April 1, 2010

Rogers Weed, Director  
 Department of Commerce  
 PO Box 42525  
 Olympia, WA 98504-2525

Dear Rogers:

As you know, today I signed Engrossed Second Substitute House Bill 2658 into law, with the exception of Section 404 of the bill. This section, among other things, required the legislature to approve or recommend changes to the state energy strategy and updates via concurrent resolution. I believe this subsection would have created ambiguities that would impede the Department of Commerce in the performance of its duties. The language could be read to require legislative approval before the Department undertakes any actions contained in the strategy, including executive actions authorized by existing law.

Unfortunately, section 404 of the bill also defined the process by which the department would update and revise the state energy strategy. I acknowledge the process outlined in the bill reflected significant negotiation throughout the legislative process and agreement among stakeholders.

Therefore, I direct the Department of Commerce to following the process and schedule outlined in the bill by conducting the update and revision under the Department's existing statutory authority.

Specifically, I direct the Department to:

- Update the strategy by December 1, 2010;
- Fully revise the strategy by December 1, 2011;
- Convene a technical experts panel to provide unbiased information that supports high quality decision making;
- Engage a broad advisory committee with membership that represents a balance of interests;
- Deliver the update and full revision reports, including implementation actions to the Legislature and to me; and
- Seek in-kind and financial support for this process from non state sources.

I further direct you to work closely with legislators during development of, and in crafting the recommendations for, the updated state energy strategy. Many of the needed actions will require the support and affirmative action of the state Legislature.

Sincerely,

Christine O. Gregoire  
 Governor

**Prevailing Rate of Wage Emergency Corrections**

As per RCW 39.12.015, 39.12.020 and WAC 296-127-011 and as was published on the internet on February 1, 2010, the industrial statistician has determined the statewide prevailing rates of wage. These prevailing rates of wage are effective for public works projects bid on or after March 3, 2010. On April 8, 2010, the industrial statistician and director of labor and industries made a correction to these rates. The corrected rates became effective thirty days from the publication date on May 8, 2010, per WAC 296-127-011.

This wage rate correction affects the trade plumbers and pipefitters in Yakima County.

Every contractor and subcontractor on every public works project must file a statement of intent to pay prevailing wages and an affidavit of wages paid. Both forms must be filed on every project. The filing of the affidavit of wages paid does not set aside the requirement to also file the statement of intent to pay prevailing wages. The department may fine contractors \$500 for failure to file these forms.

For more information on prevailing wage or a copy of the rates please visit our web site at [www.lni.wa.gov/TradesLicensing/PrevailingWage/](http://www.lni.wa.gov/TradesLicensing/PrevailingWage/) or call (360) 902-5335.

[Filed April 20, 2010, 2:58 p.m.]

**PUBLIC NOTICE**

**Announcing a Draft Aquatic Invasive Species  
Management General Permit for Review and Comment**

**Proposed Permit:** The Washington state department of ecology (ecology) is proposing a new aquatic invasive species management general permit to regulate the use of chemicals or control products for the management of aquatic invasive species animals and nonnative invasive marine algae in surface waters of Washington state. Ecology limits chemical application to marine and freshwater animals or marine algae. The permit will regulate the use of chemicals for potentially invasive aquatic species as determined by ecology in consultation with other agencies.

Washington's water quality statutes and regulations do not allow the discharge of pollutants to waters of the state without permit coverage. Algaecides, herbicides, insecticides, molluscicides, piscicides and any other chemical or product appropriate for aquatic invasive species management are potential pollutants, and therefore require a discharge permit before application to surface waters. Ecology issues general permits in place of a series of individual permits when the permitted activities are similar. Agencies that receive coverage under the general permit must comply with the terms and conditions of the permit.

**Purpose of the Permit:** This permit would allow for the treatment of early infestations and for small localized projects that may lead to the eradication of the invasive species from each site, or for the containment of the invasive species to one area or site. State agencies will apply for coverage under this permit prior to implementing their invasive aquatic animal control activities. Management activities are organized into either marine/estuarine projects or freshwater projects.

**Copies of the Draft Permit:** You may download copies of the draft permit, environmental impact statement, and fact sheet from the following web site <http://www.ecy.wa.gov/programs/wq/pesticides/invasive.html>.

You may request copies of the documents from Julie Robertson at (360) 407-6575 or by e-mail at [julie.robertson@ecy.wa.gov](mailto:julie.robertson@ecy.wa.gov).

**Ecology Contact:** Kathy Hamel, Washington State Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600, phone (360) 407-6562, e-mail [kathy.hamel@ecy.wa.gov](mailto:kathy.hamel@ecy.wa.gov).

**Submitting Written Comments:** Ecology will accept written comments on the draft permit, fact sheet, and environmental impact statement until **5 p.m., June 11, 2010**. Ecology prefers comments be submitted by e-mail. E-mailed comments must contain the commenter's name and postal address. Comments should reference specific permit text when possible.

**Submit Comments by E-mail to:** [kathy.hamel@ecy.wa.gov](mailto:kathy.hamel@ecy.wa.gov).

**Submit Written Comments to:** Kathy Hamel, Washington State Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

You must send e-mail comments before **5 p.m., June 11, 2010**. Written comments must be postmarked no later than **5 p.m., June 11, 2010**.

**Hearing and Workshop:** Ecology will hold one public workshop and hearing on the draft general permit. The purpose of the workshop is to explain the general permit, and answer questions in order to facilitate meaningful testimony during the hearing. The purpose of the hearing is to provide an opportunity for people to give formal oral testimony and comments on the proposed permit. Written comments will receive the same consideration as oral testimony. The public workshop and hearing will begin at 1 p.m. and conclude when public testimony is complete.

**June 7, 2010 (1 p.m.) Workshop and Hearing:** Lacey Timberland Library, 500 College Street S.E., Lacey, WA 98503.

**Issuing the Permit:** The final permit will be issued after ecology receives and considers all public comments. If public comments cause a substantial change in the permit conditions from the original draft permit, another public notice of draft and comment period may ensue. Ecology expects to issue the general permit in the fall of 2010.

**PUBLIC NOTICE**

**Final Issuance of the Modified Washington State  
Department of Transportation Municipal Stormwater  
General Permit**

**Permit Modification Issuance:** The department of ecology (ecology) issued a general permit to the Washington state department of transportation (WSDOT) on February 4, 2009. The permit covers discharges from its municipal sepa-

rate storm sewer system (MS4). MS4s are conveyances or a system of conveyances including roads with drainage systems, streets, catch basins, ditches, man-made channels, and storm drains. The effective date of this permit was March 6, 2009.

Ecology issued a modified final permit May 5, 2010. The modification adds substantive language to the permit as a result of a settlement agreement between the departments of ecology and transportation and Puget Soundkeeper Alliance. Permit sections modified include: S6.C, S7. E.2.d., S8.E., Appendix 7, *Stormwater Management Program Plan*, Sections 3 and 3.1, 5.4, 6.2, and Appendix 3, *Applicable TMDL Requirements*.

**Purpose to the Permit:** State and federal regulations require WSDOT to have national pollutant discharge elimination system (NPDES) permit coverage in areas covered by Phase I and Phase II of the municipal stormwater permit program. This permit covers stormwater runoff from state highways, rest areas, park and ride lots, ferry terminals, and maintenance facilities. The permit addresses these legal requirements and regulates the discharge of pollutants to protect water quality in Washington state.

**Public Notice Process and Comments:** Ecology accepted public comment on the draft permit and fact sheet from February 17, 2010, until March 31, 2010. Ecology held a hearing and workshop in Lacey, Washington on March 29, 2010. Ecology received written comments during the public comment period and responded to these comments in a response to comments appended to the fact sheet. The comments and the fact sheet are available for review at ecology's web site at <http://www.ecy.wa.gov/programs/wq/stormwater/municipal/wsdot.html>.

**Copies of the Permit:** You may download a copy of the permit, response to comments, or fact sheet at <http://www.ecy.wa.gov/programs/wq/stormwater/municipal/wsdot.html>.

Or you may request a copy of the permit or fact sheet from Julie Robertson at (360) 407-6575 or by e-mail at [julie.robertson@ecy.wa.gov](mailto:julie.robertson@ecy.wa.gov).

**Ecology Contact:** Kathleen Emmett, Washington State Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600, phone (360) 407-7386, fax (360) 407-6426, e-mail [kathleen.emmett@ecy.wa.gov](mailto:kathleen.emmett@ecy.wa.gov).

**Appeal Options:** The terms and conditions of this general permit, being issued May 5, 2010, may be appealed only by filing an appeal to the pollution control hearings board and by serving it upon the department of ecology at the addresses below. Appeals of the permit must be made within thirty days of issuance or receipt, whichever is later (see chapter 43.21B RCW). (RCW is the Revised Code of Washington). The procedures and requirements for the appeal process are contained in RCW 43.21B.310. An appeal must be filed with the **Pollution Control Hearings Board**, P.O. Box 40903, Olympia, WA 98504-0903; or the **Department of Ecology**, P.O. Box 47600, Olympia, WA 98504-7600.

This appeal is limited to the modified portions of the permit.
