

Summary of Rule: Allows the board to request additional information during an exceptions hearing.

Title: WAC 251-12-600 Remedial action.

Summary of Rule: Clarifies the procedure for filing exceptions to the director's order in petitions for remedial action.

Reasons Supporting Proposed Action: The current rules do not specifically allow the board to request additional information during an exceptions hearing. This rule revision makes such provisions. The revision to WAC 251-12-600 removes an erroneous rule reference and clarifies the procedure for filing exceptions thus making the rule complete.

Description of Purpose: To specify the procedures to be followed whenever a party to an appeal desires that a scheduled hearing be continued.

Specific Statute this Rule is Intended to Implement: RCW 28B.16.130 and 28B.16.170.

Statutory Authority: RCW 28B.16.100 to implement the provisions of that section.

Title: WAC 251-12-101 Motion(s) for continuance.

Summary of Rule: Allows either party to a hearing to request motions for continuance for good cause shown.

Title: WAC 251-12-102 Motion for continuance—Procedure.

Summary of Rule: Specifies the procedures to be used by the parties when requesting a continuance.

Reasons Supporting Proposed Action: The board has no rules in place for requesting or granting continuances

for hearings. These rules allow continuances to be requested and will eliminate requests for continuances being made for arbitrary and capricious reasons prior to or on the day of the scheduled hearing.

Description of Purpose: To allow the board to dismiss appeals for want of prosecution.

Specific Statute this Rule is Intended to Implement: RCW 28B.16.170.

Statutory Authority: RCW 28B.16.100 to implement the provisions of that section.

Title: WAC 251-12-103 Dismissal by the board for lack of action.

Summary of Rule: Allows the board to dismiss an appeal for want of prosecution when neither party to the appeal has taken action during the preceding three months. Such dismissal will follow notice to the parties and be done during open meeting.

Reasons Supporting Proposed Action: The board has no rules in place to allow for dismissal of appeals for any reason. Currently, all appeal files remain open until a decision is final or until an official withdrawal of the appeal is received from the appealing party. This new rule will allow the board to dismiss appeals only when no action by the parties has been taken during the preceding three month period.

Agency Personnel Responsible for Drafting, Implementation and Enforcement: John Spitz, Director, Higher Education Personnel Board, 1202 Black Lake Boulevard, FT-11, Olympia, WA 98504-3611, 234-3730 scan or 753-3730.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Higher Education Personnel Board staff, governmental.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: The change is not the result of federal law or state or federal court action.

AMENDATORY SECTION (Amending Order 61, filed 8/30/77, effective 10/1/77)

WAC 251-12-075 APPEALS FROM ALLEGED VIOLATIONS OF HEPB LAW OR RULES. Title: Forms for statements of financial affairs.

Description of Purpose: Adopts the financial affairs statement.

Summary of Proposed Action: Revises the F-1 form so that all information required by law about a certain asset or holding (e.g. real property, investments) or a business the filer is the officer of or owns can be reported in one place on the form.

Reasons Supporting Proposed Action: The commission is continually urged to simplify reporting forms. The questions asked by filers and the errors, oversights or inconsistencies observed by PDC staff suggest the changes proposed will make reporting easier and the information reported more understandable.

Number: WAC 390-24-200.

Title: Descriptions of real property.

Description of Purpose: Describes how to report real property on financial affairs statements.

Summary of Proposed Action: Encourages use of street address as identifier of real property locations; and adds assessor's parcel number to the list of acceptable alternative identifiers.

Reasons Supporting Proposed Action: Revision will provide clearer guidance to persons required to file reports, and will allow use of the assessor's parcel number as an identifier when no street address exists, or when a legal description is lengthy.

Number: WAC 390-16-223.

Title: Definition of major political party.

Description of Purpose: Defines major political party.

Summary of Proposed Action: Repeals a rule adopted June 28, 1988, to clarify a statutory definition referenced in RCW 42.17.105(8).

Reasons Supporting Proposed Action: The Joint Administrative Rules Review Committee believes the problem can better be solved by statutory amendment than by agency rule.

Statutory Authority: RCW 42.17.370(1).

Agency Personnel Responsible for Drafting, Implementation and Enforcement: Graham E. Johnson, Executive Director.

Agency or Organization Submitting Proposal: PDC staff.

PUBLIC DISCLOSURE COMMISSION

[Order 88-03—Filed August 24, 1988]

Be it resolved by the Public Disclosure Commission, acting at 403 Evergreen Plaza Building, 711 Capitol Way, Olympia, WA 98504, that it does adopt the annexed rules relating to definition of major political party, WAC 390-16-223.

We, the members of the Public Disclosure Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is the Joint Administrative Rules Review Committee believes the clarification needed for the definition of "major political party" referenced in RCW 42.17.105(8) should be done in statute, not rules.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 42.17.370(1) and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 23, 1988.

PROPOSED RULES

LIQUOR CONTROL BOARD

[Filed August 24, 1988]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Liquor Control Board intends to adopt, amend, or repeal rules concerning manufacturers, chapter 314-30 WAC, new section WAC 314-30-010 Sales by manufacturers;

that the agency will at 9:30 a.m., Wednesday, October 5, 1988, in the Offices of the Liquor Control Board, Capital Plaza Building, 1025 East Union Avenue, Olympia, WA 98504, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 66.08.030 and 66.24.150.

The specific statute these rules are intended to implement is RCW 66.24.150.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 5, 1988.

Dated: August 24, 1988

By: L. H. Pedersen
Chairman

STATEMENT OF PURPOSE

Title: WAC 314-30-010 Sales by manufacturers.

Description of Purpose: To clarify requirements for manufacturers regarding who they can sell to; where the tax liability lies; and what requirements they must follow.

Statutory Authority: RCW 66.08.030 and 66.24.150.

Statutes Implemented by the Rule: RCW 66.24.150.

Summary of Rule: The new section states requirements regarding who a manufacturer may sell to; who is responsible for the tax liability; what types of reports are due and when; and that manufacturers producing beer or wine must follow the guidelines for breweries and wineries in regards to price postings. With the many changes in the liquor industry, we have recently had a license issued to a bottler who imports Canadian wine (cider), bottles and labels it for sale to Washington wine wholesalers. The rules are not clear as to the requirements for this licensee to follow or where the wine tax liability lies. The new rule as proposed clearly answers

these questions and sets them out for the public to know and refer to.

Reasons Supporting Proposed Action: The rule is considered to be a housekeeping measure to make the liquor laws and rules easier to understand and available to all.

Agency Personnel Involved: In addition to the board the following agency personnel have responsibility for drafting, implementing and enforcing this rule amendment: Janice Lee Britt, Supervisor, Manufacturers, Importers and Wholesalers Division, phone (206) 753-6273; and James E. Hoing, Controller, Financial Division, phone (206) 753-6290, Capital Plaza Building, Olympia, Washington 98504-2531.

Person or Organization Proposing the Rule: The Washington State Liquor Control Board.

Agency Comments: None.

Necessity of Rule: Not made necessary as a result of federal law or federal or state court action.

Small Business Economic Impact Statement: There will be no negative cost impact for this rule.

Chapter 314-30 WAC
MANUFACTURERS

WAC

314-30-010 Sales by manufacturers.

NEW SECTION

WAC 314-30-010 SALES BY MANUFACTURERS. (1) Manufacturers licensed in accordance with RCW 66.24.150 may sell within the state (a) spirituous liquor only to the board or to an authorized vendor of the board, (b) wine products only to wholesalers licensed in accordance RCW 66.24.200, (c) beer products only to beer certificate of approval holders as authorized by RCW 66.24.270 who also hold an importer's license as authorized by RCW 66.24.260 or (d) to permit holders as authorized by title 66 RCW.

(2) The first wine wholesaler or beer certificate of approval holder with a beer importer's license to receive wine or malt beverages from a distiller, rectifier or bottler shall be liable for the taxes due.

(3) Manufacturers selling wine or malt beverage products will be considered a supplier and will be required to meet the requirements of WAC 314-24-200 and WAC 314-20-105 respectively.

(4) Manufacturers selling wine to a licensed wine wholesaler or beer to a licensed beer certificate of approval holder who also has a beer importer's license shall file monthly reports with the board on forms prescribed by the board showing the quantity of liquor shipped to each above referenced licensee during the preceding month. Such report shall be submitted on or before the twentieth day of the month following the month of sale or delivery.

(5) Failure to make such report at the time prescribed will be sufficient cause for the board to forthwith suspend or cancel the license privilege of the manufacturer. When the twentieth day of any month falls on a Sunday, or a legal holiday, the report may be filed not later than the close of business the next business day.

Reviser's note: The spelling error in the above section occurred in the copy filed by the agency and appears herein pursuant to the requirements of RCW 34.08.040.

PROPOSED RULES
LIQUOR CONTROL BOARD
[Filed August 24, 1988]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Liquor Control Board intends to adopt, amend, or repeal

rules concerning Educational activities—No outside entertainment, new section WAC 314-12-175;

that the agency will at 9:30 a.m., Wednesday, October 5, 1988, in the Offices of the Liquor Control Board, Capital Plaza Building, 1025 East Union Avenue, Olympia, WA 98504-2531, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 66.08.030.

The specific statute these rules are intended to implement is RCW 66.28.010 and 66.28.150.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before October 5, 1988.

Dated: August 24, 1988

By: L. H. Pedersen
Chairman

STATEMENT OF PURPOSE

Title: WAC 314-12-175 Educational activities—No outside entertainment.

Description of Purpose: To limit educational activities authorized by RCW 66.28.150 by placing strict restrictions on what can and cannot occur during these educational activities.

Statutory Authority: RCW 66.08.030.

Statutes Implemented by the Rule: RCW 66.28.010 and 66.28.150.

Summary of Rule: To clarify RCW 66.28.010 and 66.28.150.

Reasons Supporting Proposed Action: During the past year the board has become aware that some manufacturers, importers and wholesalers are presenting "educational classes" under the auspices of RCW 66.28.150 merely as a front to entertain retailers and their employees at events such as hydroplane races, professional athletic events, racetracks, etc.

The rule as proposed would limit courses of instruction to bona fide education events where only background music and/or other courses of instruction would provide distractions from the education activity.

In order to encourage sobriety and allow for normal taste testing methods, small amounts of hors d'oeuvres will be allowed, parallel to the food allowed when providing samples as authorized by WAC 314-64-080.

Agency Personnel Involved: In addition to the board, the following agency personnel have responsibility for drafting, implementing and enforcing this rule: Janice Lee Britt, Supervisor, Manufacturers, Importers and Wholesalers Division, phone (206) 753-6273; and M. Carter Mitchell, Legislative Liaison, Public Information Office, phone (206) 753-6276, Capital Plaza Building, Olympia, Washington 98504-2531.

Person or Organization Proposing Rule: The Washington State Liquor Control Board.

Necessity of Rule: Not made necessary as a result of federal law or federal or state court action.

Small Business Economic Impact Statement: There will be no negative cost impact for this rule amendment.

NEW SECTION

WAC 314-12-175 EDUCATIONAL ACTIVITIES—NO OUTSIDE ENTERTAINMENT. (1) Manufacturers, importers and wholesalers who are presenting courses of instructions to retail licensees and their employees in accordance with RCW 66.28.150 may do so provided no other entertainment activities are present to detract from the educational presentation.

(2) Other activities which are allowed at such courses of instruction include (a) information displays of other manufacturers, importers and wholesalers of liquor and nonalcoholic products, (b) background music, and (c) the provision of small amounts of breads, crackers, cheeses, fruits, or nuts to clear the taste buds of participants between successive samples of beer or wine, but not the provision of full meals.

AMENDATORY SECTION (Amending Order 86-17, filed 9/23/86)

WAC 458-20-136 MANUFACTURING, PROCESSING FOR HIRE, FABRICATING. (1) Definitions. "The term 'to manufacture' embraces all activities of a commercial or industrial nature wherein labor or skill is applied, by hand or machinery, to materials so that as a result thereof a new, different or useful substance or article of tangible personal property is produced for sale or commercial or industrial use, and shall include the production or fabrication of special made or custom made articles." (RCW 82.04.120.) It means the business of producing articles for sale, or for commercial or industrial use from raw materials or prepared materials by giving these matters new forms, qualities, properties, or combinations. It includes such activities as making, fabricating, processing, refining, mixing, slaughtering, packing, curing, aging, canning, etc. It includes also the preparing, packaging and freezing of fresh fruits, vegetables, fish, meats and other food products, the making of custom made suits, dresses, coats, awnings, blinds, boats, curtains, draperies, rugs, and tanks, and other articles constructed or made to order, and the curing of animal hides and food products.

(2) The word "manufacturer" means every person who, from the person's own materials or ingredients manufactures for sale, or for commercial or industrial use any articles, substance or commodity either directly, or by contracting with others for the necessary labor or mechanical services.

(3) However, a nonresident of the state of Washington who owns materials ((process)) processed for hire in this state is not deemed to be a manufacturer because of such processing. Further, any owner of

materials from which a nuclear fuel assembly is fabricated in this state by a processor for hire is also not deemed to be a manufacturer because of such processing.

(4) The term "to manufacture" does not include conditioning of seed for use in planting or activities which consist of cutting, grading, or ice glazing of seafood which has been cooked, frozen, or canned outside this state; the mere cleaning and freezing of whole fish; or the repairing and reconditioning of tangible personal property for others.

(5) The term "processing for hire" means the performance of labor and mechanical services upon materials belonging to others so that as a result a new, different or useful article of tangible personal property is produced for sale or commercial or industrial use. Thus, a processor for hire is any person who would be a manufacturer if that person were performing the labor and mechanical services upon that person's own materials.

(6) ~~((Business and occupation tax. Persons who manufacture products in this state and sell the same at retail in this state are subject to the business and occupation tax under the classification retailing and those who sell such products at wholesale in this state are taxable under the classification wholesaling—all others. Persons taxable under the classification retailing and wholesaling—all others are not taxable under the classification manufacturing with respect to the manufacturing of products so sold within this state.))~~ Persons who both manufacture and sell those products in this state must report their gross receipts under both the manufacturing and retailing or wholesaling classifications. A credit may then be taken against the selling tax in the amount of the manufacturing tax reported. (See also WAC 458-20-19301.)

(7) Manufacturing—interstate or foreign sales. Persons who manufacture products in this state and sell the same in interstate or foreign commerce are taxable under the classification manufacturing upon the value of the products so sold, and are not taxable under retailing or wholesaling—all others in respect to such sales. (See also WAC ((458-20-193)) 458-20-193A.) A credit may be applicable if a gross receipts tax is paid on the selling activity to another state. (See also WAC 458-20-19301.)

(8) Business and occupation tax—hops. The business and occupation tax shall not apply to amounts received by hop growers or dealers for hops which are shipped outside the state of Washington for first use, if those hops have been processed into extract, pellets, or powder in this state. Amounts charged by a processor or warehouse for processing or warehousing, however, are not exempt.

(9) Manufacturing—special classifications. The law provides several special classifications and rates for activities which constitute "manufacturing" as defined in this rule. These include manufacturing wheat into flour, barley into pearl barley, soybeans into soybean oil, or sunflower seeds into sunflower oil (RCW 82.04.260(2)); splitting or processing dried peas (RCW 82.04.260(3)); manufacturing seafood products which remain in a raw, raw frozen, or raw salted state (RCW 82.04.260(4)); manufacturing by canning, preserving, freezing or dehydrating fresh fruits and vegetables (RCW 82.04.260(5)); manufacturing aluminum pig, ingot, billet, plate, sheet (flat or coiled), rod, bar, wire, cable or extrusions (RCW 82.04.260(6)); and manufacturing nuclear fuel assemblies (RCW 82.04.260(10)). In all such cases the principles set forth in ((the preceding paragraphs headed manufacturing—local sales and manufacturing—interstate or foreign sales will be)) subsections (6) and (7) of this section concerning multiple tax classifications and credit provisions are also applicable. ((Local sales will be subject to the business and occupation tax only under the classifications retailing or wholesaling—all others at the applicable rates for those classifications, while interstate or foreign sales will be taxable only under the classifications manufacturing wheat into flour, splitting or processing dried peas, manufacturing raw seafood products, manufacturing fresh fruits and vegetables, manufacturing aluminum, and manufacturing nuclear fuel assemblies, as the case may be. Local sales (at either retail or wholesale) of nuclear fuel assemblies by the manufacturer thereof are subject to business and occupation tax.

(9)) (10) The special classification and rate for slaughtering, breaking and/or processing perishable meat products and/or selling the same at wholesale (RCW 82.04.260((††)) (7)) combines manufacturing and nonmanufacturing activities into a single taxable business activity. ((As to those activities which constitute "manufacturing" as defined in this rule)) For persons who break, slaughter, and/or process meat products for others, the statutory classification and rate are applicable to ((both local and interstate or foreign sales. As to those activities which involve)) the value of products so processed and delivered to customers within this state and to interstate or foreign customers.

The mere wholesale selling of perishable meat products not manufactured by the vendor(;) is subject to the statutory classification and rate ((are applicable to local sales only, and)) only upon gross receipts from sales within this state. Interstate or foreign sales are deductible from gross proceeds of sales. (See WAC 458-20-193A.)

((††)) (11) Manufacturing for commercial use. Persons who manufacture products in this state for their own commercial or industrial use are taxable under the classification manufacturing on the value of the products so manufactured and used. (See WAC 458-20-134 for definition of commercial or industrial use.)

((††)) (12) Processing for hire. Persons processing for hire for consumers or for persons other than consumers are taxable under the processing for hire classification upon the total charge made therefor.

((††)) (13) Materials furnished in part by customer. In some instances, the persons furnishing the labor and mechanical services undertakes to produce a new article, substance, or commodity from materials or ingredients furnished in part by them and in part by the customer. In such instances, tax liability is as follows:

(a) The persons furnishing the labor and mechanical services will be presumed to be the manufacturer if the value of the materials or ingredients furnished by them is equal to or exceeds 20% of the total value of all materials or ingredients which become a part of the finished product.

(b) If the person furnishing the labor and mechanical services furnishes materials constituting less than 20% of the value of all of the materials which become a part of the finished product, such person will be presumed to be processing for hire. The person for whom the work is performed is the manufacturer in that situation, and will be taxable as such.

(c) In cases where the person furnishing the labor and mechanical services supplies, sells, or furnishes to the customer, before processing, 20% or more in value of the materials from which the finished product is made, the person furnishing the labor and mechanical services will be deemed to be the owner of the materials and taxable as a manufacturer.

((††)) (14) Retail sales tax. Persons taxable as engaging in the business of manufacturing and selling at retail any of the products manufactured and persons manufacturing, fabricating, or processing for hire tangible personal property for consumers shall collect the retail sales tax upon the total charge made to their customers.

((††)) (15) Sales to processors for hire and to manufacturers of articles of tangible personal property which do not become an ingredient or component part of a new article produced, or are not chemicals used in processing the same, are retail sales, and the retail sales tax must be collected thereon. (However, see WAC 458-20-113 and 458-20-134 for certain express exemptions.)

((††)) (16) Use tax. Manufacturers are taxable under the use tax upon the use of articles manufactured by them for their own use in this state. (See WAC 458-20-113 and 458-20-134 for certain express exemptions.)

((††)) (17) See WAC 458-20-244 for sales and use tax on food products.

Neither the retail sales tax nor the use tax applies to prepared meals provided to senior citizens, disabled persons, or low-income persons by not-for-profit organizations organized under chapter 24.03 or 24.12 RCW.

STATEMENT OF PURPOSE

Title: Public funding of remedial action costs (pursuant to chapter 70.105B RCW).

Purpose: Pursuant to the act, the department is required to adopt rules which provide criteria and priorities governing public funding of remedial action costs.

Statutory Authority: Chapter 70.105B RCW.

Summary of Rule: The rule defines the criteria which the department shall consider when reviewing a mixed funding proposal submitted by a potentially liable person. Public funds will only be provided where the department has determined that the funds will expedite cleanup operations, enhance the cleanup operations or achieve greater fairness with respect to the payment of remedial action costs.

Organization Proposing Rule: Department of Ecology.

Agency Personnel Responsible for Drafting: Jerry Jewett, Policy and Planning Section, Department of Ecology, Mailstop PV-11, Olympia, Washington 98504; Implementation and Enforcement: Marc Horton, Deputy Director, Department of Ecology, Mailstop PV-11, Olympia, Washington 98504.

Agency Comments or Recommendation Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: None.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: No.

State Environmental Policy Act: A review of chapter 43.21C RCW and WAC 197-11-800(20) has been conducted by the department. The department has concluded this proposed rule qualifies for a categorical exemption from the State Environmental Policy Act because it relates solely to governmental procedures and contains no substantive standards respecting use or modification of the environment.

Small Business Economic Impact Statement: An economic impact analysis was conducted pursuant to chapter 43.21H RCW (Economic Policy Act). It has been determined by ecology that this rule is exempt for the requirements of chapter 19.85 RCW (Regulatory Fairness Act).

ADOPTED RULES

INSURANCE COMMISSIONER

[Order R 88-8—Filed August 24, 1988]

I, Dick Marquardt, Insurance Commissioner, do promulgate and adopt at Olympia, Washington, the annexed rules relating to requirements for the separation and accounting of premiums and return premiums by insurance agents, brokers, solicitors, general agents and surplus line brokers, exempting title insurance agents and certain insurance brokers, and defining noncompliance to be an unfair practice.

This action is taken pursuant to Notice No. WSR 88-15-036 filed with the code reviser on July 14, 1988. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 48.02.060 (3)(a) and 48.30.010(2) which directs that the Insurance Commissioner has authority to implement the provisions of RCW 48.05.310(6), 48.15.140 (1)(c), 48.17.480, 48.17.600 and 48.30.010(2).

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED August 24, 1988.

Insurance Commissioner

Deputy Insurance Commissioner

AMENDATORY SECTION (Amending Order R 87-1, filed 1/21/87)

WAC 284-12-080 REQUIREMENTS FOR SEPARATE ACCOUNTS. (1) The purpose of this section is to effectuate RCW 48.17.600 and 48.17.480 with respect to the separation and accounting of premium funds by agents, brokers, solicitors, general agents and surplus line brokers, hereinafter called "producers." Pursuant to RCW 48.30.010, the commissioner has found and hereby defines it to be an unfair practice for any producer, except as allowed by statute, to conduct insurance business without complying with the requirements of RCW 48.17.600 and this section. As provided in RCW 48.17.600, agents for title insurance companies or insurance brokers whose average daily balance for premiums received on behalf of insureds in the state of Washington equals or exceeds one million dollars, are exempt from subsections (1) through (5) of this section, except with respect to premiums and return premiums received in another licensing capacity.

(2) All funds representing premiums and return premiums received on Washington business by a producer in his or her fiduciary capacity on or after January 1, 1987, shall be deposited in one or more identifiable separate accounts which may be interest bearing.

(a) A producer may deposit no funds other than premiums and return premiums to the separate account except as follows:

(i) Funds reasonably sufficient to pay bank charges;
 (ii) Funds a producer may deem prudent for advancing premiums, or establishing reserves for the paying of return premiums; and

(iii) Funds for contingencies as may arise in the business of receiving and transmitting premiums or return premiums.

(b) A producer may commingle Washington premiums and return premiums with those produced in other states, but there shall be no commingling of any funds which would not be permitted by this section.

(3)(a) The separate account funds may be:

(i) Deposited in a checking account, demand account, or a savings account in a bank, national banking association, savings and loan association, mutual savings bank, stock savings bank, credit union, or trust company located in the state of Washington. Such an account must be insured by an entity of the federal government; or

(ii) Invested in United States government bonds and treasury certificates or other obligations for which the full faith and credit of the United States government is pledged for payment of principal and interest, repurchase agreements collateralized by securities issued by the United States government, and bankers acceptances. Insurers may, of course, restrict investments of separate account funds by their agent.

(b) A nonresident licensee, or a resident producer with affiliated operations under common ownership in two or more states, may utilize comparable accounts in another state provided such accounts otherwise meet the requirements of RCW 48.17.600 and this rule, and are accessible to the commissioner for purposes of examination or audit at the expense of the producer.

(4)(a) The entire premium received (including a surplus lines premium tax if paid by the insured) must be deposited into the separate account. Such funds shall be paid promptly to the insurer or to another producer entitled thereto, in accordance with the terms of any applicable agreement between the parties.

(b) Return premiums received by a producer and the producer's share of any premiums required to be refunded, must be deposited promptly to the separate account. Such funds shall be paid promptly to the insured or person entitled thereto.

(5)(a) Where a producer receives a premium payment in the form of an instrument, such as a check, which is made payable to an insurer, general agent or surplus line broker, the producer may forward such instrument directly to the payee if that can be done without endorsement or alteration. In such a case, the producer's separate account is not involved because the producer has not "received" any funds.

(b) If the producer receives a premium payment in the form of cash or an instrument requiring endorsement by the producer, such premium must be deposited into the producer's separate account, unless the insurer entitled to such funds has established other procedures by written direction to a producer who is its appointed agent, which procedures:

(i) Recognize that such agent is receiving premiums directly on behalf of the insurer; and

(ii) Direct the producer to give adequate receipts on behalf of the insurer; and

(iii) Require deposit of the proceeds into the insurer's own account or elsewhere as permitted by the insurer's direction.

Thus, for example, an insurer may utilize the services of a licensed agent, known in the industry as a "captive agent," in the sale of its insurance and in the operation of its places of business, and directly receive payments intended for it without such payments being deposited into and accounted for through the licensed agent's separate account. In such cases, for purposes of this rule, the insurer, as distinguished from the agent, is actually "receiving" the funds and is immediately responsible therefor.

(c) When a producer receives premiums in the capacity of a surplus line broker, licensed pursuant to chapter 48.15 RCW, after a binder or other written evidence of insurance has been issued to the insured, subject to the express written direction of the insurer involved, such premiums may be removed from the separate account.

(6) The commissioner recognizes the practical problems of accounting for the small amounts of interest involved spread over a large number of insurers and insureds. Therefore, absent any agreement between the producer and the insured or insurer to the contrary, interest earned on the deposits held in the separate account may be retained by the producer and used to offset bank charges, establish reserves, pay return premiums, or for any of the purposes listed in subsection (2) of this section, or the interest may be removed to the operating account.

(7) A producer shall establish and maintain records and an appropriate accounting system for all premiums and return premiums received by the producer, and shall make such records available for inspection by the commissioner during regular business hours upon demand during the five years immediately after the date of the transaction.

(8) The accounting system used must effectively isolate the separate account from any operating accounts. All record-keeping systems, whether manual or electronic must provide an audit trail so that details underlying the summary data, such as invoices, checks, and statements, may be identified and made available on request. Such a system must provide the means to trace any transaction back to its original source or forward to final entry, such as is accomplished by a conventional double-entry bookkeeping system. When automatic data processing systems are used, a description of the system must be available for review by the commissioner. A balance forward system (as in an ordinary checking account) is not acceptable.

(9)(a) A producer that is a firm or corporation may utilize one separate account for the funds received by its affiliated persons operating under its license, and such affiliated persons may deposit the funds they receive in such capacity directly into the separate account of their firm or corporation.

(b) Funds received by a solicitor may be deposited into and accounted for through the separate account of the agent or broker represented by the solicitor.

Animal husbandry;

Aquaculture;

Horticulture; or

Participation in a government-funded crop reduction or acreage set-aside program.

classification. Prospective use of the land shall not be considered as a condition for qualification.

"Conjunction" means a parcel of land on which appurtenances may be located; such parcel may be separate from or contiguous with farm and agricultural land but does not qualify for classification by itself, but is an integral part in the use of the land for commercial agricultural purposes in association with the land.

The county assessor shall act on an application for farm and agricultural land classification.

"Gross income" means cash income derived from commercial agricultural purposes, including payments received from the United States Department of Agriculture for participation in any crop reduction or acreage set aside program, if the payments are based on the productive capacity of the land. (i) Conserve and enhance natural or scenic resources; or

(ii) Protect streams or water supply; or

(iii) Promote conservation of soils, wetlands, beaches, or tidal marshes; or

(iv) Enhance the value to the public of abutting or neighboring parks, forest, wildlife preserves, natural reservations or sanctuaries, or other open space; or

(v) Enhance public recreation opportunities; or

(vi) Preserve historic sites; or

(vii) Retain in its natural state, tracts of land of not less than five acres situated in an urban area and open to public use on such conditions as may be reasonably required by the granting authority.

(2) "Farm and agricultural land" means either:

(a) Land in any contiguous ownership of twenty or more acres:

NEW SECTION

WAC 458-30-210 DEPARTMENT OF REVENUE—DUTIES.

The department of revenue shall maintain general administrative authority to insure that the act and this chapter is effectively and equitably applied throughout the state. The department shall, upon request, provide all reasonable assistance to the county assessor relating to administration of the act and this chapter.

The department shall design all application and other administrative forms regarding current use assessments for the county assessor to prepare and provide to applicants for classification as farm and agricultural land, open space land, excepting the public benefit rating system, or timber land. The department shall provide the guidelines and necessary training for land valuation and administration to assessors and county boards of equalization. Members of the advisory committee and members of any granting authority may attend the training sessions provided by this rule.

The department, by order, shall annually issue by December 31, a five-year average of wheat and barley prices for use in the assessment year following the year when the order was issued.

NEW SECTION

WAC 458-30-215 APPLICATION FORMS—ASSISTANCE IN PREPARATION. The county assessor and the county legislative authority shall have application forms for current use land classification available and shall supply them upon request. The assessor and the county legislative authority may jointly arrange to provide the appropriate forms, prepare informational materials and provide reasonable assistance to owners applying for classification. Should the county

legislative authority adopt a rating system for the open space classification, it shall prepare the appropriate forms and provide informational materials and assistance to prospective applicants.

In the event a parcel is conveyed while approval of a timely filed application is pending, the purchaser or transferee shall, upon written request to the granting authority, be given the same consideration as if that party was the original applicant. However, except for the application fee, the granting authority shall require the purchaser or transferee to satisfy all requirements that otherwise would have been required in accordance with the original application.

Application for classification as farm and agricultural land shall be made directly to the county assessor for action.

Application for classification as open space or timber land shall be made directly to the county legislative authority for action. A land owner applying for both the open space and timberland classifications may file only one application. However, each land area shall be separately and accurately described, and will be judged separately on its merits by the granting authority.

Should the land be located within a city or town and the unincorporated area of the county the county legislative authority shall forward the application to the city legislative authority. In such situations, a joint county/city legislative authority consisting of three members from each legislative authority shall act on the application.

Should the land area described in the application for classification be in more than one county, the owner shall file a separate application with each granting authority.

Application for classification as farm and agricultural land, open space land and timber land shall be made between January 1 and December 31 for classification and assessment to begin on January 1 in the year following application.

In the event an application for classification is denied, a reapplication covering the same land or a portion thereof, may not be submitted to the granting authority until three hundred sixty-five days have elapsed from the date the original application was received.

NEW SECTION

WAC 458-30-220 APPLICATION FEE. A fee, not to exceed thirty dollars, for processing the application, may be established by the city or county legislative authority. Such fee shall accompany the application. If any agreement or approval is to be recorded, the cost of such recording shall come from the fee. The fee, made payable to the county financial authority, who, in turn, shall forward a portion of the fee to any city where the land that classification is sought is located. The portion of the fee forwarded to the city shall be equivalent to that portion of the parcel that lies within its boundary.

If the application is denied, the fee shall be returned to the applicant. The application fee shall not be returned if the owner withdraws the application prior to approval. The fee will not be refunded if the owner does not sign and return the agreement within twenty-five days after receiving it from the granting authority.

NEW SECTION

WAC 458-30-225 ASSESSOR TO ACT ON AGRICULTURAL CLASSIFICATION. The county assessor, as granting authority, shall act on each application for farm and agricultural classification with due regard to all relevant evidence. The application shall be considered as approved unless the assessor notifies the applicant in writing prior to May 1 of the year following receipt of the application that it has been denied. The assessor shall state the reason(s) for denying the application.

Except to the extent allowed by law, such as qualification requirements, the county assessor cannot impose conditions upon the approval of classification as farm and agricultural land.

However, the assessor is authorized to require owners of classified land to report data regarding the use of such land, productivity of typical crops, and other information pertinent to its appraisal and continued classification. Such information may include sales receipts, federal income tax returns including schedules documenting farm income, and other related income and expense data.

NEW SECTION

WAC 458-30-230 GRANTING AUTHORITY'S ACTION ON APPLICATION. An application for classification of a parcel(s) of land as open space or timberland shall be filed with the granting authority and processed as follows:

(1) If a comprehensive plan has been enacted, it shall be acted upon in the same manner in which an amendment to that plan is processed; and

(2) If a comprehensive plan has not been enacted, a public hearing on the application shall be conducted. Notice of such hearing shall be announced once by publication in a newspaper of general circulation in the city or county no less than ten days before the hearing. The owner shall be notified of the hearing.

The granting authority shall either approve or disapprove the application within six months after it has been received. Valuation of the land at its current use value shall begin on January 1 of the year following the year the application was filed. However, any application approved on or after July 1 of any year shall cause the land to be listed on the assessment rolls at its current use value on January 1 of the following assessment year.

Any conditions imposed shall be in consideration of the benefits to the general public and shall be for the length of the agreement only.

The granting authority shall, within ten days after receiving the signed agreement, send one copy to the county assessor.

The granting authority shall immediately notify the applicant if the application is disapproved.

The granting authority shall keep a record of each application, agreement, and records relating to each agreement until a notice of withdrawal is received from the assessor.

NEW SECTION

WAC 458-30-235 GRANTING AUTHORITY—CONSIDERATION OF CONSERVATION FACTORS. (1) The granting authority may approve all or part of an application. An applicant may withdraw the application if part of it is rejected. The granting authority may not require the owner of classified timberland to grant an easement.

(2) In determining whether an application for classification as open space land or timberland should be approved, the granting authority shall take cognizance of the benefits to the general welfare of preserving the current use of the land described in the application, and shall consider the following:

(a) The revenue impact that will result from granting the application; and

(b) Whether preservation of the land in its current use will:

(i) Conserve or enhance natural or scenic resources; or

(ii) Protect streams, stream corridors, wetlands, natural shorelines, and aquifers; or

(iii) Protect soil resources and critical wildlife and native plant habitat; or

(iv) Promote conservation principles by example or by offering educational opportunities; or

(v) Enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, nature reservations, sanctuaries, or other open spaces; or

(vi) Enhance recreation opportunities; or

(vii) Preserve historic and archeological sites; or

(viii) Affect any other factors relevant in weighing benefits to the general welfare of preserving its current use.

(3) In addition, the granting authority shall consider:

(a) The existence of any mining claim on the land, and if so, whether it will seriously interfere with the considerations stated in subsection (2) of this section. If the granting authority determines serious interference will occur, it may deny the application in whole, or in part. If a mining claim is obtained after the land is classified, the same determination must be made in deciding whether serious interference will occur.

(b) If an application is filed to classify land in a zoned area, the assessor shall consider the relevant zoning. No application will be approved for the farm and agricultural land classification if the zoning ordinance prohibits agricultural uses.

(c) The area described by the landowner applying for classified status shall meet the minimum acreage requirements along with any applicable gross income as conditions precedent to qualification for the appropriate classification. A parcel enrolled in the farm and agricultural land classification that is twenty acres in area, including a home-site, is exempted from the gross income criteria required of smaller parcels.

(d) Land that is acquired for use as farm and agricultural, open space, or timberland, shall qualify for classification based on its own merits and not in conjunction with an adjacent ownership. A separate

application along with the required filing fee shall be tendered to the appropriate granting authority.

NEW SECTION

WAC 458-30-240 DENIAL OF APPLICATION—RE-COURSE. (1) All denials of an application for classification shall be in writing and shall include the reasons for denial.

(2) The owner shall have the right to appeal any denial of an application for classification.

(3) In the event an application for classification as farm and agricultural land is denied by the county assessor, the applicant may appeal to the county legislative authority within thirty calendar days following the denial.

(4) In the event an application for classification as either open space land or timberland is denied by the granting authority, appeal can be made only if the denial was based on arbitrary and capricious actions. Such appeal shall be made to the superior court of the county where the application was made. The appeal shall be made pursuant to the provisions of chapter 34.04 RCW.

NEW SECTION

WAC 458-30-245 AGREEMENT. Once an application for classification as open space or timber land has been approved by the granting authority, said authority shall prepare an open space taxation agreement. The agreement shall state all conditions attached to the approval.

(1) Upon approval, in whole or in part, the granting authority shall, within five days, send the approved agreement to the applicant for their signature.

(2) The applicant may accept or reject the agreement. If accepted, the agreement shall be signed and returned to the granting authority within twenty-five days following delivery.

(a) All parties having a fee interest in the land, or all vendees in a real estate contract shall sign the open space taxation agreement.

(b) If there are community property interests involved, the agreement shall be signed by both spouses.

(3) The granting authority shall assume the agreement has been rejected by the applicant if it is not signed and returned to them within twenty-five days after mailing, unless the owner(s) is prevented from returning it by events beyond their control.

(4) The agreement shall be effective commencing upon the date the granting authority receives the signed agreement from the property owner. Classification shall begin on January 1 of the year following the year the application was filed by the property owner.

Upon classification as either open space or timber land, the land shall remain so classified, and shall not be applied to any other use except for a transfer between the farm and agricultural and timberland classifications for at least ten years from the date of classification, and shall continue as such until and unless withdrawn after a notice or request for withdrawal is made by the owner.

The agreement shall run with the land described in the agreement and the conditions and requirements shall be binding upon the heirs, successors, and assignees of the parties thereto.

NEW SECTION

WAC 458-30-250 ASSESSOR TO FORWARD AGREEMENT AND OTHER NOTICES. The county assessor shall, within ten working days after receiving an agreement from the granting authority, or approving an application for the farm and agricultural land classification, forward such documents to the county recording authority for recording as appropriate. Upon recording, the recording authority shall return the agreement or notification of approval to the assessor.

The recording authority shall also record all notices of withdrawal or of breach that are received from the assessor.

NEW SECTION

WAC 458-30-255 ASSESSOR TO NOTE CLASSIFICATION ON ASSESSMENT AND TAX ROLL. The county assessor shall, as to any classified land, make a notation each year on the assessment list and the tax roll showing the assessed value of such land for current use, and the assessed value of such land as though it were not classified. The assessor shall also file notice of these values with the county financial authority who shall record such notice in the place or manner provided for recording delinquent taxes.

NEW SECTION

WAC 458-30-260 TRANSFERS OF CLASSIFIED LAND. When the ownership of classified land is transferred to a new owner who intends to continue classification, such notation shall be made by the latter on the real estate excise tax affidavit required by chapter 82-45 RCW, and chapter 458-61 WAC.

(1) Open space land classification. Signature on the affidavit is required to continue classification. The county assessor will request information pursuant to WAC 458-30-225 to verify if the land qualifies for continued classification.

(2) Timberland classification. Signature on the affidavit is required to continue classification. The county assessor will request information pursuant to WAC 458-30-225 to verify if the land qualifies for continued classification.

(3) Farm and agricultural land classification.

(a) In a transfer involving twenty acres or more, the new owner will be required to:

(i) Sign the notice of continuance on the affidavit; and

(ii) Provide the county assessor with a statement of intent to continue commercial agricultural operations.

The assessor will then determine if the land qualifies for continued classification.

(b) In a transfer involving less than twenty acres, the new owner will be required to:

(i) Sign the notice of continuance on the affidavit; and

(ii) Provide the county assessor with a statement of intent to continue commercial agricultural operations; and

(iii) Provide gross income data for three of the past five years. Said data shall be consistent with the income and acreage requirements stated in RCW 84.34.020 (2)(b) or (c) as appropriate, and WAC 458-30-205 (2)(b) or (c) as appropriate.

The assessor will then determine if the land qualifies for continued classification.

(c) In a transfer involving a land segregation, the owner of the newly created parcel(s) shall comply with the requirements of (a) or (b) of this subsection before the assessor determines if the land qualifies for continued classification.

NEW SECTION

WAC 458-30-265 CHANGE OF TIMBER LAND CLASSIFICATION TO CHAPTER 84.33 RCW. Land presently classified under the provisions of chapter 84.34 RCW as timber land, meeting the definition of forest land under the provisions of chapter 84.33 RCW, shall be designated as such by the county assessor, provided the owner files a request for such change with the assessor.

The change of classification shall be made without additional tax, penalty, or other requirements of chapter 84.34 RCW. After this change in classification, the land shall be fully subject to the provisions of chapter 84.33 RCW.

NEW SECTION

WAC 458-30-270 RECLASSIFICATION OF FARM AND AGRICULTURAL LAND UNDER 1973 AMENDATORY ACT. Land classified under the provisions of chapter 84.34 RCW prior to July 16, 1973, meeting the definition of farm and agricultural land pursuant to RCW 84.34.020(2) as amended by chapter 212, Laws of 1973 1st ex. sess., shall, upon request for such change made by the owner to the county assessor, be reclassified as such by the assessor. Such change shall be made without additional tax, penalty, or other requirements. After such reclassification, the land shall be fully subject to the provisions of chapter 84.34 RCW, as now or hereafter amended.

The assessor shall, on or before March 1, 1974, notify each owner of land classified under the provisions of chapter 84.34 RCW of this provision for reclassification and to send the necessary forms for reclassification.

NEW SECTION

WAC 458-30-275 CHANGING USE OF LAND—APPEAL. If classified land is put to a use violating the provisions of chapter 84.34 RCW, and in this chapter, the additional taxes, interest, and penalties as provided for in RCW 84.34.080 shall be imposed. The owner may contest the determination of a breach of the agreement by appeal to the county board of equalization at its next July meeting.

The owner of classified lands shall have the right of appeal as provided in RCW 84.48.010 on both the current use and potential use value assessments determined by the county assessor.

NEW SECTION

WAC 458-30-280 WITHDRAWAL FROM CLASSIFICATION. Land classified as open space, farm and agricultural land, or timber land, under RCW 84.34.020 (1), (2) or (3), shall remain under such classification and shall not be applied to any other use, except for a transfer between the farm and agricultural and timberland classifications, for at least ten years from the effective date of classification.

After the land has been classified for no less than eight years, the owner may file an irrevocable notice of request for withdrawal with the county assessor. The request for withdrawal may include all or a portion of the land. If part of the land is withdrawn according to the procedure described in this section, the remaining portion must satisfy the requirements contained in RCW 84.34.020 (1), (2) or (3) and WAC 458-30-205 (1), (2) or (3), as appropriate, to remain in classified status.

Upon receiving the request for withdrawal, the assessor shall, within seven days, transmit one copy of the request to the city or county legislative authority.

After twenty-four months have elapsed following the date of receipt of the request to withdraw from classification, the assessor shall proceed to withdraw the land from classified status and value said land without regard to its previous classification.

The assessor shall, within thirty days after effecting the withdrawal, notify the owner in writing, that the land has been removed from classification.

NEW SECTION

WAC 458-30-285 ADDITIONAL TAX—WITHDRAWAL. Land that is withdrawn from classification pursuant to WAC 458-30-280, shall be subject to an additional tax that is equal to the sum of:

(1) The difference between the tax that was levied while classified, and the tax that would have been levied for the last seven years had the land not been classified, in addition to the portion of the tax year when the withdrawal is effected; plus

(2) Interest at the statutory rate charged on delinquent property taxes specified in RCW 84.56.020 from April 30 of the year the tax would have been paid without penalty to the date the additional tax is paid.

NEW SECTION

WAC 458-30-290 REMOVAL OF CLASSIFICATION. Land that is classified as open space, farm and agricultural, or timberland, shall retain said classification and be valued pursuant to RCW 84.34.060 or 84.34.065, as applicable, and this chapter, until all or a portion of such land is removed from classification by the assessor upon occurrence of any of the following:

(1) Receipt of notice from the owner to remove all or a portion of such classification.

(2) Sale or transfer to an ownership making all or a portion of such land exempt from ad valorem taxation.

(3) Sale or transfer of all or a portion of such land to a new owner, unless the latter signs the notice of continuance on the real estate excise tax affidavit to remain in classified status. The assessor shall not approve the notice unless the new owner signs such notice of continuance. In a transfer involving part of the classified land, the assessor's approval shall be based upon documentation of the income criteria, as applicable, for the original parcel(s) prior to the sale. Should the seller and/or new owner refuse or fail to provide this information, or if the notice of continuance on the affidavit is not signed, the assessor shall remove the land from classified status, and all additional taxes, calculated according to RCW 84.34.108(3), shall immediately become due and payable by the seller or transferor. The county recording authority shall not accept an instrument of conveyance for filing or recording involving classified land unless the new owner has signed the notice of continuance, or the additional tax and penalty has been paid. The seller, transferor, or new owner may appeal the new assessed value, to the county board of equalization.

(4) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that all or a portion of such land is no longer primarily devoted to and used for the purposes under which it was granted classification.

(a) The owner of classified land who changes the use of such land without filing a notice of request for withdrawal, or as a result of any of the conditions stated in RCW 84.34.108(5) or WAC 458-30-295(1), shall notify the county assessor within sixty days after making such change.

(b) In the event a portion of classified land is changed to a use that results in disqualification from classification, the remainder will also be removed if it does not satisfy the requirements contained in RCW 84.34.020 (1), (2), or (3) and WAC 458-30-205 (1), (2), or (3), as appropriate, under which the original parcel(s) was classified.

(c) Should the owner fail to comply with a written request for supporting information regarding continued classification as contained in WAC 458-30-225, and sent by certified mail to the address specified for notices given pursuant to RCW 84.40.045, the assessor may, after ninety days, remove the land from classified status and apply the penalty provided in RCW 84.34.080.

(5) Within thirty days after removal of all or a portion of such land from classification, the county assessor shall notify the owner in writing, setting forth the reasons for such removal. The seller, transferor, or owner may appeal such removal to the next regular July meeting of the county board of equalization. Unless the removal is reversed on appeal, the assessor shall revalue the affected land with reference to full market value on the date of removal from classification. The assessed valuation before and after removal from classification shall be listed and taxes shall be allocated according to that part of the year to which each assessed valuation applies.

NEW SECTION

WAC 458-30-295 ADDITIONAL TAX—REMOVAL. (1) In the event land is removed from classified status, an additional tax shall be collected. Such additional tax shall be equal to the sum of:

(a) The difference between the tax that was levied while classified, and the tax that would have been levied for the last seven years, or less if classified for a shorter period, had the land not been classified; plus

(b) Interest at the statutory rate charged on delinquent property taxes specified in RCW 84.56.020 from April 30 of the year the tax would have been paid without penalty to the date the additional tax is paid; plus

(c) A penalty of twenty percent added to the total amount computed in (a) and (b) of this subsection.

(2) There shall be no additional tax imposed upon removal of land from classification if such removal resulted solely from one or more of the following:

(a) Transfer to a governmental entity in exchange for other land located within the state of Washington; or

(b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power; or

(c) Sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in such land. An inheritance is not a transfer under the provisions of chapter 84.34 RCW. If the owner of a fifty percent interest inherits the other fifty percent, the land will remain classified and cannot be removed without paying the additional tax unless it is sold within two years. If the owner purchases the decedent's fifty percent interest within two years, the land may be removed without payment of the additional tax and penalty and without signing the notice of continuance. If the notice of continuance is signed, classification will continue as if no transfer occurred; or

(d) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than by virtue of the act of the landowner changing the use of such property; or

(e) Official action by an agency of the state of Washington or by the county or city where the land is located disallowing the present use of such land; or

(f) Transfer to a church and such land would qualify for property tax exemption pursuant to RCW 84.36.020. These conditions shall apply to the affected land only and shall not relieve any portion not so affected from the potential tax liability; or

(g) Acquisition of property interests by public agencies or private organizations qualified under RCW 84.34.210 and 64.04.130 for the purposes specified in those statutes. However, when these interests are not used as specified, the additional tax shall be imposed.

NEW SECTION

WAC 458-30-300 ADDITIONAL TAX—DATE DUE. As soon as possible, the county assessor shall compute the amount of additional

tax due, and the county financial authority shall, by mail, notify the owner of that amount and the date when payment is due. The additional tax shall be paid to the financial authority within thirty days after the owner is notified of the amount that is due. The additional tax and penalty together with applicable interest thereon, shall attach at the time such land is removed from classification, and shall as of said date, become a lien on such land and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which such land may become charged or liable. Such lien may be foreclosed upon expiration of the same period after delinquency and in same manner provided by law, for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050 as now or as amended. Any additional tax unpaid on its due date shall thereon become delinquent. Starting with the date of delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad valorem property taxes.

NEW SECTION

WAC 458-30-305 COUNTY FINANCIAL AUTHORITY. (1) The county financial authority shall, upon receipt of the notice of the current use value and the true and fair value from the county assessor, record each in the place and manner provided for recording delinquent taxes.

(2) Upon receipt of a notice of withdrawal from the assessor, the financial authority shall levy and collect an additional tax pursuant to WAC 458-30-285.

(3) Upon receipt of a removal of classification notice, the financial authority shall levy and collect an additional tax and penalty pursuant to WAC 458-30-295.

(4) The financial authority shall levy the amount of tax to which the land is subject and notify the owners of the amount due and due date. All additional taxes, interest and penalties shall be due within thirty days after the owner is notified of the amount due.

(5) Upon collection of the additional tax, interest and penalty by the financial authority, said amount shall be distributed in the same manner that current taxes applicable to the subject land are distributed. The financial authority shall consider overdue accounts in the same manner as delinquent taxes.

NEW SECTION

WAC 458-30-310 ASSESSOR TO DETERMINE VALUE. The county assessor shall determine the current use value of open space, farm and agricultural, and timber land classified pursuant to this act according to the procedures outlined in this chapter. In determining their value, the assessor shall consider only the current use of such land and shall not consider any potential use.

Open space land, with no current use, shall have an assessed valuation no less than what would result if it was assessed for agricultural uses, except for those lands valued under the rating system adopted pursuant to RCW 84.34.055.

Timber land shall be valued according to chapter 84.33 RCW.

NEW SECTION

WAC 458-30-315 VALUATION PROCEDURES. The county assessor shall use all available information to determine the productive capacity of agricultural land. Consideration shall be given to actual production within an area, averaged over the immediate past five years. Farm production information and other related data shall be available to the assessor as provided in RCW 84.34.121 and this chapter. Reliable statistical sources may also be used. A soil capability analysis may be considered in determining the productive or earning capacity of the land.

In determining the current use value of farm and agricultural land, the assessor shall use the capitalization of income method described in the following subsections of this section.

(1) The net cash rental to be capitalized shall be determined as follows:

(a) The assessor shall use leases of farm land paid on an annual basis, in cash or its equivalent. The land must have been available for lease for a period of at least three years to any reliable person without unreasonable restrictions on its use for production of agricultural crops. If leases do not meet these requirements, they will not be used. The lease payments shall be averaged as follows:

(i) Each annual lease payment (or rent) shall be averaged for the typical crops within that area; and

(ii) The typical cash rental for each year shall be averaged over the immediate past five years. A deduction shall be allowed for the customary costs that are paid by the land owner. All costs and expenses shall be averaged over the immediate past five years. If the land is irrigated by a sprinkler system, an amount for the irrigation equipment shall be deducted from the gross cash rent to determine the net rent for the land only.

(b) Should there be an insufficient number of leases available to adequately determine net cash rental, it shall be established by determining:

(i) The landlord's share of the cash value of typical or usual crops grown on land of similar quality. The cash value shall include government subsidies if they are based on the productive capacity of the land. The acreage kept out of production because of these subsidies shall be included in the total acreage valued by capitalization of the income;

(ii) The landlord's share of the standard cost of production will be determined and deducted from their share of the cash value established pursuant to this subsection.

The resulting amount shall be averaged over the immediate past five years.

(c) When the land being valued is not in use for commercial agricultural purposes, or where the available information is insufficient to determine an agricultural income, the assessor shall compute a reasonable amount to be capitalized as income, based on the land's estimated productive capacity.

(2) The capitalization rate to be used in valuing land shall be the sum of the following:

(a) An interest component to be determined by the department and certified to the county assessor on or before January 1st of each year, and shall be comparable to interest rates charged on long-term loans secured by mortgages on farms or agricultural lands averaged over the last five years; plus

(b) A component for property taxes that shall be determined by:

(i) Dividing the total taxes levied within the county for the year preceding the assessment by the total assessed value of the county; and

(ii) Multiplying the quotient by one hundred percent.

(3) The value of the agricultural land shall be the net cash rental of the land divided by the capitalization rate determined in subsection (2) of this section.

(4) The department's determination of the interest rate established in subsection (2)(a) of this section may be appealed to the state board of tax appeals by any owner of farm or agricultural land or the assessor of any county containing farm and agricultural land.

(5) Land presently used as a residential building site shall be valued at its true and fair value as a homesite in accordance with WAC 458-12-301. However, land that migratory farm labor accommodations, bunkhouses, storeyards, barns, machine sheds, and similar type structures are located upon shall not be considered as a residential building site.

NEW SECTION

WAC 458-30-320 VALUATION CYCLE. In determining the true and fair value and the current use value of classified lands, the county assessor shall follow a defined revaluation cycle that adheres to the requirements contained in WAC 458-12-335 through 458-12-339, as now or hereafter amended. The cycle used shall be the same as that used for other real property in the county and shall be in an orderly manner, pursuant to a regular plan, and in a manner that is not arbitrary, capricious, or intentionally discriminatory. (See *Sator v. Dept. of Revenue* 89 Wn.2d 338 (1977).)

The assessor shall notify the owner of classified lands of any change in the true and fair value and/or current use value in the same manner as prescribed in RCW 84.40.045.

NEW SECTION

WAC 458-30-325 ADVISORY COMMITTEE. The county legislative authority may appoint a five-member advisory committee representing the active farming community to advise the county assessor in implementing assessment guidelines as established by the department for "farm and agricultural land" and, where appropriate, for "open space" and "timber land." The committee shall elect officers and adopt operating procedures. All meetings and records shall be open to the public pursuant to chapter 42.17 RCW.

Upon appointment, each member of the advisory committee shall serve a one-year term. Members may be removed from the advisory committee by majority vote of the county legislative authority.

The advisory committee shall not give advice regarding the valuation or assessment of specific pieces of property. However, they may supply the assessor with advice on typical crops, land quality, and net cash rental assessments to assist in determining appropriate values.

Failure of the county legislative authority to appoint an advisory committee shall not invalidate the listing of property on the assessment or the tax rolls.

NEW SECTION

WAC 458-30-330 OPEN SPACE PLAN AND PUBLIC BENEFIT RATING SYSTEM. The county legislative authority may direct the county planning commission to set open space priorities and adopt, following a public hearing, an open space plan and public benefit rating system for the county. The plan shall include but not be limited to the following:

- (1) Criteria to determine land eligibility;
- (2) Process for establishing a rating system; and
- (3) An assessor-developed valuation schedule that shall be a percentage of market value based on the rating system.

NEW SECTION

WAC 458-30-335 PUBLIC BENEFIT RATING SYSTEM—DEVELOPMENT. The open space plan and public benefit rating system shall rate property applying for, or presently classified as "open space", according to the provisions of RCW 84.34.020 (1)(b) and consider the criteria contained in RCW 84.34.037 that the granting authority may take notice of when acting on an application to preserve the current use of that land.

In developing the open space plan, the county planning commission shall take all reasonable steps to determine open space priorities, or use recognized sources for the same purpose, or both. Recognized sources include, but are not limited to; the natural heritage data base, state office of historic preservation, interagency committee for outdoor recreation inventory of dry accretion beach and shoreline features, governmental historic place registers, shorelines master program, or studies by the parks and recreation commission, and the departments of fisheries, natural resources, and wildlife.

NEW SECTION

WAC 458-30-340 PUBLIC BENEFIT RATING SYSTEM—LOSS OF QUALIFICATION. Upon adoption of the open space plan, all owners of land classified as open space will be notified of their new assessed value. Classified property that no longer qualifies will not be removed, but will be prorated according to the rating system. These lands may be removed from classification upon request of the owner without application of the additional tax, within thirty days after receiving notification of the new value. Removal of a portion of a parcel of land included in the rating system will not be permitted.

NEW SECTION

WAC 458-30-345 AGREEMENT MAY BE ABROGATED BY LEGISLATURE. The agreement to tax by use shall not be considered to be a contract and can be abrogated at any time by the legislature, in which event no additional tax or penalty shall be imposed.

NEW SECTION

WAC 275-30-030 PAROLE SUSPENSION, ARREST, AND DETENTION. (1) When a juvenile parole officer believes a juvenile parolee has violated a condition of parole, the officer may issue an order of parole suspension, arrest, and detention if:

- (a) The juvenile parolee poses an imminent danger to himself or herself or other persons; or

(3) A juvenile parolee held in detention for an alleged violation of parole conditions is entitled, within twenty-four hours (excluding Saturdays, Sundays, and holidays) of being placed in detention, to an informal hearing to determine whether there is probable cause to believe a parole violation occurred and whether continued detention pending a parole revocation hearing is necessary. Immediately following the hearing, the parole supervisor or designee shall issue a decision, with reasons, on department forms, either releasing the juvenile parolee or authorizing continued detention. NEW SECTION

WAC 275-30-060 PAROLE REVOCATION HEARING. (1) Unless waived by the juvenile parolee, a parole revocation hearing shall be held on every parole revocation petition for the purpose of determining whether the alleged parole violation occurred. Otherwise the hearing shall be held no sooner than fourteen days after service of the petition.

(2) At the parole revocation hearing, the juvenile may waive his or her right to be represented by an attorney. A juvenile waiving the right to an attorney may either contest or agree to the parole revocation.

(3) Parole revocation hearings shall be conducted by an administrative law judge in accordance with chapter 10-08 WAC. If the parole revocation petition is granted, the administrative law judge shall order the period of confinement requested in the petition.

(4) The administrative law judge shall issue an oral decision immediately following the parole revocation hearing. Within forty-eight hours of the hearing, the administrative law judge shall issue a written decision. The decision shall constitute a final administrative decision. THE WASHINGTON STATE REGISTER, published pursuant to RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards which have been filed in the code reviser's office prior to the pertinent closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper volume of the Register.

The code reviser's office has established an annual subscription price of \$150 for the Register, and single copies will cost \$7. Sales tax of 7.8% now applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$161.70 (\$150 for state agencies) payable to the code reviser's office.
