## STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

### 1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

### 2. PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.05 RCW) may be distinguished by the size and style of type in which they appear.

- (a) **Proposed rules** are those rules pending permanent adoption by an agency and are set forth in eight point type.
- (b) **Adopted rules** have been permanently adopted and are set forth in ten point type.
- (c) **Emergency rules** have been adopted on an emergency basis and are set forth in ten point oblique type.

### 3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.05.395 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
  - (i) underlined material is new material;
  - (ii) deleted material is (~~lined out and bracketed between double parentheses~~);
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

### 4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

### 5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules normally take effect thirty days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed or advanced and such an effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser's office unless a later date is provided by the agency. They remain effective for a maximum of one-hundred-twenty days from the date of filing.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

### 6. EDITORIAL CORRECTIONS

Material inserted by the code reviser's office for purposes of clarification or correction or to show the source or history of a document is enclosed in [brackets].

### 7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

Reviser's note: RCW 34.05.395 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

**NEW SECTION**

WAC 332-22-160 PERFORMANCE SECURITY. The Department may, at its option, require the lessee to file a cash bond, savings account assignment, approved corporate surety bond or other form of security satisfactory to the Department in an amount sufficient to guarantee performance of the terms and conditions of the lease or contract. Such security, if required, shall be submitted prior to issuance of the lease. The Department may reduce or increase the amount of the security as a result of operational changes requiring different levels of performance. The Department may allow a lessee to file a single security device acceptable to the state, in an amount set by the Department covering all of the lessee's state leases.

**NEW SECTION**

WAC 332-22-170 GEOTHERMAL RESOURCES LEASE—AREA. Leases to explore for and develop geothermal resources shall not exceed 640 acres or one entire government-surveyed section. Leases will be issued at the sole discretion of the Department and only on land where the state controls the surface rights and the agency managing that land authorizes this use.

**NEW SECTION**

WAC 332-22-180 GEOTHERMAL RESOURCES LEASE—PLAN OF DEVELOPMENT. An applicant for a geothermal resources lease shall submit a plan of development to the Department for approval with the lease application and every five years thereafter. The plan of development shall describe all activities, improvements, or other actions that will contribute to the exploration, development, or production of the property for the next five years, including scheduled dates for completion.

One hundred and twenty days before each five-year anniversary date, the lessee shall deliver to the Department, for its approval, a detailed plan of development

which incorporates the results of operations from the previous five years.

#### NEW SECTION

WAC 332-22-190 GEOTHERMAL RESOURCES LEASE—TERM. Geothermal resources leases shall be for a term of up to 55 years, subject every five years to approval by the Department of the current plan of development. If the lessee fails to substantially comply with the plan of development, as determined by the Department, the Department may elect to terminate the lease.

#### NEW SECTION

WAC 332-22-200 GEOTHERMAL RESOURCES LEASE—ANNUAL RENTAL. The annual rental shall be set by the Board of Natural Resources, but for years one through five the annual rental shall be not less than \$1.25 per acre or \$250 whichever is greater, and for years six through ten, shall be not less than \$2.50 per acre or \$500 whichever is greater.

#### NEW SECTION

WAC 332-22-210 GEOTHERMAL RESOURCES LEASE—PRODUCTION ROYALTY. Production royalty payments on geothermal resources leases shall be payable to the Department for geothermal resources produced from the lease premises. The schedule of production royalty payments and method of calculating fair market value at either the well or point of shipment shall be detailed in the lease and plan of development. PROVIDED THAT production royalty rates shall be not less than the cumulative amount of;

(a) ten percent of the gross proceeds received from the sale of such geothermal resources which are derived, generated or manufactured from the premises sufficient for commercial sales, and

(b) ten percent of the fair market value thereof of products utilized but not sold, and

(c) ten percent of the gross proceeds for all by-products derived from the leasehold estate.

The Department reserves the right to reassess the production royalty rate at year twenty of the lease and every ten years thereafter, and adjust the rate to the then fair market value, however in no case shall the adjusted production royalty be less than the 10 (ten) percent specified in this section.

Lessee shall have the right to commingle, for the purpose of utilizing, selling or processing the products produced from the leasehold estate with products produced from other land, provided that the lessee shall efficiently meter or gauge the production from the leasehold estate in a manner approved by the state, in order to compute royalty payable on the products or by-products produced from the leasehold estate. The lessee shall furnish a sworn statement showing production for accounting periods required by the Department and pay any royalties due.

#### NEW SECTION

WAC 332-22-220 GEOTHERMAL RESOURCES LEASE—MINIMUM ANNUAL ROYALTY. At the beginning of lease year eleven, or at the beginning of the year in which production starts, whichever occurs first, a minimum annual royalty of not less than ten dollars per acre per year, or \$2,000, whichever is greater, shall be paid to the Department, and shall replace the annual rental. Minimum annual royalty payments shall be credited against production royalties for that year. Minimum royalties paid during the term of the lease are nonrefundable and nontransferable.

The Department reserves the right to reassess the minimum annual royalty rate at year twenty of the lease and every ten years thereafter, and adjust the rate to the then fair market value, however in no case shall the adjusted minimum annual royalty be less than the ten dollars per acre, or \$2,000 specified in this section.

#### NEW SECTION

WAC 332-22-230 GEOTHERMAL RESOURCES LEASE—UNIT PLANS. (1) The holder(s) of any geothermal resources lease may apply to the Department to consolidate their leaseholding for geothermal resources with other entities, including lands not owned by the state, to collectively adopt and operate as a unit under a unit plan. Such consolidation will not serve to extend the term of the lease and all participants must agree to continue payment of royalties provided in the lease through the life of the unit and any extensions of the plan.

(2) When separate geothermal resource rights under lease cannot be developed and operated independently in accordance with an approved well-spacing or well-development program, the Commissioner or the Commissioner's delegate may require lessees to enter into a unit plan or drilling agreement with other entities when it is in the best interest of the state.

(3) As a condition for authorization to be part of a unit plan, the Commissioner or the Commissioner's delegate may alter the terms and conditions of the lease(s) so involved when it is in the best interest of the state to do so, and such authorization may be further conditioned upon, but not limited to the following:

(a) Department access to reports and documents it deems necessary, at the sole discretion of the Department, to determine if consolidation of the proposed unit plan is in the best interest of the state.

(b) Leaseholds which are only partially included in the unit shall be segregated into separate leases as to the lands committed and not committed as of the effective date of the unitization. The annual rental or minimum annual royalty shall be paid on the leased acreage in the unit independently from other segregated lease areas.

(c) Any apportionment of production or royalties among the separate tracts of land comprising the unit shall include an accounting system, and the Department shall have the right to audit such system to protect the interests of the state.

(d) None of the rights of the state as landholder shall be limited or subordinated.

NEW SECTION

WAC 332-22-240 GEOTHERMAL RESOURCES LEASE—RECORDS. A geothermal resources lessee shall furnish to the lessor copies of all reports required by the Geothermal Resources Act (Chapter 79.76 RCW).

**WSR 92-06-004****EMERGENCY RULES****FOREST PRACTICES BOARD**

[Filed February 20, 1992, 11:49 a.m., effective February 26, 1992]

Date of Adoption: February 11, 1992.

Purpose: Classify those forest practices subject to environmental review under SEPA and SEPA rules.

Citation of Existing Rules Affected by this Order: Amending WAC 222-16-010 and 222-16-050.

Statutory Authority for Adoption: RCW 76.09.040, 76.09.050 and 34.05.350.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: On October 25, 1990, the Snohomish County Superior Court issued a final judgment declaring WAC 222-16-050(1) invalid as it existed on that date. *Snohomish County v. DNR*, No. 89-2-06923-5 (Snohomish Cy. Super. Ct.). On November 14, 1990, the Forest Practices Board adopted an emergency rule to replace the one declared invalid, and adopted a second emergency rule directing the Department of Natural Resources to develop a watershed screening and analysis process (WSR 90-23-041). A revision of that rule was adopted on March 13, 1991, (WSR 91-07-034). On March 15, 1991, the Forest Practices Board filed a request for preproposal comments on permanent rule changes to WAC 222-16-050(1) (WSR 91-07-030). The board established three task forces to develop recommendations for new permanent rule language relating to pesticide use, aesthetics, and wildlife. At its June 25, 1991, meeting, the Forest Practices Board adopted new emergency rules incorporating recommendations of the task forces (WSR 91-14-102). A change to the emergency rule on watershed analysis was adopted at a Forest Practices Board meeting on August 15, 1991. The task forces have now completed a change proposal for WAC 222-16-050(1). At its October 9, 1991, meeting, the Forest Practices Board: Sent the proposed change to counties and the Departments of Fisheries and Wildlife for review and comment, as required by the Forest Practices Act (RCW 76.09.040), before starting the rule making process required by the Administrative Procedure Act (chapter 34.05 RCW); initiated a public input process to receive comments on preliminary draft rules for cumulative effects and wetlands before completing a rule proposal; and adopted again the emergency rule for WAC 222-16-050(1) as it was

adopted on June 25, 1991. The Forest Practices Board, at a meeting on February 11, 1992, again adopted the emergency rule for WAC 222-16-050(1). At the same meeting the Forest Practices Board sent proposed rule changes for cumulative effects, wetlands, and definition of forest practices subject to review under SEPA and SEPA rules to counties and the Departments of Fisheries and Wildlife for review and comment, as required by the Forest Practices Act (RCW 76.09.940 [76.09.040]).

Effective Date of Rule: February 26, 1992.

Application to conduct forest practices involving the following circumstances requires an environmental checklist in compliance with the State Environmental Policy Act (SEPA), and SEPA guidelines, as they have been determined to have potential for a substantial impact on the environment. It may be determined that additional information or a detailed environmental statement is required before these forest practices may be conducted.

(4) Financial assurance for decommissioning shall be provided by one or more of the following methods:

(a) Prepayment. Prepayment is the deposit of sufficient funds to pay decommissioning costs. Funds shall be deposited prior to the start of operation into an account segregated from licensee assets and outside the licensee's administrative control. Prepayment may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities.

(b) A surety method, insurance, or other guarantee method. These methods guarantee that decommissioning costs will be paid should the licensee default. A surety method may be in the form of a surety bond, letter of credit, or line of credit. Any surety method or insurance used to provide financial assurance for decommissioning must contain the following conditions:

(i) The surety method or insurance shall be open-ended or, if written for a specified term, such as five years, shall be renewed automatically unless ninety days or more prior to the renewal date, the issuer notifies the department, the beneficiary, and the licensee of its intention not to renew. The surety method or insurance shall also provide that the full face amount be paid to the beneficiary automatically prior to the expiration without proof of forfeiture if the licensee fails to provide a replacement acceptable to the department within thirty days after receipt of notification of cancellation.

(ii) The surety method or insurance shall be payable to a trust established for decommissioning costs. The trustee and trust shall be acceptable to the department. Acceptable trustees include an appropriate state or federal government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a federal or state agency.

(iii) The surety method or insurance must remain in effect until the department has terminated the license.

(c) An external sinking fund in which deposits are made at least annually, coupled with a surety method or

insurance, the value of which may decrease by the amount being accumulated in the sinking fund. An external sinking fund is a fund established and maintained by setting aside funds periodically in an account segregated from licensee assets and outside the licensee's administrative control. The total amount of funds in the external sinking fund shall be sufficient to pay decommissioning costs at the time termination of operation is expected. An external sinking fund may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities. The surety or insurance provisions shall be as stated in subsection (4)(b) of this section.

(d) In the case of state or local government licensees, a statement of intent containing a cost estimate for decommissioning and indicating that funds for decommissioning will be obtained when necessary.

(e) Other methods of financial assurance as approved by the department. The department may approve other financial mechanisms submitted by the applicant or licensee provided the alternate method meets, at a minimum, the requirements of 10 C.F.R. 30.35 and associated U.S. Nuclear Regulatory Commission guidance.

(5)(a) The department shall review each decommissioning funding plan prior to license issuance and prior to license renewal.

(b) The applicant or licensee shall incorporate department comments into its cost estimate and shall revise its financial surety accordingly.

(c) Applicants shall obtain the appropriate financial assurance as approved by the department prior to receipt of licensed material. The department may issue a new license if the applicant agrees to comply with the decommissioning funding plan as approved.

(d) Holders of licenses issued on or before the effective date of this rule shall submit a decommissioning funding plan to the department by April 1, 1993. Licensees shall implement the financial assurance requirements within thirty days of receiving department approval of the decommissioning funding plan. Licensees shall submit copies of the financial surety within thirty days of securing the surety and annually thereafter.

(6) Each person licensed under this chapter shall keep records of information important to the safe and effective decommissioning of the facility in an identified location until the license is terminated by the department. If records of relevant information are kept for other purposes, reference to these records and their locations may be used. Information the department considers important to decommissioning consists of:

(a) Records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage into porous materials such as concrete. These records shall include any known information on identification of involved nuclides, quantities, forms, and concentrations.

(b) As-built drawings and modifications of structures and equipment in restricted areas where radioactive materials are used and/or stored, and of locations of possible inaccessible contamination such as buried pipes which may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations.

(c) Records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used.

- (2) Counties or incorporated cities in the order of their applications.
- (3) Federal agencies in the order of their applications.
- (4) All other applicants in the order of their applications, giving preference, however, to the holder of an existing permit for renewal thereof. In the event the department has initiated proceedings for removal of an existing sign situated on a legal site, the department will not accept new applications until such proceedings are concluded. All applications received during the department's normal office hours during the same day shall be construed as having been received simultaneously. In the case of a tie between applicants, and upon notification thereof by the department, the department shall determine by lot which shall receive the permit.

**AMENDATORY SECTION** (Amending Order 116, filed 10/20/88)

WAC 468-66-140 PERMITS. (1) No signs except Type 1, Type 2, or Type 3 signs shall be erected or maintained adjacent to interstate system, primary system, or scenic system highways without a permit issued by the department of transportation. Permits for erection and maintenance of signs adjacent to the interstate system, primary system, or scenic system will be issued by the department of transportation in accordance with this chapter.

(2) Applications for permits (except for Type 8 signs) will be accepted only at the Department of Transportation Headquarters Office,

Olympia, Washington. Applications transmitted by mail shall be effective from date of receipt rather than of mailing.

(3) Application forms shall contain:

(a) The name and address of the owner of the sign;

(b) A statement and the signature of the owner or occupant of the land on which the sign is to be erected or maintained indicating that he has consented thereto;

(c) A statement of the precise location where the sign is to be erected or maintained;

(d) A statement of the proposed size and shape of the sign. An application for a Type 5 sign to be erected along the interstate system shall contain a description of the copy to be placed on the sign;

(e) Such other information as may be required by the department;

(f) For Type 8 signs, application forms must be submitted to the appropriate department of transportation district office and submittals must include, in addition to (a) through (e) of this subsection, an exact description of the location of the temporary agricultural business activity, a description of the proposed sign copy, identification of the products sold, expected weeks/months of sales, and assigned tax number. After approval of the application by the transportation district office, the sign may be erected at the beginning of the sale season and must be removed at the end of the sale season. Approved applications shall be valid for five consecutive years from the date of application approval. A new application must be submitted and approved prior to erection of a sign at a location where the five-year validation has expired.

For any Type 8 sign not in compliance with this chapter, the department of transportation shall request the attorney general on its behalf to institute legal proceedings to cause such sign to be removed as an illegal sign without payment of compensation.

Subsections (5) through (10) of this section do not apply to Type 8 signs.

(4) Applications shall be accompanied by a fee of ten dollars for each sign.

(5) Permits shall be for the calendar year and shall be renewed annually upon payment of said fee for the new year without the filing of a new application (~~except as provided in WAC 468-66-090~~). Fees shall not be prorated for fractions of the year. (~~Any moneys paid to the department of transportation for a sign permit shall be credited first to the payment of any annual permit or renewal fee for such sign due for any prior year. The department shall not accept payment for the current year renewal fee until all due and unpaid permit and renewal fees for prior years have been paid.~~)

(6) Prior to December 1 of each year the department of transportation shall notify in writing the owner of every sign for which a permit (~~is required~~) has been issued under RCW 47.42.120 and this section (~~but for which no sign permit was obtained or renewed for the then current calendar year~~), that (~~all unpaid permit and renewal fees for such sign and~~) the renewal fee for such sign due in the calendar year to commence on the following January 1 shall be due and payable not later than the following February 1. The notice shall further state that if (~~the~~) such fee(~~s have~~) has not been paid by February 1, legal proceedings will be (~~instituted~~) initiated to cause removal of such sign as an illegally maintained sign.

(7) Following the notice specified in subsection (6) of this section, if (~~the~~) the due (~~and unpaid permit and~~) renewal fee(~~s are~~) is not received for any permitted sign (~~for which a permit is required~~) by the date specified, the department of transportation shall request the attorney general on its behalf to (~~institute~~) initiate legal proceedings to cause such sign to be removed as an illegal sign without the payment of compensation therefor.

(8) Changes in size, shape, or position of a permitted sign shall be reported to the department of transportation at Olympia at least ten days before a change is to be made. In the case of Type 5 signs permitted along the interstate system, changes in copy shall be reported to the department at Olympia at least ten days before a change is to be made.

(9) A request by the permittee to relocate a permitted sign shall be treated as a request for a new sign permit. A new permit application must be submitted in accordance with chapter 47.42 RCW and this section. In the event a permit is issued and a new sign structure is utilized for relocating the sign, such new structure may be installed only after the entire existing sign structure is removed.

(10) Assignment of permits in good standing shall be effective only upon receipt of assignment by the department of transportation.

(~~the~~) (11) Every permit issued by the department shall be assigned a separate identification number, and it shall be the duty of

each permittee to fasten to each sign a weatherproof label, not larger than six square inches, which shall be furnished by the department and on which shall be plainly visible the said permit number. The permittee shall also place his name in a conspicuous position on the front or back of each sign.

(~~the~~) (12) A permit issued under this chapter does not relieve the permittee from the duty to comply with all local rules, regulations, and ordinances pertaining to signs and sign structures.

[Filed February 24, 1992, 11:51 a.m.]

Continuance of WSR 92-04-035.

Title of Rule: Chapter 388-73 WAC, Child care agencies—Adult family homes minimum licensing/certification requirements.

Purpose: Incorporate recommendations of DSHS provider/DCFS work group which reviewed residential and placement agency requirements. Deletes requirements related to child day care centers and day care home, which are now in separate Washington Administrative Code chapters.

Statutory Authority for Adoption: RCW 74.15.030.

Statute Being Implemented: RCW 74.15.030.

Summary: The more significant change would amend child placing agency requirement to clarify that additional requirements must be met to provide adoption services; adoptive parents are to be given birth parents' health history and statement of fees, and specifies type of financial assistance which agencies may give birth parents. Requires preservice training for foster parents. Alter crisis residential center requirements to be consistent with contracts with crisis residential centers (CRCs). The language of the chapter is also changed to make it more readable and clarify who the actor is in each section and subsection.

Reasons Supporting Proposal: Comply with chapter 74.15 RCW which requires periodic review of the child care agency licensing requirements and to update them consistent with current practice.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Barry Fibel, Children and Family Services, 753-0204.

(2) Additional information. Within thirty days of receipt of a notice of construction, the Authority may require the submission of additional plans, specifications, and such other information as deemed necessary for the review of the proposed new or modified source.

(3) Requirements for nonattainment areas. If the proposed new source is located in an area that is not in attainment for any air contaminant that would be emitted by the source, or if the source is located in an area that is not in attainment for ozone and the source would emit volatile organic compounds, the Authority shall review notice(s) of construction, plans, specifications, and other information associated therewith to determine that:

(a) The new source will be in accord with applicable federal and state rules and regulations, including new source performance standards (NSPS) and national

emissions standards for hazardous air pollutants (NESHAPS).

(b) The new source will use best available control technology (BACT) for emissions control.

(c) If the new source is a major source or the proposed change is a major modification, it will comply with lowest achievable emission rate (LAER) for emissions of the contaminants for which nonattainment has been designated.

(d) If the source is a major source and is located in an area that is not in attainment for carbon monoxide or ozone and the source will emit carbon monoxide or volatile organic compounds, it is required that there be an analysis of alternative sites, sizes, and production processes and environmental control techniques for the proposed new source which demonstrates that benefits of the proposed new source significantly outweigh the environmental and social costs imposed as a result of its location, construction, and modification. This analysis is the responsibility of the applicant, who may use an environmental impact statement prepared under the State Environmental Policy Act or the National Environmental Policy Act as a source of information for this analysis.

(e) The proposed new source will not violate the requirements for reasonable further progress established by the state implementation plan. If the source is a major source or the project is a major modification, the total new actual emissions from all sources existing at the time of application for notice of construction plus proposed allowable emissions for the new source, of the contaminants for which nonattainment has been designated, shall be no greater than the total actual emissions from existing sources, except that (i) the Authority may require that new total actual emissions be reduced to less than existing total actual emissions, as necessary to achieve air quality attainment goals stated in an approved plan of attainment, and except that (ii) the emissions from the proposed new source may be approved without an offsetting reduction from existing sources if an adequate emissions growth allowance is included in an approved plan of attainment. The above requirements must be met by reducing actual emissions from existing sources(s). Arrangements for such offsetting reduction(s) of actual emissions must be made by the owner or operator of the proposed new source. The proposed new source may be constructed only after the issuance of a regulatory order(s) to the proposed new source and to all the source(s) that provide the offset. The said orders shall include new allowable emissions limits for all the affected sources. An emission reduction that is the result of the shutdown or curtailment of an existing emissions unit may be used as an offsetting reduction to satisfy the requirements of this paragraph only by the source that created the reduction.

(f) If the source is a major source or the project is a major modification, the owner or operator shall demonstrate that all major sources owned or operated by such person (or persons under common control with such person) in the state which are subject to emission limitations are in compliance or on a schedule for compliance

with applicable emission limitations and standards under the Federal Clean Air Act.

(4) Requirements for attainment areas. If the proposed new source is located in an area that is in attainment for all contaminants that would be emitted by the source and the source is located in an ozone attainment area if the source would emit volatile organic compounds, the Authority shall review notice(s) of construction, plans, specifications, and other information associated therewith to determine that:

(a) The new source will be in accord with applicable federal and state regulations, including new source performance standards (NSPS) and national emission standards for hazardous air pollutants (NESHAPS).

(b) The project will use Best Available Control Technology (BACT) for emissions control.

(c) If the new source is a major source the source shall meet all the requirements of prevention of significant deterioration regulations under WAC 173-403-080, in Washington and any adjacent state.

(d) The allowable emissions from the proposed new facility will not delay the attainment date for any area not in attainment. This requirement will be considered to met if the impact at any location within a nonattainment area does not exceed the following levels:

| Pollutant       | Annual Average        | 24-Hour Average     | 8-Hour Average        | 3-Hour Average       | 1-Hour Average       |
|-----------------|-----------------------|---------------------|-----------------------|----------------------|----------------------|
| CO              | —                     | —                   | 0.5 mg/m <sup>3</sup> | —                    | .2 mg/m <sup>3</sup> |
| TSP             | 1.0 ug/m <sup>3</sup> | 5 ug/m <sup>3</sup> | —                     | —                    | —                    |
| SO <sub>2</sub> | 1.0 ug/m <sup>3</sup> | 5 ug/m <sup>3</sup> | —                     | 25 ug/m <sup>3</sup> | 30 ug/m <sup>3</sup> |

(e) If the new source is a major source, the source shall undergo an impact analysis for visibility impairment with respect to all areas in Washington and any adjacent state that are mandatory Class 1 areas per 40 CFR 52.21(e). The impact analysis shall consist of the procedures required in WAC 173-403-050.

(5) Preliminary determination. Within thirty days after receipt of all information required, the Authority shall:

(a) Make preliminary determinations on the matter set forth in 400-110 (3) or (4), whichever is applicable; and

(b) Initiate compliance with the provisions of Section 400-140 relating to public notice and public comment, as applicable.

(6) Final determination. If, after review of all information received, including public comment, the Authority finds that all the conditions in Section 400-110 (3) and (4) are satisfied, whichever is applicable, the Authority will issue a regulatory order to approve the notice of construction for the proposed new source or modification.

WAC 284-66-063 BENEFIT STANDARDS FOR POLICIES OR CERTIFICATES ISSUED OR DELIVERED ON OR AFTER JULY 1, 1992. Only Medicare supplement policies or certificates meeting the requirements of this chapter may be delivered or issued for delivery in this state on or after July 1, 1992. After that date, no policy or certificate may be advertised, solicited, delivered, or issued for delivery in this state as a Medicare supplement policy or certificate unless it complies with these benefit standards.

(1) General standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this regulation.

(a) A Medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six months from the effective date of coverage because it involved a preexisting condition. The policy or certificate may not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six months before the effective date of coverage.

(b) No Medicare supplement policy or certificate shall provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than the nonpayment of premium.

(c) Each Medicare supplement policy shall be guaranteed renewable and:

(i) The issuer shall not cancel or nonrenew the policy solely on the ground of health status of the individual; and

(ii) The issuer shall not cancel or nonrenew the policy for any reason other than nonpayment of premium or material misrepresentation.

(iii) If the Medicare supplement policy is terminated by the group policy holder and is not replaced as provided under (c)(v) of this subsection, the issuer shall offer certificateholders an individual Medicare supplement policy which (at the option of the certificateholder) provides for continuation of the benefits contained in the group policy, or provides for such benefits as otherwise meets the requirements of this subsection.

(iv) If an individual is a certificateholder in a group Medicare supplement policy and the individual terminates membership in the group, the issuer shall offer the certificateholder the conversion opportunity described in (c)(iii) of this subsection, or at the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.

(v) If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the succeeding issuer shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.

(d) Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss which commenced while the policy was in force, but the extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits.

(e)(i) A Medicare supplement policy or certificate shall provide that benefits and premiums under the policy or certificate shall be suspended at the request of the policyholder or certificateholder for the period (not to exceed twenty-four months) in which the policyholder or certificateholder has applied for and is determined to be entitled to medical assistance under Title XIX of the Social Security Act, but only if the policyholder or certificateholder notifies the issuer of such policy or certificate within ninety days after the date the individual becomes entitled to such assistance. Upon receipt of timely notice, the issuer shall return to the policyholder or certificateholder that portion of the premium attributable to the period of Medicaid eligibility, subject to adjustment for paid claims.

(ii) If such suspension occurs and if the policyholder or certificateholder loses entitlement to such medical assistance, such policy or certificate shall be automatically reinstated (effective as of the date of termination of such entitlement) as of the termination of such entitlement if the policyholder or certificateholder provides notice of loss of such entitlement within ninety days after the date of such loss and pays the premium attributable to the period, effective as of the date of termination of such entitlement.

(iii) Reinstitution of such coverages;

(A) Shall not provide for any waiting period with respect to treatment of preexisting conditions;

(B) Shall provide for coverage which is substantially equivalent to coverage in effect before the date of such suspension; and

(C) Shall provide for classification of premiums on terms at least as favorable to the policyholder or certificateholder as the premium classification terms that would have applied to the policyholder or certificateholder had the coverage not been suspended.

(2) Standards for basic ("core") benefits common to all benefit plans. Every issuer shall make available a policy or certificate including only the following basic "core" package of benefits to each prospective insured. An issuer may make available to prospective insureds any of the other Medicare supplement insurance benefit plans in addition to the basic "core" package, but not in lieu thereof.

(a) Evidence that all covered services that are subject to restricted network provisions are available and accessible through network providers, including a demonstration that:

(i) Such services can be provided by network providers with reasonable promptness with respect to geographic location, hours of operation and after-hour care. The hours of operation and availability of after-hour care shall reflect usual practice in the local area. Geographic availability shall reflect the usual travel times within the community.

(ii) The number of network providers in the service area is sufficient, with respect to current and expected policyholders, either:

(B) To make appropriate referrals.

(iii) There are written agreements with network providers describing specific responsibilities.

(iv) Emergency care is available twenty-four hours per day and seven days per week.

(v) In the case of covered services that are subject to a restricted network provision and are provided on a pre-paid basis, there are written agreements with network providers prohibiting such providers from billing or otherwise seeking reimbursement from or recourse against any individual insured under a Medicare SELECT policy or certificate. This paragraph shall not apply to supplemental charges or coinsurance amounts as stated in the Medicare SELECT policy or certificate.

(e) A list and description, by specialty, of the network providers.

(f) Copies of the written information proposed to be used by the issuer to comply with subsection (9) of this section.

(g) Any other information requested by the commissioner.

(6)(a) A Medicare SELECT issuer shall file any proposed changes to the plan of operation, except for

changes to the list of network providers, with the commissioner prior to implementing such changes. Such changes shall be considered approved by the commissioner after thirty days unless specifically disapproved.

(b) An updated list of network providers shall be filed with the commissioner at least quarterly.

(7) A Medicare SELECT policy or certificate shall not restrict payment for covered services provided by nonnetwork providers if:

(a) The services are for symptoms requiring emergency care or are immediately required for an unforeseen illness, injury, or a condition; and

(b) It is not reasonable to obtain such services through a network provider.

(8) A Medicare SELECT policy or certificate shall provide payment for full coverage under the policy for covered services that are not available through network providers.

(9) A Medicare SELECT issuer shall make full and fair disclosure in writing of the provisions, restrictions, and limitations of the Medicare SELECT policy or certificate to each applicant. This disclosure shall include at least the following:

(i) Other Medicare supplement policies or certificates offered by the issuer; and

(ii) Other Medicare SELECT policies or certificates.

(b) A description (including address, phone number, and hours of operation) of the network providers, including primary care physicians, specialty physicians, hospitals, and other providers.

(c) A description of the restricted network provisions, including payments for coinsurance and deductibles when providers other than network providers are utilized.

(d) A description of coverage for emergency and urgently needed care and other out-of-service area coverage.

(f) A description of the policyholder's rights to purchase any other Medicare supplement policy or certificate otherwise offered by the issuer.

(g) A description of the Medicare SELECT issuer's quality assurance program and grievance procedure.

(10) Prior to the sale of a Medicare SELECT policy or certificate, a Medicare SELECT issuer shall obtain from the applicant a signed and dated form stating that the applicant has received the information provided pursuant to subsection (9) of this section and that the applicant understands the restrictions of the Medicare SELECT policy or certificate.

(11) A Medicare SELECT issuer shall have and use procedures for hearing complaints and resolving written grievances from the subscribers. Such procedures shall be aimed at mutual agreement for settlement and may include arbitration procedures.

(a) The grievance procedure shall be described in the policy and certificates and in the outline of coverage.

(b) At the time the policy or certificate is issued, the issuer shall provide detailed information to the policyholder describing how a grievance may be registered with the issuer.

(c) Grievances shall be considered in a timely manner and shall be transmitted to appropriate decision-makers who have authority to fully investigate the issue and take corrective action.

(d) If a grievance is found to be valid, corrective action shall be taken promptly.

(e) All concerned parties shall be notified about the results of a grievance.

(f) The issuer shall report no later than each March 31st to the commissioner regarding its grievance procedure. The report shall be in a format prescribed by the commissioner and shall contain the number of grievances filed in the past year and a summary of the subject, nature, and resolution of such grievances.

(12) At the time of initial purchase, a Medicare SELECT issuer shall make available to each applicant for a Medicare SELECT policy or certificate the opportunity to purchase any Medicare supplement policy or certificate otherwise offered by the issuer.

(13)(a) At the request of an individual insured under a Medicare SELECT policy or certificate, a Medicare SELECT issuer shall make available to the individual insured the opportunity to purchase a Medicare supplement policy or certificate offered by the issuer which has comparable or lesser benefits and which does not contain a restricted network provision. The issuer shall make such policies or certificates available without requiring evidence of insurability after the Medicare supplement policy or certificate has been in force for six months.

(b) For the purposes of this subsection, a Medicare supplement policy or certificate will be considered to have comparable or lesser benefits unless it contains one or more significant benefits not included in the Medicare SELECT policy or certificate being replaced. For the purposes of this paragraph, a significant benefit means coverage for the Medicare Part A deductible, coverage for prescription drugs, coverage for at-home recovery services, or coverage for Part B excess charges.

(14) Medicare SELECT policies and certificates shall provide for continuation of coverage in the event the Secretary of Health and Human Services determines that Medicare SELECT policies and certificates issued pursuant to this section should be discontinued due to either the failure of the Medicare SELECT program to be reauthorized under law or its substantial amendment.

(a) Each Medicare SELECT issuer shall make available to each individual insured under a Medicare SELECT policy or certificate the opportunity to purchase any Medicare supplement policy or certificate offered by the issuer which has comparable or lesser benefits and which does not contain a restricted network provision. The issuer shall make such policies and certificates available without requiring evidence of insurability.

**NEW SECTION**

**WAC 284-66-142 FORM OF REPLACEMENT NOTICE.**

**NOTICE TO APPLICANT REGARDING REPLACEMENT OF MEDICARE SUPPLEMENT INSURANCE**

[Insurance company's name and address]

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE.

According to [your application] [information you have furnished], you intend to terminate existing Medicare supplement insurance and replace it with a policy to be issued by [Company name] Insurance Company. Your new policy will provide thirty days within which you may decide without cost whether you desire to keep the policy.

You should review this new coverage carefully. Compare it with all accident and sickness coverage you now have. Terminate your present policy only if, after due consideration, you find that purchase of this Medicare supplement coverage is a wise decision

**STATEMENT TO APPLICANT BY ISSUER, AGENT [BROKER OR OTHER REPRESENTATIVE]:**

I have reviewed your current medical or health insurance coverage. The replacement of insurance involved in this transaction does not duplicate coverage, to the best of my knowledge. The replacement policy is being purchased for the following reason(s) (check one):

- Additional benefits.
- No change in benefits, but lower premiums.
- Fewer benefits and lower premiums.
- Other. (please specify)

1. If you have had your current Medicare supplement policy less than six months, health conditions which you may presently have (preexisting conditions) may not be immediately or fully covered under the new policy. This could result in denial or delay of a claim for benefits under the new policy, whereas a similar claim might have been payable under your present policy.
2. State law provides that your replacement policy or certificate may not contain new preexisting conditions, waiting periods, elimination periods or probationary periods. The insurer will waive any time periods applicable to preexisting conditions, waiting periods, elimination periods, or probationary periods in the new policy (or coverage) to the extent such time was spent (depleted) under original policy.
3. If you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical and health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before you sign it, review it carefully to be certain that all information has been properly recorded. [If the policy or certificate is guaranteed issue, this paragraph need not appear.]

Do not cancel your present policy until you have received your new policy and are sure that you want to keep it.

AMENDATORY SECTION (Amending Order R 90-4, filed 3/20/90, effective 4/20/90)

WAC 284-66-160 ADJUSTMENT NOTICE TO CONFORM EXISTING MEDICARE SUPPLEMENT POLICIES TO CHANGES IN MEDICARE. ((†)) As soon as practicable, but no later than thirty days prior to the effective date of any Medicare benefit changes, every insurer providing Medicare supplement insurance coverage to a resident of this state shall notify its insureds of modifications it has made to Medicare supplement policies. The adjustment notice is intended to be informational only and for the sole purpose of informing policyholders and certificate holders about changes in Medicare benefits, indexed deductible and copayment provisions, premium adjustments, and the like. The form of an adjustment notice provided to residents of this state shall be filed with the commissioner prior to use.

AMENDATORY SECTION (Amending Order R 90-4, filed 3/20/90, effective 4/20/90)

WAC 284-66-170 PROHIBITION AGAINST PREEXISTING CONDITIONS, WAITING PERIODS, ELIMINATION PERIODS, AND PROBATIONARY PERIODS IN REPLACEMENT POLICIES OR CERTIFICATES. (1) If a Medicare supplement policy or certificate replaces another Medicare supplement policy or certificate, the replacing ~~((insurer))~~ issuer shall waive any time periods applicable to preexisting conditions, waiting periods, elimination periods and probationary periods in the new Medicare supplement policy or certificate to the extent ~~((that similar exclusions have been satisfied))~~ such time was spent under the original policy.

(2) If a Medicare supplement policy or certificate replaces another Medicare supplement policy or certificate which has been in effect for at least six months, the replacing policy shall not provide any time period applicable to preexisting conditions, waiting periods, elimination periods, and probationary periods.

AMENDATORY SECTION (Amending Order R 90-4, filed 3/20/90, effective 4/20/90)

WAC 284-66-200 STANDARDS FOR LOSS RATIOS. The following standards apply to policies issued or delivered prior to July 1, 1992, unless such policies are approved under the standards of WAC 284-66-063 and 284-66-203. Medicare supplement insurance policies shall return to policyholders in the form of aggregated benefits under such policy, for the entire period for which rates are computed to provide coverage, loss ratios not less than those set forth in this section. Such loss ratios shall be on the basis of incurred claims losses and earned premiums for such period in accordance with accepted actuarial principles. The loss ratio standards of this section are more stringent and more appropriate than those imposed by RCW 48.66.100, and are necessary for the protection of the public interest.

(1) Where coverage is provided on a service rather than reimbursement basis, such loss ratios shall be on the basis of incurred health care expenses and earned premiums for such period.

(2) All filings of rates and rating schedules shall demonstrate that actual and expected losses in relation to premiums comply with the requirements of this chapter and are not excessive, inadequate or unfairly discriminatory.

(3) Every insurer providing Medicare supplement policies in this state shall annually file its rates, rating schedules, and supporting documentation including ratios of incurred losses to earned premiums demonstrating that it is in compliance with the applicable loss ratio standards and that the period for which the policy is rated is reasonable in accordance with accepted actuarial principles and experience. If the period for which the policy is initially rated is more than one year, ratios of incurred losses to earned premiums shall be filed by number of years of policy duration. Supporting documentation shall include the amounts of unearned premium reserve, policy reserves, and claim reserves and liabilities, both nationally and for this state. ~~((The form and instructions for filing this information are provided in WAC 284-66-220 through 284-66-230.))~~ This annual filing is in addition to filings made by insurers to establish initial rates or request rate adjustments required by WAC 284-66-240.

(4) Incurred losses shall include claims paid and the change in claim reserves and liabilities. Incurred losses shall not include policy reserves, home office or field overhead, acquisition and selling costs, taxes or other expenses, contributions to surplus, profit, or claims processing costs.

(5) The following criteria will be used to determine whether policy forms are in compliance with the loss ratio standards of this section:

(a) For the most recent year, the ratio of the incurred losses to earned premiums is greater than or equal to the applicable percentages contained in this section; and

(b) The expected losses in relation to premiums over the entire period for which the policy is rated complies with the requirements of this section, relying on the

judgment of the pricing actuary and acceptable to the commissioner; and

(c) For issue age level premium rated policies, an expected loss ratio for the third policy year, which is greater than or equal to the applicable percentage, shall be demonstrated for policies or certificates in force fewer than three years. For community rated policies the applicable percentage shall be demonstrated for the three most recent accounting periods. The applicable percentage shall be as defined in subsection ~~(s)~~ ~~(6)~~ ~~((:))~~ ~~or~~ ~~(7)~~ ~~((, or (8)))~~ of this section.

(d) For purposes of rate making and rate adjustments, similar policy forms shall be grouped together according to the rules set forth in WAC 284-60-040 ((and 284-66-240(6))). All Medicare supplement policies of an issuer issued for delivery between January 1, 1989, and July 1, 1992, are considered "similar policy forms" except those forms specifically approved under the standards of WAC 284-66-063 and 284-66-203.

(e) The commissioner may consider additional criteria including, but not limited to:

(i) Equitable treatment of policyholders; and

(ii) The amount of policy reserves as defined for the insurer's statutory annual statement.

(6) Medicare supplement insurance policies issued by authorized disability insurers and fraternal benefit societies shall be expected to return to a policyholder in the form of aggregated loss ratios under the policy, at least sixty-five percent of the earned premiums in the case of individual policies, and seventy-five percent in the case of group policies.

(7) The minimum anticipated loss ratio requirements for health maintenance organizations and health care service contractors shall be seventy percent for individual forms and eighty percent for group contract forms. The minimum anticipated loss ratios are deemed to be met if the health care expense costs of the health maintenance organization or health care service contractor are seventy percent or more of the earned premium charged individual subscribers, or eighty percent or more of the earned premium charged subscribers covered under a group contract.

## NEW SECTION

WAC 284-66-203 LOSS RATIO AND RATING STANDARDS AND REFUND OR CREDIT OF PREMIUM. (1) Loss ratio and rating standards. For policies issued on or after July 1, 1992, and those policies specifically approved by the commissioner under WAC 284-66-063 prior to July 1, 1992:

(a) A Medicare supplement policy form or certificate form must be rated on an issue-age level premium basis or community rated basis, as described at WAC 284-66-243(6), in order to meet the standards of WAC 284-66-310.

(b) A Medicare supplement policy form or certificate form shall not be delivered or issued for delivery unless the policy form or certificate form can be expected, as estimated for the entire period for which rates are computed to provide coverage, to return to policyholders and certificateholders in the form of aggregate benefits (not

including anticipated refunds or credits) provided under the policy form or certificate form:

(i) At least seventy-five percent of the aggregate amount of premiums earned in the case of group policies; or

(ii) At least sixty-five percent of the aggregate amount of premiums earned in the case of individual policies, calculated on the basis of incurred claims experience or incurred health care expenses where coverage is provided by a health maintenance organization or health care service contractor on a service rather than reimbursement basis and earned premiums for such period and in accordance with accepted actuarial principles and practices.

(c) All filing of rates and rating schedules shall demonstrate that expected claims in relation to premiums comply with the requirements of this section when combined with actual experience to date. Filings of rate revisions shall also demonstrate that the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage can be expected to meet the appropriate loss ratio standards.

(d) For purposes of applying subsection (1)(b) of this section and WAC 284-66-243 (3)(c) only, policies issued as a result of solicitations of individuals through the mails or by mass media advertising (including both print and broadcast advertising) shall be deemed to be individual policies.

(2) Refund or credit calculation.

(a) An issuer shall collect and file with the commissioner by May 31 of each year the data contained in the reporting form contained in WAC 284-66-232 for each type in a standard Medicare supplement benefit plan.

(b) If on the basis of the experience as reported, the benchmark ratio since inception (ratio 1) exceeds the adjusted experience ratio since inception (ratio 3) in year three or later, then a refund or credit calculation is required. The refund calculation shall be done on a state-wide basis for each type in a standard Medicare supplement benefit plan. For purposes of the refund or credit calculation, experience on policies issued within the reporting year shall be excluded. This subsection applies only to annual experience reporting. Any revision of premium rates must be filed with and approved by the commissioner in accordance with WAC 284-66-243.

(c) A refund or credit shall be made only when the benchmark loss ratio exceeds the adjusted experience loss ratio and the amount to be refunded or credited exceeds a de minimis level. Such refund shall include interest from the end of the calendar year to the date of the refund or credit at a rate specified by the Secretary of Health and Human Services, but in no event shall it be less than the average rate of interest for 13-week Treasury notes. A refund or credit against premiums due shall be made by September 30 following the experience year upon which the refund or credit is based.

(3) Annual filing of premium rates.

On or before May 31 of each calendar year, an issuer of standardized Medicare supplement policies and certificates issued in accordance with WAC 284-66-063, shall file its rates, rating schedule, and supporting documentation including ratios of incurred losses to earned

premiums by policy duration for approval by the commissioner on the form provided at subsection (6) of this section. The supporting documentation shall also demonstrate in accordance with actuarial standards of practice using reasonable assumptions that the appropriate loss ratio standards can be expected to be met over the entire period for which rates are computed. Such demonstration shall exclude active life reserves. An expected third-year loss ratio which is greater than or equal to the applicable percentage shall be demonstrated for policies or certificates in force less than three years.

(4) As soon as practicable, but prior to the effective date of enhancements in Medicare benefits, every issuer of Medicare supplement policies or certificates in this state shall file with the commissioner, in accordance with the applicable filing procedures of this state:

(a)(i) Appropriate premium adjustments necessary to produce loss ratios as anticipated for the current premium for the applicable policies or certificates. Such supporting documents as necessary to justify the adjustment shall accompany the filing.

(ii) An issuer shall make such premium adjustments as are necessary to produce an expected loss ratio under such policy or certificate as will conform with minimum loss ratio standards for Medicare supplement policies and which are expected to result in a loss ratio at least as great as that originally anticipated in the rates used to produce current premiums by the issuer for such Medicare supplement policies or certificates. No premium adjustment which would modify the loss ratio experience under the policy other than the adjustments described herein shall be made with respect to a policy at any time other than upon its renewal date or anniversary date.

(iii) If an issuer fails to make premium adjustments acceptable to the commissioner, the commissioner may order premium adjustments, refunds, or premium credits deemed necessary to achieve the loss ratio required by this section.

(b) Any appropriate riders, endorsements, or policy forms needed to accomplish the Medicare supplement policy or certificate modifications necessary to eliminate benefit duplications with Medicare. Such riders, endorsements, or policy forms shall provide a clear description of the Medicare supplement benefits provided by the policy or certificate.

(5) Public hearings.

(a) The commissioner may conduct a public hearing to gather information concerning a request by an issuer for an increase in a rate for policy form or certificate form if the experience of the form for the previous reporting period is not in compliance with the applicable loss ratio standard. The determination of compliance is made without consideration of any refund or credit for such reporting period. Public notice of such hearing shall be furnished in a manner deemed appropriate by the commissioner.

(b) This section does not in any way restrict a commissioner's statutory authority to approve or disapprove rates.

(6) Annual Medicare supplement insurance reporting form:

**AMENDATORY SECTION** (Amending Order R 90-4, filed 3/20/90, effective 4/20/90)

WAC 284-66-210 POLICY RESERVES REQUIRED. This section shall apply to every group and individual policy of ~~((disability insurance and to every subscriber contract of an insurer, fraternal benefit society, health care service contractor, or health maintenance organization;))~~ an issuer which relates its benefits to Medicare. The term "policy reserve" is intended to apply to all types and forms of insurance equally, whether they are called policies, contracts, or certificates. For all forms which are issued on a level premium basis, policy reserves will be required. The policy reserve is in addition to claim reserves and premium reserves. The definition of the date of incurral must be the same for both claim reserves and policy reserves. Policy reserves shall be based upon the following minimum standards:

(1) Morbidity should be based upon a reasonable expectation of future claim costs for the benefits being provided. At time of policy issue this would be the morbidity assumptions used to price the contract. For later durations the morbidity should reflect the experience which emerges including the effects of inflation and utilization. All morbidity assumptions must be reasonable in the view of the commissioner.

(2) The interest rate used may not exceed the maximum rate permitted by statute in the valuation of ~~((whole))~~ life insurance issued on the same date as the Medicare supplement policy.

(3) Termination rates shall be on the same basis as the mortality table permitted by statute in the valuation of ~~((whole))~~ life insurance issued on the same date as the Medicare supplement policy or on another basis satisfactory to the commissioner.

(4) The minimum reserve is that calculated on the one-year full preliminary term method. This method produces a terminal reserve of zero at the first policy anniversary. The preliminary term method may be applied only in relation to the date of issue of a policy. Reserve adjustments introduced later as a result of rate increases, revisions in assumptions, or for other reasons, are to be applied immediately as of the effective date of adoption of the adjusted basis. Such adjustments shall be determined as follows:

(a) Present value of future payments of claim costs for benefits, determined using revised assumptions based on anticipated experience;

(b) Less the present value of future net premiums, determined using revised assumptions based on anticipated experience;

(c) Less the liability for contract reserves at the valuation date.

(5) Negative reserves on any benefit may be offset against positive reserves for other benefits in the same policy or contract, but the total policy reserve with respect to all benefits combined may not be less than zero.

(6) The minimum policy reserve shall include a reasonable margin for the risk of adverse selection.

**AMENDATORY SECTION** (Amending Order R 90-4, filed 3/20/90, effective 4/20/90)

WAC 284-66-220 MEDICARE SUPPLEMENT ~~((LOSS RATIO EXPERIENCE))~~ REFUND CALCULATION FORM REQUIRED. ~~(2) The name of the insurer must be clearly shown at the top of each page.~~

~~(3) Separate data must be shown for each policy form number. For community rated policies, calendar year data for the most recent year should be furnished. For issue age level premium policies, data should be furnished separately for each policy duration of each form.~~

~~(4) The current filed rate schedule for each policy form number shall be attached to the experience form and shall show the policy form number for purposes of identification.~~

~~(5) Incurred losses shall include claims paid and the change in claim reserves and liabilities. A list of items that are not to be included in incurred losses is provided in WAC 284-66-200.~~

~~(7) The experience form shall be certified by an officer of the insurer.~~

~~(8) Complete data is required for each policy form on both a national basis and for policies sold in the state of Washington.~~

Benchmark Ratio Since Inception:  $(l + n) / (k + m)$   
(a) Year 1 is the current calendar year - 1  
Year 2 is the current calendar year - 2 (etc.)  
(Example: If the current year is 1991, then:  
Year 1 is 1990; Year 2 is 1989; etc.)

(b) For the calendar year on the appropriate line in column (a),  
the premium earned during that year for policies issued in that year.

(p) "SMSBP" = Standard Medicare Supplement Benefit Plan

k = Total of Column "d"  
l = Total of Column "f"  
m = Total of Column "h"  
n = Total of Column "j"

(o) These loss ratios are not explicitly used in computing the benchmark loss ratios.  
They are the loss ratios, on a policy year basis, which result in the cumulative

## NEW SECTION

WAC 284-66-243 FILING AND APPROVAL OF POLICIES AND CERTIFICATES AND PREMIUM RATES. (1) An issuer shall not deliver or issue for delivery a policy or certificate to a resident of this state unless the policy form or certificate form has been filed with and approved by the commissioner in accordance with filing requirements and procedures prescribed by the commissioner.

(2) An issuer shall not use or change premium rates for a Medicare supplement policy or certificate unless the rates, rating schedule, and supporting documentation have been filed with and approved by the commissioner in accordance with the filing requirements and procedures prescribed by the commissioner.

(3)(a) Except as provided in (b) of this subsection, an issuer shall not file for approval more than one form of a policy or certificate of each type for each standard Medicare supplement benefit plan.

(b) An issuer may offer, with the approval of the commissioner, up to four additional policy forms or certificate forms of the same type for the same standard Medicare supplement benefit plan, one for each of the following cases:

- (i) The inclusion of new or innovative benefits;
- (ii) The addition of either direct response or agent marketing methods;
- (iii) The addition of either guaranteed issue or underwritten coverage;
- (iv) The offering of coverage to individuals eligible for Medicare by reason of disability.

(c) For the purposes of this section, a "type" means an individual policy, a group policy, an individual Medicare SELECT policy, or a group Medicare SELECT policy.

(4)(a) Except as provided in (a)(i) of this subsection, an issuer shall continue to make available for purchase any policy form or certificate form issued after the effective date of this regulation that has been approved by the commissioner. A policy form or certificate form shall not be considered to be available for purchase unless the issuer has actively offered it for sale in the previous twelve months.

(i) An issuer may discontinue the availability of a policy form or certificate form if the issuer provides to the commissioner in writing its decision at least thirty days prior to discontinuing the availability of the form of the policy or certificate. After receipt of the notice by

the commissioner, the issuer shall no longer offer for sale the policy form or certificate form in this state.

(ii) An issuer that discontinues the availability of a policy form or certificate form pursuant to (a)(i) of this subsection, shall not file for approval a new policy form or certificate form of the same type for the same standard Medicare supplement benefit plan as the discontinued form for a period of five years after the issuer provides notice to the commissioner of the discontinuance. The period of discontinuance may be reduced if the commissioner determines that a shorter period is appropriate.

(b) The sale or other transfer of Medicare supplement business to another issuer shall be considered a discontinuance for the purposes of this subsection.

(c) A change in the rating structure or methodology shall be considered a discontinuance under (a) of this subsection, unless the issuer complies with the following requirements:

(i) The issuer provides an actuarial memorandum, in a form and manner prescribed by the commissioner, describing the manner in which the revised rating methodology and resultant rates differ from the existing rating methodology and resultant rates.

(ii) The issuer does not subsequently put into effect a change of rates or rating factors that would cause the percentage differential between the discontinued and subsequent rates as described in the actuarial memorandum to change. The commissioner may approve a change to the differential which is in the public interest.

(5)(a) Except as provided in (b) of this subsection, the experience of all policy forms or certificate forms of the same type in a standard Medicare supplement benefit plan shall be combined for purposes of the refund or credit calculation prescribed in WAC 284-66-203.

(b) Forms assumed under an assumption reinsurance agreement shall not be combined with the experience of other forms for purposes of the refund or credit calculation.

(6) An issuer may set rates only on a community rated basis or on an issue-age level premium basis.

(a) Community rated premiums shall be equal for all individual policyholders or certificateholders under a standardized Medicare supplement benefit form. Such premiums may not vary by age or sex.

(b) Issue-age level premiums must be calculated for the lifetime of the insured. This will result in a level premium if the effects of inflation are ignored.

(7) All filings of policy or certificate forms shall be accompanied by the proposed application form, outline of coverage form, proposed rate schedule, and an actuarial memorandum completed, signed and dated by a qualified actuary as defined in WAC 284-05-060. In addition to the actuarial memorandum, the following supporting documentation must be submitted to demonstrate to the satisfaction of the commissioner that rates are not excessive, inadequate, or unfairly discriminatory and otherwise comply with the requirements of this chapter:

the actual calendar year loss ratios experienced since inception, both before and after the refund required, if any;

(b) Anticipated total termination rates on a calendar year basis by duration for the period for which the policy is rated. The termination rates should be stated as a percentage and the source of the mortality assumption must be specified. Filings of future rate adjustments must include the actual total termination rates stated on a calendar year basis since inception;

(c) Expense assumptions including fixed and percentage expenses for acquisition and maintenance costs;

(d) Schedule of total compensation payable to agents and other producers as a percentage of premium, if any;

(e) A complete specimen copy of the compensation agreements or contracts between the issuer and its agents, brokers, general agents, as well as the contracts between general agents and agents or others whose compensation is based in whole or in part on the sale of Medicare supplement insurance policies. Such agreements shall demonstrate compliance with WAC 284-66-350 (where appropriate);

(f) Other data necessary in the reasonable opinion of the commissioner to substantiate the filing.

tor acting pursuant to this authority has issued this order and caused it

the terms hereof seize all current licenses authorizing gambling activi-
ty and all such gambling activity shall cease as ordered herein.

FINDINGS OF FACT

- License number 211-

After a thorough review of the affidavit(s) of the special agent(s) of
the Commission concerning the facts in this matter, which are at-
tached hereto and labelled as attachment(s), the Director ac-
cepts (this/these) as a verity and makes the determination that the ac-
tion as ordered herein is warranted.

IV

cessation of the gambling activity in that the (list from a, b, or c of
WAC 230-50-012) and the welfare of the community is affected as
follows: (State reason(s) affected.)

V

CONCLUSIONS OF LAW

I

Based on the foregoing Findings of Fact, the Director, (Director's
name), makes the following CONCLUSIONS: (select (a), (b), (c) and/or
(d) as applicable.)

(a) The licensee or permittee has obtained the license or permit by
fraud, trick, misrepresentation, concealment, or through inadvertence
or mistake, or

(b) The licensee or permittee has engaged in any act, practice, or
course of operation as would operate as a fraud or deceit on any per-
son, or has employed any device, scheme, or artifice to defraud any
person; or

(c) The licensee or permittee has again violated, failed, or refused to
comply with any of the provisions, requirements, limitations or duties
imposed by Chapter 9.46 RCW and amendments thereto, or any rules
adopted by the Commission pursuant thereto, after having been previ-

local law enforcement personnel, that a violation or violations of the
same or similar provisions had been, or were being, committed by the
licensee or permittee; or

(d) Immediate cessation of the licensed or permitted activities by the
licensee or permittee is necessary for the protection or preservation of
the welfare of the community within which these activities are being
conducted.

030(2) and request a hearing at an earlier date.

(3) The parties will be notified of the time and place of any hearing
upon submission of the attached application for adjudicated proceeding
and request for hearing.

WAC 458-40-670 **TIMBER EXCISE TAX—STUMPAGE VALUE ADJUSTMENTS.** Harvest value adjustments relating to the various logging and harvest conditions shall be allowed against the stumpage values as set forth in WAC 458-40-660 for the designated stumpage value areas with the following limitations:

(1) No harvest adjustment shall be allowed against special forest products.

(2) Stumpage value rates for conifer and hardwoods shall be adjusted to a value no lower than one dollar per MBF.

(3) Timber harvesters planning to remove timber from areas having damaged timber or other unforeseen materially increased harvesting costs may apply to the department for adjustment in stumpage values. Such applications should contain a map with the legal descriptions of the area, a description of the damage sustained by the timber or cause of additional costs, and a list of estimated costs to be incurred. Such applications shall be sent to the department before the harvest commences. Upon receipt of such application, the department will determine the amount of adjustment allowed, and notify the harvester. Such amount may be taken as a credit against tax liabilities or, if harvest is terminated, a refund may be authorized. In the event the extent of such

timber damage or additional costs are not known at the time the application is filed, the harvester may supplement the application not later than ninety days following completion of the harvest unit.

Supervisor of Banking

**NEW SECTION**

WAC 50-14-020 INTRODUCTION. This chapter implements the supervisor of banking's (the "supervisor") authority under chapter 34.05 RCW to enact regulations to regulate the establishment and operations of mutual holding companies. It addresses only those features of the organization and operation of mutual holding companies that are not governed by existing provisions of Title 32 RCW. Among the provisions that must be considered are the following: Chapters 32.08 and 32.32 RCW for the chartering of a mutual savings bank and its conversion to a stock-form savings bank subsidiary of a mutual holding company; Title 32 RCW generally for the operations of any such savings bank; chapter 32.34 RCW for any merger or acquisition of assets involving a mutual holding company or banking subsidiary of a mutual holding company.

**NEW SECTION**

WAC 50-14-030 DEFINITIONS—REGULATIONS NOT EXCLUSIVE. The definitions contained in RCW 32.32.025 shall apply to any transaction under

these rules unless the context requires otherwise and except as provided herein. The reorganization of a mutual savings bank into mutual holding company form (hereafter sometimes referred to as the "reorganization") and the conversion of a mutual holding company into a stock holding company (hereafter sometimes referred to as the "conversion") shall be governed by the rules prescribed in chapter 32.32 RCW, except to the extent such rules are inconsistent with the transaction and except as provided in these rules. Any savings bank or mutual holding company may apply to the supervisor, in connection with a transaction authorized by these rules, for such variations from the rules prescribed by chapter 32.32 RCW as are necessary and proper to effectuate the transaction.

**NEW SECTION**

WAC 50-14-040 AUTHORIZATION OF THE FORMATION OF MUTUAL HOLDING COMPANIES. (1) Notwithstanding any other provision of law, and in accordance with the general requirements of the supervisor set forth in WAC 50-14-050 through 50-14-150, a mutual savings bank may reorganize so as to cause its deposit-taking and one or more other activities to be conducted by a stock savings bank subsidiary of a mutual holding company, which subsidiary is formed for such purpose.

(2) Except to the extent that such provisions are inconsistent with these rules, the stock savings bank subsidiary of the mutual holding company shall be subject to the same provisions of Title 32 RCW as apply to other stock savings banks.

**NEW SECTION**

WAC 50-14-050 REQUIRED APPROVALS. (1) A reorganization of a mutual savings bank pursuant to these rules shall be approved by not less than two-thirds of the board of trustees of the mutual savings bank.

(2)(a) A mutual savings bank proposing a reorganization pursuant to these rules shall provide the supervisor with written notice of such proposed reorganization. Such notice shall include a copy of the plan of reorganization approved by the board of trustees pursuant to subsection (1) of this section, the proposed incorporation and authorization certificates for the mutual holding company and/or the stock savings bank subsidiary, as appropriate, and shall also contain such other information as the supervisor shall require. The supervisor shall approve or disapprove the plan of reorganization within sixty days of the submission of such plan, together with such other information as the supervisor shall require.

(b) In determining whether to approve the plan of reorganization, the supervisor shall consider:

(i) Whether the formation of the mutual holding company would not be detrimental to the interests of the depositors of the mutual savings bank proposing to reorganize as provided in WAC 50-14-040;

(ii) Whether disapproval is necessary to prevent unsafe or unsound banking practices;

(iii) Whether the interest of the public will be served by the proposed reorganization;

(iv) Whether the financial or management resources of the mutual savings bank proposing to reorganize as provided in WAC 50-14-040 warrant disapproval of the proposed plan of reorganization; and

(v) Whether the mutual savings bank proposing to reorganize as provided in WAC 50-14-040 fails to furnish any information required under (a) of this subsection or furnishes information containing any statement which, at the time and in the circumstances under which it was made, was false or misleading with respect to any material fact or omits to state any material fact necessary to make the statements therein not false or misleading.

(c) When the supervisor shall have determined to approve or disapprove the plan of reorganization, the supervisor shall so advise the mutual savings bank in writing and shall endorse approval on the incorporation and authorization certificates and cause the same to be filed in such manner and in the respective offices provided in chapter 32.08 RCW. Upon the filing of the authorization certificate as provided in RCW 32.08.080, the existence of the mutual holding company and/or stock savings bank, as appropriate, shall commence. As used in this chapter, the term "authorization certificate" shall include an amended authorization certificate.

#### NEW SECTION

**WAC 50-14-060 FORMATION OF A MUTUAL HOLDING COMPANY.** (1) The plan of reorganization may authorize the formation of a mutual holding company by:

(a)(i) The organization by the mutual savings bank of a stock savings bank subsidiary and the transfer to such stock savings bank of the substantial part of its assets and liabilities, including all of its deposit liabilities, in accordance with the general provisions of these rules;

(ii) The organization by the mutual savings bank of a mutual holding company and the organization by such mutual holding company of a stock savings bank subsidiary which merges with the mutual savings bank; or

(iii) The reorganization of the mutual savings bank under any other method approved by the supervisor.

(b) For the purposes of (a) of this subsection, WAC 50-14-080 permits the stock savings bank to issue to persons other than the mutual holding company of which it is a subsidiary, an amount of common stock and securities convertible into common stock which in the aggregate does not exceed forty-nine percent of the issued and outstanding common stock of such stock savings bank. Issued and outstanding securities that are convertible into common stock shall be considered issued and outstanding common stock for the purposes of computing the forty-nine percent limitations. This subsection shall not limit the authority of such stock savings bank to issue equity or debt securities other than common stock and securities convertible into common stock.

(2) In connection with the reorganization of a mutual savings bank as provided in WAC 50-14-040, the mutual holding company may retain or acquire assets of the mutual savings bank to the extent that such assets are not then required to be transferred to or retained by the stock savings bank in order to satisfy capital or reserve

requirements of any applicable state or federal law or regulation.

(3) A stock savings bank at least fifty-one percent but less than one hundred percent of the outstanding common stock of which is owned by a mutual holding company shall have at least one director, but no more than two-fifths of its directors, who are "unaffiliated directors" who shall represent the interests of the minority shareholders. An "unaffiliated director" is a director who is not:

(a) An officer or employee of the stock savings bank (or any affiliate thereof); or

(b) An officer, trustee, or employee of the mutual holding company.

If the incorporation certificate or bylaws of the stock savings bank provide that the board of directors shall be divided into two or more classes, then to the extent possible, each class shall contain the same number of unaffiliated directors as each other class.

#### NEW SECTION

**WAC 50-14-070 MUTUAL HOLDING COMPANY POWERS.** (1) Upon the formation of a mutual holding company by a mutual savings bank:

(a) The mutual holding company shall possess all the rights, powers, and privileges, except deposit-taking powers, and shall be subject to all the limitations, not inconsistent with these rules, of a mutual savings bank under Title 32 RCW; and

(b) The mutual holding company shall be subject to the limitations imposed by the Bank Holding Company Act of 1956 (12 U.S.C. Section 1841, et seq.) or, in the case of a mutual holding company resulting from the reorganization of a savings bank which has elected either prior or subsequent to such reorganization to be treated as a savings association as that term is defined in 12 U.S.C. Section 1467a, such mutual holding company shall be subject to the limitations imposed by the savings and loan holding company provisions of the Home Owners' Loan Act (12 U.S.C. Section 1467a).

(2) Notwithstanding any inconsistent provisions of Title 32 RCW, subject to the express approval of, or additional rules promulgated by, the supervisor, a mutual holding company may:

(a) Merge with, acquire, or purchase the assets of a mutual holding company established pursuant to these rules or the savings and loan holding company provisions of the Home Owners' Loan Act (12 U.S.C. Section 1467a);

(b) Acquire or purchase the assets or stock of a stock savings bank, commercial bank, credit union, stock savings and loan association, stock federal savings bank, or stock federal savings and loan association;

(c) Acquire a mutual savings bank, a mutual savings and loan association, a federal mutual savings bank, or a federal mutual savings and loan association through the merger of such institution with a stock subsidiary of such mutual holding company;

(d) Engage in any other acquisition or combination specifically permitted by the supervisor.

NEW SECTION**WAC 50-14-080 SUBSEQUENT OFFERING.**

(1) Any public offering of shares by a subsidiary of a mutual holding company, subsequent to the reorganization but after which the mutual holding company would retain at least fifty-one percent of the issued and outstanding shares of the stock savings bank (a "subsequent offering") shall be governed by the rules prescribed in chapter 32.32 RCW, except to the extent such rules are inconsistent with the transaction and except as provided in these rules.

(2) Any subsequent offering shall be made pursuant to an offering circular which complies with the terms and conditions prescribed in chapter 32.32 RCW and has been approved by the supervisor, whether the offering consists of newly issued shares being offered by the stock savings bank or previously issued shares being sold by the mutual holding company.

(3) The procedures to be followed in conducting a subsequent offering may, with the approval of the supervisor, differ from those set out in chapter 32.32 RCW so long as eligible account holders' subscription rights are not abrogated. Such differences may include, but need not be limited to, the distribution of offering circulars only to those eligible account holders who have requested them and combining a subscription offering with a public offering.

NEW SECTION**WAC 50-14-090 SUBSCRIPTION RIGHTS.** (1)

Except for shares issued to a mutual holding company, and except for the shares referred to in WAC 50-14-100, all shares of stock issued in connection with a reorganization or conversion shall be subject to subscription rights granted to eligible account holders of the subsidiary savings bank(s). As used in these rules, "shares of stock issued in connection with the reorganization or conversion of a mutual savings bank" include shares issued upon the reorganization, shares sold in any subsequent offering (whether shares held by the mutual holding company or shares newly issued by the stock savings bank), or shares sold in connection with the conversion. Also included are any securities convertible into shares of the stock-form savings bank.

(2) An "eligible account holder" for the purposes of this section is any depositor of a savings bank who owned in such bank one or more accounts valued in the aggregate of fifty dollars or more on the pertinent record date. In the case of the reorganization, the record date shall be the date established by the board of trustees, which date shall be no less than ninety days prior to the date on which the plan of reorganization is adopted by the trustees; in the case of any subsequent offering, the record date shall be the date established by the board of directors of the stock-form savings bank issuing new shares or the board of trustees of the mutual holding company selling shares, as the case may be, which date shall be no less than ninety days prior to the date on which the shares are offered; in the case of the conversion, the record date shall be the date established by the mutual holding company's board of trustees, which date

shall be no less than ninety days prior to the date on which the plan of conversion is adopted by the trustees.

NEW SECTION

**WAC 50-14-100 STOCK OPTIONS AND STOCK GRANTS.** Shares of stock issued in connection with the reorganization of a mutual savings bank may be reserved to satisfy a stock option plan and issued pursuant to a restricted stock plan approved by the savings bank's stockholder(s). The aggregate number of shares so reserved and issued shall be reasonably proportionate to the number of shares, if any, held by persons other than the mutual holding company.

NEW SECTION**WAC 50-14-110 LIQUIDATION ACCOUNT.**

(1) The entire unconsolidated net worth of a mutual holding company shall constitute a liquidation account for the benefit of the depositors of its subsidiary savings bank(s). The liquidation account shall not be a fixed amount but may increase or decrease over time. The function of the liquidation account is to establish that upon the complete liquidation of the mutual holding company, the entire net worth of the mutual holding company will be distributed among those persons who are the depositors of its subsidiary savings bank(s) as of the date of the liquidation. The designation of the mutual holding company's net worth as a liquidation account shall not operate to restrict the use or application of the mutual holding company's net worth accounts.

(2) In the event of a complete liquidation of a mutual holding company, the entire net worth of the mutual holding company shall be distributed ratably among all the depositors of its subsidiary savings bank(s) as of the date of the liquidation.

(3) Upon the conversion of a mutual holding company, the net worth of the holding company shall no longer be designated a liquidation account. Instead, each subsidiary savings bank shall at that time establish a liquidation account, which liquidation accounts shall in the aggregate equal the mutual holding company's liquidation account as of its last periodic report of condition immediately preceding its conversion into a stock-form holding company. The liquidation account established by each subsidiary savings bank shall be in the same proportion to the mutual holding company's liquidation account that the total deposits of that subsidiary savings bank bears to the total deposits of all subsidiary savings banks of the mutual holding company. The liquidation account established by a subsidiary savings bank shall comply with the rules contained in RCW 32.32.185 through 32.32.205.

NEW SECTION**WAC 50-14-120 REORGANIZATION INTO MUTUAL HOLDING COMPANY FORM.** (1)

The mutual holding company may retain or acquire assets of the mutual savings bank only to the extent permitted by the supervisor.

(2) A stock savings bank established in connection with a reorganization shall reserve no authorized but

unissued shares, except as necessary to satisfy a stock option plan or issue securities convertible into stock.

(3) A plan of reorganization shall contain the provisions referenced in RCW 32.32.035, except that it need not provide for the sale of any stock and the aggregate price of any stock sold shall bear the same proportion to total estimated pro forma market value of the subsidiary savings bank(s) determined by an independent appraisal that the shares sold bear to the total issued and outstanding shares of the savings bank(s).

#### NEW SECTION

WAC 50-14-130 CONVERSION OF MUTUAL HOLDING COMPANY INTO STOCK HOLDING COMPANY. (1) If approved by the supervisor, a mutual holding company may convert to a stock holding company in accordance with the provisions contained in these rules.

(2) If approved by the supervisor, the mutual holding company shall adopt a plan of conversion subject to and in accordance with the provisions of chapter 32.32 RCW.

(3) A plan of conversion must include a provision requiring the exchange of shares of the subsidiary savings bank(s) for shares of the resulting stock holding company in a proportion established by independent appraisals of the mutual holding company and the subsidiary savings bank(s).

(4) The limitation contained in RCW 32.32.075 shall continue until three years after conversion into a stock holding company.

#### NEW SECTION

WAC 50-14-140 CONSTRUCTION. Nothing contained in chapter 50-14 WAC shall be construed to prohibit the de novo chartering of a stock savings bank not intended to be in holding company form.

Original Notice.

Title of Rule: WAC 388-49-410 Resources—Exempt.

Reasons Supporting Proposal: RCW 43.20B.325 requires that charges for hospitalization of patients in state mental hospitals be based on cost of operations. Current operation costs increased due to state employee salary increases effective January 1, 1992. Daily rate costs are listed under WAC 275-16-030.

[Filed February 28, 1992, 10:33 a.m., effective March 1, 1992, 12:01 a.m.]

Date of Adoption: February 28, 1992.

Purpose: This amendment revises the schedule of charges for the state-operated mental health facilities. The charges are based on the cost of operations. Costs rise due to staff compensation increases authorized by the legislature and due to inflation. Increased rates result in additional revenue to the state to cover the rise in operation costs.

Citation of Existing Rules Affected by this Order: Amending WAC 275-16-030 Schedule of charges.

Statutory Authority for Adoption: RCW 43.20B.325.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: To comply with RCW 43.20B.325 and the state Medicaid plan which requires charges for hospitalization of patients in state-operated mental health facilities be based on the cost of operations.

Effective Date of Rule: March 1, 1992, 12:01 a.m.

[Filed February 28, 1992, 10:36 a.m., effective March 1, 1992, 12:01 a.m.]

Date of Adoption: February 28, 1992.

Purpose: WAC 388-49-410(3) is amended to delete the provisions requiring application of specific SSI and

AFDC resource exemption rules and comparison of the person's income to the gross income standard before exempting the resources of an SSI or AFDC household member.

Citation of Existing Rules Affected by this Order: Amending WAC 388-49-410 Resources—Exempt.

Statutory Authority for Adoption: RCW 74.04.510.

Other Authority: Section 905 of Public Law 102-237.

Pursuant to RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: Section 905 of Public Law 102-237 provides that a household member receiving SSI or AFDC benefits is resource eligible for the food stamp program and that the member's resources cannot be included when a household's total resources are calculated. The law removes other conditions for this resource exemption.

Effective Date of Rule: March 1, 1992, 12:01 a.m.

**Notice of Intention to Consider Application to Form a Joint Operating Agency, the "Conservation and Renewable Energy System"**

The Washington State Department of Ecology hereby gives notice of its intention to consider the application of seven public utility districts for the formation of a joint operating agency. The application was made under the provisions of chapter 43.52 RCW. The proposed name of the joint operating agency is the "Conservation and Renewable Energy System."

Formation of the joint operating agency would create a new municipal corporation, which would have the powers listed in chapter 43.52 RCW. The application to form the operating agency describes its purpose as "developing and acquiring conservation, renewable and high efficiency resources consistent with the 1991 Northwest Conservation and Electric Power Plan. . . ." The plan is published by the Pacific Northwest Electric Power and Conservation Planning Council, which was created by the federal Regional Power Act.

The Department of Ecology will conduct two public hearings to consider the application at the following times and places: At 7:00 p.m. on April 6, 1991 [1992], at the Richland Public Library, 955 Northgate, Richland, WA; and at 7:00 p.m. on April 8, 1991 [1992], at the Attorney General Conference Room, Building One, Rowsix, 4224 Sixth Avenue, Lacey, WA.

A decision on the application will be made within thirty days of the second hearing. Interested persons may request additional information or submit data, views or comments in writing before April 8, 1991 [1992], to Curtis Eschels, Office of the Director, Washington State Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

RULES RELATING TO BEAN SEEDBORNE VIRAL DISEASE QUARANTINE

NEW SECTION

WAC 16-494-100 **BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — ESTABLISHING THE QUARANTINE.** The production of dry edible beans and bean seed is an important industry in the state of Washington. The economic well being of that industry is threatened by the introduction of bean seed infected with bean seedborne viral diseases. The director has determined that a quarantine is needed to protect the Washington dry bean industry and to provide the bean growers of this state a source of bean seed for planting purposes that is tested for the presence of these diseases and that bean seedborne viral diseases cannot be effectively regulated under the terms of the existing Bean Seed Quarantine.

NEW SECTION

WAC 16-494-110 **BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — REGULATED ARTICLES.** Seeds of common beans intended for planting purposes, bean plants and parts of plants, and crop residue from the harvest of beans are regulated under the terms of this quarantine.

NEW SECTION

WAC 16-494-120 **BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — REGULATED DISEASE.** Seedborne viral diseases of beans, such as but not limited to Bean Common Mosaic Virus, and Adzuki

Mosaic Virus are regulated under the terms of this quarantine.

#### NEW SECTION

**WAC 16-494-130 BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — QUARANTINED AREA.** The entire counties of Clallam, Clark, Cowlitz, Grays Harbor, Island, Jefferson, King, Kitsap, Lewis, Mason, Pacific, Pierce, San Juan, Skagit, Skamania, Snohomish, Thurston, Wahkiakum, and Whatcom in the state of Washington and all areas outside the state of Washington are established as a quarantine area.

#### NEW SECTION

**WAC 16-494-140 BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — REGULATED AREA.** The entire counties of Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, Spokane, Walla Walla, Whitman, and Yakima are established as a protected area for bean seedborne viral diseases in Washington.

#### NEW SECTION

**WAC 16-494-150 BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — REQUIREMENTS FOR PLANTING BEAN SEED IN THE REGULATED AREA.** No bean seed shall be planted, or sold, shipped, or transported for seed purposes, or knowingly received, into the regulated area which are known to be contaminated with bean seedborne viral diseases and which do not comply with the requirements of the Bean Seed Quarantine in WAC 16-494-001 through WAC 16-494-064.

Bean seed, that otherwise qualifies, may be received for planting purposes, planted, sold, shipped, or transported if that seed meets one of the following criteria:

(1) The bean variety (cultivar) is known to be uniform for the dominant I-gene. Documentation of evidence of uniformity must accompany the seed shipment. Undocumented cultivars are subject to serology and/or grow out testing to determine freedom from bean seedborne viral diseases.

(2) The bean seed has been tested by the serology method (ELISA) and has been found to be free from bean seedborne viral diseases.

(3) The bean seed has been tested by the serology method and has been found to be positive for seedborne viral diseases and on a subsequent growout test, the sample is found free from bean seedborne viral diseases.

(4) All serology tests shall be based on an official one pound sample of untreated bean seed for each fifty thousand pounds of bean seed or fraction thereof.

(5) All bean seed from outside the regulated area shall be accompanied by an official certificate documenting compliance with this section.

#### NEW SECTION

**WAC 16-494-160 BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — IDENTIFICATION**

**AND DISPOSITION OF DISEASED BEAN SEED.** All bean seed that is determined to be contaminated by bean seedborne viral diseases and which does not meet the requirements of WAC 16-494-150 shall be destroyed or diverted to dry edible or other non-seed purposes. For seed that is diverted to dry edible or other non-seed purposes, documentation of disposition of the seed shall be provided to the Department of Agriculture upon request.

(1) Seed fields entered in the Washington state bean seed phyto-sanitary certificate inspection program or the Washington state seed certification inspection program as provided in WAC 16-316-270 and WAC 16-316-327 that display symptoms of bean seedborne viral diseases during the growing season shall be subject to testing provided in WAC 16-494-150 (3) and (4) to determine final disposition.

(2) When the director determines that it is probable, based on visual symptoms and serological analysis, that a seed field may be infected with bean seedborne viral diseases and determines that a threat of infection of other fields exists, the director may prescribe aphid control or other requirements, through a notice of destruction as provided in WAC 16-494-063, deemed necessary to prevent infection of adjacent properties.

(3) The true identity of bean seedborne viral diseases shall be based on testing methods recommended by the university results of which, when positive, will be evidence to identify the disease as being subject to the department's requirements. The owner of the seed, at owner's expense, may request verification of pathogenicity. Such verification shall be made using accepted scientific and professional techniques.

#### NEW SECTION

**WAC 16-494-170 BEAN SEEDBORNE VIRAL DISEASE QUARANTINE — PENALTIES.** (1) Any bean field planted with seed in violation of the requirements of this quarantine shall be subject to destruction, in full or in part, or quarantined, as determined necessary by the director, to prevent the spread of bean seedborne viral diseases, at the option and the expense of the grower or their responsible agent.

(2) Any grower violating the terms of this quarantine, shall be subject to the criminal and or civil penalties provided in Chapter 17.24 RCW.

[February 25, 1992]

**COUNTIES—WEED CONTROL BOARD—POLICE POWER—DEPARTMENT OF AGRICULTURE—AUTHORITY OF COUNTIES TO REGULATE NOXIOUS WEEDS WITHOUT ACTIVATING WEED CONTROL BOARDS**

1. Chapter 17.10 RCW establishes weed control boards to regulate noxious weeds. RCW 17.10.040 sets out the procedure to activate a county noxious weed control board. When a weed control board has not been activated, a county can nevertheless regulate noxious weeds under the authority of chapter 17.10 RCW, but only when a weed control board has been ordered to activate by the director of the Department of Agriculture. A county may not continue without a weed control board for a second consecutive year.

2. Article 11, section 11 of the Washington Constitution grants counties broad police power related to the general welfare of the people. This authority must be consistent with laws enacted by the Legislature. The Legislature has enacted a comprehensive system to regulate noxious weeds. A county's exercise of authority to regulate noxious weeds under the police power would be inconsistent with this system. Therefore, a county may not regulate noxious weeds pursuant to its police power authority.

**DEPARTMENT OF FISHERIES**

[Order 92-06—Filed March 2, 1992, 8:35 a.m., effective March 2, 1992, 12:01 a.m.]

Date of Adoption: February 28, 1992.

Purpose: Commercial fishing regulations.

Citation of Existing Rules Affected by this Order: Amending WAC 220-52-073.

Statutory Authority for Adoption: RCW 75.08.080.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: A harvestable surplus of sea urchins remains. The harvest model for District 1 anticipated a three-day per week fishery. The permanent regulation incorrectly provided for a two-day per week fishery, March 2 through March 31, 1992.

Effective Date of Rule: March 2, 1992, 12:01 a.m.

**PROPOSED RULES**

**OFFICE OF**

**INSURANCE COMMISSIONER**

[Filed March 2, 1992, 9:55 a.m.]

Original Notice.

Title of Rule: Participating provider contracts.

Purpose: Adopt WAC 284-46-575 to provide guidelines for the review and approval of participating provider contracts.

Other Identifying Information: Insurance Commissioner Matter No. R 92-3.

Statutory Authority for Adoption: RCW 48.46.200, 48.46.243, and 48.02.060.

Statute Being Implemented: RCW 48.46.243.

Summary: This rule designates the participating provider contract form which is required to be filed with the

commissioner. This rule also provides a lessened filing requirement for participating provider contracts which contain the approved participating provider contract form.

Reasons Supporting Proposal: Health maintenance organizations are currently required to file all participating provider contracts for approval prior to use. Those filings significantly adversely impact the companies' administrative procedures and expenses. Those filings have exceeded the commissioner's resources available to review those filings.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: David H. Rodgers, Insurance Building, Olympia, Washington, (206) 753-7302.

Name of Proponent: Dick Marquardt, Insurance Commissioner, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule defines what will be considered to be a contract form for purposes of RCW 48.46.243, defines the extent of review of those forms by the insurance commissioner, and identifies with more particularity the extent to which participating provider contracts must be filed with the insurance commissioner. The purpose of this rule is to further define the review which was intended with the passage of RCW 48.46.243 and to which intent there was confusion between the health maintenance organizations and the insurance commissioner. It is anticipated that this rule will significantly reduce the number of participating provider contracts currently being filed. The reduction in the number of filings is anticipated to allow the insurance commissioner to reallocate staff time to other projects. It is also anticipated that the administrative expenses of health maintenance organizations will be reduced when the number of participating provider contract filings is reduced.

Proposal does not change existing rules.

Small business economic impact statement: It is anticipated that this rule will allow health maintenance organizations and their participating providers to develop and implement participating provider contracts more quickly and more cost efficiently. It is hoped that by doing so, the administrative cost increases of the health maintenance organization will be dampened. That dampening effect should result in smaller rate increases to subscribers. It is anticipated, but there is no data available to support the assumption, that the administrative costs of both the health maintenance organization and its participating providers will be significantly reduced by the use of preapproved forms and a corresponding significant reduction in the number of participating provider contracts which must be filed. The proposed rule may generate proportionately higher cost savings for larger health maintenance organizations simply because of the reduction in the volume of participating provider contracts currently being filed. There is no data available or easily obtainable by which to measure the

cost impact of this rule for health maintenance organizations or their participating providers by use of calculations of cost per employee, cost per hour of labor or cost per one hundred dollars of sales.

WAC 284-46-575 PARTICIPATING PROVIDER CONTRACTS. (1) Except for the provision of emergency services, out-of-area services, or in exceptional circumstances approved in advance by the commissioner, if the health maintenance organization is unable to negotiate reasonable and cost effective participating provider contracts, a health maintenance organization must have written contracts with its participating providers.

(2) A "participating provider contract form" is that portion of the participating provider contract described in subsection (4) of this section or any variation approved by the commissioner. Each participating provider contract form must be in writing and filed with the commissioner for approval at least fifteen days before use. Each filing shall include a transmittal page as prescribed by the commissioner.

(3) Each participating provider contract must contain a complete approved participating provider contract form before it is used. "Use" of a participating provider contract shall include, but not be limited to, execution by the health maintenance organization or the provider, effectuating the terms of the contract, or referring enrolled participants to the provider for nonemergent, in-area covered services. When an approved participating provider contract form is included verbatim in a participating provider contract, the contract shall be deemed to be approved, and need not be filed on an individual basis.

(4) Each participating provider contract form shall consist of the following provisions or variations approved by the commissioner:

(a) "{Name of Provider} hereby agrees that in no event, including, but not limited to nonpayment by {Name of HMO}, {Name of HMO}'s insolvency or breach of this contract shall {Name of Provider} bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against an enrolled participant or person, other than {Name of HMO}, acting on their behalf, for services provided pursuant to this contract. This provision shall not prohibit collection of {deductibles, copayments, co-insurance, and/or noncovered services}, which have not otherwise been paid by a primary or secondary carrier in accordance with regulatory standards for coordination of benefits, from enrolled participants in accordance with the terms of the enrolled participant's subscriber agreement."

(b) "{Name of Provider} agrees, in the event of {Name of HMO}'s insolvency, to continue to provide the services promised in this contract to enrolled participants of {Name of HMO} for the duration of the period for which premiums on behalf of the enrolled participant were paid to {Name of HMO} or until the enrolled participant's discharge from inpatient facilities, whichever time is greater."

(c) "Notwithstanding any other provision of this contract, nothing in this contract shall be construed to modify the rights and benefits contained in the enrolled participant's subscriber agreement."

(d) "{Name of Provider} may not bill the enrolled participant for covered services (except for deductibles, copayments or co-insurance) where {Name of HMO} denies payments because the provider has failed to comply with the terms of the participating provider contract."

(e) "{Name of Provider} further agrees (i) that the above provisions (a), (b), (c), and (d) of this subsection (for identifying citations appropriate to the contract form) shall survive termination of this contract regardless of the cause giving rise to termination and shall be construed to be for the benefit of {Name of HMO}'s enrolled participants,

and (ii) that this provision supersedes any oral or written contrary agreement now existing or hereafter entered into between {Name of Provider} and enrolled participants or persons acting on their behalf."

(f) "If {Name of Provider} contracts with other health care providers who agree to provide covered services to enrolled participants of {Name of HMO} with the expectation of receiving payment directly or indirectly from {Name of HMO}, such providers must agree to abide by the above provisions (a), (b), (c), (d), and (e) of this subsection {or identifying citations appropriate to the contract form}."

(5) When an approved participating provider contract is modified, the modified contract need not be filed with the commissioner unless any provision contained in the approved participating provider contract form is modified, other than the name of the provider, in which case the modified contract form must be filed with the commissioner for approval at least fifteen days prior to use.

(6)(a) Every participating provider contract entered into after the effective date of this regulation shall be amended to comply with this regulation no later than April 1, 1992.

(b) Participating provider contracts entered into prior to the effective date of these regulations that followed previously approved participating provider contract forms shall be amended upon renewal to comply with the provisions of subsections (3) and (4) of this section, but in no event later than March 31, 1993.

[Filed March 2, 1992, 9:57 a.m.]

Original Notice.

Title of Rule: Participating provider contracts.

Purpose: Adopt WAC 284-44-240 to provide guidelines for the review and approval of participating provider contracts.

Other Identifying Information: Insurance Commissioner Matter No. R 92-2.

Statutory Authority for Adoption: RCW 48.44.050, 48.44.070, and 48.02.060.

Statute Being Implemented: RCW 48.44.020 and 48.44.070.

Summary: This rule designates the participating provider contract form which is required to be filed with the commissioner. This rule also provides a lessened filing requirement for participating provider contracts which contain the approved participating provider contract form.

Reasons Supporting Proposal: Health care service contractors are currently required to file all participating provider contracts for approval prior to use. Those filings significantly adversely impact the companies' administrative procedures and expenses. Those filings have exceeded the commissioner's resources available to review those filings.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: David H. Rodgers, Insurance Building, Olympia, Washington, (206) 753-7302.

Name of Proponent: Dick Marquardt, Insurance Commissioner, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule defines what will be considered to be a contract form for purposes of RCW 48.44.070, defines

the extent of review of those forms by the insurance commissioner, and identifies with more particularity the extent to which participating provider contracts must be filed with the insurance commissioner. The purpose of this rule is to further define the review which was intended with the passage of RCW 48.44.070 and to which intent there was confusion between health care service contractors and the insurance commissioner. It is anticipated that this rule will significantly reduce the number of participating provider contracts currently being filed. The reduction in the number of filings is anticipated to allow the insurance commissioner to reallocate staff time to other projects. It is also anticipated that the administrative expenses of health care service contractors will be reduced when the number of participating provider contract filings is reduced.

Proposal does not change existing rules.

Small business economic impact statement: It is anticipated that this rule will allow health care service contractors and their participating providers to develop and implement participating provider contracts more quickly and cost efficiently. It is hoped that by doing so, the administrative cost increases of the health care service contractors will be dampened. That dampening effect should result in smaller rate increases to subscribers. The proposed rule may generate proportionately higher cost savings for larger health care service contractors simply because of the reduction in the volume of participating provider contracts currently being filed. There is no data available or easily obtainable by which to measure the cost impact of this rule for health care service contractors, their participating providers or their subscribers by use of calculations of cost per employee, cost per hour of labor or cost per one hundred dollars of sales.

**EMERGENCY RULES**  
**DEPARTMENT OF REVENUE**  
 [Filed March 2, 1992, 2:05 p.m.]

Date of Adoption: March 2, 1992.

Purpose: To establish the stumpage values for reporting and payment of the timber excise tax for the period

January 1, 1992, through June 30, 1992, as required by RCW 84.33.091. This filing amends first half 1992 stumpage values and is necessary to correct a previously adopted emergency rule that incorrectly amended second half 1991 values.

Citation of Existing Rules Affected by this Order: Amending WAC 458-40-660 and 458-40-670.

Statutory Authority for Adoption: RCW 84.33.091.

Other Authority: RCW 84.32.300 [82.32.300] and 84.33.096.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The stumpage values adopted December 31, 1991, WSR 92-02-067, have been recalculated by the Department of Revenue to the amounts shown in this emergency adoption. This emergency filing and adoption is necessary to provide taxpayers with the proper values upon which to pay taxes for the period January 1, 1992, to June 30, 1992.

Effective Date of Rule: Immediately.

**COLLECTION AGENCIES—CRIMES—ABILITY OF COLLECTION AGENCIES TO USE STATUTORY NOTICE OF DISHONOR OF CHECK**

RCW 19.16.250 prohibits licensed debt collection agencies from threatening a debtor with criminal prosecution. This does not prevent an agency from including in the notice of dishonor of check the statutory language in RCW 62A.3-520 that cautions that law enforcement agencies may be provided with a copy of the notice.

**STATE—LANDS—ENABLING ACT—TRUSTS—WASHINGTON TERRITORY—FEDERAL GRANTS—APPLICABILITY OF TRUST REQUIREMENT OF ARTICLE 16, SECTION 1 OF THE WASHINGTON CONSTITUTION TO LAND GRANTED TO WASHINGTON TERRITORY**

1. The Enabling Act and article 16, section 1 of the Washington Constitution constitute a declaration of trust with regard to the property granted to the State by the United States in the Enabling Act. The constitutional trust established in article 16, section 1 does not apply to land donated to the Washington Territory that was not confirmed or reconveyed to the State in the Enabling Act.
2. The State's ability to use or transfer property acquired from the United States by grant is limited by any restrictions contained in the federal grant. However, since title to the property rests with the State, it may use or transfer the property as it chooses, so long as the State's use or transfer conforms to the restrictions in the grant.
3. Under RCW 79.01.006(2), federal restrictions on property, that limit its use to public recreational and other specific purposes, are binding conditions that conflict with other provisions of RCW 79.01.006. Therefore, property subject to such restrictions is not included in the corpus of the educational, penal, and reformatory institution account pursuant to chapter 79.01 RCW.

 [Filed March 3, 1992, 3:01 p.m.]

**Original Notice.**

Title of Rule: Infection control, new sections WAC 246-816-701 Purpose; 246-816-710 Definitions; 246-816-720 Use of barriers and sterilization techniques; 246-816-730 management of single use items; and 246-816-740 Effective date.

Purpose: To establish requirements for infection control in dental offices to protect the health and well-being of the people of the state of Washington.

Statutory Authority for Adoption: RCW 18.32.640.

Statute Being Implemented: RCW 18.32.725.

Summary: The proposed rules establish requirements for infection control in dental offices and identify required procedures to prevent disease transmission from patient to doctor and staff, doctor and staff to patients, and from patient to patient via a vector such as instruments or supplies.

Reasons Supporting Proposal: The Dental Disciplinary Board seeks to identify basic requirements for infection control in dental offices, therefore it is necessary to adopt rules addressing requirements for infection control.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Linda McCue, 1300 Quince Street S.E., EY-26, P.O. Box 47867, Olympia, WA 98504-7867, (206) 753-1156.

Name of Proponent: Dental Disciplinary Board, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The rules identify barriers and sterilization techniques for dental offices and the management of single use items. The purpose of the rules is to protect the health and well-being of the people of the state of Washington.

Proposal does not change existing rules.

Small Business Economic Impact Statement: The rules will impact dental offices that need to buy additional handpieces so they can heat sterilize handpieces between patients. The cost will depend on the number of dental operatories a dentist has in use at one time. The cost of one dental handpiece is approximately \$550.00 to \$650.00.

Introduction: The Regulatory Fairness Act, chapter 19.85 RCW, requires that rules which have an economic impact on more than twenty percent of all industry or more than ten percent of any one industry, be reviewed and altered to minimize their impact on small business. This review is reported in this small business economic impact statement. The Regulatory Fairness Act requires that a small business economic impact statement (SBEIS) "include a brief description of the reporting, record keeping, and other compliance requirements of the rule, and the kinds of professional services" needed

to comply with those requirements. It also must "analyze, based on existing data, the costs of compliance for businesses required to comply with the provisions of (the) rule . . . including costs of equipment, supplies, labor and increased administrative costs." The cost of compliance for small and large businesses are to be compared. A small business is defined as a corporation, partnership, sole proprietorship, or other legal entity which has the purpose of making a profit, which is independently owned and operated from all other businesses, and which has fifty or fewer employees.

Background on the Proposed Infection Control Rules: The Dental Disciplinary Board seeks to identify basic requirements for infection control in dental offices, therefore it is necessary to adopt rules addressing requirements for infection control.

Requirements of the Proposed Rule: The proposed rules establish requirements for infection control in dental offices regarding use of barriers and sterilization techniques and identify required procedures to prevent disease transmission from patient to doctor and staff, doctor and staff to patients, and from patient to patient via a vector such as instruments or supplies.

Economic Analysis: The impact on dentists will depend on the number of dental operatories they have in use at one time. The costs of compliance could mean an increase in equipment, specifically dental handpieces. The cost of one dental handpiece is approximately \$550 - \$650. The rules cannot be altered to minimize their impact on small business as it has been determined that all dental offices in the state of Washington meet the definition of small business.

Mitigation: It has been determined that despite the possible proportionately higher impact on some dentists (depends on number of operatories in use) this impact will not be mitigated because of the public health protection.

Hearing Location: Seattle Marriott Sea-Tac Airport Hotel, Bremerton Suite, 3201 South 176th Street, Seattle, WA 98188, on April 10, 1992, at 9:00 a.m. Public testimony will be limited to three minutes per person per section.

**NEW SECTION**

WAC 246-816-701 PURPOSE. The purpose of WAC 246-816-701 through 246-816-730 is to establish requirements for infection control in dental offices to protect the health and well-being of the people of the state of Washington. For purposes of infection control, all dental staff members and all patients shall be considered potential carriers of communicable diseases. Infection control procedures are required to prevent disease transmission from patient to doctor and staff, doctor and staff to patient, and from patient to patient. Every dentist is required to comply with the applicable standard of care in effect at the time of treatment. At a minimum, the dentist must comply with the requirements defined in WAC 246-816-720, WAC 246-816-730 and WAC 246-816-740.

NEW SECTION

WAC 246-816-710 DEFINITIONS. (1) "Direct care staff" are the dental staff who directly provide dental care to patients.

(2) "Communicable diseases" means an illness caused by an infectious agent which can be transmitted from one person, animal, or object to another person by direct or indirect means including transmission via an intermediate host or vector, food, water or air.

(3) "Decontamination" means the use of physical or chemical means to remove, inactivate, or destroy bloodborne pathogens on a surface or item to the point where they are no longer capable of transmitting infectious particles and the surface or item is rendered safe for handling, use or disposal.

(4) "Sterilize" means the use of a physical or chemical procedure to destroy all microbial life including highly resistant bacterial endospores.

NEW SECTION

WAC 246-816-720 USE OF BARRIERS AND STERILIZATION TECHNIQUES. The use of barriers and sterilization techniques is the primary means of assuring that there is the least possible chance of the transmission of communicable diseases from doctor and staff to patients, from patient to patient and from patient to doctor and staff. To prevent patient to patient cross contamination, instruments and supplies contaminated or likely to be contaminated with blood or saliva and touched during treatment must be sterilized between patients or discarded except as otherwise set forth below. Surfaces and equipment which are likely to be contaminated with blood or saliva and touched during treatment must be decontaminated or covered with a barrier which is discarded and replaced between patients except as otherwise set forth below:

(1) Dentists shall comply with the following barrier techniques:

(a) Gloves shall be used by the dentist and direct care staff during treatment which involves intraoral procedures or contact with items potentially contaminated with the patient's bodily fluids. Fresh gloves shall be used for every intraoral patient contact. Gloves shall not be washed or reused for any purpose. The same pair of gloves shall not be used, removed, and reused for the same patient at the same visit or for any other purpose. Gloves that have been used for dental treatment shall not be reused for any non-dental purpose.

(b) Masks shall be worn by the dentist and direct care staff when splatter or aerosol is likely. Masks shall always be worn during surgical procedures.

(c) Unless effective surface decontamination methods are used, protective barriers shall be placed over areas of the dental operatory which are likely to be touched during treatment, not removable to be sterilized, and likely to be contaminated by blood or saliva. These procedures must be followed between each patient. These include but are not limited to:

- i. delivery unit
- ii. chair controls (not including foot controls)
- iii. light handles
- iv. high volume evacuator and air-water syringe controls
- v. x-ray heads and controls
- vi. head rest
- vii. instrument trays
- viii. low speed handpiece motors

(d) Protective eyewear shall be worn by the dentist and direct care staff and offered to all patients during times when splatter or aerosol is expected.

(2) Dentists shall comply with the following sterilization requirements:

(a) Every dental office shall have the capability to ultrasonically clean and sterilize contaminated items by autoclave, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave<sup>®</sup>) or ethylene oxide. Sterilizers shall be tested by biological indicator test or its equivalent on at least a monthly basis. In the event of a positive biological indicator test, the dentist will take immediate remedial action to ensure the objectives of 2(a) are accomplished. Documentation shall be maintained either in the form of a log reflecting dates and person(s) conducting the testing or copies of reports from an independent testing entity. The documentation shall be maintained for a period of at least five years.

(b) The following items shall be sterilized by an appropriate autoclave, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave<sup>®</sup>) or ethylene oxide sterilization method between patients:

- i. low speed handpiece contra angles, prophyl angles and nose cone sleeves
- ii. high speed handpieces
- iii. hand instruments
- iv. burs
- v. endodontic instruments
- vi. air-water syringe tips
- vii. high volume evacuator tips
- viii. surgical instruments
- ix. sonic or ultrasonic periodontal scalers and tips
- x. surgical handpieces

(c) Gross debris shall be removed from items prior to sterilization. Ultrasonic cleaning shall be used whenever possible.

(d) Non-disposable items used in patient care which cannot be autoclaved, dry heat, unsaturated formaldehyde/alcohol vapor (such as MDT Chemiclave<sup>®</sup>) or ethylene oxide sterilized shall be immersed in a chemical sterilant. If such a technique is used, the solution shall be approved by the Environmental Protection Agency and used in accordance with the manufacturer's directions for sterilization.

(e) Items such as impressions contaminated with blood or saliva shall be thoroughly rinsed, placed in and transported to the dental laboratory in an appropriate case containment device that is properly sealed and labeled.

NEW SECTION

WAC 246-816-730 MANAGEMENT OF SINGLE USE ITEMS. (1) Sterile disposable needles shall be used. The same needle may be recapped with a single-handed recapping technique or recapping device and subsequently reused for the same patient during the same visit.

(2) Single use items used in patient treatment which have been contaminated by saliva or blood shall be discarded and not reused. These include, but are not limited to, disposable needles, local anesthetic carpules, saliva ejectors, polishing discs, bonding agent brushes, prophyl cups, prophyl brushes, fluoride trays and interproximal wedges.

NEW SECTION

[Filed March 4, 1992, 9:38 a.m.]

**Original Notice.**

Title of Rule: Amending WAC 232-12-147 Maximum number of lines and hooks—Snagging and gaffing fish unlawful.

Purpose: To correct a change in the law pertaining to the number of hooks allowed while fishing.

Statutory Authority for Adoption: RCW 77.12.040.

Statute Being Implemented: RCW 77.12.040.

Summary: The hook law was originally changed on October 5, 1991, as part of a package to help bring about some consistency between Washington's laws and Oregon's laws on the Columbia River. The package the Wildlife Commission received stated that the law being changed was WAC 232-12-001, which only dealt with definitions. An additional law also applies to the number of hooks, which is WAC 232-12-147 Maximum number of fishing lines and hooks—Snagging and gaffing unlawful. This change request corrects that oversight.

Reasons Supporting Proposal: The public needs and has requested identical laws on the Columbia River between Oregon and Washington, to reduce confusion and prevent inadvertent violation of the laws. This change attempts to honor those requests while still meeting the biological needs of the fish populations.

Name of Agency Personnel Responsible for Drafting and Implementation: Bruce Crawford, AD, Fisheries Management Division, Olympia, (206) 753-5713; and Enforcement: Tony de la Torre, AD, Wildlife Enforcement Division, Olympia, (206) 753-5740.

Name of Proponent: Washington Wildlife Commission, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This will modify WAC 232-12-147 to read "it is

unlawful to fish for game fish with a line having attached to it more than 3 hooks." The rule currently reads, "it is unlawful to fish for game fish with a line having attached to it more than 2 hooks or lures." This will make WAC 232-12-147 consistent with WAC 232-12-001. No resource impacts are anticipated. Financial impacts will be very minor, but there may be beneficial impacts for the law enforcement staffs of Washington and Oregon due to less need to check anglers who may be in violation of one state's laws but not the others, and perhaps less court time due to people challenging citations issued under questionable circumstances.

Proposal Changes the Following Existing Rules: Changes the number of hooks allowed while fishing.

No small business economic impact statement is required for this proposal by chapter 19.85 RCW.

(3) Snag or attempt to snag game fish.

A gaff or landing net may be used to land game fish lawfully hooked.

**Original Notice.**

Title of Rule: Adopting WAC 232-28-61907 1992-94 Washington game fish seasons and catch limits—Bass daily catch limits (Region 4).

Purpose: To make permanent the new language adopted by emergency measure of the Wildlife Commission on February 8, 1992, on daily catch limits and possession limits for bass in Region Four.

Statutory Authority for Adoption: RCW 77.12.040.

Statute Being Implemented: RCW 77.12.040.

Summary: At its February 8, 1992, meeting, the Wildlife Commission adopted an emergency change in the wording of bass regulations in Region Four to meet

pamphlet publication deadlines. The changes made Region Four bass regulations read the same as bass regulations in the rest of the state, to the extent those regulations are the same. A second action taken by the Wildlife Commission at its February 8, 1992, meeting was to change the possession limit for bass in Region Four to one equal to two days daily catch limit, the same as for the rest of the state. This change also needs to be made permanent.

**Reasons Supporting Proposal:** The public has repeatedly requested simpler fishing regulations to avoid unintentional violations of the law. This proposal would help maintain consistency in the pamphlet, making it easier for the public to understand.

**Name of Agency Personnel Responsible for Drafting and Implementation:** Bruce Crawford, AD, Fisheries Management Division, Olympia, (206) 753-5713; and **Enforcement:** Tony de la Torre, AD, Wildlife Enforcement Division, Olympia, (206) 753-5740.

**Name of Proponent:** Washington Wildlife Commission, governmental.

Rule is not necessitated by federal law, federal or state court decision.

**Explanation of Rule, its Purpose, and Anticipated Effects:** This rule will provide consistency statewide on bass daily catch limits and will change the possession limit for bass in Region Four to one equal to two days daily catch limit. No negative impacts to the resource are expected as a result of this change.

Proposal does not change existing rules.

No small business economic impact statement is required for this proposal by chapter 19.85 RCW.

Original Notice.

**Title of Rule:** Adopting WAC 232-28-61908 1992-94 Washington game fish seasons and catch limits—Kettle River.

**Purpose:** To allow fishing in the tributaries to the Kettle River during the open season of June 1 through October 31.

**Statutory Authority for Adoption:** RCW 77.12.040.

**Statute Being Implemented:** RCW 77.12.040.

**Summary:** The Kettle River tributaries are closed to fishing effective April 16, 1992. In previous years, the game fishing season on Kettle River tributaries was June 1 through October 31. This change will return the game fish season closed to open during the period June 1 through October 31.

**Reasons Supporting Proposal:** Additional public input received from Kettle River area residents exposed concerns about the necessity of the tributary closure. Additional review of the biological assessment shows that the tributary closure may not be necessary.

**Name of Agency Personnel Responsible for Drafting and Implementation:** Bruce Crawford, AD, Fisheries Management Division, Olympia, (206) 753-5713; and **Enforcement:** Tony de la Torre, AD, Wildlife Enforcement Division, Olympia, (206) 753-5740.

**Name of Proponent:** Washington Wildlife Commission, governmental.

Rule is not necessitated by federal law, federal or state court decision.

**Explanation of Rule, its Purpose, and Anticipated Effects:** This regulation will open the Kettle River tributaries to fishing during the June 1 through October 31 period. This will allow area residents to fish the tributaries. Minimal adverse impacts to the resource are expected.

**Proposal Changes the Following Existing Rules:** Opens tributaries that were previously closed to fishing.

**WAC 232-28-227 1991-92, 1992-93, 1993-94 ELK HUNTING SEASONS AND REGULATIONS**

**ELK SEASONS**

Bag Limit: One (1) elk per hunter during the annual (July 1-March 31) hunting season.

Hunting Method: Elk hunters must select one of the hunting methods (modern firearm, archery, muzzleloader).

Tag Required: Elk hunters must choose one of the four elk hunting areas (Blue Mountains, Yakima, Colockum or Western Washington) to hunt in and buy the appropriate tag for that area. (Archery elk hunters may hunt in any tag area in late seasons.)

Bull Elk Seasons: Open only to the taking of male elk with visible antlers (bull calves are illegal).

Definition: Visible Antler is defined as a horn-like growth projecting above the hairline.

Spike Bull Restriction GMUs: Bull elk taken in these GMUs must have at least one antler that is a spike above the ears (does not branch above the ears). An animal with branch antlers on both sides is illegal but an animal with a spike on one side is legal in spike only units.

Spike Only GMUs: 145-185 and 472.

Branched Antler Restriction GMUs: Bull elk taken in these GMUs must meet minimum antler point requirements. Minimum antler point requirements are antler points on one side only. Antler points include eye guards but all antler points must be at least one inch long. Antler restrictions apply to all hunters during any open season.

3 Point GMUs: 418, 460, 466, ((472)) 478, 490, 506, 524, 530, 556, 558, 572, 601, 602, 607, 621, 636, 638, 639, 681; and GMUs 157 and 485 by permit only.

Special Permits: Modern firearm late season elk tag holders along with muzzleloader tag holders may apply to be drawn in special elk permit seasons. Blue Mountain archery, muzzleloader, and early modern firearm tag holders may apply for bull permits in the Blue Mountains. Western Washington archery, muzzleloader, and early modern firearm tag holders may apply for bull permits in GMU 472 (White River). Hunters drawn for a special permit may hunt only with a weapon in compliance with their tag. Hunters drawn for bull permits in the Blue Mountains may hunt bulls during the following season for their user group. Modern Firearm - during early Blue Mountain season. Archery - during early Blue Mountain archery season. Muzzleloader - during any Blue Mountain muzzleloader season.

**Modern Firearm Elk Information**

Modern firearm elk hunters have early and late hunts in all elk areas. Those who choose the early tag have the first opportunity to hunt bulls, but only those who choose the late tag are able to apply for special elk permits except as outlined above for the Blue Mountains bull permits.

Tag Required: Elk hunter must have a current, valid, unaltered, unnotched modern firearm elk tag as listed below on his/her person.

Hunting Method: May use rifle, bow and arrow, or muzzleloader, but only during modern firearm seasons.

Only those hunters with a Washington Disabled Hunter Permit may apply for the special hunt for the disabled. You may submit one (only one) special permit application for elk. You may not submit an elk permit application if you were drawn for any elk permit during 1990 or 1991. Permit hunters may hunt only with a weapon in compliance with their tag.

Application Deadline: To qualify for the drawing all applications must be postmarked no later than July 30, 1992 or received no later than 5:00 p.m. on July 30, 1992 at the Department of Wildlife headquarters in Olympia or at any of the regional Department of Wildlife offices.

- Permits will be drawn by random computer selection.

- There are no refunds or exchanges for deer or elk tags for persons applying for special permits.

Special Hunting Season Permits

You MUST have a valid hunting license and tag to apply for any special hunting season set by the Wildlife Commission. (Special hunting seasons do not include hunts open to all hunters.)

SPECIAL DEER PERMIT HUNTING SEASONS  
(Open to Permit Holders Only)

Hunters must purchase a hunting license and deer tag prior to purchase of a permit application. Only modern firearm deer tag holders and muzzleloader deer tag holders may apply for the following permit hunts.

Hunters successfully drawing a special deer permit for Hunts 1001 through 1010, Hunt 1025, and Hunt 1047 will be eligible to purchase a second deer transport tag and harvest a second antlerless deer. To take advantage of this opportunity, successful applicants must mail their original deer transport tag and a check or money order for \$18.00 (resident) or \$60.00 (nonresident) to the Department of Wildlife, 600 Capitol Way N., Olympia, WA 98501-1091 and be postmarked no later than October 13, 1992. When these items are received, the original deer transport tag will be stamped "ANTLERLESS ONLY", a second deer transport tag will be issued and stamped "ANTLERLESS ONLY", and returned to the successful applicant. These "validated" deer transport tags will only be valid for use within the special permit season. It is ILLEGAL for hunters with "ANTLERLESS ONLY" transport tags to kill a buck. Successful applicants not desiring to take advantage of this opportunity can take an antlerless deer during the permit season OR take a buck during the general season.

Use the FOUR DIGIT HUNT NUMBER on your application.

DAMAGE CONTROL (HOT SPOT) HUNTS

As a means of relieving deer, elk, and black bear damage to agricultural and timber products, damage control (hot spot) hunts earlier and later than established hunting seasons may be established each year. Hunters with a Washington hunting license may obtain a free application from any Regional Department of Wildlife office. Hunters may submit only one application for deer, one for elk, and one for black bear. Deer and elk hot spot applications must be postmarked or received at the Regional Department of Wildlife office in which the hunter wishes to participate, no later than 5:00 p.m. on June 15. Black bear hot spot applications must be postmarked or received at the Regional Department of Wildlife office no later than 5:00 p.m. on April 1. When a hot spot hunt is authorized, a drawing will be conducted and successful applicants notified.

Following are hot spots hunts which have already been established for 1992.

| Regional Office | No. Permits | Species | Open Season    | Special Restrictions | Boundary Description |
|-----------------|-------------|---------|----------------|----------------------|----------------------|
| Yakima          | 100         | Elk     | Sept. 1-Oct. 7 | Either Sex           | Elk Area 032         |
| Yakima          | 150         | Elk     | Sept. 1-Oct. 7 | Either Sex           | Elk Area 033         |

Other hunts may be established by Regional Department of Wildlife offices as significant wildlife damage situations arise. Hot spot hunts may not be held in every region.

Special Elk Hunting Seasons  
(Open to Permit Holders Only)

Hunters must purchase a hunting license and elk tag prior to purchase of a permit application. Permit hunters may hunt only with a weapon in compliance with their tag. Applicants must have purchased the proper area tag for these hunts (see Elk Tag Prefix required to apply for each hunt). Hunters drawing a permit for a hunt after the first of the year can use their 1992 license and tag during the hunt. Only hunters who purchase an Early Blue Mountain elk tag (BE) may apply for special Blue Mountain bull permits. Blue Mountain hunters must have the appropriate elk tag prefix for the hunt they are applying for.

Use the FOUR DIGIT HUNT NUMBER on your application.

**AMENDATORY SECTION** (Amending Order 89-10, filed 8/1/89)

**WAC 458-20-105 EMPLOYEES DISTINGUISHED FROM PERSONS ENGAGING IN BUSINESS.** (1) The Revenue Act imposes taxes upon persons engaged in business but not upon persons acting solely in the capacity of employees.

(2) While no one factor definitely determines employee status, the most important consideration is the employer's right to control the employee. The right to control is not limited to controlling the result of the work to be accomplished, but includes controlling the details and means by which the work is accomplished. In cases of doubt about employee status all the pertinent facts should be submitted to the department of revenue for a specific ruling.

(3) **PERSONS ENGAGING IN BUSINESS.** The term "engaging in business" means the act of transferring, selling or otherwise dealing in real or personal property, or the rendition of services, for consideration except as an employee. The following conditions will serve to indicate that a person is engaging in business.

If a person is:

(b) Entitled to receive the gross income of the business or any part thereof;

(d) Controlling and supervising others, and being personally liable for their payroll, as a part of engaging in business;

(e) Employing others to carry out duties and responsibilities related to the engaging in business and being personally liable for their pay;

(f) Filing a Statement of Business Income and Expenses (Schedule C) for federal income tax purposes;

(g) A party to a written contract, the intent of which establishes the person to be an independent contractor;

(h) Paid a gross amount for the work without deductions for employment taxes (such as Federal Insurance Contributions Act, Federal Unemployment Tax Act, and similar state taxes).

(4) **EMPLOYEES.** The following conditions indicate that a person is an employee.

If the person:

(b) Is employed to perform services in the affairs of another, subject to the other's control or right to control;

Treatment as an employee under this subsection (5) applies only to persons engaged in the full-time sale of life insurance. The status of other persons, including others listed in section 3121(d) of the Internal Revenue Code, will be determined according to the provisions of subsections (1) and (2) of this section (See WAC 458-20-164 for the proper tax treatment of insurance agents, brokers, and solicitors.)

(6) **OPERATORS OF RENTED OR OWNED EQUIPMENT.** Persons who furnish equipment on a rental or other basis for a charge and who also furnish the equipment operators, are engaging in business and are not employees of their customers. Likewise, persons who furnish materials and the labor necessary to install or apply the materials, or produce something from the materials, are presumed to be engaging in business and not to be employees of their customers.

(7) **CASUAL LABORERS.** Persons regularly performing odd job carpentry, painting or paperhanging, plumbing, bricklaying, electrical work, cleaning, yard work, etc., for the public generally are presumed to be engaging in business. The burden of proof is upon such persons to show otherwise. However, refer to WAC 458-20-101 and 458-20-104 for registration and reporting requirements for such activities.

(8) **A CORPORATION, JOINT VENTURE, OR ANY GROUP OF INDIVIDUALS ACTING AS A UNIT,** is not an employee.

(9) **BOOTH RENTERS.** For purposes of the business and occupation tax a "booth renter," as defined in RCW 18.16.020(19), is considered engaged in business and not an employee. A "booth renter" is any person who:

**WAC 16-228-905 STATEMENT OF PURPOSE—PENALTY ASSIGNMENT.** For the purpose of fair, uniform determination of penalty as set forth in WAC 16-228-910 through 16-228-930, the director hereby declares:

(1) Enforcement action is necessary to deter violations of the pesticide laws and rules, and persons knowing the consequences of such violation(s) are less likely to commit a violation; and

(2) Any enforcement action taken by the department against any person who violates the provisions of chapter 17.21 RCW, chapter 15.58 RCW, and/or rules adopted thereunder shall be commensurate with the seriousness of the violation under the circumstances; and

(3) Each person shall be treated fairly in accordance with the rules set forth in this chapter.

#### NEW SECTION

**WAC 16-228-910 DEFINITIONS—PENALTY ASSIGNMENT.** In addition to the definitions set forth in RCW 17.21.020, RCW 15.58.030, and WAC 16-228-010, the following shall apply to WAC 16-228-905 through 16-228-930:

(1) "Adverse effect(s)" means the risk of pesticide exposure, damage or injury to humans, animals, or the environment.

(2) "Knowingly" means that the alleged violator knew or should have known that conditions existed that would result in adverse effect(s) or knew that a violation would occur.

(3) "Level of violation" means that the alleged violation is a first, second, third, fourth, fifth, or more violation(s).

(a) First violation. This means the alleged violator has committed no prior incident(s) which resulted in a violation or violations within three years of committing the current alleged violation.

(b) Second violation. This means the alleged violator committed one prior incident which resulted in a violation or violations within three years of committing the current alleged violation.

(c) Third violation. This means the alleged violator committed two prior incidents which resulted in a violation or violations within three years of committing the current alleged violation.

(d) Fourth violation. This means the alleged violator committed three prior incidents which resulted in a violation or violations within three years of committing the current alleged violation.

(6) "Unknowingly" means that the alleged violator did not act knowingly.

(7) "Violation" means commission of an act or acts prohibited by chapter 17.21 RCW, chapter 15.58 RCW, and/or rules adopted thereunder.

#### NEW SECTION

**WAC 16-228-915 CALCULATION OF PENALTY.** (1) Median penalty selection. In the disposition of administrative cases, the department shall determine the penalty by first determining the penalty assignment schedule table listed in either WAC 16-228-920 or 16-228-925 that is applied based on the type of violation alleged. The department shall then determine the penalty range based on the level of violation, adverse effect(s), and the knowledge of the alleged violator. The median penalty is then selected as the penalty unless a proportionate adjustment is required and/or there are aggravating or mitigating factors as provided herein. The median penalty under Table A listed in WAC 16-228-920 may be proportionately adjusted and/or aggravated to a level more than the maximum penalty listed for the violation in the penalty assignment schedule table. The median penalty under Table B listed in WAC 16-228-925 may be proportionately adjusted and/or aggravated to a level more than the maximum penalty listed for the violation. The median penalty under Table A and B may not be proportionately adjusted and/or mitigated to a level less than the minimum penalty listed for the violation.

(2) Proportionate adjustment of median penalty. In the case of a median penalty selection which includes both a civil penalty assessment and a licensing action, the department reserves the right to proportionately increase the civil penalty and proportionately decrease the licensing action when circumstances in the particular case demonstrate the ineffectiveness of the licensing action as a deterrent, or proportionately decrease the civil penalty and proportionately increase the licensing action when circumstances in the particular case demonstrate the ineffectiveness of a civil penalty action as a deterrent.

(3) Aggravating factors. The department may consider circumstances enhancing the seriousness of the violation, including, but not limited to, the following:

(a) Each separate additional incident of violation(s) alleged within a single notice of intent to have been committed by the alleged violator within the same calendar year.

(b) The high magnitude of the harm, or potential harm, including quantity and/or degree, caused by the violation.

(c) The similarity of the current alleged violation to previous violations that occurred within three years of the current alleged violation.

(4) Mitigating factors. The department may consider circumstances reducing the seriousness of the violation including, but not limited to, the following:

(a) A voluntary disclosure of a violation by the alleged violator.

(b) The low magnitude of the harm, or potential harm, including quantity and/or degree, caused by the violation.

**AMENDATORY SECTION** (Amending Order R-100, filed 5/18/77)

WAC 480-93-005 DEFINITIONS. (1) ~~((Gas company — the term "gas company" shall mean:~~

~~(a) Every gas company otherwise subject to the jurisdiction of the commission as to rates and service; or~~

~~(b) Every person, corporation, city or town, transporting natural gas by pipeline, or having for one or more of its principal purposes the construction, maintenance or operation of pipelines for transporting natural gas in this state, even though such person, corporation, city or town not be a public service company under chapter 80.28 RCW, and even though such person, corporation, city or town does not deliver, sell or furnish any such gas to any person or corporation within this state.~~

~~(2)) Bar hole — a hole that has been made in the soil or paving for the specific purpose of testing the subsurface atmosphere with a ~~((CGI))~~ combustible gas indicator.~~

~~((3)) (2) Building — any structure which is normally or occasionally entered by humans for business, residential, or other purposes and ~~((m))~~ within which gas could accumulate.~~

~~((4)) (3) Combustible gas indicator (CGI) — a device capable of detecting and measuring gas concentrations of the gas being transported.~~

~~((5)) (4) Confined space — any subsurface structure of sufficient size which could accommodate a person and ~~((m))~~ within which gas could accumulate, e.g., vaults, catch basins, manholes, etc.~~

~~((6)) (5) Follow-up inspection — an inspection performed after a repair has been completed in order to determine the effectiveness of the repair.~~

~~(6) Gas — natural gas, flammable gas, or gas which is toxic or corrosive.~~

~~(7) Gas associated substructures — those devices or facilities utilized by a gas company which are not intended for storing, transmitting, or distributing gas, such as valve boxes, vaults, test boxes, and vented casing pipe.~~

~~(8) Gas company — the term "gas company" shall mean:~~

~~(a) Every gas company otherwise subject to the jurisdiction of the commission as to rates and service; and~~

~~(b) Every person, corporation, city, or town transporting gas by pipeline in this state, even though such person, corporation, city, or town is not a public service company under chapter 80.28 RCW, and even though such person, corporation, city, or town does not deliver, sell, or furnish gas to any person or corporation within this state.~~

**NEW SECTION**

WAC 480-93-017 DESIGN, SPECIFICATION, AND CONSTRUCTION PROCEDURES. The design, specification, and construction procedures for all gas facilities to be constructed in this state must be submitted to the commission. Every gas company must submit to the commission at least thirty days prior to the initiation of any construction activity, all proposed construction plans not in conformance with a gas company's design, specification, and construction procedures on file with the commission. No facilities may be constructed without first obtaining written commission acceptance of the design, specification, and construction procedures to be utilized.

**NEW SECTION**

All gas companies shall prepare, maintain, and provide to the commission, upon request, copies of maps and drawings of the company's gas facilities. The maps and drawings shall be of such scale and detail as is necessary to show the size and type of material of all facilities, whether or not the facilities are cathodically-protected, and the maximum allowable operating pressure. The maps and drawings shall indicate all district regulator stations and gate stations; the approximate location of all valves, identifying those valves classified as emergency valves in the company's emergency procedures. The gas company shall provide key sheets for ready reference as needed.

**AMENDATORY SECTION** (Amending Order R-28, filed 7/15/71)

WAC 480-93-020 PROXIMITY CONSIDERATIONS. Gas ~~((pipelines to be operated at pressures in excess of))~~ facilities having a maximum allowable operating pressure greater than 500 psig ~~((and to be designed and constructed for operation in a Class 1 or 2 location))~~ shall not be ~~((constructed))~~ operated within 500 feet of the places described below without ~~((the authority))~~ prior written authorization of ~~((this))~~ the commission:

(1) ~~((A place of residence:))~~ A building intended for human occupancy which is in existence or under construction prior to the date authorization for construction is filed with the commission, and which is not owned and used by the petitioning gas company in its gas operations;

(2) Property which has been zoned as residential~~((:))~~ or commercial;

(3) ~~((A building used for public gatherings, including railroad stations:))~~ A well-defined outside area, such as a playground, recreation area, outdoor theater, or other place of public assembly, which is occupied by twenty or more people, sixty days in any twelve-month period; and

(4) ~~((Any school building, hospital, public building or any playground:))~~

~~(5) A building devoted to a business in which more than three people are employed.~~

~~(6)) A public highway, as defined in WAC 480-81-080.~~

In requesting ~~((such authority))~~ prior written authorization of the commission, the petitioning gas company shall certify ((to the commission)) that it is not practical to select an alternative route which will avoid such locations and further certify that management has given due consideration to the possibility of the future development of the area and ((that there is no justification for the pipeline to be designed and constructed to meet Class 3 or 4 requirements at such locations)) has designed its facilities accordingly. The petition shall include, upon request of the commission, an aerial photograph showing the exact location of the pipeline in reference to places listed above that are within five hundred feet of the pipeline right of way.

#### AMENDATORY SECTION (Amending Order R-28, filed 7/15/71)

WAC 480-93-030 PROSCRIBED AREAS. Gas ~~((pipelines which are to be operated at a maximum pressure in excess of 250))~~ facilities having a maximum allowable operating pressure between 251 psig and 499 psig shall not be ((instated)) operated within 100 feet of ((any building intended for human occupancy which is in existence or under construction prior to or at the date of execution of the right-of-way agreement or at the date of filing of a petition in condemnation unless such installation is authorized and approved by the commission)) the places described below without prior written authorization of the commission:

(1) A building intended for human occupancy which is in existence or under construction prior to the date authorization for construction is filed with the commission, and which is not owned and used by the petitioning gas company in its gas operations; and

(2) A well-defined outside area, such as a playground, recreation area, outdoor theater, or other place of public assembly which is occupied by twenty or more people, sixty days in any twelve-month period.

The petition shall include, upon request of the commission, an aerial photograph showing the exact location of the pipeline in reference to the places listed above that are within one hundred feet of the pipeline right of way.

#### NEW SECTION

WAC 480-93-082 QUALIFICATION OF EMPLOYEES. Every gas company that operates a gas facility in this state shall prepare, maintain, and provide to the commission, upon request, evidence of the qualifications of employees to perform all duties assigned in the operation, maintenance, inspection, and construction of gas facilities. This evidence of an employee's qualifications shall specify the type of all training received, when and where such training was received, and the length of time the employee has performed the specific duties assigned. On the job training, under the supervision of qualified personnel, in a company-certified, company-sponsored training program, may satisfy the requirements of this section.

#### AMENDATORY SECTION (Amending Order R-28, filed 7/15/71)

WAC 480-93-110 CORROSION CONTROL. Every gas company must ensure that all of its metallic gas pipelines are protected by a recognized method or combination of methods of cathodic protection. Every gas company shall record and retain all cathodic protection test readings taken and complete remedial action within ninety days to correct any cathodic protection deficiencies known and indicated by the company's records.

Whenever a gas company finds from investigation as required by 49 CFR ((49)), Part 192, that ((corrosion)) cathodic protection of gas pipelines ((located within a Class 3 or 4 location)) is not needed, ((such)) the company shall submit to the commission a report setting forth good and sufficient reasons why such protection is not required((; such)). The report ((to)) shall include the results of soil tests and other supporting data((; otherwise all gas pipelines located in a Class 3 or 4 location shall be protected by a recognized method or combination of methods of corrosion protection)).

#### NEW SECTION

WAC 480-93-111 NONCATHODICALLY PROTECTED GAS FACILITIES. Every gas company that has metallic gas facilities which are not now, or have never been, under cathodic protection or are not under adequate cathodic protection, shall semiannually provide to the commission, upon request, drawings which show the location of

such facilities, and a description of their size and material. The drawings and associated documentation will indicate the approximate date by which cathodic protection will be applied or the facilities will be replaced. If the gas company can prove, through electrical test data and other means, that the gas facilities are not in a corrosive environment, then neither cathodic protection nor replacement will be required.

#### NEW SECTION

WAC 480-93-112 CORROSIVE CONDITION INVESTIGATION. Whenever a gas company finds the presence of active corrosion; that the surface of the gas facility is generally pitted; or that corrosion has caused a leak, the company shall investigate further to determine the extent of the corrosion. Within ninety days after the discovery of a corrosive situation, action shall be taken to correct any unsafe condition. The company shall record the condition of all underground gas facilities each time such facility is exposed and retain those records for the life of that facility.

#### NEW SECTION

WAC 480-93-115 CASING OF PIPELINES. When casing is required or installed by a gas company, the casing shall be designed to withstand the superimposed load. Plastic pipe shall not be used as casing for steel pipe, but may be used as a sleeve. Steel pipe shall only be encased in a steel casing. A separate test lead wire shall be attached to the casing and the steel gas pipeline to verify that no electric short exists between the two. Tests shall be performed annually on all encased gas pipelines. Whenever a short exists between a pipeline and its casing, the condition shall be alleviated within ninety days. Thereafter, leak tests shall be conducted on a ninety day schedule until the condition is corrected. Every gas company shall develop procedures to ensure that whenever plastic pipe is encased, suitable precautions shall be taken to prevent crushing or shearing of the plastic pipe where it exits the casing.

#### AMENDATORY SECTION (Amending Order R-28, filed 7/15/71)

WAC 480-93-120 EXPOSED PIPELINES. Proper warning signs shall be placed ~~((or))~~ and other adequate protective measures taken at any point where gas pipelines ((or mains or)) and any associated equipment and facilities are exposed ((and/or because of)), and where their location presents an unusually hazardous situation((;)). ((f.e., river crossings, road crossings, railroad crossings, etc. especially where pressures in excess of 100 psig are involved.)) All gas pipelines attached to bridges or otherwise spanning an area shall have proper warning signs at both ends of the suspended pipeline. The gas company shall keep these signs visible and readable, and inspect all signs annually; signs which are reported damaged and missing shall be replaced promptly.

#### NEW SECTION

WAC 480-93-124 PIPELINE MARKERS. All buried gas pipelines shall have pipeline markers placed and maintained as close as practical over each main and transmission line as required by 49 C.F.R., Part 707. Off-set pipeline markers may be used only if they indicate the distance from and direction to the pipeline. The pipeline markers shall be double-faced signs. Single-faced signs may be used on posts of distinctive color and shall meet the requirements of 49 C.F.R., Part 192.707(d). Pipeline markers shall be placed at all water crossings, railroad crossings, road crossings, drainage ditch crossings, and at all fence lines where a pipeline crosses private property. Pipeline markers required by 49 C.F.R., Part 707(a), shall be placed approximately five hundred yards apart if practical and at points of deflection of the pipeline. Exceptions to this rule must conform with 49 C.F.R., Part 192.707(b).

#### AMENDATORY SECTION (Amending Order R-28, filed 7/15/71)

WAC 480-93-140 HOUSE REGULATORS. Gas companies that have customers with electronic ignition appliances shall have house regulators with relief valves, monitors, or safety shut-off valves. Gas companies that have customers with standing pilots may use house regulators that do not use relief valves, monitors, or safety shut-off valves ((on house regulators shall certify, through responsible officers thereof, to the commission they have given)), if responsible officers of the gas company certify to the commission that due consideration has

been given to the possible existence of foreign matter in their distribution system and other factors that might interfere with the proper operation of service regulators and they believe that under such conditions relief valves, monitors, or safety shut-off valves are not required or appropriate for safe operation.

#### NEW SECTION

WAC 480-93-155 INCREASING MAXIMUM ALLOWABLE OPERATING PRESSURE. The commission shall be furnished complete written plans and drawings of each pressure uprating to a maximum allowable operating pressure greater than sixty psig, at least thirty days prior to raising the pressure. The plan shall include a review of the following:

- (1) All affected gas facilities, including pipe, fittings, valves, and other associated equipment, with their manufactured maximum operating pressure and specifications;
- (2) Original design and construction standards;
- (3) All previous operating pressures and length of time at that pressure;
- (4) All leaks, regardless of cause, and the date and method of repair;
- (5) All upstream and downstream regulators and relief valves; and
- (6) All cathodic protection readings on mains for the past three years or three most recent inspections, whichever is longer, and the most recent inspection on each attached service line, which is electrically isolated.

The plan shall conform with the requirements of C.F.R. 49 Part 192.

#### NEW SECTION

WAC 480-93-161 PASSAGE OF INSTRUMENTED INTERNAL INSPECTION DEVICES. All new construction and replacement of transmission pipelines must be designed and constructed to accommodate the passage of an instrumented internal inspection device ("smart pigs") except at manifolds, station piping, and branch line junctures, such as "tees" and other lateral connections. However, in the case of fittings providing branch line junctures, other than in manifolds and station piping, restraining elements would have to be added to the fittings so that smart pigs can pass in the direction of straight flow.

#### NEW SECTION

WAC 480-93-175 MOVING AND LOWERING GAS PIPELINES. A gas company shall prepare a study, prior to the moving or lowering of every gas pipeline, except plastic mains and service lines, to determine whether the proposed action will cause an unsafe condition. This study will be reviewed and certified by the gas company's senior engineer and retained in the gas company's files for the life of the pipeline. The study shall include, but not be limited to the following criteria:

- (1) The required deflection of the pipeline;
- (2) The diameter, wall thickness, and grade of the pipe;
- (3) The characteristics of the pipeline;
- (4) The terrain and class location;
- (5) The soil conditions, including the Ph;
- (6) The current condition of the pipeline;
- (7) The safe stress of the pipeline; and
- (8) The toughness of the steel.

If the toughness of the pipe is unknown, it shall be considered to be brittle, and the pipeline shall not be moved.

#### AMENDATORY SECTION (Amending Order R-28, filed 7/15/71)

WAC 480-93-180 PLAN OF OPERATIONS AND MAINTENANCE PROCEDURES ~~((AND REPORTS THEREON))~~; EMERGENCY POLICY; REPORTING REQUIREMENTS. In compliance with the provisions and general intent of the federal "Natural Gas Pipeline Safety Act," ~~((see))~~ 49 C.F.R. ~~((49))~~, Part 192, ~~((Sections 192.603 and 192.605 each))~~ every gas company shall develop appropriate operating, maintenance ~~((and/or))~~, safety, and inspection plans and ~~((/or))~~ procedures and an emergency policy. Such plans and ~~((/or))~~ procedures, ~~((as well as))~~ and all subsequent changes ~~((thereto))~~ and amendments, initiated by the gas company or pursuant to changes in state and federal rules and regulations, shall be promptly filed with the commission, for review and ~~((/or))~~ determination as to ~~((the))~~ their

adequacy ~~((of such))~~, when properly executed, to achieve an acceptable level of safety. The commission may, after notice and opportunity for ~~((a))~~ hearing, require such plans and ~~((/or))~~ procedures to be revised. Such plans and ~~((/or))~~ procedures will be furnished to the appropriate federal agency upon request. ~~((Operational, maintenance and inspection plans and/or procedures will be considered as having been filed with the commission when such have been officially issued by the company and made available to commission personnel at a mutually acceptable filing location and so certified to in writing to the commission. The file designated for commission use will be officially designated or identified by the company as the "WUTC official file." Such files will be kept current and will not be removed from the agreed location except by authorized commission personnel and/or for purposes of proper file maintenance.))~~ The plans and ~~((/or))~~ procedures required by the commission shall be practicable and designed to meet the needs of safety. In determining the adequacy of such plans and ~~((/or))~~ procedures to achieve an acceptable level of safety, the commission shall consider:

- (1) Relevant available pipeline safety data ~~((:))~~;
- (2) Whether the plans and ~~((/or))~~ procedures are appropriate for the particular type of pipeline operations being ~~((engaged in))~~ performed by the gas company, taking into consideration company size, geographical area of operation, and the public interest ~~((:))~~;
- (3) The reasonableness of the plans and ~~((/or))~~ procedures ~~((:))~~; and
- (4) The extent to which the plans ~~((or))~~ and procedures, if properly executed, will contribute to ~~((assuring))~~ an acceptable level of public safety being ~~((maintained))~~ achieved by the company.

Furthermore, ~~((each))~~ every gas company shall be responsible for establishing and maintaining such records, making such reports, and providing such information as the commission may reasonably require to enable it to determine whether the gas company has acted ~~((or))~~ and is acting in compliance with these rules and regulations and the standards established thereunder. ~~((Each))~~ Every gas company shall, upon request of the commission ~~((or))~~ and its authorized representatives, permit the commission ~~((or))~~ and its authorized representatives to inspect books, papers, records, and documents relevant to determining whether the gas company ~~((or))~~ and its agents have acted ~~((or))~~ and are acting in compliance with these rules and regulations and ~~((/or))~~ the standards established ~~((hereunder))~~ thereunder. Such commission inspections shall be conducted at reasonable times, within reasonable limits, and in a reasonable manner, and each inspection shall be commenced and completed with reasonable promptness.

#### NEW SECTION

WAC 480-93-183 PIPELINE AND SYSTEM PRESSURE REPORTING. All gas companies shall establish a maximum allowable operating pressure for a pipeline or system, to meet 49 C.F.R., Part 192, and notify the commission of the following pressure related changes:

- (1) When a pipeline or system pressure exceeds the approved maximum allowable operating pressure, the commission shall be notified within six hours, to be followed by written explanation within thirty days;
- (2) When a gas company proposes to raise any pipeline's pressure above two hundred fifty psig, the gas company shall petition the commission for a waiver of WAC 480-93-030, if applicable, before increasing the pressure;
- (3) When a gas company proposes to raise any pipeline's pressure above five hundred psig, the gas company shall petition the commission for a waiver of WAC 480-93-020, if applicable, before increasing the pressure;
- (4) When the pipeline or system operating pressure drops below the safe operating conditions of attached appliances and gas equipment; and
- (5) When a pipeline, operating in excess of two hundred fifty psig, is taken out of service for any reason the commission shall be notified within six hours, to be followed by written explanation within thirty days.

#### AMENDATORY SECTION (Amending Order R-102, filed 5/18/77)

WAC 480-93-185 GAS LEAK INVESTIGATION. Any notification of a leak, explosion, or fire, which may involve gas pipelines or other gas facilities, received from an outside source such as a police or fire department, other utility, contractor, customer, or the general public, shall be investigated promptly by the gas company. Where the

investigation reveals a leak, the leak shall be graded pursuant to WAC 480-93-186 and appropriate action shall be taken in accordance with these rules.

When leak indications are found to originate from a foreign source or facility, such as gasoline vapors, sewer or marsh gas, or customer-owned piping, prompt action shall be taken at that time, where appropriate, to protect life and property. Leaks that ((are)) represent an on-going, potentially hazardous situation shall be reported promptly to the owner or operator of the source facility and, where appropriate, to the police department, or other appropriate governmental agency. In all cases, the property owner or the adult person occupying the premises shall be notified of the leak conditions. If no methane indication is found, the gas company employee on-site shall so inform the property owner or the adult person occupying the premises, and shall request the adult person occupying the premises sign the gas company work order indicating that a gas leak was not the source of the leak indication. The gas company employee shall provide the adult person occupying the premises an odor sniff card which identifies the odor of natural gas and indicates the name, address, and telephone number of the gas company representative to be contacted if the leak indications are again noticed. If the property owner or an adult person occupying the premises is not available, the gas company shall, within twenty-four hours of the leak notification, send by first-class mail addressed to the person occupying the premises, a copy of the investigation report and an odor sniff card. A copy of the letter shall be retained by the gas company and kept with the leak report. A leak investigation report form shall be maintained in the gas company's leak report files for all leaks investigated, indicating gas company employee making the initial leak evaluation.

**WAC 480-93-18601 TABLE I—LEAK CLASSIFICATION AND ACTION CRITERIA—GRADE—DEFINITION—PRIORITY OF LEAK REPAIR—EXAMPLES.**

**TABLE I—LEAK CLASSIFICATION AND ACTION CRITERIA**

| GRADE 1<br>DEFINITION   |   |
|---|---|
| A leak that represents an existing or probable hazard to persons or property and requires immediate repair or continuous action until the conditions are no longer hazardous. |   |
| PRIORITY OF LEAK REPAIR   | EXAMPLES  |
| Requires prompt action* to protect life and property and continuous action until the conditions are no longer hazardous.  | Leaks requiring prompt action:  |
| *The prompt action in some instances may require one or more of the following:  | 1. Any leak which, in the judgment of operating personnel at the scene, is regarded as an immediate hazard.   |
| a. Implementation of company emergency plan (192.615).  | 2. Escaping gas that has ignited unintentionally.   |
| b. Evacuating premises.   | 3. Any indication of gas which has migrated into or under a building or tunnel.   |
| c. Blocking off an area.  | 4. Any reading at the outside wall of a building or where the gas would likely migrate to the outside wall of a building.   |
| d. Rerouting traffic.   | 5. Any reading of 80% LEL or greater in a confined space.   |
| e. Eliminating sources of ignition.   | 6. Any reading of 80% LEL, or greater in small substructures not associated with gas facilities where the gas would likely migrate to the outside wall of a building. |
| f. Venting the area, or   | 7. Any leak that can be seen, heard, or felt and which is in a location that may endanger the general public or property.   |
| g. Stopping the flow of gas by closing valves or other means.   |   |
| h. Notifying police and fire ((department[s])) departments.   |   |

**GRADE 2  
DEFINITION**

A leak that is recognized as being nonhazardous at the time of detection but justifies scheduled repair based on probable future hazard.

| PRIORITY OF LEAK REPAIR  | EXAMPLES  |
|--|---|
| Leaks should be repaired or cleared in one year but shall not exceed fifteen months from the date reported. If a Grade 2 leak occurs in a segment of pipeline which is under consideration for replacement, an additional 6 months may be added to the 15 months maximum time for repair noted above. In determining the repair priority, criteria such as the following should be considered:                                   | A. Leaks requiring action ahead of ground freezing or other adverse changes in venting conditions:  |
| a. Amount and migration of gas.  | 1. Any leak, which under frozen or other adverse soil conditions, would likely migrate to the outside of a building.  |
| b. Proximity of gas to buildings and subsurface structures.  | B. Leaks requiring action within six months:  |
| c. Extent of pavement, and   | 1. Any reading of 40% LEL or greater under a sidewalk in a wall-to-wall paved area that does not qualify as a Grade 1 leak and where gas is likely to migrate to the outside wall of a building.    |
| d. Soil type and conditions, such as frost cap, moisture and natural venting.  | 2. Any reading of 100% LEL or greater under a street in a wall-to-wall paved area that does not qualify as a Grade 1 leak and where the gas is likely to migrate to the outside wall of a building. |
| Grade 2 leaks shall be re-evaluated at least once every six months until cleared. The frequency of reevaluation should be determined by the location and magnitude of the leakage condition.   | 3. Any reading less than 80% LEL in small substructures not associated with gas facilities where gas would likely migrate creating a probable future hazard.  |
| It should be recognized that Grade 2 leaks will vary greatly in degree of potential hazard. There will be some Grade 2 leaks, which when evaluated by the above criteria, will justify scheduled repair within the next 5 working days. Others will justify repair within 30 days. These situations shall be brought to the attention of the individual responsible for scheduling leakage repair at the end of the working day. | 4. Any reading between 20% LEL and 80% LEL in a confined space.   |
| On the other hand, there will be many Grade 2 leaks, which because of their location and magnitude, can be scheduled for repair on a normal routine basis with periodic reinspection as necessary.   | 5. Any reading on a pipeline operating at 30% SMYS or greater in Class 3 or 4 locations that does not qualify as a Grade 1 leak.  |
|  | 6. Any leak which in the judgment of operating personnel at the scene is of sufficient magnitude to justify scheduled repair.   |

**GRADE 3  
DEFINITION**

A leak that is nonhazardous at the time of detection and can reasonably be expected to remain nonhazardous.

| PRIORITY OF LEAK REPAIR   | EXAMPLES   |
|---|--|
| Grade 3 leaks should be re-evaluated during the next scheduled survey, or within 15 months of the reporting date, whichever occurs first, until the leak is regraded or no longer results in a reading. | Leaks requiring reevaluation at periodic intervals:  |
|   | 1. Any reading of less than 80% LEL in small gas associated substructures such as small meter boxes or gas valve boxes.                          |
|   | 2. Any reading under a street in areas without wall-to-wall paving where it is unlikely the gas could migrate to the outside wall of a building. |
|   | 3. Any reading of less than 20% LEL in a confined space.   |

## PROPOSED RULES

## DEPARTMENT OF ECOLOGY

[Order 91-59—Filed March 4, 1992, 11:19 a.m.]

## Original Notice.

Title of Rule: Chapter 173-180D WAC, Facility oil spill prevention plan standards.

Purpose: To implement the provisions of RCW 90.56.200, to establish onshore and offshore facility oil spill prevention plan requirements to minimize the likelihood that a facility oil spill will occur, to minimize the size and impact of spills which do occur, and provide improved protection of Washington waters.

Statutory Authority for Adoption: RCW 90.56.300, 90.56.200, and 90.56.310.

Statute Being Implemented: RCW 90.56.200.

Summary: The Department of Ecology is required by RCW 90.56.200 to establish standards for oil spill prevention plans to be prepared by onshore and offshore facilities which handle oil (as defined by RCW 90.56.010).

Reasons Supporting Proposal: To provide minimum oil spill prevention planning standards.

Name of Agency Personnel Responsible for Drafting: Paul Heimowitz, Ecology Headquarters, Mailstop PV-11, 493-2819; Implementation and Enforcement: Greg Sorlie, Ecology Headquarters, P.O. Box 47600, Olympia, Washington 98504-7600, 459-6037.

Name of Proponent: Department of Ecology, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule requires facilities which handle oil (as defined by RCW 90.56.010) to meet minimum standards in preparing oil spill prevention plans. At a minimum, these standards when followed, are expected to help minimize the likelihood that facility oil spills will occur, minimize the size and impacts of spills which do occur, and provide improved protection of Washington waters and natural resources from the impacts of oil spills.

Proposal does not change existing rules.

## SMALL BUSINESS ECONOMIC IMPACT STATEMENT

The proposed facility prevention plan standards rule, chapter 173-180D WAC, is one of several rules required by the Oil Spill Prevention and Response Act in 1991. These rules comprise a comprehensive effort whose goal is the protection of the state's natural resources, with spill prevention being recognized as a critical component of such an effort. The facility prevention plan standards are designed to minimize the likelihood of oil spill occurrence from facilities, minimize the size and impacts of facility oil spills which do occur, and support coordination with other spill prevention and contingency plans.

The proposed rule sets standards for preparing, evaluating, and periodically reviewing site-specific spill prevention plans for facilities that transfer oil to or from a tank vessel or pipeline. Broadly speaking, facility prevention plans describe the existing spill prevention measures at the facility, as well as provide a record of past significant oil spills and means of assessing the potential

for future spill from the facility. More specifically, plans must include descriptions of current spill prevention technology, spill prevention training, on-going maintenance and inspection programs, alcohol and drug abuse awareness programs, and facility site security measures. In addition, plans must also include a detailed and comprehensive facility site risk analysis and describe how the facility will provide best achievable protection to address the spill risks identified in the risk analysis. Facilities must also document previous significant oil spills from the facility during the five year period prior to submitting the plan and provide evidence that they are in compliance with certain state and federal laws.

The Regulatory Fairness Act (RFA) chapter 19.85 RCW, requires that rules promulgated under the Administrative Procedure Act be reviewed in light of their economic impact on small businesses in the state. One goal of such a review is to ensure that a proposed rule does not place a proportionally higher burden on small businesses in an affected industry. To meet this goal, the RFA requires that a small business economic impact statement (SBEIS) be performed if a rule affects more than 20 percent of all businesses in the state or more than 10 percent of the businesses in any one industry, as identified by a three-digit standard industrial classification (SIC) code. The facility prevention plan standards have been reviewed and is likely to affect some businesses in the following industries: SIC 261 Pulp Mills; SIC 262 Paper Mills; SIC 291 Petroleum Refining; SIC 295 Asphalt Paving and Roofing Products; SIC 461 Pipelines except Natural Gas; SIC 517 Petroleum and Petroleum Products; SIC Grocery Stores; SIC 598 Fuel Dealers; and SIC 738 Miscellaneous Business Services.

The facility prevention plan standards apply to firms with any facility that is on or near the navigable water of the state that transfers oil in bulk to or from a tank vessel or pipeline and is used for producing, handling, transferring, processing, or transporting oil in bulk. Exemptions from the rule include motor vehicle fuel outlets, rolling stock (including railroad cars and motor vehicles) while transporting oil over highways or rail lines in the state, and agricultural facilities.

Estimated costs of preparing a prevention plan under the proposed rule will, on a cost-per-employee basis, proportionately impact small businesses more than large businesses. However, several factors tend to minimize the potential economic impacts of these costs and their relative impacts on small versus large firms.

First, although the cost-per-employee is higher for small firms, the cost in absolute terms of preparing a prevention plan will be lower for small firms than for large firms. Survey results indicate that the cost of preparing a prevention plan for small firms that are in compliance with federal spill prevention regulations will likely be less than \$5,000. Costs estimates for large firms in compliance are generally two to four times as much. Virtually all of the facilities affected by the proposed rule are required to have a federal spill prevention control and countermeasure plan (SPCC plan). Under 40 CFR 112, much of the information required under the facility prevention plan standards is required to be included in SPCC plans. SPCC plans are to be reviewed

and evaluated at least every three years. Thus, for a small firm with a recent and detailed SPCC plan, the additional economic burden imposed by the proposed rule is likely to be low.

Second, for facilities with SPCC plans that do not meet federal standards (for example by being out of date or lacking in detail), the cost of preparing a prevention plan is correlated to the size of the facility, which in turn is correlated to the number of employees in the firm. Survey results indicate that the cost of preparing a prevention plan for facilities with substandard SPCC plans range between \$10,000 and \$70,000 depending on facility size and complexity. The lower end of this range is associated with small facilities. Medium to large facilities, all of which are owned by firms with more than 50 employees, are likely to have costs near the upper end of this range. Further, a substantial part of the increased costs for facilities with dated or substandard SPCC plans can be attributed to those firms having avoided the costs of preparing and updating detailed SPCC plans in the past.

Third, much of the cost of preparing a prevention plan under the proposed rule results from the requirement of such plans to have a facility site risk analysis and description of best achievable protection measures under chapter 173-180D WAC (16 and 17). These are not a major part of the current requirements for SPCC plans, but similar requirements are included in the proposed updating of 40 CFR 112. Thus, preparation of a prevention plan under the proposed rule will likely reduce costs of meeting federal requirements in the future.

NEW SECTION

WAC 173-180D-030 DEFINITIONS. (1) "Best achievable protection" means the highest level of protection that can be achieved through the use of the best achievable technology and those staffing levels, training procedures, and operational methods that provide the greatest degree of protection achievable. The director's determination of best achievable protection shall be guided by the critical need to protect the state's natural resources and waters, while considering:

- (b) The technological achievability of the measures; and
- (c) The cost of the measures.

(2) "Best achievable technology" means the technology that provides the greatest degree of protection, taking into consideration processes that are being developed, or could feasibly be developed, given overall reasonable expenditures on research and development, and processes that are currently in use. In determining what is best achievable technology, the director shall consider the effectiveness, engineering feasibility, and commercial availability of the technology.

(3) "Bulk" means material that is stored or transported in a loose, unpackaged liquid, powder, or granular form capable of being conveyed by a pipe, bucket, chute, or belt system.

(4) "Cargo vessel" means a self-propelled ship in commerce, other than a tank vessel or a passenger vessel, of greater than three hundred or more gross tons, including but not limited to, commercial fish processing vessels and freighters.

(i) Place conditions on approval pursuant to (b) of this subsection; or

(ii) Revoke its approval pursuant to (c) of this subsection.

(e) Approval of a plan by the department does not constitute an express assurance regarding the adequacy of the plan nor constitute a defense to liability imposed under state law.

#### **PROPOSED RULES**

#### **DEPARTMENT OF ECOLOGY**

[Order 91-58—Filed March 4, 1992, 11:24 a.m.]

#### **Original Notice.**

**Title of Rule:** Chapter 173-492 WAC, Motor fuel specifications for oxygenated gasoline.

**Purpose:** The purpose of this new chapter is to reduce carbon monoxide emissions from gasoline powered motor vehicles, through the wintertime use of oxygenated gasolines, in areas that are either known or expected to exceed health-based air quality standards.

**Statutory Authority for Adoption:** Chapter 70.94 RCW.

**Statute Being Implemented:** RCW 70.94.011.

**Summary:** This rule is a new chapter in the Washington Administrative Code and is, in part, mandated by the federal Clean Air Act, which requires metropolitan areas which are out of attainment for carbon monoxide to implement an oxygenated fuel program.

**Reasons Supporting Proposal:** To bring nonattainment areas into attainment for carbon monoxide, and to prevent further degradation of air quality.

**Name of Agency Personnel Responsible for Drafting:** Carol Piening and Dan Johnson, P.O. Box 47600, (206) 438-8110; **Implementation and Enforcement:** Joseph Williams, P.O. Box 47600, (206) 459-6255.

**Name of Proponent:** Department of Ecology, governmental.

Rule is necessary because of federal law, 42 U.S.C. 7545 Sec. 211 (m).

**Explanation of Rule, its Purpose, and Anticipated Effects:** The federal Clean Air Act mandates the use of oxygenated fuels in areas that are out of attainment for carbon monoxide. The purpose of the proposed rule is to reduce carbon monoxide emissions from motor vehicles through the wintertime use of oxygenated gasolines in areas that are either known or expected to exceed health-based air quality standards. The proposed chapter establishes control areas and control periods for the use of oxygenated gasoline. It defines compliance requirements, including a minimum and an average oxygen content, and appropriate labeling. It also defines monitoring and enforcement requirements. It sets registration fees for the 1992-1993 control season. It gives ecology or the local air authority enforcement discretion in case of unforeseen circumstances. Local air authorities, where they have jurisdiction, are responsible for compliance monitoring and enforcement.

Proposal does not change existing rules.

#### **SMALL BUSINESS ECONOMIC IMPACT STATEMENT**

The purpose of the proposed motor fuel specifications for oxygenated gasoline rule, chapter 173-492 WAC is to reduce carbon monoxide (CO) emissions from gasoline powered motor vehicles through the wintertime use of oxygenated gasolines in areas that are either known or expected to exceed health-based air quality standards. The federal Clean Air Act amendments of 1990 require states with areas not meeting national air quality standards for carbon monoxide emissions to implement oxygenated gasoline programs. The Environmental Protection Agency is empowered to enforce the Clean Air Act amendments.

The areas within Washington exceeding national ambient air quality standards for CO are the Seattle/Tacoma, Vancouver, and Spokane metropolitan areas. In accordance with instruction from the EPA, the counties within which these areas are located must serve as the control areas where oxygenated gasoline will be distributed. Oxygenated gasoline must be used in Clark, King, Pierce and Snohomish Counties from November 1 through February 29, and in Spokane County from September 1 through February 29 beginning in the fall of 1992. The Department of Ecology has determined that extending the control areas in November 1994, to include all counties in western Washington will help to

maintain healthful air quality and ease difficulties gasoline distributors may encounter in handling both oxygenated and nonoxygenated gasolines.

The Regulatory Fairness Act, chapter 19.85 RCW, was adopted in 1982 to reduce proportionately higher economic impacts of state regulations on small businesses. A small business is defined as any business which has fifty or fewer employees. The RFA requires that all state agencies proposing regulations having an economic impact on more than 10 percent of the businesses in any one industry and on more than 20 percent of all industries in the state prepare a small business economic impact statement (SBEIS). If a rule is found to place a disproportionate impact on small businesses, it must be modified in order to mitigate this effect.

Chapter 174-492 WAC has been reviewed and found to directly affect companies in the following standard industrial classification (SIC) codes: SIC 2911 Petroleum Refineries; SIC 5171 Petroleum Bulk Stations and Terminals; and SIC 554 Retail Gasoline Stations.

Businesses in these SIC codes may choose to become oxygenate blenders by paying a fee to register with the Department of Ecology or the local air authority. No petroleum refineries producing automobile gasoline in Washington are classified as small businesses and therefore are not disproportionately impacted by the rule. Small businesses in the categories for gasoline bulk stations and terminals and retail gasoline stations are disproportionately affected by the rule.

Small businesses in SIC 5171 will have a disproportionate impact resulting from the oxygenate blender registration fee. This effect can be moderated by utilizing a different fee structure in which the registration fee is determined according to a specified dollar amount per gallon of oxygenated gasoline produced for use in control areas.

Almost all retail gasoline stations in Washington are small businesses. Service stations located near control area borders which must compete with noncontrol area stations selling less expensive nonoxygenated products will suffer financial losses. The expansion of control areas to include all western Washington counties in November 1994, will help to mitigate this effect. However, the question remains as to whether all border stations in western Washington will survive until that time and what the net effect will be on stations near the borders of Spokane County.

Chapter 173-492 WAC  
MOTOR FUEL SPECIFICATIONS FOR OXYGENATED GASOLINE

NEW SECTION

WAC 173-492-010 POLICY AND PURPOSE. The purpose of this regulation is to reduce carbon monoxide emissions from gasoline powered motor vehicles, through the wintertime use of oxygenated gasolines, in areas that are either known or expected to exceed health-based air quality standards.

NEW SECTION

WAC 173-492-020 APPLICABILITY. This regulation shall apply to all gasoline offered for sale in the control areas and over the control periods defined in WAC 173-492-070.

NEW SECTION

WAC 173-492-030 DEFINITIONS. The following words and phrases shall have the following meanings:

"Authority" means an air pollution control authority activated pursuant to chapter 70.94 RCW that has jurisdiction over the subject source.

"Blender" means any person who blends oxygenate into gasoline intended for use in any control area during the applicable control period.

"Control area" means the area in which only oxygenated gasoline under the oxygenated gasoline program of this chapter may be sold or dispensed.

"Control period" means the period during which oxygenated gasoline must be sold or dispensed within the control area.

"Ecology" means the Washington state department of ecology.

"Gasoline" means any fuel sold for use in motor vehicles and motor vehicle engines, and commonly known or sold as gasoline.

"Large volume blender" means facilities that blend and offer for sale or sell one million gallons or more, but less than fifteen million gallons, of gasoline per month during the control period within the control area.

"Medium volume blender" means facilities that blend and offer for sale or sell one hundred thousand gallons or more, but less than one million gallons, of gasoline per month during the control period within the control area.

"Oxygenate" means any substance which, when added to gasoline, increases the amount of oxygen in the gasoline blend. Lawful use of any combination of these substances requires that they be "substantially similar" under section 211(f)(1) of the federal Clean Air Act (CAA), or be permitted under a waiver granted by the Administrator of the Environmental Protection Agency under the authority of section 211(f)(4) of the CAA.

"Oxygenated gasoline" means gasoline which contains a measurable amount of oxygenate, generally an alcohol or ether.

"Small volume blender" means facilities that blend and offer for sale or sell less than one hundred thousand gallons of gasoline per month during the control period within the control area.

"Very large volume blender" means facilities that blend and offer for sale fifteen million gallons or more of gasoline per month during the control period within the control area.

NEW SECTION

WAC 173-492-040 COMPLIANCE REQUIREMENTS. (1) Retail sales. No gasoline intended as a final product for fueling of motor vehicles within the control areas and control periods as defined in WAC 173-492-070 shall be offered for sale, sold or dispensed by any person unless the gasoline has at least 2.0% oxygen content by weight.

(2) Average blend requirements. Over each two-month interval during the control period, gasoline supplied by blenders to retail facilities within the control areas defined in WAC 173-492-070 shall average at least 2.7% oxygen by weight, and in no case be less than 2.0% oxygen content by weight.

(3) Reports. Blenders shall provide periodic reports, as stipulated in the blenders registration, to ecology or the authority summarizing how

the requirements of subsection (2) of this section were met. Out-of-state blenders shall report to ecology. With prior approval from ecology or the authority, a credit trading program may be used to comply with these requirements. Such reports shall be on forms provided by ecology or the authority.

**NEW SECTION**

**WAC 173-492-050 REGISTRATION REQUIREMENTS.** Each blender facility, including out-of-state facilities, shall register with ecology or the authority each year. The request for registration shall be on forms supplied by ecology or the authority and shall be accompanied by a fee to compensate for the cost of administering the registration program, including on-site inspections necessary to verify compliance with these requirements. The fees shall be based on the volume of oxygenated gasoline sold or offered for sale by the blender to comply with the provisions of WAC 173-492-040. The following fee table shall apply to blenders who register for the 1992-1993 control periods:

|                           |          |
|---------------------------|----------|
| Small Volume Blender      | \$ 500   |
| Medium Volume Blender     | \$ 1,000 |
| Large Volume Blender      | \$10,000 |
| Very Large Volume Blender | \$50,000 |

Registration fees to cover the 1993-1994 control periods and beyond shall be set by regulation by ecology or the authority.

**NEW SECTION**

**WAC 173-492-060 LABELING REQUIREMENTS.** In addition to other labeling requirements, fuel dispensing systems delivering oxygenated gasoline shall be conspicuously labeled during the control periods and in the control areas stated in WAC 173-492-070 as follows:

"The gasoline dispensed from this pump is oxygenated and will reduce carbon monoxide pollution from motor vehicles."

**NEW SECTION**

**WAC 173-492-070 CONTROL AREAS AND CONTROL PERIODS.** Beginning in 1992, the oxygenated gasoline requirements of this chapter shall apply to the following control areas during the following control periods:

| CONTROL AREA | CONTROL PERIOD |             |
|--------------|----------------|-------------|
|              | Beginning      | Ending      |
| King         | November 1     | February 29 |
| Pierce       | November 1     | February 29 |
| Snohomish    | November 1     | February 29 |
| Clark        | November 1     | February 29 |
| Spokane      | September 1    | February 29 |

Beginning in November 1994, the control area shall expand to include Clallam, Clark, Cowlitz, Gray's Harbor, Island, Jefferson, King, Kitsap, Lewis, Mason, Pacific, Pierce, San Juan, Skagit, Skamania, Snohomish, Thurston, Wahkiakum, and Whatcom counties during a control period beginning November 1 and ending February 29. Spokane County shall remain a control area with a control period beginning September 1 and ending February 29.

These oxygenated fuel requirements apply only to the counties on the above list.

**NEW SECTION**

**WAC 173-492-080 ENFORCEMENT AND COMPLIANCE.**

(1) Compliance with the requirements of this section shall be monitored and enforced by ecology or the authority. Noncompliance shall be subject to the penalties and other remedies provided in chapter 70-94 RCW.

(2) Ecology or the authority may designate any appropriate agency of the state to assist in the compliance monitoring of this regulation.

Ecology shall make every effort to coordinate compliance monitoring of this regulation with the current duties of the department of agriculture division of weights and measures.

(3) Compliance with the standards set forth in this section shall be determined by use of testing methods approved by ecology. The maximum accuracy tolerance of this method shall be limited to +/- 0.3% oxygen by weight, or an equivalent tolerance when measured by volume.

**NEW SECTION**

**WAC 173-492-090 UNPLANNED CONDITIONS.** An unplanned condition, such as an unforeseen emergency or "act of God," which may interfere with compliance to this chapter, shall be reported to ecology or the authority as soon as possible. The responsible party shall also submit a full written report within ten days to ecology or the authority, including the known causes, the corrective actions taken, and the preventive measures to be taken to minimize or eliminate the chance of recurrence. Compliance with the requirements of this section does not relieve the responsible party from the responsibility to maintain continuous compliance with all the requirements of this chapter nor from the resulting liabilities for failure to comply. Ecology or the authority must consider the circumstances of the unplanned condition, and may use the circumstances when determining enforcement.

**NEW SECTION**

**WAC 173-492-100 SEVERABILITY.** The provisions of this regulation are severable and if any provision is held invalid, the application of such provision to the other circumstances and the remainder of this regulation shall not be affected.

Statutory Authority for Adoption: RCW 41.06.040.

Statute Being Implemented: RCW 41.06.150.

Summary: The majority of this amendment is house-keeping in nature. It also clarifies existing language about determining to which agency and/or position an exempt employee has return rights.

Reasons Supporting Proposal: Some of the existing language is unclear. This amendment has been proposed to establish clarification of the intent of the language in this rule.

WAC 356-06-055 EXEMPT-CLASSIFIED SERVICE—MOVEMENT BETWEEN. (1) Any ~~((classified))~~ employee having ~~((civil service))~~ status in a classified position who accepts an appointment in an exempt position shall have the right to return to classified service. Such employee shall have the right to return to the highest class of position in which the employee previously held permanent status, or to a position of similar nature and salary, provided the employee was not terminated from an exempt position for gross misconduct or malfeasance. The highest class of position does not necessarily mean return to the most recent agency. The return right will be to the most recent agency in which permanent status in the highest class was held. Such employee must apply to return to classified service within 30 calendar days of:

~~((1))~~ (a) Termination of employment in such exempt position, or  
~~((1))~~ (b) Termination of employment in any other exempt position in which the employee subsequently served provided there was no break in his/her service with the state of more than 30 calendar days.

~~((2))~~ When a classified employee holds a position in the classified service which is exempted, the following provisions shall apply at the time of the exemption:

(a) If the employee is appointed to the exempted position or to another exempt position, the employee shall have the right to return to the classified service as specified in subsection (1) of this section:

(b) If the employee is not appointed to the exempted position or to another exempt position but has previously held permanent status in another classified position, the employee shall have the right to return to the highest class of position previously held, or to a position of similar nature and salary:)

~~((3))~~ (2) Employees exercising return rights within the time specified, as provided in subsection (1) of this section, shall return:

(a) At the time of separation or application, whichever is later.  
(b) To a salary not less than the salary they left, adjusted according to salary changes made in the interim.  
(c) With the same status they last held at the time they left the classified service.

(d) With their seniority credited with the full time of their absence from ~~((the))~~ classified service and with no break in service.

(3) When a classified employee holds a position in the classified service which is exempted, the following provisions shall apply at the time of the exemption:

(a) If the employee is appointed to the exempted position, or to another exempt position, the employee shall have the right to return to the classified service as specified above.

(b) If the employee is not appointed to the exempted position, or to another exempt position, but has previously held permanent status in another classified position, the employee shall have the right to return to the highest class of position held, or to a position of similar nature and salary.

~~((4))~~ ~~((Present or past e))~~ Employees of the exempt service who have not previously left the classified service specifically to take an exempt

position shall not be entitled to move back into the classified service under the provisions of this section ~~((or WAC 356-30-330))~~ nor through the reduction in force process.

(5) Employees may replace incumbents currently in the position(s) to which they are returning. Seniority shall not be a factor in initially determining the position chosen for the returning employee. However, the replaced incumbent(s) ~~((are))~~ is entitled to the rights and options of the reduction in force procedures of their agency.

(6) Employees in the classified service whose positions have been exempted from the civil service law in accordance with RCW 41.06.070 (24), (25), or (28) and have not previously held other classified positions may return to the classified service in any vacant positions in their respective departments provided the employees:

Such monthly rates shall be calculated by dividing twelve into the amount of shift premium an employee would earn in a year ~~((if the hourly rules in subsection (1) of this section were applied))~~. This option is granted to simplify bookkeeping and is not authorized to establish shift premium rates higher or lower than those set by the board.

(4) Shift premium and overtime: When an employee is compensated for working overtime during hours for which shift premium is authorized ~~((in subsection (2)(a) through (c) of this section))~~, the overtime rate shall be calculated using the "regular rate" as defined in WAC 356-05-353.

### PROPOSED RULES

#### DEPARTMENT OF ECOLOGY

[Order 91-17—Filed March 4, 1992, 11:35 a.m.]

Original Notice.

Title of Rule: Chapter 173-175 WAC, Dam safety regulations.

Purpose: Sections of chapter 508-12 WAC are being repealed. Content will be included in this new chapter with additional requirements to form dam safety regulations. Defines duties of owners of dams in Washington.

Statutory Authority for Adoption: RCW 43.21A.064.

Statute Being Implemented: Chapters 90.03, 86.16, and 90.54 RCW.

Summary: Agency policies are being written into rules for regulation of dam construction and operation.

Reasons Supporting Proposal: To define the responsibilities of dam owners and to provide safety for lives and property downstream of dams.

Name of Agency Personnel Responsible for Drafting: David Cummings, P.E., Lacey, (206) 459-6875; Implementation and Enforcement: Hedia Adelsman, Lacey, (206) 459-6056.

Name of Proponent: Department of Ecology, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Proposal Changes the Following Existing Rules: Proposal repeals sections of chapter 508-12 WAC that deal with dam safety. New chapter 173-175 WAC includes chapter 508-12 WAC, fee schedules (modified) and adds greater detail to previous text in chapter 508-12 WAC.

#### SMALL BUSINESS ECONOMIC IMPACT STATEMENT

Introduction: The proposed rule supersedes and replaces the language in WAC 508-12-280 through WAC 508-12-410. Although apparently more lengthy than the previous language, much of the new rule simply makes concrete and explicit many elements of the process of submission, review, and approval of plans, specifications, construction and operation of new dams or modification of existing dams that were previously dealt with (often informally) through policies and procedures internal to the program. This is in keeping with the guidance in RCW 34.05.230(2) (the Administrative Procedure Act) encouraging agencies to take such action. Significantly changed or new elements of the rule likely to affect businesses include a revised fee schedule, a formal requirement for the development of operation and maintenance plans for all dams, and a requirement for development of emergency action plans for dams and other impoundments falling within the "high" and "significant" classifications of a downstream hazard classification system contained within the proposed rule.

Regulatory Fairness Act Analysis: Chapter 19.85 RCW, the Regulatory Fairness Act, requires that rules affecting more than 20 percent of all industries or more than 10 percent of any one industry in Washington be evaluated for disproportionate impacts on small versus large businesses, and that mitigation be provided if legally feasible. The new elements of the proposed rule have been so evaluated. The conclusion drawn from that analysis is that the Regulatory Fairness Act does not apply in any of the three cases. Nonetheless, substantial mitigation for impacts upon small businesses has been provided. These findings are described below.

Revised fee schedule, chapter 90.03 RCW requires that the Department of Ecology establish fees for the

review and approval of plans and specifications for the construction or modification of dams and other controlling works, and for inspection of completed works, equal to the actual cost of such review and approval or inspection. The proposed rule contains a fee schedule, based on the height and crest length of the dam involved, that replaces a similar fee schedule in the existing rule. Direct comparison between the two schedules is difficult, since the new schedule is much more condensed than the old. However, examination of a representative selection of comparable dam sizes indicates that average costs for new dams has risen by an overall average of 24 percent. The overall average increase in fees for modification of existing dams or impoundments ranges from 11 percent (appurtenances and minor elements) to 30 percent (significant capacity enlargement). Average fee increase for the most common size-classes of dams and modifications have risen somewhat more — by an average of approximately 45 percent.

These increases reflect the combined influence of three factors: General inflation in state and local government operating costs since the original fee schedule was developed in 1986 has amounted to some 31 percent alone; engineers (a significant part of program staff) have been granted additional pay increases by the state legislature as a recruitment and retention measure; and program time accounting records for the past six years have been evaluated, and the revised fee schedule more accurately reflects the actual cost of dealing with dams of various sizes.

As a result, the new fee schedule seeks to address to same statutory requirement as did the old, with adjustment for experience and the passage of time.

Program records indicate that applications for new dam construction permits and modifications have averaged some 20 per year in recent years. It is difficult to predict if this same pattern will hold into the future, or what industries applicants will fall into. However, it is most unlikely that — at these levels — more than 10 percent of any one industry will be affected. Mitigation for whatever disproportionate impacts there may be on small businesses includes: Outright exemption of impoundments of less than 10 acre feet of water (equal to a typical reservoir for a small city); lower fees for smaller sized and/or less technically complex classes of dams and impoundments; and either no increase or substantial decreases in the fees for the above as compared with the existing fee schedule.

Beneficiaries of the above are most likely to be small businesses.

Operation and maintenance plans/emergency actions plans — unlike the revised fee schedule, affecting new activity, these requirements will affect virtually all existing dams, or that subset of existing dams falling within the relevant downstream hazard categories. Evaluation of the small business impacts of these elements of the new rule proceeded from the data base of registered dams and impoundments currently maintained by the program.

The records in this data base were analyzed to eliminate dams owned by public agencies and other non-

profit entities, and those to which these rule elements did not apply due either to the impoundment not meeting the 10 acre feet threshold, not being in the appropriate hazard categories, or by virtue of existing operation and maintenance/emergency action plans (under federal regulatory requirements or for other reasons) that would satisfy the requirements of the proposed rule. An effort was made to sort the remaining dams and dam owners into three-digit SIC groupings. (In some cases, this involved a certain amount of judgment since dams would be listed under the ownership of individuals while relevant business-related sources of information would contain business names.)

The results of this effort were compared with information from the Washington State Department of Revenue, the Washington State Department of Employment Security, and the 1987 *Census of Agriculture*. Using reasonable assumptions, it does not appear that either the requirement for operation and maintenance plans or that for emergency action plans will impact more than 10 percent of the businesses in any one industry.

Nonetheless, mitigation for potential effects of these requirements upon small businesses include: Delayed implementation (until 1997 or later); lack of a requirement that a professional engineer prepare these plans, thus making it feasible for dam owners or existing staff to comply at minimal additional cost; and the availability of workshops and published *Dam Safety Guidelines* that will provide both information and "boilerplate" formats for these plans that will further reduce the additional cost to small public and private dam owners.

Hearing Location: On April 14, Grant County Public Utility District Auditorium, 312 West 3rd Street, Moses Lake, 2-5 p.m., question and answer period, 6 p.m. hearing; and on April 17, Attorney General Conference Center, Rowsix Building 1, 4224 6th Avenue S.E., Lacey, 2-5 p.m., question and answer period, 6 p.m. hearing.

## Chapter 173-175 WAC DAM SAFETY

### PART ONE GENERAL

#### NEW SECTION

WAC 173-175-010 PURPOSE AND AUTHORITY. These regulations provide for the comprehensive regulation and supervision of dams in order to reasonably secure safety to life and property pursuant to chapters 43.21A, 43.27A, 86.16, 90.03, 90.28, and 90.54 RCW. The purposes of these regulations are to:

- (1) Designate the types of dams to which these regulations are applicable;
- (2) Provide for the design, construction, operation, maintenance, and supervision of dams in a manner consistent with accepted engineering practice;
- (3) Establish and administer a program for permitting of construction work for new dams and for modifications of existing dams;
- (4) Establish a fee schedule based on dam size that will reflect the actual cost to the department of engineering review of plans and specifications and for construction inspections;
- (5) Establish the requirements and owner responsibilities for developing and executing plans for operation and maintenance, owner inspection and emergency actions; and
- (6) Encourage dam owners to establish a program for the periodic inspection of their projects.

#### NEW SECTION

WAC 173-175-020 APPLICABILITY. (1) These regulations are applicable to dams which can impound a volume of ten acre-feet or more of water as measured at the dam crest elevation. The ten acre-foot threshold applies to dams which can impound water on an intermittent or permanent basis. Only water that can be stored above natural ground level and which could be released by a failure of the dam is considered in assessing the storage volume.

The ten acre-foot threshold applies to any dam which can impound water of any quality, or which contains any substance in combination with sufficient water to exist in a liquid or slurry state at the time of initial containment.

(2) For a dam whose dam height is five feet or less and which meets the conditions of subsection (1) of this section, the department may elect to exempt the dam from these regulations.

The decision by the department to exempt a dam will be made on a case-by-case basis for those dams whose failure is not judged to pose a risk to life and minimal property damage would be expected (downstream hazard class 3).

(3) These regulations do not apply to dams that are, or will be, owned, by an agency of the federal government which has oversight on operation and maintenance and has its own dam safety program for periodic inspection of completed projects. The department will continue to be the state repository for pertinent plans, reports, and other documents related to the safety of federally owned dams.

(4) These regulations do not apply to transportation facilities such as roads, highways, or rail lines which cross watercourses and exist solely for transportation purposes and which are regulated by other governmental agencies.

Those transportation facilities which cross watercourses and which have been, or will be, modified with the intention of impounding water

on an intermittent or permanent basis and which meet the conditions of subsection (1) of this section shall be subject to these regulations.

(5) These regulations do not apply to dikes or levees constructed adjacent to or along a watercourse for protection from natural flooding or for purposes of floodplain management.

(6) These regulations do not apply to concrete or steel water storage tanks used as part of water distribution systems.

#### NEW SECTION

WAC 173-175-030 DEFINITIONS. As used in this chapter: "Acceptance" means acceptance by the department that the proposed plan(s) will satisfactorily address issues associated with proper operation, maintenance, inspection, or emergency action.

"Approval" means approval by the department that the proposed design, and plans and specifications conform to accepted engineering practice and department guidelines.

"Appurtenant works" means such structures as outlet works and associated gates and valves; water conveyance structures such as spillways, channels, fish ladders, tunnels, pipelines, or penstocks; powerhouse sections; and navigation locks, either in the dam or separate therefrom.

"Authorization" means written acknowledgement from the department to proceed with proposed actions.

"Construction change order" means revisions to the department approved plans and specifications that are initiated during construction.

"Construction permit" means the permit which authorizes construction and that the project's plans and specifications and construction inspection plan have been reviewed and approved by the department.

"Construction permit process" means the sequence of activities specified in WAC 173-175-110 inclusive, beginning with the application for construction permit and ending with the submission of a report summarizing construction records.

"Crest length" means the total horizontal distance measured along the axis of the dam, at the elevation of the top of the dam, between abutments or ends of the dam. Where applicable, this includes the spillway, powerhouse sections, and navigation locks, where they form a continuous part of the impounding structure.

"Critical project element" means an element of a project whose failure could result in the uncontrolled release of the reservoir.

"Dam" means any artificial barrier and/or any controlling works, together with appurtenant works that can or does impound or divert water.

"Dam abutment" means that contact location at either end and beneath the flanks of a dam where the artificial barrier joins or faces against the natural earth or rock foundation material upon which the dam is constructed.

"Dam height" means the effective hydraulic height of a dam as measured by the vertical distance from the natural bed of the stream or watercourse at the downstream toe of the impounding barrier to the maximum storage elevation. If the dam is not across a stream or watercourse, the height is measured from the lowest elevation of the outside limit of the impounding barrier to the maximum storage elevation.

"Department" means the department of ecology.

"Design step level" means an integer value between one and ten used to designate increasingly stringent design loadings and conditions for design of critical project elements.

"Downstream hazard classification" means a rating to describe the potential for loss of human life and/or property damage if the dam were to fail and release the reservoir onto downstream areas. Downstream hazard classifications of 3, 2 and 1C, 1B, 1A correspond to low, significant, and high downstream hazard classes respectively.

"Emergency condition" means a situation where life and property are at imminent risk and actions are needed within minutes or hours to initiate corrective actions and/or warn the public.

"Enlargement" means any modification of a project that will result in an increase in normal pool level and/or dam height.

"Exigency condition" means a situation where the impounding structure is significantly underdesigned according to generally accepted engineering standards or is in a deteriorated condition and life and property are clearly at risk. Although present conditions do not pose an imminent threat, if adverse conditions were to occur, the situation could quickly become an emergency.

"FERC licensed project" means a project whose operation is licensed by the Federal Energy Regulatory Commission (FERC).

"Freeboard" means the vertical distance between the dam crest elevation and some reservoir level of interest.

"Hydrograph" means a graphical representation of discharge, stage, or other hydraulic property with respect to time for a particular location on a watercourse.

"Impounding barrier" means the structural element of the dam that has the primary purpose of impounding or diverting water. It may be constructed of natural and/or man-made materials.

"Maintenance" means those tasks generally accepted as routine in keeping the project and appurtenant works in a serviceable condition.

"Maximum storage elevation" means the maximum attainable water surface elevation of the reservoir pool that could occur during extreme operating conditions. This elevation normally corresponds to the crest elevation of the dam.

"Normal pool height" means the vertical distance between the lowest point of the upstream toe of the impounding barrier and the normal storage elevation.

"Normal storage elevation" means the normal maximum operating pool level in a reservoir. Where the principal spillway is ungated, the normal storage elevation is usually established by the level of the spillway crest.

"100-year floodplain" means the area inundated during the passage of a flood with a peak discharge having a one percent chance of being equalled or exceeded in any given year at a specified location on a watercourse.

"Outlet" means a conduit and/or channel structure for the controlled release of the contents normally impounded by a dam and reservoir.

**NEW SECTION**

**WAC 173-175-160 REVIEW STANDARDS.** The department will review engineering design reports, plans, and specifications and the construction inspection plan to ascertain that the proposed project will be designed and constructed in a manner which will reasonably secure safety to life and property.

(1) The department's review is intended to address issues of safety directly related to the structural stability and integrity of the completed project. The review is not intended to extend to more general issues of safety not directly related to the structural stability and integrity of the project which are the purview of other governmental agencies such as the Washington department of labor and industries (L&I), which administers the Washington Industrial Safety and Health Act (WISHA).

(2) In addition to the above, the department will review documents submitted pursuant to this chapter to ascertain that they conform to accepted engineering and construction practice and are in conformance with guidance contained in the department's Dam Safety Guidelines.

(3) Those elements of a document(s) which are found not to be in conformance with the above will be identified to the owner or the project engineer and changes may be required as appropriate to conform to accepted engineering practice.

(4) Where differences of opinion arise on the suitability of certain engineering or construction practices and cannot be readily resolved, the burden of proof will rest on the owner and the project engineer to demonstrate the suitability of the proposed plan or action.

Construction shall not commence until the construction permit has been issued by the department.

Preliminary work such as mobilization of equipment, stripping and grubbing and other site preparation work is allowed prior to receipt of the construction permit, provided no permanent features of the dam are initiated.

(2) Receipt of the construction permit does not relieve the owner of the responsibility to secure all other necessary permits and approvals before proceeding with construction work.

**NEW SECTION**

**WAC 173-175-190 CONSTRUCTION CHANGE ORDERS.**

(1) All dam projects subject to the provisions of this regulation shall be constructed in accordance with the plans and specifications approved by the department. Any proposed changes to the department-approved plans which could have an effect on structural integrity or safe operations of the project must first be presented to the department for a determination if an approval is required.

(2) If the department determines that the proposed construction change order represents a significant modification of the approved plans or specifications that could have an effect on structural integrity or safe operations of the project, then approval of the change order will be required.

The department will review the construction change order and provide a response to the project engineer in a timely manner consistent with the complexity and safety concerns of the situation.

(3) No action can be taken by the owner to implement the construction change order until approval is given by the department.

**NEW SECTION**

**WAC 173-175-200 DEPARTMENT ROLE IN CONSTRUCTION INSPECTION.** (1) It will be the department's role during construction to confirm that the project engineer, as representative for the owner, is properly implementing the department approved construction inspection plan.

(3) Changes may be required by the department to be made to the approved plans and specifications to reasonably secure safety to life and property. Reasons for changes may include, but are not limited to the following:

(a) To address unanticipated field conditions;

(b) To correct omissions or errors in the approved plans and specifications;

(c) To correct situations where the construction work clearly is not being performed in a workmanlike manner and does not, in the opinion of the department, meet the performance intent of the specifications.

(4) Where deemed necessary by the department, a stop work order may be issued to temporarily halt construction until a problem can be resolved.

**NEW SECTION**

**WAC 173-175-210 OPERATION AND MAINTENANCE PLAN.** (1) An operation and maintenance (O&M) plan shall be developed and submitted to the department for review and acceptance.

classes 1A, 1B, 1C, and 2, WAC 173-175-130), an emergency action plan (EAP) shall be developed and submitted to the department for review and acceptance. The purpose of the plan is to establish procedures for responding to unusual or emergency situations and procedures for detecting, evaluating, communicating and initiating notification or warning to individuals who may be at risk in downstream/upstream areas. Requirements associated with EAP's are listed in WAC 173-175-520.

The department may issue an acceptance after determining the EAP is substantially complete.

(b) The proposed O&M plan is acceptable to the department;

(c) The proposed emergency action plan, if required (see WAC 173-175-220), is acceptable to the department.

(2) If the above conditions are not met, the owner shall not commence or resume normal operation of the project until all outstanding issues or problems are resolved. When issues are not resolved in a timely manner, the department may:

(a) Order the outlet works to remain fully open and not allow filling of the reservoir;

(b) Restrict reservoir water levels or reservoir operation;

(c) Order the breaching of the impounding barrier;

(d) Take other measures as appropriate to reasonably secure safety to life and property.

#### NEW SECTION

WAC 173-175-250 **CONSTRUCTION RECORDS SUMMARY.** Within one hundred twenty days following completion of construction or modification of a dam, the project engineer shall submit a report to the department on construction activities which includes:

(1) A summary of results from testing of all materials, procedures, completed project elements, etc. The summary shall identify both representative values and the range of test values;

(2) A discussion of any notable items encountered during construction;

(3) One set of drawings describing the as-built condition for those elements of the project which were constructed in a manner other than that shown on the construction plans approved by the department.

#### NEW SECTION

WAC 173-175-260 **EXCEPTIONS TO CONSTRUCTION PERMIT PROCESS.** If the department determines that emergency or exigency conditions exist at a dam and that it is in the best interests of public safety to expedite the construction or modification of a dam, the department may elect to temporarily suspend the normal construction permit process. To allow this exception, the department will issue a written conditional construction permit, which:

(1) May initially be oral;

(2) Will specify the construction activities to be allowed;

(3) May be terminated at a time deemed appropriate by the department;

(4) Shall incorporate, to the extent possible, and not inconsistent with the situation, all applicable requirements of this chapter.

#### NEW SECTION

WAC 173-175-270 **DEPARTMENT REVIEW RESPONSE TIME.** In reviewing the various documents required in the construction permit process, the department shall respond in a timely manner to the owner or project engineer with written review comments, approval, or acceptance as appropriate.

If the department response is anticipated to occur sixty days or more beyond the date of receipt of the document(s), the department shall notify the owner and/or project engineer in writing and advise them of the expected response date.

### PART THREE CONSTRUCTION PERMIT FEES

#### NEW SECTION

WAC 173-175-350 **AUTHORITY FOR CONSTRUCTION PERMIT FEES.** It is required by RCW 90.03.470(9) that fees be collected by the department for the examination of plans and specifications. The fee shall be a minimum of ten dollars or the actual cost. In addition, the department is required by RCW 43.21A.064(2) to inspect the construction of all dams. It is required by RCW 90.03.470(8) that fees be collected for the actual cost to the department for inspection including the expense incident thereto.

#### NEW SECTION

WAC 173-175-360 **CONSTRUCTION PERMIT FEES FOR NEW PROJECT CONSTRUCTION.** Fees for the review of plans and specifications and for construction inspection for new project construction shall be the amounts shown in Table 4 as determined by the nearest values of dam height and crest length, in feet, which correspond to the project's planned dam height and crest length.

#### NEW SECTION

WAC 173-175-370 **CONSTRUCTION PERMIT FEES FOR MODIFICATIONS OF EXISTING DAMS.** (1) Fees for the review of plans and specifications and for construction inspections for project modifications involving significant enlargements shall be the greater of five hundred dollars or the amount determined by those applicable percentages shown in Table 5A of the fees in Table 4. The appropriate Table 4 fee amount is to be determined using the nearest values of dam height and crest length, in feet, which correspond to the overall dimensions of the modified dam.

NEW SECTION

WAC 173-175-400 COST OF EXPERT OPINION. In resolving differences of opinion on engineering issues between the department and project engineer or owner, it may be necessary for the department to employ an expert in dam design, analysis or construction.

(1) The expert which is chosen, the assigned tasks, and the estimated cost for the expert's services shall be determined by negotiation between the owner and the department.

(2) The cost associated with employing the expert shall be charged to the owner of the proposed or existing project.

NEW SECTION

WAC 173-175-500 OPERATION AND MAINTENANCE. (1) The owner shall develop and maintain a current operation and maintenance (O&M) manual.

The manual shall describe procedures for operation of the project under normal and extreme reservoir inflow conditions and provide technical guidance and procedures for monitoring, inspection, and long-term maintenance. Information on the development of the O&M manual is contained in the department's Dam Safety Guidelines. The O&M manual shall include, as a minimum, the following items:

(a) Identification of the individual(s) responsible for implementing the plan;

(b) A project data sheet describing the pertinent features of the dam and reservoir, including the spillway(s), outlet works, and appurtenant structures and their locations at the dam site;

(c) The rules and procedures (rule curve) used to regulate reservoir levels and project operation for various reservoir inflows and for both normal and unusual seasonal conditions;

(d) A description of each hydraulic element used to regulate or release water, including information on proper operation and scheduled maintenance;

(e) A listing of the items requiring periodic monitoring, the frequency of monitoring and procedures for monitoring, measurement, and recordkeeping;

(f) A listing of the items requiring periodic maintenance and procedures for conducting and documenting maintenance and recording of problems;

(g) A listing of items to be inspected or test operated, the frequency and procedures for conducting the same and for documenting the findings.

(2) It shall be the duty and responsibility of the owner or the owner's designated agent(s) to, at all times, operate and maintain the dam and all appurtenant works in a safe manner and condition and follow the method and schedule of operation of the dam as outlined in the O&M manual.

(3) For dams constructed before July 1, 1992, owners are required to develop an O&M manual by December 31, 1997.

In those cases where a failure of the dam could pose a threat to life (downstream hazard classes 1A, 1B, 1C, and 2), the O&M manual shall be submitted to the department for review and acceptance.

(4) Any proposed changes to the O&M manual which could have an effect on public or project safety must be submitted to the department for review and acceptance before implementation.

**WAC 173-175-510 PERIODIC INSPECTION.** (1) Owners are required to evaluate the safety of their dam(s) and all appurtenant works and to make modifications, as become necessary, to reasonably secure safety to life and property. To accomplish this, owners are:

(a) Required to conduct annual surficial inspections and to maintain records of their findings, including records of actions taken to correct problem conditions. Copies of such records shall be provided to the department upon request.

The annual surficial inspections may be conducted by the owner or by agent(s) designated by the owner.

(b) Encouraged to implement a program for the periodic inspection of their project(s) on a five-year frequency to be conducted by a professional engineer.

(c) Required to notify the department when periodic inspections are scheduled to allow department engineers to participate in the inspection.

(d) Required to submit a copy of the engineering report(s) and other documents which contain the findings, conclusions, and recommendations resulting from the periodic inspection within thirty days following the completion of the various documents.

(2) In order to correct safety deficiencies and exigency conditions, owners are required to take actions and make modifications as prescribed by the department to preserve the structural stability and integrity of the project and attain levels of safety in accordance with accepted engineering practice.

(3) The department may elect to conduct periodic inspections of particular projects to reasonably secure safety to life and property.

(a) The department will give at least thirty days advance notice of the date of the periodic inspection and advise the owner of any requirements such as gates or valves that are to be operated during the inspection.

(b) Owners are required to develop an Operation and maintenance manual (WAC 173-175-500) and an Emergency action plan (WAC 173-175-520) within one hundred eighty days following completion of a periodic inspection conducted by the department.

**NEW SECTION**

**WAC 173-175-520 EMERGENCY ACTION.** (1) In those cases where a failure of the dam could pose a threat to life (downstream hazard classes 1A, 1B, 1C, and 2), the owner shall develop and maintain an emergency action plan (EAP) acceptable to the department.

(a) The EAP shall describe procedures for responding to unusual or emergency situations and procedures for detecting, evaluating, communicating, and initiating notification or warning of individuals who may be at risk in downstream and upstream areas. Information on the development of an EAP is contained within the department's Dam Safety Guidelines.

(b) It shall be the duty and responsibility of the owner to implement the EAP when conditions warrant and to follow the method and schedule contained within the EAP.

(c) For dams constructed before July 1, 1992, owners are required to develop an EAP and to submit it to the department for review and acceptance by December 31, 1997.

(i) Owners are required to coordinate the development of the EAP with representatives from the local emergency services staff, state department of community development, emergency management division, and appropriate local authorities.

(ii) Copies of the completed EAP must be provided to the state emergency management division, local emergency services office, and to the department.

(2) Any proposed changes to the EAP which could have an affect on public or project safety must be submitted to the department for review and acceptance before implementation.

(3) Owners are required to exercise components of the EAP as needed to confirm the viability of the plan.

(4) The department will coordinate and solicit review comments from the local emergency services office and the state emergency management division on the acceptability of proposed EAPs. Those comments will constitute the primary basis for accepting or rejecting a proposed EAP.

(5) Owners are required to notify the department when incidents occur or when problems or conditions arise which may pose a threat to life or property or a threat to the integrity of the dam.

(a) The owner shall report by telephone to the department on any condition affecting the safety of the project or when an incident has

occurred. The initial oral report must be made as soon as practicable after the condition is discovered or following any incident.

(b) A written report shall be submitted to the department within thirty days following the discovery of the condition or after the incident. The report shall describe the condition affecting the safety of the project or the incident which has occurred and shall describe the preliminary plans for correcting the condition and for preventing the recurrence of a similar incident.

**PART FIVE  
COMPLIANCE AND ENFORCEMENT****NEW SECTION**

**WAC 173-175-600 RIGHT OF ENTRY.** The department or its duly appointed agent(s) shall have the right to enter at all reasonable times in or upon property, public or private, for the purpose of inspecting and investigating conditions relating to the construction, operation, maintenance or performance of dams. The department shall comply with the owner's reasonable rules for access to the project.

**NEW SECTION**

**WAC 173-175-610 EMERGENCIES.** (1) When, in the opinion of the department, an emergency condition exists which poses an imminent threat to life, the department may take such action as necessary to eliminate or mitigate the hazard and potential consequences. The dam owner or the owner's agent(s) may be directed to take actions, or the department may take control of the project and take actions including, but not limited to:

- (a) Altering the operation of the project;
- (b) Lowering the reservoir water level;
- (c) Draining the reservoir;
- (d) Making emergency repairs or alterations to the project;
- (e) Enlisting the services of federal, state, or local authorities to make emergency repairs or alterations to the project;
- (f) Breaching the dam.

(2) All costs incurred by the department as a result of taking control of the project will be charged to the owner.

**NEW SECTION**

**WAC 173-175-620 ENFORCEMENT.** (1) In enforcement of this chapter, the department may impose such sanctions as appropriate under authorities vested in it, including but not limited to, the issuance of regulatory orders under RCW 43.27A.190 and civil penalties under RCW 90.03.600.

(2) Any dam which is found to be under construction or recently constructed without prior approval of the plans and specifications is in violation of RCW 90.03.350 and will be presumed to be a public nuisance. The owner will not be allowed to fill the reservoir or continue to operate the reservoir until the structural integrity and safety of the facility can be demonstrated to the satisfaction of the department. In addition:

(a) Regulatory orders may be issued to enforce the restriction of reservoir filling and fines may be levied at one hundred dollars per day up to an amount equal to one hundred fifty percent of the amount the owner would have been charged under the construction permit fee schedule listed in this chapter;

(b) Owners are required to submit as-built drawings and all available documentation describing the manner in which the dam or portion thereof was constructed;

(c) If the structural integrity and safety of a dam project cannot be demonstrated or confirmed to the satisfaction of the department, the owner shall not commence or resume normal operation of the project until all outstanding issues or problems are resolved to the satisfaction of the department. To accomplish the above, the department may:

- (i) Order the outlet works to remain fully open and not allow filling of the reservoir;
- (ii) Restrict reservoir water levels or reservoir operation;
- (iii) Order the breaching of the impounding barrier;
- (iv) Take other measures as appropriate to reasonably assure safety to life and property.

(d) If, in the opinion of the department, the owner is unwilling or incapable of resolving the outstanding safety issues in a timely manner, the department may take action to have the dam abated as prescribed by law under RCW 90.03.350.

**PROPOSED RULES**  
**DEPARTMENT OF FISHERIES**  
 [Filed March 4, 1992, 11:52 a.m.]

## Original Notice.

Title of Rule: Commercial fishing rules.

Purpose: Amend marine fish harvest rules.

Statutory Authority for Adoption: RCW 75.08.080.

Statute Being Implemented: RCW 75.08.080.

Summary: Sets upper size limit on Puget Sound lingcod and changes catch areas and seasons; eliminates bottomfish troll and commercial jig from waters inside the mouth of the Sekiu River.

Reasons Supporting Proposal: Lingcod populations in Puget Sound need protection. Reduction of permissible gear types eliminates gear that targets lingcod and rockfish.

Name of Agency Personnel Responsible for Drafting: Evan Jacoby, Mailstop AX-11, Olympia, 586-2429; Implementation: Judith Freeman, Mailstop AX-11, Olympia, 753-6749; and Enforcement: Dayna Matthews, Mailstop AX-11, Olympia, 753-6585.

Name of Proponent: Washington State Department of Fisheries, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: Lingcod protection measures in WAC 220-48-005 are intended to reduce the commercial catch of lingcod, as catch records show a decline. The upper size limit protects broodstock fish, and the later season protects nest-guarding male lingcod. Beam trawl changes provide for a potential pollock fishery and correct the designations of sections affected. Gear restrictions in WAC 220-48-042 and 220-48-052 eliminate the gear types most likely to take lingcod and rockfish from inside waters.

Proposal Changes the Following Existing Rules: See above.

No small business economic impact statement is required for this proposal by chapter 19.85 RCW.

These proposals do not affect 20% of all industries or 10% of the industries in any one three-digit industrial classification.

Hearing Location: Conference Room, Building 9, 7600 Sand Point Way N.E., Seattle, WA, on April 7, 1992, at 10:00 a.m.

Submit Written Comments to: Hearings Officer, 115 General Administration Building, Olympia, WA 98502, by April 6, 1992.

Date of Intended Adoption: April 14, 1992.

THE WASHINGTON STATE REGISTER, published pursuant to RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards which have been filed in the code reviser's office prior to the pertinent closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper volume of the Register.

The code reviser's office has established an annual subscription price of \$150 for the Register, and single copies will cost \$7. Sales tax of 7.9% now applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$161.85 (\$150 for state agencies) payable to the code reviser's office.
