AMENDATORY SECTION (Amending WSR 16-17-036, filed 8/9/16, effective 9/9/16)

WAC 4-30-130 (~~What are the~~) Quality assurance review (QAR) requirements for licensed CPA firms(~~?~~)
 (1) **Purpose.** The Washington state board of accountancy is charged with protection of the public interest and ensuring the dependability of information used for guidance in financial transactions or for accounting for or assessing the status or performance of commercial and noncommercial enterprises, whether public, private or governmental. The purpose of the QAR program, such as peer review, is to monitor licensees' compliance with audit, compilation, review, and other attestation standards. If the board becomes aware that a firm's performance and/or reporting practices for audit, review, compilation, and other engagements covered by ~~((statements on standards for attestation engagements))~~ relevant recognized professional standards as delineated in WAC

4-30-048, may not be in accordance with ~~((applicable))~~ said professional standards, the board will take appropriate action to protect the public interest.

(2) **Peer review.** Generally, all firms licensed in Washington state offering and/or performing attest services ~~((as defined by WAC 4-30-010(5),))~~ or compilation services, as defined by WAC 4-30-010~~((12))~~, or other professional services for which a report expressing assurance is prescribed by professional standards, are required to participate in a board-approved peer review program as a condition of renewing each CPA firm license under RCW 18.04.215 and WAC 4-30-114. However, certain exemptions are listed in subsection ~~((11))~~ (10) of this section. Board-approved peer review programs include:

(a) The inspection processes of the Public Company Accounting Oversight Board (PCAOB);

(b) Peer review programs administered by the American Institute of CPAs (AICPA)~~((;~~

~~(c) Peer review programs administered by the Washington Society of CPAs (WSCPAs); and~~

~~(d))~~ and/or their assigned administering entities (AE); and

(c) Other programs recognized and approved by the board.

(3) **Enrollment in peer review:** A licensed firm must enroll in a board-approved peer review program **before** issuing a report for each of the following types of service ~~((or any other service the board determines))~~:

(a) Compilation on historical financial statements;

(b) Review on historical financial statements;

(c) Audit report on financial statements, performance audit reports, or examination reports on internal controls for nonpublic enterprises;

(d) Other professional services subject to Statements on Standards for Attestation Engagements.

The schedule for the firm's peer review shall be established according to the peer review program's standards. The board does not require any licensee to become a member of any organization administering a peer review program.

(4) **Participation in peer review.** Every firm that is required to participate in a peer review program shall have a peer review in accordance with the peer review program standards.

(a) It is the responsibility of the firm to anticipate its needs for review services in sufficient time to enable the reviewer to complete the review by the assigned review date.

(b) Any firm that is dropped or terminated by a peer review program for any reason shall have twenty-one days to provide written notice to the board of such termination or drop and to request authorization from the board to enroll in another board-approved peer review program.

(c) In the event a firm is merged, otherwise combined, dissolved or separated, the peer review program shall determine which firm is considered the succeeding firm. The succeeding firm shall retain its peer review status and the review due date.

(d) A firm choosing to change to another peer review program may do so only if there is not an open active peer review and if the peer review is performed in accordance with

the minimum standards for performing and reporting on peer reviews.

(5) **Reporting requirements.** Every firm must provide the following information, along with the appropriate fees, with every application for renewal of a firm license by April 30th of the renewal year:

(a) Certify whether the firm does or does not perform attest services or compilation services as defined by WAC 4-30-010 ~~((5), (12))~~, or other professional services for which a report expressing assurance is prescribed by professional standards in Washington state;

(b) If the firm is subject to the peer review requirements, provide the name of the approved peer review program in which the firm is enrolled, and the period covered by the firm's most recent peer review;

(c) Certify the result of the firm's most recent peer review.

Failure to timely submit complete information and the related fee by the April 30th due date can result in the assessment of late fees. The board may waive late fees based on individual hardship including, but not limited to, financial hardship, critical illness, or active military deployment.

~~(6) (A firm must notify the board within thirty days of the date the peer reviewer or a team captain advises the firm that a grade of pass with deficiencies or fail will be recommended. The notification must include the details of any required corrective action plan being recommended by the peer reviewer or team captain, and the planned date (or time period within which) the firm would intend to complete such remedial action or actions if the proposed corrective action plan is approved by the appropriate peer review acceptance committee.~~

~~Notwithstanding any extensions of time by the peer review program administrator, failure by the firm to meet its planned schedule for completing its specific corrective action plan required by the peer review program and/or timely pay for the peer review services can result in board action.~~

~~(7)) Documents required. ((A firm that has opted out of participating)) Any firm required to undergo peer review per subsection (2) of this section is required to participate in the AICPA Facilitated State Board Access (FSBA) ((program shall provide to the board copies of the following documents related to the peer review report:~~

~~(a) Peer review report issued;~~

~~(b) Firm's letter of response, if any;~~

~~(c) Letter of acceptance from peer review program;~~

~~(d) Recommended action letter from the peer review program, if any;~~

~~(e) A letter from the firm to the board describing corrective actions taken by the firm that relate to recommendations of the peer review program;~~

~~(f) Other information the firm deems important for the board's understanding of the information submitted; and~~

~~(g)). Other information the board deems important, may be requested for ((the)) understanding ((of)) the information submitted.~~

~~((8)) (7) Document retention. RCW 18.04.390(4) and WAC 4-30-051((10)) (11) require a firm to retain audit and review records and documentation for a period of seven years~~

after the firm concludes an audit or review of a client's financial statements.

~~((9)) (8) Extensions.~~ The board may grant an extension of time for submission of the peer review report to the board. Extensions will be determined by the board on a case-by-case basis.

~~((10)) (9) Verification.~~ The board may verify the certifications of peer review reports that firms provide.

~~((11)) (10) Exemption from peer review.~~

(a) Out-of-state firms that do not have a physical location in this state, but perform attest or compilation services in this state, and are otherwise qualified for practice privileges under RCW 18.04.195 (1)(a)(iii)(A) through (D) or (b) are not required to participate in the board's program if the out-of-state firm participates in a board-approved peer review program or similar program approved or sponsored by another state's board of accountancy.

(b) Firms that do not perform attest services ~~((as defined by WAC 4-30-010(5),))~~ or compilation services, as defined by WAC 4-30-010~~((12))~~, or other professional services for which a report expressing assurance is prescribed by professional standards are not required to participate in a peer review program, and shall request exemption on each firm license renewal application.

(c) Firms that prepare financial statements **which do not require reports** under Statements on Standards for Accounting and Review Services (management use only compilation reports) and that perform no other attest or compilation services, are not required to participate in a peer review program; however, any such engagements performed by a firm that is otherwise required to participate in a peer review program shall be included in the selection of engagements subject to peer review.

~~((12)) (11) Quality assurance oversight.~~

(a) The board will:

(i) Annually appoint a ~~((compliance assurance))~~ peer review oversight committee, and such other committees as the board, in its discretion deems necessary, to provide oversight of the administration of approved peer review programs in order to provide reasonable assurance that peer reviews are being conducted and reported on in accordance with the minimum standards for performing and reporting on peer reviews;

(ii) Consider reports from the ~~((compliance assurance))~~ peer review oversight committee;

(iii) Direct the evaluation of peer review reports and related documents submitted by firms;

(iv) Determine the appropriate action for firms that have unresolved matters relating to the peer review process or that have not complied with, or acted in disregard of the peer review requirements;

(v) Determine appropriate action for firms when issues with a peer review report may warrant further action; and

(vi) Take appropriate actions the board, in its discretion, deems appropriate to carry out the functions of the quality assurance review program and achieve the purpose of the peer review requirement.

(b) The ~~((compliance assurance))~~ peer review oversight committee shall conduct oversight of approved peer review programs at least semiannually to provide reasonable

assurance that such programs are in compliance with the minimum standards for performing and reporting on peer reviews.

(i) The ~~((compliance assurance))~~ peer review oversight committee's oversight procedures may consist of, but are not limited to:

(A) Attending the peer review program's report acceptance body (RAB) meetings during consideration of peer review documents;

(B) Observing the peer review program administrator's internal review of program and quality control compliance;

(C) Observing the peer review program's review of the administrator's process.

(ii) The ~~((compliance))~~ peer review oversight ~~((assurance))~~ committee shall report to the board any modifications to approved peer review programs and shall make recommendations regarding the continued approval of peer review programs.

~~((13))~~ (12) **Remedies.** The board will take appropriate action to protect the public's interest if the board determines through the peer review process or otherwise that a firm's performance and/or reporting practices are not or may not be in accordance with applicable professional standards, the firm does not comply with peer review program requirements, or the firm does not comply with all or some of the reporting, remedial action, and/or fee payment requirements of subsection (5) of this section. The board's actions may include, but are not limited to:

(a) Require the firm to develop quality control procedures to provide reasonable assurance that similar occurrences will not occur in the future;

(b) Require any individual licensee who had responsibility for, or who substantially participated in the engagement(s), to successfully complete specific courses or types of continuing education as specified by the board;

(c) Require that the reviewed firm responsible for engagement(s) submit all or specified categories of its compilation or attest working papers and reports to a preissuance evaluation performed by a board-approved licensee in a manner and for a duration prescribed by the board. Prior to the firm issuing the reports on the engagements reviewed, the board-approved licensee shall submit to the board for board acceptance a report of the findings, including the nature and frequency of recommended actions to the firm. The cost of the board-approved preissuance evaluation will be at the firm's expense;

(d) Require the reviewed firm to engage a board-approved licensee to conduct a board-prescribed on-site field review of the firm's work product and practices or perform other investigative procedures to assess the degree or pervasiveness of nonconforming work product. The board-approved licensee engaged by the firm shall submit a report of the findings to the board within thirty days of the completion of the services. The cost of the board-prescribed on-site review or other board-prescribed procedures will be at the firm's expense; or

(e) Initiate an investigation pursuant to RCW 18.04.295, 18.04.305, and/or 18.04.320.

(f) Absent an investigation the specific rating of a single peer review report is not a sufficient basis to warrant disciplinary action.

~~((14))~~ (13) The board may solicit and review licensee reports and/or other information covered by the reports from clients, public agencies, banks, and other users of such information.

NEW SECTION

WAC 132W-112-002 Expressive activities. This chapter shall be known as facility use for expressive activities.

NEW SECTION

WAC 132W-112-103 Statement of purpose. Wenatchee Valley College District is an educational institution provided and maintained by the people of the state of Washington. College facilities are reserved primarily for educational use including, but not limited to, instruction, research, public assembly of college groups, student activities and other activities directly related to the educational mission of the college. The public character of the college does not grant to individuals an unlimited license to engage in activity which limits, interferes with, or otherwise disrupts the normal activities to which the college's facilities and grounds are dedicated. Accordingly, the college designates the common areas of the college as a limited public forum dedicated to the use of college groups, subject to the time, place, and manner limitations and restrictions set forth in this policy. Groups or individuals who are invited or permitted to engage in first amendment activities at the college do not represent an endorsement by Wenatchee Valley College or the board of trustees.

The purpose of the time, place, and manner regulations set forth in this policy is to establish procedures and reasonable controls for the use of college facilities. It is intended to balance the college's responsibility to fulfill its mission as a state educational institution of Washington with the interests of college groups seeking to assemble in common areas of the campus for expressive activity. The college recognizes that college groups should be accorded the opportunity to utilize the facilities and grounds of the college to the fullest extent possible. The college has designated certain sites as public use areas open to noncollege groups as set forth herein.

NEW SECTION

(4) "Noncollege groups" means individuals, or combinations of individuals, who are not currently enrolled students or current employees of the college and who are not officially affiliated or associated with, or invited guests of a recognized student organization, recognized employee group, or the administration of the college.

Reasonable charges may be assessed against the sponsoring organization for the costs of extraordinary cleanup or for the repair of damaged property.

(7) The event must not be conducted in such a manner to obstruct vehicular, bicycle, pedestrian or other traffic or otherwise interfere with ingress or egress to the college, or to college buildings or facilities, or to college activities or events. The event must not create safety hazards or pose unreasonable safety risks to college students, employees or invitees to the college.

(8) The event must not interfere with educational activities inside or outside any college building or otherwise prevent the college from fulfilling its mission and achieving its primary purpose of providing an education to its students. (2) Members of the college community (students, faculty, and staff) who do not comply with these regulations will be reported to the appropriate college office or agency for action in accordance with established college policies.

WAC 284-43-0310 Association health plan compliance with statutory or regulatory changes. (1) Issuers must file a group health plan, other than a small group health plan, rate and form filing as provided in RCW 48.43.733. An issuer offering plans through an association or member-governed group must implement all new applicable federal or state health plan market requirements when they become effective. Replacement requirements for this section apply based on whether the purchaser is classified as an individual, small group, or large group purchaser. These requirements also apply to ~~((member))~~ employer member groups of less than two or to individual member purchasers.

(2) An issuer providing plans of the type referenced in subsection (1) of this section must discontinue a noncompliant plan, and offer replacement plans effective on the renewal date of the master group contract for large groups, and on the group's anniversary renewal date for nongrandfathered small group and individual plans.

(3) If the association is a large group as defined in WAC 284-43-0330(1), the same renewal date must apply to all ~~((participating))~~ employer~~(s))~~ members and individual~~(s))~~ employer members, and the replacement coverage must take effect on the same date for each participant. The purchaser's anniversary date must not be used in lieu of this uniform renewal date for purposes of discontinuation and replacement of noncompliant coverage.

(4) If the association is not a large group as defined in WAC 284-43-0330(1), and the master group contract and ~~((the member group))~~ an employer member's contract do not have the same renewal date, an issuer must provide notice of the discontinuation and replacement of the plan to the

affected (~~(association)~~) employer member (~~(group)~~) or plan sponsor, and each enrollee in the affected employer member (~~(group)~~) plan, not fewer than ninety days prior to the employer member's anniversary renewal date.

(5) If an issuer does not have a replacement plan approved by the commissioner to offer in place of a discontinued plan, the issuer must assist each enrollee in identifying a replacement option offered by another issuer.

(6) For purposes of this section, "purchaser" means the group or individual whose eligibility for the plan is based in whole or in part on membership in the association or member-governed group.

(7) For purposes of this section, the "anniversary renewal date" means the initial or first date on which a purchasing group's health benefit plan coverage became effective with the issuer, regardless of whether the issuer is subject to other agreements, contracts or trust documents that establish requirements related to the purchaser's coverage in addition to the health benefit plan.

(8) An issuer must not adjust the master contract renewal or anniversary date to delay or prevent application of any federal or state health plan market requirement.

AMENDATORY SECTION (Amending WSR 16-14-106, filed 7/6/16, effective 8/6/16)

WAC 284-43-0330 Transition of plans purchased by association members. (1) An issuer must not offer or issue a health plan to (~~(individuals or)~~) small groups through an association or member-governed group as a large group plan unless the (~~(association or member-governed group to whom the plan is issued constitutes an employer under 29 U.S.C. § 1002(5) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. Section 1001 et. seq.), as amended, and the)~~) collective number of eligible employees of all member employers is more than fifty(-

~~(2) An issuer must make a good faith effort to ensure that any association or member-governed group to whom it issues a large group plan meets the requirements of subsection (1) of this section prior to submitting its form and rate filings to the commissioner, and prior to issuing such coverage. An issuer must maintain the documentation supporting the determination and provide it to the commissioner upon request. An issuer may reasonably rely upon an opinion from the U.S. Department of Labor as reasonable proof that the requirements of 29 U.S.C. 1002(5) are met by the association or member-governed group.~~

~~(3))~~, and the member-governed group or association health plan meets the requirements of WAC 284-43-8110 for a Pathway 1 Association Health Plan, or WAC 284-43-8120 for a governmental plan.

(2) For plans offered to association or member-governed groups that do not meet the requirements of subsection (1) of this section, the following specific requirements apply:

(a) An issuer must treat grandfathered plans issued under those purchasing arrangements as a closed pool, and file a single case closed pool rate filing. For purposes of this section, a single case closed pool rate filing means a rate filing which includes the rates and the rate filing information only for the issuer's closed pool enrollees.

(b) For each single case closed pool rate filing, an issuer must file a certification from an officer of the issuer attesting that:

(i) The employer (~~(groups)~~) members covered by the filing joined the association prior to or on March 23, 2010;

(ii) The issuer can establish with documentation in its files that none of the conditions triggering termination of grandfathered status set forth in WAC 284-43-0250 or in 45 C.F.R. 2590.715-1251(g) have occurred for any plan members.

NEW SECTION

WAC 284-43-8110 Requirements for Pathway 1 Association Health Plan form filings related to the bona fide status of Pathway 1 Associations. (1) Carriers must file a group health plan, other than a small group health plan, rate and form filing as provided in RCW 48.43.733. The form filing for an association health plan submitted by a carrier must include documents related to "Evidence as an Employer." The documents must include, at a minimum:

(a) The member-governed group or association's bylaws, or other comparable controlling documents if no bylaws exist;

Sec. 1002(5). The attorney attestation must explain how and why the member-governed group or association meets each of the criteria below, based upon the facts and circumstances of the member-governed group's or association's governance and operations during the twelve months immediately preceding submission of the form filing, with explicit references to relevant language drawn from the member-governed group or association's bylaws, trust agreement, or other organizational document:

(i) The member-governed group or association has been formed for some purpose other than the provision of health coverage or other employee benefits;

(ii) The employer members of the member-governed group or association are in the same trade, industry, line of business or profession. A list of the occupational categories/industrial classifications of the employers eligible to participate in the member-governed group or association must be submitted with the attestation, along with a description of the following:

(f) Each employer member of the member-governed group or association participating in the group health plan is

a person acting directly as an employer of at least one employee who is a participant covered under the health plan.

(2) Disability insurers issuing a health plan to a member-governed group or association domiciled outside of Washington state that indicates on their most recently submitted Department Form M-1 that they are operating in the state of Washington must file their "Evidence as an Employer," as provided in subsection (1) of this section, within thirty working days after the earlier of:

(a) The date group contract negotiations are completed; or

(b) The date renewal premiums are implemented.

(3) The carrier's form filing also must include its most recently submitted Form M-1, as filed with and published by the Department.

(4) If required under subsection (1)(e) of this section, the attorney attestation identified in subsection (1)(e) of this section shall be filed as a supporting document with the carrier's form filing, in accordance with the following:

(a) Attorney attestations in compliance with subsection (1)(e) of this section must be filed for Plan Year 2020 and every five years thereafter, regardless of whether any changes have been made to the association or member-governed group's composition, organization, or structure that would change the conclusion in the attorney attestation;

(b) For the interceding four filing years, the attestation may be prepared by an officer of the carrier in lieu of an attorney, so long as:

(c) Attorney attestations in compliance with subsection (1)(e) of this section must be filed each plan year that a member-governed group or association changes issuers and a benefit plan is issued by a new issuer.

If an attorney attestation in compliance with subsection (1)(e) of this section was filed within the last five years, the issuer may refile the same attorney attestation, provided there has been no change to the association or member-governed group's composition, organization, or structure that would change the conclusion in the attorney attestation.

(5) An attorney attestation under this section must be specific to the member-governed group or association and need not be specific to the issuer offering the health plan to the member-governed group or association.

(6) This section applies to plans issued or renewed on or after January 1, 2020.

AMENDATORY SECTION (Amending WSR 05-01-174, filed 12/21/04, effective 1/21/05)

WAC 308-15-053 What are the specialty licenses?

The types of specialty licenses are engineering geologist and hydrogeologist.

(1) Engineering geologist.

(a) **Elements of the engineering geologist specialty practice.** The practice of engineering geology involves the interpretation, evaluation, analysis, and application of geological information and data ~~((to civil works.))~~, as follows: Geotechnical soil and rock units are designated, characterized, and classified, using standard engineering soil and rock classification systems. ~~((Relationships))~~ Site characteristics are interpreted ~~((between landform development))~~ based on surface landforms, current and past geologic processes, ~~((ground and surface water, and))~~ the distribution and strength characteristics of soil and rock ~~((Processes evaluated include both surficial processes (for example, slope, fluvial, and coastal processes), and deep-seated processes (for example, volcanic activity and seismicity))~~, and ground and surface water. Geotechnical zones ~~((or))~~, domains or layers are designated based on soil and rock strength characteristics, common landforms, related geologic processes, or other pertinent factors. Proposed ~~((developmental))~~ land development or modification ~~((s are))~~ is evaluated and, where appropriate, analyzed to ~~((predict potential or likely changes in types and rates of surficial geologic processes))~~ estimate the likely behavior of soil and rock under static and dynamic conditions. Proposed modifications may include such things as vegetation removal, using various types of ~~((earth))~~ materials in construction, applying loads to shallow or deep foundations, constructing cut or fill slopes and other grading, and modifying ground and surface water flow. The effects of surficial and deep-seated geologic processes are evaluated and analyzed to ~~((predict their))~~ estimate the potential effect on public health, public safety, land use, or proposed development.

(b) **Typical engineering geologic applications and types of projects.** Engineering geology is applied ~~((during all project phases,))~~ from conception through planning, design, construction, maintenance, and, in some cases, reclamation and closure. Planning-level engineering geologic work is commonly conducted in response to forest practice regulations, critical areas ordinances, and the State Environmental Policy Act. Typical planning-level engineering geologic applications include timber harvest planning, proposed location of residential and commercial developments and other buildings and facilities, and alternative route selection for roads, rail lines, trails, and utilities. Site-specific engineering geologic applications may include, for example, evaluation of and recommendations for cuts, fills, and tunnels for roads, trails, railroads, and utility lines; foundations for bridges and other ~~((drainage))~~ structures, retaining walls and shoring, dams, buildings, water towers, slope stability evaluation and stabilization, channel and shoreline stabilization ~~((facilities, fish ladders and hatcheries, ski lifts and other structures, landings for logging and other work platforms; airport landing strips))~~, and other structures; rock bolt systems; rockfall protection systems; blasting; and other major earthwork projects such as for aggregate sources and landfills.

(2) Hydrogeologist.

(a) **Elements of the hydrogeologist specialty.** ~~((In addition to tasks commonly performed by licensed geologists,))~~ The hydrogeologist license is a specialty license that requires having a geologist license. The practice of hydrogeology involves the study, interpretation, and application of the movement of water and other fluids through geologic materials, the mechanical, physical, chemical, and thermal interaction of fluids with geologic materials, and the transport of energy and chemical constituents by fluids in the subsurface.

(b) **Typical hydrogeologic applications and types of projects.** Typical applications include regional or basin groundwater resource, quantity and quality, characterization, development and protection of groundwater resources, subsurface characterization; design of vadose and saturated zone environmental cleanups; design, chemical testing, and construction supervision of test, production, recharge, injection, remediation, dewatering and resource protection wells; fluid flow and transport modeling; dewatering system design; and evaluation of potential impacts caused by past, current, or future activities on the quantity and quality of groundwater and soil gas, and the range of potential mitigations.

(1) To obtain retired status, submit a written request to the board. If the board determines you are eligible, the retired status would become effective on the first scheduled license renewal date that occurs on or after you reach age sixty-five. You do not need to renew an expired license to be eligible for this status. The board will not provide refund of renewal fees if the application for retired status is made and granted before the expiration date of the license.

(2) **Privileges.** In addition to the waiver of the renewal fee, as a licensee in retired status, you are permitted to:

(a) Retain the board-issued wall certificate of licensure.

(b) Use the title "geologist," provided you also use the term "retired," the abbreviation "ret," "emeritus geologist," or similar language in written or verbal communications to indicate you are no longer in active practice.

(c) Provide experience verifications and references for individuals seeking licensure under chapter 18.220 RCW.

(d) Provide services as a technical expert before a court, or in preparation for pending litigation, on matters directly related to geologic work you performed before you were granted retired status.

(4) **Certificate of licensure reinstatement.** As a retired status licensee, you may resume active geologist practice upon written request to the board and payment of the current renewal fee. If approved, your license will be returned to active status by the board, and all rights and responsibilities of an active license status will be in effect. At the date of expiration of the reinstated license, you may choose to either continue active licensure or may again apply for retired status, in accordance with the provisions of this chapter.

(5) **Exemptions.** Under no circumstances shall you be eligible for retired status if your license has been revoked, surrendered, or suspended by the board under chapter 18.220 RCW. If you have been suspended from geologic practice or are subject to terms of a board order at the time you reach age sixty-five, you shall not be eligible for retired status until such time that the board has removed the restricting conditions.

AMENDATORY SECTION (Amending WSR 07-13-038, filed 6/13/07, effective 7/14/07)

WAC 308-15-160 What are the board member rules of conduct~~((Activities incompatible with public duties — Financial interests in transactions.))~~ **?** (1) When a board member ~~((of the board))~~ either owns a beneficial interest in or is an officer, agent, employee, or member of an entity ~~((or individual that is))~~ engaged in ~~((a transaction involving the))~~ activity that is subject to a board action, the board member shall~~((:~~

- ~~((a) Recuse him or herself from the board discussion regarding the specific transaction;~~
 - ~~((b) Recuse him or herself from the board vote on the specific transaction; and~~
 - ~~((c) Refrain from attempting to influence the remaining board members in their discussion and vote regarding the specific transaction.~~
- ~~((2) The prohibition against discussion and voting set forth in subsection (1)(a) and (c) of this section shall not prohibit the member of the board from using his or her general expertise to educate and provide general information on the subject area to the other members.~~

(3)(a) "Transaction involving the board" means a proceeding, application, submission, request for a ruling or other determination, contract, claim, case, or other similar matter that the member in question believes, or has reason to believe:

- (i) Is, or will be, the subject of board action; or
- (ii) Is one to which the board is or will be a party; or
- (iii) Is one in which the board has a direct and substantial proprietary interest.

(b) "Transaction involving the board" does not include the following: Preparation, consideration, or enactment of legislation, including appropriation of moneys in a budget, or the performance of legislative duties by a member; or a claim, case, lawsuit, or similar matter if the member did not participate in the underlying transaction involving the board that is the basis for the claim, case, or lawsuit. Rule making is not a "transaction involving the board.") state such involvement and be recused from board contact and participation related to that board action, except that the board member may provide information and appear as a fact witness in that action.

(2) When a board member has a business relationship with a respondent who is subject to a board action, the board member shall notify the board and board staff of that relationship. The board member shall either state that the nature of the relationship is such that it will not affect the board member's impartiality and the member will continue to participate in the action or the board member shall announce their recusal from the board action.

(3) Board staff will make a written notation for the case file of any statement by a board member regarding a business relationship with the respondent and the basis for recusal or continuing participation in the board action.

(4) "Board action" means any action on the part of the board, including, but not limited to:

(a) ~~((A))~~ An investigation, discussion, decision, determination, finding, ruling, ~~((or))~~ order or other regulatory activity within the board's jurisdiction; and

(b) A grant, payment, award, license, contract, transaction, sanction, or approval, or the denial thereof, or failure to act with respect to a decision, determination, finding, ruling, or order.

~~((5))~~ The following are examples of possible scenarios related to board member rules of conduct. Activities incompatible with public duties; financial interests in transactions-

(a) Example 1:

The geologist licensing board disciplines licensed geologists in Washington. The board is conducting an investigation involving the services provided by a licensed geologist. One of the members of the board is currently serving as a subcontractor to that geologist on a large project. The board member must recuse himself from any board investigation, discussion, deliberation and vote with respect to disciplinary actions arising from licensed geologist services.

(b) Example 2:

The geologist licensing board makes licensing decisions on applications for licensure. An applicant for licensure owns a geotechnical consulting business

which employs licensed geologists, including one of the board members. The board member employed by the business must recuse himself from any board investigation, discussion, deliberation and vote with respect to his employer's application for licensure.

(c) Example 3:

The geologist licensing board makes licensing decisions on applications from geologists registered in other states or territories of the United States, the District of Columbia, or other countries. The board can grant licensure if an individual's qualifications and experience are equivalent to the qualifications and experience required of a person licensed under Washington law. An out-of-state applicant is employed as a geologist by a multinational corporation that is planning to build its world headquarters in Washington and has hired a board member's firm as the geologist for the project. The board member must recuse himself from any board investigation, discussion, deliberation and vote with respect to the sufficiency of the out-of-state geologist's qualifications and experience.

(6) Recusal disclosure. If recusal occurs pursuant to subsection (1) of this section, the member of the board shall disclose to the public the reasons for his or her recusal from any board action whenever recusal occurs. The board staff shall record each recusal and the basis for the recusal.)

(3) "Consultant" means a person who holds a valid medical marijuana consultant certificate issued by the secretary under chapter 246-72 WAC and who is employed by a retail outlet with a medical marijuana endorsement.

~~((3))~~ (4) "Credential for access" or "credentials" means information, electronic device, or certificate provided by the department or the department's designee to a data requestor to

(1) Only a consultant employed by an endorsed outlet is allowed to enter a qualifying patient's or designated provider's information into the database.

(2) Consultants must register with the department to receive credentials to access the database. The process for registration will be established by the department.

(3) The department shall verify the consultant's identity and certificate status before providing credentials to access the database.

(4) The consultant shall access the database using the credentials issued by the department or the department's designee. If the credentials are lost or missing, or the security of the credentials is compromised, the consultant shall notify the department by telephone and in writing within one business day.

"Street address" on the authorization form means the physical address for the person's residence where plants may be grown under RCW 69.51A.210. If any requirement is not met, or the form is altered or incomplete, the person cannot be entered into the database.

(6) The consultant shall verify the identity of every patient age eighteen and older and every designated provider by inspecting the patient's or designated provider's valid photographic identification. Except for patients under the age of eighteen, or qualifying patients renewing under a compassionate care renewal as authorized in RCW 69.51A.030, a person cannot be entered into the database without valid photographic identification.

(7) In the event of an inexact match of names on the identification and the authorization, the consultant shall ensure that the patient or designated provider named on the authorization form is the same person presenting the authorization for entry into the database.

(8) The consultant shall check the database to ensure that a designated provider is not currently associated with a different patient in the database before associating the designated provider with a new patient in the database. (9) The consultant shall enter the following information into the database for each patient and designated provider (unless specified below):

(f) Name of the authorizing health care practitioner;

(g) Authorizing health care practitioner's full license number;

(h) Business address of the authorizing health care practitioner;

(i) Telephone number of the authorizing health care practitioner, as listed on the authorization form;

(j) The patient's qualifying condition(s);

(k) For the designated provider only, the patient the designated provider is authorized to assist;

(l) The date the authorization was issued;

(m) The date the authorization expires; and

(n) The number of plants the patient is allowed to grow. If the authorizing health care practitioner does not indicate a specific number, the presumptive number is six plants. The health care practitioner cannot authorize more than fifteen plants. An authorization for more than fifteen plants is invalid.

(10) All requests for, uses of, and disclosures of information from the database by authorized persons must be consistent with chapter 69.51A RCW and this chapter.

(a) Twelve months after the date it was issued for patients age eighteen and over;

(b) Twelve months after the date it was issued for designated providers; or

(c) Six months after the date it was issued for patients under the age of eighteen.

(2) To renew a recognition card a patient or designated provider must receive a new authorization following reexamination of the patient by a health care practitioner in-person or as authorized for compassionate care renewals as provided in RCW 69.51A.030. The qualifying patient or designated provider may take their new authorization to an endorsed outlet to be entered into the database.

(3) A qualifying patient's designated provider may renew the patient's registration and recognition card in the medical marijuana authorization database without the physical pres-

ence of the qualifying patient at the retailer if the authorization from the health care practitioner indicates that the qualifying patient qualifies for a compassionate care renewal as provided in RCW 69.51A.030. A qualifying patient receiving renewals under compassionate care renewal provisions is exempt from the requirement for a new photograph for the renewal.

(4) The procedures in WAC 246-71-020 must be used to enter the patient's or designated provider's new authorization into the database.

((4)) (5) The consultant shall ensure that the information required by WAC 246-71-020(9) is updated and accurate at the time of renewal.

WAC 246-440-100 Hospital reporting requirements for health care-associated infections. The purpose of this section is to ~~((provide access to data on hospital-specific rates of certain types of health care-associated infection))~~ establish data collection and submission requirements for health care-associated infections at hospitals. This type of data provides evidence-based information measures to reduce hospital-acquired infections.

(1) A hospital ~~((shall))~~ must routinely collect and submit data related to health care-associated infections to the National Healthcare Safety Network (NHSN) of the United States Centers for Disease Control and Prevention (CDC) in compliance with RCW 43.70.056. ~~((Data must be collected and reported in accordance with the Centers for Disease Control and Prevention National Healthcare Safety Network on:~~

(a) Central line-associated bloodstream infection in all hospital inpatient areas where patients normally reside at least twenty-four hours;

(b) Surgical site infection for:

(i) Deep sternal wound for cardiac surgery, including coronary artery bypass graft;

(ii) Total hip and knee replacement surgery; and

(iii) Colon and abdominal hysterectomy procedures.

(2) A hospital shall also collect and report data for *Clostridium difficile* (*C. difficile*) infections by the Centers for Disease Control and Prevention National Healthcare Safety Network LabID Event method.)

(2) A hospital that is licensed under chapter 70.41 RCW and is also an acute care hospital under 42 U.S.C. 1395ww (c)(1)(A), a rehabilitation hospital under 42 U.S.C. 1395ww (d)(1)(B)(ii), a cancer hospital under 42 U.S.C. 1395ww (d)(1)(B)(v), or a critical access hospital under 42 U.S.C. 1395i-4 must collect and submit data as required by the Centers for Medicare and Medicaid Services (CMS) for quality reporting programs or projects listed in Table 1 of this section.

(3) A hospital that is certified as a critical access hospital may also voluntarily submit optional data requirements in Table 2 of this section. Submission of optional data is voluntary and is beneficial for understanding health care-associated infection rates at these hospitals. A hospital that submits optional data under this section must submit data on all the optional reporting categories found in Table 2.

(4) All data collected under this section must be collected and submitted in accordance with CDC NHSN's definitions, methods, requirements, and procedures found at www.cdc.gov/nhsn/.
