RCW 44.28.005 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Economy and efficiency audits" means performance audits that establish: (a) Whether a state agency or unit of local government receiving state funds is acquiring, protecting, and using its resources such as personnel, property, and space economically and efficiently; (b) the causes of inefficiencies or uneconomical practices; and (c) whether the state agency or local government has complied with significant laws and rules in acquiring, protecting, and using its resources.

(2) "Ethnic commissions" means the Washington state commission on African American affairs established in chapter 43.113 RCW, the Washington state commission on Asian Pacific American affairs established in chapter 43.117 RCW, and the Washington state commission on Hispanic affairs established in chapter 43.115 RCW.

(3) "Final compliance report" means a written document, as approved by the joint committee, that states the specific actions a state agency or unit of local government receiving state funds has taken to implement recommendations contained in the final performance audit report and the preliminary compliance report. Any recommendations, including proposed legislation and changes in the agency's rules and practices or the local government's practices, based on testimony received, must be included in the final compliance report.

(4) "Final performance audit report" means a written document adopted by the joint legislative audit and review committee that contains the findings and proposed recommendations made in the preliminary performance audit report, the final recommendations adopted by the joint committee, any comments to the preliminary performance audit report by the joint committee, and any comments to the preliminary performance audit report by the state agency or local government that was audited.

(5) "Joint committee" means the joint legislative audit and review committee.

(6) "Legislative auditor" means the executive officer of the joint legislative audit and review committee.

(7) "Local government" means a city, town, county, special purpose district, political subdivision, municipal corporation, or quasi-municipal corporation, including a public corporation created by such an entity.

(8) "Performance audit" means an objective and systematic assessment of a state agency or any of its programs, functions, or activities, or a unit of local government receiving state funds, by an independent evaluator in order to help public officials improve efficiency, effectiveness, and accountability. Performance audits include economy and efficiency audits and program audits. A performance audit of a local government may only be made to determine whether the local government is using state funds for their intended purpose in an efficient and effective manner.

(9) "Performance measures" are a composite of key indicators of a program's or activity's inputs, outputs, outcomes, productivity, timeliness, and/or quality. They are means of evaluating policies and programs by measuring results against agreed upon program goals or standards.

(10) "Preliminary compliance report" means a written document that states the specific actions a state agency or unit of local government receiving state funds has taken to implement any recommendations contained in the final performance audit report.

(11) "Preliminary performance audit report" means a written document prepared for review and comment by the joint legislative audit and review committee after the completion of a performance audit. The preliminary performance audit report must contain the audit findings and any proposed recommendations to improve the efficiency, effectiveness, or accountability of the state agency or local government audited.

Reviser's note: The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

Findings and intent—1996 c 288: "The public expects the legislature to address citizens' increasing demand for the basic services of state government, while limiting the growth in spending. The public demands that public officials and state employees be accountable to provide maximum value for every dollar entrusted to state government. The public believes that it is possible to improve the responsiveness of state government and to save the taxpayers' money, and that efficiency and effectiveness should result in savings.

The legislature, public officials, state employees, and citizens need to know the extent to which state agencies, programs, and activities are achieving the purposes for which they were created. It is essential to compare the conditions, problems, and priorities that led to the creation of government programs with current conditions, problems, and priorities, and to examine the need for and performance of those programs in the current environment.

Along with examining the performance of state agencies and programs, the legislature, public officials, state employees, and citizens must also consider the effect that state government programs

can reasonably expect to have on citizens' lives, how the level of programs and services of Washington state government compares with that of other states, and alternatives for service delivery, including other levels of government and the private sector including not-for-profit organizations. It is essential that the legislature, public officials, state employees, and citizens share a common understanding of the role of state government. The performance and relative priority of state agency programs and activities must be the basis for managing and allocating resources within Washington state government.

It is the intent of the legislature to strengthen the role of the current legislative budget committee so that it may more effectively examine how efficiently state agencies perform their responsibilities and whether the agencies are achieving their goals, and whether units of local government are using state funds for their intended purpose in an efficient and effective manner. It is also the intent of the legislature to enact a clear set of definitions for different types of audits in order to eliminate confusion with regard to government reviews." [1996 c 288 s 1.]

RCW 44.28.010 Committee created—Members. The joint legislative audit and review committee is created, which shall consist of eight senators and eight representatives from the legislature. The senate members of the joint committee shall be appointed by the president of the senate, and the house members of the joint committee shall be appointed by the speaker of the house. [1996 c 288 s 9.]

RCW 44.28.075 Performance audits—Scope. (1) Subject to the requirements of the performance audit work plan approved by the joint committee under RCW 44.28.083, performance audits may, in addition to the determinations that may be made in such an audit as specified in RCW 44.28.005, include the following:

 - (b) Identification of viable alternatives for reducing costs or improving service delivery;
 - (c) Identification of gaps and overlaps in service delivery, along with corrective action; and
 - (d) Comparison with other states whose agencies perform similar functions, as well as their relative funding levels and performance.
- (2) As part of a performance audit, the legislative auditor may review the costs of programs recently implemented by the legislature to compare actual agency costs with the appropriations provided and the cost estimates that were included in the fiscal note for the program at the time the program was enacted. [1996 c 288 s 10.]

RCW 44.28.076 Racial equity analysis. The joint committee shall incorporate a racial equity analysis into performance audits, sunset reviews, and other audits or reports conducted by the joint committee. The joint committee shall note in its audits, reviews, and reports if a racial equity analysis is not necessary or appropriate. The joint committee may work with the office of equity, the governor's office of Indian affairs, the LGBTQ commission, the Washington state women's commission, and the ethnic commissions to design the racial equity analysis required under this section. [2021 c 310 s 1.]

RCW 44.28.080 Powers—Appropriations, expenses, revenues. The joint committee has the following powers:

- (1) To make examinations and reports concerning whether or not appropriations are being expended for the purposes and within the statutory restrictions provided by the legislature; and concerning the organization and operation of procedures necessary or desirable to promote economy, efficiency, and effectiveness in state government, its officers, boards, committees, commissions, institutions, and other state agencies, and to make recommendations and reports to the legislature.

measurements of cost-savings and increases in efficiency and effectiveness in how state agencies deliver their services.

(8) To receive messages and reports in person or in writing from the governor or any other state officials and to study generally any and all business relating to economy, efficiency, and effectiveness in state government and state agencies. RCW 44.28.083 Performance audit work plans. (1) At the conclusion of the regular legislative session of each odd-numbered year, the joint legislative audit and review committee shall develop and approve a performance audit work plan for the ensuing biennium. The biennial work plan may be modified, as necessary, at the conclusion of other legislative sessions to reflect actions taken by the legislature and the joint committee. The work plan shall include a description of each performance audit, and the cost of completing the audits on the work plan shall be limited to the funds appropriated to the joint committee. Approved performance audit work plans shall be transmitted to the entire legislature by July 1st following the conclusion of each regular session of an odd-numbered year and as soon as practical following other legislative sessions.

(2) Among the factors to be considered in preparing the work plans are:

(a) Whether a program newly created or significantly altered by the legislature warrants continued oversight because (i) the fiscal impact of the program is significant, or (ii) the program represents a relatively high degree of risk in terms of reaching the stated goals and objectives for that program;

(b) Whether implementation of an existing program has failed to meet its goals and objectives by any significant degree;

(c) Whether a follow-up audit would help ensure that previously identified recommendations for improvements were being implemented; and

(d) Whether an assignment for the joint committee to conduct a performance audit has been mandated in legislation.

(3) The legislative auditor may consult with the chairs and staff of appropriate legislative committees, the state auditor, and the director of financial management in developing the performance audit work plan. [2010 c 26 s 3; 1996 c 288 s 12; 1993 c 406 s 5. Formerly RCW 44.28.180.]

the joint committee. The legislative auditor shall incorporate the response of the agency or local government and the office of financial management into the final performance audit report.

(2) Before releasing the results of a performance audit to the legislature or the public, the legislative auditor shall submit the preliminary performance audit report to the joint committee for its review, comments, and final recommendations. Any comments by the joint committee must be included as a separate addendum to the final performance audit report. Upon consideration and incorporation of the review, comments, and recommendations of the joint committee, the legislative auditor shall transmit the final performance audit report to the affected agency or local government, the director of financial management, the leadership of the senate and the house of representatives, and the appropriate standing committees of the house of representatives and the senate and shall publish the results and make the report available to the public. For purposes of this section, "leadership of the senate and the house of representatives" means the speaker of the house, the majority leaders of the senate and the house of representatives, the minority leaders of the senate and the house of representatives, the caucus chairs of both major political parties of the senate and the house of representatives, and the floor leaders of both major political parties of the senate and the house of representatives. The agency or local government may attach its comments to the joint committee's preliminary compliance report as a separate addendum.

(2) Within three months after the issuance of the preliminary compliance report, the joint committee may hold at least one public hearing and receive public testimony regarding the findings and recommendations contained in the preliminary compliance report. The joint committee may waive the public hearing requirement if the preliminary compliance report demonstrates that the agency or local government is in compliance with the audit recommendations. The joint committee shall issue any final compliance report within four weeks after the public hearing or hearings. The legislative auditor shall transmit the final compliance report in the same manner as a final performance audit is transmitted under RCW 44.28.088. [1996 c 288 s 14.]

The joint committee shall conduct an evaluation of the higher education performance agreement pilot test under *RCW 28B.10.920 through 28B.10.922 and make recommendations regarding changes to the substance or process of creating the agreements, including whether the performance agreement process should be continued and expanded to include additional higher education institutions. The evaluation shall be submitted to the governor and the higher education committees of the senate and house of representatives by November 1, 2014. [2008 c 160 s 5.]

***Reviser's note:** RCW 28B.10.920 through 28B.10.922 were repealed by 2011 1st sp.s. c 10 s 26. RCW 28B.10.922 was also repealed by 2011 1st sp.s c 21 s 18.

Findings—Intent—2008 c 160: "(1) The legislature finds that in the last ten years, significant progress has been made to identify and monitor accountability and performance measures in higher education, both internally in institutions and externally in the legislative and state policymaking environment.

(2) However, the legislature further finds that opportunities exist to promote greater visibility of performance measures among policymakers and among the public consumers of higher education. Policy decisions, including decisions about resource allocation, should be made with greater knowledge and a shared understanding about the tradeoffs between resources, flexibility, and desired outcomes. A forum should be created to allow discussion among policymakers and institution leaders about setting outcome-oriented priorities, targeting of investments, linking operating and capital planning, and creating a longer-term view than the biennial budget cycle typically permits.

(3) Therefore, the legislature intends to implement a process for such discussions, agreements, and planning to occur. The process of crafting higher education performance agreements will be pilot-tested over a six-year period with the public four-year institutions of higher education beginning in 2008." RCW 44.28.157 School district health benefits—Review—Recommendations—Performance grants—Report. (1) By December 31, 2015, the joint committee must review the reports on school district health benefits submitted to it by the office of the insurance commissioner and the health care authority and report to the legislature on the progress by school districts and their benefit providers in meeting the following legislative goals to:

(a) Improve the transparency of health benefit plan claims and financial data to assure prudent and efficient use of taxpayers' funds at the state and local levels;

(b) Create greater affordability for full family coverage and greater equity between premium costs for full family coverage and employee only coverage for the same health benefit plan;

(c) Promote health care innovations and cost savings and significantly reduce administrative costs.

(2) The joint committee shall also make a recommendation regarding a specific target to realize the goal in subsection (1) (b) of this section.

(3) The joint committee shall report on the status of individual school districts' progress in achieving the goals in subsection (1) of this section.

(4) (a) In the 2015-2016 school year, the joint committee shall determine which school districts have met the requirements of *RCW 28A.400.350 (5) and (6), and shall rank order these districts from highest to lowest in term of their performance in meeting the requirements.

(b) The joint committee shall then allocate performance grants to the highest performing districts from a performance fund of five million dollars appropriated by the legislature for this purpose. Performance grants shall be used by school districts only to reduce employee health insurance copayments and deductibles. In determining the number of school districts to receive awards, the joint committee must consider the impact of the award on district employee copayments and deductibles in such a manner that the award amounts have a meaningful impact.

(5) If the joint committee determines that districts and their benefit providers have not made adequate progress, in the judgment of the joint committee, in achieving one or more of the legislative goals in subsection (1) of this section, the joint committee report to the legislature must contain advantages, disadvantages, and recommendations on the following:

(a) Why adequate progress has not been made, to the extent the joint committee is able to determine the reason or reasons for the insufficient progress;

(b) What legislative or agency actions would help remove barriers to improvement;

(c) Whether school district health insurance purchasing should be accomplished through a single consolidated school employee health benefits purchasing plan;

(d) Whether school district health insurance purchasing should be accomplished through the public employees' benefits board program, and whether consolidation into the public employees' benefits board program would be preferable to the creation of a consolidated school employee health benefits purchasing plan; and

(e) Whether certificated or classified employees, as separate groups, would be better served by purchasing health insurance through a single consolidated school employee health benefits purchasing plan or through participation in the public employees' benefits board program.

(6) The report shall contain any legislation necessary to implement the recommendations of the joint committee.

(7) The legislature shall take all steps necessary to implement the recommendations of the joint committee unless the legislature adopts alternative strategies to meet its goals during the 2016 session. [2012 2nd sp.s. c 3 s 7.]
