NOTICE OF PUBLIC MEETINGS
DEPARTMENT OF ARCHAEOLOGY
AND HISTORIC PRESERVATION
 (Advisory Council on Historic Preservation)
 [Filed October 13, 2009, 8:51 a.m.]

In accordance with RCW 42.30.075, the next meeting of the Washington state advisory council on historic preservation on Thursday, November 5, 2009, at the Downtown Spokane Public Library, 906 West Main Avenue, beginning at 10:00 a.m. For more information about the meeting, contact Michael Houser of the Washington state department of archaeology and historic preservation (DAHP) at (360) 586-3076 or Michael.Houser@dahp.wa.gov. Information about the meeting may also be found at the DAHP web site at www.dahp.wa.gov.

If anyone wishes to request disability accommodations, notice should be given to the DAHP at least ten days in advance of the meeting in question. Notice may be given by phone at (360) 586-3065, fax (360) 586-3067 or by contacting Zee Hill at Zee.Hill@dahp.wa.gov.

WSR 09-21-031
INTERPRETIVE STATEMENT
DEPARTMENT OF ECOLOGY
 [Filed October 13, 2009, 10:19 a.m.]

The department of ecology has issued the following interpretive statement:

Water Resources Policy Regarding Collection of Rainwater for Beneficial Uses (POL 1017)

Purpose: To provide a consistent response to water right related issues when considering the use of rooftop collected rainwater.

Subject: This interpretive statement applies to the water right permit requirement in chapter 90.03 RCW and the authority to regulate rainwater harvesting systems.

Document Description: Ecology has determined that existing law may be reasonably interpreted not to require a permit for the on-site storage and use of rooftop or guzzler collected rainwater. Under the department's policy, the on-site storage and/or beneficial use of rooftop or guzzler collected rainwater is not subject to the permit process of chapter 90.03 RCW. If and when the department determines that rooftop or guzzler rainwater harvesting systems are likely to negatively affect instream values or existing water rights, local restrictions may be set in place to govern subsequent new systems. To qualify as rooftop collected rainwater, the roof collecting the rainwater must be part of a fixed structure above the ground with a primary purpose other than the collection of rainwater for beneficial use. A guzzler is a device used to catch and store rainwater to provide drinking water for wildlife, livestock or birds.

Effective Date: October 13, 2009.

A copy of the policy and associated procedure may be downloaded at the department of ecology's web site at <http://www.ecy.wa.gov/programs/wr/rules/images/pdf/pol1017.pdf>.

You may also contact Kurt Unger, Water Resources Program, Department of Ecology, P.O. Box 47600, 98504-7600, phone (360) 407-7262 or e-mail kung461@ecy.wa.gov, TDD - if you have special accommodation needs or require this document in an alternate format, please contact Water Resources reception at (360) 407-6600 (voice) or 711 (TTY) or 1-800-833-6388 (TTY).

Responsible Official: Jay J. Manning, director, department of ecology.

POL 1017 **WATER RESOURCES PROGRAM POLICY REGARDING COLLECTION OF RAINWATER FOR BENEFICIAL USE**

Resource Policy and Planning Section

Contact: Effective Date: October 09, 2009

References: RCW 90.03; RCW 90.54

Purpose: To 1) clarify that a water right is not required for on-site storage and use of rooftop or guzzler collected rainwater, and (2) identify the Department of Ecology's intent to regulate the storage and use of rooftop or guzzler collected rainwater if and when the cumulative impact of such rainwater harvesting is likely to negatively affect instream values or existing water rights.

Application: This Interpretive Statement applies to the water right permit requirement in RCW 90.03 and the authority to regulate rainwater harvesting systems.

This policy supersedes any previous Policy/Interpretive Statement, Focus Sheet or other stated Ecology viewpoint with which it may conflict.

After carefully considering existing legal authorities, Ecology has determined that existing law may be reasonably interpreted not to require a permit for the on-site storage and use of rooftop or guzzler collected rainwater. This Interpretive Statement clarifies Ecology's current interpretation.

The Department's Rooftop/Guzzler Collected Rainwater Policy

The on-site storage and/or beneficial use of rooftop or guzzler collected rainwater is not subject to the permit process of RCW 90.03. If and when the department determines that rooftop or guzzler rainwater harvesting systems are likely to negatively affect instream values or existing water rights, local restrictions may be set in place to govern subsequent new systems. To qualify as rooftop collected rainwater, the roof collecting the rainwater must be part of a fixed structure above the ground with a primary purpose other than the collection of rainwater for beneficial use. A guzzler is a device used to catch and store rainwater to provide drinking water for wildlife, livestock or birds.

Jay J. Manning
Director

Special Note: Water Resource Program policies and procedures are used to guide and ensure consistency among water resources program staff in the administration of laws and regulations. These policies and procedures are not formal administrative regulations that have been adopted through a rule-making process. In some cases, the policies may not reflect subsequent changes in statutory law or judicial findings, but they are indicative of the department's practices and interpretations of laws and regulations at the time they are adopted. If you have any questions regarding a policy or procedure, please contact the department.

WSR 09-21-051

PROCLAMATION

OFFICE OF THE GOVERNOR

[October 12, 2009]

**PROCLAMATION BY THE GOVERNOR
09-05**

WHEREAS, on October 11, 2009, a large scale landslide uplifted a large section of State Route (SR) 410 and pushed it and a significant amount of earth into the Naches River, destroying at least two homes, extensively damaging SR 410, changing the river's course, and causing the evacuation of nearby residents as a result of potential flooding; and

As a result of the massive landslide, on October 12, 2009, the Washington State Department of Transportation (WSDOT) and Washington State Patrol (WSP) closed a 47-mile section of SR 410 between Mount Rainier National Park's Lake Tipsoo and the junction with US 12, five miles west of Naches, and the expected duration of the closure is currently unknown; and

The estimated cost to repair the damage is over \$1,000,000, the highway repair project is expected to be complex and relatively lengthy, the emergency condition has eliminated vehicle traffic on the highway and caused significant detours, delays, and inconvenience that affect public health and safety; and

Such conditions will persist until the repair work is completed and the highway reopened to vehicles; and

WSDOT is coordinating resources to repair the highway and rechannel the river, is continuing to assess the damage caused by this event, and is working closely with local jurisdictions to develop short- and long-term repairs for the roadway and detours; and

It is necessary for the Washington State Department of Transportation to use emergency contracting procedures; and

The landslide and its effects continue to impact the life and health of our citizens, as well as the property, and transportation infrastructure of Washington State, and is a public disaster that affects life, health, property or public peace.

NOW, THEREFORE, I, Christine O. Gregoire, Governor of the state of Washington, as a result of the above-noted situation and under Chapters 38.52 and 43.06 RCW, do hereby proclaim that a State of Emergency exists in Yakima County in the State of Washington, and direct the plans and procedures in the *Washington State Comprehensive Emergency Management Plan* be implemented. State agencies and departments are directed to utilize state resources and to do everything reasonably possible to assist affected political subdivisions in an effort to respond to and recover from the event.

Signed and sealed with the official seal of the state of Washington this 12th day of October, A.D, Two Thousand and Nine at Olympia, Washington.

By:

Christine O. Gregoire
Governor

BY THE GOVERNOR:

Sam Reed
Secretary of State

ATTORNEY GENERAL'S OFFICE

[Filed October 16, 2009, 10:27 a.m.]

NOTICE OF REQUEST FOR ATTORNEY GENERAL'S OPINION
WASHINGTON ATTORNEY GENERAL

The Washington attorney general issues formal published opinions in response to requests by the heads of state agencies, state legislators, and county prosecuting attorneys.

When it appears that individuals outside the attorney general's office have information or expertise that will assist in the preparation of a particular opinion, a summary of that opinion request will be published in the state register. If you are interested in commenting on a request listed in this volume of the register, you should notify the attorney general's office of your interest by November 10, 2009. This is not the due date by which comments must be received. However, if you do not notify the attorney general's office of your interest in commenting on an opinion request by this date, the opinion may be issued before your comments have been received. You may notify the attorney general's office of your intention to comment by calling (360) 586-0728, or by writing to the Office of the Attorney General, Solicitor General Division, Attention Jeffrey T. Even, Deputy Solicitor General, P.O. Box 40100, Olympia, WA 98504-0100. When you notify the office of your intention to comment, you may be provided with a copy of the opinion request in which you are interested; information about the attorney general's opinion process; information on how to submit your comments; and a due date by which your comments must be received to ensure that they are fully considered.

If you are interested in receiving notice of new formal opinion requests via e-mail, you may visit the attorney general's web site at www.atg.wa.gov/AGOOpinions/default.aspx for more information on how to join our opinions list-serv.

The attorney general's office seeks public input on the following opinion request(s):

Opinion Docket No. 09-10-05
Request by David Bernstein
Chair, Podiatric Medical board

1. Can occupational therapists practice sharp debridement and wound care?

Department of Ecology to Modify the General Permit for Aquatic Weed Control in Irrigation Systems

The Washington state department of ecology has made a preliminary determination to modify the general permit for irrigation systems. The permit covers entities that use pesticides to control aquatic weeds in irrigation systems. The department of ecology expects to modify the permit by March 2010. The department of ecology originally issued the general permit in 2008. It will expire in February 2013.

The permit covers irrigation districts and irrigation water suppliers who apply aquatic herbicides and algacides in irri-

gation canals and ditches. Currently, sixteen irrigation districts are covered by the permit. The modification to the permit would allow the use of the pesticide endothall. Endothall is an alternative to acrolein, the herbicide that irrigation districts historically used but is being phased out.

We expect to complete the draft version of the permit modification and release it for public comment by January 2010. The proposed timeline for drafting the permit is:

January 2010	Public notice of draft permit
February 2010	Public hearing and end of the public comment period
March 2010	Issue final permit

A modification of a permit can be appealed pursuant to RCW 43.21B.310. Entities that are currently covered by the permit do not need to reapply for coverage under the modified permit.

The department of ecology will keep a mailing list to inform the public of significant stages in the modification of the permit, including notices of the draft permit, public hearings, and issuance of the permit. Information will also be posted on the department of ecology's web page at http://www.ecy.wa.gov/programs/wq/pesticides/irrigation/irrigation_index.html.

To join the mailing list, to comment, or for more information, please contact Andrew Kolosseus, Washington State Department of Ecology, Water Quality Program, P.O. Box 47600, Olympia, WA 98504-7600, (360) 407-7543, akol461@ecy.wa.gov.
