[Filed June 16, 2006, 9:28 a.m.]

PUBLIC NOTICE TO THOSE INTERESTED IN WASHINGTON
STATE MARITIME PILOTAGE

By board action taken in regular session on June 8, 2006, the Washington state board of pilotage commissioners has determined that it will propose 2007 agency request legislation to amend portions of the Pilotage Act (chapter 88.16 RCW) that are necessary to:

- Hold a Puget Sound pilot examination prior to July 1, 2008, that does not require a federal pilotage endorsement at the time of application,
- Exempt successful 2005 examinees from the four-year limitation period which would eliminate the need to

take another pilot exam and retain position in line for training,

- Define board authority to set license fees and pilot examination fees,
- Clarify that physical examinations are not required until a training license is issued,
- Merge liability protection statutes that apply to pilots, trainees, and certain port districts, and
- Delete obsolete provisions (housekeeping).

The board will be taking written and oral comments concerning the proposed legislation for consideration at its next regular meeting.

The next meeting of the board of pilotage commissioners will be on July 13, 2006, commencing at 9:30 a.m. in the Fourth Floor Rainier Conference Room, 2901 Third Avenue, Seattle, WA 98121. The meeting will be open to the public and an opportunity will be provided for anyone to present oral testimony. INTERPRETIVE STATEMENT DEPARTMENT OF REVENUE

[Filed June 19, 2006, 1:20 p.m.]

ADOPTION OF INTERPRETIVE STATEMENT

Excise Tax Advisory 2002.16.179 - Low-density light and power utility deduction

The department of revenue has issued a revised Excise Tax Advisory 2002.16.179 Low-density light and power utility deduction (ETA 2002). This advisory explains the public utility tax deduction provided by RCW 82.16.053 to qualifying power and light businesses.

RCW 82.16.053 requires that the department determine the state average electric power rate each year and inform taxpayers of this rate. This rate is used by the power and light business to compute the amount of the deduction. The revised ETA 2002 updates the information to provide the rate to be used for the period of July 2006 through June 2007.

A copy of this advisory is available via the internet at <http://www.dor.wa.gov/content/laws/eta/eta.aspx>. Alternatively, a request for a copy of this advisory may be directed to Roseanna Hodson, Interpretations and Technical Advice Unit, P.O. [Filed June 21, 2006, 10:36 a.m.]

FINAL NOTICE OF CHANGES TO STATE OF WASHINGTON
 NURSING FACILITY MEDICAID PAYMENT RATE METHODOLOGY

The 2006 state legislature has passed changes to the method for determining facility-specific, per resident day Medicaid payment rates for nursing facility care in Washington. Unless otherwise indicated the changes are effective July 1, 2006. This notice includes a justification, description, and estimated rate impact of the changes.

These changes were the subject of a notice published in Issue 06-11 of the Washington state register, distributed on June 7, 2006. No comments were received in response to the notice.

JUSTIFICATION

The changes are mandated by the 2006 Washington state legislature in chapter 258, Laws of 2006, and in section 206, chapter 372, Laws of 2006, the state Operating Budget Appropriations Act.

NEW RATES AND PROPOSED CHANGES
 TO RATE METHODOLOGY

In combination with a variety of other factors, including changes in the allowed costs of care, the methodological changes are estimated to result in a statewide average nursing facility Medicaid payment rate of \$147.57 per resident day, at a maximum, for state fiscal year 2006, running from July 1, 2005, to June 30, 2006, and \$156.41 for state fiscal year 2007, running from July 1, 2006, to June 30, 2007.

Chapter 258, Laws of 2006, makes several changes in the Medicaid nursing facility rate methodology, including:

- 1) A "rebasing" of costs used to calculate the direct care and operations component rates to the 2003 cost report;
- 2) Elimination of the minimum occupancy assumption in the calculation of the direct care component;
- 3) Elimination of the minimum occupancy assumption in the calculation of the direct care component rate for nursing facilities returning previously "banked" beds to active status;
- 4) A "freezing" of the variable return rate component for all facilities at the June 30, 2006, variable return rate allocation;

5) Revision of case mix weights whenever direct care component rates are cost-rebased under RCW 74.46.431(4);

6) Use of the 90% threshold for calculation of the quarterly case mix index; use of the facility average case mix index throughout the cost-rebasing period; and use of the average facility average case mix index from the four calendar quarters of the cost rebase year;

7) A rise in the "lid" for the cost per case mix unit used in the calculation of the direct care component rate, from 110% to 112% of the peer group median; and elimination of the "floor" for the cost per case mix unit used in the calculation of the direct care component rate;

8) Clarification that the 90% minimum occupancy threshold is to be used in calculation of the operations component median "lid;"

9) Creation of a new category of nursing facility to be known as a "vital local provider," defined as a nursing facility reporting a home office address located in Washington state, where the sum of Medicaid days for all Washington facilities reporting that address as their home office was greater than 215,000 in 2003; and

10) Granting a "hold harmless" provision to vital local providers. For a vital local provider, the sum of the facility's direct care and operations component rates calculated as of July 1, 2006 (the effective date of chapter 258, Laws of 2006) will be compared to the sum of those same two component rates as of June 30, 2006 (the last day under chapter 74.46 RCW as it existed before the new law). If the sum as of July 1, 2006, is lower than the sum as of June 30, 2006, then the vital local provider will continue to receive the direct care and operations component rate allocations calculated as of June 30, 2006. In setting economic trends and conditions adjustment factors (sometimes called vendor rate increases) for the direct care and operations components rate allocations, the legislature may define different adjustment factors for vital local providers whose rates are set equal to their June 30, 2006, rates.
