STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

The Register is arranged in the following six sections:

- (a) **PREPROPOSAL**-includes the Preproposal Statement of Intent that will be used to solicit public comments on a general area of proposed rule making before the agency files a formal notice.
- (b) **PROPOSED**-includes the full text of formal proposals, continuances, supplemental notices, and withdrawals.
- (c) **PERMANENT**-includes the full text of permanently adopted rules.
- (d) **EMERGENCY**-includes the full text of emergency rules and rescissions.
- (e) **MISCELLANEOUS**-includes notice of public meetings of state agencies, rules coordinator notifications, summaries of attorney general opinions, executive orders and emergency declarations of the governor, rules of the state Supreme Court, and other miscellaneous documents filed with the code reviser's office under RCW 34.08.020 and 42.30.075.

Documents are arranged within each section of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence with a section's material.

2. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.05.395 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

Material contained in the Register other than rule-making actions taken under the APA (chapter 34.05 RCW) does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

4. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules normally take effect thirty-one days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed or advanced and such an effective date will be noted in the promulgation statement preceding the text of the rule.

- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

5. EDITORIAL CORRECTIONS

PREPROPOSAL STATEMENT OF INTENT
LIQUOR CONTROL BOARD
 [Filed November 29, 1994, 8:05 a.m.]

Specific Statutory Authority for New Rule: RCW 66.08.030.

Reasons Why the New Rule is Needed: The board intends on reviewing existing rules pertaining to determining whether a business is "substantially maintained" as a restaurant in regard to applying for and retaining a class H license. Previous meetings with licensees indicated the existing references to space requirements and food-liquor ratio need to be reviewed with several recommendations to eliminate restrictions which are no longer necessary for such determinations.

Goals of New Rule: Streamline existing regulations and bring them into line with existing practices. Reduce unnecessary regulations.

Process for Developing New Rule: Meetings with industry licensees and the board to develop requirements that are concise and easy to understand. Input from various licensees has already been obtained from earlier meetings, correspondence with the agency, etc. Continued requests for updating existing regulations by associations.

How Interested Parties can Participate in Formulation of the New Rule: Submit recommendations to Gary Gilbert, Chief of Enforcement, Washington State Liquor Board, 1025 East Union, Olympia, WA 98504, (206) 586-3052, FAX (206) 664-0501, due by December 27, 1994.

Subject of Possible Rule Making: WAC 388-507-0710 AFDC related medical income standards, 388-513-1350 Institutional—Available resources, and 388-513-1380 Institutional—Participation.

Specific Statutory Authority for New Rule: RCW 74.08.090.

Reasons Why the New Rule is Needed: Federal income standards change effective January 1, 1995.

Goals of New Rule: Comply with federal income standards concerning medically needy income level (MNIL), the community spouse resource standard, and the monthly maintenance needs standard.

Process for Developing New Rule: Internal and external review process. Draft material is distributed for review and comment. All comments are taken into consideration before issuance of final rule.

How Interested Parties can Participate in Formulation of the New Rule: Joanie Scotson, Program Manager, P.O. Box

PREPROPOSAL STATEMENT OF INTENT
LIQUOR CONTROL BOARD
 [Filed November 30, 1994, 1:27 p.m.]

Specific Statutory Authority for New Rule: RCW 66.08.030.

Reasons Why the New Rule is Needed: The board has been asked by some distributors to permit the additional costs for ferry passage, in transit costs for drivers and delivery persons to be added to the cost of beer and wine products delivered to San Juan County. The board intends to gather information about this proposal in order to formulate changes to WAC 314-20-100 and 314-24-190.

Goals of New Rule: Permit distributors to have prices which include added costs of transportation and time for beer and wine deliveries to San Juan County. Current regulations require distributors to sell product at the same price to all retailers they serve. The higher costs for transportation and commute time are harmful to distributors providing service to San Juan County who also provide service to other counties in the area.

Process for Developing New Rule: Input from industry via meetings and letters pertaining to allowing price differentials due to transportation and delivery costs because of necessity of taking ferry to locations on islands within San Juan County.

How Interested Parties can Participate in Formulation of the New Rule: Interested persons should submit material, thoughts, comments in writing to David Goyette, Assistant Director, Regulatory Services, Washington State Liquor Control Board, P.O. Box 43094, Olympia, 98504-3094, FAX (206) 586-0870, phone (206) 753-2724. Submissions should be made by December 27, 1994.

PREPROPOSAL STATEMENT OF INTENT
LIQUOR CONTROL BOARD
 [Filed November 30, 1994, 1:29 p.m.]

Specific Statutory Authority for New Rule: RCW 66.08.030.

Reasons Why the New Rule is Needed: The 1994 legislature allowed breweries and wineries to apply for and be issued retail licenses to sell products not of their own manufacture. Several retailers have asked the board to allow them to acquire manufacturer's licenses to make product on their own premises. The board cannot issue a manufacturer's license to a retailer. The rule would allow for a retailer to surrender the retail license and discontinue such activities for a period of ten days before a

manufacturer's license could be issued allowing the other activity.

Goals of New Rule: Facilitate an orderly migration from being strictly a retailer to having either a brewery or winery on the retail premises as allowed under RCW 66.28.010 for manufacturers. The rule would end the practice of a retailer going out of business for an indefinite period of time in order to obtain a manufacturer's license with retail privileges.

Process for Developing New Rule: Meetings with industry groups, input from interested persons at previous meetings indicated this was something which needed to be considered. These meetings will continue to solicit information in order to formulate a rule which will allow for the activity to occur without creating great hardships on private business.

How Interested Parties can Participate in Formulation of the New Rule: Written materials are to be submitted to David Goyette, Assistant Director, Regulatory Services, P.O. Box 43094, Olympia, 98504-3094, by December 27, 1994, FAX (206) 586-0870, phone (206) 753-2724.

PREPROPOSAL STATEMENT OF INTENT LIQUOR CONTROL BOARD

[Filed November 30, 1994, 1:30 p.m.]

Specific Statutory Authority for New Rule: RCW 66.08.030.

Reasons Why the New Rule is Needed: It is the board's intention to repeal WAC 314-16-111 which set forth a handling fee for split case orders from class H licensees. Following a series of meetings with industry, it has been determined industry will work with the board to reduce problems by better planning the order of liquor supplies from the board, thus reducing the necessity of as many split case orders as has been found prior to the rule's original adoption.

Goals of New Rule: The board intends to repeal the existing rule based upon numerous meetings with industry that have resulted in better methods for decreasing split case orders which are cause for additional workloads by board stores' personnel. The repeal of the rule will remove a cost per bottle fee on class H licensees.

Process for Developing New Rule: Negotiated rule making; and through a series of meetings with industry, the board believes the split case handling fee can be repealed and still accomplish the objective of fewer calls by licensees for split case orders. Industry input, recommendations and continued meetings will be used for this purpose.

How Interested Parties can Participate in Formulation of the New Rule: Letters with comments may be directed to Board Member Jack Rabourn, P.O. Box 43076, Olympia, WA 98504-3076, by December 27, 1994, FAX (206) 664-9689, phone (206) 753-6265.

AMENDATORY SECTION (Amending WSR 90-21-118, filed 10/22/90, effective 11/22/90)

WAC 296-04-001 Foreword. The Washington State Apprenticeship and Training Act, RCW 49.04.010 - 49.04.910, establishes the council and its administrative arm, the apprenticeship and training division of the department of labor and industries. The intention of the council and department in promulgating and adopting these rules is to establish a uniform procedure to be followed by state and local apprenticeship and training committees in presenting matters to the state apprenticeship and training council and further to establish standards by which the council can operate to effectuate its statutory obligations set forth in the apprenticeship act.

The Washington state apprenticeship and training council recognizes the importance of quality apprenticeship programs to meet the growing needs of employers and employees for high quality training. The council also recognizes that rapid changes in our state's economy and technological change necessitates skilled workers who meet industry-wide standards in order to compete successfully in the changing marketplace. Employers will benefit by knowing that skilled workers who have graduated from a state recognized apprenticeship program have been trained to industry-wide standards and not exclusively in response to the needs of an individual employer or group of employers.

The council also recognizes that the delivery and regulation of apprenticeship programs should be conducted in a manner which avoids needless duplication on the part of the department of labor and industries, community colleges, and vocational-technical institutes. It is important that approved apprenticeship programs be structured to maximize the protection of the apprentice by providing a meaningful process which allows the apprentice to ensure that his or her rights as an apprentice are protected throughout the term of the apprenticeship.

The council further recognizes that the number of apprentices in a trade or group of trades in any geographic area must be sufficient to meet the needs of all employers and not be so large as to create an oversupply of apprentices. Because quality apprenticeship training requires reasonably continuous on-the-job training, an oversupply of apprentices in any geographic area is to be avoided, if possible, in an effort to maintain ongoing quality training.

The council further recognizes that the attainment of quality apprenticeship training and the planning of numbers of new apprentices in a trade or group of trades will be accomplished best by the establishment of one joint appren-

ticeship and training committee serving the entire trade or group of trades in a specified geographic area. A single committee is best able to train to industry-wide standards which will enable workers to move between firms when economic necessity requires. A single committee is best able to determine the number of apprentices needed in an entire trade or group of trades in a specified geographic area.

The council also recognizes the benefit apprentices gain in having the widest range of employers and their apprentices represented in the related and supplemental training classes. The intermingling of apprentices representing the widest array of firms possible, in related and supplemental training classes, exposes apprentices to the widest possible range of work experiences. This sharing of work experiences increases the quality of training, benefiting both apprentices and employers.

The council intends that apprenticeship programs be available to meet the training needs of all employers in the state of Washington. These programs are open to all employers on an equal and nondiscriminatory basis. The need for continued quality training, equal treatment of apprentices, and efficient delivery of training suggest that these training needs are best met through existing programs.

As provided in WAC 296-04-160, committees approved by the council shall offer training opportunities on an equal basis to all employers. Existing committees are expected to provide apprenticeship and training opportunities for employers not currently participating in the program:

(1) At a reasonable cost that is equivalent to the cost incurred by employers and apprentices currently participating;

(2) With equal treatment and opportunity for all apprentices; and

(3) With reasonable working and training conditions that apply to all apprentices uniformly and equally;

(4) An employer shall not be required to sign a collective bargaining agreement in order to participate in an apprenticeship program.

(5) All employers requesting "approved training agent" status shall sign an agreement agreeing to comply with all federal or state apprenticeship rules and the appropriate apprenticeship standards. When the sponsor approves the "approved training agent" agreement, he/she shall furnish the department with a copy and shall notify the department when any agreement is rescinded.

All policies and rules of the council are designed to strengthen apprenticeship and training in the state of Washington, as well as to explain related factors established under existing state and federal laws. The council, as the responsible legislative organ governing apprenticeship and training, requests the cooperation and assistance of all interested persons, organizations, and agencies functioning within the framework of the rules and regulations.

AMENDATORY SECTION (Amending Order 85-31, filed 11/1/85)

WAC 296-04-005 Apprenticeship and training agreements—Proposed standards. The Washington state apprenticeship and training council is the body responsible for matters concerning apprenticeship and training in the state of Washington. The principal function of the council

is to approve and register apprenticeship and training agreements. Persons or organizations desiring to institute an apprenticeship or training program must first create a committee and submit affidavits to the Washington state apprenticeship and training council requesting that the council recognize the committee. The committee must then prepare proposed standards which conform to these rules and to RCW 49.04.050. The standards must also include the composition of and general rules for the committee which will administer the program. The supervisor, or Washington state apprenticeship coordinators, are available to give assistance in this task.

These standards, which will be either a plant program or committee program as defined herein, must then be presented to the supervisor at least 45 days before the regular meeting at which the council will be requested to consider such proposed standards. The standards proposed will then be discussed by the council and approved, disapproved, or approved subject to enumerated changes. The council, at its meetings, will allow changes made for clerical errors and additions of standard approved language deleted from the proposed standard if authorized representatives of all concerned are present and authorized to accept changes. The council will not accept changes at its meetings in the format or language not deemed standard by the council.

The committee thus set up then begins functioning. Its duties are to run the day to day operations of the apprenticeship and training program. It is charged with operating the program in accordance with the standards as approved by the council. It is charged with accepting or rejecting applicants for apprenticeship or training, registering accepted applicants as apprentices or trainees with the supervisor of apprenticeship and training, removing apprentices or trainees from the program in accordance with the standards and informing the supervisor of any matters which affect the standing of individuals as apprentices or trainees. Persons not registered with the supervisor as apprentices or trainees cannot be recognized as apprentices or trainees by the council.

The supervisor and his staff may be consulted on any matters concerning apprenticeship and training, and they will provide any information concerning apprenticeship training which is available to them. They are also required to investigate any discrepancies between the actual and required operation of any program and conduct systematic reviews of the operation of all programs. The supervisor may recommend cancellation of any program which is not operated in accordance with its approved standards after notice of violation is given in accordance with the provisions of WAC 296-04-270(3).

The supervisor and the council will act to assist in the resolution of any complaints against local committees, or other organizations administering apprenticeship agreements, by any apprentices who have completed their probationary period, as provided in WAC 296-04-295.

WAC 296-04-040 Council meetings—When held—Notice—Who may attend—Quorum. Council meetings shall be of two kinds—regular and special meetings.

(1) **Regular meetings.** Regular meetings of the council shall be held at least quarterly during each year beginning on the third Thursday of the months of January, April, July and October. Such regular meetings shall be held at such locations within the state of Washington which in the opinion of the council will best promote the purposes of the Washington State Apprenticeship and Training Act. All meetings of the council shall be open to the general public, and all actions, transaction of official business of the council, collective decision, commitment or promise, and all collective discussion, acquisition and exchange of facts in the course of deliberation prior to any action of the council shall only be made in meetings open to the public consistent with the provisions of the Open Public Meetings Act of 1971 (chapter 250, Laws of 1971 1st ex. sess.) and chapter 34.05 RCW. No member of the general public will be required as a condition upon attending any council meeting to register his name or give any other information or to fulfill any condition precedent to his attendance at council meetings. Notice of such meetings shall be given to all approved committees and may be given to any persons, organizations, or agencies at the direction of the council, or any member thereof, and in addition shall be given to any newspaper, news service, television or radio station which has requested to be notified of council meetings. Committee programs, plant programs, or amendments thereto, may be approved or disapproved only at regular meetings.

(2) **Special meetings.** Special meetings of the council may be called by the chairman or by majority of the council members by delivering personally or by mail written notice to each member of the council and all approved (~~joint~~) apprenticeship and training committees and to each newspaper of general circulation, television or radio station which has on file with the council or the supervisor a request to be notified of such special meeting of the council, which shall be ineffective unless it sets forth the date, time and location of the meeting and specifies the business to be transacted by the council at such special meeting. Final disposition may not be made of any matter at such special meeting other than specified in the notice of such special meeting. Special

meetings shall be open to the general public to the same extent as the quarterly regular meetings of the council. Notice of special meetings must be delivered personally or by mail at least twenty-four hours before the time specified in the notice of such special meeting, except in the case of rule changes pursuant to chapter 34.05 RCW which must be at least twenty days before the time specified in the notice.

(3) **Notice of council meetings.** Notice of each quarterly regular meeting of the council shall be given to all council members by the supervisor at least twenty days before the date set for the meeting and in addition shall give notice to such other persons and organizations as specified in subsection (1) of this section.

(4) **Notice of special meetings of the apprenticeship council.** Notice of special meetings of the council may be given by the supervisor at the request of the chairman or the majority of the members of the council in the manner and form specified in subsection (2) of this section. If such notices are not given, no action taken by the council shall be effective at such meetings unless each regular council member at such meeting, or prior thereto, gives a written waiver of notice of such meeting to be filed by the supervisor and the notice shall be deemed to be waived by any member who is present at the meeting at the time it convenes. *Provided*, That rule change may not be made at such special meeting unless the requirements of chapter 34.05 RCW have been complied with.

(5) **Submission of petitions or requests.** The council will not act upon any petition or request which is addressed to the council unless such a petition or request is submitted in writing to the supervisor at least forty-five days prior to the date of such quarterly regular meeting, and any petitions or requests not submitted forty-five days prior to such quarterly meeting shall be deferred to the next quarterly regular meeting of the council and the petitioner shall be so notified by the supervisor.

(6) Correspondence other than that referenced in WAC 296-04-005 and 296-04-040 (1), (2) and (5), shall be submitted in writing to the supervisor of apprenticeship at least fifteen working days before the quarterly meeting at which the council's consideration is requested. However, the supervisor of apprenticeship may consider such correspondence submitted less than fifteen working days before the meeting if the council determines the correspondence is crucial to deliberations regarding approval or disapproval of any given apprenticeship agreement. Noncrucial correspondence submitted less than fifteen working days before the quarterly meeting shall be considered by the council at the following quarterly meeting.

(7) **Quorum.** Two-thirds of the council members entitled to vote shall be considered a quorum.

AMENDATORY SECTION (Amending WSR 90-21-118, filed 10/22/90, effective 11/22/90)

WAC 296-04-160 Apprenticeship committees. (1) Apprenticeship committees shall be appointed in accordance with the provisions of RCW 49.04.040. Such committees shall have the duties prescribed by statute, these rules and the approved standards under which they operate. Committees shall function, administrate or relinquish authority only with the consent of the council. On any petition addressed

to the council or the supervisor, only the signature of the elected chairman and secretary of the committee shall be accepted unless the apprenticeship committee has petitioned the council to recognize and accept the signature of another person. Such a petition must be signed by a quorum of the members of the petitioning apprenticeship committee.

(2) Committees approved by the council shall offer training opportunities on an equal basis to all employers and apprentices including all rights, appeals, and services available in the existing apprenticeship program. If an existing committee refuses to provide access to apprenticeship and training opportunities to all employers, the council shall take action as necessary to remove all restrictions to access. Council action may include, but is not limited to, the decertification of the existing committee and recognition of a new committee in order to carry out the intent of chapter 49.04 RCW and the rules adopted under its authority.

(3) Apprenticeship committees shall be composed of no less than four members nor shall the committee be composed of more than ten members.

(4) It is the council's view that (~~joint~~) apprenticeship and training committees are not state agencies but rather only quasi-public entities performing services jointly for management and labor by assistance to the apprenticeship program.

Where no such participation is evidenced and practiced, the employer or employers' association shall simultaneously furnish to the union, if any, which is the collective bargaining agent of the employees to be trained, a copy of its application for registration and of the apprenticeship program. The registration agency shall provide a reasonable time period of not less than 30 days nor more than 60 days for receipt of union comments, if any, before final action on the application for registration and/or approval.

~~((2) Where the employees to be trained have no collective bargaining agent, an apprenticeship program may be proposed for registration by an employer or group of employers:))~~

(g) Nonjoint and waived committees shall be composed of representatives of which fifty percent shall by reason of education and experience be occupationally qualified in the specific occupation specified in the standards for which the committee is responsible.

(h) The council shall only recognize nonjoint and waived standards for a specific occupation or directly related occupations. When multiple related occupations are approved on a single standard, each occupation shall be considered as an individual standard. Unrelated occupations shall be submitted under separate standards.

(2) Apprenticeship agreements shall conform to the following standards:

(a) Committee programs, plant programs, and on-the-job training programs must contain the provisions required by RCW 49.04.050 and, in addition, shall contain:

(i) Provision for nondiscrimination in the selection of apprentices in substantially the following form:

Each sponsor of an apprenticeship program shall include in its standards the following equal opportunity pledge: "The recruitment, selection, employment and training of apprentices during their apprenticeship shall be without discrimination because of race, color, religion, national origin, or sex. The sponsor will take affirmative action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required by the rules of the Washington state apprenticeship and training council and Title 29, Part 30 of the Code of Federal Regulations."

(ii) Provision that there shall be no discrimination on the basis of race, color, creed, sex, or national origin after selection during all phases of employment during apprenticeship.

(iii) Provision that adequate records of the selection process must be kept for a period of at least five years and will be made available to the council or its designated representative on request. Such records must include a brief summary of any interviews and the conclusions reached on each of the specific factors which are part of the total judgment concerning each applicant.

(iv) Provision for local committee rules and regulations consistent with these rules and the applicable apprenticeship agreement.

(b) Any proposed standards for apprenticeship must be consistent with any standards for apprenticeship already approved by the council for the industry, craft or trade in question to the end that there is general statewide uniformity of such standards in each industry, trade or craft. Proposed standards shall be considered consistent if they are equal to or exceed the average number of hours and do not exceed the maximum number of hours for such trade, craft, or occupation within this state. In addition, the course content and delivery method are similar to the extent that they are designed to achieve the same levels of skills as existing standards within the state for that industry, trade, or craft.

(c) Shall contain a statement of the progressively increasing scale of wages based on specified percentages of a specific wage which shall be submitted to the council and updated no less than annually.

(d) A sample apprenticeship agreement which the council approves is available on request from the supervisor.

(3) Registration, review, cancellation, reregistration.

(a) All individual agreements shall be registered with the supervisor and subject to his approval.

(b) The supervisor and his staff, in the performance of their field work, shall conduct a systematic review of all plant and committee programs and shall take appropriate action, including recommendation of cancellation, when they find that any program is not being operated according to these rules and regulations or according to its applicable standards.

(c) When any program is found to be operating in a manner inconsistent with or contrary to these rules and regulations or its established plant or committee program, the supervisor shall notify the offending committee, person, firm or agency of the violation. If the supervisor does not receive notice, within 60 days, of action taken to correct such violations, the supervisor may take whatever action he deems necessary, including recommendation of cancellation of the apprenticeship or training program and agreement to the council.

(d) If the supervisor deems it necessary to recommend cancellation of an apprenticeship or training program, he shall do so in writing to each council member, stating in detail the reasons for his recommendation. A copy of said recommendation shall be mailed to the last known address of each member of the committee administering said program, or to those persons responsible for said program, together with notice that the council shall consider the recommendation at its next regularly scheduled meeting more than 30 days subsequent to the date of the recommen-

ation and that all interested persons may present evidence or testimony regarding said recommendation. The council shall decide the question before it upon majority vote of the members present and voting and shall notify all interested parties of its decision, together with the reasons for it, in writing.

(e) The cancellation of any program or agreement shall automatically effect a cancellation of any agreement registered thereunder, provided that any organization or firm not responsible for the violations causing the cancellation may petition the council for approval of such cancelled agreement or program as a new program.

(f) Certificates of completion shall be issued at the request of the appropriate committee. An affidavit of the secretary, chair, or authorized official of the committee concerned shall accompany the request, which affidavit shall state that the apprentice has successfully completed the apprenticeship program of that committee, and that he has been an active, registered participant of that committee's program for at least six months.

The ~~((department))~~ United States Department of Labor shall make its determination on the basis of the record. The ~~((department))~~ United States Department of Labor may grant the state program sponsor, the state apprenticeship and training

council, and the complainant, if any, the opportunity to present oral or written argument.

(5) **Withdrawal of recognition.** Whenever the United States Department of Labor determines that reasonable cause exists to believe that the council has not adopted or implemented a plan in accordance with the equal opportunity requirements of Title 29, Part 30 of the Code of Federal Regulations, it shall give notice to the council and to appropriate state sponsors of this determination, stating specifically wherein the state's plan failed to meet such requirements and the United States Department of Labor proposes to withdraw recognition for federal purposes from the state apprenticeship and training council unless within 15 days of the receipt of the notice, the council complies with the provisions of Title 29, Part 30, of the Code of Federal Regulations or mails a request for a hearing to the secretary of the United States Department of Labor.

(8) If a hearing is conducted in accordance with Title 29, Section 30.16 of the Code of Federal Regulations, the secretary of the United States Department of Labor upon receipt of the proposed findings and recommended decision of the hearing officer shall make a final decision whether the council has adopted or implemented a plan in accordance with equal opportunity requirements of Title 29 of Part 30 of the Code of Federal Regulations.

(9) If the secretary of the United States Department of Labor determines to withdraw from recognition, for federal purposes, from the state apprenticeship and training council, the secretary shall notify the council of this determination. (Public Assistance)

[Filed December 6, 1994, 3:36 p.m.]

Original Notice.

Title of Rule: Chapter 388-73 WAC, Child care agencies—Minimum licensing/certification requirements.

Purpose: Consolidates child day care center licensing in chapter 388-150 WAC, clarifies language, makes consistent with statute, deletes possible discriminatory language, and strengthens requirements for adoption agencies.

Statutory Authority for Adoption: Chapter 74.15 RCW.

Statute Being Implemented: Chapter 74.15 RCW.

Summary: Helps consolidate child day care licensing in another chapter, repeals requirements for mini-day care centers, and strengthens adoption agency requirements.

Reasons Supporting Proposal: Language regarding nontraditional foster homes may be discriminatory. Day care licensing requirements are now located in a different WAC chapter. Sections relating to crisis residential center staffing are redundant. Recent failures of adoption licensed agencies bespeak the need for more specific requirements.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Barry Fibel, Office of Child Care Policy, DCFS, 753-0204.

Name of Proponent: Department of Social and Health Services, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: Same as above.

Proposal Changes the Following Existing Rules: See above.

Has a Small Business Economic Impact Statement Been Prepared Under Chapter 19.85 RCW? No. The SIC group identified as 8322 includes forty-three types of social service agencies. The only changes in this chapter which are substantive are those which apply to adoption agencies; the others are housekeeping changes. There are approximately thirty-eight adoption agencies in the state. There are thousands of persons and agencies in this group, especially if aid to families with dependent children is counted. Either way, adoption agencies clearly represent less than 10% of the group.

PROPOSED RULES**

DEPARTMENT OF ECOLOGY

[Order 94-41—Filed December 6, 1994, 4:09 p.m.]

Original Notice.

Title of Rule: San Juan County shoreline master program.

Purpose: Amend WAC 173-19-360.

Statutory Authority for Adoption: Chapter 90.58 RCW.
Statute Being Implemented: Chapter 90.58 RCW.

Summary: The amendment request is two distinct actions. (1) The objective of the Shaw subarea plan is to protect the existing character and qualities of Shaw Island through goals, policies and regulations specific to the needs and interests of the Shaw Island community. (2) The objective of the Barnes Island environment designation is to redesignate a part of the northeast portion of the island shoreline, from natural to conservancy.

Reasons Supporting Proposal: Request for amendment was made by San Juan County.

Name of Agency Personnel Responsible for Drafting: Wayne Turnberg, NWRO, 3190 160th Avenue S.E., Bellevue, WA, (206) 649-7030; Implementation and Enforcement: Jay Shepard, 300 Desmond Drive, Lacey, WA, (206) 407-7280.

Name of Proponent: Department of Ecology, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The purpose of this amendment is to establish policies, goals and regulations that are more specific to the needs and interests of the Shaw Island community. The objective of the Barnes Island environment change is to allow docks along this shoreline.

Proposal Changes the Following Existing Rules: Amends WAC 173-19-360.

Has a Small Business Economic Impact Statement Been Prepared Under Chapter 19.85 RCW? No. Chapter 19.85 RCW, the Regulatory Fairness Act, requires mitigating action and filing of a small business economic impact statement when rule adoption will have an economic impact

on more than 20% of all industries or more than 10% of any one industry. This amendment proposed by Port Angeles does not meet the criteria requiring the preparation of a small business economic impact statement.

PROPOSED RULES**

HEALTH SERVICES COMMISSION

[Filed December 7, 1994, 11:39 a.m.]

Original Notice.

Title of Rule: Antitrust immunity and competitive oversight, substantive rules.

Purpose: The purpose of WAC 245-02-010 through 245-02-050 is to establish the substantive framework for applying antitrust laws in the state of Washington in the context of health care reform.

Statutory Authority for Adoption: RCW 43.72.310.

Statute Being Implemented: RCW 43.72.310.

Summary: The proposed rules set forth a general policy statement concerning antitrust immunity and competitive oversight; and specific policy statements concerning cooperative activities, consumer access to local health services in rural areas, collective negotiations, and the use of "most favored nations" and exclusive dealing clauses.

Reasons Supporting Proposal: In order to provide an appropriate framework for use of the state action doctrine in the context of applying federal antitrust laws, it is necessary to set forth the specific framework for granting antitrust immunity.

Name of Agency Personnel Responsible for Drafting: Carol A. Smith, Assistant Attorney General, 905 Plum Street, Building #3, Olympia, WA, (206) 753-4556; Implementation and Enforcement: Tom Hilyard, 605 Woodland Square Loop S.E., Lacey, WA, (206) 407-0041.

PROPOSED

Name of Proponent: Washington Health Services Commission, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The proposed rules set forth the framework for the health care industry to ascertain what is appropriate conduct in the context of applying the antitrust laws in highly concentrated and rural markets. They also set forth policy guidance concerning cooperative activities and the use of the exclusive dealing clauses. Finally, the proposed rules prohibit the use of "most favored nations" clauses in contracts between a health care provider facility and a certified health plan.

Proposal does not change existing rules.

NEW SECTION

WAC 245-02-020 General policy statement—Antitrust immunity and competitive oversight. (1) The purpose of WAC 245-02-020 through WAC 245-02-050 is to implement provisions of the Act that require the commission to adopt rules governing antitrust immunity, competitive oversight, and conduct of certified health plans, health care providers, and health care facilities. The provisions of these rules shall be strictly construed. Whenever there is doubt as to the meaning of these rules or as to their applicability to particular conduct or circumstances, these rules shall be interpreted in a manner consistent with existing antitrust law principles of this state and of the federal government, including final orders of the Federal Trade Commission and final decisions of the federal courts interpreting the various federal antitrust statutes.

(2) Unless explicitly permitted under this chapter or pursuant to a petition approved in accordance with the provisions of RCW 43.72.310 (3) and (4), nothing in these rules shall be deemed or interpreted to permit activities or to grant immunity for those activities prohibited under RCW 43.72.300(3) or any other activity which would constitute a per se violation of state or federal antitrust laws.

NEW SECTION

WAC 245-02-025 Scope and applicability. The provisions of this chapter shall govern contracts and conduct among health care providers, health care facilities, and certified health plans entered into or renewed on and after March 1, 1995.

NEW SECTION

WAC 245-02-030 Cooperative activities—Policy statement. The commission recognizes that reforms in the health system will occur through the development of comprehensive, integrated, and cost-effective health services delivery systems. Because the health services market place is evolving in anticipation of changes required by the Act, it would not be appropriate to establish with precision specific areas where cooperative activities are entitled to immunity from antitrust laws. Pursuant to RCW 34.05.023, the commission therefore adopts as an interim policy statement the *Statements of Enforcement Policy and Analytical Principles Relating to Health Care and Antitrust* issued by the U.S. Department of Justice and the Federal Trade Commission on September 27, 1994. These nine policy statements address: (1) mergers among hospitals; (2) hospital joint ventures involving high-technology or other expensive health care equipment; (3) hospital joint ventures involving specialized clinical or other expensive health care services; (4) providers' collective provision of nonfee-related information to purchasers of health care services; (5) providers' collective provision of fee-related information to purchasers of health care services; (6) provider participation in exchanges of price and cost information; (7) joint purchasing arrangements among health care providers; (8) physician network joint ventures; and (9) analytical principles relating to multiprovider networks.

NEW SECTION

WAC 245-02-035 Consumer access to local health services in rural areas—Health care networks. An applicant may petition the commission for approval of managed health care finance and delivery systems in rural areas that may violate existing antitrust law principles but is necessary to preserve local access to regular and ongoing health services in a rural area. In addition to the requirements set forth in WAC 245-02-110, et seq., such petitions shall include information demonstrating that the proposed system: (a) has been developed through a community-based process that takes into consideration the concerns of local residents, health care providers, public and private health care facilities, local community organizations, and appropriate state agency health planning organizations located in or with responsibility for health services in rural areas, (b) will achieve quality improvements and cost efficiencies over present health service capabilities in the rural area, (c) will result in local access to regular and ongoing services required under the uniform benefits package, and (d) will combine health care service delivery and financing. Nothing contained in this section shall be deemed to relieve an applicant from meeting the requirements imposed by law for registration and certification of certified health plans.

NEW SECTION

WAC 245-02-040 Collective negotiations—Policy statement—Permitted negotiations—Petitions. (1) The Commission finds that collective negotiation by competing health care providers of certain non-fee terms and conditions of contracts with certified health plans may result in procompetitive effects in the absence of any express or

implied threat of retaliatory collective action by health care providers. However, the Commission finds few or no procompetitive effects in permitting competing health care providers to collectively negotiate contract terms and conditions that include fees or prices for provider services. The potential anticompetitive harms arising from collective exchanges of fee or price information by competing providers and collective negotiation by competing providers of the fees to be paid providers by plans far outweigh any potential gains in simplifying provider and plan negotiations, any reduction in transaction costs, and any potential gains in cost-effective health care delivery systems. To the contrary, the Commission finds that collective negotiation of fees or other prices for services by competing health care providers creates the potential to thwart the cost containment goals of health care reform by enabling health care providers to resist health plan and purchaser pressure to reduce or limit the increase in prices for health care services. Except as herein provided, nothing contained in this section shall authorize any person or entity to engage in activities that would constitute violations of state or federal antitrust laws.

(2) Competing health care providers within the service area of a certified health plan may meet and communicate for the purposes of collectively negotiating the following terms and conditions of contracts with certified health plans:

(a) respective provider and health plan liability for the treatment or lack of treatment of health plan enrollees;

(b) administrative procedures including methods and timing of provider payment for services;

(c) dispute resolution procedures relating to disputes between plans and providers including disputes between providers and plans that originate from enrollees;

(d) patient referral procedures;

(e) formulation and application of reimbursement methodology, e.g., risk pools, capitation, and capitation between providers and hospitals, except as provided in section 3;

(f) quality assurance programs;

(g) health service utilization review procedures; and

(h) carrier provider selection and termination criteria, or whether to engage in selective contracting.

Nothing herein shall be construed to allow a boycott.

(3) Competing health care providers shall not meet and communicate for the purposes of collectively negotiating the following terms and conditions of contracts with certified health plans:

(a) the fees or prices for services, including those arrived at by applying any reimbursement methodology procedures;

(b) the conversion factor in a resource based relative value scale reimbursement methodology or similar methodologies;

(c) the amount of any discount on the price of services to be rendered by providers;

(d) the dollar amount of capitation or fixed payment for health services rendered by providers to plan enrollees; or

(e) the inclusion or alteration of terms and conditions to the extent they are the subject of government regulation prohibiting or requiring the particular term or condition in question; however, such restriction does not limit provider rights to collectively petition government for a change in such regulation.

(4) Competing health care providers' exercise of collective negotiation rights granted by this section shall conform to the following criteria:

(a) providers shall communicate or negotiate with certified health plans through a third party who is authorized by the providers;

(b) each competing provider involved in the communication and negotiation with certified health plans shall make an independent decision to accept or reject a specific offer from a certified health plan;

(c) certified health plans communicating or negotiating with the providers' representative shall remain free to contract with or offer different contract terms and conditions to individual competing providers;

(d) the providers' representative shall not recommend to providers that providers accept or reject the certified health plan offer; the representative may only deliver the offer to providers and communicate to providers an evaluation of the positive or negative aspects of the offer;

(e) the providers' representative shall not represent more than 30% of the market of practicing providers for the provision of services of a particular provider type or specialty in the service area or proposed service area of a certified health plan with less than 5% of the market, as measured by 1) the number of covered lives as reported by the Insurance Commissioner, or 2) the actual number of consumers of prepaid comprehensive health services; and

(f) the providers' representative shall comply with the provisions of subsection (5) of this section.

(5) Any person or organization proposing to act or acting as a representative of providers for the purpose of exercising the authority granted under this section shall comply with the following requirements:

(a) before engaging in any collective negotiation with certified health plans on behalf of competing health care providers, the representative shall file with the Commission information identifying the representative, the representative's plan of operation, and the representative's procedures to ensure compliance with this section;

(b) Before engaging in any collective negotiations with certified health plans on behalf of providers, the representative shall furnish for the Commission's approval, a brief report identifying the proposed subject matter of the negotiations or discussions with certified health plans.

Approval shall be withheld by the Commission if the proposed negotiations would exceed the authority granted under this section. The representative shall supplement the report to the Commission as new information becomes available that indicates that the subject matter of the negotiations with the plan has or will change;

(c) within fourteen days of a certified health plan decision declining negotiation, terminating negotiation, or failing to respond to a request for negotiation the representative shall report to the Commission the end of negotiations;

(d) before reporting the results of negotiations with a certified health plan and before giving providers an evaluation of any offer made by a certified health plan, the representative shall furnish for the Commission's approval prior to dissemination to providers, a copy of all communications to be made to providers related to negotiations, discussions, and certified health plan offers.

(6) With the advice of the attorney general, the Commission shall either approve or disapprove the activity as identified in the report within thirty days of filing. If disapproved, the Commission shall furnish a written explanation of any deficiencies along with a statement of specific remedial measures as to how such deficiencies could be corrected. A representative who fails to obtain the Commission's approval is deemed to act outside the authority granted under this section.

(7) Nothing contained in this section is intended to authorize competing providers to act in concert in response to a report issued by the providers' representative related to the representative's discussions or negotiations with certified health plans. The representative of the providers shall advise providers of the provisions of this section and shall warn providers of the potential for legal action against providers who violate state or federal antitrust laws by exceeding the authority granted under this section.

NEW SECTION

WAC 245-02-045 "Most favored nations clauses"—Policy statement. "Most favored nations clauses" may discourage discounting by the affected seller, may facilitate oligopolistic pricing and deter entry by more efficient competitors. "Most favored nations clauses" are often used as a replacement for innovation or efficiency by large competitors and act as a disincentive for creativity by small competitors. The commission finds that the use of "most favored nations clauses" in contracts between a health care provider or facility and a certified health plan create the potential to thwart the cost containment goals of health care reform. For these reasons, the use of "most favored nations clauses" in contracts between a health care provider or facility and a certified health plan is prohibited.

NEW SECTION

WAC 245-02-050 Exclusive dealing clauses—Policy statement. (1) Exclusive dealing clauses in health care provider and facility contracts with certified health plans may enhance the quality of health services, achieve economic efficiencies, or improve the cost-effective use of health services and equipment. Exclusive dealing clauses may also reduce competition among certified health plans, providers, and facilities when the clauses prevent other competitors from entering the relevant market, thereby increasing the probability of the creation of a monopoly in that market.

(2) A contract between a certified health plan and a health care facility or provider may not contain an exclusive dealing clause if the plan holds more than forty percent (40%) of the relevant market.

(3) A contract between a certified health plan and a health care facility or provider may contain an exclusive dealing clause if the plan holds twenty percent (20%) or less of the relevant market.

(4) A contract between a certified health plan and a health care facility or provider may contain an exclusive dealing clause if the plan holds between twenty (20%) and forty percent (40%) of the relevant market and the commission has explicitly permitted its use. To obtain such approval, a plan must request an informal opinion as to use of the clause in the particular circumstances or seek approval by

PROPOSED

written petition pursuant to the procedures set forth in WAC 245-02-110, et seq.

(5) A contract between a health care network and a health care facility or provider may not contain an exclusive dealing clause if the health care network holds more than forty percent (40%) of the relevant market.

(6) A contract between a health care network and a health care facility or provider may contain an exclusive dealing clause if the health care network holds twenty percent (20%) or less of the relevant market.

(7) A contract between a health care network and a health care facility or provider may contain an exclusive dealing clause if the network holds between twenty and forty percent (40%) of the relevant market and the commission has explicitly permitted its use. To obtain such approval, a network must request an informal opinion as to use of the clause in the particular circumstances or seek approval by written petition pursuant to the procedures set forth in WAC 245-02-110, et seq.

(8) The provisions of this section do not apply to contracts of employment between a certified health plan and health care facilities or providers.

Competitive oversight and antitrust immunity. It sets forth the required form and manner of written petitions and requests for informal opinions authorized by that statute, as well as establishing an adjudicative hearing process for review of the written petitions. The rules are necessary to give affected parties a mechanism for submitting a written petition or request for informal opinion to the commission.

Proposal does not change existing rules.

(3) **Simultaneous review.** Identify any other state or federal agency reviewing the proposal and state the date on which each review was requested.

(4) Identify the name and address of all employee organizations representing the applicant's employees.

(d) Avoid duplication of health services resources;

(e) Facilitate the exchange of information relating to performance expectations;

(f) Develop comprehensive, integrated, and cost-effective health services delivery in the geographic, product or service area;

(g) Reduce competition among certified health plans, health care providers, or health care facilities;

(h) Have an impact on the quality, availability, or price of health services to consumers;

(i) Reduce the number of people employed or otherwise impact how employees deliver health care services; and

(j) Change or otherwise have an impact on employee to patient ratios and how this will affect the quality of health services available to consumers.

(2) No later than three days after its publication in the state register, the commission shall cause a copy of the notice of a petition, request for informal opinion or request for adjudicatory proceeding to be mailed to each person who has made a request to the agency for a mailed copy of such notice. The commission will charge for the actual cost of providing individual mailed copies of these notices.

As required by RCW 43.72.310(1), the attorney general will respond to a request for an informal opinion, or for advice regarding a written petition. (1) Where the applicant has received an informal opinion pursuant to RCW 43.72.310 and within thirty (30) days of the applicant's receipt of the opinion, the applicant requests an adjudicative proceeding to determine whether the proposed conduct should be authorized pursuant to RCW 43.72.310 (2)(a) because it is likely to achieve the policy goals of RCW 43.72 and a more competitive alternative is impractical;

(2) If the attorney general concludes in its informal opinion that the conduct proposed is not authorized by RCW 43.72, the requesting applicant shall have thirty (30) days from the date of receipt of the informal opinion from the commission to file a written petition with the commission requesting approval of conduct that could tend to lessen competition in the relevant market pursuant to RCW

43.72.310(3). The petition shall constitute an application for an adjudicative proceeding under RCW 34.05.413; or

(3) Pursuant to RCW 43.72.310(3) an applicant may file a written petition with the commission requesting approval of conduct that could tend to lessen competition in the relevant market regardless of whether it has previously sought an informal opinion. The petition shall constitute an application for an adjudicative proceeding under RCW 34.05.413.

NEW SECTION

If the commission decides not to conduct an adjudicative proceeding in response to an application, the commission shall furnish the applicant a copy of its decision in writing, with a brief statement of the commission's reasons and of any administrative review available to the applicant.

An applicant may request an adjudicative proceeding within thirty (30) days of receipt of the notice. If no adjudicative hearing is requested by the applicant within thirty (30) days of receipt of the notice, the commission shall immediately revoke or modify its authorization.

**WSR 94-24-086
PROPOSED RULES
DEPARTMENT OF
FINANCIAL INSTITUTIONS**

[Filed December 7, 1994, 11:43 a.m.]

Supplemental Notice to WSR 94-18-106 (continuance of WSR 94-13-044) and WSR 94-18-107 (continuance of WSR 94-13-043). The two rules originally proposed and continued have been consolidated and revised in the form of the proposed rule in this notice.

Title of Rule: Revising the application process for adding groups to a credit union's field of membership ("CU's FOM").

Purpose: To clarify and streamline the application process for adding groups to a CU's FOM.

Statutory Authority for Adoption: RCW 31.12.535.

Statute Being Implemented: RCW 31.12.045(2), [31.12].115, [31.12].516.

Summary: The proposed rule eliminates certain application requirements for adding groups to a CU's FOM, and clarifies and streamlines others.

Reasons Supporting Proposal: The existing rules outlining the application process for adding groups to a CU's FOM are unnecessarily confusing, ambiguous and burdensome in certain respects.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: B. Anne Pulitano, Olympia, (206) 664-3671.

Name of Proponent: Division of Credit Unions, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The proposed rule amends the existing rules that outline the application process for adding groups to a credit union's field of membership. The proposed rule amends the existing rules in the following respects: It clarifies the definitions of "common bond of association," "common bond of occupation" and "community"; it clarifies and eliminates certain information requirements for the applications; it creates a simplified process to add small occupational ("SOGs") to a CU's FOM, similar to federal credit unions; it provides that groups of persons age fifty or over, and retired persons, are deemed to be associational groups, similar to federal credit unions; it creates a process for dealing with associational overlaps, similar to the process for occupational overlaps; and it eliminates the prescribed form entitled "Request for Bylaw Amendment." (Credit unions may continue to use the form, use a form devised by others (such as trade associations or attorneys) to serve the same purpose, or devise their own forms that provides the same information.) The purpose and anticipated effect of the rule are to clarify and streamline the process for credit unions to apply to the department to add groups to their FOM.

Proposal Changes the Following Existing Rules: The proposed rule revises and incorporates the substance of chapter 419-70 WAC, Definitions into chapter 419-72 WAC and repeals the former chapter. The proposal also repeals WAC 419-72-030, 419-72-035, 419-72-040, 419-72-055, 419-72-090 and 419-72-095, and revises all the remaining sections in chapter 419-72 WAC, with the effect described in Explanation of Rule above.

Has a Small Business Economic Impact Statement Been Prepared Under Chapter 19.85 RCW? No. The proposed rule amends and repeals existing WAC sections on the application process for adding groups to a credit union's field of membership. It eliminates certain of these application requirements and clarifies and streamlines the others, thereby reducing compliance costs. The estimated annual costs of compliance with the proposed rule, compared to the existing rule, do not exceed \$50 per credit union and therefore are considered minor. Accordingly, it is not necessary to prepare a small business economic impact statement. See RCW 19.85.030.

AMENDATORY SECTION (Amending Order 89-3, filed 12/6/89, effective 1/6/90)

WAC 419-72-010 Purpose. This chapter is adopted by the ((supervisor)) director for the purpose of establishing the

PROPOSED

application process for a credit union to ~~((expand))~~ include in its field of membership ~~((to include))~~ a separate group:

(1) With a common bond of occupation~~((;))~~ or association~~((;))~~;

(2) That constitutes a community ~~((which each have a common bond))~~.

NEW SECTION

WAC 419-72-012 General requirement. RCW 31.12.045 limits credit union membership "to groups having a common bond of occupation or association, or to groups within a well-defined neighborhood, community, or rural district." Consequently, any group included within the field of membership of a credit union must:

(1) Share a common bond of occupation or association;

or

(2) Constitute a community.

AMENDATORY SECTION (Amending Order 89-3, filed 12/6/89, effective 1/6/90)

WAC 419-72-015 Definitions. Unless the context clearly requires otherwise, as used in this chapter:

(1) "Common bond of ~~((occupation has the same meaning as in WAC 419-70-030))~~ association" means a current, unifying factor among a group of natural persons, that is based on membership in a bona fide organization whose primary purpose is other than providing eligibility for credit union services. Such an organization must be primarily composed of natural persons who are eligible to participate in the organization's organized activities. Such an organization also must have clearly defined membership eligibility and must hold regular meetings at least once each year.

Persons aged fifty or over, retired persons, and matriculating students of an accredited college or university, who belong to a specified organization, are deemed to have a common bond of association. The organization need not satisfy the requirements set forth in the prior paragraph.

(2) "Common bond of ~~((association has the same meaning as in WAC 419-70-040))~~ occupation" means a current, unifying factor among a group of natural persons that is based on employment by or a work-related relationship with the enterprise. The group may include only the following categories of persons:

(a) Employees of any enterprise, and their family members;

(b) Employees of any subsidiaries of the enterprise, and their family members;

(c) Employees of the affiliates of the enterprise, and their family members;

(d) Nonemployee officials of the enterprise, and their family members; and

(e) Natural persons under contract to work regularly for the enterprise, and their family members.

Each of these categories may be included if they are separately identified in the credit union's bylaws.

(3) "~~((Common bond of))~~ Community" ~~((has the same meaning as in WAC 419-70-050))~~ means a current unifying factor among a group of natural persons, that is based on residence or employment within a well-defined and relatively limited geographic area that is recognized by those who live

or work there as a neighborhood, community, or rural district.

For example, the city of Seattle and King County do not constitute a community for this purpose, because they are not within a well-defined and relatively limited geographic area. On the other hand, the city of Chelan and Chelan school district are within a well-defined and relatively limited geographic area, and may constitute a community if they are recognized by those who live or work there as a neighborhood, community or rural district.

(4) "Credit union" means a credit union organized and operating under chapter 31.12 RCW.

(5) "Director" means the director of the Washington state department of financial institutions.

(6) "Number of potential members" means the sum of:

(a) The number of actual members of the applicant credit union; and

(b) The number of members in the group applied for.

(7) "Required number" means:

(a) If the number of individuals in the specified group is two thousand one or more, the required number is at least five percent of the number of individuals in the group (rounded up to the nearest whole number).

(b) If the number of individuals in the specified group is from three hundred thirty to two thousand, the required number is at least one hundred of the individuals in the group.

(c) If the number of individuals in the specified group is three hundred twenty-nine or less, the required number is at least thirty percent of the number of individuals in the group (rounded up to the nearest whole number).

AMENDATORY SECTION (Amending Order 89-3, filed 12/6/89, effective 1/6/90)

WAC 419-72-020 ~~((Expansion))~~ Inclusion of a group with a common bond of occupation. Except as permitted by WAC 419-72-041, if a credit union wants to include a separate group with a common bond of occupation in its field of membership, it ~~((shall))~~ must make application to the ~~((supervisor))~~ director to amend ~~((Article III of))~~ its bylaws ~~((as set forth in))~~ in accordance with RCW 31.12.115. The ~~((amendment shall be in a form as set forth in WAC 419-72-095 and shall))~~ application must be submitted to the ~~((supervisor))~~ director in duplicate ~~((along with an application as described in))~~ and must include the information as required by WAC 419-72-025.

AMENDATORY SECTION (Amending Order 89-3, filed 12/6/89, effective 1/6/90)

~~(i) That the enterprise desires membership for its employees in the applicant ((credit union)); and ((that they))~~

~~(ii) Whether its employees are ((not)) currently eligible for membership ((in an existing credit union, either state or federally chartered, because of their employment)), based upon such employment, in another state or federally chartered credit union. If the employees of the enterprise are eligible for membership in another credit union based upon such employment the applicant ((credit union)) must make best efforts to provide a statement of ((non-objection)) nonobjection from the other credit union;~~

~~((5)) (2) In addition, the application must also include the following information if applicable:~~

~~(a) If the number of potential members of the applicant exceeds one hundred twenty percent of the number of its actual members, then the following information must also be submitted:~~

~~((6)) (ii) A copy of the applicant's ((credit union's business)) plan or other document demonstrating ((the credit union's)) its ability and intent to provide service to the new group and specific plans relating anticipated growth to capital levels.~~

~~(iii) Documentation that the applicant has given written notice to all other credit unions headquartered in this state, both state and federally chartered, that have a staffed office in any county in which the offices of the enterprise are located. Credit unions entitled to receive the notice will be given twenty days following receipt of the notice to submit to the department any comments on the application.~~

~~(3) If the applicant cannot obtain the letter of nonobjection described in subsection (1)(d) of this section, after having made a best efforts attempt to do so, it must submit documentation that:~~

~~(a) The required number of employees of the enterprise desire membership in the applicant; or~~

~~(b) The other credit union has failed to adequately serve the group after a reasonable period of time, as attested to by the required number of employees of the enterprise who are members of the other credit union, and how the applicant plans to improve this service.~~

~~The applicant must supply a copy of the information required in (a) and (b) of this subsection to the other credit union, which will be given sixty days following receipt of~~

such information to submit to the department any comments on the overlap.

This subsection does not apply to overlaps arising out of merger-type transactions between enterprises.

NEW SECTION

WAC 419-72-041 Streamlined procedure for small occupational groups. Credit unions may apply to the department for approval of an enabling bylaw amendment ("enabling amendment") that enables them to use the streamlined procedure set forth in this section ("SOG procedure") to include small occupational groups ("SOGs") in their field of membership.

The credit union must first apply to the department for approval of an enabling amendment that satisfies the requirements of this section and which complies with RCW 31.12.115. Once the enabling amendment has been approved by the department, the credit union may immediately begin serving small occupational groups in compliance with this section and the enabling amendment. The enabling amendment may not be amended without the prior approval of the department.

The enabling amendment will in substance permit a credit union to add SOGs to its field of membership if:

(1) The group is located within twenty-five miles from one of the credit union's service facilities;

(2) The group has provided a written request to the credit union for service;

(3) The group does not have credit union service available based on such employment;

(4) The group has no more than one hundred primary members or any larger maximum number as authorized by the department; and

(5) The group is included in the credit union's field of membership as specifically identified in amendments to the credit union's bylaws. Such amendments do not require department approval.

The credit union must maintain a control log of SOGs included in its field of membership. The control log must include the board approval of the group, the date of the board approval, the name and location of the SOG, the number of potential primary members included, and the number of miles to the nearest main or branch office of the enterprise.

The size limit of a SOG is based on the number of potential primary members, that is, the number of employees of the enterprise, and their family members; the size limit does not apply to categories of persons that it may be permissible to include in the group pursuant to the definition of a common bond of occupation in WAC 419-72-015(2). Several groups may be included simultaneously using the SOG procedure, however the maximum number of potential primary members in each SOG must be within the SOG size limit.

The department may revoke the ability of a credit union to use the SOG procedure if the department determines that it is being used to circumvent the regular procedure for inclusion of occupational groups in the credit union's field of membership. The department shall approve or deny the application in accordance with WAC 419-72-075.

AMENDATORY SECTION (Amending Order 89-3, filed 12/6/89, effective 1/6/90)

The ((amendment shall be in a form as set forth in WAC 419-72-095 and shall)) application must be submitted to the ((supervisor)) director in duplicate ((along with an application as described in)) and must include the information as required by WAC 419-72-050.

AMENDATORY SECTION (Amending Order 89-3, filed 12/6/89, effective 1/6/90)

WAC 419-72-050 Application to include a separate associational group. (1) The application to include a separate group with a common bond of association (~~(shall contain))~~ must include at least the following information:

~~((1))~~ (a) The name of the applicant credit union;
~~((2))~~ (b) Evidence that the applicant's board of directors ((of the credit union)) has complied with the notice and voting requirements of RCW 31.12.115;

~~((3))~~ (c) A detailed description of the group including its charter or articles of incorporation, its bylaws, the qualifications and requirements for membership, and the number and geographic location of its current members;

~~((4))~~ (d) A resolution from the petitioning group's governing body;

(i) ~~That the members ((of the group are not currently eligible for membership in an existing credit union and)) have been informed of the proposal to affiliate with the applicant ((credit union)) and ((that those members)) desire to be associated with the applicant ((credit union and are willing to support its objectives));~~

(ii) Whether the members of the group are currently eligible for membership, based upon their association, in a state or federally chartered credit union. The station location and sampling probe locations shall be designated by the Control Officer utilizing as a guide CFR Title 40, Part 58, Appendix "D" Network Design and Appendix "E" Probe Siting Criteria.

AUTHORITY - Northwest Air Pollution Authority (NWAPA).

~~(BEST AVAILABLE CONTROL TECHNOLOGY (BACT) - means an emission limitation based on the maximum degree of reduction, which the agency, on a case-by-case basis, taking into account energy, environmental and economic impacts, and other costs, determines is achievable for such source through application of production processes and available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of each pollutant.)~~

BEST AVAILABLE CONTROL TECHNOLOGY (BACT) - An emission limitation based on the maximum degree of reduction for each air pollutant subject to regulation under chapter 70.94 RCW emitted from or which results from any new or modified stationary source, which the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through application of production processes and available methods, systems, and techniques, including fuel cleaning, clean fuels, or treatment or innovative fuel combustion techniques for control of each such pollutant. In no event shall application of the "best available control technology" result in emissions of any pollutants which will exceed the emissions allowed by any applicable standard under 40 CFR Part 60 and Part 61, as they exist on October 13, 1994,

or their later enactments as adopted by reference by the Control Officer by rule. Emissions from any source utilizing clean fuels, or any other means, to comply with this paragraph shall not be allowed to increase above levels that would have been required under the definition of BACT in the Federal Clean Air Act as it existed prior to enactment of the Clean Air Act Amendments of 1990.

BEST AVAILABLE RETROFIT TECHNOLOGY (BART) - An emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant which is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology.

EMISSION - The act of releasing into the atmosphere an air contaminant or a gas stream which contains or may contain an air contaminant, or the material released into the atmosphere.

EMISSION POINT - The location (place in horizontal plane and vertical elevation) from which an emission enters the atmosphere.

EMISSION STANDARD - Limitation on the release of one or more contaminants to the ambient air.

EQUIPMENT - Any stationary or portable device or any part thereof capable of causing the emission of any contaminant into the atmosphere or ambient air.

EXCESS EMISSIONS - Emissions of an air pollutant in excess of any applicable emission standard.

EXISTING STATIONARY FACILITY - A stationary source of air pollutants which has the potential to emit two hundred fifty tons per year or more of any air pollutant. In determining potential to emit, fugitive emissions, to the extent quantifiable, must be counted. For purposes of determining whether a stationary source is an existing stationary facility the term "building, structure, facility, or installation" means all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). AMENDATORY SECTION

SECTION 300 - NOTICE OF CONSTRUCTION WHEN REQUIRED

- 300.1 No person shall construct, install, establish, modify or alter an air contaminant source, except those sources excluded in Section 322 of the Regulation, without first filing with the Authority a "Notice of Construction and Application for Approval," on forms prepared and furnished by the Authority, obtaining written approval of the Board prior to the said construction, installation, modification, ~~((alteration))~~ or establishment, and paying the appropriate fees as provided in Section 324.2. The Authority may only grant approval of the "Notice of Construction and Application for Approval" if the requirements of Sections 301 and 302 have been met.

The authority shall be notified in writing of the alteration on the first working day after the alteration is commenced and a "Notice of Construction and Application for Approval" shall be filed within fourteen (14) days after the alteration is commenced.
- 300.3 A separate Notice and Application shall be submitted for each unit of equipment or control facility, unless identical units of equipment or control facility are to be installed, constructed or established in an identical manner on the same premises; provided that, said identical units may, as a group, be listed on one application but that identical units subsequently added shall require a separate Notice and Application; provided also, that, the owner has the option to give notice and apply for approval of a process with a detailed inventory of contaminant sources and emissions related to said process.

- 302.1 If on basis of plans, specifications, or other information required pursuant to Section 301, the Board determines that the proposed construction, installation or establishment will be in accord with this Regulation, applicable air pollution control regulations of the DOE, laws of the State of Washington, and will provide all known available and reasonable methods of emission control, it shall, within thirty (30) days issue a determination of whether the operation of the new air contaminant source at the location proposed will cause any ambient air quality standard to be exceeded.
- 302.2 No approval will be issued unless the information supplied as required by Section 301.1 of this Regulation provides evidence to the Board or Control Officer that:
- 302.21 The equipment is designed and will be installed to operate without causing a violation of applicable emission standards.
- 302.22 The equipment incorporates advances in the art of air pollution control developed for the kind and amount of air contaminant emitted by the equipment.
- 302.23 The project shall employ all known, available, and reasonable air pollution control technology for all pollutants (BACT).
- 302.24 The project shall not result in a violation of any ambient air quality standard for criteria air pollutants.
- 302.25 The project shall not impact any Class I area or non-attainment area.
- 302.26 All State Environmental Policy Act requirements have been fulfilled.

- 302.27 The project shall comply with all applicable federally mandated programs.
- 302.3 If the Board determines that all the requirements of Section 302.2 have been met an Order of Approval shall be issued along with any operating and reporting conditions that will ensure compliance with all applicable air pollution standards.
- 302.4 If the Board determines that the construction, installation or establishment of a new air contaminant source will not meet the emission standards or the ambient air standards or other prohibition established by this Regulation, or will not provide all known available and reasonable means of emission control, the Board shall, within sixty (60) days of receipt of the "Notice of Construction and Application for Approval", issue an Order under Section 121 for the prevention of the construction, installation or establishment of the air contaminant source or sources, and,
- 302.41 The Order shall be in writing;
- 302.42 The Order shall set forth the objections in detail with references to the specific provisions of this Regulation and/or with other applicable rules and regulations set forth in the WAC and laws of the State of Washington and emission standards that will not be met by the proposed construction, installation or establishment;
- 302.43 The Order shall be signed by the Chairman of the Board.
- 302.5 Any order issued pursuant to this Section shall become final unless, no later than fifteen (15) days after the date the Order is served pursuant to Section 121, the owner or applicant petitions for a reconsideration of the Order with reasons for the reconsideration.
- 302.52 If the petition of the owner or applicant be disapproved the owner or applicant may petition the Hearings Board within thirty (30) days after receipt of Notice of Disapproval and proceed under the procedure as set forth in Section 122.
- 302.6 Failure to issue such an order or approval within the time prescribed herein shall be deemed a determination that the construction, installation or establishment may proceed, provided that it is in accordance with the plans, specifications or other information, if any, required to be submitted. Such failure, however, shall not relieve any person from his obligation to comply with any emission requirement, or with any other provision of law.
- 302.7 Any Order of Approval issued under this Section shall be valid for one year. If engineering and/or construction of any facility authorized under this Section has not commenced within one year from the date of approval the Notice and Application is revoked and considered void. If the applicant can show evidence that the magnitude of the construc-

tion project is such or delays have been encountered in the delivery of equipment that construction cannot proceed within the one year limit, the Board may extend, for up to one year, the time limit set under this Section, if it is determined that the project still incorporates all known, available and reasonable air pollution control technology.

451.11 When the owner or operator of a source supplies valid data to show that the opacity is in excess of 20% as a result of the presence of condensed water droplets, and that the concentration of the particulate matter, as shown by a source test approved by the Control Officer, is less than 0.10 (0.23g/m₃) grain/dscf.

451.12 When an emission occurs due to soot blowing and/or grate cleaning for not more than 15 minutes in any 8 hour period provided a continuous opacity measuring system and recorder is installed, and operated as required and approved by the Control Officer to record said emissions, or the owner or operator of the source can demonstrate to the satisfaction of the Control Officer, by some other means of record, that the limitations of this Section will not be exceeded.

SECTION 462 - EMISSION OF SULFUR COMPOUNDS

462.1 It shall be unlawful for any person to cause or permit the emission of air contaminants from any equipment if the air contaminants emitted as measured in the stack contain sulfur compounds calculated as sulfur dioxide, of more than one thousand (1,000) parts per million (2.62 mg/m³), for a sixty consecutive minute period, except as otherwise provided by a specific emission restriction adopted by this Authority and/or the DOE. For the purpose of this section, all sulfur present in gaseous compounds containing oxygen shall be deemed present as sulfur dioxide.

462.2 Emissions of sulfur compounds calculated to be in excess of 1,000 parts per million (2.62 mg/m³) at any emission point, for a sixty consecutive minute period, shall not constitute a violation of Section 462.1 of this Regulation, provided such person responsible for the emission provides reasonable evidence that such emissions will not cause ground level concentrations on adjacent property to exceed the values indicated in Section 410 of this Regulation, and can demonstrate to the Control Officer there is no practical method of reducing the concentration to the above levels or less.

462.3 All concentrations of sulfur dioxide referred to in this Section are on a volumetric dry basis. For combustion emissions, the exhaust gas volume shall be corrected to 7% oxygen.

AMENDATORY SECTION

SECTION 501 - OUTDOOR BURNING

501.1 PURPOSE

The purpose of this section is to minimize the air pollution impacts caused by open burning as mandated by the Washington Clean Air Act of 1991. This rule establishes controls for open burning in order to:

501.11 Reduce open burning to the greatest extent practical by eliminating it in PM-10 and/or carbon monoxide nonattainment areas; and urban growth areas or cities with a population of 10,000 or more by December 31, 2000;

501.12 For areas where open burning is allowed, established a limited burning program, includ-

ing procedures by which open burning may be conducted;

(ii) Carbon monoxide at an ambient level of eight parts of contaminant per million parts of air by volume (ppm) measured on an eight hour average.

501.13 Encourage the development and use of alternate methods for the disposal of woody debris.

(b) Air quality that threatens to exceed other limits established by the authority.

501.2 APPLICABILITY

501.21 This section applies to all forms of outdoor burning except:

LAND CLEARING BURNING - means the burning of outdoor fires over ten (10) feet in diameter consisting of residue such as trees, stumps, shrubbery or other natural vegetation in preparation of a land improvement or construction project as distinguished from a forest harvest operation.

501.211 Silvicultural Burning

501.212 Agricultural Burning

501.213 Recreational Fires - that are not used for debris disposal purposes and do not cause a nuisance to neighbors.

NONATTAINMENT AREA - means a clearly delineated geographic area which has been designated by the Environmental Protection Agency and promulgated as exceeding a national ambient air quality standard or standards for one or more of the criteria pollutants.

501.214 Ceremonial Fires

501.215 Burning to improve and maintain fire dependent ecosystems - pursuant to Chapter 332.24 WAC.

NUISANCE - means an emission of smoke from any open fire to be deposited beyond the property line, if it interferes with the use and enjoyment of the property deposited on.

501.22 No outdoor burning shall occur during a declared period of impaired air quality.

501.23 A fire protection agency, county, or conservation district may enforce its own controls that are stricter than those set forth in this section.

OPEN BURNING - means all forms of outdoor burning except those listed as exempt in section 502 of this regulation.

501.3 DEFINITIONS

Unless a different meaning is clearly required by context, words and phrases used in this section shall have the following meanings:

OUTDOOR BURNING - means the combustion of material of any type in an open fire or in an outdoor container without providing for the control of combustion or the control of emissions from the combustion.

AGRICULTURAL BURNING - means burning of vegetative debris from an agricultural operation necessary for disease or pest control, necessary for crop propagation and/or crop rotation, or where identified as a best management practice by the agricultural burning practices and research task force established in RCW 70.94.650 or other authoritative source on agricultural practices.

REASONABLE ALTERNATIVES - means alternatives to outdoor burning that cost less than eight dollars and fifty cents (\$8.50) per cubic yard are considered reasonable. This amount shall be adjusted periodically to reflect changing economic conditions. Adjustments will be based on Authority policy and guidelines provided by Ecology.

CEREMONIAL FIRE - means a fire associated with an Indian ceremony or ritual.

RECREATIONAL FIRE - means barbecues and campfires, not for debris disposal purposes, in public areas or on private property. Fuels used may not contain prohibited materials.

ECOLOGY - means the Washington State Department of Ecology.

EPISODE - means a period when a forecast, alert, warning, or emergency air pollution stage is declared, as stated in Chapter 173-435 WAC.

SILVICULTURAL BURNING - means burning on any land the department of natural resources protects per RCW 70.94.030(13), RCW 70.94.660, RCW 70.94.690 and pursuant to Chapter 76.04 RCW.

IMPAIRED AIR QUALITY - means a condition declared by Ecology or the Authority in accordance with the following criteria:

URBAN GROWTH AREA - means an area defined by RCW 36.70A.030.

(a) Meteorological conditions are conducive to an accumulation of air contamination concurrent with:

501.4 PROHIBITED MATERIALS

(i) Particulate that is ten micron and smaller in diameter (PM-10) at or above an ambient level of seventy-five micrograms per cubic meter measured on a twenty four hour average; or

501.41 The following materials shall not be burned in any outdoor fire: It shall be unlawful for any person to cause or allow any outdoor fire containing garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, paper, cardboard, treated wood, construction debris, metal or any substance other than natural vegetation, which when burned releases toxic emissions, dense smoke, or odors.

PERMANENT

501.42 Prohibited materials may be burned in the following circumstances:

501.421 Diseased animals and infested material. When ordered by a duly authorized health officer and authorized by the Authority, diseased animals and other infested material may be burned, as required, to keep the infestation from spreading.

501.422 Dangerous material. When ordered by a fire protection agency and when authorized by the Authority, fires to dispose of materials presenting danger to life, property, or public welfare may be burned, if no approved practical alternate method of disposal is available.

501.5 CURTAILMENT DURING EPISODES OR IMPAIRED AIR QUALITY

501.51 No outdoor fire shall be ignited:

501.511 Whenever Ecology declares an air pollution episode for the geographical area pursuant to Chapter 173-435 WAC; or

501.512 Whenever Ecology or the Authority declares impaired air quality for the geographical area.

501.513 Within any county in which the Authority declares impaired air quality.

501.514 Within Skagit, Whatcom, and Island counties if impaired air quality is declared in both Skagit and Whatcom counties.

501.52 A person responsible for an outdoor fire at the time an episode or impaired air quality is declared shall extinguish that fire. Outdoor burning conducted under the auspices of the department of natural resources for the purpose of burning forest slash pursuant to RCW 70.94.660 through 70.94.670 shall be extinguished by withholding new fuel and allowing the fire to burn down.

501.53 Smoke visible from outdoor burning after a time period of three hours has elapsed from the time of declaration of the episode or impaired air quality shall constitute prima facie evidence of unlawful outdoor burning.

501.54 For Department of Natural Resource silvicultural burning, smoke visible from outdoor burning after a time period of ten hours has elapsed from the time of declaration of the episode or impaired air quality shall constitute prima facie evidence of unlawful outdoor burning.

501.6 OPEN BURNING PROGRAM

501.61 General Requirements.

501.611 All burning requires a permit as covered in section 501.7.

501.612 Permits shall not be issued, and thus open burning is not allowed, in areas where reasonable alternatives are available.

501.613 No open burning shall be allowed in areas that exceed federal or state ambient air quality standards for fine particulate matter (PM-10) or carbon monoxide. Such areas shall be defined as the entire PM-10 and/or carbon monoxide nonattainment area, unless otherwise determined pursuant to section 506.21 of the regulation.

501.614 A fire protection authority may declare a fire hazard in areas where burning is banned and in areas where burning is allowed. If open burning is determined to be the most appropriate manner to abate a fire hazard, the fire protection authority must request from the Authority permission to burn. Permits issued under section 501.614 shall provide that:

501.6141 Prohibited material shall not be burned.

501.6142 Burning shall not be conducted during a period of impaired air quality.

501.6143 No reasonable alternative is available.

501.6144 No open burning shall be conducted in areas that exceed federal or state ambient air quality standards for Carbon monoxide and/or PM-10. Such areas shall be defined as nonattainment areas for these pollutants.

501.62 Additional Requirements for Nonattainment Areas

501.621 Phase-out Approach. The Authority may petition Ecology to allow a phase-out approach in nonattainment areas. The phase-out approach will focus on how to achieve the Clean Air Washington goals and eliminate burning in areas that exceed the standards. Ecology will review and determine if the petition should be approved. The Ecology may partially approve petitions or approve petitions with conditions based on the following criteria:

501.6211 Population and population density considerations.

501.6212 Air quality in the region can support open burning based upon geographical and meteorological conditions.

501.6213 The presence of a permitting program.

PERMANENT

501.6214 The extent to which reasonable alternatives to open burning are being developed through solid waste management plans and the schedule for the availability of such reasonable alternatives.

501.622 The petition to allow for a burning phase-out approach is due to the Ecology no later than thirty (30) days after an area is designated as a nonattainment area. A ban is not effective in areas identified in the petition until after Ecology makes a ruling on the petition.

501.623 The phase-out plan identified in the petition shall be rendered void: 1) when alternatives are available or 2) when Ecology demonstrates to the Environmental Protection Agency that air quality standards are achieved.

501.624 Fires may be permitted in areas where burning is otherwise banned under the following conditions.

501.6241 Fire training. The Authority may issue permits for fire training fires, pursuant to Ecology guidelines and rules.

501.6242 The Authority may permit, fires that are part of a defined research project, weed abatement, and smoke training as part of a military training exercise.

501.6243 Responding to open burning calls. Each affected County shall identify a fire marshal or other appropriate county official for field response and to document open burning complaints or violations using appropriate field notices. In areas where the county has no jurisdiction, the Authority will negotiate with the appropriate local agency on field response.

501.63 Additional Requirements for Urban Growth Areas and Cities with a Population of Ten Thousand (10,000) or More.

501.631 Open Burning will be banned when reasonable alternatives are available. Regardless of alternative availability, open burning will be banned after December 31, 2000.

501.632 Until open burning is banned, it is allowed subject to the permitting provisions of this section.

501.633 When open burning is banned, the provisions in section 501.62 shall apply.

501.7 OPEN BURNING PERMIT REQUIREMENTS

501.71 All outdoor burning requires a permit. For areas where burning is allowed, the Authority, fire districts or departments, conservation districts, or counties may issue permits. Those issuing permits are responsible for field response to open burning complaints. Ecology will provide guidance for field response programs which addresses funding, training, and staffing.

501.72 In selecting a permit program, the options range from the minimum - a general rule burn, as described below, to a written permit. A permit program must be in place eight months after Ecology provides guidance for the program. If at that time, no agreement has been reached, the area becomes a no-burn area and falls under the restrictions set forth in section 501.62 above. A no-burn area will be established only after a public hearing has been conducted to address the matter.

501.73 Fees. The Authority may charge a fee to cover the administrative cost of a permit program. Fire districts, counties, and conservation districts issuing fire permits may collect fees to cover administrative costs.

501.74 The Authority may apply additional restrictions on open burning as necessary to reduce the impacts from open burning. These restrictions include, but are not limited to, restricting burning in sensitive areas per 173-400 WAC, restricting the time periods for which burning is allowed, limiting permissible hours of burning, restricting burning to specific weather conditions, and imposing requirement for good combustion.

501.75 General Rule Burn Permits. For areas where burning is allowed, fire permitting agencies may elect to use a general permit by rule. A person burning under a general permit by rule system must meet, at minimum, the following requirements and any additional restrictions including those established by cities, counties, or fire protection authorities. Persons not able to meet all of the requirements of this sections must apply for and receive a written permit.

General rule burn permits under section 501.75 may be used for the following number of days per year:

1992-1995	twenty-one days/year
1995-1998	fourteen days/year
After 1998	seven days/year

A person burning under a general rule burn permit must follow the requirements listed in section 5107.51 through 501.759 below and any additional restrictions in affect while burning, including those established by cities, counties, fire protection agencies, and the Authority.

- 501.751 The fire must not include prohibited materials except what paper is necessary to start the fire.
- 501.752 A person capable of extinguishing the fire must attend it at all times and the fire must be extinguished before leaving it.
- 501.753 No fires are to be within fifty (50) feet of structures.
- 501.754 The pile must not be larger than four feet in diameter.
- 501.755 Only one pile at a time may be burned, and each pile must be extinguished before lighting another.
- 501.756 No outdoor fire is permitted in or within five hundred (500) feet of forest slash without a written burning permit.
- 501.757 The designated permitting authority must be called to confirm burning conditions for each day or current information on burning conditions must be obtained.
- 501.758 If the fire creates a nuisance, it must be extinguished.
- 501.759 Permission from a landowner or designated representative must be obtained before building an outdoor fire.
- 501.76 Additional requirements for land clearing burning. The following "best available burning practices" shall be used when land clearing burns are conducted.
- 501.761 No land clearing fire shall be larger than fifty (50) feet in diameter and be located less than five times the fire diameter size from any structure.
- 501.762 No land clearing fire shall be ignited and no material shall be added to any fire after 6:00 pm; and no land clearing fire shall commence before 6:00 am each day unless prior approval is granted by the Authority.
- 501.763 At least one fan rated and operated at 6,000 cubic feet per minute must be on site for each twenty-five (25) feet of fire diameter and must be used to facilitate ignition and burning unless comparable winds make a fan unnecessary.
- 501.764 Material for a fire must be free of excess dirt and machine stacked by an excavator or equivalent machine which must be on site and employed until all visible emissions cease. The ratio of stack height to burn pile diameter shall be as high as possible but no less than 1:2.
- 501.765 The number of fires per parcel, defined as a single, integrated, land area that is being cleared by a party, shall be:
- 501.7651 No more than one fire per acre: and
- 501.7652 No more than three fires per parcel, which must be set in sequence, with each fire fully engaged prior to setting another.
- 501.766 Stumps and tree trunks must be split so that no material exceeding three (3) feet in diameter is burned.
- 501.767 A person qualified to operate stacking or equivalent machinery shall be present at the immediate fire site during burning.
- 501.768 Burning shall be conducted in such a manner as to prevent any smoke and/or particulate matter from being emitted that is or is likely to restrict visibility on a public road or airport landing strip.
- 501.769 Outdoor fires for the purpose of land clearing burning must have a written permit from the appropriate fire permitting agency. Notwithstanding the restrictions listed in sections 501.761 through 501.768 above, all land clearing fires must meet any additional ((the)) conditions listed on the permit and all other applicable air pollution regulations.
- 501.770 No fires shall be permitted for the burning of material generated from land clearing projects located in areas where a burn ban exists.
- 501.771 It shall be unlawful for any person to cause or allow the burning of material generated from land clearing projects located in areas where a burn ban exists.
- 501.8 Additional requirements for commercial establishments.
- 501.81 No open burning is allowed at permanently located commercial establishments excluding land clearing operations. The Northwest Air Pollution Authority may issue fire permits on a case-by-case basis for extenuating circumstances e.g., mitigating an immediate threat to human health or safety.

REPEALER

NWAPA REGULATION SECTION 570 - REMOVAL AND ENCAPSULATION OF ASBESTOS MATERIAL

NEW SECTION

NWAPA REGULATION SECTION 570 - ASBESTOS CONTROL STANDARDS

570.1 The Board of Directors of the Northwest Air Pollution Authority recognize that asbestos is a serious health hazard. Any asbestos fibers released into the air can be inhaled and can cause lung cancer, pleural mesothelioma, peritoneal mesothelioma or asbestosis. The Board has, therefore, determined that any asbestos emitted to the ambient air is air pollution. Because of the seriousness of the health hazard, the Board of Directors has adopted this regulation to control asbestos emissions from asbestos removal projects in order to protect the public health. In addition, the Board has adopted these regulations to coordinate with the EPA asbestos NESHAP, the OSHA asbestos regulation, the Washington Department of Labor and Industries asbestos regulations, the Washington Department of Ecology Dangerous Waste regulation, and the solid waste regulations of Island, Skagit and Whatcom Counties.

570.2 DEFINITIONS

All definitions in Section 200 are fully applicable to Section 570.

ADEQUATELY WET - means sufficiently mixed, saturated, penetrated, or coated with a continuous fine mist of water or an aqueous solution to prevent emissions.

ASBESTOS - means the asbestiform varieties of actinolite, amosite (cummingtonite-grunerite), tremolite, chrysotile (serpentine), crocidolite (riebeckite), or anthophyllite.

ASBESTOS-CONTAINING MATERIAL - means any material containing at least one percent (1%) asbestos as determined by polarized light microscopy using the Interim Method of the Determination of Asbestos in Bulk Samples contained in Appendix A of Subpart F in 40 CFR Part 763. This term does not include asbestos-containing roofing material, regardless of asbestos content, when the following conditions are met:

1. The asbestos-containing roofing material is in good condition and is not peeling, cracking, or crumbling; and
2. The binder is petroleum based, the asbestos fibers are suspended in that base, and individual fibers are still encapsulated; and

3. The binder still exhibits enough plasticity to prevent the release of asbestos fibers in the process of removing it; and
4. The building, vessel, or structure containing the asbestos-containing roofing material will not be demolished by burning or mechanical renovation/demolition methods that may release asbestos fibers.

ASBESTOS-CONTAINING WASTE MATERIAL - means any waste that contains asbestos-containing material. This term includes asbestos waste from control equipment, materials used to enclose the work area during an asbestos project, asbestos-containing material(s) collected for disposal, or asbestos-contaminated waste, debris, containers, bags, protective clothing, or HEPA filters. This term does not include samples of asbestos-containing material taken for testing or enforcement actions.

ASBESTOS PROJECT - means the construction, demolition, repair, remodeling, maintenance, or renovation of any public or private building(s), vessel, structure(s), or component(s) involving the demolition, removal, encapsulation, salvage, disposal, or disturbance of any asbestos-containing material. This term includes the removal and disposal of asbestos-containing waste material from manufacturing operations that combine asbestos-containing material with any other material(s) to produce a product and the removal and disposal of stored asbestos-containing material or asbestos-containing waste material. It does not include the application of duct tape, rewettable glass cloth, canvas, cement, paint, or other non-asbestos materials to seal or fill exposed areas where asbestos fibers may be released.

ASBESTOS SURVEY - means an inspection using the procedures contained in 40 CFR 763.86, or an alternate method that has received prior written approval from the Control Officer, to determine whether materials or structures to be worked on, removed, or demolished, contain asbestos. In residential dwellings, asbestos samples may be taken by the resident owner of the dwelling.

CERTIFIED ASBESTOS WORKER/SUPERVISOR - means a person who is certified by the Washington State Department of Labor and Industries under WAC 296-65-010, 012, and 030 to undertake an asbestos project or, for federal employees working in a federal facility, trained in an equally effective program approved by the United States Environmental Protection Agency.

COLLECTED FOR DISPOSAL - means sealed in a leak-tight container while adequately wet.

COMPONENT - means any equipment, pipe, structural member, or other item covered, coated, or manufactured from asbestos-containing material.

CONTROLLED AREA - means an area to which only certified asbestos workers, or other persons authorized by the Washington Industrial Safety and Health Act,

have access. For residential dwellings, the controlled area is the interior of the dwelling.

DEMOLITION - means the wrecking, dismantling, removal of any load-supporting structural member on, or burning of, any building, vessel, structure, or portion thereof. For residential dwellings, a demolition means the wrecking, dismantling, or removal of any load-bearing structural member by the use of heavy equipment (such as a backhoe) or the burning of the building thereby rendering as permanently uninhabitable, that portion of the building being demolished.

EMERGENCY ASBESTOS PROJECT - means an unplanned asbestos project necessitated by a sudden and unexpected event that will imminently endanger human health and safety either through exposure to asbestos fibers or loss of vital utilities. AMENDATORY SECTION

SECTION 580 - VOLATILE ORGANIC COMPOUND CONTROL

580.1 The Board of Directors has noted the measurement of ozone concentrations (one hour ave.) nearing the Federal ambient standard at the northern and southern boundaries of the NWAPA jurisdiction. The expanding population and the presence of four large refineries contribute volatile organic compound (VOC) emissions to the atmosphere. Photochemically reactive VOC's are precursors to ozone formation. In order to maintain the current attainment status for ozone, the Board has adopted specific measures to control VOC emissions. Reasonable Available Control Technology (RACT) is required for existing refinery operations, gasoline marketing, and in the use of cutback asphalt. RACT is defined as the lowest emission limit that a particular source is capable of meeting by the application of control that is reasonably available considering technological and economic feasibility. Best Available Control Technology for VOC will be required on all new sources.

This classification covers entertainers whose routines and performances are of a physical nature such as but not limited to ballet, dance, gymnastics, and ice dance/skate performers.

AMENDATORY SECTION (Amending WSR 93-24-114, filed 12/1/93, effective 1/1/94)

WAC 296-17-855 Experience modification. The basis of the experience modification shall be a comparison of the actual losses charged to an employer during the experience period with the losses which would be expected for an average employer reporting the same exposures in each classification. The comparison shall contain actuarial refinements designed to mitigate the effects of losses which may be considered catastrophic or of doubtful statistical significance, due consideration being given to the volume of the employer's experience. Except for those employers who qualify for an adjusted experience modification as specified in WAC 296-17-860 or 296-17-865, the experience modification shall be calculated from the formula:

$$\text{MODIFICATION} = \frac{A_p + W A_e + (1-W) E_e + B}{E + B}$$

The components A_p , $W A_e$, and $(1-W) E_e$ are values which shall be charged against an employer's experience record. The component, E , shall be the expected value of these charges for an average employer reporting the same exposures in each classification. The meaning and function of each symbol in the formula is specified below.

" A_p " signifies "primary actual losses." For each claim the primary actual loss is defined as that portion of the claim which is considered completely rateable for all employers and which is to enter the experience modification calculation at its full value. For each claim in excess of ~~(\$8,809)~~ \$9,271 the primary actual loss shall be determined from the formula:

$$\text{PRIMARY LOSS} = \frac{((22,022)) \ 23,177}{\text{Total loss} + ((13,213)) \ 13,906} \times \text{total loss}$$

Primary actual losses for selected claim values are shown in Table I. For each claim less than ~~(\$8,809)~~ \$9,271 the full value of the claim shall be considered a primary loss.

" A_e " signifies "excess actual losses." For each claim the excess actual loss is defined as that portion of the claim which is not considered completely rateable for all employers. The excess actual loss for each claim shall be determined by subtracting the primary loss from the total loss.

" W " signifies "W value." For each employer, the W value determines the portion of the actual excess losses which shall be included in the calculation of his experience modification, due consideration being given to the volume of his experience. This amount is represented by the symbol " $W A_e$ " in the experience modification formula. W values are set forth in Table II.

" E " signifies "expected losses." An employer's expected losses shall be determined by multiplying his reported exposure in each classification during the experience period by the classification expected loss rate. Expected loss rates are set forth in Table III.

" E_e " signifies "expected excess losses." Expected losses in each classification shall be multiplied by the classification "D-Ratio" to obtain "expected primary losses." Expected excess losses shall then be calculated by subtracting expected primary losses from expected total losses. Each employer shall have a statistical charge included in the calculation of his experience modification, said charge to be actuarially equivalent to the amount forgiven an average employer because of the exclusion of a portion of his excess actual losses. This charge is represented by " $(1-W) E_e$ " in the experience modification formula. D-Ratios are set forth in Table III.

" B " signifies "B value" or "ballast." In order to limit the effect of a single severe accident on the modification of a small employer, a stabilizing element (B value) shall be added to both actual and expected losses. B values are set forth in Table II.

AMENDATORY SECTION (Amending WSR 92-18-065, filed 8/31/92, effective 10/1/92)

WAC 296-17-45004 Forest, range, or timber land services—Industry rule. Washington law (RCW 51.48.030) requires every employer to make, keep, and preserve records which are adequate to facilitate the determination of premiums (taxes) due to the state for workers' compensation insurance coverage for their covered workers. In the administration of Title 51 RCW, and as it pertains to the forest, range, or timber land services industry, the department of labor and industries has deemed the records and information required in the various subsections of this section to be essential in the determination of premiums (taxes) due to the state fund. The records so specified and required, shall be provided at the time of audit to any representative of the department who has requested them.

Failure to produce these required records within thirty days of the request, or within an agreed upon time period, shall constitute noncompliance of this rule and RCW 51.48.030 and 51.48.040. Employers whose premium computations are made by the department in accordance with subsection (4) of this section are barred from questioning, in an appeal before the board of industrial insurance appeals or the courts, the correctness of any assessment by the department on any period for which such records have not been kept, preserved, or produced for inspection as provided by law.

(1) General definitions. For purpose of interpretation of this section, the following terms shall have the meanings given below:

(a) "Actual hours worked" means each workers' composite work period beginning with the starting time of day that the employees' work day commenced, and includes the entire work period, excluding any nonpaid lunch period, and ending with the quitting time each day work was performed by the employee.

(b) "Work day" shall mean any consecutive twenty-four-hour period.

(2) Employment records. Every employer shall with respect to each worker, make, keep, and preserve original records containing all of the following information for three full calendar years following the calendar year in which the employment occurred:

(a) The name of each worker;

(b) The Social Security number of each worker;

(c) The beginning date of employment for each worker and, if applicable, the separation date of employment for each such worker;

(d) The basis upon which wages are paid to each worker;

(e) The number of units earned or produced for each worker paid on a piece-work basis;

(f) The risk classification(s) applicable to each worker;

(g) The number of actual hours worked by each worker, unless another basis of computing hours worked is prescribed in WAC 296-17-350. For purposes of chapter 296-17 WAC, this record must clearly show, by work day, the time of day the employee commenced work, and the time of day work ended;

(h) A summary time record for each worker showing the calendar day or days of the week work was performed and the actual number of hours worked each work day;

(i) In the event a single worker's time is divided between two or more risk classifications, the summary contained in (h) of this subsection shall be further broken down to show the actual hours worked in each risk classification for the worker;

(j) The workers' total gross pay period earnings;

(k) The specific sums withheld from the earnings of each worker, and the purpose of each sum withheld;

(l) The net pay earned by each such worker.

(3) Business, financial records, and record retention. Every employer is required to keep and preserve all original time records completed by their employees for a three-year period. The three-year period is specified in WAC 296-17-352 as the composite period from the date any such premium became due.

Employers who pay their workers by check are required to keep and preserve a record of all check registers and cancelled checks; and employers who pay their workers by cash are required to keep and preserve records of these cash transactions which provide a detailed record of wages paid to each worker.

(4) Recordkeeping - Estimated premium computation. Any employer required by this section to make, keep, and preserve records containing the information as specified in subsections (2) and (3) of this section, who fails to make, keep, and preserve such records, shall have premiums calculated as follows:

(a) Estimated worker hours shall be computed by dividing the gross wages of each worker for whom records were not maintained and preserved, by the state's minimum wage, in effect at the time the wages were paid or would have been paid. However, the maximum number of hours to be assessed under this provision will not exceed five hundred twenty hours for each worker, per quarter for the first audited period. Estimated worker hours computed on all subsequent audits of the same employer that disclose a continued failure to make, keep, or preserve the required payroll and employment records shall be subject to a maximum of seven hundred eighty hours for each worker, per quarter.

(b) In the event an employer also has failed to make, keep, and preserve the records containing payroll information and wages paid to each worker, estimated average wages for each worker for whom a payroll and wage record was not maintained will be determined as follows: The employer's total gross income for the audit period (earned, received, or anticipated) shall be reduced by thirty-five percent to arrive at "total estimated wages." Total estimated wages will then be divided by the number of employees for whom a record of actual hours worked was not made, kept, or preserved to arrive at an "estimated average wage" per worker. Estimated hours for each worker will then be computed by dividing the estimated average wage by the state's minimum wage in

effect at the time the wages were paid or would have been paid as described in (a) of this subsection.

(5) Reporting requirements and premium payments.

(a) Every employer who is awarded a forest, range, or timber land services contract must report the contract to the department promptly when it is awarded, and prior to any work being commenced, except as provided in (c) of this subsection. Employers reporting under the provisions of (c) of this subsection shall submit the informational report with their quarterly report of premium. The report shall include the following information:

- (i) The employers' ~~((uniform))~~ unified business identification account number (UBI).
- (ii) Identification of the landowner, firm, or primary contractor who awarded the contract, including the name, address, and phone number of a contact person.
- (iii) The total contract award.
- (iv) Description of the forest, range, or timber land services work to be performed under terms of the contract.
- (v) Physical location/site where the work will be performed including legal description.
- (vi) Number of acres covered by the contract.
- (vii) Dates during which the work will be performed.
- (viii) Estimated payroll and hours to be worked by employees in performance of the contract.

(b) Upon completion of every contract issued by a landowner or firm that exceeds a total of ten thousand dollars, the contractor primarily responsible for the overall project shall submit in addition to the required informational report described in (a) of this subsection, report the payroll and hours worked under the contract, and payment for required industrial insurance premiums. In the event that the contracted work ~~((lasts more than three calendar months))~~ is not completed within a calendar quarter, interim quarterly reports and premium payments are required for each contract for all work done during the calendar quarter. The first such report and payment is due ((three months after)) at the end of the first calendar quarter in which the contract work is begun ((and may not necessarily be consistent or coincide with the quarterly reporting cycle used by forestation, range, or timber land service employers)). Additional interim reports and payments will be submitted each quarter thereafter until the contract is completed. This will be consistent with the quarterly reporting cycle used by other employers. Premiums for a calendar quarter, whether reported or not, shall become due and delinquent on the day immediately following the last day of the month following the calendar quarter.

(c) A contractor may group contracts issued by a landowner, firm, or other contractor that total less than ten thousand dollars together and submit a combined quarterly report of hours, payroll, and the required premium payment in the same manner and periods as nonforestation, range, or timber land services employers.

(6) Out-of-state employers. Forest, range, or timber land services contractors domiciled outside of Washington state must report on a contract basis regardless of contract size for all forest, range, or timber land services work done in Washington state. Out-of-state employers will not be permitted to have an active Washington state industrial insurance account for reporting forest, range, or timber land

services work in the absence of an active Washington forest, range, or timber land services contract.

(7) Work done by subcontract. Any firm primarily responsible for work to be performed under the terms of a forest, range, or timber land services contract, that subcontracts out any work under a forest, range, or timber land services contract must send written notification to the department prior to any work being done by the subcontractor. This notification must include the name, address, Social Security number, farm labor contractor number, (UBI) of each subcontractor, and the amount and description of contract work to be done by subcontract.

(8) Forest, range, or timber land services contract release - Verification of hours, payroll, and premium. The department may verify reporting of contractors by way of an on-site visit to an employers' work site. This on-site visit may include close monitoring of employees and employee work hours. Upon receipt of a premium report for a finished contract, the department may conduct an audit of the firm's payroll, employment, and financial records to validate reporting. The department will notify the contractor, and the entity that awarded the contract, of the status of the contractors' account immediately after verification. The landowner, firm, or contractors' premium liability will not be released until the final report for the contract from the primary contractor and any subcontractors has been received and verified by the department.

~~(9) ((Forest, range, or timber land services premium refund. Upon verification that an employer subject to these rules complied with all the provisions contained in these rules, the department shall refund forty percent of the accident fund premium paid under the contract. For those contracts that total more than ten thousand dollars the refund shall be made upon verification and receipt of the final premium report for the contract. Contracts for less than ten thousand dollars which are grouped under the provision of subsection (4)(b) of this section will receive a forty percent refund out of their paid in accident fund premiums after the quarterly report has been received and verified. However, the refund of premium for all forest, range, or timber land services work is limited to work reported in risk classification 5004 (WAC 296-17-66002), provided further, that the contractor is otherwise eligible. As a part of the refund eligibility, forest, range, or timber land services contractors are required to attend a department sponsored industrial insurance education seminar.~~

~~Any employer who is subject to this section will be ineligible for any refund(s) for a three year period if it is determined that the employer is out of compliance on any of its contracts, including any group contracts completed after the effective date of this rule.~~

~~Premium refund ineligibility will extend to any new industrial insurance account in which the owner or owners, or their immediate family, have an ownership interest in an industrial insurance account, or the employer has failed to attend the education seminar sponsored by the department.~~

~~(10)) Premium liability - Work done by contract. Washington law (RCW 51.12.070) places the responsibility for industrial insurance premium payments primarily and directly upon the person, firm, or corporation who lets a contract for all covered employment involved in the fulfillment of the contract terms. Any such person, firm, or~~

(a) At the time a punchboard or pull tab series is delivered, each operator will assure that all ~~((purchase invoice))~~ required data is correctly recorded by the distributor by comparing the actual Washington state identification and inspection services stamp number attached to each punchboard and pull tab series to the number recorded on the purchase invoice;

(b) All purchases of punchboards or pull tab series shall be recorded on a standard distributor's invoice, which will be used by the operator as a record to account for the punchboard or pull tab series between the time it is purchased and removed from play. Each invoice shall include space for the operator to either attach a records entry label or enter the Washington state identification and inspection services stamp number and the date the device was placed out for play: *Provided*, That in lieu of the distributor's invoice recording system, licensees may use a separate inventory record to account for purchases and uses of punchboards and pull tabs. Entries required to be made by the distributor on the purchase invoice shall be entered by the operator on the alternative inventory record at the time devices are received. The inventory record may be manually maintained or generated from a computer data base. If generated from a computer data base, all requirements relating to computer data base records and printouts, as set out in WAC 230-08-010 (6) and (7) shall be followed. - (i) Date placed into play; and

(ii) Washington state identification and inspection services stamp number by attaching a records entry label: *Provided*, That a computer generated facsimile of the number may be imprinted on the inventory record in lieu of a records entry label.

(d) If a device is returned to a distributor for any reason, including commission required recall, the operator

shall record the date, invoice or credit memo number, and "returned" on the original purchase invoice or inventory log in the spaces allotted for "date-in-play" and "records entry label";

(2) Each punchboard or pull tab series which is removed from operation, together with the prize flare, all unplayed tabs, and all winning punches or tabs, shall be retained by the operator ~~((for at least four months following the last day of the month in which it was removed from play. For purposes of computing gross gambling receipts for determining compliance with the recording accuracy requirement, the procedures in subsection (5) of this section apply;

(4) Each punchboard or pull tab series which is deemed by the operator to be defective or unplayable, for any reason, shall not be returned to the distributor or manufacturer without approval from the commission. If it is found to be defective after it has been placed out for play, all other rules apply and it must be recorded as required by WAC 230-08-010: *Provided*, That the retention time required by subsection (2) above may be shortened by the commission upon inspection and written release by a commission agent;

(5) For purposes of compliance with the requirements of this section and license class compliance, gross gambling receipts from the operation of punchboards and pull tabs shall be adjusted for commission staff audit findings by using the following procedures:

(a) Unrecorded devices - Gross gambling receipts shall be increased to account for any unrecorded devices purchased by an operator by adding the maximum amount that could be generated from the device, as determined by multiplying the total number of chances available by the price of a single chance. The adjustment shall be made to the records for the month in which the device was purchased; and

(b) Recording errors - Gross gambling receipts shall be increased or decreased by an adjustment factor that is based upon the results of an audit of a sample of at least five devices randomly selected by the commission staff. The adjustment factor shall be determined by dividing the audited amount for the sample group of devices by the recorded amount for the same devices. The resulting product of this equation shall be applied to the total recorded gross gambling receipts for the calendar quarter from which the sample was taken and to the immediately preceding three quarters.

(ii) The new game operates on one or less occasion common to the current game, then the annual and calendar quarter prize payout limits shall be increased by one-half percentage point for the first twelve months of operation,

and the annual minimum net income requirements shall be decreased by one-half percentage point for the first twelve months of operation of the new game.

(c) Relief for subsection (4)(b) of this section - Organizations forced to move their game outside their primary market area shall be authorized an increase in the quarterly prize payout limit of one percentage point, and a decrease in the annual net income limit by one percentage point for the first twelve months of operation in the new location;

(d) Relief for subsection (4)(c) of this section - Organizations not previously licensed to conduct bingo at any level shall be authorized a two percentage point reduction in the net income requirement and a two percentage point increase in the maximum prize payout requirement of Table 1. for the first annual license period;

(e) Relief for subsection (4)(d) of this section - Organizations required to upgrade their license in the last quarter of their annual license period shall be measured for the entire annual license period based on the lower license class limits; and

(f) Relief for subsection (4)(e) of this section - Organizations that have temporary interruption of customer flow shall be measured for the affected period, plus one month, based on performance with the interruption period factored out.

(6) Enforcement actions. The commission may impose the following corrective requirements and/or penalties on any licensee who fails to meet requirements of this section:

(a) Any licensee that exceeds the maximum calendar quarter prize payout limit or reports net income that is more than two percentage points lower than the annual minimum net income requirements during any quarter and whose net income falls below the annual minimum requirements when measured license year-to-date shall:

(i) Take immediate steps to decrease prizes and/or expenses;

(ii) Report the violation to commission staff as soon as discovered, but in no case later than thirty days following the end of the quarter. This notification shall be separate and additional to the quarterly activity report;

(iii) Provide a written plan of actions to gain compliance to the commission no later than forty-five days following the end of the quarter. This plan shall be evaluated by commission staff and input provided to the licensee no later than thirty days after receipt;

(iv) Provide the commission additional reports determined by the staff as necessary to monitor progress toward compliance; and

(v) Upon request, a committee of the licensee's management, including the chief executive officer, executive director, or equivalent manager responsible for supervising the primary bingo manager, and the primary bingo manager shall meet with commission staff to discuss the action plan.

(b) Any licensee who fails to achieve the minimum net income requirement for their annual measurement period shall be limited in license class for the next annual license period to the license class equal to the level of net income actually achieved, not to exceed a license class that authorizes at least one-half of the maximum gross gambling receipts of the current license class. The annual measurement period used shall be the licensee's annual fiscal accounting year: *Provided*, That the reduction for the first violation shall be

a maximum of two license classes. A licensee limited under this section will not be granted an increase in their authorized license class until it has demonstrated the ability to maintain net income requirements at or above the minimum level for the class of license sought. Achieving net income requirements at or above the minimum level for at least two quarters, one of which may be the last quarter in the previous license year, shall be prima facie evidence of such ability: *Provided Further*, That a licensee may petition the commissioners for a license to operate at a higher level. Any such petition would be heard at a regular public meeting of the commission under the requirements of WAC 230-50-850. Petitions for relief under this section must include: The impact the reduction would have on their programs; what portion of their programs are charitable as compared to nonprofit; and income available from other sources to fund programs. The commission may take testimony from other parties that may be affected by approval of the petition. Any approval granted under this section may be made contingent upon future compliance or other issues as determined by the commission.

(c) The commission deems the responsibility for maintaining prize payouts at or below the maximum annual limit to be that of the primary bingo manager. The organization's board of directors may relieve the primary bingo manager of this responsibility by informing the commission in writing. Unless relieved by the board of directors, the primary manager shall be responsible for all penalties imposed under this section. If the board relieves the manager of responsibility for prizes, the commission shall consider the organization fully responsible for compliance with this section. In this case, prize payouts will be considered when reviewing violations of this section. The primary manager shall not be compensated in any manner during periods of license suspension imposed under this section. Any primary bingo manager who fails to achieve the annual limit for the class of license issued to the organization, as set out in Table 1. below, shall:

(i) First violation - Receive a written warning and be required to demonstrate in-depth knowledge of factors affecting prize payouts including, but not limited to, bingo game prize probabilities, expected payouts for each type of game, factors included in the computation, and methods for analysis of games. The scope and depth of their bingo management knowledge shall be demonstrated by requiring the manager to prepare and submit their current game schedules, records used to analyze games, and the expected payout for each game. The manager will be required to meet with commission staff to discuss the evaluation and other aspects of their game;

(ii) Second violation - Three day suspension that includes at least one operating day;

(iii) Third violation - Ten day suspension that includes at least four operating days;

(iv) Fourth violation - Thirty-day suspension;

(v) Fifth violation - Revocation of manager's license for at least one year.

(b) An insurer may pay the present value of the face amount of the insured's policy or certificate. The calculation of that present value shall be based upon any applicable discount appropriate to the policy design. The interest rate or interest rate methodology used in the calculation shall be based upon sound actuarial principles and disclosed in the policy or actuarial memorandum. Future access to additional policy loans may be limited to any excess of the

cash value over the sum of the lien and any other outstanding policy amounts. When payment of an accelerated benefit results in a pro rata reduction in the cash value, the payment may not be applied toward repaying an amount greater than a pro rata portion of any outstanding policy loans.

[Filed November 23, 1994, 1:38 p.m.]

Date of Adoption: November 23, 1994.

Purpose: Amend PEBB eligibility rules to permit enrollment by school district and educational service district bargaining units; enrollment by retirees of school districts; require Medicare eligible retirees to enroll in both Parts A and B of Medicare as a condition of eligibility. Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The drafted permanent rules are currently under legal review.

WAC 182-12-115 Eligible employees, retirees, and dependents. The following definitions of eligible employees, retirees, and dependents of an eligible entity, as defined in WAC 182-12-111 shall apply for all ~~((SEBB))~~ PEBB approved plans except as otherwise stated in this chapter~~(*)~~. For purposes of defining eligible employees of school districts and educational service districts, the collective bargaining agreement will supersede all definitions provided under this rule if approved by the PEBB and the authority in accordance with WAC 182-12-111 (3)(a)(iv).

(1) "Permanent employees." Those who are scheduled to work at least half-time per month and are expected to be employed for more than six months. Such employees shall be eligible effective with their first day of employment.

(2) "Nonpermanent employees." Those who are scheduled to work at least half-time and are expected to be employed for no more than six months. Such employees shall be eligible effective the first day of the seventh calendar month of employment.

(3) "Seasonal employees." Those who work at least half-time per month during a designated season for a minimum of three months but less than nine months per year and who have an understanding of continued employment with their agency season after season. These employees become eligible on the first day of such employment, however, they are not eligible for the employer contribution during the break between seasons of employment.

(4) "Career Seasonal/Instructional Employees." Employees who work half-time or more on an instructional year (school year) or equivalent nine-month seasonal basis are eligible on their first day of employment and are eligible to receive the employer contribution for insurance during the off-season following each period of seasonal employment.

~~((4))~~ (5) "Part-time faculty." Faculty who are employed on a quarter/semester to quarter/semester basis become eligible beginning with the second consecutive quarter/semester of half-time or more employment at one or more state institutions of higher education, provided that:

(a) For determining eligibility, spring and fall may be considered consecutive quarters/semesters; and

(b) "Half-time or more employment" will be determined based on each institution's definition of "full-time"; and

(c) At the beginning of each quarter/semester, the employers of part-time faculty shall notify, in writing, all current and newly hired part-time faculty of their potential right to benefits under this section. The employee shall have the responsibility, each quarter, to notify the employers, in writing, of the employee's multiple employment. In no case will there be a requirement for retroactive coverage or employer contribution if a part-time faculty member fails to inform all of his/her employing institutions about employment at all institutions within the current quarter; and

(d) Where concurrent employment at more than one state higher education institution is used to determine total part-time faculty employment of half-time or more, the employing institutions will arrange to prorate the cost of the employer insurance contribution based on the employment at each institution. However, if the part-time faculty member would be eligible by virtue of employment at one institution, that institution will pay the entire cost of the employer contribution regardless of other higher education employment. In cases where the cost of the contribution is prorated between institutions, one institution will forward the entire contribution monthly to ~~((SEBB))~~ HCA; and

(e) Once enrolled, if a part-time faculty member does not work at least a total of half-time in one or more state institutions of higher education, eligibility for the employer contribution ceases.

~~((5))~~ (6) "Appointed and elected officials." Legislators are eligible on the date their term begins. All other elected and full-time appointed officials of the legislative and executive branches of state government are eligible on the date their term begins or they take the oath of office, whichever occurs first.

of PERS I or PERS II for the same period of employment; or

(c) Must take a lump sum benefit because their monthly benefit would have been under fifty dollars.

Employees who are permanently and totally disabled and eligible for a deferred monthly retirement income benefit are likewise eligible, provided they apply for retiree coverage before their ((SEBB)) PEBB active employee coverage ends. Persons retiring who do not have waiver of premium coverage from any ((SEBB)) PEBB life insurance plan are eligible for retiree life insurance, subject to the same qualifications as for retiree medical coverage. Retirees and disabled employees are not eligible for an employer premium contribution. The Federal Civil Service Retirement System shall be considered a Washington state sponsored retirement system for Washington State University cooperative extension service employees who hold a federal civil service appointment and who are covered under the ((SEBB)) PEBB program at the time of retirement or disability.

(9) "Retired and disabled school district and educational service district employees." The following persons are eligible to participate in PEBB medical and dental plans only, provided they meet the enrollment criteria stated below and if eligible for Medicare, be enrolled in Medicare Parts A and B or enroll in the next Medicare open enrollment period:

(a) Persons receiving a retirement allowance under chapter 41.32 or 41.40 RCW as of September 30, 1993, and who enroll in PEBB plans not later than the end of the open enrollment period established by the authority for the plan year beginning January 1, 1995;

(b) Persons who separate from employment with a school district or educational service district on or after October 1, 1993, and immediately upon separation begin to receive a retirement allowance under chapter 41.32 or 41.40 RCW. (c) Persons who separate from employment with a school district or educational service district due to a total and permanent disability, and are eligible to receive a deferred retirement allowance under chapter 41.32 or 41.40 RCW. Such persons must enroll in PEBB plans not later than the end of the open enrollment period established by the authority for the plan year beginning January 1, 1995, or sixty days following retirement, whichever is later.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 94-171—Filed December 2, 1994, 9:59 a.m.]

Date of Adoption: December 1, 1994.

Purpose: Declare emergency and allow for custody or destruction of dogs harassing deer or elk.

Statutory Authority for Adoption: RCW 77.12.315.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Fire damage in the northern part of Eastern Washington and heavier than expected snowfall in other parts has forced deer to lower elevations where harassment by dogs has been observed. In order to protect the deer population, and, later the elk population, in these counties, it is necessary to allow enforcement officers to take dogs into custody and, if necessary to destroy dogs.

Effective Date of Rule: Immediately.

COUNTIES—CITIES—CITY-COUNTY CHARTERS—FREEHOLDERS—INCORPORATION—ANNEXATION—Options available to freeholders elected to present city-county charters

1. A board of freeholders elected pursuant to article 11, section 16 of the Washington Constitution to draft and present a proposed city-county charter may not instead draft a charter relating to the county only.
2. The state constitution requires that a city-county charter specifically provide for the legal status of cities within the new government's territory, and grants broad discretion to the voters in defining which, if any, of the powers and duties of existing cities would continue or change after adoption of a city-county charter.
3. Cities remaining in existence in a city-county operating under a city-county charter retain authority to annex territory, only if and only to the extent that the charter grants such authority.
4. All of voters of a county may vote on the adoption of a proposed city-county charter, including those residing within any incorporated cities in the county.
5. A board of freeholders lacks authority to use public funds or property to advocate or promote adoption of a city-county charter after it has been drafted and submitted pursuant to the constitution; however, the acts of soliciting and recording public opinion, drafting, debating, deliberating, selecting options, and submitting a charter to the county are all specifically implied by the freeholders' constitutional role and do not constitute an unlawful use of public property.

THE WASHINGTON STATE REGISTER, published under RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards that have been filed in the code reviser's office before the closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper issue of the Register.

The code reviser's office has established an annual subscription price of \$175 for a Register subscription, and single copies cost \$7.50. Sales tax of 7.9% applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$188.83 (\$175 for state agencies) payable to the code reviser's office.
